

Our Spring Coats

....Coats Twelve Dollars
It's a coat. One of the light, neat whipcords, which every well-groomed man finds necessary to his wardrobe, for the late days of spring and the cool summer evenings.

We cut them out of good English whipcord, line them with silk, "strap" the seams and give you the correct fit before it leaves the workmen. Other tailors have to charge \$18. We can make it well for Twelve Dollars, because we bought the materials at a sacrifice.

My competitors will tell you that it is impossible to sell American \$5 shoes at \$3.75 and make a profit.

I lose a large part of a dollar on every pair, to be sure. But it is business policy to lose money sometimes—at the close of the season.

No one will gainsay the superior worth of these shoes.

\$5, \$5.50 and \$6.50 Shoes reduced to

\$3.75

You couldn't tell—the best shoe judge couldn't—why these shoes are reduced.

They cost in Boston, before the duty was paid, more than I ask for them—

\$3.75

Most of them I've been selling for \$5, some at \$5.50 and \$6.50—but they are bunched for a choice at \$3.75.

Of course I lose money on every pair—but I win money by selling them now to make room for the newer spring styles. I make money by converting customers to the knowledge of the ultimate economy of \$5 shoes at \$5.

450 pairs yet.

If you like a heavy shoe, or can wear a medium weight shoe in spring, or if you have an extra small foot or a large foot—then this is your chance.

Some of the sizes are missing now in a few of the lines—sold out.

But I can fit, any foot in most of these 450 pairs still left.

\$3.75 for a choice of \$5 and \$6 Shoes.

—Just a dozen pairs left of the \$6.50 sorts at \$3.75.

Store open till 9 p. m. for the convenience of those who cannot see these shoes in the day time.

EARLY MORNING FRACAS.

Charles Howell, a Hostler at the Schiller House, Stabbed During a Fight.

The Star Restaurant at 40 and 50 Jarvis-street was the scene of a fight early this morning which ended in Charles Howell, a hostler at the Schiller House, 122 East Adelaide-street, being stabbed twice under the left arm and the arrest of his assailant. It appears that during the row Thomas Brooks, who has a peg leg, was knocked down and this so enraged him that he drew his penknife and stabbed Howell. The wounded man hurriedly made his way to go for a policeman. Just as he was leaving the place he received another slash, which made another cut about six inches long. One of the proprietors of the restaurant then ran to Police Headquarters, and Station Duty Constable William Wallace was sent over. The policeman met Brooks at Jarvis and King-streets, and the restaurant proprietors recognized him as the assailant. The constable took Brooks in charge and put the handcuffs on his wrists. The officer then took the prisoner back to the restaurant, and here another fight took place between the policeman and his prisoner, in which Brooks struggled so hard for his liberty that he broke the steel wristbands. James McLone of 99 Duke-street took to the streets by urging Brooks on to assault the policeman. P.C. Sutherland happened along and for a moment Brooks was busy endeavoring to get away from the policeman. In the meantime Howell was taken to the home of Dr. Wallace, at 180 George-street, and from there to St. Michael's Hospital. Drs. Kelly and Crawford sewed up the cuts, after which another cut on his forehead was made. Brooks is charged with feloniously wounding.

RED BIRDS FOR '99.

Brantford's Busy Big Bicycle Factory Working Overtime These Days.

Four different styles of wheels, with many brand new "60" features, are among the inducements the Good Bicycle Co., Limited of Brantford offer prospective customers during the season. That the Brantford people are progressive and fully abreast of the times is evident in their doing business in their large business. At Brantford their big factory is running twenty-two hours per day with some 600 employees busily engaged for the season. Here in Toronto their splendid local branch is a veritable hive of industry, with employees busy on every one of the four large flats.

Many orders for wheels have already been received and prospects have never been so bright in the history of the company. The new features are such as will commend themselves to thinking riders, and will do much to popularize the speedy crimson Canadian wheel.

In connection with the Toronto branch is a splendid riding academy, where beginners are taught free of charge by careful and competent instructors. They also have one of the most complete repair departments in the Dominion, where in case of leakage or accidents wheels can be put in first-class condition without delay.

The Good Co. are making a big bid for Toronto trade, and are deserving of liberal patronage by Toronto cyclists, the excellence of their wheels and their business combination that is certain to increase the sales of this popular wheel.

They talk to World readers in a four-column advertisement on page 4 of this paper.

Midnight Fight at Cornwall.

Cornwall, March 10.—Mike Crotty, ex-fet-tered champion of Ireland and J. J. Kenney of Boston, fought a ground draw here at 1 o'clock this morning. George Brown-ridge of Montreal was to have fought Crotty to a finish for \$250 a side, but was laid up with pleurisy. Kenney offered to take his place for six rounds for points, as he was in no shape for a finish fight. Kenney proved to be a big surprise and fought Crotty a decent six round draw. One hundred and twenty-five sports witnessed the mill, which took place in a vacant building outside of the town limits.

BILLY SMITH WON.

San Francisco, March 10.—The most important battle of the year took place here to-night between two champions, Kid Lavigne, lightweight, gave away 10 pounds, and went down before mysteriously Billy Smith.

Lavigne was put out in the 14th round.

Lyons Went the Limit. New York, March 10.—Joe Bernstein and Dolly Lyons, the east side feather-weights, met at the Greenwood A.C. to-night in a 20-round bout. Bernstein got the decision at the end of the 20 rounds. It was rather a surprise to the spectators that Lyons, who has been out of the fighting business for some time, lasted to the end. Neither did very much execution.

BOODLE HURTS BUSINESS.

A Big Scandal is Shown Up in the Manner in Which Business is Carried On

IN THE TRADE OF GREAT BRITAIN.

The Commercial World in England is Said to Be Honey-Combed With Bribery.

London, March 10.—A great sensation has been produced in commercial and business circles here by the report of the London Chamber of Commerce on the extent to which illicit commissions prevail in British trade generally. The report speaks of the "mass of corruption" existing and publishes evidence proving that the entire business world of England and to a large extent the professional world also is honey-combed with bribery and blackmail. The doctors receive commissions from the chemist and undertaker. The eminent man of science, too, it is alleged, receives a large commission for recommending a particular microscope. A Sheffield cutlery manufacturer complains that his travel has to tip the office boys for taking his card in to the buyers for London houses. An electroplate manufacturer declares that unless this system of bribery is stopped it will become impossible for an honest man to do business. A woolen manufacturer declares that the Germans are the worst bribers.

It is the same in the linen, drapery, calico, jewelry, brewing, nursery, gardening and a dozen other trades. Warehouse and prison contracts are tainted with the worst sort of bribery. Discussion is general as to whether or not the law can put an end to these flagrant abuses. It is generally thought that it will do good simply by tickling the offense as criminal public opinion. Unusually aroused as to reader it certain that a bill will be introduced at this session dealing with the abuse.

Regular Weekly Sale.

Suckling & Co.'s regular sale to the trade will be held on Wednesday next, commencing at 10 o'clock a.m. The stock of Misses M. & E. Cahill, Peterboro, milliners, will be sold in detail, flowers, feathers, laces, silk blouses, ribbons, hats, etc. A special consignment of hosiery in cashmere, thread, Tartan and stripes, as well as a very fine lot of Swiss embroideries, tweeds, suitings, coatings, serges, Halifax tweeds, etc.

ASTHMA PERMANENTLY CURED.

A Well-Known Canadian Notary Public Suffered for 35 Years—Permanently Cured by Clarke's Kola Compound. R. D. Pitt, Esq., Kamloops, writes: "I suffered for at least 35 years from the great oppressiveness of asthma and shortness of breath. I had during these years consulted many physicians and tried all the remedies, until the doctor told me I might get temporary relief, but I would be always troubled. I tried Dr. Clarke's Kola Compound, and after taking the first bottle I became greatly relieved, and three bottles have completely cured me. I can now breathe as naturally as ever, and asthma does not trouble me in the least. I feel it my duty to bear testimony to the marvelous effect this remedy has had in my case, and would urge all suffering from this disease to try Clarke's Kola Compound, as only those who have suffered all these years as I have can appreciate what a blessing this remedy must prove to sufferers from asthma." Three bottles of Clarke's Kola Compound are guaranteed to cure. A free sample will be sent to any person troubled with asthma, Asthma, The Griffiths & Macpherson Co., 121 Church-street, Toronto, and Vancouver, B.C., sole Canadian agents. Sold by all druggists. Write for sample mention this paper. Clarke's Kola Compound is the only permanent cure for asthma; it is now successfully used throughout the leading hospitals in England and Canada.

PINGREE-ATKINSON BILL.

Railroads, Express and Telegraph Companies Must Pay Taxes Same as Other People.

Lansing, Mich., March 10.—The Pingree-Atkinson bill, providing for taxation of railroad, express, telegraph and telephone property on a basis similar to that upon which other property is taxed, which passed its final stages in the House yesterday, repeals the former acts under which railroads were taxed in proportion to their gross earnings. It provides for appointment by the Governor, with consent of the Senate, of a board of assessors, the members of which shall have access to all accounts of the companies to whom it applies, and who shall assess these companies' properties at the average rate of State, county and municipal taxes upon all property within the State. Various features of the act will doubtless be tested in the Supreme Court.

GIRL STOLE \$1000 RING.

By One Crime Tried to Hush Up Another in Detroit.

Detroit, Mich., March 10.—A young woman whose parents reside in London, Ont., has been arrested here, charged with stealing a \$1000 diamond ring from a boarding house where she was residing. The girl's story is a pitiful one. To the police matron she confessed her secret, and told her that she had taken the ring to a physician to pay the doctor who performed an illegitimate operation upon her. Further questioning revealed the fact that the girl had sold this \$1000 ring for \$10. The ring was never recovered, but the owner will not prosecute the young lady. The name of the girl has not been divulged. She is 20 years of age, and her sister resides in Detroit.

IS THE MURDERER INSANE?

Doctors Going to Port Arthur to Examine Patient.

Ottawa, March 10.—Dr. Burgess, Montreal, and Dr. Phelan, Kingston, were here today on their way to Port Arthur to examine into the mental condition of Frost, awaiting execution there for murder. The question of the prisoner's sanity was raised at the trial, and the jury on the information presented concluded that he was sane at the time the murder was committed, two years ago. It is understood that new evidence bearing upon the question has been discovered. It is believed to send him to the gallows. Much will depend on the report of the doctors.

Independent Forestry.

Court Prosperity of Toronto will, at the conclusion of the regular routine business on Tuesday evening next, resolve itself into a social gathering. A large number of visiting brethren are expected to be present. The proceedings will be conducted by the presence of the hand of the encampment of Royal Foresters in uniform. Court Wellesley held its regular meeting on Wednesday evening with a large turn-out of members. Chief Ranger McIlwain presiding. The February monthly report shows the surplus increased during February by \$31,488, and since the beginning of the year by \$70,727.71, and standing at the end of the month at \$3,257,068.07. The total amounts paid during the month for all benefits were \$131,098.25, and since the beginning of the year \$235,171.21, and since organization \$6,548,840.51.

Opera Meeting.

The Hotel and Restaurant Employers' International Alliance and the Bartenders' International League of America, Local No. 108, will hold an open meeting in Richmond Hall to-night at 8 o'clock. The following members of the Trades and Labor Council will address the meeting: Messrs. J. H. Sanderson, George W. Power, D. J. O'Donoghue, J. Huddleston, J. Armstrong, J. Kennedy, J. Casey and others. The chair will be taken at 8 o'clock.

Enormous Clothing Sale.

The greatest sale of clothing and woollens ever made in Canada will take place in Montreal on April 3, Easter Monday, when the whole stock of Doull & Gibson, wholesale manufacturers of clothing, who are retiring from business, will be sold by catalog, by Suckling & Co. of Toronto and Montreal. The stock is entirely new, the bulk of it being made for the present season. Catalogs are now being prepared, and will be ready for mailing about the 20th. The stock will go over \$200,000, and will positively be cleared, the sale continuing day by day until everything is sold, down to the furniture and machinery.

Boat Sale.

At 2 o'clock on Wednesday the boat stock of James Leggett, wholesale jobber in boats, will be sold by catalog by Suckling & Co. 178 cases are now opened up and they comprise solid cases of Canadian staples. Catalogs now ready at 2 o'clock the general stocks of A. & W. Johnston, Orangeville, \$10,000, and McKenzie, Perth & Co., Watford, \$7000, will be sold as above.

OWEN SOUND ASSIZES.

Seduction Case Settled Out of Court—Other Actions.

Owen Sound, Ont., March 10.—At the Spring Assizes in progress here, Brown v. Davis, a case of seduction, was settled out of court. The parties are farmers living in Normandy Township. Henderson v. Bourke, damages for malicious prosecution, settled. Wood v. Carey, postponed to next assizes. Johnston v. Brown, an action for damages caused by setting out of fire, dismissed. Queen v. Thomas Webb, theft of a saw and household articles, dismissed. Action for damages received through alleged defective highway, judgment reserved. A similar case against the Township of Euphrasia is in progress.

DID THE BOY STEAL?

Young Ernest Howes of Princeton in a Bad Predicament.

Princeton, March 10.—Alex. Brown, a farmer of this community, was relieved of twenty-five dollars at Baker's Hotel last night. Brown procured a warrant for the arrest of Ernest Howes, a boy about 13 years of age. Special Constable Thelma of Woodstock executed the warrant early this morning, and Howes was taken to the stock jail to await trial. About 10 o'clock this morning Brown's pocketbook containing part of the money was found on the street at the south of the village.

Much Interest in London.

London, March 10.—Between 200 and 300 persons were present at the Hotel Cecil this afternoon at the opening of the fourth international chess match between the leading players of the United States and Great Britain. Among those present were Sir George Newnes, Capt. Gushkin, and many other prominent players. Cordial messages were received and exchanged between the players and the Brooklyn Chess Club, and a feeling of great satisfaction prevailed. "I think the American team is slightly stronger. I base this on my knowledge of Voigt's strong play, but it is probable that Johnston will succumb to Lock." Play commenced promptly without any ceremony at 2 o'clock, after the toss for move. The Pillsbury-Blackbourne game was the great centre of interest and an area in the grand salon was set apart for those watching it. Blackbourne expressed himself as being in excellent form.

Poster Wants the Venue Changed.

Napanee, March 10.—Mr. E. Gus Porter, counsel for Ponton, in the bank robbery case, will ask for a change of venue to Whitby, Kingston or Perth.

MR. ANDREW STEPHENS,

FERGUS, ONT.

Is now enjoying best of health after having suffered some time from nervous prostration and weakness of heart.

Fergus people are pleased to see the well-known boss carpenter, Mr. Andrew Stephens, looking the picture of health again. He had been complaining of his heart for some time, could not sleep well at night, and seemed generally broken up.

A friend met him not long ago and congratulated him on his healthy appearance. "Well, you see," said Mr. Stephens, "it hadn't been for those Milburn's Heart and Nerve Pills that got of this Drug Store, I don't know where I would have been to-day."

"I used to suffer a great deal from palpitation of the heart, shortness of breath, and was unable to get restful sleep. You were in a pretty serious condition then," said the friend.

"Indeed I was," replied Mr. Stephens, "but I am thankful to say that my heart never troubles me at all now, I sleep well at night, and never have any sign of nervousness."

"And you owe your restoration to health entirely to Milburn's Heart and Nerve Pills?"

"Yes, Sir, their action on my system was simply marvelous. I seem to do as you do me good. I don't think there is any better remedy made for curing diseases of the heart and nerves, and for toning up the system."

"Are there many people in Fergus that have been cured by these pills?" asked the friend.

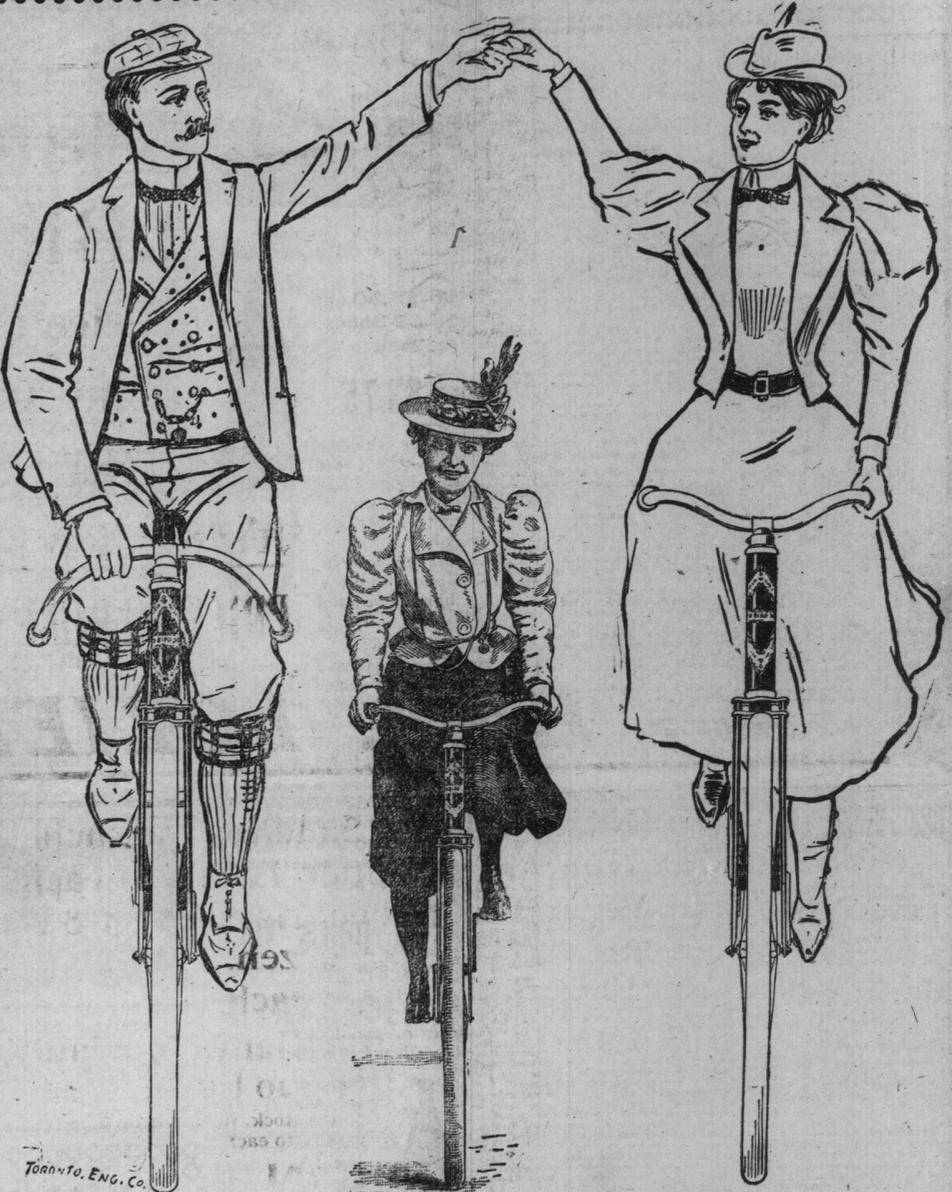

"As far as I have heard, quite a number. I know I have recommended them to several and in every case they have done good."

Then the friend and Mr. Stephens parted. The former to wind his way to Phillips & Son's Drug Store to find out more about Milburn's Heart and Nerve Pills—the little life savers.

Otherwise how are you going to know when you get value for your money? When cycles are enamelled and plated how can you tell whether they consist of castings, sheets, steel stampings, all forgings, or a mixture of these? They are all similar in appearance, and yet

There's a Vast Difference.

If you pay the price of the Best (and no cycle made is worth more than \$65 cash), insist on a signed statement or guarantee that not a sheet steel stamping or casting exists in the cycle, but that every connection and part is a forging. It will surprise you how many firms asking \$65 to \$90 will be unable to give same.

BROKEN HANDS STOP SOME BOUTS.

Argonauts Disappointed in Schedules
and Make Up With Professional Contests.

The Argonauts suffered severe disappointment on the second night of the tournament. No less than six of the contestants billed for appearance were unable, for some reason or other, to face the music. Thus only two championship bouts were decided, and the club did the best they could by substituting three professional exhibition bouts. The two contests were hot ones. Referee Kelly correctly picking Bray and Smith as the winners.

R. E. P. Bray, a new man at the game, scored over T. F. Bird, on the decision. They went easy at the start, with Bray the first to wake up. He rushed and landed straight lefts, bringing the right over effectively. When Bird began to work it was too late and his dangerous left had not time to score out a victory. Bray countered well in the last round and secured a well-earned decision.

J. McLaughlin entered the ring at weight, while Leake refused to scale, the former getting the bout by default. J. J. Smith scored a clever win over James Scott. Smith seemed to have it all his own way, doing clever execution with right and left, until the middle of the second round, when Scott scored a clean knock down, with a straight left to the mouth. He took the limit and fought coolly to the finish and was awarded the decision.

The story of the rest of the bouts is a social of disappointments. P. C. Smith did not show up and Ed. Wilder had bad eyes. Brooks had a broken hand, Rowlin broke his knuckle the night before, while Hestler never left Halifax.

SUCCESSFUL SHOOT AT THE HUMBER

Many Outside Clubs Represented—
Wayper, Phillip and Crooks Tied for First Place.

The shoot at the Humber proved a most successful event in every respect. There was a large number of entries in all the matches. The shooting was exceptionally good and the pigeons as fine a lot as were ever trapped at a tournament. The shoot was over five o'clock, traps at 90 yards rise. Twenty-three men went to the score in the pigeon match, while the 20 contestants. The following gun clubs at a distance were represented: Hamilton, by Dr. Wilson, J. Crooks, Capt. Spencer and E. Burton; Oshawa, by F. Brooks; Bowmanville, by A. J. Bennett, and Hestler, by the veteran Josh Wayper. The Rosedale, Stanley, Toronto Rod and Gun, West Toronto, East Toronto, Mimico and Agincourt Gun Clubs were each represented by several members.

T. EATON CO. LIMITED "CANADA'S GREATEST STORE."
New Spring Wall Papers by the Carload.

Carloads of bright, new Wall Papers are now ready for distribution at this store. Here they find but brief resting place, for on Monday morning we swing out into the biggest Wall Paper trade we ever enjoyed, and thousands of homes, from the humblest cottages to the most palatial residences throughout this city and Dominion, will be decorated and made brighter by the dainty papers we have collected. For years we have had an enviable reputation for our Wall Papers, but this season's preparations eclipse everything of the kind ever attempted by us. Bigger stocks, greater varieties, better qualities and a larger assortment of exclusive and artistic novelties. A more select stock will not be found outside this store in Canada, and we know whereof we speak. The best Canadian, American and English manufacturers are represented by some of their best and latest productions. Buying from them in larger quantities enables us to command better values, and to homeowners and decorators that means better papers for less money than they have been accustomed to pay.

But while there will be a ring of true economy in all our prices, the papers of themselves deserve a word or two. Rich, effective colors will be very popular this season. In fact many patterns show strong contrasts in colorings and color combinations. Tapestries will also be much in evidence. These are copies of the ancient woven fabrics and produce very striking effects. Many of the high-class novelties are confined to this store, and only a limited quantity of each has been provided. The following items convey a slight idea of the values, which can only be appreciated when you see the goods:—

- New Ungrounded Wall Papers, with 6 and 9 inch borders, large variety of floral and set figure designs, in the latest colors. Special, **3c** and **4c** a single roll.

THE CHAIN FERRY FERRIES.
 The city's application to the Legislature for the privilege of operating a chain ferry at Queen's Wharf was a premeditated scheme to kill the project. No application should have been made, for the city already possesses all the rights that are necessary to undertake the work. We have no hesitation in saying the application was a mere blind, worked by designing schemers, to secure a fake decision from the Legislature to the effect that the city is not authorized to construct and operate a ferry within its own limits. As a matter of fact the Legislature has not declared that the City of Toronto has not the right to operate a ferry. It has simply thrown out a paragraph in a bill asking for such right. The right already exists. At least there is nothing in the statutes declaring that the city has not the right to operate a ferry itself. The whole tenor of the act respecting ferries is in the direction of complete municipal control of such ferries as are exclusively within the municipality. The Mayor and city solicitor made a mistake in applying to the Legislature for the right to operate a ferry at Queen's Wharf. The city should have presumed the right and should have proceeded to get ready to establish the ferry on the opening of navigation. The proceedings that took place before the Private Bills Committee are ridiculous in the extreme. It is absurd to think that the city cannot afford its own citizens a means of crossing a narrow channel separating one street from another. The proposed chain ferry is in reality a movable bridge. To deny the city the right to substitute a ferry for a bridge when the former is cheaper and more convenient is against all reason. We say, therefore, that the city already possesses the right to go ahead with this work. As a matter of fact the city has already exercised the right which Mayor Shaw has so cunningly questioned in favor of the Ferry Company. Last year, the city operated two ferries of its own across the East End, between George-street and the Eastern Gap, and one in the West End, between practically the same points as were the subject of the application before the Private Bills Committee on Thursday. No one ever questioned the city's right to operate these ferries last year. If the city can run a free ferry from George-street to the Eastern Channel and from Brook-street Wharf to sand bar, it surely can do so from Bathurst-street to the sand bar. This appeal to the Legislature is simply a herring thrown across the trail. We give the city the same advice to-day that we did when the C.P.R. first asked us to run a free ferry from the city to the Island. We say to the city, if you do not wish to do anything to any one, but if the city finds that it has to pay \$1500 a year for wharfage, would it be reasonable to expect that it should charge less to others for the same privilege? Certainly not.

MR. OSLER'S LETTER.
 In another column appears a letter from Mr. B. B. Osler, who had charge of the Toronto Ferry Company's interest in the application of the city before the Private Bills Committee for the right to operate a chain ferry at Queen's Wharf. We are surprised to learn from this letter that the failure of the city to obtain the right it sought is chargeable to the city authorities who blundered in asking for unlimited privileges when they should have confined themselves to the particular chain ferry in question. We make a mistake in using the word blunder. It was not a blunder. It was a premeditated scheme. Those who drew the bill up or ordered it to be drawn up asked for more than they knew would be granted. The object in doing this was to kill the bill entirely. Who, let us ask, instructed the Mayor or the Solicitor to ask for the right to run a ferry from any point on the mainland to any point on the Island? No such instructions were given. The idea was merely to obtain the right to run a chain ferry across the Queen's Wharf channel. By asking for omnibus powers the city authorities destroyed all chances of getting what the people wanted. However, we may yet get the chain ferry in spite of the Mayor's efforts to kill the project. The Toronto Ferry Company, through their solicitor, announce that they did not and do not propose to raise any objections to a bill for a chain ferry exclusively. It is now in order for the City Council to hold an emergency meeting and give the Mayor and City Solicitor the instructions to appeal again before the committee and make application for a chain ferry alone. As the Ferry Company does not intend to oppose such an application the city will probably get the necessary authority if it does not already possess it.

We think the Toronto Ferry Company has at last taken a proper view of the people's desire to have a more direct method of reaching the Island. The Queen's Wharf route will be a boon to the thousands of families who find it beyond their means to take more than two or three trips to the Island during the season. We do not believe the establishment of the chain ferry will hurt the Ferry Company in the slightest. If the people save 10 cents by using the new route they will have more money to spend when they reach the Island. If the Ferry Company loses in any way it will make it another.

\$31,970 WILL BE NEEDED.
 The Toronto Public Library Board passed the Estimates for the Year Last Night. At the regular meeting of the Public Library Board held last night there were present Messrs. R. H. Davlin, W. T. J. Lee, W. D. McPherson, Frank Somers and T. W. Banton. The estimate of the W. A. A. for the loan of several paintings and engravings to be used at the exhibition was complied with. A collection of books was ordered to be printed. A report presented by Secretary Ryerson showing the value of contents in the library to be \$144,248, and the insurance thereon \$1,500. It was decided to increase the insurance by \$24,800. The lease of the Dundas-street branch has expired and will be renewed. The estimates for the year ending 1900, were presented. The principal items are: Interest on sinking fund \$28,800, newspapers and magazines \$200, rent of branches \$1750, lighting \$1150, fuel and water \$740, insurance \$1300, books \$5075, salaries \$13,381.

THE CYCLE PATH BILL.
 The cycle path bill now before the Legislature is one that will be watched with interest by all wheelmen. The main features of the bill are the appointment of a board of cycle path commissioners by counties. This board is to have power to license wheelmen and to charge a fee therefor. The money so raised is to be used for the construction and maintenance of paths. The main point in the bill is the limiting of the use of cycle paths to such wheelmen as obtain licenses. Bicyclists are not prevented from using the ordinary highway, but if they desire to use the cycle paths it is only fair that they should contribute towards its maintenance. The bill does not impose a tax on any one. The license is not compulsory. No one is obliged to take it out. The voluntary system of establishing cycle paths in the vicinity of Toronto, while it has been a great boon to cyclists, has proved quite inadequate and it certainly is not equitable. It has been found that the proportion of those who use the paths to those who have subscribed for them is about 10 to 1. Under the present system the 10 has to bear the burden of the path. The proposed bill will remove an injustice while at the same time it will act as a powerful incentive for the construction of paths all over the province. When every one who uses a path is compelled to contribute, the paths will be very numerous while the path itself will be of a very high standard. The bill is based on the law of the State of New York, as applied to Monroe County, where it works exceptionally well. Over 50 miles of cycle paths have been laid on the roads leading out of Rochester during the past few years, while the charge for the use of the paths is just as because it is the only means in sight whereby wheelmen may obtain good paths immediately. The bill is an eminently commendable one. It meets the views of a large majority of wheelmen and its passage by the Legislature will prove nothing short of a great public benefit.

THE RESTRICTIONISTS ROUTED.
 This has been a week of slaughter for the Sunday restrictionists. They appeared before the Legislature to oppose the bill of Sunday cars on two electric rail-

ways, one in the city of Ottawa and the other on a suburban line between Hamilton and Cobourg. The Railway Committee hardly took the restrictionists seriously. Their application was not entertained in either case, so that the citizens of Ottawa will soon have Sunday cars and the farmers who live north of the Hamilton Mountain will enjoy the privilege of visiting that city on Sundays as soon as the proposed lines are built. The running of cars on Sunday in Toronto during the past two years has had a wonderful educational effect all over the province. A result of that education was evident in the Railway Committee, when the Lord's Day Alliance made its feeble protest in those cases. Hereafter there will be but one law in the province in regard to Sunday cars and that law will be in favor of their operation everywhere. But this is not the only blow the restrictionists received this week. The court yesterday decided that the Lord's Day Act does not apply to any Dominion railway or to any servant of any corporation. This decision is far-reaching in its effect, extending as it does to other than railway and steamboat corporations. In fighting the law the restrictionists have received a great deal more than they bargained for.

THE TRIAL OF PROF. W. R. COLBY.
 The trial of Prof. W. R. Colby on a charge of practicing witchcraft was commenced yesterday afternoon before Judge McDougall in the Criminal Sessions. The defendant was arraigned, Mr. E. E. A. Du Vernet took exception to the indictment on the ground that it did not set out the specific time at which the alleged offence was committed. The objection was noted and the case proceeded. Stenographer Alexander Downey's report of a meeting which took place in St. George's Hall and Staff Inspector Archibald corroborated all that was contained in the report. This was the case for the Crown. Mr. Du Vernet then commenced a long argument for Colby's discharge. Mr. Du Vernet will reply this morning. William Gibson was found guilty of retail shoplifting at 1 East Adelaide-street. He will be sentenced to-day. Thomas Hall, the boy who was convicted of stealing a pair of gloves, was sent to the Mimico Industrial School for two years. True bills were returned against Mrs. Jane Nichols and Sarah Howell on charges of fortune-telling. Michael Basso is able to be out again. Dr. J. E. Graham of 152 East Bloor-street has gone down south for the benefit of his health. He will remain away for several weeks.

W.A. MURRAY & CO. About Our New Silks and Dress Goods

In the matter of Silks and Dress Materials this store so clearly discounts the trade at every point of comparison that all else is mere contrast. You see here a collection of new fabrics unequalled for richness and originality—excellence of quality—variety of style—in truth absolutely everything that the recognized leaders of fashion have decreed as correct. Impossible to give a true portrayal of the many beautiful fabrics, but these few items will demonstrate the fact that not only do we excel in style and quality, but our prices are away below any store in Toronto or Canada for goods of equal merit and distinction.

KRIBBS' REGISTRY BILL KILLED.

Question of Electing Mayors for Two Years Discussed—Exemption From Market Fees.

The members of the Ontario Legislature put in another busy day yesterday. The committees got through some important business, and in the afternoon the House discussed the question of electing mayors for two years.

The Registry Act. Mr. W. A. Kribbs (South Waterloo) moved the second reading of his bill to amend the Registry Act. The object, he explained, was to place registry offices under control of county councils.

Respecting Town Councils. Mr. A. Pattullo (North Oxford) moved the second reading of his bill respecting town councils. The bill provides that the council in towns of over 7000 shall consist of a mayor and ten councillors.

Candid Criticism. Mr. Graham (Brookville) was of the contrary opinion. He suggested that the member for North Oxford make the adoption of his bill optional.

Revision of Voters' Lists. Dr. Pryne (East Toronto) moved the second reading of his bill to amend the Voters' List Act. The object is to avoid, if it be the will of the House, the existing separate lists of the court for revising voters' lists for each ward or sub-division.

Minor Matters. Mr. Gorman moved to amend the Judiciary Act in respect to officers or clerks acting as examiners.

Conducted by Katherine Leslie.

Just now, when our spring hat is lending itself to column lengths of ecstatic description, and when we are all so deeply and solemnly concerned as to what we shall put on, it is a treat to watch the "men folk." We can't help envying them; they are so cool, so unconscious of this critical moment in our lives. You would think that they did not wear hats, to see them. They go into town and change a black "Christy," with a crown like the dome of St. Paul's, for a fawn or brown one, with a crown like a teacup, without any display of emotion, or in any way showing that they have wasted even one night's sleep in considering the becomingness of so radical a change in headgear. They hang it up on the hall rack, just as if it were an old one, and never come upon them unaware prancing before the mirror, or taking little peeps into a handbox, where, in a rustling nest of tissue paper, lies the spring hat. We look in vain for minute and detailed descriptions of the new "Christys" and "toppers" in the daily newspapers, but evidently so such things exist. How men have striven at this stage of transcendental indifference to their spring headgear is a mystery. For we know perfectly well that it is not so very long since they galloped about in straw breeches, lace ruffles and plumed hats.

What do they know of the exquisite anguish caused by the knowledge that the lovely Tyrano, upon which a crown of their affections costs exactly three or five times the price we can afford to give? They know nothing of the awful anxiety that presses upon us and robs us of our night's rest as we try to decide whether a hairing topline or more modest shepherdess hat will be the more becoming, or whether a Viola Allen would not add a little to the charm of our appearance; neither do they suffer from nervous prostration caused by our anxious indecision as we hit between two shades of coral pink ribbon and coils of tuxedo tulle for trimming. And, O, blessed creatures, they have to fight no conscientious scruples about plumage; they know nothing of the war waged in our bosoms every season between our humanity and our love of paradise plumes, ostriches and angel wings!

Men are absolute strangers to the feeling which possesses our souls as the tall, slim, stylishly-dressed milliner places a mountain of tulle, flowers, feathers, buckles and ribbons upon our heads, and assures us that nothing could be more becoming, while our own inner conviction, after one affrighted glance in the mirror, is that in such a direction we might make a fortune in a dime museum. We meekly make a mild suggestion that a certain shade is most becoming to us, but with a slight elevation of the eyebrows and a little access of chilliness, the milliner assures us that that hat went out years ago, and intimates that we had better be dead than out of the fashion.

With that she plants a bright green and blue crest upon our shuddering red locks, and, with a decision there is no mistaking, declares that this, and this only, is the hat for us. So we meekly acquiesce, pay a ruinous price, and go home with the certain knowledge that on Easter morning the boys will exclaim in horrified amazement, "Holy MacNabbs!" and other similar profanities, which we will try to bear with meekness, because we are in the fashion.

What do men know of such horrible ordeals as these? They never have to consider whether a hat fitted over the face, turned up at the side or back, or flanging the face, is most becoming. We see them angles their hats at all the fashionable bistros of five minutes' sport with their pipe or newspaper, and their indifference to their becomingness at such times borders on the sublime. We have seen a fine-looking man converted into a very villain by the tilt of his hat or the inclination of his chin; but what does he care? He knows that it makes no vital difference in our eyes, and he is going to wear his hat at the theatre, in the most comfortable manner. See what it is to be a lord of creation, the heaven-born, a man! Would that we could emulate his lofty and emotionless calm in the choice of our spring hat!

The Medico-Literary Society of the Ontario Medical College for Women will hold an open meeting at the college building, 291 Sunnyside street, this evening at 8 o'clock. A very pleasant evening is anticipated.

A meeting of all the honorary and active members of the Women's Art Association of Canada is called for Tuesday, March 14, at 4 p.m., in Room 611, Temple Building. The meeting is in connection with the coming Exhibition of Women's Portraits, and is for the purpose of considering the program of the opening evening's entertainment, which is in the hands of the association, and all the members are very specially invited to be present.

The Canadian Home Journal for March is a very attractive looking magazine, full of good things by Canadian writers. The management of this magazine is now entirely in the hands of Mr. H. Russel Hatton, who has taken over the interest of Mr. Sturgeon Stuart. Mr. Hatton will be assisted in the editorial work of the Journal by many leading Canadian writers. The various departments are well edited, and notable among these are those devoted to the interest of the Women's Historical Societies, and the Women's Art Association of Canada. Fiction is supplied by Nora Laucher, whose interesting serial has reached the tenth chapter, and there are short stories for young and old. The Canadian Home Journal ought to be a success.

FOUR ARE SURELY DEAD

And Probably Two More as the Result of an Explosion.
Creede, Col., March 10.—An explosion of several hundred pounds of powder occurred today in tunnel No. 3 of the Commodore Mine, creating great havoc and killing at least four miners. The remains of the dead so far found are: Scotty Watson, Frank Heas and John Garner. It is believed that the dead number six, and that there are several seriously injured. A large force of men is digging away the debris in order to recover the bodies of the dead and rescue the injured.

A Concert and a Surprise.
An exhibition of the "Graphophone Grand" was given last night before an invited audience in the Williams piano warehouse, 143 Yonge-street. This new machine, the graphophone grand, gives a surprising volume of sound, louder and stronger than any human voice; it excels also in purity of tone. In the reproduction of speech or singing it carries far and magnifies the sound in a remarkable manner. The selections played were many and varied and included some fine hand pieces. The graphophone grand is a magnificent instrument from the ordinary "talking machine." The tones it reproduces are clear, free from buzz, and loud enough to be heard in the largest opera house in the country. The many friends of the Williams Co. who were unable to attend last night's concert are cordially invited to call and hear the graphophone grand at the company's warehouses any afternoon between 1 and 6 o'clock. We predict for the graphophone grand a success second to no other musical invention of the age. One of the features of last evening's concert were the several piano numbers. Mr. Frank Deane, the eminent English pianist, who proved such a success on his recent concert tour, who showed the possibilities of the Williams piano in the hands of a gifted artist.

Where is Madame Clair?
Madame Clair of 227 Major-street, who has been before Police Magistrate Denison charged with a breach of the Medical Act by practicing medicine illegally, was convicted on Monday last, but sentence was suspended until the 8th inst., when she was fined \$25 and costs of \$10 in all. As she did not appear, the Crown Attorney was informed that she had shipped. A warrant will be asked for her arrest. Detective Wasson was the prosecutor on behalf of the Medical-Council.

ENGLISH EXPORTS TO CANADA.

An Increase of One Per Cent. for the Last Half of Last Year.
London, March 10.—In the House of Commons this afternoon, the Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, replying to a question put by Col. Sir Howard Vincent, member for Sherfield, said that for the six months ended Jan. 31, the exports from England to Canada showed an increase of 1 per cent., but if the month of July were included it would show an increase of 6 per cent.

To Sir F. H. Evans, the Liberal member for Southampton, Mr. Chamberlain said it would be competent for any future Parliament to pass an act annulling the field contract with Newfoundland.

Toronto in Santa Cruz.
Rev. James B. Orr, son of a former City Clerk of Toronto, is a Congregational Minister in Santa Cruz, Cal. On the recent anniversary of Washington's birth, he delivered a patriotic sermon, much to the edification of a large congregation. He is another Torontonian who has done well in the United States.

This is Marriage.
Rev. Dr. Welch preached yesterday at noon at St. James' Cathedral on marriage. He claimed that the sacredness of the marriage tie was the foundation of society and that if this were tampered with the whole structure would inevitably collapse. It was nothing less than sacrilegious profanity when man and maiden pledge themselves in marriage with no other end in view than the gratifying of some passion or fancy.

Trading Stamps.
That trading stamps are growing more popular every day is evidenced by the steadily increasing number of showrooms that are being opened in all parts of Canada. The fact that the company are financially strong, and that their stamps are transferable and redeemable at all agencies, secures for them the confidence of the public.

British Steamer Ashore.
Nassau, New Providence, March 10.—The British steamer Colleen, Captain Owen, from New Orleans, on March 3, for Liverpool, is ashore on the Silling rocks. An undershirt's agent is leaving here to assist the distressed vessel.

HE KILLED THE BULLY.

One of the Colored Volunteers of Kansas a Prisoner.
Kansas City, March 10.—The 23rd Kansas Volunteers (colored), en route to Fort Leavenworth, Kansas, from Santiago, passed through Kansas City today with one member of the regiment a prisoner. When a short distance out from St. Louis, a soldier named Williams, of Kansas City, was stabbed to death by a comrade named George Ray. Williams, who was known as the "Bully of the Regiment," had stirred up considerable trouble, finally assaulting Ray, who drew a knife and struck him in the breast, killing him instantly. Ray was placed under arrest.

Deaths of a Day.
John McNeely of Sunderland, Ontario County, died yesterday at St. Michael's Hospital, after being treated for two weeks. He was a farmer.
Little Willie Parker, son of the principal of Winchester Public school, died yesterday. He was but a short time ill. He was 15 years old.
Anthony Ballson, aged 66, a well-known shoemaker, died yesterday. He had a store at 45 Huron-street.
Nathaniel Warren is dead, aged 87. He leaves a large family. He was an old and respected citizen.
The infant daughter of Barber Bramish, 180 York-street, died yesterday.

Aftermath of Letter Deal.
Chancellor Boyd dismissed the suit of J. C. Patmore & Co. of London against Crane and Baird for failing to deliver cartons of wheat during the Letter deal. The Divisional Court has been appealed to.

Rev. J. A. Morrison for Montreal.
Montreal, March 10.—(Special).—Rev. J. A. Morrison, who resigned his charge of East Presbyterian Church, Toronto, last fall to go abroad, is expected to return to Montreal at an early day.

Immense Carriage Sale.
The usual sales of horses will be held at Grand's on Tuesday and Friday next, and on Tuesday, March 21, the largest unserved auction sale of carriages and buggies ever held in Canada will take place.

The regular meeting of the grocers' section of the Board of Trade was held yesterday afternoon. Only routine business was transacted.

Personal Queries.

Why wear Semi-ready clothes? If you're economical, because they are moderate in price. If you're particular about your appearance because Semi-ready is fashionably correct.

Semi-ready clothes cost less than custom tailor made of equal quality because they come direct from the makers to the wearers and a suit equal to Semi-ready (which costs \$2.50 to make by organized labor and modern appliances,) costs the custom tailor \$9.00 to make.

Semi-ready contains all those fashionable details in style and material,—those little niceties of fit and finish which well dressed men appreciate and demand.

Semi-ready is made to compete with the best custom tailoring and caters for its patrons among men who heretofore have been obliged to buy this quality of clothes at nearly double the cash prices we ask.

Semi-ready is sold at that point where any suit could be tried on and afterwards finished. Cuffs of sleeves, bottoms of trousers merely basted into position, outlets in coat collar, vest back, trouser waist and leg seams—permit letting out or taking in at will.

Finished and delivered two hours after ordered. Your money back if dissatisfied.

He Deals in New York Stocks.

J. Jennings, Esq., a capitalist, who is a prominent figure in financial circles, has an interesting story to tell about a spring medicine called "Celery King." It was while coming down in a Yonge street car that he informed a reporter of an interesting part of his life. He said: "I am a man that to-day may be worth many thousand dollars more than yesterday. I deal in a class of securities that depends entirely upon the conditions of things affecting the great institutions of the world.

"A few months ago there was a terrible slump in Wall street, and I was long on Tobacco. I had that terrible feeling in the pit of my stomach—that frightful feeling that comes from financial worry. My face was white and my hands shaky. Transactions of this kind years ago would not affect me in this manner, but the high life, the rich food, 'the cold bottles' that I have indulged in had left my stomach in a very bad condition; in fact, the doctor said that everything that I put in my stomach fermented and turned into vinegar, and I had good reasons to believe that the doctor was telling me the truth because of those frightful headaches, that dark brown taste in the mouth, and after each meal that distressed feeling of the stomach. I don't think my case is an uncommon one, and the reason I tell you this, I think there are very many people who suffer like I have, and they have not had the proper remedy. For this reason I think that what I say is of as much weight as if it were the only case of the kind on record. I have had headaches, pains like cramps in my stomach after eating a meal, and about three o'clock of nearly every afternoon I would have an attack of headache until late in the evening, and very often all night.

"About two months ago, while placing an order to buy some Burlington & Quincy in a prominent broker's establishment in this city, a friend of mine had been complaining about a similar complaint, and after I stated my case to him he said: 'Why don't you take some Celery King? It will be the best thing you ever took; probably it's your stomach that wants repairing.' I stepped into Hooper & Co.'s drug store on King street and purchased a package of it and had some made at once. After having taken it for a day or so I was a new man. I took a little after each meal, and it worked like a charm. There was no pain in my stomach, my bowels were regular, and I felt like a different person. Up to this time it was anything but pleasure to sit down to a meal because I dreaded eating, especially cheese, pork, pastry, etc., but now I take Celery King every night, my appetite has improved wonderfully. It has put my digestive organs in the proper condition again, and I once more enjoy life as one ought to.

"I cannot say too much for it, and recommend it to all my friends. You can use my name in recommending Celery King. It is the grandest medicine that has ever been compounded, and especially good at this time of the year.

"This description of my case is accurate in all details.

"J. JENNINGS."

Agitation for a New Separate School to Cost \$45,000 at the Junction.

AN EXPERIMENT IN LIGHTING CARS.

A. L. Willson, B.A., a Former Reeve of York Township, is Dead—Other News Items.

Toronto Junction, March 10.—(Special).—An experiment in lighting trains by electricity is being tried in the baggage cars on the T. & E. Railway, and so far, has proved very successful. The power is secured from the wheels of the car whilst in motion, and is so reserved that the lights will keep lit for two hours after the car has stopped running.

Rev. William Patterson of Cooke's Church gave a very interesting lecture to a fair-sized audience in Victoria Presbyterian Church to-night on "From Toronto to Belfast." The lecturer took his lessons via Salt Lake City and San Francisco, describing the interesting places on route.

Mr. Thomson, taxman in the store department at the C.P.R. shops, has been transferred to North Bay. He will be succeeded by Mr. Haines, who formerly lived here.

The Separate School Board of Toronto, in their appropriation of \$45,000, included the cost of a new school, either in Toronto Junction or Parkdale. The Separate School Board's function at present goes to the school near the Brockton bridge. A little over a year ago, when the board refused to continue the services of Miss Hart as a teacher in the school, there was a great agitation among supporters of the Separate School here to form a separate school for the town and village of Hart as teacher, but it was found that the number of ratepayers supporting a Separate School were not sufficient to establish a Separate School. The school, it has been felt that there is a good site and a very central location for a school on the vacant lot adjoining the church, on the corner of Pacific avenue and Annette street, and families who now send their children to the three miles to school are agitating for a school nearer their homes. It is probable that the City Separate School Board, with which Toronto Junction is in union, may give the Junction preference over South Parkdale, which has a school.

Rouge River Bridge.

The final settlement between the Counties of York and Ontario was arranged yesterday morning before the Private Bills Committee of the Local Legislature. The settlement gave the interested parties had failed to bring them together, but at yesterday's meeting, after considerable wrangling, the County of York proposed a payment of \$1500 in consideration of Ontario County assuming the ownership of the bridge, and a vote of the committee favored the proposition. On the suggestion of Chairman Gibson, an agreement was reached whereby Ontario County and the Township of Pickering will soon be entered into a separate township which will agree to protect a portion of the embankment adjacent to the structure.

Township Not Made a Town.

The private bill of the York Township Council concerning the treatment by the Private Bills Committee of the Parliament Buildings yesterday. Strong opposition to the formation of a separate township was put up by the Legislative Committee of the County Council. Reeve Duncan and Councillor Miller put the question of township, assisted by Solicitors Bull and McWilliams, the claims made chiefly consisting of economy and necessity of management of powers for governing a partially suburban township, the latter difficulty calling for yearly application for special legislation. C. C. Robinson and Councillor Evans objected to the powers requested, former intimating that with such an act in force the northern portion of the county would have to be erected into a separate county, with headquarters at Newmarket, or some other centre.

Col. Gibson termed the application a most novel one, and spoke unfavorably of granting the powers asked, and on a vote only two members of the committee supported the application.

Other portions of the bill, asking extended borrowing powers above those now allowed by the statutes, extending time for payment of present debts, and giving the township powers to control returned taxes now in the hands of the county, powers to make by-laws preventing coasting and riding and driving on sidewalks and boulevards, and the privilege of allowing school sections to participate in the school fund moneys for the reduction of debentures issued by such sections, were considered favorably, and, with minor amendments, recommended to the House for confirmation. The provision in the bill for obtaining exclusive jurisdiction over all roads in the municipality, with control over street railways, did not go.

The Metropolitan, through Mr. W. Barwick, objected to having to deal with any municipality except the county, and a proposal to give the township joint powers of compelling street railways to keep their tracks in proper condition, though supported strongly by Mr. Hill, was ruled out by the committee.

North Toronto.

The funeral of the late A. L. Willson will take place to-morrow at Mount Pleasant Cemetery to-day. The death of the former Mayor of Toronto and unexpected was the result of a stroke. For many years he occupied the position of Mayor of the City of Toronto, following his father in that position. He afterwards sat as Reeve of the Township of York, and also held the same position in the town, where he resided for many years.

Major Laughton and Councillor Byrd of Toronto Junction met York Township Council yesterday and arranged a plan of settlement for the assuming of a portion of Dundas street by the latter body. The Junction will pay \$1000 and give up 100 feet of ground in consideration for the relief of the road in question.

There are hundreds of individuals who are going about on crutches and whom we could make walk without such crutches. It is hardly a case of paralysis that we could not relieve and so support the leg that the individual could walk with perfect freedom.

Miss S. J. Robertson, South Monaghan, from the effects of infinite paralysis, could only walk by supporting her weight with her hand, but with the aid of one of our supporters, walk well, and is so pleased with the results that she considers it was divine Providence that sent her to us.

BOTH THEIR NECKS BROKEN.

The Double Execution at St. Scholas-
tique, Quebec, Took Place
Yesterday.

MRS. POIRIER AND SAM PARSLAW

Stood on the Gallows Side by Side
With Only a Black Curtain
Between Them.

St. Scholastique, Que., March 10.—At 4
minutes past 8 o'clock this morning Mrs.
Cordelia Poirier and Sam Parslaw paid the
penalty for their crime of murdering Is-
idore Poirier while helplessly sleeping in
his house at St. Canine in the month of No-
vember, 1897. Great numbers of people
had arrived by the Thursday evening train,
and these were early on hand to see the
execution. The admission to the jail yard
was by ticket, and fully 800 people were
admitted to the enclosure. Parslaw's brother
and sister watched their brother's
death from a window in the jail.

The doomed couple spent a fairly good
night. They slept for a little while and
then engaged in devotional exercises. At 5
o'clock low mass was celebrated by Pa-
thers Meloche and Collin. All the families
of both criminals were present. After mass
they partook of food and had a last inter-
view with friends.

Both Their Necks Broken.
The two condemned prisoners were placed
on the gallows, side by side, with a
black curtain between them. The drop
fell at 8.04 and in six and a half minutes
the woman's pulse ceased to beat. Par-
slaw's pulse beat for twelve minutes, but
examination showed that both their necks
had been broken by the fall.

Crowd Made a Rush.
Immediately after the drop fell, a dis-
graceful rush was made by the spectators for
the black cloth in their efforts to view the
loodies. Father Meloche upbraided them
from the scaffold, but to little effect.

Third Woman Hanged.
Mrs. Cordelia Poirier, who, along with her
paramour, Sam Parslaw, was hanged yester-
day, is the third woman hanged in the
scaffold in Canada. Eleven have been
condemned since Confederation, six of them
having been guilty of ending their
husbands' lives, but only two, previous to
Mrs. Poirier, had been "hung by the neck
and cut off their heads."

Story of the Crime.
The crime of which she and Samuel Parslaw
were found guilty was committed at
St. Canine, Quebec, on Sunday, Nov. 21,
1897. After the deed was committed, con-
fessions were made by Parslaw and Mrs.
Poirier, one laying the blame on the other.
According to the story of Parslaw, Mrs.
Poirier had been urging him to end her
husband's life, and on the Sunday men-
tioned she cut Poirier's throat with a Camp-
bell meat knife in the presence of Mrs. Poirier.
They both left the house, and when the
murder was discovered several days later
suspicion rested on the two, and both were
arrested and confessed. Mrs. Poirier, who
was 38 years of age, was once a member of
the Roman Catholic Church at St. Jerome at
the time of the murder, and Parslaw was
a member of the Police. The victim,
Isidore, was a carpenter and builder.

RIGHT SORT OF TALK THIS.

H. C. St. Pierre, Q.C., Delivers a Very
Remarkable Address at the
Liberal Club

ON FRENCH-CANADIAN LOYALTY.

Confederation Was Created So That
French-Canadians Might
Govern Themselves.

Montreal, March 10.—(Special).—Mr. H.
C. St. Pierre, Q.C., the famous criminal
lawyer, whom rumor has designated as one
of the new judges of the Superior Court,
has just delivered a speech here before the
Liberal Club, which has been most favor-
ably commented upon. "There is no coun-
try in the world," he said, "that enjoys so
great a liberty as ours. Confederation was
created so that French-Canadians might
govern themselves. No country has ever
shown such a generous example as
Great Britain. It is true we were at first
persecuted, but in the end we obtained
more than we could have ever dared to
expect. We are French, but this is not
generous act, and let us show our English
speaking compatriots that we love them
and that if they extend the hand of
brotherly love to us, we will be a strong
and united people. Let us be friends; let
us be brothers."

MR. JOSEPH NICHOLSON

**Cured of Rheumatism by Dodd's
Kidney Pills.**
His Doctor Said He Would Always
Be a Cripple—Friends Persuaded
Him to Try Dodd's Kidney
Pills—Now He is Strong
and Well.

Montreal, March 10.—The illness in the
bosom of the Bell Telephone Co. are
obliged to endure the hardships of the
cold, wet and changeable weather, in the
pursuit of their occupation.
It is not to be wondered at, therefore, that
those who suffer greatly from Rheumatism,
But there is pleasure in the knowledge that
their sufferings are not nearly so great today
as they formerly were, and in every day
they are becoming less and less.
This result is due to the use of Dodd's
Kidney Pills by the men. Many of them
have discovered that Rheumatism cannot ex-
ist in the system that is strengthened by
this popular remedy.
The experience of Mr. Joseph Nicholson is
typical, and in the following statement he
describes the manner in which he was cured
of his Rheumatism.
"I suffered with Rheumatism for more than six years. At
times I was laid up in bed—could not touch
my foot to the floor, unless I had help. My
knees were so stiff I could not walk. I
"One day a fellow-workman advised me to
use Dodd's Kidney Pills. I purchased a box
of them, and in a few days I was cured.
I now walk without my cane, which I
could not do for years. I am strong
and well, and I feel that I owe my
cure to Dodd's Kidney Pills."
What Dodd's Kidney Pills did for Mr.
Nicholson they will do for you.

**Healy and Redmond Bid Fair to
Kill Irish Unity.**
Dublin, March 10.—The newspaper duel
which has been going on for some time
between the Irish nationalist leaders, Timothy
Healy and John Redmond, through their
respective organs, "The Daily Nation" and
"The Daily Freeman," is likely to kill the
Irish unity movement, which is making
favorable progress.
Healy charges that Redmond's paper is
under Tory control and supported by British
gold. Redmond threatens to sue Healy
for libel and get an injunction against his
paper.

LONDON WANTS NEW DRILL HALL.

Ottawa, March 10.—A military deputation
from London waited upon the Minister of
Militia this morning to urge this city's
claims to a new drill hall. They are also
looking after clothing and supplies for the
reconstituted 7th Battalion.

WHERE IS THIS DOG?

Sergeant Return of the Detective Depart-
ment would like anyone who has found a
large dark red Irish setter dog to call on
him in his office at Police Headquarters, or
at his home, "Lombro-street."

A Hanging in Kentucky.

Cincinnati, O., March 10.—A special from
Glasgow, Ky., says: John Franklin was
hanged at 7.10 a.m. for the murder of his
mother-in-law, Mrs. Bowers. Franklin
professed to having experienced religion
and stepped to the scaffold smiling.
