**CHILDREN ASK PASSERS-BY TO HELP "BLIND PARENTS OF NINE CHILDREN"**

Baby Marie Osborne, Pathe child star, is to be seen in "Told at Twilight," at the Nicklet Theatre Wednesday and Thursday, this week. This is another of the delightful Pathe pictures, starring the little five year old mite.

There is a wonderful scene in it, when Baby Marie and her little colored playmate take from a blind couple their sign reading "Please help the blind parents of 9 children" and seat themselves on the church steps, with eyes closed and hands outstretched. It would ring a laugh from the Sphinx himself, could he see it.

Mr. Nathan R. Veinot of Grafton was in town on Thursday and visited the Advertiser Office. Mr. Veinot moved from Kentville to Grafton in the spring of 1916 and has been carrying on farm work there. This year he has a larger crop in the ground and less help to harvest it. He with many others is growing a field of wheat which is looking well. Mr. Veinot's only son enlisted with the 112th Battalion but was rejected being very young. He was determined to do his bit and four weeks ago he enlisted in the motor vehicle corps and went to Halifax, St. John and later to Valcartier. Pte. Veinot has experienced some of the hatred which the French people in Quebec has for all soldiers of the King. While out off of duty he with two companions in khaki were set on by about fifteen husky French slackers who want to fight, like a rooster on its own dunghill. Veinot and companions managed to escape after a hard tussle, he having only several bruises and a black eye.

**Things Worth Remembering**

To remove paint from glass rub with it vinegar.  
 Ether is good for removing grease stains from clothing.  
 To prevent accidents, paint the bottom cellar steps white.  
 All suet puddings should be cooked a long time to make them digestible.  
 Add a teaspoonful of salt to starch, when making, if a gloss is desired on linen.  
 Drive six brass headed tacks in the ironing board to take the place of a flat iron stand.  
 It is wise to put a little salt in the water in which vegetables are washed. It will destroy insects.  
 Allow two level teaspoonfuls of baking powder to each cup of flour when no eggs are used.  
 To cut butter in, small squares for the table, use a coarse wet thread as this leaves no ragged edges.  
 The small pin feathers that are so hard to clean from very young chickens can be wiped off with a damp cloth in much less time.  
 Cold water closes the pores of the skin and makes it firm.  
 A little vinegar or cologne added to the water also assists in the hardening.  
 When no suet is at hand, and a little is required for puddings, ect., chop some dripping finely and use. It will answer the purpose quite well.  
 Before polishing furniture, wipe over with a cloth dipped in hot water and wrung out. If this is done finger-marks will not show.  
 If furniture is washed with luke warm vinegar and water before polish is applied, very little will be required and a great saving in labor effected.  
 A use for velvet—Take a piece the size of a duster and tie it over the head of a broom used for wiping down walls. It cleans them beautifully.  
 To shine shoes quickly do not blacken but rub on a piece of orange and let the juice dry in, then polish with a soft brush and then they will shine like a mirror.  
 If clothes are to be ironed soon after they are dry use hot water for sprinkling them. They will dampen more quickly and evenly than if cold water is used.  
 When madras curtains are laundered they can be easily dried by hanging them on their own curtain rod and putting a heavy rod in the bottom hem to hold them steady.  
 When reheating meat place some gravy in a deep frying pan, season it and make quite hot, put in the meat and simmer gently, but do not allow to boil as boiling makes the meat tough.  
 To clean dark varnished front doors, rub over, after dusting, with a little brown shoe polish on a piece of cloth; polish with a dry duster and the door will look as if newly painted.  
 To remove the shine from serge, sponge the dress or suit with hot vinegar and press in

the usual manner and all shine will disappear. The vinegar leaves no stain.  
 A small sponge the size of an orange will be found very practical to have to wash the little ones with, and more satisfactory than a cloth. Tie on a string so it can be hung up to dry after using.

**ENGINEERING TRIUMPHS AT HALIFAX**

Halifax is going to give a royal welcome to the thousands of people, who will visit the City, Exhibition week this Fall, September 12th to September 20th, and rightly she is going to take the opportunity of inviting everyone to see the magnificent work, which is now being carried on in the development of her Harbor resources. Halifax is going to have a terminal plant second to none in America and she wants everyone to know about it.

There is nothing more fascinating than modern engineering triumphs, the building of huge tunnels, removing of mountains, building of bridges, railroads and docks. Much has been made of the giant task that engineers faced in surmounting the Canadian Rockies, but experts declare that the excavation for the new Halifax Terminal has proven the heaviest ever done in Canada for a similar length of railroad. A huge trench has been dug through almost solid rock from Rockingham on Bedford Basin to the entrance of the Harbor. Thousands of tons of dynamite, the daddies of all steam shovels, scores of little engines, and an army of men have taken millions of tons of rock and earth from along the railroad and transported it to reclaim acres of ground from the Sea for broad shunting yards.

And a visit, too, will be paid the huge concrete docks, costing millions of dollars, where the largest ships in the world will find comfortable berths. Bigger, brighter better and busier than ever, the Nova Scotia Exhibition at Halifax this year September 12th to September 20th will provide an opportunity to see and realize the tremendous future of Halifax. It is believed that conditions are especially propitious this year for a record Exhibition in every way.

Fredericton, Aug. 6—The triplets born about a fortnight ago to Mrs. Charles H. Miller of Lower Caverhill continue to attract much attention. On Saturday R. S. Barker, private secretary to His Honor the Lieutenant Governor, acting on instructions from His Honor, went to the home of the triplets by motor and presented ten dollars to the parents for each child as a bounty from the Governor. Mr. Barker reports the triplets to be in the best of health and the mother to be attending to her household duties.

St. John, Aug. 6—After four days and nights without food or food nights without food or water, rowing aimlessly about the bay in an open dory maintaining a frantic grasp on life, when apparently every hope of further existence had fled, Perley Hardy, aged 23, and Jas. Knight, aged 32, two fishermen from Yarmouth have the Cape Spicer fog whistle to thank that they are alive today. With arms and hands blistered, burned and bruised from almost constant rowing day and night, and just when that drowsiness preceding death by starvation was taking possession of them the two fishermen became alert Friday night at a distant sound of a whistle. It was the Spencer Cape whistle and by following its sound the two men next morning rowed within eight miles of it and landed at Mispec.

"Yes, if we hadn't heard that whistle," agreed Hardy, speaking to a reporter, "we would have been dead ones. We decided that we would row as long as we could during the night, but we could withstand it no longer and after that we would have to drift."

**Home-made Iceless Refrigerator**

A companion convenience to the fireless cooker for the hot summer days is the iceless refrigerator, or milk cooler. This consists of a wooden frame covered with canton flannel or some similar material. It is desirable that the frame be screened, although this is not absolutely necessary. Wicks made of the same material as the covering rest in a pan of water on top of the refrigerator, allowing the water to seep down the sides. When evaporation takes place the heat is taken from the inside with a consequent lowering of the temperature. On dry, hot days a temperature of 50 degrees can be obtained in this refrigerator. The following description will aid in the construction of this device:

**How to Make Device.**

Make a screened case 3-1-2 feet high with the other dimensions 12 by 15 inches. If a solid top is used, simply place the water pan on this. Otherwise fit the pan closely into the opening of the top frame and support it by 1 inch cleats fastened to the inside of the frame. Face two movable shelves in the frame, 12 to 15 inches apart. Use a biscuit pan 12 inches square on the top to hold the water, and where the refrigerator is to be used indoors have the whole thing standing in a large pan to catch any drip. The pans and case may be painted white, allowed to dry and then enameled. A covering of white canton flannel should be made to fit the frame. Have the smooth side out and button the covering on the frame with buggy or automobile curtain hooks and eyes, arranged so that the door may be opened without unfastening these hooks. This can easily be done by putting one row of hooks on the edge of the door near the latch and the other just opposite the opening with the hem on each side extended far enough to cover the crack at the edge of the door, so as to keep out the warm outside air and retain the cooled air. This dress or covering will have to be hooked around the top edge also. Two double strips one-half the width of each side should be sewed on the top of each side and allowed to extend over about 2-1-2 or 3 inches in the pan or water. The bottom of the covering should extend to the lower edge of the case.

Place the refrigerator in a shady place where air will circulate around it freely. If buttons and buttonholes are used on the canton flannel instead of buggy hooks the cost should not exceed 85 cents.

St. John, Aug. 6—After four days and nights without food or food nights without food or water, rowing aimlessly about the bay in an open dory maintaining a frantic grasp on life, when apparently every hope of further existence had fled, Perley Hardy, aged 23, and Jas. Knight, aged 32, two fishermen from Yarmouth have the Cape Spicer fog whistle to thank that they are alive today. With arms and hands blistered, burned and bruised from almost constant rowing day and night, and just when that drowsiness preceding death by starvation was taking possession of them the two fishermen became alert Friday night at a distant sound of a whistle. It was the Spencer Cape whistle and by following its sound the two men next morning rowed within eight miles of it and landed at Mispec.

"Yes, if we hadn't heard that whistle," agreed Hardy, speaking to a reporter, "we would have been dead ones. We decided that we would row as long as we could during the night, but we could withstand it no longer and after that we would have to drift."

**Meteorological Data of Month**

Lowest Temperature Recorded 87 degrees F.  
 Highest Temperature Recorded 46 degrees F.  
 Mean Temperature Recorded 65.93 degrees F.  
 Total precipitation in ins. 3.65  
 Total Hours of sunshine 195.6

The average of the mean temperature for July was 65.93 degrees as compared with 66.04 degrees for 1916, 64 degrees for 1915, 62.88 degrees for 1914 and 65.4 degrees for 1913. It will be seen, therefore that July was not as warm as 1916, and slightly warmer than 1915 and 1914.

Rain fell on 12 days during the month. The greatest rainfall was on the 28th of 2.12 ins. The aggregate except .04 inch on the 23rd, fell between the 1st and 16th. The total rainfall was 3.65 inches, as compared with 2.66 inches in 1913.

Thunder was recorded on 6 days during the month and local heavy thunder showers which did not reach this Station occurred on the 21st and 22nd.

There were three days during the month on 5 hours bright sun. The total sunshine was 195.6 hrs. as compared in 1914 and 252.1 hours in 1913.

**END OF THE WAR**

Frank Simonds, the leading military critic of the United States, thinks the war will not end before October, 1918, and may continue until February, 1919. The Germans losses up-to-date have been placed at 4,500,000 by Mr Simonds declares figures are too low by at least half a million. Continuing this writer says:

Germany has not the reserves for another great offensive. She has not the reserves to last another year of such pounding as the last and her Western foes, with the help of the United States, have the men. Before the year is over I am satisfied the British will give us a new and convincing evidence of the real situation.

As to guns, the Germans have been out-gunned in the west for more than a year. Their own official reports have again and again conceded this. Fewer guns mean greater casualties and if this condition persists—as it must—it means the practical breaking of morale—a fact already proven by German surrenders—85,000 at the Somme, 28,000 at the Aisne, 30,000 at Arras and Ypres, and 17,000 at Verdun; 160,000 in four battles, together with more than 500 guns.

On the material side it is exceedingly unlikely that Germany can be starved out, but another year will bring greater hardships, greater suffering, and a failure of crops would mean ruin. Germany has suffered for two years more than Britain or France is yet suffering or will suffer for a year, and the moral effect is increasing all the time. It will not be a decisive factor, but it will weigh.

In my judgment, we shall see another heavy British blow this year—perhaps two. We shall have one more clear demonstration of the superiority now possessed by the British over the Germans in every detail of modern warfare. But I do not think there will be another French offensive until the American army is ready to take a hand.

In my judgment, the end of the campaign of 1918 will see Germany decisively beaten, and I do not think the submarine can prevent this defeat in that time.

It seems to me looking all the evidence fairly in the face, that Germany can escape decisive defeat only if there is no campaign of 1918.

A Prompt Decision—Mrs. Irwin said at a Washington Square tea:

"The more immodest fashions would resolutely oppose them."

"I know a woman whose dressmaker sent home the other

**day a skirt that was, really, too short altogether. The woman put it on. I was becoming enough, dear knows, but it made her feel ashamed. She entered the library, and her husband looked up from his work with a dark frown.**

"I wonder," she said, with an embarrassed laugh, "if these ultra-short skirts will ever go out!"

"They'll never go out with me," he answered in decided tones. —Washington Star.

**HUNS WILLFULLY DROWN MEN**

A British Port, Aug. 4—Thirty-eight members of the crew of the steamship Belgian Prince were drowned in a most deliberate manner by the German submarine which sank her, according to the account given by survivors of that British vessel, who have reached British shores. The chief engineer, who was perilously near drowned gave the following narrative of his experience:

"About 8 o'clock on Tuesday evening when we were 200 miles off land, I saw the wake of an approaching torpedo. The vessel gave a lurch as she was hit and I was thrown to the deck among the debris. The vessel listed heavily and we all took to the boats. The submarine approached and shelled the vessel and then ordered the small boats alongside the submarine. The skipper was summoned and taken inside. The others were mustered on the deck of the submarine.

"The Germans removed the lifebelts and the outer clothing of all except eight of us, smashed the lifeboats with axes and then entered the submarine and classed the hatches leaving us on deck. The submarine went two miles and then submerged. I had a lifebelt. Near me was an apprentice boy of 15 shouting for help. I went to him and held him up until midnight, but he became unconscious and died of exposure. At daylight I saw the Belgian Prince afloat. I was picked up after 11 hours in the water by a patrol boat. The second engineer who also was a survivor, succeeded in reaching the Belgian Prince before she blew up. The Germans came on board and looted her, he reported. He was in hiding but finally jumped into the sea and kept afloat on the wreckage. The only other known survivor is too ill in a hospital to tell his story."

The Guides' Tournament was finished on Friday evening, and the net receipts of about \$3,000 will be turned over to the Patriotic Fund. The weather throughout the two days' sports was generally favorable, and the vast crowds thronging the Park considered themselves well repaid. The numerous prize winners were presented with their awards by Mayor Grant on Friday evening.

"Gracious," exclaimed a woman in a department store, rushing up to a third and rather cross floodwalker just after losing sight of her husband.

"I am looking for a small man with one eye." "Well, madam," suggested the floorwalker, "if he's a very small man, perhaps you'd better use both eyes."

### CANADA TO BE UNDER DRASTIC REGULATIONS RESTRICTING USE OF BEEF, BACON AND WHITE BREAD.

Heavy Penalties Are Provided Under the Order For Violation of the Regulations by Public Eating Places.

Ottawa, Aug. 9.—Definite regulations, to come into effect at once, for restricting the use of beef, bacon and white bread in public places and for prohibiting the use of wheat in the distillation or manufacture of alcohol have been promulgated by order-in-council, at the instance of the Food Controller. The serving of beef and bacon is prohibited on Tuesday and Friday and at more than one meal on any other day. Substitutes, such as corn bread, oat cakes, potatoes, etc. must be provided at every meal at which the order, the expression white bread is served. Under "bacon" includes cured (either pickled or smoked) sides, backs, hams and any portion of what is termed in the trade Wiltshire sides.

The term "public eating places" includes any hotel, restaurant, cafeteria, club or other place, where meals to the number of twenty-five per day are served to persons other than members of the family or household of the proprietor. In all such public eating places, there must be notice to the effect that all persons, in ordering their food, ought to consider the needs of Great Britain and her allies and their armies for wheat, beef and bacon, and that the food controller requires the public to do every thing in its power to make these commodities for export by eating as little as possible of them, and by making use of substitutes, and avoiding waste.

The regulation relating to the use of wheat in the manufacture of alcohol reads: "No person shall use any wheat in the distillation or manufacture of alcohol unless such alcohol is to be used for manufacturing or munitions purposes, and no distillation or making of alcohol for manufacturing or munitions purposes unless such person has obtained a license therefore from the food controller for Canada. No fee shall be payable for any such license."

Heavy penalties are provided under the order for violation of the regulation: In the case of public eating places the proprietor or manager, or any clerk, employee or servant violating any of the regulations shall be guilty of an offense and shall be liable upon summary conviction for the first offense to a penalty not exceeding one hundred dollars and not less than twenty-five dollars, and for each subsequent offense to a penalty not exceeding five hundred dollars and not less than one hundred dollars, or to imprisonment for any term not exceeding three months or to both fine and imprisonment. Any person violating any of the provisions of the regulation relating to the use of wheat in

the distillation or manufacture of alcohol shall be guilty of an offense and shall be liable upon summary conviction to a penalty not exceeding five thousand dollars. The order-in-council is based on the final recommendations of the Food Consumption Control Committee, which was recently appointed by the food controller.

### BAKING SODA USES

There are numerous uses to which baking soda can be put, apart from the accustomed and legitimate ones of cake and bread making. First of all, it is an excellent family remedy for scalds. When milk is on the point of turning sour a pinch of baking soda dropped in it will restore it to its natural sweetness.

A thick paste made of soda and water is excellent for cleaning glasses in which milk, ice cream or other greasy substance has been standing, or even when there is no time to make a paste, if the fingers are dipped in water, then in dry soda, and the greasy part of the glass is rubbed around with them, the marks will quickly disappear and the glass become bright.

Lamp chimneys treated in the same way will shine like crystal, while if a lamp burner is boiled for half an hour in soda and water it will cause the lamp to burn with renewed brilliancy. Soda is also excellent to clean silverware. Make it into a thin paste and rub briskly, then wash in hot water.

### Exposed Prisoners to Allier Fire

Paris, August 8.—The French authorities learn that during the nights of July when French airplanes bombarded Treves and Essen the Germans forced French and English prisoners, both officers and men, interned at Carlsruhe to leave their quarters and remain in the open where they most probably would be hit in case Carlsruhe was raided. The men were compelled to remain in these places until all danger had passed.

### Germans Have A New Ruse

Paris, Aug. 9.—The French War Office announces that the Germans have invented a new ruse to lull their opponents into the belief that artillery batteries are still in position for action when actually they have been withdrawn, and by it to prevent untimely advances. The device consists of a mechanism fitted with half a dozen globular capsules filled with an explosive which is placed on the site of the battery to be or being withdrawn.

The capsules explode every 35 or 40 seconds and sound exactly like that of a field gun heard from a distance. They are said to easily fool a listener into thinking that they are field artillery guns.

When you get right down to knowing all the circumstances in men's lives the wonder isn't that some of them go wrong, but that so many are as decent as they are.

An old darkey walked into a local drug store a short time ago and asked for a cent's worth of insect powder.

"What's that?" said the clerk; "a cent's worth? Why, that wouldn't pay for the paper and string and the time and trouble of wrapping it."

"Who said anything 'bout wrapping it up?" said the darkey. "I want you to take that powder and pour it down mah back."

combe, only daughter of Mr.  
and Mrs. G. W. Newcombe of  
Canning, N.S. The funeral  
services were held from the  
home in Canning, Dr. A. C.  
Borden of Kentville officiating.  
The pall bearers were Messrs.  
Stewart Loomer, Robie Parker,  
Reginald Kinsman and Robert  
Kinsman. Quantities of beauti-  
ful floral tributes bore testi-  
mony to the affection of her  
many friends. Among the many  
tributes received were flowers  
from Marjorie Ellis; Mr. and  
Mrs. G. W. Parker, Lady Bor-  
den, Sarah Baxter, Mr. and Mrs.  
Ira Cox, Mr and Mrs W A New-  
combe, Mr. and Mrs. Leslie  
Baxter, Mrs. Ellis, Mrs. Melvin,  
Miss Woodworth, Mrs. E. R.  
Loomer, Mrs. M. S. Eaton, Mrs.  
Oscar Rogers, Mrs J A Northup,  
Mrs. Kennedy and others.

Her favorite hymns, "Rock  
of Ages," "Abide With Me" and  
"Safe in the Arms of Jesus"  
were sung from her own Pres-  
byterian hymn book under the  
direction of Mrs. Turner.

In the passing on of her gen-  
tle life, her goodness of charac-  
ter, and the unusual musical  
talent which she possessed the  
home and community have sus-  
tained a great loss.

She leaves behind a mother  
and father and three brothers:  
Pte. Avery F. Newcombe, now  
overseas; R. W. Newcombe of  
Ellershouse, and H. P. New-  
combe barrister, of Saskatoon.

### KENTVILLE

Conductor and Mrs. Simmonds  
have received word from their  
son William who was recently  
reported wounded, that he has  
recovered and will be back to  
the fighting line in a short time.

Capt. (Rev.) C. W. Corey of  
Aldershot preached two able  
sermons in the Kentville Bap-  
tist church on Sunday last. Capt.  
Corey will fill the services for  
the rest of August in that  
church, the pastor, Rev. A.  
W. West being on vacation.

Mr. William Eagles arrived  
at Kentville on Saturday's train  
from Waltham, Mass., where he  
has been the last two and a half  
years. He has been working  
with his brother Leslie Eagles,  
who is a buyer for a large de-  
partment store, William has no  
sympathy with the Quebec  
slackers who prate about lov-  
ing Canada but by their ac-  
tions are damning it in the  
eyes of the whole world. He  
gave up a good position at Wal-  
tham to enlist and after a short  
stay with his father at New  
Minas will train at Aldershot.

A number of khaki boys from  
Aldershot, under the charge of  
Sergt. Dynes, spent Saturday  
afternoon at "The Chestnuts,"  
getting the lawn ready for a  
new "Tennis Court." They were  
served with a picnic supper, un-  
der the trees, and report a mer-  
ry time.

### WOLFVILLE

Miss Emma Westhaver of  
Digby has been visiting friends  
here.

Mr. O. D. Harris formerly  
of this town accompanied by  
her mother, Mrs. John Hall,  
Middleton, have been spending  
a few days at Port George, An-  
napolis Co.

Rev. R. E. Gullison gave a  
farewell address at the Pines,  
Tremont, on Sunday evening,  
July 29th. He and his family  
left on Monday for Yarmouth to  
visit relatives before returning  
to India.

Herald—Leo Delaney, a boy  
scout, of Wolfville showed his  
courage Friday at Evangeline  
Beach. A small boy belonging  
to one of the cottages was play-  
ing at high water with a bit of  
plank, and was carried out on a  
receding wave. A southerly gale  
was blowing, and the tidal cur-  
rent rapidly carried the

### WEDDING BELLS

The home of Mr. and Mrs. M.  
G. Coldwell, Grand Pre, was the  
scene of a very pretty wedding  
on Wednesday evening, July 25,  
when their oldest daughter  
Margaret Eva was united in  
marriage to Mr. Scott Living-  
stone Trenholm, also of Grand  
Pre. As the wedding march was  
being played by Miss Evelyn  
Coldwell, the brides sister, the  
bridal party entered the draw-  
ing room which had been most  
artistically decorated by Miss  
Annie Patterson of Hortonville.  
The bride who was given away  
by her father looked charming  
in an empire gown of silk crepe  
de chene with pearl trimming.  
She wore the brides' roses. Her  
only attendant was her little  
niece Miss Venita Colwell who  
acted as ring bearer. This win-  
some little maiden was dressed  
in white with pink trimmings  
and carried a bouquet of pink  
rose buds. The double  
ring service, which took place  
under an arch of roses, was per-  
formed by Major Cullen of Ac-  
adia University, to whom the  
bride has been secretary for a  
number of years. A solo was  
then very sweetly sung by Miss  
Evelyn Coldwell which was fol-  
lowed by the wedding supper  
of which about seventy guests  
partook.

The groom's present to the  
bride was a handsome set of  
furs, to the pianist, a cut glass  
butter dish and to the flower  
girl a pierced silver napkin ring.  
Among the varied and beautiful  
collection of gifts was a set of  
willow furniture from the  
bride's parents, a handsome buf-  
fet from the groom's mother  
and the remainder consisted of  
cheques, silver, cut glass and  
china showing the high esteem  
in which the bride is held by her  
friends. After a generous show-  
(not of rain) but of confetti the  
happy couple left by auto for  
Kentville and after a short hon-  
ey-moon will reside in Grand  
Pre.

## WOLFVILLE

Mrs. A. J. McKenzie and  
son have returned from a short  
stay at Parrsboro.

Mr. E. J. McKenna of  
Kingston was in town on Sat-  
urday.

Mr. and Mrs. E. L. Gould  
have purchased a Gray Dort  
auto and Miss Hester Gould is  
already quite an expert driver.

Mr. and Mrs. R. E. Harris  
and Mrs. Hugh Calkin were in  
Halifax on Tuesday last.

Mrs. J. W. Smith, who has  
been stopping for some time  
with her mother, Mr. C. M.  
Murray has returned to Halifax.

Mrs. Hill has been visiting  
her cousin Mrs. E. E. Bissett  
at Windsor.

During the gale on Friday  
evening a top of a box car blew  
off at the station here.

On Saturday Mr. Edward  
Trenholm of New York arrived  
home to spend a short vacation  
visiting his brother Mr. George  
Trenholm, Grand Pre, his sis-  
ter Mrs. Harry Trenholm, Wal-  
brook, and Mrs W. B. Jordan  
Kentville. Mr. Trenholm is a  
fine sample of a robust Nova  
Scotian, New Yorker.

Yarmouth Light—"Captain  
Forsythe who was master of the  
American steamer Kansan,  
recently torpedoed with a loss  
of over \$3,000,000, arrived Sat-  
urday from Boston and left for  
his home in Windsor. He is  
well known in this town having  
been master of the Yarmouth  
barque Conductor." Capt. For-  
sythe came to Greenwich to vis-  
it relatives there.—Ed.

Mrs. S. H. Gronlund and  
daughter, Vega, of Sackville,  
are visiting in Wolfville. From  
there they will proceed to Avon-  
port to be present at the wed-  
ding of Miss Elaine Borden,  
daughter of Rev. B. C. and  
Mrs. Borden on August 15th.

Mrs. C. S. Fitch spent Sat-  
urday at Kentville with Mr.  
and Mrs. John Carroll.

Prof. A. Sutherland of Acadia  
was in Truro last week ar-  
ranging for the entry into the  
college of students from there.

With great heroism and sac-  
rifice Acadia College was start-  
ed at Wolfville. The famous  
Hon. Joseph Howe said of it in  
the Nova Scotia Legislature—  
"Destroy Acadia College and  
what have you done? There will  
be more socks knit, fat calves  
killed on the Wilmot mountain  
and in the Valley and Acadia  
College will still continue to ex-  
ist. Looking back over the 78  
years we see today a most flour-  
ishing institution.—Exchange.

Mrs. Frank R. Haley and  
Miss H. Haley were in Halifax  
on Friday.

A number of our motorists  
visited the Wonderland shows  
in Kentville last week.

Commodore H. A. Henshaw  
has returned to New York from  
a pleasant vacation spent in  
Maine, New Brunswick and No-  
va Scotia. The United Fruit  
Company's flag ship Pastores,  
of which the Commodore was  
commander, has been taken  
over by the United States Gov-  
ernment and will be used in  
carrying troops across the At-  
lantic.

Lewis Edward White son of the  
late E. P. and Elizabeth White  
of Grand Pre, passed away at  
his late home, 22 Ellet Street,  
Dorchester, Mass., on Monday,  
July 16th, after an illness of  
over two years. He is survived  
by his wife, (nee Ada J. Buch-  
anan) and two sons, William E.  
of Milton, Mass., and Arthur G.,  
of Dorchester. He also leaves  
one brother, Charles J. White,  
of Burlington, Vermont, and  
two sisters, Mrs. Sidney Hall of  
Lewiston, Me., and Mrs. Hat-  
tie Kay, of Jamaica Plain, Mass.  
He would have been 64 years  
old the last day of July.—Ex.

The Rev. Canon and Mrs.

## Death of Prof. Warren I. Moore

The news of the death of Prof.  
Warren I. Moore was received at  
Wolfville with deep regret.  
He was one of Wolfville's boys  
who made a successful career  
for himself by hard work and  
natural ability. Born on the  
farm he started out to get an  
education for himself, graduat-  
ed at Acadia in 1894 and became  
a successful teacher in various  
institutions in the United States.  
Of late years he has been  
residing in Brundage, Texas.  
He leaves a widow and three  
children, a mother, Mrs. S.  
Moore, two brothers and one  
sister. His early death will be  
heard of with sorrow by his  
many former friends here.

The cause of his death was  
from a cancer in the head. His  
brother Howard and family re-  
cently moved from Texas to  
Cuba.

## KENTVILLE

A "Lawn Fete" will be held by  
the Ladies of St. James' Church  
at "The Chestnuts" on Tuesday  
afternoon and evening, Aug. 21  
from 4 o'clock till 9. Refresh-  
ments will be served also ice  
cream and candy. The military  
band will be in attendance. Rev.  
T. C. Mellor and our returned  
soldier heroes will be the guests  
of the evening. Admission 10  
cents.

There passed away at his  
home at Kentville on Saturday,  
August 4th, after an illness of  
several months, Louis Stanley  
Dill, aged 19 years. He leaves  
a loving mother and father and  
one brother to mourn the loss  
of a loving son and brother. The  
funeral service was held on  
Monday, Aug. 6th at 2 o'clock  
burial at Canard Corner.

Rev. T. C. Mellor had a very  
busy day on Sunday. He held  
seven different services that  
day at Kentville, Canaan, etc.,  
when many persons thought  
it too stormy to attend even one  
service.

### NEW ROSS ROAD

The Misses Marie and Elsie Coldwell of Newtonville spent a few days recently at the MacGarry house.

Mr. MacAvoy of Wolfville held service in the Blue Mountain church on Sunday morning last.

Miss Annie MacGarry spent the week end in town.

Misses Helen MacGarry and Grace Walton spent Monday at Forest Home.

Mr. George Russel motored from Aldershot on Sunday last and spent the day with his family here.

The farmers are all busily engaged making hay, which on account of the rainy weather proves rather slow work.

### DEATH OF MRS. ROBERT JOUDREY

The death took place at Millville, on July 26th, of Mrs. Martha, wife of R. Joudrey of Greenwood. The funeral was held the following Sunday and was conducted by Rev. Mr. Hudson.

She leaves a husband and five children, a father and mother, Mr. and Mrs. Ames Ewing, 4 sisters and a brother Warren Ewing of Millville. Two sisters were at home and two—Mrs. Edward Palmer of Morristown, and Mrs. Smith of Worcester, Mass., who arrived just before her death.

### For Canning String Beans

Wash and cut or break the beans into inch or small pieces, boil 20 minutes. Fill sterilized glass jars with the beans and the top of every quart of beans put one teaspoon of cream of tartar. Fill the jars with fresh boiling water till running over. Screw on jar lids airtight. When using them for the table pour off the liquid and wash the beans thoroughly, then cook till in fresh boiling water adding a pinch of soda to every quart of beans and seasoning to taste.

A cable received at Parrsboro on Friday morning stated that the Parrsboro four-masted schr. Ada Tower is ashore on the African coast. No particulars were given. The Ada Tower was launched at Port Greville, last September and is 528 tons register. Capt. Leonard Tower of Sackville is its master. It is supposed that the members of the crew are safe. The Ada Tower was one of the most modern and completely equipped vessels turned out of the famous Nova Scotia shipyards. The vessel was owned by New Brunswick and Nova Scotia people.

A traveller home from Cape Breton way tells that two have already banked \$2,000 this year, earnings from fishing. As high as from \$40 to \$50 a day has been made by fishermen of late in different parts of the province. The "poor fisherman" and the "honest farmer" are coming in to their own these days. This is somewhat fabulous, but there have been lean years and there will be more of them.

### Berwick Working For Electric Lighting

Last week a meeting of the electors of Berwick was held to consider the advisability of proceeding toward the installation of an electric light service for the town.

The question was quite fully discussed and on motion of Dr. G. J. McNally seconded by J. M. Patterson, Esq., it was resolved:

"That the Town of Berwick comply with the suggestion of the Board of Trade and appoint a Committee of Citizens to report on the advisability of installing a plant to supply light, heat and power, the cost of same and the probable income to be derived therefrom. That said Committee be authorized to obtain the opinion of an expert and all other information on the subject necessary to enable the people of Berwick to make an intelligent decision and that said Committee report to a town meeting to be called not later than Nov. 30th, and that said Committee be authorized and empowered to expend a sum of money not to exceed fifty dollars. The Committee appointed was: Dr. G. J. McNally, T. H. Morse, S. C. Parker, A. E. McMahon, J. M. Patterson, B. E. Woodworth, J. W. Hutchinson, J. A. S. Wilson, E. W. Margeson, C. H. Beardsley, M. L. Nichols, J. R. Frizzle.

### "BACK HOME"

Truro News—Lieut. Loring H. Putnam, who for the past two weeks has been visiting at his home in Maitland, N. S., spent a few hours in Truro today enroute to Kentville.

Lieut. Putnam (better known to his chums and associates as "Puter" before enlisting was a clever barrister in Calgary. He gave up his profession there joined the 191st Batt. at Calgary, but lately transferred to the 14th Draft Railway Construction Battalion at Kentville. Lieut. Putnam is a son of Mrs. William Putnam at Maitland, N. S.

Rev. Dr. Boyle, President of King's College, left Windsor on Saturday morning to spend a few days at Montreal and Toronto, and about the middle of the month expects to be in Chicago to attend the National Fraternal Congress which is to meet in that city. Dr. Boyle is President of the Canadian Fraternal Association, and will represent Canada at the Congress.

The Summerside Journal gives the following prices eggs are now bringing 30 cents per dozen in the Summerside markets (buyers prices) potatoes remain 80 cents per bushel, dairy butter 33 cents and creamery 35 cents, 56 cents is being paid for unwashed wool and 75 cents for washed wool. Fowl are coming in slowly and commanding 18c to 20c per pound.

The world has three-fourths water, but you can't blame a cow for what happens after the milk gets out of her jurisdiction.

### The Women of France

It would be an education to the men and women of Canada to see the manner in which the women of France have risen to the necessities in that war-ridden country. They are taking the place of the fighting men in every walk of life and are showing a strength and endurance that is really remarkable. Delicately reared women are cutting grain by hand extracting the grain later by means of mills. They are plowing and cultivating, those women who three years ago were living in comparative ease. They are working on the docks as laborers. They are doing a thousand and one things that women were not accustomed to do and they are doing them well. In Canada the life of the people goes on much the same as before the war. There is no national change in the women's work. They have shown their adaptability by taking the places of many men in banks, offices and in some cases have accepted executive responsibility of an exacting nature and have made good. But only on a small scale are women entering into actual production as is the case in France, in Belgium and even in England.

The Pictou Advocate says it has recently been discovered that the ventilators in the old academy building do not extend through the roof. For close on a hundred years these ventilators have been opened and shut by the teachers and pupils in the belief that they were controlling the ventilation of the rooms when, as a matter of fact, they had no more effect than the opening or closing of the dead lids.

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions. Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 50 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions. A settler who has exhausted his homestead right may take expurchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months out of three years - cultivate 50 acres an erect a house worth \$300. The acres of cultivation is subject to reduction in case of rough, shrubby to any land. Live stock may be substituted for cultivation under certain conditions. W. W. COREY, C. M. G., Deputy of the Minister of the Interior

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell. C. O. COOK & SON, Waterville

Legal Requirements For Fruit Packages to Be Enforced

At the request of some fruit growers and shippers, certain manufacturers have been induced so make fruit baskets which were not in accordance with the requirements of the Inspection and Sale Act Part IX. This has created a condition which was unfair to the honest grower and shipper as well as to the consumer.

The sizes of the eleven and six quart baskets, and the two most popular sizes used in Eastern Canada, are specifically defined in inches. The eleven quart basket is required to be 5 3/4 ins. deep perpendicularly, 18 3/4 ins. in length and 8 inches in width at the top of the basket; the bottom shall measure 16 3/4 ins. in length and 6 3/4 inches in width. The six quart basket is required to be 4 1/2 inches deep perpendicularly, 15 1/2 inches in length and 7 inches in width at the top of the basket; the bottom shall measure 13 1/2 inches in length and 5 1/2 inches in width. All measurements to be inside the veneer proper and not to include the top band. The packages which have been found in violation were made so as to contain less fruit than the standard although having the appearance of holding an equal quantity. The Fruit Branch at Ottawa has endeavored to secure compliance with the law by pointing out the advantages and desirability of uniform packages, but unfortunately it has not been able to obtain the desired result. Instructions have been issued

to the staff of fruit inspectors to enforce the Act in this regard and to recommend prosecution in every case of violation. The penalty provided is a fine of 25c for each package so found.

Minard's Liniment Co., Limited. Gentlemen, - I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the 'every-day' ills and accidents of life I consider it has no equal. I would not start on a voyage without it, if it cost a dollar a bottle. CAPT. F. R. DESJARDIN, Schr. Storke, St. Andre, Kamouraska.

The Crime Unpardonable

In an English town a few days ago a housewife was seen to throw a hunk of bread into a garbage pail. It had not spoiled. All that had happened to it to make it objectionable to the fastidious woman was that a cat had touched it. Her plea did not hold in court and she was fined \$10. Another thrifty matron in the same village had to pay \$5 for the destruction of a pound of good bread, after she had explained that it was all the cook's fault—the cook had thrown the bread into the discard notwithstanding that the mistress' orders had been to burn it. These are samples of the difficulty which British authority is encountering in its efforts to enforce absolute imperative thrift in the face of a crisis which makes the least waste of food an almost unpardonable crime. The profligate habits of a lifetime are hard to change in the twinkling of an eye.

Will Women Volunteer?

They May Serve, if they wish, in the L a Line of Trenches - The Tilled Fields

Thousands of the men who used to do the farm work in Nova Scotia are now fighting overseas. Their places must be filled. Yet the required number of men is not forth-coming. There are more jobs than there are men available.

Therefore Women are Asked to Volunteer for this Work

We want the names and address of all women in this Province who are able to engage in a healthful open-air occupation. Applicants should state the date they can begin work and length of time they can spend on the farm. Wages according to ability, will be paid. We believe that the women of Nova Scotia will respond to the call of the land as promptly and as efficiently as did their sisters in the countries of our allies.

STRAWBERRY PICKERS WANTED

ALL women, Boys and girls in KINGS County who are willing to help the strawberry growers during the picking season, are asked to send in their names at once to any of the following SECRETARIES OF FARM LABOR EXCHANGE: -

W. E. PORTER, Kentville; H. E. CALKIN, Wolfville; JOHN E. WOODWORTH, Berwick, or to the SECRETARY OF INDUSTRIES, & IMMIGRATION HALIFAX

The North Sydney Herald says: Judging by reports from various sections of Cape Breton, the crops for this year, with the possible exception of the hay crop, will be the greatest ever known in the history of the country. Unfortunately, in the case of hay, the backward weather in the early part of the season, is responsible for only a fair yield. But in all other departments the yield will be a bumper one, unforeseen occurrences excepted. Many hundreds of acres for the first time were devoted to potatoes, and their promises to be no shortages or high prices such as prevailed last winter and spring. As a matter of fact there is scarcely a back yard or garden in any of the towns and villages that is not devoted to potatoes and other vegetables.

KERENSKY HAS PRESCRIBED A RULE OF IRON FOR RUSSIA.

LONDON, Aug. 9.—Having impressed upon the Russian people the necessity of a new stern dictatorial administration in a new proclamation, Premier Kerensky is organizing his new Government today. With this administrative work disposed of, it would bring no surprise in London to hear that Kerensky has again left for the front to inspire the Russian troops. Latest War Office reports state that the Slav soldiers are fighting with the greatest bravery on the Galician front. Continued progress is reported in the offensive launched against the German lines and in the region of Kimolung, where the Germans are attacking, good order is being maintained despite the reverses met.

LIBERTY LOAN DAY.

PETROGRAD, Aug. 9.—Wednesday the first of the three "Liberty Loan" days in Russia proved a great success. Automobiles paraded the streets of the capital and decorated booths were installed in the principal thorough-fares for the sale of the war bonds.

A RULE OF IRON

PETROGRAD, Aug. 8 — Premier Kerensky in an appeal to the people for support for the reconstituted Government declares that only a rule of iron in the present plight, resulting from the military situation together with ardent and self sacrificing by the people, can make for a powerful creative government with authority to free the land of the enemy and enlist in its work of reconstruction all the living forces of the nation. The Government, the statement adds, will employ its whole strength in its task confident that the unconquerable power of the revolution will be utilized for the salvation of Russia's honor which has been affected by treason, pusillanimity and treacherous cowardice.

Grand Lodge L.O.O.F. Elected Officers

North Sydney—The Oddfellows have about completed their business for the annual session and many of the delegates have already left for their homes.

The most interesting feature of today's programme was the visit to the works of the Nova Scotia Steel and Coal Company at Sydney Mines. The arrangements were attended to by General Superintendent Brown and the visitors were given every facility of a thorough inspection of the company's extensive plant. The Grand Lodge will hold its next session at Kentville, N. S. This decision was reached at this morning's session. The following Grand Officers were elected:

- Grand Master, R. H. Ryan, Charlottetown
- Deputy Grand Master, R. H. MacKay, Westville.
- Grand Warden, Dr. C. A. Murray, Moncton.
- Grand Secretary, J. J. McKinnon, Charlottetown.
- Grand Chaplain, J. S. Coffin.
- Grand Representatives, Mart MacKenzie, Westville; Rev. Mr. Whitman.
- Grand Marshall, W. J. Campbell, North Sydney.

During the terrible gale of Friday last the house of Walter Bryden on the Post Road, Berwick, caught on fire from a chimney and was burned to the ground. The fire began about 6.30 o'clock on the north side of the roof. About all the contents of the house was saved.  
Mr. George Bryden, who is working in the munition works at New Glasgow, arrived here by train on Friday evening to receive a pretty warm welcome on finding his father's house in flames and completely consumed soon after his arrival.  
Last Monday Mrs. N. P. Morse and Mrs. I. E. Daniels went to Berwick to spend a week in their cottage during the camp meeting. They were accompanied by S. Clyde Morse who is having his annual vacation. —Lawrencetown Cor. to Outlook.

Captain C. O. Allen is Held As a Prisoner in Brandenburg, Germany  
The following from the Halifax Herald gives information about Capt. Allen, which is additional to the letter we published from him making an appeal for fruit for prisoners:  
Halifax, Aug. 11—Mrs. C. O. Allen, 66 Tower road, has received a letter from her husband Captain C. O. Allen, written from Brandenburg, Germany, which shows that her husband is in good health and cheerful spirits.  
It will be recalled that the steamship Strathcona, of which Captain Allen was master, was sunk by a German submarine during the first big rush of the ruthless campaign in April. The captain was taken prisoner on board the submarine. In June Mrs. Allen received a postal card saying that he had not yet arrived at his destination and no further word was received until yesterday.  
Captain Allen says he expects to have to remain in Germany on what he calls his "holiday trip to the continent" for a considerable time, "until the last gun fires, when, as quickly as possible, I will get back to the land of the maple leaf."  
It is not to be expected that Captain Allen would be allowed to send anything in the least objectionable to a strict censor, nor does it surprise those who

know him well to learn that his letter is of a cheerful nature.

On the same day that Mrs. Allen received a letter from her husband she also received a letter from her son Charles, who is in the trenches "somewhere in France." In the present crisis in Canadian affairs extracts from the letter from Mrs. Allen's soldier son are of peculiar interest. He says in part:

"Have not seen a paper lately, but rumor is going around that the conscription bill was knocked on the head. If such turns out to be true, that means another weight on Sir Wilfrid Laurier's shoulders

"One statement put forth by a French Canadian M.P. in the House kind of got me. He says he thinks 'Canada has done enough in this war' and goes further in saying he does 'not see why Canada should be driven into bankruptcy for the sake of England.'

"It can hardly seem possible that men in Canada, and, what is worse, an M.P., supposed to be smart and sensible men, are still under the impression that we are aiding and fighting for England.

A subscriber at Billtown wrote us the last of July complaining about non receipt of Advertisers from the Billtown office the days they were due. The paper of July 20th was not received until two days late July 24th was called for on that day and 25th and not received from office until 26th. We have been trying to locate the same, and hope papers are now being received on time. The fault is not at our office as we have not missed a regular mail for months and sometimes we go to press the night before day of issue so as to give Greenwich to Canard their mail next morning.

Miss Ethel Mennie and her friend Miss Clare Upham of Halifax who have been visiting Kentville, returned to their home Friday afternoon.

**CORRECTION**

The name of Dr. W. B. Moore was inadvertently omitted from the list of those whose kindness was acknowledged in Friday's issue in connection with the closing days of the late Mrs. E. H. Shaw of St. James' Rectory, Kentville, Dr. Moore has in a marked degree given much time and thought and his kindness is hereby acknowledged.

**TERRIBLE WIND STORM**

On Friday afternoon a gale and terrific wind storm swept over the valley doing a great amount of damage while it lasted late in the afternoon. The wind swept everything with unprecedented velocity of 60 to 65 miles an hour. Houses were rocked and windows broken, trees were twisted and uprooted, corn, grain, and standing grass was completely flattened and the fruit trees damaged and much of the fruit destroyed.

The wind storm was followed on Saturday night by a very heavy rain continuing all night, throughout nearly the whole of Sunday, through Sunday night and continuing yesterday with rain and heavy drizzle through out the day.
