French Regard Offensive Against Paris
At End, At Least For Present—See
Further Heavy Fighting Ahead, But
Believe It Will Be On Another Front

Paris, June 14.—In its summary of expert opinion the Havas Agency notes the unanimity with which the commentators have abandoned their reserve of the last few days and agree with M. Bezancon of the Echo de Paris in his opinion that the offensive against Paris is ended, for the present at least. They admit the possibility of its resumption sooner or later, and see further hard struggles ahead, but think it probable that the heavy fighting, when it is resumed within a few days, will be on another front.

The results of the offensive against Paris are enumerated by M. Barras thus: "A territorial gain absolutely out of proportion to the losses sustained; Compagnie still in French possession; the Allied reserve manoeuvring forces intact."

In another article the Echo de Paris confidently declares that just as the Germans did not get to Compiègne, so they will never get to Paris. The enemy, it points out, has been mastered on ground of his own choice.

ENEMY CONTINUES ATTACKS.

London, June 14.—The German Crown Prince continues his desperate attempt to overcome the difficult forest region barriering his way into the Oise Valley, and although by heavy fighting he gets a little nearer to Compiègne, his progress is very slow.

Thursday's reports are considered satisfactory on the whole by observers here. The enemy has progressed about a mile on a very narrow front northeast of Villers Cotterets, but the French troops are showing such determination and valor in counter-attacks that, although reports from Paris intimated it may be necessary to give further ground in face of superior numbers, there exists in spite of quiet confidence and trust in General Foch's prudent handling of the situation.

The French and German communiques indicate the terrible nature of the struggle that is proceeding, the German having to admit the loss of some guns. The battle is regarded here as a contest between opposing reserves.

The view of the military experts is still that the enemy's main attack has not yet been delivered. There is much speculation whether the attack will be with the aim of reaching Paris, or, what is regarded as more likely, with the object of dividing the Allied armies by a drive for the coast.

GERMANS LET UP.

Paris, June 14.—Fighting on the front of the German attack has died down, there being only local operations last night, according to the statement issued by the German High Command today.

REPULSED BY BRITISH.

London, June 14.—A strong enemy party this morning attacked one of the posts recently established by the British southwest of Merris, on the Flanders front. The attack was completely repulsed. The Germans left some prisoners in the hands of the British.

Activity by the German artillery in the region of Villers-Bretonneux, to the east of Amiens, as well as in the Scarpe Valley, east of Arras, is reported.

PERU SEIZES
GERMAN SHIPS

Lima, Peru, June 14.—The Peruvian government through its military forces has taken possession of the German vessels interned at Callao.

This action by the Peruvian government follows upon the breaking off of diplomatic relations with Germany by Peru early last October.

COMMITTS SUICIDE.

Dr. Pozzi died in a hospital. The assassin is believed to have been insane.

GARDENS COMING WELL.

The vegetable patches on the city land in Lancaster present a very encouraging appearance. The heavy rains have stimulated growth and the results of the work of the amateur gardeners are making themselves shown. Every plot laid out by the city engineers is being cultivated. The demand made it necessary to increase the acreage this spring, and the additional ground not originally laid out has been taken up by individuals who have prepared the land for use themselves. Favorable conditions in the early spring made it possible to get a much better start than last year and the added experience of the gardeners also is contributing to the excellent showing.

VIENNA GIVEN UP HOPE OF BETTER
CONDITIONS DURING THE SUMMER.

Vienna given up hope of better conditions during the summer. The Ukraine is looked on as the only hope for June.

THE LUMBER DRIVES.

Fredrickton, June 14.—So far there has been no change in the level of the river here as a result of the heavy rain of the last three days. This is said to be accounted for by the fact that the soil was very dry.

THE LATE JOHN KEEFE.

Mr. Keefe, whose death is announced elsewhere, did excellent work as a member of the international commission which was appointed following lumbering troubles in the St. John River where it divides New Brunswick and Maine. He had been about thirty-five years when he died. James Robertson Company, entering the employ as accountant and rising to be manager here.

An Atlantic Port, June 14.—Ships ready to sail from here last night and today were turned back on reports that a submarine was operating eighteen miles off the Virginia Capes.

An Atlantic Port, June 14.—A British steamship arriving here today reported that she received wireless messages from the British steamer Keemum last night that she was being attacked by a German submarine. Two hours later word was received from the vessel that she was sinking.

The Keemum, a vessel of 5,871 tons, said she was off the Virginia Capes. She was last reported as leaving Manila, London, June 14.—The Swedish steamer Dora, 1,625 tons gross, has been sunk without warning (presumably by a German submarine), according to a despatch from Copenhagen to the Exchange Telegraph Company. Nine members of the vessel's crew were killed.

An Atlantic Port, June 14.—An American steamer from West Indian ports arriving here today reported that on Tuesday, off Cape Hatteras, the vessel picked up a wireless call for help from a ship between her and the shore, which, the message said, was being shelled by a German submarine. The fate of the vessel was not learned. The last ship definitely known to have fallen victim to German submarines in American waters, was sunk on June 10, the day previous.

Paris, June 14.—Via Reuter's Ottawa Agency—Enemy submarine operations have lessened greatly in the western and central English channels since the blockade of Zebrugge and Ostend. The number of submarines operating has also appreciably diminished, owing to the severe losses in recent months.

It has been rumored that the government has decided on two cabinets.

According to the Times, however, the present war cabinet is not likely to agree to any such definite division of the functions of government, although it is understood that some changes in the present machinery are planned. The Times says that questions of purely domestic interest will be decided in the future by a committee or committee of ministers to which the powers of war cabinet will be delegated to this extent.

Imperial Preference and Favored Treatment
of Allies as Compared With
Neutrals—No Truck With the Hun—
Development of Imperial Resources

London, June 13.—(Via Reuter's Limited)—The reports of several committees appointed in 1916 by the board of trade to consider the position of the various trades after the war, with reference to international competition, were published here this evening.

The committee on textile trades recommends immediate measures to increase the output of cotton in India, Egypt and the Sudan and also for the control of the export of Egyptian cotton, in order to safeguard the requirements of the British Empire and its allies and to prevent any possible leakage to or storage for account of enemy states.

Regarding wool, the committee points out the predominant position of the British Empire in the production of wool for clothing purposes and suggests early conferences among representatives of

Australia, New Zealand and South Africa in order to formulate a plan with a view to the fulfillment of the pledges to the Allies in the Paris regulation, the safeguarding of British requirements and the utilization of the wool resources of the empire as a means of bargaining.

NO EXPORT TO ENEMY FOR AT LEAST A YEAR. The committee suggests a policy of homes during the period of reconstruction, with a prohibition of exports to enemy countries for at least one year after the conclusion of peace and for such further period as may be desirable, while export to neutral countries would be restricted to wool available for improvement for the requirements of the British Empire and its Allies. Female Labor

Toronto, June 13.—More than 600 men and 100 girls, including 125 tool makers, 100 machinists, and the others specialists and assemblers, are on strike at the Willys-Overland Company. From statements of the officials, a most serious situation has arisen, involving the operation of female labor, and the strike, it is said, may spread to other firms in the city, who are engaged on work connected with the Willys-Overland Company.

In a statement given to the press, the strikers assert that the firm is endeavoring to lower the wages of girl workers from forty-five cents an hour for specialists and thirty-five cents an hour for inspectors to twenty and twenty-seven and a half cents respectively. They also allege, that after a board of conciliation had been agreed to, some union employees were discharged.

According to the city charter the city council is obliged to impose a special tax on property to cover the deficit. This will be \$2.42 cents on the hundred dollars, while the total taxation will thus be increased to \$2.87 on the \$100, apart from the tax of \$2 charged for water closets.

ROADS NEVER
BETTER AT THIS
TIME OF YEAR

Fredrickton, June 14.—"All work done on the highways last year by the department of public works has stood up well and is perfectly satisfactory," said Hon. P. J. Veniot, provincial minister of public works, on his return from Charlotte county, where he had been inspecting roads. Reports from all sections of the province are that the highways at this time of year never were in better condition.

This week the minister inspected roads on Deer Island and Campbellton. He also was at McAdam, where he met a committee who made a request for improvement for the Harvey-McAdam road and also the North Lashford Lake road. Work will be done on both. The minister also was asked to have improvements made to the old Woodstock road which runs through St. Croix and St. Andrews to Woodstock. This road would make a direct route for motorists from Charlotte county and Maine points to Woodstock. No decision has been reached with regard to it.

The minister will visit St. John county in the near future and will inspect the Spruce Lake road and other highways leading from St. John. It is probable that work will be done in that section during the summer.

LORD ABERDEEN MADE TREMENDOUS HIT

There was an impressive scene at a performance of "Seven Days Leave" at the Park Theatre, New York, on the night of March 26, when the Marquis and Marchioness of Aberdeen addressed the audience at the conclusion of the first act. At that hour the news from France had been of a somewhat discouraging nature, and when the former Lord Lieutenant of Ireland and Governor-General of Canada appeared before the curtain in his uniform as a staff officer of the British army, a great hush fell over the assemblage. Lord Aberdeen, however, spoke most optimistically, and said that "even if the forces of the Allies should be driven back as far south as the waters of the Mediterranean, they would still fight on and ultimately recoup all their losses." He ended his address with a peroration which caused a tumult of enthusiasm when he said, "At this moment for any one of us to doubt would be to delay; to falter would be to sin."

This will apply to all who generate their electricity, and who are expected to immediately extinguish their electric lights, if the signal is given. SOMETHING LACKING HERE

Fredericton, N. B., June 14.—Six men and boys appeared before Police Magistrate Limerick yesterday afternoon on the charge of theft of grain in transit on the Canadian Government Railway. All were from McEivrey Junction where the theft was committed in April. Two men, one of them an employe of the C. G. R., and a boy sixteen years old, also a railway employe, were sentenced to one year in jail and the sentence was allowed to stand pending good behavior. The other boys, aged twelve years and one aged ten, were given terms in the Boys' Industrial Home on condition that they were sent to school and did not again appear in court. These boys could sign their names. They had attended school but a short time before they were sent to the home. One of the men was the father of two of the boys, and the elder boy was that late in April they noticed a car come into McEivrey Junction with a hole in it through which wheat was running. They notified the station agent, who closed the hole by temporary repairs. The accused then shovelled up the wheat which had poured to the ground and took it to the home. The following Sunday morning the hole was opened and the grain allowed to pour out again. At this time the young boys took this grain. Search of the homes resulted in the recovery of more than three-quarters of a ton.

CORN AND OATS. Chicago, June 14.—Corn prices showed a tendency to ease down today influenced by the fact that general weather and crop conditions were favorable and that forecasts indicated no important adverse changes. Opening figures, which varied from 60 1/2 to 61 1/2 cent up, with July 81.48 1/4 to 81.49 5/8, were followed by an advance to well above yesterday's finish and then a quick setback. Oats duplicated the action of corn. Business was light. After opening 3 cents down to 48 1/2 cent, with July 69 5/8 to 69 5/8, the market scored a moderate gain and then headed down but rallied to close at 49 1/2 cent with hogs. Sellers were scarce.

AN OIL STOCK MAKES SENSATIONAL GAIN

New York, June 14.—United States Steel, which led the general stock list to higher levels in yesterday's final hour, featured today's early dealings, making a further gain of one point on its initial sale of 6,500 shares. Related issues made similar advances, also Ohio Copper, Westinghouse and Cotton Oil. Oil, motors, Baldwin Locomotive, Industrial Alcohol, tobacco and leathers were higher by large fractions to 1/4 points, but rails were dull and Bond changed. Liberty bonds were steady.

Noon Report. Barring later extended to various secondary and obscure specialties at gains of one to two points, profit-taking meanwhile appearing among leaders, notably United States Steel, motors, shipping and tobacco. The striking feature of the morning was a 6-3/4 point advance in Royal Dutch Oil, recurrent rumors of the sale of American holdings to British interests. Coppers were sluggish and rails, Canadian Pacific excepted, failed to overcome early apathy. Liberty 3 1/2's sold at 99.80 to 99.66, first 4's unquoted, second 4's at 94.56 to 94.70, and 4 1/2's at 96.60 to 96.70.

TEXTS ON SUIT CASE AND BATHING SUIT. Odd Conscientious Objector is to Be Court-Martialed at Niagara.

Niagara-on-the-Lake, Ont., June 14.—The most interesting conscientious objector who has yet arrived in camp here is Frank Sheldrake of Toronto, who has reported at the 2nd Depot Battalion, 2nd C. O. R., and is awaiting trial by court martial. He carried a suitcase plastered on both sides with scripture texts. When he was being stripped for examination by the medical officers, it was found that over his underclothes he had on a navy blue bathing suit, on which was painted in white paint the following "warning": "Know thou that for all these things God will bring thee unto judgment. Inasmuch as ye have done it unto one of the least of these brethren, ye have done it unto me." He announced that he was a follower of Pastor Russell.

A CENTURY OLD. St. John's church, Wolfville, the church of the old parish of Horton, celebrated the centenary of its founding last Sunday. The church had begun work in the parish of Horton in 1762. C. Hind. The present rector was appointed in 1869.

Peat That Burns. Sackville Post: There are peat deposits in and around Sackville. A day or two ago H. R. Fawcett brought into this office a sample of the local article, which he had dug on lands owned by John Gayton. Mr. Fawcett had been experimenting with the peat as fuel and declared it burned rapidly. The editor of the Post also sampled it in his stove, where it seemed to burn just about as well as some of the coal we get nowadays. Here is no opportunity for some enterprising citizen to lay in a stock of peat for next winter's use.

A GERMAN FAILURE

French military critics, including those who are inclined to be conservative, agree in describing the result of the present great battle as a German failure. One report says: "The enemy has won a strip of territory, not without value, but has sacrificed for it precious divisions without at any point attaining his objective, and without bringing him any nearer a decisive result."

The feature of the fighting, as described both by French soldiers and prisoners taken, has been the appalling losses suffered by the enemy. It is not assumed, however, that there is to be a prolonged lull in the fighting, or that the enemy has struck his heaviest blow. He had hoped by this battle to clear the way for a more ambitious stroke, but has not succeeded, and must try again.

One of today's despatches from London says: "The battle is regarded here as a contest between opposing reserves. The view of the military experts is still that the enemy's main attack has not yet been delivered. There is much speculation whether the attack will be with the aim of reaching Paris, or what is regarded as more likely, with the object of dividing the Allied armies by a drive for the coast."

The present German drive has been far less successful than either of its predecessors. The opposing forces were more evenly matched, the French occupied strong positions, and every inch of ground won by the enemy was gained at great loss. Gen. Foch has done well, and Paris, which is so near the battlefield, is quietly confident that he will continue effectually to hold the enemy in check until a great American army is in the field and ready to strike.

This is still very heavy fighting ahead, but the spirit of France is unconquerable.

FOOD AND THE WAR

The present indications are that this will be a great crop year in Canada and the United States. Not only has a much larger acreage been planted but the weather has been most favorable for the growing crops. New Brunswick can scarcely remember so favorable a spring and early summer, and from all parts of the continent come cheering reports.

This is the more gratifying because however large the crops they will not be sufficient to meet the need and build up the reserve that ought to exist. The Allies in Europe have good crops also, but they look to America for vast quantities of food to enable them to continue the war.

Addressing the Society of Friends in Toronto this week, Prof. Zavits said: "To me it is religion to grow a bushel of potatoes or a bushel of any other food. The world is looking to Canada for food. We are only a small population, and probably there are some of us who do not realize the production of this country. Canada's production per capita is greater than that of any other country in the world. If this is the case we see the great responsibility of the farmers of Canada. We see now how it is that the people of Canada are looked to to feed a hungry world. It is not a religious act to do all we can for what we can get out of it. We can grow wheat, barley and oats from a selfish standpoint. We should look to the needs of the people and grow those crops of greatest service, and I feel sure that the returns will come with as great abundance."

That is the spirit which should animate all Canadians in this great hour of destiny. It is the spirit that food will yet win the war.

The Methodist conference of Toronto district has approved of mothers' pensions and recommended the legislature to enact a measure providing for such pensions. It further adopted a recommendation that the government pass a law to compel minors to make known where they purchase cigarettes; approved of temperance legislation and a recommendation to the churches to keep up temperance instruction, so that if a referendum be taken in 1919, the organized liquor traffic may be effectively met; and approved also of child-welfare legislation and national protection of the feeble-minded. Other social reform measures were also advocated. It is clear that the churches are feeling a keener sense of responsibility for undesirable social conditions and are not only ready but eager to press for substantial reforms.

The Bangor Commercial says: "One effect of the German U-boat attack off the Atlantic coast is already demonstrated in the rush of young Americans to volunteer for naval service. If Berlin thought to terrorize the United States by this latest effort it has made another of the psychological blunders that has been characteristic of Germany throughout the war."

The government cannot too quickly intervene in the strike at New Glasgow. This is no time to permit a strike to interfere with the production of ships and war material.

Rheumatism A Home Cure Given By One Who Had It

In the spring of 1898 I was attacked by Rheumatism, which was very severe. I suffered as only those who have it know, for over three years. I tried every remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have used it since, and it has cured me of my Rheumatism, and it effected a cure in every case.

PALPITATION OF THE HEART AND NERVE TROUBLES WERE CURED BY Milburn's Heart and Nerve Pills

When the heart begins to beat irregularly or intermittently, palpitation, skip, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm and the least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable through this untoward condition of the heart.

To all sufferers from heart troubles we would advise the use of Milburn's Heart and Nerve Pills, which by their action in strengthening the heart and regulating the beat remove all the distressing conditions, and impart vigor and vitality to the system.

Mrs. Thomas Davidson, Mount Brydges, Ont., writes: "I have been a great sufferer in the past with nerve troubles and palpitation of the heart. I tried various remedies, but without result. My son came in one day and advised me to take Milburn's Heart and Nerve Pills. After using one and a half boxes, I am fully recovered, and am in a perfect state of health, thanks to your 'valuable medicine'."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Paris Revolts At Luxury Tax

Impost Liked While it Was a Novelty, But Repeal is Now Demanded—Cuts Down Waiters' Tips

Paris, June 14.—The recent French tax on articles falling under the category of "luxuries" is not as popular today as it was during the first few days of the operation of the law. It can perhaps be said that the popularity of the "luxury tax" during the first days was due to the fact that it was a novelty. But it is not so much because the novelty has worn off that the 10 per cent tax is unpopular, but to other causes. The opposition has developed to such an extent that a number of deputies are about to invite the government to repeal the law as being detrimental to French commerce in general and even damaging to the morale of the people.

ident as another example of the indiscriminate application of the law. A polu who is lame as the result of wounds received in action entered a shop and purchased a stout walking stick for eleven francs (about \$2), which normally would have cost him three francs (60 cents). Much to his surprise and disgust he was made to pay the "de luxe" tax of 10 per cent.

PRESBYTERY TO VOTE ON QUESTION OF ELDERS FOR OFFICE OF MODERATOR

London, Ont., June 13.—The vexed question of throwing the office of moderator open to elders as well as ministers, which took up practically all night session leading to heated arguments across the floor of the house, was this morning quite peacefully given its quietus for another year when a new amendment to refer the matter to the Presbyteries to be reported to the next assembly was carried.

On motion of President Murray, the board of education was instructed to look into the question of secondary education and report to the assembly next year a general policy for its consideration.

NAT FARNUM SHOW YESTERDAY EXCELLENT

Now even with the bad and cold and fine weather in opposition last night, the Farnum show at the Lyric drew large audiences and the opinion prevailing among those who saw the performance was an expression of regret that the last bill was not seen last week, as it would have shown the company in an entirely different light.

ORANGEMEN TO FAST ON FRIDAY, JULY 12

They Also Must Do Without Sandwiches at Lodge.

(Ottawa Journal-Press.) To observe a "fast day" in common with Catholics is apparently to be the fate of the Orangemen on the coming "Glorious Twelfth of July." Both are forced to observe the national regulations, which require that fish only shall be consumed on that day.

The hundreds of Ottawa brethren who will participate in the annual "walk" this year, as well as thousands of others in all parts of Canada, will be up against the regulations for the 12th of July is a Friday, and Fridays are "meatless."

CLOSING SESSION OF THE GENERAL ASSEMBLY

London, Ont., June 14.—With yesterday afternoon's session, the 44th General Assembly of the Presbyterian Church in Canada dissolved, to meet in June, 1919, in St. Paul's church, Hamilton. The assembly accepted the resignation of Rev. Dr. Sheerer as secretary of social service and evangelism, owing to his acceptance of the position of secretary of the Social Service Council of Canada, but deferred dealing with the appointment of a successor, or the proposed creation of a new post of general superintendent of home missions and social service, for which the name of Rev. D. C. MacGregor of London was put forward.

Hamilton Times: It was at a British hospital near the front. A Red Cross nurse came to the door, spied a soldier near, and reaching out a pall, said sweetly: "Will you please get me a pail of water?" He hesitated an instant, then stammered out, "Why, I can't do that, you know. I'm a captain." "Is that so? I am a duchess!" she said, even more sweetly. The crestfallen captain got the water and the duchess finished scrubbing the floor.

CORRESPONDENT SAID HE WAS GOING OVER
Floyd Gibbons, Reported Wounded, May Have Carried Out His Promise—Was on the Lancia
Chicago, June 13—Floyd Gibbons, who has been wounded while serving the Chicago Tribune at the front in France, first came into national notice by his work in Mexico. As correspondent of the Tribune he was with Villa in the Torreon campaign which laid Mexico at Villa's feet and paved the way for his triumphant entry into the capital. He was with Villa again on his last campaign, when the former bandit met his Waterloo at Celaya. He is a veteran of Pershing's expedition into Mexico.
For more than a year he has been with the American forces at the front in France.
Gibbons was born in Washington and was educated at Georgetown University. He began his newspaper career in Minneapolis. He came to Chicago six years ago, and for the greater part of the time since has been a member of the Tribune staff.
A few months after his return from the Rio Grande he was sent by the Tribune to Europe as war correspondent. He had a chance to go on a ship which bore Ambassador von Bernstorff and was immune from submarine attack. But he chose to gamble for a big story and sailed on the Lancia. The ship was torpedoed off the Irish coast, and the description which Gibbons wrote won him international distinction.
When Ring Lardner was in Europe a few months ago, Gibbons told him of a correspondent's discouragement under the strict censorship in trying to get news home.
"I'm getting sick of it," Gibbons said. "My Lancia experience has convinced me that all that is left for me to do is to pull some sensational stunt, and I'm going to do it. I'm going over the top with the boys at the first opportunity."
He probably pulled his stunt. That is doubtless the reason why he is now stretched out in a cot in a French hospital.
Gibbons' wife, formerly Miss Isabella Peirman of Minneapolis, has been with him in France for more than two years. When the German long-range guns began the bombardment of Paris she went to Dijon, where she has been ever since.

SINKS SHIPS, THEN GIVE A WARNING

Washington Regards Berlin Report as Bit of Grim Humor

Washington, June 14.—In view of what has been happening during the last few weeks, officials here last night were inclined to regard as a bit of grim humor a report from Berlin that the German government is about to declare the eastern American coast a danger zone and to warn neutral shipping of its purpose.

Raiding submarines have already served warning of the danger in more forceful terms than the neutral ship owners in a diplomatic communication. Several of the eighteen vessels sunk by the raiders were neutral carrying no war supplies. Neutral governments are not likely to have overlooked that fact, warning or no warning.

So far as Allied and American ships are concerned, the "warning" can make no difference. The raiders, while treating passengers and crews of the ships they waylaid with a consideration that is worthy of note only because it is a departure from the ruthlessness of accepted German practice elsewhere, have conducted cruiser warfare under a strictly German interpretation of what that means. Unarmed merchant craft of no military value have been summarily dealt with. The only armed craft sunk was torpedoed without warning.

It is assumed that any announcement from Berlin would be designed chiefly to intimidate neutral shipping. Even there, however, the urgent demand at home for supplies payable only in the United States and the glittering freight rates obtainable probably would overcome any anxiety the neutral ship owners might experience as a result of a "warning."

Perhaps the German admiralty hopes to stimulate home readers in Germany with the idea that steps have been taken to stop the flow of American troops to Europe. Actual enforcement of a U-boat blockade, however, is the only thing that would in fact serve to interfere with that flow.

BORDEN AND ROWELL AT A BRITISH WAR CABINET SESSION

Lords and Commons to Give Dinner for Overseas Ministers Next Week

London, June 13.—(Canadian Associated Press)—Sir Robert Borden, accompanied by Hon. Mr. Rowell, attended another session of the war cabinet today. All the ministers attended the first meeting on Tuesday, but only two ministers from each dominion will attend subsequent meetings. The Canadian premier yesterday held a long conference with General Currie, who came to London specially to meet him. Sir Robert also had an interview with General Smuts, and later saw Bishop Fallon.

The British House of Lords and the House of Commons are to give a parliamentary dinner to the overseas ministers in the royal galleries of the House of Lords next week. The guests will be received by the lord chancellor and the speaker. The speech of welcome will be delivered by Premier Lloyd George.

BODY OF DR. QUIGLEY TAKEN TO NEWCASTLE

Law Society Adopt Resolutions Relative to Passing Away of Prominent Barrister

The body of Dr. R. F. Quigley, K. C., whose lamented death took place yesterday, was taken to his sister's home in Newcastle on the 7:10 train this morning. It was accompanied by Mrs. Richard O'Brien. The funeral will take place Sunday. It is understood that the Knights of Columbus of this city will send a delegation to attend the funeral.

The following resolutions, moved by H. A. Powell, K. C., and seconded by J. A. Powell, K. C., were adopted this afternoon:

Resolved, The members of the St. John Law Society have heard with great regret of the death of their fellow member, Richard F. Quigley, K. C., and they desire to place upon record their appreciation of his character and attainments.

The most striking feature of the deceased was his wide and exact scholarship, his reputation for which extended beyond the limits of his native province and won for him marked recognition abroad.

He received from the University of Laval the degree of Doctor of Literature and of Doctor of Laws and the Vatican conferred upon him an honor rarely bestowed by it of enrolling him as a doctor of philosophy.

While his love of literature, philosophy and science engendered a great deal of his attention, he was recognized as a profound student of law and was connected professionally with some of the most important cases in the province.

His professional career, like his private life, was characterized by a profound sense of honor, a courtesy ever manifest to all and a steadfastness of friendship and a tolerance of other people's opinions which endeared him to those who had the pleasure of associating with him. His death will leave a vacancy in the ranks of the profession which it will be very difficult to fill.

Further resolved, That these resolutions be entered by the secretary on the records of the society and that a copy thereof be forwarded by him to the brothers and sisters of the deceased to whom the society extends its sympathy in their bereavement.
