WEDNESDAY MORNING MAY 28 1919

VOL. XXXIX.—No. 14,077 TWO CENTS

TORONTO STRIKE POSTPONED PENDING OTTAWA CONFERENCE

Seaplane Arrives at Lisbon and Transatlantic Flight Now Accomplished Fact EMPLOYEES OF CITY ARE STRUCK FROM WINNIPEG PAY ROLL

Must Apply for Old Jobs, Agreeing Not to Take Part in Sympathetic Strike — City's Postoffice Resuming Work With a New Staff.

Winnipeg, May 27.—Every leading development in the Winnipeg general strike situation today which came to the surface was related to the governmental movement to deal directly with the great body of union workers. The five leaders of the central strike committee, who have personally been assailed by various officials of the federal, provincial and municipal governments, became for the present at least, figures of secondary importance.

Winnipeg Strikers Issue a Statement

First Message From the Strike Leaders to Toronto Labor Temple States Claims of Men Who Are Out.

The first news of the Winnipeg strike to be sent out by the labor leaders there was received last night by the Metal Trades Council here from the Labor Temple at Winnipeg. The wire read as follows: "Since the general strike started in Winnipeg, the attempt of the opposition has been to shift the basis of the strike. It has been to shift the basis of the strike to the city council and enlisted about 63,000 men and women out. So successful was the attempt that every thing which was done to completely it was necessary to allow a portion of the bakers and milk workers to go back to work in order to not ourselves into submission. This necessitated the issuance of cards to protect the men we had relieved that other strikers would know that they were not strikebreakers.

Lieut.-General Baden-Powell yesterday presented several military decorations. He is here seen pinning the military medal on the breast of Pte. J. C. Resnor.

TRANSATLANTIC FLIGHT SUCCESSFULLY ACHIEVED

Lisbon En Fete as American Seaplane Arrived, Completing Last Half of Long Ocean Journey to Europe.

Lisbon, May 27.—The American seaplane NC-4 arrived here this evening. The achievement of the first transatlantic air flight, with Lisbon as the first European stopping point, has aroused the enthusiasm of the Portuguese as no event has stirred them for many years. When the seaplane came over the Tagus river this evening, the populace, crowding at the places of vantage, gave full expression to this enthusiasm by cheers of welcome, the booming of guns and the ringing of bells.

CABINET COMPLETED IN NEWFOUNDLAND

St. John's, Nfld., May 27.—The ministry of Premier Cashin, which came into power recently as a result of a division in the former Newfoundland cabinet over the influence of the fishermen's union, was completed today by the addition of John Currie, formerly opposition leader, as minister without portfolio. Albert Hickman, previously named as minister without portfolio, becomes minister of militia, and Wm. Walsh is made minister of agriculture without a seat in the cabinet.

THE POLITICAL SITUATION AT OTTAWA.

Strange things political may be brewing at Ottawa—to spread later into the affairs of the provinces. Ontario politics, as we know them are over for ever. Something new has to come. We cannot say at this moment what will follow in Ottawa.

FEDERAL ATTITUDE DEFINED BY BORDEN

Government Determined, He Says, To Preserve Law and Order in Country.

FURTHER STATEMENT

On Receipt of Report of Royal Commission He Will Decide Labor Policy.

Ottawa, May 27.—Sir Robert Borden made his first speech in the commons today since his return from the peace conference. It was a statement relative to the government's position on the strike situation, based upon a question by Major Andrews, of Winnipeg, who desired the prime minister to explain the attitude of the government towards collective bargaining as proposed by the strikers. Sir Robert, in his reply, went fully into the present situation. While declining to express a definite view as to collective bargaining, until the term had been more definitely defined, the prime minister made it clear that it is the desire of the government to preserve law and order in the country and that government employees who have gone on strike must resume work or lose their places.

Collective Bargaining.

Sir Robert dealt with the action taken by the peace conference in regard to labor and indicated that the government policy would be more definitely decided upon when the royal commission which is now conducting an inquiry through Canada makes its report about the middle of June. When the house opened this afternoon, Major Andrews of Winnipeg asked the prime minister if he would state the attitude of the government towards collective bargaining. This he said, was the basis of the sympathetic strike which had occurred in his city.

(Continued on Page 6, Column 5).

Strike Committee Defers Action Until Friday, 10 a. m.—President Board of Trade, G. O. C., Employers and Employees Go to Ottawa at Premier's Invitation.

The threatened general strike in Toronto has been postponed until ten o'clock Friday morning pending result of negotiations with Sir Robert Borden at Ottawa. A deputation of all concerned leaves for the capital tonight, and the conference takes place Thursday morning. This decision was reached after a prolonged conference with metal workers and employers, and the result was not definitely known until after one o'clock this morning, when members of the Metal Trades Council, consulted with the committee of 15 in charge of the threatened strike, and arrived at a conclusion, after the employers had agreed to go to Ottawa. Mayor Church, at the finish of the conference, sent the following telegram to Sir Robert Borden: "Hopes Entertained. Before the conference at the city hall prospects of a settlement were not at all promising, but when the parties got together and as time sped on and there was no sign of a breakthrough, hopes were entertained that the difficulties might be successfully navigated. After the negotiations had been in progress for about an hour and a half it was learned that headway was being made and that there was a disposition to accept the prime minister's offer and proceed to Ottawa for a conference. According to the mayor, 21 out of the 22 points could be adjusted, the one on which there was the real contention being the 44-hour week. The attitude of the employers was stated to be that if such conditions were granted it would handicap them in competition with manufacturers in the United States and parts in Canada where no such hours were in vogue. The workmen pointed out it was said, that there was an eight-hour day in England, Australia, and elsewhere, and declared they were entitled to it as a result of the war.

BOGUS TELEGRAM STOPS STRIKE VOTE

Meat Cutters Adjourn While Executive Confers With "Judge Snider."

The butchers at their meeting at Ravina Rink decided to postpone the strike vote because a telephone message was sent to Lou Braithwaite, business manager, to confer with Judge Snider at the Prince George Hotel. Mr Braithwaite went to the hotel, found no Judge Snider, went then to the Queen's hotel and discovered that Judge Snider knew absolutely nothing about any such conference. The discovery was made too late to continue the meeting and take the strike vote. Thus a bogus telegram at least postponed the strike vote at Ottawa at least postponing the Toronto's many threatening strikes.

TARIFF AND STRIKES EMBARRASS CABINET

Spread of Labor Trouble Might Break up Government Within Thirty Days, Says Prominent Unionist—Three Ministers May Resign Portfolios at Time of Budget.

Special to The Toronto World. Ottawa, May 27.—The strike situation dominates public attention, but there is still much gossip and speculation as to the future of the government. Indeed the two are so interlaced that a prominent Unionist said to The World reporter today that a party which has been in power for so long might result in the break-up of the government within thirty days. The immediate point of difference between members of the cabinet, however, is the tariff. The subject is under constant discussion, and will occupy the attention of the council meeting called for Thursday, Thursday being Ascension Day, the house will not be in session, and the members of the government will have an opportunity to exchange views, and if possible get together on the contents of the budget speech.

TAKE STAND ON TARIFF.

This being the case, members and supporters of the government with low tariff views, find themselves forced to take a definite position. They might have subordinated their views for a time under some arrangement for the dissolution of the government after demobilization, and a return to the old party system, but as matters now stand they seem to have no choice but to frankly express their views on the permanent tariff policy of the country, which means the withdrawal of their support from the government.

Meat Cutters Meet

At the closed meeting of the Meat Cutters and Packers' Union, held in the Ravina Rink last night, the proceedings of the conciliation board, inquiring into the grievances of the men, were reviewed and declared as unsatisfactory. The general feeling of the men was that their demands were not receiving the required attention and that the conditions would not be bettered to any large extent by the findings of the board. It was learned on good authority that a number of

Postoffice Reorganization

Reorganization of the postoffice on a permanent basis has been begun. Volunteers were released this morning and the distribution of mail was stopped. Postmaster McIntyre announced that deliveries at the wickets will be open and for the first time since the strike was called general deliveries will be resumed.

Police Must Sign

Members of the Winnipeg police department were instructed today by the police commissioners that a sympathetic strike must not occur in that branch of the service, and that conditions of employment are similar to those in other civic departments.

Ready to Feed Petrograd When Bolsheviks Are Expelled

London, May 27.—The allied and associated powers have made arrangements to feed Petrograd and render assistance to the starving population after the expulsion of the Bolsheviks. Herbert C. Hoover, the head of the relief, has the details in hand. It is hoped that relief will be in the city in 24 hours after the Bolshevik withdrawal.

THE CONQUEST OF THE AIR.

One of the seaplanes of the American navy completed its flight across the Atlantic by landing in Portugal yesterday. New York to Nova Scotia; Nova Scotia to Newfoundland; Newfoundland to the Azores; the Azores to Portugal. Her two companion planes were left at stages on the way. American airmen have thus been the first to fly across the Atlantic in the same seaplane—by stages. Hawk and Grieve tried it in a single flight, got more than half way over, and had to drop in the sea.

We therefore gladly congratulate the Americans on their success, due largely to careful planning and unlimited resources in machines, airmen, navigators, patrol boats stationed across the ocean. Great things in transportation in the air over the sea will follow from now on, based as they will be on organization, speed and knowledge of weather, and navigation of air currents over the sea, construction, etc.

It will not be many weeks, more likely before air ships carrying five tons of passengers and express will be going over the Atlantic as a regular thing. The little machines that we know now will remain in the carrier pigeon class at best. But their glorious record in the air will last. So will the adventure of Hawk and Grieve. And some following in their wake will make a successful flight any day.

IN A NEW ADVENTURE

Lord Shaughnessy going into politics. Yes; but I trust not as understudy to Lord Althelstan.

MANY MEN ON STRIKE IN CITIES OF THE WEST

Sympathetic Demonstrations Expected at Several Points, While Some Are Already in Progress

Calgary, May 27.—The charge was made today by the Hon. Gleason Robertson, Canadian minister of labor, in a telegram to Mayor Marshall of Calgary, that the present strike situation in Canada is a move by radicals to assume control of governmental affairs. In his telegram sent from Winnipeg, Mr. Robertson charged the "one big union" movement as the underlying cause of the whole trouble.

Calgary, Alta., May 27.—Only 1,500 workers were said to have answered the general strike call here yesterday, the men representing the postal workers, Dominion Express employees, flour and cereal employees and the Canadian Pacific Railway men at the Ogden shops and roundhouse. By a vote of 119 to 48 the street railwaymen refused to "quit work." Other unions which have signed their intention of remaining at work are the railway clerks, bakers, city hall employees, teamsters, outside civic employees and barbers.

As Calgary is the distributing centre for the whole province in the matter of remittances for relatives of soldiers, it is said that thousands of cheques

To Present Budget in Commons On Thursday of Coming Week

Ottawa, May 27.—Sir Thomas White announced in the commons tonight that the budget would be brought down on Thursday of next week.

RECEIVES C.P.R. POST.

London, May 27.—E. T. Stedding has been appointed passenger manager of the C. P. R. ocean service in Great Britain, succeeding R. S. Carmichael, resigned.

STRAWS AND PANAMAS

It is straw hat time now in earnest—"Old Sol" came in with a rush yesterday and gave straws and Panamas first call. The Dinneen Co. Ltd. boasts of the best selection ever shown in their store at any time. The variety is worthy of the closest scrutiny. Straw sailors \$2.50 to \$7.00; Dunlap and Heath \$8.00. Extra quality Japanese Panamas, \$5.00. Genuine South American Panamas \$8.00 to \$15.00. Dinneen's address is 140 Yonge, corner Temperance street.

Vancouver Will Vote.

Vancouver, B.C., May 27.—The general strike, in progress more than

(Continued on Page 5, Column 4).

Already One is Inclined to Lend a Willing Ear

To the Call of the Out-of-Doors

Already One's Thoughts Turn to Row Boats, Canoes and Fishing Supplies Such as Are Listed Below

Instead of Rowing Why Not Go to Your "Fishing Hole" in the "Gadabout"?

A 16-ft. Motor Boat Priced at \$295.00

Is 16 feet long and has a 4-foot beam and in V-bottom design. Hull is planked with 1/2-inch cedar; frame, keel, etc., made from selected oak. Coamings, seat backs, etc., are of birch, stained and varnished mahogany. It has three seats; bow deck is 4 feet long and rear deck 24 inches long. The decks are laid in alternate strips of light and dark wood. Outside of boat is painted white, while the inside is in varnished natural wood finish. Steering wheel and deck fittings are of polished brass. Tank has 10-gallon capacity—battery ignition. Speed about 8 miles per hour. Price, \$295.00. Freight paid in Ontario.

Here's a Square Stern Outboard Skiff, \$85.00

16-Foot Square Stern Painted Cedar Outboard Skiff, to use with outboard motor. Boat is built deeper in bow so as to carry on an even keel when weight is on back. Each \$85.00.

1 1-2 H.P. Evenrude Outboard Motor With Magneto in Fly Wheel \$135.00

This motor is considered one of the best and is fully guaranteed to give good service. Complete, \$135.00.

Here Are Colored Eyeglasses That Reduce Sun Glare

For comfort out of doors, to reduce sun glare from streets or water, have your prescription made up in tinted glass. A single pair is lighter and cooler to wear than a tinted pair over your everyday glasses. You may have such glasses ground in smoke or amber, or in Crookes' lenses. The latter are of chemically prepared glass, which cuts off the rays of light below the "reds" and above the "violets." In fact, tinted lenses are necessary to eyes which are hypersensitive to light. Consult our Optometrists regarding these lenses.

When You're Away for the Summer

How Convenient it Will Be to Have a "D. A."

For it enables one to shop by mail, telegraph or by phone, with the assurance that all purchases will come as paid. Saving any apprehension as to the safe arrival of money. Saving the necessity of going for money orders—when, perhaps, the distance is considerable.

Furthermore, the "D. A." will do your bookkeeping—a itemized statement of all your transactions being sent to you every month—truly a systematic way of shopping.

Interest is allowed on the daily credit balance. For further information, apply "D. A." Office, Fourth Floor.

Here Are Steel Rod's Trolling Spoons, Trout Flies and Other Fishing Supplies

"Bristol" Steel Rods, for bait casting fly or trout. Price, \$5.00, \$10.00, \$15.00, \$30.00.

English Green Hart Casting Rods, priced at \$5.00, \$12.00, \$18.00 or \$25.00—according to quality.

Pack Sacks of 10-oz. brown canvas, with shoulder straps and two compartments. Are priced at \$4.00.

An Enamel Silk Line, pliable and durable and a splendid long distance fly line; 25 yards, 75c.

An Italian Enameled Silk Line, with a smooth glossy finish, black and green; 25 yards, \$1.00.

An Anti-back-lash Casting Reel, which eliminates the need of thumbing the spool when bait-casting. Each, \$12.00.

A "Gold Bowl" Bait or Spoon, the upper part of which is nickel finished. Each, 50c.

Trout flies tied on silk worm gut, with double loops, which strengthens the gut just at the hook and prevents fly breaking off before it is half used.

Such as Black Gnat, Black Hackle, Brown Hackle, Cow Dung, Grizzly King, Jenny Lind, King Fisher, Montreal Parmachene Bell, Professor Coachman, Silver Doctor, White Miller and Yellow Sally, may be obtained at 5c, 10c, 25c or 50c each, according to kind and make.

Here Are Canoes---of Cedar, Basswood or Canvas---

Each With Clear Cut Lines That Count for Speed and Easy Paddling

A 16-Foot Painted Basswood Canoe, 31 inches wide, 12 inches deep. A splendid all-around canoe. Complete with one pair of paddles. Is priced at \$43.00.

A 16-Foot Torpedo Decked Basswood Canoe, same dimension as above, and copper fastened throughout. Is priced at \$60.00.

A 16-Foot Cedar Strip Canoe, copper fastened throughout. Complete with one pair paddles. Each \$70.00.

Same Canoe with torpedo deck, \$75.00.

A 16-Foot Cruiser Model Chestnut Canoe. One pair paddles. Is priced at \$60.00.

A 16-Foot Chestnut Pleasure Model Canvas Covered Canoe. Complete with one pair paddles. Is priced at \$67.00.

A 16-Foot Chestnut Sponson Canoe that will hold four people up when boat is full of water. Complete with one pair paddles. Is priced at \$85.00.

A 16-Foot Sharp Stern Cedar Skiff, especially adapted for family use. Copper fastened throughout and built by the Peterboro Canoe Co. Is priced at \$75.00.

Canoe Sails, complete with mast and fittings, medium size, 55 square feet, \$10.00; 75 square feet, \$12.00.

"Lee Boards," the "Dean Patent" fold-up style. Each, \$6.00.

Canoe Cushions, made of khaki drill, with hand loops, guaranteed to hold 300 lbs. up in water for 24 hours. Each, \$1.00.

16 x 16 Imitation Art Leather Life Preserver Cushions. Each, \$1.50.

Slat Lazy Backs. Each, 50c.

Double Paddles, with well wrapped solid joint. Each, \$3.50.

Double Paddles, "take-apart." Each, \$4.50.

Single Paddles; a clear-grain spruce. Each, \$1.25.

Oars, with leathers and oar locks, 7 1/2 and 8 feet long. Pair, \$6.00.

Boat Bumpers. Are priced at 45c, 65c, 75c, \$1.00 and \$2.00 each.

Boat Hooks, galvanized. Each, \$1.25. Boat Hooks, brass. Each, \$2.00.

Canoe Lamps (regulation), brass. Each, \$3.00.

Canoe Lamp Posts. Each, 50c and 90c.

Fancy Felt Cushion Tops, "Toronto Varsity," etc. Each, \$3.00.

THE T. EATON CO LIMITED

CANAL MEN BLAME SIR ADAM BECK

Says He Was Fully Cognizant of Conditions in March.

The Niagara Trades Federation has issued a statement relative to the agreement between the Hydro-Electric Commission and the employees on the Chippewa and Welland Canal development schemes, relative to wages and conditions, which is being misused and to favor of propaganda work on behalf of the commission. The statement goes on to point out that the agreement relative to wages and conditions was sent as early as March, to both Sir Adam Beck and Dr. Reid, minister of railways, and that it had been impossible to make any headway in negotiations. The agreement was to take effect on May 1, yet Sir Adam Beck did not propose a conference upon this agreement until April 15.

Continuing the statement of the trades federation expresses the opinion that the eight-hour day would be as feasible with the Chippewa and Welland Canal schemes as with the State government schemes, all of which are worked on the eight-hour basis. In conclusion the federation states that the Hydro commission is in error when it gives the impression that the linemen, operators and generating staff at the power plants had no complaints and had presented no agreement to the commission.

TABLET TO W. B. PRESCOTT.

Members of the Typographical Union will unveil a tablet at the Necropolis on Saturday at the memory of the late W. B. Prescott, at one time international president of the union. James Lynch, former international president; Vice-President James Barrett of the international, and John W. Hays, international secretary, will be among those present to do honor to the late member.

TEAMSTERS ORGANIZE.

Three hundred teamsters were organized at the Labor Temple on Monday night.

SIGNED AGREEMENT.

The International Bookbinders' Union has signed an agreement for 33 a week and a 48-hour week with the printer's union. The printer's union has agreed to work the 48-hour week if the binders gain benefit by that fact.

THE ELECTRICAL WORKERS'

Union 353 have decided to take no action regarding the general strike till after their regular meeting on Thursday night.

TROOPS IN SIBERIA HAVE GOOD TIME

No Grievances Except Pay and Smells of City of Vladivostok.

The Canadian Siberian troops in and around Vladivostok are having a fairly good time. They are well supplied with food and the only grunt is that it is always bacon and beans for breakfast. Although the force has been in Siberia for many months they have so far, except one company, not seen any active service. The one exception, "B" company, was sent to Skatova to round up some "Bolsheviks," but were unable to locate them and returned to headquarters. The only other "active" service the troops do is guard duty.

The Canadian soldiers are not over-impressed with Vladivostok as a city. They call it a poor town—it is built in a poor way. There is no drainage and the surroundings are very ugly, and better than the French who are on the hills, the dwellers in the little one-story houses in the valley naturally suffering from the lack of sunlight.

The odors in the streets are something awful, and when it is added that pigs and cows are permitted to wander about the streets at pleasure it is easily to be imagined that the town is in summer time. There is evidently a job for Dr. Hastings over there.

The Canadian billets are quite 12 miles from the town, and with a pack on the back it is some hike home after a shipping expedition in the winter, when it goes to 50 below on an average day. The summer weather is, however, quite as nice as the Canadian climate. The Goumastic Bay quarters are a lot of canvas tents, but the tents are the barracks as are warm as wool, and better than the French who are in the provisions when they arrive at the quarters are frozen stiff and have to be thawed out.

Diriest Beings.

Our boys have come across a lot of Mongolians during their stay in Siberia and describe them as the dirtiest lot of human beings alive today, men who never had a new suit of clothes in their lives. They work hard, however, and are very well paid for their labor. A man who was in the C.E.F. in France says that the worst of the Canadian boys are heavy to the best tenanted by Mongolians.

The men only do about one and a half hours' drill a day, and for sport they go down to the coast and fire with rifles at ducks and hell-divers.

For instance, if they are given 100 bullets they are debited in their pay book with \$5.10 Canadian money, but in the city the 50 bullets is only worth \$1. The big grunt and practical-Siberian soil will be in Canadian coin, and the boys before getting home on June 20 will have plenty of time to count it.

HOW THEY DO IT.

An Englishman comes into a drawing-room as it is crowded with Americans. He comes into a drawing-room as if he didn't care a damn who owned it.

Lieut.-General Baden-Powell inspected the Boy Scouts yesterday. He was here about by a World photographer while speaking to a diminutive Scout. With him are seen in uniform, Sir John Eaton, Col. Noel Marshall, Col. W. K. George and several other notables.

MONTREAL WOULD FOLLOW TORONTO

Labor Officials Say Workers Would Also Go Out in Big Eastern City.

Montreal, May 27.—Labor officials expressed fear today that if Toronto decided on a general strike Montreal would follow suit. It was stated by President J. T. Foster of the Trades and Labor Council that while some employers have treated their men very generously some others have not.

London Buying Bread.

London, Ont., May 27.—Secretary Hussey of the local trades and labor council speaking for the labor unions of the city this morning, said he had received no word from Toronto as to the calling of a general strike. On the other hand, the delivery men of all bakers are advising housekeepers to lay in as big a stock of bread as they can keep fresh for the next few days, as they expect at any moment to be ordered out. Police Chief Williams says that in the event of a strike he does not expect to have any trouble with the police force, which was recently unionized.

Increase Workers' Pay.

Kingston, Ont., May 27.—The employees of the Dominion Textile Company have been granted an increase of 10 per cent. in wages, effective on May 26. Three weeks ago they were given five per cent. increase, making a total of 15 per cent. given voluntarily by the company during the past month.

Confer With Metal Men.

Brantford, Ont., May 27.—The iron manufacturers of the city, including all affected by the metal trades council's demands for shorter hours, better working conditions and higher pay, will confer with the delivery men of all bakers on this morning. This notification was sent out this morning. The conference will be called by Mayor MacBride, who is expected to preside, and to locate near the city hall.

Publishers Grant Increase.

Hamilton, May 27.—Although the agreement with the newspaper printers still has three years to run, the publishers have consented to a twenty per cent. increase in view of the high cost of living. A significant clause in the supplementary agreement follows.

"That in the event of a general or sympathetic strike being called, the agreement with the newspaper printers shall be the best channel for the expression or reflection of public opinion, the union agrees to recognize the freedom of the press, and so far as the union is concerned, there will be no interruption of publication."

PLACE SUPERTAX WAR FORTUNES

Provision for New Taxation Introduced by French Minister of Finance.

Paris, May 27.—Louis Klotz, the finance minister, introduced in the chamber today a bill providing for new taxation. Provision is made for attempted frauds against the treasury, which M. Klotz said would be punished severely.

Succession duties are to be increased, customs tariffs revised and a national tax placed on war fortunes. Additional taxes will be placed on gas and electricity, and the tax on smoking tobacco will be increased 25 per cent.

M. Klotz proposed a super-tax of 5 per cent. on incomes over 10,000 francs, with considerable increases in taxation on war profits. He further announced increased duties on wines and liquors, which would be on sugar, coffee and other commodities.

British Premier May Visit United States in the Fall

Paris, May 27.—Premier Lloyd George of Great Britain, it is understood, is considering favorably a proposal from the American peace delegation that he visit America this year. The premier would go to the United States especially to attend the first meeting of the league of nations in Washington in October.

PULP MILLS IN CANADA.

The report on the pulp and paper industry prepared by the Dominion Bureau of Statistics shows that during the year 1918 there were in operation in Canada 101 mills producing pulp and paper, 37 of which were in Ontario, 45 in Quebec, 7 in Nova Scotia, 6 in New Brunswick, and 5 in British Columbia.

EMPLOYEES OF CITY ARE OUT OF JOBS

(Continued From Page 1).

Owing to the fact that the policemen did not strike, they will not be required to apply for their present positions, but will be asked to sign documents pledging loyalty to the city and agree not to join a sympathetic walk-out.

"I believe the police will remain loyal," Mayor Gray stated.

No visible change in the general strike deadlock was noted here this morning except further increase in the Winnipeg postoffice by volunteer clerks, which was partly responsible for business improvements. Drays, trucks, cabs and delivery vehicles were seen on the main streets.

Train Service Normal.

Representatives of the city government began compiling lists of union city employees on strike. The city will begin to replace the strikers on Thursday as a result of the city council's action last night, which was taken despite united opposition from the labor and labor council. The railway situation is unchanged. Train service is normal.

Some of the railway mail clerks in the city division will not report for duty tonight, it was announced today. Others have decided not to strike. The Railway Mail Clerks' Union is not affiliated with the Winnipeg Trades and Labor Council.

Leaders of the fact on which refuses to strike said that the men who do not strike to quit work represent the younger element and that the men who have been in the service several years decided not to take any action at this time.

Winnipeg switchmen, members of trainmen's brotherhood, voted by a majority to join the sympathetic movement. They were notified by an official of the trainmen's brotherhood that such action might result in striking switchmen being ousted from the brotherhood. The men remained at work. It was known that officials of the railway brotherhood are still making vigorous efforts to bring the opposing factions together. No other sign of conciliation could be discerned early this afternoon.

Held Hot Meeting.

Extreme bitterness marked the city council meeting last night. The word "rebel" was used twice. Besides voting along lines that will forbid firemen joining other union forces in a sympathetic strike, by a 9-to-5 vote, the council also adopted a resolution to provide lists of city employees on strike prepared immediately and commencing on Thursday, to have vacancies filled by men who will not desert their posts during sympathetic strikes.

Labor leaders attempted to amend the resolution pertaining to the firemen by substituting a recommendation that a council committee call upon Premier T. C. Norris and urge legislation to provide for collective bargaining. After the amendment was defeated and the original resolution was adopted the supporters of the firemen resolution reintroduced the labor amendment as a resolution. It was adopted. Four of the five labor members voted against it.

Labor councilmen vigorously objected to the use of word "rebel" as applied to any person connected with the strike. Mayor Gray challenged the objection, and said that he considered the term might be applied to "one labor leader."

Joseph Watkins Seriously Hurt in Boiler Explosion

Joseph Watkins, 50 Boustead avenue, engineer in Love Brothers' factory, at 253 Sorauren avenue, was injured at 5.30 last evening when a boiler exploded in the engine room. Watkins' right arm was fractured in two places above the wrist, and he suffered a deep cut in his thigh when he was struck by a piece of the boiler. He was removed to the General Hospital.

Hotel Clerk Gives Evidence Re Alleged Gaming House

William Griffith was remanded in police court yesterday morning until June 6 on a charge of "keeping a gaming house." Alex Gray, young hotel clerk, who claims to have lost over \$1,000, is also under arrest. He is charged against Griffith. A number of other alleged gaming house keepers in custody will be remanded until next week, said Magistrate Kingsford, to enable the police to prepare the case.

FOUND FURS MISSING.

George Weston, 30 Fisher street, was arrested last night by Detective Strohm and Bain, charged with theft of two pieces of Hudson seal fur from his employer, H. Krekm, 531 College street. Mr. Weston is alleged to have sold the stolen furs to a man in the name of Robert Weston, who is also under arrest, charged with receiving stolen goods. Weston is said by the police to have carried the furs from the factory when he would be leaving in the evenings.

MANY MEN STRIKE IN WESTERN CITIES

(Continued From Page 1).

A week in Winnipeg, spreading during the last 24 hours to Calgary and Edmonton, Alberta; Regina, Sask., and several small districts, seemed today about to sweep into British Columbia. Last night it was announced from Victoria that the Trades Council had decided to call for a strike vote in sympathy with Winnipeg strikers, the results to be in by Sunday night.

In Vancouver the strike movement has been initiated by labor leaders who said, however, they view with apprehension what might occur should they find it necessary to call upon the militia to enforce its demands in the strike-affected areas. Several unions here, it was said, have strike votes in preparation for a week, but no result has been made public. Acting-President McCormick of the Postal Workers' Union, declared the Vancouver union did not propose to take any radical action without deliberate consideration.

In Edmonton the general strike was but partially effective Monday.

Moose Jaw in Sympathy

Moose Jaw, Sask., May 27.—Unless a settlement is reached in Winnipeg before Thursday night, the unions affiliated with the Moose Jaw Trades and Labor Council will walk out in sympathetic strike. There is likely to be no exception and that will be the Typographical Union. At a meeting of the principal engineers at the night the vote of delegates was practically unanimous, 26 to 2, in favor of taking a strike vote and all unions were requested to take the vote in the next three days and report back on Thursday night. Should the verdict be strike, and it is generally conceded that it will be, the Trades and Labor Council proposed to appoint a committee to manage the strike from the labor standpoint.

Saskatoon Out Today.

Saskatoon, Sask., May 27.—By a vote of more than five to one Saskatoon labor unions decided to go on a sympathetic strike at noon today.

The principal unions to strike will be C.N.R., shoppers, city employees, way men, teamsters, plumbers, carpenters, bricklayers, plasterers, telephone operators, telegraph operators, postal workers. Those who will not strike include Typographical Union, pressmen, steno-typers, powerhouse employees and cycle employees. Some, but not all, the retail clerks, hotel and restaurant workers will strike.

Regina Votes Today.

Regina, Sask., May 27.—Regina labor unions will take a strike vote in sympathy with Winnipeg, all returns will be in by Wednesday evening this week. Bricklayers and electricians workers have already voted to go on strike in sympathy with Winnipeg.

BOY'S BODY RECOVERED FROM THIRD LOCK

Two days of fruitless endeavor by the lad, Thomas Henry McKenzie, who was drowned while swimming below Thorncliffe race course, was recovered today by horseable McCann, deceased's half-brother, Bill Trotter, and three helpers, at the third lock in the Don River. The rocky and snaggy state of the river bottom made recovery very difficult.

The funeral will be by his parents' home, 49 Ravina crescent, on Thursday, 2 p.m., to Mt. Pleasant Cemetery.

SENATE AGREES TO INCORPORATE C. N. R.

Ottawa, May 27.—The bill for the incorporation of the Canadian National Railway Co. was read the third time in the senate today, after two amendments from the opposition side had been defeated. One provided for an annual audit of the books of the company by an independent firm of auditors, and the other that two of the board of directors should be named by the employees of the road.

Handful of British Officers and Natives Fight Off 6,000 Egyptians

New York, May 27.—The story of how a handful of British and allied officers, at the head of 100 native troops, fought off for three days the attacks of 6,000 Egyptian insurgents, and saved the lives of 400 white women and children, was told today by Prof. Roy Allgood of Birmingham, Ala., who arrived here from Assuit, Egypt.

For the last four years, Prof. Allgood has been science instructor at the College of Assuit, the capital of upper Egypt. On March 20, an outpost rider reached the town with the news that a band of Senyussi Arabs was advancing on the town. The allied officers quickly organized the

HAWKER'S PLANE HAS BEEN SALVAGED

Picked Up, With Mail on Board, by American Steamer in Mid-Atlantic.

St. John's, Nfld., May 27.—The Sopwith biplane in which Harry Hawker and Mackenzie Grieve attempted to fly across the Atlantic was picked up in latitude 49.0 north, longitude 29.08 west, by the American ship Lake Charlottesville, according to a radio message received by the Furness liner Sackem and relayed here tonight.

The message from the Lake Charlottesville was received first by the Furness liner Elstree Grange. In it Capt. Elverson said he had taken aboard parts of the plane and all of the mail it carried and was proceeding to Falmouth, England.

PRINGLE CONFIRMS NEWSPRINT ORDER

In Ottawa Judgment, He Stands by Prices Fixed Last September.

Ottawa, May 27.—In a judgment issued today, R. A. Pringle, K.C., controller of newsprint, confirmed the order he made in September last, fixing prices for newsprint. The order in question was appealed to the government which created a special tribunal of judges to hear it and this tribunal ordered the newsprint controllers on certain points. After hearing further evidence as to costs, Mr. Pringle says, in a very brief judgment, that he sees no reason to alter his decision. It is expected argument on the merits will be resumed before the appeal tribunal on June 4. That body is empowered to confirm or lower or increase the price fixed by the paper controllers.

LLOYD HARRIS SEES BIG CANADIAN TRADE

Ottawa, May 27.—That Canada would be in the best condition of any country in the world, if we could in the next three years maintain our export trade at its present high level, was the opinion expressed by Mr. Lloyd Harris, head of the Canadian trade mission in London, in the course of a talk with representatives of the press this evening. Mr. Harris pointed out that during the year 1914 the export trade of the Dominion amounted to \$455,000,000. In 1918, owing largely to war business, it had grown to \$1,586,000,000. The shortage of shipment, Mr. Harris said, is the great problem to be overcome if the Dominion is to fully realize the opportunities presented for the development of the export trade of the Dominion.

Wanted to Beat Yankees.

In a further statement made to The Daily Mail's correspondent at Edinburgh, Tuesday, Harry G. Hawker said regarding his attempt to cross the Atlantic:

"We started because the weather was better and the moon was dying fast, and if we had not started then we might have missed the chance of being first across."

"The Americans were off. They were very serious propositions. They had one leg to go, and we had one to go. We knew that one American machine had reached the Azores, and reports came that all three were there."

"That was very serious, and we had decided overnight with Captain Rayburn (who was to attempt the flight)

THE OAKOAL BULLETIN

Vol. 1.—Prob: You will invest in Oakoal when you know its value.—No. 2.

A Bank Manager who invested in OAKOAL stock last week said: "I am not only buying your stock because I appreciate the investment possibilities, but because I feel I owe it as a duty to assist in developing an industry of such character."

There are many people in Toronto who would gladly invest in OAKOAL stock if they fully appreciated the value of the OAKOAL method and process and realized the potential possibilities of the industry. When the reader stops to consider that there are sufficient garbage and waste collections in Ontario cities to insure a daily output of over 2,500 tons of OAKOAL and that this output keeps in circulation over \$3,000,000 annually in Ontario that would otherwise go to U. S. mine owners, and that as between the present price of coal and OAKOAL it would save another \$3,000,000.00 to the people who would buy OAKOAL and

would convert garbage and wastes that cost hundreds of thousands to destroy, into nearly \$6,000,000 worth of fuel, providing work for hundreds of men, and reducing the burdens of city taxes to the extent of the cost of incineration and return to the purchasers of stock a dividend that will multiply the value of their investments, it must be recognized as one of the outstanding industries of the age.

It has been asked: "What would happen if a car of bad eggs or fish had to be destroyed?" Could the OAKOAL process take care of such waste material? The OAKOAL process is boiling everything that enters the product, enabling it to convert anything combustible into fuel and the fuel will be absolutely clean and sanitary, possessing more fixed carbon than any fuel mined or manufactured and more B. T. U.'s than any fuel excepting Anthracite, even surpassing Anthracite in heating, economic and fuel ratio values. The OAKOAL industry is gripping U. S. communities, and many plants are being erected over there. France, Belgium, Italy, Australia and Great Britain are also adopting the principles and are long several plants will be operating in Ontario. Every citizen interested in provincial and individual economics and in investments, should obtain the Company's literature and learn more of OAKOAL and its future.

A letter or card addressed to Ontario OAKOAL Co. Limited, 43 Scott Street, Toronto, will bring you full particulars.

LONGER WELCOMES HAWKER AND GRIEVE

Procession Formed and Entire Line Jammed With Cheering People.

London, May 27.—Harry G. Hawker and Lieut.-Commander Mackenzie Grieve were given a remarkable reception on their arrival in London tonight from Northern Scotland where they were landed Monday morning after their unsuccessful attempt to fly across the Atlantic ocean from Newfoundland to Ireland in an airplane.

Such enthusiasm was shown in the greeting of the two intrepid aviators, for their safety after they had fled for times the world had been fearful, probably never has been exceeded, except in the times of coronations.

The cheering began gathering early in the afternoon along the route from the railway station to the Aero club, where Hawker and Grieve were formally welcomed on behalf of London. Throughout the afternoon until the train with the heroes arrived the throngs grew in numbers. When the train pulled into the station the entire line over which the procession was to pass, was jammed with cheering people.

A foretaste of the great welcome that the aviators were to receive, came during the afternoon when the Mayor of London, Lord Curzon, formally welcomed them to the city. The Mayor, accompanied by the Mayor's wife and other members of the Royal Aero Club, including General Brudenell Burghley, and other famous aviators. Another delegation of workers from the Sopwith works, where the machine in which Hawker and Grieve attempted to span the ocean was constructed.

The first official welcome was accorded the aviators when they reached London by the mayor of that borough, but still another was given them inside the Aero club by the same Mayor. Grieve proceeded up the line and met their own, bade him welcome, and congratulated him on his rescue before he reached London.

Cheered the Pair.

In every town thru which the train passed the cheering crowds of people gathered to cheer them. Wherever the train stopped official receptions were extended to the heroes by the mayors and corporations.

Asked whether he would make another attempt to cross the Atlantic, Hawker said tonight:

"I don't know. It depends upon the Sopwith firm."

A series of entertainments, including many luncheons and dinners, have been arranged for Hawker and Grieve at the reception of Hawker and Grieve at the I.K.G.'s Cross station excelled in popular demonstrations anything given any general or member of a royal family during the war.

It was particularly an Australian occasion. There were thousands of Australian soldiers in and around the station, accompanied by their families, as the train pulled in. There was continuous singing of "Australia Will Be There" and the peculiar cries of the Australian bushmen.

"We started because the weather was better and the moon was dying fast, and if we had not started then we might have missed the chance of being first across."

KEMP STATEMENT ON OVERSEAS WORK. Reports on Military Administration, and Defends Argyle House Staff. RECORD OF TROOPS—Matter of Praise by Minister—Lemieux, Replying, Accuses Him of Evasion.

Ottawa, May 27.—In the house of commons today, Sir Edward Kemp, overseas minister of militia, made his promised statement in regard to a question that he had not read General Smut's charges, and did not intend to, as he had something better to do. Incidentally, Mr. Lemieux declared that the present unrest in the country was due to the fact that the government had failed to grapple with serious problems that confront it, including the high cost of living.

AGINCOURT HEROINE HONORED BY BANK. Miss Chapman, the brave clerk of the Agincourt branch, Bank of Nova Scotia, who defended the life of Manager Laing by wrestling the pistol from the hand of a burglar, was honored by the directors of the bank in Toronto.

Jumped in Lake, Was Saved; Now Faces Police Charge. John Duwack, 155 "Niagara" street, was seen standing on the dock at the western gap yesterday afternoon by two men in a row boat. The men were looking in the direction where Duwack was standing when suddenly they saw him jump into the water with his clothing on. The men hurried to his assistance and getting him from the water, kept him in their boat until the life-saving crew arrived.

MOST INSECTS FOUND IN BLOCK OF AMBER. The proverbial "fly in amber" is strikingly exemplified in a collection of red amber from Burma recently presented to the British Museum by R. C. J. Swinhoe, of Mandalay. The amber is unusually rich in insects, including 31 new species, which are types of new genera. Most of these are found in a block of amber rather larger than a man's fist. This was cut into slices about half an inch thick. Nearly every large portion of insect is represented with the exception of ants.

HELD FOR JAIL BREAKING. Thomas Ruston, 84 Brook Avenue, was arrested last night by Detective Leavitt, for the police of Burlington, Ont., on a charge of jail breaking.

Stricken with heart failure at 7.30 last night, near the corner of Bathurst and Harbour streets, a man, Buffalo, of West Hill, collapsed and died before a doctor arrived to attend him. Mosher was 23 years of age and had been returned from overseas, where he had been wounded several times and resaid.

Special meeting Civic Employees Union, Local No. 43. Will Be Held Thursday, 8.15 p.m. John Reid, Recording Secretary.

BOYES WAS KILLED IN SELF-DEFENCE. Was Finding of Coroner's Jury at Inquest Last Night. MISS CHAPMAN'S STORY. Agincourt Heroine Tells Part She Played in Shooting Affair.

That the shooting of 19-year-old Harold G. Boyes by R. T. Laing, manager of the Bank of Nova Scotia at Agincourt, when Boyes, in company with a man named Putwain, tried to rob the bank on May 20, was done purely in self-defence, was the verdict returned by the jury at the inquest last night, which investigated the circumstances surrounding his death.

CLIMBED PARTITION. In the meanwhile, continued witness, Boyes had climbed over the partition with a revolver in his hand. As soon as he dropped Mr. Laing covered him, and Boyes backed into the manager's office at the end of the room. As near as the witness could remember Boyes had said: "Don't shoot, my friend's down." At the office, while the manager covered the prisoner, Miss Chapman said she relieved him of his gun. Laing had gasped: "Well, he shot me."

PUT HIS HANDS UP. Boyes, according to Cronin, said he put his hands up, and then tried to get away. He had denied to the detectives after his arrest that he had put the entire blame for the crime on Putwain, who, he said, had led him into it. Cronin told of bringing a man down from Cooksville to see Boyes' body, and to the best of this man's belief, Boyes was one of the men who had robbed the bank at Cooksville some time ago.

Baseball Toronto 5 Buffalo 2

JONES BAFFLED THE BUFFALO BISON

While This Was Going On, Leafs Hit Like Champions.

Buffalo, N.Y., May 27.—George Gibson's scrappy Leafs used the old-fashioned game to defeat the Buffalo Bisons in a stepping stone to the top of the league stand by walking off with the final game of the series to the tune of a 5 to 2 score here this afternoon.

The Buffalo aggregation is in the throes of an awful slump and in the last six games played the home club has come out on the short end of the score in five. The men who are supposed to be fence busters are hitting about the size of their ball band, therefore, it was all Toronto after the third inning.

There was nothing really exciting about the ball but a side show staged by Messrs. Harris and Gonzales around the drowsy fans in the sixth inning and repaid them for their trip to the ball park. It was like this: Harris drew a hot to open the inning. Harry showed a roller to Anderson, who loosed it. Gonzales and headed Harris off to make a double play tripped over by Harris' feet. He blamed it on Harris, of course, and he suddenly wheeled and buried the ball at Harris, who had dropped to the ground. Harris jumped up and piled into the fray and when the casualties were tallied up it was found that there was nothing worse than a few bruises. Reports from the ringside which trickled up to the press box were varied and drew in a fair decision for the Harris-Gonzales mix.

"Gyp" Jordan, who gained considerable local fame by pitching a no-hit, no-run game a few weeks ago, was no puzzle to the Toronto working crew, and they massaged his benders for clean out hits.

On the other hand the home crew could do nothing with the benders of the Leafs. Jones was on the pitching peak for the Leafs.

During the third frame the Gibson hirelings hit Jordan with everything but the dugout, and when the smoke cleared the ball rolling over the visitors had rung the bell five times. Sandberg started to centre, Jones attempted to sacrifice, but he was safe at first. Jordan threw wild after fielding his grounder. Gonzales beat out an infield tap and filled the socks with a home run. Purcell came thru with a slashing single to right center and Sandberg and Jones the good work with a single to centre. Sandberg's sacrifice to complete the journey to the plate. Jones' sacrifice to complete the drive to the plate. Jones' sacrifice to complete the drive to the plate.

The Bisons made their only bid for victory in their half of the third when they chalked up three runs on hits by Donelson, Harris and Barney. For the rest of the game Jones hit the Wilcox forces down with three hits,

LEAF'S LEADING ALL THAT MATTERS

Mooney Not Likely to Quit —Boys Are Back in Form.

By Ida L. Webster.

Well, boys, give them credit; they came back, and right now look like a million dollars. It may have been the hitting that was off to the tune of losing a batch of games, or it may just have been that the pitchers were a trifle out of order. However, whatever the cause, they have shown in the last two days that they are not exactly dead yet.

We understand that his worship the president does not know the trouble with Mooney, if there was any. Nor, for that matter, did he ever hear that our manager was about to shake the dust of this city off his feet.

In speaking of the affair, James said: "It is all news to me, and considering all things, I really believe that if Mr. Gibson had had any idea of leaving the club, he would have mentioned the fact to me. My trip to Rochester was purely a business one, and had nothing whatever to do with the manager of the Leafs."

Then the fair-haired one went on to say that he felt rather badly to think that he had left the club, and was being forced to give a daily account of his actions. He was not at all sure that there was the slightest necessity for an official censor staff on his remarks, and if he chose to say what he wanted to say, he would say it.

Personally, we are quite alright with us, and we are quite sure that there is a thing in the world to the Gibson. Mooney has had years of experience, and he must know that when one gets a good thing, it is just as well to hang onto it. In other words, a bird in the hand is worth two in the lake.

If he were to leave the club, just where else would he go? Owing to himself, he can no longer play the game somewhat depreciated. Not but naturally going to stand by his major league learning is the same time it is not going to hurt him. My trip to Rochester was purely a business one, and had nothing whatever to do with the manager of the Leafs."

Very truly yours, James.

It is not very probable that the Leafs are again in their winning stride, and that they are leading the league.

MORE VICTORIES FOR SHAG AND KNOTTY

Tigers Down Wolves, and Brantford Trim the Flint Outfit.

Bay City, Mich., May 27.—Hamilton regained its lost prestige of the opening series here by taking the third number of the series today, defeating the Bay City Wolves, 2 to 0.

Hamilton, in the first inning, hit a home run to tie the game. In the second, a double play was made, and in the third, a sacrifice fly was hit. In the fourth, a home run was hit, and in the fifth, a home run was hit. In the sixth, a home run was hit, and in the seventh, a home run was hit. In the eighth, a home run was hit, and in the ninth, a home run was hit.

Lively Hitting Order in National League

At Brooklyn (National League)—St. Louis knocked Marmox out of the box in his first game with Brooklyn here yesterday. Cactus Ketchum pitched three hits and an error, a sacrifice and a home run. Marmox pitched three runs off in the next six innings and was taken out by pinch-hitter, Cheney. Cheney pitched the last two innings and held Brooklyn to four hits. Doak Ketchum pitched the last two innings and held Brooklyn to four hits. Doak Ketchum pitched the last two innings and held Brooklyn to four hits.

Cravath's Homer Put Stopper to Luque

Luque, the Cuban pitcher, who was formerly with the Leafs, had turned in five straight wins before yesterday. Cactus Ketchum, the Philly slugger, rapped out his ninth home run yesterday, and incidentally beat Luque.

The five leaders in the two major leagues after yesterday's games are:

Player.	Clubs.	G.	A.B.	R.	H.	Pct.
Cravath	Brooklyn	43	12	23	19	.654
Young	N. Y.	24	98	17	40	.417
Meusel	Phil.	20	76	15	37	.487
Williams	Bro.	17	72	17	37	.514
Harden	Cin.	20	59	7	20	.339

Tecumseh Manager Failure as Pitcher

Saginaw, May 27.—Star Mason brought up several new players from Detroit and into the box himself today, but Saginaw ran rough shod over the Tecumseh, again winning, 17 to 2. Mason was wild and was hit hard, while Gilbert was no maverick and the London team backed their pitchers up shamefully.

Wason pitched eight innings and scattered hits, eliminating their scoring in all except the seventh inning. The score: Saginaw, 17; Tecumseh, 2.

The T. & D. Junior Games and Referees

The T. & D. Junior F. A. met in Victoria Hall last evening, appointing referees and ordered the following games for this evening and Saturday.

First Round: (Postponed games) to be played tonight: Riverside vs. Linfield, at Kimbourn Park, corner Danforth and Cowan; Riverdale vs. Wychwood, at Little York, E. Osborne.

Second Round: (Postponed games) to be played tonight: Parkdale Rangers vs. Jubilee, Referee, Geo. Mills, 121 Ennervale road, Fairbank; Parkdale Rangers vs. Linfield, Referee, R. Baldwin, 36 Chester avenue; Danforth United vs. Second Rovers, Referee, A. Kerr, 222 Campbell avenue; Swansea vs. Baracoe, Referee, W. Mitchell, 121/2 Sherbourne street; Riverside vs. Wychwood, Referee, L. Jowett, 363 Ossington avenue; Riverdale Rangers vs. Jubilee, Referee, L. P. Hake, 2 Moter avenue.

Worrying About Jess AT THE TOLEDO CAMPS

Big Heavyweight Spars in West and Will Arrive Next Week.

Toledo, O., May 27.—Falling to receive any official word from Jess Willard concerning his departure from Los Angeles, Tex Rickard, promoter of the heavy-weight championship battle between July 4, today telegraphed the champion requesting him to start for Toledo immediately. Rickard asked Willard to abandon his proposed stop for a day at his home in Lawrence, Kan.

"Willard agreed to be here six weeks in advance of the contest," Rickard said. "That time is passed. He asked for a few days which to attend to personal affairs on the coast and I consented, but I think he has delayed his departure long enough. It is time that he should be on the ground and training. I have requested him to be here Saturday."

MORE VICTORIES FOR SHAG AND KNOTTY

Tigers Down Wolves, and Brantford Trim the Flint Outfit.

Bay City, Mich., May 27.—Hamilton regained its lost prestige of the opening series here by taking the third number of the series today, defeating the Bay City Wolves, 2 to 0.

Hamilton, in the first inning, hit a home run to tie the game. In the second, a double play was made, and in the third, a sacrifice fly was hit. In the fourth, a home run was hit, and in the fifth, a home run was hit. In the sixth, a home run was hit, and in the seventh, a home run was hit. In the eighth, a home run was hit, and in the ninth, a home run was hit.

Accept Resignation Of Chairman McLean

A special meeting of the Dominion Lawn Bowling Tournament committee was held last evening at the Granite Club, when the resignation of Chairman R. T. McLean was received. Press Secretary makes it impossible for Mr. McLean to act, and his resignation was accepted with regret. The election of a new chairman was deferred until Wednesday, June 4, when a meeting will be held at the Granite Club. All clubs are requested to have representatives present.

Back in the Lead Hustlers Helped Us

Arthur Irwin's Rochester Hustlers gave the Leafs a nice helping hand yesterday. While the Gibsons were winning their second straight at Buffalo, Arthur's kids stepped into the Binges and emerged with a one-run victory. This kindly act displaced Binghamton from the lead. The Leafs moved up to the top again, the right place, and the Hustlers moved into second position.

The first four clubs are nicely bunched, and is the nearest race of many moons, and the battling for the next week will be interesting.

WAR CANOE PRACTICE.

Island Aquatic will hold their first war canoe race Thursday evening at 7.30. All those living along the bay wishing to paddle are requested to attend this practice.

PACKERS' LEAGUE.

At Perth Square last evening, Gunns, Ltd., defeated Wm. Davies by a score of 2 to 0.

Score: Gunns, 2; Davies, 0.

At Perth Square last evening, Gunns, Ltd., defeated Wm. Davies by a score of 2 to 0.

BENDER AT RICHMOND.

Richmond, Va., May 27.—Charles Albert (Chief Bender), former star pitcher of the Philadelphia American League Club, has been elected manager of the Richmond, Va. Virginia League team. He will play rightfield and pitch.

Cricket Coaching The Boys

WELCOME HOME

YOU'LL be starting out in a day or two to buy a suit, and in these days the sensible man does that with deliberation and careful comparison.

We have some suits here, that in quality and price will seem like old friends and which are right up-to-the-minute in patterns, colors and styles. Come around to our corner and see them—then make a comparison. You'll find that we can save you some money.

Sample Values

\$25 Men's Suits in waist-seam and smart form-fitting models, variety of new cloths of serviceable quality, well tailored in every way. Unusual value at this price.

\$35 Men's and Young Men's Suits in fancy tweeds, navy and brown high serge, cashmeres and flannel in fine stripes, in waist-seam and English models. Correctly tailored and finished, and priced at a substantial saving.

\$45 Highest Grade Hand Tailored Suits, some silk lined, in young men's form-fitting and waist-seam models, all-wool plain colored chevrons in navy, brown and olive.

Also Men's Standard Custom Model in best worsteds and cashmeres. Highest class in every way.

FULLER DETAILS OF HAWKER'S FLIGHT

Came Down Within 1000 Feet of Water Before They Could See to Fly.

LIT CLOSE TO SHIP. Sea Was So Rough, However, That Sailors Found Difficulty in Launching Boat.

London, May 27.—The correspondent of The Daily Mail, who is traveling with Harry G. Hawker and Lieut. Commander Mackenzie Grieve on their way to this city, sends from Inverness, Scotland, a detailed account of the difficulties encountered by the two aviators during their unsuccessful attempt to fly across the Atlantic.

During the first four hours of the voyage, the air was freezing cold, but the aviators were quite comfortable. Hawker, however, was unable to steer a good course because of clouds being at times forced to go around them.

When about 800 miles out to sea the weather continued very bad and clouds rose to great heights. Several times Hawker tried to clear them but lost height at every attempt and each time the machine was started climbing the water in the radiator boiled furiously.

At last, however, the aviators reached a height of 12,000 feet, and it was decided to stay at that level for the rest of the trip. "We had not as yet doubted being successful in getting across," Hawker said in describing their experience.

At that time above most of the clouds. The moon had risen and we were keeping a good course, also we had to go a little slower and close the throttle to keep the water from heating up.

Encountered Heavy Clouds. "We continued at this height until we had been in the air twelve and a half hours. Then came heavy clouds again. They were very high, reaching a level of 15,000 feet and being very black. It was almost impossible to steer the machine, and each time I tried to climb the water filled badly."

Hawker then described his efforts to find the cause of the trouble with the water-cooling system and said that he concluded something had got into the water filter between the radiator and the pumps and that the only thing to do was to stop the motor and put the nose of the machine down steeply with the hope that this might clear away the refuse in the filter. This was successful. In view of the difficulty of getting thru the clouds the aviators decided to go beneath them.

Coming down to a height of about 6,000 feet, Hawker said, "we found it blacker than ever, and eventually got to 1,000 feet above the water before we could see to fly. We started on our course again with the sun just rising, but could not keep the temperature below the boiling point of the water."

"Then it was we reached the fateful decision to play for safety. We changed our course and began flying diagonally to the main flying route for about 2 1/2 hours, but the temperature relief, we sighted a Danish steamer, which proved to be the great relief. The wind was blowing a half-gale from the northeast, and we were getting knocked about badly when we sighted the ship close to our port bow. We were fairly in a fog with the clouds low and were almost on top of her before we saw her. We sent up our very bright distress signals. These were answered promptly and the ship flew on about two miles and landed in the water ahead of the steamer."

Sea Was Very High. "We made a very good landing, although the sea was high. The machine floated at an even keel well out of the water. We watched the steamer approaching and put out our own distress signals in case the machine should break up. The sea was so high that it was impossible to get out of the water. Before we were rescued the machine was broken up and the crew were rescued by the Danish steamer."

Captain Took It Casually. The rescued men were struck with the casual manner in which the captain took the whole business, as if it were an everyday affair to take a message out of the Atlantic. The aviators asked the captain his bearings, and what likelihood there was of meeting a ship and getting into the main route of the work of the Atlantic. The captain thought there was a very good chance of sighting a ship with wireless at any moment.

Monday night the storm got worse and the men had to leave to make about one knot an hour in a northerly direction. This took the steamer off the shipping route, and lessened the chance of meeting another ship.

Hawker said that he and Grieve slept, or tried to sleep, most of the time. They drank tea and read the captain's English books. They saw the lighthouse at St. Kilda, but were unable to communicate with land until the ship reached the Butt of Lewis.

Motor Was Red Hot. "I want to emphasize," Hawker told the correspondent, "that the fault was not due to the motor, which was repaired every day, running satisfactorily from start to finish. Even after all the water had boiled away the motor was still running merrily, although it was red hot when we alighted on the water."

The correspondent adds that there were amazing scenes on the trip thru the Scottish highlands to Inverness. At every station women threw flowers and kisses to the rescued aviators, and men clung to the train and begged to enter it while it was moving. Hawker and Grieve shook hands with hundreds in a cheering crowd which had invaded the Inverness station.

On their arrival at Inverness the aviators received a telegram from King George inviting them to Buckingham Palace on Wednesday. Edinburgh, Scotland, May 27.—Harry G. Hawker and Lieut. Commander Mackenzie Grieve arrived here this morning on their way to London from Thurso, where they were landed by a British warship yesterday. They were seized as they left the train and lifted to the shoulders of a crowd which bore them to a hotel where they had breakfast. They were heartily cheered when their train left the station at 10 o'clock.

Australians Delighted. Paris, May 27.—The joy of the Australian delegation at the peace conference over the news of the rescue of Harry G. Hawker was expressed in a statement issued by Premier Hughes last night. "The world will not forget his plucky attempt," the statement said. "Australia whose soldiers have done things the world will not forget is proud of Harry Hawker and the Austrian delegation hail him as a worthy son of the great land which gave him birth. The flight was for the purpose of testing the ability of an airplane to cross a great space in a new way. Technically, the airplane has yet to be proved, but Hawker's attempt has more than proved the ability of the men who operate these machines. It is a great thing to know we can still produce brave men. It is perhaps greater that the whole world, after five years of war, still admires bravery."

Message From U. S. Washington, May 27.—On behalf of the United States naval air service Secretary of the Navy Daniels has sent the following message to Harry G. Hawker and Lieut. Commander Mackenzie Grieve: "Hawker and Grieve, care British Admiralty, London. The American aviators, co-pioneers in the conquest of the air, send greetings and warm commendations of the pluck and endurance of their associates. This spirit of high adventure, born of the desire to open all elements to the dominion of man, enables our manhood."

Motor Was Red Hot. "I want to emphasize," Hawker told the correspondent, "that the fault was not due to the motor, which was repaired every day, running satisfactorily from start to finish. Even after all the water had boiled away the motor was still running merrily, although it was red hot when we alighted on the water."

AUSTRIA IS DOOMED IF UNION FORBIDDEN

President of Republic Says That Fourteen Points Have Not Been Adhered to.

Vienna, May 27.—German Austria is condemned to death if she is not permitted to join Germany. Dr. Karl Seitz, the president, declared in a statement. The president said he was inclined to suppose that the Germans would not sign the peace treaty unless the allies showed a "sympathetic understanding of their real condition."

Discussing the Austrian situation, the president said: "During the armistice we had hoped that President Wilson's fourteen points would be observed. But we fear now that we will be badly disappointed, first as regards the self-determination of peoples and in giving new states frontiers according to the principles of nationality. There are 3,500,000 German-Bohemians who are made foreigners in their own country under the rule of a people not sympathetic to Germany. The same may be said of the Tyrol, where commercial and racial questions are subordinate to the strategic, although President Wilson's point said the opposite."

"We are also troubled about the Jugo-Slav claims on Marburg and Klagenfurt which are Austrian cities. Last November we gave up our territory to the territory south of these cities which is Slovene, but the Jugo-Slavs are not content, notwithstanding the fact that there are only a few Slovenes in the territory they claim and that they wish to live with us for business reasons. We also give up the Trentino without a question."

Will Mean Bankruptcy. "I wish to say in the most solemn manner that Austria is doomed to die if she is not permitted to join Germany. We cannot live long. We have a great city with a small territory composed of mountains and plains. If the allies give our German provinces to the Czechs and Slovaks and Jugo-Slavs without making the new owners take up the burdens in the way of taxation and war debts, it will mean our bankruptcy. If we go bankrupt it will mean worse social troubles than those of Russia with a menace to the peace of Europe."

"It must be understood that many of these war debts were contracted not for war purposes, but for allowances to families distributed through the empire, not in Vienna alone. Another point is that part of the war debt was contracted for supplies manufactured by the industrial towns of Bohemia, who profited by it. They are willing to take the profits, but not the losses."

"My thought is that the war burdens should be distributed per capita among the 25,000,000 persons making up the former empire, not including Hungary. It is impossible to make 61-2 per cent of the people pay all the debt. If it is argued that special consideration because they are one of the associated powers, it must be taken into consideration that a majority of the Austrians did not want the war. They were forced to fight, just as the Czechs were. It stands to reason that they should not be asked to pay for our daily food."

Danube Federation Impossible. "We are ready for a peace that will let us live. Our delegates at St. Germain must report to parliament, which has sole authority to decide whether or not to sign the terms." The president said that a Danube federation was impossible, adding: "It would mean the restoration of the old empire, and that the new nations would lose a great part of their sovereignty. It would mean a tariff union to secure which it would be necessary to arrange customs, taxes, banks, and so on. This is against the laws of the same kind in all the nations affected which could not be done by treaties, but would require a constituent assembly in which the German-Austrian would dominate in the old empire because they form a neutral body between the Czechs and Jugo-Slavs who are temperamentally different in thought and religion."

MURDERED RUSSIAN FOUND NEAR GALT

Was Lured Into a Gravel Pit—Claim a Bulgarian Guilty of the Crime.

Special to The Toronto World. Galt, Ont., May 27.—Lured into a lonesome gravel pit in a bush on the farm of H. E. Sheldon, West River Road, about a mile from the city, was brutally murdered. Stayko Boyeff, a Bulgarian, aged 22, also of Stratford, is now in the local cells, held as a material witness when it was stated that a fellow Bulgarian by the name of Ivan, also of Stratford, committed the murder by striking the Russian over the head with a stone, following a quarrel over Bolshevism. The murder was discovered only today as a result of the trouble taking of Boyeff who had been in the gravel pit for some time last night told of the cold-blooded killing to Rev. R. Kalsunoff, Bulgarian minister, who advised him to tell the police of Brantford, which he did, and then came on to Galt. Boyeff took Chief of Police Gorman to the exact spot and the body was found completely covered with stones. The head was buried in a hole in the gravel, smashed beyond recognition, while the clothing was ripped about the pockets, which were inside out, a circumstance which the police feel indicates that the murderer was a burglar who was robbed. Before Boyeff was arrested this morning he handed to the Bulgarian minister a club bag he had used for a coat, in which he placed \$110, which he said he drew out of a Guelph bank Monday, having deposited it in Guelph to avoid paying tax on the money. Boyeff tomorrow will be remanded to jail for a week. This is the first murder here in 20 years and Chief Gorman tonight is sending out descriptions of the alleged murderer.

NEW SIGNAL SWITCH HELP TO HOSPITALS. A new device called a hospital call switch has just been developed by a large electrical manufacturer in Milwaukee. It is made for installation in a standard switch outlet box and the wiring for it does not extend beyond the box. No flexible conductors or pendant switches are required for its use, and consequently the annoyance of having these parts worn or broken is eliminated. It is so constructed that the patient can complete the circuit to signal the nurse, and the nurse can push it "off" only at the bedside. Further, as the live parts terminate in the wall, there is no possibility of the patient coming in contact with them. Therefore, it has none of the objectionable features generally present in such systems, and is a means of making a neater and cheaper installation. A pull chain, to which a linen cord is attached, is used to pull the switch "on." The push button, located above the horn, thru which the pull chain extends, is used by the nurse to push the switch "off." In a ward, there two or more switches are used on the same signal line, the protruding button indicates to the nurse which patient called. The signal remains "on" therefore until the nurse comes to the bed to push the switch "off." The plate is the same size as the one used for electric light wall switches and receptacles. The new device may be used on any standard lighting circuit of 125 volts or less.

GIFT TO MRS. WILSON CALLED WORK OF ART. The magnificent corsage ornament presented by the citizens of Paris to Mrs. Woodrow Wilson, when she went to France on the first trip with the president at the opening of the peace conference, was made by Rene Lalique, regarded as the world's greatest craftsman in jewelry and glassware. It was brought to the United States when President and Mrs. Wilson returned in February. The ornament is in the form of an immense olive branch, made entirely of diamonds. Among the diamond twigs are perched eight doves of translucent enamel, both olive branch and doves emblematic of peace. The backs of the doves are of the color of burnished gold. The ornament was enclosed in a beautiful casket of engraved glass, also of Lalique. The casket has a frame of gold set with glass decorated with engraved butterflies and leaves. The casket is considered by connoisseurs a masterpiece of art. The value of the diamond ornament is not known, but it is immensely valuable. One beauty about it is that with diamonds regarded nowadays not only as the most beautiful of jewels, but as one of the safest investments, the ornaments will grow in worth and be more valuable as an heirloom a few generations hence than it is today.

"BOCHE" HURLED AT HER; WINS ACTRESS MARY. Mile Gabrielle Dorziat, the Parisian actress, has been awarded \$4,000 damages against Mile. Blanche Toutain, another celebrated comedienne, who, in conversation, had described Mile. Dorziat as a Boche. Mile. Dorziat was born in France, of Alsian parents.

Annual Inspection in Guelph Of All the School Cadet Corps. Special to The Toronto World. Guelph, May 27.—The annual inspection of the collegiate institute and publication cadets took place today on the collegiate campus by Lieut.-Col. McCrimmon of London. The inspection and drill lasted for two hours and the entire body of cadets forming in mass for the march past.

Great

New York Thursday. Stock Exchange made.

With Toronto as well as a number of western cities facing the prospect of an industrial tie-up it was not wondered at that there should be a liquidation of stocks and result in a general depression in the local market.

On the whole stocks behaved very well here, although in Montreal there was a condition of depression also revealed, the decline in prices was attributed to free selling by Toronto investors. The news from Ottawa, indicating that something in the nature of a political crisis is likely to be brought about by the introduction of the new tariff factor which is giving the traders pause and inducing some nervous holders to let go.

Losses running to more than a point were quite common, but there was no general volume of liquidation in any one direction to single it out for special attention. The weakness was most pronounced on the afternoon board, but it was accompanied by a shrinkage in transactions, and the bearish sentiment was more clearly conveyed in the manner in which bids were scaled down at the close. For example, the bid on Maple Leaf, after sales had been made at 165, a decline of 2 1/2, led to 160. Dominion Iron yielded 1 1/4 to 61 3/4 with the final bid half a point at 114 1/2, and Canadian General Electric down a point at 69.

Spanish River after selling as high as 95 fell back to 25, showing no net change. Steamships common declined 1/2 to 49 3/4, while the preferred 53 3/4 exhibited a loss of two points.

In the transactions the movements were variable. Toronto Railway and Steel of Canada showed weakness, but Toronto City was strong and Barcelona rallied after yielding to pressure. Toronto Railway at 39 5/8 was at the lowest point on record, 39 1/4 being bid at the close. Brazilian at 57 3/4 was down a point. Twin City added a point to its recent advance by selling at 50, at which price there were no transactions in New York. Barcelona, much more active than usual, closed firm at 10 3/4 after selling at 10 1/4. The war loans were dull and steady.

Today's transactions: shares 2,841; bonds \$50,900.

BIG BULL MARKET BEGINS TO WAVER

Trading in New York is on Huge Scale, But Irregularity Develops.

New York, May 27.—Dealings on the stock exchange today were again very active and broad, falling only by a small margin to equal yesterday's two million share day, which established a record for over two years.

Frequent periods of uncertainty marked the session, due mainly to the approaching triple holiday with its attendant uncertainties, but final quotations, also decidedly irregular, disclosed many substantial gains.

Developments of the day bore little direct relation to market conditions, apart from the further heavy expansion of brokers' loans, which doubtless accounted for the firmer money tendencies.

Motors and associated specialties, also steels and equipments were once more the chief elements of speculative interest, but rails were more active and metals made occasional response to reports of a revival of foreign demand.

Tobacco and food shares asserted some of their recent prominence in the later dealings, but shipping, excepting Marine Common and United Fruit, moved within narrow limits. Oils moved in a 2 to 4 point radius, but ended at irregular gains and losses.

Such specialties as United States Rubber, American Woolen, Food Products, Industrial Alcohol, and chemical and fertilizer issues furnished much of the strength of the final hour with Southern Pacific.

Changes among steels were mostly nominal, U.S. Steel retreating only a fraction of its 15-8 point reaction, but Southern Pacific held at a substantial advance. Sales amounted to 1,825,000 shares.

Victory bonds made their first appearance on the exchange, selling at 99.88 to 99.96, the Liberty group holding firm, while internationals eased. Total sales, par value, aggregate \$13,756,000.

STOCKS ARE DEPRESSED IN MONTREAL MARKET

Great Deal of the Liquidation Understood to Come From Toronto.

Montreal, May 27.—Trading on the local stock exchange today contracted by about 11,000 shares, business consisting mostly of liquidation, a great deal of which appeared to be coming from Toronto. The market closed at net losses ranging from a fraction to 3-4 points, while very few issues closed at a net gain for the day.

Despite the sagging tendency, generally, two issues not recently active, made new high prices for the year. These were Ames-Holden common, 3 points higher at 37, and Ripon, which added one point at 98. The few stronger issues elsewhere included Atlantic Sugar common, up on point to 33, while the preferred eased to 92. Hill crest up one point at 61. Ogilvie, one point at 257, and Bank of Commerce, up 2 points to 203.

The Spanish River issues, the Steels, Breweries, and Brompton furnished the greatest number of transactions to the trading with the first named leading. Of the common, some 3300 shares changed hands, at 25 1/2 to 26 with the closing price at 26, which added nearly 1300 shares of the preferred, sold down 1 3/4 points to 101 1/4.

Dominion Steel eased one point, to 61 3/4 on sales of 1100 shares. Canadian bonds, 2 1/4 to 42 1/2, which added 1,010 shares, and Scotia and Ontario, in quiet trading, lost a small fraction each. Breweries continued its downward course, began the previous day, adding a further 2 1/2 points loss to the 1 3/4 made on Monday. Brompton broke to 60 1/2, a net loss of 1 3/4 points.

ON PARIS BOURSE.

Paris, May 27.—Prices were irregular on the bourse today. Three per cent rentes 62 francs for cash. Exchange on London 50 francs 40 centimes. The dollar ranged from 6 francs 53 centimes to 6 francs 58 centimes.

ON NEW YORK CURB

New York, May 27.—There was a strong buying movement in the oil issues, many of which advanced sharply. Couden and Co. under heavy buying advanced to new high prices for the year. It is understood that this issue will be placed on the New York stock exchange shortly. Merritt Oil, Atlantic Petroleum, Pennock Oil and Federal Oil were in demand at advancing prices.

NEW YORK COTTON.

J. P. Bickell & Co., 802-7 Standard Bank Building, report New York Cotton Exchange fluctuations as follows:

Table with columns: Open, High, Low, Close, Prev. and rows for Jan, Mar, May, July, Sep, Nov, Dec.

UNLISTED STOCKS.

Table with columns: Name, Asked, Bid and rows for Albiti Power, Brompton, Black Lake, etc.

Bank Statement for April

Ottawa, May 27.—The bank statement for April shows an increase in savings deposits of approximately \$33,000,000. Call loans, both in and outside Canada, show a decrease. Current loans in Canada are about \$10,000,000 lower. Current loans outside Canada have increased. The principal items are:

Table with columns: Reserve fund, Note circulation, Demand deposits, etc.

Table with columns: Current loans, Total loans, Total assets and rows for various categories.

G. T. R. EARNINGS

The Grand Trunk Railway System's traffic earnings from May 15th to 21st:

Table with columns: 1918, 1919, Increase and rows for various months.
