

Benefactors of the McGill College, Montreal.

THE HONORABLE JAMES MCGILL, by his last Will and Testament, under date 8th January, 1811, bequeathed the Estate of Burnside, situated near the City of Montreal, and containing forty-seven Acres of Land, with the Manor House and Buildings thereon erected, and also the sum of ten thousand pounds in money, unto "The Royal Institution for the Advancement of Learning," constituted by Act of Parliament in the Forty-First year of the reign of his Majesty, King George the Third, to erect and establish an University or College, for the purposes of education, and the advancement of learning in the Province of Lower Canada, with a competent number of Professors and Teachers to render such Establishment effectual and beneficial for the purposes intended requiring that one of the Colleges to be comprised in the said University, should be named and perpetually be known and distinguished by the appellation of "McGill College."

The value of the above mentioned property was estimated at the date of the bequest at.....£30,000.

At a meeting called by a number of the influential citizens of Montreal, and held at the Merchant's Exchange 6th December, 1856, for the purpose of taking into consideration the financial condition of the University of McGill College, —The following Resolution was adopted:

"That an effort ought to be made for increasing the Endowment of McGill College in such a manner as to extend its usefulness, and to place it for the future upon an independent and permanent footing."

Whereupon, in pursuance of the above Resolution, the following Donations were enrolled for Special or General objects connected with the University,—the Royal Institution granting Scholarships in perpetuity according to the value of the Donations.

In 1860 the sum of £200 presented to the College, by H.R.H. the Prince of Wales, was applied to the foundation of a Gold Medal, to be called the "Prince of Wales Gold Medal."

In 1861, the "William Molson Hall," being the west wing of the McGill College Buildings, with the Museum Rooms, and Chemical Laboratory and Class Rooms, was erected through the munificent donation of the founder whose name it bears.

In 1864, the "Anne Molson Gold Medal" was founded by Mrs. John Molson, of Belmont Hall, Montreal, for an honour course in Mathematics and Physical Sciences.

In the same year the "Shakspeare Gold Medal" for an honour course, to comprise and include the works of Shakspeare and the Literature of England from his time to the time of Addison, both inclusive, and such other accessory subjects as the Corporation may from time to time appoint,—was founded by Citizens of Montreal, on occasion of the three-hundredth Anniversary of the birth of Shakspeare.

In the same year, the "Logan Gold Medal," for an honour course in Geology and Natural Science, was founded by Sir William Edmund Logan, LL.D., F.R.S., F.G.S., &c.

General Announcement.

The Thirty-second Session of this University, being the twelfth under the amended charter, will commence in the Autumn of 1864.

By virtue of the Royal Charter granted in 1821 and amended in 1852, the Governors, Principal and Fellows of McGill College, constitute the Corporation of the University, and under the statutes framed by the Board of Governors, with approval of the Visitor, have the power of granting degrees in all the Arts and Faculties, in McGill College and in Colleges affiliated thereto.

The Statutes and Regulations of the University have been framed on the most liberal principles, with the view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. In its religious character the University is Protestant, but not denominational; and, while all possible attention will be given to the character and conduct of students, no interference with their peculiar religious views will be sanctioned.

I. MCGILL COLLEGE.

THE FACULTY OF ARTS.—The complete course of study in Arts extends over four Sessions, of eight months each; and includes Classics and Mathematics, with English Literature, Logic, Mental and Moral Science, Natural Science, and Modern Languages: all of which subjects are imperative in the three first years of the Course; but in the fourth year options are allowed in favour of the Honour Courses in Classics, Mathematics, Mental and Moral Science, Natural Science and English Literature. Certain exemptions are also allowed to professional

students. There are also Special and Partial Courses, and a Course of practical Chemistry; and facilities are afforded for the practice of Meteorological observations, and for the study of Hebrew and Oriental Literature. The degrees given are B. A. & M. A.

THE FACULTY OF MEDICINE.—The complete course of study in Medicine extends over four Sessions, of six months each, and leads to the degrees of M.D., C.M.

THE FACULTY OF LAW.—The complete course in Law extends over three Sessions, of six months each, and leads to the degrees of B.C.L. and D.C.L.

[Details of the above courses of study, with the fees and the dates of commencement of the classes, will be found in subsequent pages.]

II. AFFILIATED COLLEGES.

Students of these Colleges are matriculated in the University, and may pursue their course of study wholly in the affiliated college or in part therein and in part in the Faculty of Arts of the McGill College, and may come up for the University Examinations for the degrees in Arts on the same terms with the Students of McGill College.

MORSEY COLLEGE, Quebec, L.C.,—is affiliated in so far as regards degrees in Arts. The ordinary Course of this College includes Classics, Mathematics, English Literature, Mental and Moral Philosophy and Logic. There are Honour Courses in Classics and in Mental and Moral Philosophy.

[Detailed information may be obtained from the Rev. John Cook, D.D., Principal.]

ST. FRANCIS COLLEGE, Richmond, L.C.,—is affiliated in so far as regards degrees in Arts.

[Detailed information may be obtained from J. H. Graham, M.A., Principal.]

III. AFFILIATED SCHOOLS.

THE HIGH SCHOOL of MCGILL COLLEGE affords the Classical and Mathematical training necessary for entering the College course, with a good English education fitting for business pursuits.

THE MCGILL NORMAL SCHOOL provides the training requisite for Teachers of Elementary and Model Schools and Academies. Teachers trained in this School are entitled to Provincial diplomas.

THE MODEL SCHOOLS OF THE MCGILL NORMAL SCHOOL are Elementary Schools, divided into a Boys' Department, Girls' Department, and Primary School. Teachers in training in the Normal School are employed in these Schools, under the supervision of the Head Master and Mistress.

{Detailed information respecting these Schools will be found in subsequent pages.}

Students in Arts are permitted to board in the city; but arrange-
ments have been made for receiving Students who may desire to reside
as boarders in the College, and for placing such Students under the
immediate superintendence of Rev. Prof. Cornish, to whom application
may be made; rate of board \$16 per month.

EXTRACTS FROM THE REGULATIONS.

§ 1. MATRICULATION AND ADMISSION.

Candidates for Matriculation as Undergraduates are required to present themselves to the Dean of the Faculty, on or before the 6th of September, for examination; they may, however, enter after the commencement of the Session, if, on examination, found qualified to join the classes.

The subjects of examination for entrance into the first year are Classics, Mathematics and English.

In Classics.—Latin Grammar, Greek Grammar, and one easy Latin and one easy Greek author. The authors recommended are Cæsar, Sallust, Virgil, (*Æneid*, B. I); Xenophon, (*Anabasis*, B. I.), Homer, (*Iliad* B. I).

In Mathematics.—Arithmetic; Algebra to Quadratic Equations; Euclid's Elements, Books I, II, III.

In English.—Writing from dictation.

Candidates may be admitted to the standing of students of the second year, provided that they be found qualified on examination. Students of other Universities desirous of continuing their studies in this Faculty, may be admitted, on the production of certificates, to a like standing in this University, after examination by the Faculty.

Candidates for Matriculation as students in any Special Course, or for Partial Courses of Study, will be examined in the subjects necessary thereto, as may from time to time be determined by the Faculty.

Persons desirous of entering as partial or occasional students, must apply to the Dean for entry in his Register, and must procure from the Secretary tickets for the lectures they may desire to attend.

Every Student is expected to present, on his entrance, a written intimation from his parent, or guardian, of the name of the minister of religion, under whose care and instruction it is desired that the Student shall be placed, and who shall thereupon be invited to place himself in communication with the Faculty on the subject. Failing any intimation from the parent or guardian, the Faculty will endeavour to establish such relations.

disposal of His Excellency the Governor General. These entitle the holders to exemption from tuition-fees. Application must be addressed to His Excellency, through the Provincial Secretary. Candidates for such Scholarships must pass the usual Matriculation Examinations.

By command of His Excellency, four of these Scholarships will be offered for competition in the Matriculation Examinations of the ensuing session.

Eight other Scholarships will be granted by the Governors from time to time to the most successful Students who may present themselves as candidates. One of these will be given annually to the dux of the High School.

In event of any Academy or High School in Lower Canada offering for competition in the Faculty of Arts an annual Bursary of not less than \$50, the Governors will add a scholarship thereto.

Any Academy or High School sending up in one year three or more candidates competent to pass creditably the matriculation examinations, will be entitled to a scholarship for the most deserving of such candidates.

§ 3. COURSES OF STUDY.

I. FOR THE DEGREE OF B. A.

Undergraduates are arranged, according to their standing, as Students of the First, Second, Third and Fourth Years; and as such must attend all the courses of lectures appointed for their year, and those only, except by special permission of the Faculty.

First Year—Classics; English Literature; Pure Mathematics; History, Elementary Chemistry.

Second Year—Classics; French, German or Spanish; Logic; Pure Mathematics; Botany.

Third Year—Classics; French, German or Spanish; Mental and Moral Philosophy and Rhetoric; Mixed Mathematics and Experimental Physics; Zoology.

Fourth Year—Classics; Mental and Moral Philosophy; Mixed Mathematics and Experimental Physics; Mineralogy and Geology.

Undergraduates are required to study either French or German for two years, (viz., in the second and third years,) taking the same language in both years. The Sessional Examination in these languages at the end of the third year counts for the B. A. Examination. At the beginning of the second year the student must state which language he selects as obligatory. No change can afterwards be made without the special permission of the Faculty. In addition to the obligatory, there are other Lectures, attendance on which is optional, intended for the benefit of those who may desire a preparatory course or to acquire a more complete knowledge of those languages.

The Lectures in Modern Languages will be so arranged that Students competent and desirous to take in the same year the Lectures in French and in German, may do so.

Students who intend to join any Theological school, on giving written notice to that effect at the beginning of the second year, may take Hebrew instead of French or German.

II. FOR THE DIPLOMA OF GRADUATE IN CIVIL ENGINEERING.

First Year—Drawing, Mensuration, Surveying, Mathematics of the second Year and Experimental Physics, with the ordinary Mathematics and Physics of the third year, English Literature, French or German, Chemistry.

Second Year—Drawing, Engineering, Higher Mathematics and Physics, Geology, and Mineralogy, French or German.

(For details of the above courses of study see under the proper headings in subsequent pages.)

§ 4. EXAMINATIONS.

College Examinations.

There are two examinations in each year; one at Christmas, and the other at the end of the Session. In both these, Students will be arranged according to their answering, as 1st Class, 2nd Class, and 3rd Class.

Students who fail in the Christmas Examinations may be allowed a supplemental examination, on written application to the Faculty, stating satisfactory reasons.

involve the loss of the session. The Faculty may permit the student to recover his standing by passing a supplemental examination at the beginning of the ensuing session. But such permission will not be granted except in cases of sickness, or for other special reasons. For the purposes of this regulation, Classics, and Mathematics with Physics, will each be regarded as two subjects.

University Examinations.

I. FOR THE DEGREE OF B. A.

There are three University Examinations; that for Matriculation, the Intermediate at the end of the second year, and the Final at the end of the fourth year.

The subjects of the Matriculation Examination are stated in Section I.

In the Intermediate Examination the subjects are Classics and Pure Mathematics with Logic and the English Language.

In the Final Examination the subjects are Classics and Mixed Mathematics with any two of the following: (1) Mental and Moral Philosophy, (2) Natural Science, (3) Experimental Physics, (4) One Modern Language and Literature (or Hebrew,) with History. Details of these Examinations will be found under § 9.

II. FOR THE DEGREE OF M. A.

Bachelors of Arts, of at least three years standing, are entitled to the degree of Master of Arts, after such examination and exercises as may be prescribed by the Corporation. The exercise at present appointed is the preparation of a Thesis on any literary, scientific, or professional subject, to be selected by the candidate, and approved by the Faculty.

§ 5. PRIVILEGES OF PROFESSIONAL AND HONOUR STUDENTS.

I. LAW AND MEDICAL STUDENTS.

Students of the third and fourth years, matriculated in the Faculties of Law or Medicine of this University, are entitled to the following exemptions.

In the Third Year, they may omit any two of the following subjects : Zoology, Experimental Physics, Rhetoric, and Modern Languages.

In the Fourth Year, they may omit Greek and also Geology or Experimental Physics.

In the ordinary B. A. Examinations, they may, in Classics, pass in Latin alone; and, in Mixed Mathematics, in Mechanics and Hydrostatics alone.

To be allowed these privileges in either year, they must produce certificates of attendance on a full course of Professional Lectures in that year.

II. HONOUR STUDENTS.

Candidates for B. A. Honours may omit at the Ordinary Examination for the Degree, any two of the four subjects appointed, provided that they shall not have been placed lower than Second Class in the Third Year's Examinations in such subjects. For the two subjects thus omitted, the Sessional Examinations at the end of the third year will be reckoned as Degree Examinations.

No Student shall be entitled to the above privileges, unless his attendance on Lectures and progress in the subject in which he is a candidate for Honours shall be satisfactory to the Professor, and unless he shall have obtained a certificate of creditable answering in the Honour examinations.

§ 6. HONOURS, PRIZES, AND CLASSING.

1. GOLD MEDALS will be awarded in the B. A. Honour Examinations, to Students taking the highest Honours of the first rank in the subjects stated below, and who shall have passed creditably the Ordinary Examinations for the degree of B. A.

The *Chapman Gold Medal* for the Classical Languages and Literature.

The *Prince of Wales Gold Medal* for Logic and Mental and Moral Philosophy.

The *Anne Molson Gold Medal* for Mathematics and Natural Philosophy.

The *Shakspeare Gold Medal* for the English Language, Literature and History.

The *Logan Gold Medal* for Geology and other Natural Sciences.

In event of none of the candidates for any Medal fulfilling the required conditions, the Medal will be withheld, and the proceeds of its endow-

ment for the year may be devoted to prizes in the subject for which the Medal was intended.

2. HONOURS, of first or second rank, will be awarded to those Matriculated Students who have successfully passed the Honour Examinations in any class in which studies for Honours have been provided, and have also passed creditably the Ordinary Examinations in all the subjects proper to their year.

3. CERTIFICATES of high general standing will be granted to those Matriculated Students who are placed in the first class in the aggregate of the studies proper to their year.

4. PRIZES to those Matriculated Students who may have distinguished themselves in the studies of a particular class, and who have attended all the other classes proper to their year.

Students taking B. A. Honours will be placed at the head of the Degree list; and Students who pass the Ordinary Degree and Sessional Examinations will be arranged as 1st class, 2nd class, or 3rd class, according to their answering.

The names of those who have taken Honours, Certificates, or Prizes will be published in the order of their merit; and with mention, in the case of students of the first and second years, of the schools in which their preliminary education has been received.

§ 7. ATTENDANCE AND CONDUCT.

All Students shall be subject to the following regulations for attendance and conduct:

1. Attendance upon all the Classes of the Faculty shall be imperative equally, except upon those announced by the Faculty as optional.

2. A Class-book shall be kept by each Professor and Lecturer, in which the presence or absence of Students shall be carefully noted; and the said Class-book shall be submitted to the Faculty at all their ordinary meetings during the Session.

3. Professors shall note the attendance immediately on the commencement of their Lectures, and shall omit the names of students entering thereafter, unless satisfactory reasons are assigned. Absence or tardiness, without sufficient excuse, or inattention or disorder in the Class-room, if persisted in after admonition by the Professor, shall be reported to the Dean of Faculty, who may reprimand the

student, report to his parents or guardians, or refer to the Faculty as he may think proper.

4. While in the College, or going to or from it, students are expected to conduct themselves in the same orderly manner as in the class-rooms. Any Professor observing improper conduct in the class-room, or elsewhere in the building, may admonish the student, and if necessary report him to the Dean.

5. Every student is required to attend regularly the religious services of the denomination to which he belongs, and to maintain without, as well as within the walls of the College, a good moral character.

6. When students are brought before the Faculty under the above rules, the Faculty may reprimand, report to parents or guardians, disqualify from competing for prizes and honours, suspend from classes, or report to the Corporation for expulsion.

7. Injuries to the furniture or building will be repaired at the expense of those by whom they have been caused, in addition to such other penalty as the Faculty may see fit to inflict.

8. The proportion of times of absence, from necessity or duty, that shall disqualify for the keeping of a Session, shall in each case be determined by the Faculty.

9. All cases of discipline involving the interests of more than one Faculty, or of the University in general, shall be immediately reported to the Principal, or in his absence, to the Vice-Principal.

§ 8. LIBRARY AND MUSEUM.

1. Students may receive books from the Library, on depositing the sum of Four Dollars with the Librarian and signing a receipt for the books received.

2. Students may receive only two volumes at one time, and must return them within two weeks, on penalty of a fine of 1s. for each additional week.

3. Any volume or volumes lost or damaged by a student shall be paid for by him at such rate as the Faculty may direct, with reference to the value of the book and of the set to which it may belong.

4. Students may have the use of books in the Reading Room, at such hours and on such conditions as may from time to time be determined by the Faculty,

5. Professors and Lecturers may receive from the Librarian any books required by them for their duties in the College, not exceeding ten volumes at any one time. Books so borrowed must be returned at or before the close of each Session.

6. Books of reference and works containing valuable illustrations shall not be removed from the Library.

7. Persons not connected with the College, may consult books in the Library on obtaining an order to that effect from any of the Governors or Professors; and Donors of books or money to the amount of Fifty Dollars, may at any time consult books on application to the Librarian.

8. The times and conditions of study in the Museum will be arranged by the Professor of Natural History.

§ 9 COURSES OF LECTURES

ENGLISH LITERATURE.—(MOLSON PROFESSORSHIP)—LOGIC, MENTAL AND MORAL PHILOSOPHY.

Professor, Rev. Canon Leach, D.C.L., LL.D.

First Year.—English Language and Literature. Text-books—Angus' Handbook; Spalding's History of English Literature.
Logic. Text-book—Thompson's Outlines of the Laws of Thought.

Second Year.—English Literature and Anglo-Saxon Grammar. Text-books—Klipstein's Anglo-Saxon Grammar; Spalding's English Literature.
Logic. Text-book—Thompson's Outlines.

Third Year.—Mental and Moral Philosophy. Text-books—Whewell's Elements of Morality; Schwegler's History of Philosophy.
Rhetoric. Text-book—Whately's Rhetoric, part III.

Fourth Year.—Mental and Moral Philosophy. Text-books—Mansel's Psychology; Schwegler's History of Philosophy.
English Literature. Text-book—Marsh's Hand-book.

B. A. Honour Course in Logic, Moral Philosophy and Mental Philosophy.

I. Logic.

- IV.—Translation into French, and French Composition.

GERMAN LANGUAGE AND LITERATURE.

Professor, C. F. A. Markgraf, Esq.

First Year.—A preparatory Course for Students altogether ignorant of the Language.

Second and Third Years.—The exercises of the *Elementary Course*, calculated to familiarize the Student with the peculiarities of the German Language, in orthography, grammatical forms and construction, will consist of translations, oral and written, reading and analysis, writing from dictation and composition. Special regard will be had to the affinities of the German with the English.

In the *Advanced Course* the theory of German Grammar will receive greater expansion, and the Exercises will comprise select readings in German prose and poetry, composition in the various styles of writing, and translations from English writers.

The text-books for each course will be made known at the commencement of the Session.

During the *Advanced Course*, a Series of Lectures will be delivered on the following subjects:—History of the Germanic Nations and Germanic Dialects. —History of German Literature from the earliest periods down to the classical age of Goethe and Schiller;—to close with a brief notice of the state of German Literature in the present day.

Fourth Year.—An additional Course of German Literature for Students desiring a more complete knowledge of the Language.

HEBREW AND ORIENTAL LITERATURE.

Professor, Rev. A. De Sola, LL.D.

Elementary Course.—(For Students of the First and Second Years)—Grammar. The Text-book employed will be Gesenius' Hebrew Grammar, with exercises in Orthography and Etymology.

Reading.—Translation and Grammatical Analysis of Historical Portions of the Scriptures—Syntax—Mishlé Shualim—Fables, &c.

Advanced Course.—(For Students of the Second, Third and Fourth Years)—Introduction to the Study of Hebrew Poetry—its spirit and characteristics. Lowth and Sarchi as Text-books. Translations from the Psalms, Lamens-

tations and Isaiah. Ancient compared with modern Hebrew Poetry; the productions of Halevi, Gabirol, &c. Grammar, Exercises, &c., continued.—The Chaldee Language, Grammar, Mebo Halashon Aramith of J. Jeitteles. The Chaldee portions of Scripture. Targum of Onkelos and T. Yerushalmi.—The Syriac Language, Grammar, (Uhlemann's) and Translations.

The course will comprise lectures on the History of the Hebrew Language and Literature in particular, with a general notice of the other Oriental Languages, their genius and peculiarities. Comparative Philology, affinity of roots, &c., will also receive due attention, while the portions selected for translation will be illustrated and explained by reference to Oriental manners, customs, history, &c.

SPANISH LANGUAGE AND LITERATURE.

Rev. Professor De Sola.

Extra Fee for this Class, \$5.00.

The study of the Spanish Language on this Continent, being generally pursued with special reference to commercial purposes, it will be sought to impart in this Course a practical knowledge of the Castilian, the richest and most harmonious of the Peninsular languages—as well as an acquaintance with its Literature.

Ollendorf's Spanish Grammar by Valazquez and Simonné, and the Reader of M. Valazquez are the Text-books employed in the Junior Class, who will also be exercised in composition by both written and oral exercises. In the Senior Class, Fernandes' Exercises, continuation of Grammar and Composition, Cervantes' Don Quixote, Quintana Vida del Cid, and Marianas Historia will be the subjects of study. Besides a special comparison with the Portuguese Language, a general notice, literary and historical, of the Basque and other dialects will be given.

MATHEMATICS AND NATURAL PHILOSOPHY.

Professor, Alexander Johnson, LL.D.

MATHEMATICS. (First Year)—Arithmetic.—Euclid, Books 1, 2, 3, 4, 6, with Definitions of Book 5 (omitting propositions 27, 28, 29 of Book 6), Galbraith and Haughton's Edition.—Colenso's Algebra, Part 1 to end of Quadratic Equations.—Galbraith and Haughton's Plane Trigonometry to end of Solution of Plane Triangles—Nature and use of Logarithms.

MATHEMATICS. (Second Year)—Arithmetic, Euclid, Algebra and Trigonometry as before.—Remainder of Galbraith and Haughton's Plane Trigonometry.—Conic Sections treated Geometrically. (The Parabola as in Drew's Conic Sections, the definitions of the Ellipse and Hyperbola, with the fundamental properties of their tangents.) Euclid, Book XI. Props. 1 to 21; Book XII. Props. 1, 2.

The Course for the intermediate University Examination consists of the Mathematics for the first two years, except Conic Sections and Solid Geometry.

MATHEMATICAL PHYSICS AND ASTRONOMY. (Third Year.)—Galbraith and Haughton's Mechanics, (omitting chap. 5 of Statics), Hydrostatics, Optics, and Astronomy.

At the Ordinary Examinations, answers to questions in Mechanics on the Chapters on Friction, Collision of Bodies, and Projectiles, will be taken into account only in determining the relative positions of those whose other answers shall entitle them to be placed in the First Class.

EXPERIMENTAL PHYSICS—(Third and Fourth Year.)—1. *Light*—Theories.—Reflection.—Refraction.—Dispersion.—Interference and Diffraction.—Double Refraction.—Polarization. 2. *Heat*—Dilatation of Solids, Liquids and Gases.—Specific and Latent Heat.—Radiation and Conduction of Heat. 3. *Electricity*—Frictional and Voltaic. 4. *Magnetism*. 5. *Acoustics*—Theory of Undulations.—Production and Propagation of Sound.—Vibrations of Rods and Plates.—Vibrations of Fluids.—Musical Sounds. Text-books—Lardner's Hand-books. This Course extends over two years.

The lectures in Mathematical and Experimental Physics will be illustrated by Apparatus.

Honour Course.

MATHEMATICS.—(First Year.)—Mulcahy's Modern Geometry, first five chapters.—Wood's Algebra.—Young's or Todhunter's Theory of Equations.—Hind's Plane and Spherical Trigonometry.

MATHEMATICS.—(Second Year.)—Theory of Equations and Trigonometry continued.—Salmon's Analytic Geometry, first thirteen chapters.—Hall's Calculus, Chapters 1, 2, 3, 4, 6, 7, of Diff. Cal., Chapters 1, 2, 3, 4, 5, of Integ. Cal.

MATHEMATICAL PHYSICS.—(Third Year.)—Todhunter's Statics, (omitting Chap 13.)—Sandeman's Dynamics of a Particle. Miller's Hydrostatics, omitting Sects. 5, 6.—Walton's Mechanical Problems.—Griffin's or Parkinson's Optics.—Hymer's Astronomy, (selected course.)

B. A. Honour Course.

PURE MATHEMATICS.—Hind's Plane and Spherical Trigonometry.—Young's or Todhunter's Theory of Equations.—Hall's Differential and Integral Calculus.—Boole's Differential Equations, (selected course.)—Gregory's Examples of the Calculus, (omitting the last 2 chapters).—Salmon's Conic Sections.—Salmon's Geometry of three Dimensions, (selected course.)

MECHANICS.—Todhunter's Statics.—Sandeman's Dynamics of a Particle.—Griffin's Dynamics of a Rigid Body.—Besant's Hydrostatics and Hydro-dynamics.—Walton's Mechanical Examples.—Walton's Examples in Hydrostatics.

ASTRONOMY.—Hymer's Astronomy.—Sir John Herschel's Outlines of Astronomy—Part II. on the Lunar and Planetary Perturbations.—Godfray's Lunar Theory.

Newton's Principia, Lib. I, Sects. 1, 2, 3, 9, and 11.

LIGHT.—Lloyd's Wave Theory of Light.

HEAT.—Lardner's Hand-book. Tyndall on Heat considered as a mode of motion.

ELECTRICITY. }
MAGNETISM. } Lardner's Hand-book.

Students will be examined in the above courses, (Ordinary and Honour) both by papers and viva voce. The examination for B. A. Honours will continue for *four* days, during six hours each day.

The examinations for Honours in the other years will continue for *two* days.

Engineering Students may be candidates for Honours.

At every examination (whether Ordinary or Honour) in the first two years, Students are liable to examination in all the subjects of the previous course; and in the last two years, in all the subjects of the third and fourth years.

NATURAL HISTORY.

Professor, J. W. Dawson, LL.D. F.R.S., F.G.S.

I. BOTANY.—(Second Year and part of Third Year.)

1. *Histology and Morphology of the Plant*, or description of its elementary tissues and organs.
2. *Physiology of the Plant*, or investigation of its functions of Nutrition and Reproduction.
3. *Systematic and descriptive Botany*, or the principles of the Classification of Plants, with descriptions of the more important Natural Orders, special notices of the Flora of Canada, and instructions for collecting and determining Plants, and for the use of the Microscope.
4. *Geographical Botany*, or the distribution of Plants over the Globe.—
Text-book—Gray's Structural and Systematic Botany.

Students desiring a more complete knowledge of the subject, or who have collected plants in the Summer vacation, will have the benefit of an additional Course of determinative and Canadian Botany in the two first months of their third session. Prizes will be given in this Course for the best collection of plants, and the greatest proficiency in their determination. Duplicates of prize collections to remain in the College Museum.

II. ZOOLOGY AND COMPARATIVE PHYSIOLOGY, (Third Year.)

1. *General Zoology*, including the elements of the Histology, Comparative Anatomy and Physiology of Animals, with the Principles of Classification, and the division of the Animal Kingdom into Provinces or Sub-Kingdoms.
2. *Descriptive Zoology*, including the characters of the classes and orders of the Animal Kingdom, illustrated by typical examples, and as far as possible by Canadian species.

Text-Books—Synopsis by the Professor, with Dallas' Outlines of Zoology, or Carpenter's Zoology.

III. GEOLOGY AND PALÆONTOLOGY. (Fourth year.)

1. *Physical Geology*.—Composition of Rocks and their structure on the small scale.—Origin of Rocks; considered as aqueous, igneous, or metamorphic.—Arrangement of Rocks on the large scale; stratification, elevation and disturbances, denudation.
2. *Chronological Geology and Palæontology*.—Data for determining the relative ages of formations. Classification according to age. Fauna and Flora of the successive periods. Geology of British America.
3. *Practical and Economical Geology*.—Methods of observation and of making Geological surveys. Applications of the science to Mining, Engineering, and Agriculture.

Text-Book—Lyell's Elements.

B. A. Honour Course.

Students entering for honours must have passed creditably the examinations in Elementary Chemistry, Zoology, Botany and Experimental Physics; and should know the Elements of Drawing. Students entering for practical purposes will be required only to satisfy the Professor of their fitness for the studies of the class.

Candidates for Honours will be expected to attain to such proficiency as to be able to undertake original investigations, in some at least of the subjects of study.

The Lectures will include :—

1. An advanced Course in General Geology and Palæontology, in connection with which the Students will be required to read Dana's Manual and Owen's Palæontology.

2. Canadian Geology, in connection with which the Students will read the Report of the Geological Survey of Canada.

3. Practical Geology and determination of species; with books of reference from the College Library, specimens from the Museum and field work when practicable.

In addition to the above, the Student will be examined in any two of the following subjects:

1. The Systematic part of Botany as in Gray's "Text Book" and "Manual," and specimens illustrative of these books from the museum.

2. Owen's Lectures on the Invertebrate Animals, and specimens illustrative thereof from the museum.

3. Dana's Mineralogy, and specimens illustrative thereof from the museum.

4. Chemical Analysis, as taught in the Course of Practical Chemistry.

The Lectures in Natural History will be accompanied with demonstrations in the museum. Students in Natural History are also entitled to tickets of admission to the museum of the Natural History Society of Montreal.

CHEMISTRY AND MINERALOGY.

Professor, T. Sterry Hunt, M. A., F.R.S., &c.

CHEMISTRY, ORDINARY LECTURES.—(*Students of the First Year, and Special Students.*) A course of about forty-five lectures, accompanied with experiments, and comprising an Elementary Course of General Chemistry. It will include the principles of Chemical Philosophy, the History of the Elements and their combinations, the principles of Organic Chemistry, and the History of the most important groups of Organic Compounds.

CHEMISTRY, PRACTICAL COURSE.—(*Special Students.*) Practical instructions in Analytical Chemistry will be given in the Laboratory of the University. The amount of time to be devoted to this course will depend, in a measure, upon the requirements of the students. At present it is proposed to devote to it the mornings of each Tuesday and Thursday, during the Course of Chemical Lectures.

Text-Books—Fresenius, Qualitative Analysis, Croft's Manual, Bolley and Paul's Technical Analysis.

MINERALOGY.—(*Students of the Fourth Year.*) The Course of Mineralogy will consist of sixteen Lectures, commencing on the 1st of November; and will embrace the principles of Classification, the Chemical and Physical characters of Minerals, including Crystallography, the methods of determining species, and Descriptive Mineralogy; with special reference to those species most important in Geology, or useful in the Arts.

Text-Books—Dana's Elements or Dana's Manual of Mineralogy. Nichol's Mineralogy.

METEOROLOGY.

Professor, Charles Smallwood, M. D., LL.D.

Instruction in Meteorological Observations will be given in the Observatory, at hours to suit the convenience of the senior students.

SPECIAL COURSE OF ENGINEERING.

No announcement of Lectures in Engineering for the Session of 1864-5, can as yet be made; but should it prove possible to make arrangements for their delivery, special notice will be given before the commencement of the Session.

AGRICULTURAL CHEMISTRY.

Professor Dawson.

A course of Lectures on this subject is delivered at the Normal School, and Special Lectures and instructions will be given to such students as may present themselves.

SPECIAL COURSE OF AGRICULTURE.

This course will include, in addition to the lectures on Elementary Chemistry and Agriculture, the subjects of English Literature, French, Mathematics, Natural History and Natural Philosophy, and will extend over two sessions.

The Library of the Faculty of Arts contains over 4000 volumes of standard works, selected with especial reference to the wants of Professors and Students, and open to their use during the Session.

The Apparatus includes Electrical and Pneumatic Instruments of the largest size and most modern construction, several Microscopes, a Telescope, and instruments illustrative of Statics, Dynamics, Hydrostatics, Heat, Optics, Astronomy and Geodesy. The Laboratory is fitted up with the apparatus necessary for the pursuit of practical researches in Chemistry. The Observatory is in constant use for Magnetical and Meteorological observations.

The Museum consists of: —

1. The general collection in Zoology, including specimens illustrative of the leading types in all the classes of Animals.
2. The general collection in Geology and Palæontology, including specimens illustrative of all the Geological periods.
3. The Holmes collection of 2,000 Canadian and Foreign Minerals.
4. The Holmes Herbarium, containing specimens of nearly all the plants indigenous to Lower Canada, and a large collection of exotic plants.
5. The Logan collection of 475 characteristic Canadian Fossils and Rocks.
6. The Couper collection of 2,400 Canadian Insects.

All these collections are used to illustrate the lectures, or are open to the inspection of Students.

Faculty of Medicine.

The Principal (ex. officio.)

Professors,—CAMPBELL.

HALL.

FRASER.

SUTHERLAND.

SCOTT.

WRIGHT.

HOWARD.

MCCALLUM.

CRAIK.

Demonstrator,—DR. FENWICK.

Dean of the Faculty,—G. W. CAMPBELL, A.M., M.D.

The thirty-second Session of the Medical Faculty of the McGill University, will be opened on Monday, 7th November, 1864; and be continued during the six months following.

To young gentlemen in need of information upon the best manner of pursuing their studies, the following suggestions appear to recommend themselves.

Exclusively of general education, professional reading for some time previously to matriculation is advised as a preparation, whereby familiarity with technical terms will be gained, and an insight obtained into the subjects to be brought under notice during lectures.

Though three years constitute the shortest time required for College attendance, yet the Student is at liberty to extend it as much further as he pleases; the addition of a year, or even two, is considered to be a great benefit, for it obviates the crowding of branches within too brief a term, and permits of a more extensive attainment of the topics they embrace.

Attention is recommended to be given during the first Session to the primary branches entirely; during the second Session an increase is proper, and two of the final courses may be profitably conjoined with such of the antecedent as are required; while during the remaining period further advance is to be made by completing the cur-

riculum required of the candidate for graduation. Clinical courses should not be taken out during the first Session.

Matriculation is necessary every Session; it is required upon entrance or as early afterwards as possible, and always before any class tickets are procured. The Register is closed annually in the month of December. Class tickets must be taken out within the prescribed period of the current session, and will not be granted after its expiration.

The ample and varied means which are placed at the disposal of the student by this school in its spacious accommodations and abundant provisions, together with the large hospitals in connection with it, are briefly referred to in the following pages.

COURSES OF LECTURES.

The number of Professors in the Faculty is nine; the number of Classes, ten; two of the classes (often conjoined in European Schools) being held by one Professor.

1. ANATOMY.—(Prof. Scott)—The fresh subject is chiefly employed in the illustration of the Lectures in this branch, aided however, by dried preparations, wax models, plates full size of life, &c., The Dissecting Room is under the direction of the Professor, aided by the Demonstrator of Anatomy. It is open from 8 a.m. to 10 p.m., being lighted with gas. All the usual conveniences are supplied, and the Demonstrator will be in attendance to assist the pupils in their operations.

2. CHEMISTRY.—(Prof. Sutherland)—Inorganic Chemistry is fully treated; and a large portion of the course is devoted to Organic Chemistry and its relations to Physiology. The branches of Physics bearing upon or connected with Chemistry, also engage the attention of the class. For experimental illustration, abundant apparatus is possessed by the Professor, among which may be enumerated, a powerful Air Pump—Oxy-Hydrogen Microscope—Polariscope—Extensive series of Crystallographical models—Electrical and Galvanic apparatus, &c., &c.

3. MATERIA MEDICA.—(Prof. Wright)—This course is illustrated from a Cabinet of Pharmacological objects; by Plates of Medicinal Plants, (Roque, Stephenson and Churchill)—by dried specimens

&c., &c. Analytical experiments with the ordinary re-agents, are also shown; and diagrams, with other illustrations, are used.—*Dietetics, Pharmacy, and Therapeutics* are included in the course.

4. INSTITUTES OF MEDICINE.—(Prof. Fraser)—under which are comprised *Histology, Physiology, General Pathology and General Therapeutics*. The minute Structure and Composition of the various Organs, and the Fluids and Tissues of the Body in health and disease, are explained and illustrated by Microscopic Preparations, Plates and Preparations from the Museum.

5. PRACTICE OF MEDICINE.—(Prof. Howard)—The extensive series of plates contained in the Library, Libert, Cruveilhier, Carswell, Hope, Alibert, Willis, Bateman, &c., &c., will be employed; also Morbid Preparations and models of diseased parts.

6. SURGERY.—(Prof. Campbell)—Divided into Principles and Practice, including Surgical Anatomy and Operative Surgery, exhibited on the subject.—Quain's large plates, Maclise, Dalrymple, &c. The various surgical instruments and apparatus exhibited, and their uses and application explained and practically illustrated.

7. MIDWIFERY.—(Prof. Hall)—Including diseases of females and infants, illustrated by a series of Drawings on a large scale; by humid preparations; by models in wax; and by the use of the artificial Pelvis.

8. MEDICAL JURISPRUDENCE.—(Prof. McCallum)—Includes Toxicology—the modes of testing for poisons are exhibited, and post-mortem appearances illustrated by plates—Insanity, Public Hygiene and Medical Police are touched upon.

9. CLINICAL MEDICINE.—(Prof. McCallum.)—Taught by lectures, and at the bed side—Physical Diagnosis taught practically and each pupil invited to take part in it.—Examination of the urine, chemically and microscopically explained and illustrated.

10. CLINICAL SURGERY.—(Prof. Craik)—Taught in similar manner. For both these Classes ample material is afforded by the cases at the Montreal General Hospital.

11. Beside the above classes, Students are required to attend one course of Botany and one course of Zoology.

LIBRARY AND MUSEUM.

The Library contains upwards of 3000 volumes, including the most useful books for reference, as well as the recent elementary ones; the works of the older authors as well as the most recent. It is open to the Student without charge, under necessary regulations for the care of the books. The Museum contains a large number of preparations, chiefly pathological; also, wax and papier maché models.

HOSPITALS.

The Montreal General Hospital is visited every day by the Medical officers in attendance. After the visit a large number of out-door patients are examined and prescribed for.

The Operating Room (used also for a Lecture Room) is so constructed as to suit the convenience of the Students in obtaining a good view of the operations going on.

The University Lying-in-Hospital is under the direction of the Professor of Midwifery. Students who have already attended one course of his lectures, are furnished with cases in rotation.

PAST SESSION.

The number of Matriculated Students in the past Session was 177, of these 83 were from Canada East, 86 from Canada West, 1 from Nova Scotia, 1 from New Brunswick, 1 from Prince Edward Island, and 5 from the United States.

The number of Students who passed the Primary Examination, which includes Anatomy, Chemistry, Materia Medica, Institutes of Medicine, and Botany or Zoology, was 31, as follows:—

Mr. JOHN W. BLYH, Quebec C. E.	Mr. STEWART CRICHTON, Prescott, C.W.

PRIZES

The three University prizes,—given this Session by the Medical Faculty,—were awarded as follows :

For the best Thesis, Wm. W. SQUIRE, A. M., Montreal.

For the best Examination in the Final branches, D. HOWARD HARRISON, St. Mary's.

For the best Examination in the Primary branches, KENNETH REID, Montreal.

The Professor's prize in Clinical Medicine, to WM. W. SQUIRE, Montreal, and HERBERT S. TEW, Montreal.

In Botany the prize was given to W. H. FRASER, Perth.

In Zoology to W. H. FRASER, Perth.

The Theses that were deemed worthy of competing for the prize, were those of MESSRS. C. F. BULLEN, W. KEMPT, and MILLS K. CHURCH.

EXTRACTS FROM THE REGULATIONS OF THE FACULTY.

CHAP. I.

Relative to the Courses of Lectures, Fees, &c.

1st. Each Professor shall deliver at least five lectures during the week, except in the classes of Clinical Medicine and Clinical Surgery, in which only two Lectures shall be required; and in that of Medical Jurisprudence, if extended through six months, in which case three Lectures a week shall suffice.

2nd. Each Lecture shall be of one hour's duration.

3rd. Every Professor shall occasionally examine his class upon the subjects treated of in his preceding Lectures; and every such examination shall be considered a Lecture.

4th. A roll of the names of the Students attending each class shall be called from time to time.

5th. All tickets which have not a Certificate of attendance attached, shall be rejected when presented as testimonials previous to examination, unless the omission can be satisfactorily accounted for.

6th. The Fee for each class shall be \$12, with the following exceptions: for that of Medical Jurisprudence, \$10; for those of Clinical Medicine and Clinical Surgery, \$6 each, for Botany and Zoology, \$5. The Class Fees are payable in advance.

7th. Any Student, after having paid the fees, and attended two courses of any class, shall be entitled to a perpetual ticket for that class.

8th. The course of all the classes, except those of Clinical Medicine, Clinical Surgery and Medical Jurisprudence, shall be of six months' duration; the Classes of Clinical Medicine and of Clinical Surgery of three months' duration; and that of Medical Jurisprudence, either of three months' duration, in which case Five Lectures a week shall be given, or of six months' duration, in which case only three Lectures a week shall be required.

9th. The courses shall commence on the first Monday in November, and with the exception of a vacation at Christmas, shall continue to the end of April.

10th. The matriculation examinations will be held during the first week of the Session.

CHAP. II.

Of the Qualification and Studies of Students and Candidates for the Medical Degree.

1st. All Students desirous of attending the Medical Lectures, shall, at the commencement of each Session, enroll their names and residences in the Register of the Medical Faculty, and procure from the Registrar a ticket of Matriculation, for which each Student shall pay a fee of \$2.

2nd. The said Register shall be closed on the 31st day of December in each year, and no tickets obtained from any of the Professors shall be received without previous Matriculation.

3rd. No one shall be admitted to the Degree of Doctor of Medicine and Master of Surgery who shall not either; 1stly, have attended Lectures for a period of at least Four Sessions in this University, or some other University, College, or School of Medicine, approved of by this University, or 2ndly, have studied medicine during at least Four years, and during that time have attended Lectures for a period of at least Three Sessions, either in this University or some other University, College, or School of Medicine, approved of by this University.

4th. Candidates for the final Examination shall furnish Testimonials of attendance on the following branches of Medical Education, viz :

*Anatomy,
Chemistry,
Theory and practice of Surgery,
Principles and practice of Surgery,
Midwifery and diseases of Women and Children,
Materia Medica and Pharmacy,
Clinical Medicine,
Clinical Surgery,
Practical Anatomy,
Institutes of Medicine,*

} Of which two Courses
will be required

*Medical Jurisprudence,
Botany and Zoology,*

} Of which one Course
will be required.

Provided, however, that Testimonials equivalent to, though not precisely the same as those above stated, may be presented and accepted.

5th. The Candidate must also give proof by ticket of having attended during twelve months the practice of the Montreal General Hospital, or that of some other Hospital, approved of by this University.

6th. Moreover no one shall be permitted to become a Candidate for examination who shall not have attended at least One Session of this University, and during that Session at least four six months' classes, or three six months' and two three months' classes.

7th. Students in Medicine will be examined in Classics, and in English or French Composition, the standard being such as may from time to time be determined by the Faculty.

8th. Every Candidate for the degree must, on or before the first day of April, present to the Dean of the Medical Faculty testimonials of his qualifications, entitling him to an examination, and also a Thesis or inaugural dissertation, written by himself, on some subject connected with Medical or Surgical Science, either in the Latin, English or French Language. He must at the same time, deliver to the Dean of the Faculty the following Certificate :

MONTREAL—18—.

I, the undersigned, being desirous of obtaining the Degree of Doctor of Medicine and Master of Surgery, do hereby declare that I have attained the age of twenty-one years (or, if the case be otherwise, that I shall have attain-

ed the age of twenty-one years before the next graduation day), and that I am not, (or, shall not be at that time) under articles as a pupil or apprentice to any Physician, Surgeon, or Apothecary. (Signed), A. B.

9th. The trials to be undergone by the Candidate shall be :

1. The matriculation examination referred to in Section 7 supra. Students will undergo this Examination in the first session of their attendance, unless allowed to postpone it by special permission of the Faculty.

2. The private examination of his Thesis as evidence both of Medical and General acquirement, followed (if approved) by its public defence.

3. A general examination on all the branches of Medical and Surgical Science, either oral or by written papers, as may from time to time be determined by the Faculty.

This examination will be divided into Primary and Final, the former comprehending the branches of Anatomy, Chemistry, Materia Medica, Institutes of Medicine, and Zoology or Botany; the latter, those of Practice of Medicine, Surgery, Midwifery and Medical Jurisprudence. It will be optional with the student to present himself for the primary examination at the end of the third session.

10th. The following Oath or affirmation will be exacted from the Candidate before receiving his Degree :

SPONSIO ACADEMICA.

In Facultate Medicinæ Universitatis Collegii McGill.

Ego, A——B——; Doctoratus in Arte Medica titulo jam donandus, sancto coram Deo cordium scrutatore, spondeo, me in omnibus grati animo officiis, erga hanc Universitatem ad extremum vitæ halitum, perseveraturum; tum porro artem medicam, caute, caste et probe exercitaturum, et quoad in me est, omnia ad ægrotorum corporum salutem conducentia cum fide procuraturum; quæ denique, inter medendum, visa vel audita silere conveniat, non sine gravi causa vulgaturum. Ita præsens mihi spondenti adsit Numen.

11th. The fee for the degree of Doctor of Medicine and Surgery shall be twenty dollars, to be paid by the successful Candidate immediately after examination, together with a Registration Fee of one dollar.

12th. The money arising from the Fees of Graduation, as well as those of Matriculation, shall be applied to the enlargement of the Medical Library and Museum, and to defraying their expenses.

Faculty of Law.

The Principal, (ex-officio.)

Professors—BADGLEY.
ABBOTT.
TORRANCE.
LAFRENAYE.
LAFLAMME.
CARTER.

Dean of the Faculty,—HON. J. J. C. ABBOTT, Q.C., B.C.L.

The several courses of Lectures in the Faculty of Law, comprise every branch of Legal Study.

The Educational Officers of this Faculty have felt that the Law of Lower Canada, though in many of its details purely local, retains, as its leading characteristics, the noble and imposing features of the civil law, and that the principles established in the Roman jurisprudence, still form the groundwork of many of its departments. The Lectures, therefore, though prepared with especial reference to the Law of Lower Canada, have been as far as consistent with their primary object, divested of any purely sectional character, and are made to inculcate such comprehensive principles, as form, to a great extent, the basis of every system of jurisprudence.

It is considered that this system will afford to students of the Laws of Lower Canada, a better foundation for their subsequent studies, and tend to give them a more extended and comprehensive grasp of legal subjects, than a course of instruction conducted solely with reference to local law; while it is hoped, in view of the increased importance which the study of civil law is everywhere assuming, that the advantages offered, and the mode of education adopted by this Faculty, will open to it an extensive field of usefulness.

The complete course of study in this Faculty extends over three years; but may be shortened to two years, when the student matriculates in the third year of his indentures.

The following are the subjects comprised in the complete course of three years :—

Students who avail themselves of the privilege of attending two years only, will, nevertheless, be required to pass an examination in the subjects comprised in the three years' course.

Occasional Students will be received without matriculation, for attendance on any particular series of Lectures; and Students in the Faculty of Arts will be permitted to attend any of the courses, on such terms and conditions as may be fixed by that Faculty.

The matriculation fee is ten shillings, payable only by Students who have not previously matriculated in any other Faculty. The annual fee for the full course of Lectures is fixed for the present at three pounds ten shillings; for attendance on any one series of Lectures, one pound five shillings per annum, and the fee on graduation, including *diploma*, is one pound five shillings.

Students who have completed their course of three years,—or of two years, if they have commenced in the third year of their indentures,—and have passed a satisfactory examination, will be entitled, upon the certificate and recommendation of the Law Faculty, to the Degree of Bachelor of Civil Law.

Applications for admission may be made to the Dean of the Faculty or to the Secretary of the College.

McGill Normal School,

Affiliated to the University, under the control of the Superintendent of Schools and the Corporation of the University.

Principal and Associate Professor of Natural History and Agriculture—J. W. Dawson, LL.D., F.R.S., &c.

Ordinary Professors { William Henry Hicks, Esq.
Sampson Paul Robins, B.A.

Associate Professor of French } Pierre J. Darey, M.A.

Instructor in Classics —James McGregor, B.A.

“ in Drawing —Mr. James Duncan.

“ in Music —Mr. R. S. Fowler.

“ in Elocution—Mr. John Andrew.

The Institution is intended to give a thorough training to teachers, especially for the Protestant population of Lower Canada. This end is attained by instruction and training in the Normal School itself, and by practice in the Model Schools: and the arrangements are of such a character as to afford the greatest possible facilities to Students from all parts of the Province.

The Eighth Session of the school will commence on the 1st September, 1864, and extend to the 1st July, 1865.

The complete course of study extends over three years, and the Students are graded as follows:—

1. *Elementary School Class*.—Studying for the Elementary School Diploma.
2. *Model School Class*.—Studying for the Model School Diploma.
3. *Academy Class*.—Studying for the Academy Diploma.

1. *Conditions of Admission.*

Candidates for admission into the Junior Class will be required to pass an examination in Reading, Writing, the Elements of Grammar, Arithmetic and Geography. Admission into each of the higher classes requires a knowledge of the subjects of the previous one.

All Students must produce certificates of good moral character from the clergyman or minister of religion under whose charge they have last been, and also testimony that they have attained the age of sixteen years. They will also be required to sign a pledge that they purpose to teach for three years in some public school in Lower Canada.

2. Privileges of Students.

On complying with the above conditions, all students will be recognised as *Teachers in Training*; and as such, will be entitled to free tuition, with the use of text books, and to bursaries in aid of their board not exceeding \$36.00 per annum in the case of those in the Junior and Senior Classes, or \$80.00 in the case of those in the Academy Class, should they be successful in obtaining the diploma at the final examination. A portion of this allowance will in future be payable to students not resident in Montreal, on their passing the semi-sessional examination at Christmas.

Under the regulations subjoined, and with the view of extending the benefits of the school to all parts of the country, those who reside at a distance of more than ninety miles from the city of Montreal, will also be entitled to a small allowance for travelling expenses, proportionate to the distance.

Students resident in Montreal may share in the bursary fund, on producing certificates from their minister or clergyman that such aid is absolutely necessary to their continuing in attendance at the school.

In addition to religious instruction of a general Protestant character by the Professors, arrangements will be made for special religious instruction by ministers representing the several denominations with which the pupil-teachers may be connected.

No boarding-house is attached to the institution, but every care will be taken to ensure the comfort and good conduct of the pupil-teachers in private boarding-houses to be selected by the Principal. Board can be obtained at from \$9 to \$12 per month.

At the close of the first year of study, pupil-teachers may apply for examination for diplomas giving the right to teach in Elementary Schools; and after two years' study, or if found qualified at the close of the first year, they will on examination be entitled to diplomas as teachers of Model Schools.

Students having passed the examination in the Model School class, or having advanced to the requisite knowledge, may go on to the Academy class, and on examination, may obtain the Academy Diploma.

All the preceding regulations and privileges apply to female as well as male pupil-teachers.

Persons holding the degree of B.A. or M.A. of any University in Lower Canada, may receive the Academy Diploma on passing an examination in the art of teaching and in such other subjects, necessary to the Academy Diploma, as may not have been included in their University examinations.

Mathematics—Trigonometry, Solid Geometry, and Conic Sections as in Chambers' Solid Geometry, Theory of Equations, Elements of Calculus as in Weale's Series, Mechanics and Astronomy—Galbraith and Haughton.

Classics—Latin and Greek continued from the Model School Class.

Chemistry—Organic Chemistry.

Geology—As in Page's Text Book.

History, Geography, French, Elocution and Drawing, continued from the Model School Class.

EXTRACTS FROM THE REGULATIONS.

Special Regulations for the admission of Pupil-teachers.

Article First—Any person desirous of being admitted as a pupil-teacher, must apply to the Principal of the Normal School, who, on his producing an extract from the Register of Baptisms, or other evidence, showing that he is fully sixteen years of age, with the certificate of character and conduct required by the 16th article of the general Rules and Regulations, approved by His Excellency, the Governor General in Council, on the 22nd December, 1856, shall examine the candidate.

If upon this examination, it is found that the candidate can read and write sufficiently well, knows the rudiments of Grammar in his mother tongue,—Arithmetic as far as the rule of three inclusively, and has some knowledge of Geography, the Principal shall grant him a certificate.

Article Second.—The candidate having thus obtained the certificate of the Principal, shall then, (in the presence of two witnesses who, with the Principal, shall countersign the same,) sign an application in writing for admission, containing the declaration required by the 23rd general regulation. This shall be forwarded to the Superintendent of Schools, together with all the certificates and other documents required, and if the whole be found correct the Superintendent shall cause the name of the candidate to be inscribed in the register, and due notice thereof shall be given to the Principal.

Article Third.—The pupil-teachers shall state the place of their residence, and those who cannot reside with their parents, will be permitted to live in boarding-houses, but in such only as shall be specially approved of. No boarding-house having permission to board male pupil-teachers, will be permitted to receive female pupil-teachers as boarders, and *vice versa*.

Article Fourth.—Every pupil-teacher on passing the examinations, will be allowed a sum not exceeding £9, to assist in paying his board.*

Article Fifth.—Every pupil residing at a distance of more than ninety miles from the city of Montreal, shall be entitled to receive an allowance for travelling expenses, proportionate to the distance, but not to exceed two pounds ten shillings *per annum*.

* Except in the case of Teachers in training for the Academy Diploma, who may receive a sum not exceeding £20.

Article Sixth.—The total amount of allowances paid to pupil-teachers under the foregoing articles, shall not exceed £333 6s. 8d. currency, yearly—that being the sum granted for this object; and when the whole of this amount is appropriated, such pupil-teachers as may apply for admission shall not be entitled to any portion thereof, until vacancies shall occur.

Special Regulations for Government and Discipline.

Article First.—Pupil-teachers guilty of drunkenness, of frequenting taverns, or entering disorderly houses or gambling houses, of keeping company with disorderly persons, or of committing any act of immorality or insubordination, shall be expelled.

Article Second.—There shall be no intercourse between the male and female pupil-teachers while in the school, or when going to, or returning from it. Teachers of one sex are strictly prohibited from visiting those of the other.

Article Third.—They are on no account to be absent from their lodgings after half-past nine o'clock in the evening.

Article Fourth.—They will be allowed to attend such lectures and public meetings only as may be considered by the Principal conducive to their moral and mental improvement.

Article Fifth.—Proprietors of boarding-houses authorised by the Principal, shall report to him any infraction of the rules, with which they may become acquainted.

Article Sixth.—The Professors shall have the power of excluding from the lectures for a time, any student who may be inattentive to his studies or guilty of any minor infraction of the regulations.

Article Seventh.—Pupil-teachers shall be required to state, with what religious denomination they are connected, and lists of the students connected with each denomination shall be furnished to one of the ministers of such denomination resident in Montreal, with a request that he will meet weekly with that portion of the pupil-teachers, or otherwise provide for their religious instruction.

Every Thursday afternoon, after four o'clock, will be assigned for this purpose.

Article Eighth.—In addition to punctual attendance at the weekly religious instruction, each student will be required to attend public worship at his own church, at least every Sunday.

Any additional information that may be desired, may be obtained on application to the Principal, or to either of the Professors.

MODEL SCHOOL OF M'GILL NORMAL SCHOOL.

Head Teacher of Boys' School—James McGregor, B.A.

“ “ Girls' School—Miss Mary Coady.

These schools can accommodate about 300 pupils, are supplied with the best furniture and apparatus, and conducted on the most modern methods of teaching. This School offers the higher kind of instruction and the mental training which together constitute the foundation of what is called a *Liberal Education*. As a Department of the University, it offers a thorough preparation for the College Course.

The Course of Instruction includes the *Latin, Greek, English, French and German Languages; Geography and History; Arithme-*

tic, Algebra, Plane Geometry, Plane Trigonometry with the use of *Logarithms, Mensuration* and the Elements of *Natural Philosophy; Writing & Book-Keeping; Drilling & Gymnastics*. A *Volunteer Rifle Association* under Military Drill has been formed of the elder Boys and is recognised by the Military Authorities. The *Religious Instruction* is not sectarian, and attendance upon it is required only from Pupils who are Protestants. Details of the above Course are subjoined in a Programme for the year. An examination of it will shew that, whilst the Latin and Greek Languages have that prominence which necessarily belongs to them in Higher Education, provision is made to impart at the same time a thorough English and Commercial Education, and that French, as being one of the colloquial languages of the country, is much cultivated.

The complete Course extends over a period of six or seven years, but Pupils are admitted for any portion of that time into any Form for which, upon examination, they are found qualified.

The Session, which is divided into four equal Terms, commences on the 1st September, and with the exception of a fortnight at Christmas and a few days at Easter, continues to the 1st July.

The full School hours are from 9 to 12½ o'clock, a.m., and from 2 to 4 p.m. every day in the week except Saturday; but the time for the Preparatory and the First Forms is shorter by an hour each day.

The School is divided into seven Forms. The Preparatory is a Lower School, in which young boys receive the training necessary to fit them for the commencement of the regular Curriculum.

For admission into this Form, it is required that the Pupil shall have attained the age of seven years, and be able to read moderately well. Regular early training is of so great importance that the entrance of a Pupil should not be delayed beyond the age of nine. The best time for entrance is at the commencement of the Session, when, owing to the promotions that take place, the classes are remodelled for the year.

The Pupils of the First, Second, Third and Fourth Forms, next above the Preparatory, are not allowed any option in their studies, but must take the whole course of instruction prescribed for them. The Pupils of the Fifth and Sixth Forms are divided into two "Sides." The "Classical Side" is intended for those boys who desire a more extended and accurate knowledge of the ancient Languages.

The "Commercial Side" is adapted for those who are to enter upon mercantile pursuits. When a Pupil has reached the Fifth form, his Parent or Guardian may select either of these sides for him, but, the choice having been made, the Pupil must pursue all the course of instruction appointed for the side to which he belongs.

Special Reports are sent, whenever it seems necessary, to the Parent or Guardian of any Pupil who has been absent, negligent of any study, or incorrect in his conduct. A Quarterly Report is made of the progress, attendance and conduct of every Pupil, shewing his rank in his Form for each study.

At the end of each Term Class Examinations are held both Written and Oral, and at the close of the Session a Public Examination takes place, followed by a Distribution of Prizes and Award of Honours, the lists being published. The Highest Honour is the Davidson Gold Medal, which is awarded to the Head Boy of the School for the year, provided the Examiners are satisfied that his attainments reach a certain standard.

The Pupils are required to prepare themselves every evening in their work for the ensuing day, as exhibited in a Time-table. As their progress will depend very much upon the diligent performance of this duty, Parents are particularly requested to allow no arrangements to interfere with it. Parents having sons at the School are earnestly invited to frequent intercourse with the Masters, so as to aid them in securing that regularity and industry so necessary to success in education. The classes are visited periodically by a Committee of the Board.

The School Building is in a healthy and airy situation, and has convenient interior arrangements, with those modern improvements which secure proper warmth and ventilation. A very good Gymnasium has been erected in the play-ground adjoining the School.

The Rector, who resides a short distance from the City, has made arrangements to receive a limited number of Pupils of the High School to board with him. Mr. Gibson, Mr. Kemp and Prof. Darey, Masters of the School, have also accommodation for Boarders.
