Thanksgiving With the Old Folks.

BRIDGETOWN, N. S.

1810.

BY CHARLES HANSON TOWNE. Oh, of all the days in the good long year,
There's one in the wintry weather
That's best of all, and it's in the Fall
When we meet at the farm together.
Thanksgiving Day with the kind old folks
Is a day filled with joy and with pleasure
You would open your eyes at Grandmother
pies.

pies, For each is a wonderful treasure!

We all gather 'round the well-laden board, From Grandpa to sweet little Fannie; And faces are bright and spirits are light, But no one's more happy than "Granny. She beams on us all with the kindest of smile As eating we merrily chatter; She laughs at the noise of the frolicso And lets them just clatter and clatter!

Oh, joy! when the pudding and pies are brought in!
Oh, then such a shouting of voices!
You never did see boys more happy than we,
And Grandmother laughs and rejoices.
No happier time in the whole lovely year
Than this in the crisp wintry weather,
When all of us go thro' the storm and the And meet at the farmhouse together!

"I suppose there's enough, such as 'tis," said Dora, when everything was ready.

"Enough! Why, 'tis a veritable feast," laughed Fannie. "Chicken, potatoes and gravy, brown bread, mashed turnip, celery, apple pie, cheese, grapes and coffee. Who could desire more!"

Uncle Evander was introduced to his nicees, gave each a hearty handshake, demanding to know, pathetically, as they all sat down to the table, why he had never visited his relatives before.

Mrz. "essenden looked flushed, and her daughters observed that she tasted each dish apprehensively, but as everything was perfect of its kind, she ceased to remember past trials and regained her wonted cheerfulness. Indeed, taken altogether, it was a more than usually merry crowd.

Uncle Evander sat in the kitchen while the girls cleared away the dinner, saying he wanted to visit them a part of the time.

After that they all sat in the sitting room for a while, and then Dora and Fannie, at their uncle's request, walked with him to the station, where he kissed them good-bye, and declared he would not neglect them so long again.

In ninety-nine cases out of a hundred a story like this would here come to a natural and peaceful close, but being, as it was, a hundredth case, there is a sequel to this one.

It happened a year afterward, the evening before Thanksgiving Day.

It had been a hard year for the Fessendens. Mr. Fessendens was only just recovering from a long illness. Fred had fallen from a shag-bark tree and broken his arm. Philip had obtained a position in a store and, the firm failing, lost four months' wages.

DON'T FORGET THE PLACE! MURDOCH'S BLOCK.
GRANVILLE STREET. E. A. SOCHRAN.

We are glad to be able to report Mrs. N. Langille improving in health.

Messrs. J. C. and S. P. Grimm spent a ew days last week in Lunenburg town.

Mr. Nehemiah Langille is enlarging his touse and otherwise improving his property.

Miss Britta Stoddart is at home on a visit o her parents, Mr. and Mrs. Jacob Stodlart.

Two persons were received into the Baptist church on Sunday morning, one by baptism and one by letter.

Mr. John Crouse has two pigs that turned the scales at 329 and 350 lbs. Also a two-year-old steer weighing 602 lbs.

Miss Cora Durling, who is teaching school at Ohio, spent Saturday and Sunday with her parents, Mr. and Mrs. George Durling. A scarced concert was held at the Baptist church on last Sunday evening. The singing and recitations were exceptionally good. Mr. Charles MoNayr, in company with Mr. Thos. O'Burnie and Mr. Allen Zwicker, is hunting in the woods. Last week they captured four caribou.

The Lutheran clergyman will preach in the Methodist church in the morning, and Rev. J. R. Downing in the afternoon and evening of next Sunday.

A "Shadow Social" was held at Temperance Hall on the evening of the 21st. The shadows were sold by auction. The young people spent a very pleasant evening. Ecouch money was realized to finish paying for the church organ.

At the close of the concert, Miss Hannah Saunders, on behalf of the Baptist and Methodist people, presented Miss Ethel Freeman and Miss Emma R. Webb, each with a handsome oil painting, as a token of appreciation of past services rendered in the choir.

Miss Rhuperty Chute has returned after an absence of three months spent amongst friends in Peabody, Lynn and Boston.

As this is Thanksgiving week we would like to make mention of the bountiful harvest with which we have been blessed, abundant hay crop, plums more than could be disposed of, apples quite plentiful, different kinds of vegetables all that could be desired, and a grain crop eclipsing the memory of the oldest inhabitant. Mr. Z. Elliott threshed about 2,200 bushels, which with smaller lots pounded out by hand together with the buckwheat makes a yield of over 2,500 bushels. E. B. Foster heads the list with 310 bushels. As a sample of the great yield we might mention that Mr. Adoniram Foster raised 36 bushels of oats from two bushels of seed procured of E. B. Foster; which proves to us that we need not import from a foreign seed farm in order to raise a great number of hushels from one.

Rome, November 17.—It is officially reported that King Humbert has received a telegram from Menelek, King of Abyasinia, saying that a treaty of peace between Abyasinia and Italy was signed on October 26.

The new convention abrogates the Uccialit treaty, by the terms of which Italy claimed a protectorate over Abyasinia, and recogni treaty, by the terms of which Italy claimed a protectorate over Abyssinia, and recognizes the complete independence of Ethiopia. Menelek declares free all the Italians taken prisoners by the Abyssinians during the recent campaign, but Italy will have to indemnify him for their support while in captivity. Major Nerazl, the special envoy sent to Menelek by General Baldissers, governor of Erythres and commander-in-chief of the Italian forces in that colony, signed the treaty on behalf of Italy.

PROTECTED A BRITISH SHIP IN A TURK-ISH HARBOR.

London Advertiser: A stirring incident occurred in a Turkish harbor less than a month ago, which ought to appeal with singular force to all right-thinking Anglo Saxon people. Six Armenians, three of them women, driven front their home by the Turk, and fearing massacre, begged and received protection on a British sailing vessel lying off the city. With true British spirit the captain declined to hand them over to the Turkish officials who boarded the ship and demanded the refugees. The minions of the sultan left, threatening to effect their purpose by force. The brave captain asked the commander of an Italian warship in the harbor to support him in his action, but was met with a curt refusal. While speculating on the danger of his position the United States cruiser Mismeapoits unexpectedly arrived, having on board a vice-admiral, to whom the captain at once told his tale, and appealed for aid. With a noble disregard for the letter of the law, the admiral assured him that if the Turks attempted any hostile move the guns of the Mismeapoits would bombard the city; a robust decision which the United States consul at the port approved. And so the British vessel sailed away under the protection of the Stars and Stripes amid the ringing cheers of the warship's crew, and this week reached New York with its half-dozen grateful Armenians, who had been saved from the butchers of Abdul.

This occurrence, purely fortuitous, was not only gratifying, but deeply significant. It was not merely a token of individual chivalry, but of the humanity of the Anglo-Saxon race to which both admiral and captain belonged. It was a striking symbol of the real unity of heart between the two great English speaking nations. In such a cause, the relief of the persecuted and oppressed, may the Union Jack and the Star Spangled Banner, the truest ensigns of liberty to-day, ever float from the same mast!

Tired Feeling

Makes you seem "all broken up," with-out life, ambitiou, energy or appetite. It is often the forerunner of serious illness, or the accompaniment of nervous troubles. It is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is therefore apparent to every one, and the good it will do you is equally beyond question. Rem

Fight for Incorporation at Westville.

[THIRD LETTER.]

To the Editor of the Monator:

DEAR SIR, —Just a word about that meeting. It had been called upon an evening of pay day at the Coilieries, —a tactical blunder, as that evening everyone is interested in settling financial matters. However defeat was taken good naturedly and feeling freely expressed that defeat by 8 votes was better than victory by like majority—(the vote was 198 against 190 for) because to have town government successful incorporation as hould have the support of a large majority of citizens.

That election as I have stated took place upon 21st Sept., 1895. It had been fought largely upon the issue that a public water supply system was a necessity for the advancement and prosperity of the town. Then the man with a good well played a prominent part. Why should he have his taxes increased to help his neighbor to a supply of water because the latter had settled upon land undermined? Why indeed?

Well, upon the evening of Nov. 20th following, the writer and two others left the railway station for home at 7.35 o'clock. The night was dark and stormy. The road from the station deboaches upon the main street directly opposite the Acadia Coal Co. surface works. We noticed nothing unusual as we passed them but had hardly walked 300 yards when some one behind us shouted "Fire!" We turned at once and ran in the direction of the voice and found that the Company's bulkhead buildings were on fire. I expect that I am tiring your readers by my prolitivity, but shall try in my next as tempt to in some measure justify the course I have taken.

Yours truly,

F. H. S. Calnek.

HOW THE UNITED STATES S. S. MINNRAPOLIS PROTECTED A BRITISH SHIP IN A TURK-ISH HARBOR.

Seattle, Wash., Nov. 16.—Seattle is completely cut off from communication by rail with outside world. On the two trans-continental lines running into this city not a train, freight or passenger, has departed within 24 hours. This state of affairs is due to floods and storms. It has rained almost incessarily for ten days. Rivers and small streams are swollen beyond their banks and in many cases the water is still rising. Reports from the southern part of the State are that the Cowlitz river has risen above the highest water mark in its history, and that Castle Rock, a town of 500 inhabitants, in Cowlitz county, is entirely covered by water from one to three feet deep. Strong current has set in there and many houses are being washed from their foundation.

Seattle, Wash., Nov. 17.—Additional details of the storm which swept North Western Washington and British Columbia Saturday and Sunday, are coming in slowly. The damage to railroads in Western Washington, will exceed \$500,000. The loss to private property is fully as great. The city is still shut off from communication by rail. ington, will exceed \$500,000. The loss to private peoperty is fully as great. The city is still shut off from communication by rail, with the outside world. In British Columbia the Canadian Pacific for a distance of one hundred miles from East Vancouver has been veriously damaged. Many bridges are washed out and telegraphic communication with the East has been interrupted for thirty-six miles.

Siberia's Railway. Siberia's Railway.

There is soon to be a new country to visit and a new way of going round the world. It seems only the other day that Jules Verne's man went around in eighty days, and thought it a considerable feat. The record for ofreumnavigation is now sixty-six days, or theresbouts. Baron Hilkoff, the combination of American mechanic and Russian prince who was in this country recently, said that when the railroad across Siberia is finished, which he thinks will be in four or five years, the time of getting around will be cut in two, and from thirty to thirty-three days will suffice for it. He allows ten days to cross Siberia from St. Petersburg, ten days from Viadivestok to San Francisco, and thirteen days from there to St. Peterburg again. Early in the next century, then, the tired American may turn his face eastward when he starts on his month's vacation, and keep it turned that way until he gets home, just about in time to resume his work.

The Cathode Rays.

A BLIND BOY ENABLED TO SEE - EXPERIMENTS San Francisco, Cal., November 16—Lucien Bacigalupi, the totally blind son of the keeper of a public X ray display, has discovered that by the aid of the Roentgen ray he can see sufficiently to distinguish objects. While with Dr. G. Waverley Clarke in the laboratory yesterday, the lad said he could see light. Keys, nails and other metallic objects were placed behind blocks of wood and in purses, and the lad distinguished the forms readily. The test was made complete, and it has made such a stir among medical and scientific men that a number of experiments will be made with persons who are blind at once. TO BE MADE.

A Strange Story, A despatch from Tyrone, Durham county, says the elder portion of the family of Eli John Rice, a farmer near here, who have had religious mania for sometime, got into their heads that the eldest son, Louis, was possessed of a devil and that it was their duty to knock it out of him. Accordingly between them they almost killed him, outting his head in a horrible manner and nearly knocking one of his eyes out. They then proceeded to celebrate the feast of the Passover, and were about to offer up one of the young members of the family as a sacrifice, when neighbors interfered. The father and eldestwon are now in Kingston penitentiary.

Thirty People and Three Thousand Bales of Cotton Go Down in One Crash.

Memphis, Tenn., Nov. 19.—A special to the Commercial Appeal from Macon, Ga., says: Thirty people, 3,000 bales of cotton and hundreds of tons of heavy timber all went down in one crash at 7.30 o'clock to night at the Central Railroad Compress in this city. Fourteen injured people, all employes of the compress, have been removed from the wreokage, but it is thought others are beneath the cotton and lumber, and if so, they are dead or will be before they can be extricated.

From the Ottawa Free Press.

Only those who have engaged in the arduous occupation of lumbering know how dearly earned is their livelihood, for among the many vocations of men that of lumber man ranks among the most dangerous and difficult. There is the heaviest shanty labor from earliest dawn to evening star when the toiler for half the year is remote from home and friends, and whose daily round is to eat and work and sleep, only getting an occasional glimpse of the outside world through a long looked for letter from some loved one

Then the days lengthen, the frozen lake But the eyes of his children implored him to breaks up, and comes the driving of logs and ewn timber down the tortuous swift running stream, when necessity often calls the driver to wade body deep in the swift flowengage in such heavy labor, only the most robust are able to stand the ten hours of daily toil, with but a mid-day hour's respite. DOCTORS COULD NOT HELP HIM, BUT TWO BOTTLES OF SOUTH AMERICAN KIDNEY CURE REMOVED THE DISEASE—THE STORY OF WINGHAM FARMER, OF WINGHAM FARMER.

Kidney disease can be cured. Mr. John Snell, a retired farmer of Wingham, Ont., says: "For two years I suffered untold misery, and at times could not walk, and any standing position gave intense pain the result of kidney disease. Local physicians could not help me, and I was continually growing worse, which alarmed family and friends. Seeing South American Kidney Cure advertised, I grasped at it as a dying man will grasp at anything. Result—before half a bottle had been taken I was totally relieved of pain, and two bottles entirely cured me." To cure kidney disease a liquid medicine must be taken, and one that is a solvent, and can thus dissolve the sand-like particles in the blood,

"Put in a shallow layer of soil over the drainage material when you pot the bulbs of this plant, and on this place the bulb, which should be covered lightly. Leave it like this until a stalk starts. Then fill in, as this stalk reaches up, until the pot is full of compost.

I would not advise the use of any fertilizer after bringing a plant to the light if the compost in which it was planted contained an ordinary amount of nutriment. Development is quite likely to be sufficiently rapid in ordinarily rich soil, and the application of a stimulant will so hasten it that the plant names at once to the clerk."
