WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.) The River Aa, they captured several Russian fort positions on a front of more than six miles and that they made progress in the face of strong reserves hurled forward to check them. The German war office in a communication issued last night said that the German troops had made further progress on both banks of the River Aa. As the notion of attacking the Russians for purposes of wearing down their strength is not feasible, the enemy must be attacking them for the purpose of creating a diversion to attract more attention so as to cover up the fact that German armies have received a severe check in Rumania. This check is becoming more apparent and more definite as time proceeds.

STRONG LEADER UNITED PEOPLE

These, Says "Ralph Connor," Are Vital to Victory—No Peace Yet.

A WAY FOR QUEBEC

Neither Race Nor Creed Nor Party Must Stand in the Way.

Peace without victory is impossible, because insecure; therefore Canada must make war that the sword may be broken in Germany's hand and the dream of empire thru us wrenched from her heart. This end can only be attained by united, steady, resolute leadership of an enlightened and consecrated people.

that they might prepare for more war, therefore they did not feel secure in talking peace yet. Supposing Canada were to become party to an insecure peace, what would it mean? Simply this, that for the next hundred years Canada, with the rest of the world, would have to stagger along under the almost intolerable burden of building armies and navies in preparation for future aggression. There would be no escape from it, in the United States more than in Europe. "If this is going to be a fighting world, Canada will be in it; because we have got to live," said he.

Noon-Day Gathering of Patriotic Campaign Reports Excellent Progress.

STRONG PULL AHEAD

Vigorous Campaigning Needed if Objective is to Be Reached.

Another gathering of enthusiastic workers marked the third assembly of the captains of the teams at the noon roll call yesterday, and a big shout went out when the total of \$47,885.18 was known to have been collected between that hour and noon of the day preceding. The over the \$2,000,000 mark, Major Dinnick warned the men that their work was by no means finished and that the hardest part still remained. There was still a long pull, a strong pull and a pull altogether required.

"I want to give something of my very own," read Major Dinnick from a letter in his hand. The letter was from Queen's Swan, a little girl from 1821 East Queen street, and was accompanied by a pretty blue-silk dress, lace coat and hood sent her at Christmas for her doll. The article was sent out up for auction and the hammer went down to Senator Nicholson, who paid \$50 for his purchase.

His first number was Handel's great solo from Judas Macabaeus, "Sound an Alarm." His stirring and dramatic rendering reached a thrilling climax in the line of ballad numbers was happily chosen; Sterndale Bennett's "Take Oh, Take Those Lips Away," Dvorak's "Songs My Mother Taught Me," G. Thomas' "A Memory," the finest of the four, delivered with splendid passion; and E. E. Grant's "What is Love" sung with grace and delicacy. An encore was responded to with "In the Shadow of Sadness." Later he sang "Che Gilda Manina," Puccini's operatic aria, and in response to a fervent encore, sang Elgar's "Land of Hope and Glory" with the chorus. Was Worried and Nervous From Being Much Alone

Herself and Child Greatly Benefited by Using Dr. Chase's Nerve Food.

Kingston, Ont., Jan. 25.—The nervous system cannot withstand monotony any better than an excess of excitement. As a result it is not unusual to find many sufferers from nervous troubles among people who are much alone. There is more chance to worry, and worry exhausts the nerve force at a tremendous rate. The writer of this letter could not rest or sleep, but she found that by using Dr. Chase's Nerve Food her nervous system was built up and she was enabled to sleep in comfort. The results were equally satisfactory when the Nerve Food was used by her eight-year-old boy and both are now enjoying good health. Mrs. F. Truesdale, 9 Lower St., Charles street, Kingston, Ont., writes: "For some time I suffered from nervousness and sleeplessness, and I attributed it to the fact that I was alone so much with my child, my husband being a sailor. But after trying one box of Dr. Chase's Nerve Food I found I could go to bed at night and get a good night's rest, despite the fact of being alone. I have found excellent results from the Nerve Food, and recommend it with confidence to all suffering as I did from nervousness and sleeplessness. I also used some Nerve Food for my little boy, eight years old, and found it quieted his nerves and made him sleep better." Dr. Chase's Nerve Food, 50 cents a box, a full treatment of a box or two, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Limitations only disappearing.

The Little Gifts Are Needed

A week's income, salary, wages, or revenue of whatever kind it is, but trifling contribution from any man to the Patriotic and Red Cross Fund, who has done nothing in other ways to serve the cause.

What is Wanted?

The news is still in the valley of indecision if we may judge by the quotation from Lord Derby's letter, spread over the whole top of a page, and the leading editorial.

In the face of this the leading editorial asks, "What is wanted?" Are we to understand that the News stands for the indefinite prolongation of the war?

Great Britain is being divided into six districts for the immediate mobilization of men and women without limit of age, to set free all eligible men for military service.

Land Leeches and Land Butchers

It has been a persistent policy on the part of some civic politicians and their advisers to endeavor to limit the expansion of Toronto and to confine the citizens to the restricted area, within suits' their ideas of inflicting central values.

It should be clear enough that free access to the land would tend to maintain a more equitable range of values. This is Henry George's chief fact upon which he bases other conclusions in which it is not necessary now to follow him.

There ought to be municipal or provincial coal yards, the latter by preference, containing at least a year's supply. They could be run in conjunction with the trade, and the general consumption of the province should be provided for without fail.

There has been nothing which has been a greater source of strength to Toronto than the constant access of new population, settling, perhaps, on the outskirts of the city, in order to be able to exist at all.

Nothing tends more to the strength and prosperity of a city than the influx of population, and Toronto should be the first to recognize this and the last to refuse obstacles to their coming.

We are on record in favor of every safeguard that can be applied to this sole method of getting the people homes of their own near if not in the city. We believe such property should be improved, paved, sewered and lighted, but even this, unless done under controlled conditions, would prevent the settlement of such an enterprising, industrious, thrifty and hardy class of citizens who have first created and then metamorphosed some of the "shack towns" in the city fringes.

It is not always that the handwriting on the wall is neglected, but it is the exception rather than the rule to have adequate attention paid to it, or its significance understood.

A Coal Famine

It is not always that the handwriting on the wall is neglected, but it is the exception rather than the rule to have adequate attention paid to it, or its significance understood.

The remedy for this is one not to be left in any private hands or to any merely local enterprise. Individual citizens have in some cases this year learned the danger of not looking ahead for the winter's coal supply, and have suffered in consequence.

If there be any who do not understand what a vital necessity a sufficient coal supply is to the people of the province, it might be that they would consider any provision of this sort foolish. But no business firm and few careful housekeepers fail to provide for this absolute need.

There ought to be municipal or provincial coal yards, the latter by preference, containing at least a year's supply. They could be run in conjunction with the trade, and the general consumption of the province should be provided for without fail.

Editor World: The choice lies between an election or national government. JUDGMENT AGAINST BREWERY UPHELD

Chief Justice Refuses to Quash Decision Against Reinhardt Firm and Geo. McFarlane.

MUST WAIT FOR LAND

William Hanna Will Be Given Possession of Father's Property at End of the War.

Justice Clute in a judgment handed down in the matter of the estate of John Hanna, who died on July 17, 1916, leaving an estate valued at \$11,000, has decided that William Hanna, his son, who is a soldier on furlough in Canada, is not entitled to possession of certain land in Fitzroy Township until he has been discharged from the army of the war.

The will of the father provided that his son inherit in the event he survived the war. That his furlough in Canada and his probable return to the front does not warrant permanent transfer of the land to his name was the decision of Justice Clute.

A motion by Edward Smith, of Prescott, for an order setting aside the order dismissing his action against the Merchants Bank because he failed to place \$400 security for costs, was dismissed by Master-in-Chambers Cameron yesterday.

The jury in the assize court at the city hall yesterday afternoon awarded Martin J. Quinn \$22.25 in his suit for \$5000 damages for malicious prosecution against the street railway company.

Justice Masten today will resume hearing in the case of Henry Abell against the Village of Woodbridge for \$10,000. The plaintiff declares that he is prevented from using a logging flume and otherwise operating his lumber mill because of an obstruction placed by the village authorities over a millrace.

WANTS TO RESIGN.

Special to The Toronto World. Lindsay, Jan. 25—Lieut.-Col. J. J. Glass, C. C. 252nd Batt. of Victoria and Haliburton, has requested the district O. C. to be relieved of the command. Gen. Hemming, D.O.C., however, has requested that he remain on the job and carry on the work.

MORE LIQUOR FINES.

Consequent upon the finding of a large quantity of ale and porter in a shed behind the store of Milton Leroy, 897 East Queen street, Leroy appeared in the police court yesterday, and was fined \$200 and costs. His defense was that as he was delivering the liquor as an express agent and he had it brought to the place for sorting to the different wagons. His defense was not allowed.

CITY HALL NOTES

When the charge against the Toronto Street Railway Co. comes up in the police court this afternoon, an adjournment will be asked by the defendants, in order to complete their defence. The company has engaged the services of M. K. Cowan, K.C., and a strong fight will be put up against the charge of maintaining a nuisance by overcrowding.

More than 800 men and 172 teams were employed yesterday in removing the snow from the city streets.

At 3 o'clock this afternoon the colors of the 180th Sportmen's Battalion will be deposited at the city hall.

It has been recommended by the board of control that J. E. Walsh of the C.M.A. be paid \$100 for his services in connection with the appeal of the citizens' committee before the railway board.

Mayor and Legal Officials Will Take Matter to Ottawa if Necessary.

Mayor Church does not think that the Niagara Power Co. has the right to erect poles on Toronto streets to replace those ordered to be removed by the city. The city legal department takes the same stand and will not admit that the company has such a right, but if a thorough investigation convinces them that the firm can invade the streets then the matter will be taken to Ottawa and a determined fight waged against it.

Controllers Cameron and O'Neill regard the matter as a serious one for the city, and declare that measures should be taken immediately to have the act amended. The city should be prepared for the taking over of the street railway system in the present time were not favorable to that end.

No matter how alluring the proposition in years to come may be, Controller Cameron would refuse all requests for franchises on the city streets.

Strand Hotel Manager Fails to Obey License Board Summons

Chairman J. D. Flavell of the Ontario License Board was very highly displeased when Arthur Scott, manager of the Strand Hotel, failed to obey the board's summons yesterday morning to appear and explain why he had liquor on his premises, for which he was recently fined \$50.

The board made enquiries when Scott did not appear and found that he was out of the city, and the chairman stated that he might find his license gone unless he could give a good reason for his failure to put in an appearance.

Officer and His Four Chums Join British Aviation Corps

Lieut. Oliver Johns, 191 Ashworth avenue, who prior to enlisting was in the 10th division court, city hall, has just received word he has been granted a commission in the Royal Naval Air Service. He had been attached to the 224th Battalion. Four of his chums have also received commissions in the aviation service. They are: Lieut. Capt. Atwood, George Corbett, Victor Nash and George Higgs.

DENIES STORY Works Commissioner Harris yesterday denied that there was any truth in the story that he had dismissed nine men who had refused to contribute a month for six months to the Patriotic Fund. It was absolutely untrue, he said. They used no compulsion whatever in the matter. As to the men let out he was closing up the job they were connected with, that of the cap inspectors.

Dentals
Win 5-1

ANOTHER VICTORY FOR THE DENTALS
Jerry Laflamme Has a Hand in Tooth-Pluggers' Victory—Much the Best.

It looked like old times to see Dr. Jerry Laflamme tearing down the ice at the Arena. The former St. Michaels and Argonaut star made his first appearance of the season with his good dental team last night, and, incidentally, the Dental Downed T.R. & A.A. 5 to 1.

Jerry did not play a full game, but showed the fans enough to make them realize that he will be a mine of useful man when he gets into shape. Laflamme had only one night before taking his real thing last night. The Dentals had the class. They outskated their opponents and broke up T.R. & A.A. offensively with close pestering and scoring. Jerry played back on the defence with Sheldon, and Box was most advantage up. Box showed to even the best man on the team, the centre man, and was easily the best man on the ice. Jimmy Stewart was unable to play, and Hodgens was moved over to the wing. It was a back looking team, and the Dentals will back them to get into the finals.

T.R. & A.A. showed some changes. Hicks and Macpherson were absentees. Hicks made his initial appearance, and was the best man for the losers. He was a laced shape, but did some good checking and was a strong puck-carrier while he lasted. Arden was out again, and Ferguson was dropped back on the defence. Hill played two periods, and Jerry Laflamme played to even up.

Crooks played a strong game in the Toronto net. Time after time he came out to save with two dental players right in on top of him. It would have been a much larger score but for his good work. Charlie Stewart played Sheldon and Laflamme had considerable on the other two defence men.

Dentals were much more finished at team than they were in their previous games. They passed neat and sharp, and were faster. T.R. & A.A. threw away many chances by shooting and loose work in and around the net. Smith worked hard and used his head; but he was given little support.

While no goals were scored in the first period, the Dentals had the marvellous shot. They checked like fiends and were quick in their defence. Both sides Crooks made some nice plays. Both sides were belated to bunch for a while and with close checking it was not until the second period that the Dentals had the first goal.

They straightened away in the second period, and the Dentals ran in three goals. Laflamme opened a few rushes, and Crooks defensive work was most commendable when within striking distance, and the crowd enjoyed the fast skating.

Box went the whole length of the game, and kept the goal of the net, crossing over and footing. He was going great guns, and his rushes were the only bright feature of T.R. & A.A. The Dental defence was paying him a lot of attention, and he was working his way up to the net. He worked his way up to the net, and then went over a skater and it was the six-man stuff which kept him from getting to the net. Hodgens was into the while, and Laflamme decided to go this time. Jerry did not get the third score off with him. Milton got the third score. He shot from the side, and this was all for the period.

Cecil Hill, who was playing below form, failed to appear for the final bout, and Jerry Laflamme decided to play off. The whole game was played off a side. Ed McLean was moved up to the forward line, and Artinella and Crooks back to the second line. The Dentals looked just as good with the six men, and in the first two goals. Hodgens and Milton combined for the first goal, and he was lying back to bat in a rebound. Hodgens broke up with Smith as a partner. Humphrey passed over to the left, and Smith netted, leaving it a 3 to 1 for Dentals. Crooks stopping a dozen in the second period.

The teams:
Dentals (1)—Goal, C. Stewart; defence, Sheldon, Laflamme, Box, Hodgens; forwards, Miller, right defence, Morris; T.R. & A.A. (2)—Goal, Crooks; defence, Ferguson, McLean, rover, Humphrey; forwards, Smith, right, Artinella; left, Hill.
Referee—Dr. Billy Wood.

ROUSING BATTLE IN JUNIOR GAME
University Schools Came From Behind to Down Upper Canada College.

University Schools had a tidy argument to get the decision over Upper Canada College in their junior game at the Arena yesterday afternoon. U.T.S. defeated U.C.C. by a score of 3 to 2. The game was a rousing one, and the first twenty minutes of play, but Upper Canada ran in three goals in the second period, and the game was decided. Only two goals were counted in the last stanza, and University Schools got them both. It was a fast, close checking game, but the boys lacked the finish in scoring. U.T.S. forced the play in the first period, and checked hard through the first period, and checked hard through the first period, and checked hard through the first period.

VOLLEY BALL

Thos. Giles deserves great credit for the way in which he is handling his team in the West End Y.M.C.A. Volley Ball League. His team has had two easy wins over Adam, who notwithstanding Swartman's brilliant playing, could not overcome the prowess of Giles' team.

Chisholm and Wilson divided their two best games with a full team, and the play-off proved very exciting, and showed how well matched these two teams are. Adam was forced to play five men, as against Chisholm's eight, with a full team. The results would probably have been the same. The scores for the first game were 15-15, and second game 15-17. The standing of the league is as follows:

Thos. Giles.....3
George Chisholm.....2
Mason Wilson.....2
Harvie Adam.....1

am," the premier answered. "You do not suppose that the great combination of peoples who make up the empire can have stood steadily together with their allies in order to discredit and overthrow the most brutal and inhuman machine for the destruction of human liberties that the world has ever seen, and now have discovered a new ground of friendship.

"We stand at this moment on the verge of the greatest liberation that the world has seen since the French revolution. Do you tell me that peoples who have stood together and attacked literally everything in order to find some way of perpetuating that unity afterwards on an equal basis? I am certain that they will. There will be much for them to do. Peace terms will be only a beginning. After they are sufficiently arranged we will have to set to work to build up that ordered freedom and fraternity which is the only security for human peace and progress, and which militates against the nations which have borne the heaviest burden of the day in overthrowing that militarism which has made a share in building that new earth which they have made possible by their sacrifices? No; if we endure to the end I have small fears for the future; and not the least important, the foundations for the work we shall have to do together in that future will be this war council of the British peoples."

"If you mean by that constitutional reconstruction, replied Mr. Lloyd George, "I can only say it is too soon to talk about after the war, but I can say this: Things can never be the same after the war as before it. Five democracies, all parts of one empire, cannot shed the blood and treasure with a holiness and disregard of cost which has been beyond all praise, without leaving memories of comradeship and great accomplishment which will never die. Of this I am certain. The peoples of the empire will have found a unity which has never existed before—a unity not only in history but for purpose. What practical change in imperial organization that will mean I do not venture to predict. That it will involve some change is certain. I believe that all the statesmen of the old country and the dominions who have spoken about it are unanimous on that point. The forthcoming war council, however, cannot deal with these fundamental post-war problems, but it may afford some insight into the form they may take."

"Then you are sanguine about the future of the empire?"

"If we see the war thru I certainly

DELAY IN CONFERENCE UPSETS OTTAWA'S PLANS

Fear Felt That Session May Be Prolonged Into Summer. Ottawa, Jan. 25.—The government is still without any information as to the date of the imperial war conference. The government has been making its plans in the understanding that the conference be called the end of February. If it is not summoned until the middle of March, as is intimated in a cable today from London, it will upset all plans for adjournment. The opposition agreed to an adjournment of the middle of February on the understanding that there would be nothing contentious in the meantime. If the house did not adjourn until the middle of March, the session of the month, it would throw the session into summer. An attempt might now be made to finish everything before adjournment.
