Ultimatum to Owners Expired at Midnight on Saturday.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE Teutonic invasion of Roumania is in progress. Von Mackensen has thrown a force across the Danube, joined hands with Von Falkenhayn, who has been coming down the Vulcan Pass, and the pair are heading helter skelter for Bucharest.

Bucharest says that the Roumanians are making a stand on the line of the Alt River, drawn across western Roumania to a point south of Slatina, 45 miles north of the Danube.

Can Canadian Governments and Members Contract Themselves Out of Their Responsibilities in Nickel?

Again The World takes up the question of nickel and the unpatriotic policy of Canada in regard to it.

Also from an industrial and economic point of view, nickel is more valuable than anything else, having in view an early exhaustion of the known iron deposits of the world.

Canada probably has more iron ore, and certainly more nickel, than any other country; and therefore in view of the early exhaustion of the iron deposits of others she has an incomparable position in respect of these two metals, which are basic of modern industrial development.

In the task of trying to make these two things clear to the people of Canada, the World has encountered a great deal of opposition, and is today encountering a great deal of opposition, now that the case has been brought to the people of Canada by the fact that the German submarine Deutschland has been able to take two cargoes of pure Canadian nickel.

Not all the declarations of the Ontario Government or of the Ottawa Government or of the British Government will change our views in this regard because the whole policy of Germany working through the Metal Trust which has its centre in Frankfurt on the Main, and thru its creature, the International Nickel Co. of the United States, and by money and deceit, has been able to so occupy the ground and to so cover up her tracks.

The greatest trick in this war is known as the Armaments Trust, which links up German and British and American company interests in the production of nickel steel, in the production of munitions, armaments and armor plate; and it is so organized and its ramifications are so extensive that up to the present it has been able to influence the policy by more than a dozen ways of nearly all the governments of Europe and of all the great munition plants in Britain, Germany and France, in Belgium and in other countries.

Canadians Win Decorations

Canadian Associated Press Cable. London, Nov. 26.—The following Canadians have been gazetted for the Distinguished Service Order:

Major Lawrence Vincent Congrave (Toronto), Artillery. He carried out several reconnaissances under very heavy fire and explored the enemy's wire in daylight, displaying the greatest courage and ability.

Major Alexander Thomas Thomson, Infantry. He commanded and handled a battalion under very trying circumstances with the greatest courage and ability. He had previously done very fine work.

Major John Keller MacKay, artillery. When the personnel of an observation post became casualties he went forward in very heavy fire and re-established the post 200 yards beyond the front line, resumed communication with the battery and re-

maintained forward all day commanding the battery from an exposed position. Temporary Major William Reginald Patterson, Montreal Rifles. He led an attacking force with the greatest courage and determination and captured two enemy trenches. He later organized bombing attacks and consolidated the position.

we, further, refuse to accept the doctrine of Hon. Arthur Meighen, preached on Friday night, that it did not make any difference to Canadians whether their sons were shot by rifles made of Canadian nickel steel or by a bullet faced with Canadian nickel, or one that was not.

And if Hon. Mr. Hearst and Hon. Mr. Cochrane and the Ontario Government and the Ottawa Government think they can shelter themselves behind the British Government and the British secret service and the British Admiralty, we say they are woefully mistaken in the temper of the Canadian people at the very moment they are making the sacrifice of their sons and their resources, or imagine that they can be wheedled into accepting any such infamous doctrine. And still more are we convinced that never will the Canadian people justify or excuse whatever governments, past or present, who were or are responsible for the nickel conditions which have prevailed in this country now for over twenty years, and prevail today—conditions which prevent Canada from controlling her own nickel output, and, therefore, being a real factor in the war. Must we only suffer and bleed by our sons? Is there no remedy?

The whole conspiracy, which has obtained now for twenty years, has been in the direction of preventing Canada from having the control of her own nickel output, and by manipulating governments in this country, both Liberal and Conservative, so that we have been able only to ship raw ore out of Canada to be refined in the United States; and, therefore, to put the International Nickel Co. in a position to do what they liked with it, independent of any wishes of the Canadian people! This is the crime of all crimes with which the history of Canada is blackened in this day of war!

We do not trust the International Nickel Co.; at best it is American and a money-making corporation. The whole thing comes down to this: that these two governments now in power, and their predecessors, were willing to allow this state of affairs to originate and to continue. But what makes it all the more humiliating is that it is being continued today, when this great war is on, when our sons are at the front, notwithstanding twenty years of protest against so unpatriotic a policy.

Let us give just one example of the attitude of the International Nickel Co., whether it be American or German: They not only deliberately manipulated things in this country so that the raw nickel could be taken out of it and refined in the United States, but they actually, by their agents in this country, by men who profess to be Canadians, told us year after year that it was impossible to refine our own nickel in our own country! They preached this publicly all over the country and in the secret councils of all our governments up to date. And they were able to get away with it. And this from the International Nickel Co. in order that it might head off any prospect of Canada refining her own nickel!

Furthermore, they went to Washington when the tariff was under consideration and they persuaded, and it was no very great trouble, congress to put in the tariff laws of the United States a duty of \$120 a ton on imported refined nickel, especially directed by The Toronto Telegram of Saturday. By its columns of sociology some unknown person will have to justify their Canadian conduct in respect of nickel, and so will John Frank Cochrane of Ottawa have to justify himself in doing nothing to refine our nickel at home; and so will N. W. Rowell have to assume his responsibility; and so will The Globe newspaper for its silence of years since the Conservative administration got into office in Ontario (and another at Ottawa) in the matter of unpatriotic and, shall we say criminal, neglect of nickel. Mr. Rowell allowed the International Nickel Co. to evade payment of its just taxes imposed upon it by the law of Ontario. Private and secret settlements were made between Conservative ministers of the crown and with the German corporation by which it avoided payment. And there is not even a record to what that arrangement was other than that it had been a verbal one and that Mr. Rowell and his associates in the legislature, with the exception of Mr. Sam Carter of Guelph, allowed Mr. Hearst to get by without any protest.

It is in this condition of affairs that The World has protested against for years, and it was this condition of affairs which The World presented to the electors of Peel, of North Perth, of Southwest Toronto (in the provincial legislature); a protest that was endorsed by the people in all these constituencies; a protest against the policy of the governments both at Toronto and at Ottawa. And it is this condition of affairs venerated by certain statements and assurances that are given, or are to be given, by the British Admiralty that The World takes exception to and protests against, now that the question is at issue in the constituency of East Toronto, where Hon. A. E. Kemp is seeking re-election in his taking office of minister of militia and defence in this country. We do not see why the Hon. Mr. Kemp in this election should be made the apostle of the International Nickel Co.

The people of Canada must hold any government and any minister responsible who attempts to justify the record of the International Nickel Co. And the governments that have failed to institute any national policy in regard to nickel ever since Hon. Frank Cochrane came into office at Toronto and later on at Ottawa must take the responsibility of their abuse of opportunity and their inaction in a great mistake. The International Nickel Co. not only reigns but rules in Canada.

**WAR SUMMARY**  
THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

If this is the case the real attempt of the allies to advance in the Dobrudja has not yet been made.

The worst feature of the campaign is that Von Falkenhayn has had inferior numbers of troops to the Roumanians all along. Up till now he had 17 divisions, comprising 180 to 184 battalions, in Transylvania. Von Mackensen also surprised the allied intelligence department by suddenly employing nine divisions in the Dobrudja. The German divisions come from France. By stripping the quiet sections of the other fronts, the unknown whether the Roumanians will be able to make a long stand on the line of the Alt River. Informed military opinion holds that owing to the bad communications with Russia, it will take until the middle of December or January for a large Russian force to arrive, but other persons believe that relief will come much sooner than expected.

In England the critics say that the cause of the Roumanian reverses lies in allied diplomacy and the hesitating attitude taken towards Greece. The plan of action agreed upon with Roumania was that the allies at Salonica should hold the Bulgarians by a general offensive. This was spoiled by Von Mackensen. He withdrew about 90,000 Bulgarians from the Salonica front and he struck suddenly at Roumania before the allies knew of his design. He won the initiative at Turtukal, in the Dobrudja. This alone made it possible for Von Falkenhayn to proceed with his operations in Transylvania. All this time General Sarrail was held up in beginning a general offensive by sudden threatening attitude of King Constantine. This monarch began to move his army towards the zone of operations. So the offensive had to be stopped short. Constantine was intimidated after a considerable loss of valuable time, and when the offensive was resumed again, his majesty succeeded in raising new issues.

It certainly cannot yet be said that all is lost in Roumania, for the Germans do not speak of taking any prisoners, and the Roumanians and the Russian force, said to be now on the Alt River, are preparing to offer a strong defence. Up till the present western Roumania has been favored with a spring weather, an unusual occurrence for this season of the year in that country, and this has greatly facilitated the advance of the Germans. Von Falkenhayn, while admitting that he expects to reach Bucharest, will make no definite predictions of whether or when he will gain his object. The position in Italy looked as bad as the position in Roumania last June, when the Russians struck the enemy a tremendous blow in Galicia, Volhynia and Bukovina, and changed the whole face of the war. From various signs, the allies are now contemplating some tremendously heavy blow.

In Greece the Venizelist provisional government has declared war on Bulgaria. Resistance is being encountered to the demand of the allies for the surrender of Greek rifles and artillery. Dec. 1 is set as the date for the handing over of the weapons. As these will probably be used in the army of the troops of the provisional government for the campaign, it is improbable that it will begin in earnest weeks to come, unless supporting the faction of Constantine, it is said, are taking to the hills to wage guerilla warfare until the Germans, whom they confidently expect, will arrive.

In the Macedonian theatre of the war bad weather has interfered with the advance of the Allies. Artillery fighting continues, while the Italians on the left wing made further progress towards Trnova.

On the western front stormy weather continues to restrain the British and French from launching infantry attacks. From the great amount of bombing that is proceeding the British are supposed to be preparing for a tremendous coup on a wide front, perhaps, in conjunction with the French, a general offensive. If anything can be done to help Roumania it will be done.

**DONALD C. MACGREGOR**

The renowned concert baritone, who made a remarkable success with the great song, "Hats Off to the Flag and the King," at the Hippodrome yesterday, Mr. MacGregor stands pre-eminent as an interpreter of song, and so artistically did he sing this song, that the large audience applauded to the echo the grand patriotic words and music, as sung by the splendid baritone. It is the most noted song ever written to the Flag and the King.

**SAYS CHIEF RECRUITER**

Speaker at Loew's Thinks Time Has Come for Canada to Repay Debt.

The naval recruiting meeting held last night at Loew's Theatre under the auspices of the Royal Canadian Yacht Club struck a new note in Sunday recruiting meetings in depth of patriotic zeal, coupled with religious fervor.

After the singing of "O Canada," Rev. Alfred Hall opened the meeting with prayer. Lieut. Tomlin, R.N., stated that after years of protection from the royal navy the time had now come for Canada to repay the debt. The fleet, which at the beginning of the war was two and a half times the size of any other navy, had been doubled during the past two years. The strength of the navy was now about one million men, and recruits to the number of 2000 were being asked for from Canada before the end of the year. He then outlined the terms of service. While in the navy the men would receive the navy pay of thirty cents a day, but eighty cents would be credited to their account at Ottawa.

"We are just as much at war as Belgium," said Peter White, K.C., "but our position is more like that of a neutral than a participant. This was due entirely to the British navy. Without it the enemy cruisers would be on Canada's Atlantic and Pacific coasts, and it was a question whether or not there might not be a pink-checked, downy-haired burgomaster in this city tonight dictating to you and to me," he said.

**Men and More Men.**

The navy, he said, was just a million men recruited voluntarily in Great Britain and about five hundred ships bought by the British taxpayers' money. In 1913 the expenditure on the fleet had been \$20,000,000. Increasing the navy meant more men and more men to make good the wastage. "They ask for 2000 men from Canada this year and they are going to get them," said the speaker.

While Canada had recruited only five per cent of the population, Great Britain had recruited sixty per cent. The small section of the empire, the federated Malay States, had contributed the splendid battle cruiser, the Malay, costing \$15,000,000.

Lieut. Trevett, who has served 20 months in the ranks, ten months in the trenches and two in hospital, told of the cheerfulness of the men in the trenches, when many were not to be seen on Yonge street of an evening men were returning to the front after being wounded two and three times because the Canadian divisions had to be kept up to standard.

Recruiting would be solved by reaching the hearts of the women of Canada was the opinion of Lieut.-Col. Cecil Williams, chief recruiting officer of the Dominion, who has seen 18 years' service in the navy. At the outbreak of the war he offered his services to the admiralty and was told they were needed as naval secretary in Canada. He later enlisted in the army, and has the promise of the minister of militia that when recruiting is over he can join his regiment in France.

RALLY TO SUPPORT OF HON. A. E. KEMP

Ward One and Two Tories Pledge United Action if Election is Held.

APPROVE APPOINTMENT

Confidence Expressed in the Government of Sir Robert Borden.

The appointment of Hon. A. E. Kemp to the office of minister of militia and defence was received with great satisfaction by the representatives of all the Conservative associations in East Toronto at a meeting held in the Grand Hotel on Saturday afternoon.

The gratitude of the meeting to Sir Robert Borden, the prime minister, at his choice of Mr. Kemp for the post was declared in a unanimous resolution which expressed complete confidence in the government and recognized that through the assistance of the prime minister the government had secured the support of a large body of workers.

The resolution, which was very lengthy, referred to the Canadian Government's policy of assisting the imperial authorities in controlling nickel in such a manner that no shipments of the Canadian product could reach the enemy and to the measures which strengthen the position of the empire and her allies.

The meeting further declared its conviction that by wise judgment and firm action in connection with the appeal to patriotism and by the discountenance and by solemn strife and of domestic agitation, the premier had made the Dominion more effective in the war and had assisted the forces of the empire to co-operate for the greatest results in the field.

By a formal resolution the meeting congratulated Mr. Kemp on his appointment, pledged its united support to secure his re-election should he be opposed and extolled his faithful labors as chief minister of the empire. A committee of business was appointed, through whose vigilance and high business efficiency millions of dollars had been saved for the country in the distribution of contracts.

MAJOR J. R. MEREDITH IS DEAD IN ENGLAND

Cable Tells Chief Justice of Ontario His Son Died Suddenly.

Sir William Meredith, chief justice of Ontario, received a cable yesterday from the adjutant-general's department stating that his son, Major John R. Meredith, had died suddenly two days ago in London, England.

Major Meredith was a member of the 2nd Battalion of the Canadian Expeditionary Force and was serving in the front lines in France. He was a member of the C.O.P.C. and had been in the service for some time.

AUSTRALIANS IN THICK OF FIGHT

They Are Proud of Confidence Reposed in Them by Britain.

COMPLAINTS MYTHICAL

Berlin Story Denounced as Falsehood—Attacks far From Futile.

With the British Armies in France, Nov. 16, via London, Nov. 27.—From our correspondent of the Associated Press: Wireless reports from Berlin Saturday, charging that the British have treated the Australian contingents at the expense of the colonial troops, particularly the Australians, in the recent fighting, were denounced today at a meeting of the British Empire League in Toronto. The speaker, Mr. Kemp, stated that the Australians have been in the thick of the fighting and have the honor of being considered among the best troops on this front and have been used the same as the other famous divisions.

The official representative of the Australians told the Associated Press correspondent today that they had been treated as inferior in organization, personnel or material. He added that the recent attacks had their natural difficulty, but that the Australians and British had been side by side, and that the heaviest fighting fell upon the shoulders of the English, Scottish and Irish divisions.

The German wireless story in characterizing recent attacks as "stupid and futile," and made solely for the sake of prestige had overlooked the fact that the Australians brought in 7000 prisoners, said the representative of the Australians. He added that the Australians had fought hard and suffered along with the other good soldiers, but that they regarded it an insult for the Germans to take up their cause. He concluded by asserting that the Germans would be defeated and that the Australians would be the victors.

HUNDREDS WELCOME INVALIDED SOLDIERS

Sixty-Seven Returned Men Accorded Great Reception at North Toronto.

Mayor Church Says City Will Help Heroes in Every Possible Way.

Upwards of 1600 citizens were at the North Toronto Station on Sunday morning to extend a welcome to 67 invalided soldiers, who returned home after active service overseas. The reception accorded the returned men was one of the most enthusiastic yet held. The brass band of the 216th Battalion participated in the welcome.

last night pretending to extinguish fires, but really to distribute arms. This morning a resounding explosion was formed by Gen. Papagos, who was recently recalled from Janina. Many officers have already adhered to it. The exiles in Roumania are contributing to the strength of these plots, and ideas are circulating among the reservists of proceeding to the interior beyond the reach of the naval guns and starting guerrilla warfare until the arrival of the Germans, after the conquest of Roumania, which they firmly expect.

According to another despatch from Athens, the first delivery of arms demanded of the Greek government by Vice-Admiral Michalis, such as the six batteries of mountain guns. The demand declares that failure to comply with this demand will result in measures being taken by the admiral.

Admiral du Fourment's latest action in the Aegean is to force the Greek arms are to be surrendered greatly to the people of Athens. The premier informally explained that the admiral's refusal to accept the government's refusal of his demand, brushed aside the reasons for this refusal and simply set Dec. 1 as the date for the surrender of the arms of the big association, and Dec. 14 as the date for the surrender of the arms of the smaller association. The tone of the note, said the premier, was not courteous, but it did not admit of a reply.

According to the diplomatic representatives of the entente powers, the time allowed would enable the Greek government to make a final decision. The Greek minister to Paris, M. Fournet, said that the Greek government had decided to accept the terms of the ultimatum. He said that the Greek government had decided to accept the terms of the ultimatum.

## ANOTHER BABY'S LIFE SAVED

March 1st, 1916.  
Freddie Annamonte, 157 Baldwin Street, aged 2 years, was relieved of monster Tape Worm by one dose of Prof. Mulvency's World-Famous Tape Worm Exterminator. He was a very sick little boy, but is now improving nicely. This picture was taken yesterday.

Hanover, Aug. 1916.  
Dear Sir,—We are giving your B'Well to our daughter for epilepsy, and since taking it she has not had one fit. Before, every month she had from one to fourteen in an attack. I am enclosing \$6.00 for six packages. Yours truly,  
Jas. Crompton.

Andrew Buchanan.  
Toronto, Sept. 21, 1916.  
Little Andrew Buchanan's father brought a curious object expelled from his little boy, who had been very sick. It looks like a leech. I cannot say what it is, but little Andrew is doing fine since taking Mother's Friend. His father presented me with this picture and is much pleased with what Mother's Friend did for his only boy.

London, Ont., Aug. 23, 1915.  
Dear Sir,—I am writing you in reference to that bottle of Rheumatoid. I received it safe; it is the real thing. Kindly send me another \$1.00 bottle. I must say it is the most penetrating liniment I ever used. I am using it for rheumatism in my joints. I enclose \$1.00 for remedy. I remain yours truly,  
G.F.C.

## Mother's Friend

FOR SICK CHILDREN. CURES STOMACH AND PIN WORMS.

BUT IS NOT FOR TAPE WORMS. This valuable medicine expels Stomach or Pin Worms. It is not only valuable as a Worm Medicine, but is an excellent Tonic, Physic and Appetizer, strengthens the Stomach, Liver and Kidneys, and has stopped some of the worst cases of Wetting the Bed. Many children that were wasted away to a shadow have been built up and made healthy and well from its use, and their mothers made happy. Good for Coughs and Colic, also checks Fever. It is a real Mother's Friend, and gains its name from restoring sick children to health and quietness.

This valuable medicine working wonders in all cases of sickness among children. I have one case in mind just now of a little girl eleven years old, who had been treated for over four years without any marked improvements. In fact she was worse all the time. Her case seemed to puzzle the physicians in attendance, and they finally agreed that an operation on the stomach would be necessary to find out what was the matter. Her father, being opposed to an operation, called and got a bottle of Mother's Friend. He told me his little girl was in almost a hopeless condition, that she measured 33 inches around the stomach, and her body wasted away to skin and bones; her arms no larger than a broomstick; she was a beautiful, patient child, with a lovely disposition; to make a long story short, Mother's Friend took away the enlarged condition of the stomach, built her up so she was able to go to school, her appetite, of course, was restored, she surprised her neighbors, and her mother and father made happy.

Another case comes to my memory of a baby about two years old. The mother brought her to me in her arms. She was wasted away to a living skeleton and was a pitiable-looking sight. This case was beyond all reasonable hope of recovery. I thought, well, your faith is great if you expect this child to get well. She purchased a bottle of Mother's Friend, and took it home, used it and the little one was relieved of scores of worms of different kinds. It was about three months after when this lady brought the little one to my office. She was after another bottle of Mother's Friend for her own children and another for one of her neighbors, she had recommended it to. I did not recognize either the lady or the child until she told me of the circumstances. She said, "Do you not remember me bringing a baby in my arms, all skin and bones?" "It is her; isn't she a fine healthy child now? No one would have believed it. Worms was the trouble, and got rid of scores of worms. Now you can see for yourself what a fine, healthy child she is. Just look at the rosy cheeks."

About 9 o'clock one night a lady called for a bottle of Mother's Friend. She said her little boy had been taking fits for 24 hours, and the doctor had given him up with brain fever. She had asked a lady friend to call in and look at him, and she pronounced him to have worm fever, recommended her to try Mother's Friend, and a few minutes after taking Mother's Friend her picture, taken a week after being relieved of this monster, which he will be able to show you. I have given him perfect liberty to use it in any way he may deem fit in order that others may learn of this wonderful remedy. Yours respectfully,  
Mrs. B. Brooks.

## SAVED LITTLE GIRL'S LIFE TOOK CONVULSIONS A HORRID MONSTER TAPEWORM

Baby Brooks of Toronto.  
Toronto, Aug. 15, 1912.  
To Whom it May Concern: This is to certify that we have used Prof. Mulvency's World-Famous Tape-Worm Cure with most gratifying results. My baby, two years old, took convulsions, and we discovered she had tape worms. I lost no time in going to Prof. Mulvency to get his cure, which we got and used, and I am pleased to say baby was relieved of a monster tapeworm, about 20 feet long, the head and all, in about two hours, without causing her to be sick, and without previous fasting. I have great reason to be thankful, as we realize this remedy has saved baby's life. I am giving Prof. Mulvency her picture, taken a week after being relieved of this monster, which he will be able to show you. I have given him perfect liberty to use it in any way he may deem fit in order that others may learn of this wonderful remedy. Yours respectfully,  
Mrs. B. Brooks.

## Testimonials From Well Pleased Customers

Toronto, Dec. 23, 1913.  
To Whom it May Concern: This is to certify that I, Mrs. Pitchford, suffered from tape worm over three years, and I am pleased to say that one dose of Prof. Mulvency's famous Tape Worm Exterminator expelled it and relieved me of that deadly monster, the head and all, in six hours. I am pleased to recommend his wonderful cure to others. You are at liberty to use my name in advertising. This testimonial is unsolicited.

## Why Not Try B'Well?

It Makes People Feel Well

B'Well is a medicine that assists nature, made from roots, herbs, leaves, etc. The concentrated extracts of these herbs tone up the stomach, regulate the liver, act on the kidneys, and it contains a harmless worm destroyer that is sure death to worms, but harmless to even the youngest infant and can be used with perfect safety.  
B'Well is not a tapeworm exterminator and is not recommended for that trouble. B'Well is restoring thousands of people to health. I am not going to enumerate the different diseases and complaints that people have been relieved of from the use of B'Well, as it would take up too much space. I can simply say that restlessness and disease cannot remain if you take this medicine for a time, and it will surely make you feel fine.  
It does not contain poison in any form, or narcotics that only relieve pain, but the different roots and herbs that regulate the system. It stimulates the stomach, liver and kidneys into healthy action, helps digestion and keeps the bowels regular, expels all gas from the system and takes away the bad feeling around the heart and fearful feeling from the head, depressed spirits and melancholy simply vanish and a cheerful spirit takes their place. B'Well is a blessing to those that feel life is a burden to them that are downhearted and unhappy from disease. B'Well carries the poison out of the system through the natural channels of health, and as the poison is carried out of the system nature restores herself and a cheerful spirit follows, as there is nothing the good health to make a person cheerful and happy. People treated for epileptic fits have been restored by its use. Don't ask me if it cures this, that and the other disease. It is different from the most medicines advertised as curables, and I am not advertising this remedy as such, but simply advertising it as a medicine that has and will regulate the system, carry the poison out of the blood, and common sense must surely tell you the result. Men and women who have been nervous wrecks, with hollow cheeks and sunken brows, have become plump, healthy and cheerful from its use, and I can only say what it has done for others. Men, women and children who had eating ulcers and running sores have been healed, and what it has done for them it is likely to do for you. Terribly itchy, scaly skin diseases have disappeared from their use and the sufferers made happy and healthy.

SIX-MAN HOCKEY IN BEACHES LEAGUE?

Would Cut Down the Size of the Teams for the Small Rinks.

Altho the list of nominations and amendments for the Beaches Hockey League has not yet closed, still several have been sent in by Secretary F. D. Smith, and will be dealt with at the annual meeting.

One that is bound to cause considerable discussion is a motion by Referee Langford to reduce the teams in the league to six players. The argument advanced is that the present teams are a lot faster, as owing to the small rinks, the surface on nearly all the outdoor rinks is not so good as the indoor ones. It is pointed out that the teams shall be allowed to hold office in the league.

BROADVIEW ATHLETES SHOW IMPROVEMENT

The fellows who are taking part every week in Broadview's weekly handicap showed a marked improvement Friday night over their previous work. In the quarter-mile run two or three promising youngsters showed up well. Four heads were run, resulting as follows: First head—J. Galtier, 1:11.5 seconds. Second head—J. Galtier, 1:11.5 seconds. Third head—J. Galtier, 1:11.5 seconds. Fourth head—J. Galtier, 1:11.5 seconds.

New York, Nov. 25.—Business associates and employees of Thomas A. Edison sent to his office today a handsome cabinet and to be worth approximately \$700. The presentation was to have been made at an hotel in this city yesterday, but after a hundred of his employees and friends reached the hotel the inventor sent word that he was too busy to go to New York and asked that the present be sent him at West Orange, N. J.

FAST TIME IS MADE IN CENTRAL HANDICAPS

Nineteen Entries in Half Mile Run—Goulding Second in Walk.

There was a fine turnout of athletes Friday night at Central Y.M.C.A. for the weekly handicap events, when three good events were run off. The first event, the fence walk, had over 20 entries, and some of the new ones showed up very well. B. Bennett wanted the highest score, but he was not successful in the race. First place went to B. Sackett, had over 20 entries, and some of the new ones showed up very well. B. Bennett wanted the highest score, but he was not successful in the race. First place went to B. CHURCH WORKERS HONORED IN DEATH

John B. Vick and John A. Ewan Devoted Members of St. Matthew's.

MEMORIAL TABLETS

Unveiling Ceremony Yesterday Performed by Col. Noel Marshall.

To perpetuate the memory of two valiant workers of St. Matthew's Anglican Church, First Avenue, John B. Vick and John A. Ewan, handsome memorial tablets...

The inscription on the memorial to the late Mr. Vick reads: "In prayerful memory of John Benjamin Vick, builder and contractor, born in Hereford, England, 1848, died in Toronto, March 13, 1916. For many years an active member of the congregation, rendering the church invaluable service in a private capacity as well as in various official positions, such as chairman of the building committee, warden, churchwarden and member of the advisory board."

The other tablet reads: "In loving memory of John A. Ewan and in appreciation of his services as a warden in this church at sundry times, 1885 and in many other capacities, his urbane wise counsel and helpful assistance to the struggling congregation will be long remembered by all who knew him. Mr. Ewan was widely known as a brilliant journalist and his contributions as a special correspondent to the Toronto Globe from Cuba and South Africa, during the Spanish-American and Boer wars were eagerly read by the reading public."

"Born, Aberdeen, Scotland, 1854, died in Toronto, July 28, 1910."

SOCIALISTS DEMANDS CAUSE STIR IN BERLIN

London, Nov. 27.—The Amsterdam correspondent of the Exchange Telegraph Co. quotes The Berlin Vorwaerts as publishing an editorial declaring that the Socialists will oppose the conscription bill in the reichstag unless the government considers the demand that allowances for soldiers' wives be increased in proportion to the increased cost of living.

WINDOWS UNVEILED AT N. CONGREGATIONAL

Honor Memory of Three Prominent Members of the Church.

Unveiling of three memorial windows was the unique ceremony that took place at the Northern Congregational Church yesterday morning.

The south window, which was unveiled by Deacon T. B. Speight, represented "The Crowning of Dorcas." It was presented by E. J. Josselyn in memory of his wife. The north window, "Christ Consoling the Afflicted," was presented by the children and grandchildren in memory of Charles Page and his wife and Charles J. Page and his wife.

THE NAVY SUPREME

Speakers at Annual Festival of Sailors' Society Loud in Its Praise.

Patriotic addresses and prayers for the sailors of the united allies who are patrolling the North Sea featured the fifth annual harvest festival of the British and Foreign Sailors' Society, held Sunday afternoon in the Strand Theatre.

Rev. Alfred Hall, senior chaplain of the society, presided, and in his opening address, paid a tribute to the fallen in the battles at sea. "We have been the greatest year in all our naval history. One hundred and eleven years ago Nelson won the supremacy of the sea for Britain with a little fleet of 27 wooden ships; this year, after a most daring challenge by Germany, Admiral Jellicoe has maintained that supremacy with 600 fighting ships, aided by 8000 merchant ships as auxiliary cruisers and 3000 trawlers and fishing vessels."

Referring to the sinking of the British hospital ship, the Britannic, the reverend speaker said that the majority of those drowned were either stokers or engineers. The audience stood for two minutes in prayer for the souls of those who had fallen in battle.

A Message From Sir Robert Borden

In his urgent appeal for National Service, on October 23rd, Sir Robert Borden said: "Let us never forget the solemn truth that the nation is not constituted of the living alone. There are those as well who have passed away and those yet to be born. So this great responsibility comes to us as heirs of the past and trustees of the future. But with that responsibility there has come something greater still, the opportunity of proving ourselves worthy of it; and I pray that this may not be lost."
