HEROES HONORED AT CENTENNIAL OF KNOX CHURCH

Large Congregations Present
at Opening Services Celebrating Notable Event.

MEMORIAL UNVEILED

Knox Presbyterian Church, Spadina
avenue, began their week of
centennial celebration yesterday
morning by the unveiling of a memorial
tablet to their heroic dead.

Rev. A. B. Winchester, the minister,
who is the fifth pastor in the
century of worship, and who has
been in the Pulpit of Knox Church
since January 15, 1901, was assisted
in the service by Rev. W. A. Cameron
of Bloor Street Baptist Church.

The unveiling ceremony was per-
formed by James Ross, one of the
members of the congregation, whose
family sent three sons overseas, two
of whom died in the service, and the
third returned "bearing on his
body the marks of conflict."

One other family was mentioned as
sending three sons, two being present
at the memorial service yesterday.

The offertory anthem, "When
Canada Mourns," was sung by a
quartet of the choir to music by
Dr. W. K. E. Vincent, choirmaster
of Knox Church.

The address of Rev. Mr. Winchester,
preceding the unveiling, followed
the theme of the service.

Momentary Emotions.
"A great many were moved to
tears and shouted at the culminating
period of the war," he said, "and their
sorrows were but a momentary
emotion. They did not know what
sacrifice meant. But there were those
whose suffering there had been
claim upon claim. And there were
those at whose homes there was
waiting the empty chair that could
not be filled."

It was with the full knowledge of
the possibility of this latter condition
and in the spirit of sacrifice that
fathers and mothers and wives and
brothers and sisters said, "Go, my
boy!"

"To those who have ears to hear,
is this not a trusting voice? God
has his witnesses. In the family
chosen to unveil this honor roll to-
day." (Continued on Page 2, Column 6).

NO WEAKENING SAYS GREENWOOD

British Government Cannot
Reverse Decision in
MacSwiney Case.

Belfast, Sept. 18.—Sir Hamar Green-
wood, chief secretary for Ireland, has
informed the magistrates of County
Louth that he can hold out no hope
that the British government will re-
verse its decision in the case of Lord
Mayor MacSwiney, on hunger strike
in Brixton jail. The magistrates re-
cently sent a communication to Sir
Hamar, demanding full self-govern-
ment for Ireland, with powers not less
comprehensive than those enjoyed by
any dominion, and calling for the im-
mediate release of MacSwiney. The
chief secretary's reply to the magis-
trates says:

"I can hold out no hope of reversal
of the decision of the government in
the case of the lord mayor or Cork. I
can assure you the government is de-
termined of granting the fullest possi-
ble measure of self-government to the Irish
people, and would welcome an expres-
sion of moderate opinions directed to
the unfortunate state of affairs."

MacSwiney Holds On.
London, Sept. 18.—Terence MacSwiney,
lord mayor of Cork, passed a somewhat
better night in Brixton Jail, having two
hours sleep, which seemed to have re-
freshed him slightly, says a bulletin is-
sued by the Irish Self-Determination
League, at noon today, the thirty-eighth
day of the lord mayor's hunger strike.

Otherwise the bulletin adds, Mac-
Swiney's condition is much the same to-
day as yesterday. He is extremely weak,
but not quite so exhausted, and still is
conscious.

Hunger Strikers Weaker.
Cork, Sept. 18.—The hunger strikers
in Cork jail were reported today to be
in an exceptionally weakened condition,
due to a bad night experienced by all,
especially Burke and Power, who have
been suffering from insomnia for nearly
a week. A Cork hospital nurse, who
was permitted to see the prisoners last
evening, said that MacSwiney was uncon-
scious—scarcely more than living. The
condition of Kennedy and Donovan was
grave.

MEIGHEN ON TOUR.

Ottawa, Sept. 18.—Premier Meighen,
who left on Saturday for Montreal and
the eastern townships, will leave
Montreal for Cobleskill, Que., tomorrow,
and on Tuesday evening will ad-
dress a meeting at Sherbrooke. The
prime minister is expected to return
to Ottawa about Thursday evening.

WRANGLES NEW SUCCESS.

Constantinople, Sept. 18.—Cavalry
forces of Gen. Wrangel, the south
Russian anti-Bolshevik leader, have
driven back the Reds on the Orlikov
front. It was announced here Satur-
day. The Bolsheviks have retreated
beyond Takmak.

ATTACK ON HYDRO OVER LABOR POLICY

Bitter Verbal Battle at Closing Hour of Trades Congress Convention — Call for a Showdown Between Govern- ment and Commission —Declare Beck Unfair in Treatment of Workers.

Windsor, Ont., Sept. 18.—(By Cana-
dian Press.)—In the closing hours of
the final session of the convention of
the Trades and Labor Congress of
Canada yesterday, there was stag-
nant the bitterest battle of the week. It
was started with the introduction of a
resolution submitted by the Niagara
District Trades Federation, scoring the
action of the Hydro-Electric Commis-
sion in repudiating the eight-hour day
and the 44-hour week on the Chip-
pawa canal development project, and
substituting therefor the ten-hour day
and the sixty-hour week, and con-
demning the provincial government for
not taking action or making a public
statement on the report of the special
parliamentary committee appointed to
investigate the dispute between the
Hydro-Electric Commission and the
Niagara District Trades Federation, and
for allowing the Hydro-Electric Com-
mission to put into force work con-
ditions of labor other than that
which is prevalent in the district, and
demanding that the government im-
mediately put into effect on the Chip-
pawa canal development work such
rates of wages as are established in the
district and as were in force in this
work in 1919.

FALLON SCOLDS LLOYD GEORGE

Belfast, Sept. 18.—(Can. Press.)—
Bishop Fallon, London, Ont., who
is visiting Belfast and the sur-
rounding district, has sent a mes-
sage to Premier Lloyd George on
the situation in Ulster, in which
he says:

"The proposed arming of civil-
ians is an invitation to incitement
to civil war here in Ulster. Such
action makes hopeless the efforts
of moderate men throughout the em-
pire. The hidden power that is
dictating the present Irish policy
is digging the grave of the British
commonwealth."

FERRY PASSENGER PROVED RIGHT MAN

Is Now Held on Charge of
Having Robbed Island
Residence.

Detective Tom Sullivan has a good
eye for suspicious characters; so good
that when Gordon Wright, 229 Salem
avenue, stepped off the Centre Island
ferry, at the foot of Bay Street, on
Saturday night, along with fifty or
sixty other passengers, he was im-
mediately placed under arrest on a
charge of housebreaking. The strange
part of the whole thing was that Sul-
livan was only making a guess that
he had the right man, but his guess
proved to be right.

At about 8 o'clock, the police received
a telephone call from a lady at Cen-
tre Island, that she had seen a suspi-
cious looking man leave the house of
Mrs. Jackson, 23 Ironsides avenue, the
occupants of which had left for the
city. She described the man, and De-
tective Sullivan and Waterhouse were
sent down to the ferry landing at the
foot of Bay Street to watch for him
coming over to the city. The ferry,
when it arrived, had on board a num-
ber of passengers, so that with the
meager description of the two officers
had to identify their man, the task
was no easy one. They expected, of
course, that their man would be carry-
ing his loot, but it happened that there
were several people with parcels, and
this also proved a meager clue. De-
tective Sullivan, however, was not to
be fooled, even the Wright, carrying
a postbox, was walking along

ESCAPES DEATH IN FALL OVER CLIFFS

Frank Pape Is Found Lying on
Beach at Birch-
cliff.

To fall from the Birch Cliff Heights
to the beach, a distance of about 100
feet, and not to receive any broken
bones was the experience yesterday
afternoon of Frank Pape, who gives
his address as 2214 East Queen street.

Pape was found by a passer-by
lying at the foot of the heights in an
unconscious condition. He was removed
to the General Hospital by the life-
savers, and it was reported by the
hospital authorities last night that he
did not show seriously ill effects.

Receiving a summons for their as-
sistance the beach life saving crew
arrived on the scene to find Dr. Sic-
ily, 2 Main street, working over the
man. They immediately took the
two aboard and started for the city.
When fifty yards out in the lake,
however, Pape leaped from the boat
into the water and it was with the
greatest of difficulty that the life
savers were able to save him from
drowning. The speed boat from the
main station then arrived on the
scene and took Pape to the General
Hospital.

IMMIGRANTS INTO PALESTINE TO BE STRICTLY SUPERVISED

London, Sept. 18.—The conditions which will govern the entry of im-
migrants into Palestine, just made public by the administration of the dis-
trict, are contained in despatches from Jerusalem today. Each immigrant
must possess a passport vized by the British consul of his city, ample proof
that he will be able to sustain himself for at least a year, and a certificate
as to his physical fitness.

All ports of entry into Palestine will be supervised strictly by immigra-
tion officials already appointed, and every immigrant admitted into the coun-
try will have to register with the local police within fifteen days from the
date of landing. Failure to register will lay the immigrant open to immediate
expulsion. Tourists and pilgrims will not be required to register.

Sir Herbert L. Samuel, the British high commissioner, is vested with the
right to expel an immigrant within five years from the date of his arrival
if he has broken the laws of the country, or if such expulsion is proven to
be in the interest of the state.

AFTER KILLING FOUR MURDERED SUICIDES IN NOVA SCOTIA TOWN

Report Tragedy at Village of
Hemford—Victims In-
clude Father.

DISPUTE OVER A DAM

Halifax, N.S., Sept. 18.—In a fit
of demented rage, resulting from a long-
standing dispute as to the location of
a mill dam on or near his father's
property at Hemford, Lunenburg
county, Havelock Venott, this morning
at that place, shot and killed three men,
including his father, and one woman,
and then shot himself dead, and then
went into the barn and put a bullet
through his own head.

FATHER FIRST ATTACKED.

The father was the first attacked,
but was not then mortally wounded,
and tried to give warning to the others.
He failed to get warning or protection
to them in time, and the son, having
killed the Ritches at their home, and
then returned to his father's house,
shot the latter dead, and then
went into the barn and put a bullet
through his own head.

NO DEFINITE CLUE TO RED PLOTTERS

Russian Journalist Is Held,
But Arrest Is Not Regarded
as Significant—Fischer to
Reach New York This
Morning—Pope, His Bro-
ther-in-law, Questioned at
Department of Justice.

New York, Sept. 18.—Department of
Justice agents and the police were still
without a definite clue tonight to the
identity of the person or persons re-
sponsible for Thursday's explosion in
Wall street.

Alexander Bralovsky, a Russian
journalist, who was arrested late yester-
day on information furnished by an
anonymous correspondent, and who
admitted having been in the financial
district a short time after the explo-
sion occurred, is still being held with-
out bail on a charge of being an unde-
sirable alien.

William J. Flynn, chief of the bureau
of investigation of the department of
justice, declared tonight that he placed
no special significance in Bralovsky's
arrest, but that he was being ques-
tioned and held in conformance with
the department's plan "not to overlook
any leads," and to follow up all "leads"
that may develop in the course of the
investigation.

No other charge or suggestion that
Bralovsky is in any way personally
responsible for the disaster has yet
been made by the authorities. They
announced, however, that he would be
questioned further, and an effort made
to locate the three men with whom
he was seen talking at Pine and Nassau
streets less than an hour after the
blast. He vehemently denies being im-
plicated in the supposed plot.

Driver's Body Found.

ment within the past 24 hours is the
suggestion by Medical Examiner Nor-
wood (Continued on Page 5, Column 7).

KIDNAPPED CHILD FOUND IN SHACK AFTER THREE DAYS

Shell-Shocked War Veteran
Who Took Irene McKin-
non Away Is Arrested.

Little six-year-old Irene McKinnon,
who disappeared from her home, 318 A
East Queen street, Thursday after-
noon last at the same time as Albert
Peters, a wounded and shell-shocked
veteran, was found by the police on
Sunday morning, in an old shack
about two miles out of Weston, where
she had been living with the man since
her disappearance.

Peters, who was found with the
little girl, was placed under arrest on
a charge of kidnapping and theft, the
latter charge arising out of his having
on a suit belonging to the child's
father. When examined the child was
found to have not been maltreated.

The police received information from
Weston yesterday morning that the
wounded war veteran answering the de-
scription of Peters had been around
Weston and Inspector Wallace, District
Sergeants Stewart and McConnell and
Plainclothesmen Fuft, Silverthorne,
Hazelwood and others and a number of
uniformed men, comprising a party,
numbering nearly twenty, were seen
there. The object of the large party
was to thoroughly search the woods and
country within the past 24 hours is the
suggestion by Medical Examiner Nor-
wood (Continued on Page 5, Column 7).

ARMY OF WAR'S LAURELS

Commodore Ross' Sir Barton to Meet World's Greatest Gal-
loper at Windsor for a Gold Cup and \$50,000—
Exterminator a Possible Third Contender.

A. M. Orpen, general manager of the
Kenilworth Race Track, Windsor,
has announced that the owners of
Man o' War and Sir Barton have
agreed to race for a purse of fifty
thousand dollars and a gold cup of-
fered by the Kenilworth Jockey Club
on a date between October 6 and 13,
the distance and weight to be
agreed on later between owners. The
distance is likely to be a mile and a
quarter, and the weights probably
weights for age; in this case Sir
Barton, a four-year-old, would carry
126, and Man o' War, three-year-old,
120 pounds.

A Montreal paper, which saw the
telegram exchanged between Com-
mander Ross and Mr. Orpen, speaks
as if it were authorized to say that
the owner of Sir Barton would not
consider the six pounds more than
Man o' War carries, as likely to have
a telling effect on the older horse.
The same paper intimates that Sir
Barton ought to win, and that Mr.
Ross is anxious for the race.

The acceptance for Man o' War
came in a telegram from Trainer
Bodwell.

Will Come to Terms.
Mr. Orpen's good horse, also having a
chance of the gold cup, will be in the
details of the race would be worked out

HUNDRED MASKED MEN COMPUL MOTORISTS TO DRIVE RAIDERS THRU COUNTRY.

Belfast, Sept. 18.—With twenty
automobiles captured from week-end
pleasure seekers, Sinn Feiners in
Mid-Tyrone, Saturday carried out one
of the largest raids for arms in the
history of Ireland. Early in the after-
noon when large numbers of persons
were starting on week-end tours, a
body of men armed with revolvers
stationed themselves at the entrance
to Gortin Gleens, a favorite drive,
and held up all motor cars, the passen-
gers being sent to the farm houses
adjacent.

BOMBERS ROUNDED UP

When 20 machines had been cap-
tured a gang of 100 masked men, all
heavily armed and led by an officer,
descended from the adjoining moun-
tain side and entered the cars, the
drivers of which, with revolvers at
their heads, were compelled to drive
the raiders around the country, visit-
ing houses in search of arms.

BOMBERS SURPRISED

Belfast, Sept. 18.—Soldiers who had
been in ambush since early morning
surprised a body of Sinn Feiners at
bombing practice in the hills today.
One republican was killed; two were
wounded and thirty-five captured.

FISCHER SPOUSED CAUSE OF SOVIET

His Talk of Some Time Back
Takes on Sinister
Hue.

New York, Sept. 18.—(Special.)—
While it is said that Edward P. Fischer
is irresponsible, and in some quar-
ters it is maintained that it is absurd
to suppose that he was in the confi-
dence of dynamiters, the fact remains
that Fischer, whether or not he was
admitted to the confidence of dynamiters,
here, frequently espoused the cause of
soviet Russia in conversation with his
friends. One of his earliest utterances
concerning a disaster in Wall street
was delivered in the course of such a
talk. He had been discussing with an
employee in a large brokerage office
the success of soviet troops in Posen
territory and advised him to sell what
ever securities he had as next "they
would blow up Wall street."

CANADIAN HORSE AFTER MAN O' WAR'S LAURELS

Commodore Ross' Sir Barton to Meet World's Greatest Gal-
loper at Windsor for a Gold Cup and \$50,000—
Exterminator a Possible Third Contender.

Here are the Orpen-Ross telegrams:
Toronto, Sept. 16, 1920.
Commander J. K. L. Ross,
Montreal, Que.
On what conditions would you con-
sider a race between Man o' War, Ex-
terminator and Sir Barton for fifty thou-
sand dollars and a gold cup to be run at Kenil-
worth Jockey Club meeting, Windsor,
Ont., between October 6 and 13,
(Signed) A. M. Orpen,
General Manager.

A. M. Orpen, Kenilworth Race Track,
Windsor, Ont.
In reply to your telegram of today's
date I would agree to a race between
Sir Barton, Man o' War and Extermina-
tor, distance to be approximately one mile
and a quarter, for fifty thousand dollars
and gold cup, all to go to the winner.
Further conditions to be mutually agreed
upon after the owners.

(Signed) J. K. L. Ross,
A Possible Third Entry.
The telegram between Kenilworth Club
and the Man o' War stable were about
the same as above.

The \$50,000 is to be put up by the
club; there is to be no entry or sweep-
stakes money from the owners. The race
will attract spectators from New York to
Chicago and entrance tickets may com-
mand from five dollars up.

There is a chance of John P. Gross,
White's good horse, also having a
chance of the gold cup, will be in the

THE "MOCCASIN" The Boot That is Made in England.

AND which has these words "THE WORLD'S BEST" stamped on the bottom. What a standard for any shoemaker to set. What a standard to live up to. One might ask the question, "Does the 'Moccasin' live up to this standard?"

The answer can only be obtained from those who wear them and who, after wearing out one pair of "Moccasins," buy another pair. What better sign than this, that the moccasin lives up to its standard and offers the best of foot comfort and wear? "Moccasin" Boots are noted for their flexibility and exceptional fineness of leather. One would have difficulty in choosing a more appropriate boot for business wear. One would have difficulty in finding a boot that is more stylish in its quiet, dignified way, or that gives one a greater impression of quality at first sight. A recent shipment has brought the selection of "Moccasins" up to its best, there being C, D and E widths. The leather of which it is made consists of an exceptionally fine quality vici kid. Soles are oak tanned and each heel has a plug of rubber, which acts as cushions, so to speak. Sizes 5 1/2 to 11. Price, \$15.00.

HOME BANK BUYS BLOOR ST. CORNER

New Record Set of Land in District West of Yonge Street.

(From Sunday World.) The vacant lot at the northwest corner of Bloor street and Avenue road has been sold to the Home Bank for \$33,000, and a banking building will be erected on the site shortly. The lot fronts 75 feet on Bloor street, and the price figures out at \$1240 per foot frontage, which sets a new high record for the district. For many years this property was owned by the Albert Nordheimer estate, who sold it about eight years ago to the Bond brothers—Aubrey, Fred and Roy—who were the vendors to the Home Bank. The depth of the lot on Avenue road is 120 feet. The corner property originally extended back to Prince Arthur avenue, and, when occupied by the Albert Nordheimer family, was beautifully wooded. Part of the Avenue road frontage was sold some years ago to the late Philip Jacobi, and subsequently sold to the late Sir William Mortimer McCollum. The residence of Dr. J. A. McCollum, on Avenue road, now stands on part of the original Nordheimer homestead. In the days of muggy York, this corner was the site of a house of entertainment or roadhouse which enjoyed a wide popularity. John Gowans has purchased from Mrs. S. W. Rush the residence at 43 Rowanwood avenue for \$17,500. The property at 222 Poplar Plains road has been sold to S. B. Beatty by James MacKenzie for \$25,000. The duplex house at 51 Foxbar road has been sold by E. S. Duggan to T. Brooks of Detroit, for \$18,000. A. E. Bea has purchased, for \$25,000, the residence of Mrs. E. C. Wakefield at 1 Shorncliffe avenue. In addition to the offices of the H. F. Ritchie and Co., Ltd., 14-15 McCullum street, will be built at a cost of \$15,000. Alterations and improvements to the interior of the warehouse at 52 West Wellington street, owned by J. Henry Peters Company, will be made at a cost of \$35,000. Plans for a \$50,000 office building are being prepared for William Rowntree, who proposes to build on Dundas street, opposite Midland street, near Pacific avenue. If the sale of the school board property, on East Bloor street, to a syndicate for a hotel site, goes thru, it is understood the commission, which will be \$30,000, will go to the Charters Trust & Executor Co., the brokers in the deal.

EXTEND JURISDICTION OF TELEGRAPH HEAD

The jurisdiction of Geo. D. Perry, general manager of the Great North-western Telegraph Company, has been extended over the telegraph lines of the Grand Trunk Pacific Railway, with headquarters at Toronto, according to an announcement made Saturday by D. B. Hanna, president of the Canadian National Railways. The announcement follows the decision of the government to place the management of the Grand Trunk Pacific under the control of the board of directors of the Canadian National Railways.

EXPERT TO TALK AT FALL FASHION EXHIBIT

In connection with the exhibit of fall fashions at the T. Eaton Co., which commences today, there will be a series of intimate talks on current and coming fashions by Ralph Breed, of New York and Paris. Mr. Breed is well known as a former writer for Vogue and Harper's Bazaar, and is at present the European representative of various English and American fashion organizations. He will treat of the history, the technique and the value of present and future modes and will tell of the recent openings of the great Paris creators at which he himself was present. In conjunction with the talks, there will be displayed a collection of costumes from French, American and Canadian designers, which will be worn for purposes of demonstration. The lectures will be held at 10 a.m. and 2.30 p.m. daily in the auditorium, fifth floor, house furnishings building.

The mayor and party will also be a guest make personal appearances at the Uptown Theatre tonight and at both the Uptown Theatre and at the Uptown Theatre Tuesday afternoon, are Bert Lytell, a Toronto boy; Herbert Rawlinson, Miss Carol Dempster, the star of D. W. Griffith's "The Love Flower," the stellar attraction of the initial program; Deiores Cassinelli, the famous French star; Montague Love and Miss Griffith, a sister of the director. Following a luncheon at the King Edward, the entire party will motor to Upper Canada College, of which Bert Lytell is a graduate. The entire number of 2,300 reserved seats having been disposed of in quick order after the opening of the sale, Mr. Loew has made arrangements to keep the stars over in Toronto Tuesday, when they will again make personal appearances at both the Uptown Theatre and Loew's Uptown Theatre. The opening of Loew's Uptown Theatre tonight is expected to be one of the most brilliant events of the season, with a large and fashionable turnout.

EXTEND CAMPAIGN FOR WILLARD HALL

The campaign for the extension of Willard Hall will be continued next week. Owing to the fact that a great many people were out of town during August, and because of the Exhibition, the campaign has necessarily been delayed. It is confidently expected that the final canvass can be completed by the 25th inst.

ORPHANAGE WORK NEEDS MORE SUPPORT

Sir William Mulock presided at a meeting of the Franco-Canadian Orphanage Society, when Dr. James L. Hughes and Mrs. Sidney Small, both recently returned from France, and who had visited the orphanages there, spoke enthusiastically of what they had seen. The meeting decided that the aims and needs of the work in France should be supported in Canada and that the children in particular should be encouraged to keep up their present interest in the work, which would be their lasting memorial in France. A committee was appointed to carry on the plan of raising funds throughout Canada. Dr. Hughes was appointed chairman, Mrs. Sidney Small and Mrs. O'Brien directors. Already Toronto children are renewing their enthusiastic interest of last year. It is hoped that the committee will succeed in securing the co-operation of people throughout the Dominion in the great project of supporting the orphans of French soldiers who lost their lives in the world war.

ESPLANADE PLANS READY NEXT WEEK

Toronto Authorities Will Make Suggestions to Get New Station Open.

(From Sunday World.) The alternative plans prepared by Engineer E. Cousins of the harbor commission of temporary measures for grade separation on the Esplanade, and for the opening of the new union station were considered specially by the harbor commissioners Saturday, and it was decided to lay the plans before a meeting of all the Toronto interests concerned this week. This meeting will be representative of the harbor commission, the board of control, board of trade and civic guild. The railway companies have suggested traffic bridges over the tracks and the postponement of the work called for under the board of railway commissioners' viaduct order for ten years, but it is understood the Toronto authorities are asking that the western end of the viaduct between Yonge and Bathurst be constructed as a permanent work at once, in order to permit the carrying out of the harbor improvement scheme. They will agree to reasonable delay in the construction of the viaduct east of Yonge street.

LORD DESBOROUGH TO DISCUSS EMPIRE SPORT

The Right Hon. Lord Desborough, president of the Congress of Chambers of Commerce, will address the Empire Club at luncheon at the King Edward on Thursday next on "Empire Sport." It has fallen to the lot of few men to play a leading part in so many varied fields of activity as Lord Desborough. A man of wide personality, a sportsman, a politician, and with a keen sense of affairs, his career is a long story of achievement in every problem he has tackled. He has a record which all sportsmen must envy, and his activities in support of great imperial movements, and his strenuous work on behalf of the government during the years of war, have shown him to be a man whose interest in the welfare and prosperity of the empire is sincere and whole-hearted.

MICHELE BASSO'S TOMB WAS READY FOUR YEARS

Placed in Mount Pleasant Cemetery nearly four years ago, is an empty granite casket with a cross on either end, and bearing on the face of it the inscription: "Michele Basso." Today this casket will be tenanted by the mortal remains of Mr. Basso, for 40 years Italian interpreter, who passed away on Friday night. The burial plot in Mount Pleasant was purchased some thirteen years ago, when the deceased, was 69 years of age. The casket was prepared in 1916, when Mr. Basso was taken seriously ill with pneumonia, and although he intended sending to Italy for the granite, fearing the approach of death, he gave the order locally. The funeral will take place this afternoon, the service being held in Elm Street Methodist Church.

SOON READY TO ENFORCE O. T. A.

Reorganization of New Provincial Police Force Is Almost Completed.

(From Sunday World.) The strengthening and reorganization of the Ontario provincial police force is expected to be completed within the next few weeks. It will then take over from the provincial secretary's department the present system of enforcement under the immediate direction of the board of license commissioners has not proved a success, hence the change. Meanwhile responsible ministers and officials refuse to disclose the lines upon which the reorganization is proceeding. It was learned, however, that the new force would be similar to the constabulary system in vogue in many of the United States and will probably be uniformed. It will be divided into small detachments with headquarters in the larger centres of population. It is not known yet how many additional men will be appointed. The present force is under fifty. MAY PUBLISH NEWSPAPERS. London, Sept. 18.—The Manchester and Liverpool papers will reappear on Monday if the settlement reached yesterday is ratified.

DORCHESTER HOUSE DENIES ALLEGATION

Refutes Story of Clash With Montreal Women Over Arrivals From Britain.

Montreal, Sept. 19.—(By Canadian Press).—A complete denial is made by the board of directors of Dorchester House, a benevolent institution supported by the Protestant churches of the city, to allegations contained in a despatch carried by the Canadian Press, Limited, on Sept. 3, in regard to scenes reported to have taken place there when twenty-three domestic servants arrived that day from the old continent. The despatch, which is a statement issued on behalf of the board by John Anderson, president; Rev. Dr. John Chisholm, secretary, and H. Davidson, treasurer, and the Anglican diocese of Montreal. The statement specifically contradicts the report that Dorchester House registered an old-time slave and that "lady servant seekers forced their way into the house and obtained access to the girls, either by force or by persuasion, and finally bundled them bag and baggage into automobiles, the resultant confusion being so great that the men on duty should have been called in and is a quandary to know where any of the twenty-three girls have gone."

Positive Denials.
It is positively denied that any girls were taken on the occasion in question, and after they had been duly registered in the usual manner in the register kept for the purpose, together with the name of the employer to whom they were to be sent. It is also denied that as a matter of fact, only one or two were taken that morning; others in the afternoon, and some returned for several days. It is absolutely untrue that, as alleged in the article referred to, the matron lost track of the girls, and is in a quandary as to where they have gone. While the despatch in question was carried in good faith, after enquiry the Canadian Press Limited is convinced that there was no foundation for the statements made in the article published, and expresses its sincere regret that its publication has been the means of carrying to the public charges entirely unfounded, affecting the Dorchester House, in its work for immigration, and reflecting injuriously upon the administration of the home and its capable matron.

TO CHECKMATE RUM-RUNNERS

International Action Taken to Curb Illicit Traffic on St. Lawrence.

Ogdensburg, N.Y., Sept. 18.—(By Associated Press).—United effort by the American and Canadian authorities to stamp out whiskey running across the international line is on today. According to the government officials, whiskey valued at over \$1,500,000 in the underground American market has been sent over the border in the island region beginning at Brockville, Ont., and extending as far as Clayton on this side.

Owing to the number of islands and channels which abound in the St. Lawrence, the blacksmith said that he found on the foreshore the horizontal line just over the heel clip, which he always has put on his handwork as the sort of secret identification mark, which all horsehoes use. This was done, he explained, in order to know their own work in case of complaint. Haggerty was sure he knew the horse, although when he examined it remains he said he believed it had been clipped closely since he handled it.

GREAT BOOM ON FOR MILLERAND TO JOIN THE NAVY

His Election to the Presidency of France Regarded as Inevitable.

Paris, Sept. 19.—The election of Premier Millerand to the presidency of France today seems inevitable, despite the premier's repeated declarations that he is not a candidate for the office. The premier has received assurances from numerous groups in the chamber of deputies, except for the former President Poincare and former Premier Briand, in their writings, have asserted that this authority should be accorded the premier.

LEAGUE OF NATIONS PROVES ITS MERIT

Intervention in Aland Island Question Cited by Premier of Sweden.

Paris, Sept. 19.—(By the Associated Press).—The League of Nations, through its intervention in the Aland Islands question between Sweden and Finland, has proved its right to live as an effective means of preventing questions growing out of international disputes. Hjalmar Branting, prime minister of Sweden, said today: "The situation between Sweden and Finland was tense." Premier Branting declared: "The council of the league has brought them to a peaceful solution, and has prevented a conflict which would have had serious consequences for the peace of the world."

FRONT SHOES OF HORSE IDENTIFIED

Blacksmith, However, Unable to Give Information About Driver of "Death Wagon."

New York, Sept. 19.—John Haggerty, a blacksmith in Lower Manhattan, it was learned today, had identified the front shoes of the dead horse which drew the "death" wagon to Wall street as two he had put on about two weeks ago. Haggerty, however, told the police he doubted if he could recognize the man who brought the animal to him, as he usually shod from eight to a dozen horses daily, and nothing had attracted particular attention to this customer. The blacksmith said that he found on the foreshore the horizontal line just over the heel clip, which he always has put on his handwork as the sort of secret identification mark, which all horsehoes use. This was done, he explained, in order to know their own work in case of complaint. We Want Canada to Be a Self-Reliant Nation.

A journalistic neighbor which has become quite "gritty" of late finds fault with The World for hoping that Canada may become:

A nation self-sustained, which would import nothing it could produce at a reasonable cost within its own borders and whose prosperity would not be at the mercy of the export trade.

We are assured that such an ideal is at once impracticable and undesirable. First it is said that we must and should get our supply of coal for central Canada from the neighboring coal fields in the United States instead of attempting to haul Canadian coal from either the Atlantic coast or the Rocky mountains, and we read:

In the case of this international trade it is to the benefit of both parties that coal shall be carried across the frontier from where it is plentiful and cheap to where the element of distance from home supplies would make it scarce and dear but for imported coal.

Well and good as far as it goes, but suppose the coal falls to come across the frontier? Suppose the U. S. government places an embargo upon the exportation of coal to Canada. This may or may not happen, but the decision rests with the United States, and central Canada is dependent upon the United States for coal. Would it not be better for Canada to be self-sustained? We have no black coal in Ontario and Quebec, but we have at our command the white coal of electricity. Hence The World has always advocated the development on a gigantic scale of electric energy from the water powers of Ontario. We would rather see our country self-sustained in the matter of fuel than dependent upon another country.

Next we are told that we must of necessity import cotton, crude rubber and other raw material. That is unavoidable. The suggestion that we cannot manufacture cotton goods economically because we cannot grow cotton in Canada is worthy of no consideration. The great textile works of Lancashire were for years dependent for raw cotton upon the United States, and suffered terribly when the supply of cotton was shut off by the civil war. But England soon found she could grow cotton in India, and the Americans found that they could manufacture cotton goods instead of shipping all their raw material to another country.

Next it is said that if Canada develops her national policy other countries may follow our example. Then follows the question designed to floor the friends of the national policy. To quote:

What reasonable answer could the "self-sustained" school return to an argument from Brazil, that rubber ought to be manufactured in the country producing it?

We certainly think that if Brazil has anything like a monopoly of crude rubber, and has manufacturers and artisans capable of preparing the same for commercial use, that she ought to restrict exportation and build up within her own borders a great rubber industry. We have no hesitation in saying that Canada made a colossal blunder in allowing her nickel ore to be exported for refining in other countries. We think today Canada is making a great mistake in permitting all her asbestos fibre to be exported for refining to the United States. We think it would be little short of madness to remove all restrictions upon the export of pulp and pulpwood. We must, as far as possible, take care of ourselves.

Finally we are assured that the iron and steel business is an exotic in Canada, because the iron ore, and, in some cases, also the coal, has to be imported. That argument carried weight ten years ago. But the war itself shivered it into spray. What a figure Canada would have cut in the war if she had been unable to manufacture munitions, steel rails, and railway equipment. There is no doubt that, as a nation becomes self-sustained, her people become more alert and self-reliant. The United States fifty years after the revolution was still, to all intents and purposes, a British colony. They looked to the mother country for all the luxuries and comforts of daily life.

Sydney Smith, in 1820, asked: In the four quarters of the globe, who reads an American book, or goes to an American play, or looks at an American picture or statue? Edgar Allan Poe, a real genius, was then living, but he could get no recognition in his own country until he attracted the attention of England. It was the "American policy" of Henry Clay that transformed the United States from a plantation into a strong, self-reliant nation. It is the national

policy of Sir John Macdonald that has worked and is working a like miracle in Canada.

Pro-Germans to the Front.

Those members of parliament who doubted the wisdom of at once restoring the franchise to newly-naturalized citizens of enemy origin may find justification in what is going on in the United States. The pro-Germans, under the leadership of G. S. Viereck, former editor of The Patherland, are taking an active part in the presidential campaign. They are after President Wilson, because they hold him responsible for the war with Germany, and for the terms imposed upon Germany by the treaty of Versailles. They say Governor Cox is the representative of Mr. Wilson, and urge all German-Americans to vote for Senator Harding, not as the best man, but as the best man available. They regard Eugene V. Debs as more desirable, but appreciate that he cannot possibly be elected.

How far these professional German-Americans can persuade American citizens of German birth or descent to punish the Democratic party and its president for siding with Germany during the late unpleasantness, remains to be seen. Possibly their influence will be negligible, but at the same time it is well to remember that one-fourth of all the white voters in the United States are of German birth or descent.

Senator Harding is evidently embarrassed by these new auxiliaries. He cannot turn them out at the gate, and he is afraid to invite them into the house. Therefore, he lingers in conversation with them on the front porch, hoping they will go before the neighbors notice their presence or other people drop in to call. He has notified the German-Americans that they must not think of him as favoring any class or race. But he would be more than human if he did not want their votes.

Governor Cox, the Democratic candidate, is threatened with some defection among the Germans, and still more among the Irish. Probably for the first time since the discovery of America, the Irish and German agree. Both are down on President Wilson, but it remains to be seen whether they will hold Governor Cox responsible for the administration of President Wilson.

The Spots Bombed.

There is no doubt that whoever directed the bombing chose the Morgan corner of Wall street as the centre of attack that would attract most attention all the world over. It would not be fair, perhaps, to say the most vulnerable, but certainly the centre that has been most denounced by the press, by individuals, economic writers, speakers, agitators.

And when the agents of the Russian soviet selected the doorstep of The London Herald, the daily Labor organ of Britain, whereon to leave seventy-five thousand pounds of Russian gold, they hit, whether they wished it or not, organized labor in its most vital point. And it was as much of a bomb as the first. But the soviet had no hard feelings against the Labor party; they wanted to have trade established again with Russia and a revolutionary connection. But they did as much damage to the paper as if a bomb had been dropped.

Remarkable in Passing.

The new provincial police force, organized to enforce the O.T.A., ought to infuse new excitement into the business of running.

Coal in Newfoundland is reported hard to get at \$35 a ton. Well, it's some satisfaction to know Ontario is not the only sufferer.

Anybody who can pick the winner of the \$50,000 race between Man o' War and Sir Barton ought to feel quite reassured about getting in his winter's coal supply.

League of Nations is credited with having prevented war between Finland and Sweden. Good work, and there's plenty more waiting attention right in Europe.

The farmers' government will forego the opportunity of finding out what Toronto voters think of Hydro interference by not putting up a candidate in North-east Toronto.

Kingston Whig bemoans the fact that much of the Polish has come again there is no beer to be had to go with 'em. Careful, friend, Ben Spence'll get you if you don't watch out.

If Mayor Church keeps on charging the members of the city legal department with inefficiency they may all follow the lead of Mr. Fairly and resign to accept twice as much salary elsewhere.

Trotsky emissaries object to meet the Polish envoys in a room in which a picture of the dead czar hangs. The proverb about conscience and cowards is evidently as true in Russia as in the rest of the world.

ARBITRATORS START TOUR OF G. T. SYSTEM TODAY

Ottawa, Sept. 18.—The inspection tour by the arbitrators of the Grand Trunk Railway System is scheduled to start from Montreal tomorrow, Sept. 20. This trip over the lines was arranged by the arbitrators during their recent meeting in Ottawa, and following the inspection. It is expected that the sittings will be arranged to be held in Montreal.

RED RUSSIA WILL TAKE BIG CENSUS

Effort to Find Weak Spots in Soviet Social Fabric.

Moscow, Aug. 24.—(By mail.)—Wireless instructions "to all political sections" have gone forth from the Bolshevik central committee here, that an all-Russian census is to be taken, which, it is explained, "is essential with a view to discovering the weak places in the soviet social fabric, and to relieving each other's want and disorganization."

"As in private property," the circular adds, "so in the property of the whole state, each individual part depends on the other parts."

"Latterly," the decree proceeds, "the town population have moved in large numbers to the country. Regarding the workers, tradesmen and specialists, we do not know how many there are, nor where they are. It is essential to discover and reckon up this working force. When this is done, there will be a possibility of correctly distributing them."

It is further explained that a census of children is necessary in order to know how many schools, kindergartens and creches should be opened. The illiterate must be registered in order to know where there are many, and to send teachers there. Old, crippled and otherwise disabled people must be registered so as to know how they are to be assisted, and how to provide for them.

Agricultural returns must be made so as to know the number of people working on the land, whether they are provided for, what they are cultivating, and where there are waste and uncultivated lands. It will then be clear where help must be sent, what crops should be raised, and what should be imported from abroad, how much cattle is necessary, etc., and the same applies to factories, mines and all industrial plants. The point is to discover the weak spots, and how they may be healed, says the circular.

CHARGES OF WASTE AROUSING BRITAIN

Government Alleged to Be Spending Money With Too Lavish a Hand.

London, Aug. 25.—(By Mail.)—British papers are printing almost daily examples of what they term the waste of public funds. A report just issued by the committee on public accounts sheds fresh light on the subject. Nearly \$8,500,000 was involved, it appears, in the government's plan to finance the Russian General Alekseeff just before the Bolshevik revolution. The plan was to set up a Cossack State Bank in Siberia, and for that purpose \$2,500,000 was loaned to a Russian financier. But the bank was never set up and the committee wants to know what happened to the money.

The ministry of munitions paid \$12,250,000 for a plant begun in 1917 and which, when the war ended, was only half finished. For this outlay, the committee points out, the country received no benefit whatever, except thru the "stimulus to the steel trade."

Waste of nearly \$500,000 is charged by the committee to the admiralty on a scheme for establishing schools to train boys in pneumatic riveting.

Cases are referred to by the committee where government officers holding responsible positions allotted contracts to themselves or to firms which they were interested. Such cases, the committee asserts, "are especially liable to become an occasion for scandals."

HUMANE WORKERS TO CONVENE IN OMAHA

Omaha, Neb., Sept. 18.—(By mail.)—Humane workers of the nation will gather here next month for the forty-fourth annual convention of the American Humane Association. Among those announced as coming to the convention are Senator Peter G. Gerry of Rhode Island, whose father practically founded child protection work in the United States, which in turn has been a model for the rest of the world; Mrs. Anna Baldwin of California, daughter of Lucky Baldwin, and Ernest K. Coulter, general manager of the New York Society for Prevention of Cruelty to Children, the first of its kind, and the largest child protection society in the world. Mr. Coulter was also founder of the Big Brother movement, according to the announcement.

FIRE AT CHESTER, N.S., BURNS TWO PROPERTIES

Halifax, N.S., Sept. 18.—Fire destroyed the plant of the Halifax Gas Engine Company, Limited, at Chester, N.S., this afternoon, according to a report received here. Two barns and a tannery, the property of Hugh Stanford, were also burned. The report, which gave no details, intimating that the fire which for a time threatened to assume disastrous proportions, was under control.

WHEAT CROP IN BRITAIN IS SMALL

Price of Bread Is to Be Advanced Sharply in Near Future.

London, Sept. 11.—(By mail.)—With bread selling at 35 cents a loaf and soon to be raised to 30 and later, perhaps, to 25 cents, England is harvesting this season the smallest wheat crop since the early days of the war. Production of barley, on the other hand, will show a material increase over that of the last few years.

The reasons for this state of affairs, according to Professor James Long, a well-known agricultural expert, are government control and beer. The price of wheat and oats is regulated, but no restrictions have been placed on that of barley. As the market price of barley is exceptionally high, farmers planted that grain instead of wheat and oats.

Professor Long shows that since 1918 wheat has been reduced by 675,000 acres, or more than one-third of the present area, while oats, also an important bread stuff, has fallen off by 512,000 acres. "On the basis of wheat," he says, "this means a loss of bread grain equal to some 38,000,000 bushels, or sufficient to feed 7,000,000 persons. It is a curious commentary on the fact that the barley crop has considerably increased, and that in consequence beer has so far occupied the position of bread."

The country has fewer cattle than in any year since 1803 and 5,330,000 less sheep than the average of the 10 years from 1904 to 1913. The decrease in cattle since last year is more than 500,000 head.

QUAKE IN CHILE IS HAPPY EVENT

Scientist Says Continuance of Quiet Conditions Would Have Bred Disaster.

Santiago, Aug. 21.—(By mail.)—The seismic disturbance which visited Central Chile and a part of Western Argentina in the latter part of last month—the most violent since the 1906 earthquake—when Valparaiso was partly destroyed with great loss of life—was a "happy event" from a scientific point of view, according to Count Montessus de Ballore, director of the Chilean Seismological Observatory, located near here. Explaining this, he says: "No quakes are produced for a long period the effort accumulated until it breaks out violently as the forces increased in crushing the elastic resistance of the terrestrial strata."

The count says if the "quiet conditions had continued much longer—one or two years the danger would have been far greater, but now, according to probabilities, we will return to a state of normal seismic activity instead of a menacing calm."

Faint shocks are felt here frequently. There was no loss of life, and the material damage in Santiago and Valparaiso was confined largely to cracked walls and skylights, destruction of glassware in some of the stores, and cracking of the glass dome on the palace of fine arts in Santiago.

LIKE STAGE MONEY

Budapest, Aug. 30.—(By mail.)—The misery of the formerly well-to-do people and a sidelight on the exchange situation are afforded by the bill in the national assembly, increasing certain judges' salaries from 5000 to 6000 crowns. This represents, in American money, a raise of about 50c a month.

Harding and Cox Both "Wets", Says Nominee

Salem, Ore.—D. Leigh Colvin of New York, prohibition candidate for vice president, said a Salem audience that never since the election of Franklin Pierce had candidates in a presidential election been as unsatisfactory as Senator Harding and Governor Cox.

Harding and Cox represented the last effort of the "wets" to retain power, and asserted that the election of either would be to nullify the public will relative to prohibition.

WORLD'S DAILY BRAIN TEST

BY SAM LOYD. 10 Minutes to Answer This. No. 303. ABXAB = CDDD. The schoolmaster asked his class in arithmetic to substitute figures for letters so as to produce the result shown on the blackboard. Can you tell the figures represented by A, B, C and D? Answer to No. 302. Josiah and Maria must have had 303 chickens, with feed enough to last 60 days. Multiplying 300 by 60 gives the number of individual daily chicken meals as 18,000. Should Josiah's suggestion be followed and 75 chickens sold off, then 225 divided into 18,000 shows that the feed would last 80 days whereas if Maria purchased a hundred extra fowl, 400 divided into 18,000 gives 45 as the number of days the stock would last. THE HOUSE 'ROUND THE CORNER

By GORDON HOLMES

CHAPTER IV. (Continued.)

"There now! I half fancied that such a thing might happen. When I ran home, sir, I was fair scart, because there has been talk of a ghost, and I wasn't too keen about coming in here in the dark. But mother was worried, and wouldn't go to bed. She would have it that Miss Meg had got clear of the house, and was hiding in a shed at the top of the lane. So, after a lot of talk, mother and I went together. There was a light in the dining-room as we passed, but it had gone out when we came back."

"Solvitur ambulando," muttered the man, smiling at the simple solution of an occurrence which had puzzled him greatly at the time.

"What's that, sir?" demanded Betty. "Sorry, I was thinking aloud. I've a habit. Those two Latin words mean that your walk to the shed disposes of a difficulty. Now for the next item, Betty. Miss Meg, who called her, is the young lady who lived here a good many years?"

"She was born here, sir. She and I are nearly of an age—22, each of us. "And her father was Mr. Stephen Garth?"

"Yes, sir." "But isn't he dead?" "Oh, yes, sir. Dead and buried two years this very month."

"Are you sure?" "Yes, sir. Mother was the first who saw his dead body. She was nearly frightened into a fit."

"Tell me the exact facts." "Well, sir, Mrs. Garth and Miss Meg went away all of a sudden. There was no quarrel that we know of, and Mr. Garth himself helped a man to carry out their boxes. They kissed on parting at the gate. I myself heard him saying that he would join them as soon as he had finished some book he was busy with. He was a great man for writing and studying, and he'd walk ten miles to get some grannys' tale about dales ways, and the things people used to do in the old times. But he changed. We all noticed it. He'd take them in at the door. He'd talk pleasantly enough, but he looked awful worried. Then, one morning, I couldn't make anybody hear, and I thought he had gone out early. About 7 o'clock that evening mother went and knocked, but there was no answer. Next morning it was the same, but when mother and I tried again in the evening, we noticed that the curtain, which can be drawn across the glass top of the door, had been pulled aside. At the inquest they wanted to know if it had been in the same position when we were there, but we couldn't be certain. We thought it must have been drawn. Anyhow, mother looked in, and ran away screaming, and I ran after her, not knowing why. In a minute or two she was able to speak, and said she had seen Mr. Garth hanging near the clock. Some men went, and they saw him clearly, and one of them, Mr. Benson, rode to Bellerby for the policeman. He came in about an hour and broke open the door and cut poor Mr. Garth down. He had been dead a long time, the doctor said, and the worst thing was that nobody could find Mrs. Garth and Miss Meg. Not that any blame could be laid to them, because Mr. Garth himself said so in a letter addressed 'To the Coroner' which was laid at the foot of the clock. We have a weekly paper in the cottage, sir, and you can see the whole account there."

"Get that paper, and give it to me privately some time today," said Armstrong. "Meanwhile, your story is ample for my present purpose. Were you surprised at seeing Miss Garth yesterday?"

"Sir, you could have knocked me down with a feather. And she in a man's clothes, and all. She came over the moor about 10 o'clock—"

"Never mind the details now, Did she speak of her father?" "Did she give you the impression that he was still living?"

"Now that you mention it, sir, she did, but I couldn't quite understand what she said, and thought, for sure, I was mistaken. It wasn't the kind of thing one might ask questions about, was it, sir?"

"No, indeed. Knowing he had committed suicide, you didn't like to hurt her feelings?"

"You've been very exactly. "You hadn't much to talk, I take it?" "No, sir. She was all of a shawl with excitement, and wanted to be let into the house before anyone else in the village could see her. She wanted to leave her alone till one o'clock, she said. Then I was to bring her something to eat, and we'd have a long chat. And that's the last I've seen of her, sir."

It has been noted that Armstrong was no lover of the middle way. In plain English, I suggest, that insistence, in fact, strength of will, inflexibility of purpose had already driven him from place and power to the haven of retirement, which he imagined he would find in Elmdale. He had made up his mind overnight as to the handling of the problem set by Margaret Garth's presence in her father's house, and the way he reasoned now why he should depart from the decision reached then.

"That's very candid, Betty Jackson," he said, looking steadily into the girl's wondering eyes, "and I mean to be equally outspoken with you. For some cause which I cannot fathom, and may never inquire into, Miss Garth is not only unaware of any recent death in her family, but is convinced that her father is alive and well! There is a flaw in the argument somewhere, but it is hardly my business, nor yours, to discover the weak spot. Now, I propose that we let the matter alone, leave Elmdale as happy in her belief, or her ignorance, as she entered it, in plain English, I suggest, that neither you, nor I, nor your mother, say any syllable about the suicide of Mr. Stephen Garth. If his daughter believes he is living, we should be hard put to it to convince her that he is dead."

"He is dead, sir. I saw him in his coffin," said Betty earnestly. "I am not disputing your statement. My sole consideration, at this moment, is the happiness of the girl now lying asleep upstairs. Suppose, within the next hour or two, she says something about the surprise her father will receive when he sees some of the books and other articles she means to send to her present home, are you going to tell her that she is utterly mistaken—that Mr. Garth has been dead and buried—discover the weak spot, and let her either one thing or the other. Either you accept her view that her father is alive, or you are constantly acting in a way that must arouse her suspicions. And, if once she begins to question you, what will happen then? You'll be in a ten times more difficult position than if you convince yourself, for the time being, that you were dreaming when you saw some man in a coffin," persisted Betty.

"Why, sir, the whole village knows—" "Meanwhile, your story is ample for my present purpose. Were you surprised at seeing Miss Garth yesterday?"

"Sir, you could have knocked me down with a feather. And she in a man's clothes, and all. She came over the moor about 10 o'clock—"

MAN-O-WAR MAKES TRACK RECORD AT HAVRE DE GRACE, CARRYING 138

MAN-O-WAR PACKED UP WEIGHT AND WON Defeating Wildair Easily and Making New Record at Havre de Grace.

Havre de Grace, Md., Sept. 18.—Man-o-war cannot be stopped. That is the only opinion left after watching the champion steeplechase horse win the \$10,000 Potomac Handicap here this afternoon.

The largest crowd in the history of the Havre de Grace race course assembled to pay tribute to Mr. Hilditch's champion. Program sales indicate the crowd was one of the largest ever brought together in Maryland to witness horse racing.

Man-o-war was led to the post there was an eager outburst of hand-clapping, but it was restrained, many of the spectators to witness horse racing.

When the gate went up, he was gone in a flash. He was leading the field at the outside position for the first turn. Blazes, breaking fast on the outside, under the alertness of Andy Schuttlinger, was inside the champion on the third turn.

THE GRAND CIRCUIT AT COLUMBUS TODAY

King's Stake and Review Futurity the Features for Opening Day. Columbus, Sept. 19.—Horsemen from all parts of the country were gathering here today in preparation for the two weeks' card of Grand Circuit racing which opens at Columbus today.

Eight Races on the Card Today at Thorncliffe Track. Starter Tribe had a good day on Saturday at Thorncliffe Park. As a well-informed turf follower said after the third race, something surely woke him up and he is here to see good racing and the speculators who are entitled to a run for their money hope that he'll stay away.

There are eight races on the card today, including a handicap and a steeplechase. FIRST RACE—For three-year-olds and up, claiming, purse \$1200, one mile: 1. Flame, 103 (Richbeck), \$5.20, \$3.20, \$3.50. 2. Mallowmot, 117 (Aron), \$5.80, \$3.40, \$3.20. 3. Jim Petrie, Waaka, Galopin, Statin, Gold Galore also ran.

From Sunday World.) Sept. 18.—Dombrowski, head of the peace mission, and Adolphus, head of the Russian soviet mission, met today to fix a date for the opening of the conference at which the peace treaty of peace between the Russian soviet and the Russian soviet will be negotiated. The secretary of the Polish mission, Stanislas Laiskunas, is expected to attend the meeting in this city should a continuance of the conference held at Minsk suggest the removal of the old Russian cars from removed from the hall for the peace conference is to be held in the city of Minsk. Arrangements in made by the Polish representatives to issue a daily official bulletin.

THE PRISONER IS WELL-KNOWN FORGER

From Sunday World.) Sept. 18.—In the arrest of Stanislas Laiskunas, head of the peace mission, in Detroit, the police have in custody the man known as Stanislas Laiskunas, who has been identified as Stanislas Laiskunas, a well-known forger. In his effects the police found a number of Canadian banknotes, purporting to show that he has money on hand up to \$100,000. These books, it is alleged, are a set of rubber type, and a large number of copies, some of them filled in and "accepted." Stanislas Laiskunas was arrested here, charged with forging banknotes.

ON STRIKE AFTER A GOOD BREAKFAST

From Sunday World.) Sept. 18.—Arthur, Sept. 18.—At eight this morning, after a good breakfast, the crew of the Northern steamer Huron, which was on a voyage to the north with a cargo of lumber, went on strike. The men refused to work and the ship was ordered to return to the dock. The men are demanding a 10 per cent increase in wages and a shorter work day.

EN TO THE WEST EARLY IN OCTOBER

From Sunday World.) Sept. 18.—Prime Minister Lloyd George will deliver his first political address in western Canada since assuming the leadership of the government in London. It is expected that he will visit Winnipeg early in October. The prime minister will be accompanied by his wife and children. He is expected to spend several days in the west before returning to London.

SHIVISM IN BRITAIN

London, Sept. 18.—(By Mail.)—The Shivite movement in Britain is now being organized in a systematic way. The Shivite party, which is a branch of the Hindu religion, is gaining popularity in the west. The party is led by a man named Shivite, who is a native of India. The party is expected to hold a large meeting in London in the near future.

PRICES IRREGULAR AT TORONTO MARKET A BROKER'S MARKET FOR MINING STOCKS

Speculative Issues Move in Cross Direction—Commerce Shares Higher. Undertone to Golds Firm—Hollinger and Dome Extension Higher.

The one ray of buoyancy on the Canadian exchanges at the week-end was the continued campaign in the papers on the Montreal market and to a much lesser degree at Toronto. Brompton held its leadership in point of speculative activity and scored a further advance. The Toronto market was quite irregular. The Toronto Gas made a new low at 11 1/2 and Toronto Railway sold back to 4 1/2. Canada Steamships was also heavy. On the other hand, Broad was stronger and Dominion was firmer with an odd lot transferring at 12 1/2. Hollinger maintained its strength and was in good demand, with sales at 5 1/2. Lake Shore sold at 1 1/2. The mining market on Saturday was pretty much of a broker's affair. Trading was quiet and only a small portion of the list was represented in the trading. McIntyre released into complete inactivity. Not a share of the stock was dealt in and the quotation remained unchanged from the previous day. The undertone to prices was steady, with a slight improvement in some of the golds. Dome Extension was stronger at 3 1/2, and Hollinger was firmer with an odd lot transferring at 12 1/2. NEW YORK STOCKS SHOW FIRMER TONE

New York, Sept. 18.—Stocks were irregular today on the usual week-end selling for profits and settlement of speculative accounts, but firming toward the most part was again higher. Ralls dominated the session, the Delaware and Western Indiana plan giving impetus to other roads which are believed to contemplate absolute separation from their coal properties. The strength of rails was not altogether confined to the former, however, investment trust shares, "Nickle Plate," St. Louis and San Francisco and New Mexico, Texas and Mexico, also recording substantial advances. Oils displayed none of their recent weakness, but were generally steady, with Petroleum casing moderately bid, but Houston Oil strengthened. Steamship issues, notably the Atlantic Gulf and Marine, were responsive to better trade conditions. A valuable council marked the buying of Vanadium Steel, Baldwin Locomotive, United States Rubber, Kelly-Springfield and Consolidated Textile, but this was balanced by moderate reactions in general leather, Studabaker, Best Sugar and several of the unclassified specialties. Sales amounted to 400,000 shares. An advance of 1 1/2 points in the various French municipal issues was the noteworthy feature of an active bond market, the general list including Liberty and United States Liberty bonds, (par value) aggregated \$6,125,000. For the week, Old United States 3's and 4's were 1/2 cent higher on 100. The weekly statement of the clearing house, showing a net outflow of \$1,000,000, and a net inflow of \$1,000,000, was a factor in the market. BRISK STOCK TRADE IN MONTREAL SATURDAY

Montreal, Sept. 18.—Continued heavy activity in Brompton and some considerable interest in Breweries common and Abitibi were responsible for an unusual degree of movement on the local exchange on Saturday. Brompton reached a new high in the history of the stock at 84, which represented a net gain of four points. The buying in Brompton spread to the other papers, nearly all of which showed gains. Abitibi being conspicuous and closing at 82 1/2, and a like gain recorded by each of the Spanish issues, the preference closing at the best at 12 1/2, and the common at 12. The new high of 106 was reached by the new listed issues, rose five points to 106. Total sales, 12,893; bonds, 111,412.

TREND IS LOWER IN GRAIN PRICES

Profit-Taking in Wheat, and Liquidation in Corn and Oats.

Chicago, Sept. 18.—Grain values took a downward trend today, there being considerable profit-taking in wheat and liquidation in corn and oats. The first wheat showed a net loss of 1 1/2c to 2 1/2c, with December 2 1/2c to 3 1/2c, and March 2 1/2c. Corn was off 1/2c to 3/4c; wheat were down 1/4c to 3/4c, while provisions showed a range of from 12 1/2c to 5c higher. Wheat started with a firm undertone, but this soon was lost because of buying by cash houses and selling by the local traders on the weaker in cash grain. Prices of a whole average lower or Duluth was reported to have sold 200,000 bushels of durum to the seaboard, and some business was put thru at the Gulf. A rally of more than ten points from the inside figure in sterling exchange also was a factor. Liquidation was on in corn and oats, with the deferred deliveries of corn and all deliveries of oats at new low figures on the crop. There was an absence of support in coarse grain, except from shorts, with a fair rally toward the last on evening-up the profit shorts for the week. Weather reports over the corn belt were favorable for maturing the new crop, and there was a better domestic demand for corn and oats developed on the decline. Packers bought October hard and cash trade in that commodity continues brisk. Weakness in grains led to some selling, and the range was lower.

WINNIPEG GRAIN MARKET

RUSSIAN BLUE BECAUSE OF REDS

German Communist Leader Just Back From Moscow, Paints Gloomy Picture. (By Mail.) Brunwick, Germany, Aug. 31 (by mail). August Merges, a German communist leader who has been in Moscow, says that "bolshivism, as practiced in Russia, is not simply pure unadorned communism. The cost of living there is excessively high, paper money is out with paper money, and people generally have the blues." Merges, a little hunched journeyman tailor, who staged the communist banquet in Brantford in 1918, warns his comrades against settling in Russia. "Politics in Russia are controlled by the communist party, which counts 600,000 members, several hundred thousands of whom are office-seekers and political hangers-on, who are not to be trusted. Merges declared in an address on the Russian discoveries. He declared that the Russian system was not suited to Germany, because of its excessive bureaucracy, and its imitation of capitalist methods. He told the Moscow delegates that the German communist party did not propose to take orders from them.

H. Burrows. The department of mining engineering, Prof. Graham was on the staff of this department two years ago.

OFFICIAL PLANK ON RE-ESTABLISHMENT

Veterans Set Forth Complete Basis of Claims for Ex-Service Men.

The official plank on the question of the re-establishment of ex-service men and women, as it will be written into the veterans' political platform...

The plank demands gratuities ranging from \$1000 to \$2000, according to place of service; disability pensions at the rate of \$1 a month for each per cent. of disability...

The text of the plank follows: "Every effort must be made to adequately re-establish all ex-service men and women, as fully as the finances of the country will permit. We claim \$2000, \$1500 and \$1000, according to place of service...

On Victory Loan Lines. "This can be readily worked out by reconstruction bond issue on Victory loan lines. Also all war indemnities received by Canada must be paid at the rate of \$1 per month for each per cent. of disability...

Disability pensions to be paid at the rate of \$1 per month for each per cent. of disability, and dependents shall be paid on the same basis...

Pensions for the widows and orphans must be sufficient to enable them to live up to the Canadian standard of living. We claim pensions for dependents of deceased ex-service men and women...

Medical treatment, and these to be retroactive. Pensions of deceased pensioners to be paid for one year after death to defray funeral expenses...

More extensive vocational training for the disabled ex-service men and women (also for minors up to 21), with increased pay and allowance.

Hints at Expediency. That the recent resolution of the Army and Navy Veterans endorsing the present government's opposing a general election was actuated by some ulterior consideration of political expediency...

Marsh, "that just prior to the political convention of the G.A.U.V. last year, the veterans' federal platform was about to be drawn up, that this same branch of the Army and Navy Veterans endorsed the extension of the present government's policy since 1917, thereby endorsing their policies."

"We are being careful to avoid press controversy in our own country, for the work we have in hand is far more important than any controversy," said Mr. Marsh. "But," he continued, "it is encouraging to know that in the political battle now being waged by the returned men, not only the G.A.U.V. but all veterans in Canada for the realization of their proper share of freedom and democracy for which they fought overseas and for which so many made the supreme sacrifice, only at the expense of preparing to champion the government's continuance in office is detrimental to the attainment of the veterans' objective."

"We are pleased to know," said Mr. Marsh, "that 27 out of the 50,000 men of Toronto sent to the war are now re-established. Mr. Hunter and his handful of supporters may be re-established, but being re-established, they might far better support the effort being made to re-establish their less fortunate comrades instead of throwing obstacles in the way."

"We refuse to be drawn into this subject, yet Messrs. Hunter and Co. are welcome at any time to attend any local meeting of the G.A.U.V. and explain why they are so apparently satisfied with the government and their own re-establishment."

Form Detroit Branch. A thousand members of the British American Legion, made up of former service men of the Canadian and Imperial forces, transformed themselves into a branch of the G.A.U.V. at a meeting in the Grand Army of the Republic Hall in Detroit last night.

Another branch of the G.A.U.V. will be organized at Chicago tomorrow. J. Harry Flynn, Dominion organizer, is supervising the formation of the new branches.

Points of the G.A.U.V. are now functioning at New York, Rochester, Ithaca and Detroit. A charter has been forwarded to a branch in Philadelphia at Saginaw and Port Huron have also applied for charters.

Mr. Flynn addressed a mass meeting of veterans and citizens on the soldiers' political platform at Windsor yesterday afternoon.

WILL BE NO APOLOGY FOR BANNERS CARRIED

J. Harry Flynn, writing on behalf of the G.A.U.V., declares that there will be no apology to the government for the banners carried in the veterans' parade on August 28. "The banners we carried," he says, "were simply an expression of the general feeling of veterans against the shameful betrayal of the returned men, widows, orphans and cripples by the present Union government, and that the only apology we can offer is an apology to the people of Canada for the existence of such an unrepresentative government."

TOO MUCH ALCOHOL. Mike Poluke, 46 Nelson street, was arrested yesterday by Plainclothesmen Greenley and McArthur, on a charge of having liquor illegally in his possession. The police claim to have found a gallon tin of alcohol in Poluke's possession when arrested.

POLICE HOLD TEN

Ed Zozawsky, 225 West Richmond street, was arrested on Saturday night by P.C. Scott, on a charge of keeping a common gaming house. Nine other persons found in the place were also arrested.

DISCUSS CHURCH UNION IN TORONTO PULPITS

Canon Plumtre Sees Lessons in Unity Derived From War - Rev. Trevor Davies Pleads for Earnest Consideration - Idea Gives New Outlook to Anglicanism, Declares Dr. Cody.

The question of church union as set forth in the encyclical of the bishops at the Lambeth conference, formed the subject of sermons in many of the churches in Toronto yesterday.

The Rt. Rev. T. F. Sweeney, bishop of Toronto, commenced yesterday morning in St. Alban's cathedral a series of sermons on the results and proceedings of the conference.

St. Albans was over-filled to listen to the bishop, but he did not dive very deep into his subject, contenting himself by giving a general review of the formation and establishment of the conference, and a brief survey of its results.

Next Sunday morning the bishop will give a series of sermons, and proposes to give some of the conclusions he has arrived at, the general results of the various resolutions passed, so far as they concern the Church of England in Canada.

War's Concrete Example. "The services of the chaplains during the war gave us a concrete example of what would be done in unity under the pressure of military necessity, and the experience was broken thru in many ways the ecclesiastical exclusiveness of the past," remarked Canon Plumtre, M.A., in the course of an interesting sermon at St. James' cathedral yesterday morning.

Canon Plumtre went on to say that there might have been a diversity of opinion among the bishops three points had been evolved: First, a new vision of the Catholic Church; second, a new theory of church government, and thirdly, a new scheme of church reunion.

REWARD BOYS FOR GOOD ATTENDANCE

Judge Mott Presents Shield to Winners - Outing and Conference.

Over one hundred leaders of Methodist boys' groups in the Sunday schools of Toronto held a conference and outing at Scarborough Bluffs on Saturday afternoon and evening.

Judge Mott made a plea that greater consideration be given the underprivileged children of the city, and the influence of the Sunday schools and the boys' groups should be made to bring Anglican soldiers with them into their within its influence.

During the afternoon seven teams participated in a baseball tournament which was won by Woodgreen. After a card game and a picnic, the boys returned to the city.
