Destruction And Inconvenience Follow In Wake of the Storm

THE WORST EXPERIENCED IN MANY YEARS

Railways All Over the Country Badly Crippled—Local Street Car Service Paralyzed—Washout at Shubenacadie—Many Trees Destroyed or Badly Damaged—Halifax Ferry Service Interrupted.

As reports drift in from all over the country, comes a realization of the havoc wrought, particularly in the eastern provinces and the New England States, by the storm of yesterday and the day before. Everywhere train traffic was badly disrupted and in many places entirely suspended.

Although the city was not hit so hard as reports from other places would indicate, conditions were trying enough to suit those whose business took them out of doors. After straightening out until about 4:30 yesterday afternoon the street railway people were compelled to capitulate to the elements and admit unconditional defeat. The service has been paralyzed all day and there is little hope for operations before this evening, and perhaps not then.

The trees in the public squares are practically ruined. Borne down by the great weight of ice which formed on their branches they broke or split and many present a sorry sight this morning.

Many sidewalks were in full flood last night, but conditions have been greatly remedied today.

Train Traffic Delayed

All the trains reaching the city today, except the first section of the Halifax, were behind their schedule. The wires and telegraph lines were so much out of order that it was impossible to conduct the work of despatching in the regular way. Up to late this morning there was no word from the Montreal or Boston trains on this account. The Boston train due yesterday at one o'clock did not pull into the depot until three o'clock this morning, owing to having been held up by the work of the storm along the line in Maine. The Halifax left on time at noon today, not waiting for connection from the Montreal train.

All trains leaving the city on the C. N. R. division last night were very late. The Sussex suburban and the Maritime express, the former due to arrive in St. John at 8:55 in the morning and the latter at 12:15 at noon, did not reach the city until after four o'clock, so that before leaving it was nearly one hour and thirty minutes after the time they were due to leave. The Halifax train was held up for two hours late reaching the city. The Hampton suburban did not return to the city on the evening trip, but the morning train did. The evening mail train due to reach the city at 9:30 was held up for more than two hours on account of the heavy fall of sleet and snow.

The Hampton and St. Martin's branch train of the C. N. R. due to arrive in Hampton shortly before noon, did not reach the station until after midnight. The snow was encountered along the line from St. Martins, and although a large snow plough preceded the train, it was exceedingly difficult at times for the train to proceed.

The Sussex suburban train was one hour and fifteen minutes late reaching the city this morning on account of being held up at New Brunswick. The morning mail train, the mail train was delayed leaving the city and as the wires from St. John to Colbrook are all down it was impossible to get communication through and the trains were all held accordingly. Several telegraph poles in the yard are down on account of the weight of the ice on the wires.

The Street Cars

It was said today by one of the officers of the N. B. Power Co. that they expected to have the street cars running in part service, at least, before evening. They had a difficult job ahead in repairing the wires and cutting the ice from the rails. Some of the rails in West St. John were in running order this morning, but for the most part walking was the general, though unpopular pastime throughout the city. The company had nine burn-outs on its wires yesterday, caused in some cases it was said today, by the call wires used by the telegraph companies and for calling firemen, falling and occasioning short circuits. These wires are said to be of light construction and when coated with ice give way. Considering the number of wires which fell yesterday about the city it was said by many today that it was remarkable that no one was hurt.

No Freight Business

No freight business was handled this morning at the C. N. R. offices owing to ice and snow having choked up the tracks. It will require considerable effort before they are clear.

Getting Snow Away

Much good work was done about the city by the teams hauling the snow from the roadways. Some of the principal streets were well cleared for traffic this morning and the work was kept up successfully all day. It was difficult shoveling, however, because of the heavy crust.

Horse Through Window

One of the teams engaged in the clearing of snow in Prince William street met with an accident. The horses in turning pushed the driving pole through the window of the Imperial Oil Co. and broke a large sheet of plate glass.

In Fairville

Fairville this morning resembled nothing so much as a typical deserted village, with wires down, trees broken, no street car service and general demoralization everywhere.

There are said to be half a dozen telegraph poles broken off along the Pipe Line road as far as the Wilson Box Factory. At the C. P. R. station one of the largest poles supporting innumerable wires, cracked off and a crew of men were snipping wires for a couple of hours to clear away the debris.

A number of persons whose work calls them to the city waited until nearly ten o'clock for the Fredericton train and then went via the West End car service.

VICE-REGAL VISIT TO OFFICES OF CANADIAN NATIONAL INSTITUTE FOR THE BLIND

Their Excellencies the Duke and Duchess of Devonshire leaving the offices on King street, Toronto. They later visited the Library for the Blind and a broom factory operated by blind men, chatting with the workers and watching the various operations.

VON BUELOW IS DEFIANT

Says He Will Never Surrender to the Allied Nations

CALLS IT IGNOMINY

Army and Navy Commanders Are All of One Mind—Government Will Seek Modification of Treaty Regarding Them.

Berlin, Feb. 7.—Field Marshal von Buelow today told the 100 members of the Reichstag that he would never place himself at the disposal of the Entente nations and expressed the belief that the national cabinet's attitude which is expected to reconvene next week, although it adjourned until the end of the month.

Persons well informed deny the existence of a governmental crisis and the despatch cabinet has unanimously agreed which is a symptom of the spirit in which the Entente demands are being met, all prominent politicians opposing the Allied ultimatum.

It is believed that the government will attempt to obtain a modification of the terms of the Versailles treaty, which is expected to reconvene next week, although it adjourned until the end of the month.

Persons well informed deny the existence of a governmental crisis and the despatch cabinet has unanimously agreed which is a symptom of the spirit in which the Entente demands are being met, all prominent politicians opposing the Allied ultimatum.

As Hiram Sees It

"I see them there Yankees wants all our spruce to make into paper," said Mr. Hiram Hornbeam to the Times reporter—"an' one of them senators wants to just walk in an' take it. That's like the boy that to his new spruce, an' they do the same then grabbed one from a feller that was keepin' his for his little sister. We got to take care of our spruce, Mister. It'll be with a lot of money in spruce fifty years hence" queried the reporter.

"I ain't thinkin' about you an' me," said Hiram. "I'm thinkin' about the country we're goin' to leave to them that comes after us. If we do what we kin to save the spruce, an' they do the same—what's it goin' to mean? They say the government 'll git nearly a million dollars revenue from the spruce lands this year. Keep the crop growin' an' you'll always hev money comin' in."

"Don't you fool yourself!" said Hiram. "S'pose the bud-worm got busy in next year for about three months? I tell you, sir, if we don't keep up the supply the generations to come wont rise up an' say 'Bye-bye' to you."

"I see a nice young spruce tree growin' on your land."

"If any Yankee senator comes out to the Settlement lookin' for a big tree we'll give 'em a limb so he kin see it good—yes, sir."

IT'S A BOY.

The happy smile worn by W. M. Ryan of Richmond street today was occasioned by the arrival of a little stranger this morning at the Evangeline Home—a boy. Congratulations.

TWELVE MARRIAGES.

NINETEEN BIRTHS.

Twelve marriages were reported to the sub-registrar of vital statistics during the week. Nineteen children, fourteen boys and five girls, were also reported.

EIGHTEEN DEATHS.

The recent outbreak of influenza, although slightly increasing from time to time, is of a mild type and no deaths from the disease have yet been reported. However, a total of eighteen deaths from various other causes were reported during the week. They are as follows: Senility, four; broncho-pneumonia; three; diabetes, laryngitis, angina, apoplexy, diphtheria, emphysema, peritonitis, lobar pneumonia, premature birth, pyo nephritis and cerebral hemorrhage, one each.

MORE INCONVENIENCE.

Because of no address being obtainable as to what time the early Montreal train would arrive today no hackmen were present to meet the passengers. This cannot be considered the fault of the hackmen, however, and because of the wires being down cannot be laid at the door of the railway people but must be blamed to the storm conditions. The train was due at 6:45 a. m. and did not pull in until about noon.

THE BREAK IN WATER MAIN.

The water and sewerage department has a new crew engaged in digging a trench where the break was located in the water main in Brussels street. At 11 o'clock a new crew of eight men had penetrated in the ground for a depth of seven feet. This makes the work of excavating the storm conditions. The superintendent of the water and sewerage department, said that he expected it would take a day tomorrow to fix the break. Until the pipe is uncovered it will be impossible, he said, to ascertain the extent of the damage.

BURIED TODAY.

A very large gathering of friends attended the funeral of Francis McCafferty held this afternoon at 3 o'clock from the residence of his son, F. I. McCafferty, 68 Elliott row, to the Cathedral, where services were conducted by Rev. Simon Oram. Relatives acted as pallbearers. There were many beautiful floral and spiritual remembrances. Interment was in the New Catholic cemetery.

THE FUNERAL OF ROBERT GRAY.

The funeral of Robert Gray took place this afternoon at 2:30 from Powers undertaking rooms. Services were conducted by the Rev. Canon Armstrong. Interment was made in the Fernhill cemetery.

ON SAID MISSION.

Matron Edith McCafferty, of the Manitoba Military Hospital, Winnipeg, and Mrs. Win. G. Burrill, of Bangor, Me., arrived in the city today, having been called home by the news of the death of their father, Francis McCafferty. Their brother, Gerald McCafferty, started home from Virginia, but on account of the weather was storm-stayed at Lowell, Mass. He is expected to get a train in time to get here for the funeral.

NO ARRESTS.

FOR TWO DAYS.

Magistrate Ritchie was somewhat surprised this morning when it was again announced in the police court that the police sheet was marked "nil." There were no arrests made last night in the city, making the second consecutive night that no lawlessness has been detected.

HALIFAX PUTS ONE OVER.

Now and then Halifax does put one over on St. John. In a letter which was sent to St. John from a St. John merchant occurs this sentence:—"You should have been over here last night to see the boys skating on the harbor. You can't see a thing like that in St. John."

FIGHTING FOR A HUNDRED LIVES

Thrilling Story of Steamer—Aground off Rockaway—A Night of Terror.

New York, Feb. 7.—Battered by a blinding snow storm and towering waves all attempts of rescuing vessels to reach the old Dominion liner Princess Anne, aground off Rockaway Point, with 104 persons aboard, had failed last night. More than a dozen sea-going tugs, a coast guard cutter and a police boat, which put out to the aid of the stranded vessel were unable to get within halting distance of the liner, and the crew abandoned their efforts.

On the shore the coast guard made a desperate effort to get a lifeboat out to the steamer, but the heavy breaker made it impossible to launch the boat. Twenty men were standing by shore throughout the night. A wrecking steamer is being raised from Norfolk and is expected to arrive today to rescue the passengers by breeches buoy if the coast guard cutter is unable to take the line aboard.

The Anne is about half a mile off shore. When last seen she was listing to starboard. The lights and wireless apparatus are out of commission. Captain Sney is reported suffering from broken knee cap and the passengers are enduring severe cold and exposure.

A feature of the storm which started out to the rescue today found the vessel in shallow sand had to return. It was with the same difficulty. Officers of the liner said last night that attempts to rescue the passengers had been given up until today.

FOR MARITIME HOCKEY HONORS

Halifax, Feb. 6.—With the University of New Brunswick team as likely winners of the western inter-collegiate hockey league, it is almost certain that St. F. X. and Dalhousie will challenge the New Brunswickers to a series of games for the title. The trophy is now held by St. F. X. but as the Dalhousie players did not compete in the eastern section of the league seems to have fallen into the mire, and no games have as yet been played. Graduates of Dalhousie and former students, have urged Manager Thomas Hayden, to challenge for the title, suggesting that the game be played at New Glasgow, or some other centrally located centre.

WILL BE HERE FOR CHAMPIONSHIPS.

Allen Logan of McAdam Junction, formerly of this city, has sent in his entry for the maritime championships, which are to be held under the auspices of the Y. M. C. I. He is said to be in great condition and skating faster than ever. A feature of the sports will be the novice race, which will give local skaters a chance to compete for good prizes without having to meet speed skaters who have been in championship events. There are many good skaters in the city who would like to race but do not feel that they are able to compete against the pick of local talent, so this race has been arranged for their benefit. Entries are being received daily by Joseph McNamara, physical instructor of the Y. M. C. I.

PIRE THIS MORNING.

The Caledon fire department was called out this morning for a slight blaze in the Colwell coal shed. The fire was soon put out. Owing to fallen wires it was impossible to sound the alarm but by the telephone were communicated with the stations.

PHILIX AND PHERDINAND WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

Gales.

Maritime—Strong winds and gales shifting to west and north; rain and snow. Sunday partly fair with a little lower temperature.

RESTRICTIONS OFF.

Word received by W. E. Anderson, Imperial trade correspondent in this district through the senior trade commission in Montreal, is to the effect that restrictions on imports to Great Britain have been taken off except in the case of firearms, ammunition and explosives, and certain articles prohibited by the customs act of 1876.

Adopts Daylight Saving.

Paris, Feb. 6.—The senate today adopted a bill for daylight saving which will become operative February 15 at midnight.

Faculty of Kings Decide To "Carry On"

THE ALLIES AND SOVIET RUSSIA

No Definite Policy Yet, Says Premier Millerand—France and Poland.

Paris, Feb. 7.—(Havas)—Premier Millerand declared yesterday that France did not intend to pursue a policy of conquest in Syria, did not intend to menace the population's independence, but desired to establish a good administration in the country and see that justice was done.

Referring to Russia, M. Millerand said none of the allies had adopted a definite policy toward Soviet Russia. Concerning the plan for renewing commercial relations with the Russian cooperative unions, the premier asserted that the exports would be under control and if it were found they were being used to revictual the Red armies they would be immediately stopped. He found fault with the Soviet government but expressed gratitude to the Russian people and hoped that they would assume the place reserved for them at the peace conference. He declared that France would spare nothing to reach an accord without interfering with the internal policy of Russia. The premier intimated that Franco-Polish friendship, so that if Poland were attacked she could depend upon the complete co-operation of France.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

REAL GOOD BILL AT OPERA HOUSE

Wonderful Feats by Slack Wire Performer Greatly Enjoyed—Other Acts Also Good.

Patrons of the Opera House braved the storm last night to see the new vaudeville performance in the Opera House and judging from their frequent and hearty applause they were thoroughly entertained.

Following another episode of the "Midnight Man," Mr. Davis appeared behind the footlights balanced on a slack wire and comically eating a lunch. While sitting on a chair he gave a wonderful demonstration of balancing and later entertained with a few juggling feats of interest.

Stanley and Dale also gave an interesting and highly entertaining minstrel performance. They sang and danced and were well received. One of the members is exceptionally clever at eccentric dancing, while his partner played well on a banjo and also danced.

Kerr and Essing also won a goodly share of the applause with a singing and well deserved the applause tendered.

The Hanson duo, in a sensational aerial act, also received a goodly share of the applause. They gave a very clever performance, which was greatly enjoyed.

Society Leaders Paid \$10.00 a Seat for Private Showing of "Auction of Souls"

PRIOR TO ITS PUBLIC EXHIBITION IN NEW YORK, BOSTON, LOS ANGELES

All Next Week It Will Be Shown at the Unique Theatre Under Censorship Restrictions.

America's leading society people were the first to see "Auction of Souls," an unprecedented screen production.

Winipeg, Feb. 6.—Henry Detchon, general manager of the Canadian Credit Men's Association, made the announcement today that his organization will soon open an office in Halifax.

Notice of Births, Marriages and Deaths, 50 cents

BIRTHS CLARK—At 37 Garden street to Mr. and Mrs. W. C. Clark, on February 4, 1920, twin boys.

GREAT BOUT HERE MONDAY NIGHT

World's Champion Will Meet One of the Best Welterweights in America.

Fans in St. John will have an opportunity of seeing a real champion perform in the Opera House, Monday night, when Louis Nelson, welterweight champion wrestler of the world, will meet Harry Katron, of Franklin, N. H. The latter has an enviable record and holds Waino Ketonen, middleweight champion of the world, for two and a half hours.

He also defeated some of the fastest middleweights and leading welterweights in the country and is anxious to win the much-coveted welterweight bout in St. John. There will also be preliminaries and other features.

Tickets are now on sale at the Opera House and fans should get them today if possible for the Opera House capacity will be taxed, and a champion-ship bout is not staged every day. There will also be preliminaries and other features.

STILL DOING GREAT WORK FOR WOMEN. Before Taking Them She Could Not Walk—Now She Can Walk and Work.

What Miss Simpson Says of DODD'S KIDNEY PILLS. Before Taking Them She Could Not Walk—Now She Can Walk and Work.

One more tribute to the great work Dodd's Kidney Pills are doing for the women of Canada comes from Miss Anne Simpson, well known and highly respected here.

"When I commenced to take Dodd's Kidney Pills," Miss Simpson states, "My heart bothered me so I could not walk."

"Now I can walk and work." Miss Simpson is not entirely cured yet but so great are the benefits she has received from Dodd's Kidney Pills that she is firmly convinced they will effect a complete cure.

She has been a sufferer for eighteen years and underwent four months' treatment in a hospital before trying Dodd's Kidney Pills.

Dodd's Kidney Pills are a kidney remedy. They relieve the work of the heart by putting the kidneys to work to strain all the impurities out of the blood. Pure blood carried to all parts of the body means new health all over the body.

CAUGHT WITH THE GOODS. Oxford Man, Charged with Robbery, Arrested in Amherst.

Amherst, N. S., Feb. 7.—Roy C. Moore of Oxford, was arrested in Amherst yesterday afternoon, charged with the burglary of Barnstaple's jewelry store, Oxford, last week.

The chief of police had more than three hundred dollars worth of watches, rings, etc., on his person. In addition to the valuables he also carried three paraffin lamps, a half bottle of alcohol, and a small bottle of Jamaica ginger. Moore has been before the court on a previous occasion.

PREPARING TO DEAL WITH ANY EMERGENCY

Board of Health and Others Discuss Influenza Situation and Make Plans — The Question of Food for Needy Ones.

A meeting of the officials of the Board of Health and co-operative committee in connection with the prevention of influenza in the city, was held this morning in the board rooms in Princess street.

George Blake was asked to act as chairman. It was moved by Hon. W. F. Roberts, M. D., minister of health, that a committee be appointed to wait on the mayor and the commissioners relative to the appointment of a physician to look after those who are in need of medical attendance.

It is also the intention to have the families prepared financially to pay to have treatment while those who are able to pay something must contribute towards their treatment, and this will go to a fund for the reimbursement of the physician.

The program, will deliver the first lecture, on Tuesday and Wednesday evenings, lectures will be delivered on this subject by members of the nursing profession. It was announced at the meeting that the military authorities have very kindly offered equipment for the hospital which will be opened if found necessary, and they have also offered the use of their trucks and ambulance for the purpose of moving patients.

Mrs. G. A. Kuhring, who is in charge of the diet work, was also at the meeting, but sent a report to the effect that the distribution of food to needy families who are now incapacitated was started this afternoon.

In this connection it was decided at the Red Triangle and prepare it for a diet kitchen for the distribution of food to families that are incapacitated. In order to do this a certain amount of expense will be necessarily incurred, yet it is the intention of the committee to go to as little expense as possible.

Contributions for this purpose will not be thankfully received. Hon. Dr. Roberts in the course of the discussion said that we have not yet had an epidemic and he hoped that there will not be the same.

He says, however, that should the influenza develop, he feels that it will not be so severe as last year. He said there are families at the present time who are in need of nourishment, and that he moved that the diet kitchen be established at once for the purpose of carrying on this work.

At present time there are families in which several persons are ill and for the welfare of all some of them should be put into a hospital. Mrs. John McMurrow, of the Red Cross, said that she has some articles on hand, such as pajamas and pneumonia jackets, that could be used and it is the intention of the Board of Health in the handling of the situation, in so far as possible, to have the information bureau at the hospital where there will be some persons who are not all informed where nurses can be obtained and also regarding the nature of the nurses' registry, reported that to look after this work made calls this morning and reported to her that matters were in a satisfactory condition.

The following persons were appointed to act as inspectors in the various districts to look after families reported to them, and ascertain the nature of the cases and the financial standing of the families in order that it may be decided whether patients are or are not to be admitted to the hospital.

Mrs. J. D. Hunter, Bridge street, inspector for Indiantown; Mrs. T. H. Graham, Forth street, inspector for the East End; Mrs. A. C. Sifton, the centre of the city; Miss Edith Burnett, of the East End; Mrs. P. J. Gleason, Waterloo, Brussels street and Marsh Bridge section of the city.

It was also announced by the Board of Health that four new cases of influenza were reported this morning. They are of mild type.

GIRLS' RESIDENCE AT SIMMS' FACTORY. Contracts were signed yesterday at the office of F. Neil Brodie, architect, for the erection and equipping of the addition to the girls' residence of T. S. Simms & Co. The addition when completed will accommodate about thirty girls, having as a part of its composition twenty-four sleeping rooms.

There is a large recreation room which will be equipped in modern up-to-date style, having all the latest facilities. The new building will be three stories high and will be fully equipped, having all the latest plumbing heating and electrical fixtures.

It is expected to start work on the erection of this addition early in the spring, as soon as working conditions permit, and it is hoped that it will be finished and ready for occupation some time in July.

The tenders were offered a short time ago and closed recently, the contracts awarded and signed yesterday. The mason work is to be done by H. O. Clark, the heating and plumbing by E. Fitzgerald, the electric wiring and fixtures by the Vaughan Electric Company, the painting by A. G. Staples and the carpenter work is to be done by the T. S. Simms & Co. The building when completed will be a nice structure and will provide first-class accommodation for a number of girls employed in the T. S. Simms factory.

Lep J. Goutreau was arrested in Moncton yesterday on a charge of having forged a number of checks. He is said to have passed two checks, one for \$55.10 and the other for \$27.50. He is only

WOOLEN AND FUR COATS SPECIALS

The Smart, Unusual, and Different Looking kind that you would expect to cost much more.

These garments are all worth now half as much more than we ask.

The following unexpected prices prevail on Friday and Saturday—this week-end only. Its the quality of the merchandise at the prices we emphasize.

There are eight Electric Seal and Sealine garments in our stock. They are trimmed variously—Skunk, Squirrel and Sable Ringtail being used on the separate coats. The sizes are 36, 38, 40. The two day prices are

\$153.00 for \$200.00 Coats \$173.00 for \$225.00 Coats \$193.00 for \$250.00 Coats

You have also ten Russian Pony coats to make a choice from. We say choice because some coats are trimmed with black Raccoon, some with grey Australian Oppossum, some self trimmed. Then there are several prices

\$133.00 for a \$175.00 Garment \$153.00 for a \$200.00 Coat \$173.00 for a \$225.00 Coat \$193.00 for a \$250.00 Coat \$233.00 for a \$300.00 Coat \$273.00 for a \$350.00 Coat

Then too, you can select a Woolen Coat if you prefer it, for a most unexpected price. A woolen coat is a most needed item of apparel always.

\$28.00 for a \$41.00 Coat \$30.00 for a \$46.00 Coat \$35.00 for a \$49.00 Coat

And some for half price \$195.00 Coat for \$47.50 \$187.50 Coat for \$43.75

MAY HAVE NEW BANK BRANCH HERE. Tenders Awarded Yesterday — Will Be a Comfortable Home.

During the last few days a representative of the Standard Bank has been in the city from Toronto, looking over the situation locally with the idea, according to current report, of a branch of the bank becoming located here.

It was said some time ago that the bank was negotiating for the purchase of the building at the corner of Germain and King streets, known as the Oak Hall Building Company, A. N. McLean, who is at the head of this company, said this morning that no change of ownership had taken place. It is understood that the architect for the Standard Bank went over the building and will report upon it and the extent of remodeling which will be required should the bank decide to buy.

DIED IN BOSTON. Word has been received in the city telling of the death of Miss Theresa Dever in Boston. She was a native of St. John, but had lived most of her life in Boston. Six brothers and one sister survive. The sister is Mrs. Ellen McKenna of Boston, the brothers, John James, Cornelius, Hugh and Henry Dever of this city, and Charles of Boston, where burial took place.

SERVICE IN BRITISH COLUMBIA. Vancouver, B. C., Feb. 6.—Captain E. C. Hoy, D. F. C., is applying to the Dominion government for a subsidy for an airmail service between Vancouver and Victoria. He plans to inaugurate a daily service between the two cities.

POOR DOCUMENT M C 2035

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, FEBRUARY 7, 1920

THE BUSINESS COLUMN
EDITED BY MANSFIELD F. HOUSE (Continued)

"Silent Sleuthing" Answered
a Lot of "Silent Complainers"

Mrs. Jennie Wakefield, who manages the corset department for the Waters Dry Goods Store, in Los Angeles, has made it a point to know about every patron and prospective patron of the community. As a result, many of the women came to her with their corset-fitting troubles. But not all of them. And she knew it.

"Mr. Waters," she confided to the proprietor one evening, "we are missing a lot of the corset business. Today two women told me that friends of theirs had bought their corsets downtown. They feel so friendly toward me that they think they have to tell me all the facts they know that might interest me."

"Why do you suppose we lose those women's trade—we carry brands that women know and they are fitted correctly since you made a study of 'fitting'?"

"I am not sure. Suppose we get some one to investigate?"

"All right. Let Miss Helden run down one or two names that you get. Just make it a point to ask for names of women who do not buy corsets in your department. It will be worth the while."

Two days later a woman who was a stranger to the patrons of the store rang a number of doorbells. When she was successful in getting to talk to the woman of the house she spent a great deal of the time explaining that she was not selling, soliciting or demonstrating merchandise, but was merely investigating local conditions. She discussed a number of things as one woman will with another. Incidentally she inquired as to the kind of corset the woman wore. And what did the woman think of the corset department of the Waters store?

"Well, their department and their corsets may be all right," one woman said, "but one day when I opened up a corset to give it a look I happened to see a man in the department next to that one looking right at me. I don't

care to show before men that way, although I do know that Mrs. Wakefield takes lots of pains and fits a person rightly."

"I go down to Bae's," said another woman. "They handle the same corset that Waters does, and I have known it for years; but some way I like the Bae's department so much better."

When the reports came in it did not require much time for Mr. Waters and Mrs. Wakefield to see the point. It had never occurred to them that a corset department required privacy. The Waters department had seen neighboring men's haberdashery. It was true that the fitting room in the rear gave privacy for the fitting—but women disliked holding up a corset to the view of men in the other department.

Wall Paper as Stationery.

A Buffalo wall paper firm caught the attention of the people on its mailing list by sending out its literature printed on the back of the wall paper samples themselves. Several rolls of the new modes were cut up into letter size and the missives were printed on the other side of the colored sheets. They resembled the Civil War memoranda found in museums showing how the southern cities were furnished with their daily news.

"Give Us Your Little Orders," Proves Good Appeal.

What subtle influences make for business success? In Seattle, while competitors displayed pictures of goods in newspaper advertising and talked the many things that can be talked, and usually inquired as to the kind of corset the woman wore. And what did the woman think of the corset department of the Waters store?

"Well, their department and their corsets may be all right," one woman said, "but one day when I opened up a corset to give it a look I happened to see a man in the department next to that one looking right at me. I don't

The West Indies and Mexico

Trade between Canada and the countries to the south of us is rapidly increasing. With branches in the United States and Mexico and a close working arrangement with our Correspondents, who have branches throughout the West Indies, this Bank is able to place at the disposal of its customers a very complete service.

THE CANADIAN BANK OF COMMERCE

Capital Paid up \$15,000,000 Reserve Fund \$15,000,000

St. John Branch, W. H. LUGSDIN, Manager

After all, it's pleasing you in the little details that interests us most. Perhaps it's only a letter file on a desk pad. It may be only a pencil. We argue that if we can build a reputation for satisfying customers on small orders the big ones will take care of themselves. That will henceforth be the guiding motive of this company—making you glad you came here for the rather inconsequential things. We want to prove that clerks can be as courteous and polite when they sell a ten cent order as a five hundred dollar one. Visit us and see how it works out.

Seattle likes the idea, as proven by the fact that the S. O. E. Co. is booming.

Soon They'll Be Buying Rocks at the Jeweller's.

Just when Attorney-General Palmer, William Wood, George T. Sales and other theoretical economists are figuring out the H. C. of L. alone comes a scientist with the prediction that women's dresses will soon cost thousands of dollars instead of mere hundreds!

Dr. Charles L. Parsons, secretary of the American Chemical Club, is the scientist in question, and it was in the course of an address before the Philadelphia section of the Engineers' Club that

he made the statement which caused every married man in the audience to write in an agony of despair.

What does a chemist know about clothes?

Simply this: Doctor Parsons explained the use of platinum as a "catalyst"—meaning a reagent which causes a reaction without experiencing any chemical change itself—in making ammonium nitrate for fertilizer by shooting ammonia gas and air through the platinum, woven into a beautiful fine screen which does the catalytic stunt without turning a yard.

But even a platinum cloud has a silver lining. The gowns that many of 'em are wearing these days wouldn't cost a fortune, even if they were made from this platinum mesh!

Local Testimonial Valuable in Selling Furnaces.

The Ernst Hardware Co. of Seattle carried a heavy line of furnaces, but there was such strong competition that sales did not come as fast as they wished. The situation was investigated and certain suspicions were verified. People were confused by a too-wide choice in the open market. National advertising mediums confronted them with many heating equipments. They put off using single column space, the Ernst Co. adopted the advertising plan, locally, works here. We can see that it will give them recommended and handled. "Just one of many," these little ads were headed and then the letter followed.

Here is an example: "Ernst Hardware Co. Dear Sirs: Your furnace surprised me. I am a satisfied user of the furnace of reproducing typewritten facsimile letter perfect satisfaction from the moment it was installed. We would be pleased to recommend it to any one who needs a good furnace. Thanks for your prompt delivery."

It was the old testimonial scheme, but it was the minutest of details intensely personal, because of local names. Response to this advertising was immediate—and successful.

PILES

Do not suffer from Piles. Use Dr. Chamberlain's Remedy. It is a certain cure for Piles, Hemorrhoids, Stricture, and all other ailments of the rectum. It is a certain cure for Piles, Hemorrhoids, Stricture, and all other ailments of the rectum. It is a certain cure for Piles, Hemorrhoids, Stricture, and all other ailments of the rectum.

Another would form a repository for the trophies of Scottish regiments. A third would provide a home for the great national collection of the Society of Antiquaries. These adaptations would not involve the removal of any ancient or historic building, but it is proposed to pull down various cook-houses and other offices, the disappearance of which should be a distinct improvement to the castle.

The committee feel that the historic interest of the castle cannot fail to be enhanced by the presence of a shrine, which will remain for all time a monument of patriotic self-sacrifice on a scale hitherto unknown, and they are of opinion that no site in all Scotland could be as suitable for the memorial which Scottish national feeling demands.

The scheme has the approval of the King, Sir Rosslyn Wemyss, Sir Douglas Hogg, and every Scottish regiment. We commend it (they conclude) with confidence to the generous support not only of the relations of those who have fallen but of the Scottish people in general.

REAL AMERICANS AND DE VALERA.

(New York Evening Post.)

As far as England was concerned, the Irish people wished and hoped that Germany would win the war.

Thus "President" de Valera, addressing an audience in—Germany? No, Austria? No, Bulgaria then? Not at all, in The Bronx. Why assail England from the safe soil of an enemy country when you can assail her from the equal safe soil of an ally? We poured millions of Americans into France. What of it? "President" de Valera tells us that those for whom he speaks wished for the triumph of the armies against whom we were fighting. We denied ourselves that we might send food and ammunition to France. If he could have had his way, not an ounce of it would have reached his shores. Rather it would have gone to feed and arm our foes.

And an audience calling itself American and presided over by the president of one of the boroughs of New York city welcomes de Valera, cheers him, hangs upon his words; the aldermen vote him honors, and the mayor bestows upon him the freedom of the city! Is there an answer? Yes. Politics. Do real Americans have any feeling about all this? Yes, shame.

THIN PERSONS LIVE LONGER.

Addressing a meeting of actuaries in Edinburgh, Lewis Orr, general manager of the Scottish Life Assurance Company, submitted a table of standard weights showing that the average individual weighing less than 140 lbs. lived longer than those weighing more than 160 lbs.

The table, which was the first of its kind produced in this country, showed clearly the truth of the statement that the heavier the shorter the life. From what they knew of German and Austrian insurance statistics they reached the not uninteresting conclusion that the Anglo-Saxon, as represented by Great Britain, the United States and Canada, was of considerably lighter type, for his height, than German and Austrian, roughly speaking, to the extent of about one stone. This might possibly indicate a corresponding athletic superiority of the Anglo-Saxon which may not have been without effect on the outcome of the war.

Take No Risks with Valuable Securities

Your Victory Bonds, deeds, mortgages, insurance policies, are too precious to leave where fire or thieves may reach them.

Even a strong box or safe in your own home lacks the absolute security given by the Safety Deposit Boxes in this Bank.

They may be rented in convenient sizes at a small cost. Call and see them.

NOTICE

By order of the Council of the Municipality of the City and County of Saint John, a Bill will be presented at the next session of the Legislature for enactment. The nature of the Bill is local and the object of the Bill is to enable the Commissioners of the General Public Hospital in Saint John to erect and maintain a building for the accommodation of nurses and pupil nurses in training, and to maintain a school for training nurses, and also to enable the said municipality to borrow money and issue bonds in payment of such building.

Dated this twenty-second day of January, 1920.

JAMES KING KELLEY, K.C.,
County Secretary.
109014-3-9.

Unable to use his automobile because of ice covered streets, Dr. C. E. Chomeweth of Seymour, Ind., used skates to reach the homes of his patients.

The Preferred Stock of a World Famous Concern

In calling attention to this attractive investment, the following brief outline will be of interest—

The Company's product is known the world over. It is a recognized leader in its field, well established, and eminently successful.

Its assets and earnings are unusually high.

The Company is capably managed and its markets are fortified by national good will.

Few investments combine so many highly desirable features.

Full particulars upon request without obligation.

In the New Home

Beaver Board is a distinct improvement, not a substitute. It opens the way to more attractive as well as more permanent interiors. When years of service are considered, it is the most economical kind of wall and ceiling for your new home.

Beaver Board cannot crack. Plaster must crack sooner or later—usually sooner.

Beaver Board is an adjunct to the highest type of decoration. Beautifully paneled and exquisitely decorated, it forms the ideal setting for home furnishing.

The Beaver Board result depends largely upon the way this good building material is used. In the hands of skilled carpenters and decorators there are no limits to the degree of beauty which may be attained. Yet this same product lends itself to the task of waste space finishing where high cost would not be justified.

The one important requirement is "Buy Genuine Beaver Board." The trade-mark is plainly printed on the back of each panel for the dealer's and purchaser's protection. Our book "Beaver Board and Its Uses" will be of practical assistance to you in either new buildings or repairing and remodeling. Write for a copy to-day.

SCOTLAND'S WAR MEMORIAL

(London Times.)

The Duke of Atholl and Lord Carmichael, chairman and vice-chairman, respectively, of the committee appointed by the secretary for Scotland to consider the possibility of the utilization of Edinburgh Castle as the site of a Scottish National War Memorial, the castle being no longer required for military purposes other than the retention of an adequate guard, write to say that their report is now published.

The committee, after consultation with Sir Robert Lorimer, A. R. S. A., have unanimously arrived at the conclusion that the Castle Rock is an eminently suitable site for such a memorial. It is proposed that the memorial itself should be erected round the apex of the rock—a building not consecrated according to the usual form of any church, but which would always be open for meditation and prayer and which would be dedicated to the memory of those who have given their lives in this war.

While it is proposed that the building should occupy this commanding position, the committee are fully conscious that it must be in strict harmony with and conform to the general contour of the existing buildings. It is not proposed that it should in any way dominate the rock.

In the report will be found details of further proposals for the adaptation of the principal buildings of the castle to various purposes. One would serve as a Hall of Records, where the names of distinguished Scottish sailors and soldiers of all ratings and ranks, who have

SERVICE FIRST

GIRLS WANTED

To Learn Telephone Operating

REQUIREMENTS:

COURTESY, INTELLIGENCE, GRADE VIII. EDUCATION

TELEPHONE OPERATING requires special knowledge and training, which is given in the School for Operators. Not only is this instruction given without charge, but the company pays you a salary while you are learning. In many lines of work a girl has to give her time for several weeks, or even months, learning a trade, and often in addition has to pay for the instruction. When the trade is learned and she is fitted for a position she frequently has to wait more weeks or months before she can secure one.

Upon successful completion of the Telephone School Course, you are assured a position at once. Rapid promotion to responsible positions is possible for girls with ambition and intelligence, who are alive to requirements of a present day business woman at salaries in excess of most other lines of business.

AGES 16 to 25.

Apply to Chief Operator, 9 a. m., 12 a. m. and 3 to 6 p. m.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, FEBRUARY 7, 1920

HOW'S THIS FOR RAPID CLIMBING

At twenty-one without a job, and with only \$85 in the world, and at forty-four a partner in the largest engineering and constructing firm in the United States is the record of George O. Muhfeld, a member of the firm of Stone & Webster. The story of his success as told by Forbes Magazine in the current issue reads like a romance. The real key to his success is told in the opening of the story. Young Muhfeld, searching for a job, had tramped the streets of Detroit until his last cent had been spent and he was nearly desperate. Finally he buttonholed the superintendent of a large municipal building then being constructed, and offered to work for nothing if that were necessary to get a start. The superintendent allowed him to trail along carrying a rod and level and otherwise assisting him for a couple of weeks. Then he offered the young man a job as office boy at \$2.50 a week. This was eagerly accepted. To enable him to make ends meet, he received permission to bring in a cot and sleep in the office building.

the cot to be folded up and stowed away during the day so that nobody would know anything of the arrangement. By eating ten-cent meals, often consisting of barley soup and a hunk of bread, he actually lived on his \$2.50 salary. It is only yesterday, it seems, since this young man began at the foot of the ladder, but today everyone with whom he associates declares that he works with the same enthusiasm, the same untiring interest, and loyalty to himself and his fellowman as when he took his first job at \$2.50 a week.

APPRECIATION FROM ENGLAND

Mother and Father in London Say Some Nice Things About the Telegraph and Times.

The following letter received by Reginald Ault of this city from his father,

Rheumatic Pains
Are relieved in a few days by taking 30 drops of Mother Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extract of Roots," contains no dope nor other strong drugs to kill or mask the pain of rheumatism or lumbago, it removes the cause, 50c a bottle at all druggists.

Rowland Ault of Finbury Park, London, Eng., speaks for itself: "It was a great pleasure for your mother and me to receive the St. John Telegraph and the St. John Evening Times, you forwarded home to us in London. We would like to convey to the editors of these journals our appreciation of the wonderful papers which keep us in the old land in touch with what is going on in New Brunswick, Canada. Mother looks eagerly forward each week for the Telegraph and Times and nothing is right until she has read the Canadian news. Although we at home in the world's greatest city with its eight millions of people have a fine opportunity

of securing numbers of different morning and afternoon and evening papers, yet when we receive the Telegraph and The Times it brings pleasure and pride to us, realizing that it is in that great dominion of Canada where you are today. Your kindness in sending these papers is, I can assure you, fully appreciated by your old Dad and Mother."

MOVE FOR SUPPRESSION OF IMPROPER DANCES.

Pittsburg, Feb. 6.—An organization of dancing academy owners for the suppression of improper dances in Pittsburg is being formed, according to F. J. Foreman, a dance hall proprietor, who announced today that the new body, when formed, will probably ask the city council to adopt an ordinance regulating dancing. Such dances as "the shimmy," the "check and jowl shuffle" and other "cheap" dances will be forbidden, said Mr. Foreman. He added that the owners of dance halls will operate a "black list" under which no couple who offend in one academy will be permitted to appear on the floor of another hall.

Is Your Wife Bad Tempered?

Chances are she has corns that ache like fury. Buy her a bottle of Putnam's Corn Extractor. It acts painlessly, gives instant relief, and cures every kind of corn. Insist on getting only Putnam's Extractor, 25c. at all dealers.

STARTING, LIGHTING, AND IGNITION

All of vital import—all dependent on the battery. That's why the battery has been called the HART of the car.

You appreciate things when you lose them. Don't let your battery impress its importance on you by making you fuss around some cold morning with hot water and hand cranking.

Install a HART Battery now; put "Hart" into your power plant and comfort into your driving. The Hart is the only battery equipped with the famous "Bulldog" plates.

It is made in Canada and made to suit Canadian conditions.

How Would You Punish the Kaiser?

Some time ago The Literary Digest prepared and forwarded to the Justices of the State Supreme Courts, to District, County and Circuit Judges, and to the heads of the legal departments of American universities, a brief questionnaire. If William Hohenzollern is found guilty, the "Digest" asked, both of conspicuous responsibility for the war and of authorizing military violations of international law, what penalty should be imposed upon him? Three hundred and twenty-eight replies have been received, covering every section of the country and representing a wide diversity of opinion.

One of the most comprehensive and interesting articles in THE LITERARY DIGEST this week, February 7th, gives a summary of these replies, which, coming as they do from such an admittedly authoritative section of the public, may be justly claimed to represent America's best judgment.

This exclusive news-feature is illustrated by a full-page cartoon, in colors, by Cesare, representing the Kaiser at the bar of justice; and other half-tone illustrations showing him in exile; also humorous cartoons.

Other striking news-articles in this number of the "Digest" are:

Three million dollars for a phonograph!

That's what it cost to perfect the only instrument that RE-CREATES music so faithfully that no one can tell whether it is the living artist he hears or the phonograph—when one is heard in direct comparison with the other. Add to that three million dollars, Thomas A. Edison's genius, his vast knowledge and his indomitable will and you realize how much was required to make

The NEW EDISON "The Phonograph with a Soul"

"Now go ahead and build replicas," said Mr. Edison to his staff when he had finally achieved an instrument which would meet the tone test. "Call it the Official Laboratory Model and uphold the standards I have set to the last detail."

This three million dollar Phonograph is on display here—come in and hear it.

Ask for a copy of the beautiful book "Edison and Music" and the booklet "What the Critics Say" which proves Edison superiority.

MUTT, AND JEFF—THERE ARE TIMES WHEN JEFF'S THOUGHTS ARE VERY MUCH SCRAMBLED

By "BUD" FISHER

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, FEBRUARY 7, 1920

MISREPRESENTATION OF FACTS RELATING TO N. B. FINANCES

Glaring Misstatements Pointed Out—Foster Government Not Responsible for Heavy Expenditures Arising From Methods and Action of Old Government.

Fredericton, Feb. 6.—The article in the St. John Standard of February 5 seems to be simply a rehash of its misstatement made on the 3rd and 4th. The financial inaccuracy of the Standard is not better illustrated than by its statement that the loan floated some months ago, of \$2,200,000 was made to take up overdrafts and to provide for the expenditure of the old government. The Standard stated that it was a refund. It is not a refund, but a loan. The Standard is hardly worth replying to, but there may be some people who do not know that this loan of \$2,200,000 made few months ago was floated to retire bonds issued by the old government in the year 1914 and the advertisement which appeared for the bonds in the issue and was to take care of maturing bond obligations.

The nonsense of the Standard's editorial and criticisms, cannot be better illustrated than by its ignorance of what this \$2,200,000 was intended for, and its misrepresenting the facts in a hope that some of its readers may not just understand what the loan was for. The Standard states in its article that the increase in the public debt is \$2,554,394.96. If it means the increase in the capital liabilities, the correct figures are \$5,111,096.31. While the difference in the totals of the capital liabilities on October 31, 1918, and that of October 31, 1919, exclusive of sinking fund cross entries shows the increase as stated, if the financial genius who is busy with writing the misleading statements appearing in the Standard is really desirous of giving the facts to the public, he should, if he has the capacity for so doing, examine the statement as prepared by Price, Waterhouse & Company, and see how the increase is arrived at, and who is responsible for such increase. It might be well for his information to point out that the increase in the capital liabilities of the province is accounted for by the following amounts:

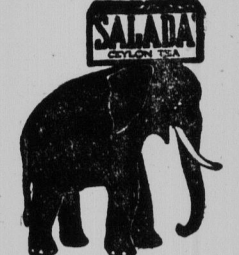

Permanent bridges	\$ 244,908.73
Permanent roads	990,891.17
McDonner property	7,000.00
Smallpox and influenza	29,968.47
Loan from Dominion Government under Housing Act	600,000.00
Construction St. John & Quebec Railway	458,839.49
	2,623,142.86

From which should be deducted bonds redeemed, sinking fund provisions and other adjustments.

Included in the amounts above showing the increase in the capital liabilities appears for instance a loan of \$600,000 from the Dominion Government under the Better Housing Act. \$280,000 of this amount has been advanced to various municipalities for the purposes of the act, and are debts of the respective municipalities to the province for such advance. Then there is of this amount \$320,000 in cash in the bank to the credit of the province.

The Valley Road.
For the expenditure of the St. John and Quebec Railway which for the year amounted to \$458,839.49 the Foster Government cannot be in any way held

Since then the bonds of the International

The Elite of Beverages
"SALADA"
Its Exhilarating, Refreshing and Healthgiving Properties
CREATE A CHARMING camaraderie among guests.
The Pinnacle of Perfection and so deliciously different.

Further into these individual guarantees that remain amounting to the above total, the Southampton Railway, for instance, would furnish plenty of food for thought.

Moved Two Houses
Five Miles on Sleds
Brownville, Me., Feb. 6.—Every one thought Augustus Lundeen crazy or something when he bought two five-room houses at the Hughes Quarry five miles out of town and said he was going to move them to Brownville Junction. There are several steep hills and some crooks in the road and the houses are 18 by 24 feet and all ready to live in. Lundeen contracted with C. E. Gerrish as transportation engineer and amid the scoffing of the populace the job was undertaken.

The chimney tops were taken down and the windows removed, the houses jacked up and placed on two heavy-log eight horses were hooked on and the caravan started. It was easy enough on the level roads, but on the steep pitches snub lines had to be rigged and several times the houses came near being thrown on their beam ends, but preventer stays and guys held them up.

In nine days from the start the houses were landed at Brownville Junction, making a whirlwind finish the last three miles in two hours, the horses coming into town on a trot amid the cheers of the inhabitants.

The houses all ready for tenants to move in, stand Lundeen less than half as much as it would cost to build one of them at the present prices of labor and material. But for the bad hills the moving could have been done in two days.

Appropos of Henry Watterson's retirement from the Louisville Courier-Journal, a Louisville banker said to the great editor:—"I understand, sir, that your idea is to start a paper of your own."

"Well," fenced the veteran, "that would be a welcome change indeed, for papers nowadays do nothing but note a new strike."

Old Government Responsible.
The critic seems distressed over the fact that the accounts show that a deficit existed of \$174,370 at October 31, 1918, and complains that no explanation is given of it, and remarks:—"What is plain is that the government have gone behind a matter of \$924,006 in their current accounts in the last two years." Again the financial genius shows his ignorance of plain bookkeeping. All he has to do is to examine into the matter a little, or yet consult someone who knows something about a financial statement, and he will be shown that at October 31, 1917, there was a deficit of \$1,087,270.21, for which the financial friends of the Standard were wholly responsible. Of this amount there was funded by Act of Assembly 8, George V., 1918, Chapter 50, the sum of \$747,536.85, leaving a balance of \$339,733.36 to which was added the deficit of October 31, 1918, \$134,636.98, and here it might be explained that this deficit shown on the 31st of October 1918, of \$134,636.98, was made up wholly of Valley Railway interest of \$175,000 less surplus of ordinary revenue over ordinary expenditure for the year ending October 31, 1918, of \$39,363.02 or \$134,636.98. These two amounts of \$339,733.36 and \$134,636.98 make a total of \$474,370.34 difference, deficit shown for October 31, 1918, and for which the Standard's friends are wholly responsible.

A further lack of knowledge of provincial finance is demonstrated by the Standard's financial writer. When the friends of the Standard were retired from office by the will of the people, there were bond guarantees by the province outstanding of \$2,013,000, as follows, not including the Valley Railway:

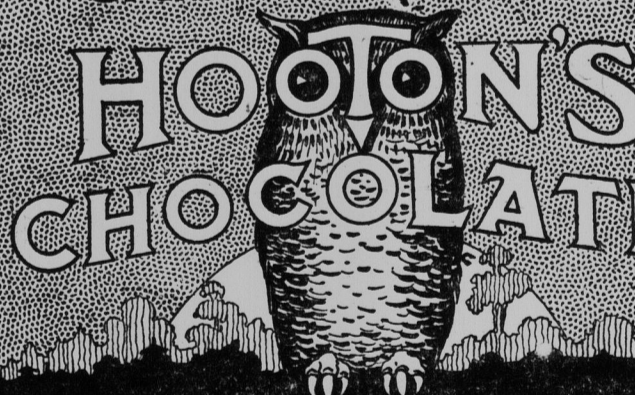

The International Ry.	\$ 896,000.00
The N. B. Cold Storage Co	90,000.00
Woodcock Cold Storage Co	10,000.00
The N. B. & Seaboard Ry	297,000.00
Town of Campbellton	100,000.00
Southampton Ry. Co.	155,000.00
Fredericton & Grand Lake	100,000.00
Coal & Railway Co.	465,000.00
	\$2,013,000.00

WANT GORMAN TO SKATE AT LAKE PLACID

Movement Started to Raise Fund Here — Interesting Story of Price's Victory in 1900.

St. John, N. B., Feb. 6, 1920. Editor Times, Sir—I understand a well-directed effort is being put forth by Fred Logan, ex-champion skater; Frank White, the fleetest dash man St. John ever produced for the chaser path, and some other sport lovers, to have Charles Gorman, our newest local speed "discoverer," sent to the international champs at Lake Placid, N. Y., within the next fortnight to represent this good old breeding spot of ice champions. The Commercial Club I am told, refrained from taking any action in the matter because of the precedent it might establish, but I am confident my fellow C. C. members could not have had the case fully presented to them, or at least from the proper angle. To get directly to what I want reference for which I apologize. I was away back in 1900 or thereabouts when "building" in the reportorial grind of Greenwich, Kings Co., had struck town with his long-bladed "recherches" and was showing his heels to all the speed addicts real and almost real. This lad from upriver, then only 17 years of age, could beat the best of them. McCormick and Fred Breen championship banner over the finish line in big company at the Montreal annual meet. So I passed the hat among a few friends and up we went with only \$127 to finance our world conquest.

Jimmy was, of course, an amateur and the rankest of all the outsiders, the blackest kind of a horse. He got a place in one of the elimination heats on that big blustery M. F. A. A. rink which entitled him to enter the final test. Morris Wood, of Saranac Lake, was then the world's fastest amateur, holding an unbroken record of eight years. It was the terror of all skatingdom and it was wonderful to see the fleet ones jockey and struggle to steal some specific advantage in the hope of outstripping him. This was especially true of the Canadian competitors of whom there were about thirty, from all sections.

To again shorten my narrative, little Jimmy Price—blissfully and innocently unafraid of this Yankee wonder, which entitled him to enter the final test. Morris Wood, of Saranac Lake, was then the world's fastest amateur, holding an unbroken record of eight years. It was the terror of all skatingdom and it was wonderful to see the fleet ones jockey and struggle to steal some specific advantage in the hope of outstripping him. This was especially true of the Canadian competitors of whom there were about thirty, from all sections.

Well, Mr. Editor, the grandstand went wild! McGill collegians swarmed onto the track, shouting and cheering. They carried him to his dressing room. Camera men, sport specialists from newspapers all over the continent and officials pressed their questions and attentions upon the lad until he was almost suffocated, and in that night's newspapers, St. John, N. B., in Canada, was famous once more—like the time Hughey McCormick's victory on strange ice gave us the world's palm.

So here we are again—with what looks to be championship timber—this young Gorman—a returned 28th Battalion man—who did so very well at the policemen's sports the other night. Fred Logan proposes to know how good he is, so should rely on their judgment. Gorman will be in the monthhouse and it is felt he can secure the necessary off time to do a little foreign missionary work in his own way for our city and province. It will require about \$200 to send him away, an informed, which amount would cover his trainer's expenses as well.

NURSES' NEW HOME WILL BE FINE STRUCTURE

Tenders Close on Monday — What the Plans Will Provide in Accommodation and Equipment.

The nurses' home will be both modern and commodious is evident from the plans for the new edifice, which were drawn up by F. Neil Brodie, architect. Tenders for the structure will close on Monday.

The building is to be a five story structure, built of cut stone and brick. The first story is to be constructed of cut stone, the four additional stories of brick. The dimensions of the building on the ground floor are sixty by 134 feet. Across the front of it a large veranda, sixty-eight feet long and sixteen feet wide will be built, with the main entrance from the centre of the building of the veranda.

Immediately on entering the building will be the nurses' reception room, off which is to be an automatic push button passenger elevator connecting all floors. A suite for the superintendent of nurses and twenty feet wide, and the student room—is to be at the left of the main entrance, and adjoining that is to be the house-keeper's suite, consisting of the same number of rooms.

The eastern end of the first floor is to be taken up with sitting rooms for graduate and student nurses, the graduate nurses' sitting room, eighteen feet long and twenty feet wide, and the student nurses' room thirty-three feet long and twenty feet wide. By means of folding doors, these two rooms can be turned into one fifty-one feet long and twenty feet wide, for entertaining. The rooms are to be finished with macassar, oak, beech ceilings and ornamental fireplaces, with waxed birch floors and mahogany finish to all the wood work.

To the right of the main entrance will be nine chambers, lavatory, etc., the lavatory equipment including two bath tubs and one shower bath. The floors of these rooms are to be finished with tile with tile work.

The second floor will consist of twenty chambers, a library with built in case, a sewing room and a lavatory. The third floor will have twenty chambers, a kitchenette equipped with necessary apparatus, and a lavatory. The fourth floor will have a lavatory and twenty-one chambers.

The ground floor will include a lecture room, thirty-nine feet long and twenty feet wide, with a capacity of eighty chairs. On this floor also will be coat rooms, store rooms and toilet rooms. The kitchenette on this floor is to be equipped with a dumb waiter connecting with the diet kitchen on the next floor.

The nurses' work rooms, also on this floor, will contain sinks, wash tubs and all necessary apparatus. The other rooms are to be housekeeper's room, storage room, heater room, trunk room, locker room, demonstrating class rooms and several unassigned rooms.

At the end of the building off each floor is to be a sleeping porch, enclosed with glass paneled doors. A fine precast staircase, with exits off all floors is also to be part of this magnificent building.

The building will be heated by steam supplied from the boilers in the present power house, and also will be equipped with electric fixtures and up to date and modern plumbing. It will be one of the finest of its kind in the maritime provinces and will be fully equipped with all necessaries and comforts.

LOCAL NEWS

AGAIN CHANGES HANDS.
The building recently purchased by W. E. Gillis, estate in Dock street has been sold again by him to I. Williams, who conducts a business adjoining. The house at the corner of Dorchester and Union streets is being held by Mr. Lawton for the new owners, the continuation of remodeling it into apartments.

HAD FINE TIME.
A number of young people of the Charlotte street United Baptist church met last evening at the home of Mr. and Mrs. G. W. Mott, 18 Rodney street. Games of various kinds were played, after which refreshments were served. The visitors all expressed themselves as having had an enjoyable evening.

TIN SHOWER HELD.
The members of the Victory Circle on Thursday evening called at the home of Mr. and Mrs. G. W. Mott, 146 King street east, and tendered them a tin shower in which they were recipients of many acceptable gifts. There was also presented to them by the circle a handsome lamp accompanied by an address by David Lawson. A pleasant time was enjoyed by the gathering.

CITY BADLY HIT BY STORM.
Storm conditions during the night failed to show much signs of improvement and the street car service was entirely disrupted. Three inches of water and slush covered the rails and the trolley wires were coated with ice making it impossible to operate the street cars. In addition to this the heavy weight of the ice on the wires caused many breaks and lights were out in sections of the city last night. The North End was almost in total darkness. In many low levels miniature lakes formed, making it almost impossible for pedestrian travel. Many former beautiful trees throughout the city were badly damaged, due to the weight of the snow and ice, which formed on the branches.

WALTER G. HAYTER.
The death of Walter G. Hayter in the nineteenth year of his age occurred yesterday in the General Public Hospital, his death coming as a severe shock to his many friends because of his having been in good health up to just a few days prior to his passing away. He was a son of Mr. and Mrs. F. S. Hayter of Coldbrook and was a young man of fine qualities. He was a member of the board of St. Bartholomew's church at Coldbrook and a teacher in the Sunday school and was also a member of St. Mary's Band. In all these he was very popular and his death will be heard of with distinct regret. Besides his parents, there survive three sisters, Misses Rhema, Gretchen and Dorothy, all at home. The funeral will take place on Sunday at 3.30 p. m. from St. Bartholomew's church, Coldbrook.

Proper Appointments For The Cup That Cheers!

Men as well as women appreciate the true comfort and strengthening of the afternoon cup of tea, but only a woman can tell just what it is that makes tea in some houses so much more delightful than in others. For women understand to the full the philosophy of proper appointments, and know that the cup of tea served in attractive china from a dainty tea wagon is bound to be twice as full of savor as the same tea might have been, dispensed by a less fastidious hostess.

The tea wagon in many styles has been appreciated for some time by women who know how to give to even the most unimportant and informal entertainment an air of refinement and festivity, but it seems as though there never had been such an attractive variety of wagons as are offering at present. The tea wagon takes precedence over all other vehicles for the dispensing of the "cup that cheers but does not inebriate."

WHAT HAPPENED FROM A COLD

St. John Woman's System Became Weakened and Her Health Was Threatened Until She Took "Liv-rite."

A cold in these days of rapidly changing weather may result very seriously in its effects to the system and may leave its victim in a weakened state. That was what happened to Mrs. Amy Wood of Erin street. She had had a cold for some time and it continued to hold on until it began to sap her strength. "I began to get worried about it," she writes. "It held on so long that I was suffering very much from it. I began to lose my energy and strength. My system was getting weaker and weaker. I thought it was time to take something more than mere medicine to build me up again so I started on 'Liv-rite.' It had helped me wonderfully and I am now again in possession of my proper state of health.

There is great danger from such cases as this. It is easy to catch a cold but difficult to get rid of it and one never knows when it may develop seriously. In order to offset its effects it is advisable to have "Liv-rite Tonic" handy and to take it when the system is threatened. This medicine will build one up again, strengthen the inner organs, stoutness the muscles, and purify the blood of its poisons. It can be had from almost any reliable druggist, but if you cannot supply you, send his name to the Maritime Drug Company, 108 Prince William street, or send them a dollar and they will return a box at once.—(Adv.)

THE BOY SCOUTS

THE BOY SCOUT.

57th St. John Troop (Trinity).

An unofficial meeting was held Jan. 21, and at this meeting the attendance was not as large as usual, a very enjoyable evening was spent in the presence of H. O. Eaman, maritime sec-

TURN HAIR DARK WITH SAGE TEA

Grandma kept her locks dark, glossy and youthful with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the messy mixing at home. All drug stores sell the ready-made product, improved by the addition of other ingredients, called "Wych's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw it through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wych's Sage and Sulphur Compound, is that, besides beautifully darkening the hair, after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

Secretary of the Boy Scout movement, added much to the success of the evening. During the evening the troop formed up in horseshoe formation, and to the surprise of all present was presented with a standard by Scout Kraut. The banner is a very beautiful one with the Boy Scout emblem upon it. Just before presenting the standard to the troop, Scoutmaster Kraut presented a letter which the latter read to the troop. It read as follows: Jan. 21, 1920.

Dear Sir—Permit me to present the Boys Scout Troop of Trinity to you, the banner which I hope they will carry with honors through their many marches and contests.

I also wish to thank you as well as my fellow scouts for all the kindness and attention shown me as a member of this troop. As a true scout I will always do my best for the troop.

Thanking you, and for your permission to present this flag, I am, Yours obediently, (Sgd.) HAT. KRANTZ.

It might be well to note here that Scout Kraut purchased this banner out of his own savings. He is a very energetic little worker and at the present time holds a number of proficiency badges.

Luc boys are very pleased to receive such a suitable gift and they wish to thank Scout Kraut again for his contribution for his kindness to them all. On Monday, Jan. 20, 1920, the regular meeting was held with almost a full attendance. The troop experienced one of the best meetings they have had. A new programme was adopted and proved a great success. Similar programmes will be carried out in the future.

Warranted bodies work progressing rapidly, as a number of scouts will soon be ready for the final test. Signaling, the gas-making mass, start the ambulance work. Games, without question are eagerly and effectively carried out. The old ones and some new ones being always ready at hand.

The Wolf Cubs are progressing favorably, many having passed their second star badge. The Girl Guides are gradually completing their work. A few weeks an interesting report of their progress will be given.

Coburg Troop No. 13.

Jan. 13 had its usual meeting Wednesday evening. The meeting opened with roll call, games and scout work. Miss Hughes of the Girl Guides gave a very interesting programme during the first half.

The members of Coburg street and members of Coburg street, followed by J. S. Flagler. A very pleasant address to the boys, followed by J. S. Flagler. A very pleasant address to the boys, followed by J. S. Flagler.

Next Wednesday Coburg troop will organize a troop of Wolf Cubs under the

AMERICAN COLONEL GIVES FREE ADVICE TO RHEUMATICS

SAYS IT'S SHEER FOLLY FOR ANYONE TO SUFFER THESE DAYS.

Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength to fight off the disease. Ferrero's cure because it builds up because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism.

It is proved right here that Ferrero's does cure. Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrero's. Read his statement: "I couldn't get around without a cane, and then only with difficulty. The Ferrero's took complete control of my limbs.

Suffering was more intense than hardships on the battlefield. "When my doctor had done his best I got Ferrero's. "Then came a quick change. "Ferrero's gave me comfort at once, and then only with difficulty. The Ferrero's took complete control of my muscles.

"I am well today. Ferrero's cured me completely. I can sleep and run like I did forty years ago." Be sensible about your case. If you present medicine is useless give it up. Don't experiment again. Ferrero's is known on all sides to be a cure that never fails. Why not get a supply today. The sooner you begin Ferrero's the quicker you will be cured. Price 50c per box or \$2.50, at all dealers, or direct by mail from The Cataroths, Co., Kingston, Ont.

Leadership of W. Dunlop, who is to be substituted. The Cubs will start at 6:30 and dismiss at 8 o'clock.

Troop No. 15, Centenary Methodist. The troop met Friday evening and went through considerable scout work, getting ready for their entertainment that they propose holding. They were very enthusiastic over it and are practicing some special work. They expect to have a night of regular scout work.

ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach. This is not as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a cesspool and our stomachs are like a toy balloon. We then get that heavy, lumpy feeling in the chest, the sour food, belch gas, or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy a bottle of Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and thereafter, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Salts is a harmless salt and is made from the acid of grapes and lemon juice, combined with sodium and sodium bicarbonate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

To Relieve Catarrh, Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing, and have been told by their doctors to know that this distressing affliction can usually be successfully treated at home by the internal use of medicine. Sufferers have effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of catarrhal deafness, cut out this formula and hand it to them and you will be glad to know that this distressing affliction can usually be successfully treated at home by the internal use of medicine.

Secure from your druggist 1 oz. Parment (Double Strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Parment is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing rumbling, hissing sounds in their ears, should give this recipe a trial.

"SLOAN'S LINIMENT NEVER FAILS ME!"

Any man or woman who keeps it handy will tell you that same thing.

ESPECIALLY those frequently attacked by rheumatic twinges. A counter-irritant, Sloan's Liniment scatters the congestion and penetrates without rubbing to the afflicted part, soon relieving the ache and pain.

Kept handy and used everywhere for relief of rheumatism, neuralgia, sprains, bruises, the result of exposure to weather.

Sloan's Liniment is sold by all druggists, 25c, 50c, \$1.00. Made in Canada.

Sloan's Liniment Keep it handy

work in order to demonstrate what they are doing and what they have learned in scouting so that an scout who can be expected from a Boy Scout. By their games which mean much for their physical development and the parts of scout work in being prepared which is the scout motto.

Several proficiency badges have been awarded during the week. Patrol Leader Stanley Goodwin, son of the Rev. H. A. Goodwin, has now passed his first class and king scout with grade A card. He ranks with the higher scouts and is to be congratulated for his success. Ronald Hart has also passed for his pathfinder badge and is now up for first class. For cyclist badges, Stanley Goodwin, Ronald MacKinnon, Errol Skinner have passed their tests and freshmen's badges.

Errol Skinner and Edwin Gunn have passed. The scouts are showing considerable interest in the drive that is on for their benefit and are ready to do their part whatever it might be to further the scout movement.

The regular meeting of the troop was held on Monday evening, with a large number of scouts and cub present. As usual, the scout games were played at the first part of the evening and these were thoroughly enjoyed by all. After the games, the regular business was transacted. The matter of a sleigh drive was discussed for the next meeting. The church envelopes were given to the scouts for distribution.

After the meeting a few of the scouts remained to help in the decoration of the room for the father and son banquet held on Tuesday evening. The scouts have taken their part in the distribution of envelopes in connection with the scout drive and are looking forward for their labors to be entirely satisfactory.

Mission Troop. The Mission Troop held a meeting Tuesday evening and tenderfoot and second class work was taken up after which games were played. Wednesday evening the troop entertained the congregation of the Mission church with a demonstration of tenderfoot and second class work, which included first aid and signalling. They also showed how scout games are played. Proficiency badges were then presented. Thomas Mowry, Herbert Lee, George Mowry, Aubrey Priest and Kenneth Mowry received freshmen's badges, and V. Hoyt, Donald McLean, Wm. Hoyt, Thomas Kenneth, and George Mowry received tenderfoot and second class badges. Aubrey Priest received missionary's badge; Wm. Hoyt, Signaller Vermer Hoyt and Clarence Hoyt, messengers' badges.

The launching of an independent labor party movement along political lines was decided upon at a meeting of the St. John Trades and Labor Council at a meeting in Oddeflows' building last night. A special meeting will be held on Friday evening at 8 o'clock.

A committee was appointed to wait on the city commissioners for the purpose of having a labor man placed on the school board. A committee was also appointed to deal with the strike among men at Conroy Bay.

F. A. Campbell and George Melvin were elected delegates to the New Brunswick Federation of Labor Conference to be held at Fredericton in March.

How Present Methods of Living Sap the Iron From the Blood---

Causing Weak Nerves and Lack of Physical Strength

Alarming Increase in Iron Deficiency Among Men and Women of Today Leads Physicians to Explain Why They Now Prescribe Organic Iron—Nuxated Iron—To Help Sufferers from Weak, Nervous, Run-Down People by Giving Them More

RED BLOOD STRENGTH, AND ENDURANCE

Nuxated Iron is Now Being Used by Over 3,000,000

That the nervous and physical strain of present day life has produced as never before an alarming deficiency of iron in the blood is the belief of Dr. T. Alphonus Walker, physician of many years' experience and formerly of the British Naval Medical Service, who explains below why iron is absolutely essential to the greatest development of physical and mental power.

Dr. Wallace says: "In every age since the beginning of time people have fallen into certain modes of living harmful to their physical welfare and in each case for Nature, Necessity or Science to provide means that would help build renewed health and strength. Among the ancient course foods and outdoor life helped make rich, red blood to replenish the wasted forces and preserve high standards of health. But this opportunity for building up health is not open to thousands of men and women in civil life today who wear their lives away in iron impoverished foods sap their energy and vitality and make them weak, anemic and all run-down and often unable to do their work."

Unless strength-giving iron can be obtained from the foods we eat it must be supplied in some form that is easily absorbed and assimilated and for this purpose organic iron—which I have used with such successful results that I am absolutely convinced of its effectiveness for helping to build red blood, strength and endurance.

Dr. H. B. Vail, formerly physician in the Baltimore Hospital and as a Medical Examiner, says: "Through my own experience on Hospital Staffs and as a Medical Examiner, I have been astonished at the number of patients who have doctored vainly for various diseases, when in reality their delicate, run-down state was simply the result of lack of iron in the blood, frequently brought on by modern methods of cookery and the strain of the present day high tension life. Time and again I have prescribed organic iron—Nuxated Iron—and surprised patients at the rapidity with which the weakness and general debility was replaced by a renewed feeling of strength and vitality. I took Nuxated Iron myself to build up strength, power and endurance of deli-

cate, nervous, run-down people in two weeks' time in many instances. Manufacturers' Note: Nuxated Iron, which is prescribed and recommended by physicians and which is now being used by over three million people annually, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or user who will refund your money. It is dispensed in this city by Ross Drug Co., S. McFarland, E. Clinton Brown, Wassons Drug Store and all good druggists.

After a serious case of nervous exhaustion, the effects were apparent after a few days and within three weeks it had virtually realized my whole system and put me in a superb physical condition. No matter what other tonics or iron remedies you have used without success—if you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Nuxated Iron will increase the strength of strength and vitality. I took Nuxated Iron myself to build up strength, power and endurance of deli-

Few Drops When Corns Hurt, Pain Stops! Corns Lift Out

Don't let corns ache twice! Lift any corn or callus off with fingers—Here's magic!

No hump! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without any pain. This drug is called freezeone and is a compound of ether discovered by a Cincinnati chemist. Ask at any drug store for a small bottle of freezeone, which will cost but a trifle, but is sufficient to rid you of every corn or callus. It is the most marvelous drug known.

Put a few drops directly upon your tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers. Freezeone doesn't eat out the corns or calluses but shrivels them without any irritation. Women! Keep freezeone on your dresser and apply a few drops whenever a corn begins aching. Pain stops, corn goes!

Freezeone doesn't eat out the corns or calluses but shrivels them without any irritation. Women! Keep freezeone on your dresser and apply a few drops whenever a corn begins aching. Pain stops, corn goes!

Eye Specialist and Medical Author

Report on Wonderful Remedy To Strengthen Eyesight

Say It Strengthens Eyesight 50% in One Week's Time in Many Instances

New York.—Dr. Smith, a well known eye specialist, and Dr. Judkins, a Massachusetts physician and medical author, make the following reports after a thorough test of a popular remedy for the eyes:

Says Dr. Smith: "When my attention was first called to it I was inclined to be skeptical. But it is a rule of mine to give every new treatment a chance to prove its value. Having specialized in eye work for many years I feel qualified to express an intelligent opinion on remedies for the eyes. Since this one has created such a sensation I welcomed the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that some of the results I have accomplished with Bon-Opto not only astonish myself, but also other physicians with whom I have talked about it, and I advise every thoughtful physician to give Bon-Opto the same careful trial I have and there is no doubt in my mind that he will come to the conclusion I have, that it opens the door for the cure of many eye troubles which have heretofore been difficult to cope with. I have had individuals who had worn glasses for years tell me they have dispensed with them through the use of Bon-Opto. In my own practice I have seen it strengthen the eyesight more than 50 per cent. in one week's time. I have also used it with surprising results in cases of work-strained eyes, pink eye, inflamed lids, catarrhal conjunctivitis, smarting, painful, achy, cold, smoke, sun, dust and wind, watery eyes, blurred vision, and, in fact, many other conditions too numerous to mention in this report. A new and striking case that has just been brought to my attention is that of a girl 12 years old. Two prominent eye specialists, after a thorough examination, decided, according to her father, that in order to save the sight of her right eye, the left must be removed. While awaiting an opportunity for the operation and still undecided as to its wisdom, her father was told it would do no harm to use Bon-Opto. In read even line print without glasses, less than three days a marked improvement was noticed. At the end of a week

the inflammation had almost disappeared, and at the end of six weeks the eye was pronounced cured. Just think, what the saying of that eye means to this little girl! Another case is that of a lady 90 years old. She came to me with dual vision and extreme inflammation of the lids and the conjunctiva was almost raw. After two weeks' use of Bon-Opto the lids were absolutely normal and her eyes are as bright as many a girl of 16."

Dr. Judkins, Massachusetts physician and medical author, formerly chief of clinics in the Union General Hospital, Boston, Mass., and formerly house surgeon at the New England Eye and Ear Infirmary of Portland, Maine, says: "I have found oculists too prone to operate and opticians too willing to prescribe glasses, while neglecting the simple formulae which form the basis of Bon-Opto, which in my opinion, is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eyesight will soon make eye-glasses old-fashioned and the use of Bon-Opto as common as that of the tooth brush. I am thoroughly convinced from my experience with it that Bon-Opto will strengthen the eyesight at least 50 per cent. in one week's time in many instances."

Weakness of eye strain and other eye ailments and many who wear glasses will be glad to know that according to the above article was submitted. "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or misuse of glasses. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family."

Bon-Opto referred to is not a patent medicine or a secret remedy. It is an ethical preparation, the formulae being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time in many instances or refund the money. It is dispensed under guaranty by all good druggists in this city including Wassons Drug Store.

worked, tired eyes which induced fierce headaches. I have worn glasses for several years. I don't think what the work, and without them I could not close my own name on an envelope or the work I am doing in the machine before me. I can do both now and have discarded my long-distance glasses altogether. I can now read the lettering leaves on the trees across the street now, which for several years have looked like a dim mist to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited in this easy manner. Go to any drug store and get a bottle of Bon-Opto tablets. Dissolve one tablet in a fourth of a glass of water and use from two to four times per day. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little, it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time. NOTE: Another prominent physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or misuse of glasses. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family."

THIRTY TONGUES AND DIALECTS

Are Spoken in Montreal—Interesting Article on Ethnic Type in Big City.

(Montreal Gazette.) Every big city on this continent has its ethnic groups, which live and work and segregate themselves from the general population.

They have been invited. They were asked to do the coarse work, the spade work of a new continent, which was to offer a higher ideal of life.

They built the railways and the drains, and laid out the streets, and were the couriers of a better civilization than Europe could show.

They have multiplied. They have brought with them—many of them—the sordid ideals of Europe. They wear the poignard and the stiletto under their coats—many of them. They are mercurial and hectic; they are full of the passions of Southern Europe, and the tropical parts of the great Asiatic continent.

And it was found that during the war many of them conspired to aid the tyrannous power which was aiming to make the world the slave of a single arrogant power.

On the other hand, many are peaceable and industrious, and ask only to work out their destiny unhindered.

These ethnic groups are seen to advantage at the public markets. The latter, in all parts of the city, are crowded by the women folk looking for cheap meats and so forth. They are worth looking at. Bright with color, unsupplied by corsets, they are buxom and "sonsy" to look at. They chaffer and bargain and examine what is offered for sale, with a knowing air. And when they have obtained a bargain, they carry that bargain home—in many cases, for miles, for the ethnic groups live, many of them, in the newer parts of the city, where they are busy making replicas of the slums in the centre and down-town districts.

It is not the "foreign" women who paint and powder, unless one of their number should go to the house of the Scarlet Woman. They are natural. They wear several petticoats, one would say, judging by the bulk they present; but when their colored dresses are freshly washed, they are wonderfully attractive. Some of the Italian women are singularly beautiful, with the satin skin, the dark, deep and intense eyes, which know the language of love as that is expressed in Sunny Italy. The Asiatic women are beautiful, too—many of them—but are more passive, and cold, one would say, than the Italian women.

These people, disinherited by the superior cunning of the classes in all lands, have been overjoyed, when coming to this country, they set eyes for the first time, on land which they could call their own. It is told that in ignominious instances the happy and grateful people have knelt down and kissed the soil with joy and pride and thankfulness.

It is, however, in a great cosmopolitan city like Montreal that the ethnic groups are most vivid and picturesque. They express, in their environment, little bits of Europe and Asia. Not the most desirable bits, you may say; but they are a splash of color into the drab life of the city, which, in the main, is too busy making dollars to care for the picturesque.

There are thirty tongues and dialects in Montreal. Each group confessing a foreign tongue has its own world in microcosm. No one has asked any questions. No authority has demanded that the children of the foreign groups should go to a common school and learn the tongue of the majority with whom they will have to live out their lives. No one has taught them to be clean, or moral, or religious. The quarters of the foreign elements reek. They are, at the same time, colorful to a degree; nor need the artist, seeking for material for his canvas, ever suffer from a paucity in that regard.

The women wear bright colored handkerchiefs round their heads, with highly colored skirts. One notes the lustrous black eye where passion slumbers; the skin is swarthy; the hair is black as coal; there is tenseness which might wake up and lift the dagger and plunge it into the heart for an unlawful look, for an amour which the priest could not sanction.

Again—from Arabia one notes the sleepy eye, the fair skin, the slow movements; the passivity which explains a handful of white people controlling 400,000,000 souls.

The tenements are crowded; the door steps are littered with juvenile humanity. In summer the windows are filled, the feet pass from window to window; life is vivid and tense and blinding with color. The grass beads are round the neck; the drooping ear-rings are in the ear; the lustrous glance is full of meaning.

They lead their own lives. They distrust authority; and when the silent night is stabbed with the shrieks of "murder—as frequently happens—no creature has seen anything, nor is justice ever satisfied.

But this it is which makes Montreal so attractive—the racial diversity which marks it. At the same time, those in authority should give thought to the problems these ethnic groups are presenting. The adults will not be changed. They will perpetuate their customs, their tongue, their traditions in the new land and by so doing—hurt it. What about the children? We have no public schools, as in the United States, which would form a great melting pot from which a single type would be educated in time. The children will be separated from the general population. There will still be bits of Europe and Asia manifesting themselves on the English-speaking continent.

Strange, that these large and important elements should be neglected. They could be made wholesome factors in the development of the city. Left to themselves, we have the Black Hand; the "Tongs," which are always ominous; the amplified danger against the background of night; but, above all, the perpetuation of ideals of life and outlook which we could call degrading.

These ethnic groups will follow the city's extension and pre-empt much that might have been saved to beauty. Let there be picturesque; but do not stint soap nor the Ten Commandments.

Financial Standing. "Why do you flourish money so ostentatiously?" asked the friendly guest. "I'm going to order a porterhouse steak," replied the host. "I don't want to wait for the hotel to make inquiries to see whether I am able to afford it."—Washington Star.

Four Good Reasons for a National Forward Movement

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth on Him should not perish but have everlasting life."

DESPITE the four years' fury of War, and the year of uncertainty just ended, the people of Canada have prospered. Yet, spiritual glories revealed to us in the great Conflict are being clouded by drifts of class-hostility, mutual suspicion and cynical materialism.

The world is troubled. Old conceptions are giving place to new. Yet, the Kingdom of God remains, firmly grounded on the great principle of love. It has the one remedy for a world diseased:—"Believe on the Lord Jesus Christ and thou shalt be saved."

Five Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—call their various constituencies and the whole nation to a livelier and more sacrificial Christianity. They are making a great financial appeal. It is fitting that the public should know the reasons.

1 The Decline of the Dollar

The sharp rise in prices the world over has affected injuriously the position of every man working for a fixed salary. Missionaries are in this category. Stipends that were ample in 1900, and nearly adequate in 1912, are utterly insufficient in 1920. There has been no general increase in these stipends. There cannot be, until the Canadian people scale-up their giving to balance the decline in purchasing-power of the Canadian dollar.

International exchange has been unstable. Money for export has been subject to heavy discounts. In view also of the increased cost of materials and of labor, any new building programme abroad has been out of the question. But the need for new buildings is imperative. Some missionaries are living in clay-floored huts.

New Standards are Necessary

The Anglican Synods, the Baptist Conventions, the Congregational Union, the Methodist Conferences, and the Presbyterian General Assembly, have set new standards for the salaries of clergymen actively engaged in Canada. But, for the Missionaries, and for the Superannuated Ministers, no increases have been possible.

One of the aims of the Forward Movement is to show the fine-spirited, generous, Christian people of Canada that the old standards of giving for Missions must be revised. It is impossible to maintain existing stations, even on a pre-war basis, without more men and much more revenue.

2 The Call from Abroad

Coincident with this financial difficulty, new and glorious opportunities for the extension of Christian teaching have appeared. In India, literally millions of "outcastes" are pleading for Missionary preachers and doctors. In China, a new National spirit has been born. Missionary teachers are urgently required to help formulate the National system of education. Hospitals, Missionary nurses, doctors and dentists, are heartily welcomed by the people. From Japan, Africa and the Islands of the Sea, comes the same story.

3 The Home Responsibility

Here in Canada, the work of evangelizing Indians and Eskimos must now be undertaken wholly by the Canadian Church. The rapid growth of our cities, the expansion of the West, the great immigration of the last twenty years, and the depopulation of rural areas, make a four-fold problem which can be solved only by radical readjustments of policy and greatly increased resources of men and money.

4 The Pressure on the Colleges

Finally, the decline of the dollar has created difficulties in financing the Colleges and Universities established and maintained for the training of the Clergy. Last year, one College which had been able before the War barely to subsist, faced an additional charge for coal alone of \$1600. All other expenditures have risen in like proportion. Christianity has been the mother of Higher Education. A thoroughly trained Ministry is the great need of the times.

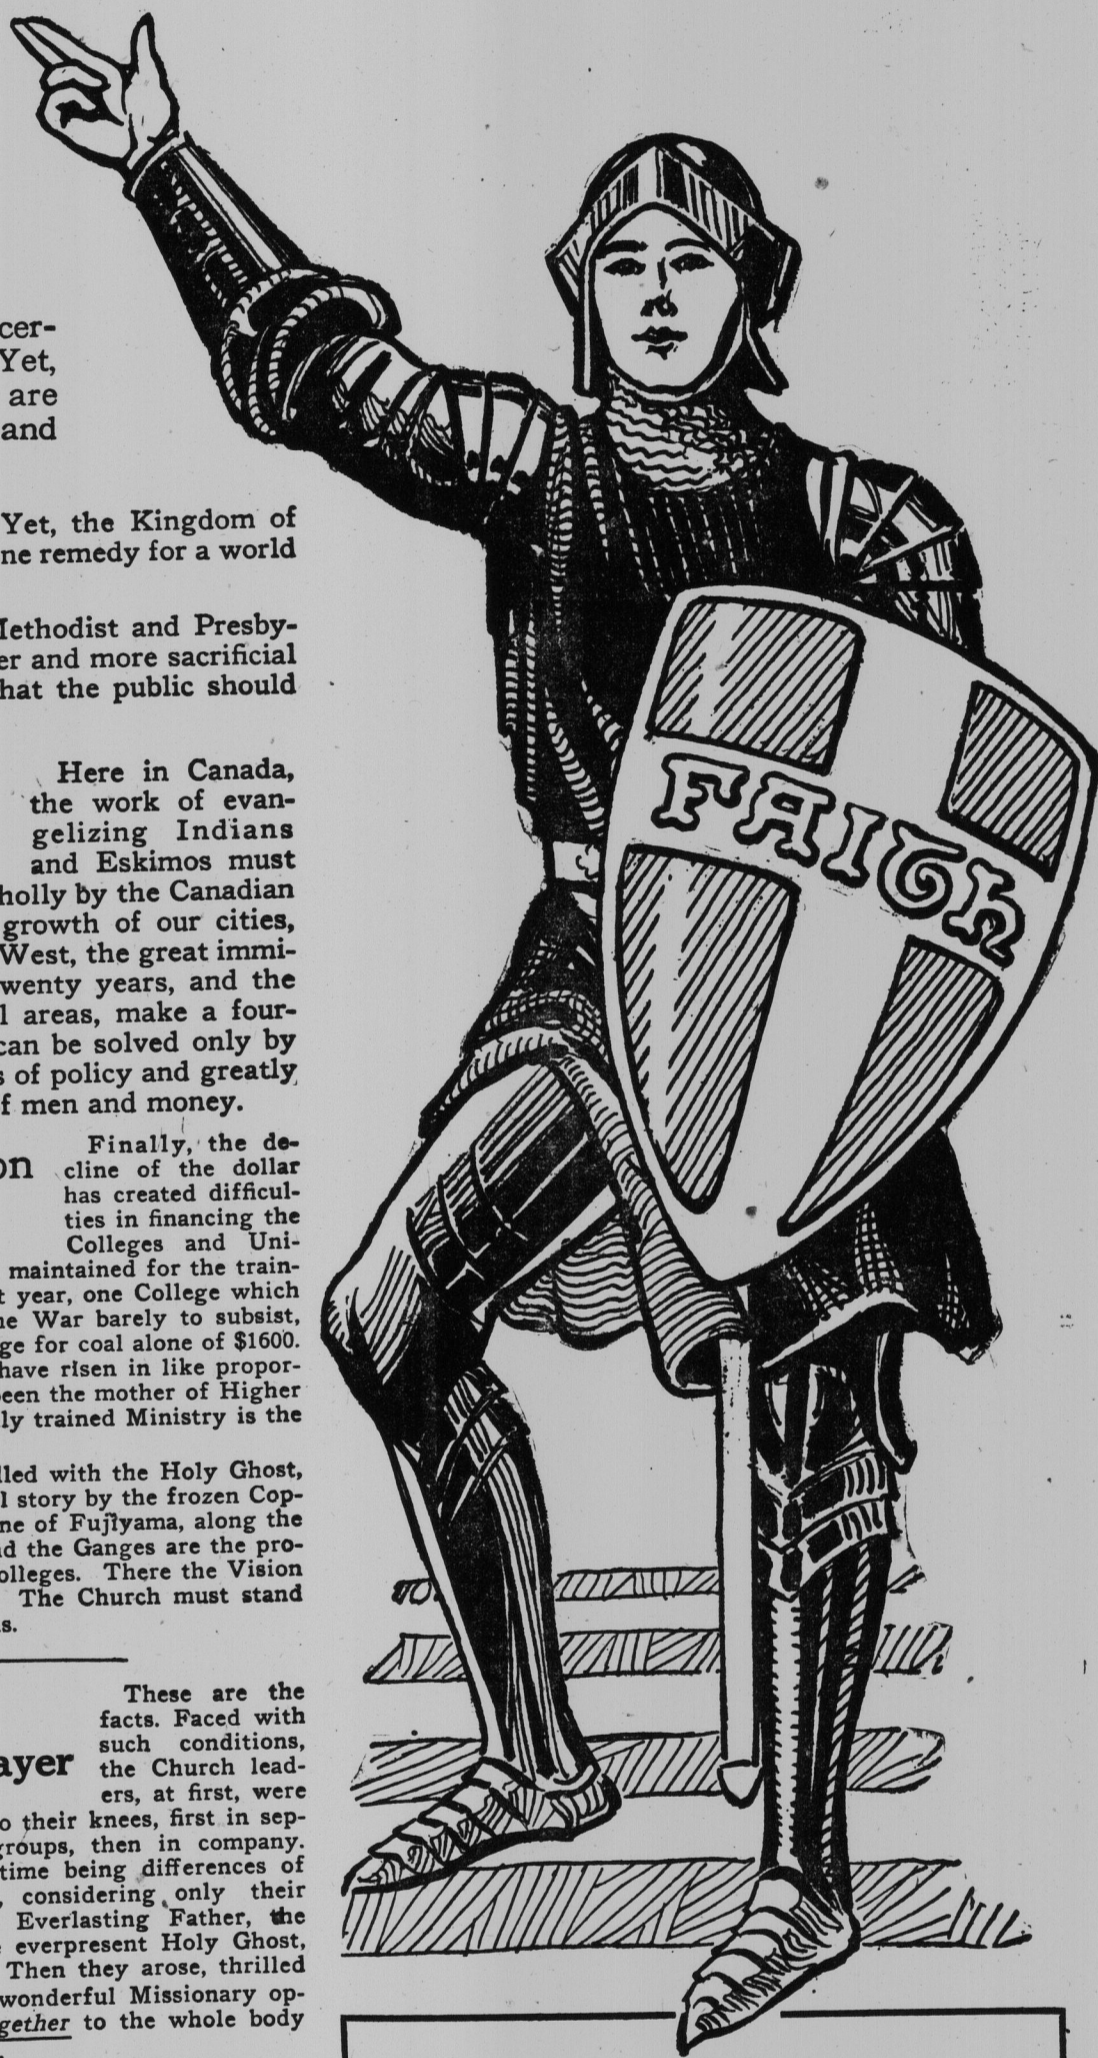

The Unity of Faith and Prayer

These are the facts. Faced with such conditions, the Church leaders, at first, were appalled. They went to their knees, first in separate denominational groups, then in company. Putting aside for the time being differences of religious temperament, considering only their common belief in the Everlasting Father, the Almighty Son, and the everpresent Holy Ghost, they prayed together. Then they arose, thrilled with a glimpse of the wonderful Missionary opportunity, to appeal together to the whole body of Christians in Canada.

The Greatest of All Gifts

You are a believer in the Lord Jesus Christ, and in the Gospel He proclaimed. Your country has become great through Christianity. The hope and love of the Gospel have warmed your heart and illumined your life.

Next week you will be asked by the representatives of your Church to show practical proof of your convictions. Be prepared—not to give a trifle out of your abundance, but to taste the full sweetness of Sacrifice.

MANILA LOSES ITS EXHIBITION BUILDINGS

(Associated Press Despatch.) Manila, P. I., Feb. 6.—Damage to the amount of one million dollars was caused here last night when fire destroyed half the buildings of the Philippine Carnival Exposition and the Island Exhibition they contained. Many of the exhibits were irreplaceable and the loss is serious.

Thousands of visitors on the ground became excited when the fire started and sixteen persons were injured. Federal troops assisted in restoring order and are credited with having saved hundreds of lives.

JUVENILE COURT HAS PLENTY TO DO

A total of 1,716 cases were heard before the Juvenile Court during the year that has just elapsed, made up of 1,287 boys and 429 girls, 204 of the former and 66 of the latter in excess of the preceding year. These charges cover a wide range of offenses, as follows: theft, 216; incorrigible, 192; vagrancy, 159; desertion, 148; several charges of house and shop-breaking; burglary and arson; three of forgery; a few resisting police officers, selling papers without license; sending threatening letters; getting intoxicated, and one attempted suicide. Twenty-four per cent. of these could neither read nor write, and 46 per cent. had no regular schooling or employment. Of the remainder, 27 attended school, 242 were employed in factories, 27 worked in stores or offices, 69 were messengers, vendors or drivers, 86 were domestics.

SAVE A MINUTE CLUB

London Daily Chronicle.—As an antidote to ex-cavany, which is no longer, if it ever was, countenanced by reputable trade unionists, the "Save a Minute Club" which has been established in a large works in the North of England seems worthy of imitation. All the employees are members, and a weekly prize is given for the best 100-word letter telling how the writer has saved a minute in the execution of his or her job. Time being money, it has just about doubled in value, and a minute saved may make a big difference in output.

FINE ADDRESS ON NAVY'S WORK

The work of the silent navy during the war and a comparison of the British Navy of today with that of olden times, was the subject of an interesting and instructive lecture delivered at the assembly last evening by Commander H. E. Holme, who is in charge of H. M. C. S. Niobe at Halifax. Commander Holme explained that there were still several phases of the navy's work that he was not permitted to discuss but as the result of his lecture the army officers present had a much more thorough understanding of the co-operation that existed between the army and navy during the war than they had been able to obtain before. Brigadier-General A. H. Macdonell, C. M.G., D.S.O., presided and, in introducing

Commander Holme, he explained that this officer had been with the Royal Navy since 1891, and since 1914 had been with the Royal Canadian Navy, in charge of the Niobe. He had come from Halifax at the invitation of the general to lecture here.

Commander Holme, in his introduction, said that the best beginning for his lecture would be a description of the functions which Lord Jellicoe attributed to the navy. They were four in number: (1) To ensure for British ships the unimpeded use of the sea, this being vital to the existence of an island nation, particularly one which is not self-supporting in regard to food; (2) In the event of war, to bring steady economic pressure to bear on our adversary by denying to him the use of the sea, thus compelling him to accept peace; (3) to cover the passage of and assist any army

sent overseas and to protect the communication and supplies; (4) to prevent invasion of this country and its overseas dominions by enemy force.

MAY CLOSE DOWN. Hamilton, Feb. 6.—The Hamilton Bridge Works Company may have to close its plants owing to the adverse exchange situation, according to W. B. Champ, president of the company. Mr. Champ said today that the cost of the material which the company buys in the United States is almost prohibitive with the high exchange rate added. Other local firms are also being hard hit by the rate of exchange.

Labor Future In The Motherland Still Shrouded In Doubt

What Trades Unionist Has to Say About Prohibition

French General Attacks Lord French About Situation Before First Battle of Marne — Fusiliers, Rangers and Worcesters in Melee in Dover Street — Outstanding Bits From Life in Metropolis of Empire.

(From Our Own Correspondent.)
London, Jan. 15.—This week I met one of the genuine old trade unionist leaders, a thoroughly sound labor man who is actively in the movement. He was in a very much disgruntled and decidedly pessimistic mood. He protested that he could not tell me what was likely to happen in the labor world. The extreme section in the unions was resolutely bent on trouble, and he really did not know how things would work out. When I asked him what the extremists wanted, he said: "Henderson said what they want plainly enough at the inaugural meeting of the nationalization campaign."

In London last December, the nationalization of all essential industries and a new social order; or other words—a "revolution." I suggested that the parliamentary interests with the by-elections going so hopefully for labor, might keep the extremists quiet. Not a bit of it," he said. "They tell you openly that they don't care a rap about general elections. They can get all they want without parliament. It seems the great scheme now of the extreme labor high-brows is to make things so impossible that they force the government to accept their chief desideratum—the elimination of private profit. Their plan of campaign includes a general strike about the time parliament meets again."

CURED HIS PILES

Now 88 Years Old but Works at Trade of Blacksmith and Feels Younger Since Piles are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for treating piles.

Mr. Jacob Lyon, Homer, Mich.
I wish that you could hear him tell of his many experiences with piles. He has tried salves, dilators, etc., before he tried my method. Here is a letter just received from him:
Mr. E. R. Page, Marshall, Mich.
Dear Sir: I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.
Yours truly,
J. L. LYON.

There are thousands of afflicted people suffering with piles who have never yet tried the one sensible way of treating them.
Don't be cut. Don't waste money on foolish salves, ointments, dilators, etc., but send today for a Free Trial of my internal method for the healing of Piles. No matter whether your case is of long standing or recent development—whether it is occasional or permanent—you should send for this free trial treatment.
No matter where you live—no matter what your age or occupation—if you are troubled with piles, my method will relieve you promptly.
This liberal offer of free treatment is too important for you to neglect a single day. Write now. Send no money. Simply mail the coupon—but do this now—TODAY.

"KILL-JOYS"

Constipation, Headache, Colds, Biliousness ended with "Cascarets"

Nothing takes the joy out of life quicker than a disorder of the waste-clogged bowels. Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest, laxative-cathartic you ever experienced? Cascarets never gripes, sickens or inconveniences one like Salts, Oil, Colman or harsh pills. They work while you sleep.

CATARRH COLDS BRONCHITIS CURED WITHOUT DRUGS

It is really impossible to treat Catarrh, unless by inhaling the soothing germ-killing vapor of Catarrhosol. Its rich fragrant essences are breathed from the inhaler to every sore, discolored spot in the breathing organs. Not a single germ can escape the healing action of Catarrhosol, which acts on the inflamed linings of the nose and throat. Just a few drops would act on a cut finger. You see Catarrhosol is a simple wonder cure. It cannot fail to reach and cure Catarrh of the nose, throat, bronchitis, cough, deafness, buzzing ears, and all other symptoms of Catarrhal cold.

Get Catarrhosol today. Complete outfit costs \$1.00 and is sufficient for three months' use. Smaller size, 50¢, all dealers or the Catarrhosol Co., Kingston, Ont., Canada.

tang of deep-sea with which moves the gallant admiral, in his latest letter, to describe the present House of Commons as "the blindest, richest, effectest we ever had."

Anyone who wants to understand the real psychology of the amazing admiral should have a look at Epstein's bust of him at the War Memorial Exhibition. It is a great masterpiece in sculptured epitaph of sheer genius and splendid egotism. As a work of art and as a portrait of human nature it is quite in the same gallery as the busts of the famous old Roman consuls in the British Museum. And none of these busts show the feet of clay.

Buying for Germany.
The following facts have just been made first-hand. Recently a Nottingham traveler called on a big Bradford cloth house, inspected the stock, was told the high prices, and quietly offered to purchase the entire lot at 100 per cent more than the price asked. The firm refused. They said it was impossible for them to do business in that way. "Look at the profit you will make," said the traveler. "That's true enough," was the reply, "but we cannot disappoint old clients, and, in the long run, it wouldn't pay to do so." Eventually the traveler left, after buying a large part of the firm's stock, at a very big price. He was buying for Germany. That is one very arresting illustration of how prices are forced up, and kept up, in this country just now.

Among the signatories to a petition in favor of conferring an honorary medical degree upon Mr. Barker, famous blood-cure surgeon, are the names of 800 members of parliament. But it is not even now certain whether the susceptibilities of the orthodox practitioners will be overcome to the extent of accepting Mr. Barker as kamarrad. The celebrated manipulative surgeon can afford to do without the degree one would think, and he has an immense clientele, and his income in Park Lane are always crowded. He has in his time performed some miracles on very well-known and distinguished people, and among his patients a famous professional football player, who had wrenched his knee, and was said to be most unwell, an operation which would render any further football out of the question, to turn out in a cup final a week or two later. Mr. Barker is a Lancashire man, son of a former county coachman, and almost as strong as Sandow.

The Worcesters.
A street melee at Dover between soldiers of the Royal Irish Fusiliers, the Connaught Rangers, and the Worcesters, all line regiments, was a very notable record before and since 1914, suggests that the old spirit of the regular army still survives. There have always been

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-LIVES"

MR. AMEDER GARCEAU
32 Hickory St., Ottawa, Ont.
"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.
I tried many remedies and was under the care of a physician, but nothing did me any good. Then I began to take 'Fruit-a-lives' and in a week I was able to get up and in six weeks I was well. I went to work again.
I look upon this fruit medicine, 'Fruit-a-lives,' as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-lives' a trial."
A. M. GARCEAU.
50c. a box, 4 for \$2.00, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

The Dancing Partner.
Those hostesses who have adopted the popular habit of inviting "Miss — and Dancing Partner," thus saving themselves the trouble of inviting half their guests and providing the necessary "men," are experiencing a social setback. The nicest girls are refusing this form of invitation. The nicest hostesses never adopted it.

And So It Passes.
Hanover square, the Mayfair of London in the eighteenth century, has suffered the fate of all residential areas and become commercialized. The process is almost completed by the sale of a corner site for half a million pounds, and the last vestige of the aristocratic tradition is St. George's church, where fashionable weddings still take place. Here Emma Harte married Sir William Hamilton and

assumed the name and title of Emma Lady Hamilton, Nelson's "Emma." The square was built a few years ago and built in the name and architecture of the Londoners' worship of the new monarch, George V. Hanover House 100 years ago housed the finest collection of old china in London made by "Beau" Ladbroke, the elder brother of Lord Ladbroke, whom Kalkreuth in his "Journal" describes as a "handsome man inclined to be fat, which gave him a considerable resemblance to George, Prince of Wales." Admiral Lord Rodney was another distinguished resident, and when his daughter eloped to Gretina Green he philosophically remarked, "It's odd that my own family is the only crew I never could manage, and I only hope Jessy will never marry under her new command."

Trying It on the Boy.
It appears that hairdressing will be one of the last of our industries to forego the apprenticeship system. You cannot learn to cut hair, either with scissors or a razor, at an L. C. C. night class. But my barber today told me the old five-years' apprenticeship even in hairdressing has practically gone. The would-be artist nowadays pays a small premium to some established practitioner, and for six months or so works for no wage while learning what he can. The difficulty is to get practice on "the real thing," which is that a treatment opportunity is the small but independent boy, who insists on going alone and unaccompanied by guardian angels to have his hair cut. He is the appointed victim from the hairdressing point of view. His hair is shorn in order that middle-age men may be comfortable and exquisite.

"A Mass of Sores — No Sleep — Unhappy Days"

Write Mrs. Orange Harvey of Danville, Quebec. "I doctored with the doctor's ointment for a long time, but it did not do me any good. I used it for a long time and have been entirely well ever since."
We set out that's better will receive your case of skin disease, too—on our guarantee that if it does not cure you, we will refund your money. Write to D. D. D. Skin Disease Co., 100 St. John St., Montreal, P. Q.

WHOOPIING COUGH

SPASMODIC CROUP, ASTHMA, COLDS, BRONCHITIS, HOARSENESS, CATARRH

Vapo-resolene
A simple, safe and effective treatment avoiding the use of drugs. It is the only remedy for Whooping Cough and relieves Spasmodic Croup. It is also a powerful expectorant and stops the cough. It is suitable for children and is pleasant to use. Write for particulars to D. D. D. Skin Disease Co., 100 St. John St., Montreal, P. Q.

"FREE REMEDY BOOK AND REMEDY COUPON."

Thousands of housewives have found that they can save a great deal of money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Elix (50 cents worth) from any druggist, pour it into a 16-oz bottle and add plain granulated sugar to make 16 ounces. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dryness disappear entirely. Nothing better for bronchitis, spasmodic cough, hoarseness or bronchitis. Write for a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Elix" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Famous Old Recipe for Cough Syrup
Easily and cheaply made at home. Get 2½ ounce bottle from all druggists.

A Pimple Remover That Never Fails

Dr. Hamilton Stands Behind His Formula
Bad blood is always responsible for pimples, blackheads and humors. Pimples, eczema and boils are the common result of impurities in the liver, kidneys, and bowels must receive attention.
My remedy, known as Dr. Hamilton's Pills of Mandrake and Butterick, invariably reaches the trouble.
For putting life into sleepy organs, for forcing out every kind of waste and foreign matter for making healthful, glowing blood, where can you find such efficiency as in Dr. Hamilton's Pills?
In a thousand cases I have demonstrated that Dr. Hamilton's Pills cure facial blemishes and skin diseases.
I took upon these pills as the best blood purifier and system builder of the age, and guarantee they will cure every complaint having its origin in a weak or debilitated blood supply.
If Dr. Hamilton's Pills will not cure that tired, run-down condition, if they will not change lack of force into energy and vim, then nothing will.
By creating an abundant supply of rich, nourishing blood they maintain that standard of health so much desired by those participating in the strenuous life we live today.
Get Dr. Hamilton's Pills and prove their merit today, 50¢ per box.

Reckless Doctoring.
Doctor—MARRIAGE, I should like to paint your husband's throat with nitrate of silver.
Protector's Wife—Please use nitrate of gold, doctor, the expense is quite immaterial.

"Cure Your Rupture Like 'Cured Mine'"

Old Sea Captain Cured His Own Rupture After Doctor's Said "Operate or Die!"
His Remedy and Book Sent Free.

Captain Collings sailed the sea for 25 years; then he sustained a double rupture that soon forced him to the hospital, but he refused to be operated on. He tried doctor after doctor, but all failed. He was in a dangerous and agonizing condition, but he refused to be operated on or die. He did not—so cured himself instead.

Follow Men and Women, You Don't Have to Be Cut Up, and You Don't Have to Be Tortured by Trusses.
Captain Collings sailed the sea for 25 years; then he sustained a double rupture that soon forced him to the hospital, but he refused to be operated on. He tried doctor after doctor, but all failed. He was in a dangerous and agonizing condition, but he refused to be operated on or die. He did not—so cured himself instead.

ANOTHER VICTIM OF RHEUMATISM

Entirely Well After Six Weeks' Treatment With "FRUIT-A-LIVES"

MR. AMEDER GARCEAU
32 Hickory St., Ottawa, Ont.
"I was for many years a victim of that terrible disease, Rheumatism. In 1913, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.
I tried many remedies and was under the care of a physician, but nothing did me any good. Then I began to take 'Fruit-a-lives' and in a week I was able to get up and in six weeks I was well. I went to work again.
I look upon this fruit medicine, 'Fruit-a-lives,' as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-lives' a trial."
A. M. GARCEAU.
50c. a box, 4 for \$2.00, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

The Dancing Partner.
Those hostesses who have adopted the popular habit of inviting "Miss — and Dancing Partner," thus saving themselves the trouble of inviting half their guests and providing the necessary "men," are experiencing a social setback. The nicest girls are refusing this form of invitation. The nicest hostesses never adopted it.

And So It Passes.
Hanover square, the Mayfair of London in the eighteenth century, has suffered the fate of all residential areas and become commercialized. The process is almost completed by the sale of a corner site for half a million pounds, and the last vestige of the aristocratic tradition is St. George's church, where fashionable weddings still take place. Here Emma Harte married Sir William Hamilton and

assumed the name and title of Emma Lady Hamilton, Nelson's "Emma." The square was built a few years ago and built in the name and architecture of the Londoners' worship of the new monarch, George V. Hanover House 100 years ago housed the finest collection of old china in London made by "Beau" Ladbroke, the elder brother of Lord Ladbroke, whom Kalkreuth in his "Journal" describes as a "handsome man inclined to be fat, which gave him a considerable resemblance to George, Prince of Wales." Admiral Lord Rodney was another distinguished resident, and when his daughter eloped to Gretina Green he philosophically remarked, "It's odd that my own family is the only crew I never could manage, and I only hope Jessy will never marry under her new command."

Trying It on the Boy.
It appears that hairdressing will be one of the last of our industries to forego the apprenticeship system. You cannot learn to cut hair, either with scissors or a razor, at an L. C. C. night class. But my barber today told me the old five-years' apprenticeship even in hairdressing has practically gone. The would-be artist nowadays pays a small premium to some established practitioner, and for six months or so works for no wage while learning what he can. The difficulty is to get practice on "the real thing," which is that a treatment opportunity is the small but independent boy, who insists on going alone and unaccompanied by guardian angels to have his hair cut. He is the appointed victim from the hairdressing point of view. His hair is shorn in order that middle-age men may be comfortable and exquisite.

EVENING TIMES-STAR, ST. JOHN, N.B.

GUTHRIE WAS ONCE RATED A PACIFIST

Canada's New Minister of Militia Bitterly Opposed Borden's Dreadnought Policy.

BROKE WITH LAURIER On Question of Conscription and Gave Lead to Liberals All Through Canada.

By M. GRATTAN O'LEARY. HON. HUGH GUTHRIE, Canada's Minister of Militia and Defense, is anything but a fire-eating militarist. Indeed, in pre-war days Mr. Guthrie was dangerously near what many war-like people are prone to call a pacifist.

On the naval question, too, his stand denoted a deep-rooted antagonism to war. Few finer speeches were made against Sir R. Borden's policy for the contribution to the war.

Hon. H. Guthrie those delivered by Mr. Guthrie, and invariably they were based upon an antipathy to the policy of armaments and the spirit of war in general.

But for all his strong antipathy to war, there was never a question as to where he stood as soon as hostilities broke out. Like hundreds of other British leaders, who, perhaps had too much faith in humanity, and especially in German humanity, he was on the side of the Empire.

After the dinner came the speeches, and in the course of one of them a guest asked this question: "What great change has taken place during this dinner?"

It was given up. He had to answer his own question; which he did as follows: "When we began, we had a goose stuffed with sage; now, we have finished, we have a sage stuffed with goose."

HAMILTON EDITOR JUMPS INTO CIVIC ARENA AND MAKES GOOD

Mr. Cal. Davis of the Times, Despite What He Knows of Municipal Scrapping, Wades In and Takes a Chance as a Controller.

By JOHN A. SAXON. If a man is to be congratulated on jumping into matrimony, he has done so in the case of the Hamilton editor, who, with full measure of knowledge of the machinations of municipal rule, deliberately enters the arena of public activity.

That sort of thing is not looked for from the wise old journalist. He usually fights shy of such "duties," having had more than his fill of them as an observer and recorder of public happenings.

Editor Davis took to aldermanic duties like a duck takes to water. It was but natural. During his reporting days on the Times—he is now in his fourth decade with that paper—he "covered" the City Hall for years and knows all the ins and outs of civic life as lived under the roof of the James street building.

A PAGE ABOUT PEOPLE
Sidelights on Men and Women in the Public Eye

Leon Bourgeois

president of the National Assembly, who made an address of congratulation to France's President-elect, Doumergue, pledging him the support of the nation. M. Bourgeois also presided at the first meeting of the League of Nations.

not been obstructive. His great fault, it is said, is an intellectual indolence, and, although one of the foremost speakers in the House, his voice is seldom heard. In the old days it was somewhat different. Guthrie was then one of the rising hopes of the unending Grits, one of Sir Wilfrid's favorites, and from the day he entered the House he took a foremost place in its deliberations.

Sir Oliver Lodge Is a Hearty Eater

At Least, He Had That Reputation in His Younger Days.

A GOOD story is told concerning Sir Oliver Lodge, the famous British scientist, now visiting in this country. It appears that in his younger days he was a pretty expert trencherman.

FOUNDERS OF BIG FIVE MEAT TRUST WERE ALL POOR BOYS

The Late Philip Armour Was a Meat-Cutter—Cudahy the Son of a Poor Butcher—J. P. Wilson a Canadian.

A LITTLE back-street shop in Milwaukee in the days before that city of the Middle West of America began to grow up, and a man carefully cutting up legs of pork.

That was the beginning of the great meat trust. The man manipulating the legs of pork for canning was Philip Armour, who from his start as a shop hand built the foundation of the world-wide meat business of Armour and Co., the head concern of the "Big Five" firm—Armour, Swift, Morris, Wilson and Cudahy—who form the "trust."

Mr. Philip Armour transferred his energies to Chicago, and before he died he was the biggest meat millionaire in the world. His son, Mr. J. Ogden Armour, is to-day president of the Armour interests. He was brought into the Chicago packing yards when a boy by his father, and from personal experience he knows as much about meat as any one of the thousands of his employees.

Under him the fortunes of the house have grown ever greater. Last year Mr. Armour is reported to have made a personal income of about \$5,000,000, yet he still goes every day to his office in Chicago by half-past seven in the morning, and does a ten-hour turn at his desk.

LONDON, ONT., HAS ABLE YOUNG MAYOR

E. S. Little Proposes City Will Pay University Fees of Poor But Promising Students.

A LEADER IN BUSINESS EDGAR SYDNEY LITTLE, wholesaler and manufacturer, finds himself at thirty-four years of age, Mayor of London, Ontario, a city of sixty thousand.

E. S. Little

London. But when he gets into action, the observer notes a keen, cool, polite, yet firm man of business. This chief magistrate of the Forest City is bred for the duties with which he has been entrusted.

KINGSTON HAS GREAT PHILOSOPHY TEACHER

By G. W. ONE of the oldest players of the Kingston Curling Club is Dr. John Watson, the eminent professor of moral philosophy in Queen's University, Kingston.

Dr. Watson will be seventy-three years of age on the 25th of February, he is most active and still an expert in the playing of lawn bowling, golf, and curling, excelling in these Scotch pastimes as well as in his lifelong philosophy.

DID THE CZARINA KILL KITCHENER?

Canadian Officer Who Handled Wireless From Russia Thinks She Did.

By JOHN LIGHT. THIS "NT" press dispatch from Paris, which made the daring announcement that the late Lord Kitchener had been lured to his doom by the influence of a Russian woman, has been met with a certain amount of scepticism by the British public.

It is a matter of regret that the British Government do not publish the findings of the enquiry into the loss of the Hampshire. Mr. Kitchener was on several occasions raised this question in the British House of Commons but the Government have on each occasion stated that it is not advisable to discuss the public interest in the case.

Mr. and Mrs. Richard Croker at their Palm Beach Home

Photo at left shows Mr. and Mrs. Richard Croker on the steps of their Palm Beach (Florida) home. The picture at right shows the tomb built by the former Tammany Hall leader at West Palm Beach. It takes a political boss to have foresight.

ADMIRAL PIKA COMMANDER-IN-CHIEF OF THE ESTHONIAN NAVY

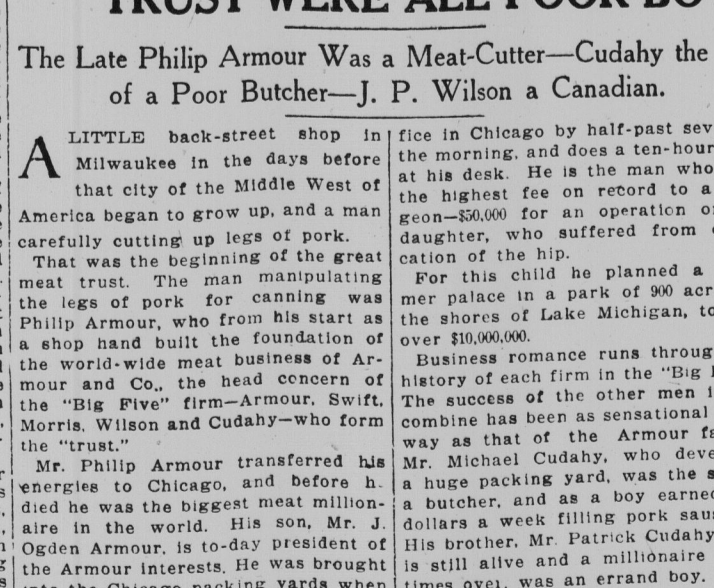

His fleet of ten vessels in all, including four converted steamers and three gunboats, was started by transforming a war vessel from a derelict German ship, which was manned by boys. The fleet has to its credit the capture of a German submarine off Riga.

BOLSHIEVICK GIRL EXECUTIONER OF 400 RUSSIAN OFFICERS

THIS demure young lady is Terribil Dora Ilyinsky, who though only 17 years old is believed to be the champion executioner of the world. She is executioner of the Extraordinary Commission of Odesa, Russia, and has slain 400 officers of the anti-Bolshevik forces who have fallen into the hands of the Reds with her own hands.

MARY ANN: LIKE DOING THE CRUMBS FOR THE BREAD SAUCE; IT MAKES UP WITH MILLIONS

MARY ANN: Like doing the crumbs for the bread sauce; it makes up with millions. The fact remains that shortly before the sinking of H.M.S. Hampshire German mine-laying submarines had been detected in the neighborhood of the Orkneys by British destroyers.

NOTICE
By petition of the Pharmaceutical Council of the New Brunswick Pharmaceutical Society, a Bill will be presented at the next session of the Legislature of the Province of New Brunswick, providing for the amendment of Chapter 24 of the Consolidated Statutes of New Brunswick, 1903, as amended. The nature and objects of the Bill are: to increase the fees to \$10.00 on application, to \$5.00 on re-examination, and to \$10.00 on registration; to provide for life membership of retired members; to increase present penalties, and provide new ones for violations; that all persons applying for registration must pass final examination; that incorporated Companies shall be bound by the Act and amendments, except in certain cases; that branch drug stores shall be in the immediate charge and under the bona fide conduct of a chemist registered under the Act, who must notify the Registrar of the opening of such branch store; and other minor amendments. Dated this sixth day of February, A. D. 1920.
H. O. McINERNEY, Solicitor for Applicants.

THEFTS OF PLATINUM

Enormous thefts of platinum, accounted for by the present standards of value as more precious than gold, are being reported from the chemical laboratories and manufacturing plants of the United States. The stealing of \$50,000 worth of the valuable metal from the plant of a large New Jersey chemical firm a few days ago has been followed by many other losses. The situation is so serious as to cause warnings and notices to be distributed throughout the country. Members of the American Chemical Society, through the various sections, have been informed of the wholesale thefts and descriptions of the stolen articles made of platinum are being forwarded to the secretaries of the sections of the organization with requests to keep a sharp lookout for all platinum peddlers. It is announced in the current number of the Journal of Industrial and Engineering Chemistry that the vault of the Department of Agricultural Chemistry at the University of Missouri was entered and the entire stock of platinum crucibles, amounting to 2,500 grams in weight, had been stolen. Other university laboratories have had the same bitter experience. Aside from its growing use by jewelers for rings and settings for diamonds and other precious stones, platinum is essential to many chemical tests and processes and is therefore high in price.

WORK FOR ALL

That there is abundant work for all hands, and that all should work with the greatest possible intensity, is contended by the Canadian Bank of Commerce Monthly Commercial Letter, which, reviewing present conditions in Canada, says: "Reviews of business conditions by recognized authorities indicate unanimity of opinion as to the necessity of a greater volume of production from our own raw materials in order that the prosperity which we are enjoying today may continue. It is also evident from these reviews that there is abundant work for all available hands, and that any complaints of lack of work in the forests and mines, but the demand for factory help remains insistent. It would thus appear that the new year opens auspiciously. The people as a whole, despite the extravagant purchasing of luxuries are increasing their savings. Deposits in banks, the number of new insurance policies issued, purchases of securities, payments of taxes and of bills, all show a marked increase. Capital is still being expended in adding to the productive machinery which was lifted to a higher standard of efficiency under the inspiration of war effort. Mining prospects are being more intelligently explored, and agriculture and animal

Attention of Storekeepers, Merchants and others having Waste Paper will pay a reasonable price and make systematic collection. Write or phone CAR-RTITE, 89 Water St., City. PHONE M. 3508.

WINDSOR CHAPTER DANCE.

The Windsor chapter of the I. O. O. F., gave the first public entertainment in the new Masonic hall in West St. John since its formal opening of a week ago, when it held a most successful and joyous dance in the hall last night. Long before the date fixed for the dance all of the tickets had been sold and the chapter was assured that the dance would be a financial success. It was also a very delightful social function. The music and the floor were both calculated to please the most particular of dancers, and the dainty refreshments were served under the direction of a most efficient committee. Miss Gertrude Lawson, the regent of the chapter, was the convener for the dance, and was assisted in receiving the guests by Mrs. W. L. Fenton and Mrs. Arthur Coster, who were the chaperones. The other members of the committee in charge were Miss M. Dunham, Miss Beatrice Cameron, Mrs. A. Smith, Miss Maud Cunningham and Miss W. Lemon. The music was in charge of Miss Kinnaman.

A fire broke out last night in the grocery store of B. Goodman, 647 Main street. A still alarm was rung in owing to the fact that the fire alarm was out of order. The fire started between the wall of the grocery store and the adjoining house. There was very little damage although it was necessary to cut away the stairs of the house and the ceiling in the grocery store in order to reach the seat of the fire.

City Homes and Business Sites

Suburban Homes

Desirable freehold, situated on one of the best residential streets, brick, lower floor furnace heated, separate entrances, good yard, moderate price, 50 p.c. on mortgage, possibly more, for a quick sale, before other arrangements are made.

Two desirable properties, one on Clarence street, with three family house, large lot and large new barn on the rear, with driveway on the side. Shows a good revenue. Just the property for a person requiring barnroom, with yard accommodation, at the rear of his house.

Mecklenburg street, freehold, 80x225, with the same frontage on Duke street, with large residence.

Paddock street, two family up-to-date. Self contained freehold, 50x170, hot water heating, situated in Carleton, a bargain.

Harrison street, 3 family, in first class repair, rents well. A vacant lot in the rear that can be secured at a reasonable price.

Brussels street, extending to Exmouth street, 2 families and store. 2 self contained houses, freehold lot, 40x150, hot water furnace, modern in every respect, will sell on easy terms; well located.

Metcalfe street, 2 families. Paradise row. For an investment this property can't be beat. The location is good.

Murray street, 2 family, large yard.

Some Streets on Which Some of My Other Properties are Situated

Wentworth street, Germain street, Metal street, Wellington Row, Paddock street, Peter street, Waterloo street, Brussels street, Union street, Dorchester street, Peel street, St. James street, Mecklenburg street, Charlotte street, Wentworth street, Pitt street, Mount Pleasant, Leinster street, De Monts street W. E., Clarence street, St. Patrick street, Water street.

Several Other Side Streets and Out-of-Town Property

Fair Vale, Hampton, Musquash, Sussex, Glen Falls, East St. John and several other suburbs. Will Sell You a Property on Almost Any Street in St. John.

IF YOU PURCHASE A PROPERTY FROM ME, AND I PROMISE POSSESSION, I GUARANTEE YOUR SECURING POSSESSION MAY 1ST, 1920.

Desirable Property in the Wright St. Section

Known as the Seely property, the corner of Goodrich street, with a large frontage on both streets, Wenona avenue on the rear, entering from Goodrich, 50 feet wide. Great possibilities, with a large old fashioned residence, situated in the right location, so that it is possible to sell 3 or 4 building lots in addition to the large lot which you retain when the old house as a residence. Other properties just as well located as this.

I will sell you a lot, any location, also the lumber, if necessary, will erect the house, and will furnish you with a loan if required and insure the property when completed. Let me know your requirements, and I will endeavor to meet them.

A few properties left which I can sell you on easy terms and also some that I can sell you on a monthly payment plan. An opportunity that may never be offered to you again.

Somewhere there is someone who wants just such property as you have for sale. Somewhere there is a property that will just suit you, either to buy or to rent, I may have that property, let me know your requirements.

BUSINESS SITES.

Situated on Water street, near the ferry, two story brick building extending halfway through to Prince William, size 55x45, a most desirable property for light manufacturing, and has two stores, with cellars. This property is excellent value at the price.

If you have holdings in any part of Canada, and wish advice, consult me.

W. E. A. LAWTON 93 Prince William Street

WOOL PRICES HIGHER.

Prediction of After-War Slump Not Justified.

Toronto, Feb. 6.-Instead of there having been a slump in wool prices after the war, as had been predicted, prices of both wool and mutton had shown a tendency to strengthen, so President W. A. Dryden of the Canadian Sheep Breeders' Association, said in his address at the annual meeting of the association here. Some authorities, he added, predicted that as a result of the wastage which had occurred during the war, prices of wool and mutton could not decline for some time to come.

President Dryden said there should not be even an imaginary line between Canada and the United States so far as pure-bred animals were concerned. "Breeders on both sides of the line," he said, "should have absolute freedom, both in buying and selling, the continent over."

The association went on record in favor of having all sheep bred in Canada and sold as purebreds, registered in American registers, and Canadian breeders buying this stock had had difficulty in securing Canadian registration.

A resolution was passed declaring that millfeeds had been reduced in quality, that the legal definition of feeds was not sufficiently clear, and that many of these feeds contain injurious weeds. It was, therefore, asked that all classes of millfeeds be clearly defined and that the enforcement of the law be in the hands of the department of agriculture.

BRADLEY'S CAT DICK KILLED. Palm Beach, Fla., Feb. 6.-John H. Bradley's well-known tom cat, "Dick," died in a fight with a skunk last night and was buried today on the beach club property, where he had stood watch for ten years. Mr. Bradley said today he would like to receive suggestions from some of Dick's old friends of a fitting inscription to place on his tombstone. Owing to his beach club connections he is believed to have had more friends in society than any other cat in America.

Hundreds of newspaper stories and photographs of "Dick" have been published, dating from eight years ago, when his owner, widely known as a hunter of big game, made a bet that no dog could whip him in a fair fight. Among the dogs he cleared up soon after was a \$5,000 prize bull belonging to Edward H. McLean, and Newport Nipper, belonging to the late Hamilton Carr.

"Dick" never lost a fight before, and that he should have been killed by a polecat, his owner, it is felt, must have been because he lost his breath before he got started.

EPWORTH LEAGUE CONCERT.

The senior Epworth League of the Portland Methodist church had a large and delighted audience when it gave its excellent concert programme in the school room of the church last evening for its funds. The president of the league, Frank W. Merrill, was the chairman and master of ceremonies. Each of the items on the programme was skillfully and pleasingly rendered, and appreciated. The programme was as follows: Reading, Stanley Irving's sketch, "Road to Prosperity," acted by William and Allan Kirk and Miss Laura Panjoly; sketch, "A Happy Mistake," Miss Lillian Siddons and Kenneth MacLaughlin; reading, Kenneth MacLaughlin.

Had to Go to Bed Headaches So Bad

Milbury's Laxa-Liver Pills Made Her Well

When your liver gets sluggish and inactive, your whole health suffers. Your bowels become constipated, your head aches, your tongue is coated, breath bad, specks float before the eyes, you are bilious, have heartburn, water-brash, pain under right shoulder, muddy and brown spotted complexion, etc. Help the liver to resume its proper function by removing the bile that is circulating in the blood and poisoning the system.

Mrs. E. Bainbridge, 30 Maple Ave., Montreal, N. S., writes: "I take pleasure in writing you of the good I received by using Milbury's Laxa-Liver Pills for headaches. I was so bad I had to go to bed, and could not sit up. A friend told me about your wonderful medicine, and two vials have made me as well as I can be."

Milbury's Laxa-Liver Pills are small and easy to take, do not grip, weaken, or sicken and leave you had after-effects. Price 25c, a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The hot Kitcher gave Ma a nervous headache

She had lots of work and "dragged around" all the morning. At last she remembered to use

Mentholatum

Always made under this signature. Mentholatum is good for cuts, burns and many other little ills. Heals gently and promptly.

She rubbed it on her temples just before dinner-and again after she did the dishes.

Throb and pain all gone

Mentholatum is good for cuts, burns and many other little ills. Heals gently and promptly. Mentholatum is sold and 50c. jars.

The Mentholatum Co. Bridgeport, Ont. Toronto, N. Y. London, Eng.

Department of Militia and Defence. SALE OF MOTOR BOAT "COCKAWEE"

TENDERS will be received until noon on Tuesday, February 24, 1920, for the purchase of the motor boat "Cockawee," the property of the Department of Militia and Defence, and lying berthed at the Engineers Wharf, Halifax, N. S.

The following is a brief specification of the boat: Hull-Length over all, 32' 2". Beam, 12' 3". Draft, 5' 0". Tonnage, 11 tons. Oak frame, Cypress planking, Galvanized fastenings.

Deck House and Cabin finished in mahogany and oak. Engine-Globe, H. P. 50. Speed-8 knots. Gasoline tanks-capacity, 165 gals.

Stores. Anchor, chain, compass, cushions, awning, two masts, davits for small boat, rowing boat.

The boat may be seen and examined by those interested, upon application to the Senior Engineer Officer, M. D. No. 6, Engineers Yard, Halifax, to whom all enquiries should be addressed.

Tenders must be made in duplicate, on form of tender to be obtained from the Senior Engineer Officer above mentioned.

Tenders must be accompanied by a certified cheque, payable to the Minister of Militia and Defence, for ten per cent of the amount of the tender, which will be subject to forfeiture if the person making the tender fails to carry out his undertaking in the event of the tender being accepted.

Tenders should be mailed in sealed envelope marked "Tender for Motor Boat 'Cockawee'" due February 24, 1920" addressed to the Director of Contracts, Department of Militia and Defence, Ottawa.

The purchaser must remove said boat from the wharf within three weeks of his receiving notification from the Department of the acceptance of his tender, and make full payment on or before such removal. The security deposit cheque will be taken in part payment.

The department does not bind itself to accept the highest or any tender. EUGENE FISSET, Major General, Deputy Minister, Militia and Defence, Ottawa, January 31, 1920.

Note.-Newspapers will not be paid for the advertisement if they insert it without authority from the Department. (H.Q. 2637-5-51)

ARE CONFIDENT OF RAISING \$21,000

The men of St. David's church were entertained at a Forward Movement supper in the rooms of the church last evening by the Women's Missionary Society. In spite of the very unfavorable weather there was a large gathering present and enthusiasm ran high, when after the supper, stirring speeches on the Forward Movement were made and plans for the canvass perfected. The church has been assigned the sum of \$21,000 as its portion of the Forward Movement Fund, including the Memorial Hall fund, and last night \$5,000 was subscribed by the men present. For the canvass of the congregation, eighteen teams were appointed and were given instructions as to their routes and those on whom they would call. The congregation is confident of reaching or surpassing its objective in spite of the very heavy expense at which it has been put in building its new church.

G. R. Ewing, chairman of the Forward Movement Committee of the congregation, presided and made the opening address. He was followed by the minister, Rev. J. A. MacKellan, and by Rev. F. F. McL. Smith, organizer for the Inter-Church Forward Movement for the province, both of whom dwelt upon various phases of the movement. Many others addressed the gathering in short speeches, among them, J. R. MacFarlane, James MacMurray, Robert Reid, F. W. Girvan, R. E. James and many more. Each had something pertinent to suggest or something encouraging to say and the whole atmosphere of the meeting was very optimistic.

Before the gathering dispersed a hearty vote of thanks was tendered to the ladies for the excellent supper provided. The vote was moved by F. H. Cairns, seconded by W. R. Jones and passed with complete unanimity.

LADIES' BRANCH ELECTS OFFICERS

The annual meeting of the ladies' association of the Riverside Golf and Country Club was held yesterday afternoon in the board of trade rooms with a fair attendance of members. Mrs. W. L. Busby, the president, was in the chair. All of the reports submitted were very satisfactory. The membership of the association totals 178, of whom 111 are playing members and of house members.

The announcement that the new club house would be ready for the opening of the season was received with much pleasure. The club house is a thoroughly up-to-date building with a large lounge hall, a large dining-room and smaller private dining-rooms, as well as card rooms and the usual dressing rooms and kitchen arrangements. The ladies' association, at its meeting yesterday, undertook to furnish the lounge hall.

The officers elected for the coming year were as follows: President, Mrs. W. L. Busby; vice-president, Mrs. W. E. Foster; secretary-treasurer, Miss Helen Sidney Smith; committee of management, Mrs. J. Pope Barnes, Mrs. A. W. Adams, Mrs. G. K. McLeod, Mrs. J. U. Thomas, Mrs. A. L. Fowler, Mrs. W. H. Shaw; captain, Mrs. Shirley Peters; greens committee, Mrs. H. C. Schofield, Miss Frances Stetson, Miss Barbara Jack.

AWAY AGAIN.

Cairo, Feb. 6.—The big airplane belonging to the Daily Times of London which recently arrived here from England, started today for Halfaya, on the Nile in Eastern Sudan.

So refreshing when fatigued

One of the surest roads to health is to have a cup of Oxo after exposure to wet or cold, or when fatigued. It quickly renews vitality and gives just that extra sustenance the system needs to make good the wear and tear of everyday life. No trouble—no waiting—just an Oxo Cube and a cupful of hot water.

COLLEGES AND BOLSHEVISM

President Neilson Says the Colleges Do Not Harbor Radical Agitators.

New York, Feb. 6.—Parlor Bolsheviki find no hotbeds of political agitation within the walls of American universities, according to the views expressed by William Allan Neilson, president of Smith College, in an interview here today.

"It is often asserted that colleges are largely responsible for the spread of so-called parlor Bolshevism," said President Neilson, "it seems to me that such an assertion implies that the next generation can be rendered immune from such dis-

eases by dosing them with the ready-made conservative opinions. Now, in the first place, it is not the case that in the colleges generally there is a radical tendency in the teaching. The academic economists are for the most part far from radical, and sources of Bolshevist thinking are not to be found in political economy as it is taught in our colleges.

"Its origin is to be sought rather in emotion than in thought, frequently in a more or less sentimental reaction from the harrowing pictures that are frequently made of the conditions of the workers in various industries.

"Cultivating in students the habit of docile acceptance of doctrines however safe in themselves, is no insurance against mischievous doctrines." A student who accepts one theory in this passive fashion, is just as liable to accept the contrary at a later date. The only method on which reliance can safely be placed is that of training the student in the first hand investigation of facts; in the power of seeing what facts are significant; and in the drawing of valid inferences. To learn to think straight is the chief aim of a college education.

"To teach students to think straight is the chief aim of colleges themselves.

The institution which grasps this firmly will not be driven to interfere with academic freedom. Teachers cannot safely be forbidden to offer their own interpretation of facts, but they can and must be asked to make clear the distinction between the objective facts and the subjective interpretation. When this is done, there is no risk of our institutions being turned into organs of propaganda in the social disputes of the present moment.

"The business of an institution of learning is with the truth and the means of ascertaining it. When this aim is departed from for the purpose of imbuing students with particular doctrines, instead of training them to think for themselves, the institution is false to its duty."

USE The Want Ad Way

The Biggest Value in Popular Priced Tailored-to-Measure Suits and Overcoats in the British Empire.

The Savings On Our Tailored-To-Measure Clothes Are So Decided That No Man Can Afford To Ignore Them

THE \$100. Overcoat is here—the \$125. Suit is on the way, and be assured that "Ready-Made" clothes prices are "Going Up" as never before. Woollens in all history have never been as scarce and costly and are still going higher.

In the face of this condition it would be little short of ridiculous for us as a representative Tailoring concern to promise low prices indefinitely; we are in reality offering our patrons the greatest inducement we have ever made in keeping our old standard prices in effect—Our prices do not cover the actual cost of materials and workmanship on the basis of to-day's market.

Suits and Overcoats Tailored - To - Your - Measure

\$20
English and Scotch Woollen Co.
of Montreal
More Quality Less Money
No connection with any other concern in Canada.

HERE is a saving that is really worth while, though it calls for quick action. In order that our patrons can get full service and satisfaction, we have arranged elaborate displays of materials and can give them an accurate insight of the new fashions for the coming season. You have much to lose by delay—much to gain by prompt action. Our Tailored-to-Measure clothes ordered at this time will almost certainly prove a most judicious and profitable investment. May we have the pleasure of taking your measure today.

Ford
THE Demand Will Exceed the Output—Place Your Order Now!

The Ford Company advise that, on account of the shortage of raw material, they entertain no hope of supplying the demand for Ford Cars during the coming season.

Our allotment of cars will be small compared with the demand that will exist in this territory. In order to obtain this allotment it will be necessary to show the Ford Company the actual orders.

As Ford Dealers in this district we are anxious to serve the community to the best of our ability. By placing your order now you will assure yourself of getting your car at a later date.

SERIAL "THE INVISIBLE HAND" CHAPTER No. 6 **ANTONIO MORENO**

Northern New York amateur ice skating championships here this afternoon, winning the 220 yard and 440 yard dashes. Joe Moore, also of Lake Placid, captured the two mile event and Everett McGowan, of St. Paul (Minn.) led the field in the half mile.

ENJOYED THEMSELVES

The young people of Charlotte street United Baptist church were enjoyably entertained last evening at the residence of Mr. and Mrs. G. N. Mott, 13 Rodney street. Games and music afforded pleasure after which luncheon was served. This is the beginning of a series of such entertainments planned for throughout the winter.

GREAT CROPS FOR ALBERTA.

If the indications do not fail—and they have never yet failed—the agricultural season in Alberta this year will give bounteous crops. "Heavy snow-falls in the winter are always followed by good crops," said Hon. Duncan Marshall, Minister of Agriculture of Calgary, who reached Toronto this week. "It is a good omen."

Hon. Mr. Marshall when questioned regarding the labor situation in Alberta, stated that unemployment was scarcely existent in the province. There was, of course, still a certain amount of farm work in the winter, but the chief activity was in the lumber camps. Here again the snow had proved a helping factor and all the logging centres were overwhelmed with orders, chiefly for railroad ties.

The wedding of Miss Mary Olivia Hitchcock of Ortonville and Frank Henry Rideout of Grand Falls, N. B., took place on Wednesday in the Baptist parsonage at the latter place. Rev. W. J. Harlow of Tracy Mills officiated.
