HARBOR GRACE, NEWFOUNDLAND, APRIL 1, 1875.

NO XLIII.

### HOLLOWAY'S PILLS

Let no one be longer oppressed with the notion that his malady is incurable. The purifying Pills have had a fair trial. A few doses will remove the more urgent symptoms, and thereafter completely control disordered actions, cause the torpid liver, drive the obstructed kidneys, cleanse the pure blood, and confer on every subject healthful vigour.

#### Impurities of the Blood.

These wonderful Pills are valued as humbly as the humblest hearts as well as in the homes of comfort and wealth. They work a thorough purification throughout the whole system without disordering the natural action of any organ, and eradicate those genuine complaints which consign tens of thousands to an early grave.

#### Indigestion, Bilious Complaints and Sick Headache.

No organ in the human body is so liable to disorder as the liver, and none is more apt, when neglected, to become seriously diseased. Remember when nausea, flatulency, or acidity on the stomach warns us that digestion is not proceeding properly, the Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, biliousness, and sick headache, and effect a permanent cure.

#### Weakness and Debility.

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effects of these Pills is in the highest degree bracing, renovating, and restorative. They drive from the system the morbid causes of disease, re-establish the digestion, regulate the secretions, strengthen the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

#### Turn of Life and Dropsical Swellings.

The turn of life is the most distressing period in woman's existence; it destroys thousands. The whole of the gross humours collect together, and like a tide sweep away health and life itself, if not timely and powerfully checked. The most certain antidote for all these dangers is Holloway's Pills. Armed with them the fiery ordeal is passed through, and the sufferer is once more restored to the possession of unimpaired health. It is but little known that at the so-called "turn of life," man also, when verging on fifty or fifty-five, discovers that his health is considerably deranged and knows not the cause—a critical period in his life. All perils to both sexes are at once removed by recourse to these Pills.

#### The Kidneys—their Derangements and Cure.

If these Pills be used according to the printed directions, and the Ointment rubbed over the region of the kidneys for a least half an hour at bed-time, as salt is forced into meat, it will penetrate the kidneys and correct any derangement. Should the affliction be stone or gravel, it is particularly recommended that the Ointment in such cases, be used night and morning, by its judicious application the most astounding cures may be performed.

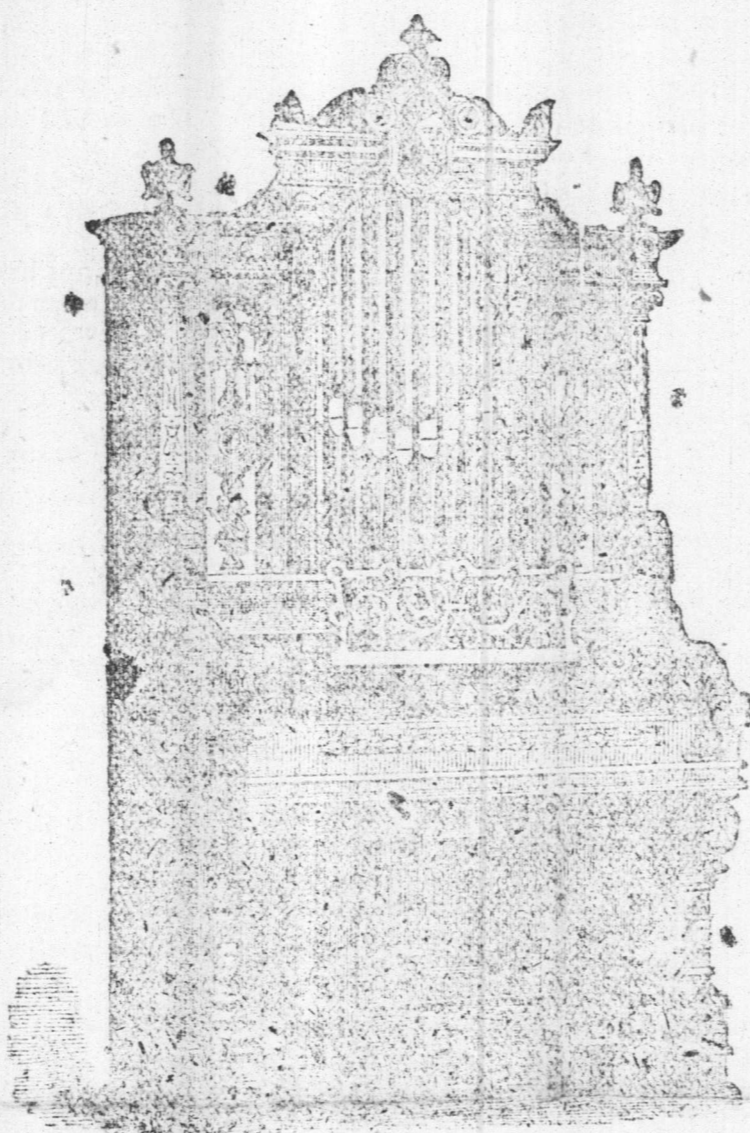

Holloway's Pills are the best remedy known in the world for the following diseases:—  
 Ague, Rheumatism, Retention of Urine, Asthma, Scrofula, or King's Evil, Bilious Complaints, Sore Throats, Stone and Gravel, Dropsy, Secondary Symp-toms, Female Irregularities, Tic-Doloureux, Pains of all kinds, Ulcers, Gout, Venereal Affection, Headache, Worms of all kinds, Indigestion, Weakness from whatever cause, Liver Complaints, &c., &c., &c.  
 The Pills and Ointment are sold at Professor Holloway's Establishment, 533 Oxford-st., London; also by every respectable Vendor of Medicine through the civilized world in Boxes and Pots, at 1s., 1s. 1/2, 2s., 2s. 6d., 4s., 6s., 11s., 22s., and 33s. each. The 2s. 6d. contains three, the 4s. 6d. size six, the 11s. size sixteen, the 22s. size thirty-three, and the 33s. size fifty-two times the quantity of a 1s. 1/2. Box or Pot. The smallest Box of Pills contains four dozen; and the smallest Pot of Ointment one ounce.

The printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian or Chinese.

LEGAL DECISIONS IN NEWSPAPER CASES.

1.—Any person who takes a paper regularly from the Post Office—whether directed to his name or another's, or whether he has subscribed or not—is responsible for the payment. 2.—If a person orders his paper discontinued, he must pay up all arrearages or the publisher may continue to send it until payment is made, and collect the whole amount, whether the paper is taken from the office or not. 3.—The courts have decided that refusing to take newspapers and periodicals from the Post office, or removing and leaving them uncollected for, is prima facie evidence of intentional fraud.

THE STAR.

THURSDAY, APRIL 1st., 1875.

DISTRICT COURT.

BY OUR OWN REPORTER.

An examination was held on the 30th ult., before his Honor, Judge Bennett, into the origin and circumstances connected with the fire that took place last week, (a notice of which appeared in our paper) which led to the destruction of the house of Mr. Robert Andrews. The following is the evidence given on the occasion:

HEAD CONSTABLE FALLON examined:—Shortly after six o'clock, hearing an alarm of fire, proceeded with a number of my men to the spot. The Fire Company were there promptly within three or five minutes after the alarm. No water was to be had from twenty to thirty-five minutes.

EDWARD VASS, Captain Fire Brigade examined:—Found that the Fire Plug was frozen, and was some time delayed before we procured water.

PATRICK WALSH, examined:—Proved that he was first on the spot with No. 3 hose, connected immediately and sent men up the hill with the hose carriage. Ordered chief hydrant-men to turn on the water. Could not turn the key, myself and Mr. Strathie tried to turn the key but could not do so. Ran to the hydrant near Mr. Payne's. Found it frozen. We were from thirty to thirty-five minutes using hot water before the water got to flow. It was then too late, as the house was burned down. Had we got the water when arrived at the scene of the fire, could have saved the house. Saw nothing round the plug to protect it from the frost.

GEORGE BARNES, Supt. of Hydrants, examined:—The hose and all the gear are all in good order; willing to have it examined. Heard the alarm and proceeded at once to the fire. No. 3 hose there. Had a woman to help on the key but could not turn it. I went to Payne's hydrant and tried that. Could not turn the key. Got some hot water and after some time succeeded. House was then burned down. The hydrants ought to be secured in the fall of the year with either kerosene or oil. Lynch did his best to help us. I don't think there was any blame to the Fire Company. We expect plugs to be always ready. My duty is to see the hose connected to hydrant, and see it in working order.

JOHN LYNCH, Manager Harbor Grace Water Company, examined:—Has full charge of the works. When I could get a fine day other winters, would open the plugs, but this winter has not opened them so often, weather was too severe. Had the hydrant at the foot of No. 1 street open about 1st March. The plug produced in court is the ordinary one used. One of the keys twisted on the evening of the fire. The leverage is about three feet. The shank twisted about an inch and a half below the cross bar of the key. Think it would be an advantage to have cross bar of the key stronger. Two men have scarcely power to turn one of these. The key used by myself is much stronger than those used by the Fire Company. They have broken. Nearly all those imported has broken. The keys used in St. John's are stronger, with a greater leverage. Have been in charge since 1863. Fire plugs were never frozen before on the occasion of a fire. Examined all the plugs but not since the very hard weather. Examined plugs on Cochrane Street, Barrington Street, and Martin's Brook some time in April. Keys in Barnes's possession were furnished to him by the Water Company. Had packed the hydrants with hay the first year; found they were as likely to be frozen. The water was so severe it was out of my power to keep the hydrants free at

a moments notice. Had on the usual pressure of water. Admits that the keys are too weak and have not sufficient leverage. I can get anything I want from the Water Company. There is no restriction.

CAPT. G. BROWN states:—I am a shareholder in the Water Company. Think that the manager is not doing justice to the town. Has too many irons in the fire. Has not touched the fire plug at my place for the whole winter, nor that near the Wesleyan Chapel, nor the one on Harvey Street near the Court House. Lynch only attends to fire plugs between Beach and Government Wharf.

His Honor—Lynch is the servant of your Company. I am not here to try him. If your Company thinks he is not doing them justice, let them enquire into his conduct.

ROBERT ANDREWS, examined:—Is the owner of the house that was burned down on Tuesday, 23rd inst. Does not know how the fire took place. The chimney was not bad that I know of. Cannot account for the accident. Have no insurance on it. Was away at work at the time on Mr. Ridley's old room.

His Honor then addressed the Court. He said it was his duty to take evidence and enquire into the cause of every fire which took place, and forward the examination to the Government. It was no part of his duty to give a judgment in this case, but as the Secretary and Manager of the Water Company were present, as well as the Officers of the Fire Brigade, he would make a few remarks on the evidence elicited. The Water Company was a public company having the right by law to levy rates on the householders of the town; and the householders had a right to expect that sufficient water would always be had to protect them from fire. This poor man's house was all he had, and but for the kindness of the inhabitants who had subscribed money to aid him he would be left destitute. The evidence shows clearly that the Fire Brigade and Police were promptly on the spot. That the house might have been saved with slight damage if water could be had. The evidence further shows that the keys and levers used are too weak and unfit for the purpose. That those furnished the Fire Brigade are much weaker than the one used on ordinary occasions by the manager; and Mr. Lynch claims that he has a thorough knowledge of his business, and that the Water Company furnishes him without restriction everything that he requires. There was a great responsibility resting on him if he neglected to furnish proper keys for such an emergency. Had the wind been in another direction many houses might have been burned. An excuse that the plug was frozen, was not a good one. It is so compact that little ice can get around it, and the keys should always be strong enough to open it. He had done his duty in this examination, and should transmit the papers to the Government, who would doubtless refer the matter to the Water Company. He cautioned the Officers of the Water Company and Fire Brigade, that in future he would hold a strict examination on every occasion of a fire.

[TO THE EDITOR OF THE STAR.]

Sir.—Of late our little community has been thrown into a state of excitement. The political contest with its party feeling prevailing on the minds of the people, had scarce passed away, when a band of peace disturbers took it into their heads to show the respectable portion of the community what they could do in the way of persecution.

I doubt if there is one in all Conception Bay who is respected, and held in greater esteem by all creeds than the Rev. B. Jones, a clergyman of the Church of England, who has been faithfully preaching the Gospel for upwards of twenty five years in this town; and whose venerable appearance at this time indicates a life of incessant labor in administering to the spiritual wants and necessities of a people, a few of which, a Dean of Westminster or a Thomas Guthrie would not please. But it is a fortunate thing for the Church, that this class of people are few in number, and in my opinion, are more to be pitied than condemned, as we find them to be of a most illiterate kind of individuals. Here we find the evils arising from the want of a good educational system, which did not exist in their early history; and as time makes many changes, I will proceed to give a brief synopsis of the latest attempt to injure the Rev. Gentleman, the subject of my remarks. For a number of years the peace of the Church of England remained undisturbed in this town; but owing to circumstances arising from depression in trade and the disestablishment of influential houses, the proprietors of which, were members of the Church of England, caused a large portion of intelligent and influential of them to leave the district, for a more remunerative field. Hence we find a class of people remaining who are always adverse to a good motive, and who embrace the earliest opportunity to display that amount of ignorance which fully characterizes all their ac-

tions, as we see for example in this their last act to injure the Rev. Gentleman, but happily without effect. After scheming in various ways to remove him from the parish, they have finally concluded to erect a temporary church and procure a man to run it for a time, and leave them master of the field, but I guess he is not easily scared by crows. And what is more his friends are able to keep him here some time yet, notwithstanding all the opposition that may be brought against him.

The above statement is a truthful expose of the policy of our enlightened friends; and we cry shame on such a proceeding. Is this the way you reward a man, who has laboured nearly a lifetime among you now when his hair has become whitened with the frosts of time? Instead of rising up in rebellion against him, should be rendering him that aid and assistance which common respect alone demands. Is this the way you have of exposing to the world your Christian charity?

We now allude particularly to the projectors of this movement whom it is not my duty to particularize, suffice to say that one of the most prominent we find among the number is a young man whom rumour say has subscribed Ten Pounds towards the fund, and when he was asked at the end of the year to settle a bill, the money was not forthcoming; and to keep him out of trouble his employer had to do it for him. And is it by such people that this faction is hearded on to fight. Oh, ye of little sense, consider your ways and get wisdom.

Yours, &c., OLD CHURCHMAN.

In referring to the passing of the Revenue bill, the Express states that

The tariff is the same as last year, with the exception of wines and fancy biscuits Spanish Red, Dema Sicilian, Figueras, Red Lisbon, Common Cape and Malaga, C. a. et. Hock, Burgundy and Light Rhenish wines being reduced to 60 cents per Imperial Gallon.

The statement is calculated to deceive there having been on the whole not only no reduction but a very considerable increase in the tariff. Last year the Government imposed upon the cheap and common wines of Spain, costing from one to eight francs per bottle were admitted at thirty cents. This was actually a differential duty as against Spain, and does not say much for the intelligence and wisdom of those with whom the alteration originated. The matter was we have reason to believe, brought to the notice of His Excellency the Governor by Senator Fronsky, the Vice-Consul for Spain and an alteration in the tariff has been made, but by no means a satisfactory one. It is time that the duty on Spanish common wines has been reduced from seventy to sixty cents per gallon which reduction would not make twenty dollars difference in revenue; but on the other hand, French and Lisbon wines, which only paid thirty cents have been increased to sixty cents, which will produce some hundreds of dollars increase to the revenue.

The duty on Red Lisbon, Hock Burgundy and Light Rhenish has been increased from thirty to sixty cents per gallon—and this the Express calls a "reduction"! If it be so, we do not yet know the meaning of words. In truth, the tariff has been increased, and the Express may as well honestly acknowledge it.

In due course we shall have our say about this matter of tariff and revenue, and also upon the matter of the increase of salaries. The Government party have the rope, and they seem to us to be coiling it about their political necks fast enough to suit our purposes. When they have sufficiently encircled their throats, we shall seize the ends of the rope, and strangle the whole batch.

We are glad, however, that the Receiver General, by committing political suicide has saved us the duty of operating upon him. His senseless and intensely stupid conduct has shown him to be utterly unfit for any political position of trust. Utterly without taste he does not even possess the brains to do as he is told. Although well coached he was unable to repeat his political lesson correctly and he has come out well plucked, with disgrace to himself and discredit to his party. Bravo a fool in a mortar you may but you can't make a wise or even intelligent man of him.

The s. s. Tigar, Captain Hagan arrived here Tuesday morning having been in consequence of delays occasioned by drift-ice—five weeks and four days making the round trip. The Tigar reports no fish caught about Channel or Rose Blanche since Christmas. The schooner which was sent to Fortune Bay for hearing is frozen up in LaHave Harbor. The Tigar was compelled to lay up at Little Bay, not being able to get into Channel on account of the ice which was raked as high as the steamer's rail. At Harbor Briton, Messrs. Newman & Co. were short of provisions and anxiously looking for the brig, Tolbot, out of thirty days from New York with flour, &c. The Tigar left Little Bay on her return trip on the 5th March and arrived at Rose Blanche and Burgeo the same day. She left Burgeo on the 6th, but had to return. On the 7th she arrived at Cape LaHave Harbor. Leaving the

latter port on Tuesday the 8th the Tigar arrived off Harbor Briton, where the mails had to be conveyed six miles over the ice to the steamer. Anchored under Brunette that night and on the 9th attempted to push through the ice to St. Peter's but failed and again Anchored in Brunette Cove. The steamer made another attempt on the 11th, and a successful effort on the 13th. On the 14th she arrived at Burgeo, not being able to get any farther into the harbor than Snalloway point, but out, crossed the bay and returned to Burgeo next day, from which she sailed on the following day. The Tigar reports having seen a brig and a barque in the ice off Cape Race.—Ledger.

LONDON, March 24. A debate took place in the house of Commons on the Peace Preservation Act. The Home Rulers opposed the bill and contrasted the prevalence of crime in England with the general peacefulness in Ireland. Sir Edward Watkins retorted that the English people had no welcome for American conspirators. If the Irish would renounce the leadership of stump orators and adopt industry in place of political agitation, necessity for exceptional legislation would cease.

Disraeli asked the Home Rulers not to agitate the country by their futile opposition to the bill. The second reading passed by 264 to 69.

It is stated that 10,000 persons attended Mitchell's funeral. LONDON 24. Don Carlos has issued a decree conscription all males over eighteen years of age in Navarrese province. Bismarck is to be made Duke of Luxembourg.

OTTAWA, 25. The Bill to suppress gambling is passed. LONDON 26. Carlisle General Mendoza entered San Fernando. At Moody & Sankey's meeting last night, Rev. Newman Hall occupied seat on platform.

MONTREAL, 26. Navigation not expected to be open till 10th May. Canals are solid in many places, and ice on river unusually thick. New York 26—Gold 115. No French news.

LONDON 27. Twenty eight prominent Communist prisoners under the leadership of Dr. Ostout, escaped from New Caledonia in a boat built by themselves. Khan Khiva asked Russia's assistance against his unruly subjects and offered to become vassal of Czar. Archard, French author, is dead. Protestant statistics gives 30,000 Spanish converted to Protestantism since 1863. Protestant Churches in Madrid and everywhere in Spain continue open. New York 27—Gold 116.

BAITMORE, 29. S. S. Nuremberg arrived to-day. Has ten men belonging to St. Mary's, N.E., who went out on the ice to the rescue of a ship on the 2nd March, and were cut off by open water. The remainder of the party, twelve, perished of cold and hunger. The ten survivors after enduring terrible suffering were picked up by the schr George Fogg, from P. E. I., March 11th and transferred to the Nuremberg on 22nd. Names of ten survivors are: Andrew and Thomas Mooney, brothers, Wm Reuben, Patrick and Michael Tobin brothers, Jno. Neur, Jas. Grace, aged 14 whose brother Joseph perished, Jas. Peddel, Thos Dunn, whose brother Michael perished, and Benjamin Sancerro. Men taken taken in charge by British Consul, who will probably send them home in Caspian.

LONDON 29. Edgar Quinet, French author, is dead. Police made a descent on English betting houses in Paris and seize all books and cash. R. C. Bishops of Prussia will hold a conference on Thursday. Spain paid Germany 10,000 thalers on account Gustave. Reviva Preachers were stoned in Irish quarter, Liverpool. No truth in the report that Bismarck was made Duke of Luxembourg.

Intelligence of a very sad nature has been received from the Mission of Channel—viz., the death of Mr. Wilkinson, who was doing valuable and valued service to the church in that district. Mr. Wilkinson came to this country from England some two or three years ago, and was first stationed as schoolmaster and lay-reader at Codroy, where he proved his efficiency and usefulness. A few months ago he was removed by the Rev. Mr. Goodie to the Dead Islands, or Isle aux Morts, where he continued to act in the same capacities as before. On Sunday morning, the 10th of January last he started for Burnt islands, a distance of about five miles in order to read the Service of the Church in the School room of

that settlement. The day was cold and stormy, but, as he considered that he was only doing what was his duty and an act of charity, he disregarded the advice of those who knew the danger better than he did, and set out alone on his labor—truly a labor under such circumstances,—of love. He has never been seen since. Diligent search has been made for his body, but without success. Whether he fell over the cliffs or (more probably) was overpowered by the pitiless snow storms is not known. Mr. Wilkinson was about 22 or 23 years of age, and leaves behind him an aged and widowed mother in England. During the few months he was at Dead Islands he had done good work and had earned the respect and esteem of the people.

Our readers will doubtless remember that the late lamented Clergyman of Channel, the Rev. W. W. LeGallais, lost his life some years ago while he was attempting to reach his home in an open boat from this same settlement of Isle aux Morts, where he had been ministering to the spiritual needs of a sick parishioner.—Time.

The Archdeacon of Carmarthen, who has himself entered his 80th year, gave, on the 6th ult., his annual dinner to the aged communicants attending his church. Thirteen appeared at the dinner table, whose united ages averaged 88 years for each person. Nine others who were prevented by personal infirmity or the severity of the weather from attending, were not forgotten. The united ages of the latter gave an average of 85½ for each individual.

LOCALS.

The Mail steamer Newfoundland, left Halifax on the 29th ult.

Local items scarce, owing to the dullness of the town. Something good next week.

The brig 'Trusty,' Hennessey master, arrived here on Monday last, having been 125 days from Trapaii.

We thank 'Friend and Subscriber' for his information, and on enquiring found that there was a balance of 2s. 6d. due Azariah Alcock, on pork.

Mr. Ohman's old friends will find him at his new premises, adjoining those occupied by Messrs. C. W. Ross & Co.

Lumber and building material of every description, is very scarce throughout the town. One or two cargoes are wanted badly.

An interesting game of Draw Poker was played at the west end on Good Friday when one of our lucky townsmen, transferred to his pocket the modest little Pool of \$20.

A new style of house-keeping has recently come to light in the vicinity of Lime Kilm Hill. When you get short of fuel burn the corner benches; next the dresser; and mantlepiece; then the floor; remove to next and do ditto. Our reporter enquired the reason of this conduct and was told by the parties that they intend to leave in the spring. We think it is high time.

To-day the town was thrown into a state of excitement in consequence of a number of boys having fallen through the ice in the harbor. Every available article calculated to save life was brought into requisition, such as ropes, boards, ladders, and boats. After a considerable length of time they were finally rescued. A number of men also fell in, while endeavouring to save the boys. We think the police ought to be empowered to prevent children going on the ice, especially after one or two nights' frost. It was one of the most miraculous escapes from drowning that has ever occurred in this neighborhood.

Inspector Carty is in town. We understand that he has inspected our Police, and seems highly pleased with the efficient manner in which everything is conducted. Long may things continue so.

The Sheep Club of the South Side will no doubt soon commence operations. The many owners of the canine tribe may therefore look out for "squalls," in that neighborhood. Two shilling and Six pence is the premium offered. Metra case's might be applied with remunerative results.

We learn that a few gentlemen of the town have taken up the unfortunate case of Mr. Andrews, and have been around soliciting subscriptions to enable him to reconstruct his house. The sum realized amounts, we are told, to about forty pounds, and many of the inhabitants have assisted also in bringing out timber from the woods, to aid in the building of the house.

Joseph Godden, Esq., member of the House of Assembly for the independent and electoral district of Harbor Grace, arrived home to the bosom of his family, in peace and safety, crowned with laurels; having been in the House of Assembly during the last two months listening to everything that every one said and saying nothing. Any of his constituents who have not had the honour and glory of knowing their new member, could have satisfied their curiosity, during his stay, by calling at our office, and we would, with pleasure, have pointed out the gentleman, as he passed along, serenaded by about one dozen and a half (principally Starrigan worthies) of the more "independent" electors, gazing up in his face and hearing his approach with gesticulations of delight. Two or three parties made anxious enquiries about their petitions, but were told by Gladstone No. 2 to keep cool and they would get something in the "latter end"; we pity the parties and hope it will not be a bullet.

Our special reporter received notice that a meeting was to take place at friend Stephen's. He therefore, proceeded to the spot and was admitted, although somewhat reluctantly. The subject brought forward for discussion, was "Where will we get a 'Cimetry' Skipper." Nat proposed cremation, in support of his argument he said: "Fisherman, I never reads much (we believe this, and for the best of reasons) but I were told dat de 'heeden' burned the r bodies, and ye see we have no 'dubs' to buy a 'cimetry,' and I s'pose de 'Marchant' would not let us have it on de summer's catch, it would be 'mush more' better to btrn 'em up." The Farrier got up and said: "I will say a 'position': if you agree to singe 'em I will be happy to fix 'em off in the fore, cheaper and better den the LIME KILN. Skipper 'Has said, 'Gents I does not see now, 'Creanashion' would do. Where would we get cream enoug? Lord Joe arose and in an orator's manner said: "Yes. Slippery Stephen, who was silent during the whole time the last gentleman was speaking said, 'let us pray.' (Hear, hear, came voices from the corner, which the reporter recognized as Stephen's big brother, and a certain worthy, nick named 'Nail-bag.') Breaker protsted against Stephen praying, until the business was settled. Stephen said he had his "prerogative," and demanded to be obeyed in this affair. Skipper 'Has says, "Whose ye's cissin' at," and left outting a B line for the West End. When our reporter left it was settled that Stephen with his "prerogative" should be sexton, assisted by the fat boy, il ly.

The town has invariably experienced the excitement, confusion and dread which are occasioned by an alarm of fire. It often happens during the evening, when the inhabitants are seated around their firesides, talking over the events of the day and so on, that the cry of fire rings through the streets, the bells are rung, every thing is thrown into a great scene of excitement and bustle; people rush towards the scene of conflagration, enquiring about the fire, &c. After having undergone all this turmoil; after the Fire Brigade have been called out; their engines and apparatus of every description brought to the scene it is found to be "only a chimney on fire." No we are not inclined to find fault unless we have good grounds for so doing; but we consider that parties who allow the chimneys of their dwelling houses to get filled up with soot and thereby cause ignition, occasioning all this disturbance, inconvenience, and excitement, through their indifference and negligence. We hold that they ought to be brought to their senses and compelled to pay some indemnity for their negligent conduct. We are not aware whether there is a local act in existence bearing upon the matter; but if there is we see no reason whatever why it should not be put in operation, and thereby put some check upon this

public nuisance. It is surprising that our efficient staff of firemen do not take up the subject and endeavour to bring the offenders before the Magistrates. They are more directly interested in the affair, and also the parties who experience more of the trouble and inconvenience which is usually the case in alarms of fire. Come Mr. Vass, eyes front.

It is very pleasing to notice the number of new edifices that have been erected in this town within the last few months, which we must say is a sure sign of its prosperity. The first and most elaborate building that we would take notice of, is one that has created a great deal of anxiety to progressive minds, fearing that it would not possess that amount of magnificence and grandeur which should adorn, if possible, a building of such a character. It was agreed, we believe, between five or six individuals some time ago, that a new Episcopal Cathedral should be erected without delay, and sooner if possible, to meet the required necessities of a few first class, energetic and spiritually minded men. Consequently their heads were put together (perhaps a little too closely) and now they can safely say, without fear of contradiction that they have as fine and appropriate a place of worship, as any other congregation in the entire globe. We admit, it is a substantial, good looking building, yet there are a few things about it that we think objectionable. For instance we think the steeple rather high; the Weathercock with which it is adorned too much resembling a cat; the main door too low for admitting tall gentlemen, and the statue of the founder standing in front of this building not by any means a good likeness. We think if these conformities were removed it would have a much better appearance, and would naturally help to strike the stranger on entering the town with a good opinion of the industry of its inhabitants. More anon.

An Inquest was held on Monday 29th inst., before T. R. Bennett, Esq., Coroner for the District, at the School-House, Spaniards Bay Big Pond on the body of a woman named Elizabeth Hussy, found on Saturday last, near the Gulley's River Head. The evidence have proved that the unfortunate woman was proceeding from River Head, Harbor Grace to her own home, to the Big Pond Tilt, on the evening of Tuesday 23rd inst. She parted from a man named William James, on the above evening about dark. She wandered about on the barren, some seven or eight hundred yards in different directions, and had been very badly frost bitten in her face hands, and feet, before death ensued. The Jury brought in a verdict in accordance with the above facts; death through the inclemency of the weather.

Parties requiring good work in the Photograph line would do well to read the following complimentary notice to Mr. Wood, St. John's: "I can confidently recommend any persons wishing to get old pictures of any kind enlarged and coloured in ink, oil, or water, to Mr. Page Wood, Photographer, St. John's, who can execute them in a style and finish not to be surpassed. He has done some work for me, and I can therefore bear witness to the excellent manner in which it was performed. G. MACKINSON.

The Lecture on (Itch)ology came off on Monday last, according to promise and was a decided success. The lecturer first described the various actions which always attends the performance of this science, and related some amusing incidents which came under his notice during his early days. It creates a very pleasant sensation, at the same time it keeps one's fingers always in motion. (Loud applause.) This elaborate discourse was wound up by the performance of the Wood-Picker on the Jews Harp, by Skipper 'Has.

**BIRTH.**

On the 21st ult., the wife of Mr. Michael Laby, of a son.  
On the 28th ult., the wife of Head Constable Fallon, of a son.

**REMOVAL.**  
**N. OHMAN,**

WATCHMAN & JEWELLER HAS removed from his former place of business to that adjoining the premises of Messrs. C. W. Ross & Co., where he is prepared to execute in a manner defying competition, all kinds of work in his line that may be entrusted to his care; and where he respectfully solicits, for the future, a continuance of that kind public patronage, which he has so largely enjoyed in the past. Harbor Grace, April 1, 1875.

JILLARD BROTHERS

# Anglo-Bavarian Brewery,

## J. LINDBERG & BACKSTROMS

# BAVARIAN BEER

AN ESSENTIALLY TEMPERANCE DRINK.

**THE VAST QUANTITY OF BAVARIAN BEER** which we now sell to be used in this town as a drink, we respectfully offer to all the rest of mankind, and in earnest recommend it to all as a **STRONG ALLIANCE OF TEMPERANCE AND MORALITY** in every district wherever unthinking people have not made it an unworthy drink. The most intellectual people in Germany for ages have drunk **BAVARIAN BEER**, and drink it now. Seventy-five millions of people—moral, healthy, strong, sensible and cultivated men and women—drink **BAVARIAN BEER**. To-day, from Russia to the Rhine, and beyond it—yes, in Rome itself.

**J. Lindberg & Backstrom's BAVARIAN BEER**, is as good as can be made in Germany. So said our respected Spanish Consul, Don Jose Fromsky at a festive board when the very height of enthusiasm invited all to drink.

**BAVARIAN BEER**, He did two good things; he showed what people of the finest taste and the highest cultivation think of **BAVARIAN BEER**. And he administered an honest slap in the face to hypocrisy and vulgarity. Since that memorable day the sale of **BAVARIAN BEER**.

Have enormously increased in this town. Now we offer it in any shape or quantity to the inhabitants of this Island, Cape Breton, Nova Scotia and West Indies, &c., &c.,

**Logheads, Barrels, or Dozen of Bottles BAVARIAN BEER**, ALL IN ORIGINAL PACKAGES, Fit for any climate, age, sex or condition.

**J. Lindberg & Backstrom's BAVARIAN BEER**, Will be found an invaluable "Temperance" Drink. We recommend it to every organized **TEMPERANCE ALLIANCE AS AN AID TO THE CAUSE OF Temperance, Morality, and Innocent Enjoyment.**

and points with pride to the good character and high standing as citizens of the German and German American people who **ALL DRINK IT CONSTANTLY** As part of their diet. We urge **All Leading Men in the Cause of Temperance**, do not only allow, but to use and encourage such a pure and wholesome Beverage as **Bavarian Beer**.

**BAVARIAN BEER**, Has killed a great deal of Whisky, and Rum-drinking since introduced. **BAVARIAN BEER**, Will civilize a Medock, from the error of his ways!

**WHY NOT?** Since it has converted hundreds of Whisky-drinking Medocks, and changed RUM-SHOPS and GROGGERIES into quite orderly **BEER SALOONS**. Where every one can enjoy himself comfortably, learn good manners, and form correct social habits!

**IT IS UNWISE** To be prejudiced against **BAVARIAN BEER**, When it does so much good. It is a shame to encourage Drunkenness by not using **BAVARIAN BEER**.

**AS THE BEVERAGE**, if good people are to hear talk against such a good thing, they ought to be willing to hear something in favor of it **BAVARIAN BEER**.

**ALWAYS CROWLS OUT WHISKEY** Why! Because, 1st—People like it better than Whisky when they once try it. It is more agreeable. It is vastly more wholesome. It cannot be anything but pure WATER, pure HOPS and pure MALT, put together by a good BREWER as BACKSTROM claims that he himself really is. It is impossible to POISON it or DOCTOR IT. You can do nothing whatever to

**Lindberg & Backstrom's BAVARIAN BEER**.

After it leaves them, except to keep it to waste it, or to drink it!

**J. Lindberg & Backstrom's BAVARIAN BEER CANNOT BE DRUGGED** And 2nd—Independent of the many bad effects of Spirituous Liquors **Lindberg & Backstrom's Pure, Wholesome Bavarian BEER**, Can be sold much cheaper in consequence of the late tax on the former.

**This Climate is, by its Providential arrangement the very climate for BAVARIAN BEER.** The climate is natural and uncommonly DRY. It is so dry, in comparison with that of Europe, that it makes a serious difference in various trades and occupations. For instance, in most parts of Europe the climate is so moist that housewives cannot dry their washed clothes except in fine weather, and often in the open fields. It takes them nearly a week to dry their clothes. Here, the clothes washed and hung out in the morning, are dry before night. So, a plastered house in Europe is not fit to live in for six months, because even with the help of fires, it takes so long to dry. Here one room is dry while they are plastering the next one. This perpetual drinking up of every fluid by the air about us acts on the blood of the people and would dry them up in a little while if they did not prevent it in some way. In the early days they tried West India rum and brandied wines and distilled liquors. But some years ago they found that that remedy was worse than the disease. It was the universal drunkenness upon rum which called for the TEMPERANCE and lastly for the PROHIBITION movement. The last is the remedy of impatient ignorance, if it includes this wholesome and nutritious drink a better, a surer or more complete remedy, founded on science and sense, is **BAVARIAN BEER**.

It arrests at once the dryness of the climate and of the fluids. It gives tone to the nerves and digestion to the stomach and strength to the muscles! Some foolish people say that **BAVARIAN BEER** CONTAINS NO NUTRIMENT, And thing that they make a great argument by saying it. Backstrom never said that **BAVARIAN BEER** Does not contain nourishment. He knows better. He drinks it himself and sells it for others to drink, NOT TO EAT! It is not only **Nourishing, but it is a Mild, Diffusible Stimulant and a medium of nutriment as well.** Even a prohibitionist might know that Man could not live without nutritious drink. For this and other reasons the Medical Faculty recommend and use **BAVARIAN BEER**.

Doctors advise Dyspeptic people to drink **BAVARIAN BEER**. N. B.—It will keep its bottles well corked, and in a cool place **FOR A YEAR!** At the end of that time it is a fact that can be proved at the BREWERY, that **Lindberg & Backstrom's BAVARIAN BEER** Is better than the best Bass, Alop's or Scotch Ale, which cost so much more money. Convalescent patients take **BAVARIAN BEER** From the hands of the Doctor. Mothers of Families, by the repeated directions of the Family Physician, make daily use of meals of **BOTTLED BAVARIAN BEER**, Sold by Dealers for family use. Lawyers, Judges, Clerks, Mechanics, Preachers, Lecturers, Editors, Printers, Writers of works, Literary men of every class in this literary and intellectual community, all use **BAVARIAN BEER**.

Even the Legislators like it, and would undoubtedly have made it a beverage in their Refreshment Chamber in the House of Assembly, had not the late Anti-Confederate Government come to an untimely end. **BAVARIAN BEER** Will be made as usual for sale, and any Temperance Organization or anyone else, may have a stock of **Lindberg & Backstrom's Bavarian Beer**.

**AT THE FOLLOWING PRICES, VIZ:** In Bottles, quart, per dozen.....7s 6d  
In Casks, per gallon.....2s 6d  
Observed! Take charged extra!

We are sure that nine out of ten to whom **BAVARIAN BEER** Is offered for sale know nothing about it, except from hearsay. Many of them think it is SMALL BEER, but **BAVARIAN BEER** Is not SMALL BEER, by any means, and this should be understood. We think it no more than right that the sincere but ignorant men, who talk against **BAVARIAN BEER** Without knowing anything about it should be enlightened. And we think that those who promote Temperance could not do better to further the good work than to recommend the **BAVARIAN BEER**.

As they now do water—a clear and sparkling beverage. And we think the Newfoundlanders deserve a better fate than to be the victims of Dyspepsia, Liver Complaint, Kidney Diseases, Marasmus and Consumption for want of a pure, wholesome, innocent and cheap drink like **Lindberg & Backstrom's BAVARIAN BEER** Which now can be had "in any quantity from our Dealers, viz: Mr. Moore, Mrs. Leo, Messrs Connolly Walsh, Lumbergen, Tobin, Maher, Loughlan, Chambers, Folan (Atlantic Hotel), O'Rourke, Duggan, Spira-hat, Shea, McCarty, Lery, Whelan, Cox, Deady, Farrell, Elmsley, Baird, Moores, Lemmy, McCourt, Rankin, O'Donnell, Lash, O'Connell, Power, McKay, (Arcade Saloon), O'Brien, Devine, Meahan, & Murphy, McGrath, Torphy, Toppal Road—Farrell, Dunn and Fitzpatrick. Kings Bridge—Egan, Mrs Dooley and Jucelyn, Toppal—Deady and Mrs Squires. Local Steamers &c., &c.

The Proprietors only regret they did not introduce **BAVARIAN BEER** some years ago, as it would have saved the Colony the expense of adding a wing to the Lunatic Asylum, and the increased expense in the Pauper relief fund of which the Royal Commission so grievously complain.

**THE NEXT IS EVERYBODY'S QUESTION, "What must we Drink?"** We advocate Temperance to the reasonable extent it is advocated by the foremost temperance men in Europe, and without running the praiseworthy temperance movement in the ground by exaggerated requirements. This is also the case with many fanatics in this country, who make no distinction between fermented and distilled beverages. They condemn wine, a beverage made of grape juice, in which Christ himself indulged not alone, but even commanded its use at the Communion Table; they condemn also the use of **FERMENTED BEVERAGES**, while statistics prove it to be a blessing to those nations for which it has become a national beverage, by their perfection in the art of preparing it. Any one who has ever visited Belgium or Bavaria, and witnessed the result of the national beverage, the **BAVARIAN BEER and the LAGER**, on these two peoples, must be converted from any prejudice against **THOSE BEVERAGES**, if ever he had any. It is not necessary to go to Europe to be convinced; we may visit the BEER-drinking German quarters in this country, notice the general health and in austrious habits of that people, and compare it with those of our own people, not blessed with the habit of being satisfied with BEER, but needing the unnatural stimulus of distilled spirits, whisky brandy, or even alcohol. It is indeed a common observation among physicians or medical students in our large charity hospitals that a **FAST MORNING** reveals at once whether the subject under examination was a Beer-drinking German, by the better health of the interior organs and the presence of a liberal supply of adipose (fatty) tissue, or whether he was a whisky drinker, as proved by the diseased condition of kidneys and liver, a general emaciation and a tendency to atrophy of the muscular system. All persons who opposed to the **BAVARIAN BEER** through prejudice; they will indulge in Ale and Porter at their dinners but decry the use of BEER. Now, the fact is that the

**BAVARIAN and LAGER BEER** Contains less alcohol than either Ale or Porter, and that experience proves that an excess in its use carries less injurious consequences with it than excess in the use of any other kind of this class of beverages. It has even been proved that some constitutions can consume **Four Five, or Six gallons** in a single day—a feat perhaps impossible with any other beverage water perhaps excepted, and tending to prove that next to water **BAVARIAN BEER** Is the most harmless drink. Such a quantity of milk would surely produce severe indigestion, while the drinking of so much Ale, Porter, or wine would be out of the question.

We cannot of course find fault with those who simply dislike BEER from a natural aversion of the bitter principle of the hops, with which it is more abundantly provided than other BEERS. This may be the reason that many people prefer Ale; but we ought to suggest that in order to have the full benefit of the moderately stimulating and nutritious qualities of any kind of BEER, it must not be drunk at improper hours, as then really good BEER may be quite unpalatable. The best time is at dinner during the use of beef, Mutton, Pork, etc., to which it is a very desirable addition. It is a common observation that the desires in regard to food and drink are, in many individuals, undergoing a change in the course of years. This is simply caused by the stimulus of BEER or WINE at the table, which appears to become a necessity for others when they become older. The wisest plan is to follow simply the natural desires as they best indicate the wants of the system, provided these desires are not protracted by the unnatural habits of smoking or chewing tobacco, using an excess of condiments, especially pepper or the habit of distilled drinks, which nobody should use, except largely diluted, as is the case with wine, the strongest qualities of which contain alcohol in as high a proportion as it ever should be introduced in a human stomach.

The inconsistency of temperance people in general is, among other things, shown in the fact that they allow the use of fermented Cider, which contain about as much alcohol as Rhine wine. The latter is often dispensed in New York under the name of German Cider, many of whom we have heard certify that the German Cider is much better than the American article. A curious observation has also been made by dealers in Soda Water; they find that the ginger Syrup, which is the most pungent and stimulating of all, and also contains some alcohol, of which the other syrups are free, is generally preferred by temperance people, who invariably ask for the hot ginger Syrup, while the wine and Beer drinkers take the refreshing syrup of lemon, or some other fruit.

As it thus appears that most people need some stimulus, it may be well to acknowledge this fact, and to allow them to indulge in one which is not only harmless but beneficial, instead of requiring a total abstinence and, in which many are unable to persist, who breaking their pledges, lose their self-respect in so far as to indulge in the most pernicious of all habits—the use of the intoxicating distilled liquors.

It is for reason of the above consideration that we have recommended to all who have a chance to obtain this good beverage in their neighborhood, to do so instead of keeping a "Brandy bottle in the house"—*New York Paper.*

**DIRECTIONS.** 1.—The bottled Beer ought immediately after landing be unpacked from the barrels or boxes and if possible be placed in an erect position in a cool place. 2.—In receiving the casks with Beer, Ale or Porter, put them on good solid stand in a cellar, keep them 6 days on the stand before opened, and the bung or vent hole must be opened before the tap is put in, a sufficient quantity of clean good bottles is required when drawing of the Beer etc., and as quick as possible be corked with good corks. 3.—In returning the empty casks and bottles the name or initials of the person who sent them, ought to be marked on the head of the casks or barrels. 4.—The goods to be shipped at the debit and risk of the Purchasers, and any remarks against the article, etc., ought to be made immediately on receipt of goods if any notice will be taken of the same.

The Proprietors also manufacture all kind of Aromatic waters, viz: Temperance Champagne... 16s per doz  
Ginger Ale..... 6s 6d ..  
Lemonade..... 6s ..  
Rose Water..... 6s ..  
Seltzer Water..... 6s ..  
Berliner Water..... 6s ..  
Soda Water..... 5s ..

July through prejudice; they will indulge in Ale and Porter at their dinners but decry the use of BEER. Now, the fact is that the
