Agrees to Postpone His Message to Congress for Twenty-Four Hours-Crisis Is Near in Mexican Situation, But Amicable Settlement Is Generally Expected.

[Canadian Press.] Washington, D. C., Aug. 26. - At 10 o'clock today an official message was received from the Huerta Government, asking President Wilson to delay his message to Congress for another 24 hours. It was taken under consideration at a conference between the President and Secretary Bryan.

WILSON AGREES.

[Canadian Press.] Washington, D. C., Aug. 26.—President Wilson today postponed until Wednesday delivery of his special message to Congress on the Mexican situation. His action was taken at the request of Senor Gamboa, Mexican minister of foreign affairs.

At the recent exams, at Calgary, Miss Fannie Stubbs, formerly of Brussels, was successful in passing her examination for first-class certificate. She is only 16 years of age, but was always a

fever student. Word was received from Minto, Man. of the decease of Lucy Pearl, the only daughter of David and Mrs. Dobson. The young lady was in her 25th year, and had been confined to her bed since last spring. Mr. Dobson was a former resident of Ethel, near here.

The brickwork of the new Methodist Church at Union appointment on Ethel circuit, is about completed, and the carenters will get busy now The large tank from which the supply was got for street watering collapsed

the other night, owing to decaying founsive heat, has completely burnt up the dation. It will not be replaced until next Harold Armstrong did tip-top at the

exams this summer. He honors in Parts, and II, entrance to faculty, and was warded the first Edward Blake scholar ship in science, valued at \$204. Mr. Armstrong also obtained matriculation. He will likely teach for a year before pursuing an advanced edu cational course, and has a bright future Friday afternoon of this week the loca W C. T. Will meet at the home of Mrs. George Baeker. Topic will be, "Medical Temperance Quiz."

Electric light rates will be advanced in town from 10 to 12 cents per kilowatt afer Sept. 1.

LAMBETH.

Lambeth, Aug. 26.-Miss Sylvia Young, Windsor, is the guest of her uncle, Mr J. E. Mitchell Miss Grace Williams, of Hamilton, is olidaying at the home of her father, fr. E. J. Williams.

Big Baseball Game To Be Played on Ingersoll's Last.

[Special to The Advertiser.] Ingersoll, Aug. 26.—Thursday after-noon of this week will mark the close of

deople who otherwise would not have a good opportunity.

Much interest is being manifested in the program for this week. Another first class baseball game has been promised. Arrangements have been made to bring a picked team from Woodstock here, and the rivalry between the two places, together with the quality of ball the teams are playing, will doubtless bring out a betweenwell.

Milverton

Individual success depends largely upon the broadness of a man's ideas—the broader the more power. If he is narrow and little and reasons things downward, he will find himself always on uncertain ground. It is only the man who reasons up who attains the higher levels of ideals and strength.

If we had reasoned the narrow way and built this store with a view only to our own convenience and served the public the way easiest for us, this store would today be only a single downtown shop.

Instead it is just what we would have it, a model modern time-saving shopping emporium, planned to meet the present day requirements of the public.

LONDON, TUESDAY, AUG. 26. CANADA'S ANCIENT MARINER.

Mr. Foster has got back from the Pacific Ocean, bringing nothing in his hands. His trunks may be full of presents for his family and friends, he may possibly have got a little fatter in such a prolonged holiday, his head will be full of travel stories, antipodean sights, points about the changing Orient, but absolutely nil is the result. as he confesses, of his trade negoti-

His travelling expenses will doubtless be a bill to rival that of a polar expedition, or a prima donna's tour, or even a full-sized trip of Col. Sam Hughes. But Canada gets not a cent's worth of return for Mr. Foster's outing. His roving commission to effect reciprocity arrangements with Australia, Malaya, China, Patagonia or any place yields his expectant fellow countrymen

Particularly an Australian treaty was the object of the quest. Our knight errant has not achieved it. "By many a tempest has his beard been shaken, as the poet said of the skipper, unless the Pacific Ocean is too big and calm for storms. At any rate, he has been now, seen afar the ways of men, and returns an old weather-beaten mariner, who has not taken Troy or even hit an albatross. And while he was away on this fruitless hunt, his friends, Borden and Rogers, were getting into full possession of the entrenchments of office, ask the public to pay for it? and even Pelletier and Crothers shone

Messrs, Foster & Co refused to allow ernor-Generalship a sinecure. the Canadian to trade with his nextdoor neighbor, who really wants to buy what we have to sell? The best opportunity that Canadian producers ever had, one that Sir John Macdonald had worked for and Sir Wilfrid Laurier had worked for, was rejected by the party of the Big Interests. And then they go through the farce of sending Mr. Foster on a wildgoose chase over half creation.

THE UNITED STATES-MEXICAN CRISIS.

Ex-Governor Lind, the President's versonal envoy to Mexico, is returning to Washington empty-handed. He owas instructed to try to obtain as surances that the Mexican constitution would be respected by a free presidential election three months the first line reading, "Mrs. L. W. hence, the regular date: that Huerta Reid requests the honor of your prewould not be a candidate to succeed sents," etc. Mr. W.-Truthful, at thimself, and would make way for a provisional president pending the election of a constitutional president. One or all of these requests have been refused by the Huerta adminis-

Does this mean war? Not necessarily and not likely. A war with Mexico would be appalling in its magnitude and consequences. It could only end in one way, the triumph of the United States, but the cost in money and life would be fearful, and Huerta is not worth it. In the present Should girls propose? My fancy sees disturbed and restricted condition of business in the United States would be disastrous. A spell of depression in the midst of a tariff revision might be also a mortal blow at the Democratic party. To these motives for avoiding war are joined the wellknown pacific tendencies of the President and the Secretary of State.

The President will take today the elmost unprecedented step of personally reading a message to Congress on foreign affairs. The Associated Press outline of the message is probably correct. The United States will preserve an attitude of non-interference and neutrality, in the expectation that a constitutional election will be held in Mexico at the appointed time, and that Huerta will make way for a legitimate president. In the meantime his usurpation will not be

. The pacific designs of the Washington Government may of course be wrecked by some overt act of provocation by the Huerta regime. In that case the United States will have a moral sanction for armed interference which is now lacking. And it will have behind it, too, a unanimous the public sentiment

THE FARMERS AND THE PRE-

The children's preventerium at the Sanatorium will be moved further from the road in deference to the proest of farmers in the neighborhood. If the request of the farmers had been granted at first, there would have been no controversy. They had carned at least ordinary courtesy by their friendly attitude to the Sanatorium project. They have not complained of its location in their midst, and have helped in the good work. When the preventorium site was staked out they thought it too near the roadway, and politely asked that it be moved back. Their fears, we believe, were unfounded, but they wanted nothing unreasonable. The site is so ample that the change could be made without the slightest cost or inconvenience. But Mr. Beck quite characteristically ignored this, and ordered excavations to be made on the spot of his own choice. Even the London township board of

calth was not consulted. Mr. Beck has himself to blame for the trouble. He has now surrendered, but by a little consideration he could have avoided this "tempest in a teapot," as our local contemporary chooses to describe the farmers' protest. To call it "an attack on the Sanatorium" is merely silly. No institution is more generally supported by residents of London and the county

Sherbrooke, Aug. 26.—The possibility of a long-drawn-out fight in the courts over the constitutionality of Canada's drastic immigration act, under which it is proposed to deport Harry K. Thaw subsequent to his arraignment in the superior court tomorrow, was the favorite theme of both factions gathered at Sherbrooke, since Thaw's arrest near lope to get him back to Matteawan, Going over the situation informally, ministration fears to attempt to do William T. A Long Fight. "I can't express an opinion on every theoretical defence suggested by hope to egt him back to Matteawan,

we were all in for a siege." Mr. Conger had nothing to say. Chief counsel for the Thaw forces Samuel Jacobs, is in Montreal. He would, as a Canadian lawyer, be perhaps least gratified to speak on the so-called international phase of the ease, to say whether there is really probability of such developments, or whether, as one lawyer exclaimed, it

s "tommy rot." Is Not Interested

Thaw continued to show little interest in anything except his publicity plans. He is mailing and telegraphng statements to papers in Vermont, where, notwithstanding all the theories of court delay here, he apparenty expects to be deported. He also insisted again today that in view of Jerome's presence here he wanted his awyers to re-issue a statement quoting Jerome as saying in New Yor! In 1908 that Thaw was sane.

T. B. Whillans, of the Dominion immigration department, was quoted today as saying he placed no faith in Thaw's chances of testing the immigraion act in the courts.

Turn Thaw Loose. "We still believe Harry Thaw will be deported," he said, "and we don't put much faith in this story that he an make an international affair of his case. Our duty is simple. We will give Thaw a hearing. As soon as he is it is expected, though the removal of lieve he will be, then we will take up the work for some time. Thaw to Vermont and turn him loose. Miss Trapp is instructor at the free public baths patronized by the women and children of the poor of New York, and supervises the instruction of over half a million women and children during the three hot months of summer The one-piece bathing costume, designed by herself, permits of the free use of arms and legs, and is a great help in the difficult ask of teaching amateurs the In her swimming lessons Miss Trapp never neglects the life-saving fea-

ture, and the above picture is a part of that lesson. She knows that men and women, when in the deadly fear of drowning lose control of their wits and almost always try to seize the rescuer around the neck, thus endangering both. Her method, as shown in the photograph, is to shut off the breath of the frenzied victim at the nostrils and the wind-pipe. The pressure on the abdomen assists in relaxing the body and after that it is easy for the rescuer to

The Red Sox looked a great deal more formidable than on their last appearance. They played a snappy game in the infield, and the outfield seemed to be able to take care of anything that came its way. In the matter of hitting, the Kaneless ones were not bad, their total number of bingles off Heck being something like eight, but when it came to timely hitting they were not in it. In the second, with two on, Matty Lamond, who clouts them occasionally, fanned, and again in the fifth, with the sacks choked, Chubby Coose hit a weak little grounder to Heck, All told, the Sox had eleven men left on bases, to London's seven.

Five Runs in Second Inning. The Deneauites won the game in the second inning. Both teams had gone out in order in the first inning, and Brantford had got two men on in their half of the second. But in London's half, five runs were rolled across the pan on the same number of hits two wild pitches and an error. It happened thusly: "Dad" Stewart happened thusly: grounded out to begin with, but Dunlop singled and Neale came across with a double, both hits going to left, Dunlop scoring. Deneau single to right and scored Neale; Smith walked, and Heck struck out, Lamond throwing the ball to second, thinking Smith was going to steal. The bag was not covered and the ball went to centre field, Deneau scoring, Smith taking second, Reidy walked, and Clermont came through with a wild pitch, Smith scoring, Matteson got an infield hit, and while Bierbauer was at bat, Clermont uncorked another wild heave, moving Reidy and Matteson up one. Bierbauer hit a fast one to Keenan, who was only able to knock the ball down. Reidy scored, but Matteson was caught, overrunning third,

Petes Make a Record

The Peterboro club has established a new record in the Canadian League for run-getting. In fact, the performance of the Petes in the last two games they have played is pretty near a record for any league. On Saturday in a seven-inning game the Rowan outfit scored 30 runs against Berlin, while yesterday at St. Thomas they ran up a score of 20 runs in a nine-inning game. Thus, the Petes have scored 50 runs in two games, or rather 16 innings. This is an average of three runs an inning for the 16 innings.

It is doubtful if such a record has been equalled for some time.

UMPIRE DALY DENIES STORY OF FISTIC DUEL

Story Related by London Ball Club Is False, Says Umps.

Umpire Daly informed The Advertiser today that there was no truth in the story started by the London ball club that Biddy Burns, of the Berlin club, roused him out of bed at Peterboro on Saturday night and punched him for ordering him out of the game

Saturday afternoon.
"The story is absolutely untrue," said Umpire Daly, "and was apparently started to get me in wrong. I was pretty sore when I saw it in your paper last evening. It is so absolutely ridiculous that it is a joke. I have always found Burns a pretty good sort of fellow and we have had no words other than on the ball field. There was no trouble in Peterboro Saturday night and I certainly did not get beaten up by Burns or any other ballplayer." The story was given to The Advertiser by one of the London players, who is generally pretty reliable. If he intended it for a joke on Daly, he has a perverted sense of humor.

THE ARLINGTON COLLAR CO. OF CANADA, LIMITED TORONTO, CAL ADA. Stomach Troubles

Due to Acidity

SO SAYS EMINENT SPECIALIST.

So-called stomach troubles, such as indigestion, wind, stomach-ache and inability to retain food, are, in probably nine cases out of ten, simply evidence that fermentation is taking place in the food contents of the stomach, causing the for-mation of gas and acids. Wind distends the stomach, and causes that full, op-pressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the fermenting food. Such fermentation is unnatural, and acid formation is not only unnatural, but may involve most serious consequences if not corrected. To stop or prevent fermentation of the food contents of the stomach and to neutralize the acid, and render it bland and harm-less, a teaspoonful of bisurated magnesia, probably the best and most effective cortaken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, and neutralizes the acidity in a few moments Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antacid, such as tained from any druggist and thus enable the stomach to do its work properly with-out being hindered by polsonous gas and dangerous acids .- M. Windows Kept Down.

"The windows of the one room were kept constantly down from the top and up from the bottom, and the one room was cut off from the regular heating plant of the building. The ordinary desks were removed, and replaced with chair desks, which could easily be moved by the pupils themselves to clear the floor space for frequent physical exercises. As cold weather approached the children were provided with woolen sweaters, worsted caps, soft woolen blankets and knitted woolen gloves. Thus their lower extremities were protected from the cold floor with no disturbance of the circula-

Kept Close Watch.

"Week by week during the fall and winter and spring we weighed and examined these pupils, watched their study and their play and compared their scholarship with that of the children in the warm air room. The children from both rooms came from the same kind of homes, so that the test was as fair and as accurate and searching as possible. As might have been expected we found at the end that the pupils in the open window room had gained on an average more than twict as much in weight as those in the warm air room. They kept wholly free from colds and were much more regular in attendance than Rooms Too Hot.

"The experiment was not made prim arily to prove that fresh air is good healthy, normal children in school In these days the gospel of sunshine and pure air is accepted and ought to need little preaching. Many school boards do not, however, practice the doctrine that their members believe in The average school room Is maintained at too high a temperature, and ventilation as a rule is poor. Tuberculosis Prevention. Among the women who have spoken efore the Congress on School Hygiene is Dr. Mary E. Lapham, of Highlands, N. This is what Dr. Lapham said: "If a man or child is well and strong it does not occur to us to question appearances. Rumored That He Will Succeed His Father in Canada Shortly.

London, Aug. 25. - The Daily Grathic claims today to be in a position to state that Prince Arthur of Connaught will succeed his father as governor-general of Canada, and that the duke will formally hand over the office and introduce him to the heads of the Canadian executive before return-

On leaving Canada the duke will regard his public career as having definitely ended, and he will settle at Bagshot Park, devoting his time to the development of a stud farm scheme for the rearing of horses suitable for use by the army. Middlesex Fruit Can't Be Beaten

At the regular meting of the Middlesex Fruit Growers' Association, held in the courthouse, a most instructive address was given by Mr. George Connor, of Parkhill, Dominion inspector for Western Ontario.

Mr. Connor said there is no reason why Middlesex should not put up just as good a pack as Norfolk or other county. Much depends on the packers. The foreman packer must be boss, he said, and allow no man to dictate to him, not even the owner. Mr. Connor stated that now it is ompulsory that the packer's name and address in full shall be on each barrel or box, or a \$5 fine will be imposed for the first offence, and \$15 or over the second. John Lind, and his negotiations with LIND LEAVES MEXICO.

| Canadian Press.]
Mexico City, Aug. 25. — President Wilson's personal representative, John Lind, left the Mexican capital today proceeding to Vera Cruz. Mr. Lind called on Foreign Minister Gamboa to say good-bye, but there was nothing in their conversation regarding the sumption of negotiations or to indicate that Mexico would recede from her position.

"I have done my work here, and there is nothing left but to go home," said. "No further significance should be attached to my departure." Mr. Lind will sail from Vera Cruz battleship. Crisis Is Near. Washington, Aug. 26.-Unless President Wilson has received from Huerta today the acceptance of his mediation proposals he will announce in an address to Congress the failure of the Lind mission to the Mexican Re-

public. Almost simultaneously with this announcement the President will promulgate a new policy towards Mexico. He will suggest the retirement of all Americans from Mexico and will throw up a more formidable barrier against the shipment of arms and ammunition into that country. All the resources of the Government will be used to assist those Americans who desire to retire from the southern republic. Western Crop Is Nearly All Saved Transfer of Documents and Furniture

Harvest Is About Two Weeks Earlier Than Last Year.

[Canadian Press.] Winnipeg, Aug. 26.—Taking the average the crop over the country is two weeks earlier than it was last year or the year before. Such is the opinion weeks earner that it was the opinion the year before. Such is the opinion expressed by Sir William Whyte, on his return to the city from an extended tour over the wheat belt. The crop is a good one, and at many points is already well

cut, he says.

There is a certain variety in the advancement of the different districts. In the districts around Calgary, Lethbridge, Swift Current and all points south, the crop is about 30 per cent cut, while about a week or ten days will yet be required in the district around Regina and Moose Jaw. Speaking generally of the conditions of the country and the financial situation, he stated that there are indications that there will be a general loosening in he money situation all over

"Speculation in real estate is practically at an end, however," he said.

Canadian Clubs Discussing Art

[Canadian Press.] Hamilton, Ont., Aug. 26. — This was art day at the fifth annual conference of the Association of Canadian Clubs, started yesterday, but it will be more a case of "moving week." Already the work of gathering official documents and mer Watson, R. C. A., of Doon, whose furniture together prior to their transfer subject was "The National Expression to the temporary city hall quarters in the in Art." He made a plea to keep Can ontinue until the end of the week, but their work became known. "The artistspirit, and by this I mean public as well as private spirit, is something to strive for," said the speaker.

Each nation, he said, had an indiiduality in art. If Canadian art was haracterized by anyone any more than anything else it was the elimination of non-essential things.

The delegates had luncheon at the Mountain View at noon. This afternoon they heard addresses by Ven. Archdeacon Cody, of Toronto, and Professor Grant, of Queen's. Tomorrow they will go to the Falls, where J. Joyce Broderick, British vice-consul at New York, will address them.

SAME COUNSEL FOR BOTH SIDES IN CASE

One Instance In Which a Local Lawrer Had Too Many Briefs.

With some lawyers briefs are at a premium, but with others in London the case is directly opposite. One man in this city, who is particularly busy in police court, seems to have so much ousiness on hand that he sometimes ecomes confused. This morning this legal expert was

another room when a charge of language preferred against Stephen Ostroski, by a Russian woman, was called. Just as the defendant was named, he lawyer stepped from the room, and as Ostroski started to make a

statement, the counsel stopped him and said to the court, "I am appearing or this man." "Why, you are also appearing a rivate prosecutor in this case," said he court. "I don't see how you can

ct for both parties." The lawyer was dumbfounded, but after explanations he left the courtroom with the plaintiff, and the defendant to straighten the matter out. If the two parties could come to any agreement with the lawyer as peace-maker the court told him that he would discharge the case.

Old Camp Ground Sold to Speculator

[Special to The Advertiser.]

Goderich, Aug. 26.-Attrill Park, the ground on which numerous Western Ontarlo militia camps have been held, was sold today by the Toronto General Trust Company to C. E. Fleming, of Windsor, and other financial men. The estate, comprising an area of six hundred acres of farm and park property, has a most desirable location verlooking Lake Huron and the River Maitland. The property has been tilized by the Government as a trainng ground for the Western Ontariegiments, and would have been secure s a permanent camp but for a hite ith the trust company as to terms It is understood that Mr. Fleming's ompany will remove considerable he south bank, which overhangs th river, and contains valuable gravel for uilding purposes, which is to be transported to Detroit and other cities. There is much speculation as to what disposition may be made of the park and farm property, but it is generally onceded that the Government will ecure this with other extensive tracts adjoining, the whole to be used as a training area for the Ontario regiments.
