A PULPWOOD PROTEST

The American paper trust sends a copy of the Philadelphia Evening Item of Nov. 19, containing a long editorial saying that the Canadian government must not place an export duty on pulpwood. We quote a part:

"Pulpwood is vital to American paper-makers under present methods of manufacture. While a change in method may be brought about at any moment, it would seem the part of good government for Canada to take the course described in this despatch that it will take."

"For there is a big future before both American countries, and anything so serious as a direct interference with the material on which newspapers are printed, some British statesmen might think twice before tampering with it."

"United States newspapers will live without exclusive dependency upon foreign supplies, regardless of any laws foreigners may make."

"Then this proposal to put prohibitive duties on pulpwood exports from Canada would be somewhat on a par with the United States prohibiting by like ways the export of our raw cotton into Canada, where we now ship about nine million dollars worth annually. Or similar prohibitive acts on our part against giving Great Britain any of our cotton, on the ground that the United States in such ways could force Canada and Great Britain to bring over all their cotton manufacturing plants and operate them in the United States."

"That sounds absurd, of course, to talk about forbidding England and Canada obtaining our raw cotton."

"But absurd as it is, it is not a whit more so than that recommended movement for Canada to forbid our getting the raw material in order to force our paper manufacturers to locate their works in Canada."

"Yet the province of Ontario, a part of Canada, has been doing just that thing. That province now effectively prohibits exportation by requiring all wood cut on crown lands to be manufactured in Canada. What we get is from private properties."

"It is scarcely probable that the Dominion Government will take any action about pulpwood. The provinces will do as they please. Quebec will adopt the Ontario policy, compelling wood cut on crown lands to be manufactured at home. The item's reference to raw cotton would have more poignancy if the American general tariff were as low as our own, or if the Americans did not put a prohibitive duty on Canadian paper. Canada's sole concern in these matters is to formulate the policy that is best for Canadians. If he Dominion were to stop the export of pulpwood such action would have to carry the proviso that the pulpwood and paper duties would come off if it were shown that Canadian paper mills were taking advantage of the tariff to enhance the price of paper unduly."

LIGHTS BEING REPLACED

When the matter of the removal of the arc lights from the station platform was brought to the attention of our representative at Ottawa, that gentleman promised to take the matter up as soon as he returned to Ottawa. This, Mr. Reed has done and the result is that the arc lights will be replaced by the more modern and efficient incandescent lights. The work of installing arc lights was now under way as the result of his personal interview with the department of Railways and Canals at Ottawa. Mr. Reed saw the Deputy Minister who, when the facts were clearly placed before him, recognized the justice of the demands and issued the necessary orders at once. Mr. Reed is always pleased to attend to such matters in the interests of his constituents.

Cured of severe compound cold and cough by

Vinol

"From Dec. 20, '08, to March 1, '09, I had three bad colds, one on top of the other. I got so weak I could hardly get around. Nothing seemed to help me until I began to take Vinol. The change was magic. Three bottles completely fixed that compound cold and stopped the terrible cough—and what surprised me most, at the same time it cured me of a severe stomach trouble that has bothered me for 20 years."

Vinol is certainly a wonderful medicine."

Mr. Toppan is one of Lynn's most prominent and highly respected merchants, whose word is as good as his bond.

The reason Vinol is so successful in such cases is because it contains the two most world-famous tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron.

Suffered Terrible Pains

From Her Kidneys For Nine Months

For Backache, Lame or Weak Back—one of the commonest and most distressing symptoms of kidney inaction, there is no remedy equal to Doan's Kidney Pills for taking out the stiches, twinges and twinges, limbering up the stiff back, and giving perfect comfort.

A medicine that strengthens the kidneys so that they are enabled to extract the poisons from the blood and prevent the chief cause of rheumatism.

Mr. Donald A. McIsaac, Broad Cove House, N.S., writes: "I was troubled with my kidneys for nine months, and suffered with such terrible pains across the small of my back all the time that I could hardly get around. After taking two boxes of Doan's Kidney Pills I began to feel better, and by the time I had taken three I was completely cured."

Price 50 cents per box, or 3 for \$1.25, all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering specify "Doan's."

More men would heed the call of the land if they had the price of a farm.

Hundreds of millions of dollars have been provided for the people of Canada for the purpose of developing transportation, compared with which the cost of the Intercolonial is a trifle. But there are some critics who complain about the cost of the Intercolonial overlooking the great expenditures in developing transportation facilities in other parts of the country. To the development in other parts of the Dominion the people of the Maritime provinces have contributed their share without complaining.

RESIST NOT OPPORTUNITY

"Buy a good mining stock; buy it low, and you will find that your dividends have been one hundred per cent. higher than they would have been in any other investment you could have made."

It is not an uncommon thing for a good mine to pay the holders of stock a thousand dollars for every dollar they invest.—Cecil Rhodes

WHICH WOULD YOU PREFER? ONE PROPOSITION OR SIX. A COMPARISON.

Any Mining Stock Selling at \$100 per share, 100 shares, \$10,000
300 Shares Alexandra at 25c, \$7,500
300 Shares Pyramid Oil at 25c, \$7,500
300 Shares Overland Oil at 25c, \$7,500
300 Shares Cal-Alberta Oil at 15c, \$4,500
Oil at 10c, \$3,000
500 Shares Colings-Federal Oil at 10c, \$5,000

These stocks will be sold in a block or can be purchased separately in blocks of 100 shares each at prices quoted. If taken in block a substantial bonus of 400 shares will be given.

ALEXANDRIA is a Cobalt Silver Mining Proposition, which is surrounded by big producers. Work is being pushed day and night. The proposition is eventually being a big dividend payer.

Pyramid Oil is a California proposition, situated in the oil producing territory in Ventura Co., Cal., and work of development is well under way, a number of wells now producing oil.

OVERLAND joins the Imperial Oil Company's holdings at Kern River, which sold at 25c and which is now listed in the San Francisco Stock Exchange at 40c per share. This company also owns 160 acres in Midway, another celebrated oil district.

CALIFORNIA-ALBERTA—See the Montreal Daily Star of the 24th for prospectus of this company.

CALIFORNIA—MUTUAL—Another California oil property, consisting of 400 acres, situated in the proven oil fields of Fresno Co., Cal.

COLINGS-FEDERAL—Is also situated in Fresno Co. and adjoins the holdings of The Golden Gate Oil Co., on whose property a good well has

just been completed.

Within a comparatively short time enough wells should be producing to yield upwards of 400,000 barrels annually. This would mean immediate dividends and make the stock worth \$2.00 or more per share.

The plan of selling this stock has been made most attractive, in order to give every investor a chance to obtain as much as he feels like on the easiest possible terms. Arrangements have been made so that the stock can be purchased on the installment plan by paying 20 per cent. down and 20 per cent. per month, allowing an extra 5 per cent. off all cash at the time of subscribing. Believing that you can readily determine the good features appearing in this proposition and the excellent possibilities of realizing a large and handsome profit, we solicit you to become a stockholder by purchasing as large a block of the stock as possible at the above named prices. The prices of the stock may be advanced without notice at any time.

YOUR OPPORTUNITY.

Taking into consideration all the facts of this proposition we believe that in offering you the opportunity of securing a holding of this stock we give you the chance of securing for a few dollars an investment that should prove one that will yield you an immense profit and should guarantee you a life income. It may pay you hundreds even thousands of per cent. as has been the case in numerous instances.

TO INVESTORS
In another column we publish an advertisement in reference to mining and oil stocks which should be carefully studied by any who are of a speculative turn of mind. The stocks mentioned are all attractive and the price is right. In three instances notice of increase of price quoted has been received.

The value of California oil productions in 1908 exceeded that of any other mineral product of the state, and was first in rank in value among the oil producing states. The total production in 1908 was 44,854,737 barrels (the figures in the California State Mining Bureau are 43,806,900 barrels) or 12.85 per cent more than in 1907. Every district but one shared in this increase. This condition was brought about by the increasing demand and consequently higher prices for oil which stimulated drilling, particularly in the Coalinga and Kern County districts. The risk is nominal, being much less than in ordinary business. The U. S. Government records show that in 1907 that 45 out of 46 wells sunk in the Coalinga field were producers and 135 out of 136 sunk in Kern County were also productive, thus proving that 91 per cent of wells drilled have the oil.

Many people think that the Standard Oil Company is the enemy of the producer. This is not true. This Company is engaged mainly in transporting and refining oil. It buys immense quantities of Crude Oil from the independent producer and will build its pipe lines into any district as soon as a permanent supply of oil is assured.

Was All Run Down.

Weighted 185 Lbs. Now Weighs 185.

Mrs. M. McLean, Dulse Junction, N.B., writes:—I wish to tell you what Milburn's Heart and Nerve Pills have done for me. Three years ago I was so run down I could not do my own work. I went to a doctor, and he told me I had heart trouble and that my nerves were all unstrung. I took his medicine, as he ordered me to do, but it did me no good. I then started to take Milburn's Heart and Nerve Pills, and had only taken one box before I started to feel better, so I continued their use until I had taken several boxes, and I am now strong and well, and able to do my own work. When I commenced taking your pills I weighed 125 pounds, and now weigh 185 and have given birth to a lovely young daughter, which was a happy thing in the family. When I commenced taking Milburn's Heart and Nerve Pills, I could not go upstairs without resting before I got to the top. I can now go up without any trouble.

The price of Milburn's Heart and Nerve Pills is 50 cents per box, or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. J. Milburn Co., Limited, Toronto, Ont.
