COLONEL AND CABBY

Father Finally Forgave Son and His Wife Whose Wedding Displeased Him

There was something to be said for the colonel. Fate had certainly treated him badly, and had done her best to sour his temper. His wife, the one softening influence of his life, was dead. That comely young wife had died almost unjustly placed him on half-pay. There was nothing left for him to do but play country squire, and marry his only son to the daughter of the owner of the adjoining estate—to the great advantage of all concerned.

His misanthropic son had spoiled that plan forever by running away and marrying the orphan governess of his aunt's children. And, worse still, the impertinent young wretch had disregarded all his father's angry letters, and with the calmest, coolest cheek in the world had written that morning to say that the honeymoon being over, he intended to bring his bride to be introduced to his father-in-law.

Frank Leadforth had rather a shock when the butler told him his orders were to shut the door in his face. However, Frank had always been a favorite with that worthy, and he was in no hurry to carry out the colonel's command. His resistance was only half-hearted when Frank pushed past his portly form. And he made no effort at all to stop Miriam, who followed, blushing and trembling.

The colonel was in his study. "Hallo!" he exclaimed, when Frank burst in upon him unannounced. "What the dickens do you want here?" He turned to the butler, ignoring his son's hand and his son's wife. "Forson," he said sternly. "You leave my service at once."

about horse, but nothing at all about earning his bread and butter. All that seemed open to him was a clerkship. But his soul revolted at the thought of a desk and a stool in a stuffy office. His life had always been spent in the open.

Something had to be found which required no previous experience. A cabman he would be, and the cross, rude colonel might keep his silly old money to himself.

He had driven a cab three years, and it had made a man of him. Living in furnished lodgings at first, they had saved enough to gather a home together and to migrate to a tiny six-roomed villa, with quite 20 feet of garden to grow roses in. Respectably they had cut themselves off from the old world, and lived in their wonderful happiness together. They had a little boy—in a word, mischief 2 years old—and they loved each other as deeply as ever. All the economies, the makelovings of this life, they looked upon as jokes, and they discovered what is perhaps life's most precious secret—that very little matters or hurts if only you laugh at it.

They spoke often of the colonel, and Miriam several times tried to persuade Frank to write. But he was too proud to run the risk of being thought to be hankering after "the old man's money."

One day however, his father jumped into his cab outside Liverpool street station and bade him drive to the United Service Club. Frank was amazed. The possibility of such a thing had occurred to him before, so that he was not too surprised as might have been expected.

He had not the slightest intention of making himself known, and no fear of being recognized. Even at his face should remind his father of his son, it would never occur to him that Frank was really earning his own living as a London cabman.

The cab turned into Piccadilly and suddenly a stick was thrust through the trap door and he was commanded to stop. Col. Leadforth leaned out and called to a man on the pavement.

"Hallo!" he cried. "Why, it must be five years since I saw you last. This is my cab. That is my house, my wife, and my child!"

Daily Fashion Hint for Times Readers.

"AND SOME IN A VELVET GOWN." This frock is of black Lyons velvet, with vest and collar and revers of pale blue moire overlaid with rich crocheted touches of embroidery in black and blue. The skirt portion is laid in alternating box and side pleats, the long waist pleated back and front, showing a full vest of silk. There was a broad sailor collar and small revers, also of the silk, with trimmings of Irish crochet. Motifs of the Irish crochet are disposed on the bottom of each box pleat, and several rows of stitching finish the bottom.

Dr. Wood's Norway Pine Syrup

is rich in the lung-healing virtues of the Norway Pine Tree, skilfully combined with Wild Cherry Bark and the soothing and expectorant properties of other potent herbs and barks. It is a pleasant, safe and effective medicine for Coughs and Colds, Hoarseness, Sore Throat, Pain in the Chest, Asthma, Bronchitis, Croup, Whooping Cough, Quinsy and all troubles of the Throat and Lungs.

A single dose will convince you that it will stop the cough, soothe the throat, and start you on the road to recovery. Be sure and do not accept a substitute for Dr. Wood's Norway Pine Syrup. The genuine is put up in a yellow wrapper, three pine trees the trade mark, and the price 25 cents.

Miss C. M. Woodcock, Kimmont, Ont., writes: "For some time I suffered from a lingering cough. I was afraid it would turn to consumption, and, as I had tried many remedies and found no cure I asked my father to get me a bottle of Dr. Wood's Norway Pine Syrup. When I had taken that bottle I was so much better I got three more, and I am now completely cured."

Smothered to Death

Pictou Man One of Three Victims in a Western Accident.

Toronto, Nov. 24.—Three men were smothered by gas in a well on the farm of James Allen, near Aylesbury (Sask.). Richard H. Craik, of Pictou (N. S.); William J. Forfar and Lewis Riswold, local men, are all dead.

Committed Suicide

Aged Man Hanged Himself at Norton on Saturday.

Hampton, N. B., Nov. 24.—John Elkins, a man more than ninety years of age, who has been living for some time past with his son-in-law, Dennis Meigher, at Norton, went from the house to the barn on Saturday afternoon, obtained a rope and after securing it over a beam and around his neck deliberately hanged himself.

Mr. Meigher, who is the section foreman on the line of the N. B. Coal & Railway Co., was away from home attending to his duties and Mrs. Meigher, the old man's only daughter, was the only one about the premises at the time and the shock of finding that her father had made away with himself was almost overpowering, for she has for a long time suffering from heart trouble.

The deceased was a resident here up to a year or two ago. Fifty years ago he owned and worked a farm on the Smithtown road. Subsequently he removed to a property at Fawcett and finally he took a farm on the Woodpecker Hall road, a mile or so out from Hampton Station, now owned and occupied by Thomas E. Smith.

HON. W. A. WEIR SAYS QUEBEC IS TOO RELIGIOUS

Quebec's Provincial Treasurer Creates a Mild Sensation at a Liberal Banquet in Montreal.

Montreal, Nov. 24.—Hon. Jacques Bureau, the new solicitor-general, indicated at a dinner given in his honor on Saturday night by the Montreal Reform Club that the next great work to be undertaken by the dominion government would be the construction of the Georgian Bay canal. The new minister said that four times the present transportation facilities, between eastern and western Canada, were required, and that the government was already inquiring into the engineering difficulties presented by the new canal project.

Speaking for himself, he expressed the belief that within a few years this work would be undertaken by the government. A somewhat sensational speech was made by Hon. W. A. Weir, provincial treasurer, who remarked that in the past Quebec had paid too much attention to "religion and kingdom come" instead of the kingdom they already had to develop. He intimated that it might be as well to forget the Kingdom of Heaven for a bit and devote more attention to developing the province and bringing its people together.

Hon. Mr. Weir also expressed great glee over the defeat of Bourassa and warned his hearers not to delude themselves with any such phantasy, as was looked up in the word "Nationalist," of which the country had had enough.

Drastic Purgatives Destroy the Intestines

If you burn your hand you have a good example of the sort of inflammation that Drastic Purgatives excite in the intestines. Yet many people consider the virtue of purgative pills depends upon their activity.

Dr. Hamilton was the first to produce a pill that would cleanse the system, not by drastic action, but by exciting normal secretions of kidneys, liver, and bowels.

The deepest recesses of the system are searched by Dr. Hamilton's Pills. Poisonous and depressing accumulations which are stored in the lymphatics, kidneys, liver or bowels are driven out—inward cleanliness is effected.

You are sure to feel better, sure to experience the buoyancy of robust health that comes with Dr. Hamilton's Pills. No medicine is more gentle, more searching, or surer to give that buoyant feeling of sound health. For the family no remedy is so universally satisfactory as Dr. Hamilton's Pills, 25 cents per box at all dealers.

FREE KINDERGARTEN

The ladies of the Free Kindergarten on Saturday evening held a very successful tea and sale of home made candy in the school room of Lennox street church. There were seven tables, each of which was beautifully decorated and illuminated. Each was in charge of one lady with three assistants, all of whom were kept busy waiting on those who patronized the entertainment. Those in charge with their assistants were:

Miss Mary Gunn, the Misses Perkins, Lombard and Smith, Mrs. W. C. Mathew, Miss Miss Robertson, Mrs. C. F. Woodman, Miss Ethel Jarvis, Miss Louise Murray, Dr. Margaret Pinks, Miss Sturdee, Miss Hutt, Miss Barbour, the Misses Trites, Miss Waterbury, Miss Morton, Miss Knight, Miss Dunbrack, Miss Allan, Miss Logan, Miss Trites, Miss Betts, Miss Souther, Miss Day Wilson.

Catarrh Invites Consumption

It weakens the delicate lung tissues, deranges the digestive organs, and breaks down the general health. It often causes headache and dizziness, impairs the taste, smell and hearing, and affects the voice. Being a constitutional disease it requires a constitutional remedy.

Hood's Sarsaparilla

Radically and permanently cures. Sold by druggists everywhere. 50 Doses One Dollar.

TEMPERANCE ADDRESSES

Interesting Meetings at the Every Day Club Yesterday Afternoon and Evening.

The Every Day Club hall would not hold all who sought to enter last evening to hear the male choir of St. Paul's church and the address on temperance by Rev. E. B. Hooper. While the house was filling, B. L. Sheppard kept a large gramophone turned by John Frodman, rendering a fine series of sacred solos.

The platform was not large enough to hold the choir, so they grouped around it, with T. Percy Bourne at the organ. Oh Worship the King was sung as solo and chorus by the choir, after which Mr. Gundy sang Thy Will Be Done.

Rev. Mr. Hooper, who said that it was his sixth service for the day, delivered a very impressive address on the temperance. He said that more suffering and loss are caused through intemperance than through any other single evil in the national life.

He was an advocate of temperance for three reasons: first, because he was a minister of God; second, because he was a Canadian and loved his country; third, because he was a family man, with wife and children very dear to him.

There were, he said, three methods of dealing with the evil. The first and lowest was by legislation; it was necessary to legislate in the interests of the weak men who could not withstand temptation. The second and a higher method was education, and it should begin at the cradle. He was glad that temperance lessons are now given in the schools of the country. The third and most effective method was for the individual to seek the help of Almighty God.

The speaker said he might be accused of "talking shop," but this was the method he counseled in his own personal work for temperance among men, and no man earnestly brought the help of God in vain. Mr. Hooper expressed cordial sympathy with the work of the Every Day Club, and said that it deserved the support of the people.

Mr. Ruel then sang Crossing the Bar, and after the president of the club referred briefly to his work and its need of earnest men to aid in that work the choir sang a special adaptation, solo and chorus, of Now the Day Is Over. All then joined in the doxology. At the close members of the club personally thanked Mr. Hooper for his admirable address. The excellent music rendered by the choir was greatly enjoyed.

Yesterday afternoon at 4 o'clock a temperance meeting was held in the club rooms. There was sacred music by gramophone and solos were sung by Miss Colwell and Mr. Chisholm. The speakers were George McLaughlin, William McAuley and R. H. Cotter, who set forth the evils of intemperance and dwelt upon the value of personal and individual work such as may be done through active membership in the club.

Mr. McAuley pointed out that the desire for companionship led many into the drinking habits. He had found the club a good place for pleasant companionship, and commended it to other men. As a working man he protested against giving greater prominence and publicity to the evils of drinking among these men than among men higher in the social scale.

Smith Got Wise. A score corn, he said was bad enough, but to have it stepped on was the limit. He invested in a bottle of Putnam's Painless Corn Extractor and now he wears a happy smile. Corn is gone, enough said, try Putnam's yourself.

Borough of Lambeth, London, has 2,900 empty houses.

Two Mathematical Puzzles.

The first is a large planet. The second is a large city of the United States.

Thanksgiving Rebus

The Every Day Club hall would not hold all who sought to enter last evening to hear the male choir of St. Paul's church and the address on temperance by Rev. E. B. Hooper. While the house was filling, B. L. Sheppard kept a large gramophone turned by John Frodman, rendering a fine series of sacred solos.

The platform was not large enough to hold the choir, so they grouped around it, with T. Percy Bourne at the organ. Oh Worship the King was sung as solo and chorus by the choir, after which Mr. Gundy sang Thy Will Be Done.

Rev. Mr. Hooper, who said that it was his sixth service for the day, delivered a very impressive address on the temperance. He said that more suffering and loss are caused through intemperance than through any other single evil in the national life.

He was an advocate of temperance for three reasons: first, because he was a minister of God; second, because he was a Canadian and loved his country; third, because he was a family man, with wife and children very dear to him.

There were, he said, three methods of dealing with the evil. The first and lowest was by legislation; it was necessary to legislate in the interests of the weak men who could not withstand temptation. The second and a higher method was education, and it should begin at the cradle. He was glad that temperance lessons are now given in the schools of the country. The third and most effective method was for the individual to seek the help of Almighty God.

The speaker said he might be accused of "talking shop," but this was the method he counseled in his own personal work for temperance among men, and no man earnestly brought the help of God in vain. Mr. Hooper expressed cordial sympathy with the work of the Every Day Club, and said that it deserved the support of the people.

Mr. Ruel then sang Crossing the Bar, and after the president of the club referred briefly to his work and its need of earnest men to aid in that work the choir sang a special adaptation, solo and chorus, of Now the Day Is Over. All then joined in the doxology. At the close members of the club personally thanked Mr. Hooper for his admirable address. The excellent music rendered by the choir was greatly enjoyed.

The St. John Evening Times is published at 27 and 29 Canterbury street, every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd. A company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES, THE DAILY TELEGRAPH.

New Brunswick's Independent newspapers. These newspapers advocate: British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion. No graft! No deals! "The Thistle, Shamrock, Rose entwine, The Maple Leaf forever."

THE PATRONAGE

It is not all beer and skittles. Politics is not all flags and music, mottoes and oaths. There are the leaves and fishes. In the shadow of the great man with largest to bestow stands the seeker after the job of tidewater, or porter in the post office, or that of an humble scrubby. And the serpent enters the party Eden.

It is a great and exalted task to control the destiny of a country, to bring prosperity, to provide the full dinner pail, and to create surplus. But there are other matters included in the great task of the statesman. The faithful must be rewarded. Their name is legion and their numbers as the sands of the seashore. It is said Dr. Pugsley had some thirty-seven—or was it one hundred and thirty-seven—applications for a \$750 job.

How can a man give his undivided attention to unearthing half-million corruption funds, with occasional excursions in his airship or aerial railway, when the children of the horse-leech are ever at his heels crying "Give! give!"

And so Dr. Pugsley, by a detestable movement, has caused this clamorous following to swerve aside and race after a patronage committee, while he proceeds alone to Ottawa. It was an adroit manœuvre, but the results may be far-reaching. These members of the patronage committee live in St. John. They are within easy reach. Their lives will be made wretched. They came to bless Dr. Pugsley, and they must have gone away with other thoughts; for time is money with them, and the place-hunter a burden.

And yet, such are the exigencies of political life, the patronage committee must be carefully selected. Many considerations enter into the choice. There are men and men. Some must be kept off at any cost, and others must be put on. The sacrifice must be made—even sought after.

All this may appear almost amusing to the unregenerate person on the other side, but to the party man whose party is in power it is a most serious matter.

The faithful cannot be kept faithful unless the patronage committee are as wise as serpents and as bland as Dr. Pugsley. Therefore the task which the minister with soothing words has shouldered upon the Liberal executive is one that threatens to shake the citadel of party allegiance. Warring factions are in the streets, and rival caucuses have been framing plans of campaign to rush the entrachments and seize the supplies. Verily, these are troublous times in Liberal circles in St. John.

SHAMEFUL RECORD There were seven arrests for drunkenness in this city on Saturday, and twenty-six for the same offence during the preceding week. As an extremely small percentage of drunken persons are so drunk or unsteady for as to be arrested, it is clear that the evil is not growing less in this city.

Three men were before the court last week and proved guilty of hard drinking and beating their wives. Three women were also dealt with last week by the magistrate. One had been drunk, another had been profane and the third had sold cigarettes to little boys.

There was also a trio of small boys on the list. Two were truants and the third had committed a theft. At a quarter to eleven o'clock on Saturday night a group of from eight to twelve boys were together on King street. Several of them were smoking cigarettes. This simple record of facts—which might be indefinitely extended—is perhaps worthy of a passing thought.

ON THE WEST SIDE There has been some criticism of the action of the authorities in having police men on duty at the west side wharves yesterday. There can be no reasonable objection to this course so long as there is no offensive display of authority. It is really no reflection upon the longshoremen, who must be credited with conducting themselves in the most proper and orderly manner. There is always the possibility, however, that irresponsible persons, not longshoremen at all, might create a disturbance, and if this should occur there would be an outcry against the police for not having provided against it.

As a matter of fact, the longshoremen who have declined to go to work for less than forty cents per hour have conducted themselves as orderly citizens, and there is no reason to assume that they will do otherwise during the short or long period of dispute over the question of wages.

NOVA SCOTIA'S EXAMPLE

The province of Nova Scotia is making praiseworthy progress in the introduction of technical education. The province has a "department of technical education," which, acting in conjunction with school boards and city or town councils, will conduct during the winter a number of local technical schools in the evenings, for the benefit of all who desire to profit by the course. Eventually it is proposed to have a central technical school in Halifax as part of the educational equipment of the province, and to introduce more of this branch of education into the common schools.

The Times has received through the courtesy of Mr. W. S. Fisher a copy of the calendar of the Halifax technical school, which is under the control of a strong managing committee and has an instructor in each of the seven subjects taken up. These subjects are arithmetic and electricity. The classes all meet in the evening. In the prospectus of the school the department says: "It is earnestly hoped that all ambitious mechanics, craftsmen, and apprentices, in fact any men engaged in industrial pursuits, who are desirous of learning the scientific principles underlying their profession or trade, or who wish to improve themselves so that they may rise in their chosen calling, will attend these classes. Students who spend two or three evenings a week during the winter season in attending these classes and who apply themselves diligently to the work should be able to increase their working efficiency and be of proportionately more value to their employers. These classes are to be within the reach of everyone and are to be conducted so that the amount charged for admission to them will be very small, and most of it will be returned to the student at the end of the course if he has attended regularly."

The work of each class is carried on in a thoroughly practical way, with reference as far as possible to the every day work of the students, and the teachers are practical men chosen because of their special fitness to give instruction.

With evening schools of this kind in various industrial centres in the province much will be done to increase the effectiveness of skilled labor. When to this is added an enlarged course of technical instruction in the day schools, leading up to the course in a fully equipped technical college, the educational system of Nova Scotia will be in line with those of the more progressive countries in the world.

More and more, because of the specialization in industrial pursuits, it is recognized that greater attention must be devoted to the technical training of that vast majority of pupils who must leave the common schools at an early age, as well as to provide an extended course in this branch for those who can afford it and who choose an industrial career.

The province of New Brunswick lags behind in this matter of technical education. There is no reasonable excuse for further delay in taking up the subject in a practical way. There is a growing agitation to prevail upon the federal government to establish a general system of technical education, but this will not be done in any such way as to relieve the provincial departments of education of their responsibility to provide for technical instruction in the common schools or to carry on such work as has now begun in several Nova Scotia towns.

If we may believe the eager professions made, every voter in Colchester will go to the polls with a gun cocked and primed for the would-be briber. A gentleman from Kings county said on Saturday that he would like to see an agreement made by the political leaders there to abandon the use of money in elections. If men of influence will see this often enough and with sufficient emphasis they can carry their point. Public sentiment in favor of clean politics is gaining ground.

If the Hon. W. A. Weir, of Quebec, becomes too outspoken in his allusions to the power of the church in Quebec province he will rouse antagonism not easily overcome. Words which perhaps ought to be said are not always wisely said, and so defeat their own purpose.

The financial cloud in the United States appears to be lifting a little. The action taken at Washington is expected to ensure easier money, and public confidence appears to be returning to some extent. The industrial situation, however, is not likely to improve for some time.

Bishop Richardson pleads for equal justice to men and women who become the victims of social evil. The rule is to ostracize the woman and overlook the fault of the man. The bishop's condemnation is based on solid ground.

A vigorous police force with search warrants, following the recent decision of the supreme court upholding the imprisonment of liquor sellers, should make Moncton a fairly dry town. The prohibition commission is receiving object lessons.

THE BIG SALE OF Water Damaged Clothing WILL CONTINUE THIS WEEK AT J. N. HARVEY'S, Opera House Block.

WHISTLIN' ON THE PUMP (W. P. H. in the Ohio Magazine.) A-strugglin' into our back yard—his hands his pockets in. His mind all free from worry and his soul all free from sin— I remember how he used to come, some minutes before school. And notify the folks at home that he had 'time to fool. By whistlin' up a dismal tune, like any idle dumper. While twistin' his two legs around my father's post-green pump. I remember how my hunger fed when'er I heard his notes. Like nightingales, soar upward as from a thousand throats. And how my father would depose and most mysteriously state. That, although "Mort" was whistlin', I could wisely let him wait. But such advice was lost on me, for I was on the jump. When my old pardner was out there, a-whistlin' on the pump. Lord, how the backbeats lost their charm and strug all in vain. Which at any other moment not nothin' else could have done. How cold indoors th' ungrateful world would suddenly appear. When music underneath the porch proclaimed "Mort's" presence near. There may be joy that makes your heart go thump and thump; and thump; But none like that when my old pard was whistlin' on the pump. Since then I've heard some music, that cost much more. And was really seductive to an educated ear: And I've shown enthusiasm by joining in applause. When a quartet truly moved on from a truly earnest cause: But no remembrance of it all produces that sweet thing "That catches me when I recall "Mort's" whistlin' on the pump."

IN LIGHTER VEIN HE KNEW MARIA (From the Louisville Courier-Journal) "I could tell you what I think of you in a very few words!" "True, you could, Maria," responded Mr. Meekman, "but you won't Maria, you won't."

FRAMED UP. (From the Philadelphia Press.) "My daughter tells me," said Miss Yerner's father, "that you wanted to see me." "That's strange!" stammered the youth. "Why, she—she—told me you wanted to see me."

THE USUAL WAY. (From the Baltimore American.) "How does she manage to preserve her complexion when she goes to the seaside?" "Oh, the usual way in which women preserve everything." "How is that?" "How do you mean?" "Puts it up in jars."

ALL HIS TIME OCCUPIED. (From the Philadelphia Public Ledger) Father—So you think his intentions are serious. Do you know anything about his habits? Mother—Yes, that's what makes me think his intentions are serious. Father—How do you mean? Mother—His principal habits seem to be calling on Mabel and writing to her.

A TRUE RUSTIC. (From Harper's Magazine) It is Priscilla's first visit to the country; she has heard the cackling of the hens, and connected it with the laying of eggs; she hears the cow moo, and calls to her mother "Mamma, mamma, quick; the cow has laid some more milk."

SIZING HIM UP. (From the Philadelphia Public Ledger) "Szy, miter," said the small boy, "lemme carry yer astrolabe." "Oh," replied the ladylike Mr. Cisey, "my astrolabe isn't heavy." "No, I know it wouldn't be heavy for me, but it's different wid you."

D. BOYANER, Scientific Optician, 36 Dock St. The interior of the eye has no secrets for the modern optician. By the aid of proper instruments all defects of sight are discovered, and proper glasses may then be fitted. Consult D. Boyaner, 36 Dock street, about your eyes. Teddy Bears. We have just received 25 dozen Teddy Bears. Prices: 40c, 50c, 75c, \$1.00, \$1.25, \$1.40, \$1.50, \$2.00, \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00, \$5.50, \$6.00, \$6.50, \$7.00, \$7.50, \$8.00, \$8.50, \$9.00, \$9.50, \$10.00. Rag Dolls, 5c to \$1.00 each. Rubber Dolls, 7c, 10c, 15c, 20c, 25c, 30c, 35c, 40c, 45c, 50c, 55c, 60c, 65c, 70c, 75c, 80c, 85c, 90c, 95c, 1.00 each. Celluloid Dolls, 15c to 75c. Mechanical Dolls, 40c each. Musical Dolls, \$1.25. Toys 5c to \$15.00 each.

CHANGES IN THE INSURANCE LAWS WILL BE MADE NOW

New Legislation Will be Considered at Next Session and the Government Will Make Drastic Changes.

Ottawa, Nov. 24.—Hon. W. S. Fielding will have charge of the insurance legislation which the government has decided to introduce to parliament next session. The bill is now practically ready for presentation to the house. It is intended to have it referred to a special committee of the commons, where its provisions will be thoroughly threshed out.

The clause compelling the paying of dividends to policy holders annually instead of every five years as at present is said to have been changed in the present bill to make payments compulsory at least every three years. It is thought that this will adequately overcome the evil now complained of in the present method of deferred paid dividends, namely, the application of surplus earnings of older policies to the securing of new business. As time will be unlikely to call for much opposition from the companies. In full public view the government sees the greatest safeguard to the policyholder.

The amendments already made by the New York legislature to the provisions of the state insurance law drafted by the Armstrong committee and the amendments now under consideration at Albany have been carefully considered and the government will be unlikely to call for much opposition from the companies. In full public view the government sees the greatest safeguard to the policyholder.

In full public view the government sees the greatest safeguard to the policyholder.

ROOSEVELT TO MYRA KELLY

In Which the President Treats of the Ethics of Fighting.

President Roosevelt has written an appreciative and thoroughly characteristic letter to Myra Kelly, who has been included, with the permission of the East Side school stories, "Wards of Liberty" (The McClure Company). The communication was prompted by the first tale in this charming collection—"In Loco Parentis"—and reads as follows:

My dear Miss Kelly: Mrs. Roosevelt and I and most of the children know your very amusing and very pathetic accounts of East Side school children almost by heart, and I really think you must let me write and thank you for them. While I was police commissioner I quite often went to the Houston street public school and made it my business to get acquainted with what I saw there. I thought there were a good many Miss Baileys there and the work was being done among their schoolmates who were so largely of Russian-Jewish parents, like the children you write of, was very much like what your Miss Bailey has done. Now, a word of preaching—not to Miss Kelly, but to Miss Bailey. The scrape into which Miss Bailey got by following too closely Messrs. Froebel and Pestalozzi (and these eminent men, like most other human beings, diluted their good work with bad work) was a case of not seeing, and therefore not telling, the plain, wholesome truth. To try to teach her pupils that there should be any special appeal to force, when they lived under conditions which meant reversion to the primitive state of savagery, was a case of not seeing the ethical level, and the result is either vicious or nil. If Miss Bailey's "steady" Doctor would not knock down a man who had insulted her, I saw a very miffy poor opinion of him; but if he were brutal to the weak, or a bully, or a tyrant, I would have an even worse opinion of him.

There! I suppose I have been preaching again, when I only meant to write a word of thanks and appreciation. Sincerely yours, THEODORE ROOSEVELT.

CHRISTMAS RED BOOK

Gelett Burgess' sparkling motor story, "Courtesy of the Road," serves to open the feast of fiction in The Red Book Magazine for Christmas. No less interesting, if of quite another sort, is E. L. Steady's tale of the border, "The Toy Ambassador," a western story that carries with it the very flavor of the soil. An episode of a young officer in the German Army, which is either tragic or comic depending upon the angle from which the tale is considered. A story that contains all the oddness of the far north is "The Sin of the Silent One" by Newton A. Fessenden—a veritable epic of the barren lands. Harriet Prescott Spofford contributes in "The Christmas Gift" a story that is strikingly timely in these days of overgrown forests and "The Story of Cullen's Kids" by William Hamilton Osborne breathes the spirit of the Christmas season. An episode in the life of a young girl, the basis of Harriet Gayler's sprightly narrative of "The Elopement of Nanon," and a wife's education of her husband is cleverly disclosed in "Reclamation" by Alma Martin Estabrook. The portrait studies, the exclusive Paris fashions, the splendid dramatic department, and the valuable article on Motoring all combine to make The Red Book Magazine for December a most notable issue of this admirable publication.

"No fruit like English," is the Daily Mail's comment on the exhibition of plums so large and luscious at the Royal Horticultural show.

TELLS HOW TO CURE CATARRH

Simple Home Treatment Which Sufferers Should Make Up and Try, as Anyone Can Mix This.

The coming months will be a harvest for the doctors and patent medicine manufacturers unless great care is taken to keep the feet dry, also dress warmly. This is the advice of a well-known authority and should be heeded by all who are subject to rheumatism, kidney and bladder troubles and especially catarrh. While the latter is considered by most sufferers an incurable disease, there are few men or women who will fail to experience great relief from the following simple home prescription, and if taken in time it will prevent an attack of catarrh during the entire season.

Here is the prescription which any one can mix: Fluid Extract Dandelion one-half ounce; Compound Kargon one ounce; Compound Syrup Sassafras three ounces. Shake well in a bottle and use in teaspoonful doses after each meal and again at bedtime. These are mostly vegetable ingredients and can be obtained from any good prescription pharmacy at small cost. The Wigan-Kargon in this prescription acts directly upon the eliminative tissues of the kidneys to make them filter and strain from the blood the poisons that produce all forms of catarrhal affections. Relief is often felt even after the first few doses and it is seldom that the sufferer ever experiences a return attack within the year.

FATAL ACCIDENT ON LAKE ONTARIO

Tug Boats Raced for Tow and One Capsized and Went Down—Three Drowned.

St. Catharines, Ont., Nov. 24.—One of the saddest accidents in connection with Lake Ontario navigation for the season occurred about ten miles down the lake from Port Dalhousie last night, when the tug Escort was sunk by colliding with the barge Harrison and three lives were lost.

Early in the afternoon word was received that the steamer Westmount, Captain Milligan, and tug Kingston with the barge Harrison in tow. All the season there has been rivalry between the Westmount canal tug, Captain Harry Dunlop, and Golden City, Captain McCoppen, set out in a race toward Niagara with a view to reaching the Harrison, which was expected to be the last tow of the season. The race was close for several miles but as Westmount, Captain Dunlop, was moving ten miles an hour, and the Golden City could no more than keep up with her.

The Escort did not make the usual circle, but crossed over the course of the Golden City with the intention of swinging around on the bow of the Harrison. Whatever Captain Dunlop intended, he evidently miscalculated the speed of the barge. He struck the Escort's tow line, which carried off the top of the pilot house and checked her speed. In an instant the Harrison struck the tug amidships, turned her over and within a few seconds the little tug went to the bottom.

The accident no sooner happened than the Westmount slackened speed and the crew of the Golden City prepared to render aid. Life-lines were quickly thrown and three persons were rescued. They were Mrs. Bartlett, cook, Dunville; a boy named Harman Cook, and Melvin Barnes, the fireman, of Port Colborne.

Captain Dunlop, his brother Albert, who was engineer, and Charles Christmas, a canal helper, who had made a trip with the captain, were never seen, and their bodies are believed to be imprisoned in the sunken tug. After a fruitless search for the bodies or wreckage, the Westmount continued on to port, and was followed by the tug Golden City with the Harrison in tow. All went up the canal this morning.

All witnesses agree to the accident occurring through the fault of the Escort, the tow line and getting right in front of the Harrison. Mrs. Bartlett is now at the Murray House, Port Dalhousie, under the care of a doctor. She has two broken ribs and her body is badly bruised. She was standing on the deck when the accident happened and does not know exactly how she escaped. When she was picked up she was clinging by her feet to one of the fenders from the doomed tug.

The boy, Herman Cook, was on top of the cabin unlocking the Escort's life raft. When the crash came both boy and raft were washed overboard, but he clung to the raft and when it came to the surface he was on top of it and his rescue was easy.

THE NOBEL PRIZES

Stockholm, Nov. 24.—The next Nobel prize for chemistry will be awarded to Sir William Crookes, of London, an element in 1861 and invented the radiometer in 1874. He was awarded in 1907 for his discovery of radium and his discovery of a process of extracting nitric acid from the atmosphere, which, it was announced, would soon be available for commercial, industrial and agricultural purposes and would revolutionize the nitrate industry and the world's food problem. Rudyard Kipling has been designated for the literary prize.

A PRESENTATION

Temperance Hall was the scene of a pleasant gathering on Saturday evening when St. George's Division, S. of T., met to do honor to Mr. and Mrs. J. Brooks, a recently married couple who for years have been faithful workers in the lodge. After an excellent programme had been carried out the popular couple were presented an address and a handsome oak rocker as a mark of the esteem on the part of the members. J. H. Gridley presided and there were recitations by Miss Lida Smith and Miss Barton; solos by Miss Milne, W. McGorman, James Sullivan, Mr. Robertson, Mr. Dawson, Mr. Gridley and Hugh McCavour; musical selection by Miss Nightingale and speeches by Mr. Gridley and Mr. Rogers. D. C. Fisher made the presentation.

MODERN SOCIETY SCORED BY BISHOP

Bishop Richardson Delivers Powerful Address at Fredericton Mass Meeting.

Fredericton, N. B., Nov. 24.—The first of a series of mass meetings under the auspices of the Y. M. C. A. was held in the hall of the Y. M. C. A. last night and attracted a large audience. Bishop Richardson delivered an able and forcible address on the Place of Jesus Christ in the Building of a Great Nation.

In the course of his remarks he devoted some attention to social evils and declared the strength of a nation lay in the home rather than in its constitution and laws. He condemned society for turning its back upon those who become the victims of social evil while the man, who is equally guilty, is received into the homes as if he were untouched by the social curse. He saw no reason why there should be one law for the man and another for the woman who violates the laws of God.

DROPPED ALL OTHERS

"I dropped all innumerable but Nervine because I found Nervine the quickest to relieve pain," writes E. S. Benton of St. John's. "If my children are crampy or sick, I always give them Nervine. If a case of cramps or stomach-ache turns up, Nervine is ever ready. We use Nervine for neuralgia, rheumatism and all kinds of aches and pains; it's as good as any doctor." The great Canadian remedy for the past fifty years has been Polson's Nervine—nothing better made.

WILL RAID BAR-ROOMS

Search Warrants Will Be Placed at Disposal of Moncton's Chief of Police.

Moncton, N. B., Nov. 24.—Chief of Police Rideout, who has recently given charge of the enforcement of the Scott act, was given authority by the police committee Saturday to take out search warrants to go through places suspected of Scott act violation.

The chief reported that barrooms had been closed against the police and it was found difficult to obtain evidence of the violation of the act.

The new step of taking out search warrants is an innovation to the local dealers that there is to be still more stringent enforcement of the C. T. A. The next week or two may see lively developments in the Scott act in Moncton, especially if commitments should be issued in case of those previously sentenced to a term in jail without the fine option.

Fill the Tank

with gasoline if you want the motor-car to go. The oil supplies the power that makes the wheels turn round. The human machine is set in motion in the same way by Scott's Emulsion. Folks are like motor-cars. At times they get run down. Scott's Emulsion is full of power. It not only produces flesh but gives new power to weak bodies.

LATE LOCALS

Furness line steamship Kanawha arrived at Halifax yesterday morning from London with a large general cargo. She comes to this port.

The large Norwegian ship Benmore, which was loading at Musquash, N. B., for Rosario, has sailed for that port with a large cargo of dry spruce scantling.

John Richardson, an elderly man, fell from a crowded car on Saturday evening and was stunned. He was able to proceed home and Dr. McLaren attended him.

Up to date 148 car loads of general merchandise has been manifested at the port of St. John to forward to the winter port steamers. The warehouses at the west side are commencing to receive the outward goods from frontier ports.

A still alarm for a fire in Morrissey Emery & McLaurin's stone yard office, 205 Paradise Row, was sent in to No. 1 fire station Saturday night. The ceiling and a desk were burned. The firemen extinguished the flames without a general alarm being necessary.

J. F. Doherty, lately messenger for the Dominion Express Company between this city and St. John, is now the proprietor of the Springfield hotel, having recently acquired the property. He has had a number of improvements made and is doing a nice business. Mr. Doherty was well known at St. John, and was a well known and all round sporting man, being a well known sculler—Fredericton Gleaser.

WEDDINGS

Courtney-Barker

A pretty wedding took place at 41 Garden street at five o'clock Saturday evening when Miss Alice Maud Barker, daughter of George B. Barker, was married to Sydney V. Courtney, formerly of St. John but now of Boston.

The ceremony which was witnessed only by immediate relatives of the contracting parties was performed by Rev. A. A. Graham, and the bride, who wore a pretty traveling suit of brown broadcloth was unattended.

Numerous beautiful presents attested the popularity of the bride, and among them may be mentioned a goodly sum from Frank White and another from the employees of the Frank White Catering Company with which she has been identified for the past six years.

The groom, who is a native of England came to St. John about six years ago, but moved lately to Boston where he is managing a restaurant for the late Mrs. G. Courtney. After the ceremony supper was served and the happy couple left by boat for their future home followed by the best wishes of a large number of their St. John friends who had gathered at the pier to wish them a happy journey through wedded life.

Buckley-Reid

The Anglican rectory at Rothesay was the scene of a pretty wedding on Wednesday last, when George W. Buckley of Model Farm and Miss Alice Maud Reid were married by the rector, Rev. A. W. Daniel.

The bride, who wore a becoming gown of white silk was attended by her sister, Miss Jennie Reid and Elias Buckley, brother of the groom was best man. After the ceremony supper was served at the groom's home. A goodly array of wedding gifts attested the popularity of the newly married couple. The evening was happily spent and the following day Mr. and Mrs. Buckley left for the bride's home where a hearty reception awaited them. The happy couple will reside at Model Farm.

MONEY IN FOOTBALL

Yale and Harvard Split \$68,000 as a Result of Saturday's Game.

NEW HAVEN, Conn., Nov. 25.—It is announced that the football receipts for the season for Yale will reach approximately \$80,000. While this is not a record breaking amount, it is unusually high. Yale and Harvard shared equally \$68,000 after Saturday's game and the receipts of the Yale Princeton game also split evenly between the teams, amounted to \$66,000.

DIED IN PARIS

At Paris, France, on the 18th October, Countess Eugenie, beloved wife of Jean Della Torre, a most estimable lady, kind, good and charitable, one who lived a very quiet and unpretentious life. Mr. Della Torre, of this city, and his brother, in Halifax, Nova Scotia, are very closely related, being first cousins.—Sydney, C. B. Daily Post.

The Mr. Della Torre mentioned above were among the big sufferers of the great fire of 1877, losing the entire stock of their large wholesale and retail business in the Pines building on King street.

PERSONALS

Mr. and Mrs. Edward Furness, of Mill street, Fairville, desire to thank their many friends for their kindness in their recent bereavement.

O. S. Crockett, M. P., of Fredericton, was at the Dufferin Saturday evening. J. D. Hazen, M. P., returned to the city Saturday evening. A. H. Fitzsimonds, of Fredericton, was at the Royal Saturday. N. A. Landry, of Sussex, was registered at the Victoria Saturday. Ald. Vanwart, accompanied by Mrs. and Miss Vanwart, arrived in the city on the steamer Calvin Austin on Saturday afternoon after a visit to Boston and New York.

CLIPPER SHIPS IN THE SIXTIES

The Marco Polo of St. John Was One of Them—Her Fate.

The following interesting letter concerning the speed of clipper ships in the sixties, appeared recently in the columns of an English journal:

To the Editor: Sir,—Your Dublin correspondent's item in regard to the ship Marco Polo recalls quite another period of seafaring—a period when speed on the water was of as much interest to shipping men as are today the keenly-watched performances of the Lusitania. It may perhaps be just a matter of chance, but quite recently, when the newspapers have been devoting columns to the speed of this turbine liner in more than one well-read journal, I have been reminded of the big day's sailing of this or the other old-time clipper. Strange that in regard to the point of speed the clipper and the turbine steamer should at this period be simultaneously discussed.

I think I am right in saying that the Marco Polo was the best day's sailing ever credited to a clipper. And 420 miles is a long way short of 460, the distance your correspondent mentions in connection with the Marco Polo. The old James Baines was a magnificent vessel of 2,275 tons. She was built by Donald Mackay, of Boston, and in 1854 sailed across the Atlantic in 12 days 17 hours. On one occasion she made a voyage to Australia and home again in 5 1/2 months 10 days! She was reported to have sailed 420 miles in 24 hours, when running her easting down the parallel of 43 deg. south. She had her main keelson set with a fresh gauge being used to pass other ships sailing under reefed topsails. "I have always thought that the 420 miles' spin of the James Baines was the best day's sailing ever credited to a clipper. And 420 miles is a long way short of 460, the distance your correspondent mentions in connection with the Marco Polo. The old James Baines was a magnificent vessel of 2,275 tons.
