SAVE HISTORIC CHIPMAN HOUSE.

Protest Against Destruction of the Old Landmark.

Tourist Association Will Take Matter Up—Plans for Old Home Week and Tercentenary.

At a meeting of the executive of the Tourist Association, held last evening, considerable business of importance was transacted, particularly in connection with the Old Home Week and the Tercentenary.
A proof of the Old Home Week and Tercentenary stamp was submitted and was very favorably commented upon. These stamps will be ready for distribution about the middle of the week. A proof of one of the Old Home Week and Tercentenary stamps, also submitted, and was very favorably commented upon. These stamps will be ready for distribution about the middle of the week. A proof of one of the Old Home Week and Tercentenary stamps, also submitted, and was very favorably commented upon. These stamps will be ready for distribution about the middle of the week.

It was decided, if possible, to get the city booklets ready for distribution during the Old Home Week. In past years these booklets have not been published till early in July. This pamphlet contains much valuable information re St. John and vicinity, with summer excursion rates to various points in the province.
Advertising rates were submitted from magazines and papers in Upper Canada, and it was decided to take as much space as they could afford. These advertisements will be started in the first week of May and continue as long as the money lasts. The Association is already advertising in several American magazines and New England papers.

The secretary reported that already the addresses of fully two thousand former New Brunswickers had been received and everything was in readiness to send out the advertising matter as soon as it is received, which will be about May 1st. Many addresses have been received from outside places, the former New Brunswickers showing more interest in the celebration than many St. John people.

The Tourist Association booklet, which is issued every year, is now well under way and it is expected it will be the earliest ever issued by the St. John Association.

Before the meeting adjourned the president, A. B. Bullock, brought up the question of the preservation of the old Chipman house, urging that as it was one of the few historic buildings in the city it should not be torn down. He thought that possibly the building might be purchased and removed to some lot adjoining the city hall, where there is a street designated on the city plans as Chipman Lane, which has never been opened and is nothing but a blind alley and would make an admirable site for the building. It would be a shame that the building which was moved a few rods. It was decided to bring this matter to the attention of the Historical Society and the citizens in general.

The Chipman house and lot was recently purchased by the Y. M. C. A. and the present intention is to pull down the building on the site.

MINISTERS FAVOR SUNDAY BALL.

Clergy of Brooklyn. Say Sunday Baseball Keeps People From More Violent Amusement.

NEW YORK, April 25.—Several prominent ministers in Brooklyn, where various church societies have been making a fight against Sunday baseball, have publicly announced that they can see no harm in playing or attending ball games on the Sabbath day. The unanimous opinion of the clergymen seems to be that persons attending ball games are kept away from more vicious forms of amusement Sunday afternoons.

SOME QUEER GOOD-BYES.

A Turk will solemnly cross his hands on his breast and make a profound obeisance when he bids you farewell. The genial Japanese will take his slipper off as you depart, and say with a smile: "You are going to leave my despicable house in honorable journey. I regard thee!"

The Filipino's parting benediction is bestowed by rubbing his friend's face with his hand.

The German "Leben Sie Wohl" is not particularly sympathetic in its sound, but it is less embarrassing to those it speeds than the performance of the Hindoo, who, when you go from him falls in the dust at your feet.

Fiji Islanders cross two red feathers.

Native of New Guinea exchange chocolate.

The Burmese bend low and say: "Hib Hib."

The South Sea Islanders patte each other's whole-tooth necklaces.

The Russian form of parting salutation is brief, consisting of the single word: "Praschti," which sounds like a sneeze.

The Otaheite Islander will twist the end of the departing guest's robe, and then solemnly shake his two hands three times.

A DANGER.

(Toronto Mail and Empire.)

All of the four great fires which have occurred on the continent within the past few months have been caused by some defect in electric lighting. Chicago, Baltimore, Rochester and Toronto have learned a costly lesson. The control of electricity, now a necessity, where, a few years ago, it was a luxury, must be absolute, or the current may be an agent of the great calamity.

GEORGE GEE NOW ON TRIAL.

Carleton County Murder Case Began Today.

Woodstock Filled With People Eager to See the Murderer of Millie Gee

WOODSTOCK, N. B., April 25.—The first step in the Gee murder trial proper was taken this morning. The court opened at 10 o'clock, the Chief Justice presiding. Attorney General Fugatey and Frank B. Carvell are representing the crown, J. C. Hartley and T. C. L. Ketchum representing the defence. The judge charged the Grand Jury, who retired and have not yet returned. There will, however, be no question as to the finding of the Grand Jury.
A great number of people from all parts of the country have come in to attend the trial, particularly from the country round about Bath. The murder, it will be remembered, occurred at Canaan. George Gee was evidently jealous of his cousin, Millie Gee, but there seems to have been no altercation. They, with two others, were playing cards all the evening of March 12th. George left for his home early Sunday the 13th. He had with him a loaded rifle. As he left he asked Millie to go to the door with him. Others in the house presently heard a shot and Millie fell in the door shot through the hips. The doctors subsequently performed an operation, believing that the bowels had been perforated. It was found that this was not the case, but the girl died the following Wednesday.

LATER.

The jury returned into court shortly before one o'clock and through their deliberations they have found a true bill against George Gee.

HOW TO STOP STRIKES

"The Best Time is a Long Way Before They Begin," Says a Former Labor Leader.

CHICAGO, April 25.—"The best time to stop a strike is a long time before you begin, which is true, if it is Irish," said T. V. Powderly, former president of the Knights of Labor at the annual banquet of the shoe and leather association of Chicago, in the Auditorium hotel, last evening. The speaker, who has the interest of his men at heart will fight the strike at its inception, continued Mr. Powderly, "for of all the cumbersome, costly, wasteful and cruel ways of settling disputes in labor matters the strike is the last resort. Let the labor unions incorporate. Let the labor union have no fear from incorporation. There is nothing the law can reach under incorporation that it can't now."

WEAPONS OF MANY WARS.

Collection of Historical Firearms is Exhibited at the World's Fair.

ST. LOUIS, April 25.—A great collection of firearms of every make and design, of all nations and of all ages, is one of the attractive exhibits at the World's Fair. Every kind of weapon used in wars in bygone ages is shown in this quaint and curious collection. It is one of the exhibits of the department of Forestry, Fish and Game.

This collection contains weapons dating back to the bow and arrow, from which arrows and heavy stones were thrown, the propelling power being simply the elasticity of the wood, as in the American Indian bow. The various stages of the wide-mouthed blunderbuss are also shown, after which comes the modern gun of the flint-lock, muzzle loading type, which were in use so many years before being supplanted by the cap and ball rifle and pistol which, in turn, gave way to the breech-loading, rapid firing guns in use in the most advanced nations of the world of today. Every kind of weapon, from the bow to the modern machine gun, is represented. A number of cannon of various kinds are also shown in this collection.

The most celebrated and interesting of these many guns, doubtless, is an old Conestoga gun, made in London before the discovery of America. This quaint old weapon is inlaid with silver and precious gems and is unique as compared with modern guns. This collection weighs about 20,000 pounds and is valued at \$20,000. Most of the guns are in mahogany and glass cases.

SCHWAB'S FAME.

(Pittsburg Despatch.)

Charles M. Schwab was given a dinner out west last week. James H. Hoyt, who acted as toastmaster, had paid Mr. Schwab a compliment in presenting him to the audience, and the steel man, in responding, said:

"When men speak thus of me I begin to think I must be somewhat of a fellow, but I am always brought back to earth by reminding myself of a little experience I had not long ago. I was driving with my colored boy, Bob. We passed a little girl and her mother. The mother said: 'There is Mr. Schwab now.'"

"The little girl turned toward us, and then innocently inquired of her mamma, 'Which one?'"

A REASONABLE ESSAY.

Here is a schoolboy's composition: "Winter is the coldest season of the year, because it comes mostly in the winter. In some countries winter comes in the summer, then it isn't so cold. I wish winter came in summer in Ottawa, then we could go skating barefooted, and make snowballs without getting our fingers froze. When it snows in summer they call it rain."

CZAR WILL GO TO THE FRONT.

Japanese Bombardment of New Chwang Reported.

Japanese Merchantman Sunk by Russian Warships—General Ian Hamilton is with the Japs

NEW YORK, April 25.—The Herald correspondent in St. Petersburg says he has excellent authority for the statement that the Emperor will go to the seat of war some time in August, the exact date depending upon a happy family event which is expected to take place about that time, and which is a subject of engrossing interest in court circles.

JAPANESE BOMBARDMENT.

TIEN TSIN, April 25.—It is reported upon good authority that the Japanese fleet bombarded the town of New Chwang last night. The Russians here deny that there is any truth in the report.

JAP STEAMER SUNK.

TOKIO, April 25, 6 p. m.—The Russian Vladivostok squadron, after a long period of inactivity, suddenly appeared off Otsu on the east coast of Korea, this morning and sank the Goyo Maru, a Japanese merchant steamer of six hundred tons.

RUSSIAN NAVY CRITICISED.

ST. PETERSBURG, April 25.—The Novoye Vremya today contains a remarkably free criticism of the Russian navy as follows: "It would be well to put an obelisk in front of the admiral's residence. 'Remember Makarov!' His death should be the signal to destroy the old order of things of which he fell a victim, after heroically doing his best with the defective weapons at his disposal. Makarov's death marks a new era in the Russian navy. The old days marked by a middle of carelessness an inefficiency are over and we have learned our lessons."

The nation understands them just as well and learns from the first lesson the necessity of a reform of the personnel of the navy. The present system of promoting officers according to the number of nautical miles they sail may work well in the navy, but it is absurdly dangerous for our, where the capacities of the officers are not taken into account. GEN. CAN HAMILTON IN KOREA.

TOKIO, April 25, 5 p. m.—The foreign military observers assigned to Japan's first army in Korea have been ordered to leave for the front next Saturday. The British attaché at the Japanese embassy, Col. E. H. Crowder of the general staff and Capt. A. P. March, of the artillery corp. The British attachés are Lt. Gen. Ian Hamilton, Col. Hume, Capt. Jardine and Captain Vincent.

SEOUL, April 25, 3 p. m.—Latest reports from Gensan say that the Vladivostok squadron had disappeared.

RUSSIAN HOBBIES.

KHARKOV, Russia, April 25.—Some of the officers of the Vartag and Korietz declare that they do not consider themselves prisoners of war, but merely as shipwrecked sailors, who can fight again. The reception accorded here to the survivors of the two warships crews was very enthusiastic. The officers were repeatedly embraced by women.

RUSSIAN FORCES CONCENTRATED.

ST. PETERSBURG, April 25.—Advices from Mukden indicate that the Russians have completed the concentration of their forces on Mukden, Liao Yan and New Chwang railroad lines. 20,000 men are reported to be in the Russian lines. The Manchurian-Korean frontier. Detachments of Russian cavalry and light artillery hold the towns of Kio Lin, Musan and Seoundan along the river and points on the east coast of Korea offering facilities for landings.

BOSTON HERALD CHANGES HANDS.

BOSTON, April 25.—The Herald today makes the following announcement: "Wm. E. Haskell and J. H. Holmes have purchased the stocks heretofore held by Edwin B. Haskell and Col. E. B. Woods, and thus have become the owners of a controlling interest in the Boston Herald Company, each holding an equal number of shares. Wm. E. Haskell assumes his duties of publisher and will have charge of the business affairs of the paper, while the direction of news and editorial departments will remain with Mr. Holmes."

FIGHT ENDS IN MURDER.

BOSTON, April 25.—Benjamin Farrow, day foreman at the works of the American Steam Gauge and Valve Co. on Camden street, was killed during a fight with Robert McGrath, the night watchman, early this morning. McGrath is colored and 43 years of age. Farrow is about 40 years old. McGrath was taken into custody and admitted the killing. He said Farrow first fired upon him, after which he crushed the fireman's skull with a hammer and then shot him.

A LABOR PREMIER.

Leader of Australian Labor Party is Now Head of the New Commonwealth.

MELBOURNE, Victoria, April 25.—Mr. Watson, the labor leader, who was called upon to organize a ministry after the defeat of the cabinet April 22, on a labor motion, has formed a cabinet with himself as premier and treasurer; Hughes, minister for external affairs; Higgins, attorney general; Batchelor, minister for home affairs; Fisher, president of the board of trade; Dawson, minister of defence; Mahon, postmaster general and McGrigor, vice-president of the executive council. All the members of the new cabinet belong to the labor party, with the exception of Mr. Higgins.

WEBBER AND FIELDS DISSOLVE.

A Famous Theatrical Partnership Broken Up.

NEW YORK, April 25.—The Herald today says: "Webber and Fields signed papers in this city yesterday dissolving their partnership of twenty-six years. Mr. Webber gave Mr. Fields his check for \$40,000 and took over the music hall at 82nd street and Broadway. Mr. Fields will form a partnership with Messrs. Mitchell and Hamlin and will eventually appear in one of their productions at a theatre to be erected for \$40,000 and take over the music hall at 82nd street and Broadway. Mitchell and Hamlin and will eventually appear in one of their productions at a theatre to be erected for \$40,000 and take over the music hall at 82nd street and Broadway."

RUSSIAN HAD SAME THOUGHT.

One of the strangest coincidences on record is chronicled in an English publication giving reminiscences of old happenings in that country. Two country squires named Leaman, or Ivybridge, "two thin, delicate-looking old men, twin brothers, 72 years old, with white hair, very gentle and courteous in manner, red cutaway coats, white cords, black boots, caps and gloves." When past 60 years of age, one night after hunting one of them said to the other:

"I have been thinking neither of us can have much longer to live in this world, and it will be a terrible thing for the survivor to remain here alone. The Guarantee, Warranted for 5 years, \$4.00.

TRUE TO NATURE.

The scenery in Mr. Kirk LaShelle's
production of "The Bonnie Brier Bush"
is delightfully true to nature; or rather
that is what native Scots said of it
when the great play was put on here
last year. The quaint little Campbell
cottage, (exterior and interior), the
haymaking scene, the hill daisies and
sun-tipped foliage, all combine in making
a picture that proves a fitting accom-
paniment to the most fascinating
dramatization ever given in St. John.
York Theatre, May 9 to 14.

last night in Oddfellows' hall.

DESTINATION UNDECIDED.

The C. P. R. S. S. Lake Champlain
sailed from Liverpool on the 19th inst.
and is due at Quebec about the 29th.
The sailing instructions were that the
steamer was to go to Halifax if there
was too much ice in the Gulf of St.
Lawrence. Judging from latest re-
ports from St. Lawrence points, the
probability is that the Champlain will
go to Halifax. This will in no way
interfere with the arrangements for
the transfer of the steamship and im-
migration staffs to Quebec, as the of-
ficials at Halifax will be able to look
after the business if the Champlain
goes there.

POLICE COURT.

**Bargain Prices Rule Today—Why
One Man Wouldn't Tell a
Policeman the Truth.**

There was a choice array of drunks
before his honor at the police court this
morning. The price today was four
dollars, a big cut from yesterday's fig-
ure. They were nearly all simple
drunks, and pleaded guilty, having no
senses to offer.

There was one exception, however,
the offender being Richard Fitzgerald.
Who was found in a very much intoxi-
cated condition in the East side ferry
toll house. Fitzgerald has been in court
several times before, so he was honor-
ed with a fine of \$5 or two months hard
labor.

One Christina Nilson belongs to Den-
mark and has a very poor understand-
ing of English, particularly when he
was asked to explain why he was wan-
dering about Sheffield street at an
early hour this morning. The man
who conducts the boarding house where
Nilson boards, at Milford, explained
that he works in the Cushing box fac-
tory and that he heard Nilson got lost
yesterday. His honor informed Nilson
that he was liable to a fine of \$5 and if
the police found him in the vicinity of
Lower Cove again he would be locked
up. The fine stands against him.

Yesterday afternoon Henry Kornel-
sen was given in charge by Capt. Olson,
of the S. W. Burnham, on a charge of
drunkenness and disorderly conduct.
The man was sent to jail, but will prob-
ably be put on board the steamer when
she is ready to sail.

Officer Semple was in court this morn-
ing and complained that one McCros-
sin, who drives for E. Riley & Co., had
given him false information. In making
his statement to the magistrate
Semple said that McCrosin had used
profane language. It seems that on
Friday last McCrosin told Semple that
he was a graduate of the University of
Western Ontario, and wanted to see him.
He went there only to find that he had
been fooled. McCrosin informed the
court that a couple of weeks ago Mrs.
Bradley's doors had been broken by
some men in a drunken row, and pass-
ing on Friday he saw three men in a
fight near there and told Semple that
Bradley wanted him. He said
that he had seen policemen going to
fight before and thought that if he
merely told the officer that Mrs. Brad-
ley wanted him he would get them
quicker. The magistrate told McCros-
sin to find out who the men were who
were fighting, and let him know, as
he could have them in court on Friday.
This the man agreed to do.

WANT STREET RAILWAY.

**Residents of King St. East, Petition
for Extension Through Carmar-
then, King and Pitt.**

It will be remembered that about a
year ago a largely signed petition was
presented to the council protesting
against the proposed extension of the
street railway through Princess street,
through Westworth street to
King street east to Pitt and along Pitt
to Brittain, there to join the present
line. The petition was largely signed
by residents of Princess street and
members of Centenary church con-
gregation and as a result the Street
Railway Company did not proceed
with the work.

Now the residents of King street
East are out with a petition asking
the street railway to extend their line
from the corner of Princess and Car-
marthen streets, through Carmarthen
street to King street east thence to Pitt
street, connecting with the British
railway line. This petition which is be-
ing largely signed by property owners
and residents of that section is in the
hands of H. D. McCrosin and will
be presented to the railway com-
pany.

WESTERN MEMBERS HERE.

M. Pa. From Ontario and N. W. T.
Helping Emmerson Look Over Can-
ada Eastern.

C. S. Hyman, M. P., of London, Ont.,
and Walter Scott, M. P., for Regina, N.
W. T., are at the Royal. These gentle-
men, together with Mr. Holmes, M. P.
for West Huron, and Mr. Cowan, M.
P., accompanied the minister of rail-
ways on his tour of inspection over
the Canada Eastern, made in connec-
tion with the proposed purchase of the
road by the government. It is said that
the reason for bringing the Ontario and
Quebec members out is to secure the
influence of the western members re-
spect the purchase of the road. Mr. Scott
is a newspaper man and is credited with
being something of a sensationalist,
and it is thought that a series of arti-
cles from his pen would have a great in-
fluence on any western people who
might be inclined to look a little closely
into the past earnings and future pros-
pects of the road.

Messrs. Cowan and Holmes went to
Dorchester with Mr. Emmerson, but
will return this afternoon and go west
with Messrs. Hyman and Scott.

NEEDS MORE LAW.

**Inspector Maher Says Advice of
Inspection Committee Cannot
All Be Carried Out.**

M. W. Maher, inspector of buildings,
was seen this morning by the Star in
reference to the report of Director
Wiseley, Chief Kerr and Chief Clark,
submitted to the safety board at yester-
day's meeting (see page 3). Mr.
Maher said that the report would not
reach his hands until it had been ap-
proved by the council.

There would be no difficulty, Mr.
Maher said, in carrying into effect most
of the suggestions contained in the re-
port. One or two of the suggestions,
however, could not be carried out
without legislative authority. The sug-
gested installation in theatres of as-
bestos fire curtains could not be effect-
ed without legislation, unless, of course,
the theatre proprietors undertook to
provide their buildings with such cur-
tains of their own accord.

Mr. Maher was personally of the op-
inion that places of amusement should
be compelled to adopt every facility
tending to increase the safety of the
public and believed that legislation
should be procured to bring into effect
that end.
