## LIBERAL SEATS ARE IN DANGER

McKay's Maj. in North Grey  
Reduced to 4 and Re-count  
Only Half Finished.

Russell's Majority in East Hastings  
Also Pulled Down—Lennox  
Appeal on Saturday.

Owen Sound, Ont., June 10.—The re-count for North Grey, before Judge Morrison was adjourned at 6 p. m., to be resumed at 8 p. m. to-morrow. McKay's Liberal majority was reduced from 9 to 4. About one-half of the poll is yet to be gone over. The re-count will not be finished until to-morrow.

### EAST HASTINGS.

Belleville, Ont., June 10.—At the close of to-day's session of the East Hastings re-count, Mr. Richardson, the Conservative candidate, had gained six votes—ballots which had been disputed, and which the judge allowed. Mr. Russell, Liberal, gained two of the same kind, leaving Russell's majority thus far 49.

### THE LENNOX APPEAL.

Toronto, June 10.—The Lennox re-count appeal will come before Mr. Justice MacLennan at Osgoode Hall on Saturday. Both sides appeal against the judge's rulings at Napawan. For the Conservatives, Mr. W. D. McPherson appeals in the case of seven specific ballots, and for the Liberals, Mr. Geo. H. Watson, K. C., appeals against the result of the re-count generally.

One ballot has a line across through the cross which is marked for Carscallen's compartment. It was not counted for either. Another had a circle in Madole's compartment. It was allowed him. There are two other ballots one with a cross for Carscallen and something like an "M" to the left of Madole's name. It was disallowed, as being a mark of identification. The other also had a cross for Carscallen and one through Madole's name and a short wavy line in Madole's compartment. It was also disallowed. Another has the initials M. C. in Madole's compartment and a cross for Carscallen.

### NO RECOUNT IN SOUTH PERTH.

Stratford, June 10.—The Conservatives have withdrawn their application to Judge Barron for a re-count in South Perth. The application was made on Saturday, but the advisability of such a proceeding was evidently reconsidered, the re-count has been called off. A protest is impracticable.

### TUDHOPE'S MAJORITY, 447

Orillia, Ont., June 10.—The official declaration for East Simcoe has been made to-day, declaring J. B. Tudhope, Liberal, elected by 447 majority.

MISCAMPBELL'S MAJORITY 169  
Sault Ste. Marie, Ont., June 10.—The official returns of Sault Ste. Marie election are—Miscampbell, Con., total, 1,359; Smith, Lib., total, 1,190. Majority for Miscampbell, 169. No official returns as yet from Algoma.

### LEAVING LONDON

Mr. J. M. McWhinney, (formerly of this city) secretary-treasurer of the Synod of Huron, has tendered his resignation, and will shortly remove to Toronto, where he has secured the very responsible position of assistant manager of the Union Trust Company. This step on the part of Mr. McWhinney will be regretted by his friends in London, where he is many—for during his twelve years' residence here he has become exceedingly popular. Mr. McWhinney succeeded Mr. E. Baynes Reed on the 1st of January, 1890, and has filled the position with the greatest satisfaction to the Synod. He has also been pastor of Huron College for nine or ten years.

The resignation will be placed before the Synod at its annual meeting next week, and Mr. McWhinney will ask to be relieved at an early date as possible. The Union Trust Company of which Hon. George E. Foster is general manager, is one of the largest concerns of its kind in Toronto, and his selection for the assistant manager position speaks well for the ability of Mr. McWhinney.

Since his removal to London from Chatham, Mr. McWhinney has taken an interest in several branches of sport, and particularly in curling. He is one of the most prominent members of the Forest City Club, and for two years has occupied the position of president.—London Free Press.

It has been learned in Chatham that Mr. McWhinney assumes his new duties, on July 1. His success will be a source of satisfaction to his many Maple City friends, with whom he is deservedly popular.

Mr. McWhinney is well qualified for his new post in one of the strongest financial institutions in Toronto, Matthew Wilson, K. C., of this city, is a prominent member of the Board of Directors, and it was largely through his influence that the appointment was made.

## SIGNS OF PEACE

London, June 10.—The correspondent of the Times at Bloemfontein, says that surrenders in the colony are proceeding satisfactorily.

One of the first signs of the era of peace is the removal of the barbed wire fences between the blockhouses which is going on everywhere. These rolls of wire will doubtless be given at a valuation to the Boers to replace their fences.

The correspondent hopes the blockhouses, especially the stone ones, will not be destroyed, as they are quite a feature of the landscape, like the great towers of Scotland and Martello towers on the south coast of England, and the historical monuments worth preserving.

## WOMAN'S SHOT

Aged Colored Pensioner in Serious Condition—Woman Locked up.

Detroit, June 11.—"If dat ole man keeps on foolin' me I'll send his soul to h— befoh 10 o'clock to-night," is said to have declared Martha Scott yesterday morning. She showed later on that she was in earnest. Frederick Dennis, an aged pensioner, also known as Henry Harrison, lies at Harper hospital in a precarious condition, with a 32-calibre bullet lodged somewhere in his abdomen. Both are colored people.

The quarrels of this oddly mated pair have been the talk of the neighborhood about their home at 62 1-2 Livingstone, avenue, yet an absurd attachment seems to have kept them together. Harrison is a widower of 68, with several married daughters, while Martha is 49 and has a grown up son.

They live in the east half of a rickety frame structure, the other apartments being occupied by the family of Henry Johnson. The latter said he heard the sound of fighting early in the evening and that while at supper he was startled by a pistol shot.

Hastening out the front door he saw old Dennis at the gate with his hand pressed against his side.

"That woman has shot me," gasped the old man, "run and get a doctor." He failed to find a physician and when he returned Dennis was sitting on the steps of a neighboring house. A little later an ambulance arrived and he was removed to the hospital.

### WOMAN WAS CAPTURED.

Martha had skipped out the back way and was captured by Patrolmen "Glewitzer and Graus, on Brady street, between Beaubien and Antoine. She was headed for the home of her son, Edward Scott. She was taken to the Fremont station, and a little later to police headquarters.

"I did it," she declared, "and I don't deny it. He threatened me and struck me in the face." She had apparently been drinking.

The weapon, a fine up-to-date double-action gun, was found on the floor of her home. The woman said she had owned it so long she couldn't remember where she got it. It contained two empty shells, but on eof which had been freshly discharged.

Marilda Lightfoot, a daughter of Dennis, living at 95 Illinois street, stated that last Sunday when her father was visiting at her home, Martha had besieged the place with a revolver, during the old man's comment, and threatening to blow his brains out.

The woman is locked up at police headquarters and at present the charge against her is assault with intent to kill.

### WILL BE DROPPED.

London, June 10.—In the House of Commons yesterday Geo. Wyndham, Chief Secretary for Ireland, expressed the opinion that it would be inadvisable to proceed to the second reading of the Irish Land Bill unless there was a good prospect of getting it passed in the course of the present session of the House. This expression from Mr. Wyndham is indicative of the intention of the Government to drop the Irish Land Bill altogether, especially as an inspired statement to the effect that the Government is endeavoring to dispense with the autumn session of Parliament has been issued. John Redmond, the leader of the Irish party in the House, has called a meeting of his party for to-day to discuss Mr. Wyndham's statement.

### THE COAL STRIKE.

New York, June 10.—This afternoon Commissioner of Labor Wright had a two hours' conference with President Baer, of the Philadelphia & Reading Railway; President Oliphant, of the Delaware & Hudson Co., and President Truesdale, of the Delaware, Lackawanna & Western. Mr. Wright said that the books had been opened, and he had secured all facts and figures, and now had sufficient information of both sides, which would probably not necessitate his going to the coal fields. He declared the investigation as practically over. He said he expected to spend the evening with friends, and would hold no conference.

## HON. S. H. BLAKE GIVES REASONS

For Voting Against the Ross  
Government and Supporting  
Mr. Foy.

Lost Confidence in Ross & Co.  
Owing to way They Dealt  
With University Question.

Toronto, June 10.—The statement of Mr. J. P. Whitney in an interview published a week ago, that Hon. S. H. Blake and other prominent Liberals had voted for Conservative candidates in the recent general elections, has caused much comment throughout Ontario, where for many years the name of Blake has been synonymous with that of Liberalism. No doubt has been cast on the assertion, as it was known that Mr. Whitney would not have made the statement without the best of authority.

It will interest many to know, however, what Mr. Blake's reasons were for supporting Mr. J. J. Foy, K. C., M. P. P., in his own particular riding of South Toronto.

To your correspondent to-day Mr. Blake gave the following statement, which is at once terse and convincing, as his utterances always are:—"The reason that I voted for Mr. Foy and against the Government was because of the manner in which the Government dealt with the university question and because one of the principal departments was so conducted as to destroy confidence in a Government responsible for its administration."

### WERE MASSACRED

London, June 11.—The Vienna correspondent of the Daily Express says in a despatch that a report has reached there from Constantinople to the effect that Arab tribesmen have massacred a caravan of wealthy merchants in the desert at a point 100 miles from Koweit, in Asiatic Turkey. According to the Constantinople report, only twenty persons of the 500 who composed the caravan escaped.

### CELEBRATION

At a meeting of the colored citizens of the County of Kent, at Nazary Hall, on Tuesday evening, it was decided to appoint a committee to make necessary arrangements for the holding of a celebration in this city on August 1st, and the following were appointed to complete the necessary arrangements:—David Lee, Geo. Smith, W. F. Williams, Jas. Jackson, J. E. Johnston, Hy. Lawrence, W. Branton, Jas. Brown, Robt. Dolman and John Cephas. C. M. Cooper was appointed chairman and John A. Bell secretary.

### HAVE SURRENDERED.

Colon, June 10.—The Colombian Minister of War has sent a circular to the Departmental Governors of the country, in which he says that after the recent Government victories over the Liberal forces more than 200 officers of the Liberal army, ranking from general down to sub-lieutenant, and more than 2,000 Liberal soldiers, have accepted the conditions imposed by the Government and surrendered. The names of all these Liberals have been published.

### IN THE FRENCH CHAMBER.

Paris, June 10.—In the Chamber of Deputies to-day, after a speech by the President, M. Bourgeois, on assuming the presidency, the Premier, M. Combes, made the ministerial declaration. It was on the lines of the synopsis cable dated June 7, and was received in silence by the Moderates and Right, while by the Radicals and Radical Socialists it was warmly applauded. The Chamber decided to discuss the interpellations on the Government supplementary Thursday, and adjourned.

## COLLISION AT CURVE

Macon, Ga., June 10.—A southbound passenger train on the Southern Railway, proceeding out of Juliet, 23 miles north of Macon, and under full headway, was struck by a freight train on a sharp curve at 2:10 o'clock this afternoon. Aboard were many passengers coming to attend the state convention, and a number of other well known men. The curve was so sharp that the passengers saw the approaching freight, and a panic developed instantly. The shock of the collision was so great that seats were smashed into splinters and glass into fragments. The engines and tenders were piled on each other. Engineer Pittman, and Fireman Ed. West, of the passenger train, were pinned in their cab and killed. Engineer Galleys, of the freight, escaped death by jumping, but he was seriously injured. Galleys says his watch was wrong, and he thought he had time to reach the Juliet siding. The dead:—Jas. T. Pittman, of Atlanta, engineer of passenger train; Ed. West, negro, of Atlanta, fireman. The injured numbered nineteen.

### REACHED CAPE TOWN.

Ottawa, June 10.—A cable was received at the militia department to-day announcing the arrival at Cape Town of the Wamfridson with the second detachment of the third C. M. R. Twenty-seven horses were lost on the voyage.

WEDNESDAY, JUNE 11.

### THE LENNOX RECOUNT.

It transpires that the returning officer in Lennox has not given a casting vote for Madole. That he could not legally do till he had been certified by the county judge that the vote was a tie and this notice had to be delayed for two days to see if an appeal would be entered from his finding. An appeal has been entered for such reasons as would seem to ensure a reversal of the judge's finding. The procedure is thus prescribed by the act: The appellants give notice to the Liberal candidate and to the judge of their desire to appeal. They may limit the appeal to certain specified ballots. The judge shall seal up the ballots in dispute and forward them, together with the notice and a certificate showing his findings as to the ballots in dispute, to the registrar of the court of appeal. On receipt of the ballots and notice the registrar shall forthwith obtain an appointment from one of the judges of the court of appeal for proceeding with the matter and shall inform the parties or their solicitors of the time so appointed. The time for hearing the appeal shall be not more than four days from the date of the appointment. The judge shall at the appointed hour recount the ballots in dispute, certify his decision to the county judge and the latter shall certify the result to the returning officer who may then, but not before, if it be a tie, not otherwise, cast a vote electing whom he will and make his return accordingly to the clerk of the crown in chancery.

### CHURCH OR CLUB?

The difference between a church and a club is not one of origin or of architecture, of doctrines or of organization, but, in the last analysis, of spirit and of point of view. An institution is not necessarily a church because it bears that name, and is housed in a building with a spire and meets regularly on the first day of the week. The distinctive thing about a church is quite different from any notion as to externals. It is a thing of life. And because of this an institution may have a name to be a church, and may be only a club.

Clubs are not essentially evil. Indeed, many clubs serve a very useful social or intellectual purpose. They are convenient and useful. The members of a club pay the required fees and enjoy the stipulated privileges. But a club is not a church. In spirit, in motive, and in point of view the one is radically different from the other. The spirit of the one is frankly and unabashedly selfish, the spirit of the other is the essential spirit of unselfishness; service in the one is motivated by the quid pro quo principle, in the other the service is its own reward; the outlook of the one is on its own elect and privileged members, the other yearns most of all for those who are without. No, a club is not a church.

And an institution is not changed from a club into a church by changing its ritual or by tricking it out in the toggery of religion. The singing of Psalms, the preaching of sermons, the observance of sacraments, and the affectation of a pious pose are not the essentials of a church. It is not a matter of creed. The easiest doctrines may be spoken in the softest words, or every paragraph may be blue and sulphurous, and inescapably damning. There may be eloquence in the pulpit and art in the choir-loft and conscious respectability in the pew, or all may be alike stale, flat, and unprofitable. These things do not matter. Nothing matters save this: The manner of spirit the people are of, the motives of their church life, the way they look at men and things about them.

And this is no arbitrary distinction. The line between the club and the church, between the children of this world and the children of the Kingdom, was drawn broad and straight and unwaveringly by the King and

## Nothing Tastes Good

And eating is simply perfunctory—done because it must be. This is the common complaint of the dyspeptic.

If eating sparingly would cure dyspepsia, few would suffer from it long.

The only way to cure dyspepsia, which is difficult digestion, is to give vigor and tone to the stomach and the whole digestive system.

Hood's Sarsaparilla cured Mrs. Frances Blouin, Pembroke, Ont. Benj. Webb, Clinton, Ont. and W. A. Nugent, Belleville, Ont. all of whom suffered greatly from dyspepsia. Mrs. Blouin writes, "I am fully cured." Mr. Webb, "It worked like a charm, restored a healthy appetite and toned my whole system." and Mr. Nugent, "I cannot praise it too highly for the good it has done me."

**Hood's Sarsaparilla**  
Promises to cure and keeps the promise. Don't wait till you are worse, but buy a bottle today.

Head of the Church. He made forever and everywhere the essential of the Church to be the possession of His spirit of unselfishness, response to His motives of love, supreme regard for the welfare of others. Men join a club for the good they get out of it, they join a church for the good they can give through it. The club does its duty when it ministers to the needs of its members; the church's duty is out in the highways and hedges, where the lost ones are; the site of a club is determined by the convenience of its members, a church must stand where the churchless crowds go by, preaching the Gospel the church is commissioned to proclaim, making grace to abound much more in the places where there is abounding sin.

Is there not a serious danger to the church of to-day in the clubward tendency of church life? The moment social distinctions and personal preferences and selfish interests control the thought and action of church members the institution ceases to be a church, despite its history and pretensions and nomenclature. And in contradicting the spirit and denying the motives and abandoning the point of view of Jesus Christ, religion ceases to be Christian, and becomes pagan. Paganism, refined and respectable, but utterly selfish paganism, is the besetting sin of modern church members.—J. A. M. in Toronto Star.

### PARLIAMENT OF BUSINESS MEN.

For some time business men throughout Canada have felt that the Dominion is not known in Britain and does not receive the share of British trade it should receive, as a part of the empire, points out the Berlin News-Record. To remedy this a conference of the boards of trade of the Dominion was held at Toronto last week.

It was a good move, though the conference attempted rather much. It had twenty-six important resolutions to consider at the short sessions held those days. Free trade is wearing thin in Great Britain, and her people no longer enjoying a monopoly of manufacturing, will have to change their trade policy and introduce protection, if not retaliation, against her big competitors. The business men gathered at the convention, wish Canada to benefit when Britain makes changes. They do not ask, nor desire, free trade within the Empire, for that would injure the manufac-

## WHEN YOUR COSTLY WATCH

is out of order you have it regulated; you don't at once throw it aside. Why, then, when your bowels are out of order, do you treat them as useless?

That is precisely what it means to take violent cathartics. They do not regulate the bowels, but take their work away from them, debilitate them, and make you more constipated than ever. You had far better throw away your good watch than treat your bowels roughly. You can get another watch, but you cannot renew your intestines.

The only cure for Constipation is a gentle laxative with tonic action.

turing interests of this country. What they do ask is that Britain should give a preference to the natural products of Canada and the other colonies.

Were the Dominion to secure preferential treatment for her grains and produce in the English markets, it would be the making of the country. The preference might either consist of a reduction in or a remission of the impost on the importations. The conference will likely recommend that at the Imperial conference to be held this summer in London, a Royal Commission be appointed to investigate conditions and suggest preferential treatment.

It would be a fine thing for Canada if Britain made this concession, but this country can do a great deal to help itself by adopting some practical method of advertising Canadian products across the water and give the British public some useful lessons on the business geography of Canada. We are its most important colony, yet they know comparatively little about us.

### CAN'T STOP THE TORIES.

The Glengarrigan.  
You can't stop Tories when they want to vote. Up in North Hastings the deputy moved the poll seven miles from where it should be. The road is the new location was so bad that nobody could drive over it so the Tories chartered a special train, ran to within a mile of the place and walked the rest of the distance to record their votes.

### COBBLED ON THE VELDT.

Mafeking Mail.  
We saw a short time since a pair of boots made by a Boer on the veldt. They were shapely, the uppers were of good, pliable leather, and the soles hard. The eyelets had been carefully extracted from an old pair of boots. Evidently no springs were available for fixing the soles, so bits of telegraph wire had been cut. They were not pointed, but had been inserted into punched holes, and riveted inside and out.

### HUSBAND MANAGEMENT.

Lady's Realm.  
There is one secret and only one, which it is allowable, even advisable, for a wife to conceal from her husband—the secret that she manages him; he must never know or suspect it; not one of their friends or acquaintances must have an inkling of it. A man managed publicly is a degraded spectacle; a dictatorial order or a rude assumption of authority before even the nearest relatives is in abominable taste, and the husband, if he have an ounce of spirit, will resent it.

### BOMBARDING AYLMER

Aylmer, June 11. — Rev. Messrs. Crossley and Hunter opened union evangelistic services in the Baptist church here yesterday, the Presbyterians, Methodists and Baptists all taking part. The attendance was very large, there being over 1,400 people in the church at the evening service, which was devoted to non church-goers and it is said that many citizens of Aylmer who seldom see the inside of a church, turned out to listen to the fervent message of the evangelists. There promises to be a great awakening among the sinners of the town during the coming fortnight.

## SATCHEL OF THE SATELLITE

Most men just now are interested in the price of straw.

The Americans are in no hurry for peace. There are too many of them making a piece out of the war.

Mayor Sullivan suggests that the Council attend church. I am waiting to hear what the aldermen say.

Thanks to the cut rate war in meat, we are once more able to see that delectable food on our dinner table.

Say, talking about stories, don't forget to read the thrilling serial which opens in the Saturday Planet. Take my word for it—it's a corker.

It might be a good idea if the board of works would harvest their burdock crop on Head Street. They might possibly sell the yield to the makers of Burdock Blood Bitters.

Judge Bell pointed out clearly to the Grand Jury that their duty was to decide whether there was sufficient evidence to warrant a prisoner being sent for trial, not to decide as to guilt or innocence.

The 24th Regiment Band, the best there is, will play sweet music in the park to-night. Come and bring your girl. If you haven't got one, bring somebody.

The irreverence of the western United States papers is becoming intolerable. The Chicago Record-Herald has the bad taste to make the following atrocious comparison: "With Kitchener at the Coronation it will be like an Uncle Tom show with two topes."

It has been the general custom that the owner pounded the man whom he found taking his cattle to pound. They do things different in the Gore of Camden. There the neighbor, not satisfied with impounding the cattle, thumped the owner in addition. It cost the fellow over \$50, so I don't think the Camden method will ever become popular.

The Chicago Journal says: "The duty of peace in South Africa will throw a good many sympathetic gentlemen in this vicinity upon the county. The business of collecting money for the suffering Boers was a good one, however, while it lasted." They may now devote their sympathies and energies to collecting for the suffering Filipinos.

A couple of Chatham sports were on a fishing excursion a few days since, and in passing a Dover farmhouse they yelled to the farmer's daughter: "Hay there! have you any milk?" The reply was gently waited back to their ears, "Yes, but we keep it for our own calves." The boys calculated that they had business away, and they went.

The sidewalk on the west side of Victoria Avenue, from Head Street to Kirk Street, is a disgrace to civilization. Any village can show a piece of walk on its principal residential street that would make the Victoria Avenue sidewalk look like a corduroy road. I saw an elderly lady trip on one of the loose planks and get a nasty fall the other morning. The city had better watch out or they will be up against a bill for damages.

## A Sick Liver

Can work havoc with human happiness. It can change the cheerful philanthropist into a morose misanthrope and the optimist into a pronounced pessimist. The liver has a great deal to do with the removal of the waste of the body.

When it is sluggish in its action the whole body must suffer by reason of clogging accumulations.

The excretory organs in general promptly respond to the action of Dr. Pierce's Golden Medical Discovery. It restores the liver to healthy activity, purifies the blood, and cures diseases of the organs of digestion and nutrition.

Edward Jacobs, of Martineau, Crawford Co., Indiana, writes: "After three years of suffering with liver trouble and malaria I gave up all hopes of ever getting stout again, and the last chance was to try your medicine. I had tried all the home doctors and received but little relief. After taking three bottles of Dr. Pierce's Golden Medical Discovery and one vial of his Pleasant Pellets, I am stout and hearty. It is due entirely to your wonderful medicine."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore, accept no substitute for "Golden Medical Discovery." Dr. Pierce's Pleasant Pellets assist the action of the "Discovery." They are easy to take, agree with the weakest constitution, and do not beget the pill habit.

The following quotations:—  
The seed season is really over. The late rains will help the growth. The old fields are pretty badly killed, but the new ones are all right.

#### SENTENCE WAS MADE LIGHT

Judge Bell Fines Grice, Con-  
victed of Assault, Five  
Dollars.

**Jury Recommended Mercy and  
There Were Extenuating  
Circumstances.**

The case of Chrysler vs. Allen, occu-  
pied the attention of the court all  
yesterday afternoon. This was an  
action over a promissory note for  
\$245, date 1896. The defendant de-  
nied making the note at all. The de-  
fendant also claimed that no consid-  
eration was given for the note, and it  
was given to the plaintiff only to dis-  
count it for the makers. Judgment  
was given for the defendant with  
costs.

The June session of the county court  
resumed this morning at 9:30. The  
grand jury brought in true bills in  
both criminal cases, Rex vs. Millard  
Smith, perjury, and Rex vs. Grice, as-  
sault. As Smith's counsel wasn't pre-  
sent, the jury was called in the case  
of Rex vs. Grice. The following were  
the jurymen chosen—Duncan, Gillis,  
William Grandbois, Alex. Dale, O.  
Gage, Melvin Kelly, J. B. Parker, Jas.  
Parish, A. J. Bechard, Watson Rus-  
sell, Lachlan Galbraith, John M. Doyle  
and J. F. Doleen.

We had struck Tom Grice with a sled  
of mud. Grice was chasing the boy  
on Park Ave. West, and in passing  
Mrs. Brooks, a colored woman, he  
swinging arm knocked the woman off  
the sidewalk. She fell on her arm,  
breaking it near the wrist.

Mrs. Martha Brooks, Mrs. Kersey,  
Miss Mary Brooks and Kathleen  
Brooks all gave evidence for the pro-  
secution. The prisoner was the only  
witness for defense.

Judge Bell charged the jury impar-  
tially. Crown Attorney Edwin Bell  
presented, and Geo. G. Martin ap-  
peared for the prisoner. Mr. Martin  
made a very eloquent appeal on behalf  
of his client.

The jury retired at 11:45 and court  
was adjourned till 1 o'clock.

On court resuming, the jury in the  
Grice case brought in a verdict of  
common assault, with a recommen-  
dation to mercy. Judge Bell fined the  
man \$5 without costs.

Millard Smith was arraigned on the  
charge of perjury. At the recent  
sittings of the registrar for record-  
ing the names of those entitled to  
vote under the manhood suffrage,  
Smith took the oath prescribed by  
law before Judge Houston at the  
polling station. He gave his residence  
as Forest street when he lived at  
Mr. Lenover's, on Head street, outside  
the corporation. Such residence  
didn't, said he, lived at Mr. Lenover's  
inside the corporation, the man swore  
to what was untrue.

Judge Houston was the first to  
notice the discrepancy in the state-  
ment of Smith had taken. S.  
B. Arnold was present when Smith  
registered. He remembered Smith  
lived at Mr. Lenover's, on Forest street, and  
he knew Mrs. Bush.

Mr. Lenover called, said that he liv-  
ed about four lots outside the city  
limits on Head street, and the prisoner  
lived with him. Prisoner had told  
witness that he would register on his  
brother Willis's lot, as he knew that  
better, and witness had told him that  
that would be all right. The prisoner  
entered the witness box in his own de-  
fense. He said people had told him to  
register as living on Forest street, and  
he had done so, thinking it made no  
difference.

Smith was without counsel and J. G.  
Kerr, at the request of Judge Bell, un-  
dertook the defense of the prisoner.  
Crown Attorney Bell prosecuted.

#### IMPORTANT IMPROVEMENTS

**And Alterations in the Passenger  
Train Service of the Grand  
Trunk Ry. System.**

It has been rumored for some time  
past that the inauguration on June  
15th of the summer passenger train  
service of the Grand Trunk Railway  
System would be marked by impor-  
tant new features. The details of the  
service have now been sufficiently iden-  
tified to permit of information re-  
garding it of a preliminary character  
being furnished to the public. It is  
evident that the progressive policy in-  
troduced by the present management  
of the Grand Trunk is to be continued.  
Many of these improvements in the  
way of additional trains, have been  
under careful consideration for some  
time past, and have now only become  
possible as a result of the substan-  
tial growth of traffic in the districts  
concerned throughout which the new  
facilities will be greatly appreciated.  
While Ontario will benefit chiefly,  
the advantages will not be confined  
to that province. A brief statement  
of the new and altered service fol-  
lows:

Commencing on Sunday, June 15th,  
there will be a number of changes  
in train service which will favorably  
affect travellers from this district.

In addition to the morning train  
for London, Toronto and points East  
there will be another train leaving  
Chatham about 2:15 connecting at  
London for all points north of Wari-  
ton, Owen Sound, Goderich and all  
other towns in that district, making  
connection also for Toronto. This  
does not affect the fast Eastern Fly-  
er, which will run as before through  
to Montreal, Toronto and all East-  
ern points. The fast International  
Limited will run through from Mon-  
real to Chicago daily via London,  
Chatham and Detroit, making fast  
train service without change between  
these points.

Rather oddly, there are those who  
believe that the Spring post does  
wrong when he does write.

#### Our Business

We have been in business for our-  
selves just six months on the first of  
June, and we are pleased to be able  
to say that our business has just  
doubled itself, according to our books  
for the month of December last and  
the month of May just closed. We  
will take this opportunity to thank  
all our old customers for the way they  
have stayed by us, also the host of  
new ones that have given us their  
trade since we started in busi-  
ness. In our endeavor to please our  
customers we have worked night and  
day, and can say without fear that  
when we serve you it is with the  
cleanest kept stock and the cleanest  
kept store in the city, buying none.  
Not wishing to blow too hard, we will  
leave it in the hands of the public to  
judge for themselves on that point.  
Just one word; it is in this. Send  
your children to our store when you  
want anything in our line, and you  
can depend on it they will be served  
the same as if you came yourself. We  
hardly consider the fact worth men-  
tioning, as we don't think there is a  
merchant on King street that would  
allow himself to take advantage of a  
child by giving them a thing that he  
would be afraid to offer to a grown  
person.

WHAT THEY THINK OF GAS FOR FUEL.

P. S. Coate, Esq.,

Mgr. Chatham Gas Co.

We the undersigned residents of Joseph street, have pleasure in saying that after a year's use of gas for cooking purposes, we find it to be the most economical, convenient and satisfactory fuel we have ever used. With it there are ashes, soot, carrying of fuel, kindling fires, etc.; it is ready in an instant, day or night, and we are perfectly satisfied that gas is a much cheaper fuel than coal or wood. We can advise any one to use gas for fuel.

In the sugar beet item in yesterday's daily, quoted from the Detroit Tribune, the Dresden sugar factory was said to have a capacity of 350 tons daily. This is incorrect. Its capacity is 600 tons daily.

The Dresden paper, a "colored" supplement to-day as follows:—It is all wrong, Mr. Mare, to push fire-works, but who can de pusion dat furnish 'em. We knows dat Mare Sulman sells heaps o' war papers, but we reckon dat he dun pose redemption to ware a crown.

## PRETTY WEDDING

A very happy wedding took place this afternoon at two o'clock, when Miss Ada Kime, daughter of contractor Thos. M. Kime, was united in marriage to John A. Ward, of this city. The ceremony was performed by Rev. T. T. George, in the beautifully decorated drawing room.

The wedding march was played by Miss Emma Kime, sister of the bride. The bridesmaid was Miss Beulah Kime, cousin of the bride, and Orma, the little six-year-old cousin of the bride, acted as maid of honor. The groom was assisted by Will Kime.

The bride wore white silk trimmed with Brussels net and carried white roses. The bridesmaid wore cream silk and carried white roses; the maid of honor was attired in pale blue silk. The travelling gown of the bride was of steel grey serge trimmed with satin and cream applique.

The ceremony was performed in the presence of the immediate relatives. The young couple leave on the S. O. G. T. R. to spend two weeks in Toronto and places in New York, Ohio and Michigan, after which they will take up their residence on Thames street.

The presents were numerous and costly, showing the high esteem in which they were held.

### Wage-Earning School Children in England.

Whilst dreams of world-wide empire and visions of the subjugation of the entire universe to the domination of the occupants of No. 10 Downing street, Whitehall, are disturbing the rest of the average Briton, and turning even the late followers of Gladstone into rampant jingoism, thinking men are reminded, by the publication of Blue Books such as the report just issued by the Home Office on the employment of school children, of some of the evils which are eating away the heart of the English nation. Child labor in England has been the subject of repeated legislation for nearly a century. Children eight years of age are no longer allowed to work in factories, nor are the hours of labor for older child-workers so long as heretofore.

For the latter class a system of half work, half school, has been devised, while a series of acts of Parliament have been passed forbidding the employment of young children in chimney-sweeping, acrobatic performances, etc., and severely regulating their hours of labor in other and, in my opinion, equally objectionable occupations. It was fondly imagined that these enactments had finally expunged the evil spirit of child labor; but the terrible disease of poverty is too deeply rooted in Great Britain to be eradicated by such measures; and though now and again a sore may be healed, it surely reappears in some other part of the body politic. Its latest development is to be seen in the spectacle of children of tender years trading in the streets, or working in shops, or engaged in some form of agricultural labor which has not been forbidden by any existing legislation. The first symptom was noticed by the Education Department through its school inspectors, and six years ago an investigation was held by that body in order to see whether the disease was quite so dangerous as represented. Enquiries were made from the various school managers throughout the country, with the result that it was reported that no less than 144,000 children attending school were employed either before or after school hours, or both, for a very small remuneration, at some form of work for periods ranging from twenty to forty, fifty, and even eighty hours a week. These figures rather underestimated the total number, as the compilers did not include those children who had a regular occupation after school, or those whose work was not, in their judgment, prejudicial to health—Thomas Burke in the "Forum."

### Figuring It Out.

The "little Johnny" of the following story may never have heard that Great fleas have little fleas upon their backs to bite 'em, And little fleas have lesser fleas, and so ad infinitum, but his method of reasoning is analogous. He had been gazing thoughtfully at his book of animal pictures, says the Salt Lake "Herald," when suddenly he called out:

"Sa, pa, does it cost much to feed a lion?"  
"Yes."  
"How much?"  
"Oh, a lot of money."  
"A wolf would make a good meal for a lion, wouldn't it, pa?"  
"Yes, I guess so."  
"And a fox would be enough for the wolf, wouldn't it?"  
"Yes, yes."  
"And a fox could make a meal off a hawk, eh, pa?"  
"I suppose so."  
"And the hawk would be satisfied with a sparrow?"  
"Of course."  
"And a big spider would be a good meal for the sparrow, wouldn't it, pa?"  
"Yes, yes."  
"And a fly would be enough for the spider?"  
"Sure."  
"And a drop of molasses would be all the fly would want, wouldn't it?"  
"But wouldn't it, pa?"  
"Yes."  
"Well, pa, couldn't a man keep a lion more'n a year on a pint of molasses?"

### The Last Words of Great Men.

On the subject of Cecil Rhodes' last words—so little done, so much to do—London "Truth" says: Mr. Rhodes was not given to high-flown talk, and I suspect the story of his 'last words' is a fiction. Sydney Smith observed that it seems a necessity that every distinguished man should die 'with some sonorous and quotable saying in his mouth.' Mr. Pitt was supposed to have expired exclaiming 'How do I leave my country!' It was afterwards established on conclusive evidence that his real last words were, 'I fancy I could eat one of Balfour's meat pies.' Mr. Fox was credited with some becoming observation about public affairs, whereas his last words conveyed a request for barley water. Sir Robert Peel was stated to have died after an ejaculation about the blessings of cheap bread. In reality he awoke for a few minutes, after several hours of sleep, said, 'God bless you all,' and died. Lord Beaconsfield was reported to have exclaimed, 'Any news in the Gazette?' with his last breath, whereas he muttered, 'I feel overwhelmed.'

### A Delicate Position.

Wedding presents are frequently distinguished for their uselessness, and gift-making at any time is always attended with some danger, but there is a contractor in Toronto who realizes that the most generous intentions are likely to turn out disastrously. This is how it came about:  
A faithful Irish employee announced his desire to take a month's vacation in order to visit his brother in the West. He had worked so well and steadily that his employer not only granted the request, but made him a present of a new valve. The night before Tim was to leave he received the gift, accompanied by a few appreciative words.  
Tim stared at the valve for a moment and then asked: "What am I to do with this?"  
"Why, put your clothes in it when you go away, of course," answered the contractor.

"Put me clothes in it, is it?" said Tim. "Ah! what'll I wear if I put me clothes in that?"

## HEART DISEASE

is a symptom of Kidney Disease. A well-known doctor has said, "I never yet made a post-mortem examination in a case of death from Heart Disease without finding the kidneys were at fault." The Kidney medicine which was first on the market, most successful for Heart Disease and all Kidney Troubles, and most widely imitated is

### Two Names and Two Results

A large steamer was once wrecked because one of the sailors was named West. The vessel was outward bound from Rotterdam, and the sailor was on deck polishing some brasswork. Suddenly the captain called him and told him to go below. The second officer on the bridge heard the captain call out the man's name and thought it was an order to change the course of the vessel to west. He did so, and the result was that the ship ran on to a dangerous shoal. That name cost the owners of the vessel the sum of \$500,000.

During the Afghan war of 1879 a small British detachment gained a victory over a large body of the enemy by a mistaken order. A private named Vance, who had distinguished himself by several acts of bravery, was a great favorite with one of the officers, and during a skirmish the officer wanted him to carry a dispatch to the colonel in command of another detachment. The man was only a few yards away, and he called out, "Vance," at the top of his voice. The men thought he had given the order "Advance" and immediately rushed forward with such dash and spirit that the enemy broke and fled.

### Monstrous Force of Tornadoes.

Much has been said about electricity as a factor for destructiveness in the various grating stormclouds known as cyclones, derechos and tornadoes. In all of this voluminous mass of so called scientific opinions and deductions one fact seems to have been overlooked, viz., the almost irresistible force of wind when moving with high velocity. When the velocity is but fifty miles an hour, the pressure of air in motion is equal to twelve pounds to the square foot, and when this velocity rises to a hundred miles per hour its force rises to the equivalent of 49.2 pounds to the square foot, the augmentation of force being always proportional to the square of the velocity.

It needs no further elaboration or amplification of this statement to convey to the intelligent reader an idea of the monstrous mechanical force which such a rapid traveling mass of air must have, a power great enough to tear down any structure that has yet been built by man or to uproot whole forests of the largest trees now growing on the surface of the earth.

### What's In a Name?

"I became very much interested in a chance companion on a railway train," said a New York clergyman. "He was plainly of Italian birth or extraction, and so I remarked to him: 'Where were you born?' 'In Genoa,' replied the young man. 'And what is your name?' 'Patrick Murphy.' 'How in the world did you get that name?' I asked instinctively. 'I took it,' replied the young man. 'Why did you choose such a name?' 'Because I wanted people to think I was an American,' was his reply."

Try not to break that good resolution for a few days anyway.

### Big Buildings.

St. Peter's is the biggest building in the world. St. Paul's could be placed inside the great cathedral at Rome without blocking up the way through. St. Peter's stands on an area of two hundred and forty thousand square feet, with a front four hundred feet broad and a length inside of six hundred feet. The cost of building the cathedral was three and a half millions sterling—exactly the same sum as was spent on the British Houses of Parliament, and five times as much as the cost of St. Paul's. The Vatican, which can hardly be called a single building, has eleven thousand apartments, approached by two hundred staircases; and there is a mystery in Madrid which has twelve thousand windows and doors. But they can hardly be called single buildings, and bearing this distinction in mind, the biggest building in the world is the Church of the Pope at Rome.

The builders of the Old World were more ambitious than our own. No such theater has ever been built in the modern world as the Colosseum, with its diameter of six hundred and fifteen feet, its height of one hundred and sixty-four feet, and its seats for a hundred thousand people. No wall has ever been built to equal the great wall of China, which runs thirty feet high and twenty-four feet thick for twelve hundred miles; and the Pyramids remain the wonder of the world in the twentieth century as in the first. Ancient Egypt had twelve palaces each with three thousand rooms; and the walls of Nineveh ran for a hundred miles a hundred feet high and wide enough for three chariots to drive abreast along the top.

### "Young Never-Grow-Old."

The war has not as yet developed much pathetic poetry. It is not till the cluster and plinking of the shot is past that the cry of the mourner reaches the ear. Perhaps among the first fruits of the harvest of poetic sorrow may be counted a short poem in "Longman's" by Mrs. Fleming. It is simply entitled "Spion Kop." Two stanzas may be cited out of five, all of which will go home to many a mother's desolate heart:

Young Never-Grow-Old, with your hat of gold,  
And the dear boy's face upon you;  
It's hard to tell, though we know it well,  
That the grass is growing upon you,  
Flowers and grass, and the graveyard mould,  
Over the eyes of you, Never-Grow-Old,  
Over the heart of you, over each part of you,  
All your dear body, our Never-Grow-Old.

Never-Grow-Old, your curly head  
Will never streak with gray;  
Young Always-Young, your springing tread  
Will never pass away.  
The morning glory of your eyes  
Will light you now and ever;  
You keep your boyhood in the skies,  
The outside of the River.  
River that flows by the City of Gold,  
River of Healing, dear Never-Grow-Old.

### He Knew His Own.

Curly, speaking of America, once said that the North cursed the negro and bade him be free, and the South blessed him and bade him be a slave. The negro gives point to a story told in the Arkansas "Thomas Cat." One of the old-time Southern negroes went to Boston to make his fortune. After a brief walking up and down, he found himself penniless and no work in sight. Then he went from house to house.

"Et yo' please, sah," he began, when his ring at the front door was answered, "can't you gib a p'or culled man wuk ter do, or sompin ter eat?" And the polite answer invariably was, "No, mister; very sorry, but have nothing for you."  
All who answered his ring addressed him as "Mr.," but shut their doors and hearts against him. Finally he rang the bell at a brown-stone front. A gentleman appeared, and the old man began, "Boss, I is starvin'. Can't yo' gimme some victuals?"  
"You black, kink-headed rascal!" exclaimed the gentleman. "How dare you ring the bell at my front door? Go round the back-yard, the best thing I can do for you is to give you something to eat."  
But just there the old man fell on his knees, crying out, "Thank de Lawd, I foun' mah own white folks at last! Thank de Lawd, I foun' 'em—I foun' 'em!"

### Didn't Like Officers' Fare.

Anybody with any knowledge of nautical grammar at all knows what an habitual griever "Jack" is. Never was he known to be satisfied with any possible condition of affairs, no matter what efforts might have been spent in pleasing him.

A good example of this is shown in a story told by the skipper of a large American sailing vessel now in port. On his last trip from San Francisco to this port he had with him some passengers; so, to prevent friction, he humored the seamen more than he otherwise would have done. On the second day out the crew all came aft and demanded to see the skipper.

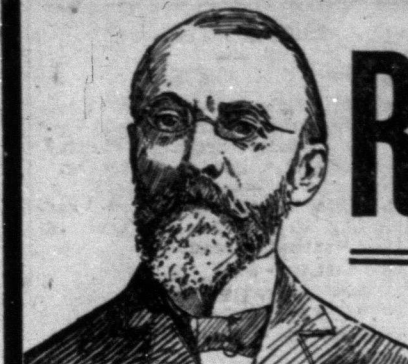

### Breaking the Ice.

Some society people, remarks Hal Berte in "Pick-Me-Up," are greatly perturbed over a problem that presents itself when two persons, of opposite sexes, who are strangers to the purpose of going in to dinner together. The vital question is which, under the circumstances, should speak first? Without posing as an authority on etiquette, I venture to suggest that the one of speaking first naturally devolves upon the gentleman, because the lady is bound to ultimately get even by having the last word. Of course, if the gentleman really wants the lady to leave off the best thing he can do is to accidentally tread on her dress. In which case she will probably say something commencing with the fourth letter of the alphabet. With this cue, profuse apologies can be tendered, and the rest is easy.

Do not depend on a doctor from seeking further advice, or because of repeated failure consider your case incurable. Because others failed in your case you have become discouraged. This is the very time you should consult me as my reputation has been made in curing hopeless (so-called) cases.

**LADIES** suffering from Navel or any form of Rupture should not hesitate in having their case attended to at once. Everything strictly private and professional.

**MOTHERS**—Look to your children—Now is the time to have them cured, while young. Don't allow them to grow up handicapped in the race of life, with rupture.

**MY CHARGES** are within reach of all. The poor man as well as the rich. Terms can be satisfactorily arranged, no reason why you should not consult me at once, during this visit.

**VARICOCELE, FALSE RUPTURE.**

THE universal tendency of these conditions is to grow worse and more complicated—leading to impotency, nervous debility, wasting, structure, lameness, sexual exhaustion, etc. Do you intend to allow this insidious affliction to sap away your vitality? It is doing so now and if not checked will result in the above conditions. No matter how serious your case may be, time affords, or the failure you may have experienced in trying to be cured by medicine—free trial, or Electric belt—my Biomechanical system will cure you; the worry pains return to their normal condition and hence the sexual organs receive proper nourishment, the parts become vitalized and manly powers return. No temporary benefit, but a PERMANENT one. NO OPERATION necessary. No detention from business. If you have had the usual experience you have no doubt spent large sums of money and still larger quantities of time searching for the remedy that I offer you here.

HOW ABOUT STREETS?

Editor Planet:

Dear Sir,—I see by The Planet of yesterday that Mayor Sulman is recommending the sum of three hundred dollars to be spent on fireworks on Coronation Day. It strikes me very forcibly that Mayor Sulman has a stock of gum cracks that he wishes to unload. If he would take the City Engineer and the Board of Works over our streets and see the condition they are in and take the Board of Health through the back alleys and see the filthy condition they are in he would find a much more profitable way to spend the city's money. Such an action as is recommended by the Mayor will not be endorsed by the tax payers of the city. Patriotism is all right and is heartily endorsed by everybody, but the city's health and comfort should come in for a share of consideration. Trusting some other less expensive way will be adopted to celebrate, I am,

Yours truly,  
KING STREET EAST.

McCormick, H. H. Bentley and M. J. Wilson. Minutes of previous meetings were read, adopted and signed by the Reeve. The following communications were read:—

Chas. A. Mahoney, re grain thieves. Clerk of Raleigh, re gravel pit at Buckhorn. O. McKay, re McGregor ditch. L. E. & D. R. R., re coal shed at Chatham. Do., re Liddy fence. T. Brady, re poundkeeper.

Moved by Bentley and Buchanan, that the following be appointed members of the local Board of Health for the Township of Harwich:—

Mr. John Gordon, for three years. Mr. Lewis Rowe, for two years. Mr. John Laird, for one year.—Carried.

Moved by Buchanan and McCormick, that the resolution passed at the meeting in March, granting \$12 to C. McKenzie for the purpose of making a place for the public to get water at Shrewsbury, be rescinded, as McKenzie has refused to fulfill the agreement.—Carried.

A petition was received by the Council, signed by E. R. Smith and many others, asking for better sanitary arrangements at Erieau.

Moved by Wilson and Bentley, that the by-law for regulating the sanitary arrangement at Erieau, be left in the hands of the clerk Geo. Baird, to consult the doctor, and have same prepared.—Carried.

The Reeve submitted the following report:—

To the Municipal Council of the Township of Harwich,—I beg leave to report as follows in regard to having the County Council arrange a ward for incurables, as instructed by this Council: I met the County Council on Friday, the 6th of June. The proposition seemed to meet with their approval. A number of the Council spoke in favor of it and agreed to set in the matter. Adopted by Wilson and McCormick.

A large number of accounts were ordered paid.

The by-law for fixing the rate, for raising the estimates for 1902, was passed, fixing the rate at 4 1/2 mills on the dollar.

Moved by Wilson and Bentley, that this Council grant a leave of absence for two months, he furnishing a substitute in the meantime.—Carried.

## DAY'S DESPATCHES

A MINNESOTA TORNADO.

Ulen, Minn., June 10.—A tornado formed five miles west of this place late yesterday and swept over an area of eleven miles wide, and probably twenty miles long. It killed four persons, injured many more and demolished numerous buildings. Reports from various sections show that many persons were badly injured. Hun dreds of head of stock were killed.

Lake Park, Minn., June 10.—A tornado swept through the county twelve miles north of here yesterday afternoon, cutting a path two miles wide and three miles long. Nine farm-houses were destroyed and ten persons are reported dead. The church at Spangle was demolished. Further details have not yet reached here.

CAR FERRY TURNS TURTLE.

Mackinaw City, Mich., June 10.—The big car ferry St. Ignace turned turtle while loading cars at St. Ignace to-day and went to the bottom of the ship in 24 feet of water. The crew escaped without injury. The disaster was caused by loading one side of the ferry with heavily laden cars of iron ore, with nothing on the other side to counterbalance. The sinking of the St. Ignace leaves the railroads between the two Michigan peninsulas without means of transferring their trains across the Straits of Mackinac.

Myron McIlwain, who brought the black son of Patchen out last year and who is still handling him, arrived at Glenville this afternoon. His string of campaigners, Dan Patch, Prince Direct, 214 1-2, and Darwin, came with him. They are stabled in the square a few feet from the 1901 home of the champion Cresseus. After his arrival McIlwain gave out the statement that the match between the two pacers had been arranged.
