Pulp Mills and the Salmon Fishery.

It is said that because salmon are not as plentiful on the Miramichi now as they were in the earlier history of the river...

In the first place, it is a matter of wonder with those who give attention to the salmon problem that the stock of fish maintained on the Miramichi ever as well as it is, considering the recklessness with which it is attacked by many of the people living along the river...

As to the theory that the acid from the pulp mills affects the fishery in the least, all the authorities, as well as scientific data are against it.

The most eminent European authority on the subject is, perhaps, Professor Mieschke, whom it was referred to by the American government...

The quantity of water in the Miramichi opposite the town of Chatham is only a mile of the river—174,000,000 gallons, which, with a tidal change twice in every 24 hours, and the current of fresh water from the Northwest and Southwest passing along, is a volume to which all that comes from the pulp mills bears a ridiculously small proportion.

Last Thursday evening was quite a memorable one for many persons in St. John, the medals in commemoration of the going out of our New Brunswick volunteers, to do service in Charlotte County at the time of the Fenian Raid...

It is hardly necessary for a newspaper published in Northumberland to say anything on the subject of the fitness of the new premier for the office to which he has been called.

Mr. Foster was a very different man from the man who had been called to the office at that time, and those of them who read the Sun must have an attack of "the creeps" when that paper refers to "uncertain allies."

The new government, although it does not differ from the old one in many respects, it is regarded as an entirely new administration under a new head, with new men in two of the departmental offices.

When it became known on Saturday afternoon that Mr. Tweedie was to return home from Fredericton that evening by the Canada Eastern Railway...

It is not to be wondered at that the Sun is after Mr. Tweedie's scalp, for it has ever manifested hostility towards the north shore of New Brunswick, but these reasons that we, at the North Shore, are proud of Premier Tweedie and feel that the government of which he is the head will conduct the affairs of the Province wisely and honestly...

A Sample of Opposition Methods.

The Globe, Cleverer, Sun and other papers of the Province, which are playing Hon. Geo. E. Foster's game against the local government, profess to entertain the idea that one of the reasons for Hon. Dr. Emmerson's retirement from the premiership was because Hon. Dr. Pugsley, as solicitor for the Restigouche and Victoria railway, had made application to the local government for a loan or guarantee of \$100,000 to enable the company to complete that work.

The facts are that the Restigouche and Victoria Railway's \$100,000 proposition was presented to the Lieutenant Governor in Council on 29th July by memorial. The memorialists were heard on that day, and on the 27th—the very next day—the Council unanimously decided in favor of the loan, and their decision was not appealed against.

Mr. Pugsley, the other new member of the government, and who succeeded to the attorney-generalship, is one of the best known men in New Brunswick, and he has been Speaker of the Assembly and was at one time Solicitor-General under Hon. A. G. Blair's premiership.

It is very very comical that the Sun is playing just now in the interest of Hon. Mr. Foster. His huge tactical blunder, known as the Moncton convention, has, as everybody in New Brunswick knows, left him without a constituency in the province to which he can safely appeal.

Then, Sir Charles Tupper was induced by Mr. Foster to declare war on Mr. Tweedie, and the latter accepted the gage of battle. He could no longer remain with the "most traitors" and declared that he proposed to help Mr. Blair to defeat Mr. Foster or any of the brood of the unscrupulous "nest."

Such being the situation just now in the Province, it is, of course, a very bitter punishment for the Sun and Mr. Foster to see Mr. Tweedie the premier of New Brunswick, and the existence of this feeling explains the Sun's ill-natured references to the subject on Monday last.

It is positively comical, in view of Mr. Foster's record on the prohibition question, and of the declaration of Sir Mackenzie Bowell—the present conservative leader in the Senate—that Mr. Foster was "the dirtiest bird in the nest of traitors" to read in the St. John organ that "Mr. Tweedie and his colleagues have been uncertain allies."

The new government, although it does not differ from the old one in many respects, it is regarded as an entirely new administration under a new head, with new men in two of the departmental offices.

When it became known on Saturday afternoon that Mr. Tweedie was to return home from Fredericton that evening by the Canada Eastern Railway, there was general assent to the idea that he must have a reception from his fellow citizens, so that they might give expression to their appreciation of the honor he had secured from them and the county in attaining to the premiership.

It is not to be wondered at that the Sun is after Mr. Tweedie's scalp, for it has ever manifested hostility towards the north shore of New Brunswick, but these reasons that we, at the North Shore, are proud of Premier Tweedie and feel that the government of which he is the head will conduct the affairs of the Province wisely and honestly...

Agents to fill permanent positions with us at GOOD PAY. All supplies free. Circulars of promotion to qualified men.

Mr. Foster's Chum.

This is what the St. Andrew's Beacon says of Hon. Geo. E. Foster's Queen's county chum—

Mr. Hetherington, who was chosen by the conservatives in Queens to contest the local seat with Hon. L. P. Farris, is the same Hetherington who threatened to get gunning for the Frenchmen of Quebec.

Positive vs. Negative Politics.

The Moncton Times intimates that the local government will postpone the bye-elections in Kings and Queens counties until the Dominion contest is brought on. That is, no doubt, Hon. Mr. Foster's idea of the matter, but what he would do under the circumstances and what a competent leader's action would be must necessarily be widely different.

What Mr. Blair has Accomplished.

Mr. Blair had been much abused. None the less, the department over which he presides has never been so well administered. The canal work which his predecessors was dragged on without semblance of a business plan, has been rushed to completion.

McCallan, in behalf of the defendants, consenting, the application was withdrawn on being heard at the October court.

DROWNED AT DALHOUSIE:—Last Thursday afternoon George Moffat, youngest son of the late James Moffat, was drowned at Dalhousie by a small boat accident in which he was trying to board a vessel coming out of that harbor. The body was found Friday morning. The deceased was a clerk with Messrs. George Moffat & Co. It is said that although the drowning was witnessed by a number of persons and there was no doubt that it was purely accidental, a local coroner insisted on holding an inquest, and that his course in the matter was so clearly prompted by ulterior motives that it is probable there will be serious objection to the municipal council passing his bill for the unnecessary expense of the inquiry.

vented a very enjoyable one by all who participated in it. The proceeds amounted to the handsome sum of \$850, which will, when expenses are paid, leave a satisfactory margin to go to the new church fund.

Next Week's Great Show at St. John.

The great international exhibition, at St. John, N. B., is an event which has been anticipated for some time. It will be replete with live stock, agricultural, dairy, natural history and other exhibits.

Colts by the famous sire "Biggs" 2,000 and "Plover" 2,000 will be the grand parade of horse-drawn farms and other exhibits. The show is a most interesting and profitable one for all concerned.

Amateur sports will be a great feature of the fair, including the perennial high dive by a bicyclist riding down an inclined plane from a point 100 feet high from which he makes his thrilling plunge of 70 feet. This feat is unsurpassed in daring.

There will also be a representation of General Baden Powell's historic trip as used by him in the famous defense of Mafeking and a splendid display of fireworks nightly.

The drill shed on the grounds is now an amphitheatre which will seat 2,000 people, and a superior vaudeville show will be given there each afternoon and evening.

In amusement hall, there will be moving pictures of the British Boer War and band music all the time.

There will be horse races at Mosepath, 15th and 19th Sept.

Excursion rates are arranged on all railways and steamboat lines.

Spendings and Horse-Comert.

The Citizens Band of Chatham, gave Premier Tweedie a pleasant surprise on Tuesday evening. They visited his residence about 9:30 and played several pieces on the lawn in front of it.

This evening the band was invited to play at the home of Mrs. W. C. Matthews, where they were received with a number of beautiful selections with a softness and perfection of tone that would do credit to some of the best ensembles of the central organizations of the larger cities.

Amongst those present during the evening were Messrs. C. A. Bruce, R. A. Lawlor, W. C. Atwood, H. D. Neale and other citizens, who thoroughly enjoyed the evening concert, which ended shortly before 11 o'clock. The premier, who had been out of town and returned home only at about 8 o'clock, highly manifested his appreciation of the band's performance and the presence of those of their coming had prevented the household from being better prepared to receive them, but the bandmen thought they had never been better received or more heartily welcomed.

Grand Ance and L'Amec.

Rev. S. J. Doucet of Grand Ance, and Rev. J. R. Doucet of L'Amec, who visited Europe this summer, have returned home, having arrived at Quebec on the Dominion line on Saturday last. They visited the great Paris Exhibition, and went to Germany, Switzerland and other European countries. Father J. R. Doucet going as far as Rome. Their parishioners were delighted to welcome the reverend gentlemen home again in renewed health for the work of their important parishes.

To Our Readers.

The Exhibition.

With every foot of floor space occupied with exhibits more extended form and variety than in previous years, with an immense show of cattle and thoroughbred horses, a large poultry exhibit and special provision for the amusement and free intertainment of all, it goes without saying that this year's exhibition by the St. John Exhibition Association will be the grandest and best ever offered in the Maritime Provinces.

Large entries of cattle, poultry, horses, dairy and in other lines have been received from Nova Scotia, P. E. Island, Maine, Ontario and Quebec, all testifying to their belief in the superiority of the exhibition to be held in this city.

The better and class-making competition has many entries, and will be of the greatest interest to everyone, even to those not familiar with the process in either case.

The exhibition will open on the 10th of September and remain open from 9 a.m. till 10:30 p.m., daily (Sunday excepted), until the 19th September, inclusive.

Bay du Vin Picnic.

Rev. Father McDonald's picnic in aid of the new R. C. Church at Bay du Vin, took place on Wednesday of last week on the church grounds at Mr. Ronald McDonald's, about a mile from the Victoria Bridge.

There was a large attendance of all classes from the immediate vicinity, as well as from Black River, Richibucto, Hawkeville, St. Nicholas, and other places. The str. St. Nicholas, with one of the Miller barges in tow, took down a large party from different points, including St. Michael's, Black River and McEcheran's Orchestras, which was in charge of Mr. Joseph Cahill, Mr. McEcheran being detained in Chatham on account of a family bereavement. There were the usual sports and games and there, with dancing, were heartily enjoyed by the large assemblage. The dinner, tea and refreshments provided by ladies of the congregation, who were assisted by a number of their neighbors not of their faith, were excellent, and all the arrangements in other respects were carried out most satisfactorily, so that the occasion was

The Exhibition.

With every foot of floor space occupied with exhibits more extended form and variety than in previous years, with an immense show of cattle and thoroughbred horses, a large poultry exhibit and special provision for the amusement and free intertainment of all, it goes without saying that this year's exhibition by the St. John Exhibition Association will be the grandest and best ever offered in the Maritime Provinces.

Large entries of cattle, poultry, horses, dairy and in other lines have been received from Nova Scotia, P. E. Island, Maine, Ontario and Quebec, all testifying to their belief in the superiority of the exhibition to be held in this city.

The better and class-making competition has many entries, and will be of the greatest interest to everyone, even to those not familiar with the process in either case.

The exhibition will open on the 10th of September and remain open from 9 a.m. till 10:30 p.m., daily (Sunday excepted), until the 19th September, inclusive.

Bay du Vin Picnic.

Rev. Father McDonald's picnic in aid of the new R. C. Church at Bay du Vin, took place on Wednesday of last week on the church grounds at Mr. Ronald McDonald's, about a mile from the Victoria Bridge.

There was a large attendance of all classes from the immediate vicinity, as well as from Black River, Richibucto, Hawkeville, St. Nicholas, and other places. The str. St. Nicholas, with one of the Miller barges in tow, took down a large party from different points, including St. Michael's, Black River and McEcheran's Orchestras, which was in charge of Mr. Joseph Cahill, Mr. McEcheran being detained in Chatham on account of a family bereavement. There were the usual sports and games and there, with dancing, were heartily enjoyed by the large assemblage. The dinner, tea and refreshments provided by ladies of the congregation, who were assisted by a number of their neighbors not of their faith, were excellent, and all the arrangements in other respects were carried out most satisfactorily, so that the occasion was

headed in the inner court and the others were killed by bullets in the center court yard. Their bodies were thrown to the dogs. Mention in Chatham.

The Montreal Amateur Athletic Association base ball team visited Chatham on Sept. 10th and on Sept. 11th. It will be replete with live stock, agricultural, dairy, natural history and other exhibits.

Colts by the famous sire "Biggs" 2,000 and "Plover" 2,000 will be the grand parade of horse-drawn farms and other exhibits. The show is a most interesting and profitable one for all concerned.

Amateur sports will be a great feature of the fair, including the perennial high dive by a bicyclist riding down an inclined plane from a point 100 feet high from which he makes his thrilling plunge of 70 feet. This feat is unsurpassed in daring.

There will also be a representation of General Baden Powell's historic trip as used by him in the famous defense of Mafeking and a splendid display of fireworks nightly.

The drill shed on the grounds is now an amphitheatre which will seat 2,000 people, and a superior vaudeville show will be given there each afternoon and evening.

In amusement hall, there will be moving pictures of the British Boer War and band music all the time.

There will be horse races at Mosepath, 15th and 19th Sept.

Excursion rates are arranged on all railways and steamboat lines.

Spendings and Horse-Comert.

The Citizens Band of Chatham, gave Premier Tweedie a pleasant surprise on Tuesday evening. They visited his residence about 9:30 and played several pieces on the lawn in front of it.

This evening the band was invited to play at the home of Mrs. W. C. Matthews, where they were received with a number of beautiful selections with a softness and perfection of tone that would do credit to some of the best ensembles of the central organizations of the larger cities.

Amongst those present during the evening were Messrs. C. A. Bruce, R. A. Lawlor, W. C. Atwood, H. D. Neale and other citizens, who thoroughly enjoyed the evening concert, which ended shortly before 11 o'clock. The premier, who had been out of town and returned home only at about 8 o'clock, highly manifested his appreciation of the band's performance and the presence of those of their coming had prevented the household from being better prepared to receive them, but the bandmen thought they had never been better received or more heartily welcomed.

TRICK OF A ST. BERNARD.

Dog which shagged almost human intelligence.

Among some interesting dog stories told recently is one concerning a remarkably sagacious St. Bernard, which lived at a house where the writer of the story once boarded.

The dog used to come into my sitting-room, and give me his company at dinner, sitting on the floor beside my chair with his head on a level with the plates. His master, however, fearing that he was being overfed, gave strict injunctions that this practice should no longer be permitted.

On the first day of the prohibition, the dog lay and sulked in the kitchen; but on the second day, when the landlady brought in the dishes, he stole noiselessly close behind her; and while for the moment she bent over the table, he slipped quickly beneath it and waited.

Once more she sat retired than he emerged from his hiding-place, and down in his usual position, and winked in my face with a look which seemed to say: "Haven't I done her?"

In due course the good woman came to change the plates, and as soon as the dog heard her he slunk once more under the table; but in an instant, ere she had time to open the door, he came out again, as if he had suddenly taken another thought, and threw himself down on the rug before the fire, to all appearance fast asleep.

"Ah, Keeper! You there, you rascal!" exclaimed his mistress in indignant surprise, as she caught sight of him.

The dog opened his eyes, half-raised his body, stretched himself out lazily at full length, gave a great yawn, as if awakened from a good sleep, and then, with a wag of his tail, went forward and tried to lick her hand.

It was a capital piece of acting, and the very art of perfect guilelessness was always amusing.

CHAPTER XLII.—Continued.

"Very sudden at the last," said the nurse. "I am afraid it has alarmed you, madam."

Lady St. Just knelt half-crouching on the ground; it was not so much the death of Gerald Dorman that had prostrated her as the story he had told.

"Shall I get anything for you, madam?" inquired the woman, kindly.

"No," then, rising, she looked long on the dead face of the man who had loved her so well.

"He was a faithful friend to our family," she said slowly. "He was my father's secretary, and my husband should see that all proper respect is paid to his memory."

"For, with the quickness of her keen intelligence, she saw that Gerald's death must be made known to her husband. The annuity that had been his would revert to the estate. It would be better to make no mystery of his death, than to have the need 'at present' to mention Oswald.

Once more Lady St. Just bent down and touched the dead man's face with her lips.

"Good bye, Gerald," she said. "You have served me well, you have loved me well—too well for your happiness and for mine."

SOMETHING QUITE NEW—CALIDA

CEYLON GREEN TEA Same flavor as Japan, only more delicious.

About the House.

COOKING VEGETABLES It is very much easier to cook vegetables right than wrong—the trouble is, most cooks ignore the fine points of the process. One is never to cook a wilted thing, if it is in any manner possible, to revive it.

Another thing worth knowing is that when boiling green vegetables, the water should be boiling when the green stuff goes into it. Still another is the importance of skimming. No matter how carefully things have been prepared, it is possible, one ripe Florida Queen pea, most cooks ignore the fine points of the process.

GOOD TO KNOW. When binding up cuts and wounds use linen, not cotton, as the fibres of cotton are flat and apt to irritate a sore place, while those of linen are perfectly rounded.

THE ART OF BED-MAKING. Before making up the beds see to it that the rooms have been aired. On a clear, sunny day open the windows before breakfast and strip the bed, hanging the clothing over chairs near the windows.

OUTSPEEDS A HORSE. Ostriches are not the only swift-running animals that can outstrip the speed of a horse. There is a land crab in Cuba that can rival the ostrich, and go much faster than a horse.
