ONSUMPTIO

...ere is ease for those far consumption—not recovery-

"When past cure, there is strength and comfort, ease and prolonging of life, in Scott's Emulsion."—*From* CAREFUL LIVING.*

There is cure for those not far gone.

"Consider again what consumption is. It is the growth and reproduction of this germ in the lung, when the lung is too weak to conquer it. The remedy is strength.

The adjustment of lung-strength to over-come germ-strength is going on all the time in us. Health for the lungs is fighting this germ with the odds in our favor. Consumption is fighting this germ with the odds against us.

What will cure consumption after you know you have got it?

You do not know you have got it until the fight has been going on against you for some time. It is serious now.

Before it began you were in poor health, and your health has been getting poorer all the time ever since. The germs have got a good start, and your germ-fighting strength is a good way behind. The question is: Can you now, with the added burden of this disease, recover strength enough to conquer it?

You may or may not. The only way to find out is by trying. Whether you will succeed or not depends on how far along you are in consumption, and how carefully you can live.

Careful living has different meanings for different persons. Your doctor is the one to find out its meaning for you, and to point out the way to health for you. He will tell you that the food to fight consumption with is fat; and that the easiest food-fat is cod-liver oil when partly digested, broken up into tiny drops, as in Scott's Emulsion.—*From* CAREFUL LIVING.

There is prevention—better than cure—for those who are threatened.

Who are threatened?

Every one recognizes the change from being plump to being less plump as a sign of getting down of health.

Whoever is in a low state of health, inherited or acquired, whether he has ever suspected a tendency toward consumption or not, inherited or acquired, may well take thought to fortify himself against it.—*From* CAREFUL LIVING.

The remedy—careful living.

This careful living is nothing more than the practice of being comfortable. It belongs more and more to modern life. It is civilized life.—*From* CAREFUL LIVING.

*CAREFUL LIVING, a small book on the relation of fat to health in the light of medical science of today, will be sent free to those who write for it to Scott & Bowne, 132 South Fifth Avenue, New York.

FARMERS AND BUSINESS

DIRECTORY

FOR THE COUNTIES OF

FOR 1892.

VOL. VI.

ISSUED BIENNIALLY BY THE

UNION PUBLISHING CO., OF INGERSOLL.

PETERBOROUGH PUBLIC LIBRARY MAR - 1989

PREFACE.

The Publishers in presenting the sixth edition of their Business and Farmers' Directory for the Counties of Durham, Hastings, Northumberland, Peterborough, Prince Edward & Victoria, have endeavored to merit the approval of the public, by representing a work that will be found the most complete of the kind ever published in the district. It will found to contain more information of a nature valuable to business men of all branches than any other publication heretofore placed in the hands of the people. Among the contents will be found the name of each farmer, and whether owner or tenant of a lot outside the limits of each city, town or village, with post-office, lot and concession, a complete list of towns, with the BUSINESS people alphabetically arranged, also a separate list of BUSINESS people classified with reference to their business. The whole combined making one of the most complete directories ever published.

A work of this kind involves a great amount of expense and labor, and the publishers have spared neither, but have made every effort to make a reliable work worthy of the confidence of the business people.

Thanking those who have kindly given us information, also the business people and the public generally who have given the work their support we remain

Respectfully Yours,

UNION PUBLISHING CO.,
OF INGERSOLL,
PUBLISHERS.

SPENCER'S
AUTOMATIC
HORSE FEEDER.

OUR illustration of Spencer's Automatic Horse Feeder shows this contrivance set ready to be operated. The Tubes on the right and left sides show two different styles. Each can be made in any desired size, and is capable of feeding hay only, oats only, or hay and oats in the separate departments of the manger, as desired by the feeder. When charged with the required feed, the alarm clock is set so that the alarm will ring at the moment the food is required to be given. At the first stroke of the alarm the food is discharged into the manger. One clock and weight will work feeders for any required number of horses. This machine must do its work with precision; in fact it cannot do otherwise. Its construction is very simple, inexpensive, perfect and durable. The little boxes under the feeders represent the mangers. The box containing the clock and attachments may be placed in the feed room or in any part of the stable. This device was invented by MR. JOHN SPENCER, V. S., of Bowmanville. It will be found on trial to be very useful and in fact invaluable to many persons who desire to feed horses regularly at an early hour or at times when circumstances compel them to be absent at hours when the animals should be fed.

In writing of it Mr. Spencer says:—"Apart from convenience, we claim many advantages for the feeder, overcoming indigestion in various forms, and its chain of complications, which are due to irregular feeding, such as unthriftiness, diarrhœa, colic, enteritis, diseases of the skin and lymphatics, scratches, grease, swelled legs and eczema. All these complaints generally disappear when the patient is fed systematically, thus enabling it to do more work with less food than if it were fed irregularly." He guarantees his feeder to give entire satisfaction, requiring no skill to operate more than winding and setting an ordinary alarm clock. We have known Mr. Spencer since his childhood, and can recommend him as an honorable man and one possessing much inventive and mechanical ability. He is also considered an able veterinary surgeon.—[The Farmer's Advocate.]

We have seen Mr. Spencer's invention, and can add our testimony to that of The Advocate.

A sample of the Automatic Feeder may be seen at Mr. Spencer's Office, rear of Messrs. J. Higginbotham & Son's drug store.—[From the Bowmanville News, Nov. 12, 1891.

The Port Hope Times

THE WEEKLY TIMES

Has the LARGEST CIRCULATION of any paper published in the United Counties, and is admitted to be Unrivalled as an Advertising Medium. Prices Nearly as Low as other journals possessing less than half the circulation. Special efforts have been made, at great expense, to work up a large Local Circulation for THE TIMES, and the fact that it can be found in the majority of the houses in the East Riding of Durham, and has no rival of equal influence in the Township of Clarke in the West Riding, attests the esteem in which it is held. THE TIMES is therefore the most economical medium through which Merchants and others can make their announcements to the people of the Town of Port Hope and neighboring Townships. Subscription, $1.00 per annum.

THE DAILY TIMES

which has been accorded a much better support than was at first anticipated, is also recommended as an excellent Advertising Medium through which to reach the people of the town. The Advertising Rates have been placed at the lowest possible figure. Business men who have not yet given it a trial are respectfully solicited to do so, and we are confident they will be pleased with the result.
