"In a farmer's yard we noticed a good Shorthorn bull, two years old last spring, thorough-bred, registered, that cost \$150 we believe. He was keptfor the double purpose of improving the stock of the fazim and of the neighborhood as well, and for the latter purpose was let at the low rate of \$2 per service. His progeny for the present year will number at least 60, yielding say \$120, though a considerable number of these will be in the home herd. A little figuring will show the value of such an animal. The calves will be worth to \$10 each at one day old from high bred cows, while the ordinary calves will be worth to \$10 each at one day old from high bred cows, while the ordinary native' sells for only \$1 each when dropped—an increase of \$7 to \$9 each. Call the increased value only \$5 each a very low estimate, and the increased value of the 60 calves will be \$300, or twice the cost of the bull. But look ahead a little: The expenses of raising 60 animals to three years old will be about the same for natives or good grades; but at that age the impr wed animals will sell for at least \$25 more per head—equiva—

As such we take pleasure in commending Dr. J. C. Ayer's Cathartic Pills. Public confidence in them has steadily increased, until now their use can be said to be universal. Great and permanent popularity does not come without great merit. Our experience convinces us that Ayer's Pills are superior to any others in all the uses for which a cathartic medicine is employed. They are pleasant to take, and are perfectly safe, sure and effectual. Ayer's Pills satisfy all the requirements of a reliable family physic and their timely use undoubtedly prolongs many lives and promotes the health and comfort of thousands.—Northern Ohio Democrat.

SPAVIN CURED. ST. JOHN, N. B., Jan. 6th, 1880.

DEAR SIRS:

In regard to your favor of a few days ago, I would say: About one year ago a horse owned by me contracted a large Bone Spavin for the cure of which I tried a number of the liniments and lotions advertised to cure the same, without any effect, and he became very lame. A friend of mine recommended me to try Fellows' Leeming Essence. I acted upon his advice, and now I am happy to say the lameness has cased and the spavin disappeared. I now consider him entirely cured, and would cheerfully recommend Fellows' Leeming's Essence as being the FELLOWS' LEEMING'S ESSENCE as being the best remedy in the market for all lameness that horses are subject to.
