Is The Greatest Nava Battle In History Soon To Be Begun?

British and French Closing In On German Bases Is Belief Of Observers

Extraordinary Events Taken as Indication

All Steamers to Holland Stopped; Preparations to Close British Ports; British Submarine Activity; French and British Warships for North, all Thought to Show That "The Day" is Near

London, April 22.—A Herald cable from London says: A great battle in the North Sea, the most titan engagement in the history of naval warfare, may be a question of hours. All commercial shipping has been cleared from the old German ocean and all preparations are complete for a trial of strength between the British fleet and the German grand fleet, supported by the Heligoland fortress.

THE DAY IS NEAR

Still other indications are present that "Der Tag" is near at hand. The admiral has been working at full pressure for days. Every available ship has been under extra guard and the employees have been urged to greater exertion. The fleet is known to be at the highest point of efficiency, and letters from the fighting ships have told of an undiminished feeling that action soon would take the place of the monotonous patrol duty.

Frank Cochrane will make up the mind of the government upon the question of an appeal at once or deferring the election until autumn.

"We are again back at our billet, and resting for three days. We have had seven days out of the line in the trenches. We have no duties when resting except route marches to keep us in shape. The last time in we were in an advanced trench and spent the night watching enemy movements at the German lines. They returned there, calling us 'Foolish Canadian volunteers.' CAREFUL DOCTOR

Prescribed Change of Food Instead of Drugs

It takes considerable courage for a doctor to deliberately prescribe only food for a despondent patient, instead of resorting to the usual list of medicines.

Some truly scientific physicians recognize and treat conditions as they are and should be treated. Here's an instance:

"Four years ago I was taken with severe gastritis and nothing would stay on my stomach, so that I was on the verge of starvation."

"I heard of a doctor who had a summer cottage near me, a specialist—and, as a last hope, sent for him."

"After he examined me carefully he advised me to try a small quantity of Grape-Nuts at first, then as my stomach became stronger to eat more."

"I kept at it and gradually began to have color in my face, memory became clear, where before everything seemed a blank. My limbs got stronger and I could walk. So I steadily recovered."

"Now after a year on Grape-Nuts I weigh 125 lbs. My people could not be gripped at the way I grew fleshy and strong on this food."

LETTERS FROM FREDERICTON SOLDIERS TO FOLKS AT HOME

A letter received by his wife in Fredericton from Private Archie F. Smith, with the Canadians in France, tells of stiff fighting at LaBassee where the Allies won the day, and took the town. He says the Germans in the trenches the night before he wrote were calling over to the Canadians not to shoot as they would be out of that country in a few weeks. He thought, himself, that by July the end would come. As to what it would be, he wrote, "you can bet your last dollar that we'll win."

A letter received in Fredericton yesterday from Private Frank McManiman, tells that he had just come out of the trenches with his unit, the Dorsets, after having been there for about ten days and having lost many killed and wounded. His regiment, he said, had not lost a position since the war started.

LAKE STEAMERS FOR THE MIRAMICHI

Portland, Me., April 23—Unable to secure any of the British or Norwegian steamers that have brought pulpwood here in former seasons, they all being engaged in more profitable lines, the International Paper Company was forced to look elsewhere and, it is reported, have secured two of the fleet of about fifteen steamers which will shortly come around to the Atlantic coast from the great lakes, their names as yet not being announced.

It is possible the season will open here a little later than common, as at last reports there was still quite heavy ice on the lakes, and it is doubtful if the first cargoes from Chatham or Duluth, N. B., reach here before the latter part of May. The steamers chartered are reported to have about the same capacity as those formerly engaged in the busi-

ness, the average cargoes being about 2,500 cords.

Two other steamers coming from the lakes have been chartered by the George E. Warren Company of Boston for coal carrying and will bring cargoes of coal from the Virginia ports to Boston and Portland, taking the place of the P. J. Lashman, George E. Warren and others formerly engaged in the business, but which are now under charter for off shore trips.

By a competitive examination Mrs. Dorothy Tyson won the postmastership of New Providence, N. B., thus replacing her mother, who becomes an assistant.

RECENT WEDDINGS

The wedding of Gunner Harold Stead of the Divisional Ammunition Column, formerly of the Norton Griffith staff in St. John, to Miss E. Myra Esley, daughter of the late Henry G. Esley, of the People's Bank, Fredericton, took place last evening. The bride has been living in St. John in recent years, but the wedding took place at the home of her uncle, J. W. Spurgeon, Fredericton, Rev. Captain J. H. McDonald, D. D., chaplain of the division, performing the ceremony.

Albert V. Morley of Chatham, Ont., and Miss Susan Louise Austin of Chatham, N. B., were united in marriage last evening by Rev. J. H. A. Anderson, at the home of the clergyman.

THE PROVINCIAL ACCOUNTS

Mr. J. L. Stewart wants to know by what authority the provincial secretary issued bonds at 5 per cent. when authority was given to issue them at 4 1/2 per cent.

The government appears to deal with the funds and credit of the province in any old way, without regard to law or prudence, trusting to a silent and obedient legislature to approve of anything that may be done.

St. John will not need to be represented at that conference of mayors to consider the question of unemployment in Canadian cities.

The opposition at Fredericton is unable to ding from the government the particulars about those patriotic potatoes. What is there to conceal? Are the charges that have been made true?

In an interview given by Bismarck in 1887 he declared that Russia would never join France against Germany. He was very emphatic in making the assertion.

Augustine Birrell is, like so many other notable politicians, a lawyer, observes Pearson's. In his early days at the bar Mr. Birrell often had to deal with poor clients. On one occasion he defended a very poor man, and kindly offered to do so for nothing. Mr. Birrell won the case and the client was so grateful that he sent the lawyer fifteen shillings. Mr. Birrell accepted this small sum so as not to hurt the man's feelings; but later on he was reproached by fellow lawyers for doing so. "Why," said the latter gentleman, "did you take fifteen shillings? Don't you know that it is unprofessional conduct for us lawyers to take less than gold?" "Well," answered Mr. Birrell with a twinkle in his eye, "I took all the poor beggar had. You don't consider that is unprofessional in a lawyer, do you?"

"WHERE DID HE GET THE CASH?"

Mr. Stewart's Inquiry Re Provincial Finances

WANTS INDEPENDENT AUDIT

"Government Deals With Funds and Credit Without Regard to Law or Prudence"

The Chatham World, of which J. L. Stewart, M. P., is proprietor, says editorially:

"FRENZIED FINANCE AT FREDERICTON AN INDEPENDENT AUDIT NEEDED"

"Hon. Dr. Landry, on his bill to legalize the paying of 4 per cent interest on bonds that had been authorized to be issued at 4 1/2 per cent, said, in reply to Mr. Stewart, that the amount of such unauthorized bonds was about \$200,000, thereby practically stating that he had sold all of such bonds, at the legal rate of interest, except \$200,000. Mr. Stewart did not accept that statement as accurate, and gave notice of a formal inquiry for fuller information. He asked that a reply be given next day, but the provincial secretary insisted on taking three days of grace for the preparation of the statement. This is the minister's reply:

"1. What is the amount of the provincial bonds authorized to be issued to bear interest at 4 per cent but which had not been issued on the 11th day of March, 1914, was \$1,658,900.

"2. What is the amount of the provincial bonds or debentures that have been authorized to be issued at a higher interest at 4 1/2 per cent but which have not yet been issued? "Answer 1. The amount of provincial bonds authorized to be issued to bear 4 per cent but which had not been issued on 11th day of March, 1914, was \$1,658,900.

"3. What amount has been borrowed from the banks at a higher rate of interest than the legal rate of 3 per cent? "Answer 2. The banks raised the rate on overdrafts of the province to 8 per cent on 1st November last. Since that time the province has borrowed \$888,179 in interest for quarter ending December 31, and no interest has been paid for the quarter ending 31st March.

"The reader will note that 4 per cent bonds were on hand March 11, 1914, amounting to \$1,658,900.

"By referring to the acts of 1914 it will be seen that authority was given to sell these at 4 1/2 per cent, and further loans were authorized to the amount of \$271,179.

"Authorized at 4 1/2 per cent, \$2,784,919. The provincial secretary says he has issued all of this amount except \$200,000, and that he has also issued short term bonds at 5 per cent to the amount of \$271,179.

"This is what he says, but it is possibly not what he means. He may mean that he issued none of the 4 1/2 per cent bonds, but that he has placed all of them, except \$200,000, by his 5 per cent issue. If so, by what authority did he increase the issue on bonds from 4 1/2 to 5 per cent? An act has been passed, this session, to authorize the payment of 5 per cent on bonds, but 4 1/2 was the legal rate when the \$2,784,919 issue of 5 per cent was made.

"The government appears to deal with the funds and credit of the province in any old way, without regard to law or prudence, trusting to a silent and obedient legislature to approve of anything that may be done.

"The amount of bonds the government was authorized to issue after the close of the session of 1914 was, as we have shown, \$2,784,919.

"It will be seen by the official report of Mr. Landry's reply to Mr. Stewart that he gives the amount as \$2,784,919. "There is nothing to indicate what has become of the balance of \$1,658,919. "But, taking the full amount of the authorized bonds to be as he says, and interpreting the Chinese passage of a reply to mean that the new issue of \$2,784,919 on hand balance it, where did the minister get the \$888,000 which he says he has in the banks—where did he get this \$888,179? He has effected no loan at the banks and he has no overdraft, he says, and yet he has \$888,179 on hand!

"It is very difficult to drag any exact information out of the government in reference to its finances. The only explanation that seems possible is that an issue of treasury notes, or some other kind of temporary securities, has been made and kept carefully concealed from the public. The interest on this private and confidential loan is provided for in the \$200,000 vote for interest, but no reference whatever is made to it by the provincial secretary. It is part of the \$1,600,000 that was added to the interest-bearing obligations of the province during the last year.

"Why not call in a chartered accountant to make an independent audit of the public accounts? It is."

TRADES AND LABOR COUNCIL OPPOSED TO STRIKE ON I.C.R.

At a special meeting of the Trades and Labor Council, held last evening, the matter of the threatened strike on the I. C. R. was discussed and the following resolution was adopted:

"Resolved, that the St. John Trades and Labor Council in session assembled, representing 4,000 organized workers, endorse the attitude of the general manager of the I. C. R., of the minister of railways and of the minister of labor in the stand taken against Mr. Moher, of the Canadian Brotherhood of Railway Employees, in upholding the agreement entered into with the International Brotherhood of Maintenance of Way Employees.

"Resolved further, that copies of this resolution be sent to Hon. R. L. Borden, Hon. Dr. Puseley, Hon. J. D. Hazen, the

THE HAY FOR FRANCE

Woodstock Press—The McCain Company and the French Government are making progress with their contracts for repressing hay. The latter company has pressed 10,000 tons and sent them to St. John for the French government. They have only 1100 tons to do to complete the contract, and are through work in a fortnight. The firm spent considerable money in town already, paying \$1,500 for hay, \$150 for wages and \$80 for other expenses each day.

The following story was told at a recent dinner of the Filigree Publicity Association: "A farmer had twenty employes on his farm and as none of them was as energetic as the farmer thought he should be, he hit upon a plan which he believed would cure them of their lazy habits. "Men," he said one morning, "I have plenty of a nice easy job for the laziest man on the farm. Will the laziest man step forward?" Instantly nineteen of the men stepped forward. "Why don't you step to the front with the rest?" inquired the farmer of the remaining one. "Too much trouble," came the reply. "I wish," he said a little impatiently, "you wouldn't ask me again to be your wife. I have thought it all over and I'm sure I can never learn to love you."

"Oh, that's all right," he replied. "I don't expect you to learn to love me, but please let me keep on trying to persuade you. I expect to go into the real estate business and I'll need all the practice along this line that I can get."

YOU DON'T COUNT

If you cannot see well. You are not as good as your competitor in business; you are not as smart in appearance, because the strain to see produces wrinkles. You say your sight is "good enough," but the old saying says—"good enough is no good."

K. W. Epstein & Co. Optometrists and Opticians

The Woes of an Author. "How's your new book coming on?" "Passably well. The demand isn't what it should be. I mean among purchasers. And, of course, if people don't buy the book there's nothing in it for me."

"See. By the way, I'm reading it now. Blinks leaned me a copy that that Tompkins borrowed from Bradley. Pretty fair story."

A traveler bought a ticket and then, going out on the platform, said: "How soon does the train start?" "Why, there she goes now," said a porter. "You're just missed her."

The traveler kept on the line and set out in pursuit of the train with all his might. But in two or three minutes he came trudging back.

A laughing crowd had gathered and the porter said: "Well, did you catch her?" "No," said the traveler, "but, by jingo, I made her pull!"—Kansas City Star.

FATALITY AT WEST END DOCK

Arthur J. Boddington Falls To Death in Hold of Maria

Arthur J. Boddington was almost instantly killed this morning by falling into the hold of the Donaldson line steamer Maria at No. 4 berth, West St. John, loading deals. He was engaged with the longshoremen when he was struck by a sliding of deals and precipitated into the hold.

Mr. Boddington, forty-three years old, and resided at 94 Protection street, West St. John. He formerly worked with John A. Bowers and later with the Brown Paper and Box Company, and was well known. He is survived by his wife, daughters of Conrad Cole, of Red Head, three boys and two girls.

The funeral will be held on Sunday afternoon at three o'clock, from his late residence.

ST. PETER'S Y.M.A. HAVE HAPPY ANNUAL RE-UNION

Varied Programme Provides Interesting Hours for the Members

The members of St. Peter's Y. M. A. held their annual reunion last evening at St. Peter's hall, Elm street. A large number of members were present and thoroughly enjoyed the programme.

Following a selection by St. Peter's Y. M. A. orchestra, President Bernard McGovern delivered an eloquent address dealing with the activities of the association during the last year. He also spoke of the plans for the summer months, which included a baseball league and a summer camp at Chapel Grove.

The address was followed by a duet by Masters Moore and McGarrigle. A vocal solo was then given by Edward Hansen, after which the feature event of the programme was carried out, a wrestling match between Andrew Matheson and George Brooks. The wrestling was catch-as-catch-can style and the exhibition lasted a half hour. Both contestants showed skill and endurance and at the conclusion were warmly applauded for their good work. George, a first of all concerned.

A violin solo by Maudie O'Neill was appreciated, after which Stephen C. Harley entertained with readings, which were greatly enjoyed. The Business brothers gave an acrobatic exhibition that captivated all. A vocal solo by Robert Butler called forth much appreciative applause, and a trombone solo by Spurgeon McBride was well received.

Rev. Charles McCormick, C. S. S. R., rector of St. Peter's Church, gave a short address, and Rev. Joseph Bergmann, C. S. S. R., spiritual director of the society, was also heard in an eloquent address. He touched on the workings of the society during the season and dwelt at some length on plans for the future. Both speakers received the hearty approval of the audience. A selection by the orchestra, under Director Eugene McBride, brought the programme to a close.

OLD TIME SCENE IN HALIFAX HARBOR

Five Barks Sail in to Load Deals for England

(Halifax Echo, Wednesday)

An example of the way in which sailing vessels, square-riggers included, are benefiting from the prevailing high rate of freight was given in Halifax harbor yesterday afternoon when three large Norwegian barks from across the Atlantic sailed majestically into port. The barks came to an anchorage behind George's Island. It was a sight that is unparalleled in recent history of the port. All three ships, with all square sails set, waited merrily along by a westerly breeze, made their way to anchor-ge with as much ease as if they were yachts manoeuvring for the start of a race.

Before night fall Camperdown reported that a fourth bark had passed Chequoctou Head bound in and tugs went out to meet her and early last evening another square-rigger was reported about five miles off the Head. Five barks coming into Halifax in about as many hours is sufficient evidence of the great boom that the war has caused for sailing ships. All five vessels have come here to load deals for England. As each ship was passed by the Norwegian lumber bark Cimba, which lumber laden, steamed out the harbor yesterday afternoon to sea and before the sun had set she was under sail and away for England.

All three barks are to Furness, Withby and Co., Ltd., and will load lumber for John E. Moore & Co. of St. John. The bark Cimba which sailed yesterday is loaded with 447 standard deals shipped by Colin Tyrer. She will go to the River Mersey for orders.

The fourth ship to arrive was the Norwegian bark Acolu from Bristol. She also is to Furness, Withy and Co., Ltd.

TO SUSSEX ABOUT MIDDLE OF MAY

That is Report Now in Connection With 55th Battalion

Further information that the 55th Battalion will be mobilized under canvas at Sussex in the early summer was contained in yesterday's issue of the Sussex Record, which said that it had received information from Ottawa that "it had been definitely decided to quarter the 55th Battalion there. The men will continue to train at their respective quarters until May 15." The Record also repeats what was contained in the Times some days ago that the 55th Battalion might be transferred from Amherst to Sussex. At the local headquarters of the battalion yesterday, it was said that they had no word on the possibilities of a change in the arrangements.

No men were signed with the battalion today in St. John. Captain Gardner, medical officer, is in Fredericton conducting examination of the recruits there. The thirty-five men of the composite battalion in Halifax, who were taken to the exhibition building there, making the total of 55th members at Fredericton, seventy-eight up to yesterday.

The Canadian Railway Construction Corps are now up to full strength. Company drill, extended order, etc. are being continued.

Two officers and two sergeants of the 3rd Regt. C. A., who have been doing garrison duty on Paradise Island, will leave this evening for Kingston, Ont., to take a six weeks' course in qualification for rank. The officers are Lieut. W. H. Dobbie and Lieut. W. Gordon Kerr, and the sergeants, Sergeant R. C. Flewelling, and Sergeant H. Preston.

Local War Notes.

Captain Woodbridge arrived at Fredericton yesterday from Halifax with thirty-three men to join the 55th Battalion.

Private Walter Murphy, a native of Norton, who is in the 5th Battalion of the first Canadian contingent, writes his cousin, Miss Nellie Ryan, of the Provincial Normal School: "We have not been in any layout charges, but have reason to expect one soon."

Archie McKintion of Sussex was with the Princess Patricia's in the trenches on March 22nd.

Lieut. Rufus P. Shorter of Sussex, wrote on March 29, describing life in the trenches. They were on the edge of the battle of Neu-Chapelle. Writing again on April 17, he told of resting for a week in a town on which five bombs were dropped during the week. Their total casualties for two months had been nine killed and fifteen wounded. He spoke of receiving a general commendation which his men greatly needed. In his first letter he wrote of sleeping in a bed. He touched on the workings of the society during the season and dwelt at some length on plans for the future. Both speakers received the hearty approval of the audience. A selection by the orchestra, under Director Eugene McBride, brought the programme to a close.

DO AWAY WITH SHARP CORNER AT MARKET SQUARE

Street Railway Work to Change the Tracks There

Preparations are being made to commence work on the improvement of the street railway tracks in Market Square at the foot of King street. It is the intention of the railway company to replace the present tracks at the intersection in such a way as to do away with the sharp curve which now exists. When the change is made there will be only a slight variation from the straight line down King street and across the square to Dock street and the turn from Prince William street also will be much less abrupt. The new arrangement will have several important advantages and will be welcomed by the public. Much of the required material is now on hand and the work will be started at an early date.

STRIKE NOT FAVORED HERE

Whether a few men on the I. C. R. go out or not will have no effect locally as the general opinion among local members of the railway union today. They are said to have no sympathy with the idea of a strike during the war, and that in fact several are of the view that the grievance of some concerned could be easily adjusted without further trouble.

CONCERT LAST NIGHT

The members of the Street Railway Employees' Union conducted a successful concert in Temple building last night. The hall was crowded, and a fine programme of varied numbers was enjoyed. The proceeds were in aid of the union.

WHISKEY HEART ON NORTH SHORE

The ninety-three recruits at the exhibition building were given their final medical examination on Saturday by the regimental surgeon, and seventeen of them were rejected. Deceptive eyesight and whiskey heart were the causes.

Recruits at Sussex.

The recruits for the 55th Battalion at Sussex, have received their uniforms and other equipment. They are an able looking lot of men.

Former President Taft tells this one on himself: "There is a lad of my acquaintance in New Haven," said Mr. Taft "who used to bite his nails. 'See here,' said his nurse to him one day, 'if you keep biting your nails like that, do you know what will happen to you?'"

"No," said the youngster, "What?" "You'll swell up like a balloon and burst!" "The boy believed his nurse. He stopped biting his nails at once. About a month after the discontinuance of his habit he encountered me at luncheon. He surveyed me with stern disapproval. Then he walked over and said to me seriously: 'I bite your nails!'"

A man in the country once asked Cy Warman what he did for a living. "I work for the Grand Trunk," said Warman.

"What kind of a job have you got—do you sell tickets or handle baggage?" "I've got a better job than either of those," said Cy. "You know the man who goes alongside of the train and taps

For the First Time in the History of Our Dominion "MADE-IN-CANADA" Becomes a Hall Mark

(Prepared by E. A. BAKER, of the Baker Advertising Agency, Limited, 18-20 Wellington Street East, Toronto.)

Will Canada Accept the Vast Trade Lost By Germany and Austria?

INEVITABLY the next few months will see vast and far-reaching changes in the commerce of Canada. There will be decided changes in the stocks of Canadian merchants. New accounts will be opened by manufacturers who have heretofore striven in vain against foreign competition.

All this because at a single stroke, literally over-night, the vast trade with Canada of Germany and Austria, to say nothing of other combatants in the European war, is wiped out.

CANADA HAS ALL IN HER FAVOR

SOMEBODY is going to get this business. England is alert for it. The United States wants it. Canada has the first choice. Here we know our people; we know the needs; we have the sales organizations; we have the factories; we have the workers; we have the market.

Also we have in our favor that newborn spirit of patriotism among Canadian purchasers that leads a man or woman to demand "Made-in-Canada" goods. The words "Imported" and "Direct From Europe" have lost their savor. Today "Made-in-Canada" sounds with a new ring—the ring of Necessity as well as of patriotism, and as a consequence, for the first time in the history of our Dominion, "Made-in-Canada" becomes a Hall Mark.

We do not presume to advise any manufacturer technically as

to how the new lines are to be made. We believe this part of the proposition presents little difficulty to the manufacturer—certainly no unsurmountable difficulties. What we do emphasize is that now is the time to stop theorizing, and ACT.

Unless the Canadian manufacturer and merchant accept this opportunity NOW, it will be snatched up by more enterprising concerns who are already training their guns on our market.

READ THE OPINION OF AN AMERICAN TRADE INVESTIGATOR

"TWO months ago I realized that we wanted the Canadian market. Today the Canadian market wants us. True, we must still fight for it, but our greatest problem—German and French competition—was solved almost overnight, and through no effort of our own. . . . Canada imports nearly seven hundred million dollars' worth of goods. . . . Right here is a great field for the American manufacturer. . . . The American manufacturer, once established here, will give all comers, even after the war is over, a stiff fight to take the market away from him."

"There is no reason in the world why an American manufacturer cannot go into Canada now and practically sweep the market in his line." So says an American trade investigator. He investigated the Canadian market, but not the Canadian manufacturer, who

furnishes one very substantial reason why the United States cannot grab our trade.

The limitless forces of Initiative and Advertising enter vitally into the situation. Canadian manufacturers must use their initiative NOW and go after the market with greater vigor than they ever before exercised—they must study Canada's import statistics, and make the sternest possible bid to supply the demand.

THE TIME HAS COME FOR ACTION

REACH out for the markets with the mighty force of Advertising. Tell your story far and wide. Canada wants to know which are the right lines to buy, under the new condition. Faced with the necessity of choosing new brands to replace the imported products, and fired with the patriotic impulse to encourage "Made-in-Canada" merchandise, they await your message, eager to respond. Advertising in the daily newspapers will reach them in their buying mood. Make it plain to them that by purchasing what you have to offer they are not only supporting Canada and the Empire, but they are getting as good quality and better value than the imported articles they heretofore bought. The people won't know these facts unless you tell them—and that is what advertising does.

Advertising in Canada today will "pull" better than ever before. The time is opportune to strike. Strike with a will.

Preparations For Forward Movement Are Indicated

Glowing Accounts of Strength and Condition of British Army Increase Enthusiasm and Confidence of People

London, April 22, 9:45 p. m.—Glowing accounts of the strength and condition of the British army and of the extent in the output of munitions, which, it is expected, will next month amount to twenty-five times what it was last September, given by David Lloyd George, chancellor of the exchequer, and Field Marshal J. Tennant, parliamentary secretary of the war office, in the house of commons, have increased the enthusiasm and confidence of the people of England in the war which they and their allies are waging on the continents of Europe, Asia and Africa.

Supplementing the statement of the chancellor that Great Britain has more than thirty-six divisions of troops on the continent, and that the output of munitions has been enormously increased, Mr. Tennant today speaking on behalf of the secretary for war, Lord Kitchener, declared that recruiting had been most satisfactory and gratifying; that the health of the troops was splendid and that the wounded were in the London hospitals 24 hours after they were stricken in France. He wished to impress upon the country the necessity of increasing the supplies of artillery ammunition, adding: "There is no limit to the amount required."

The frankness of the cabinet minister in making known the number of men at the front, and the reports that reach London from various sources, have convinced the people that at last the big effort against Germany and Turkey is about to commence.

Both in the Aegean and North seas there are signs of increasing activity. From today all steamboat communication with Holland is stopped by order of the British government.

Taken in connection with the news from Berlin that British submarines have been in the Bight of Helsingland, where the German admiralty lays claim to having sunk one and perhaps more, this is believed to foreshadow some movement in the North Sea; while there is no longer any endeavor to hide the fact that a big Anglo-French force is prepared to strike the German army in the West.

General D'Amade, the French commander, has said, "no point where it is required."

The revelations of looting and stealing which have been going on in connection with the purchase of war supplies had become so revolting that some of the Conservative organs have been forced to speak out in terms of strongest protest. But a "death-bed repentance" will not save a government which has harbored looters of the public treasury, while their country-men were giving their lives in defence of the Empire in the trenches of Flanders. A government that proved so false to every canon of patriotism and decent administration must go.

Some Conservative organs, while condemning the exposure of graft and booting at Ottawa in connection with the war supplies, are trying to shield the government. That is foolish. The government cannot evade the responsibility, and the Toronto World, edited by W. F. Maclean, Conservative M. P. for South York, is courageous enough to say so. In a notable article, doubtless from the pen of Mr. Maclean himself, it declares: "More than anyone else the cabinet must be held to strict accountability. It will not do to blame 'certain officials.'" Mr. Robert Borden and his fellow members of the cabinet are the men in charge.

Incredible Young Doctor's Wife—"Mary, go and tell the doctor there's a patient waiting to see him." "Maid—"I wish you'd go ma'am. He says he wouldn't believe me."

PATRIOTIC WORDS OF CANADIAN WOMEN

Sent Message to International Congress at Amsterdam That Germany Must Be Crushed Before There is Any Hope of Lasting Peace.

Toronto, April 22.—"When Germany has learned that right is stronger than might, when the mailed fist no longer threatens Europe, then may we hope for peace which our children's children may inherit. And with such a peace we may have an unbroken, the great traditions of our empire—honor, unshaken, liberty safeguarded, justice vindicated."

This, enclosed in a letter, is the concluding paragraph of a message from Canada to the International Congress of Women at The Hague, addressed to Miss Jane Addams at Amsterdam. It bore the signature of Mrs. Adelaide M. Plumptre, signing on behalf of the Canadian national committee of women for patriotic service.

The message said in part: "When we look at Belgium we cannot speak of peace. We are also horror-stricken, but there are also horrors of war, but there are also horrors of peace. In war there is material and physical loss, but what of the spiritual loss involved in a peaceful acquiescence in the devastation of an unoffending country whose sole crime was her geographical position."

WHAT WILL BORDEN DO? (Monetary Times)

What will Sir Robert Borden do about the war contract scandals? The political whitewash brush will not satisfy the Canadian citizen. He is willing to be taxed for his share of the burden of the war. He objects to being taxed to purchase for middlemen feather beds for life. The cause of war justly demands his mite. The crimes of bribery, corruption, thieving, extravagance and carelessness in connection with the purchase of Canada's war supplies, demands immediate action by Canada's premier. Once was he dubbed Robert, the Unready.

The Toronto World, in the blunt fashion, says that Sir Robert Borden has got to move quicker and make up his mind with more alacrity or he will find himself in the dump. The country will start at inaction before anything else.

That is true. The people of Canada do not want cut-and-dried majority reports of investigating committees, with minority reports trailing behind. They do not want Royal Commission reports. They want to know now what Canada's premier is going to do about it, now.

French Capture Strongly Fortified German Position

Hand to Hand Fight With Fixed Bayonets Follows Three Days Artillery Duel—Six German Companies Annihilated

Paris, April 22, 6:45 p.m.—An official eye-witness, describing the operations by which the French are menacing the German positions in the wedge of St. Mihiel, says: "All the Allied woods, which constituted a strong and well fortified support for the Germans, is now entirely in French hands, conquered, for the most part, by troops from the centre of France, after several days of systematic preparations by a heavy fire from three-inch and big guns and by aerial torpedoes."

"At certain points the Germans had constructed in front of them, twelve yards wide, spiked barriers extending about six feet above the level of the earth, surrounded by barbed wire entanglements which were so intricate as to make them imperative to any tools."

"A concentration of artillery fire opened large breaches in these defenses; parapets were sent crashing to the ground, and dismembered bodies were blown into the air above the cloud of smoke. The earth was strewn with overturned trees and branches."

"After five hours intense fire, five minutes, laid under a parapet adjacent to the principal fort holding the position, exploded, annihilating the garrison and spreading panic in the trenches."

"An attack with fixed bayonets then began in three lines, preceded by a detachment with hand grenades. Engineers followed with little bridges which had been prepared in advance to facilitate the passage over the network of trenches. The order had been given not to stop in any trench, but to pass over and take the enemy in the rear. Germans Perished."

"Three lines of trenches were thus cleared of the Germans. Those who sought refuge in the underground shelters perished from suffocation, through the collapse of the entire earthworks."

"Towards 8 o'clock on April 8 the enemy attempted to counter-attack supported by a heavy artillery fire, which was neutralized by our batteries. Our attack was renewed the following day, and developed into a furious hand-to-hand struggle with grenades and the bayonet in the narrow lines of trenches. The enemy opposed with such resistance that the order was given to evacuate this was then bombarded until the enemy was obliged to retire. We then held the three main line trenches of the Ally woods."

"The enemy's losses were heavy. We counted two hundred dead on the evening of the 8th, and on the evening of the 9th we found the dead piled in three rows."

"During the 7th and 8th, we repulsed eight counter-attacks. The enemy succeeded in entering one trench, but was unable to hold it. Of the Ally woods there remained nothing but a few hacked trunks, an not and bits of ground in it that had not been turned up by explosives. In the strange chaos, stones, corpses and a debris of limbs lay mingled."

THE DIFFERENCE

(H. S. Haskins, in New York Sun.)

Shadows had bullied the children to sleep. Ah, it's a wonderful sight! Father and mother have lifted to peep. Going the rounds for the night. Mother says: "Billy has thrown off the clothes. See how the covers have pulled from his toes." Father says: "Gosh, that's a capable sleeper." Ah, it's a wonderful sight! Jimmy throws one arm out over the sheet. Ah, it's a wonderful sight! See, he is lax from his head to his feet. Sleeping with all of his might. Mother says: "My, but his color is fine!" Father says: "Wonder what this boy of mine will do in the world" (his eyes all ablaze). Ah, it's a wonderful sight!

Father goes down to his paper and reads. And it's a wonderful sight. Face all aglow with his own future deeds. Conquers, both in the fight. Mother turns back from the top of the stair. Takes a last look at the two sleeping there. Kneels for a moment and whispers a prayer. Ah, it's a wonderful sight!

"I think that women ought to have the ballot." "Do they really want it?" "They must want it. Some of them are working so earnestly for suffrage that they are paying absolutely no attention to dress."

They were very fond of each other and had been engaged, but they had quarrelled and were too proud to make it up. He called afterward at her house—to see her father on business. She was at the door. "Ah—Miss Blank, I believe?" said he. "Is your father in?" "No, sir," she replied, "father is not at present. Do you wish to see him personally?" "Yes," was the blunt response of the visitor, who felt that his former sweetheart was yielding—"I want to see him on very particular business"—and he turned away haughtily. "I beg your pardon," she called after him as he reached the last step, "but who shall I say called?"

THE LOOTERS

Could Hardly Straighten Up For The Pain In Her Back.

Many women suffer from an excruciating pain in the back. They are not even able to look after the common duties of their household, and cannot even walk at times.

The whole trouble is that the kidneys have become affected, and when the kidneys get "out of kilter" the whole system becomes deranged. On the first sign of a weak lame, aching back you should not neglect it, for if you do you may be sure that some serious kidney trouble will follow.

What you want is a kidney medicine, for kidneys only. This you will find in Doan's Kidney Pills. Doan's Kidney Pills know nothing but kidney disorders, because they're made for kidneys only.

Mrs. George Craigie, Rose Valley, P.E.I., writes: "I am writing to tell you what a wonderful cure Doan's Kidney Pills did for me. I was suffering with a lame back, and for several days I could hardly straighten up for the pain. I had used quite a lot of other kind of pills, but received no relief. Just then my sister told me about what 'Doan's' had done for her, so I decided to try them. I used three boxes and I am completely cured. I do not hesitate to recommend them to all."

Doan's Kidney Pills are 50c a box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

MORNING NEWS OVER THE WIRES

The British government, it is hinted in London official circles, does not intend to introduce prohibition during the war, but will probably lessen the facilities for procuring liquor and limit its use more strictly.

MORNING NOTES OF THE WAR

Among those included in the casualty list of the Canadians yesterday was Private Wm. E. Evans, of Amherst, N. S., a member of the 14th Battalion, wounded on April 19.

Private Tommy Sims had had pneumonia and had been for some time in the hospital, where they treated him so well that he was much assured to the prospect of being discharged as cured.

Tommy saw his chance. He pulled the thermometer out of his mouth and popped it into a cup of hot tea, replacing it at the first sign of the mercury turning. When that worthy examined the thermometer he looked first at Tommy and then back at the thermometer and gasped: "Well, my man, you're not dead, but you ought to be!"

Latest Suggestion of House Committee

THOSE PATRIOTIC POTATOES

Mr. Murray Again Avoids Opportunity to Give Information--Will Not Protrude This Week

Fredericton, N. B., April 23--It is generally conceded now that the business of the legislature will not be finished this week. Some of those who are closest to it will realize the greater part of next week for the consideration of the measures already before the house, and those to be submitted.

There is some doubt as to whether there will be any further railway legislation, and yet the necessity of it, according to those who are keenly interested in the settlement of the railway's affairs, is very real. So far there has been no explanation at length from any member of the government in the house as to the policy with regard to the road that many defects are showing up very plainly this spring in connection with the construction of the railway; that the foundations of the water tanks are not what they should have been; that the culverts are breaking down and many other things.

While the railway is being operated under a temporary agreement by the colonial, the delay in taking over the railway, as intended in the original agreement, is likely to be prolonged. It is openly stated by the section men on the road that many defects are showing up very plainly this spring in connection with the construction of the railway; that the foundations of the water tanks are not what they should have been; that the culverts are breaking down and many other things.

There seem to have been some representations made to the government which have altered the hour of closing intended in the original amendments to the liquor license act. Yesterday the closing hours were to be 7 o'clock every evening, except Saturday, when the hours were to close at noon. Today the hours are stated to be from 8 to 8 every day except Saturday, when the hours are to be 7 o'clock and 8 o'clock, as of present.

Those Patriotic Potatoes. There have been many surprising answers given to inquiries by the opposition during this session, but that made today by the minister of agriculture to ask inquiry as to what was the nature of the financial arrangements made by Mr. Daggett and the Bank of Nova Scotia in connection with the purchase of the potatoes for the patriotic gift and the details of any arrangements made by him with the Bank of Nova Scotia are not at present available, but will be ascertained on his recovery and return to the department.

Surely the business of the agricultural department is not carried on in this way. The arrangement with the bank for the disposition of more than 100,000 must have been approved and known to the minister himself. If Hon. Mr. Murray did not know anything about it he is a very poor secretary. Mr. Daggett must have extraordinary powers. The correspondence in connection with such a transaction would surely not be carried around in Mr. Daggett's pocket, but must be on file in the department and would tell the story. But apparently the story is not to be told, for every power evasion has been used to keep the facts from the public.

More Pertinent Queries. Some other questions were asked by Mr. Dugal a day or two ago with respect to this matter, and an answer is expected later. He inquired:

1. Was Leslie Slipp employed as inspector, or in any other capacity, by the department of agriculture, in connection with the receipt and disposal of the potatoes purchased by the government for the patriotic and Belgian gifts?

2. Did not Mr. Slipp protest concerning the condition of very many of the potatoes on their arrival at West St. John, and did he not condemn many cans of the same as unfit for shipment?

3. Were not his objections and rulings strongly resisted by A. C. Smith & Co. and E. F. Smith or either of them, and others, and did not Secretary of Agriculture Daggett overrule the inspector's condemnation and accept the rejected potatoes?

4. Were not the potatoes shipped by B. F. Smith or any one else paid for before they were inspected at the West Side?

A full answer to these questions might be interesting.

Bills Introduced. Fredericton, April 23--The house met at 8 o'clock.

Mr. Stewart (Northumberland) gave notice of a motion to bring down a return of the bonded and other indebtedness of the province.

The house went into committee, with Mr. Allan in the chair, and agreed to a bill to amend the act relating to South West River Driving Company with certain amendments, also a bill to incorporate the Port Canada Docks Railway.

The house again went into committee, with Mr. Smith in the chair, and agreed to a bill respecting country courts, and to amend the judicature act 1908, very briefly.

Mr. Clarke said a small committee had gone over non-contentious sections of the bill, and it would not be necessary to consider the bill in detail.

Mr. Carter, on the section allowing the lieutenant-governor-in-council to cancel the permit of the lieutenant-governor-in-council to revoke the license law for the time being while soldiers were encamped. As war provision only, he approved of it.

Mr. Tilley agreed that it was matter which the people themselves should be left to decide. There was, however, just one event in which it was possible such a provision might be beneficial, and that was supposing that a large body of soldiers were to be encamped in any district, which was under license, it might then be well for the lieutenant-governor-in-council to have power, on request of the inhabitants, to revoke the license law for the time being while soldiers were encamped. As war provision only, he approved of it.

Mr. Clarke said that contingency would be met by a section to be added for the purpose.

The committee then divided on the question of retaining the section and a vote of the people in the district affected. The section was not in the original license act but was added later, and there must have been reason for it. However, he would leave the matter in hands of the committee to decide whether the section should remain or not.

Mr. Tilley agreed that it was matter which the people themselves should be left to decide. A subscriber to the Montreal Journal of Commerce sends us the following puzzle:—I married a widow, who had a daughter. My father got in love with my step-daughter and married her. In this way my father became my son-in-law and my step-son, and my step-daughter became my step-mother, because she was the wife of my father.

From his marriage to my step-daughter, my father had also a son. He was my brother and my nephew at the same time, being the son of my step-daughter.

In this way my wife became my grandmother, being the mother of my step-mother, and I became the husband and the nephew of my wife. As the husband of the grandmother is the grandfather, in this way I became the grandfather of myself.

Please do not get confused about it, law and my uncle at the same time, because he is my step-mother's brother.

IMPROVING HALIFAX
(Halifax Echo)
Window boxes need not be confined to residential districts, according to a statement issued by Civic Improvement League. There is no reason in the world why they should not be freely used on business buildings; indeed there is every reason why they should, not the least being the advertising value of this touch of nature in the heart of a city. Perhaps the reader will recall the effect of flower boxes on some of the leading hotels in past summers as well as the display annually made on the front of City Hall. These good examples might well be followed by many others. How much their efforts would add to the beauty of the city and what an impression would be made of the public if business houses generally were to follow this suggestion. The use of flower boxes has a favorable effect upon one's trade and one's employes. Progressive manufacturers from employes when the windows of the working rooms are filled with growing plants. What is true of manufacturers is true of all other lines of business. Those who have tried the plan find that they cannot afford to be without the growing plants. Flower boxes exert an influence in some cities tenants in offices too high to be seen from the street have maintained flower boxes for the influence they seem to have upon their employes and their clients. It is a mechanical age, surrounded on every side by things artificial the use of growing plants is the one touch of nature that brings us back to real things.

Experience with flower boxes in his cities has proven that growing plants can be maintained for months with a little regular attention. If the flower boxes do not fall on the people's heads and that they do not leak and stain the building. The best results seem to have been obtained by the use of a sub-irrigated flower box. Wherever flower boxes are used for by the tenant this is preferable.

MRS. BULLOCK AGAIN IS CHOSEN PRESIDENT
Women's Council Pass Resolution Against "Premature Attempts to Interfere on Behalf of Peace"

A strongly worded resolution, deprecating all premature attempts to interfere on behalf of peace, in the belief that such action would show a lack of confidence in the army, the navy and the statement of the Empire, was adopted at the annual meeting of the local Council of Women last evening.

In order to correct any misapprehensions regarding the scope of their operations, including the auxiliary and missionary societies of the churches, were affiliated with the council and extended an invitation to all such organizations in St. John to co-operate with them.

Letters of congratulation on the work done by the women's societies were read from H. B. H. the Duchess of Connaught, the Countess of Aberdeen and the National Council of Women of France.

The elections for the year resulted as follows: President, Mrs. J. H. Bullock; vice-presidents in order, Mrs. H. Lawrence, Miss G. Leavitt, Mrs. J. F. Bullock, Mrs. E. Hooper, Mrs. H. A. Powell and Mrs. J. H. Peink. Mrs. Richard O'Brien was nominated, chairman of standing committee; corresponding secretary, Miss B. M. Crisp; recording secretary, Miss Keith, and treasurer, Miss Peaton.

U., the Protestant Orphan Asylum, by Mrs. McCallan; Women's Canadian Club, by Miss Jarvis; the National History Society, by Mrs. W. C. Was Troubled With Eczema.

Would Nearly Yell With Pain.

BURDOCK BLOOD BITTERS CURED HIM.

Mr. R. J. Swales, Harrison, Ont., writes: "I have been a great sufferer with eczema. I tried all kinds of ointments, but they did me no good. Sometimes I would nearly yell with the pain, and would pass little white worms. I was told to get at the blood, so I used four bottles of Burdock Blood Bitters, and it has made a complete cure."

All skin diseases such as eczema or salt rheum, itching or burning rashes, boils, pimples, eruptions, ulcers, etc., are all caused by the blood becoming impoverished, and while not usually attended with any fatal results, may sooner or later develop into some serious blood trouble, and the entire system become affected.

Burdock Blood Bitters will cleanse the blood of all its impurities and by this means cure all skin and blood troubles.

This valuable preparation has been on the market for the last forty years, so you do not make any experiment when you give it a trial.

B.B.B. is manufactured only by The F. M. Burdock Co., Limited, Toronto, Ont.
