

CORNERSTONE TRULY LAID OF TRANSPORTATION BLDG

Hon. Dr. Pyne Official in the Absence of Premier—Farmers' Interests Spoken To.

A new era in the history of the Canadian National Exhibition was marked yesterday afternoon, when Hon. Dr. Pyne, in the absence of Sir James Whitney, laid the cornerstone of the transportation building.

Promptly at 4 o'clock George H. Gooderman, president of the association, in the presence of cabinet ministers and prominent citizens, handed Hon. Dr. Pyne the engraving of the stone.

Hon. Dr. Pyne complimented the management of the exhibition, present and past, on the work which had been accomplished. It was meritorious, he said, that the work had been done so quickly and that the work would be done to the work of a certain government.

Hon. Dr. Pyne then addressed himself to the task of "bringing" the stone to the work of a certain government. He was sorry that the work could not be delayed, because he would like to have deposited within the stone first copies of the new text books which that government were issuing.

TUESDAY MORNING

HAS A HIGH OPINION OF THE FAIRPLAY MINES

Discoverer of These Properties Tells of Discoveries in James Township and Gowganda.

Among the visitors from the north country in the rounds of the King Edward Hotel yesterday, was Mr. Allan Klingsmith, who has met with marked success in the Gowganda and Mont-real River districts.

Mr. Klingsmith is the man who discovered the mines of the Fairplay Mining Company.

"I see that the ad. this morning is about a charge containing information about that country," said the World.

"Yes, I noticed the ad. this morning in the World's mining page. I have seen the booklet and the articles certainly tell splendidly the facts about the north and reflect the spirit of the country."

Mr. Klingsmith, on selling the Fairplay, declined to forego completely his interest in the properties, of which he speaks with enthusiasm.

"The claims M.R. 1879 and 1880 are located north of the northeast arm of Gowganda Lake. The great width of many of the veins in this immediate vicinity leads me to believe that the largest one in this locality. On claim 1879, for instance, there is a splendid vein of calcite eight inches in width which has been traced several hundred feet. A shaft should be sunk on this vein by the company at once. I look for assays of silver a few feet from the surface and west and south of the Fairplay, and development on these properties will doubtless disclose rich results."

"The mineralization on these two claims is so extensive that it would take me an hour to describe them all. On claim 1879 considerable development has been done and many good veins uncovered. This claim is in the diabase and Keewatin, while 1880 is entirely in diabase."

"I regard the possibilities of the Gowganda properties of the Fairplay most highly, but believe that an equally great asset will be their Township claims, 2650 and 2661. These adjoin the Elk Lake Mining Company, which is sacking ore, and are close to the famous Downey."

"I have been told that a fine showing of cobalt bloom and calcite has been found on the south claim of the Gowganda group."

MINE WITH ROYAL NAME

Active Campaign Planned by Gowganda Queen.

The central location of the properties of the Gowganda Queen lends interest to the active campaign of close prospecting, stripping and sinking planned for the approaching summer.

It is predicted with confidence that the greatest discoveries at Gowganda have yet to be made and that this season will see wonders accomplished. The veins already located on Gowganda Queen have won the interest of a number of mining men, who have every confidence in the future of the mines and the camp as a whole.

ANOTHER MINE CLOSES

Will Have Serious Effect on Alberta Farmers.

LETHBRIDGE, Alta., April 26.—(Special.)—Ashcroft's mine, which has been supplying the bulk of the domestic coal to the city and surrounding farmers, was tied up on Saturday, the management having refused to sign an agreement with a closed shop clause. The union was formed at the mine yesterday.

A good deal of inconvenience is caused by the tie-up. Large numbers of steam traction outfits have been set to work in the last few years, and their coal supply being cut short will seriously interfere with agricultural development. One implement firm alone has orders for delivery of over 600 steam plowing outfits in the prairie provinces.

DID CASTRO BURY GOLD?

CARACAS, Venezuela, April 24, Saturday, via Port of Spain, April 25.—It is persistently reported here that Cipriano Castro left a fortune in gold buried in Caracas. If this is so, it explains Castro's lack of funds and his anxiety to get back to Venezuela.

Mine Operators Will Wait.

NEW YORK, April 26.—It was announced today that the meeting of the anthracite coal operators, fixed for to-morrow in this city, had been postponed subject to call. No reason is given, but it is supposed that this action is due to the holding of a convention by the miners at Scranton to-morrow.

COBALT SHOULD HAVE SUNDAY MAIL SERVICE

How Long is Great North Country to Be Tied Up From Saturday Till Monday.

COBALT, April 25.—(From the Man on the Spot.)—How long is this great north country to be tied up from Saturday at 7 p.m. till Monday afternoon and with no mail service?

Little towns in Old Ontario that do not witness as much business activity in a year as this country has in a single day have their Sunday mail service.

Every week witnesses a loss that is great and an inconvenience that is appalling, because Canadians are so weighted with the burden of conservatism and of just "putting up" with things as they are.

Occasional outbreaks are heard, but will disturb even the politicians and the heads of departments, whose ideas being catalogued with the necessities of some Labrador fishing villages.

A dining car on the train running up from North Bay would be profitable for the railway and a Godsend to the traveling public.

Some cigars and beer might be hauled by oblique means, and the loss of a few crank votes among Old Ontario's yeomanry are some times given as a reason (not reason) for this lapse on the part of this government railway.

Cobalt and the north buy millions from Old Ontario every year and spend the whole of it to the tune of several millions. Let us have all the conveniences of modern civilization, and let some people do buy cigars and smoke them.

Francis Hurr Mosure.

SUPPORT CENTRAL COURT IDEA

Justices of the Peace of York County Pass Resolution.

The annual meeting of the justices of the peace of the county was held yesterday, Judge Winchester presiding. It was decided in future to hold the meeting on the first Monday in April instead of the fourth Monday.

The following resolutions were adopted: That the county council be requested to instruct the high constable to have a new constable's manual prepared and printed, and that the proof of such manual be submitted to the county judge for his approval before being finally printed and distributed.

That we do hereby express our strong conviction of the necessity for the judicial County of York, including the City of Toronto, whereby crime may be promptly prosecuted and punished.

In the opinion of the justices there should be a criminal court sitting at least once every month, and having jurisdiction to try all charges of crime of whatsoever nature.

DAYLIGHT BILL NEARER

Special Committee Reports It Favorably to the House.

OTTAWA, April 26.—The daylight saving bill was passed this morning by the special committee dealing with it, and reported favorably to the house. Whether it gets thru this session, however, is doubtful.

The act, which does not apply to the Yukon Territory, now provides that from 2 o'clock a.m. on the first Sunday of April till 2 a.m. on the first Sunday of November of next year, the ordinary standard time now in use, and shall be standard time. It is intended to come into force in 1910.

For King Launched.

The steam tug Eri King was launched at the Pullman Iron works yesterday at 2.30. The tug was built for Frank Simpson, the contractor. The engines developed 500 horse power. Mrs. Simpson christened the tug. Quite a number of people turned out to witness the launching, which was very successful. Shortly after the ceremony a diamond pin was presented to William Nesbitt, superintendent, for Frank Simpson, by Mrs. Simpson.

Cereal Plant in Receiver's Hands.

BUFFALO, April 26.—Judge Hazel in the United States court today appointed A. L. Culver, Lyman M. Bates, and Frank A. Abbott receivers for the H. O. Co., a cereal food concern, with a capital stock of \$2,000,000, and a bonded indebtedness of \$1,800,000. The plant will be kept in operation by the receivers.

A COMPANY THAT KNOWS HOW TO HANDLE ITS MEN

Men Treated Right Consistent With Discipline and Extent of Its Operations.

"Use your men right and labor problems can be solved even in a mining camp."

The remark was made yesterday by a gentleman who is largely interested in one of the largest mining enterprises in the north—the Gowganda Mines Limited.

In view of the extent of the operations of this company, the number of men employed, the large sums already invested in equipment and supplies, it is interesting to consider what labor troubles there are in the north and how they are to be dealt with.

In a large mining camp men are drawn from all points of the compass. They are usually men of adventurous spirit and ambition. At first a job at \$2.50 a day and "found" appeals. After while the stories of rapid fortune making passed over the table with the cards at night have their effect. The men get restless and want to prospect for themselves. Wages are not an inducement when the fever of mining is running its course.

This sort of thing has caused endless expense and annoyance in the mining country. The Gowganda Mines have met the situation by a careful selection of its men, with regard to experience and other considerations. They are treated like men, well fed, but not extravagantly, and allowed every reasonable personal liberty during hours of recreation consistent with the discipline that must be maintained in a large staff and in the midst of extensive trenching, stripping and general mining operations.

SUIT FOR HALF MILLION

Contractors Claim Balance From G. & G. Railway Co.

The contracting firm of M. A. Eggett & Co., including Michael A. Eggett, of Hamilton, Herbert E. Larkin and Alex. Sangster of St. Catharines, began their suit in the non-jury assizes yesterday against the Guelph and Goddard Railway Company for \$523,574, balance of a contract of \$1,117,115 for the construction of the said railway line. They claim that they received \$593,540, and the amount of their claim includes extra work. They state that the railway company offered them \$100,000 as full payment, which they refused.

In counter claim and defence the company says that the work was not completed within the time limit, and is not yet completed. They state further that the contending parties held a conference, at which both agreed upon a settlement, but that Eggett and Co. broke off the negotiations. The company's engineer, thinking the settlement held good, gave the plaintiffs a certificate of completion, which they claim should not have been given.

Wallace Nesbitt, K.C., A. H. Stewart, D. L. McCarthy, K.C., and M. L. Gordon represent Eggett & Co., while the railway company is represented by G. F. Shepley, K.C., and G. W. Mason.

Two Large Estates.

The will of the late John Macnamara, market gardener, has been filed for probate in the surrogate court. The whole estate is valued at \$124,463, a large part of which consists of stocks and debentures. The real estate is valued at \$11,520. The estate is divided among five sons and three daughters.

New Telephone Incorporation.

ALBANY, N.Y., April 26.—The Public Service Telephone Company, capital \$10,000,000, was incorporated today to operate lines of telephone and telegraph, radiotelegraph or other electrical lines of communication, pneumatic and otherwise, in and thru the various cities, towns and villages of New York State, the Dominion of Canada and elsewhere. The principal office of the company is not stated, and according to the certificate, the company is to begin business with \$700.

Falls From 24th Storey.

NEW YORK, April 26.—Falling 350 feet from the 24th storey of the Metropolitan Life Insurance Company's skyscraper on Madison Square today, Thomas Mortimore, 42 years old, was instantly killed. Hundreds of people in Madison Square were watching him at work and saw him fall.

It is not often that a mining enterprise deals so broadly and comprehensively with the country in which it is located as the Fairplay Mining Company's Booklet, which contains the two articles which follow:

GOWGANDA

Destined to Be One of the Greatest Silver Camps of the World.

MONTREAL RIVER MINES

Camp Will Add Millions to the Silver Output of the Nation.

These articles are written by one who knows the great silver fields of the north. The historical and statistical information is given accurately, while clothed entertainingly in the truthful color and spirit of the northland setting.

YOU WANT A MAP?

If you are interested you will want a map of the new mining districts. The company issues two splendid maps with the prospectus, which will also be sent on request.

This prospectus contains the official report of the discoverer of the Fairplay Mines, and tells of many features which make the plans and methods of this company unique.

This is not a stock jobbing enterprise. This is a Mining Company, whose business is that of mining—nothing more or less.

ENLARGE KENT SCHOOL AT COST OF \$80,000

City Council Approves Board of Education's Plan—May Establish Civic Garage.

The city council yesterday approved the board of education's plan for the expenditure of \$80,000 on enlarging to 31 rooms Kent school at the corner of Bloor and Dufferin-streets, altho it looked for a time as though the matter would have to be submitted to a vote of the ratepayers.

Controller Hocken contended it was a wrong principle that considerable money should be made to time without consulting the people, and in the absence of a number of aldermen, the majority motion to refer back was carried by 7 to 6. Later Chairman Rawlinson of the board of education advised the council that several aldermen switched over making the vote 11 to 3 in favor of the enlargement.

Ald. Foster made an ineffectual fight against the appointment of two additional building inspectors at \$15 per week each and an engineer at \$100 a month. He contended that while there present, it would soon slacken, but the new employees would still hold their jobs.

Controller Hocken pointed out that the assessment commissioner had sold city land valued at \$100,000 which meant high future building. Ald. McGhie, J. G. Graham and Church held that the architect's department was unable to cope with the work.

Only Ald. Foster voted against the appointments.

A Civic Garage.

A strong sentiment in opposition to the purchase of another auto for the works department was in evidence. Ald. Foster and Dunn, the chief obstructionists, argued that the automobile for civic service was an expensive fad and that several machines had already been put on the scrap heap. It was unanimously agreed to get a report on this point.

Controller Hocken suggested a municipal garage, and a requirement that civic officials should apply for the use of the autos when needed and records kept. He thought six runabouts and one good car should suffice for the whole civic service.

The council was entirely in accord with Ald. Foster's proposal that the appointment of a tax collector for the new seventh ward (West Toronto) be deferred until it had been decided whether any of the tax collectors should be retained, in view of the scheme of reorganization under consideration. The taxes for the ward will be made payable at a bank branch and the collector for the sixth ward will attend to any delinquents.

Ald. R. H. Graham moved that the city engineer be instructed to report upon the advisability of extending car lines along Bloor-street west from Lansdowne-avenue to Dundas-street, and the construction of a viaduct or bridge to overcome the difficulty of level crossings. The works committee will deal with the motion.

Ald. Bredin moved that the property commissioner report on the receipts of cattle, sheep and swine at the city cattle market each year for the past ten years and that the total cattle market revenues for each year of that period be given separately. The commissioner will report to the property committee.

Lawrence Baldwin asked that the construction of a bitulthic pavement on Dunvegan-road be deferred until the width of the thoroughfare had been increased from 66 feet to 80 feet. It was pointed out by Ald. McGhie, however, that the width of the roadway would be only 24 feet in any event.

Authority was given for the introduction of a bylaw to fix the assessment of West Toronto at the uniform rate of 18 1/2 mills.

W. L. Drayton will be paid his little bill of \$600 for conducting the Ward's Island arbitration. Ald. Dunn and Foster succeeded in getting the item referred back, but on a later vote their opposition was swamped.

The city solicitor reported that it wouldn't be legal to pass a special by-law exempting the new addition to the Home for Incurables from being constructed of fireproof material, it was decided to leave the matter in the hands of the city architect.

The board of control was instructed on Ald. Bredin's motion, to ask the Dominion Government to allow the grounds surrounding the armories to be used as a playground when not needed for drill purposes.

DEFENDS ON THREE MEN

Aldrich, Payne and Cannon Can Provide Reciprocity.

DETROIT, April 26.—Whether the Detroit conference on better trade relations with Canada will be productive of a reciprocity treaty that will reciprocate depends on three men, Senator Aldrich, Congressman Serrano E. Payne and Speaker Joseph G. Cannon.

That is the opinion of J. L. Hudson, one of the members of the committee selected to go to Washington to wrangle with congress on the subject, and it is held by many other delegates. They think these three must be converted or distracted, in order to get the measure thru.

VARSITY ALUMNI

This evening at 6.15 the Toronto branch of the Alumni of the University will dine at Williams' Cafe, Yonge-street, after which President Paton and Principal Hutton will give addresses. Sir William Mulock will preside.

MINISTRY WILL RESIGN

MELBOURNE, April 26.—The Age states that if the federal parliament carries a resolution in favor of offering a Dreadnought to the imperial government, the ministry will resign, and ask for a dissolution.

Can Bleach in Bracebridge.

BRACEBRIDGE, April 26.—The Dominion Linen Mills of this town are starting work again, after having been shut down for over a year. They will do their own bleaching, and thus avoid having to send the linen back to Ireland for this process.

30 CARS AT UNION YARDS POTATO CROP RETURNS ON ONTARIO SOILS

TRADE DULL, PRICES EASY Many Farmers Are Raising More Potatoes This Spring and the Use of Artificial Fertilizers is Being Made.

The potato is one of the world's most widely cultivated plants. From the time that Sir Walter Raleigh carried the tubers over from Carolina to Europe, its importance as a food for man and stock has grown.

Not only is it used as a human food, but America feeds much of her live stock, while in Europe millions of bushels are converted into alcohol.

It is not unusual to see potatoes in Ontario on land that is not much used for anything else. They are raised in a country that depends entirely upon its home market and the amount of potatoes that does not exceed other crops.

There is a disposition among Ontario farmers of recent years to grow more of the crop of smooth potatoes.

THE RETIRED FARMER. Farmers who retire and move to town are more reckless of their neglect of fresh air and exercise than city men.

PROF. ORR GETS AFTER CANADIAN THEOLOGIAN

Takes Issue With Prof. Jordan of Queen's—Dr. Harris and Certain Text Books.

Christian parents in this city would not be able to rest if they were aware of the contents of some of the text books used in some of the young ladies' colleges, said Rev. Dr. Elmore Harris, chairman, at Prof. James Orr's lecture in Jarvis-street Baptist Church last night.

Prof. Orr had a large audience, including a number of representative evangelical ministers. His topic was "Biblical versus Critical History of the Religion of Israel."

The lecturer leveled his argument at the critics of the last three decades in general, and specifically at Prof. Jordan of Queen's University, Kingston, in which city Prof. Orr lectured on Friday night.

Prof. Orr said that it had been intimated that he was "on the fence." He desired to make himself understood and pleased his audience by addressing the question, "Is that clear?"

Prof. Jordan, he said, declared in the newspapers that there was no difference between Biblical revelation and the progressive revelation of the critics. Prof. Orr read an extract from one of Prof. Jordan's works in which the latter declared that the traditional and the critical view of revelation were distinctly different.

Tracing the teachings of the critics the lecturer said they went away from belief in patriarchal history, as family legends, that the passage of the Red Sea was a fortunate coincidence—for the Israelites—a high wind blowing the waters back, while they escaped, but rolling them mountain high over Pharaoh's army. It was claimed that the Mosaic law was a compilation ages after Moses' time.

So far as the Book of Deuteronomy was concerned "it was hidden by priests in the temple, who pretended to find it there to suit their purpose instead of falling in the order of the Bible chronology."

The critics represented Jehovah as being first the storm god of Sinai, the national god of the Canaanites, but when he became the real god of the universe the critics had not made clear.

As to history and teachings of the critics traced the Bible to its apex. The lecturer's view was that Jehovah historically stated. While he did not question the sincerity of critics who believed in the divinity of Christ, their inconsistency amazed him.

He was confident that if the teachings of the critics prevailed the whole basis of the New Testament as well as of the Old would crumble into ruins.

A suggestion that questions would be answered inspired several persons to attempt to give the religious experiences. This was disavowed by the chairman, who said the points would be dealt with in the lecture to-night.

14 Housefurnishing Depts. in One No. 5—Chintz and other Printed Fabrics

WHERE we have given one whole section to Lace Curtains and another of the same size to Casement Cloths, when we come to Chintz and such like goods, we devote to them a double section. There are so many usefully pretty printed materials for household decoration—Coverings, Curtains, Spreads, Draperies, etc.—and there is such a constant demand for them that we have gladly given them plenty of room now that our new building enables us to do so.

The Chintz family of fabrics give the maximum effect at the least expense. They can be used in pretty drawing-rooms—they can be used in temporary cottages. They are artistic enough to be rich and cheap enough to serve for summer bedrooms, or for summer furniture covers and slip covers. We have a splendid assortment of these bright, flowery prints—American, English, French, Dutch, German and East Indian. Let us run over a few for your inspection. Come in and see these fabrics. They are always cheerful and companionable.

ART TICKINGS Made to wash, and wash often, without losing any color brightness. The effects are quite varied, but those which represent flower and foliage are quite prominent, and most useful. Per yard, 40c.

TAFFETAS The fancy weave of the material often adds to the general effectiveness of a printed fabric, in either cotton or linen. This probably accounts for the popularity of Printed Taffetas. Many entirely new designs to show you. Prices per yard, 40c to \$2.00.

SILKOLINE The summer drapery par excellence, used in so many ways. The Hungarian and Roman stripe designs are new, and selling very freely. Per yard, 12 1/2c and 15c.

DENIMS The most practical and serviceable of all low-priced curtain and covering material. All the desirable colorings; the quality decidedly better at the same old price, per yard, 28c.

CRETONNES The various staple styles and qualities are here, of course, but also many novel effects, particularly those which are reproductions in designs and colorings of patterns our great-grandmothers admired. There is an interesting antique design called the "Wooden Bird," and a quaint pattern of diminutive flower baskets, among those which sell from 15c to 50c per yard.

CHINTZ Block printed for the most part, producing that artistic effect which is so near akin to handwork; a rich verdure design has a wreath of foliage greens, on a cream ground. The depth of this pattern is remarkable. Per yard, 50 inches wide, \$1.00 to \$2.00.

SATEENS Dainty is the word which best describes this season's showing of Printed Sateens, because while there are some dark shades and elaborate designs, most of them are light, with pretty floral decorations in naturalistic colorings. Per yard, 12 1/2c to 75c.

Countess Footwear for Ladies BOOTS or OXFORDS The Countess is a Simpson evolution. We saw the various qualifications of the different brands of boots and shoes, and we combined them in the finest boot for women made in Canada at the present time.

Notes of Special Interest Wednesday in the Great Cloak Dept. A GREAT river filled with the floods of Spring. A mighty procession ever changing, ever constant—such is our Cloak Department.
