SPRING IMPURITIES IN THE BLOOD Tonic Medicine is a Necessity atThis Season

all fils Season Dr. Williams' Pink Pills for Pale Peo-ble are an all year round tonic, blood-builder and nerve-restorer. But they are specially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter nonths. There is no other season when the blood is so much in need of purify-ing and enriching, and every dose of these pills helps to make new, rich, red blood. In the spring one feels weak and cired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills de-velop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet n disfiguring pimples, eruptions and colls—Dr. Williams' Pink Pills speedily clear the skin because they go to the poot of the trouble in the blood. In the appring anaemia, rheumatism, indigestion, uralgia, erysipelas and many other vubles are most persistent because of or, weak blood, and it is at this time troubles are most persistent because or poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purga-tives at this season, but these only fur-ther weaken themselves. A purgative merely gallops through the system, emtying the bowels, but it does not cure anything. On the other hand Dr. Wil-liams' Pink Pills actually make new blood which reaches every nerve and or ean in the body, bringing new strength, an in the body, bringing new strength, ew health and vigor to weak, easily red men, women and children. Try r. Williams' Pink Pills this springhey will not disappoint you. Sold by all medicine dealers or sent

mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Co., Brockville, Ont.

ANNAPOLIS COUNTY PEOPLE PASS AWAY

Annapolis, N. S., April 18—(Spochal) —The death of John Gormley, an elder-ly and highly respected citizen of this town, occurred here at an early hour this morning, after an illness extending over several months, aged seventy-five years. A widow and four sons survive, William, of Merrimac (Mass.): Sanford, of New York; Whitford, of Winnipes, and Joseph, at home.

Delightfully effective remedy for all throat affections, coughs and colds. As safe for the children as grown folks; contains no harmful drugs and effects speedy cure. Prevents more serious ailments; pleasant medicine to take. Sold in bottles 25c. and 50c. at druggists and dealers.

The Chamberlain Medicine Co., Ton

is visiting her parents, Mr. and Mrs. A. E. Farnham. Mrs. F. C. Brown entertained a large number of friends to tea last Friday. Mrs. A. E. Farnham gave a high tea in honor of her daughter, Mrs. Fountain. Mr. and Mrs. Woodford Wright gave a large party to the young folk last week. The evening was spent very pleasantly in games and amusements and at midnight an elegant supper was served.

Sore Corns Dissolved **Removed Without Pain**

The best wrinkle of all, no plasters or pads or burning salves-they are all relies of the dark ages. The only sure corn doctor-the one that never fails to lift out a sore corn by the roots is Putnam's Painless Corn Extractor. Apply it at night and it dissolves away the painful corn while you sleep. No-thing to equal the painless memoral of corns by Put-am's Extractor. Get a 25c, bottle from and at midnight an elegant supper was served. Two of the victims of the Apartment house fire in Boston were sisters of Mrs. Thos. McCorquindale, of Hartfield. Richard Cronkhite left last week for Winnipeg, Man., where he will be en-gaged with Williams and Ross in trans-portation work. He expects to return in the fall, when, if he likes the country, he will take his family there. A most remarkable freak in nature can, be seen on the farm of Ervine Stairs, of East Watervile, York Co. A perfect model of the "bell" of the built moose hangs in front of the neck of a

lphur mixture. When dry, they are cut in two and packed into boxes

sulphur mixture. When dry, they are cut in two and packed into boxes by ma-chinery. Safety matches are probably the best made for all uses; they do not ignite by friction unless rubbed on a specially prepared surface, so that their use is recommended by insurance companies. Indeed many of these companies insist that only safety matches be used by firms that hold their policies. One style of safety match is in form of a card or comb, these are convenient for the pocket; very dainty "wax safeties" are made for women who use cigarettes, they are of wick dipped in parafine and perfumed and colored to please the special tastes of the user. To the with matches would cease if women would refuse to buy cheap matches from street peddlers, if matches were kept dry after they are purchased, and if they were kept in the canisters away from reach of mice and rats there would be fewer fires. As soon as women insist on good, pine matches, the miserable soft punk match. will disappear.

HOUSEHOLD HINTS. It is a good idea to buy a supply of extra bobbins for the sewing machine. Try thickening the custard for lemon ples with grated potato instead of corn starch.

Cucumbers, now so plentiful in the markets, make delicious boat-shaped shells for a salad course. Before using a new comb wash it in soapy water, and when dry rub with the little olive oil. It will then last twice as

long. To remove blood stains, soak the ar-ticle in cold water, to which ammonia has been added; wash in warm water with naphtha soap.

A good cake box can be made from a large empty lard can by coating the outside with white enamel. A pansy bed is an indispensible part of the little home garden, because pan-sies can always be picked.

sies can always be picked. When ironing children's biouses or aprons put a handkerchief in every poc-ket and there will be no going to school without. The usefulness of a willow chair may be prolonged by giving it one coat of oil stain and another of pure raw lin-seed oil. When pressing velvet, lay the piece to be pressed face down on senter

bered by Friends.

Again the premier rose, with sign of anger. "I am not aware of an thing of the sort," he declared, amit government cheers. "If the honors is prepared to sustain his ernment cheers. "If the he atleman is prepared to sustain ations I will give him a day mose at the earliest possible of

"I have made the charge twice, and the right honorable sentleman has not dealt with it," retorted Bonar Law, "Then am I to understand that he does not want a day for this discus-sion?" asked the premier. "This house and the country wants to know the truth," replied Mr. Law. "It is only by getting the testimony of those directly employed by the government that we shall get at the truth." "I really do not know on what author-ity the honorable gentleman claims to speak for the country," replied the prem-ier.

There was an angry growl from the opposition at this taunt. "They are running away," shoated one Liberal member.

They are running away," shoated one actual damage done by the fire mount to \$85,000. Five buildings absolutely destroyed, these being absolutely destroyed, these being absolutely destroyed, these being and house, barber shop, and meat t. mounted police have continued for bodies. The remains that been recovered were placed in a rary morgue. They can be only lly identified by pieces of the ng, each body being burned to s. DEN DEATH OF 1. C. R. CONDUCTOR April 21. Front Nirm.

hem in this house." Mr. Law's reply to this was lost in the Mr. Law's reply to this was lost in the general noise. John Ward, who a few days ago dé-clared that the house would legislate without interference from either king or army, urged the prime minister himself to introduce a motion which would force the opposition to debate the question, but to this the premier vouchsated no answer. The debate was continued during the evening sitting by Mesers. Morphy (Lib-eral), Lanctot (Liberal), and Garland (Conservative), and was adjourned when

(Conservative), and was adjourned when (Conservative), and was adjourned when the house rose shortly before midnight, by Hon, Charles Murphy. The debate will be continued tomorrow and will probably last out the balance of the

SENTENCED TO DIE JUNE 30

Halifax, N. S., April 20-The sen-nce of death was passed this morn-g by Judge Ritchie upon Edward cok, a Sheet Harbor youth, who was invisited of the murder of Charles saff, a Syrian pediar, on December 2. uesday, June 80 was set for the exe-

Harbor as the person who murdered the eddlar, and he cancluded with an ap-eal that the court investigate the harges.

Chatham, April 21-(Special)—A snow storm set in last night and continued most of the day. The snow is a foot deep and blowing hard with the tem-perature below the freesing point. A snow storm of this extent on April 21 is considered a record.

It wus as quiet as John Lind in town

(Montreal Herald). Canada is rapidly becoming a land of colonels. Col the Hon. Sam Hughes has established a kind of court at Ottawa, with an aristocracy all of his own crea-tion. Thanks to him, Canada now has the privilege of having a colonel as premier of the dominion, a colonel as the premier of British Columbia, a colonel for the premier of Manitoba, a colonel as minister of public works, a colonel as minister of customs, a colonel as post-master-general, and various colonels—in the government ranks—as' members of parliament. And that is not all. Col. the Hon. San won't allow any man, if he can help if

And that is not all. Col. the Hon. Sam won't allow any man, if he can help it, to come into the limelight without being decorated with a colonelcy to give him "tone." Mr. David McNicholl, of the C. P. R., was doubtless flabbergasted to read in the papers yesterday that he was a colonel. "And waur's me regiment?" we fancy we can hear this doughty Scotchman saying. Mr. Chamberlin, of the Grand Trunk, is also dragged from the cares of his weighty office, to bask in the reflected glory of the Hon. Sam, as one of the said Hon. Sam's colonels. Two venerable archdeacons have, at a stroke of Colonel Sam's pen, been con-verted into men whose chief distinction in his eyes in future will be that they bear the rare, the honored and honorable title of colonel. Even Dr. Robert John-ston, of the American Presbyterian church, has been unable to escape. He, too, has been made a man of war—a colonel. In fact, Colonel Sam has now that he was regiment?"

THE ATTACK ON THE GRAND TRUNK

(Toronto Globe.) It is probably too much to expect that Mr. Borden will disavow the charge of wanton waste in the construction of the hational Transcontinental made by his partisan investigators in so far as the Liberal party is concerned. The re-markably complete statement of the actual condition of affairs made by Hon-Geo. P. Graham turned the tables on Geo. P. Graham turned the tables on the government, and it is now on the defensive before the country, with the laberals demanding that unsupported therawe. But as the report was prepared for political purposes the Conservatives in Parliament must at least profess to the railway was wastefully built, and the railway doubles caude here here way was wasteful llions of dollars con

But why should it be regarded as nec-essary to couple the Grand Trunk Pa-cific with the Liberal party in an en-deavor to make political capital and thus injure the credit of one of the greatest of Canadian enterprises in the world's money markets? Here are some of the statements made by Messra. Lynch-Staunton and Gutelius about the G. T. P. and its responsible managers: "Ex-cepting where Mr. Hayes urged the can-cellation of contracts Nos. 16 and 17 n of contracts Nos. 16 cellation of contracts Nos. 16 a and where he gave his not too support to District Engineer Doo his efforts to have a pusher grade Tuque, and where the company to do train-hauled filling, after the road was completed, at half the co by the Commissioners, appreciati gravity of our statement, we ingly find that the Grand Tru Railway, instead of discour-us rather enough ts agreement with the must attribute its w to its indifference to 858 miles of railway for ntractor as to was contractor as to reap the present profit possible therefrom are further informed that in a the G. T. P. to build a seventh line as contractors the Commission inducing that company "not of connive at but to encourage in expenditures on the railway." Now, what are the outstanding on which this grave charge is The Grand Trunk Pacific was the road when completed paving.

The Grand The a number of the worked on I method pursued in rational and the Grand Trunk Pa and the Grand Trunk Pa -letting for five per cent pro-relating for five per cent prothe work a scampedr retoring is snown to warrant any such assertion. On con-tract No. 1 the engineer's estimate was \$1,017,000, the G. T. P. bid \$999,000, and the lowest private bid \$1,146,000. On contract three, which was also eward-ed to the G. T. P. as the lowest tenderer, the engineer's estimate was \$938,000, and the G. T. P. bid \$700.000. the engineer's estimate was \$933,000, and the G. T. P. bid \$767,000. There were no other tenders. On contract four the engineer's estimate was \$2,356,000, the G. T. P. bid \$1,898,000, and the lowest G. T. P. bid \$1,898,000, and the lowest bid from a private contractor \$2,001,000. On contract eleven the engineer's esti-mate was \$1,776,000, the G. T. P. bid \$1,691,000, and the lowest private bid \$1,951,000. On contract fourteen the en-gineer's estimate was \$3,985,000, the G. T. P. bid \$3,986,000, and the lowest pri-vate bid \$4,428,000 giner's estimate was \$3,985,000, the G. 1. P. bid \$3,986,000, and the lowest pri-vate bid \$4,428,000. Twill be noted that on these con-tracts, had the G. T. P. not bid and se-hundreds of thousands of dollars high-er. How in the face of such a record order any honest man charge the com-pany with conniving at the question not merely from the standpoint of hold-ing down profits on individual contracts, but in regard to the prevention of "over-break" and "over-classification," what for the encourage the doing of unneces-sary work at improper prices on the searning construction profits, well know-ing the six-sevenths of the mileage built by private contractors and upon which the G. T. P. was obtaining no contractor's profits. There is no when the G. T. P. That at-tack but emphasizes the fact that the management of the road took all reason-able steps to hold down the cost while anitaining a high standard of construc-tion.

period. During the winter my hogs are fee good deal of alfalfa and clover hay a on this feeding floor is on ideal pla to feed it. I cut the alfalfa into for

to feed it. I cut the alfalfa into four-inch lengths and soaf it a few minutes in a tank of hot water. This does not boil the alfalfa, but just heats it enough to make coarse stems tender and tender-ones more toothsome. The hay is lifted from the tank on a fork and-allowed to drain well, when it is thrown upon the feeding floor. Pigs never leave much of it and for breeding animals it makes an evaluate food. Valley Railway Contractor on Stand in Important

Case

Paid \$4,000,

THE DEFENCE

Mr. Gould Declares Matter Was Plainly Understood at the Time \$12,000 Note Was Given to J. D. Seely-Some Pertinent Questions Regarding the Two Companies.

Wednesday, April 22. The case of Thomas Nagle vs. the Quebec & St. John Construction Com-sany and the St. John & Quebec Rail-vay Company in which the plaintiff is uing on a note for \$12,000, was begun esterday morning before Mr. Justice Ickeown in the circuit court. Hearing ontinued in the afternoon and further ijournment was made until this means yesterday morning before Mr. Justice McKeown in the circuit court. Hearing ontinued in the afternoon and further adjournment was made until this morn-ing. The following jury was selected to hear the case: John H. Hamilton, Ed-ward P. Watson, William Charlton, Frank R. Coleman, Frederick French, Harold Sulls, William A. Stackhouse. William Tait and William A. Stackhouse. William Tait and William H. Pyne were thalenged by the defendant's solicitor, nd Harry J. Short by the plaintiff's olicitor. Dr. W. B. Wallace, K. C., and McInerney and Trueman appeared for the plaintiff, and D. Mullin, K. C., and P. A. Guthrie for the defence. This suit is brought to recover \$12,000 in the amount of a promissory note, dated eb. 17, 1918, made by the defendants and payable one year after the date shereof to James D. Seely, by whom the lote was subsequently assigned to the plaintiff. H. O. McInerney outlined the mound be admitted in evidence, without S. Nere was a lengthy argument between bounds as to whether or not the note hould be admitted in evidence, without its being proved in the usual way. Dr. Wallace contended that it should a admitted inasmuch as it was ad-uitted by the defence, that the defend at's were makers of such a note, but Mr. Mullin said that the note was not iven by the defendant but by A. R.

Ir. Mullin said that the hote was no-iven by the defendant but by A. R. bould in payment of a moral claim on he company. Finally the note was ad-nitted and was identified by the wit-

neited and was identified by the wit-tess. Mr. Nagle then said that he paid \$1,-100 for the note, giving two notes of his hown at three months, one for \$1,1850, and tch other far \$9,650. Mr. Seely dis-ounted the lesser note on that day. Cross-examined by Mr. Mullin he said hat the notes were made out and the maller one given to Mr. Seely before is saw the defendants note. This took place on Feb. 17 of the present year which was three days, before maturity of the note in question, Mr. Seely, he uid, toid the witness that Ross Thomp-ton told him \$2,000 would be paid on the note. The witness expected this to be maid but it was not. The note

Vera Crus, April 22-Six Americans tilled and about thirty wounded marked the complete investment of Vera Crus at noon today by the United States

Andrews as completely as he would like to have done and his paper. The Beacon, has for the time suspended publication, but that he is in touch with several parties and expects that it will be taken over and operated in a short time. One of the most important matters before Mr. Armstrong on his first day of office was the matter of comparison between the freight service given St. John and the West Indies and that be-tween New York, Boston and the West India ports. It is the aim of the St. John board to see established just as efficient a service from this port as from any American port and an inquiry to this end is being carried on. Private parties in Chase City (Va.), wrote to the board of trade yesterday asking information regarding business conditions, the climate and lumber ship-ments. A Bathurst clergyman wished the board to use its influence too in keep-ling a trained gardener from the old a country in the province by recommend-ing him a position.

Hon, Mr. Foster. The motion occasioned considerable hilarity on the government side and was commented upon in humorous vein by Hon George E. Foster in beginning his reply. Mr. Foster said the motion was not so clear as the house might have ex-pected in view of the vigorous English used by the leader of the opposition in portraying the needs of free food in his speech at Hamilton last fall. Sir Wil-fred had had difficulties and had been forced to bring in a resolution indicating that he and his party, after all their professions that the cost of living was too high, now desired merely free wheat, wheat products and agricultural imple-ments. Foster Neatly Caught. rces. Rear Admiral Fletcher has tak s headquarters at the Terminal After the general advance beg norming Mexican snipers on the at up a strong resistance. The morning Mexican snipers on the rocks s put up a strong resistance. There was one brisk action, the guns of the Prairie and Chester assisting in stiencing a heavy fire from the naval college, shells from the Prairie finally shattering the walls. The number of Mexicans killed yes-terday is estimated at 150, with miany wounded. The Mexican loss today is not known, but is thought to be heavy. The paymaster of the British cruiser Essex, Albert W. Kimber, was wounded on board his ship by a sniper ashore. The British bluejackets crowded the bows and cheered the United States mar-ines as they proceeded in shore for the landing.

Foster Neatly Caught. Coming to a discussion of the price of flour in Canada and Great Britain, respectively, Mr. Foster insisted that Sir Wilfrid had misled the house in this regard in giving relative prices. "Wher-ever he got his information," said Mr. Foster, "my right hon. friend was sadly out." Repeating this assertion, when chal-banach by Sir Wilford 1

CHARLOTTETOWN PAINTER MET

TRAGIC DEATH

Hon. Mr. Foster.

Revolving Shaft, Receiving

Charlottetown, April 21—Peter Wa erby, aged 40, a painter, while work on the ceiling of the Star laundry afternoon had the sleeve of his many the projecting screw in a olving shaft. Weatherby was while round with terrific force several the efore the machinery could be stream before the machinery could be in this body being forced through and opening between the shaft a silling. His clothing was a coming. His clothing was twisten tightly round the shaft that it had to but off his body. He had both troken, one being terribly shattered, e suffered other injuries. He died he hospital tonight about six hours at he accident.

and in this, country. The tariff, nued Sir Wilfrid, existed for the e and not the people for the tariff, tariff was not immutable. The tariff, it was when the Liberal party took was suited to the year 1897. The had now come for a revision. Wilfrid, in conclusion, moved his dment, as follows: "This house is of opinion that in view of the prevailing economic conditions of the country it is advisable to place wheat, wheat products and agricultural implements on the free list, and that, without doing injustice to any class, steps should be taken to alleviate the high cost of living by a considerate re-moval of taxation."

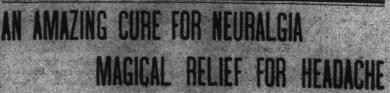

Mullers Are Doing Well. As to the effect of free wheat on the canadian miller, Sir Wilfrid said he had by et to learn that the latter was inable to compete with the United States mill-canals were taking the New York and New England markets away from him and in this case as with free imple-ments, when a choice must be made, Sir Wilfrid would make it for the farmer. Sir Wilfrid said that the complaints as it to the high cost of living synchronized with the advent to power of the presen-government. Under a protective tarift trusts and combines seemed to find a congenial habitat in dirt and dark-ness. He said that baeon sold in England at fourteen and a half cents. So also there was a difference in the prices of other meats, flour and other foodstuffs in England at fourteen and a half cents. So also there was a difference in the prices of other meats, flour and other foodstuffs in England at for the ariff was not immutable. The tariff The tariff was not immutable. The tariff thas it was when the Liberal party tool affer was suited to the present for the farmer. In a sit was when the Liberal party tool

London, April 24-The London more

London, April 24—The London morn-ing papers comment in an ironical vein on the dealings of President Wilson and Secretary Bryan with Mexico. The Standard compares them to phil-oophers from Mars. The Post says: "They ought carefully to have considered what sort and size of war they wanted before they allowed shots to be fired. President Wilson is now at war with both halves of the Mexican people. How by that war he can give the Mexicans the self-govern-ment that seems to him desirable we cannot imagine." The Daily News says: "If the Wash-ington government was really surprised at Carrana's ultimatum, its surprise is not very creditable to its statesmanship and intelligence."

Foster, "my right hon. friend was sadiy out." Repeating this assertion, when chais henged by Six Wilfrid Laurier, the minis-ter quoted what he described as "the actual statistics," to show that in Eng hand, during Jannary and February four prices had ranged from \$6.85 to \$6.81, or higher than the Canadian prices for the same grades. "Per barrel," replied Mr. Foster, Mr. MacLean was not satisfied, hows ter was incorrect in saying that the prices quoted were prices per barrel. Joining in the discussion, Sir Wilfrid he termed from a reliable authority indick figures obtained for him by what he termed from a reliable authority april, 1912, 1914 and 1914 were from for the same flour in Canadian cities. The position of trade commissioner at government a short time ago had given

James Morgan.

James Morgan. Tuesday, April 21. The North End lost one of its most forminent citizens late last night in the death of James Morgan, proprietor of the well-known dry goods busineess bear-ing his name, and with which he had been actively associated all his life, first with his father and later as sole owner. Mr. Morgan was fifty-eight years of age, and until a few months ago per-sonally conducted his business. He was attacked with heart trouble and had been confined to his room for about two o'clock last night, was not unexpected. The late James Morgan was the son of Patrick Morgan, a native of County Armagh, treland, who came to New Bunswick in 1865 after experience in the mercantile trade in Durham Eng-fames Morgan succeded, the year before he latter was born. Patrick Morgan married at Wigton, England, Mary Am homoson, and she was the mother ad boinson, and she was the mother and we children, of whom four now sur-vive. Mrs. Patrick Morgan's brother and wire children, of whom four now sur-vive. Mrs. Patrick Morgan's brother and wire indiren, of whom four now sur-vive. Mrs. Patrick Morgan's brother and wire divended the business to which amer Morgan succeded, the year before he latter was born. Patrick Morgan married at Wigton, England, Mary Am homoson and she was the mother ad borgan succeded, the year before he latter was born. Patrick Morgan married at Wigton, England, Mary Am homoson and she was the mother ad borgan succeded, the year before he latter was born. Patrick Morgan married at Wigton, England, Mary Am homoson and she was an old treema of the site sets, Margaret Robinson, became the wife of James E. Hogan, of St. John the divertick Morgan spent his life.

wife of James E. Hogan, of St. John Patrick Morgan was an old freeman of the city. The late James Morgan spent his life in the business, and on the death of his father, succeeded to its control. His career has been characterized by the same enterprise and honest business and he will be sincerely mourned by a large circle of friends and of patrons to whom he displayed every courtey. Mr Morgan performed the duties of citizenship unostentatiously, but faith-fully, and the city is the poorer by his death. He was a staunch Liberal in politics, and his counsel was valuable at al times. He was an active member of St. Peter's church and the C. M. B. A. and had served as president of St. Peter's Temperance Society and of the St. Vincent de Paul Society of the church. Mrs. A. Cuthbert, and one daughter, Mrs. F. L. O'Regan, both of this city, survive. Thomas J. Morgan, of M. R. A. Ltd., is a brother, and Mrs. Frank A. Foster, Mrs. Joseph Harrington, wife of the principal of St. Malachi's school, and Mrs. Elizabeth Calhan, are sisters.

Edward F. Parker,

Edward B. Farter. Yarmouth, N. S., April 21—Yarmouth is in mourning over the death of Edward Parker, of the Parker, Eakins Co. Limited, extensive grocers, lumber mer-shants and fish exporters. The deceased last year underwent the operation of amputation of one of his

The bride was unarchick. Whitman-Lewrence. A very pretty wedding took place at St. Ann's church, Campobello (N. B.), on Wednesday evening, April 15, at 8 o'clock, when Viola, daughter of John Lawrence, of Grand Pre (N. S.), and mices of Mrs. James Johnston, of Cam-pobello, became the wife of Charles F. Whitman, of Roundhil (N. S.) The little historic church had been decorated for Easter with potted plants and Easter liles by the young people of the place and, kneeling at the chancel steps amidst a profusion of flowers, the happy pair were made one when the beautiful marriage ccremony of the Church of England was performed by the rector, the Rev. G. Edgar Tobin. As the choir sang the hymn O God of Bethel, the bride, who was becoming-ly gowned in a wedding dreas of white James Alexander as bridesmaid, while James Alexander as bridesmaid, while James Alexander acted as groomsman. The bridal party left the church to the strains of the wedding march, de-lethically rendered by Miss Anne Mitch-ell, of Campobello. After a honeymoon spent in New Brunswick and in Halifax, where both the bride and groom are well known, Mr. and Mrs. Whitman will return to

the chief reason for the all around shortage and consequent high prices was that the spring and early summer of 1918 were unfavorable for the raising of chicks. Another reason was that the late hatch-ed pullets had to contend with the in-tensely hot weather of July and August. This retarded their growth and brought them to October I small in size and lack-ing in vitality. It was quite impossible I, to build up these pullets in time to have them laying well even late in the winter. by Thousands of them have been able to an give practically no reliance to the

Thousands of them have been able to give practically no return in eggs for the money and care expended on them. This month-April-should bring all last year's late pullets to full laying con-dition. Many will lay their first eggs during the month. These eggs should hardly be used to hatch from, because they will be not only pullets' eggs, but the eggs of pullets that have just con-cluded a long, hard and trying fight. In some localities April is the best month to hatch in; in nearly all localities it has advantages. Chicks do well at the sections conditions are ideal. Even as far south as the Gulf April chicks do well, provided they have some protection during the first thirty days from the di-

g the first thirty days from the di-ays of the sun.

that used to come as a matter of course. The bounding vitality so desirable in chicks will not be found in chicks hatched from eggs laid by pullets them-selves hatched late and forced to mature in the teeth of a hard winter. Make sure that your hatching eggs are the product of hens well matured and mated with males more vigorous than them-selves. Eggs of fair size and as nearly as possible uniform in shape and color are best. If well selected eggs are set in April it will usually be the case that the chicks will pop from the shells a i few hours alead of time. Such chicks gladden the heart of the poultryman and If you wish to start a Savings Account do not hesitate because you have only a small sum to begin with; you will be welcome at our office.
