HE FEARS STAKE MAY AWAIT HIM

Negro Chapman, Accused of Murder in Stillwater, Okla., Pleads For Protection

A plea for protection from the race hatred of the south, made to his honor Judge Taylor by James Chapman, the negro accused of the murder of Lawrence Matthews, of Stillwater, Oklahoma, was the feature of the extradition proceedings in the district court Thursday afternoon at the conclusion of which the prisoner was remanded until Saturday morning when the decision of the court will be made known.

On Saturday morning, Mrs. Matthews too will appear in the court for trial on the murder charge which has been laid against her. She was prevented from coming to the court yesterday by illness, but her physician expects that if she is left unmolested that she will be able to make her appearance on Saturday. Her house at 606 Namayo Avenue is meanwhile under police surveillance. Should she be ordered for extradition he made on Saturday the counsel for both Mrs. Matthews and Chapman will make application for habeas corpus, which would delay the handing over of the prisoners to the United States authorities for at least a couple of weeks.

Chapman's Statement. F. D. Byers called Chapman as the sole witness for the defence on the re-opening of the court yesterday afternoon. The first question asked him was whether he had made the statements which appeared in the signed confession brought to the court by Inspector Tucker.

"The way I was feeling and the shape I was in was such that I couldn't say whether I said those things or not," was his answer. "I went to the office weeping. They asked me what was the matter. After a time I told them that I was in love with a woman and she had told me that I didn't know how to get out. I told them of the complaint made against me in the United States, but in the statements I made to that man there was not a word of truth."

"I had nothing at all to do with the death of Lawrence Matthews," quipped Mr. Byers. "I know, what was the complaint made against me in the United States, but in the statements I made to that man there was not a word of truth."

Woman Betrayed Him. Raising himself up from a lounging position and his dark eyes brightening at what he seemed to take as a question from the court, he began, speaking slowly and distinctly: "I don't want to see an innocent man punished, nor even myself. I was a body and mind bound up in a woman who betrayed me. You understand me. How could I be responsible for what I said under the provocation? I loved her and that book on which I was sworn to tell the truth was in my hands. The trouble in which I was, was the worst which could happen to a man. It is a certain fact, if I had not suffered for the false statements I made that they were false.

ROOSEVELT IS TO ATTEND FUNERAL

Former President of United States Appointed Special Ambassador to Be Present at Ceremony

Washington, D. C., May 11.—Theodore Roosevelt today accepted by cable the appointment by President Taft to be special ambassador to represent the United States at the funeral of King Edward in London on May 20th. The cablegrams exchanged between the President and Col. Roosevelt were not made public.

Parliament's Tribute to Late King. London, May 11.—Parliament met this afternoon to pay a national tribute to the memory of King Edward, and to announce his successor, King George. A message from the new monarch, in which he announced the death of his father and his own accession, was read in both houses, which subsequently adopted addresses of condolence and congratulations to the King. Speeches were made by the leaders of the political parties.

Attorney Reice's Statement. Attorney Reice was given permission to address the court. He said that it was very natural for citizens and officers of one country to desire those who had committed crimes to be brought back to stand trial for them. The proceedings seemed very simple.

"To my mind," said he, "authenticated proof has come through the court of the state of Oklahoma, through the authorities at Washington, and a complete prima facie case of guilt of the accused had been established." Mr. Reice said that it didn't matter how many times the accused denied his story, the testimony brought before the court showed the guilt of the accused and of Mrs. Matthews.

House of Commons' Reply. On a motion by Premier Asquith, seconded by A. Balfour, leader of the Opposition, the House passed unanimously an address to be paid to King George. The speaker said: "We will ever remember with grateful affection the zeal and success with which our late monarch endeavored to consolidate the peace and concord of the world, to aid every endeavor for the alleviation of suffering, to unite and unite in justice and freedom of the races and classes of his subjects with his imperial throne."

Congratulations to New King. "We beg to offer your Majesty our loyal congratulations upon your auspicious accession and we assure your Majesty of our devoted and faithful person and our sure conviction that his reign will, under the favor of Divine providence, be distinguished by unswerving efforts to promote the virtue and contentment of the realm and to guard the rights and liberties of his Majesty's faithful people."

STEAMER SANK IN MISSISSIPPI

City of Sallito Ran on Rock Near Glen Park, Missouri and Sank

St. Louis, Mo., May 11.—A long distance telephone message to the Globe-Democrat about 11 o'clock tonight states that the steamer, the 40,000 stern wheeler, City of Sallito, which left St. Louis at 7 o'clock tonight for Waterloo, Mo., with twenty-seven passengers and a large freight cargo, struck a rock and sank near the Missouri bank of the Mississippi River at Glen Park, Mo., about thirty miles from St. Louis. In the confusion attending the heading of the rescued passengers, it could not be ascertained if any had been drowned, but it is believed many perished. The Sallito was one of the Taft fleet which took the president and governors and congressmen from St. Louis to the death-water convention at New Orleans. The boat struck at 9:30 o'clock just as the passengers were retiring. It is thought that through some error the pilot got out of his course and came too near the shore.

Sank Quickly. On account of the present high stage of the water the steamer filled and sank quickly. The passengers, including many women and children, were thrown into confusion and required the utmost efforts of Captain Harry Crane and his crew to rescue any. The boat turned on its side as it went down and many are thought to have drowned in their cabins. The crew, numbering about twenty-five including the constabulary, placed a gang plank from the boat to the bank across which the frightened passengers rushed. In the darkness and confusion it was impossible to tell if all negotiated the precarious bridge safely. The passengers list was also on the boat.

Charger With Electricity. Donald McGregor, aged 18, of St. Thomas, Ont., under arrest here on information from that town, charged with seducing a sixteen-year-old girl there. He has been the object of a search on the part of the police for some time and was located here by Officer Donald, having been engaged in carpenter work on the south side, and later admitted his identity. He was given a preliminary hearing before Magistrate Bryn this morning and will be held here until the arrival of a constable from the Ontario town. The young man is under arrest here on information from that town, charged with seducing a sixteen-year-old girl there. He has been the object of a search on the part of the police for some time and was located here by Officer Donald, having been engaged in carpenter work on the south side, and later admitted his identity. He was given a preliminary hearing before Magistrate Bryn this morning and will be held here until the arrival of a constable from the Ontario town.

ANOTHER EARTHQUAKE FEARED IN COSTA RICA.

Port Limon, Costa Rica, May 12.—The telegraph line between this port and San Jose was suddenly interrupted today. It is feared another heavy earthquake has occurred in the interior. The last reports were that heavy detonations were heard from the volcano of Poas and frazz, and that the eruptions seemed to be increasing in severity. There is great anxiety here.

Chicago, May 12.—Reports from many parts of the United States state that the serious volcanic disturbances, which were believed to be near Costa Rica.

THE ALL WATER ROUTE EDMONTON TO WINNIPEG. Senator Davis Expressed Himself Strongly in Favor of the Development of the Saskatchewan—Says That Scheme Will Mean Much to Winnipeg and Manitoba.

Winnipeg, May 11.—That Edmonton, Prince Albert and Winnipeg will, within the next few years be connected by a system of navigable waterways, was the opinion expressed today by Senator Davis of Prince Albert, who was in the city on his return from Ottawa, where he has spent the past few months. The senator stated that the minister of the interior is in the closest sympathy with the undertaking and that the engineers who have gone carefully into the matter report that it is entirely feasible.

Connecting the Lakes. "From the lake crosses Lake Winnipeg can be secured by the excavation of an old waterway and no lock will be needed. From Lake Winnipeg to the construction of the canal, it is certain that in a comparatively short time four will be ground at Grand Rapids, near the mouth of the Red River, and will be shipped to England from the port on Hudson's Bay. The development of the waterway will be in perfect with the plan of the government for the construction of the lake to the Bay.

Rockefeller's Preacher Is Ill. New York, N. Y., May 11.—The Rev. Dr. Charles E. Aked, pastor of the Fifth Avenue Baptist church, the Rockefeller family, is seriously ill. He has been in the hospital in West 66th Street, Dr. C. H. McMichael, who is attending Dr. Aked, said tonight that for the last four days he has had a temperature of 104, but that he is making a brave fight for recovery with bright prospects.

NO MERCY FOR KIDNAPPER. Pittsburgh, Pa., May 12.—Refusing to quash the appeal of Mrs. Helen Boyle, now serving sentence for complicity in the kidnapping of Billy Whittier, of Shar, a Penna., over a year ago, for a new trial, Judge Charles E. Aked, in the state supreme court today postponed the hearing of the appeal until the first Monday in October, when the case will be heard in Philadelphia.

STEEL TO REVEAL SECRET. Will Publish History of the Northwest Rebellion, West Rebellion. Orillia, May 12.—In a letter to the Packet here, W. O. Steele, who is travelling in the West, says: "I afterwards spent a few pleasant hours with Colonel Sam Steele, who has changed with the times, but has retained the soldier's stamp of courage and continuity. I was pleased to hear that he is writing the history of the Northwest Rebellion, and the brilliant dash into his enemy's unknown country. After Big Bear and his band, Col. Steele is the only man that can and will write a truthful account of those troubled times. The book, which will appear about the first of June, will contain many startling revelations—news suppressed for the time for reasons best known to those most interested.

DROPPED DEAD.

Collapsed in Act of Raising Glass to Lips—Young Man's Serious Position.

Saskatoon, May 11.—While just in the act of raising a glass of beer to his lips in the Empire hotel an unknown man dropped dead. The bar contained a half dozen others at the time, and as this unfortunate man was seen to reel two or three rushed to his assistance, but he collapsed in his tracks and all efforts to revive him proved futile.

Charged With Seduction. Donald McGregor, aged 18, of St. Thomas, Ont., under arrest here on information from that town, charged with seducing a sixteen-year-old girl there. DONNING ARMOUR FOR CONTROVERSY

Protestant and Catholic Bodies Making Their Views Known on the Question of the Oath.

London, May 12.—The controversy over the accession declaration increases in heat, but its maximum temperature has not yet been reached. The various Protestant societies in the United Kingdom, the number of which is surprising, are hastily buckling on the armor, eager for the slaughter and dust of the polemic list. "Giant Pope" is still to a large proportion of the professing Christians forming these societies what he was to Bunyan.

PONOKA IS TO HAVE ELECTRIC LIGHTS

Will Be Supplied With Electricity From New Hospital for the Insane—Big Influx of Settlers into the District—Dr. Campbell Still an Insurgent.

Ponoka is to have an electric light service this fall for the residents of that town. Some time ago arrangements were made with the provincial government that the residents should be supplied with electricity from the plant at the new Hospital for the Insane, that is now being completed with the fact.

MONDAY, MAY 16, 1910.

MATTERS MUNICIPAL.

Municipal matters frequently made calls on the time of the aldermen as heavy as we have made this week. There would be fewer candidates for vacancies on the council board when the time to select the directors of our civic affairs comes round.

The question under consideration was the agreement with the Radial Railway Company and it is understood that the contract finally agreed to in the evening was a vastly different one from that to which the attention of the council was directed in the morning.

Before it is accepted that the Government is responsible for the delay it will have to be shown that an effort was made to get them to provide the funds for use during this season. The Dominion Government was understood to have promised 15 per cent. of the cost of the railway bridge, and the Provincial Government \$175,000.

The question of the milk supply of the city has provoked a mild controversy between the doctors and the milk dealers, and has attracted, no doubt, very wide attention among the citizens. The milkmen declare emphatically that care is taken in the handling of the milk, that no preservatives have been used, and cite the reports of the inspector to show that it comes up to the standard of richness required.

The Medical Health Officer reports that the inspector no longer constitutes a nuisance since the burning of manure has been stopped.

Charbelain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by all dealers.

ance and a very pronounced one. In deciding this point, any doubt should be given to the protesting parties, who reside in the neighborhood. They persistently assert that their peace is disturbed and the value of their property deteriorated by the presence of the plant. Their complaint is worthy of the most sympathetic consideration, and of relief, even though relief will cost something.

The C. P. R. seem to be very anxious to explain why they are not proceeding with the erection of their high level bridge—anyway, at least, to explain that somebody else is responsible for the delay.

Mr. Roosevelt was in Norway a few days and succeeded in getting mixed up in the national politics. President Roosevelt might get rid of his supposed rival by making him commissioner extraordinary and regulator general for that portion of the universe lying outside the U. S. A.

Mr. Burns proposes in a degree to return to the "closed" lease. Under the circumstances this would only be an expedient adopted to perpetuate the ranching industry in spite of the operation of the law of evolution. It would at best only postpone the clash of interests from today until another day ten years hence.

Mr. Potter says the cracked condition of the walls of the new pump house is due to the heavy weight being placed on insufficient foundations. Expert opinion and popular impression seem to be in the same direction in this matter.

Mr. F. Burns, the "cattle king" of Alberta, has written the Calgary board of trade regarding the unsatisfactory conditions and the equally unsatisfactory prospects of the cattle raising industry in this Province.

the city can save \$100,000 as against the counter proposal of a large trunk sewer outlet. Financially the proposition looks very attractive. If in saving this sum a satisfactory solution of the sewage problem can be provided, the city will have received many times over the cost of the expert's advice, on this one item alone.

A point to be borne in mind in this connection is that the east and park side comparatively near the proposed site for the sewage disposal plant. When the street car line is extended to the park via Jasper Avenue, considerable settlement will no doubt take place in that vicinity.

CANADA'S GROWING TIME.

A census is to be taken next year and the prophets are already forecasting the results. One has it that Canadians now number 5 millions. In 1901 there were only 3,500,000 people in the country. Shows the forecast to be verified therefore our gain in the ten years would be 2,000,000. This is probably an optimistic estimate, for rapid as our growth is known to have been a gain of this proportion in ten years would be remarkable.

Mr. Balfour says he would admit to a "cheat free of duty, but not colonial" door. There is not much in that for the Canadian miller to about for—nor for those who on principle demand that our raw products shall be manufactured in Canada.

Mr. Clarke appears before the Commission in Edmonton next week. The rancher and settler. Mr. F. Burns, the "cattle king" of Alberta, has written the Calgary board of trade regarding the unsatisfactory conditions and the equally unsatisfactory prospects of the cattle raising industry in this Province.

If you love your horses, and want to know that can mean so much when Massey-Harris "Bala."

settlers began to come in and locate. Immediately there has been trouble in every community in which this conflict of interests has occurred. Sometimes the war has been fought out with pistols and knives, sometimes in the courts, sometimes with tongues in the Canadian House of Commons.

In Southern Alberta, as elsewhere on the prairie, the rancher was first, and being the only man in the country his interest had to be considered. To carry on his business it was necessary for him to have a large amount of land, and to be certain that he would have it for a number of years.

Mr. Burns proposes in a degree to return to the "closed" lease. Under the circumstances this would only be an expedient adopted to perpetuate the ranching industry in spite of the operation of the law of evolution. It would at best only postpone the clash of interests from today until another day ten years hence.

to be a long period in its history. Before that time has elapsed the corners which are now remote from settlement will be sought out and occupied by settlers. To tie up from all possibility of settlement for ten years, good agricultural land in the most distant part of Alberta would be dangerous.

President Taft uttered a rebuke the other day to demagogues who assail the Supreme court of the United States as inclining unduly toward corporations as including unduly toward corporations in the judgment of cases brought before them.

KING EDWARD.

Montreal Gazette.—The Edmonton Real Estate Exchange has been disbanded because all the members "report the details of their business for the general benefit. People beyond the Great Lakes have immense confidence in their country but seem at times to be just a little doubtful about some of their countrymen."

Montreal Gazette.—The suddenness with which death followed the announcement of the illness of King Edward will make the shock of the event more severe. His people had hardly come to look upon him as an old man, though he was within six months of entering on his seventieth year. They were so accustomed to hear of him carrying on the routine of his high station in the quiet orderliness of a man of affairs.

Montreal Gazette.—The suddenness with which death followed the announcement of the illness of King Edward will make the shock of the event more severe. His people had hardly come to look upon him as an old man, though he was within six months of entering on his seventieth year.

time, he strengthened the traditions of unity among the people of the Empire. In this, too, he was a statesman. In another quality also he merited the approving regard of all men of good will. Some of the messages that passed between himself and members of his family have been made public. They showed him to be a kindly father, beloved by his children.

Alberta & G. W. Bondholders. The original affidavit was sworn by water witnesses were produced being identified by Attorney General Fox and then filed with the court. The great white seal of the States and the sweeping signature of William Howard Taft appeared under giving Sheriff Fox the order to bring the accused before the court.

CHAPMAN EXTRADITION CASE BEFORE COURT

Strong Circumstantial Case Made Out in the Case of the Negro Wanted in Stillwater, Okla., for Murder of Lawrence Matthews.

By a mass of evidence in documentary form, consisting of the sworn statements of residents of Stillwater, Oklahoma, and by the testimony given viva voce by J. W. Reice, county attorney, and W. A. Fox, sheriff of Payne County, Oklahoma, in the district court Thursday, the first story told by the negro, James Chapman, of his murder of Lawrence Matthews, of Stillwater, was strongly corroborated.

Owing to illness, Mrs. Matthews did not appear in the court Thursday but it was decided to go on with the case against Chapman. The affidavit, although the warrant issued is for both of them.

H. Parlee and E. B. Cogwell conducted the prosecution, the former representing the United States government and doing most of the cross-examining. P. D. Byers appeared for the defence of the accused.

The original affidavits of the Stillwater witnesses were produced and on being identified by Attorney Reice, were read to the court by Mr. Parlee and then filed with the clerk. The affidavits and other papers were also handed over.

The great white seal of the United States and the sweeping signature of William Howard Taft, president of the United States, were produced.

Attorney Reice, in a long speech, stated that he had taken the case to the grand jury which was composed of the members of the grand jury which sat on the case of the accused.

CONDEMN SPECULATORS FAVOR SPECULATION

Opposition Try to Open Up Voluntary Settlement of Land Grants.

Ottawa, April 29.—The government measure by Minister of the Interior, Hon. Frank Oliver, to extend the 'Use of South African volunteer bounty land scrip, which has been under consideration in the House of Commons at different times during the week, has received the most interesting and interesting discussion, an outstanding aspect of which has been to reveal a disposition on the part of the opposition to make some political capital by insinuating that the bill was designed to benefit speculators in the scrip.

The interest of the people in the public lands of Canada was a subject which has been a prominent feature of the discussion of the bill.

Mr. Barker, (Conservative), proposed an amendment to permit locators to satisfy settlement duties by hiring another person to perform them.

Mr. Hughes (Conservative) offered an amendment to provide that the scrip should not be transferred to another person.

Mr. Hannon, (Conservative), proposed an amendment to extend the time for the purchase of the scrip.

SELKIRK PEOPLE ARE AFTER MR. BRADBURY

Board of Trade Resents the Tie-up of Land Near Town from Settlement.

Selkirk, Man., May 10.—This district's member of the Commons, Geo. H. Bradbury, in his anxiety to make himself heard in the House and to cast aspersions on the government, to which he is opposed, has aroused considerable feeling among the business and private citizens of this constituency by the manner in which he has handled the St. Peter's reserve question.

The Selkirk board of trade has expressed its disapproval of Mr. Bradbury's handling of the St. Peter's reserve question.

137 MINERS ENTOMBED BENEATH THE OCEAN

Little Hope of Rescuing Men Imprisoned by Explosion in Whitehaven, Mine—Workings Extent Five Miles Under the Sea.

Manchester, England, May 13.—Hope has practically been abandoned of rescuing the 137 miners who were entombed by an explosion in the Wellington coal mine at Whitehaven last night. It is believed that all are dead as a fire is furiously raging in the mine workings, which extend under the sea for five miles. That any chance of reaching the surface through an escape shaft is shut off.

The spot where the men are imprisoned is five miles under the sea and about three miles from the shaft exit. A determined effort was made by the rescuing party to reach them. When but a mile from the goal the rescuing party were driven back by black damp and they have been unable to enter the mine since. The rescuers say that tons of dirt and much of the timbering have fallen in.

While maddened relatives of the 133 miners trapped in the Wellington Colliery rioted today in an effort to force the rescue, the government is hopeful of saving the entombed men. It has been abandoned and the authorities closed the pit in the hope of checking the fire which drove back the rescuers, overcoming them when they reached within fifty yards of most of the victims. As the final attempt was abandoned a crowd of women stormed the mine and were repulsed with difficulty.

The rescue party were driven back by black damp and they have been unable to enter the mine since. The rescuers say that tons of dirt and much of the timbering have fallen in.

BUSINESS OUTLOOK  
VERY SATISFACTORY

Conditions Throughout the West are Encouraging—How a Big Crop Helps—Amount of Wheat Inspected Would Fill Two Trains Reaching From Toronto to Montreal.

Winnipeg, May 11.—General business conditions throughout the prairie provinces have been very satisfactory for many months, and the reason therefor is to be found in the success of agriculture in 1909. The season was the most prosperous that the farmers had ever known, and an enormous amount was added to the aggregate wealth of the country. In the quantity and quality of the grain crops a high standard was established which may not be surpassed in the present generation. The immense increase in acreage from year to year due to the success of settlers will, it is true, bring about a total grain production which will make last year's figures look small by comparison. And it is possible that the husbandmen may again be able to raise crops of a quality fully as good as those which were marketed. But there were three main features of the 1909 crop production. In addition to the enormous aggregate production and the excellent quality of the products, the high average yield in each case was worthy of note. The unusually high prices which prevailed in the grain markets of the world also helped to make the season conspicuous, but the advances in values were caused by conditions with which the western farmers had relatively little to do. The "wonder" and the "weather" were responsible for the encouraging results in this part of the globe. These factors are due to all practical purposes in this part of the globe. There is little likelihood that a huge total yield, a high standard of quality, a heavy production per acre, and high prices will be again secured in one and the same season. It is possible, but it is not probable, that the wheat will be again secured in one and the same season. It is possible, but it is not probable, that the wheat will be again secured in one and the same season.

More Than 75,000 Cars of Wheat. Figures from grain inspectors for eight months are now available, and they are interesting enough to anyone who has watched the growth of the western Canadian industry. Wheat is the most important of the cereals, of course, and during the eight months 75,480 cars were examined by the government officials. This is an immense amount, but few people understand how great it really is. If these cars were made up into two trains of equal length they would cover the distance between Toronto and Montreal which is 330 miles. And the grain in the cars which were not used for the purpose of the inspection is being shipped to supply the City of Toronto with its daily bread for eight months. The wheat inspectors represent a total of more than 10,000 bushels, or an average of 10,000,000 per month since the crop year began on September 1. In the same time, in the preceding crop year the wheat total was 60,141 cars, so that the increase so far has been a little more than 10,000 cars.

Improvement in Quality. The high average quality of the 1909 grain has been frequently mentioned in this correspondence, but it is perhaps permissible to refer to it again. The inspections of wheat for April and May are in good prospect. In the 5,966 cars last month, 5,675 were better than No. 4, which means that they were acceptable on contracts. This gives a percentage of 95.13, which may be considered remarkably high, especially when the fact is taken into account that the farmers are supposed to sell their good wheat long before April comes around. The wheat that is held in store at this time, they held it accordingly. In April last year the percentage of No. 4 and better wheat in deliveries extending over two-thirds of the crop year furnished ground for exultation. But the statistical proportions are not noticed generally, and there is no tendency to boast. The farmers hope that they may continue to secure yields of high-class grain that are not anxious to "beat the big drum" over what they have already obtained.

Heavy Shipments of Coars Grains. The coarse grains continue to make a good showing in the official figures, although they are still a long way behind King Wheat. In the eight months, there were 13,216 cars of coars, as compared with 10,359 a year ago. 3,856 cars of barley, as compared with 2,740; and 3,336 cars of flax, as compared with 2,026. It will be seen that there were large increases in all grains. The grand totals are almost in the "staggering" class. The inspections of the four leading grains, wheat, oats, barley and flax, during the eight months amounted to 92,828 cars, containing approximately 113,944,000 bushels. For the same period a year ago they were 80,266 cars, containing approximately 99,692,200 bushels. There is a gain for the current season of over 15,000,000 bushels.

Very Encouraging Outlook. With so vast a quantity of grain moving out it is not at all remarkable that the prices of the grain seem to increase in great ratio. Any industry can help to create prosperity by showing a respectable credit balance at the end of a year. No period, and farming has been able to

display several balances of that nature within the past few years. If a country is a heavy consumer, and is able to market the surplus under advantageous conditions, it is a heavy gainer. It is comparatively easy to calculate the volume of production in the west for any season, but it would be difficult to compute the volume of distribution or consumption. In other words, it would be a serious business to determine the extent to which the people in the three prairie provinces were able to pay their obligations in a particular year. There are typical indications of prosperity, such as heavy railway traffic, a rush of immigrants, and great activity in construction work of all kinds. It is by means of these that the state of trade may be judged. In respect to all of them the situation is brighter now than at any other time in the history of the Dominion. Many people are now realizing for the first time that Canada is a big country. Some of those upon whom the truth is dawning are in the country today, and have heard these things before. Some others are coming in to find new homes here. They are alike in their convictions that this is a period of great development, and they are wondering why they did not learn that fact before.

Fears of Dry Weather. It is too early to predict a continuance of the present prosperity, because in a territory which is practically dependent upon agriculture for its advancement the season of risks and dangers is only beginning. The outlook for the 1910 crops is fairly satisfactory, but there is some anxiety on account of dry weather. Rains have been infrequent so far this year, and their benefits have been of short duration. The late snows were infinitely more useful, and it is a pity that the recent blizzard did not reach a wider range of territory. The damage from drought is prospective rather than present, and the fears on that score are entirely unfounded. The situation is not as advanced as it appears to be. An important bearing upon the drought is the fact that the need of rain, but the light lands could stand a good deal of it. If the dryness should continue, it is not probable that the wheat will be in bad shape. June is the month when rains come in all their fullness, and it is a pity that the recent blizzard did not reach a wider range of territory. The damage from drought is prospective rather than present, and the fears on that score are entirely unfounded.

WHEAT ALONG C. N. R. IS GROWING VERY WELL

The Canadian Northern Crop Report States That Conditions are Quite Favorable But That Farmers in Some Districts are Looking Anxiously for Downpours of Rain.

The weekly crop report of the Canadian Northern, received today, contains a number of interesting details made in sowing the coars grains. All the wheat showing is done, and much of it is showing above the ground. The dry weather has been favorable for sowing, but in many of the districts a rain would now be welcome. A number of reports are given in this report that the farmers are looking anxiously for a good downpour. The following reports indicate the conditions along the various lines of the Canadian Northern.

Reports from Sections. Gladstone—Wheat up in some places two inches. Fifty per cent oats and barley in good condition. The condition of the Mauretania and Lusitania are for the New York run. The two new boats are to be 700 feet long, with a capacity of 200 passengers each, with a speed of from 21 to 22 knots per hour. At this speed they will cut off a full 24 hours from the run between Liverpool and Quebec, so that passengers from Liverpool will be able to reach Chicago within a week of sailing, the voyage occupying from 8 to 9 and a half days.

Fenders to this effect have been given in England for the new ships which are to be built and apart from the general workmanship, are left open to the contractors, with the sole proviso that the boats are to be as fine as British workmanship can make them.

New Town Grows Fast. Carleton Place, May 11.—The new town of Carleton Place is growing rapidly. The Canadian Pacific railway, 145 miles east of Calgary and 37 miles from Medicine Hat. Up to about a year ago the place consisted of a sidetrack and nothing else. It was then known as Langevin, but as there was another place on the C.P.R. of the same name it was changed to Carleton Place. In reference to the large number of Scandinavian settlers that were coming into the district, like Brooks, Carleton Place may be considered as a 1910 town, as there was very little doing in the way of building a town up to this year. On Oct. 1, 1909, the town consisted of a small general store, hardware store and a lumber yard. At the present time there are about 30 places of business.

\$10,000 Fire in Sherbrooke. Sherbrooke, Que., May 11.—The saw and door factory of T. V. Reed, North Street, was destroyed by fire last night. The loss exceeds \$10,000. There was no insurance.

FOREST FIRES IN THE NORTHERN PART OF U.S.

Great Damage Done in the States Which Were Swept by Flames Two Years Ago—Drought Has Dried Up Timber, Making it Ready for Invasions.

St. Paul, Minn., May 12.—Owing to the unusual drought in Minnesota, the forests in the north and eastern parts of the state, in Northern Wisconsin and Michigan, have been burning for several days, and great damage has been done. So far, however, no fatalities have been reported. No rain has fallen in Minnesota this spring in any amount, and since the last snow melted everything is dry as tinder. Moisture has fallen to thoroughly wet the ground. Ordinarily, soiling rains prevail during April and May. Everything is dry as tinder, especially in the woods and fires started by settlers in clearing their lands and by sparks from locomotives spread rapidly into growing fires. For the last two days a strong wind has been blowing over some of the northern counties and this helped the spread of the flames, blowing the smoke over a wider area. The air during last night in St. Paul was pungent with the odor of burning brush and grass.

Reports received from Calumet, Michigan, state that the fires about Calumet, Michigan, have been burning since the 29th of April. From Cass Lake the reports are more reassuring today. After several hours' hard fighting by forest rangers and volunteers, a line has been established around the fire and the wind has abated. The indications today are that the fire there has been checked, unless the wind comes up and spreads the flames across the barrier. The damage done to seedling trees and homesteaders is said to be great, although no estimate is possible. This same section of Minnesota was swept by fire two years ago. At that time the timber was of the Red Pine and Balsam types. The fire was wiped out and the residents of Grand Marais were taken from the town in boats. The state militia was sent on the naval reserve vessel Gopher to assist the fire fighters for several days.

Duluth, Minn., May 12.—A wireless message from Grand Marais, Minn., says Grand Marais is in immediate danger from the flames, although nothing but a drenching rain will remove the menace entirely.

Monday and Tuesday the flames swept through the territory six miles west here, and the residents of Grand Marais and standing timber and also wiped out several farmers' homes, barns and other belongings in some cases.

Intercolonial Has Surplus of Half a Million—General French's Tour of Inspection.

Ottawa, May 12.—Sir Wilfrid Laurier and Hon. Jacques Breaux, solicitor general, left this afternoon for Nicolet, Que., at 3.15, to attend the celebration of the jubilee of the superior of the college there and the consecration of the new Roman Catholic cathedral, which replaces that destroyed by fire several years ago. The premier will return to Ottawa for a brief holiday on Monday for Quebec by the Canadian Northern. He will devote a few days to business in Quebec and will then return to Ottawa for a session of cabinet council prior to the separation of the ministers for the summer. Sir Wilfrid will take a brief holiday in June at his home in Arthabaska, and will leave for his tour of the west early in July.

The final report of the Intercolonial railway for the fiscal year ending March 31st, are being completed. It is stated at the department that the surplus on the railway for the year will be about \$600,000.

General French's Itinerary. Contrary to reports which have been given in circulation in a section of the press, the visit of General Sir John French to Canada will not be delayed on account of the death of King Edward. The general will arrive in Canada on May 20, the date of the funeral of King Edward. He will spend some time in consultation with the authorities at Ottawa. Going east he will arrive at Halifax on June 7 and will spend a few days there and at St. John, which he will visit on June 15. After inspecting the troops at Montreal on June 14 he will proceed to Toronto, and inspect the forces of the Niagara peninsula during the next few days. He will visit Hamilton, Welland and Niagara Falls, and return to Toronto on June 20. He will remain two days at Peterborough, where he will place the large gathering of troops that has ever been presented in the city. On his tour of the inspection of troops at Calgary on June 24. He will arrive there the next day, and will leave on the 25th. He will carry out inspections at Laggan on the 26th, Banff 26th, Regina 28th, and will return to Winnipeg on July 1. He will visit the coast of the Pacific, and will inspect the troops at Winnipeg will take place on the 12th. On his tour he will also visit Petawaka camp, remaining there two days from July 4 to 6. He will go from there direct to Winnipeg on July 6, and will inspect the troops at Winnipeg on July 6. The eastern part of the tour will be Quebec, from which he will sail to home about July 15th.

ALANS PROPOSE TO PUT NEW SHIPS ON THE LIVERPOOL-QUEBEC SERVICE—Will Cut Down Time of Passage.

Montreal, May 12.—It is announced by the Allan line that they are inviting tenders in England for two new trans-Atlantic steamers which are to be for the Canadian route, the Mauretania and Lusitania are for the New York run. The two new boats are to be 700 feet long, with a capacity of 200 passengers each, with a speed of from 21 to 22 knots per hour. At this speed they will cut off a full 24 hours from the run between Liverpool and Quebec, so that passengers from Liverpool will be able to reach Chicago within a week of sailing, the voyage occupying from 8 to 9 and a half days.

Fenders to this effect have been given in England for the new ships which are to be built and apart from the general workmanship, are left open to the contractors, with the sole proviso that the boats are to be as fine as British workmanship can make them.

BRUTAL MURDER BY BURGLARS. Two Servants Slain in New York. One Being Aged Housekeeper.

New York, May 12.—Evidently the victims of burglars, Charles W. Boman, a Hindu butler, and Margaret Mesham, an aged housekeeper, were found murdered Monday night in the residence of Dr. Mott D. Cameron, at 131 West 122nd street.

The two had been killed some time between 2.30 and 5.30 o'clock yesterday afternoon, during the physician's absence. The butler, who was 29 years old, had been shot through the mouth. There was another wound on his forehead and one on the back of the neck. The last two were apparently inflicted by a jimmy. The aged housekeeper had an ugly bullet wound in the back of her head, and also been beaten with some blunt instrument.

Examination of the physician's study in the rear of the third floor of the residence showed that the top drawer of a bureau had been jimmied open and \$200 in bills, \$100 in silver and several valuable gold stick pins taken. Nothing else in the house was touched. Dr. Cannon does not know how the burglars entered, but he kept money in the bureau drawer.

Three-Fourths by Britain. London, May 11.—Commander Paury yesterday said that the attendance at the polo was the climax of the finish of 400 years' history, three-fourths of which has been written by Great Britain. Toasting Story, Paury said the Americans hope that he will find the polo to be a most interesting and exciting one. "Don't mind me, save my wife and children," he managed to do this, but Gregg perished.

SIR WILFRID WILL TAKE SHORT HOLIDAY

Intercolonial Has Surplus of Half a Million—General French's Tour of Inspection.

Ottawa, May 12.—Sir Wilfrid Laurier and Hon. Jacques Breaux, solicitor general, left this afternoon for Nicolet, Que., at 3.15, to attend the celebration of the jubilee of the superior of the college there and the consecration of the new Roman Catholic cathedral, which replaces that destroyed by fire several years ago. The premier will return to Ottawa for a brief holiday on Monday for Quebec by the Canadian Northern. He will devote a few days to business in Quebec and will then return to Ottawa for a session of cabinet council prior to the separation of the ministers for the summer. Sir Wilfrid will take a brief holiday in June at his home in Arthabaska, and will leave for his tour of the west early in July.

The final report of the Intercolonial railway for the fiscal year ending March 31st, are being completed. It is stated at the department that the surplus on the railway for the year will be about \$600,000.

General French's Itinerary. Contrary to reports which have been given in circulation in a section of the press, the visit of General Sir John French to Canada will not be delayed on account of the death of King Edward. The general will arrive in Canada on May 20, the date of the funeral of King Edward. He will spend some time in consultation with the authorities at Ottawa. Going east he will arrive at Halifax on June 7 and will spend a few days there and at St. John, which he will visit on June 15. After inspecting the troops at Montreal on June 14 he will proceed to Toronto, and inspect the forces of the Niagara peninsula during the next few days. He will visit Hamilton, Welland and Niagara Falls, and return to Toronto on June 20. He will remain two days at Peterborough, where he will place the large gathering of troops that has ever been presented in the city. On his tour of the inspection of troops at Calgary on June 24. He will arrive there the next day, and will leave on the 25th. He will carry out inspections at Laggan on the 26th, Banff 26th, Regina 28th, and will return to Winnipeg on July 1. He will visit the coast of the Pacific, and will inspect the troops at Winnipeg will take place on the 12th. On his tour he will also visit Petawaka camp, remaining there two days from July 4 to 6. He will go from there direct to Winnipeg on July 6, and will inspect the troops at Winnipeg on July 6. The eastern part of the tour will be Quebec, from which he will sail to home about July 15th.

ALANS PROPOSE TO PUT NEW SHIPS ON THE LIVERPOOL-QUEBEC SERVICE—Will Cut Down Time of Passage.

Montreal, May 12.—It is announced by the Allan line that they are inviting tenders in England for two new trans-Atlantic steamers which are to be for the Canadian route, the Mauretania and Lusitania are for the New York run. The two new boats are to be 700 feet long, with a capacity of 200 passengers each, with a speed of from 21 to 22 knots per hour. At this speed they will cut off a full 24 hours from the run between Liverpool and Quebec, so that passengers from Liverpool will be able to reach Chicago within a week of sailing, the voyage occupying from 8 to 9 and a half days.

Fenders to this effect have been given in England for the new ships which are to be built and apart from the general workmanship, are left open to the contractors, with the sole proviso that the boats are to be as fine as British workmanship can make them.

BRUTAL MURDER BY BURGLARS. Two Servants Slain in New York. One Being Aged Housekeeper.

New York, May 12.—Evidently the victims of burglars, Charles W. Boman, a Hindu butler, and Margaret Mesham, an aged housekeeper, were found murdered Monday night in the residence of Dr. Mott D. Cameron, at 131 West 122nd street.

The two had been killed some time between 2.30 and 5.30 o'clock yesterday afternoon, during the physician's absence. The butler, who was 29 years old, had been shot through the mouth. There was another wound on his forehead and one on the back of the neck. The last two were apparently inflicted by a jimmy. The aged housekeeper had an ugly bullet wound in the back of her head, and also been beaten with some blunt instrument.

Examination of the physician's study in the rear of the third floor of the residence showed that the top drawer of a bureau had been jimmied open and \$200 in bills, \$100 in silver and several valuable gold stick pins taken. Nothing else in the house was touched. Dr. Cannon does not know how the burglars entered, but he kept money in the bureau drawer.

Three-Fourths by Britain. London, May 11.—Commander Paury yesterday said that the attendance at the polo was the climax of the finish of 400 years' history, three-fourths of which has been written by Great Britain. Toasting Story, Paury said the Americans hope that he will find the polo to be a most interesting and exciting one. "Don't mind me, save my wife and children," he managed to do this, but Gregg perished.

PROGRESSIVES SPLIT WITH REPUBLICANS

Dolliver and Cummings Accuse Aldrich of Being Associated With Mammoth Trust, and is Scheming To Rob the People—Traff Surrounded With Threats.

Des Moines, Iowa, May 12.—Ringing denunciations of the tariff bill and the men who passed it, characterized the speeches made last night by Senator Jonathan Dolliver and Albert Cummings, in opening the progressive campaign in Iowa. The Coliseum was crowded by 10,000 progressives. The meeting followed district conferences throughout the day, which were taken to reconstruct the Cummings organization, and to organize the state by counties and precincts. Even President Taft was mentioned as a "reactionary" leader, and it would spell ruin to the party. Among these leaders Senator Aldrich was mentioned as the "man" who had allied with the Guggenheims and Ryans and Paul Morton in a mammoth trust, incorporated as a rubber company, which is allowed the articles of incorporation to participate in any kind of business, anywhere on the face of the earth, and which is one of the holding companies in the Guggenheim syndicate for the control of the wealth of the world.

"These are the men who are responsible for the tariff bill during the extraordinary session," declared Senator Dolliver. "The bill is not only a scheme to rob the people and to increase the holdings of such gigantic syndicates as I have mentioned, but it is a scheme to rob the people of their property."

"I am not here to criticize the president or to say unkind words of him, but I count it no reflection on him to say that he is a man who is sometimes necessary to disagree with him and those surrounding him. Men have crowded to the front in earlier days who have not had the welfare of the party or the country at heart."

"I am not here to criticize the president or to say unkind words of him, but I count it no reflection on him to say that he is a man who is sometimes necessary to disagree with him and those surrounding him. Men have crowded to the front in earlier days who have not had the welfare of the party or the country at heart."

British Politicians Hoping for a Truce After Peace Conference—Response Another Election Turmoil.

London, May 11.—The Daily News says a British ambassador at Washington, where he is "appreciated as no other ambassador abroad," has been heard to say that he is in favor of a truce in the determination of problems wherein Canada is concerned.

Premier Asquith's announcement that the Commons will meet on June 8, gives the minister a badly needed reprieve. It is expected that the general election will be held in the latter part of the year, and it is expected that the Commons will meet on June 8, gives the minister a badly needed reprieve.

CHINA ABOLISHES SLAVERY. Royal Rescript Forbids Purchase of Human Beings.

Washington, May 11.—The Chinese government, by imperial rescript, has abolished slavery throughout the empire and has prohibited heretofore the purchase and sale of human beings under any pretext. The reform is effective from the date of the rescript, and the purchase and sale of human beings is forbidden to all Chinese subjects.

PREPARES FOR HOSTILITIES. Volunteers Enlisting Daily and War Fund Being Increased.

Lima, Peru, May 12.—Active preparations are being made for war with Ecuador, and volunteers are enlisting daily and the war fund is being increased by private donations. In this city and its immediate vicinity, 24,000 soldiers are quartered, while 10,000 additional troops are stationed near the frontier. The Peruvian government believes that it has reliable information that an effort is being made by Ecuador to obtain an alliance with Bolivia against Peru. To this end it is expected that the Ecuadorian cabinet led by Guayquil today for La Paz, Bolivia, under instructions to negotiate with the Bolivian government and the Chilean minister at that capital.

"DON'T MIND ME; SAVE MY WIFE. Corporal Gregg, of Fort Clarence, Drowned—Others Saved.

Hamilton, May 12.—Charged with the brutal murder of his aged father, the wealthy old Saltfleet farmer, whose head was battered in within a few feet of his own home on the morning of April 28th, Thomas Fenton was given a preliminary hearing this morning.

The witness was very cheerful and looked well. He has a smooth face and a complexion like a girl. Dr. Edgar swore positively to numerous spots of fresh blood found on the overalls worn by the prisoner.

BRIGHT BUSINESS OUTLOOK. Cory Sees no Clouds on Financial Horizon.

New York, May 11.—Wm. E. Cory, president of the U. S. Steel corporation, sees no clouds on the financial horizon, and thinks there are in for a most prosperous business year. The president of the Steel corporation said for Europe today on the steamship George Washington, and before departing said: "There is nothing in the business situation that would warrant pessimism. Underlying conditions of the country in general are sound, and, with fair average crops, the current year should be one of the most prosperous in history."

Recently there has been satisfactory improvement in the steel business, and the steel mills of the country should be kept active for the rest of the year. Prices for steel are holding firm, and from present indications we will obtain average prices this year, which will assure manufacturers a reasonable margin of profit."

Every head of department is clamoring for a new city hall, and the city hall to cost probably some two million dollars, not as a shadowy suggestion for some undefined time in the nebulous future, but as a concrete proposition, the first steps towards the materialization of which are to be taken this fall—such was the interesting topic of discussion between half a dozen of the city councilors after a meeting of the civic health committee.

The utter inadequacy of the present office space for the various civic departments started the conversation. Every head of department is clamoring for a new city hall, and the city hall to cost probably some two million dollars, not as a shadowy suggestion for some undefined time in the nebulous future, but as a concrete proposition, the first steps towards the materialization of which are to be taken this fall—such was the interesting topic of discussion between half a dozen of the city councilors after a meeting of the civic health committee.

Build Profitable Extensions Only. Calgary City Commissioners Will Not Build Any New Street Railway Lines Which They Think Will Not Pay—Employees Want Increases—Demands Among Commissioners.

Calgary, May 10.—"So far as I am concerned, the extensions of the street railway will not be built and operated in any part of the city that is not likely to prove a paying proposition," asserted Mayor Jamieson, emphatically, yesterday.

The remark was incidental to a discussion between the city commissioners brought up by the application of some employees in the street railway department for increases in salary.

Commissioner Clarke expressed the opinion that the employees of the street railway department were taking advantage of the fact that the system was proving a paying proposition as an opportunity to apply for increases in salary, and said that he should not favor granting such increases at all times during the year. This proposition was brought up by the application of some employees in the street railway department for increases in salary.

Mayor Jamieson took occasion to remark that no extensions should be sanctioned unless they were likely to prove paying, and that the fact that they would be to a great extent in the hands of the commissioners. Personally, he would oppose any suggested extensions that he thought would not serve a sufficient number of citizens to make them good revenue-producers. As an instance, the commissioners will oppose the line to connect north and eighth avenues along Second street west, a petition for which is in their hands, and which is being supported by Ald. William Ross of Ward 5.

Mayor Jamieson was rather inclined to favor the salary increases applied for by the employees, but he has shown the courage of his royal race. He continued to transact business almost to the end of the day, and his devotion to the cause of peace and his labors in its behalf which did most to secure a high place among foreign people.

London Papers Pay Respect to Late King. George V. Comes to the Throne With a Comprehensive Knowledge of State Affairs.

London, May 10.—The Times, commenting on the King's death, says: "It is a sad loss to the nation, but for but our brave of Home Office, seventh inning. On an easy three-hitter over Burt's head as Helmes to make the only two-cher's day good work with extra, and game on on based feature of the capture of a by Anderson—against the score."

Summary—Two base hits, Corrick hits, Lohr; Rosaback; balls, Earle; Rosaback 2; strike 2; by Rosaback 7; time—1:45.

MINERS READY FOR LETHBRIDGE. May 13.—Med roped into an easy victory at the ball park, which was getting into an easy home team, the score ending 8 to 3. The game was played in playing impossible and erratic side were plenty enough. For the Miners another was more than the usual amount Gordon pitched good ball for the Miners and had not received much encouragement to associate himself with the serious work of the state.

He has taken care this mistake should not be repeated in the case of his son. King George V. will come to the throne with a comprehensive knowledge of public affairs and all training in him which it is possible to import to an heir apparent. We have lost a beloved and a great constitutional king, but he has left us a successor in whom we may confidently repose our trust."

The Daily Mail says: "In the words of the Highland Corach: 'He is gone like a summer-dew fountain, when our need is sorest. To his initiative, his subjects and the empire owed the reclamation of South Africa and final reconciliation with the Boers. The system of understandings with foreign powers, which is our security today, was in great part his handwork. He

CHARGED WITH PATRICIDE. Thomas Fenton Faces Preliminary Trial at Hamilton.

Hamilton, May 12.—Charged with the brutal murder of his aged father, the wealthy old Saltfleet farmer, whose head was battered in within a few feet of his own home on the morning of April 28th, Thomas Fenton was given a preliminary hearing this morning.

The witness was very cheerful and looked well. He has a smooth face and a complexion like a girl. Dr. Edgar swore positively to numerous spots of fresh blood found on the overalls worn by the prisoner.

\$2,000,000 CITY HALL FOR MANITOBA CAPITAL

Winnipeg, May 10.—A new Winnipeg city hall to cost probably some two million dollars, not as a shadowy suggestion for some undefined time in the nebulous future, but as a concrete proposition, the first steps towards the materialization of which are to be taken this fall—such was the interesting topic of discussion between half a dozen of the city councilors after a meeting of the civic health committee.
