RUSSIAN ALLIANCE?

Menace Particularly Significant in View of Rumors of Pact.

Paris, April 21.—The naval port of Sebastopol, in the Crimea, has not been occupied by Russian soviet troops, according to a despatch to The Journal des Debats, dated Sunday at Salonica.

The despatch says that fighting appears to have stopped for the time being in the southern Crimea. The Bolsheviki are said to be slackening their advance in the face of the allied prtillery fire.

The men aboard the Aroostook have been carefully selected. Virtually all of them have been drawn from the personnel of American naval air stations in France.

It is said unofficially that of four planes groomed for the trans-oceanic attempt, the N.C.-2 and N.C.-6 may be the ones finally selected. The N.C.-1 is undergoing repairs, and the N.C.-4 will not be ready to take the air for some time.

RETURNING SOLDIERS

Troops are now en route from e Olympic, which docked yes, rday, carrying the 3rd and 4th attailons. They are expected tomorrow.

Married men and their dependents from the Grampian will arrive at Union Station at 7 a.m. today. List on page 5,

Foreign Minister To Head Delegation

Germany Will Send Six High Per-sonages To Conduct Negoti-ations at Conference.

Paris, April 21.—The German delegation to Versailles will comprise six high personages, at the head of which will be Count von Brockdorff-Rantzau, the foreign minister.

Paris, April 21.—David Lloyd George, the British prime minister, has agreed to receive former Governor Edward F. Dunne, of Illinois, Frank P. Walsh, former chairman of the national war labor board, and Michael J. Ryan, of Philadelphia, next week. The Americans were chosen by the Irish societies in the United States to appeal to the peace conference on behalf of Ireland.

The arrangement for the meeting was made by Colonel Edward M. House, of the American peace delegation, at a luncheon today at the residence of the British premier. Mr. Lloyd George said he was unable to receive the Americans this week, owing to the pressure of business connected with the peace treaty and requested them to remain over for a conference until next week.

It is expected that the Americans will take up with Mr. Lloyd George the question of his receiving the delegates from Ireland, who are coming to Paris.

THE PEACE TREATY

Determination of Germany to Send Only Envoys Based on Misconception ---Full Text of Treaty Will Not Be Ready by Date of Germans' Arrival.

An Actification of process of the second state configuratives of equal rank and dignity. Furthermore, it is planned to have such timited discussion of the peace proposals as the allied plenipotentiaries are prepared to admit, notably of the modes of payment of the sums which have been exacted as reparations and explanations on any points in the long, complicated drafts of the treaty provises which the German delegates may seek to begin with, without awaiting the action of the government at Weimar, the text of the treaty and difficult poists as they arise being in the meantime communicated to Weimar.

There is little expectation in competent conference circles that it will be possible to finish the discussions with the German delegates and have the treaty signed within a week drain the date fixed for the first meeting, indeed the completion of the negotiations within such period was declared to be a physical impossibility.

Japan's Action a Precedent.

It may be recalled that the convecation of the Portsmouth peace conference was somewhat delayed by a similar point regarding the competence of the oredentials of the Russian delegates. Russian officials stated after President Rooseveit's invitation to the conference had been accepted by the emperor that delegates were being sent merely to learn on what basis Japan was prepared to enter into discussions and that a decision whether the negotiations would be taken at St. Petersburg, and not by the Russian representatives at Portsmouth.

would be taken at St. Petersburg, and not by the Russian representatives at Portsmouth.

Japan immediately announced that the would not send representatives except to meet with fully accredited plenipotentiaries authorized to negotiate peace, and after a second interview by the American ambassador, with the Russian emperor it was reluctantly announced that the Russian delegates would be plenipotentiaries.

A press report, however, coined the epigram that a plenipotentiary was a representative fully empowered to do as he was told.

Germany will send the following delegates to the Versallier congress with full powers to negotiate:

Count von Brockdorff-Rantzau, foreign minister; Herr Landsberg, secretary for publicity, art and literature: Dr. Theodor Melchior, general manager of the Warburg Bank; Herr Leinert, president of the Prussian assembly and of the National soviet congress; Herr Geisberg, minister of posts and telegraphs, and Herr Schuecking. In all, the German party will number seventy-five. The arrival of the delegates cannot be expenditional performance of the delegates cannot be expenditional performance.

FAMOUS AVIATOR

Vedrines, Who Was First Man to Alight on Roof of Building. Meets Death.

Paris, April 21.—It was announced at Villacoublay this afternoon that Aviator Vedrines had fallen about 10.30 o'clock at a place called Les Fouillouses, near the town of St. Rambert-D'Albon, in the department of Drome, on the Rhone River, south of Lyons. Vedrines and his mechanician were killed and the machine smashed to pieces.

Vedrines left Villacoublay with the intention of making a non-stop flight to Rome. The airplane he used was built to bombard Berlin, and weighed 5½ tons. He had a strong wind at his back when he left Villacoublay at 8.30 a.m.

He was one of the first Frenchmen to take up aviation, and during the years 1911 and 1912 was very active in aerial races in Europe, winning the Paris-Madrid race, finishing fourth in the European circuit race, making various records for height, distance and speed, and finishing second in the British

years ago to act as director of a German aviation school.

Some of Vedrines' war exploits are now published. Altho free of military obligations at the outbreak of the war, he offered his services and undertook fifty-three special missions, for the most part landing at dangerous spots, near concentrations of troops, where enemy aviators were on the lookout.

Government Appeals to Public to Arm and Complete the see Score's, Tailors and Ha Revolution.

Budapest, via Amsterdam, April 21.

The news of a Russian advance has caused intense excitement. Following upon vehement speeches at meetings on Saturday of the soldiers' and workmen's council, the government issued a series of impassioned appeals to the public to arm themselves and complete the revolution, which is declared to be in great peril. A proclamation to the munition workers says that every factory must now work only for the front; there must be no holidays and no rest solong as "international profiteers are strangling the proletariat revolution," All reserve officers and soldiers have been ordered to join the Red Army immediately, only the wounded and invalids being exempted. All private telephone service in Budapest has been completely suspended, and all cafes will be closed at ten o'clock in the morning until further notice.

These decisions were taken at a meeting held at the People's Opera House. Sigmund Kunff, commissary of education in a speech, declared that the Paris peace conference had been shaken owing to the tremendously superior forces with which the aftack is being carried out.

Destruction of Mines and Coalfields in France Reported On by Expert.

SHAFTS DYNAMITED

Quicksand Strata Overlying the Coal Veins Were Let Into the Mines.

Washington, April 21.—Destruction wrought by the Germans in northern France was so "systematic and diarolical" that it will require five years to chabilitate the coal, iron and steel industry and from 12 to 15 years to report today by Frank H. Probert, con-

output, according to a preliminary report today by Frank H. Probert, consulting engineer of the bureau of mines. He is a member of a special investigating committee which recently returned from Europe.

Despite the tremendous damage, Mr. Probert expressed confidence that the "indomitable spirit" of France and the return of Alsace and Lorraine to the motherland, would soon make the nation the dominant factor in the European steel industry.

"The actual physical damage to the iron mines is comparatively small when compared to the destruction of the coal fields of northern France, which is as reprehensible as it is complete," Mr. Probert said. "In my opinion no such atrocity was ever perpetrated against the industrial life of any country. Magnificent steel plants, comparing favorably with anything we have in the United States, are now but a tangled twisted mass of structural steel and broken stone. The wilful demolition was scientifically planned and systematically carried out. This after the removal of all such mechanical and electrical power units as could be used by Germany. The maliciousness and efficiency with which this crime against French industry was carried out is almost unbelievable.

Salaries Disgraceful and Inadequate, Says Association President.

POPULAR UNIVERSITY

Is Dr. Cody's Description of Four Hundred Provincial Branches.

The salaries of library workers in Ontario were declared to be insufficient by Mr. F. P. Gavin, B.A., Windsor, in his presidential address, last night, at the annual meeting of the Ontario Library Association. He asserted that the salaries were "disgraceful and inadequate when measured by the kind of service expected," and were not commensurate with the cost of living. "Might I suggest," he remarked amid applause, "that library workers ought to get as much pay as

workers ought to get as much pay as street cleaners."

Sir John Willison, president of the Canadian Reconstruction Association, who spoke on "The Days of Reconstruction," agreed with Mr. Gavin, saying that the salaries of teachers, professors, ministers and librarians were a disgrace to Canada. "Notwithstanding the higher cost of living and notwithstanding the extraordinary changes in social conditions," remarked the speaker, "the one point at which we seem to make no improvement, the one to which our thinking never tends, is the condition and remuneration of the salaried class, upon whom the war has borne more heavily than any other class in the common impression, I believe we are just as niggardly in regard to the salaries of judges and ministers of the crown."

Proceeding, Sir John Wellison said he had often thought that public libraries in their character should be very closely related to the natural resources, that we have been peculiarly without knowledge of its natural resources, that we have been peculiarly without knowledge of its natural resources, peculiarly lax in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the use and application of scientific knowledge to the discovery of just what resources we possess, and just in the death cell at the Toronto jail. Due to the fact that McCullough had stayed at the home, whe felt that she had received three letters from McCullough since ple had be treet cleaners."
Sir John Willison, president of the

There were also sessions morning and afternoon, Hon. Dr. Cody, minister of education, speaking on the latter occasion. The meetings are being held in the Public Reference Library, College street, and will continue today. Hon. Dr. Cody, minister of education, who was the principal speaker at the afternoon session, declared public fibraries were great popular universities, and he believed the public libraries were great popular universities, and he believed the public librarian had a calling quite comparable with the head of a great educational institution, for he could lead the reading of a community. "The public library today," remarked the speaker, "stands in some respects in contrast to the library in days gone by, and the great distinctive point of contrast is this, we do not consider a library today to be merely a place where books are stored, to which enthusiastic persons may come to get books. We feel a public library today is an aggressive institution, is a misthusiastic persons may come to get books. We feel a public litrary today is an aggressive institution, is a missionary institution, is designed to bring, as some one has well put it, the right book to the right reader at the right time."

the right book to the right reader at the right time."

Record Proportion.

Among other things, Dr. Cody stated that there were 408 public libraries in the province, which in proportion to population, he was told, was probably the largest number of any country, state, or province in the world. Still, in spite of that good record, there was still a great number of the Mbraries, so there was much ground to be covered. Increase in the efficiency of their libraries would call for a greater expxenditure of money, but there had been no department upon which money had been more generously voided by the legislature than the work of education.

The from TOP OF DOOR

Thomas Marsh was found hanged in his room at 209 Lansdowne avenue setting his room at noon, and later was found dead by other members of the house-hold. A clothesline was fastened tightly around his neck and the body was hanging several inches above the floor.

The police of Cowan avenue station were called in to release the body. It was then found that the rope had been first fastened around Marsh's neck. The police were notified and it is hardly likely that an inquest will be held.

relation to technical education, the minister said that according to statistics which had been furnished, 120,000 books classified as "useful arts" had been circulated by the libraries during the past year. Alluding also to the libraries, which had been established in the fifteen military camps in the province, Dr. Cody remarked it the province of the control of marked it was reassuring to know that the books were of a good type, very largely technical books that would help the men to be better equipped for their life work.

tages will follow.

He thought if they applied to their recourse a policy something like what they applied to agriculture and intelligently developed these, they could look to the future without apprehension.

Dealing With Tariff.

Dealing with the subject of the tariff, the speaker said his view had always been "there is no more reason you should consider the manufacturer than you should consider the manufacturer than you should consider the merchant, the farmer and the worker. There is only one test of any national policy, and that test is, what is the national interest? If we can set aside our old quarrels and prejudices I am sure we can discover what is the national interest and act upon it."

There were also sessions morning and afternoon. Here is on policy to they did not materialize. The jail investigation will be held with the intention of finding the person or persons who were negligent in their duties in allowing McCullough to escape from custody.

According to information received at the board of education offices, about one hundred dwellings are to be erected during the coming year in the Dantorth avenue district between Doniands and Gledhill avenues, north of Danforth. The additional school accommodation required will exceed the enlargement being provided for by the expenditure of \$90,000 for the Wilkinson Public School. The local situation there is already complex owing to the clamor from York township residents just north of the city for school privileges in the Gledhill Avenue School. In this case the board of education is divided. A majority of the management committee favor township children being given two class rooms in the dhill Avenue School, but a majority of the trustees want the tangle over Kitchener School affairs adjusted before any more privileges are extended to the township pupils. As the whole district is now teeming with an overpopulation of children of school age, the situation is one which Chief Inspector R. H. Corley says calls for a board of education with imagination, as the trustees are simply out of breath trying to keep pace with the growth of the schools.

The crime for which Cooper was to pay the supreme penalty occurred on May 24, when it is alleged that cooper, with two companions, participated in an attack on the old man's house and that one of the others struck the old man down. It appeared that the victim was able to crawl from the door to his bed, and the theory was advanced that Cooper had gone back and finished him. Altho the others were acquitted on medical evidence, it is claimed that the new evidence will establish that Taylor was carried to the bed when he fell, and died from the effects of the blow from Cooper's companion.

BRITISH SUBJECTS ARE STARVING!

The Greatest Tragedy That Has Visited The World In Years Is Taking Place To-day---InIndia

India is in the deadly grip of plague and famine. The state to which the population has been reduced is appalling, and prevailing conditions are so terrible that they baffle description.

In the Central and Northern Provinces of India death stalks through the land, taking a toll that makes the Great War's casualty list pale into insignificance.

To date the estimated number of dead from plague and famine in the past year is over 32,000,000. The poor have eaten all their food, and the physical conditions of thousands upon thousands is such that they are too weak even to carry their water jars. Others, driven mad with hunger, are eating roots, seeds, kernels of old nuts, or thing they can pick up. Think of it! 150,000,000 loyal British subjects go hungry, morning, noon and night.

INCONCEIVABLE CONDITIONS PREVAIL

No rain has fallen since last May, and there have been no crops. Wells are drying up. Traffic has practically ceased. Mails are undelivered, and business is at a standstill. Food riots take place daily in the cities.

MILES OF DEAD

Some conception of the awful death toll may be gathered from the following comparison: If coffins for the 32,000,000 British subjects who have died during the last year through plague and famine were placed, head to feet, they would reach a distance equal to one and one-third times around the

Words fail to portray the ghastliness of this stupendous tragedy, and photographs taken in different parts of the country depict scenes too gruesome for publication.

In a recent article "The Christian Herald" of New York says: "Letters from India bring news of an appalling famine now prevailing. Food prices have soared to heights unknown for a hundred years. We appeal, in the name of universal pity and human nature, for help."

The Government of India is doing what it can, but it cannot cope with the situation. The call has come to help—that call is urgent. Unless the peoples of the world pour help into India millions more will die, and the world will be shocked to know the terrible results of their procrastination and

'Can any red-blooded Canadian, after reading these facts, fail to give-and give liberally ?

Shall we, a Christian people, turn deaf ears to the pleadings of starving women and children? In the hour of the Empire's dire need India gave ungrudgingly of her men and treasure—sending over three times as many soldiers to the front as Canada did.

There is more danger of Bolshevism in the United Kingdom, and its progress there has only been checked by a curious situation without a parallel in other belligerent countries. It has been observed that the big strikes in Britain suddenly blew That big shipbuilding strike at Glasgow collapsed as soon as the soldiers were ordered out. -Now, the reason for this is that the soldiers and the workmen do not fraternize in England as they do on the continent. Indeed, the returned soldiers are, as a class, embittered against the labor leaders, who, they feel, held up munition making and impeded success by threatening strikes during the war.

In the United States there are signs of social unrest, but they are probably no more alarming than they were in 1912. The trouble there just now is that the president has withdrawn himself to foreign parts, and no one can say when he will return. The sixty-fifth congress died on its feet March 4 without passing any of the great measures of reconstruction, and without having passed even many necessary supply bills for the fiscal year beginning July 1, 1919. Co-operative Charity. This morning Sir James Woods' tatement brings before the public the very necessary problem of the main-tenance of the indispensable charities of the city, and the commendable coperative plan by which their needs can be met. There has been a great deal of charity work done, and much canvassing for subscriptions luring the past four or five years be made. It is to cover all the objects which have usually made a separate ppeal, and citizens will be relieved to think that when they have satisfied this call no further local call will be made upon them this year.

The campaign is to start May .5, and last for five days. The partners in the joint appeal are the Repatriation League, the Federation for Community Service, the Young Men's Christian Association, and the Association of War Veterans. An appeal is made in this issue on behalf of the starving millions of India. Unless the peoples of the world back to just where it was when Austria grabbed Bosnia-Herzegovina in 1912.

The excitement over the Dalmatian question in Italy and at Paris masks a far deeper anxiety. Those who thave been at the peace conference and have since returned to Canada tell us that Italy trembles on the verge of Bolsheviks are apparently supreme in Russia and Hungary. They must be a considerable power in Germany, Poland, the Austrian republics and the Balkan states. They would naturally make headway in Italy, where political secret societies have long been all-powerful, and the sovernment of India are establishing actions of the starving in this issue on behalf of the starving millions of India, in this issue on behalf of the starving millions of India the conditions of India the conditions of India are British subjects and sent three times as many soldiers to the war as Canada did. Owing to the lack of rain since last May, the crops have been a failure and the people are facing famine worse than the conditions in 1990. As there was nothing else for us to do, and at the same time we were anxious to know his style toward the public at large, we asked him this most important question: "Young man, could you direct us to the license office?"

He stared at us for a second with the sort of look the baby boy gives the jack in-the-box before he begins to holler his head off. The only difference between the two being that the chap from the city hall did not show quite so much intelligence. When we had finally decided that he was not possessed of the power of speech, he came back with this: "I really must beg your pardon, but I am not the doorman."

braces over 250 organizations in cooperative membership, most of which
will in some form or other come into
contact with the returned soldier or
his family; the Young Men's Christian Association, which did so much
for the soldiers overseas, and has an
equal duty with regard to returned
men; and, finally, the Associations of
War Veterans, familiar as they are
with the special needs of the homecomers, and vitally concerned in the
welfare of all their comrades. These
organizations join in asking the
citizens of Toronto for \$1,500,000.

This money is needed to provide
veterans' club houses, to care for the
current budgets of some fifty social
service and charity organizations (including several hospitals), to cover

Y.M.C.A. and current budgets of all branches of the Y.M.C.A. and Y.W.C.A. in Toronto, and to provide a fund for the Repatriation League.

Being familiar with the various steps by which the conclusion was reached to make this united appeal, and having carefully reviewed the entire proposal from the standpoint of the real value of the various organizations for which this appeal is being made (especially in their intimate relation), the campaign committee heartily commends this appeal to the approval and generous support of the entire community.

PRISONERS OF WAR PENSIONS.

The G.A.C. executive intends to The G.A.C. executive intends to urge upon the government the need of granting pensions to prisoners of war whose treatment in Germany was such as to permanently break down their health. Prominent members in an interview with The World severely criticized the medical boards of the C.E.F. for adjudging such men as physically fit. Feeling runs high in this matter among returned soldiers.

"The Heart of Humanity" is not a war film, but a huge human document with the war as a background. This description of Allen Holubar's newest multiple-reel film, the picture that has given Dorothy Phillips the opportunity of her career for superbacting—an opportunity of which she has made the most—as that of Mr. Holubar himself. Mr. Holubar objects to having his production classed with other war spectacles. It is his contention that "The Heart of Humanity," wherever shown, will demonstrate to the world what probably will prove the most poignant tale yet picturized of mother-love in its relation to the world strife.

Miss Mann enacts the role of a Canadian mother who has given five sons to the cause of humanity. Her characterization is one replete with pathos and yet redolent of the essence of patriotic sacrifice.

AMATEUR BASEBALL

Picton has organized a town league, and a schedule of games has started, consisting of twelve matches, which are to be run off by the last of May. The competing teams are the Bankers, the Clerks and the P.C.I. A great deal of interest is being taken in the league.

The Garden Hill Baseball Club of Mill-brook has elected the following officers for the season: President, J. H. Gardi-ner; vice-president, W. Kirk, V.S.; sec-retary-treasurer, W. J. Hamill; captain, Wm. Muldrew; scorer, E. W. Gardiner; manager, G. J. Dorland.

Lancashire will practise tonight at 7 o'clock at Ketchum Park. All signed players are requested to attend.

The Monarch Athletic Club have entered a fast team in the Western City Baseball League. Their followers can rest assured that a real classy aggregation will represent the club, both in the business and playing ends. At an enthusiastic meeting held last evening, the following officers were elected: Hon. president, G. W. F. Price; hon. vice-president, A. Linton; president, Alex. Riddell; vice-president, Chas. Wilkinson; secretary, Wm. Gould; treasurer, Ed Gould; executive, J. Gould, R. Gould and A. Gould; manager, Chas. Kenney; captain, Wm. Fower. Any players desirous of a tryout will be made welcome if they will call at clubrooms, at Vermont Park, or call Manager Kenney at College 5888.

"It could safely be said—that if ninety per cent. of the odds layers today were left upon their own resources to make their own prices against horses their lack of knowledge of such a matter would be their ruin in a short time. Consequently this blanket arrangement of having one or two menedictating prices has caused every ring where odds laying exists to become a sort of syndicate affair. Mind yea, I am not saying that a person should not buy all the information he can gather for his own use for a foundation of his book, but to retain it as a mechanical arrangement or understanding is at times disgusting and disturbing to the patrons in general.

Indurated Fibreware? CDDY'S Indurated Fibreware is wood without any of L the drawbacks which are commonly associated with wooden household utensils. It is made in one piece

without joints or hoops, it will not splinter, will not fall to pieces if dropped, and is impervious to taints and odors. And with all those qualities it has all the lightness and the resiliency of wood. Eddy's Indurated Fibreware

are made from wood-pulp, ground so as to preserve the long fibres intact. It is moulded to the required shape, in a single piece, under tremendous hydraulic pressure. This welds the fibres into a homogeneous mass, stronger in texture than the original wood itself.

Washtubs, Pails, Butter Tubs, etc.

The moulds are then dipped in oil, put into huge ovens, and baked for hours with intense heat. This produces a hard, glazed surface, which is impenetrable to liquids, and which effectively wards off every outside taint.

The next time you buy a washtub, a milk pail, a household pail or butter tub, ask for Eddy's Indurated Fibreware. You will find it much easier to lift, much easier to keep clean, and much more economical than the ordinary wooden or metal container.

RED SHIELD LASS WILL DISAPPEAR

Salvation Army to Replace Begging With Annual Fund Drive.

Because the tambourine ratting Saivation Army lassie, long a familiar figure whenever the organization needed funds, has proved to be not quite efficient enough in these days of time-saving and drives for money, she is about to disappear from the streets forever. The free-will offering boxes will make their exit at the same time and to replace both the Salvation Army will each year conduct a campaign for the money necessary for its existence.

The first drive for money to be used in peace time work will begin in May, it has been decided by the executive council. A greater and more important field has been opened to the Salvation Army by the war and it is the intention of Commander Evangeline Booth, head of the organization in the United States and others of the leaders, to see that none of the prestige gained on the fields of battle is lost in the peace times that are to follow. The army's new program contemplates maintaining contact not only with returned soldiers and seamen, but with their relatives and friends also.

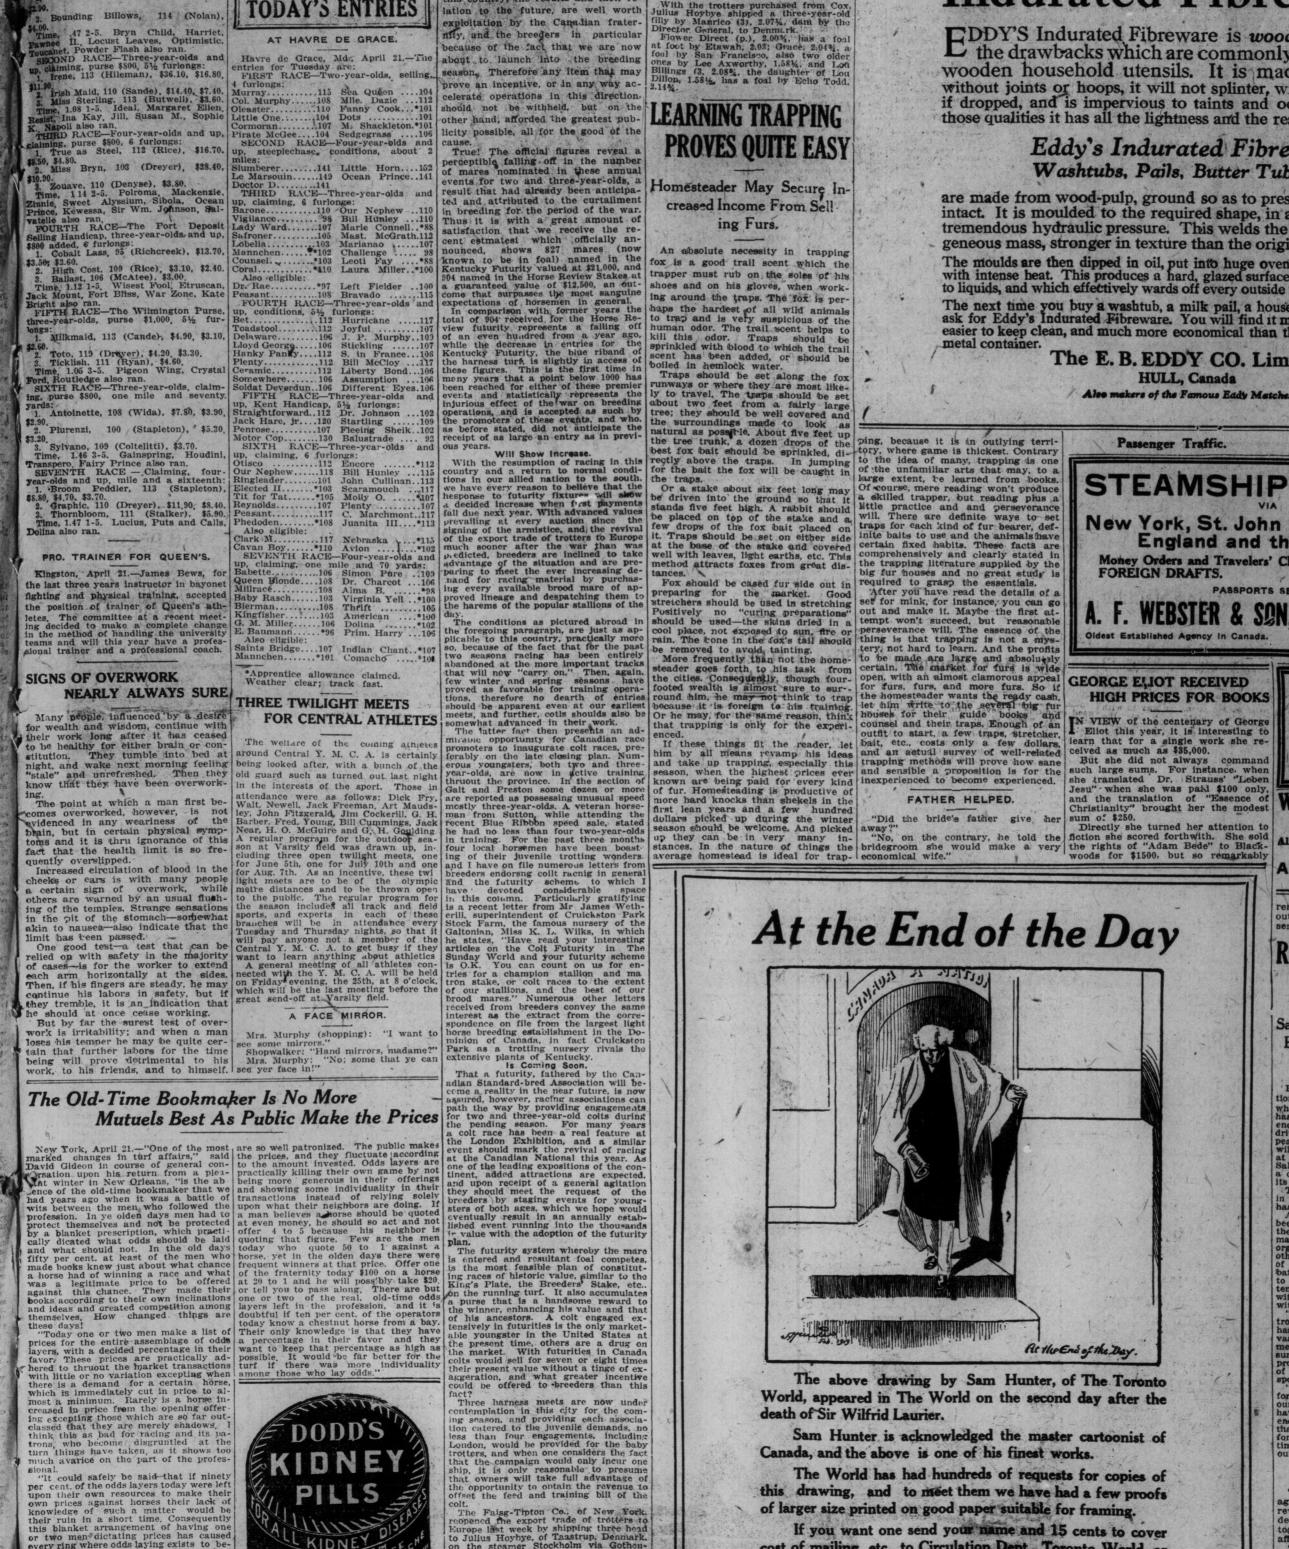

"As a result of its work with the troops of the allies, the Salvation Army has been favored by the public with a vast amount of popularity, which to us means confidence? said Miss Booth in summing up a description of the future program recently. The inevitable penalty of such popularity with consequent responsibility is an extension of facilities. "Millions of new friends now turn to us for a continuation of our service and it is our bounden duty to answer the call. We have decided to relieve the public of the endless begging and solicitation for funds that was necessary in the past, and 10 go forth in one great effort each year, meantime concentrating upon an expansion of our relief work."

A MILESTONE APART.

Two cowboys in the wild west agreed to settle their differences with revolvers. Both were dreading the ordeal. Patrick's knees, in fact, knocked together to such an extent that they affected his aim.

"Look here," he said at last to his opponent. "Will you, as a favor, allow me to rest my leg against this milestone to steady myself?"

"Yes," said the other man, trying hard to control his fears, "if you'll allow me to rest my leg against the next."

The World has had hundreds of requests for copies of this drawing, and to meet them we have had a few proofs of larger size printed on good paper suitable for framing.

the heart and blood vessels and degenerative diseases of the kidneys.

So if children escape any child's disease they are the gainers in general health by just that much. It may be that years are added to their lives or chronic invalidism avoided. Then there is the enormous risk which every child runs who has measles. whooping cough, scarlet fever, or other

Perhaps this does not agree with your idea of letting your children have these ailments when young, with the belief that they must have them some time. This old idea has cost many thousands of lives. It is time to forget it, and to put forth an effort to save the children from these

All these children's diseases are known as germ diseases, and germs are harmless to a body strong enough to fight them.

Rich blood is the greatest of germicides. Therefore, seek to keep your children's blood rich and pure by giving them wholesome, nourishing food, and by allowing them to exercise freely in the open air.

If they grow pale and weak and languid -if they fail to derive proper nourishment from the food they eat-if their nervous systems get run down from the tax of school work—use Dr. Chase's Nerve Food as the best means which medical science affords to enrich the blood and build up the exhausted system.

Children whose blood becomes thin and watery are helpless before an attack of measles, scarlet fever, whooping cough, or other contagious disease. They seem to "catch" everything that is going. They are always "catching" cold. Their resisting force is nil.

But their young bodies soon respond to the nourishing, invigorating influence of Dr. Chase's Nerve Food. As their blood is enriched they become healthy, robust and rollicking-they enjoy their foodtheir play-their work at school, and grow into strong, healthy men and women.

Head of U. S. Steel Corporation Discusses Deadlock Over Prices.

Hoboken, N.J., April 21.—Discussing the controversy between the railroad administration and the industrial board of the department of commerce over steel prices, Elbert H. Gary, chairman of the board of directors of the U. S. Steel Corporation, told its stockholdres at their annual meeting here today that if the railroad administration had accepted the judgment of the industrial board asto prices for steel products, the railroads would have beenfelted to a large extent, and business would have been stimulated. He said that the business of the carriers would have shown improvement.

Mr. Gary declared that it was the belief of the great majority of the industrial board in respect to prices was in the right direction, and that the position taken by Director-General Hines in declining to accept the prices "had very materially interfered with business progress which was in evidence at the time."

Mey York, April 21.—It is altogether likely that one of the matters to be discussed at the next general Unionist caucus which will probably be held on Wednesday or Thursday of this week is the question of the revival of track race in Canada, suspended during the war. Also Ask for \$2000 Gratuity

Sydney, N.S., April 21.—A demand for a gratuity of \$2000 for each man who has served in France is embodied in a resolution passed by the Sydney branch of the Great War, Veterans' Association and forwarded to other branches, and to the provincial command, for endorsation, before being presented to the federal authorities at Ottawa.

New York, April 21.—The harbor strike, which was in its eighth week, was settled Saturday under an agreement reached at a meeting called by Conciliator James L. Hughes of the department of labor. Under the agreement, the men return to work on a permanent ten-hour and twelve-hour day basis and leave the increase in wages to be settled by a committee of four representatives of the boat owners and four representatives of the strikers.

Chatham, April 21.—A fine of \$300 and costs was imposed by Magistrate Arnold this morning on Frank Daniels for delivering a whiskey tank to a Raleigh Township farm for moonshining operations. He was dismissed on a charge of keeping liquor for sale.

Is unknown.

Another amazing feature of the affair is that the bullet, which entered the office, had not been recovered after an hour's search by the officials. Both Judge Campbell and Crown Attorney Brennan were in adjoining offices, altho today is a legal holiday, and the other officials were out.

THIRD AND FOURTH HOME ON OLYMPIC

Toronto Units Already on Trains-Sergt: C. Barron. V.C., Also En Route.

Halifax, N.S., April 21.-The Olympic with 5500 troops, including the first, second, third and fourth battalions of the first brigade, first division, Canadian Expeditionary Force, entered the harbor at eleven o'clock this morning, docking an hour later. The units arriving on the Olympic were debarked and entrained in the

following order: Sixth Field Battery, Halifax; Third Battalion. Toronto; Fourth Battalion, Toronto; Third Tunneling Company, Toronto; First Battalion, London; Second Batalion, Kingston: Third and Fourth Field Batteries, and First Field Ambulance, Kingston; Fifth and Sixth Batteries, Montreal.

Sixth Batteries, Montreal.

Brigadier-General McCuaig, C.M.G.,
D.S.O., and Bar, was the senior officer aboard the Olympic. General McCuaig stated it was hoped to complete the embarkation of the First
Division this week. The Second Division was now all in England at
Witley Camp, and the Fourth was on
its way to Bramshott. General McCuaig was engaged as a stock broker
in Montreal, previous to the war. He
did especially fine work as one of the
original officers of the Thirteenth
Battalion, eventuelly commanding it.

original officers of the Thirteenth Battalion, eventhelly commanding it. From the Thirteenth he went to the Fourth Brigade as brigadier-general and from the Fourth to the command of the First Brigade.

The Olympic brought five V.C.'s, the largest number arriving on one steamer at this port, since the homeward movement began. Capt. C. N. Mitchell, V.C., suite 253 Guelph ave., Winnipeg, is a member of the Fourth Canadian Engineers He won the V. He tackled a machine gun nest when the advance was held up at Vine Cott. dominating the situation. killed the crew and enabled the advance to continue. Sergt. Barron was a teamster in Toronto before the war. Sergt. C. T. Ahlin, M.M., of 527 Logan avenue, Toronto, who helped Sergeant Barron clean up the machine gun nest, also returned on the Olympic. The third V.C. was Sergt. Herman Good of Bathurst. N.B. He enlisted with the 55th Battalion, transferring later to the 13th. He won his V.C. in August of last year, when he rushed two German machine gun posts, killing the crews and taking prisoners. He was decorated by the King three weeks ago.

Sergt. William Merrifield, V.C., of Sergt. William Merrifield, V.C., of Sudbury. Ont., also returned on the Olympic. He did all his fighting with the 4th Batalilon, altho he crossed to England as a member of the 27d.

Sergt. Merrifield won the M. M., at Passchendaele, and the V.C. on October 1, of last year, on the Cambrai-Droucourt road, when he rushed two German machine gun nests and killed or captured the crews. He was ed or captured the crews. He was decorated by the King on the 26th of January last. Sergt Merrifield was a fireman on the Algoma Central Raliroad, and lived at the Soo, previous to the war. He says he thinks he will go back to firing now.
