## MAKE TWO CAKES

One with C. & L. "Superior" Baking Powder, the second with any other. Note the difference. The cake made with our "Superior" Baking Powder is finer-grained. Keeps its natural moisture and flavor. "The other" is coarse-grained, soon dries out and becomes stale. The C. & L. Baking Powder is the best because its strength is produced by Pure Cream Tartar and Soda only, not by ammonia, alum or any other deleterious substances. Use our Baking Powder and you will always succeed. Price 25c per pound.

Marriage of Italy's Crown Prince to Princess Helene.

The Poor Get a Gift of \$20,000 in Honor of the Event.

Rome, Oct. 24.—The civil marriage of the Crown Prince of Italy to Princess Helene of Montenegro took place this morning in the ballroom of the Quirinal.

The religious ceremony was concluded at 1 o'clock, when the cortege returned to the Quirinal.

The young couple went in procession to the Church of Santa Maria De Gli Angeli, where the religious ceremony was celebrated.

THE TURF

AT FRANKLIN PARK. Gunguis, Mass., Oct. 23.—The fifth day of the fall meeting at Franklin Park drew a good crowd to witness the unfinished 2:09 pacing race.

STAR POINTER BEATEN. Mansfield, Ohio, Oct. 24.—The chief race here yesterday was the 2:09 pacing race between Star Pointer (2:02-1-2) and Rubenstein (2:05), for a purse of \$1,500.

TIPS. Nellie Bruce, the Allis Craig pacing mare has closed the season of 1915 by winning for her owner, J. McEwen, a purse of \$1,000 at Lexington, Ky.

AT WINDSOR—FRIDAY. First race, 5 1/2 furlongs, selling—Ruth V. 1, Billy Wilkes 2, Bona Schoenfeld 3. Time, 1:09 3/4.

Second race, 5 1/2 furlongs—Arlington 1, Cogmoore 2, Harry Wilkes 3. Time, 1:08 1/2.

Third race, 1 1/4 miles—Lightfoot 1, Cotton King 2, Pete Kitchen 3. Time, 2:08 3/4.

SEVENTH RACE. Brantford, Ont., Oct. 24.—At the Coliseum bicycle races, Tom Cooper smashed a world's record Thursday night.

BRANTFORD RACES. Brantford, Ont., Oct. 24.—The bicycle races at Parkdale driving park yesterday were well attended.

AT CHATHAM. Chatham, Ont., Oct. 24.—The following events took place at the bicycle record trials here yesterday.

First event, 1 mile, standing start, paced—John Davidson broke the amateur record, 2:05 3/4, making it in 2:05 2/4.

Second event, 1 1/2 mile, tandem flying start, unpaced—Davidson and Dunbar, 3:57 3/4.

Third event, 1 1/2 mile, flying start, paced by Brown and Yeury—McLeod won, 55, flat.

SPOKES. Mrs. Langtry is likely to cause a sensation in the cycling world, as she now flashes around the park on her bicycle enameled in her racing colors, fawn and turquoise.

Not so many centuries were ridden this year as the Canadian road organizers had anticipated. The ten-hour limit deterred a few who were not sure whenmen from tackling the long ride, and it seems almost a certainty that the time will have to be revised next year if the club is to retain its identity in the world of cycling.

Globe: At the present time there are more riders sharpening their shears for angling a few inches or so off the long hirsute appendages that adorn the venerable visage of old Father Time than there are pot-makers. The great desideratum of all the cracks is proper pacing, but this they apparently cannot get. There are riders in Canada who can follow pace as hot and as long as it can be served up to them, and who will give any of the American champions a hard rush for supremacy.

TESTIMONIAL TO THE MANAGER. The friends of Prof. Joseph Gerstel, who had the management of the recent city pool tournament and the subsequent professional matches, decided to tender him a benefit and yesterday at the Grigg House billiard parlor was "testimonial" day.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

The Shooting Season THE GREAT BIRTON GROUF.

Opens Next Week on the Queen's Preserve. Lord Tweedmouth Bagged 157 Deer in Scotland.

The Prince of Wales a Prize-Winner at the Dog Show. Late Archbishop of Canterbury's Answer to the Pope's Bull.

The Castles' Heavy Ball—Heavy Snow in England—General Gossip.

Special Saturday Cable Letter to The Advertiser. London, Oct. 24.—The return next week of Prince Christian of Schleswig-Holstein (husband of Princess Helena, second daughter of Queen Victoria), to Cumberland Lodge, formally opens the shootings on the Queen's game preserve.

Stag-shooting in Scotland is nearly over, and the champion Lord Tweedmouth, who shot 157 head during the season. The United States Ambassador, Mr. Thos. Bayard, who has been visiting the Earl of Leven, at Glenferries, is said to be much pleased at the fact that he has shot a "royal," which is considered a great advance over his performance while grouse-shooting in 1915, when it is alleged he accidentally shot a man who was beating up the birds.

WITH THE DOGS. The showing made by the Kennel Club at the Crystal Palace, this week, was the largest on record. There were 2,257 entries of quality of the highest order. A novelty in the exhibits was the Pekinese spaniel, which were on all the collie class, the celebrated dog Southport, by Perfection, valued at \$5,000, won all the prizes. Gork R. Sims won the championship in the bulldog class, with his dog, Barney Baratto.

BENSON'S ANSWER TO THE BULL. The last week which the late Archbishop of Canterbury was engaged in, was the preparation of an answer to the bull of Pope Leo XIII. on the Anglican orders, in which Dr. Benson asserted the positiveness of the assertion may still have effect with some who mistake the kindness of a personage for the thawing of frozen church policy to which he is committed.

DR. BENSON'S SUCCESSOR. Gossip still selects the Bishop of Winchester (the Right Reverend Anthony Wilson Thorold, D.D.) as Dr. Benson's successor. Dr. Thorold was born in 1825 and educated at Oxford. He was consecrated Bishop of Exeter in 1871, and of Salisbury in 1878, and was translated to Winchester in 1890. He is the great-grandfather of the Garter and patron of 117 living.

THE CASTLES' HEAVY BALL. The strange case of Mr. and Mrs. Walter M. Castle, of San Francisco, still causes much comment, and the motion of Magistrate Scoville in England, that at \$200,000 is accepted as the court's belief in their guilt. Whether this is so or not, it is a remarkable fact that an Englishman of high position, charged with a similar offence, was immediately released on bail.

GLADSTONE ON WHEELS. Sketch says that Mr. Gladstone is about to become a cyclist. His little son, Harold, Dorothy Drew, rides well, and it is explained that her learning to ride has so fascinated the veteran statesman that he is determined to do the same in the same manner.

"MARYS" NEW HOME. Madame Antonio Navarro (see Mary Anderson) has given up her residence at Tunbridge Wells, and is shortly to leave Wimbledon, where her last child was born, for her home in Broadway, Westchester. The place is extremely picturesque, and quite a colony of artists are settled there, including Frank Millet, and Alfred Parsons. Madame Navarro has taken a one old house on a lease of 21 years, and has already spent over a thousand pounds in improvements and decorations.

GENERAL GOSSIP. The wheat market, the money market and the Presidential campaign in the United States continue to interest the business community. Snow, to the depth of a foot, has fallen in many parts of England.

SUICIDE OF A DESPONDENT MOTHER. Kansas City, Mo., Oct. 24.—Mrs. Kate Pascoe and her 4-year-old boy were found dead on the floor of her home yesterday. Death was caused by asphyxiation, the gas jets in the room being turned on. Her husband was working at Clinton, Mo., and failure to receive money from him caused her to become despondent.

established herself in the east end of London, in order to devote her spare time entirely to the poor. She has caused to be erected a house, called St. Gertrude's Home, where all unfortunate children are housed.

At the 21st annual exhibition of the British Dairy Farmers' Association at Islington, during the past week, there were over seven thousand entries. A special effort was made by the Earl of Powis to induce the British dairymen to imitate continental methods.

Three model dairies—Swiss, Italian and French—were shown in operation, besides a British dairy. There were 155 butter-making contests, and the largest show of cheese ever made here.

The new Church of St. Giles, Canterbury, has introduced a novelty in church architecture. Instead of the contents of his gun into his right arm. The limb had to be amputated below the elbow. Combs' condition is very low.

Princeton University has conferred the degree of Doctor of Laws on Messrs. Goldwin Smith, James London of Toronto; William Peterson, of McGill, Montreal, and the degree of Doctor of Divinity upon the Rev. Principal Cayen, of Knox College, Toronto.

HO? CHOLERA IN ESSEX. The Slaughtering Still Going on in the Township of Malde. In addition to the hogs slaughtered last week in the cholera district in Malden, by order of Dr. Wilson, of London, inspector for the Agricultural Department, 38 were slaughtered on Wednesday of this week.

Inspector Wilson, accompanied by Dr. McBride, made an inspection on Wednesday, and as a result of their visit, Sylvester Erush slaughtered 5, valued at \$35; Noah Robidoux, 27, valued at \$105; Jacques Desjardins, 10, valued at \$35; Martha Green, 10, at \$45; David Boufford, 12, at \$45; Henry Brothers, 7, at \$35; and John C. Bailey, 2 very large hogs, valued at \$27. Inspector Wilson and Dr. McBride made another visit to the infected district yesterday (Thursday), and made a thorough investigation into suspected cases—Amherstburg Echo.

TOWN AND COUNTRY. The elder mill at Florence is kept busy these days. The farmers have only one complaint—they cannot get enough barrels to hold the cider.

Dr. J. K. Gordon, of Lucknow, has purchased the medical practice of Dr. Knechtel, of Ripley. Mr. Sullivan, who was employed at the Goodison implement works, Sarnia, removed with his family to Strathroy on Tuesday.

On Tuesday night there was a car-load of cheese shipped to Montreal from Belmont Station consisting of 170 boxes from the Belmont factory this is not particularly acceptable, estimated at \$200.

Sir David MacPherson's will was probated on Friday. He left an estate of \$240,000. The whole goes to the immediate family.

Windsor Salt. Purest and Best for Table and Dish. No adulteration. Never cakes. The temperate tongue triumphs.

# WHISKARD'S

TWO BUSY DEPARTMENTAL STORES.

## IT'S NO ART

To know what the people want; but it's a fine art to know how to fill their wants at **ACCEPTABLE PRICES**. This is the art we have been studying for 27 years, and we think that these two busy stores of ours furnish pretty good evidence that we have mastered it.

## A Significant Fact

The constant increase of our Millinery Business. There is certainly a reason for this, and this very reason is of great moment to you, if you are thinking of buying a Hat or Bonnet. It is in this department we can save you money. Our Trimmed Walking hats, for instance. What is the use of paying \$1.25 for what you can buy at Whiskard's for 75c? Ladies' Sailors for 75c that you pay \$1 elsewhere.

## Some Say

The times are hard. So is a cake of ice—but you can melt it. No matter how hard the times are they can be softened sufficiently to do business, if you go about it the right way. Our low prices and honest, straightforward methods are attractive. There is a bond of sympathy between our prices and your purse. Can't we attract you to our linen department with such prices as these? Heavy Damask Table Linen, 60 inches wide, 25c yard. Breakfast Table Covers, red border, 47c and 59c each. Damask Five O'clock Teas, large size, 25c each. Linen Table Napkins, 5c, 7c, 10c, 15c and 20c each. Linen Sideboard Scarfs, from 25c to \$1 each. Linen Tray Covers, Center Pieces and Doilies at special low prices. Damask and Linen Towels, at 6c and 9c each.

## This Store

Doesn't believe in injuring its future. It does not advertise prices which will tempt you here and then tell you that the goods you come to see have just been sold. It is not that kind of a store. Every price quoted is a fact. Come and see. Mingle with the great throngs of patrons who prove by their presence that this firm is one which treats the people right. We have for your inspection: Ladies' Sateen Quilted Skirts, worth \$3.50, for \$2, handsome skirts. Ladies' Sateen Quilted Skirts from \$1 each. See our table of Silk Velvet Ribbons, from 1c yard. Special sale of Black Silk Velvet Ribbons, 5c yard. Japanese Silk Drapes, embroidered in gold, 25c each. Ladies' Fine Fancy Ringwood Gloves, 25c pair. Ladies' Fine Black Cashmere Gloves, 25c pair. Children's Fine Fancy Ringwood Gloves, 20c pair.

**BLOOD POISON**  
HAVE YOU...

## Sparks from the Wire

A Sunday street car agitation has been started at Ottawa. Two halfbreeds named Tart were drowned near Prince Albert, Man., while crossing the river. Charles F. Crisp, the ex-Speaker of the United States House of Representatives, died at Atlanta, Ga., Friday. Mr. Jas. Collins, a North Easthope township farmer, has been left \$38,000 by his brother, who died in Michigan. A 2-year-old child, Marie Blanche Gilles, fell into a tub of boiling water at Montreal on Wednesday. She died yesterday. Mrs. Barrage, aged one hundred years and four months, died at her home in Wallstown township, Hastings. John Dillon makes an appeal to fishermen throughout the world for funds to carry out the intentions of the recent Dublin convention.

President Cleveland delivered an address at Princeton yesterday, in which he made a strong appeal in behalf of national honor and good faith. Gifts aggregating \$1,353,000 have been received by Princeton University, of which \$600,000, from a donor whose name is to be withheld, is for the library. The 23rd annual convention of the National W. C. T. U. at St. Louis, Nov. 15-18, promises to be a big affair. One of the features will be an Armenian mass meeting, Sunday, Nov. 15. Mrs. Mackin, second wife of Thos. Mackin, of Chicago, has been paid \$25,000 to drop her suit against her husband's children by his first wife. She has received \$30,000 from the estate.

Allison, the Hamilton firebug, was sentenced to four years in the penitentiary. His crime consisted in setting fire to his store in Copp's Block, King street, east, in June last, to get \$400 insurance. There are five cases of scarlet fever in the George Street Boys' Home, Toronto, in the dormitory, which contains 29 boys. There are 129 boys altogether, but Dr. Sheard expects to confine the disease to the one dormitory. Edward Bok, editor and part owner of the Ladies' Home Journal, and Miss Mary Louise Curtis, daughter of Cyrus Curtis, proprietor of the publication, were married at the country residence of Mr. Curtis, at Jenkintown, Pa.

Hattie Blaine Beale, youngest daughter of the late James G. Blaine, has obtained a divorce from Truxton Beale. They were married at Washington in 1884, with great eclat, but for the past year they have not lived together. Non-support was alleged by Mrs. Beale.

Miss Kennedy, of 120 O'Hara avenue, Toronto, while returning from the St. Paul concert, was stricken with an attack of convulsions on the street near Maple avenue. The young lady died within a few minutes. She lived with her brother, who is choir-master of St. Mark's Church. A superior court bailiff on Wednesday seized the furniture, carpets and everything movable in and around the Montreal city hall to satisfy a thousand dollar judgment secured against the city by a man named Anderson, whose wife had been injured by falling on a broken sidewalk. Two bridal couples, when leaving Brantford, had the misfortune to get their trunks mixed up. In other words, the wrong checks were given the respective grooms. One party went to Buffalo, the other to Toronto, and the discovery was first made by the Buffalo party.

Bogus Canadian half-dollars, made in China, as pure as the genuine, and almost a perfect imitation, are in circulation. About 2,000 worth of these coins were shipped from China, and there are more to come. The coins bear the date 1914, and are whiter than the original, and a shade larger and heavier. E. D. Campbell, the old preacher who was found by the roadside near Stony Creek the other day, died at the Hamilton City Hospital Thursday morning of exposure and old age. His sister-in-law, Mrs. Campbell, Cardiac, has been notified. Campbell belonged to the Church of the Antidote. James Ross, a C. T. R. brakeman at Toronto, had the little finger of his right hand cut off Thursday, at York Station, while engaged in separating the van from the train. The loss of the finger leaves his right hand fingerless, as the other three and the thumb were cut off some weeks ago.

**I CAN'T SLEEP.**  
Is the Daily Mail of Thousands of Haman...  
Montville, Kas.—Read What the Great South American Kervine Did for Him.  
I was greatly troubled with general nervous debility, indigestion and sleeplessness. I tried a number of cures and consulted best physicians, without any benefit. I was finally induced to give South American Kervine a trial. I had heard of some great cures by it. I took it, got relief from my sufferings, and after using one bottle sweet sleep came to me. I slept like a child. Six bottles have completely cured me.

St. Paul had an increase of but 51 skulls during the past year. It would be a poor place to establish a furniture factory, making a specialty of cradles and baby carriages.—Berlin Record.

## Organized Charity.

Its Promoters Laying Plans for the Winter.

Proposal to Secure the Efficient Services of Inspector Sanders.

The Garden Plot and Savings Bank Schemes in Abeyance—More Co-Operation Needed.

The Organized Charity Society met in the City Hall yesterday afternoon to decide on plans for the work during the coming cold season, and whether they would proceed with or without a secretary, or secure one and pay him. President J. Pearce lamented the fact that so little interest was taken in the society by some members. He had spoken to a number of them concerning the meeting, and nearly all thought it proper, but had failed to be there themselves.

The following were in attendance: Miss Graydon, Mrs. T. Macbeth, Fred W. Matthews, F. J. Daroh, O. Labelle and H. E. Gates. President Pearce explained the object of the meeting, and asked whether they would continue the work on the same lines as last year, or appoint a paid secretary. The majority of those present were in favor of the latter course, and he thought it could not be successfully accomplished without a paid secretary.

Mrs. Macbeth said that according to the constitution they should have a paid secretary. Mr. Pearce said some suggestions had been made to him about the matter, which was that they might come to some arrangement by which the inspector of the Children's Aid Society, Mr. Sanders, might be secured. Mr. Pearce said that he could get a better man. Mr. Sanders' connection with the Children's Aid Society has brought him into communication with all the poverty in the city, and the secretary last year found a fund of information in Mr. Sanders. He was a man well qualified to fill the position, and in connection with this work he could cover the humane work, arrangements had been made for a room in the City Hall, which he understood was the old committee room, by which permanent headquarters could possibly be made to embody the two offices in Mr. Sanders.

Mrs. Macbeth said she supposed that Mr. Sanders had come into contact with different clergymen. They did not seem to take the matter so as they should, and showed little sympathy with the movement. Mr. Matthews suggested that Mr. Sanders had come in contact with them all. He was a splendid man for the position, and he was sure that he would be successful in his efforts. Mr. Matthews then spoke of the difficulty experienced in securing in the society a regular meeting. The church in the city, so as to prevent the overlapping of relief. But they were convinced that they were going to do it, and co-operate with the society, and Mr. Matthews said they wanted to avoid overlapping the church charity.

Matthews suggested that a circular be printed and sent to each of the ministers, drawing their attention to the object of the society, and requesting their co-operation. As soon as the ministers recognized the fact that the society had come to stay they would stand at the annual meeting to accomplish this was to stick to the work and make the society prominent in the city. Mr. Pearce said that last year, with all deference to the ministers, they were the chief mischief-makers, and seemed to dislike the society. Mr. Pearce spoke of the clergy as being very unwilling to take the matter up and co-operate with the society; and he said that they wanted to avoid overlapping the church charity.

**MAY WEAR SHORT SKIRTS**  
Rebellion Among the Fair Money-Makers Over an Order Forbidding Cycling Costumes.  
Washington, Oct. 24.—Pretty nearly a hundred of the girls who make paper money at the Bureau of Engraving and Printing are bicyclists, and wear the up-to-date costumes of the modern wheelwoman. Some envious critic complained to the chief of the bureau, Claude M. Johnson. The result was that Mr. Johnson has issued an order to the effect that the girls must not come to the office in short skirts, although he had no objection to their riding the bicycle.  
All the employees affected formed in line and marched to Mr. Johnson's office to protest. One of the chief lookers of the girls was put forward as spokeswoman, and she argued at length on the inconvenience of long skirts and the freedom of short ones. Her arguments were convincing, for, after taking the matter under consideration for an hour or so, Mr. Johnson had the objectionable order rescinded.  
The girls are, of course, greatly pleased with their victory, and now even bloomers are talked of as a possibility.

**The Modern Demon.**  
Dethroned and Banished by Faine's Celery Compound.  
Mr. A. Budd Suffered 35 Years From Dyspepsia.  
Now Well, Hearty and Strong.  
It is freely admitted by physicians and all others who have had experience with Faine's Celery Compound that it is the only medicine which can dethrone and completely banish that terrible enemy known as dyspepsia. It is a great mistake to imagine that this demon of disease can be banished by pills, sarsaparillas, nervines, mineral waters, peppins or bitters. These preparations and concoctions may give a short respite from pain and suffering, but to effect a permanent cure a medicine is required that will strengthen the nervous system and remove the cause of the digestive troubles.  
Faine's Celery Compound goes directly to the root and seat of the disease, it opens up the sewers of the body, and removes the waste matters that have so sadly interfered with nutrition. It does the great work without lessening the falling strength of the sufferer, and has not the injurious effects of the common cathartics that irritate and weaken every part of the system. Faine's Celery Compound enriches and cleanses the blood, makes the muscles firm and the nerves healthy, gives perfect digestion, healthy appetite, and sweet sleep and rest.  
If you are one of the thousands bound by the chains and shackles of dyspepsia, we pray you give Faine's Celery Compound a fair and honest trial. In the past it has cured the most obstinate cases—men and women who were given up by the doctors as incurable.  
Mr. A. Budd, of Shanty Bay, Simcoe county, Ont., writes as follows about the efficacy of the medicine that cured him:  
"For the benefit of sufferers I gladly give my experience with Faine's Celery Compound.  
"After suffering with dyspepsia for 35 years, and meeting with many failures with other medicines, I decided to use Faine's Celery Compound, having heard of so many cures effected by it. The Compound, after I used it for a time, produced miraculous results and banished my troubles.  
"From a condition of helplessness—being unable to sleep or eat—I now feel well and strong. I am astonished at the results, as my trouble was an old and chronic one. I have recommended Faine's Celery Compound to some of my neighbors, and in every case it has given satisfaction. I will always strongly recommend its use when I have opportunity."  
Servants of Bluffton, Ind., conceived the idea of forming a union with a regular scale of wages based on the number of babies in a family and the number of nights out.  
Mrs. Celeste Coon, Syracuse, N. Y., writes: "For years I could not eat nor sleep. I took Faine's Celery Compound, and in a few days I was entirely cured. I can now eat anything I choose without distressing me in the least." These pills do not cause pain or griping, and should be used when a cathartic is required.

The Anonymous Libeller.

Much comment has taken place over the anonymous attack on Mr. William Buckingham, of Stratford, published this week in the Ottawa Citizen.

The facts are really as Sir John Macdonald stated them—he got rid of Mr. Buckingham because he was a Liberal, and he wanted a Conservative for his deputy.

How the world moves. Even the Island of Antioch is to have an electric railway. When Menier, the great French cocoa man, bought the island, it was a happy day for its handful of settlers.

The Winnipeg Nor'wester rides a very high horse. It says the Advertiser was "immoral" when it stated that the office of the late Archbishop of Canterbury was a fat one.

Who is the Ottawa libeller? Though Sir David Macpherson left an estate valued at \$40,613 13, he made no charitable bequests.

Our Salt Industry.

Last year business was much brisker in the Ontario salt industry than during 1894. The director of mines for this Province, in his annual report, states that salt was produced at fourteen works in the five counties of Bruce, Huron, Middlesex, Lambton and Essex.

Table with 2 columns: Year (1895, 1894) and various metrics (Tons made, Value, Wages). Values for 1895 are generally higher than for 1894.

Hon. David Mills.

Taking into consideration the reckless way in which the late Dominion Government distributed "Q.C.s" among its political friends, the Sentinel-Review says that Hon. David Mills ought to be proud of the fact that Sir Oliver Mowat, on assuming office, prevented the inclusion of his name in the list.

But all the same," adds our contemporary, "he is the highest constitutional authority in this country."

Specimen English Progress.

A native of the northern English borg, Newcastle-on-Tyne, visited his birthplace the other day, after an absence of 38 years. Newcastle is a specimen English trade center. Its population has doubled since 1850, and the condition of the people has been vastly improved.

A TRAITOR AN EXPENSIVE LUXURY

Capt. Dreyfus Costs France \$12,000 a Year and is Making His Keepers Crazy. From the Figaro.

There are not many nations in Europe rich enough to treat themselves to a traitor like Capt. Dreyfus, who is assuredly the dearest object in that line that has ever existed.

THE QUEEN HAS OULTRIVED.

1. All the members of the Privy Council who were alive in 1837. 2. All the peers who held their titles in 1837, except the Earl of Darlington, who was 10, and Earl Nelson, who was 14 in that year.

"NOT MUCH OF A VISITOR."

Here is a deliciously humorous and eminently candid excerpt from Rev. C. J. Cameron's valedictory to his congregation in Brockville: "Some have complained because I have not visited more. I was weak in that line (mark

the contrition), I was not a good visitor, and when those in charge of a congregation with me would seek to drive me kindly into that work, I thought that it was time for me to move. It may be that the man who comes after me will visit you. I hope he will visit you incessantly."

The November Century will contain the opening instalment of a three series of articles on the "Household Stories," by Gen. Horace Porter, illustrated by C. S. Reinhart; Dr. Weir Mitchell's novel of the "Revolution," Hugh Wynne, Free Quaker; and "A Rose of Yesterday," by Marion Crawford.

McClure's Magazine for November will contain the first instalment of a five or six-part story of Rudyard Kipling. It is Kipling's first long story of American life, being a tale of stirring adventure among the frontiersmen on the Grand Banks. It will be illustrated with drawings from life by J. W. Taber.

Madame Calve and Madame Melba will both appear in the next issue of the Ladies' Home Journal with articles on the voice. Madame Melba has written before, and is, in fact, no novice with the pen, but this is Madame Calve's first attempt at authorship.

### Young Liberals.

The Vice-Presidents and Executive Elected.

A Lively Meeting Addressed by Local Speakers.

The Successful Candidates - The New President Congratulated.

President—John Purdom. Secretary—Wm. A. Martin. Treasurer—John C. Trebilcock. VICE-PRESIDENTS. No. 1 Ward—P. H. Ranahan. No. 2 Ward—George Loveless (acclamation).

THE EXECUTIVE. No. 1 Ward—Fred Hallam, J. A. Tane, Sim Walsh. No. 2 Ward—Dr. Jento, Phil Lewis, George Webster.

The good-natured rivalry of the candidates ended in a lively scene at the polling place, and the returning officers, Messrs. Wm. A. Martin and A. Wantless, were kept busy from 8 to 10:15 p.m., handling the ballots.

The election was a success for the Young Liberal Club, which was organized during the coming year. Last night was set apart for the election of vice-presidents in wards 1, 2, 3, 4 and 5, and the members of the executive from wards 1, 2, 3, 4, 5, and 6—all the other officers having been elected by acclamation.

The good-natured rivalry of the candidates ended in a lively scene at the polling place, and the returning officers, Messrs. Wm. A. Martin and A. Wantless, were kept busy from 8 to 10:15 p.m., handling the ballots.

Mr. J. D. Clarke, being called upon by speakers briefly, dwelling on the bright prospects, not only for the new Liberal Government, but for the Dominion.

Dr. Gardner congratulated the president. The club had some work to do in the coming year. There was a battle to fight and a victory to win.

Mr. T. H. Furdon, in a rousing speech, the predictions made before the elections were being realized, he said, and there was a feeling of confidence that they had not known in Canada for years.

### Assessment Appeals.

Second Meeting of the Court of Revision.

A Large Number of Applications for Reduction.

Two Taxpayers Ask for an Increase of Assessment—Promptly Granted.

Another batch of appeals was presented to the court of revision, which met in the City Hall last night.

Said Mr. P. Walsh today, when questioned by an Advertiser reporter: "The condition of real estate in the city at the present time is good, and a great many transfers of property have taken place during the past few months. The most of my business has been done in the North and East Ends.

The city real estate dealers take an optimistic view of the market. London is evidently beginning an era of unusual progress and one of the surest barometers of a city's prosperity is the real estate business.

Mr. A. A. Campbell, when questioned, said considerable business had been going on all summer, and there had recently been a noticeable increase. "It will not be, however, until the mechanics are actually employed at the car shops that the change of ownership in the East End will be great.

Mr. J. D. Clarke, being called upon by speakers briefly, dwelling on the bright prospects, not only for the new Liberal Government, but for the Dominion.

Dr. Gardner congratulated the president. The club had some work to do in the coming year. There was a battle to fight and a victory to win.

Mr. T. H. Furdon, in a rousing speech, the predictions made before the elections were being realized, he said, and there was a feeling of confidence that they had not known in Canada for years.

The good-natured rivalry of the candidates ended in a lively scene at the polling place, and the returning officers, Messrs. Wm. A. Martin and A. Wantless, were kept busy from 8 to 10:15 p.m., handling the ballots.

### Health's Paradise.

Regarded After Twenty Years' Torture From That Dread Disease, Catarrh—Hon. Gen. Taylor, of Scranton, Pa., Tells the World That Dr. Agnew's Catarrhal Powder Has Done for Him.

I was a martyr to catarrh for 20 years—tried every known remedy, but got little or no relief. I was troubled with constant droppings in the throat, terrible pains in my head, and my breath was very offensive.

Dr. Agnew's Catarrhal Powder was a trial, and the result was magical. The first application cleared my head instantly. I persisted in its use, and today I am a cured man, and it affords me pleasure to lend my testimony.

### Family to be United.

Successful Ending of a Search Lasting Over Twenty Years.

Laporte, Ind., Oct. 24.—Frank E. Dacons, of Chicago, has found his mother after a search covering over a score of years. In 1874 he was adopted by the Pinkerton detective agency. Mrs. Dacons left her home and family in Van Buren county, Mich., for 26 years she has been pursued as dead by three Michigan children.

In 1872 Mrs. Dacons was divorced, subsequently remarried in 1877, when she disappeared. Meanwhile, Frank Dacons had graduated at the Illinois University, and, unable to find his mother, he employed detectives to assist him, continuing the search for many years. He recently caused inquiries to be sent to Michigan, finding as a result two half-sisters and one half-brother, living in Van Buren county, Mrs. Warner became the wife of Elder Dacons, formerly of Kane county, Ill. To this union was born the boy christened Frank E. Dacons.

Dacons' mother has been found living in a western city, and the sequel will be the reunion at Paw-Paw of the mother and children.

# With the Workers.

## Statistics Regarding the Condition of Labor in Europe.

### Wm. B. Prescott May Be a Candidate for A. F. of L. Presidency.

#### Interesting Labor News From All Parts of the World.

Mr. McCormick, secretary-treasurer of the Broom-makers' Union, is anxious to have a union of the craft formed in this city. Mr. McCormick, who was formerly a resident of London West, is now located in Detroit.

Mr. Robert Pevler, who was in Detroit attending the convention of the International Chairmakers' Union as the delegate from the local union, has returned home. He reports having had a pleasant time. There were many lively debates during the session on the various propositions before the convention. All the changes in the laws will be submitted to the referendum during the month of November.

The Labor Day committee met this week and settled up the business of the late demonstration. The full report will go before the council at its next meeting. There is a substantial balance to the credit of the council.

Forest City Lodge, B. of R. T., will hold its annual ball in the City Hall on Tuesday, Nov. 24. An energetic committee has the details well under way, and like its predecessors the affair promises to be one of the events of the season.

#### GENERAL LABOR NOTES.

Retail clerks of Duluth will reorganize.

Union sailmakers in Boston demand eight hours.

The cigarmakers' organization has 39,000 members.

There is a negro barbers' union in Richmond, Va.

Undertakers employes in New York have formed a union.

Cleveland saleswomen have organized to abolish Sunday work.

The agents of several New York crayon houses have organized.

The Trades Assembly of St. Paul has taken steps to organize a label league.

The Burdette iron works in Troy, N. Y., has started up with 1,500 employes.

Women employes of a New Haven rubber factory struck against a cut to \$1.29 a day.

Pennsylvania unions have fixed up on a site for their labor temple. It will cost \$3,000.

Miners at Ishpeming, Mich., have been cut to an average of \$1.75 a day and laborers to \$1.25.

New Orleans street car workers want ten hours constitute a day's work at 18 cents an hour.

Sixteen hundred operatives in three of the largest cotton mills in Mexico are idle from a shutdown.

Contractors are signing the scale of the garment workers, and the strike in Boston will soon be over.

The Brotherhood of Railway Trainmen has paid out since its organization \$3,117,989.89 in sick and death benefits.

More gold watches are worn by artisans and laboring men in the United States than in any other country in the world.

One of the causes of low wages in China is said to be that until recently workmen going on strike were sometimes decapitated.

The Broom-makers' Union of St. Paul is awaiting for the adoption of a law to require all goods made in one evening to be labeled "prison made."

The Longshoremen's Union of Manistee, Mich., has 200 members, among whom are Swedes, Norwegians, Danes, Poles, Irish, Germans and Americans.

The workers in the green-glass bottle industry have accepted a 15 per cent reduction. This was done to force the non-union factories to unionize their plants.

Five hundred dock laborers working on grain ships in Hamburg, Austria, struck work last week, demanding 50 pfennigs instead of 45 pfennigs per ton for unloading.

The tailors have organized unions in Terre Haute, Muncie and South Bend, Ind., and St. Catharines, Ont. Strikes are on in Providence, Adrian, Nashville, and Knoxville, Tenn.

The official notice of the American Federation of Labor, raising the boycott on the Detroit stove works, is now being read in all the unions of the United States and Canada.

The Typographical Union of San Francisco succeeded in preventing a non-union firm from getting the contract to print the Great Register. The job, worth \$2,000, goes to union men.

J. T. D. Flynn, of Helena, Mont., writes: "Organize labor in this city is dead. Politics has entered the ranks during the last month, and our union movement is going down every day."

The strike of the factory shoemakers at Copenhagen, Denmark, was finally settled in favor of the strikers. They had been out since December, 1923, on account of a reduction in wages. They not only prevented a readjustment in wages, but the em-

ployers being carried out, but gained a 4 to 10 per cent increase.

It is reported that President Prescott, of the International Typographical Union, will be a candidate for the Presidency of the American Federation of Labor. The Federation convenes in Cincinnati next month.

Iron Workers' Federation, composed of blacksmiths, metal polishers, burfers, platers, brass workers, iron ship-builders, iron molders, machinists, boiler makers, and pattern makers were in session in Cincinnati this week.

The German-American Typographical Union had a total income during the last fiscal year of \$27,641.68; its total expenses were \$25,049.80; can be on hand, \$2,638.88. There was paid to those out of work, \$1,812; sick, \$5,426.65; burial, \$2,637.85; strike, \$239.85; traveling, \$339.85; total, \$17,855.85.

The problem of the State railways appears to have been successfully solved in New South Wales, where the annual report of the railway commissioners shows that the total traffic earnings from the colonial railways and tramways amounted to £2,109,558, and the expenditure to £1,788,177, leaving a balance, after paying working expenses, of £1,321,427.

England stands at the head of the countries in Europe as the best market for labor. Scotland and France are a little behind her. Then there is a heavy drop until Austria, the Netherlands and Belgium are reached; the scale goes still lower in Germany, Spain, Sweden, Russia and Italy following here in the order given. According to the table of Bodio, an Italian authority, glass-blowers are the best-paid mechanics in Italy, and paper-makers the poorest. The rate of wages in Italy, low as it is now, was still lower 25 years ago. In England the increase in the rate of wages has been about 20 per cent in 25 years. A French bricklayer now gets 50 per cent more wages than were paid for his work in France 40 years ago.

### A VICTIM OF SCIATICA.

#### Unable to Work Though Strong and Willing.

#### The Suffering of a Well Known Guelph Citizen—Could Not Move About Without the Aid of a Stick—Again as Strong and Healthy as Ever.

From the Guelph Mercury.

There is perhaps no business or occupation that is more trying to the health—particularly in the winter—than that of molding. A workman leaves the shop with his clothing wringing wet from perspiration, and a cold wind chills him to the marrow, making him a ready mark for lumbago, sciatica and kindred troubles. A molder requires to be a man of more than ordinary strength, and to continue at his work must be in good health, for the molding shop is no place for an invalid. Sciatica is so near an uncommon affliction for men of this craft, and once the dread disease has lanced a victim he seldom shakes himself free from it again. In fact, some people declare that it is incurable, but that it is not so we are able to testify by a personal interview with one once afflicted with the trouble, but who is now in perfect health, thanks to his timely use of the famous remedy. There are few workmen better known in Guelph than Chas. W. Waldren, perhaps better known as "Charlie Waldren," for he has lived in Guelph almost continuously since he was three years of age, and he has now passed the 38th mile post. Mr. Waldren is a molder, and has worked at that business for 22 years; and besides, being noted as a steady workman, he is a man whose veracity is unquestioned. It is a well-known fact here that Mr. Waldren had to quit work in January, 1906, on account of a severe attack of sciatica, and for eleven weeks was unable to do a tap. Knowing that he was again at work, a Mercury reporter called at his residence early one evening to learn the exact facts of the case. Mr. Waldren, when spoken to on the subject, replied, "I had no hesitation in crediting Dr. Williams' Pink Pills with his remarkable recovery. I am not one of those people who are seeking newspaper notoriety," said Mr. Waldren, "neither have I been stung from death's door, but from the day when I quit work, until March 30 when I started again, I was confined to the house with sciatica. It located in my hip, and would shoot down my leg to my foot and was very painful. I could not move about the house without the aid of a cane, and then only with great pain. I was totally helpless as far as doing my work was concerned, was never free from pain, and it made me feel very much depressed, for beyond that I felt strong and anxious to be about. I am a member of three benefit societies, from which I drew pay, viz.: The Three Links, the Iron Molders' Association, and the Raymond Benefit Society. People came to see me, and of course everybody recommended a sure cure. I didn't try half of them. It was not possible—but I tried a great many—particularly the system that I had been in the habit of using for lumbago—but I found no relief. I tried Dr. Williams' Pink Pills. After using two boxes I noticed an improvement, and I kept on using them. When I had used six boxes I was back to work again. I kept on until I had finished the eighth box, and I never felt better in my life."

"Have you noticed any recurrence of trouble since?" queried the reporter. "I have not," he replied, "suffered a single twinge since." Mr. Waldren has worked in all the molding shops in the city, and was never in his life laid off sick as long as he was from the attack of sciatica. He hardly knew what it was to be sick, and is of that tough, wiry nature that he can stand much greater physical strain than most people would imagine. Almost any person in the city can verify his story. Mr. Waldren said, as the reporter got up to leave, "I only hope some poor fellow who has suffered as I did may notice my case and get relief as I did."

Dr. Williams' Pink Pills create new blood, build up the nerves, and thus drive disease from the system. In hundreds of cases they have cured after all other medicines have failed, thus establishing the claim that they are a marvel among the triumphs of modern medical science. The genuine Pink Pills are sold only in boxes, bearing the full name—"Dr. Williams' Pink Pills for Pale People." Protect yourself from imposition by refusing any pill that does not bear the registered trade mark around the box.

#### Safe, Sure, Painless.

What a world of meaning this statement embodies. Just what you are looking for, is it not? Putnam's Painless Corn Extractor—the great sure-rop corn cure—acts in this way. It makes no sore spots; safe, acts speedily and with certainty; sure and mild, without inflaming the parts; painless. Do not be imposed upon by imitations or substitutes.

### WHY AND WHEN PEOPLE FORGET.

#### Psychic Phenomena Which Are Explained in Various Ways.

Sir Henry Holland went down a mine in the Hartz Mountains, and suffering from fatigue completely forgot his German, and could not remember a word of it until he had rest and refreshment after ascending. We all experience this in a less degree. Sometimes it is an injury which causes the blank in the backward gaze. An English professor once received a violent blow on the head, and at once forgot all his Greek, and a musician lost all memory of music from the same cause. Mr. Whympier, in his book on the topic, tells how he fell over a frightful precipice, 200 feet high, with the result that his past was erased for a time wholly blotted out of his memory, says the St. James' Gazette.

The most singular cases of memory loss are in connection with language. It is quite common in our hospitals to see a sick German unable to speak a word of the English he had thoroughly mastered.

A clergyman some time ago lost all recollection of words, but he could still remember the letters of which they were composed, and could express his ideas freely by spelling out words. An officer suffered from a slight attack of apoplexy, and as a result forgot all the very few words. When he tried to speak he merely uttered nonsense, but if a book or manuscript were placed before him he read it with perfect facility. One of the most extraordinary of all memory losses is where a person forgets how to write with his right hand, but still has the power to do so with his left hand. In such a case, after he has written with his left hand the desired sentence he can copy it with his right hand.

When memory of words is gradually lost it invariably progresses in one particular order. First, the proper nouns, then adjectives, and the stage is followed by failure to recollect events. Very many people suffer from the first degree, excessive smokers, for instance. It is said, sometimes find it difficult to recall proper names. Drunkenness is a well-known cause, and there is a famous case of a man who mistook a package while drunk, forgot where he had put it when sober, and had to get drunk again to find it.

### SOME QUEER INDUSTRIES.

#### Odd Ways of Making a Living Disclosed by the Latest Census.

St. Louis Republic.

Occupations open to the thrifty individuals of both sexes have greatly increased during the last two decades, or even since the taking of the last decennial census, in 1890.

The extraordinary progress of science during the time specified, and the application of its principle to the practical problems of human life have not only had the effect of greatly increasing the capacity for production in the trades already firmly established, but have opened hundreds of new side aisles which lead direct to the avenues of trade.

There are, of course, dozens of these new and remarkable occupations with which science does not deal even in the remotest sense. In this class we find the rat catcher, the skunk farmer, the man who makes his living by picking up lost things in depots, theaters, hotels, etc., and retelling them to their owners with the expectation of being rewarded; the clock winder, the man who collects orange and lemon peels, and the Lake Michigan syndicate, which is now engaged in raising black cats for their fur. They are not raising these cats on water, as might be inferred from the title, but have leased an island in the great lake, which is now plentifully stocked with both sexes of screeching felines.

There are still others in the non-scientific category of queer occupations, but it will only be necessary to mention a few. One is a "rattlesnake farmer," who lives in the Ozark mountains, and makes the products of his "farm" bring money from three different directions. He raises rattlesnakes, and sells them to druggists, who have regular customers who believe it to be a panacea for a hundred different ills, the skins he sells to the makers of hats, and the rattlesnake heads to the makers of rattlesnake wine.

The man who makes people up in the morning, the old cork collector, and the dog catcher are well-known characters in every large city.

The individuals who gain a livelihood in pursuits that are strictly scientific are equally as numerous as those who follow the more humble callings. In the list of occupations that are strictly scientific is the manufacture of artificial eggs, artificial coffee, and false diamonds. Also the industry of making buttons, combs, penholders and other articles of a similar nature from blood collected at the slaughter houses. The man who makes billiard balls, buttons, and rings from potatoes which have been treated to a solution of nitric and sulphuric acids is also the proprietor of an "industry" wherein the fundamental principles are strictly scientific.

But the queerest of all is carried on by two young Pennsylvanians, who are making a regular business of extracting the poison from honey bees. According to the accounts, they have two different ways of collecting their crop of venom. In the first the bees are caught and held with their abdomens in small glass tubes until the poison sacs have been emptied. In the second they are placed in a bottle or wire netting and enraged until the tiny drops of venom fall into the alcohol which fills the lower third of the bottle. This venom is said to be a sovereign remedy for cancer, rheumatism, snake bite, and a hundred others of the more terrible ills of humanity.

# An Awful Load On

A weak back, made so by weak kidneys, would be no load at all after taking DOAN'S KIDNEY PILLS. Backs are not weak. Backs don't ache. It's the Kidneys every time, and there is no let-up to it except cure. And this is easy and sure. DOAN'S PILLS cure backache and kidney troubles as sure as you take them. They are not good for anything else. But they make new kidneys of old ones every time. If you don't like the way your kidneys act make new ones of them.

If you want proof ask Mr. John Clyne, 174 1/2 Sackville Street, Mr. Samuel Kilgore, 263 McCaul Street, or Mr. R. F. Watkins, 173 Bay Street. These are three out of the hundreds who lost their bad backs and now enjoy back ease and comfort through Doan's Pills.

DOAN'S KIDNEY PILLS are for sale by all drug stores—price 50 cents.

#### OPINIONS FROM EMINENT MINING MEN.

Toronto, Ontario, Sept. 14th, 1896.

F. J. Stewart, Esq., Toronto:

Dear Sir,—in answer to your inquiry regarding the White Bear Mine, I understand you are desirous of getting some outside opinions as to its value for profitable investment. As a director of the Le Roi Mine, I tried to buy the White Bear, because I am of opinion that the Le Roi vein extends through it. I had several assays made from White Bear ore, which I obtained myself from the property. The Official Assayer of the Le Roi Company found the following results: \$1 to \$6 in gold per ton. The latter seemed so high in value, I had the ore assayed by three different assayers, and they all obtained results within one per cent of \$6 in gold per ton.

I consider the White Bear one of the very best prospects in the camp, and from my past experience and judgment it is a very safe investment.

Yours very truly,

W. J. HARRIS, Manager Le Roi Mine.

The directors have authorized me to place 250,000 shares, par value \$1 each, non-assessable, upon the market at the price of 10 cents per share UNTIL FURTHER NOTICE in lots of 100 shares and upwards.

For Boys and Girls

A False Step.

By Mary R. Diefendorf. There was once a little brook that bubbled merrily through the woods...

Little May Foster had crossed that big boy, Harry Lane, had thrown it one side and run over to the carpenter's and brought another to take its place.

So it happened that at four o'clock a very red-faced, angry little boy came out of the school house an hour after every other child was out of sight.

Just then Anthony started. He seemed to hear a little voice at his ear. "Don't do it, Anthony. What would your mother say? What would Miss Lane this Sunday school teacher say? What does the Bible say?"

Anthony looked around, but there seemed to be no one there, so he said doggedly to himself, "It was all his fault," and went to work on the bank.

But the cry for help was not in vain for Jimmy's big brother was in time to hear it and run to the rescue, and in a very few minutes Anthony found himself lying on the grass with Jimmy and Jimmy's brother and a few early pupils looking on.

Anthony and Jimmy were better friends than ever after that, and more careful not to quarrel.

SMALL yet LARGE

Diet for Schoolboys.

The following paragraphs are extracted from one of a series of articles on "Diet for Schoolboys" now appearing in the Hospital. The extracts bear especially on the hours of eating and the necessity of luncheon or "bites" taken between the regular meals.

It will allow six hours before a full meal leaves the stomach, and two hours for a light one, we find considerable difficulty in arranging the hours so that there may be constant supply of nutritious material in the duodenum during the waking hours.

After a few words concerning the breakfast proper, the author goes on: "The long interval of ten or twelve hours when dinner can be looked for, or a biscuit or a cup of milk, a bun, or a piece of bread and cheese toward milk or a buttermilk pudding, given at breakfast and dinner, when the digestion is active and the body unburdened, so that food may be provided ready for the time of work and digested before sleep.

On the third principal meal the writer says: "The evening meal need not include nitrogenous food, but may be a substantial one if we give plenty of sugar in the form of jam, marmalade and treacle, as well as butter and milk. If this is taken not later than 6 o'clock the weaker boys will be better for it."

Picked up in Passing.

Charles Dickens said of "Robinson Crusoe" that it was "the most popular work in the world, and yet one which never drew a smile or a tear."

When the island volcano Krakatoa, at the northwest end of Sumatra, blew up thirteen years ago, destroying 100,000 lives, every vestige of vegetable life was destroyed.

A wonderful mechanical contrivance is announced from Switzerland in the shape of a watch that calls out the hours in a voice like that of a human being.

It is generally known that the lady who was the model for his exquisitely delicate and ethereal "Ophelia" became afterward the wife of Dante Gabriel Rossetti, the painter-poet.

Woman and the World.

A Charming Woman's Advice.

A charming English hostess, who was noted in London for her tact in entertaining large companies and setting everybody in her drawing-room at ease, was asked by a blushing young girl to explain the secret of her social success.

"You know, I suppose," said the inquisitive maiden, "that I have barely come out in society. I am very awkward and shy whenever people speak to me. It seems to me impossible that I should ever have the wit, self-possession and courage to get on well. I pray, how is it done. How have you made yourself the most popular hostess in London?"

"My dear child," said the accomplished mentor, "you are flattering me, and that is not honest. There are many other hostesses in London equally popular. You have begun by telling me something that I do not know. That is a mistake. You must be sincere, or people will not trust you. Leave yourself out of account, and try to be anyone else. You must be content to be yourself, and not attempt to be anything else."

"You must form, my dear, the habit of making yourself agreeable to the people you meet. You must forget yourself and try to find out what they are interested in, and then lend them your sympathy. That is not an easy thing to do, but it is an accomplishment of the highest social value. It is the secret of the art of making yourself agreeable to your fellow-beings."

Proportionate Living.

How many women, careful and troubled about many things, forget to look at life in the large, and in doing so to truly live. How many of our acquaintance have any just sense of the true proportion of their lives? The average woman is just as much distressed when the cook burns six loaves of bread as she is when Jack is sent home from school in disgrace, and she is just as much troubled about many things, forget to look at life in the large, and in doing so to truly live.

More than one busy and conscientious woman, as the swift train bears her hither and thither, has been in the habit of opening and making comfortable, and beautiful, new servants to prepare of the thousand little home things which she must give all her attention to her home. There are the children who need her companionship as well as her care; there is the aging mother, or husband's mother, who needs to her for the comfort of life and whose gentle presence she feels may not be long with her.

There is not a selfishness in unselfishness, but there is a selfishness which may result from unselfishness where one member of a family, as a mother, assumes the whole responsibility for everything, thus inevitably encouraging the other members of the household in an idle and inconsiderate dependence on her ministry.

A LADIES' NURSE

Of twenty years' experience tells of a blessing Indian Woman's Balm has been to her many patients. This is to certify that I have been a ladies' nurse for the past twenty years, and I am pleased to say that for the past five years a number of my patients have used Indian Woman's Balm, and it has proved a grand success in every case.

prostration, who create all around them an atmosphere of unrest that wears everyone out. Settle it definitely in your mind that there are only 24 hours in one day, and that the hammer of Thor himself could never beat that precious gold leaf out into 48, or even in 25 hours. After all, the worst used to revolve without your help, and will continue to do so until you take security from the Londoner. Doubtless much rather have you stay with them, than to have you leave ever such record of achievement behind you.

A Gas Regulator.

Some of the gas companies in this country have adopted the slot machine in regulating the supply of gas to kitchens for cooking. A 25-cent piece is dropped into the machine attached to the meter. When 25 cents' worth of gas is used no more can be obtained from the meter until another 25-cent piece is inserted. This method has been to arouse public protest from the chimney-sweepers, the other 25 cents is dropped in this case small dealers in coal and wood claim that their business is being destroyed. These are the most sensitive hands connected with the slot-machine meters used in London.

To Save the Hands.

An essential article of the kitchen, says the New York Tribune, is a liquid to counteract the action of the alkalis of strong soda on the hands. One of the best preparations consists of equal parts of citric acid and glycerine mixed together and kept near the sink. As soon as the dishes are washed, wash the hands carefully with a little of this preparation. The citric acid and glycerine, and dry the hands with a soft towel. By this means the most sensitive hands may be kept white and soft and free from chapping in the coldest weather. In default of anything else a little vinegar and cream will act satisfactorily, and there will be no stamp left upon the hands of the ever recurring task of the dish pan.

The Queen and the Women's Petition.

The Queen has signified her willingness to receive the unique petition which has been signed in 44 languages by her women subjects in all parts of the world, praying for increased protection against the evils of the liquor traffic and the opium trade. Your friends will send you all the signatures and indentments, and have gathered during the last few years by the World's Women's Christian Temperance Union. As yet it is impossible to present the immense roll which contains the names of the British subjects of the Queen, the pages have been photographed and are now in the hands of the printer. The roll is bound in two large volumes by Messrs Zaehnsdorf, Shaftesbury Avenue, where it is now on view. The title pages are beautifully illuminated, and as a document of historic interest and a work of artistic merit, this petition will be well worth a visit. The Queen will never at one time have received any document signed by so many of her subjects the world over. The names of Miss Willard, president of the World's Women's Christian Temperance Union, and Lady Henry Somerset, vice-president, head the list.

The Burden Bearer.

There is not a selfishness in unselfishness, but there is a selfishness which may result from unselfishness where one member of a family, as a mother, assumes the whole responsibility for everything, thus inevitably encouraging the other members of the household in an idle and inconsiderate dependence on her ministry.

DO YOU DESIRE TO BE GOOD LOOKING?

BEAUTY has been described as a glorious gift of nature, as a delightful prejudice, as a favor of the gods, whilst others have said that "Beauty is better than all the letters of recommendation in the world." It isn't possible for all women to be beautiful, but none need be other than good-looking. Age will come, all too soon, to every one of us. Meantime we can try to prevent the clear rosy tints of health being merged into a sickly pallor, and to avoid the affliction of eruptive blemishes on the face and skin. A WOMAN needs a good complexion and a soft smooth skin, else her happiness is lessened and her charm to the other sex diminished. She needs also color in her cheeks, sparkle in her eyes and strength in her nerves, else she is pale, dejected and her duties weary her. A MAN needs a clear skin and a wholesome complexion in business, else he will be a laggard in life's struggle. EVERYBODY should have a smooth, rosy, firm skin, free from eruptive detachment. Neither men nor women can attain these things unless they have pure, rich, red, vitalizing blood. It is a law of nature that it should be so. If you are pale, wan and anemic you cannot be good looking, but if you take Dr. Campbell's Safe Arsenic Complexion Wafers and use Fould's Medicated Arsenic Soap regularly you can be, because they will gradually restore the roses to your cheeks, the fire to your eyes and brightness to your complexion. If you are of eruptive tendency or subject to pimples, boils, blotches, Blackheads, Freckles, or breakings out, it is needless to tell you how this handicaps your attractions and also your usefulness in life. But Dr. Campbell's Safe Arsenic Wafers will both purify the blood and restore its vital powers, and hence do you more real good than any other blood medicine ever prepared. DR. Caracasone. I'm growing old, I'm eighty years; I've labored all my life in vain; In all that time of hopes and fears I've failed my dearest wish to gain. I see full well that here below Bliss unalloyed there is for none; My prayer will never fulfillment know; I never have seen Caracasone! I never have seen Caracasone!

The King and the Beggar. A beggar asked for alms beside the palace gate, The king passed by and left him poor and desolate. But on the morn he was a king beyond the skies, The king a beggar at the gate of Paradise.

The Song of Pan. Mad with love, and later With immortal pain, Pan pursued a maiden— Pan, the god, in vain. For when Pan had near'd, Touched her, wild to please She was gone—and clearly In her place a reed!

BALMORAL CASTLE. The Place Where the Czar and Czarina Visited the Queen. Balmoral Castle, where the Czar and Czarina were lately the guests of Queen Victoria, is now the favorite residence of the Queen. Originally it was Prince Albert's property, the creation of his artistic skill, and the scene of the Queen's early wedded life.

IF YOUR Baby has indigestion and colic it may be due to improper feeding. Do not dose the child with medicine while still continuing the improper feeding. The better way is to remove the cause (improper food) and then there will be no colic and no need of medicine. Mellin's Food is very nourishing and easily digested. Mellin's Food prevents indigestion and colic.

October, were the first considerations that induced the royal physician to recommend the purchase of this vast estate, and the long life and perfect health of the Queen during her long reign show the wisdom of the choice. The bracing quality of the air is due not only to the character of the soil, but also to the fact that the range of mountains between the English and the Atlantic arrests the rain clouds and their moisture falls chiefly upon the opposite side, leaving the Scottish coast comparatively dry, and the one region in Scotland the climate of which is not spoiled by rain.

Nature herself seems to have done her best to make this hunting ground of Scotland's kings in the elder day a delightful spot in which to live, while she simple, incurious character of the Queen's Scotch tenantry has added another charm to her Highland retreat. At worst she is stared at only by tourists in the little church of Crathie, where she always worships when at Balmoral.

ALTHOUGH so inspiring from without, within the castle is plain and delightfully homelike, with an entire absence of the splendor of Windsor or Osborne. Furnished plainly, and with engravings instead of paintings upon the walls, everything is in exquisite taste. The object everywhere in view seems to have been to obtain complete repose. The sitting room has a wide table, on which are books, photographs and periodicals, with dispatch boxes near at hand, while before the Queen, as she transacts her daily routine business stands on an easel a painting of the Prince Consort which accompanies her whenever she goes. From her own journal the world has learned how she spends her days at Balmoral, and the simplicity of her life has left nothing to the curious imaginings of the gossip.

VICTIMS OF HURRY. People Who Take Deadly Risks, and All For Nothing. Hurry and haste to be first claim a larger number of victims every year than the public care to examine and ponder over. Inquiries into two illustrative cases were held on Saturday. Mr. Shortland, clerk, was in a hurry to get into Fountain Court, Aldersmanbury, before a horse and van. Had he waited a quarter of a minute he would have attained his object in safety, but in order to save that infinitesimal portion of a lifetime he dashed forward to race the horse and got crushed against a wall and was killed.

Notes and Incidents. Emma Green, the young woman who was accused of drunkness at Brentwood, England, Police Court, promises to rival Jane Cakebread. She has been "up" 205 times. Abdul Hamid, variously known as the "Great Assassin," entered upon the 54th year of his age on Monday week. "One who knows him" states that he has acquired an intelligent taste for champagne, and may now and then be called "Abdul the Drunk."
