THE SIGNING OF THE CONTRACT, THE DEVELOPMENT OF GRAND FALLS AS A WATERPOWER FOR THE WHOLE PROVINCE is the crowning achievement of

the most progressive Government New Brunswick has ever had. The project will be to this province what Niagara has proved to be for Ontario and what Quebec's great hydro powers are to that thriving section.

The Financial Post of Toronto,—organ of private interests, too—in a recent issue makes a carefully checked computation of what 1,000 H. P. of hydro-power means to a community. Based upon these authentic figures the minimum of 50,000 H. P. at Grand Falls will completely rejuvenate New Brunswick. It would mean the spending of \$7,-250,000 for power-plants and factories, would employ 18,750 people, would distribute \$27,887,500 in wages annually and foster a community of 110,000 souls.

Besides these direct benefits would come the general good due through the circulation of new money. This simply goes to indicate the blessings that follow in the wake of natural-power developments. It has been proven over and over again on all sides throughout this continent.

Starting out with a saving of nearly \$800,000 on the estimates of engineers and financial experts Premier Veniot's statements are more than verified. What does the Opposition Party say to these facts? They admit the Grand Falls development is a good thing, BUT

Watch that "BUT." It has been an ugly little word in the Government's hydro enter-prise at Musquash. It has spelt Private Interests in unmistakeable lettering. The Money Kings have their covetous eyes on this new priceless gem, Grand Falls. They would float a stock company of fabulous millions on its prospects and make the people pay through the nose for their OWN property. That Opposition "BUT" means "butting" in again

Electors of New Brunswick take special care this newly-broached natural resource does not fall into the clutches of commercial operators. Keep it as your very own—its your's anyway—and enjoy all its benefits in minimum prices for light, heat, power and business development energy.

Grand Falls will serve the whole province. Watch your step.

SHOULD DECIDE

THOUSANDS ENJOY MOST

THRILLING GAME OF SEASON

NEARLY 2,500 PEOPLE watched the most exciting City League game of the year on the North End grounds Saturday afternoon, when Ira Hannah, twirling masterly baseball behind the steady support of his colleagues on the Water Department team, forced "Tack" Dalton to his first defeat in eight starts. The final score was 8 to 5, but the victory was not gained until after a gruelling struggle throughout nine innings of thrilling plays during which the lead changed hands nearly half a dozen times. Hard and timely hitting won the day for the Watermen, they securing 16 hits off Dalton's delivery, while only half that number was equalled by the Baptists off Hannah. The result gives the Watermen still a fighting chance for the title and this week, provided the weather is fine, should see the league decided.

The Baptists have four more games, while the Watermen have one—that End next Friday night Provided the Watermen win this game, the Saints must take their remaining four games to cop the pennant. Two of these to cop the pennant. Two of these their remaining four games he pennant. Two of these with the Saint Johns and the ancient formen, the Water Department..20020022x-8

games are with the Saint Johns and two with the ancient foemen, the Royals The Game Details.

Two base hit, O'Toole, Hannah, Gor-The Baptists started out strong when after Moran had been disposed of Dalton cracked a line drive to centre that got past E. Snodgrass and before it could be recovered, Dalton, by fast base running, was perched on third base. Barry laid down a neat sacrifice and Dalton was over the pan with first blood like a flash. The next two men went out. **Come Back Strong.** The Watermen came back strong in their half when Corrigan, who played a great game throughout, secured his **Come Dalton control** to the secured his **Come Data Strong Strong** The Baptists started out strong

F UMPIRE BAITING in the City Amateur League is allowed to continue the officials will have a hard job securing arbitrators next year. It is true there is bound to be some "kicking," but persistent nagging at almost every decision should be squelched. In several games played recently the úmpires have been made the target of all kinds of abuse. In the majority of cases the players had no license to "kick" and should have been shut-up or banished from the field. No man living can call balls and strikes without slipping up once in a while. In the heat of the game a pitcher or catcher may dispute some of the decisions if they think the ump. is not giving them the corners, but it can be done in a manner entirely different from that now adopted by several players. There is too much rushing in with "I'll bust you in the jaw look on their faces" and far too many personal remarks made. Another thing becoming quite a habit in the league is to throw the ball out of the lot if a decision is not to the liking of some of the players. The league officials should show their hand. Actions of this kind would not

Along The Sport Trail

By RAY HANSEN-

be tolerated for a minute in any other league. WHILE on the subject it might be well to inform some of the

catchers in the City League that it is quite unnecessary to do a marathon out to the box after every catch. It delays the game and, except when done to steady a pitcher or impart advice, is entirely uncalled for.

IN RECENT sport events conducted here fans had been informed that they were to start at a specified hour. Many gulped their suppers in order to reach the scenes in time and to their chagrin found that even the officials had not arrived let alone the contestants. If there is anything that kills sport it is unnecessary delays. If it is impossible, to have competitors there until a certain time, arrangements should be made accordingly and the public notified. It is not fair to the spectators to announce a specified time and then hold up the programme for a half and often three quarters of an hour. If contestants agree to be at the starting line at a certain time they should be held to it and not given more than a few minutes grace. This is the fault of the officials who are so indulgent that they encourage the habit. In future events let both the officials and the contestants "pep up" and try and remember the fans.

* * * * *

THE WRITER has received a letter from a fan asking if there is any way to figure out who is going to win the National and American League pennants as he wishes to arrange his holiday programme accordingly. The answer is regret-

Turns Back Cobbmen And Allows Only Two Hits NEW YORK, Aug. 3.-Eighteen years of major league pitching have failed to take toll from the mighty arm of Walter Johnson. Defeating the Detroit Tigers yesterday, five to one, with but two hits, the veteran Washington hurler celebrated his debut in 1907, against the same
