WHERE DID IT COME FROM?
BANK MANAGER MAY REVEAL STORY

One of the Witnesses Summoned to Appear at Bribery Enquiry To-Day—George C. Gibbons, K.C., to Be a Witness.

George C. Gibbons, K.C., chairman of the London Liberal Association, will be the star witness when the London bribery case is resumed before Magistrate Denison this morning. He has been subpoenaed to tell where the money that was spent in the by-election came from.

Mr. Gibbons is the man whom Collins swore told him he would "see him in a-ha" before he would give him any hush money, because, as he said, his shirts were clean. He has fought the battles of Hon. Charles Hyman for twenty years and may be regarded as Hyman's closest friend in London.

John Pringle, manager of the London branch of the Bank of Toronto, has also been subpoenaed. During the investigation Mr. DuVernet has attempted to show that Hon. Walter Scott and Messrs. Corey and White of Ottawa cashed cheques for large amounts at this bank.

Another witness whose evidence is expected to prove sensational is William Spence. For many years Spence was deputy returning officer in a polling sub-division, but was replaced in the Hyman-Gray by-election, because the prosecution alleges, Collins was to date, which Spence had refused to do.

Spence is also supposed to know something of the alleged fixing of a ballot-box in the Beck-Rumble election, with which it is said William Serviss and Ed. J. Sifton had some connection.

May Be Called After All.

It is also understood that Frank Hutchison, a London teamster, who claims that he was subpoenaed as a witness and was later called off by London Conservatives because he knew of shady transactions on the Conservative side, will testify to-day.

It was stated last night that there would be another big bunch of witnesses from the Police City at the police court.

It is alleged that the prosecution has been endeavoring to subpoena Joseph E. Duffield, known as a millionaire in London, and one of Hyman's ardent supporters. He is president of the City Gas Company and several of the City employees of that company, claim that they received mysterious \$10 letters during the elections. Mr. Duffield was away from London on a duck-shooting expedition for a few days, but he returned last evening at 5.30, accompanied by Major Beattie, ex-M.P. of London, who is said to be a material witness in the O'Meara perjury case, the major having been in Brantford during the Heyd-Henry election, when O'Meara is alleged to have impersonated him there. It is said that Major Beattie saw O'Meara in Brantford, and is prepared to swear that he is the man the crown is looking for.

Hardy Kipped the Police.

So far as known, Ed. J. Sifton, one of the missing witnesses, is still in Buffalo and will not be called to-day. The other missing defendant in the conspiracy charge, arrived in London at 5.25 Sunday evening last from the Canadian Northwest, but he slipped thru the fingers of the police and is now said to be in Toledo. The London officers claim that they had no instructions from Toronto to arrest Hardy, and that they understood that the Toronto police were looking after their man. Hardy left for the States Monday morning. It is asserted in some quarters that the crown may yet be able to produce Hardy, who may be induced to give himself up.

The London lawyers who are acting for the crown claim that the London case is not as yet anywhere near a conclusion.

Harry Ranahan, president of the London Young Liberal Club, who was an important witness just before adjournment on Wednesday last, and who was to have been called to-day, is understood to be seriously ill in St. Joseph's Hospital, London.

Trans Card for O'Meara?

The O'Meara perjury case will be called before the bribery case at the police court this morning.

To the World last night, J. Walter Curry, who is conducting the defence, would make no statement. It is asserted by good authority that O'Meara has a strong defence, which will be sprung at the right time.

Owing to the illness of T. C. Robinson, K.C., who has been conducting the defence in the bribery cases, his place will be taken this morning by his partner, Mr. Godfrey. Mr. Robinson is leaving town for a few weeks' rest.

MINISTER BORDEN REBUKED.

Kingston, Oct. 30.—The Kingston Evening Association this evening re-elected John McDonald Mowat president.

The recent appointment of Major Shannon, a Conservative, to the military department, was under review and Sir Frederick Borden received scathing criticism for allowing Tory officers at headquarters to run his department.

Babbit Metal. The best made Canadian Metal Co.

SENATOR COX AT COBALT.

The newest sensation in Cobalt is a report that Senator Geo. A. Cox has got in with both feet. He took a quiet trip up there the other day, dropped in without being recognized, spent three days looking at the actual mines and veins, and made only one remark on his return: "We Canadians do not know what we are letting slip by us."

So he has gone into a syndicate organized by Clarence J. McCuaig, the well-known broker, to take over and reorganize the Trethewey Silver-Cobalt Co. It will be remembered that Mr. McCuaig thought he had everything closed with Mr. Trethewey a fortnight ago, but friction occurred and Mr. McCuaig appealed to the courts for an order compelling Mr. Trethewey to carry out a certain agreement. Another broker also entered a similar suit. Now it is believed that all the interests have been harmonized, and that to-day will see the stock of the company pass into the hands of the McCuaig-Cox syndicate.

The stock is a million dollars, divided into 200,000 shares of \$5 each. The great bulk of this goes to the syndicate, and the Tretheweys get a very large sum in cash for it. The stock has been off the market for some days, and was last quoted at \$7.50 for five dollar shares.

The Trethewey Silver Cobalt owns what is known as J. 37, consisting of 40 acres adjoining the railroad properties in the town of Cobalt, on the hill behind the town, but only a few steps. It has a good plant, shaft house, tramways, electric plant, No. 12 compressor, and the usual buildings. Since it began operations in 1904 it has shipped over \$400,000 in ore and has a lot ready to ship. There is a \$50,000 dump on the lot. The officers were: President, W. G. Trethewey; vice-president, E. E. Carter; secretary, S. W. Black; treasurer, F. W. Strath. John Redington is the mine superintendent.

It is likely that there will be a lot of activity to-day over this announcement.

TOLMIE SWEEPS N. BRUCE MAJORITY FOUR HUNDRED

Great Personal Popularity of the Liberal Candidate and Promise of Public Works Chiefly Responsible for Gain of Seat.

Amabel (incomplete).....	40
Albion (incomplete).....	50
St. Edmunds.....	28
Kincardine township (inc.).....	47
Total (incomplete).....	429
Majority for Tolmie.....	348

Tara, Oct. 30.—(Special).—The by-election in North Bruce to fill the vacancy in the house of commons, caused by the death of Leonard T. Bland, Conservative, resulted in the return of John Tolmie, Liberal, over Abram McLelland, Conservative, by a majority of nearly 400.

In the general election Mr. Bland had a majority of 107 over J. E. Campbell.

The victor of to-day was the member for West Bruce previous to the general election of 1904. In that year he lost the convention to Mr. Campbell.

He is immensely popular all thru the riding, and this largely accounts for his extraordinary run. A month before the election he was inclined to allow him the seat by acclamation; their first nominee, Mr. Rushon, threw up the sponge immediately after the convention, but at the second convention a candidate was found in the person of Abram McLelland, a respectable farmer and drover, but woefully inexperienced in things political.

No one expected him to win, but it was not thought Mr. Tolmie's majority would be so great. The two townships did not do as well for the Conservative as expected.

A great play was made by the Liberal candidate and his platform supporters on the advantages that would accrue to North Bruce thru the election of a supporter of the government. Fish, lumber, and other public works were promised the coast towns, and this is believed to have had the effect desired by the ministerial party. Apart altogether, however, from these inducements, John Tolmie is a great mixer, while his opponent is practically unknown. It was a Tolmie victory.

PERSONAL VICTORY.

(The Conservative Point of View.)

Kincardine, Oct. 30.—(Special).—The expected happened in the by-election here to fill the vacancy in North Bruce created by the death of L. T. Bland. John Tolmie, Liberal, appears to have made gains all over the riding in rural and urban localities.

The public issues before the people were not considered to any great extent, and the contest simmered down to a test of personal strength between the two candidates. The Conservative candidate, A. McLelland, is a substantial farmer, a dealer in Kincardine Township, but is lacking in education, and has had no municipal experience whatever. This told heavily against him, and the voters were told he could neither read or write. This was the main factor in his defeat. He ran well in his own locality, but fell behind elsewhere.

His opponent was better known, had large municipal and parliamentary experience, and was generally regarded as a good fellow. He won many votes by his social qualities, and the result cannot be considered in any way a reflection on the public opinion with respect to the issues dividing the two parties.

BELGIUM APPEALS TO OTTAWA

Hitch on Quebec's Part in Carrying Out of Agreement.

Montreal, Oct. 30.—(Special).—A remarkable story is going the political rounds here. It appears that when Hon. Jean Provost, who is a member of the Quebec government, was in Belgium last summer, he promised \$2000 on behalf of his government to aid a Belgian emigration project which included the founding of a paper to be called The Echo de Canada.

Now it appears that there is some hitch at Quebec about the matter, and the Belgian minister of foreign affairs has communicated with Ottawa on the subject. It threatens, in fact, to become an international affair.

STRANGE TALES OF MRS. EDDY WHICH SHE PARTLY REFUTES

Allegations That Leader of Christian Science Cult, Ill With Cancer, Has for Three Years Been Persecuted by Understudy to Deceive Her Followers—She Accords Reporters a Peculiar Interview.

New York, Oct. 30.—Members of the Christian Science Church here have read with amazement the story in the New York World, in which it charged that Mrs. Mary Baker Eddy is dying from cancer, that she is too ill to be seen in public, that for three years she has been persecuted by another woman, and that her fortune, estimated at from \$15,000,000 to \$20,000,000, has disappeared.

The World's charge, that Mrs. Eddy is persecuted by another woman in order to conceal her real helplessness from the public, is told in the following paragraphs:

"Her daily drive thru the streets of Concord is a fraud. Ostensibly Mrs. Eddy makes this daily public appearance, dressed in velvets and ermine, to show her followers that she is in perfect health. It is not Mrs. Eddy, but an impersonator, trained and equipped for the purpose, who appears in this exhibition drive. This impersonator is known to be Mrs. Farnelia J. Leonard of Brooklyn, head of the Christian Science Church in that borough.

"The city directory gives Mrs. Leonard's home address as 356 Clinton avenue, Brooklyn. This may be a technical fact. Actually, however, Mrs. Leonard has been an inmate of Mrs. Eddy's home at Concord for the last three years.

"There she has been perfecting herself as an understudy for Mrs. Eddy, has impersonated the 'head' of the Christian Science Church in daily exhibition drives when to move the real Mrs. Eddy from her bed would have meant the almost certain death of the enfeebled woman.

"The manner in which it was discovered that it is Mrs. Farnelia J. Leonard of Brooklyn who impersonated Mrs. Eddy in the daily carriage drives is interesting.

"There is nothing imposing about Mrs. Eddy's carriage. It is a flat-top ped coach painted black and drawn by two fat horses, trained to move at 302 mph. The driver's seat is level, with the body of the coach. Two short, thick-necked men in livery of a dark maroon and wearing silk hats of a by-gone style occupy it. One is August Mann, the coachman, the other Calvin A. Frye.

"There is time for a glance thru the windows as the coach lumbers by. If the window is closed, as it usually is, little can be seen of the single inside occupant.

"This woman is crowned with a wealth of snow white hair and muffled almost to the ears in a cape of ermine. Her white-gloved hand holds a small

WILL ANGLLO-JAP TREATY DRAG COLONIES TO WAR WITH UNCLE SAM?

Earl Grey, Replying to Question in British House of Commons, Says There is No Indication That Such is Likely.

London, Oct. 30.—Replying to a question in the house of commons by C. W. Bellairs, Liberal, as to whether there was any provision in the Anglo-Japanese treaty safeguarding his majesty's dominions from becoming involved in a war with America on behalf of Japan, Earl Grey, the foreign secretary, wrote a reply in which he referred the question to the text of the agreement.

The foreign secretary added: "This agreement is of a general character, and there is no indication that it is likely to lead to a war with any power."

G.T.R. SUPERANNUATION.

Officials Said To Be Trying to Change System.

St. Thomas, Oct. 30.—Officials of the G.T.R. will make an effort to have the present superannuation system abolished, and a new one substituted.

Under the present system the men contribute to the fund, but under the new system proposed the employees will not be asked to contribute one cent.

This will place the company in a position to do about as it desires so far as superannuation is concerned.

evening. James Steele, chairman.

Catarrh of the Stomach

A Pleasant, Simple, But Safe and
Effective Cure For It.

COSTS NOTHING TO TRY.

Catarrh of the stomach has long
been considered the next thing to in-
curable. The usual symptoms are a
full or bloating sensation after eat-
ing, accompanied sometimes with sour
or watery risings, a formation of
gases, causing pressure on the heart
and lungs and difficult breathing.
Headaches, nervousness, irritability,
loss of appetite, general languid
feeling.

There is often a foul taste in the
mouth, coated tongue and if the in-
terior of the stomach could be seen it
would show a slimy, inflamed condi-
tion.

The cure for this common and ob-
stinate trouble is found in a treatment
which causes the food to be readily
thoroughly digested before it has time
to ferment and irritate the delicate
mucous surfaces of the stomach. To
secure a prompt and healthy digestion
is the one necessary thing to do when
normal digestion is secured the cat-
arrhal condition will have disap-
peared.

According to Dr. Harrison, the ear-
liest and best treatment is to use after
each meal a tablet, composed of Dis-
tase, Aspicin, Pepsin, a little Nux-
golden Seal and fruit acids. These
tablets can now be found at all drug
stores under the name of Stuart's Dys-
pepsia Tablets and not being a patent
medicine can be used with perfect
safety and assurance that healthy ap-
petite and thorough digestion will fol-
low their regular use after meals.

Dr. R. S. Workman, Chicago, Ill.,
writes: "Catarrh is a local condition
resulting from neglected cold in the
head, whereby the lining membrane of
the nose becomes inflamed and the
poisonous discharge therefrom pass-
ing backward into the throat reaches
the stomach, thus producing catarrh
of the stomach. Medical authorities pre-
scribed for me for three years for
catarrh of stomach without cure, but
to-day I am the happiest of men af-
ter using only one box of Stuart's
Dyspepsia Tablets. I cannot find ap-
propriate words to express my good
feeling. I have found fresh, appetite
and sound rest from their use."

Stuart's Dyspepsia Tablets is the
safest preparation as well as the
simplest and most convenient remedy
for any form of indigestion, Catarrh
of stomach, biliousness, sour stomach,
heartburn and bloating after meals.

Send your name and address to-day

yourself. Address F. A. Stuart, Co.,
20 Stuart Bldg., Marshall, Mich.

TORONTO SYNDICATE BUYS RED ROCK MINE AT COBALT

Original Owners Offer \$30,000 to
Be Released From Contract
—Sale of Refuse Ore.

North Bay, Oct. 30.—(Special).—Quite
a sensation was caused in the Cobalt
mining camp to-day by the sale of the
Red Rock property to A. E. Oser
and three other Toronto capitalists.
The purchasing syndicate have had an
option on this property for some
time, but recent discoveries made the
original owners rue their bargain and
a hard fight was made to retain the
property.

Twenty-five thousand dollars was
sent to Cobalt thru a Toronto bank
on Saturday to bind the deal, the
option expiring on that day. The
bank closed before the arrival of the
train bringing the cash, and the Rock
owners were jubilant, thinking they
were released from the option. The
Toronto syndicate thought otherwise,
however, and after many heated con-
ferences the property changed hands
at a large figure.

Timmins and Dunlop, the original
owners, before closing the deal offered
the syndicate \$30,000 to be released
from the contract, but the bid was
not tempting enough to the new owners.

The rich vein on the Green property
has been uncovered on the Red Rock,
and other good veins have lately been
discovered. A large quantity of ore
is already sacked waiting shipment,
and it is expected that Red Rock will
become one of the leading shipping
veins in the district.

The many warm conferences be-
tween the Toronto syndicate and the
Timmins and Dunlop people begin-
ning Saturday and ending to-day
caused considerable excitement in the
camp, where the recent discoveries on
the property are well known.

An interesting incident in connection
with the rich Timmins or La-
rose mine occurred Saturday when the
timbers sold the dump or refuse ore at
\$25 per ton, a transaction which, when
net, at a conservative estimate, \$250,
000 and the owners consider that it
was practically given away at the
figure. The dump ore will be taken
to Providence, Rhode Island, for treat-
ment.

WIDOWS GET DAMAGES.

Action Against Canada Foundry
Successful Under Provincial Act.

The combined actions against the
Canada Foundry Co., which have
been taken up three days in the assize
court, came to a sudden termination
at 6 p.m. yesterday when Mrs. Mc-
Kenzie was awarded \$3000, Mrs. Mc-
Kenzie \$1800 and F. B. Symons \$1500.
When Justice Macree ruled that
plaintiffs could not sue under the com-
mon law act, but only under the
Workmen's Compensation Act, counsel
led together and agreed on the
settlement, which saved the three
widows of Mahoney and McKenzie, who
were killed, and Symons, who lost an
arm. This is the stipulated damage
amount under the act.

PRESBYTERIAN SCHOOLS.

Prof. Kennedy to Prepare an Addi-
tional Text Book.

Rev. Mr. Robertson, general secre-
tary, has returned from Montreal, where
the committee of the Presbyterian gen-
eral assembly on Sabbath schools was
in session. Rev. Dr. Fraser presided,
and a number of matters of consid-
erable moment were carried thru.

Prof. Kennedy of Knox College was
requested, and has consented, to pre-
pare an additional text-book on New
Testament History. The work will be
uniform with the other text books of
the course.

Dr. Kelly presented a list of books
suitable for libraries. The list showed
a wide range and was regarded as re-
presenting a splendid selection.

Rev. J. F. Coffey of the Trinidad
College suggested the awarding of
teacher trading diplomas, where work
done was of a similar nature for which
awards were made in Canada. The mat-
ter was referred to the committee and
will be further considered.

The question of preparing a patrio-
tic service for July 1 in connection with
Canadian Sabbath schools was ordered
to be proceeded with.

Grants to the following synods to the
amounts named were made: Maritime
Provinces, \$500; Montreal and Ottawa,
\$500; Toronto and Kingston, \$500; Hal-
lifax and London, \$250; Manitoba, \$250;
Saskatchewan, \$250; Alberta, \$250, and
British Columbia, \$250.

A feature which commended itself
very strongly to the assembly was the
question of personal letters to every
superintendent in the Dominion, which
had resulted in largely increased revenue
to the funds of the society.

DIVISION COURT CLERKS.

F. R. Chambers, Morrisburg, re-
places the late F. Plantz as clerk of
the fifth division court of the United
Counties of Stormont, Dundas and
Glenary.

Samuel Purser, Port Hope, succeeds
G. M. Purby, resigned, as clerk of the
third division court of Northumberland
and Durham.

Home for Nice Old Men.

Chicago, Oct. 30.—Two years before
he died, in 1905, James C. King, then
70 years old, married Maude Robinson
of Morrison, Ill., aged 19. They made
an ante-nuptial contract, in which she
said she would give up all claim on his
estate for \$50,000.

When she found he had left \$3,000,
she tossed the contract aside, sued
for her dowry, and got \$100,000.
King had bequeathed his whole es-
tate, less the \$50,000, to found a home
for "nice old men, who once held po-
sitions of trust, or had fallen in un-
fortunate ways. No old rascals were
to be admitted.

The executors bought a site yester-
day and will begin to build at once.

Lectures to Mariners.
Capt. Maller will deliver a course
of lectures on navigation before the
local Masters and Mates' Association
during the winter months.

ITCH. Mange, Pruritis Scabietis and
every form of contagious Itch on human
or animal cured in 30 minutes by Wol-
ford's Sanitary Lotion. It never fails. Sold
by Burgess-Powell Co.

HAMILTON HAPPENINGS

CENSURE FOR THE RAILWAY
FOLLOWS FIREMAN'S DEATH

Engineer Disobeyed Orders and
Ambulance Was Not Prompt-
ly Provided.

Hamilton, Oct. 30.—(Special).—Cor-
oner Balf's jury to-night returned the
following verdict, after an enquiry in-
to the circumstances:
"That Harry Clark, G. T. R. fire-
man, came to his death near Copeland
on the morning of Oct. 25, thru a co-
lision between engines 338 and 446, on
the G. T. R. Railway, and that the
engineer of engine 338 disobeyed orders
in stopping his engine when he had orders
to go to Lynden, and that the G. T. R.
officials were negligent in not calling
medical aid and providing an ambu-
lance with more despatch." The evi-
dence went to show that when Clark
was brought to Hamilton he was kept
at the station about 30 minutes before
removal to the hospital.

At the close of the meeting for mis-
sions in the Methodist churches of the
city, Rev. J. R. Trevelyan declared be-
fore a mass meeting in Centenary
Church that he believed that the con-
tributions and subscriptions next Sun-
day would far exceed the amount aimed
at—\$10,000.

Rev. George Jackson, Toronto, ad-
dressed the meeting on "The Destiny
of the Heavens." He said that 40 years
ago the notion of the church was that
the heavens were dropping into hell by
the thousand, but the church now did
not believe that. The matter of allot-
ting positions to men in the world was
in far better hands than ours, said
the speaker, and it was well to leave
it there.

Rev. J. R. Trevelyan presided, and
Rev. S. W. Falls led a missionary
prayer meeting. This afternoon a
meeting was held in the Gore-street
Methodist Church. H. H. Murray gave
an address on "General Conference
and Missions" and Rev. W. E. Pres-
cott spoke on the "Great West."

The court of revision commenced its
labors to-day, dealing with appeals
from Ward 1. Very few of the appeals
went, and a \$4688 was knocked off
during the day.

The price of brick will be raised in
the city in the near future. The reason
given is the extensive building
operations have caused a scarcity. The
price, it is stated on good authority,
is raised from \$5.50 to \$10 per
thousand.

Local thieves are now using gaso-
line lanterns in which to carry away
booty. William Vaneau, who lives on
the Lake-road, reported that 30 barrels
of apples were stolen from his orchard.
A deep inlet runs direct from the
lake to his farm, and the police say
the thieves loaded the apples on the
launch and escaped to the lake. The
thefts were committed three nights in
succession.

Dies From Injuries.

Andrew Murdoch, 51 Oxford-street,
who was run down by a delivery
wagon last Saturday night, died in City
Hospital this morning.

The Fruit and Supply Co. has
been assigned. The liabilities
placed at \$20,000, and the assets at
\$24,000.

James A. Cox, a well-known printer,
and Miss Nora Campbell, Burlington,
were married this morning.

Thieves are busy in the county, steal-
ing barrels of apples from the orchards.
Webster's clearing was broken into
last night, and a quantity of cigars
stolen.

Mrs. Ellen Murphy, 54 North John-
street, is suing her husband, Cornelius,
for alimony.

Break in Gas Main.

Thru a break in the gas main near Ca-
nyaga, this morning, the natural gas
supply was shut off from 7 o'clock till
4 o'clock this afternoon, causing a great
deal of inconvenience to the citizens
who depend upon natural gas for
both heating and cooking.

Dr. Torrey has not yet replied to the
invitation extended to him to visit the
Hamilton.

The transfer of Rev. S. B. Nelson,
Rochester, who has been called to
Knox Church, has been arranged. He
will preach his farewell sermon to his
present charge on Nov. 7.

George Billy Carver, to-day at
the Grand Opera House Cigar Store
the Sovereign Bank has opened a
branch in Long & Bissby's building at
the corner of Main and John-street,
with W. Wallace Bruce in charge.

The Toronto Daily and Sunday World
delivered to an address in Hamilton
before 7 a.m. daily five months; Sun-
day, 50 cents copy. Hamilton office,
Royal Hotel Building, Phone 965.

LEAVES FOR ENGLAND.

Miss Florence Clearhue, one of the
14 missionaries sent to England, left
yesterday for Montreal, from which
port she sailed for England. Clearhue
will be located in India.

COL. HENSHAW ILL.

Montreal, Oct. 30.—(Special).—Lt. Col.
Fred Henshaw, who has not been well
for a year past, was taken suddenly ill
this afternoon and the doctors fear
that the attack is serious.

Avoid the Knife For Itching Piles.

It is customary for physicians to re-
commend surgical operation as the
only cure for piles, and on the strength
of such advice many a person has un-
dergone the suffering, the expense, and
the enormous risk of such an opera-
tion only to be disappointed by a re-
turn of the old trouble.

A safer, cheaper, and even a more
certain cure is found in Dr. Chase's
Ointment. And while this is a strong
statement, it is fully corroborated by
the positive evidence of well-known
people who have been cured by this
treatment, even after surgical opera-
tions had failed.

A strong point about Dr. Chase's
Ointment is the promptness with which
it brings relief from the torturing, it-
ching, stinging sensations which make
this disease unbearable. The complete
cure is often brought about by one
or two boxes of this ointment, even in
chronic cases of fifteen or twenty
years' standing.

Dr. Chase's Ointment is the only
positive and guaranteed cure for every
form of piles, 60 cents a box, at all
dealers, or Edmondson, Bates & Com-
pany, Toronto.

Government Controls See Situation.
Reminds Premier.

At the close of the cabinet council
yesterday, at which a large amount
of routine business was dealt with,
Premier Whitney stated that nothing
of public moment had come up. Vari-
ous topics were proposed to him—East
Hamilton, Temiskaming Railway
Board, appointments, resignations—but
nothing of importance occurred. Finally,
the \$60 guarantee was mentioned, but
neither was this a matter for the
newsmen.

"Don't forget," added the premier,
however, as he climbed downstairs,
"the government is in control of the
situation."

PRESENTED WITH TROPHY.

At an open meeting of Etowasop
Lodge, I.O.O.F., in the Temple building
last night, the beautiful shield, the gift
of Rylie Bros., for the best float in
the grand parade in September, was
presented.

The trophy is a large maple leaf in
silver, with the letters I.O.O.F. shown,
and beneath the three links and then a
scroll. There is a suitable inscription.
The whole is mounted on a shield of
bird's-eye maple.

PERSONAL.

WOMAN'S WORLD.

IF THOU MUST LOVE.

If thou must love me, let it be for naught
Except for love's sake only. Do not think
I love her for her smile . . . her look
Of speaking gently—for a trick of thought
That falls in well with mine, and certes brought
A sense of pleasant ease on such a day.
For these things in themselves, beloved, may
Be changed, or change for thee—and love
May so wrought, so. Neither love me for
Thy own dear pity's wiping my cheeks
A creature might forget to weep, who bore
Thy comforting, and those thy love
Thy comfort, for love's sake, that evermore
Thou mayst love on, thru love's eternity.
—Elizabeth Barrett Browning.

Origins of Halloween.

For centuries Halloween, or as it is sometimes called, Witchcraft Night or Snapapple Night, has been a time of festivity for old and young. Tradition has it that at this time the spirits of the dead wander abroad, together with devils and mischief-making elves. The origin of Halloween is peculiar, an old volume saying that it is "a curious reproduction of classic mythology, Druidic beliefs, and Christian superstitions." On Nov. 1 the Romans had a feast to Pomona, the goddess of fruits and seeds, and it was then that the stores laid by in summer for use in winter were opened. Hence the appropriateness of nuts and apples at this time. Nov. 1 or thereabouts was also the great autumn festival to the sun, which the Druids celebrated in thanksgiving for their harvest. Now, the Druids believed in transmigration, and taught that on the eve of the festival Saman, the Lord of Death, called together the wicked souls that within the last 12 months had been condemned to occupy the bodies of animals. But Saman might be propitiated thru the priests by means of gifts and incantations to mitigate his sentences.

Some superstitions are pretty and attractive. The custom of the Druids of lighting their bonfires in honor of Baal in November, which continued until years ago, especially in Wales. Each family made its own fire, and when it was dying out each member would throw a white stone on to it, having marked the stone for identification. After saying prayers the family retired and in the morning tried to find the stones again. It was missing the unfortunate owner would die within a year.

In some parts of Ireland Oct. 31 was known as Oldche Shamhna, or Vigil of Saman. On this night the peasants assembled with sticks and clubs, going from house to house, collecting money, bread, butter, cheese, eggs, and such like goods. The boys and women made griddle cakes, while candles were distributed in the neighborhood and lighted on the next day. The dangerous women sat up all night, concealed in a corner of the room, convinced that the apparition of a future husband would come down the chimney.

Many of the pastimes and games that are still indulged in by our own generation were also common centuries ago. Dipping for apples and nuts, endeavoring to bring one up in the mouth, suspending a cord with a cross-tick, with apples at two points and lighting candles at the others, and trying to catch an apple while in motion.

The boys of Scotland sing:
"This is the night o' Halloween,
When a' the witchie folk be seen;
Some o' them black, some o' them green,
Some o' them like a turkey bean."

Life is made miserable on the streets of our own city by boys with a spirit of rowdiness, who ring doorbells and traveling in gangs, each carrying a stock of flour, strike passersby and then disappear. The boys of the Halloween witches were in pursuit.

Refreshments for Halloween Party.
Of course, there must be a "witch" or "fairy" cake. This is generally a spice or devil cake with a white frosting decorated in a grotesque way. The face of a clock, with figures and hands, is painted on the top. The bands pointing to midnight and a cat's head in the center. Another has a face under a tall wizard's hat. The cake is decorated with chocolate, and yellow apples with the centres cut out, leaving the shape intact, are nice filled with chicken or apple and nut salad.

Sandwiches of finely minced nuts, with mayonnaise dressing, salted almonds or peanuts, pumpkin pie, sweet cider, and ham sandwiches form a tasty and simple menu.

What to Wear on Your Hands This Season.
Long gloves in kid are extensively used again this season. In either the 12 or 16-button lengths they will be worn with simple tailor suits for morning and business use or with smart frocks for afternoon or evening wear.

Browns, both the tan and Havana shades, will be most popular with yellowish fashions, grey in the medium shades, colors to match costumes, and of course, black. For dress, the place kid will be used exclusively, for long gloves will not be stylish.

The long dog and pliskin gloves for morning, business, and evening use are a novelty, but will be most serviceable for wear with the short-sleeved jackets. These gloves, either in the 12 or 16-button lengths, fasten with brass clasps that give to the skins a stunning effect which buttons could not lend.

Poisoned by Eggs.
That many people are poisoned by eggs, and not by spoiled eggs only, but often by those that are freshly laid and apparently good, is asserted by a French chemist. The cause of poisoning, due to chlorine or cream cakes, have occurred recently in Paris, and it was in the course of an investigation of these that the French chemist was reached that the toxic action was always the fruit of the eggs in the

WINDSOR TABLE SALT

Windsor Table Salt is PURE—clean, dry crystals that dissolve instantly. Perfect for the table.

WORLD'S PATTERNS DEPARTMENT.

Designed by Mildred Cassels.

LADIES' TUCKED OR GATHERED WAIST.

No. 1042.—The tucked waists maintain their popularity, and are especially liked. The mode here given is closed at the back, and the lingette tucks terminating in graduated depth in front form a pointed yoke, and give the required fullness, or, if preferred, the waist may be gathered. The modish sleeve still has the tight cuff, and medium size puff above, and the design given is in full for shorter lengths. The linings are faced with lace in deep cuff effect for full sleeve. A band or frill serves as a finish for the short sleeves, the frill being optional. Medallions would make the waist attractive, or insertion set in to form various designs below the yoke would make a dainty effect. This mode makes a material. The pattern is in five sizes, 32, 34, 36, 38, and 40 inches bust measure. For 36-inch bust it requires 3-1/4 yards of material 27 inches wide.

World Patterns Department.

Please send the above-named pattern, as per directions given below, to:

Name.....

No.....

Street.....

Town..... Province.....

Measurement—Waist..... Bust.....

Age (if child's or miss' pattern).....

CAUTION.—Be careful to enclose above illustration and send size of pattern wanted. When the pattern is sent, please enclose only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figures representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order. Do not send stamps.

[Special Note.—Always keep duplicate of all orders sent, and send this duplicate in making enquiries about patterns that are not received promptly.]

Address The World Pattern Department, 33 Yonge St., Toronto.

custard, never of mineral poisons introduced accidentally or of the other ingredients of the cream. French eggs, it is said, become infected before they are laid.

Work of the National W.C.T.U.

Hartford, Conn., Oct. 30.—The report of the committee on credentials of the National W.C.T.U., showed a total of 542 delegates, which, the president said, was the largest number that ever attended a convention of the organization.

During the past year the national mission department has distributed more than 970,000 bouquets; 47,072 growing plants; 464,784 text cards and 2,177,083 pages of mission literature.

Mrs. Lillian M. Stevens of Portland, Me., was re-elected president.

Will Wed the Nurse.

Montreal, Oct. 30.—An engagement which has created much interest in Montreal is that of G. B. Bingham, millionaire president of the British American Bank Note Co., to Miss Beard, a graduate nurse. Mr. Bingham, who is 76 years of age, was recently nursed thru a severe illness by Nurse Beard, and the aged patient is said to have formed a warm attachment for her during that period. Miss Beard is 35 years of age and belongs to a well-known family.

Personal Mention.

Mrs. W. Hamilton and the Misses Hamilton will receive in their new home, 28 Beatty-avenue, Parkdale, on Thursday afternoon of this week, and afterwards on the first and third Tuesdays.

Hon. George W. Ross announces the engagement of his daughter Mabel to Charles Leslie Wilson, son of S. Frank Wilson, Toronto.

Dr. Beattie Nesbitt and Mrs. Nesbitt have gone north for a week or two.

Lieut.-Col. Sir Henry Pellatt and officers of the Queen's Own Rifles have sent out invitations to an at home, regimental inspection, and presentation of prizes at the armories on Wednesday, Nov. 7, at 8.30 o'clock.

The Queen City Yacht Club hold their monthly dance on Friday, Nov. 2. The Saturday night card parties start on Thursday, Nov. 3. All members and their friends are cordially invited.

The annual meeting of the Nursing Mission will be held at the Home, 55 Berkeley-street, on Friday afternoon at 3.30.

Lieut.-Col. Stimson and officers of the Royal Grenadiers have sent out cards for an at home in the armories on Thursday evening next at 8.30 o'clock, on the occasion of the annual inspection of the regiment and presentation of prizes won at the annual rifle match.

The annual meeting of the Home for Incurable Children will be held at the Home on Friday, at 3.30 p.m. Mr. W. B. McMurrich will preside. Reports will be read and plans of the new wing for inspection. A very cordial invitation is extended to all to be present.

SERVICEABLE CLOTHING MADE FROM PINE LEAVES

Resembles Coarse Wool and Made Into Garments That Are Warm and Durable.

In Germany and Sweden the great pine forests furnish not only timber and medicine, but clothing as well. The pine leaves are treated with a solution of soda and the fiber applied to textile purposes under the name of "Wool." For forest wool, it has some resemblance to coarse wool, and is spun and woven into blankets and garments that are said to be warm and durable. The pine medicated the cloth so perfectly that crumpled and skin diseases are unknown to the wearers.

The medicinal properties of the pines are known throughout the world. An eminent authority on diseases of the throat and lungs established a camp for consumptives in the pine woods of Maine and made so many remarkable cures there that his treatment attracted great attention from the medical world. His methods were endorsed by the highest authorities. The treatment was very simple, consisting of open air exercise, deep breathing and nourishing food. Every four hours the patient was given one teaspoonful of a mixture of glycerine and pine oil. The pine leaves are treated with a solution of soda and the fiber applied to textile purposes under the name of "Wool." For forest wool, it has some resemblance to coarse wool, and is spun and woven into blankets and garments that are said to be warm and durable.

The medicinal properties of the pines are known throughout the world. An eminent authority on diseases of the throat and lungs established a camp for consumptives in the pine woods of Maine and made so many remarkable cures there that his treatment attracted great attention from the medical world. His methods were endorsed by the highest authorities. The treatment was very simple, consisting of open air exercise, deep breathing and nourishing food. Every four hours the patient was given one teaspoonful of a mixture of glycerine and pine oil. The pine leaves are treated with a solution of soda and the fiber applied to textile purposes under the name of "Wool." For forest wool, it has some resemblance to coarse wool, and is spun and woven into blankets and garments that are said to be warm and durable.

This treatment strengthened the lungs and healed the bronchial tubes. It is claimed that this treatment will break a cold in 24 hours and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost, and can be easily mixed in your own home. Enquiry at the prescription department of one of the leading druggists elicited the information that Virgin Oil of Pine (Pure) is put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with an engraved wrapper, and is named "Virgin Oil of Pine (Pure)" plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure) being put up and sold under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired results.

"THE QUEEN OF THE WHIGS."

"If I were God Almighty," shouted a stalwart free and independent elector of Westminster, as he was being put under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired results.

The two children were great friends, and both were nearly heart-broken when she was sent to the Montreal convent. Longlines impelled the heroine to write her boy friend, beseeching him to come to Montreal and take her back home. The lad showed the letter to his mother one day last week, but she had no suspicion that he meant to take the girl's request seriously until Friday night, when he failed to go to school. The mother, finding out the matter to her husband, called Sunday, when she told him her suspicions. He informed the police of the boy's disappearance, and on investigation they found that he and a companion had bought tickets for Montreal on Friday night.

Accordingly the New York police wired Chief Carpenter of the Montreal detective force, asking him to frustrate the boy's scheme. Chief Carpenter communicated the facts to the lady, superior of the convent.

The Griggs Lecture Course. Edward Howard Griggs begins his new course of lectures on Wednesday, Nov. 14. Subject, Marcus Aurelius. The other subjects of the course are: Savonarola, Erasmus, and Luther. Plan opens at the office of Inspector Hughes on Thursday, Nov. 15. Courses reserved seats \$2. Patrons came last season from outside towns, as far as Peterboro. Tickets may be reserved by letter.

Cost of Running a Big City. New York, Oct. 30.—Just what \$120,000,000 will be required to support the various city and county departments in Greater New York in 1907. The annual budget made public to-day shows appropriation for the year totalling \$130,421,605, a net increase of \$13,612,015 as compared with the present year. The interest on city debt is \$20,739,850, an advance of \$2,340,565 over 1906.

Steamer Total Wreck. Quebec, Oct. 30.—A despatch from Cape Race reports the steamer Elkhart ashore last night at Cape Ballard, Newfoundland, and is a total wreck. She is laden with salt and bound from Hamburg to Charleston, S.C.

Intercollegiate Debate. The schedule of the Intercollegiate Debating Union is as follows: Nov. 27—Wycliffe v. Victoria, at Wycliffe. Dec. 4—Osgoode v. Trinity, at Trinity. Dec. 11—Varsity v. McMaster, at Varsity. Knox won the bye.

Submarine Victims Buried. Bizerta, Tunis, Oct. 30.—The funeral of the sixteen victims of the disaster to the submarine boat Lutin, sunk off this port Oct. 16, took place to-day, when the bodies were buried in the cemetery. The Archbishop of Carthage, Mgr. Combes, conducted the burial service.

Defects in Rifles. Ottawa, Oct. 30.—Enquiry of the Mounted Police department elicits the information that minor defects have been discovered in the mechanism of the Ross rifles recently issued to the force in the west. As a result the rifles are being recalled, in order that this defect may be made good.

May Increase Freight Rates. At the next meeting of the Canadian Railway Freight Agents' Association an effort will be made to increase the rates. The new tariff will go into effect Nov. 15.

Mrs. E. C. Boeckh, 188 St. George-street, will receive the first and third Fridays of the month.

Dr. Lyon's PERFECT TOOTH POWDER

Cleanses and beautifies the teeth and purifies the breath. Used by people of refinement for over a quarter of a century.

Convenient for tourists, PREPARED BY J. H. Lyon, D.D.S.

An ell and three inches long, presented to her by Lord St. Vincent on his return from an embassy to Paris. This set the fashion of those huge plumes which long shook defiance at both satire and common sense. One lady tried to place it to get one higher than the duchess, but without success, till she luckily thought of sending it to an undertaker; he answered her his heaves were all out for a few days, but when they came home he hoped to accommodate her ladyship.

The folly was carried to such height that ladies going to balls had to sit on the floors of their coaches, or chairs, instead of the seats. The head-dresses became so enormous that Mrs. Delany exclaimed, "Surely there is an influence of the brain which must account for the present vagaries."

It is not surprising that Miss Roselle Knott should now be announced as the "Duchess of Devonshire," and will appear at the Princess Theatre next week. Her triumphal career is absolute proof that any woman known to the drama is within the scope of her wonderful dramatic ability and finely studied art. In the charm of her own personality, the exquisite grace of her movements, and the great, glorious shining dark eyes, one can almost see the "Duchess of Devonshire" step out of the Gainsborough portrait.

TO TAKE GIRL FROM CONVENT. Montreal, Oct. 30.—A romance, which was likely to have culminated in Montreal, will be spoiled by the local police before its promoters can carry it thru to completion.

The principals are Edward A. Patterson, 15 years old, and a 14-year-old girl, Miss O'Connor, who is attending the Ville Marie convent. The boy is the son of the Rev. Mr. Patterson, 192 Washington-place, New York, and up to last Friday he was office boy for R. G. Dun Company there. The girl's family lives near the river.

The two children were great friends, and both were nearly heart-broken when she was sent to the Montreal convent. Longlines impelled the heroine to write her boy friend, beseeching him to come to Montreal and take her back home. The lad showed the letter to his mother one day last week, but she had no suspicion that he meant to take the girl's request seriously until Friday night, when he failed to go to school. The mother, finding out the matter to her husband, called Sunday, when she told him her suspicions. He informed the police of the boy's disappearance, and on investigation they found that he and a companion had bought tickets for Montreal on Friday night.

Accordingly the New York police wired Chief Carpenter of the Montreal detective force, asking him to frustrate the boy's scheme. Chief Carpenter communicated the facts to the lady, superior of the convent.

The Griggs Lecture Course. Edward Howard Griggs begins his new course of lectures on Wednesday, Nov. 14. Subject, Marcus Aurelius. The other subjects of the course are: Savonarola, Erasmus, and Luther. Plan opens at the office of Inspector Hughes on Thursday, Nov. 15. Courses reserved seats \$2. Patrons came last season from outside towns, as far as Peterboro. Tickets may be reserved by letter.

Cost of Running a Big City. New York, Oct. 30.—Just what \$120,000,000 will be required to support the various city and county departments in Greater New York in 1907. The annual budget made public to-day shows appropriation for the year totalling \$130,421,605, a net increase of \$13,612,015 as compared with the present year. The interest on city debt is \$20,739,850, an advance of \$2,340,565 over 1906.

Steamer Total Wreck. Quebec, Oct. 30.—A despatch from Cape Race reports the steamer Elkhart ashore last night at Cape Ballard, Newfoundland, and is a total wreck. She is laden with salt and bound from Hamburg to Charleston, S.C.

Intercollegiate Debate. The schedule of the Intercollegiate Debating Union is as follows: Nov. 27—Wycliffe v. Victoria, at Wycliffe. Dec. 4—Osgoode v. Trinity, at Trinity. Dec. 11—Varsity v. McMaster, at Varsity. Knox won the bye.

Submarine Victims Buried. Bizerta, Tunis, Oct. 30.—The funeral of the sixteen victims of the disaster to the submarine boat Lutin, sunk off this port Oct. 16, took place to-day, when the bodies were buried in the cemetery. The Archbishop of Carthage, Mgr. Combes, conducted the burial service.

Defects in Rifles. Ottawa, Oct. 30.—Enquiry of the Mounted Police department elicits the information that minor defects have been discovered in the mechanism of the Ross rifles recently issued to the force in the west. As a result the rifles are being recalled, in order that this defect may be made good.

May Increase Freight Rates. At the next meeting of the Canadian Railway Freight Agents' Association an effort will be made to increase the rates. The new tariff will go into effect Nov. 15.

Mrs. E. C. Boeckh, 188 St. George-street, will receive the first and third Fridays of the month.

COMMITTED FOR TRIAL IN CONSPIRACY CASES

Prosecutions, Result of Civic Enquiry, Continue in Assizes Next Week.

There was little time lost in police court yesterday, over the conspiracy charges laid against a number of business men in connection with certain civic contracts.

In connection with the roofing of St. Lawrence Market, the following were committed for trial: Metallic Roofing Co., Albert Ormsby, Thomas Douglas, Asa Matthews, Henry and John Hutson, Alex. E. Wheeler, George Duthie.

The following will also stand their trial in the high court in connection with the contract for furniture for the city hall: Chas. Rogers & Sons Co., Limited; Office Specialty Manufacturing Co.; Canadian Office and School Furniture Co.; George N. Reynolds.

These commitments are the outcome of the investigation held by Judge Winchester and Crown Attorney Drayton, who prepared the evidence which Judge Winchester heard, prosecuted the cases in police court, before Magistrate Duthie.

The evidence was a repetition of that given at the investigation. George Duthie, who was secretary of the Roofers' Supply Co., testified that there was a take-off on the roofing of St. Lawrence Market, amounting to \$2205. The Metallic Roofing Co. did the work.

In connection with cases against the furniture men, Mr. Drayton read a portion of the testimony given before the civic enquiry. This saved a lot of time.

The conspiracy charges against the other firms, in other lines, will be heard next Monday.

These commitments were committed yesterday will come before the criminal assizes, which commence Monday.

It is likely that Justice Riddell will preside at the assizes, which will be held in Justice Street, who was to have taken the assizes.

UNTRAINED S.S. TEACHERS. Rev. T. W. Powell Deplores Prevalence of the Untrained.

Rev. T. W. Powell, M.A., of Eglinton addressed a large gathering of the Bible training class in connection with St. Cyril's Church, Manning and Follis-avenues. The address was on the privilege of teaching, a subject on which Mr. Powell is qualified to speak, being editor of The Teachers' Assistant, head of a school for boys, and himself a Sunday school teacher.

"Prayer and Preparation" was the keynote of the address, in which he said:

"The boy who is giving you trouble in the class, that boy whom you know is lying to you, do you ever pray for him? What grace are you asking God to give him?"

"Never before your class unprepared. Know what you have to do and do it."

"If a child started to Sunday school five years of age and attended every Sunday until 18 years of age, how many days of the length of a regulation school day do you think he would have attended in that time? Just sixty-five. In fourteen years he will have had just sixty-five days of Gospel teaching."

"Do not waste one minute of the Sunday school time. What you write upon the soul of a child you write upon a rock. Teaching in after years is not writing upon sand."

He deplored the number of untrained and inexperienced teachers.

This was the first of a series of addresses to be given before the class during the season. The class meets every Monday evening in the basement of the church, and anyone interested in Bible study is welcome.

SETTLE FOR \$18,500. Kingston, Oct. 30.—Captain Thomas Donnelly has made a settlement with the underwriters of the steamer John D. Cowie for damages to the steamer when she was wrecked on the St. Clair River in May last, when the Erin sank and five lives were lost.

Conlon Bros., owners of the Erin, received \$18,500 from the underwriters of the Cowie.

Cost of Running a Big City. New York, Oct. 30.—Just what \$120,000,000 will be required to support the various city and county departments in Greater New York in 1907. "In tone, quality, touch and mechanism the Heintzman & Co. Piano would be a credit to any country."

—DR. F. H. TORRINGTON, Director Toronto College of Music.

The Splendid Isolation of the Heintzman & Co. PIANO

is a frequent theme of comment amongst the greatest musicians, whether at home or from abroad.

Durability, pure singing quality, responsiveness of touch and unrivaled tone are some of the characteristics of this remarkable Canadian-made piano.

"Possesses unique musical characteristics that must give it a distinctive place among the great pianos of the world." —BURMEISTER.

PIANO SALON: 115-117 KING STREET WEST, TORONTO, CANADA.

GET IN THE SWIM

Too cold for swimming now, but the food that makes a good swimmer will make good muscle, and bone and brain for YOU.

G. H. Corsan, the well known swimming instructor at Balm Beach, Ont., lived on

SHREDDED WHEAT

Biscuit and Triscuit during the months of July and August to the total exclusion of all other cereal foods. He says that he found them strengthening and nourishing and believes them to be "the only pure whole wheat food."

Shredded Wheat is made in Canada of Canadian wheat. Makes healthy tissue and good red blood. Try it for breakfast with milk or cream.

CANADIAN SHREDDED WHEAT CO., Limited, Niagara Falls, Ont. Toronto Office: 32 Church St.

MUST ATTEND COURT MARTIAL

Militia Orders Issued to All Officers in the Permanent Force.

Ottawa, Oct. 30.—A militia order to-day states that officers holding the higher commands and district officers commanding not within the higher commands will be held responsible that officers appointed to the permanent force attend for instruction all regimental and district court-martials for at least six months from the date of their joining the permanent unit, to which they have been appointed.

Such officers are not to be nominated until they have been qualified to sit, until their commanding officer deems them competent to perform so important a duty, nor, if it can be avoided, until they have previously attended as supernumeraries at least six times.

FOR TEMPORARY PEACE. Modus Vivendi Was Arranged With the United States.

London, Oct. 30.—Replying to further questions in the house of commons to-day regarding the Newfoundland fisheries question, Mr. Churchill, the parliamentary secretary for the colonial office, explained that the modus vivendi was a temporary arrangement made with the United States, intended to avoid the occurrence of untoward incidents during the negotiations necessitated by the action taken by the colonial government, in spite of the representations of His Majesty's government.

Ample precedent for the course adopted could be found in the modus vivendi into which the late Marquis of Salisbury entered with France, respecting the Newfoundland lobster fisheries.

Foreign Secretary Grey announced that the correspondence with the United States and Newfoundland would be presented to the house as soon as it could be prepared.

For Theatrical Trophy. Ottawa, Oct. 30.—A. McLean Macdonell, barrister, 51 Yonge-street, Toronto, has been appointed by the Lieutenant-Governor of Ontario to act as chairman of the Ontario committee in connection with his excellency's musical and theatrical trophy competition, which is to be held in Ottawa in the week commencing Jan. 28.

Where to Go To-Night. Rev. William Surgeon of Cardiff, Wales, will lecture in Western Baptist Church, Lansdowne-avenue, this evening, on "An Englishman's View of Our Brother Jonathan." There will be a free will offering only. The public is invited.

THE COWAN CO., Limited, TORONTO.

UNDER FEDERAL DIRECTION. Grand Valley Railway Escapes Powers of Ontario Board.

The railway and municipal board has found that the Grand Valley Electric Railway is under the jurisdiction of the Dominion, and not subject to the Ontario board. The road was incorporated by the provincial legislature as the Port Dover, Brantford and Goderich Railway Company. An amending act of the Dominion changed this to the present name.

The Brantford Street Railway Company, it is decided, is under the board's jurisdiction, in spite of the company's claim to the contrary. The Woodstock, Thames Valley and Ingersoll is also subject to the board.

November 7 is the date set for hearing the Hamilton City complaint and the Street Railway Company's representations concerning the conditions of the road, upon which expert criticism was strongly adverse.

Weak Lungs

It is the old story of a weak throat, a tendency to weak lungs in the family. You no sooner get rid of your old cold than a new one takes its place. Ayer's Cherry Pectoral breaks up this taking-cold habit. It strengthens, heals. Ask your doctor, the very next time you see him, what he thinks of Ayer's Cherry Pectoral for weak lungs.

ANXIOUS TO LEARN OF CANADA

Dutch Boy Writes Minister of Education Interesting Letter.

Jan Maake is an 11-year-old boy, living at Engelbrecht's Drift, Orange River Colony, who springs into prominence in this part of the globe by having written a letter to the minister of education, asking that something be done to get him a correspondence in Canada. He encloses some medals, wheat, manna, potato, pea, bean, melon, tobacco and pumpkin seeds, which are sent to inaugurate exchange either for seeds or postage stamps.

The idea that fostered by the Empire League, by which school children in various parts of the King's dominions are being encouraged to seek correspondence along lines which will prove instructive as well as entertaining. In this case the boy's teacher has suggested it to him, and he writes the minister, stating that the boy has been attending a government school at Viljoen's Drift for the last two years.

Hon. Dr. Pyne will himself write to the boy, and will have the letter passed on to the inspector Hughes and on to the school children.

HOLLIVAY CASE GOES OVER.

The Hollivay case will be called in police court to-day, but will be adjourned for a week. Witnesses who have been subpoenaed need not attend.

Elected Officers

The Men's Association of St. Ann's Church held their first meeting on Monday night, the rector, Rev. L. E. Skay, presiding. After a musical program, officers were elected, as follows: President, E. S. Hitchman; 1st vice-president, W. Keeler; 2nd vice-president, H. Mumford; secretary, W. E. Davis; committee, Messrs Jackson, Scott, McKee and Sawtell.

Gems Chosen

Already, many an exclusive piece of diamond jewelry has been sold or laid aside for Christmas gift-making.

And, already, more than one pattern has been distinguished to find that some particular jewel—seen at our Autumn opening—has since been secured by some one else.

There is added satisfaction in buying early from our immensely varied stock.

MRS. EDDY'S STRANGE TALES

Continued From Page 1.

carriage parcel of obsolete style. It is open above her head as if the sun were streaming down upon her thru a roofless coach.

"But the coach has a solid roof. Moreover, its windows seldom are lowered. It is almost lightless, and the airless interior, in which it is supposed Mrs. Eddy is sequestered, is canopied by her lace-fringed parasol.

"At a first curious glance thru the window of the coach the real purpose of the open parasol was revealed. Quick as a flash it was lowered and the face of the woman inside effectually masked.

"In order clearly to see the face supposed to be Mrs. Eddy two investigators resorted to a simple strategy. One alighted, stepped to the right-hand window of the coach, the other, in a carriage, passed to the left. Down ducked the parasol to the right, blocking the view on that side, but leaving an unobstructed vision for the man in the carriage. The woman in the Eddy carriage was younger than the aged founder of Christian Science by many years.

The flesh of her face was comparatively firm and the hands that manoeuvred the parasol were steady and strong.

"The full significance of this discovery did not appear until later, when the two investigators stood face to face with the real Mrs. Eddy, pitiful in her weakness.

"The man who made the identification was John J. Hennessey of Brooklyn, and he has made affidavit that the woman who sat in the carriage as Mrs. Eddy was Mrs. Leonard, whom he knows well.

"Mrs. Parnella J. Leonard was first reader of the Christian Science Church and head of the Christian Science Institute in Brooklyn that graduates healers in eight lessons at \$100 for the course.

"In the early days of her leadership she followed the business of healer, charging \$1 for each treatment. Her son assisted as associate healer. Later Mrs. Leonard's personal services in the healing art brought fancy prices.

"Many of her patients died under conditions that aroused widespread indignation. She was the central figure in the story of the death of Mrs. Augusta H. Habel, six years ago. The woman had been converted to Christian Science by Mrs. Leonard. In her last illness Mrs. Leonard and her son were the officiating healers. The dying woman begged for medical aid. Her shrieks aroused the neighborhood. A physician was summoned, but her life could not be saved. Mrs. Leonard kept out of public view for a time after this.

"Mrs. Eddy Receives Press.

To-day at Concord, N.H., the representative of the Associated Press who interviewed Mrs. Eddy ten years ago, went to Pleasant View, Mrs. Eddy's home, and was granted another interview by the same woman. Altho Mrs. Eddy, who was born in 1821, shows her advanced age in some respects, her voice today was strong and clear, and she gave no evidence of decrepitude or of any weakness not to be expected of a woman in her 86th year.

The newspaperman was granted to half a score of newspaper reporters who had assembled here after the publication of the sensational stories in the Boston Herald, and the interview was arranged early in the day by Mr. Cornell Wilson, head of the Christian Science publishing committee, at the home of the newspapermen.

Erwin Sherrin, first reader of the local Christian Science Church; Edward W. Allen, secretary of the State of New Hampshire; Mr. Wilson and Calvin A. Frye, Mrs. Eddy's secretary.

The newspapermen assembled at Mrs. Eddy's home, Pleasant View, and directly they had been seated Mr. Frye announced Mrs. Eddy. The leader of the Christian Science faith walked down the doorway and stood, unassisted, before her interviewers. She did not advance beyond the threshold, and when it was seen that she would not enter the room for a prolonged interview, women reporters who had previously interviewed Mrs. Eddy, was delegated to talk to her.

A Brief Interview.

Mrs. Eddy appeared to be more anxious to demonstrate that she was in good physical condition than to answer enquiries. Just three questions had been asked by the interviewer before Mrs. Eddy, who had been asked a word to her secretary and started for her carriage, to take her customary afternoon drive.

The interviewers were left in the parlors with numerous questions on their lips, but without an opportunity to ask them.

The brief interview consisted of the following questions and answers:

"Are you in perfect physical health, Mrs. Eddy?" was the first question.

"I am," was the brief reply given with distinct enunciation.

"Have you any other physician than God?"

"No, indeed," answered Mrs. Eddy with emphasis, and then she added slowly and solemnly: "The everlasting arms around and above me, which is enough."

"Do you take a daily drive?" was the next question asked, to which Mrs. Eddy replied distinctly and distinctly as she did to the first question.

"I do," she said.

"Goes for Drive."

It was at this point that Mrs. Eddy turned away from the interviewer without another word she walked to where her carriage was awaiting in front of the house. She was escorted to the carriage by Mr. Strong and Mr. Frye and was then driven away, while the newspaper representatives were escorted thru her home, which they inspected with interest.

Mrs. Eddy was attired for her drive when she appeared. The visitors were not able to see whether she had walked from her apartments on the floor above without assistance, for they had no view of the hall.

As if to dispose of the allegation that a member of her household had on many occasions impeded her, there was present at the interview Mrs. Parnella J. Leonard of Brooklyn, N.Y., who has been said one similar in habit of dress to Mrs. Eddy's carriage. There was but one similarity to be noted, and that was the abundance of snow white hair which adorned the heads of both women.

Mrs. Eddy is about five feet four inches in height. Her complexion is clear, and frank brown eyes look steadily at the person whom she addresses. She is frail, weighing not more than one hundred pounds. Her cheeks are not full, but they do not show any signs of emaciation, which could not be produced by advanced years. Mrs. Leonard, on the other hand, weighs nearly 140 pounds, and

there is no facial resemblance between her and her leader.

As proof that the woman interviewed to-day was the woman who ten years ago was at the head of the Christian Science Church, Secretary of State Pearson, a personal acquaintance of Mrs. Eddy for a much longer period, assured the newspaper representatives that their eyes were heavenward before them to-day was the Mrs. Eddy of ten years ago.

"Mystery of the Fortune."

In addition to the allegations concerning her health, The World, taking up the discussion of the mystery surrounding Mrs. Eddy's fortune, said by then to amount to \$1,000,000, and by others \$20,000,000, says:

"Whenever the subject of Mrs. Eddy's millions is touched upon, Frederick Ladd, Mrs. Eddy's cousin and chief agent, who lives at Concord, Cal., A. Frye, her footman-secretary; Mr. Farlow, Mr. Hanna, and other members of the family, and Mrs. Eddy, cast their eyes heavenward and declare little or nothing is left. All, all has been dispensed in charity."

"Challenged to point to one of the stupendous charities of Mrs. Eddy, Ladd, after much pondering, declared each year she gave about \$1,000,000 to charity, and that she gave about a county poor upon the occasion of a county fair."

"It transpired that every year Mrs. Eddy pays for shoes to the amount of \$200 to \$300. It also appears that the faithful driver of the year sent some \$200,000 to charity, and that this is the only 'charity' which Countess Ladd was able to recall, save in a general and indeterminate way."

"Mrs. Eddy's View of Charity."

"Illuminating Mrs. Eddy's real view of charity may be instanced by the manner in which she responded to the appeal for the support of the sister-in-law, Mrs. George Baker of Milton, N.H. Mrs. Baker, who is in her eighties, and the widow of Mrs. Eddy's second brother, George, earns her livelihood with her needle."

"About a year ago she fell ill with typhoid fever, and in order to provide for the support of her family, she had to procure medicines and necessities she mortgaged her home. Learning of the sad condition of Mrs. Baker, Mrs. Eddy, a life-long acquaintance of Mrs. Baker, wrote to the head of the Christian Science Church, detailing the circumstances, and praying the rich woman to forward a small sum to provide for the invalid. She received no answer, and after three weeks wrote a second and then a third time, but elicited no response."

"Mrs. Eddy has said in her publications that she gave the sum of \$40,000 a year which she gathered from the sale of her own 'Science of Healing.' The sum of a single dollar from this source is challenged by those best calculated to know the facts."

"She has no fortune," say Mrs. Eddy's spokesmen. Her closest friends estimate that she had derived between \$15,000,000 and \$20,000,000 from her church dues, her college, her publication, the sale of her Science and Health, and the gifts which have been given to her by her followers. Consequently, if she has no fortune, she must have given away in charity and public subscriptions more than \$15,000,000.

"Yet so modestly she does this that not even her fiscal agent can place his finger upon a single dollar of her fortune. The few hundred dollars expended in buying shoes for the poor of Concord, Mrs. Eddy is not consistently modest, however, in her private life. She has referred to her own 'unexplained generosity and charity.'"

Controls Church Three Boards.

"We are pleased to designate treasurer of New Hampshire, and treasurer of the Christian Science Church of Concord, when pressed for one instance of her generosity, founded pitifully. Finally he said: 'How about the Church of Christ, Scientist, of Concord, N.H.?' Mrs. Eddy, who had been seated, gave the land and the building to the church, and it cost \$200,000."

"Edwin L. Page, who had been seated, gave the land and the building to the church, and it cost \$200,000."

"Edwin L. Page, who had been seated, gave the land and the building to the church, and it cost \$200,000."

BUILD AN ENORMOUS VIADUCT TO DO INSTEAD OF BRIDGES

Works Committee Suggest Structure From Station to Logan Avenue at a Cost of \$1,000,000 - Railways Will Be Asked to Assist in Getting Engineer's Report.

A viaduct to extend from the new Union Station to Logan Avenue as a means of obviating the dangers of level crossings was the proposition brought before the meeting of the civic level crossings committee yesterday afternoon by Chairman Ald. Geary. The cost, as roughly estimated by the city engineer, would be about \$500,000. It was decided to ask the railways to join with the city in appointing an engineer to make a report on the cost and feasibility.

Controller Hubbard said the plan was practicable enough, but objected that the cost would be enormous. Mr. Rust hazarded a guess that five or six millions would be required. Ald. Fleming thought that \$3,000,000 would be sufficient.

Ald. Geary suggested asking the railway commission to appoint jointly with the city an independent engineer to draw up plans, and the city solicitor said he didn't think the railways would be strongly opposed to a viaduct scheme. The city engineer thought the main difficulty would be the loss of the sidings. Controller Hubbard quoted a railway official at Montreal as having said that viaducts could only be built by thru trains, and that the shunting would have to be done on the level. Mr. Rust did not think this would apply to the local situation.

Mr. Rust favors the viaduct scheme. He believes it would ultimately result in a saving by the city of half a million in doing away with the necessity for bridges at crossings.

That Yonge St. Bridge. Is the Yonge-street bridge tangle to be finally straightened out? The action of the board of control yesterday, in deciding to pass on to the city council for approval a bylaw to be voted on by the ratepayers on Jan. 1, providing for the leasing of debentures to cover the entire cost, less \$100,000, which the railways have offered to contribute, makes it appear as if some kind of a solution is a possibility. Of course, the city council may reject the bylaw, or the citizens may at a later stage, but at any rate there is something being done after a long period of inactivity. While the cost of building is not yet precisely calculated, it is figured by Mr. Forman, that \$125,000 would represent the city's share. Tenders are to be called for at once, while the city will still push its action in the high court to make the railways pay the whole cost.

On Controller Jones' motion, there was little debate, the mayor and Controller Shaw believed in asking the legislature to give the city power to issue the debentures, but Controller Jones pointed out that the legislature was averse to the city's expending more money without consulting the ratepayers. The legislature will, however, be asked to give the city power to expropriate the land required.

Closing of Streets. The Canadian Northern Railway is averse to a means of providing an entrance into the city along the Esplanade, the railway agreeing to shoulder any private suits brought by damages. The board of control so decided yesterday.

The company, thru W. H. Moore and P. J. Richardson, also asked that the street be closed, which was objected to by J. W. Flavelle, for the William Davies Company, who urged inconvenience and danger to employees in going to and from their work. The board will give a decision later.

The board of control yesterday took the first step toward instituting an inquiry into the cause of the exhibition fire by requesting Park Commissioner Chambers to lay an information before the police. The work was brought up by Ald. Church, who had received an anonymous communication advocating the holding of an inquiry and offering a reward. The alderman gave the opinion that the civic officials were trying to prevent an investigation, a charge which the mayor refuted.

Dr. Sheard was somewhat exercised in mind over the neglect of the civic department to include him in their number in going before the provincial health board to urge the trunk sewer project. He is also stirred up on behalf of the board, of which he is a member, over the suggestion of the city engineer that that body not be capable of dealing with the question.

The medical health officer, who talked over the sewerage situation with Mr. Rust yesterday, is opposed to the idea of the sewage being emptied into the lake, as it would tend to contaminate the city's water supply, and would result in damage suits from surrounding municipalities. Dr. Sheard is in agreement with the proposition to deal with the matter of disposal after first building the sewer, provided an outfit was not built before being jointly decided upon by the provincial health board and the city.

Mr. Rust, who figures that, besides \$2,500,000 for building the sewer, there would be an added outlay of \$1,000,000 for the septic tank and bacteria beds, favors extending the trunk sewer to Scarborough Heights, so as to avoid the objections sure to be created by residents in populous districts.

City in Good Health. The quality of milk sold in Toronto has improved since the actions have been brought against milk producers for diluting, says Dr. Sheard. However, he adds, dealers are still complaining of the quality, and also that the supply is inadequate, the producers having raised the price of milk, and resorted to the practice of holding back the supply to compel retailers to pay the figure asked.

Dr. Sheard considers that the city has been enjoying good health during October. There have only been three deaths from typhoid, despite the prevalence of the disease throughout the province with an epidemic around the neighborhood of the Soo and Sudbury, as well as in New Toronto. He is pleased with the comparative purity of Toronto's water supply, the fall rains usually hard the effect of washing silt and refuse into the lake thru the Don and the Humber, and

causing a certain amount of pollution at the intake pipes. Touching the condition of the streets he said that street cleaning was getting along very satisfactorily. "It is a matter of general remark that the streets are cleaner than usual," he said. "However, when the frost comes, we will not be able to wash the streets, and they will not be so well kept as under more favorable climatic conditions."

Don't Disappoint Him. City Treasurer Coady expects there will be a rush to-day to pay the meter water rates, it being the last day allowed. He estimates that the payments for the quarter will yield about \$40,000. He points out that there are far more individual payments than a few years ago, owing to the passing of so many houses from the hands of real estate companies into those of tenants.

The island pumping station is to be closed down on Monday. It has been kept going later than usual this fall to accommodate late cottagers.

The insurance companies are willing to pay the whole amount of insurance, \$104,000, on the exhibition buildings destroyed, says Manager Orr.

C.P.R. TO BUILD SPUR. Probably Means Extension to North From Ingersoll.

Ingersoll, Oct. 30. (Special.)—The C. P. R. has been granted a right of way on Victoria-street to construct a spur line to the factory of the Ingersoll Packing Co.

This is taken to indicate that the proposed extension to the north will go thru. Manager Wilson of the Ingersoll Packing Co., who is also a director of the T. L. E. & P. Ry., which was taken over by the C. P. R., said that Mr. Leonard's decision was that the right of way for the spur line was refused, the northern extension would start from Woodstock instead of this town.

The spur line proposition was strongly opposed by residents of the district, while a number of the industries petitioned for interlocking arrangements between the C. P. R. and the Grand Trunk. The council will take immediate steps to secure interlocking.

CASES IN POLICE COURT. Young and Old Vagrants—"Prof." Mana Goes Free.

William Clark, a white-haired man, aged 70 years, was arraigned in police court as a vagrant. He was found sleeping in an old shed without any covering to speak of. He was remanded until Monday, in order that his sister may be located.

John C. Henry, who lived with his parents in Carlaw-avenue, was charged by his father with being a vagrant. The parent said John C. was 22 years old, would not work, and many years ago, Rev. W. Frizzell, East Queen-street Presbyterian Church, testified that John C. was a good young man, who attended the Young People's meetings. John C. was allowed to go, with a warning to leave his father's house.

Hurricane Randolph, the negro who is continually assaulting women, will earn his own living for the next 23 months. He was sent to the Central Prison, where he is being kept on a charge of attempting to kill Giuseppe Valino in the Thanksgiving Day melee in the Ward.

Young People's Rally. In order that young people may be led to take a greater interest in the church work, the Presbyterian Young People's Union have arranged for a rally to be held in College-street Presbyterian Church, corner College and Bathurst-streets, on Thursday evening, Nov. 8.

The speakers, Rev. A. Logan Gieggle, and Rev. Robt. Morrison, M.A., will deal with the subject, first, "What Would it Mean if Our Presbyterian Young People Were More in Earnest in Their Relations to the Church?" and second, "How Can They Be Made More in Earnest?"

The Alexander choir of four hundred voices, under the leadership of Dr. G. L. Palmer, will take charge of the musical part of the rally.

Do You Easily Tire? If a Day's Toil Exhausted Body or Brain, Find the Reason Why.

We all inherit a disposition to disease. With one it's consumption, another heart disease or, perhaps, nervousness. At first you are languid, but as the fatigue increases you lose appetite and spirit, feel as if work wasn't in your line.

Surely no clearer evidence of ill-health is needed. Thousands have been in the same sickly condition; those who heeded not were sorry; those who used Dr. Hamilton's Pills were cured.

Your weakness proves germ life has eaten up the vitality of the blood, and a cleansing tonic like Dr. Hamilton's Pills is urgently needed.

At once your blood will be redden and gain strength. Digestion will so improve that additional nourishment will be supplied to all needy organs.

Surplus vigor will be instilled into the system till disease and weakness are completely driven out.

Truly wonderful is the tonic effect of Dr. Hamilton's Pills, which are considered the best system purifier extant. When you can renew your health with this safe vegetable remedy, the prescription of a noted physician, your duty is clear. Get Dr. Hamilton's Pills at once.

Remember this: It is the prescription of an eminent physician you use in taking Dr. Hamilton's Pills. Absolute safety and permanent results guaranteed in every case of languor, weakness, headache and debility.

Price 25c per box or five boxes for \$1 at all dealers or by mail from N. C. Poole & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

One of the latest pictures of Roselle Knott, the leading American actress, who claims Hamilton as her birthplace. Miss Knott will play at the Princess Next Week.

EARL OF CRANBROOKE DEAD.

At Age of 92—Was Twice War Secretary.

London, Oct. 30.—Gathorne Gathorne Hardy, first Earl of Cranbrooke, who was twice secretary for war and lord president of the council, died to-day at Hemstead Park. He was born in 1814.

The Earl of Cranbrooke was born in 1814. He ran as Conservative candidate for Bradford in 1847, but was defeated. He represented Leominster from 1856 to 1865, when he was elected for Oxford University. This seat he retained till 1878, when he was raised to the peerage. He was successively under-secretary of state for the home department, president of the poor law board, home secretary, secretary for war, secretary for India, and president of the council.

He was educated at Shrewsbury School and Oriel College, Oxford. He owned 6000 acres in Kent and Sussex, and was also a partner in the Lowthian Ironworks.

Funeral of Ex-Mayor Jarvis. Stratford, Oct. 30. (Special.)—The funeral of ex-Mayor P. R. Jarvis, this afternoon, was the largest for years. The city council attended. Services were held at St. James' Church. His son, P. N. Jarvis, second vice-president and traffic manager of the Lehigh Valley Railway, New York, arrived in a private car.

Succeeds Late Father O'Gorman. Gananoque, Oct. 30.—His Grace Archbishop Gauthier has appointed Rev. John Kehoe, rector of St. Mary's Cathedral, Kingston, to succeed the late Rev. Father O'Gorman as rector of the Church of St. John the Evangelist.

May Close Reservation. Washington, Oct. 30.—The interior department to-day received despatches from agents in Nevada indicating that when all the facts are in concerning the opening of Walker Lake Indian reservation, Secretary Hitchcock may be compelled to recommend that the opening be declared invalid.

DRUGS DON'T CURE Electricity.

Your Belt cured me of rheumatism four years ago. T. J. WHITE, Copper Cliff, Ont.

I feel grateful, indeed, for what your Belt has done for me. It cured my backache. A. RUSSELL, Niagara Falls, Ont.

HEARST AND ROOSEVELT IN PARALLEL COLUMNS

Hughes' Manager Will Ask President to "Repudiate" Opposition Document.

New York, Oct. 30. — Timothy L. Woodruff, chairman of the state Republican committee, said to-day that he would advise President Roosevelt to repudiate a campaign document issued by the Independence League in support of W. R. Hearst's candidacy for governor. Mr. Woodruff objects to the publication in parallel columns of extracts from the speeches of the president and Mr. Hearst as to the proper use of wealth.

The publication referred to quotes President Roosevelt in a speech made at Oyster Bay on Sept. 8 last, as saying that the multi-millionaire is not a harm but a good to the community if he appreciates that he is only a trustee for that wealth and uses it for causes of goodness. From a speech by the president at Washington on July 6 last he is quoted as saying that very wealthy men may some times play a useful part in life, but they rarely are as useful as lives which are expended in different fields from those of money-getting. To heap riches on riches, the president is quoted as saying, is merely an evil.

Against this Mr. Hearst is quoted in a parallel column as saying there should be, as far as possible, an equal distribution of wealth; that he believed in organization that tends to distribute wealth; that its distribution is as important as its creation, and that "one law-defying millionaire in jail will do more than any other single thing to regulate trust inequality."

Mr. Woodruff said concerning the publication: "It is earnestly hoped that President Roosevelt, who has all along maintained a position that he could not interfere in local politics, will take up this matter and denounce the author of the illusion. It has been anticipated that some such effort as this would be made by Hearst to influence the voters."

WILL NOT INTERFERE. Washington, Oct. 30.—No comment was obtainable at the White House on the statement by Chairman Woodruff.

The speech to be made by Secretary of State Root at Utica on Nov. 1 will, it is said at the White House, represent the administration's view on the pending issues in the campaign. The president and Mr. Root have consulted freely about the position to be taken by the Secretary in that speech.

President Roosevelt steadfastly has adhered to his determination not to write any letter or make any communication bearing on the campaign in New York. He has repeatedly expressed to his callers his sincere desire for the election of Mr. Hughes, but feels that he cannot with propriety interfere in state elections.

BETTING ON RACE TRACKS. Candidates for New York Governorship Queried by Reformers.

Albany, N. Y., Oct. 30.—A. S. Gregg, field secretary of the International Reform Bureau, to-day sent the following telegram to Charles E. Hughes, Republican nominee for governor, and William Randolph Hearst, Independence League and Democratic candidate for governor:

"If elected would you support legislation harmonizing gambling laws with constitution, by making betting on race tracks felony? Also, would you support appropriation county fairs in lieu of tax on racing associations? Fifty thousand voters desire answer. Wire."

Judgment Against Contractor. W. H. C. Mussen of Montreal has recovered judgment for \$353 against the Woodruff Co. as balance due on a concrete mixer. The defendants' counter-claim of \$1000 is dismissed.

Postal Delivery for Guelph. Guelph, Oct. 30.—It is rumored that a postal delivery service will be instituted in Guelph early next year. This is a pre-election promise of Hugh Guthrie, M. P.

THE GREAT STRENGTH BUILDER THE GREAT PAIN REMOVER

Here is the appliance that is curing men—making them feel as they did in their full-blooded youth—and it does its work while you sleep.

DR. McLAUGHLIN'S ELECTRIC BELT gives vigor, strength, new vitality to your nerves, stomach and every other part of your body that may be weak. It is easy to use. If you are weak it makes you strong; if you have a pain it drives it out.

Do you need it? Are your bones aching, nerves tired, nights restless, ideas confused, memory poor, kidneys and bladder out of order, energy low? These are signs of low vitality. My Belt will restore it.

DR. McLAUGHLIN'S ELECTRIC BELT. Will cure any man who is suffering from lost vitality, no matter what caused it. Here is an appliance that will restore the force that makes the vital organs go, and it will make a new man of you.

Will cure any man who is suffering from lost vitality, no matter what caused it. Here is an appliance that will restore the force that makes the vital organs go, and it will make a new man of you.

You can't get strength from drugs. The best tonic in the world and the only one whose strength soaks into the nerves and vital organs and stays there is Electricity.

Your Belt cured me of rheumatism four years ago. T. J. WHITE, Copper Cliff, Ont.

I feel grateful, indeed, for what your Belt has done for me. It cured my backache. A. RUSSELL, Niagara Falls, Ont.

COBALT --- Rapid Transition From Were Prospects to Working Mines---COBALT

TEN THOUSAND DOLLARS VALUE OF TWO NUGGETS

Taken From Foster Mine—Big Doings in Cobalt Properties and Great Activity.

Cobalt, Oct. 30.—(World Staff Special.)—The hand of winter has fallen upon the Northland, and like everything else that comes Cobalt's way, it comes good and hard.

The rain of Saturday has turned to snow, and the chill blasts of winter are making themselves felt.

These conditions are all right in a steam-heated building or in a comfortable log house. In a canvas-covered shack, with a hole in the roof six inches square, it is a different thing, however. One is accustomed to the strenuous life in the open at Cobalt, but he looks at a little mining camp of conditions when under the shelter of his own roof, no matter how humble the building that it covers.

Of course, life under such conditions has its redeeming features, and, as a lady in town said to the occupant, "It must be gloriously healthy over at your place. Mr. Green, what a view!" he answered, but Cobalt is an exceptionally healthy camp, and one is apt to overlook this feature of life in the canvas-covered shack used by the World's Cobalt correspondent, and which formerly had a mammoth printed sign floating proudly over the door. It disappeared one day. The rain persisted in coming thru the roof directly over the bed, and as everyone knew where the World office in Cobalt was, the old usefulness of the said sign has departed, and its utility in another direction was speedily discovered.

Much interest is being taken in many of the new propositions of the camp that are being put forward, such as the Cleveland Mines Co., Limited, the Walter, the Silver Leaf (Lucky Gold), the Huronian (a strong company recently organized by Contractor Phillips of Parry Sound) and the "McMeehan & Green."

The sale of the stock at a phenomenal pace has caused many enquiries from the outside as to the "Abitibi & Coleman." The writer proposes to visit each and every one of these new propositions and advise the readers of the World's Cobalt page what he sees and what conditions prevail.

It would not be out of place to remark here that in no mining camp in the world is there seen in working property such a rapid transition from a mere prospect to a working mine. This, of course, is due to the abnormal richness of the new discoveries and the fact that this richness is almost invariably found near the surface.

The working of the old properties will not be forgotten or neglected, but from the camp's standpoint it is imperative that the enlargement of the mineral-bearing area be looked over. The report has so frequently gone out that everything in sight has been gobbled up that this has been used as an argument to keep out would-be newcomers.

A hurried call yesterday at the McKinley-Darragh-Savage mine, where Superintendent Macdonald has been having a general shake-up and fall moving. The building formerly used as an office and storehouse has been converted into the "chuck house," and the large building near the power house is now being used as a residence for the superintendent and book-keeper.

Mr. McCloskey, now have a commodious and comfortable business office, with private apartments and a dining room for themselves and the assayer, Mr. Pugsley.

Shaft No. 1 has reached a depth of 146 feet, with 60 feet of ore at the 75-foot level, and shaft No. 2 is down 60 feet, with the same amount of drifting. Fifty men are at work, and this number will be largely increased when shafts have reached a greater depth.

The announcement has been made in Toronto that this company has disposed of another large holding of its stock. The World man called to find from President F. B. Chapin that this was correct. Mr. Chapin had returned to Toronto, and no one at the mine had any information to hand out.

It was believed in New York, however, ten days ago, that the same parties who made the first heavy investment in this company had secured the controlling interest of the stock. At that time the money was ready, and papers prepared and awaiting the signatures of the company's directors. A Pittsburgh capitalist and a prominent lawyer, having his office on William-street in the City of New York, will be the controlling spirits in the new organization.

Superintendent Layson, at the Silver Queen, wears a smile and a full-lined overcoat these days. He announced shipment of another car of ore on Oct. 21. Two nuggets are to be seen from the new vein, weighing 563 lbs. each, and they carry 300 ounces of silver to the ton. Over half a ton of ore (1100 pounds) worth between nine and ten thousand dollars. No wonder announcement has been made of a dividend.

At the Nipissing mine a mechanical sampler is being installed, by means of which the exact value of ores shipped can be obtained. The Allis-Chalmers people have the contract for its installation, and it is the first to be put in the camp.

The property formerly owned by Messrs. Green & McMeehan has been sold to a syndicate, and G. R. Michie has displayed considerable foresight in securing as their superintendent the experienced mining men in this camp. He has been with the White Silver Co., operating the Harrogate mines, and controlling 300 acres in Coleman Township.

Mr. O'Connell has mined in the mother lode in California, in Oregon, Washington, Colorado and Nevada, and has a standing in this camp second to none. He is very enthusiastic over the new proposition, and his services would not have been in vain had he not had faith in the property. The "McMeehan & Green" is situated 1-1/2 miles east of Argente, and consists of 40 acres of the 14 in the 1st concession of Bucke. Twenty-five men are now employed, the erection of buildings is being rushed, and as soon as accommodation is forthcoming 75 employees will figure on the payroll.

Nine different veins have been located and traced for several yards. Mr. O'Connell promises a shipment in two

WEIGHT IS TAKEN OFF PRICES RISE RAPIDLY

Heavy Demand for Cobalt Stocks at Toronto and New York is Higher.

World Office, Tuesday Evening, Oct. 30.—The weight was lifted off the top of some of the Cobalt stocks to-day, and the pent-up speculative sentiment rushed in and bought thousands of shares at advancing figures. The big holders of some of the stocks have misjudged the public confidence in the great silver unearthing and have perhaps wisely attempted to hold back speculation. This is regarded as a mistake, and when inside offerings withheld a bigger stream of buying will ensue than was the case to-day with Silver Queen, Nipissing led the market again at New York, where it made a further uninterrupted advance of nearly 2 1/2 a share before showing any signs of profit-taking.

Even under big realizing the shares held remarkably firm and only two points higher than the night's close. In the local market the big event of the day was Silver Queen. These shares were in demand ten points higher than the night's close at the opening of the market this morning. The avalanche of buying carried the price 10 points further and on the curb to 17 1/2, 75 cents, with the bid for the stock. Twenty-five thousand shares were early dealt in at Toronto, and the New York curb absorbed the balance of the day's offerings, but apparently lifeless throughout the day, and many traders sold to get into the more active issues temporarily. Buffalo returns to camp on demand and former was McKinley, the latter, however, being principally dealt in at New York. Sentiment around the brokers office at the close was particularly buoyant, and a pending announcement of another large deal is expected to give prices a further stimulus.

Expert on Ore Depth.
A Cobalt despatch says that while on his trip of inspection there John Hays Hammond, the celebrated mining engineer, asked as to his opinion relative to the depth of the silver-bearing veins in the district, said that there seemed to be no limit to their deep-seated origin, and added that there was every probability that they would continue to hold approximately the same values for several hundred feet.

Guggenheims Take Up Option.
New York, Oct. 30.—It is expected that the Guggenheims interests will exercise their option on 400,000 shares of Nipissing stock at \$25 during the day. This option was taken up prior to the visit to the Cobalt regions of John Hays Hammond and his corps of engineers, who went there to investigate the property before taking over the stock, so impressed were the engineers with the values of the mine and so favorable was their report on these returns that the Guggenheims decided to take up the stock. It is learned that two new veins have been discovered on the property since the visit of the John Hays Hammond party. It is not likely that the Guggenheims will build a smelter in the Cobalt region, at least not for the present.

Nipissing Stock to Be Listed.
As was mentioned several days ago it is the intention of the Nipissing directors to list the stock on several exchanges. The first exchange on which the shares will be called will be Montreal, as the following despatch explains:

Would List Granby Shares.
Application has been made to the New York Stock Exchange to list the shares of the Granby Consolidated Mining, Smelting & Power Co., Limited. With the necessary permission granted by the exchange listing committee, the company will be enabled to issue of its new certificates of a par value of \$100. Feb. 15, the British Columbia legislature authorized the Granby Company to amend its charter whereby its 1,500,000 shares of \$10 par value each were to be changed to 150,000 shares of \$100 par.

Present stockholders will have the privilege of exchanging their present holdings for new certificates on the basis of one new for 10 old shares. Of the authorized capital stock, amounting to \$15,000,000, \$1,500,000, according to the company's last annual report, was retained in the treasury. The company was formed early in 1901 by special act of the British Columbia parliament.

Curb Stocks in New York.
Head & Co. report the following transactions on the New York curb yesterday: Silver Queen closed 1 1/2 to 1 3/4, high 1 1/2, low 1 1/4; 25,000; Foster closed 2 1/2 to 3, high 3, low 2 1/2; 17,000; Buffalo closed 2 1/2 to 3, high 3, low 2 1/2; 25,000; Nipissing closed 3 1/2 to 4, high 4, low 3 1/2; 75,000; McKinley closed 3 1/2 to 4, high 4, low 3 1/2; 75,000.

GOOD NEWS FOR FOSTER SHAREHOLDERS.
Some dissatisfaction is being expressed at the action of Foster shares in the mining market. The stock has held remarkably steady for several days, but it has appeared to brokers that a determined effort is being made to keep the price down. Any quantity of the stock can be marketed without causing a tremor in the quotation, but the price persistently refuses to respond to the support. Those close to the large holders are satisfied that a coup will develop shortly, and that the ensuing sharp upward movement will be startling in its rapidity. If the information can be relied upon there are four strong features in the stock's favor. The assay on the first car of ore shipped is expected to be announced at any moment now. A dividend is to be declared from the smelter receipts. The 100,000 shares now in the treasury are to be distributed free among holders and the new board of directors is to be made public. This is excellent information for shareholders. A broker in close touch with the market to whom the above matters were communicated said the announcement of them would immediately put the shares to \$4.

WEIGHT IS TAKEN OFF PRICES RISE RAPIDLY

Heavy Demand for Cobalt Stocks at Toronto and New York is Higher.

World Office, Tuesday Evening, Oct. 30.—The weight was lifted off the top of some of the Cobalt stocks to-day, and the pent-up speculative sentiment rushed in and bought thousands of shares at advancing figures. The big holders of some of the stocks have misjudged the public confidence in the great silver unearthing and have perhaps wisely attempted to hold back speculation. This is regarded as a mistake, and when inside offerings withheld a bigger stream of buying will ensue than was the case to-day with Silver Queen, Nipissing led the market again at New York, where it made a further uninterrupted advance of nearly 2 1/2 a share before showing any signs of profit-taking.

Even under big realizing the shares held remarkably firm and only two points higher than the night's close. In the local market the big event of the day was Silver Queen. These shares were in demand ten points higher than the night's close at the opening of the market this morning. The avalanche of buying carried the price 10 points further and on the curb to 17 1/2, 75 cents, with the bid for the stock. Twenty-five thousand shares were early dealt in at Toronto, and the New York curb absorbed the balance of the day's offerings, but apparently lifeless throughout the day, and many traders sold to get into the more active issues temporarily. Buffalo returns to camp on demand and former was McKinley, the latter, however, being principally dealt in at New York. Sentiment around the brokers office at the close was particularly buoyant, and a pending announcement of another large deal is expected to give prices a further stimulus.

Expert on Ore Depth.
A Cobalt despatch says that while on his trip of inspection there John Hays Hammond, the celebrated mining engineer, asked as to his opinion relative to the depth of the silver-bearing veins in the district, said that there seemed to be no limit to their deep-seated origin, and added that there was every probability that they would continue to hold approximately the same values for several hundred feet.

Guggenheims Take Up Option.
New York, Oct. 30.—It is expected that the Guggenheims interests will exercise their option on 400,000 shares of Nipissing stock at \$25 during the day. This option was taken up prior to the visit to the Cobalt regions of John Hays Hammond and his corps of engineers, who went there to investigate the property before taking over the stock, so impressed were the engineers with the values of the mine and so favorable was their report on these returns that the Guggenheims decided to take up the stock. It is learned that two new veins have been discovered on the property since the visit of the John Hays Hammond party. It is not likely that the Guggenheims will build a smelter in the Cobalt region, at least not for the present.

Nipissing Stock to Be Listed.
As was mentioned several days ago it is the intention of the Nipissing directors to list the stock on several exchanges. The first exchange on which the shares will be called will be Montreal, as the following despatch explains:

Would List Granby Shares.
Application has been made to the New York Stock Exchange to list the shares of the Granby Consolidated Mining, Smelting & Power Co., Limited. With the necessary permission granted by the exchange listing committee, the company will be enabled to issue of its new certificates of a par value of \$100. Feb. 15, the British Columbia legislature authorized the Granby Company to amend its charter whereby its 1,500,000 shares of \$10 par value each were to be changed to 150,000 shares of \$100 par.

Present stockholders will have the privilege of exchanging their present holdings for new certificates on the basis of one new for 10 old shares. Of the authorized capital stock, amounting to \$15,000,000, \$1,500,000, according to the company's last annual report, was retained in the treasury. The company was formed early in 1901 by special act of the British Columbia parliament.

Curb Stocks in New York.
Head & Co. report the following transactions on the New York curb yesterday: Silver Queen closed 1 1/2 to 1 3/4, high 1 1/2, low 1 1/4; 25,000; Foster closed 2 1/2 to 3, high 3, low 2 1/2; 17,000; Buffalo closed 2 1/2 to 3, high 3, low 2 1/2; 25,000; Nipissing closed 3 1/2 to 4, high 4, low 3 1/2; 75,000; McKinley closed 3 1/2 to 4, high 4, low 3 1/2; 75,000.

GOOD NEWS FOR FOSTER SHAREHOLDERS.
Some dissatisfaction is being expressed at the action of Foster shares in the mining market. The stock has held remarkably steady for several days, but it has appeared to brokers that a determined effort is being made to keep the price down. Any quantity of the stock can be marketed without causing a tremor in the quotation, but the price persistently refuses to respond to the support. Those close to the large holders are satisfied that a coup will develop shortly, and that the ensuing sharp upward movement will be startling in its rapidity. If the information can be relied upon there are four strong features in the stock's favor. The assay on the first car of ore shipped is expected to be announced at any moment now. A dividend is to be declared from the smelter receipts. The 100,000 shares now in the treasury are to be distributed free among holders and the new board of directors is to be made public. This is excellent information for shareholders. A broker in close touch with the market to whom the above matters were communicated said the announcement of them would immediately put the shares to \$4.

DAY REQUIRED TO BE MADE

On Steel Common and Market is Uninfluenced—Toronto Stocks Are Excessively Dull.

World Office.
Tuesday Evening, Oct. 30.
Speculation in mining stocks is making big inroads on the ordinary trading of the Toronto Stock Exchange. The brokers have almost ceased looking for turns in the list, and clients who are less actively situated are certainly unable to make quick, profitable movements. To-day's market was excessively dull, with no real business, and holders appeared satisfied with their position, and the consequence was that there is a short interest in the market. The only evidence of aggressive buying is in the steel and iron, and a short interest is still outstanding in the shares. Sentimental liquidation has about worn itself out, and unless some forcible accident can be produced to cause further selling, it is questionable whether prices can be depressed any further. Brokers are not expecting any revival of activity until money gets easier, and this under ordinary conditions is not likely to take place for several weeks. The bank shares are retaining a steady undertone, that is considered quite satisfactory to holders.

Exports of cotton and other commodities will meet all financial bills maturing this year without advancing exchange above parity.

Election betting now 3 to 1 on Hughes, with more money offered on both sides.

Gross earnings of Grand Trunk of Canada for first half of year increased 10 per cent, and net increased 8.8 per cent.

Light demand for steel in loan crowd.

Fair demand for money, but no unusual stringency anticipated for end of month.

American Mailing surplus, with no allowance for depreciation, \$255,932, against \$212,281 in 1904.

United States dividend of one-half of 1 per cent, on common stock, and a regular dividend of 1 1/2 per cent, on preferred.

Joseph says: London hopeful. Buy steel preferred. On balance long U. P. C. Pacific is a purchase. If long B. R. T. average on any dip.

London (Evening).—Prices ruled irregular on the curb to-day, but business generally was quiet. There was, however, a lot of option dealings in the U. S. steel issues. Gilt-edged home loans were very easy, and American Central Railway shares also showed concessions under the influence of realizing conditions. The market for diamonds was very quiet, and the diamond shares also showed improvement.

The Pennsylvania dividend meeting comes on Thursday next. In conservative quarters the opinion expressed is that the company is not overburdened in the way of expenditures under which the property is being developed, and which it must shoulder for a considerable time in the future, any larger dividend would be an unwarranted expenditure, and would not react favorably upon the interests of the road.

Mexican issues opened with a fair amount of activity. Mexican Central in particular was more active. The market for the Mexican Central is being watched, and it has been for some time. The real basis in Mexican Central are probably taking their view of the situation being improved from B. F. Youkum, who has not ceased to believe in it, and has, with his friends, been a holder for a long time. The market for C. & O. dividend declaration is expected by some of the Philadelphia houses on Wednesday, the stock is attracting a little more attention.—Dow Jones.

In conservative circles the opinion is expressed that, owing to the improved outlook for a Republican victory at the polls next Tuesday, the market for the part of the week will reflect these conditions, and that an upward movement in fair proportions can be expected. For information on this subject can be relied upon, and owing to the fact that the market at all times prevails in these quarters, we have no doubt whatever that a Republican victory can be looked upon as a considerable higher prices will obtain for all good stocks during the next week or so.—Town Topics.

New York, Oct. 30.—L. & N. B. & O. and Canadian Pacific have been carried higher later on their merits. Reading should work higher. The market for the latter is being watched, and it has been for some time. The real basis in Mexican Central are probably taking their view of the situation being improved from B. F. Youkum, who has not ceased to believe in it, and has, with his friends, been a holder for a long time. The market for C. & O. dividend declaration is expected by some of the Philadelphia houses on Wednesday, the stock is attracting a little more attention.—Dow Jones.

The Mining Record says that in three weeks the Dominion Steel Company's output of steel has risen from 12,000 tons to 20,000 tons per month. The product has doubled, while the number of men on the payroll is less by some 30 per cent. General Manager Jones is sanguine that the company is able to increase next year's output by at least 30 per cent, with little, if any, addition to the force. Next year it is expected that the company will be in a position to turn out 30,000 tons of steel rails alone. When it came to a question of money-making, Mr. Jones prudently resisted being drawn into particulars, but this much was learned, that the plant is being money-making basis, not making enough as yet to pay dividends on the several kinds of stock, but still making enough to pay dividends on the Nova Scotia Steel Company, the same authority says. Both the steel and coal plants are in excellent condition, and the output of coal for October will be the best on record. The total output for the year may reach 700,000 tons. Without any new

On Wall Street.

Marshall, Spader & Co. wired J. G. Beatty at the close of the market:

Notwithstanding indications of difficulty on the part of Bank of England securing a replenishment of its gold reserve, it appears unlikely that American storing exchange will threaten this item in the near future. Demand for remittance and transfer for payment of stock loans without doubt continue in sufficient volume to protect the London market for a time, but in view of recent heavy offerings from Mexico to reveal a much lighter carry-over account of Americans. Locally, we appear to be sending gold to Canada again, \$240,000 having been withdrawn for that purpose to-day, while our banks have lost sight of the fact that the gold reserve is being replenished in the near future, and the market faces the election crisis in good shape in all other respects.

Ennis & Stoppal wired to J. L. Mitchell at the close of the market:

The market to-day has ruled firm, but activity for material reduced in most departments. London was a buyer of a fair quantity of stock on balance, while in view of recent heavy offerings from Mexico to reveal a much lighter carry-over account of Americans. Locally, we appear to be sending gold to Canada again, \$240,000 having been withdrawn for that purpose to-day, while our banks have lost sight of the fact that the gold reserve is being replenished in the near future, and the market faces the election crisis in good shape in all other respects.

The market to-day has ruled firm, but activity for material reduced in most departments. London was a buyer of a fair quantity of stock on balance, while in view of recent heavy offerings from Mexico to reveal a much lighter carry-over account of Americans. Locally, we appear to be sending gold to Canada again, \$240,000 having been withdrawn for that purpose to-day, while our banks have lost sight of the fact that the gold reserve is being replenished in the near future, and the market faces the election crisis in good shape in all other respects.

Ennis & Stoppal wired to J. L. Mitchell at the close of the market:

DINEEN FURS!

The weather after all is the best reminder, but the temptation will be to buy in a hurry, and be less particular than you ought to be regarding qualities. If you want your Furs to give lasting satisfaction you must come to a reliable store.

We make a big feature of Fur-lined Coats for Ladies and Gentlemen, in values that are without equal in Canada. Be as careful as you please in making comparisons, and bring your expert friend along.

140 Yonge Street, - - - Toronto.

UTES TO JOIN CHEYENNES

WILL NOT GO BACK TO UTAH

Indians on Warpath Becoming Bolder—Settlers Send Women and Children to Safe Place.

Sheridan, Wyo., Oct. 30.—"We are going to visit Chief White Cow Bull of the Cheyennes at any cost, and will not be taken back to Utah to starve. We would rather die first," is the substance of the answer of Chief Kanneah to the soldiers.

The latest report from the front locates the main Ute band in the vicinity of Moorhead, going rapidly toward the Cheyenne reservation.

Two more troop trains are reported out of Fort Robinson following the first train unloaded at Arvada this morning.

Colonel Auger and the third squadron of the 10th Cavalry from Fort Robinson, arrived over the Burlington last night and detained at Arvada the troops soon afterward taking the field for the front. They should reach the vicinity of the Indian camp by night.

The Indians are becoming more bold. Doc Spear and E. H. Gottings, who encountered a band of 300 Indians, were fired upon and one of their horses was killed. Their camp wagon was looted by another band of Utes, who left the cook bound and gagged and carried off all supplies and bedding.

Settlers near Moorhead, Mont., are sending their women and children to places of safety, and have turned the Spear blacksmith shop into a fort, banking the sides and boring loopholes in the log walls.

Col. Hensel, who was government scout and interpreter in the battle of Wounded Knee, says the Indians mean

light, and believes they have sent messengers to seek the assistance of the warlike Cheyennes.

The Indians say they want President Roosevelt to give them the Powder River Valley for a hunting ground, and persist in their determination not to be taken back to Utah. The settlers along the Powder River say that if the Indians are allowed to remain in that vicinity, they will organize and exterminate the redskins in spite of the troops.

STUDENTS WILL BE GOOD.

At Least, That's What They're Leading the Public to Believe.

This is Halloween. Some long-haired poets call it Hallowe'en for the sake of an extra rhyme. And likewise the Scotch, who are only rivaled in their observance of the festival by the students of Toronto University.

The latter will revert to more time-honored and approved methods of celebration than have marked some recent years, and the citizens will extend all the more hearty sympathy to the old-fashioned harmless observances.

The men of all years are anxious to add to the good name and fame of their alma mater, and former objectionable practices are henceforth to be abandoned.

Dean Reeve is giving a dinner and reception to the Medicals in the gymnasium, at which the usual election of officers to the Medical Society will occur.

The fourth-year Arts men will have their annual dinner at the St. Charles, and this promises to be specially interesting.

The S.P.S. men have arranged for a big smoker in their own building for all the "yare," and it is said a champion hockey match on roller skates is to be pulled off under the same auspices.

Just what the other colleges are doing, or the Pharmacy and Dental men have in view, was not divulged yesterday, but the boys will have a nice quiet time.

The ladies of the Arts classes are to hold their usual annual taffy-pull. It will be too sweet for anything.

YORK COUNTY AND SUBURBS

KNOWS WHAT WHISKEY IS

BOUGHT IT AS COCA COLA

How Editor—Minister—License Inspector Tells of a Visit to Oulcott Hotel.

North Toronto, Oct. 30.—Witnesses called by Provincial License Inspector Ayrest to support charges of illegal liquor selling preferred against William Robinson of the Oulcott Hotel, did not strengthen the crown's case. Robinson was accused of having illegally sold liquor on the night of Oct. 17, Inspector McKean having the information.

H. H. Dewar, K.C., appeared for the defendant, and Crown Attorney Drayton is prosecuting. The hearing will be continued by Magistrate Ellis on Thursday morning.

Ayrest said he and an assistant, whose identity he refused to disclose, and who had not been summoned, entered the barroom on the evening in question. Defendant was behind the bar. Witness and several others treated Ayrest, describing some of those who were there. One was a Mr. Duncan, he said, who lived three miles east of York Mills, was a North of Ireland man, and "quite a decent man." Another, he said, was an employee of Mount Pleasant Cemetery; a third was named Armstrong, and a fourth was a county constable. For a long time, said he, he had paid 10 cents a place, and for whiskey 5 cents a drink. The latter went under the name of Coca-Cola.

To Mr. Dewar witness said he was a Methodist preacher of twenty years' standing before taking to his present occupation. During that time he had had several drinks of brandy and whiskey as medicine, and so knew the taste of it. His knowledge of different kinds of drinks had been acquired when he was a paper hanger, and previous to entering the ministry. He stated that if he had not been served with whiskey he would have used his powers under the act to search the premises, without a warrant.

John O'Leary, summoned as a witness, declared he had not been in the barroom that night. The Armstrong, summoned, too, was apparently the wrong party.

Henry Duncan, ex-reeve of the township, who had been summoned, stated that on Oct. 17, day and night, he was at home, and so were his sons. As to the identification, Ayrest could not identify Mr. Duncan as the man Duncan present that memorable evening. To the questions of the examining lawyer, Mr. Duncan stated that none of the Duncans were North of Ireland men; they were all born in Canada; they are of all sizes and complexions, and the whole lot of them were decent fellows.

The subject at last night's Literary and Musical Society's entertainment of St. Clement's Church was "England From the Statue Period," and was by Miss Effie Waugh. The musical part was supplied by Rev. E. Woods of St. Simon's Church, Toronto; Miss Winnie Boulden, Miss A. Atkins, Messrs. F. and Robert Bourdon.

No recent negotiations to take up the option secured from Mr. O'Halloran for a portion of his property, to be used for York Radial car barns, have been made. The residents of the neighborhood of De La Pave and Yonge-street, where the company had bought a site, have taken over that property, and will find the company another location.

Toronto Junction.

Toronto Junction, Oct. 30.—(Special.) The works committee of the council met to-night with only three members present. A recommendation was sent on to council to extend the water main on Main-street from the intersection of the Keele estate, which is being broken up into building lots. They intend to have Main-street extended through the property from Mette-street to Humber-street-avenue. The cost of the extension will be about \$500. Amounting to about \$500 were ordered to be paid.

Phil Wakenfield left on Monday morning for two weeks' duck shooting on St. Clair Plains.

At a meeting of the property committee, held to-night, J. E. Kerr, who purchased some land on Pelham-avenue to erect a factory, applied for a permit, as per agreement. A committee was appointed to report to the ex-campan on the matter. The Toronto Ice Company asked permission to erect an icehouse on Vine-street 30x70 ft. and 28 ft. high of wood. The committee recommended that this be granted. The superintendent of the light plant was instructed to report on the advisability of a light in the vicinity of the residence of Rev. Dr. Pidgeon. The solicitor was instructed to notify the C. P. R. that the town will supply a light on the Elizabeth-street crossing at a cost of \$70 per year. Four tenders for the firemen's clothing were received, and the contract awarded to J. C. Willard, the lowest tenderer, at \$109.25.

George Hood, L.D., is president of the Y.P.C.U. for the ensuing year. A lecture will be delivered by Miss McKinney, secretary of the senaria mission, on Wednesday afternoon, to the ladies of Toronto Junction, at the College of Music. All ladies are cordially invited.

At 2.30 o'clock this afternoon, at 15 Low-street, Miss Elsie Price, eldest daughter of Mr. and Mrs. J. E. Price, was united in marriage to Henry J. Hanna of London. Rev. Dr. Hazelwood of Annette-street Methodist Church performed the ceremony.

About 7.30 this morning the trolley wire at the switch on the corner of Keele and Dundas-streets broke. Two cars were tied up for over an hour and a half.

The special committee of the collegiate institute to-night and made arrangements for the commencement exercises, to be held on the evening of Nov. 20.

East Toronto.

East Toronto, Oct. 30.—A meeting of the Young Men's Association of East Toronto will be held in the Y.M.C.A. Hall, Thursday night, to organize a social club. All those desirous of becoming members are requested to be present.

Dr. Walters and a party numbering some six or eight left to-night for their hunting camp at South River.

Dr. Wallis is assuming the practice of Dr. Wallace in the latter's absence in the north.

Failure to hold a special meeting of the town council to consider the annexation and reduction of ward councillors is being somewhat strongly commented upon. Friends of the annex-

You can tell the new fall style of overcoat by the form-fitting back and the full flare skirt. You get them here.

Cheviot, Melton, Tweed, Cravenette, \$15, \$18, \$20, \$25.

If the observer of hats were to track the wearers of what he considered the best looking hats, he would find their trail led to Fairweather's.

Silk Hats, \$8; Derbies, \$2 to \$5; Tweed Soft Hats, \$1.50 to \$2.50; Golf Caps, 50 cents to \$2.

Gloves, Neckwear and other things like handkerchiefs, collars, cuffs, etc., are just as carefully picked for our discerning trade as the goods in any other department.

Gloves, \$1 up to \$2.50; Neckties, 50 cents up to \$1.50.

Fairweather's
Men's Furnishers,
84-86 YONGE STREET

tion movement, which includes practically all of Ward 1 and a goodly portion of the other portions of the town, are anxious to submit the matter to a vote previous to the municipal elections. It is said now that the measure would carry with little opposition. In this connection, the erection of a new town hall is being urged prior to annexation.

It is probable that John Lowden of Ward 1 will be a candidate for the mayoralty of the town.

Forest Hill.
At the request of a large number of the ratepayers of the Township of York, A. B. Pateman of Forest Hill will be a candidate for the township council of 1907.

Chester.
The rite of confirmation will be administered to a large class of applicants at St. Andrew's Mission Church to-morrow evening by the Bishop of Toronto. There will be several adults in the class.

The young people of the Baptist Church gave a successful social at the church on Monday evening.

Stouffville.
On Monday evening the Epworth League held a tea. An interesting program followed, which consisted in part of an address by Rev. Mr. Foyes and mandolin selections by the Mandolin Club.

The rush for Northern Ontario has begun. Chas. Perry and his two sons accompanied by Mr. Kay have left for the Severn River country to hunt deer. On Wednesday another party, consisting of John Wallace, Edward Lloyd, John Baker and Thomas Chasely will leave for the Parry Sound district. They intend to camp in the neighborhood of Bear Lake.

M. Dougherty, who has been at his home here for the past few weeks, intends to return to his Parry Sound lumber limits next Wednesday.

Danforth.
The local court of the A.O.F. will hold an entertainment at Danforth Hall to-night.

Deer Park.
While driving into the shed of the wagon of Mr. Maguire, plumber, of Toronto, was struck by a north-bound Glen Grove car. The two occupants of the rig were thrown some twenty feet from the rig, but were unhurt, while the horse escaped injuries. The wagon lost three wheels, and the fender of the car was put out of business.

The demand for tickets for the entertainment in connection with the public library is so great that the board had to abandon the idea of holding the entertainment at the school house next Friday evening, and the Presbyterian Church has been engaged.

Agincourt.
The East Riding of York Plowing Association will hold their annual plowing match on the farms of Lyman Kennedy and J. Elliott, Agincourt, on Nov. 7, 1906, when \$500 will be offered in prizes.

RHEUMATISM
I will relieve your money if it fails.
Price 25c.
Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff joints, swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system.
—MUNYON.

The SIMPSON Company Limited

H. H. FUDGER, PRESIDENT; J. WOOD, MANAGER.

WEDNESDAY, OCT. 31

Winter Overcoats at a Premium

\$10 to \$15 Ones for \$8.95

WE ARE ALL ready with our Winter Overcoats. Doesn't need more than six inches of snow to foretell that winter is pretty nearly ready, too.

There's a saving in these coats. Three reasons combine to effect it—shop reasons but none the less welcome in the result. See them. You'll need an overcoat soon. See these:

75 only Men's Heavy Winter Overcoats, consisting of fine cheviot and beaver cloths, in black, grey and blue shades, also fancy plaid and dark checked tweed, in a variety of shades, single and double-breasted style, also a few Newmarkets, substantially lined and trimmed and perfect fitting—sizes 34-44, regular \$10, \$10.50, \$12.50, \$14 and \$15; on sale Thursday **8.95**

Men's Fur-Lined Coats

DO YOU intend to invest in a Fur-lined Coat this winter?

That's rather a personal question, but we have a particular reason for asking. If you do, have a look at these underpriced coats on sale in the Men's Store to-morrow. There's only seven of them. If there were more they would not be offered at reduced prices. It's two little odd lots we have marked down to get out of the way quickly.

4 only Men's Fur-lined Coats, extra fine beaver cloth shells, otter collars and nutria beaver linings, a choice warm and light weight garment, sizes 37, 39, 40, reg. \$85, Thursday.... **67.00**

3 only Black Russian Muskrat-lined Coats, choice otter collars and extra fine beaver cloth shells, sizes 39 and 40, regular \$85.00, Thursday.... **72.00**

Combination Underwear for Men

YOU WEAR a Combination Suit once and you'll wear no other," said the salesmen.

"Are they as hard to get out of as that?" exclaimed the humorous customer with mock surprise. Seriously speaking, they ARE comfortable. At the waist you notice it most. Ever try a combination?

Men's "Penangle" Brand Natural Wool and Elastic Ribbed Wool Combinations, perfect fitting, unshrinkable, sizes 32 to 46, per suit, Thursday.... **2.00**

Men's "Health" Brand Elastic Ribbed Wool Combination Suits, winter weight, form fitting, guaranteed unshrinkable, sizes 34 to 44, per suit, Thursday **3.00**

Men's "Perfect Fit" Elastic Ribbed Wool Combinations, form fitting, single and double-breast, heavy winter weight, sizes 34 to 44, per suit, Thursday.... **4.00, 5.00, 6.00**

Boys' "Health" Brand Elastic Ribbed Wool Combinations, perfect fitting, unshrinkable, Sizes 22-24, 26-28, 30-32, Thursday **1.25 1.50 1.75**

THE NEW-FRENCH REMEDY.

THERAPION

This successful and highly popular remedy, used by the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau and others, combines all the desiderata to be sought in a medicine of the kind, and accomplishes everything hitherto attempted.

THERAPION No. 1
for removal of discharges, suppurating ulcers, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2
for impurity of blood, scurvy, pimples, spots, blotches, pains and swelling of joints, secondary symptoms of syphilis, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, etc., to destruction of sufferers' teeth and hair. This preparation purifies the blood, and the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3
for exhaustion, sleeplessness, impaired vitality, and all distressing consequences of dissipation, worry, overwork, late hours, excesses, etc. It possesses surprising power in restoring strength and vigor to those suffering from enervating influences of long residence in hot, unhealthy climates.

THERAPION
Chemists throughout the world. Price in England 2/6 per packet. In ordering, state which of the three numbers required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on British Government Stamp in white letters on a red ground affixed to every package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

Refered in prizes.

Thornhill.
Tenders for carrying the mail to and from the James Bay Railway station are being called for.

Quarterly services will be held in the Methodist Church next Sunday, Nov. 4, at 11 o'clock, by Mrs. George Chatterly, formerly of this place, died at Innisfail, Alta., on Sunday last.

The members of the Ladies' Aid will meet in the lecture-room of the church this afternoon, about 2 o'clock.

The marriage of Miss Annie Chatterly and Thomas Stoddards is to take place on Wednesday, Nov. 7.

Cattle Sale.
J. R. McEwen, live stock dealer of Weston, will offer 127 cattle for sale by public auction, on Monday, Nov. 5, at Bolton Village. Fifty of the above cattle are heifers, 700 to 900 pounds
