made public a dispatch from Gen. Buller, accepting the congratulations of the Trooper Hiam, Canadian Mounted secretary of state for war, Lord Lansdowne, in which he says: "The Dorsets who have been unlucky had a chance at Almonds Nek, and showed themselves to be as good as any oth-

"About 150 yards at each end of Laing's Nek tunnel are blown in, and it will require several days to remove the debris. The line, otherwise, is uninjured, and open to the reversing sta-

tions, and also to Sandspruit." Gen. Buller says Gen Clery encountered no opposition in his march from Ingogo to Laings Nek, which he now occupies. Gen. Dartnell marched through Laings Nek June 13, on his way to Charlestown.

The press dispatches say Charlestown was partially destroyed previous to its evacuation by the Boers, but that no damage was done at Volksrust. BULLER'S ADVANCE.

Gen. Buller will be unable to advance further until he gets supplies. He will probably wait until the tunnel has been cleared.

Nearly every farm house his troops nothing without paying for it. and a brisk business was done in milk, eggs, bread and chickens by thrifty housewives, who were pleased to get so much English money. One woman, whose husband and two sons have been fighting, said: "You British are unlike our people. They took my horses in exchange for sheep, and made me make butter, which they never paid me for. I am sending to have my men come home at once." Usually the first question a Boer woman puts is: "Will my husband be shot if he is captured?" One young man was pulled from under the bed, and he went on his knees, begging the British patrol not to shoot him.

AT ALLEMANN'S NEK. The correspondents' accounts of the fighting at Allemann's Nek, if accurate, must be taken as confirmation of the reports of the extreme demoralization of the Boers. The Standard's correspondent describes the Nek as a position of immense natural strength. Hills of great height rise almost abruptly from the road, which winds round precipitous rocky slopes. The position might have been held with ease by 500 determined men against 10,000. The natural protection of the pass is continued on either side by ascending ranges of hills, cleft by sudden precipices and deep ravines. There was only one way for the column to go up. There was only one thing to do. It had to force the pass and storm the heights commanding it. This was done gallantly. When the march began in the morning it the accepted conclusion that the Boers would make a stand in the hills, but thanks to the dash and determination with which the assault was delivered, position after position was carried, and the Nek and commanding heights were in possession of the British with exceptionally small losses. It was one of the finest and most dashing engagements of the Natal campaign.

The same correspondent, under date of June 13, records that the Boers, numbering some thousands, succeeded in getting away with their guns. They retreated to Ermelo. The white flag is flying everywhere. The women are all in tears, ignorant of whether their husbands and brothers are dead or

## The Canadians.

DISTINGUISHED THEMSELVES London, June 14.-The Morning Standard correspondent at Kroonstad, cabling yesterday, says that at Yester Nek the Canadians were ordered to advance toward the enemy's front, and to take cover and to hold the enemy within long-range fire. The Canadians advanced under a heavy shell fire from three guns over a dead level plain, and gained the foot of a slight ridge before the main range held by the Boers, and took cover behind a stone All the time they were pouring a steady well-aimed fusillade at the enemy, and, finding themselves flanked, the Boers left during the night.

According to the Standard's correspondent. the Canadians figured prominently in forcing Botha to evacuate his position near Pretoria. Capt. Baker, of C. Company, who has been in the hospital in South Africa, has returned to duty. TWO MISSING.

OF THE WAR NEWS. London, Friday, June 15-3:30 a.m.-Commandant-General Louis Botha should have been able to stand for two days against Lord Roberts and then to retreat without losing any guns or having any of his men captured is taken to mean that he has a force which the British must still reckon as formidable when acting defensively. The Tattoo Attended by a Crowd Numbering Nearly 25,000.

Further Interesting Remarks by Col. Aylmer-Possibility of the Camp Being Removed From London.

The success that was attained by the military tattoo on the camp grounds last night was far beyond anything that was anticipated by its promoters. They had hoped that their arrangements for the control and comfort of the crowd were so comprehensive that all might be accommodated; but it was not so, because of the restrictions imposed upon the committee in charge by the lack of an adequate supply of chairs. Although 3,000 had been placed within the inclosure they were only a drop in the bucket in comparison with those that would undoubtedly have been used if obtainable. That there should have been this deficiency in supply was unfortunate, not so much on account of any discomfort that may have arisen, because that was soon forgotten in the pleasure derived from the entertainment, but it was particularly aggravating to the good ladies who had boomed the tattoo so vigorously, to see go to waste such a splendid opportunity to enrich their

coffers of charity.

As early as 7 o'clock the people were assembling on the grounds, and the number was being added to continuously. As the evening passed by the streets leading to the Heights were dark with crowds, and on the roads, vehicles of all kinds and bicycles in hundreds mingled and raced in order to arrive first. For a full halfhour before the gates of the enclosure were opened there were thousands awaiting admission, and when this was gained there was an eager rush for seats. All that were supplied were occupied almost immediately. others streamed into the grounds. The street car service was utterly unable to carry all the pasengers who sought conveyance, although the Central avenue and Oxford street lines were run to their full capacity. On the hill the immense inclosure was soon surround ed, and without those who were standing many deep at the railings, were thousands who were unable to get nearer. There were probably 25,000 people there.

The programme was carried out with a precision and rapidity that was especially delightful to those who were standing and who might otherwise have been wearied. For this reason the officers who conducted it so skillfully deserve credit. All of the bands in camp, several full regiments and companies, the brigades' stretcher-bearers, the Collegiate Institute Cadets and the veterans of '66 and '85 assisted. The entertainment provided by them was continued without intermission, and was varied by a beautiful display of fireworks. The spectacle that was made by the red and dark coats of the soldiers, arranged in effective tableau,

## Decay of The Teeth

Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes which give a momentary whiteness to the teeth while they corrode the enamel.

The timely use of that delicate, aromatic tooth wash, ODONTINE (C. & L.) will speedily arrest the progress of decay, harden the gums and impart a delightful fragrance to the breath.

Odontine (C. & L.) whitens and preserves the teeth and the enamel, removes tartar, destroys fermentation—the cause of decay -makes the gums rosy and healthy. Only 25 cents.

was splendidly attractive, especially when seen by the warm glow of the red lights. The views of "Bobs" and Queen Victoria were received enthusiastically. The entertainment was concluded by the brigaded bands playing an evening hymn and the Nation-

al Anthem. Yesterday afternoon, when the review had been concluded, Col. Alymer complimented the officers highly upon the splendid appearance of the men. In speaking of the camp afterwards he said that the ground was rather small and that there was consequent crowding. This had been overcome partially by the splendid plan of lay-Ing it out that had been adopted by Lieut.-Col. Holmes. He considered that the cleanliness, the hospital and cooking arrangements could not be improved upon. On all sides he had heard praise for the rations this year, not-withstanding the fact that the allow-ance of bread to each man had been reduced half a pound per day. commenting upon the size of the camp, Col. Aylmer said that the greatest reason for the comparatively small number attending was because of the prosperity of the country. "Good wages are being paid," and he added, "I suppose that's because of the government we now have." Continuing, he said: When a man can get \$1 50 a day working on a farm, you can hardly expect him to come here for 50 cents a

Col. Aylmer is not in favor of the existing canteen law, although as a soldier he favors its observance when in orders. He considers that there is a tendency to cause drinking and row-dyism in the city when the men are

deprived of beer.
While talking of rifle ranges, Col. Aylmer hinted at some very important changes that are in contemplation in the militia department. This district, he said, was without a rifle range that was safe. Consequently the men were forced to resort to the Morris tube practice. This is good, but it is not rifle practice. "I believe that the day is coming," he said, "when the camp will have to be removed from London. Another change that will probably be accomplished in the more immediate future was that the cavalry would probably be massed at Deseronto, so that they might be trained in conjunction with the artillery. He said also that he

ment for the men. NOTES. Several accidents were narrowly averted last night. A great mass of people were standing at the corner of Adelaide and Oxford streets, when a street car came along. The Morris tubes that are spoken of are inserted in a rifle. They permit of rifle practice at short range. For instance, they may be used in the drill shed. With them a man may learn all the requirements of rifle-shooting as well as if he were at a 1,000-yard range. Major Heward, who inspected the Hussars, left for Toronto today.
Col. Gartshore, Quartermaster Higgins, and Lieut. Weld, all retired offcers from the Hussars, were entertained

at dinner last night by the officers of that corps. George Brown, a cook in the 26th, was arrested yesterday charged with stealing some underwear, belonging to an officer. He escaped while being taken to the guard-house, and has not been seen since.

The Lambton Regiment will be entertained in Sarnia tomorrow.

The fair face, the radiant eyes, the sweet spirited voice had bound him in fetters he had never before acknowledged, and from henceforth his thrilling novels would have in them a deeper charm for the reader than ever before—a charm imparted by the new emotion taking root within his soul, and emanating outward again in fairer creation of genius than had ever been possible to him before.

He was most anxious to meet her adopted father, but this pleasure was denied until almost the last day, when he was able to come on deck and take the air for several hours. He looked pale and grave, but relaxed into smiling cordiality upon the presentation of Dawn's good-looking young gentlemen friends.

They were charmed with his polished converse, his easy aristocratic air, and struck by something on which they remarked to each other when

It was a vague yet general resemblance between Dawn Douglas and the man whom she said was only her adopted father.
"The plot thickens, eh, Lindsay?"

laughed the artist; "she has blue eyes and he has black ones, she has golden hair, he has dark, yet there is a subtle likeness strikingly perceptible in face and voice. What does it mean?" "It means a romance in real life that is going to unfold itself when Aurora Douglas and Dawn Douglas meet again. When Greek meets Greek, then comes the tug of war,' you know,

### Greville answered laughingly. CHAPTER XXVIII.

Mrs. Elmore was a sweet and gentle lady, who was never better pleased than when chaperoning some pretty girl, and she was charmed when her brother requested her to perform that office for beautiful Dawn Douglas. "The loveliest creature I ever saw!

Are you sure, Lindsay, that she has not stepped out of the pages of one of your novels?" she queried, vivacious-

"I only wish she had, then I would claim her for my own," he replied quickly. "But you are right, Blanche; she is lovely enough for an artist's or a poet's ideal, and it almost seems as

There is cause for anxiety when a cough hangs on for a year and can't be shaken off. The quickest way to relieve that anxiety is to begin at once the use of Dr. Pierce's Golden Medical Discovery. It is a cough remedy, but it is also a great deal more. In far advanced stages of disease, when hemorrhages have been frequent, and there have been emaciation and weakness, "Golden Medical Discovery" has produced a perfect cure. It increases the supply of the life fluid—blood. It cleanses the blood from impurities, and sends a current of rich, new blood to build up the weak places in the body with new life.

The "Discovery" is strictly a temper-

ance medicine, non-alcoholic and non-

"For one year I was troubled with a cough," writes Mr. H. E. Curtis, of Summer, Bremer Co., Iowa. "As I continued to cough during the summer, my wife became anxious, and wrote to Dr. R. V. Pierce for medical advice. It seemed to us that we could not go to a better source for advice, and so it proved, as the 'Golden Medical Discovery,' which was recommended, proved just the medicine to effect a cure. Dr. Pierce and his medicines are 'As good as wheat,' as the farmers used to say."

She looked at him a little seciously. "I never knew you to wax eloquent over a living woman before, Lindsay. I thought you were in love with the heroines of your books to the total exclusion of frail mortal females,"

she said, half questioningly.

"I am studying her as a heroine for my next novel," he said evasively. "So you need not be surprised if I follow you down to the Hygeia next week, nor if Arden appears upon the scene, too. He also is taking her beauty for a model."

"Ah, yes; I remember his companion pictures, 'Night' and 'Morning.' The latter has the face of Miss Douglas. By the by, who sat to him for 'Night?"

"Tracy Tempest's afflanced, Miss Aurora Douglas. You have met her

in Washington society."
"Yes; but she does fot equal the picture. Herbert Arden no doubt idealized it; for the original, although handsome in her way, is not a statu-esque beauty. Her features are not refined enough, and her form is too dumpy. Still, there is a certain style about her, owing to her mother's good

Between Mohammedan Troops and the International Relief Force-Interesting Statement Made in the British House of Commons-A Grist of Startling Rumors From the Orient.

London, June 15 .- The Times publishes the following dispatch from Tien Tsin, via Shanghai, June 14: "A serious engagement has occurred between the international column and the Mohammedan troops of Gen. Tung Fu Siag, near Pekin."

Mr. Byron Brennan, British consul at Shanghai, who is now in London, says these Mohammedan troops are armed with machine guns and repeating rifles.

Observers at Shanghai and Tien Tsin think there is a great deal more trouble ahead for the concert of powers than merely reaching Pekin with 2,044 men. Serious disturbances are taking place at Yunnan Fu and Meng Tse, as well as at other points at a considerable distance from the capital. be in a ferment. The intentions of the empress dowager are still equi-

vocal. An unconfirmed report has reached Shanghai from Tien Tsin to the effect that a foreign legation has been burned, and that a minister had been kill-The names, it is added, are withheld pending a confirmation of the re-

It is further rumored that the international relief parties are experiencing great difficulties in regard to provisions and water. It is added that the Japanese have sent two more cruisers, and have landed 80 additional troops.

A telegram received from Yunnan Fu says that the English and French missions there have been burned, and that the foreign residents have taken refuge in the viceroy's residence. special dispatch from Shanghai,

dated today, says: "A report has reached here that the British, American and Japanese ministers in Pekin favor the restoration of Emperor Kwang Su, but that the French and Russian ministers insist upon the powers taking charge of China.

FOUR THOUSAND RUSSIANS LANDED.

Later reports from Tien Tsin confirm the news of the burning of the Japanese legation, but the rumor that a minister has been murdered is not confirmed. Fifteen hundred Russians. with four guns, have arrived outside of Pekin. This makes 4,000 Russians who have landed.

from Tien Tsin saying that the international relief column has arrived within 30 miles of Pekin, but that the distance remaining must be traveled on foot, as the railway is completely destroyed. This, the dispatch says, will require two or three days. Thus far, the German squadron has landed at Taku 22 officers and 550 men. The German troops at Kiao Chau will be increased on June 19 by the arrival of

a transport with 1.900 soldiers. Confirmation has been received at Brussels of the report of the massacre of two Italian and one Swiss engineers employed on the Belgian railroad in North China. The sister of the Swiss engineer was also killed, and two other persons are missing. The rest of the French and Belgian engineers reached Pekin and Tien Tsin in safety. The Franco-Belgian Company has 30 arm-ed men guarding its main track, which is still open for 100 miles.

SECRETARY BRODERICK'S STATE-

In the House of Commons yesterday Mr. William St. John Broderick, parliamentary secretary of the foreign office, made the following statement: "Her majesty's minister at Pekin has been in constant communication with the Chinese government since the attack by Boxers on peaceable converts and the destruction of three villages, about 90 miles from Pekin, on May 12. On May 18 Sir Claude Macdonald reminded the Tsung Li Yamen (Chinese foreign office) of his unceasing warnings during the last six months of the danger of not taking adequate measures to suppress the Boxers, and an imperial decree was subsequently issued. On May 20 a meeting of the diplomatic corps was held, at which a resolution was unanimously adopted calling on the Tsung Li Yamen to take more stringent measures. It was not then considered necessary to bring the international guards to Pekin, but the British marine guard at Tien Tsin, which had been under orders

Tien Isin, which had to leave, was detained there, and two British ships were sent to Taku. As no specific measures were taken by

the Tsung Li Yamen, the diplomatic corps met again May 26, and decided, failing the receipt of a setisfactory

reply from the Tsung Li Yamen, to summon guards. This course was adopted on May 28, and a British de-tachment of 78 men, with a machine gun, was forthwith sent to Pekin, and 104 men were sent to Tien Tsin, while four more British ships were brought to Taku. News was then received of the murder of Mr. Robinson and the capture of Mr. Norman, who was sub-sequently murdered. Sir Claude Mac-donald continued until June 5 to urgently impress the Tsung Li Yamen with the necessity for taking instant and effective steps to punish the murderers and restore order, informing them that her majesty's government held the Chinese government respons-ible for the criminal apathy which had brought about the disgraceful state of affairs. These remonstrances having no effect, and the situation becoming more threatening, her majesty's gov-ernment, on June 6, telegraphed to Sir Claude Macdonald and Admiral Seymour to take, in concert with the other powers, any steps in their discretion they might consider advisable for the protection of the foreign legations and British subjects. Sir Claude Macdonald, after a conference with the Russian representative at Pekin, was empowered to support any Chinese authority capable of maintaining law and order, or any measures to this end, the Russian minister being similarly authorized. In consequence of further depredations of the Boxers, Admiral Seymour called up three more ships, and on June 9, after consultation with the foreign commanders, decided to land a force and march on Pekin. On June 10 he marched with 1,078 men, of which 650 were British. This force has since been increased to 2,300 men, containing detachments from the ships of seven of the powers. The admiral had march 30 miles on June 11, when he encountered the Boxers, and killed 35 of them. The railway was much broken up, and only three miles were covered in the next 24 hours. About 950 troops are being embarked at Hong Kong, and the Terrible is going to Taku. The Russians are landing an additional detachment of 1,700 men. Sir Claude Macdonald reported on June 11 that disorders were occurring at Pekin. Nine British and 25 foreign ships are now at Taku, and complete accord prevails among the powers in regard to the action taken by Admiral

Mr. Broderick concluded with denying that he had the least intention of implying that Great Britain had any closer agreement with Russia than with any of the other powers. CABLE NOTES.

## "I Can Eat

Many people suffer terribly with pain in the stomach after every mouthful they eat.

Dyspepsia and indigestion keep them in constant misery.

After trying the hundre new-fangled remedies without much benefit, why not use the old reliable Burdock Blood Bitters and obtain a perfect and permanent cure? Here is a case in point:

"I was troubled with indigestion and dyspepsia for three or four years, and tried almost every doctor round here and different dyspepsia remedies, but got little relief.

"I then started using Burdock Blood Bitters, and when I had finished the second bottle I was almost well, but continued taking it until I had completed the third bottle, when I was perfectly well. Before taking B.B.B. I could scarcely eat anything without having a pain in my stomach. Now leat whatever I like without causing me the least discomfort."— MRS.

SHUN EXCESS OF SUGAR.

Any medicine prepared with a sugar basis, to tickle the palate of the fanciful, is a good thing to let alone. Children may cry for it, they cry mostly for what is not best for them. Children never cry for Doctor Hammond-Hall's English Tsething Syrup, neither do they have to cry after taking. It is a pleasant, perfect remedy for all complaints incident to teething. No sugar syrup, no opium, narcotic or hurtful drug. It soothes pain, promotes refreshing rest, and Comforts Crying Children. Excess of sugar causes fermentation, kidney trouble, diabetis and unhealthy secretions. Devoid of this danger—Dr. Hammond-Hall's English Teething Syrup is the best. (36 442)

Ex-President Cleveland opens his discussion of "The Independence of the Executive" in the June Atlantic by tracing briefly and clearly the relation of the chief executive to the legislative branch of the government from the adoption of the constitution to our own time. With characteristic deci-sion, he points out those duties which the president cannot evade or delegate to others.

The Health Problem

Is much simpler than is sometimes sup-posed. Health depends ohiefly upon perfect digestion and pure blood, and the problem is solved very readily by Hood's Sarsaparilla. You may keep well by taking it promptly for any stomach or blood disorder. Its cures of scrofula, salt rheum, catarrh, dyspepsia, rheu-matism and other diseases are numbered by the thousands.

The favorite family cathertic is Hood's Pills.

A SURE CURE FOR HEADACHE .-Bilious headache, to which women are more subject than men, becomes so acute in some subjects that they are utterly prostrated. The stomach refuses food, and there is a constant and distressing effort to free the stomach from bile which has been unduly secreted there. Parmelee's Vegetable Pills are a speedy alterative, and in neutralizing the effects of the intruding bile relieves the pressure on the nerves, which causes the headache. Try them.

## London Adbertiser. ESTABLISHED BY JOHN CAMERON IN 1863.

Maraging Director John Cameron

London, Friday, June 15.

Attempting to Revive a Dead

Issue. Senator Landry favors coercing Manitoba into giving up her school system. That is the programme of the Conservative party for Quebec. But in British Columbia we have Sir Charles Tupper washing his hands of the whole affair, and announcing that it is "a dead issue." and we have him declaring, in effect, that he is no longer "ready to die" to secure coercion, as he declared in the House, his reason being that the policy of coercion did not bring him votes enough! "I find," says the Conservative leader, "that I attached much greater importance to this question than the result of experience has shown to belong to it."

In this view, Sir Charles Tupper is not alone, for in a speech delivered some time ago at Owen Sound, Mr. Taylor, the Conservative whip, said: "The Conservative party is now through with remedial legislation." Mr. Taylor then said that, despite the anteelection protestations of Sir Charles Tupper, the remedial bill, and what it implied, was no longer a part of the Conservative party. Hon. Clarke Wallace also put in on appearance, and said that "the erroneous policy of forcing separate schools on Manitoba-[which the Government of which he was a member undertook to carry out]-had been abandoned. And Mr. MacLean. Conservative M. P. for East York, in the same bye-election, declared that Sir Charles Tupper had personally said to him: "We have got rid of the question of the remedial bill forever."

These declarations of representative members of the Conservative Opposition in this Province were made for the purpose of aiding in the defeat of Hon. Wm. Paterson, who was seeking election in the contest necessitated by the death of the sitting member.

It was stated by Senator Landry, as representing the Opposition in Quebec Province, that the attitude taken by Messrs. Taylor, Clark, Wallace and MacLean was of no moment, because they had turned against their leader in 1896. But what says the Quebec Opposition Senator to the subsequent declaration of Sir Charles Tupper in Vancouver. B. C., to the effect that remedial legislation was now a dead issuethat as it did not pay him politically. he was not prepared to die for it, as he

had promised, or even to live for it? Let it not be forgotten that in this North Grey contest-the last in which the school question was made an issue in this Province-the attempt was made electors believe that the present Dominion Government intended to coerce the people of Manitoba. But the electors disbelieved the story told by Messrs. Taylor, MacLean and Clarke Wallace, in so far as it denied the conciliatory nature of the policy of the present Administration. And the nature of the Manitoba act of 1897, which wide spaces far from the railways, is they were instrumental in getting the Legislature of Manitoba to pass, further disproved the allegation.

It will be observed that it is only in the Senate that the Opposition dares to attempt to revive the issue of the coercion of Manitoba. Senator Landry is permitted to loudly declaim, in that body, in favor of coercion, and both he and his Opposition confreres from Quebec will, in certain constituencies, denounce the present Government for not coercing Manitoba, and will tell the electors that the policy of the Opposition is coercion, and not conciliation.

Is it? What say the Opposition in the House of Commons? Sir Charles Tupper says it is a dead issue. He washes his hands clear of it. It was not a proper vote-getter. Four brief years ago, when he thought it was, he was ready to be a martyr, to die, to secur coercion. Now he dare not call for a division on the subject, because he knows that a revival of the question would show that his followers in every part of the Dominion outside Quebec are hopelessly divided on the ques-

It is believed, of course, that Senator Landry's attacks on the present Administration will gain some votes in Quebec, though we doubt it, therefore, we are to have a campaign in that Province against Sir Wilfrid Laurier and his fellow-Ministers, because they have not adopted a coercive policy, and we are to have Clarke Wallace. Mr. Taylor and other members of one wing of the Conservative party, touting for votes because Sir Charles Tupper has declared coercion to be a dead issue, and has washed his hands clean of it because it did not get him enough

He is no friend of the minority of Manitoba, as Hon. David Mills said, in the Senate, when dealing with Senator Landry's attempt to galvanize into life the issue that Sir Charles Tupper has declared to be "dead," who attempts at this stage to condemn Sir Wilfrid Laurier for not coercing Manitoba. Every lawyer of eminence knows that the socalled remedial order, issued by the late Government, was not worth the paper it was written on-that all it would have given to the minority, even if it had passed the House of Commons, when brought forward in the last session of the late Parliament, would have been to land them in a helpless maze of lawsuits. There has been an improved condition of affairs since the fighting conciliatory act of 1897 was passed, and if, as the Minister of Justice points out, political firebrands keep away from the people of Manitoba, the softening influences of time will in due course secure for the minority the redress of every grievance that may arise under outcry in Quebec against the

Government of the because it has not coerced Manitoba, and in Ontario, to repudiate coercion and claim that the Manitoba authorities, through the influence of the Ottawa Administration, has been much too liberal to the minority, is the work of political incendiaries, and ought to be stamped out by the intelligent electorate wherever attempted.

### Butter.

There has been an enormous increase in the shipments of Canadian butter to Great Britain during the past year, even though there has been a falling off in exports in the month of May. That decrease is easily explained. Our butter has sold so well this year, both at home and abroad, that it has been unusually scarce. The consequence is that its price in the markets of Canada has been high, and it has been readily bought for home consumption at a price which, in but few instances, exporters could meet. This has curtailed the foreign sales. It is no evidence of a decadence in our steady progress as a butter-exporting country.

In the last three years the increase of our butter exports has been phenomenally large, and if we continue to look to the quality, the exports will continue to increase in as great ratio in the years to come.

It is solemnly announced that no liquor or peanuts will be allowed in the Republican convention at Philadel--peanut politicians.

### A Deserved Compliment. [Hamilton Times.]

In responding to the toast of "The Empire and Its Defenders' at the Toronto University Alumni Association's dinner, Sir Charles Tupper said "he had then ventured the opinion (at Quebec garrison) that a parliamentary federa-tion of the British Empire was impracticable. For that he had been pretty severely criticised by a great organ of public opinion in Toronto. This opinion, he had since been delighted to learn, was that of so distinguished a states-man as Hon. Joseph Chamberlain; of another statesman, Mr. Edward Blake, and of as great a leader as had ever headed any party, Hon. George W. Ross. He held as these gentlemen did, that a policy of mutual interest was the one best calculated to bind the empire together.

How did Sir Charles happen to let great a compliment for the Liberal Premier of Ontario? Hon. G. W. Ross, as all the people of this province know, is a man of originality and ability, who is doing great work in the development of the resources of Ontario, and he has few, if any, equals as a platform speaker. But we hardly expected the leader of the Dominion Conservatives to volunteer the opinion that Hon. G. W. is as great a leader as ever headed any party. Next time one of the mud-throwing Tory journals feels tempted to belittle Mr. Ross, recol-lection of Sir Charles Tupper's words should restrain that inclination.

BOER FINANCES. A dispatch from Lorenzo Marquez, ated yesterday, says: "President Kruger is holding on to his gold and is issuing paper notes from a press in his executive car. The Boer Government's coin stock is exhausted and the officials are now paying out plain gold discs unstamped. Some who have declined to accept notes have taken their salaries in gold bars. The Boer Government is still paying out much gold in that way.

AID AND COMFORT FOR THE

ENEMY. Two steamers arrived at Lorenzo Marquez yesterday, bringing several thousand tons of supplies, consigned Portuguese merchants, but destined for the Boers. One hundred Americans, Frenchmen, Germans and Hollanders have arrived there by various steamers, en route for the Transvaal. Mr. Crowe, the British consul-general, has large stocks of clothing for the British prisoners, but he will not forward these until he gets assurances that the Boers will not take them for their own use.

Gen. Rundle had a sharp skirmish at Ficksburg on June 12. The Boers had been aggressive along the whole Ficksburg-Senekal line and menaced Ficksburg in force. The British out-posts retired to the village. The general held the attention of the Boers in front with two guns, while the Yeomanry were sent round to their rear and drove them off with a loss to the British of three wounded. Two patrols were also wounded. President Steyn is at Ultkop. His

presence there is supposed to account for the Boer activity.

BOER VICTORIES-ON PAPER. A Boer bulletin, issued June 12, at Machadodorp, said: "Both wings of the federal forces touched the advancing enemy at 10 a.m. yesterday east of Pretoria. Fighting continued until dark. The enemy, though in overwhelming numbers, were checked along a line of 36 miles, and the burghers succeeded in driving back their right wing five miles. Two burghers were killed and ten wound-ed." Another Machadodorp announcement is that the first regiment Gen. Buller's force to attack Almonds Nek was "annihilated," but as the British were in overwhelming force, the burghers were compelled to abandon the Nek.

TALK OF PEACE. The Lorenzo Marquez correspondent of the Times says: Among the Boer agents here there is talk of negotiations being reopened with a view of securing peace. Mr. Wolmarans, a cousin of the member of the Transvaal executive of the same name, declares that he intends to take no further part in the

# AN EXPRESS

James D. Ward Run Over and Instantly Killed.

Accident Occurred at the Ridout Street Crossing of the G. T. R.-Unfortunate Man Was Warned of the Approach of the Train.

James D. Ward, of the corner of Bathurst and Thames streets, was struck by the 10:25 express from the west, at the Ridout street crossing this morning, and was killed instantly. A few moments before he was talking to the gatekeeper, Wm. Hall. As he phia to select a presidential candidate. moved away, the latter said, "Look There is no prohibition, however, of out, the express is coming," and then walked to turn the gate-crank. Apparently unheeding him, Ward hastened to cross. When the train had passed, the watchman looked, expecting to see him on the other side. Not seeing him, and fearing that Ward had been struck he looked up the side-track, he saw Ward's motionless body. He was dead. Coroner Fergu-son, who was in the neighborhood, examined the body. It was lying across the rails near a freight car, where it had been thrown by the cow-catcher. The man's neck and ankle were broken, and there was a great bruise over the left eye.

The body was left lying on the track in the open sun from the time the accident occurred until long after 11 All this time Mrs. who had been summoned, walked about with her face strained with her terrible grief. A morbidly curious crowd gathered. An outgoing express train passed by and it was not until then, when she saw how cruel must have been her husband's death that Mrs. Ward burst into tears. The body was removed to Clark & Smith's undertaking parlors about 11:20 o'clock.

James Ward, who was about 55 years age, was well known about the city. For several years he had been caretaker and janitor of a number of large buildings. Latterly he had been employed in this capacity at Robinson Hall. He also kept a small grocery store at the corner of Bathurst and Thames streets. For many years he had been connected with the Salvation Army. At one time he was a drummer in the band.

Premier Promises an Inquiry Into the Whole Subject of Oriental Immigration-Debate On Hiectoral Commission.

Ottawa, June 14.-The poll-tax upon Chinese immigrants entering British Columbia will be increased from \$50 to \$100, and a commission will be ap-pointed to inquire into the question of Japanese immigration. These were the salient features of the statement made by the premier today in introducing the promised Chinese immigration re-striction bill. Sir Wilfrid made it clear that the government consider Japanese immigration should be treated on a different basis from the Chinese, and plainly intimated that they are not prepared at this time to place any restriction upon the movement of subjects of the mikado to the country. The reason for the distinction is obvious. Events are transpiring in the Orient which may at any time involve Great Britain in hostilities, in which event Japanese co-operation with the British would be a very desirable thing. The two powers are friendly terms, but hostile legislation by Canada might lead to an estrangement, and prejudicially affect imperial interests. Therefore, Chinese and Japanese coolies will not be treated as being on a par. The government had been urged to enforce the Natal act in British Columbia, but this would mean that no Asiatic would be allowed to enter the province unless he could read and write some European language. It would be prohibitory in its effect, and would practically exclude both Japanese and Chinese. Such a policy is not considered advisable at the present time, so far as the Japanese are con-cerned. While, however, the government have deemed it wise not to restrict Japanese immigration at this juncture, they are taking steps to make known the sentiment of British Columbia in the right quarter, and possibly pave the way for future action, as the commission will take evidence upon the nature and effects of Japanese immigration, and the views thin blood. of the people of the province upon the subject will be placed before the imperial authorities.

The case is somewhat different with regard to the Chinese, and the facts are better known. They are only transient residents of the country. They come here merely to make a living, exist on a diet that would starve a European, and as soon as they accumulate what they deem to be a sufficient competence, return to the Flowery Kingdom. First, it proposed an increase in the poll-tax to \$100; but in its latest resolution it has urged that an advance be made to \$500. This is a big jump, and the government are scarcely prepared to go that far, at all events for the present. They will relegate the question to the commission, and careful inquiry will be made as to what effect a poll-tax of \$500 would have upon Chinese immigration.

It was hardly to be expected that

the premier's statement would satisfy the opposition. Nobody was surprised, the opposition. Nobody was surprised, therefore, when first Col. Prior, and afterwards Mr. N. Clarke Wallace, expressed disappointment. The gallant colonel, while admitting the necessity of safeguarding imperial interests, thought there would be no harm done by excluding the Japanese. The member for West York put on record his opinion that there is not much room for John Chinaman in Canada, but he was good enough to approve of the government's policy with regard to

Mr. Monk made his motion this afternoon for a committee of investigation into the contract for the supply of emergency rations, but the motion stands over until tomorrow, when Dr. Borden will present a statement in ex-planation of the department's course. It would be impossible to name a more impartial or independent tribunal than that which the government has appointed to inquire into the alleged election irregularities, and the scope of the commission is just as little open to objection. In spite of this, however, the opposition are putting up the big bluff that the scope of the inquiry is too narrow, and this evening Mr. Bor-den, of Halifax, moved to give effect to the recommendations made the other day by Sir Charles Tupper, but which the minister of justice pro-nounced to be entirely unnecessary, in view of the large powers conferred upon the commissioners. The minister of Railways, Mr. Benj. Russell, and other keen reasoners of the ministerialist side clearly demonstrated that the scope of the inquiry was sufficient to include every species of electoral fraud, but it had little effect upon the opposition, whose purpose seemed to be to discredit the commission in advance. Evidence of this was given by Sir Hibbert Tupper, who let drop the remark, "should the commission become a farce." This is a queer way of referring to a tribunal composed of such distinguished judges as Chancelfor Boyd and Mr. Justice Falcon-bridge. To suggest that the commission is likely to become a farce is to convey the idea that these eminent members of the bench are likely to lend themselves to unworthy proceedings and to a burlesque of justice. Of course, such an absurd suggestion will not command any weight, but it indicates the desperate lengths to which the Conservatives are prepared to go when they cast doubts upon the impartiality of an independent tribunal even before it has begun its proceed-The debate continued late hour, and the motion of Mr. Borden was rejected on a division.

## **FATALLY POISONED**

Mrs. Laughton, of Metcalf, Took Carbolic Acid and Died Shortly After -Her Mind Was Deranged.

Mrs. Laughton, aged 32 years, wife of Mr. Wm. Laughton, of Metcalfe township, swallowed two ounces of carbolic acid on Saturday last. She died ten minutes afterwards. She had recently returned home from this city, where she had undergone an operation. Her mind appeared to be effected, and frequently she threatened to take her life and that of one of her children. Saturday, she accompanied her hus-band to Glencoe, and while there she bought the carbolic acid, saying that she wished to kill insects with it. Mr. Laughton carried it for her. When they returned home she put her arm around her husband, and kissed him, at the same time taking the poison from his pocket. She went to the pantry and swallowed it. Mrs. Laughton leaves a family of several children. No inquest was deemed necessary.

Ten Persons Perish in a Tenement House Fire.

Six More Injured-Some of Them Can not Recover.

New York, June 15.-Ten lives were lost, and six people were badly injured during a fire which almost totally de-

stroyed the old five-story tenement, 34 Jackson street, early today. The following is a list of the dead: Louis Marion, 40 years old; and his three children, Albert, Elsie and Emma; William Cotter, and his wife, Kate, and their four children, Mamie, Jacob, Kate and John.

The Cotter family occupied apartments, on the fourth floor, and the Marion family lived on the floor above them. The two families apparently were asleep and were not aware of their danger until too late to effect an

Escape.

Louis Marion was killed by jumping from a window. When the firemen reached the apartments of the family, three of the family were dead on the

floor and the others unconscious.

In the Cotter rooms was found Mrs.

Cotter, while a few feet away lay the body of Mr. Cotter with a dead child under him. In other parts of the roots. under him. In other parts of the rooms were found the remaining members of the family. Only two of them escaped alive. But for the heroic behavior of the police and firemen many more lives would have been lost. The monetary loss caused by the fire is slight.

SUPERIOR MERIT.

Remarkable Curative Properties of ach Weakness.

Stuart's Dyspepsia Tablets, a preparation for the cure of dyspepsia and the various forms of indigestion and stomach trouble, owes its great success as a cure for these troubles to the fact that it is prepared for disease and weakness of the stomach and digestive organs only, and is not recommended or advised for any other disease.

It is not a cure-all, but for any stomach trouble it is undoubtedly the safest, most sensible remedy that can be advised with the prospect of a permanent cure. It is prepared in tablet form, pleasant to taste, composed of vegetable and fruit essences, pure pep-sin and Golden Seal, every one of which act effectively in digesting the food eaten, thereby resting and invig-orating the weak stomach; rest is nature's cure for any disease, but you cannot rest the stomach unless you put into it something that will do its work

or assist in the digestion of food. That is exactly what Stuart's Dyspepsia Tablets do. One grain of the digestive principle contained in them will digest 3,000 grains of meat, eggs or similar wholesome foods; they will digest the food whether the stomach is in working order or not, thereby nourishing the body and resting the stomach at the same time, and rest and nourishment is nature's cure for

any weakness. In persons run down in flesh and appetite, these tablets build up the strength and increase flesh, which the weak stomach cannot do; they increase the flow of gastric juice and prevent fermentation, acidity and sour, watery Stuart's Dyspepsia Tablets can be found at all drug stores, at 50 cents

Winnipeg, Man., June 14. — Reports sent from every section of the province show that the hay crop in almost every township is a total failure, owing to lack of rain, and if the present dry weather continues the wheat crop will be very indifferent. The Northern Pacific Railway crop returns from Minnesota and the Dakotas place a gloomy oulook on the crop situation.

MAY LOSE THE BALL TEAM. London may lose their ball nine in the course of a few days, if the at-tendance at the games here does not pick up. Several tempting offers have been received by the management for the whole team. No steps have been taken yet in the matter. The team have been playing the snapplest kind of ball, and deserve the liberal support of the citizens. All the league teams are being greatly strengthened by the addition of new players, from the other big leagues, and the pennant race promises to be a keen one. At first London had things pretty much their own way, but any of the teams can now give them an argument, and it will keep the locals hustling to hold first place. The Saginaws, who play here again tomorrow, can safely boast of one of the fastest teams in the

Cronje's Son Surrenders-Attack on One of Gen. Kitchener's Construction Trains Repulsed.

London, June 15.—The war office has issued the following dispatch from Lord

"Pretoria Presidency, June 14-10:40 p.m.-Klerksdorp surrendered on June 9 to an armed party, sent on by Gen.

"A messenger from Klerksdorp reports that Cronje, who commanded there, determined to surrender as soon as he knew for certain that Pretoria was in our possession. His example has been copied by many in the neighborhood. The court house is now said to be full of arms.

"Gen. Kitchener reports that the Boers attacked a reconstruction train early this morning a few miles north of the Rhenoster River. He sent out mounted troops and drove off the enemy before they could do damage. One man was killed and eleven were wounded, including two officers."

IT WAS CRONJE'S SON WHO SUR-

RENDERED. London, June 15 .- By the peaceful occupation of Klerksdorp, announced by Lord Roberts, the British have gained a terminus of another railroad to Johannesburg, but it is within easy reach of the Kroonstad and Nierfon-tein Railroad. The Cronje who surrendered the place is a son of the fam-ous Gen. Cronje, now a prisoner at St.

Helena. The former was prominent during the siege of Mafeking. Apart from the fact that Lord Roberts' dispatch comes direct from Pretoria, showing the

TELEGRAPH LINE IS REOPENED, a point of interest is the fact that the Boers whom Gen. Methuen was reporterd to have so utterly routed have suf-ficiently recuperated to attack a re-

construction train.

A dispatch from Kimberley reports the capture of the well-known pugilist, Jim Holloway, who was an adjutant in the Boer army, and who blew up the

bridge at Fourteen Streams.

It is feared at Cape Town that the parliamentary deadlock will probably lead to a temporary suspension of leg islation. Sir John Gordon oprigg is ex perlencing much difficulty in forming a cabinet, Mr. Schreiner refusing to support a ministry dominated by Mr. Cecil Rhodes.

## EIGHT KILLED

Disaster in an Alberta Mine-Eight Men Dead and Several Injured.

Canmore, Alberta, June 15. - The most serious gas explosion that ever occurred in Canmore mine took place Wednesday afternoon, resulting in the instant death of eight men and several slightly injured. The names of the dead are: Prosper Daye, Amand Regar, Toney Boltinia, Peter Caulfield, and three others, foreigners, whose names are yet unknown. The first three leave large families. The cause is supposed to be due to one of the miners, who lost his life, unlocking his safety lamp with a key wrongfully obtained.

DOCTORS DISCIPLINED. Toronto, June 15.—Charges of unprofessional conduct against two members of the profession were considered yesterday's meeting of the Medical Council. One charge against a young physician of having allied him-self with a patent medicine company and of prescribing a remedy, the component parts of which he was ignorant of, was allowed to go on suspended sentence. The name of Dr. Robert Edward Sproule was stricken from the rolls because that member of the college was shown to have advertised certain cures for tuberculosis.

The registrar was instructed to notify the College of Physicians and Surgeons

of Michigan that one Dr. Sovereign, who is seeking a license to practice in

that state, had been debarred from practicing here for three years because of unprofessional conduct.

HEART DISEASE. A Toronto Physician Says It Never Exists Without the Presence of Some Kidney Disease.

Toronto, June 11.-The number of sudden deaths due to heart disease appalling. The medical profession is devoting more attention to the heart and its ailments at the present time than ever before, and many physicians are making a specialty of diseases of this organ. A Toronto doctor, who de-votes much of his attention to this branch of his practice, said to your re-porter today, "I have yet to learn of a single case where heart disease caused death, in which a post mortem examination did not show the existence of Bright's Disease, Diabetes, or some other kidney disease." Dodd's Kidney Pills will cure all disease of the kidneys and thus ward off the danger of heart diseases.

MASONS VS. LIQUOR DEALERS. Chicago, June 15.—A special to the Tribune from Tacoma says: "The Washington Grand Lodge of Masons, in session in this city, has voted not to admit liquor dealers to membership in the order, and directs present members who are in that business to withdraw."

A meeting of the Middlesex Law Association was held yesterday to consider a request from York Law Association that delegates be sent to a meeting of that association in Toronto on June 30. The matter to be discussed at the Toronto meeting is the question of reducing the annual fees of solicitors to the Law Society, Toronto by the second solicitors to the Law Society, Toronto by the second solicitors to the Law Society, Toronto by the second solicitors to the Law Society, Toronto by the second solicitors to the second ronto, by the amount paid to the local association. R. Bayly, Q. C., presided, and an extended discussion took place. The tenor of the meeting was in favor of the suggestion, but no feasible plan carrying it out was forthcoming. Mr. Bartram expressed himself as ready support any measure advocating the abolition of the Law Society at Toronto. It was finally moved by M. D. Fraser, Q. C., seconded by W. H. Bartram, that no action be taken to appoint delegates. The motion carried. THIRD ANNUAL LUNCHEON.

## ANNUAL EXERCISES

Of Hellmuth Ladies' College-Brilliant Gathering Last Evening.

The annual commencement of the Hellmuth Ladies' College took place last evening before a large gathering of leading citizens. Among those present were Bishop Baldwin. Ven. Archdeacon Davis, Canon Richardson and Rev. Messrs. M. Seaborne, W. T. Hill, G. B. Sage and Professor Bur-

The drawing rooms, halls and class rooms were exquisitely decorated with flags and daisies, and presented a very beautiful appearance, while the fair young students acquitted themselves with the refined ease and gracefulness which has always been a feature of Hellmuth training. The varied and thorough educational work of the institution was shown in the following very excellent programme, all of which was most successfully performed: Piano duet—(a) Minuet...Saint-Saens

Can Be Promptly Relieved and Cured by Dr. Fowler's Extract of Wild Strawberry.

The pain and suffering, the weakness and oftentimes collapse associated with an attack of Diarrhea make it a disease to be dreaded, and for which prompt relief and a ready cure are greatly to be desired.

The salutary action of Dr. Fowler's Extract of Wild Strawberry in giving almost instant relief from the pain, checking the too frequent and irritating stools, settling the stomach, and bracing up the weakened heart, render it without a peer for the treatment of bowel complaints of young or old.

EASTERN LEAGUE STANDING.

The Saginaw ball team is playing with the Woodstock Canadian League team today. LACROSSE.

Owing to the postponement of the tattoo until last night, the proposed game between the military team and the home twelve had to be laid over, as the soldiers could not leave their duties at the camp. Arrangements have been made to play off the tie at Springbank tomorrow afternoon, and a giltedged game of lacrosse will be put up. When the teams last met the score was a tie at two all, and neither twelve was satisfied with thei outcome. Since then the soldiers have atrengthened their team, and are now in snape to give any club a fast game. Their twelve includes some of the fastest men in Western Ontario, among them being two members of the 'Varsity team that played in New York a couple of weeks, several senior cracks from Seaforth, Fergus and other hot lacrosse towns, and "Riley" Hern, the star goal-keeper of the Stratford hockey team, who is just as handy with the lacrosse stick as he is on ice. There is no doubt that the game will be a fast and good one. No admission will be charged, the management of the club giving the game merely as an exhibition of lacrosse, and to show the people of London what Canada's national game is like. The

Daily Demonstrated at 344 Richmond Street by the Cannom Stove Company.

A wareroom has been opened at 344 Richmond street, just north of the Grigg House, by the Cannom Stove Company. This move is forced upon the firm by the fact that their quarters at 197 King street are inadequate to accommodate the large number of people who come daily to investigate the merits of the popular Cannom Summer Stove. So rapidly are the people becoming convinced of the practical utility and undeniable merits of the Cannom Summer Stove, that their manufacture, while one of London's most recent industries, may also be described as one of its most growing industries. The Cannom Summer Stove is daily growing in popular favor, and the action of the management in opening their new wareroom will doubtless be an added factor in the growth of the business. Courteous attendants will at all times be on hand to show callers the many points of excellence possessed by the Cannom Stove. The new warerooms are very convenient for the public, directly on the way to or from the G. T. R. station, and passengers going through London will have ample opportunity usually to call into the warerooms, examine the stoves, and return to their train in good time. The citizens of London should also consult their own convenience and advantage by calling and learning the truth about these stoves. which bid fair to completely do away with the discomfort and annoyance that attend the household operations of cooking and baking in the summer

### METEOROLOGICAL

Toronto, June 14-8 p.m.-This even-ing's chart is somewhat complicated, as there is a developing low area over the Southern States with an accom-panying rain area which extends very nearly northward to the lower lake region. It is not probable, however, that the rain will spread into Ontario during Friday, and perhaps not until Sunday. The drought continues in Manitoba, but it is more than probable that thunderstorms will occur pretty generally in that province during Friday night and Saturday. Minimum and maximum temperatures: Victoria, 56-68; Kamloops, 54-84; Calgary, 40-72; Prince Albert, 40-72; Qu'Appelle, 46-82; Winnipeg, 46-84; Port Arthur, 42-77; Parry Sound, 56-64; Toronto, 60-77; Ot-tawa, 60-76; Montreal, 56-76; Quebec,

54-62; Halifax, 48-68. Local temperatures.—The highest and lowest readings of the thermometer at the observatory on Thursday, June 14, were: Highest, 72.5°; lowest, 58°. Today (Friday) the sun rose at 4:35 a.m., and sets at 8:01 p.m. The moon rises at 10 p.m. and sets at 7:14 a.m.

## PLEASANT PICNIC

Held by the Schools of Lobo-Listof the Prize-Winners.

Those who attended the picnic of the Lobo schools, held on the 8th inst., pronounced it one of the best ever held in the township. The young folks met at Poplar Hill school at 1 p.m., and, headed by the Musical Society Band of London, marched to the park, where a flag-raising and other patriotic exercises were enthusiastically carried out. An adjournment was then made to the athletic grounds, where a good proprogramme of sports was entered into with much spirit. Under the able management of the judges, H. Harris, J. McVicar and M. Paul, everything passed off smoothly. The numbers following the names of the prizewinners in the list below refer to the school sections they attended:

100 yards race, for boys over 12—1 Lorne Barclay, No. 10; 2 Manfred Barclay, No. 10; 3 James McKinley,

After the sports came a beautiful display of fireworks, and then the picnickers went home well pleased.

## VISITED THE NORMAL SCHOOL

Members of the Board of Mducation the Guests of Principal Merchant-Trustees Delighted With the Completeness of the Institution.

'A number of the members of the

board of education visited the Normal

School last night on invitation of Principal Merchant, and were given the opportunity of viewing in its completeness the beautiful building which will make London a still more important factor as an educational center. Among those present were Principal Merchant, Vice-Principal Dearness, ex-Chairman MacRobert, Logan, Blackwell and John Stevenson, Trustees Hamilton, Jones, Wilkins, Macpherson, Evans and Ziegler, and Inspector Carson. The party were first conducted through the building and all were enthusiastic in their admiration of its beauty and completeness. The well-appointed lecture rooms, the lofty assembly room, the sanitary arrangements, the heating system and the automatic heat regulating appliance were in turn viewed with interest and admiration. Luncheon was served in the secretary's office, and those present gave abundant evidence of their appreciation of the viands provided.

When luncheon had been disposed of, the gathering repaired to the principal's office. After informal conversation. Trustee Macpherson rose and expressed his personal pleasure and the pleasure of his fellow-trustees in being present and partaking of Principal

This Ex-Chairman MacRobert seconded, at the same time voicing the esteem and appreciation which Mr. Merchant had won from the board while principal of the Collegiate Institute. All the ex-chairmen and trustees present followed, paying high tributes to Mr. Merchant's personal worth and his work as an educationist, and also speaking highly of the ability of his assistant Vice-Principal Dearness. The principal and vice-principal replied in neat speeches, thanking the speakers for their expressions of regard, and briefly outlining their hopes and aims for the future of the school. Inspector Carson also spoke briefly in reference to the intimate relations existing between the Normal School and Model School staffs. The singing of the National Anthem

Will Be Sentenced, if a Reserve Case Is Not Granted-Geo. Corrigan Also Convicted.

The jury in the case of Arthur Howay, accused of throwing a missile at a street car last summer, remained out for over two hours yesterday afternoon, and then returned with a verdict of guilty. Howay was remanded for sentence. Mr. McEvoy, the prisoner's counsel, applied for a reserve case, on the ground that certain evidence should not have been admitted. Judge Elliott will give his decision on the application before the court closes. Should the reserve case be granted, the judge may allow the prisoner out on ball while the court of appeal decides upon his application, but if the judge refuses the reserve case then application must be made to the attorney-general's department.
Only one witness was called in the

Merchant's hospitality. He moved a case against George Corrigan, the tramp, accused of stopping a G. T. R. express by giving a false signal. Engineer Crouch testified to Corrigan as the man who had flagged the train. Corrigan had no counsel, and as he did not enter the box himself the jury returned a verdict of guilty without leaving the room. The prisoner was remanded for sentence. He is evidently of unsound mind.
