3 INCH SNOWFALL AT PARRY SOUND SOME WHERE

Almost a Winter's Day, But Warmth is Coming Soon—The Effect on Crops.

Only the coal man is happy these days. He never was so busy in May before, and instead of the customary summer cut in prices, it is said that there will be an increase very soon.

There is no necessity to look up the records. Even the oldest inhabitant can't recall such a "backward spring."

Think of it! Yesterday, May 27, and snow in the air. In Parry Sound there was a fall of three inches, and in Toronto between 5 and 7 o'clock there were several flurries of snow and sleet.

Women with furs and men with winter overcoats didn't look at all unseasonable.

But cheer up. It will be warmer to-day, and still warmer to-morrow.

The Observatory officials said late last night that the storm which had been general over the lake region, was gradually breaking up, and that during the night the wind would gradually subside.

There would still be wind enough, however, to keep off the frost and save off danger to the sprouting fruit buds.

The sensational announcement of the weather department was to the effect that there had been a snowfall of three inches in the Lake Huron district, while in parts of Muskoka there was a fall of two inches.

Many parts of Ontario. In Toronto there was the brief snow and sleet storm. This is a record.

The lowest temperature in Toronto was 38 at 8 o'clock. At Parry Sound the mercury touched the freezing point, while at Southampton it notched two degrees above, namely, 34.

It is pleasing to note that the sun is shedding some comfort elsewhere in this fair Dominion. In Alberta the thermometer ranged from 74 to 76 degrees, and in Saskatchewan from 64 to 74. This is even better than in sunny Tennessee, where it was only 60 yesterday, and 62 to-day.

The lowest temperature in London, England, where the temperature was 56 at 8 o'clock.

The heavy gale of yesterday, churning the lake into foam, and blowing wind prevailed and the daily steamers had some difficulty in reaching port on scheduled time. It was anything but pleasant sailing for the traveling public.

The wind was felt quite a lot around the harbor piers, many boats dragged their anchors and were blown to sea, and were secured before much damage ensued.

No damage to the island resulted from the storm so far. It looked as if the cottages along the sandbar will be damaged considerably should the storm walk in front of the cottages has already been carried off its supports and the spray last night was dashing against the windows.

Some of the cottages have already been carried off its supports and the spray last night was dashing against the windows.

Putting up the Widow's Stove Again

There was snow, distinct snow, that fell yesterday afternoon and evening. Exactly at 6 o'clock it was noticed by the Don Valley, where the C. P. bridges over it. It was as hard as ball and yet not too hard snow. It almost cut the face.

The Donners were disconcerted, the trying hard to present a cheerful front. Kolozs Armstrong, mayor of Wexford, and Dave were winter attire with their coats cut and had heads of moisture on the end of their noses.

In the head, For over 20 years has the mayor lived on the Don, or in its valley, and he has seen many a winter, and things so unpropitious. He had received an urgent message to come and put it up again.

Two batches of young turkeys belonging to Mrs. Pikey had all died in two nights from a shivering sickness. The cows in the dairy stables huddled together in their double stalls and tried to go to sleep before 7 in the evening, a most unusual thing for the last week of May.

The birds in the woods had lowered their notes by a tone and a half, and the throats of the crows in the nest were all red. Not one of them had dared as yet to change for the better.

"It may be in the river or it may be in the leeches, but you will see it before the weather changes," said the only man that had been in weather like this. "And fur is prime in weather like this."

"The weather will be all right in two days more," said the most ancient of the Don Valley. "I have seen many backward springs that helped to make an early harvest, and this is one of them."

We hope so, said his auditors all.

MINORITY SHAREHOLDERS UPSET STOCK DIVISION

Chancellor Boyd Holds That T. H. & B. Directors Exceeded Their Authority.

At Osgoode Hall yesterday Chancellor Boyd gave judgment in an action brought by the minority shareholders of the T. H. & B. Railway and Hon. J. M. Gibson, president of the company, and the directors, to set aside an allotment of new shares to themselves (the directors) for the purpose of increasing their voting strength.

The allotment of shares was held to be illegal.

The chancellor said that the main point rests on the manner of allotment of the new issue of capital stock. The first batch of 350 shares, the directors allotted to themselves at par, and also allotted the remaining 1850 to themselves at par without issuing a circular.

The directors, which nor intended to allot the new stock among the shareholders pro rata, but to deal with the last 1850 so as to appropriate for themselves enough shares to give them more than a two-third majority in value of shareholders.

The transaction appeared to the chancellor in principle to be in excess of the powers of management entrusted to the directors for the benefit of the shareholders, and the allotment of stock which meant an encroachment on the voting power of the minority.

The chancellor did not find any fraud to be established.

The costs were awarded to the plaintiff, including any costs arising from the charge of fraud.

The judgment shows so as to restrain voting upon the increased capital shares, and declaring that the allotment to the five directors and their appointees was in excess of the powers of directors. It is necessary of the judgment may be arranged so that the whole increased issue may be laid open to be properly disposed of, having regard to the interest of all the shareholders.

PREMIERS' BAD TASTE.

Can't Go to Italy Without Criticizing the British Government.

(C. A. P. Cable.) LONDON, May 27.—The News Rome wire states that the attitude of Premier Deakin and Lyne who, before sailing from Naples, allowed themselves to be interviewed, making strong complaints against the British government, has made a bad impression, and that they should bring their grievances aboard.

Mr. Lyne was interviewed by the Matino and severely criticized Winston Churchill. He said the minutes of the proceedings of the Imperial conference would demonstrate the "bad faith of the government in denying what Mr. Bond stated when voicing the grievances of Newfoundland."

MONTREAL, May 27.—(Special.)—The death took place today of Frank White, 50, of the late 2nd Regiment, Montreal, of Richard White, of The Gazette, aged 32 years.

CITY MERCHANTS LOSE "COOL" MILLION

Unseasonable Weather Has Had Very Damaging Effect on the Spring Trade.

If, as Flammarrion and other eminent astronomers state, Mars is inhabited, its people, gazing thru lenses at our sphere, would see many thousands of people in an attitude of despair, leaning wearily on polished shop counters, glancing towards the heavens, consulting barometers, and then feeling the loose change in their pockets.

It's the weather. Weather conditions—mightier than Harriman or Fiske, Gould or any other heavyweight financier—have in the past month, reached down and taken about \$1,000,000 out of the treasure of local wholesale men, and if anyone cares to tote up what retailers have lost because the sun doesn't shine, they can add up the number of retailers in all lines, estimate their yearly business, chop off from 10 to 20 per cent, and arrive at a figure that would have made P. T. Barnum want to put it on his billboards.

Slaves of the weather, we ordinarily wear our winter clothing till the spring environment seizes us. Then we lie to the tailor, the milliner, and the milliner, etc., and provide raiment suitable for the occasion.

This year we haven't. Spring coats and hats are not so keenly desired as in years past. The milliner, etc., and provide raiment suitable for the occasion.

A million dollars is a large order, but one of the firms of W. R. Brock & Co., admitted this figure would be about the amount local wholesalers are out. Many dealers don't realize that a keen, cold day in winter will silence the cash register of the tobacconist to 50 per cent normal business.

Here's what some wholesalers say. W. R. BROCK & CO.: The peculiar backward season affects the retailer directly, and us wholesalers indirectly. We're not buying anything very much, and to the dismay of the dealers in many lines, the gap between winter and summer is bridged as a non-profitable hiatus, and summer goods alone will sell.

OVERWHELMED

But It is Only the Little Fellow That Gets Soaked

How Train Excursion Travel Demoralizes Regular Business

The World returns again this morning to the inferior railway service that this province is receiving from the Grand Trunk and from the Canadian Pacific. As we have pointed out time after time, these two systems derive an immense revenue from the Province of Ontario and both systems centre in Toronto; but as a matter of fact, neither of them has the proper executive officers in Toronto for the efficient administration of its business.

Everything has to be settled in Montreal by way of reference, and if done in so careless and negligent a manner as to deprive Toronto and the province of the railway service to which they are both entitled by reason of the business they give the companies.

There would have been no accident at the Bay-street crossing Queen's Birthday night if an executive officer of sufficient power had been in charge of Union Station, and had discretionary power to engage a man even for a day to watch after the people crossing. The men who run most of the business at Toronto are of the rank of hired men without any authority to spend a dollar unless reference is made to Montreal; and this is the kind of service and the kind of treatment Toronto and all the province receives from the Montreal management of these two railways.

The World's contention is that the best officers in both services should be stationed at Toronto, given full charge of all the business in the province and authorized to meet and properly cover the requirements of the city and to try and accommodate the public and to do something to protect the lives of the people; but, as we said above, everything in connection with Ontario has to be referred to Montreal, where it is considered on the principle of "a Scotch and soda" first for the worry, then sent back with a request not to bother head office with the subject.

And to come to another grievance. Let us say that the time has arrived when the holiday excursion business of these two great railways must be handled in a way different from the present. For instance, the regular travelling public ought to be accommodated without any interference by excursion travel on holidays. The regular accommodation trains are now taxed by the regular travel, and for the railway companies to do their excursion business on the ordinary accommodation trains, enlarged, if it is true, by extra cars, is to demoralize the regular traffic and to subject the regular travel to any amount of inconvenience and uncalled for delay.

In England no railway can disorganize the regular travel without the consent of the board of trade, which is the government office having charge of railways. We have a board of railway commissioners at Ottawa, and they should begin to regulate this question of excursion traffic, and THEY SHOULD ISSUE AN ORDER TO THE EFFECT THAT THE GRAND TRUNK AND CANADIAN PACIFIC MUST RUN THEIR REGULAR TRAINS IN THE REGULAR WAY AND HANDLE THEIR EXCURSION AND HOLIDAY TRAVEL BY SPECIAL TRAINS.

Yesterday morning was a cold, cold morning, and at hundreds of small railway stations all over the province many people stood shivering waiting for the delayed regular train that was trying to pick up all the holiday and excursion travel incident to the celebration of Victoria Day. Some were two hours late, and so they are on all holidays. This demoralization of the railway travel began on Thursday afternoon, was kept up on Friday and Saturday and covered most of yesterday. In other words, four days' regular travel was demoralized by excursion travel; and as we have at least six or eight holidays a year, this means that at least for one-twelfth of the year the railway travel is demoralized by excursion travel; and if you take the whole of exhibition week you have 15 to 20 per cent of the railway travel of the year demoralized by excursion travel. This is one of the great reasons why the railways have not been able to give satisfactory suburban service to the country around Toronto, inasmuch as nobody can depend on suburban service: it is subject to demoralization by excursion travel for a fifth of the time. If the Toronto board of trade and the city council have nerve they will pass resolutions and ask for an appointment with the railway commission the next time it comes to Toronto and present these facts to them.

Toronto and the Province of Ontario are being retarded in their progress by the inferior service which the Grand Trunk and the Canadian Pacific are giving; by the neglect that they show for the safety of the public in this province and by the fact that there is no kind of responsible executive officials located in Toronto for the administration of all the business identified with the railway service of this province.

Ontario will not stand much longer for Montreal methods in Ontario and for Montreal neglect. There is one quick way to regulate all these grievances, and this is thru the Ontario legislature and its power of taxation. Increase their taxes and they'll improve their service. The sooner somebody arises in the legislature and exposes the neglect that the railways show towards this province, the sooner will some kind of remedy be effected. If they do not listen, then start in to rearrange the taxation.

We have neither sufficient trains nor proper protection for life, nor removal of the ban on the province, the executive power necessary to deal with the transportation of the province.

SPLIT OVER SUM THAT WAS TO GO TO FUND

Baron Lepine Tells of Negotiations With Hon. Mr. Turgeon for Sale of Land to Syndicate.

QUEBEC, May 27.—(Special.)—Baron Lepine to-day gave many details of his alleged negotiations with Quebec cabinet ministers concerning required contribution of his Belgian syndicate to the provincial electoral fund in return for a concession of half a million acres of land near Lake Abitibi.

A letter from Desjardins, the Brussels banker, was produced, in which witness was asked to arrange for payment by instalments of both the 70 cents per acre for the land and 30 cents for election funds. Desjardins came here and they talked it over, and he carried the result to more newspaper editors. The matter first fell thru because the syndicate could not put up so much. Turgeon refused the application to pay by instalments, which was offered, as follows: Fifteen cents in November, 1906, and for the other ten cents per acre per year till all was paid.

Finally a new arrangement was proposed. Fifteen cents in November, 1906, and for the other ten cents per acre per year till all was paid.

A difference arose between them, however, as to the size of this block sum. Desjardins only wished to give \$40,000. Desjardins returned here in November, 1906, and saw Turgeon, and the matter with this affair, and Lepine acted as intermediary in the matter.

When Mr. Lafamme asked what transpired between them, witness said he thought he should be exempted from answering, since, if contradicted, he had no means of offering proofs of his statements.

The court ruled he must answer. The baron declared he offered \$40,000 to Hon. Mr. Turgeon on behalf of the syndicate. The minister declared that this was too little, and demanded \$60,000. He explained that the syndicate would cost a good deal. Witness said he understood by this that newspapers would have to be paid to defend the constitution, and that the syndicate would bargain for the province, and that the balance was to go into the electoral fund.

Witness took the minister's message to Desjardins, who said the orders of the syndicate were to give no more, and that he would defend the constitution. Witness went the same morning back to Turgeon with Desjardins' message, being of the opinion that the ministers should accept the offer.

The interview took place in the private office of Hon. Mr. Turgeon in the parliament building. A Cabinet Secret.

Justice Taschereau said the witness should state what Turgeon said in reply. Witness declared Turgeon said he was unable to accept.

Mr. Lafamme: Did he give any additional reasons for refusing to accept? Witness: Yes; but what said did not refer to matters at issue in the present case.

Mr. Lafamme: Well, what additional reason did he give? Witness hesitated, and said nothing.

Mr. Lafamme: Is there anything indelicate in what I am asking you? Witness: Not in your question, but it would be for me to answer, since it would be betraying a cabinet confidence. Mr. Lafamme: This is a sentiment of delicacy due to the fact that Turgeon mentioned the name of another party in his answer.

Witness: Yes. Mr. Lafamme: Then I do not insist. And at this dramatic moment, with everybody watching the proceedings, the minister, and which the witness declined to repeat, the court adjourned.

ST. PETERSBURG, May 27.—Searches of the lodgings of social democratic deputies are now of almost daily occurrence here. The authorities have clues to several branches of the social democratic organization, which have been conducting a special propaganda.

A NOVEL METHOD. Insures Life and Makes it Over to Orphanage.

OTTAWA, May 27.—(Special.)—J. U. Vincent, a prominent barrister, will insure his life for \$100,000, the policy to be made payable to St. Joseph's Orphanage. There is a debt of \$48,000 on this institution, and the unique suggestion has been made that, in the Catholic parishes interested, a number of men should insure their lives, either by several paying the premiums, and making the policies payable to the institution. They would be for \$1000 each, and probably for either 15 or 20 years.

GOT A PAIN IN YOUR BACK?

You get a pain in your back, and you wonder what it means. You perhaps pay no attention to it. Backache is caused by imperfect action of the kidneys, in fact, is the first sign of kidney trouble to follow. The kidneys, proper, are composed of a close network of fibrous tissue, interlaced with tiny elastic fibres. Their object is the excretion of the uric acid, and other poisonous matter composing the urine, from the blood.

When Royalty Travels.

The Marquise de Fontenay writes: Queen Alexandra, who has been visiting in London, is out of the way places during her yachting trip along the various coasts of the Mediterranean. She is described as the best, exacting and most unpretentious of visitors, differing in this respect not only from many wealthy tourists of much less exalted rank, but also from other queens and empresses in the past.

Linen Facts.

Some manufacturers have adopted a plan of using any amount of cotton and imparting to it a linen finish or lustre through mangle in a peculiar manner. Not to be outdone, other manufacturers have taken up the idea of using a machine that will twist linen and cotton threads together, throwing the linen over and under the cotton in a regular way.

In the Sewing Room.

A Sewing Rug—Is a necessity when the spring or autumn dressmaking is in progress. Sew together sixteen yards of light-colored denim, or a heavy 40-foot rail, and the machine stitch all round a two-inch hem. To the back of this hem attach here and there small lead weights, such as those used on bicycle skirts. This will give the rug weight enough to keep it in place.

Are made with short sleeves and the low neck, which is quite square, round, or V-shaped. Kimono sleeves are cool and comfortable and are used for both expensive and moderate priced gowns. Puff sleeves are used on many elaborate, lace-trimmed and embroidered models, and sometimes are entirely covered with rows of valenciennes lace.

Test Shrinkage in Goods.

If you wish to find out just how much a piece of fabric is going to shrink before making up, cut off a piece, a small sample, and laying it upon a white surface, mark around it with pen or pencil, then, after a thorough washing with soap, lay it in the same place on the surface marked. You will then have a definite knowledge amount of shrinkage.

THE STORY OF THE WORLD PARTY'S TRIP TO LONDON.

Special accommodations have been secured from the Allan Line for The World party, and the ocean voyage will be a delight to all. Upon arrival at Liverpool special accommodations will be provided for the party on the trip to London via the London and North-western Railway.

The World party will stop at the Hotel Cecil during their stay in London. The Cecil has reputation among travelers as being the most delightful hotel throughout continental Europe.

Each day of the stay in London will be a continuous round of sight-seeing and amusement. The morning will be devoted to individual shopping expeditions, according to the tastes of each member of the party. After luncheon carriages will take the party to various points of interest, such as the houses of parliament, the Tower of London, St. Paul's Cathedral, Westminster Abbey, St. James' Palace, Hyde Park.

In the evening dinners will be given at the famous London restaurants, such as Cafe Royal, The Trocadero, Holborn Cafe and others. Following the dinner party each evening, The World party will adjourn to box parties at the principal London theatres.

Paris will be visited, and as much accomplished as possible during the time at the disposal of the party. The World party of Ontario women will be extended every official courtesy during their stay in London. Are you going?

Only Way of Getting O'Brien in Ring - May Fight Flynn in Los Angeles Next Week.

Tommy Burns (Noah Brusso) writes that he will be in Toronto after his battle with Squires. He says he will fight Canadian friends know weight champion of the world. Fight will be in Los Angeles on July 4, in Colma, right near "Prisco. I am starting to train again tomorrow, the promoter Prisco has no objections I may fight Jim Flynn from Colorado in Los Angeles on June 7. They say Squires is a tough man to beat, and you can gamble I am not taking any chances, as I will be in Los Angeles on the route, and I have to. It is just like a finish fight this time, as it is 45 rounds. But I am sure it will not get long into a follow fight can tell.

ONE EFFECTIVE CURE.

The City of Toronto and the City of Hamilton have both had the benefit of experience with street railway companies, and with all other monopoly companies for that matter. In Hamilton the people are getting an inferior service, and Col. Gibson, who is at the head of the traction company, tells them that IF THEY WANT A BETTER SERVICE THEY MUST GO ON HIS PAPER AS ENDORSERS IN ORDER TO RAISE THE MONEY TO GIVE A PROPER AND EFFICIENT SERVICE. AND YET IT WAS THIS VERY THING HIS COMPANY UNDERSTOOD TO DO. THEY CLAIMED TO BE CAPITALISTS. As a matter of fact, he confesses bankruptcy on behalf of his company, and appeals to the city to help him out so that he can fulfill the contract he made. What the bankrupt ought to do is to get off the job and let the city take over the road.

In Toronto the street railway seems to own the town and be free to do whatever it likes, and to do everything else but what is in compliance with the agreement. It assumes to be the sole interpreter of what it is supposed to do under the contract.

This being the case, it is for these two cities once and for ever to resolve never again to have any kind of a transaction with any kind of a monopoly franchise company, inasmuch as it seems to be impossible to get a decent service or to have them live up to any agreement which they may sign.

But there is something else further incumbent on these two cities, and that is to have the one and the only remedy that we know of put in their hands, and that is the right to expropriate. We believe that any delinquent franchise holding company can be dealt with if the right of expropriation is held over it, but our view is that we should not only have the right of expropriation, but that we exercise it at the earliest possible day, and once and for all take back these franchises and run them in the interest of the city and adopt them as public ownership enterprises.

And the men who profess to back a public ownership policy should begin an agitation for such amendments to the law of this province as will enable any city to take over any street railway or other franchise. We have made it the law that electric light companies can be taken over; we must go a step further and make it the law that street railway companies may be taken over.

FUTURE OF U. S. RAILROADS.

Ohio Columbus Barber, the head of the great match monopoly of the United States, has clear and distinct views regarding trust regulation. In an interview which appeared recently in The New York Press, he said, in answer to the question, "What ought to be done with the trusts?"

Bring them under the law; give them the same treatment that is being administered to the railroads. Up to date, I am free to say, however, the railroads haven't complained very much. Freight rates have not been reduced, and fares are only slightly reduced. The railroads have supplied the legislation. But congress will hit the right idea by and by. The future of this nation is wrapped up in the transportation

get about quickly is the most important matter before the country.

In Mr. Barber's opinion, the railroads needed regulation, standing, as they do, close to the people in all their material interests. The railroads, he considers, are unsound, as purely business propositions, and should be thrown together that waste may be stopped.

I would put all the railroads into one ownership and management. Then I would provide for needed extensions, for maintaining the physical property, for the adoption of practical inventions and for an annual dividend of 4 per cent. on the stock. Freight rates would tumble, people could travel for a cent or a cent and a half a mile, and there would be a stable investment security for the public.

On the question of capitalization, Mr. Barber instanced the Northern Pacific stock, standing at \$16 a share, when it was in low years turned over to the Northern Securities Company at \$100 a share, with a corresponding increase of capital. Now the people have to pay dividends on that "hood of action." Capitalization, in his view, "ought never to be any greater than the actual value of the property. If water is wanted let us follow Germany, where the excess of capitalization is put into the form of participating certificates, on which dividends are never expected unless there is a surplus above everything else." But, with public opinion enlightened as it now is regarding the methods of high finance, the question is not the introduction of "water" in any form, but the squeezing out of the "water" that has got into the stock of every public-service company.

Mr. Barber's remedy for stopping waste in the operation of the railroads is their consolidation into a single private ownership, under efficient regulation. But the true remedy is consolidation by means of government ownership. That this latter solution of the problem is daily attracting more public attention is evident from remarks made the other day by B. S. Grosscup, general western counsel for the same Northern Pacific, after an interview with Senator Daniels and other Washington people. A conversation with them "revealed that the government control of railroads will be the big issue of the day, and revealed a surprising abandonment of party lines. The railroads," said Mr. Grosscup, "will curb expenditures as much as possible until after the presidential election. Two solutions of the railroad question would be national issues. Either states must abandon attempts to regulate railroads by legislation and turn over the matter to the national government to regulate rates on an equitable appraisement of the value of railroad property, or there will be government ownership."

This latter, he said, will inevitably follow a refusal on the part of the states to turn over control of the railroads to the government.

HOME RULE IN BRITISH POLITICS

Mr. Birrell's Irish council bill is likely to have consequences unforeseen by its sponsors, unless, indeed, their intention was to cast an apple of discord into the ranks of the Nationalist party. The fact, which seems to be tacitly admitted, that the terms of the measure were known to Mr. Redmond and his chief lieutenants, and were, if not actually approved, at least sanctioned as an instalment to be accepted, has placed the Nationalist leader in an unfortunate position, which his subsequent action has not restored. By moving the rejection of the bill at the Nationalist convention, after doing his utmost endeavor to obtain its acceptance, he has practically admitted that he no longer controls the Irish political situation. Loss of power in circumstances of this kind means not only loss of prestige, but his effacement as a practical force in parliament. And although the issue is a severe blow to their pride, it undoubtedly relieves the government from the incubus of Ireland and its home rule aspirations—for a time.

The extremists of the Irish party are now comparing Mr. Birrell's bill, very much to its disadvantage, with Lord Dunraven's devolutionary proposals, which, it is alleged, on problematical authority, would have been adopted by Mr. Balfour's government, but for the opposition of the Irish parliamentary party. This may have been at one time a possibility, but if the late government ever had a leaning in that way, it wilted before the storm raised by the Ulster Unionists. Their reception of the Irish council bill does not warrant the belief that they are any readier to place themselves under an Irish administrative body than they were under an Irish parliament. Looked at broadly, the rejection of Mr. Birrell's measure can scarcely fail to delay indefinitely government reform and relegate home rule to a yet more distant future. Certainly, unless the unexpected happens, the next general election will be fought mainly on the issue of fiscal reform, coupled with an imperial preference, and the present ministry will hardly dare to go straight for home rule in presence of the fact that its strongest members are hostile to that policy.

INDIA AND AN IMPERIAL PREFERENCE.

British free importers are in the habit of sustaining their case against the establishment of an imperial trade preference by an appeal to the case of India. At the recent conference Sir James Mackay appeared as the representative of the great eastern dependency, and spoke in support of the attitude assumed by the chancellor of the exchequer on behalf of the present British government. No doubt, as Mr.

Bonar Law remarked, in a paper on tariff reform as affecting India, read before a meeting of the East India Association, the government felt lonely at the conference, and deemed it a master stroke to produce something which they could call the voice of India, to set against the unanimous opinion of the self-governing states in favor of preference. But Sir James Mackay was in no proper sense representative of Indian opinion, nor even of the Indian government. He is, indeed, a member of the Indian legislative council, but his appearance was due to the fact that his personal views agreed with those of the British government that selected him.

It is undeniable that opinion, both Anglo-Indian and native, favors the protection of Indian industries, and that the free import system now prevailing is continued through the pressure exercised by the British government, largely at the instance of the Lancashire cotton manufacturers. Only a few years ago, when an import duty for Indian revenue purposes was imposed on cotton fabrics, the proposal was strongly opposed by the Lancashire interests and was only sanctioned on condition that a countervailing duty was levied on native products. Were India left to herself, or to those whose interests lie in India, it cannot be doubted that the Indian market would be protected, in support of Indian industries. Whatever may be said from the British point of view in favor of free imports into India is beside the question of the true character of Indian opinion, and it would be better for the British government frankly to admit that her fiscal system was established and is maintained for the benefit of British, not of native industries.

In this connection it is important to note that among the objects of the Swadeshi movement is the protection of native manufactures. Nor should it be forgotten that the British duties on coffee, tea and tobacco, forming an important part of Indian imports into the United Kingdom, are enormously high. This point touches the argument set out by Mr. Balfour, that instead of levying extravagant duties on a few articles of general consumption, the preferable course would be to impose smaller duties on a greater number of such imports.

Sir James Mackay contended that India exported largely to foreign countries, and that a protective system might lead to reprisals on their part. But he defeated his own argument by admitting that these exports were practically all in raw materials, and as Mr. Bonar Law pointed out, foreign tariff systems are based on the principle of encouraging the importation of raw material and discouraging that of manufactured articles. The position of India depends entirely on the point of view taken, and if the interests of India alone are taken into account, it is inconceivable that, as with the new Britains, these would be best served by the adoption of a protective tariff, along with a system of imperial preference.

THE NEW TYRANNY.

Editorial World: The two letters which appeared in your issue of Friday last (May 24), under the heading respectively "The New Tyranny" and "Beam and the Mote," were so obviously prompted by one and the same sentiment, viz., hostility to democracy, that I have no need to say, in reply, with your permission, may not be out of place. I have not read your letter, but I have seen the editorial to which both of your correspondents referred, but which would not in any case, I opine, materially alter my views, as expressed in my reply to the two letters in question.

In the first place, both the authors of those letters make direct, reckless and sweeping attack upon a certain class of gentlemen for doing what they honestly and intelligently consider to be their duty in setting their faces against the evils of gambling—evils so apparent to even the most impatient intelligence, that no defence of such action on the part of clergymen in denouncing this evil would appear necessary to any person possessed of ordinary common sense, and free from prejudice.

Surely no one with any accurate knowledge of the subject or endowed with ordinary reasoning faculties, can truthfully assert or successfully contend that betting, as commonly understood and indulged in, on the result of a horse race, is a game of chance, or that the inevitable disastrous results (either immediately or ultimately), to one or other, or both of the contracting parties, or their relatives, friends, etc., being so evident from every point of view—and every time, in a greater or less degree—that they surely need no particular specifying, detailing, or adorning as corroborative evidence in this connection.

AMUSEMENTS

To those who know the conditions of the slums of East London, the play of "Widowers Houses" appeals with peculiar force. But even without that knowledge so strong is the human interest that it deeply interested the large audience at the Princess last night and earned the capable company who presented it continued recalls. As is the manner of the dramatist, he manages to make the play a vehicle of his satirical wit and also to convey more by innuendo than directly a valuable moral lesson; all that not by plays to the gallery, but by revealing through patient self-deception the power of money and the power of love.

Mr. Harry Trench, who enjoys an income of £700 a year, derived through investments regarding which he has never been involved in any accident, falls in love with Blanche Sartorius, daughter of a slum landlord whose exactions enable him to pay not only the rent but to French aristocratic aunt, but the interest on his invested money. When he learns this he refuses the hand of the prospective fiancée, and proposes to settle on her, but ultimately succumbs to the dual temptation of profit and love.

The real secret of George Bernard Shaw's and the motive is slight it is developed with admirable art. All the characters are no doubt strikingly drawn from behind which Shaw shows the pointed arrows of his wit. But yet they are sharply individualized and each is given his own characteristic line. However small the cast, this leads the verisimilitude necessary for artistic purposes and is the real secret of George Bernard Shaw's dramatic power.

The company that presented "The Widowers Houses" last night, "The Playhouse," is a company of which the character of William De Burgh Cokane, with his care for the superficial courtesies of life and his devotion to the moral, was admirably portrayed by Mr. Kelsey, while Miss Shannon as Blanche Sartorius proved equal to the changing emotions of the heroine. Miss Winona Shannon as the parlor maid deserves more than a passing word of commendation.

"CHARLEY'S AUNT"—GRAND. "Charley's Aunt," that amusing comedy by Brandon Thomas, which was presented here earlier in the season, was revived last evening at the Grand and amused a large audience, so long as this comedy continues to be presented by a capable company, such as the Grand, it is sure to continue in public favor. It is one of the most delightful of productions. The plot is clearly constructed, the dialogue bright and witty, and the situations humorous. Etienne Girardot appeared in his original role of the "Fanciful" Babberly, "Charley's Aunt," and notwithstanding the thousands of times he has appeared in the part, gave a finished performance, a perfect model for those who had witnessed the comedy for the first time, but also to those who renewed their acquaintance with Donna Lucia, "from the nut" where the nuts come from." Frank Hollins, who has a large number of friends in Toronto, again appeared as Babberly, a chum of Lord Babberly, while George Le Gros interpreted the role of Charley Wyckham. Both gave splendid support, and the comedy was a success.

"VAUDEVILLE—SHEA'S." A splendid performance is given at Shea's this week, and large audiences are attracted to the vaudeville. The "Flood Bros." the acrobatic merry-makers, do a few turns that are surprising as well as amusing. For and Sever, sing some new songs and have some new jokes. This week sees the first appearance of the comedy duo, Grant Gardner and Miss Marie Stoddard, and in their merry music and dancing act they certainly appeal to Sheagrove's Garden. Arden, George Abel & Co. present a one-act sketch filled with funny and perplexing situations. ARRESTED IN SEWER. Fracas Ends in Shooting After Guitar is Smashed. Deep into a sewer on West Queen-street went Detective Kennedy yesterday afternoon to arrest Samuel Piere, an Italian laborer. The detective lodged his man in No. 12 Centre-street, with shooting with intent to kill Frank Ninna, a fellow-countryman, who lives in room 12 Centre-avenue, two doors north of Piere.

The trouble arose on the night of Friday last, when it is said that Ninna broke a guitar on which Piere performs. A melee ensued and it is charged that Piere fired a shot at Ninna, who bears powder marks behind his right ear.

A revolver with all chambers full and a box containing five cartridges were found on the Piere premises.

Action For Damages. Thomas Henry Carter has issued a writ against Holthby Brothers of Toronto, claiming unstated damages for negligence. He got his back broken by the collapse of a crane on January 1, 1907, while he was engaged in the erection of a building on the "Currie claim of J. B. 32." Craig having failed to appear on the notice of defence, the writ was set aside, and application was made to the court by Murray to strike out the statement of defence. Master-in-Chambers Cartwright directed that Craig attend for examination at North Bay on Friday next.

Switchman Killed. John Lewis, a switchman, employed by the Michigan Central Railway, in attempting to couple cars in the company's yards at St. Thomas in January last, was killed. His father brought an action against the company, claiming unstated damages. Upon consent an order has been issued dismissing the action, with costs.

Sale of Mining Lands. E. B. Clarkson, a Hamilton manufacturer, and A. F. MacLaren, a manufacturer of Stratford, have an action pending against Jacob A. Jacobs of Montreal, D. M. Stebbins of New York, and others, claiming specific performance of an agreement to sell certain mining lands. J. B. Woodworth of Toronto, one of the defendants, moved before Master-in-Chambers Cartwright for an order striking out the statement of claim as embarrassing and requiring the plaintiffs to amend. After consideration, judgment has been given, directing that the statement of claim be amended, and that the costs of the motion be to defendant in any event.

Action For Injuries. When the steamer "Monarch" was wrecked, William Farquhar sustained certain injuries, for which he claimed damages against the Northern Railway Company. The action has been settled, and an order, issued by the court, on the consent of both parties, dismissing the action, with costs.

Action Settled. The action brought by the Canadian General Electric Co. against the Gait, Preston and Heslop Street Railway Co. has, on consent, been dismissed. Each party pay their own costs.

Appeals Against Award. Robert Davies of the Don Valley Brick Works is appealing to the court of appeal from the judgment given against him by Judge Mabee at the trial of the action brought against him on Saturday afternoon in addition to the performances on Friday and Saturday nights. The cast is headed by Robert Stuart, Peter Stewart, Gordon Douglas A. Paterson. The supporting company includes Miss Alice Wallace of Port Hope, Miss Evelyn Bliss, Miss Alice Denzil, Egbert Durand, Gordon Muir, Miss Lucy Doyle, Harry Smith, Miss Donald O'Neil, Miss Kate Wil-

Tragedy at Bright—Michigan Druggist Goes Home for Awful Crime.

A double tragedy, which occurred on Friday evening last in the village of Bright, 18 miles northeast of here, has been discovered, involving the lives of Miss Jennie McKie, aged 71, and her son, William McKie, aged 47, formerly a well-known school teacher of Cass County, Michigan.

The facts, as known, are as follows: William McKie, for the last 15 years a successful druggist at Kalamazoo, Michigan, reached home for the only time since first leaving it, Friday evening last at 5 p.m., via the C.T.R. He was seen to go to his home, and John McKie, a brother of the murdered woman, and his wife were at the house, staying for supper. They noticed nothing peculiar in his manner or appearance. Neither he nor his mother was seen alive again.

Miss McKie was found in bed, evidently having been drugged while asleep. William McKie, the murderer, was found in a half-dressed condition, with a handkerchief, which had been soaked with the liquid, in one hand, and a six-ounce bottle of chloroform half-empty in the other.

The discovery was made late Saturday afternoon by David Waugh, a baker who called at the house on his rounds. He immediately told others, who notified the authorities. Coroner Dr. Hotson of Inverkip and Crown Attorney G. Oliver Clark, in charge of the affair, and deemed an inquest unnecessary, in view of the circumstances.

No motive has been established whatsoever. Miss McKie, the mother, was never married. The father of the murderer is said to have been a Russian military deserter. Little is known of him, however.

The funerals take place to-morrow to Chesterfield Cemetery.

IMMIGRATION OFFICERS ARE CHANGED ABOUT

Conditions Found to Be Unsatisfactory and Reductions in Salaries Follow.

WASHINGTON, May 27.—Following the general plan devised to supervise the work of the various branches of the department of commerce and labor, Secretary Straus has within the past three months caused careful investigations to be made of the various immigration stations.

At Niagara Falls, conditions were found to be far from satisfactory. The department first had an enquiry made there by Inspector Clark, in charge of the Canadian border. Upon receipt of his report, the secretary empowered James B. Reynolds to investigate the station at the Niagara Falls station.

The inspector in charge, Joseph Francis, is reduced in salary from \$6 a day to \$1800 a year, reduced in rank to the grade of inspector, and transferred to Port Huron, Mich.

Inspector Ellis E. Felleman is reduced in salary from a day to \$1900 a year, and transferred to Vancouver, B. C.

A resignation of Interpreter Joseph Rothman is accepted. Inspector Ernest C. Steward is reduced in salary from \$1600 a year to \$1400, and transferred to Neche, N. D.

John Zubrick, inspector in charge at Detroit, Mich., is transferred to Niagara Falls and placed in charge there. Inspector G. Oliver Frick of Toronto is promoted to be inspector in charge at Detroit, and his compensation is increased from \$5 a day to \$2000 a year.

Abraham Lincoln's Drawing-room Suite. An interesting exhibit of furniture, which belonged to the great abolitionist President of the United States occupies the east window of the John Kay building, 200 West King-street. It consists of a rosewood parlor suite and centre-table, designed in the rococo style and quite elaborately shaped and carved.

The set forms part of a bill of furniture sold by Mrs. Abraham Lincoln for the sum of \$2084. An itemized receipt, duly receipted by Mrs. Lincoln, is also shown. The purchasers were close personal friends of President Lincoln, and the furniture still remains a

SALARY INCREASES GO CITY COUNCIL AGREES

Ald. Foster Finds Little Support in Onslaught on General Advance.

The civic salary increases had smooth sailing when brought up before the city council yesterday. Not a single reduction was made from the list as submitted, while several additions were made.

Apart from Ald. Foster, no one seemed to have any interest in opposing the advances, and he stood alone in regard to most of the items.

The only measure of support he received at all was on his motion to cut the increase from \$100 to \$200 in the salary of Joseph Harton, receiving teller in the city treasurer's department, Ald. E. Hales, Chisholm, Bengough, Whytock, and Vaughan.

Ald. Foster opposed the increase to all the heads of departments, asking that Dr. Sheard's \$1000 increase be reduced to \$500, and City Treasurer Coady's \$1000 advance by \$400, objecting also to adding \$500 to the property commissioners' stipend of \$2000, and of \$300 to the city architect's \$2000 salary.

Some Inequalities. Apparent inequalities in the schedule of increases proposed for employees of the street cleaning and scavenging department were brought on a long discussion, the upshot being the referring back of the schedule.

Ald. Foster made a particularly vigorous and original suggestion, that the salary of J. M. Goodall, general superintendent of the parks department, from \$1200 to \$1500.

The salary of A. H. Clark, secretary of the city department, where his salary was \$1000, was also raised \$100, at the instance of Ald. Geary, who suggested also that the city engineer's salary be raised to \$6000, but there was no visible enthusiasm, and the proposal was laid over.

Some Additions. Ald. McBride succeeded in having added to the list increases for seven foremen in the refuse branch of the works department, from \$13.20 to \$14 a week; also yearly increases of \$50 each for the 15 waterworks inspectors and meter readers employed by the city.

Ald. Geary's suggestion, Samuel Baird, assistant collector for Ward Three, was given an increase from \$1150 to \$1250.

Ald. Vaughan tried to have the salaries of police and court clerks C. Morrison, A. Webb and T. P. Best increased by \$100 each. The matter was laid over for more information.

OBITUARY.

Levi Fairbanks. At the age of 80 years Levi Fairbanks, one of the best-known country auctioneers in the province, died yesterday of Bright's disease at his residence in Whitby. For over 46 years Mr. Fairbanks had been actively engaged as a professional public salesman in Ontario County and has sold for many noted stock breeders in Toronto, London, Barrie, in the townships of Innisfil, East Nissour and as far east as Cardinal.

Deceased was a native of Toronto, and resided at his father's home at the corner of King and Church-streets, in 1827.

In his youth he studied law in the office of Cameron, Brock & Robinson.

Will Close on King Street. The closing of the unique smoking parlor at 49 West King-street, which has been regretted. At first it was thought that G. W. Muller would maintain both the new store in the Traders' Bank Building and the one which has become so familiar to Torontonians and to gentlemen from all parts of Canada.

All the fine furniture and the rare bric-a-brac in the old place are being sold, as the new store is modeled on entirely different lines. A scientific care of the exquisite aromatics imported cigars was the first study of Mr. Muller, and he has ably demonstrated his right to the reputation which he has gained in the tobacco world.

ASK RAILWAY BOARD TO GUARD CROSSING

City Will Lay All Facts Before Commission—Horse Market for Stanley Park.

Ald. Church aroused the ire of Controller Hubbard yesterday's council meeting by accusing the board of control of having daily-dialled with the level crossing question. The discussion arose out of the mayor's suggestion that the controllers deal with the alderman's resolution that the Dominion and provincial governments should originally have been instructed to prevent the railway for the Victoria Day fatality.

Ald. Church thereupon attacked the policy of the board for several years back. The controllers had been instructed last year, and he charged many other sins of omission. The city engineers and city solicitor's department were asleep. A resolution moved by Controller Harrison and unanimously carried, asked the city solicitor should be instructed to present to the commission the facts regarding the Esplanade tragedy, and ask that the commission order such protection and regulations at the Bay-street crossing and at Yonge-street as were considered necessary.

Another motion by the controller asked that in view of the urgent necessity of a bridge at Yonge-street for the protection of human life, the Corporation Council should be asked to "use every effort to insure that the appeal to the court of appeal will be heard at the present session of the court." This was also carried.

The much discussed horse exchange will be established on Stanley Park, and the city council, after considerable further debate on a theme previously well threshed out, deciding by a large majority not to stand in the way of the horse exchange.

For the exchange, Controller Harrison, Ald. Keefer, Whytock, Little, J. Hales, E. Hales, R. H. Graham, McMurich, Adams, McOchie, Vaughan, J. J. Graham, Chisholm and the mayor.

Against: Controller Hubbard and Ward. Ald. McBride, Foster, Bengough and Ald. Vaughan.

Controller Hooker, who was called away, arranged to pair with Ald. Church.

It was not till well on to 11 o'clock that the matter was reached, consideration of the civic salary increases having made a night session necessary.

The matter was shown with the recommendation of the board of control that the city co-operate with the Dominion government for the purchase of a block of land to be jointly used for playground and drill purposes, bounded by Agnes, Chestnut and Armoury-streets, and University-avenue.

Ald. McBride made a strong protest against paying \$1000 to the Northwest Ratepayers' Association for expenses said to have been incurred thru the city investigation, but the item carried.

B. B. Byckeman appeared on behalf of the ratepayers, and expressed a desire to erect a refreshment pavilion in Riverdale Park was opposed by a large number of neighborhood residents. Council voted against allowing the pavilion.

The proposed outlay of \$1500 on a new auto for City Engineer Rust was objected to by Ald. Foster and Ald. Whytock. The vote showed Ald. Whytock, Chisholm and Lytle also opposed.

EXPRESS RATES.
It is a satisfaction to hear that the express rates are being enquired into by the railway commission. It will be more of a satisfaction to all concerned in doing business with these companies to know that they will have to prove the justice of their charges. The fruit men of Ontario, the stock-breeders and others demand a better service at a closer rate.

One of the big evils is where each express company charges full express rates for the total distance between shipping points, when the parcel happens to be carried partly by each company. The carrying corporations exist in a peculiar manner to the welfare of our people. Almost as much responsibility rests upon them as upon the postal department, and if a better rate cannot be secured by a privately-owned utility, let us have government ownership now.

WHAT'S THE MATTER?
Ontario Does Not Raise Enough Sheep and Wool is Too Low.

According to The Breeders' Gazette, a Chicago man, who spent last week in Ontario picking up 500 rams to send to Idaho, said: "Canada's lamb crop will be light, winter having hung on persistently over there. The result of this will be little Canadian mutton on the Buffalo market next fall. Canada is not participating in the sheep development on this side of the line, and in Toronto not enough live mutton is available to supply local demand. I was given an order for a load of sheep by a Toronto butcher, and I believe it is the first instance of mutton being bought in Chicago for shipment to a Canadian point. Ontario is an ideal sheep country, but they are not getting our prices for wool, 16 cents being bid for the kind that sells in Michigan at 25 to 30 cents. I cannot account for it, except that buyers are stealing it. If Ontario had access to our market it could get rich growing wool and mutton."

AGRICULTURAL CLASSES.
Farming Will be Taught in Six Ontario High Schools.

The six high schools in which the provincial government has decided to establish agricultural classes are: Collingwood, Galt, Essex Centre, Perth, Morrisburg and the new one at Owen Sound. The teachers have not yet been chosen, but will be graduates of the Ontario College of Agriculture at Guelph, and will be trained in the department of agriculture.

BUTTER IN CASKS.
J. B. Jackson, Canadian commercial agent at Leeds, England, writing home, says that Canadian butter shipped to the North of England markets should be sent in casks. Practically every dealer makes this suggestion: "Box packing has not been associated with inferior butter in the North of England that Canada's present system of sending butter in boxes is simply ruining her chances of making any decided impression on the large imports of continental and other foreign butters. In fact, it is said that for this reason alone Australia's attempts to compete in the North of England markets is not so successful as expected."

The reason is not far to seek; the North of England is the stronghold of the Danish butter trade. Two-thirds of all the Danish butter imported into England is received from special butter steamers. Creamed butter, in Hull, Guelph and Grimsby, and immediately on being landed is distributed by fast express trains to the various centers. Canadian butter also would appeal much more to the public in the North of England if it were not so "highly colored." It should be made as near approaching a very pale straw color as possible, and should not be salted more than one-half as much as in Canada.

INTERNATIONAL HORSE SHOW
The premium list of the Great International Horse Show to be held at Olympia, London, England, is as follows: It is an important book containing a list of 124 classes. A novel feature of it is that besides the entry blank there is included an application for insurance of horses against death by accident, violence or disease to the underwriters at Lloyd's. The judges listed are: George C. Clausen, American; E. H. Cooke, England; Hackneys in hand; Sir H. F. de Trafford, Bart., England; J. P. Dupuch, Belgium; Sir Gilbert Greenalk, Bart., England; harness horses; J. T. Hyde, Kroyen, Belgium; polo ponies; Col. F. L. DAVIDSON'S SHORTHORNS DRAW AMERICAN BUYERS

A Record-Breaking Sale of the Celebrated Herd at Sittytown Grove Farm, Balsam—Big Average

Sittytown Grove, Balsam, Ont., the beautiful farm home of the late James J. Davidson, ex-M.P., and the present home of his namesake and son, was the scene of a banner sale of shorthorn cattle on Empire Day. Nature had supplied everything to make the day enjoyable and hundreds of people were present. Nearly every stock farm in Canada was represented, while several of the states of the Union sent over eager buyers. Hon. John Dryden, just home from his Irish trip; Peter Christie, M.P., Charles Calder, M.L.A., of South Ontario, were interested listeners.

An improvised ring and stand had been constructed under the old apple trees of the big orchard. Three auctioneers, provincial and continental reputation aided in the dispersion. Col. Bellows of Marysville, Montana, traveled all night from the Chicago sale to reach the place. Capt. Robson of London and George Jackson of Port Perry are well known provincial pure breed stock auctioneers.

Col. Bellows, in opening the sale, dwelt upon the great work of animal breeding carried on by the late James J. Davidson and his sons. The industry and progressiveness of the Canadian people, and the presence of so many prominent men, were themes for a few well-chosen remarks.

Speaking of the shorthorn world, the Jolly colonel ventured the opinion that shorthorns were coming into their own again. The recent sales in the range country led him to believe that the ranchers wanted more shorthorn blood from their herds. A few words from Hon. John Dryden and Mr. Herbert Miller of Stouffville preceded the entry of the first animal into the ring. In all, including a large number of calves, 48 head were sold for \$10,185, or for an average of \$211.77. Among the Ontario bidders, J. J. Gibson of Denfield, J. M. Gardhouse of Westport and the Millers of Brougham were purchasers. Many American buyers secured valuable animals, while the future of the breed there is bright. The sale of choice animals have been secured. They were purchased under the guidance of Mr. A. W. Montgomery of Leamington, Ontario, who is a most discriminating judge.

James Davidson, one of the successful farmers of the United States, and a son of John Davidson of Ashburn, was one of the most successful breeders of the recent market of the Deseronto farm of the Rathbun Company, which he brought into a good producing shape.

The commercial agent of the Canadian government, Mr. J. A. Jones, Newfoundland, reports that hay there is 140 per ton, and no baled hay would be as yet. Canadian exporters would do well to risk a shipment there.

A. G. Bright of Meaford, in writing to the Toronto World, says: "I am in conflict with the express companies. There is so much injustice in rates and discounts against certain places that no person who has any business with these companies can be blind to the evils."

Robert Holtby of Manchester purchased a fine Clydesdale mare at the Davidson sale. Bob has become quite a Clydesdale fancier and has secured several imported animals recently, as well as being a heavy purchaser in Western Ontario.

Peter Christie, the popular representative of South Ontario in the Dominion horse show, is an enthusiastic admirer of Canada for the Canadian horse country for the young man, genial Peter thinks the present age is unequalled in any time place.

Donlands Farm, York County, has the nucleus of a good Yorkshire herd. Several choice females are already on the farm, and with the introduction of the best blood that can be obtained, the swine from this big farm should give a good account of themselves.

The amount of wire fencing that is going on in the country really surprises the traveler. So many good brands are being made that long stretches are being erected. Every farmer is doing little and they are generally taking an interest in the appearance as well. Many rolls of the Price Lambs and calf wire are being unloaded at nearly every station.

Walter Mercer of Pickering, who is an expert at the erection of the Crabpatent rail fences, is putting up 200 rods of this serviceable fence on the property of Frank Elliott & Son in Tottenham, York County. The fence presents a pleasing appearance when put up, and utilizes the old cedar rails, so that a very cheap fence will last several years.

OFFICIAL REFEREE.
Canadian Dairy Commissioner J. A. Huddick has announced that a real division will again station an official divider and cheese referee in Montreal. In view of the representations made by salesmen the referee will select goods only on request of both buyer and seller this season. Certificates as to the quality of the milk will not be made but will be made out according to standards adopted two years ago. Both buyer and seller will be furnished with a report on the quality of all stock officially examined.

GOOD HORSE SHOW.
Cannington held a very fine horse show on Saturday, when choice animals from four counties competed. The breeding classes were of fine quality and good individuality. J. J. Davidson and Charles P. Manchester delivered a driving class and turnout. Port Perry and Oshawa were the winners. A. J. Matheson, provincial treasurer, delivered an excellent address. G. Alan Smith of Sandwich was the judge of the horses and gave general satisfaction. Cannington and North Ontario ought to be proud of their horse shows.

CLYDESDALE SALES.
The Clydesdale mares sold at Davidson's sale at Balsam on the 24th averaged about \$300 each for the five sold. They were a choice lot of animals.

Battery's March to Petawawa.
KINGSTON, May 27.—The Royal Canadian Artillery, which will not return until Wednesday or possibly Thursday, and the others are holidaying in other parts of the province.

Wood's Peppermint Cure.
The Great English Remedy, Wood's Peppermint Cure, makes now the most effective of all cough and cold cures. Sold by all druggists or direct from the proprietor, The Wood's Peppermint Cure, Toronto, Ont.

New Bailiff Appointed.
Alexander E. Bessons of Cold Spring has been appointed bailiff of the 5th division court of Northumberland and Durham County. He succeeds O. Dean, who resigned.

THE FARMSTEAD

A grand rain—Public ownership grows.

The farming pages do move. What about a dairy show? Davidsons had a record shorthorn sale. Holsteins sold well at Brockville. More should have come west. Corn planting will be general after the rains. The meadows have been given a new lease of life. The Clydesdale Association intend to make Canadian Clydesdales as good as have been.

THE FARMERS' GOOD LOT

MOST VALUABLE NOW

The importance of planting and protecting the seedlings—E. J. Zavitz's Report.

Farm forestry is becoming more and more a live question in Ontario. The increasing value of farm timberlands bears evidence of the great wealth that will accrue to those acres which grow some good, choice trees. Already some work has been accomplished in Ontario, and, happily, every farmer has it in his power to plant trees on the fence lines or in the waste corners of his farm. It wants land, planning the size of the plants used and the method of planting, and it wants to stock an acre with a very small outlay, as will be shown later, says E. J. Zavitz in his last report.

THE FARMERS' GOOD LOT

MOST VALUABLE NOW

In order to carry out co-operative work at the A.C.C., it has been necessary to develop a plan to produce planting material. We have now two nurseries producing stock of native and foreign trees. The one nursery is devoted to growing evergreens, and the other, which is on heavier soil, is producing hardwoods.

In the evergreen nursery we have the following plants: White pine, one-year-old seedlings, 150,000 plants; white pine, three-year-old transplants, 45,000; white pine, four-year-old transplants, 15,000; Norway spruce, one-year-old seedlings, 50,000; Norway spruce, five-year-old transplants, 15,000; Scotch pine, two-year-old transplants, 15,000; Scotch pine, three-year-old transplants, 15,000; arbutus, one-year-old seedling, 25,000; arbutus, three-year-old transplants, 15,000; Scotch pine, one-year-old seedling, 15,000; Scotch pine, two-year-old transplants, 15,000; Scotch pine, three-year-old transplants, 15,000; Scotch pine, four-year-old transplants, 15,000; Scotch pine, five-year-old transplants, 15,000; Scotch pine, six-year-old transplants, 15,000; Scotch pine, seven-year-old transplants, 15,000; Scotch pine, eight-year-old transplants, 15,000; Scotch pine, nine-year-old transplants, 15,000; Scotch pine, ten-year-old transplants, 15,000; Scotch pine, eleven-year-old transplants, 15,000; Scotch pine, twelve-year-old transplants, 15,000; Scotch pine, thirteen-year-old transplants, 15,000; Scotch pine, fourteen-year-old transplants, 15,000; Scotch pine, fifteen-year-old transplants, 15,000; Scotch pine, sixteen-year-old transplants, 15,000; Scotch pine, seventeen-year-old transplants, 15,000; Scotch pine, eighteen-year-old transplants, 15,000; Scotch pine, nineteen-year-old transplants, 15,000; Scotch pine, twenty-year-old transplants, 15,000; Scotch pine, twenty-one-year-old transplants, 15,000; Scotch pine, twenty-two-year-old transplants, 15,000; Scotch pine, twenty-three-year-old transplants, 15,000; Scotch pine, twenty-four-year-old transplants, 15,000; Scotch pine, twenty-five-year-old transplants, 15,000; Scotch pine, twenty-six-year-old transplants, 15,000; Scotch pine, twenty-seven-year-old transplants, 15,000; Scotch pine, twenty-eight-year-old transplants, 15,000; Scotch pine, twenty-nine-year-old transplants, 15,000; Scotch pine, thirty-year-old transplants, 15,000; Scotch pine, thirty-one-year-old transplants, 15,000; Scotch pine, thirty-two-year-old transplants, 15,000; Scotch pine, thirty-three-year-old transplants, 15,000; Scotch pine, thirty-four-year-old transplants, 15,000; Scotch pine, thirty-five-year-old transplants, 15,000; Scotch pine, thirty-six-year-old transplants, 15,000; Scotch pine, thirty-seven-year-old transplants, 15,000; Scotch pine, thirty-eight-year-old transplants, 15,000; Scotch pine, thirty-nine-year-old transplants, 15,000; Scotch pine, forty-year-old transplants, 15,000; Scotch pine, forty-one-year-old transplants, 15,000; Scotch pine, forty-two-year-old transplants, 15,000; Scotch pine, forty-three-year-old transplants, 15,000; Scotch pine, forty-four-year-old transplants, 15,000; Scotch pine, forty-five-year-old transplants, 15,000; Scotch pine, forty-six-year-old transplants, 15,000; COBALT --- Mining Shares Are Lower But Without Weakness --- COBALT

MINING STOCK QUIET AND TRADING IS DULL

Prices Respond to Weakness in Other Markets and Offerings Are Not Free.

World Office, Monday Evening, May 27. In consequence of other securities, the market for mining stocks was quiet today. At the opening certain amount of speculative selling took place, and this weakened quotations, but at the decline fair support was in evidence, and offerings were lightened on this account. The shipments from Cobalt this week were the largest of any similar period this year, while the news from the camp was particularly optimistic. The day's selling was largely of a speculative nature, incurred by reason of the necessity of doing something, whether profitable or otherwise. The sales on the weak spots today were small, giving the impression that most of the weak accounts have been worked out. Those who are inclined to depress prices are doing so on the basis of other securities, but it remains to be proved whether this is a fair judgment of the mining situation.

Pays a Bonus. Congress followed the announced policy of distributing to stockholders from time to time profits in excess of the regular dividend requirements, and will pay a bonus of 1 per cent. to shareholders of record on May 28. The transfer books will be closed May 28 to June 1. A large compression of its work in the property, and the company has 12 drills working underground, where 3000 feet of drifting and cross-cutting has been done.

New York Curb. Chas. F. Head & Co. report the following transactions and closing prices to R. B. Fongard: Nasdaq closed at 11 1/2 to 11 3/4, high 11 1/2, low 11 1/4. 3500; Silver Queen, 1 3/4 to 1 5/8, high 1 5/8, low 1 3/8. 900; Green, 2 1/2 to 2 3/4, high 2 3/4, low 2 1/4. 24; no sales; Trethewey, 1 1/2 to 1 3/4, high 1 3/4, low 1 1/4. 400; Red Rock, 1/2 to 3/4, high 3/4, low 1/2. 400; King Edward, 1 1/2 to 1 3/4, high 1 3/4, low 1 1/4. 400; Foster, 1 1/2 to 1 3/4, high 1 3/4, low 1 1/4. 400; Silver Leaf, 10 to 12, high 12, low 10. 100; no sales; Cobalt Silver, 2 1/2 to 2 3/4, high 2 3/4, low 2 1/4. 200; Cobalt Central, 38 to 40, high 40, low 38. 1000. In Boston curb: Silver Leaf close at 10 to 12, 2000 sold at 11; Abitibi, 14 to 16, 100 sold at 15; Cleveland Cobalt, 90 to 95, 3000 sold at 94.

More Men for Cobalt Gem. The Cobalt Gem Co., owning two properties in the Cobalt district, has given a contract to place not less than 20 men on the property, beginning June 10th. One of the properties is owned by this company and is located within 1300 feet of the Lawson, and adjoins the McCormick and Gillies, upon which important discoveries have already been made. The company has been working seven men during the winter, but will increase the force to not less than 20 commencing June 10th.

Preliminary Announcement

We have two mining claims on Larder Lake, staked in August and September last, containing 80 acres more or less and adjoining the famous Dr. Reddick, the Cryderman and the Proprietor, Co's. properties, showing big dykes and rich ore. We are about to capitalize and work these claims. They are strictly first-class, high-grade properties. We have the newest and most attractive offer to make and will send it to you on request. We see nothing worse than profit in it for those who join. The number, however, will be limited. Write early.

"THE ORIGINAL and FAMOUS DISCOVERIES"

We hold seven claims—the first discoveries at Larder Lake. No opposition when our claims were staked. Dr. Reddick and his associates carefully selected and staked what is the opinion of experts and others who are in a position to know, is one of the richest discoveries ever made in this country. As an evidence of this we have been daily receiving orders for our stock from parties living in the vicinity of the mine and Cobalt.

We have placed 200,000 shares of our Treasury stock for sale at \$1.00 per share, a large block of which has already been sold, and intending purchasers should send in their orders before this allotment is all taken up.

AN ALTERNATIVE ROUTE. Car Line Thru Queen's Park Will be Strongly Opposed.

There will be considerable opposition to the laying of car tracks up University-avenue and thru Queen's Park.

The Guild of Civic Art yesterday wrote the city council suggesting this alternative route.

The extension of Sheppard-street would cut thru four blocks, emerging from Front-street along the Queen's Hotel and opposite the new University Station.

The residents and property owners of University-avenue are up in arms at the suggestion.

It is up to the military, the university authorities, the provincial government and the Guild of Civic Art, as well as the residents, to rise and put a stop to this mutilation.

INDEPENDENT PHONE CO. SECURES A FRANCHISE

East Toronto Welcomes Rival Line—Death of Markham Pioneer—Newsy Notes.

EAST TORONTO, May 27.—The outstanding feature of to-night's meeting of the town council was the practically unanimous resolution by the members to grant a franchise to the Independent Telephone Co. to install and operate a system in the town. The Independent Co. was represented by Manager Alf. Hoover and Solicitor Wilson. A number of conditions were imposed, but the fact that the measure as a whole was adopted assures the establishment of a rival line. The report of the special committee appointed to investigate the working of the Independent Co. in other municipalities was submitted and is appended.

The special committee reporting in favor of granting a franchise to the Independent Phone Co. were heard by the committee delegates on behalf of the Independent Co. operating in York, Scarborough, etc., and by the Automatic Co. of Peterborough. The Bell Co., while not represented by the committee, offered certain inducements for an exclusive franchise. These were dependent upon annexation. The committee investigated the Independent Co. in operation and reported a favorable impression of the system. This system is similar to the one in that each use a manual board in the central office, where all connections are made by operators. The automatic system makes all connections automatically.

The council decided to grant a franchise to the Independent Company and referred the matter back to the committee to make suitable terms. These will likely provide for a maximum rental of \$15 a year for house phones and \$24 for business phones, with a free service to subscribers of York, Markham, Scarborough, etc., where the independent lines are not available. Satisfactory security will be asked for the prompt installation and a satisfactory service and the franchise may be assumed by the town at any time. If an agreement is made a local company will be formed.

Several tenders will be called for the several cement sidewalks, to be constructed. Councillor Phelan favored the appointment of Commissioner Campbell of "good roads" fame to examine and report upon the leading roads in the town, on which the work of improvement ought properly to be done. The motion was carried.

Chairman Berry of the fire and light committee urged that the Canada Fire Insurance Co. be proceeded with in respect of their failure to install a pump. It was pointed out that at the present time one pump alone is unable to supply the water, and that the poorer one of the two. The other is at present being repaired by the company. The matter is regarded as grave enough to call for the discontinuance of street watering on all but the main streets of the town, as well as restricting the use of hose. The company will be given 30 days to place the pumps in satisfactory condition.

Councillor Nasmith reviewed the financial standing of the town, which is generally in a satisfactory condition. Some \$6000 of unsold debentures remain in the possession of the town, and these bearing interest at 5 per cent, and guaranteed by the town be favored offering as an investment. Councillor Berry introduced a motion for the appointment of a special committee to wait on Hon. Adam Beck, chairman hydro electric power for the Town of East Toronto. The committee consists of Mayor Ross and Councillors Phelan, Cobbedick, Crane and Abbott.

Some 600 trees have been planted so far by the council, and Councillor Cobbedick wanted a further appropriation for Ward 3, but Mayor Ross advised caution, owing to the present high tax rate.

The telephone Co. were granted permission to erect poles on Lansdowne-avenue and Elliott-street.

A communication was received from a communication was received from the Ontario Telephone Co. advising some changes in the numbering of the streets before the free postal delivery will be instituted.

The funeral of the late William Butler took place this afternoon to Norway Cemetery. The services at the home and cemetery were conducted by Rev. Mr. McIntyre and Rev. W. L. Baynes-Reed. The funeral was private, and only the immediate relations and friends were present.

New Design for Coat of Arms for Alberta—No Change for Dominion Itself.

OTTAWA, May 27.—(Special.)—Early announcement may be expected of the fact that the Herald's College has approved of the proposed coat of arms for the Province of Alberta.

The design submitted shows a wheat field in the centre, with snow-capped mountains in the background, the whole surmounted by a St. George's Cross. When this shall have been approved, all the provinces of the Dominion will have been granted coats of arms, but it is not expected that there will be any change in the coat of arms of the Dominion itself, which will continue to show the shield of the four original provinces, Ontario, Quebec, Nova Scotia and New Brunswick, all the time may come when it shall be considered advisable to recast the design and include a representation of all the provinces.

Rev. A. K. Griffin of St. Clement's Church conducted the funeral services of the late John London, who up to a short time ago was a resident of Victoria-avenue, Edlington. The interment took place at Mount Pleasant Cemetery this afternoon.

The frontage measurements at the court of revision to-night for the laying of a lar and gravel sidewalk on the north side of Roper-avenue as a local improvement were confirmed.

Davenport.

DAVENPORT, May 27.—The first annual outing of the Davenport Presbyterian Church to King Edward Park, held on Victoria Day, was a very enjoyable event. The day was spent in boating, dancing and games of different kinds, and the excursionists decided to make a similar outing later in the season.

Wychwood.

WYCHWOOD, May 27.—It is reported that a large block of the Wychwood Park has been sold to a syndicate. The property, situated on the east by Bathurst-street, on the west by Davenport-road, and on the north the deal includes all the houses on the south side of the street, south of Davenport-road, and Mr. Matthews' property. The syndicate, which is headed by J. A. Matthews, has received \$20 a foot for their land, exclusive of their houses. One property owner, however, refused to sell his land for less than \$25 a foot. It is not yet known if these property owners purchased their land for \$5 a foot. There are about seven new houses under construction on the site, and the syndicate proposes to lay out the land for residential purposes.

A public meeting will be held in Wychwood Presbyterian Church on Thursday, May 30, at 8 p.m., to organize a sub-division No. 41 for the coming local option campaign, York Township.

York Township.

The local option organization of the 20 sub-divisions, within the bounds of York Township, are now so far advanced that the local option meeting, which will be held on Friday, May 31, at half-past two, in room 52, Confederation Life Building. The chairman of the meeting will be J. A. Matthews, vice-president, secretary and treasurer, compose the general executive. The secretary is J. A. Bathgate, York Mills P.O.

DOVERCOURT.

DOVERCOURT, May 27.—Victory Lodge, I.O.G.T., will hold an annual meeting in Dovercourt-road Presbyterian Church on Friday, May 31, at 8 p.m. The speaker will be Rev. J. A. UNIONVILLE, May 27.—The annual meeting of the Kirkdale District will be held in the Methodist Church here to-morrow and Wednesday, May 28 and 29. The speaker will be Rev. J. A. Matthews, and a large number are expected to be present. On Tuesday evening the choir of the Unionville Methodist Church will give a concert in the church.

Whitvale.

WHITEVALE, May 27.—Shortly before midnight on Saturday night fire broke out in the two-storey residence of Mrs. Dr. Abraham, who lives on the north side of the Methodist Church, and notwithstanding the efforts of the neighbors the house and contents were destroyed. The fire was first noticed by Thomas Bearer, who with others attempted to enter the building, but they were unable to do so.

Mrs. Carter, a widow, was visiting in Toronto at the time, the house being unoccupied. The building and contents are said to be fairly well insured.

Buttonville.

BUTTONVILLE, May 27.—A pioneer of Markham passed away on Saturday night in the person of William Lunan, one of the well-known farmers in this district. Deceased was in his 77th year and had resided on the farm adjoining where his death occurred for the past 45 or 50 years. He was a fine type of the earlier settlers and had thru industry and thrift acquired a competence. Mr. Lunan was a life-long member of the Methodist Church, and the funeral services will be held at Bethel Cemetery on Tuesday afternoon. In politics he was a staunch Liberal. He is survived by a family of nine children, seven sons and two daughters. They are Robert, John Archie, Mrs. Alfred, James, Lewis and Archie. Mrs. Helma of Whitchurch and Lettie, at home. Mrs. Lunan predeceased her husband some six years.

INCREASES IN THE COST OF BUILDING PHONES

Bell Co. Show How Prices for Material and Labor Have Advanced.

MONTREAL, May 27.—(Special.)—Statistics as to comparative costs in telephone construction were given at the Bell Telephone enquiry to-day.

W. H. Winter, general superintendent of the Bell Telephone Company, was the witness under examination. In the Province of Manitoba, he said, there had been an increase in the cost of poles. At the shipping point in the Rainy River district a 21-foot and 7 inches, \$1.80; 35 feet 7 inches, \$1.75; 40 feet 7 inches \$2.75; between 1932 and 1937 an increase of 50 per cent. On a 25-foot pole, 35 per cent. on a 30-foot pole, 100 per cent. on a 35-foot pole, and 50 per cent. on a 40-foot pole. On a long-distance line the poles generally used were about 25 ft. long. Average increase in prices for the last five years was 65 per cent. on all the poles used.

The whole average of the cost of freight, inspection and reloading equalled 60 per cent. of the cost at the shipping point.

Hon. N. C. Bernier, I have very little knowledge as to the life of poles in the Northwest, but we have poles in Winnipeg that have been standing for 35 years. The country construction is so new that I have not had time to test whether the Rainy River cedar is equal to eastern cedar.

Cost in Alberta.

Witness said that the cost in 1932 in Alberta was practically the same, but the increase for 1937 was considerable. Up to 1936 they purchased poles in Alberta at the figures of 1932. In the Rainy River district for this year the increase on a 25-foot pole had risen from \$1 to \$1.75, on 30-foot poles \$1.20 to \$2.40, on 35-foot poles \$1.75 to \$3.15.

With regard to the other material used in construction, cross-arms had increased 17 per cent. since 1932; pole line hardware, 4 per cent.; strand wire, 6 per cent.; iron wire, 2 3/4 per cent.; copper wire, 75 per cent.; lead cable, 18 per cent. less; cable supports, 29 per cent. increase, and cable protectors, 20 per cent. less.

Prices of Labor.

With regard to labor, foremen to-day received in Manitoba 46 per cent. more than in 1932; sub-foremen, 18 per cent.; linemen, 20 per cent.; ground men, 13 per cent.; cable splicers, 28 per cent.; helpers, 19 per cent.; teamsters, 10 per cent., and total expenses, 21 per cent. Foremen in Quebec got 28 per cent. more; linemen, 25 per cent.; ground men, 12 1/2 per cent.; cable splicers, 21 1/2 per cent., and cable helpers, 21 1/3 per cent.

The comparative cost between Winnipeg and Toronto was 18 per cent. higher in the former city for cross-arms, 5 per cent. for line materials, and 8 per cent. more for labor, compared with Montreal.

Poles cost 18 per cent. more in Winnipeg, cross-arms 14 per cent., line material 25 per cent., and labor 24 per cent.

In the Northwest a 25-foot pole line cost \$25 in 1932, to-day the same line cost \$30. In Ontario the increase was 30 1/3 per cent. The average cost in the Northwest was \$25. The cost of construction of the section of the line between the exchange and the subscribers' station) was \$22 per subscriber and \$45 in Ontario and Quebec, making a total cost per subscriber of \$81 in the Northwest and \$78 in Ontario and Quebec.

In the afternoon Mr. Slack, secretary-treasurer of the company, filed statistics as to the cost of the telephone service in a number of towns and villages.

Service in the West.

Mr. MacFarlane then examined F. Sise, Jr., as to the figures regarding the expenses, etc., at Brandon. These had apparently increased last year by \$50, Carlton-street; E. A. Dreury, 14 Bismarck-ave., and F. Zaalkind, 181 Elizabeth-street, all of the city. The men were arrested on the charge of "obstructing traffic." Later the charge was altered to one of "disorderly conduct," and on this latter the men were to-day each fined \$1 without costs. The fines were at once paid and in each case notice of appeal was given.

Norway.

NORWAY, May 27.—Mr. Banks of Kingston-road was run down by an automobile and injured internally. It is thought several ribs are broken. The driver of the auto took him home and did all he could for the injured man.

Rev. Robert Gay, rector of St. John's, was ordained to the priesthood on Sunday by his grace the archbishop of St. Alban's Cathedral, and will have charge of the new mission on Ashdale-avenue when the completion of the building.

The postoffice department have inaugurated a daily delivery on all streets south of the Kingston-road.

With regard to labor, foremen to-day received in Manitoba 46 per cent. more than in 1932; sub-foremen, 18 per cent.; linemen, 20 per cent.; ground men, 13 per cent.; cable splicers, 28 per cent.; helpers, 19 per cent.; teamsters, 10 per cent., and total expenses, 21 per cent. Foremen in Quebec got 28 per cent. more; linemen, 25 per cent.; ground men, 12 1/2 per cent.; cable splicers, 21 1/2 per cent., and cable helpers, 21 1/3 per cent.

The comparative cost between Winnipeg and Toronto was 18 per cent. higher in the former city for cross-arms, 5 per cent. for line materials, and 8 per cent. more for labor, compared with Montreal.

Poles cost 18 per cent. more in Winnipeg, cross-arms 14 per cent., line material 25 per cent., and labor 24 per cent.

In the Northwest a 25-foot pole line cost \$25 in 1932, to-day the same line cost \$30. In Ontario the increase was 30 1/3 per cent. The average cost in the Northwest was \$25. The cost of construction of the section of the line between the exchange and the subscribers' station) was \$22 per subscriber and \$45 in Ontario and Quebec, making a total cost per subscriber of \$81 in the Northwest and \$78 in Ontario and Quebec.

In the afternoon Mr. Slack, secretary-treasurer of the company, filed statistics as to the cost of the telephone service in a number of towns and villages.

Service in the West.

Mr. MacFarlane then examined F. Sise, Jr., as to the figures regarding the expenses, etc., at Brandon. These had apparently increased last year by \$50, Carlton-street; E. A. Dreury, 14 Bismarck-ave., and F. Zaalkind, 181 Elizabeth-street, all of the city. The men were arrested on the charge of "obstructing traffic." Later the charge was altered to one of "disorderly conduct," and on this latter the men were to-day each fined \$1 without costs. The fines were at once paid and in each case notice of appeal was given.

Norway.

NORWAY, May 27.—Mr. Banks of Kingston-road was run down by an automobile and injured internally. It is thought several ribs are broken. The driver of the auto took him home and did all he could for the injured man.

Rev. Robert Gay, rector of St. John's, was ordained to the priesthood on Sunday by his grace the archbishop of St. Alban's Cathedral, and will have charge of the new mission on Ashdale-avenue when the completion of the building.

The postoffice department have inaugurated a daily delivery on all streets south of the Kingston-road.

BEAUTIFUL CUT GLASS

Is much admired and quite popular for gifts. It is more reasonable in price to-day than formerly, and this with no sacrifice of quality. Our prices run from about \$3 to \$50 each. They are heavy, clear and brilliant.

CONSTIPATION CLOGS THE BOWELS

No other cause produces so much sickness as constipation, and therefore it is dangerous to allow the bowels to become clogged up. Bad blood, dyspepsia, headaches, biliousness, boils, pimples, and piles, are all caused by constipation.

Avoid all of these troubles by the use of

BURDOCK BLOOD BITTERS,

nature's remedy for all diseases of the stomach, bowels and blood. It acts on the bowels and promotes their free and regular action, curing constipation and all troubles which arise from it. It has been on the market for over thirty years so you are not using a new and untried remedy. B.B.B. has cured thousands of others and will cure you. Mr. B. Woodcock, Nash and Bruce, N.S., writes: "For over two years my wife was troubled with constipation. She tried several physicians but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is to-day in good health. My wife and I cannot speak too highly of B.B.B."

CANADIAN CHEESE SUFFERS.

Canadian Agent at Manchester Reports Low Prices.

OTTAWA, May 27.—(Special.)—F. B. McNamara, commercial agent at Manchester, in a report to the department of trade and commerce, notes the prevalence of low prices for cheese, sales of Canadian product having been made at six pence. He observes that the reputation of Canadian cheese suffered somewhat last year from being shipped too green, and warns exporters that it is necessary that cheese should be adequately ripened before shipment.

Dr. Rudbick, the dairy commissioner, has been impressing the same fact upon Canadian farmers, while clearing up Canadian cheese. Mr. McNamara also reports that the severe frosts of May have killed the danson crop in Cheshire and that the outlook for fruit throughout the United Kingdom is very poor indeed.

KILLED BY FALLING WALL.

Employee of Hamilton Co. Meets Sudden Death.

PETERBORO, May 27.—(Special.)—John Irwin, an employee of the Peter Hamilton Company, while clearing away debris on the third floor of the paint building, which was destroyed by fire on Saturday, was killed to-day by a fire wall falling away and carrying Irwin and several other employees to the floor below, where they were almost buried by the falling brick.

Irwin had his skull fractured, and died two hours later. He was 46

board so improve your service, won't it better your position of increasing the number of subscribers?"

The chairman: "That would make them the worse off, by their showing the fewer subscribers the bigger profits."

Mr. Sise: "It really looks like that in some places the smaller exchanges seem to be more profitable."

The company was rebuilding the Ottawa plant. The improvements would cost some \$94,000. At Quebec the central building was to be more than doubled in size. At Toronto the company was about to open a new exchange. The cost of this was to be charged to capital account. There would also be a larger addition to capital account at Winnipeg this year, and practically none in other cities. The company intended to open the Port Rouge office during the summer.
