Banquet to Charlie Gorman Notable Sport Event

Five Presentations to Be Made to Speed King—Expect Attendance of About Three Hundred.

About 300 people will be in attendance this evening at a complimentary banquet to be given to Charlie Gorman, St. John's premier speedy skater, under the joint auspices of the Commercial Club and the Knights of Pythias.

The chair will be taken at eight o'clock by C. H. Peters, president of the Commercial Club, who will have the right the guest of honor, and seated on either side of him will be eighteen other guests, including representatives of the civic government, the Athletic Association of the Commercial Club, Y. M. C. A., Y. M. C. L. and St. Peter's Y. M. A., the chairman and commanders of the Knights of Pythias; Murray Bell, Frank Garnett and Hilton Belyea, who accompanied Gorman on his recent skating trip, and some of the fast local skaters who gained renown in the days gone by, including Bailey, Campbell, Glitchist, Breen and Logan.

Four toasts only will be honored—The King, the guest of honor, other prominent skaters at the present era, and the "old-timers." After the dinner, five presentations will be made to Charlie Gorman, one each by the Commercial Club, the Knights of Pythias, Gorman's club, the Y. M. C. A., of the Commercial Club, and the G. V. V. A. Speeches will be delivered by representatives of the Amateur Skating Association of Canada, the Amateur Athletic Association of Canada and other organizations. After the skaters, past and present, have been honored, the ladies and the men will be honored.

Musical for the evening will be dispensed by St. Mary's Band. The affair will be strictly informal.

NEW HONOR FOR ST. JOHN'S MAN HIGH IN LETTERS

Prof. J. W. Clawson Made Bachelor of Science at Ursinus College.

St. John friends of Professor John W. Clawson, B. A., A. M., will be pleased to hear that the degree of Bachelor of Science has recently been conferred upon him by Ursinus College. He is a son of the late Joshua Clawson of this city, and is a graduate in arts from Cambridge University, England. He has had a distinguished career as an educationist in the United States and is now a professor in Ursinus College. The following tribute to Professor Clawson recently appeared in a college publication:

"It seems a privilege and an honor to present on this occasion my colleague and co-worker, John Wentworth Clawson, A. M., professor of mathematics and physics in Ursinus College. Professor Clawson received his education in the University of New Brunswick and Cambridge University, England, from which latter institution he was graduated in 1904 with the degree of Bachelor of Arts. He is keen scholar and inspiring teacher and a contributor of learned and professional articles to mathematical and scientific journals. In recognition of his scholarly attainments and the service that he has rendered in the field of higher education both as a teacher and a writer I take great pleasure in recommending Professor Clawson that you may confer on him the degree of Bachelor of Science. "Dean of Ursinus College, "Collegeville, Pa."

JUDGMENT IN ONE DIVORCE CASE FROM HERE

Fredricton, N. B., Feb. 22—In the divorce court this morning Mr. Justice Crockett gave judgments. In the case of Newcomb vs. Newcomb, St. John's, Watson vs. Watson, Woodville vs. Woodville, Kealey, Restigouche, and Collier vs. Collier, Moncton, absolute divorces were granted. In three of the cases the parties were from St. John, but in only one of the three was a divorce granted, the other two being continued for further evidence. In the case of McDonald vs. McDonald, one of those in which a decision was delayed, a witness required in an attorney who had formerly figured in the case. Johnson vs. Johnson was the other St. John held over.

Maritime Representation Engaging Attention of Politicians in Ottawa

Ottawa, Ont., Feb. 22—The effect of a possible further curtailing of the representation of the Maritime Provinces in the House of Commons in the event of redistribution is engaging the earnest concern of maritime members. In 1919 an amendment to the British North America Act provided that the representation in the commons should not be more than that of the province. Both New Brunswick and Nova Scotia are entitled to ten senators and Prince Edward Island to four. Under the last redistribution New Brunswick was given eleven seats, Nova Scotia sixteen and Prince Edward Island four. While the island representation cannot be further curtailed it is possible that an increase in the population of Quebec would correspondingly increase in Nova Scotia and New Brunswick may result in the first province losing one representative and the latter six. This would bring the total maritime representation down to twenty-four instead of thirty-one, as at present. Quebec is entitled to sixty-five seats and is the basis for the representation

OPPOSE SPENDING MONEY ON PRINCE

Violent Scene at Meeting of the Town Council in Glasgow, Scotland.

London, Feb. 22—A proposal to confer the freedom of the City of Glasgow upon the Prince of Wales and entertain him at a luncheon has been violently opposed by the laborite members of the town council, according to the correspondent of the Daily Herald, labor organ. They condemned the spending of public money on the feasting of royalty when hundreds of families were starving. The debate was closed and a roll call for a vote was about to be taken when Kerr, a laborite councillor, seized the men coming to the floor. Amid the din the provost and his colleagues left the chamber, declaring the motion had been carried. The uproar continued in the corridors.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "how does a city grow?"

"Well," said Hiram, "I been watchin' this town fer quite a spell an' I'd ruther talk about why it don't grow—By Heavens!" "Shoot!" said the reporter. "In the first place," said Hiram, "you got too many people here that don't know. I talked to 'em. Why don't you get some folks that can't get politics long enough to change the water on the beans. An' you got some that don't want to be bothered an' is scared to death of taxes. If you fellows knowed what's said about you out to the Settlement your cars 'ud be burnin' half the time. Human natur' is a queer thing anywheres—but in St. John it's got a squint in both eyes an' ain't no too sharp in its hearing. Still, I'll say this fer you—when the people does get wide awake they got lots of hoss-sense an' ain't afraid to show it—no, sir."

CHURCH PROBLEM IN THE COUNTRY. Paper and Discussion at St. John Methodist District Meeting.

A discussion of the problems confronting the church, with reference to its rural strongholds, marked a session of the February meeting of the St. John district of the Methodist church here this morning in Queen Square church. Both clergyman and lay representatives are in attendance. The ministers present were the Reverend, in the chair, Mr. Mabee, Rev. J. B. Gough and Rev. J. B. Gough, secretary, G. F. Dawson, William Pepper, Ernest Rowland, James Rice, J. E. Shanahan, H. B. Clarke, S. H. Hays, E. Styles, J. B. Gough and Jacob Healy. Arthur appointed to attend at R. D. Smith, James Andrews, William Young, Arthur Powers, James Myles, B. C. Holder, Alfred Burley, Fred Morrissey, George M. Brown, H. W. Colton, J. E. Shanahan, George Myles, J. E. Angering, Walter Brindle, J. L. Cambridge, E. D. Vallis, James Anderson and Mr. Maden.

Rev. J. B. Shanahan read an interesting paper on "Rural Problems in Connection With Our Work and How to Grapple With Them." He dealt with the extent of the rural field and said that because of that very extensiveness, it was possible to hold large rural services. There was the question of a multiplicity of denominations and arrangements for factory literature for the rural field. It was difficult to get a very large attendance at week-night services because of the distance. In connection with the rural field, a great hardship in the life of the rural minister and his wife is the isolation. He is often about the result that, after getting to know the people and their needs, he was unable to hold large rural services. Prices on the Easter offerings will be subjected, for the anniversary, to a reduction of one-third off the regular value. All other goods, as previously stated, will be reduced by one-third to special present prices.

Special lines of heather hose for women have been priced for the great sale at 25 cents while black cotton hose at 25 cents is expected to cause a sensation.

Details of the anniversary observance will be presented for consideration of shoppers in the press of Wednesday and Thursday next.

JUDGMENT IN THE RESTIGOUCHE CASE TOMORROW

Argument Completed Today Before Judge Barry—Some Points Brought Out.

(Special to The Times) Dalhousie, Feb. 22.—Argument in the Restigouche election case was completed before Judge Barry here this morning and the court adjourned until Wednesday afternoon, 2:30 o'clock when judgment will be delivered.

This morning's session was taken up with argument by J. Hughes, K. C., representing the petitioners, F. M. C. Anderson, and Dr. J. B. Baxter, K. C., on behalf of the respondents, Messrs Stewart and Dietz.

Mr. Hughes argued that the law had not been observed; that the sheriff had not been sworn; that an election clerk had not been appointed; that deputy returning officers at some of the polls had not been sworn; that some places polls had been made which were not provided for by law; that there was no certified election list in the whole country; that some deputy returning officers made up their own lists; that in some places people were allowed to vote before they were on the list or not; so that it was impossible to complete a record; and that the nomination papers of Lablond and Duncan were not in accordance with the act and should not have been received and all votes polled for them should not have been counted.

Dr. Baxter, in reply, while admitting that the act was not followed, argued that the result would not be affected in either case.

A WINTER SUNRISE. All rosy from its cradle in the east. The sun, reluctant, peeps at pallid hill. At ice-bound river and the frozen rill. And smiles, unscarred by bird or beast. Asks it peeps at sapphire valley. With snow, and nestled cot, and silent mill. That hibernating, covers in the chill. Intense the cold—the throbs of life has ceased.

The huddled firs like brooding grey-beards stand. And glower at the meagreness of men. While crystal jewels on each birch display. The rainbows of a magic fairyland. The great Sun, glowing red, awakes and leaps forth to flame its glory to the day! PHIL H. MOORE. 66 Larch street, Halifax.

TURKS OF BOTH SIDES IN LONDON

Effort to Get Them Together in Matters to Come Before Near East Conference.

London, Feb. 22.—Delegates of the two Turkish governments—the Sultan's and the one dominated by Mustafa Kemal Pasha, leader of the Turkish Nationalists—were asked to meet here today to consider the petition of Turkey's claims before the Near Eastern conference, which is expected to be tomorrow.

The delegates were quartered at the same hotel after their arrival, so that today's meeting might be facilitated, and it was expected that the meeting would result in some sort of agreement relative to Turkey's proposals for alteration of the treaty of Sevres. The Turks had been invited to meet Allied leaders after their meeting was over.

Decision by Lloyd George and Premier Briand yesterday to move the Turkish frontier in Thrace further westward and to give the province of Smyrna a semi-autonomous government was expected to have some influence on the Turkish representatives.

It was believed these concessions, which take from Greece approximately one-fourth of her holdings in Thrace and virtually deprive her of military and administrative control of Smyrna, would demonstrate to the Turks the desire of the Allies to meet Turkish objections to the Sevres treaty and pave the way for an early agreement in the Near Eastern conference.

The Allies were assured that the election which resulted in the ousting of former Premier Venizelos and return of King Constantine should not be interpreted as evidence of sentiment adverse to the Allies.

When the Allied representatives met this morning they gave their attention to the differences of opinion regarding the strength of the Turkish Nationalists which was voted yesterday by Greece, military leaders and General Gourad, commander-in-chief of French troops in Syria.

It was said that the delegates are hopeful of meeting the Turkish delegates during the afternoon.

London, Feb. 22.—The Turkish delegates to the Near East Conference here will not attend at the conference which was planned to be held with the Allied leaders in St. James Palace this afternoon for discussion, so it was announced soon after noon. It was said that Tewfik Pasha, head of the delegation sent by the Constantinople government, was ill in bed with a chill.

QUEBEC CHANGES. Quebec, Feb. 22.—The successor to the late Colonel Hibbard as chairman of the public service commission, has not yet been named. It is expected that Hon. J. N. Francoeur will be appointed, while he will be succeeded as speaker by Adrian Beaudry, member for Vercheres, who is now deputy speaker for the house. The new deputy speaker will be L. A. Cannon, member for Quebec Centre.

Cuban Elections. Havana, Cuba, Feb. 22.—Special partial election for president, vice-president and other officials of the Republic of Cuba will be held on March 16.

FOR BETTER TRAIN SERVICE. Ottawa, Feb. 22.—(Canadian Press)—Hon. Rudolph Lemieux is asking the House of Commons to affirm that in its opinion a more efficient train service should be established between Winnipeg and Quebec on the Transcontinental Railway.

EYES—RIGHT! There's a sunny side to the darkest road. On the difficult journey of life; There are golden hours when we slip off the load. Of the blakest hours of strife.

Yet some queer folks seem to like the bloom. And the discolor of strain and stress; They look upon life as a step to the tomb. And the world as a wilderness.

Life's much what we make it; then let our hearts in the joys that last; And if sorrow assails us we still may keep. The gold of glad days that are past!

"The Steam Coal of Salesmanship"

Man, by taking thought, cannot add a cubit to his stature. But he can by thought, and by concerted action on accurate conclusions, do much to add growth and give rejuvenation to his business, particularly in these times.

On the high seas of business, with a fair wind aft, and the barometer steady, progression is an easy matter.

In heavy seas and against a headwind, the consumption of fuel must be greater. Then he should pile on the Steam Coal of Salesmanship—Daily Newspaper Advertising.

Then is the time to crowd on steam—to use Daily Newspaper Advertising with the greatest degree of confidence.

The Daily Newspaper is the medium of the moment—the axis of opportunity; flexible, powerful and instantaneous in its ability to create sales.

Advice as to the best ways and means of doing this will be given to those who inquire of us; or consult any recognized advertising agency—a list supplied on request.

THE RIGHT PREVAILS.

What may be described as a thoroughly representative cross-section of the citizenship of St. John assembled in the high school building last evening and declared itself emphatically in support of vocational training and the continuance of the evening classes. Any other assembly of citizens of equal number, after hearing the addresses delivered last evening, would do the same. The speakers were heartily applauded, the keenest interest was displayed, and the resolution adopted with such unanimity as must have enlightened anyone who had been persuaded by hearsay into the belief there was a sharp division of public sentiment on the question.

The way is now clear. No doubt the vocational committee will at once resume the evening classes. No doubt also, when the representative citizens present the resolution adopted to the city council, that body will heartily co-operate for such an arrangement as will guarantee a continuance of the work for the balance of this season; and also, it may be hoped, make provision for the opening in a small way this year of the day classes for boys and girls of high school age.

It was deeply regretted that Hon. Fred Magee was stormbound and could not reach the city in time to attend the meeting, but Mr. Fletcher Peacock, who had intended to speak briefly, took Mr. Magee's place and reviewed the whole situation with a clearness and grasp which set the New Brunswick vocational act fully before the people, not only in explanation of its own features, but in relation to and comparison with the acts in force in other provinces and the United States. Mr. Peacock abundantly clear that New Brunswick has not been trying a wildly foolish and hitherto untried experiment, but is in line with the most progressive thought upon the whole subject of vocational training. This explanation was needed to answer irresponsible assertions not based on a knowledge of the facts.

Each speaker in turn last evening presented excellent reasons why the evening classes should be continued until such time as a vocational high school building is erected, and why a beginning should be made in the matter of day classes. It is but just to say that the most impressive speech was that of Mr. J. E. Tighe, speaking as the representative of labor, describing the lamentable illiteracy in portions of this province, calling for a more thoroughgoing education policy to reach every child in the province; and asserting in behalf of labor that it offered no objection whatever to giving the benefit of evening classes to any man or woman, regardless of their social position, so long as the training made them more efficient citizens. By the time all the speakers had finished there was no legitimate criticism of the vocational policy of the government left unanswered; and Mr. Tighe's remarks which pointed to the need of a compulsory attendance law for the whole province may well receive the thoughtful attention of our legislators.

With regard to vocational training in this city, now that a principle has been established, the minor matters relating to the carrying on of the work may be taken up without prejudice and with a view to better results. It must be clear to the citizens that they have a responsibility in connection with the personnel of the school board. If it includes reactionaries, the people are responsible because they did not demand the right appointments. It may at least be hoped that if there is any member of the vocational committee or the board of school trustees not in sympathy with public sentiment the citizens will be given an immediate opportunity to suggest a successor or successors in the office. The educational interests of the city are too important to be left in the hands of any but the most progressive citizens, who are forward looking, and not lost in admiration of the past, nor swayed by personal and narrow views. We have been proud of the success of our classical high school. That pride should be tempered by a sense of incompleteness until we have an equally successful vocational high school one hundred per cent. efficient in its day and evening classes.

The suggestion of Mayor Schofield for a conference representing the city council, the provincial vocational board and vocational committee will doubtless be acted on at once.

WORSE AND WORSE.

The Standard today prints messages from Bathurst, Miramichi, Moncton, Sussex and Sackville denouncing the appointment of Mr. J. A. McDonald to the senate as a representative of New Brunswick. Editorially the Standard asserts that it is the outstanding political issue of the day in this province, and goes on as follows:

"The stupendous blunder on the part of the Government has created a bigger sensation than any political act of the past thirty years. It overshadows all differences of opinion as to whether the Meighen administration is justified in longer holding office. It relegates tariff adjustment, redistribution, and other important questions to the obscure background. Without exception, the people of New Brunswick are up in arms against the insult which has been offered them, and The Standard, in view of the countless messages and letters which have been poured into it during the past few days, feels justified in saying that this appointment has ruined whatever chances the present Union Administration may have had of political success here."

The Standard further charges that the government "oversteps the bounds of ordinary decency" and that it "puts up as an apologist the organizer of a labor union." It calls for the immediate resignation of Senator McDonald and adds: "If Hon. Mr. Wigmore can be made to realize his own position at the present time he too will retire from an administration which has, without explanation, perpetrated such an outrage upon the constituency which he represents."

It only needs to be added, to complete the record, that the Standard is still vigorously supporting the Meighen government candidate in York-Sunbury, and telling the farmers that "fools rush in where angels fear to tread."

Here is a hint for St. John. It is from Canadian Finance, Winnipeg: "Immense instances have occurred, some of them in Western Canada, where one city has made progress by leaps and bounds whilst another city in the same district and with better natural advantages than its rival, has marked time. The great deciding factor was the local patriotism of the citizens in the go-ahead city. They co-operated; they talked about their city's good points; they wrote and told their friends in other cities about 'their city'; they spent the whole day from sunrise to sunset in building up their home town by extolling its good points and uniting to remedy its defects. That was the spirit that transformed portions of the prairie into thriving towns and cities during the past twenty years."

New York Evening Post—O pleasant sight, Canada and the United States getting rich by the easy method of raising the tariff bars against each other. Sir James Loughheed, Canadian minister of the interior, waxed emphatic last week in saying that whatever we add to our tariff Canada must immediately add to hers. The Evening Post has printed correspondence from South America showing that governments there are considering the same limitation of our lead. The Journal of Commerce refers to the decided possibility of France and Italy falling in line. What a happy, prosperous world it would be, W. W. Jacobs' hero mused, if everybody had a little more money; or, protectionists would say, if all the world's tariffs went up a few notches."

The Standard says last night's meeting in the interests of vocational training was packed. As it was advertised in four newspapers and everybody invited the Standard's friends were not excluded. Those who were responsible for the alleged "padding" were the Women's Council, Board of Trade, Trades and Labor Council, the Veterans, and other well known organizations and citizens. The names of the gullible wretches who addressed the meeting will be found on another page of this paper, with a report of their remarks, which does not injure the Standard.

Judge Cohalan of New York says "the British Empire must be dismembered if the world is to have peace." He wants to begin with an Irish republic, but also wants Canada and the West Indies to be made "free." This exhibition of neighborly concern will no doubt be duly appreciated in Canada.

In this matter of vocational training we have seen how great a smoke may arise from a tiny spark of fire. The pity of it is that in an intelligent community so much energy which might have been devoted to constructive work had to be devoted to the task of meeting destructive forces.

For the benefit of the Standard it may be observed that Mayor Schofield and all the commissioners were invited to last night's meeting in the high school, and that the mayor and Com. Jones, who was also present were invited to seats on the platform.

Wales stands by Lloyd George. The victory in Cardiganshire must have been to him a source of the greatest personal satisfaction.

THE BIRTHPLACE OF OMAR KHAYYAM

The name Khorassan, in the Persian lore doth signify "Land of the Sun", a name most amply justified to those who live beneath its genial warmth perennial.

The land of roses, and the land of looms which weave the softest wool, the finest silk. Those wondrous shawls and carpets here are made. Unrivalled, by their beauty, in the world.

Here Tahnmar the king of Persia A thousand years before the Christian era. The highest gem of all the Orient.

Her gardens, and her shady orchards flushed In Summer glory by the pear and peach; The lily, and the tulip's myriad hues, And everywhere the rose, the poet's rose!

The lovely dark-eyed maidens of Nishapur The scene of enchantment of its bowers; The home of learning, trade and beautiful art, The first, and fairest city of the East.

And here was born 'th' astronomer and bard Whose Babylony of sublime philosophy Doth warm the heart like wine, and makes the world More bright and beautiful for all who read.

The inmates of the Old Ladies' Home were entertained last evening by the Young People's League of the Queen Square Methodist church. Those who took part were Mrs. Arthur Robertson, Mrs. Hayworth, Mrs. C. Mersereau, Miss Marguerite Howe, Miss Grace Robertson, Miss Anna Cline, Leslie Bewick, and Miss Margaret Gilmore.

During a meeting of the finance and accounts committee of the municipal council at the General Public Hospital yesterday, an inspection of the nurses' home was made with a view to some minor changes in regard to housing the heads of the various departments. It was stated that a fund voted at the January meeting of the council to county institutions would have to be spent for the purpose named in the estimates and accounts could not be pooled. Councillor Schofield was in the chair.

Trains arriving and departing from the city yesterday were delayed on account of the heavy storm in New England and Nova Scotia. The Boston train was two hours and fifty minutes late. The midnight Halifax train left the city fifty minutes late with four sleepers and a heavy first and second class train. The train due to arrive from Halifax at 5:20 last night did not reach here until after midnight owing to the heavy snow in Halifax yards, and also a run-off there. The snow was so deep that two engines were required to take the train from Truro to Nappan. The Sydney, Yarmouth and Halifax Southwestern trains were also tied up and did not leave until hours behind schedule.

SENATE DISCUSSES RELATIONS WITH U. S.

Failure of the United States to enter the League of Nations, and the possible effect of that failure on Canadian affairs, was touched upon in the senate by three speakers in the course of a debate on the speech from the throne last week. Senator Bostock regretted "the spectacle of an important rising in arms in the United States and Great Britain." Senator Sir James Loughheed, president of the Interior, and Senator Connor was deeply interested in the United States' policy, and hoped that the new administration in that country would see its way clear to becoming a party to the government. It was hoped, he said, that the League of Nations would contribute its deliberations to questions affecting peace or war. Senator W. C. Edwards, speaking of foreign trade, said that it was advisable that Canada should seek trade in all parts of the world, but that it must be remembered that the United States was most important to Canada than any other country.

Senator Bostock regretted the idea which, he said, was entertained in some quarters in the senate on the part of Canada should the Fordney bill pass in the United States. His own idea was that the best policy for Canada to pursue was one of development rather than of restriction of trade.

MONCTON TIMES ALSO OFFERS OBJECTION

(Moncton Times.) Colonel John Stanfield's appointment to the red chamber was foreboded as a deserved recognition of his services to his country and his party, but the appointment of Mr. McDonald, it must be admitted, came as something of a surprise, not only in Westmorland county but throughout the Province of New Brunswick. It was generally thought that Mr. McDonald, being a resident of Amherst, where is the major part of his business interests, would likely be considered as a successful applicant for a senate vacancy in New Brunswick. It is in fact that Mr. McDonald was born in Point du Chene and has a summer home in Shediac, and his placed residence and principally his business interests for the last twenty years have been in Nova Scotia, first in Halifax and latterly in Amherst, where the McDonald piano factory is situated.

In view of these facts, it is considered rather strange that the minister from the Province of New Brunswick at Ottawa ignored all the representations made to him by the influential friends of the various applicants for the vacant senatorship in this province, in favor of an applicant whose claims were pressed by influential friends, if not entirely, outside the province most interested.

WHAT WOULD LENINE SAY?

(New York Evening Post.) The answer to the Naval Committee's plea is supplied this morning by the Herald; unwittingly supplied, because the Herald is in agreement with the Naval Committee on a powerful navy, and in addition on "an army big enough to complement our navy." The Herald through the Naval Committee's plea is a time of unparalleled world upheaval. That is true. But what is the cause of this world upheaval, if not the greatest war in history arising from that very competition in armaments which we are now invited to carry upon a magnificent scale? We are not speaking of the ethical outcry that the last war was fought as a war to end war. We are speaking of the purely rational argument of the undoubted facts of a world sick economically, of half Europe in a state of starvation, of dissolution by no means completely laid. "At least equal to that of any other power!" Sent the message and that American is arming against Great Britain and see what Lenine thinks of it, and makes of it.

SAVING DAYLIGHT, LIVES AND DOLLARS.

(New York Tribune.) If the legislature of Albany rejects the wide daylight saving, repealing the present law and leaving only local option with the individual cities, it will be acting on behalf of a small minority against the health, the welfare, the earnest desire of four-fifths of the state. The country districts can adjust themselves to a new time schedule with but little inconvenience. The cities without constant confusion. In effect, such a decision by the legislature would sacrifice the lives and health of the many to the prejudice and relatively minor convenience of the few.

HOTELS LIKE PROHIBITION.

(Rockford Republican Star.) Hotels were supposed to be pretty hard hit by the prohibition regime. Now, according to the president of the Southern Interstate Hotel Association, most hotel proprietors would not go back to the unrestricted sale of liquor if they could. Very few of them would like to see even the sale of beer and light wines resumed. He adds: "The most rapid proponents of liquor admit their business is much more easily conducted since John Barleycorn was laid to rest."

WHERE PROHIBITION COUNTS.

Kingston Whig: If I have saved millions through prohibition, where is it? This question has been put to us. We say in the health and happiness and comfort of thousands who squander their wages over bars, and in the joys and pleasures brought to many homes. Dollars saved are not all in banks or in miners' stockings; they frequently are seen in the brows and sinew of the city population.

HEALTH AND RAILWAYS.

Within the last year the danger to railway travellers of infection from typhoid fever, dysentery, and other water-borne diseases has been reduced to a minimum in most parts of the United States through the co-operation of the U. S. Public Health Service with the different state boards of health. Nearly all supplies used on trains for drinking or other purposes have been tested by sanitary engineers and found to be safe, and will be re-inspected periodically.

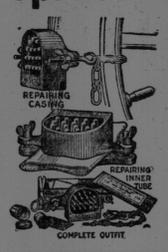

CARE OF CHILDREN'S TEETH.

The perambulating dental clinics of the U. S. Public Health Service have proved that poor health makes poor chewing, and that poor chewing makes undernourishment and poor health. Particularly it urges that the "six year molars" of children should be watched. These are not the last of the first teeth, but the first of the last, and once gone they can never be replaced.

Introduces Danish Pastry to St. John

St. John Soon to be Treated to This Popular and Tasty Pastry Regulator.

L. C. Klitting, a native of the Isle of Lesoo, Denmark, and the man who introduced the delectable pastry of that land to Canada and the United States, is in town and is at the Royal.

In Marlon (O.), en route here, he gave a demonstration of his skill as a pastry builder in a local bakery, the first 100 pieces baked being presented to President-elect and Mrs. W. G. Harding.

In 1918, nine days after Klitting's arrival in the United States he furnished sweets for the White House wedding. He is at present on a tour of the world to spread Danish pastry "propaganda" in every civilized country.

In New York the new culinary creations have taken hold to the extent of almost 1,000,000 pieces a day, and visits to Hawaii, Japan and China are expected to produce equally favorable results.

Mr. Klitting has toured thirty states, and also demonstrated his culinary art in Toronto, Montreal and Quebec.

MC 2035

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, FEBRUARY 22, 1921

WAS ONE OF THE "SIX HUNDRED"

Funeral of Man Who Took Part in Charge of the Light Brigade.

Cumberland, Md., Feb. 22.—Captain James Brock, V. C., aged eighty-six years, one of "the six hundred," who took part in the "Charge of the Light Brigade" was buried yesterday at Oakland, Md. He died several days ago after an extended illness.

The captain, a British pensioner, and a holder of the Victoria Cross, was wounded in the famous charge. He distinguished himself in the charge and was decorated with the cross for bravery. The cross has the words "Your Queen is Proud of You."

Captain Brock, a native of North Devonshire, England, distinguished himself in the East India revolution. He came to the United States in the sixties and settled at Newport, R. I., where he became a citizen and cast his first vote for Grant. Later he came to Maryland, engaging in business here and at Oakland.

Captain Brock was also a holder of a special decoration conferred on the survivors of the gallant "Six Hundred."

GREAT CITY OF DEAD

Proposal of One Burial Place for All Catholic Dead of Spain.

Madrid, Feb. 22.—The Diario Universal announces the proposed construction at Cerro Angeles, the geographical centre of Spain, of great catacombs to cover five square kilometres, which will be named "The City of the Dead" and where all Catholics in Spain are to be buried. It is to be surrounded by an iron cross 300 feet high from which daily masses for the dead will be said.

Minard's Liniment For Distemper.

St. George, Feb. 21.—Death came suddenly on Saturday to Mrs. Oscar Kinney, of Back Bay, who was on her way home from a sanatorium. She was awaiting the arrival of a car to take her to Back Bay at Mrs. M. Fallon's home when the summons came.

RECENT DEATHS

Miss Bessie Hughes died recently in Alberta from pneumonia. She was a sister of Bruce Hughes, who was seriously injured a few weeks ago, by falling down the hold of the steamer Canadian Importer, which was at this port.

John Little died recently at his home in Aposhqui after a brief illness from pneumonia. He was in the eighty-fourth year of his age and is survived by his wife, one sister and one brother.

BEAUTIES FIGHT FOR JOBS AS MODELS

New York Girls in Riotous Scramble to Reach Fashion Review Judges.

New York, Feb. 22.—The roof of the Hotel Pennsylvania was turned into a bear garden, when 4,000 beauties and would-be beauties tried to riot their way into a fashionable revue. One or two of the girls got trampled on. A few swooned away and yelling, kicking and scratching were quite in order.

Models were advertised for some days ago to take part in the Revue De Fashion. Two hundred were called for inspection. Four thousand responded. The process of elimination caused more bitterness than the cave women tactics of the pen.

It was deemed advisable to pen the beauties as they arrived. When every one was in the pen with their doors locked, and when the judges were ready the doors were unlocked. Then began the hours the girls fought for freedom and the first glance of the judges.

They used their fists like professionals, and when that did not work they frankly scratched and kicked. Girls emerged from the pen with their sleeves hanging in ribbons and their girdles torn off. Hats strewn the floor. Elaborate hair dressing was wrecked. By the time they reached the judges they had to depend on their merits rather than their make-up.

THE STEEVES CASE

Further evidence as to relations between the Steeves family and other neighboring families was brought out at the preliminary hearing of Galus Steeves which was continued yesterday before John W. Gaskin at Government Albert county. Two sons of the accused gave evidence and told of black eyes that their mother had received. Quarrels were always succeeded by reconciliations which endured but for a short season. Orlie Steeves, the fifteen-year-old son of the accused declared that his father was a good provider and loved his wife. He admitted that his mother had accused his father of being too intimate with his daughter Clara, but thought that there had been no actual misconduct. Mrs. Gibson Jones, a neighbor, told of trouble between the Jones and Steeves families due to misplaced affection on the part of the dead woman testified that the accused had threatened to shoot himself after the fire if there was any more trouble, also that during the lifetime of Mrs. Steeves she had been threatened with a revolver. Dickson Baker testified that he had seen Steeves at the fire and that he seemed much agitated. Miss Myrtle Steeves, sister of Mrs. Galus Steeves gave evidence to the effect that she had often seen her sister with black eyes and knew how they were caused. Mrs. Joseph Steeves, mother of the dead woman, thought the accused was "a damned good fellow when he was drinking." Another sister, Mrs. Inez Horseman, said she knew there had been trouble in the family. Ball was again refused and the hearing adjourned.

DEATH ON THE MELITA

The C. P. O. S. liner Melita arrived in port last night from Antwerp via Harve with seventy-six cabin and 153 steerage passengers. The steamer encountered favorable weather until nearing the entrance of the Bay of Fundy when she ran into a blizzard. Thomas Edward Macintosh died during the voyage from peritonitis. He was formerly a member of the C. E. F. and he was en route to his home in Toronto. A large percentage of the passengers are Italians, with some Belgians and French.

Among the passengers was the daughter of Mrs. and Mrs. John Kosma of Carter, Ont. When her parents migrated to this country seventeen years ago from Armenia they left their two year old daughter in care of Mrs. Kosma. As his mother died some time ago Mr. Kosma sent for his daughter and came

and Miss Phyllis Woods, girls' work secretary, reported on widely extended activities. Mrs. Z. Cowan reported for the membership committee, and Mrs. E. C. Weyman for the physical committee. For assistance in gymnasium work a vote of thanks was tendered Dr. Margaret Parks and Miss Perry. The report of the house committee was also given.

CHARMING BURKE

PICTURE AT UNIQUE

To see Billie Burke in a new photoplay is decidedly a film event of importance, but when one sees that dainty star in so charming a comedy as "The Education of Elizabeth" proved to be at the Unique Theatre last night, then one enjoys a rare treat indeed. At least, that was the verdict of the fans that applauded Elizabeth at this popular playhouse.

As a chorus girl of the slangy kind, though one who, despite her rouge and

paint, has a golden heart, Miss Burke is unusually artistic. She is a connoisseur of the finest quality and her daintiness has a fine appeal. It would be scarcely fair to reveal the story of "The Education of Elizabeth" but it is entertaining enough to satisfy the most jaded tastes. The laughs are many and the supporting company headed by Donald Cameron is quite clever.

HAMMOND SEES
END OF SOVIETISM

Says Russia Will Yet Have
Real Democracy—Opposes
Immediate Resumption of
Trade Relations.

Washington, Feb. 22.—John Hayes Hammond, prominently mentioned for secretary of Commerce in the Harding cabinet, told the house committee on foreign affairs that he believed Soviet Russia would within a few years give way to a true democratic form of government. Mr. Hammond opposed an immediate resumption of trade with the present Russia, because Russia has nothing to sell and nothing with which to buy, and the further ground that such trade relations as this would encourage the movement to democratic Russia.

The witness predicted that the new Russia will eventually absorb all of the present states which formerly belonged to Russia, except Poland. He expressed the hope that a tripartite agreement will eventually be reached among China, Japan, and Russia, whereby Russia will receive a portion of Siberia about the size of California, on the Gulf of Japan, in return for a payment of money to be used in building a railroad through China to the Gulf of Peking.

Mr. Hammond explained that this territory was not of practical use to Russia, although rich in minerals, and would give Japan a needed chance to expand, while the new railroad in China would open up the vast resources of the great empire.

"The information I receive," said Mr. Hammond, "seems to be borne out by reports through diplomatic channels. There is no business in Russia of any significance. The possibilities of trade relations are very limited. Russia has neither goods nor gold to purchase from us. Russia is paralyzed. Her transportation system is broken down. What gold she has is, for the most part, stolen gold. It is not available to the United States or any other nation. Her present government has sent most of the gold to other nations for propaganda purposes."

"Russia has not as much gold as is generally reported, according to my reports. The accuracy of which I have entire confidence. Agriculture has dropped to insignificance, and industry is at a standstill. In a word, all Russia can sell will be taken up by other countries near by. I can see no considerable trade with Russia, and I think the condition with respect to foreign trade is well nigh hopeless. Her available timber lands are already exploited, and it will take years to develop new ones."

Halifax Man Tells of Wife's
Wonderful Recovery Since
Taking Tanlac.

"The way Tanlac has relieved my wife of rheumatism is enough to convince anybody that it's a great medicine," said Melvin Baker, of 31 Seaford St., Halifax, a well known carpenter.

"My wife had rheumatism practically all over her body—in her arms, shoulders, back and hips and at times she said it seemed that every bone and muscle was aching. It was all she could do to get up and down and lots of times it didn't seem that she would be able to get out of bed. For weeks at a time she would lie in bed, and she would not even wash a dish. She hardly ate enough to keep alive, fell off in weight and was in such misery I don't see how she stood it all. At night she was in such pain and suffering she would lie awake till two and three o'clock, and in spite of every thing we could do she was going from bad to worse."

"Finally we tried Tanlac and the way she improved beats anything I ever saw. In a few days the pains commenced to ease up and she kept right on getting better until every ache she ever had left. Her appetite is fine now, and she has picked up in weight and looks like a different person altogether. She is in perfect health and we gladly give full credit to the medicine that is responsible for it all."

Tanlac is sold by F. W. Munro and the Ross Drug Co., L. C. Allingham, Campbell, N. B., E. H. Wilson, Fairville, N. B.—(Adv't.)

FOOD DROPS 3 PER
CENT. IN MONTH

Year's Decrease in Prices of
January Average 14 Per
Cent. in 51 American Cities.

Washington, Feb. 22.—A decrease of 3 per cent. in the retail cost of food for the average family in January compared with December, was shown in a report issued by the Bureau of Labor Statistics of the Department of Labor.

The per cent. is the average of returns of fifty-one cities on forty-four articles of food, which are weighted according to the quantity of each article consumed.

The greatest drop, 6 per cent., was in Los Angeles and Manchester, N. H. Cities reporting 5 per cent. decrease were Boston, Bridgeport, Portland, Ore., Providence, Rochester and Seattle. In the 3 per cent. class were New York, Newark, Philadelphia, Washington, New Haven, Atlanta, Houston, Milwaukee, Pittsburgh, Buffalo, Cleveland, Detroit, Kansas City, Louisville and St. Paul. Baltimore, Chicago, Cincinnati, Indianapolis, Minneapolis, New Orleans, St. Louis and Scranton and showed a drop of 2 per cent. and Birmingham, Dallas and Omaha decreased 1 per cent.

During the month of 27 of the 44 articles decreased in price, the most pronounced cuts being: Strictly fresh eggs, 14 per cent.; lard, 13 per cent.; rice, 10 per cent.; cranberry sauce, 9 per cent.; oatmeal, 8 per cent.; navy beans, 8 per cent.; cornmeal, 7 per cent.; oranges, 6 per cent. Among the increases were: Pork chops and cabbage, 9 per cent.; onions and cabbage, 4 per cent.; rib roast, 3 per cent. In the year from January, 1920, to January, 1921, the percentage of food decrease in all articles of food combined was 14 per cent. Thirty-two of forty-four articles decreased, the largest cut being as follows: Onions and cabbage, 54 per cent.; sugar, 46 per cent.; potatoes, 44 per cent.; lard and rice, 34 per cent.; cranberry, 28 per cent.; navy beans, 27 per cent.; coffee, 22 per cent.; cornmeal, 21 per cent.; canned tomatoes, 19 per cent.; butter, 18 per cent.; flour and prunes, 17 per cent.; oatmeal, 14 per cent.; evaporated milk, 13 per cent.; cheese, 11 per cent.

Among the articles which increased in price in the year were: Raisins, 29 per cent.; storage eggs, 10 per cent.; macaroni, 9 per cent.; rolled oats, 8 per cent.

The report compares prices for January, 1921, with January, 1920. These show that prices were 75 per cent. higher for all classes of food combined than they were eight years ago. Some of the increases in the eight-year period are: Storage eggs, 167 per cent.; strictly fresh eggs, 112 per cent.; bread, 111 per cent.; lamb, 104 per cent.; flour, 103 per cent.; ham, 93 per cent.; beef, 93 per cent.

As compared with the average cost of 1913 the cost of food in January, 1921, in some of the cities showed these increases: New York, 76 per cent.; Newark, 68 per cent.; Boston, 74 per cent.; Chicago and Philadelphia, 71 per cent.; Salt Lake City and Seattle, 63 per cent.

Miss Flora Boyko
Tells How Cuticura
Healed Her Pimples

"My face was very itchy at first, and after that it was covered with pimples that disfigured it badly. The pimples were hard and red and they were small, and they were scattered all over my face and were so itchy I had to scratch and I could not sleep."

"These bothered me nearly a year before I used Cuticura Soap and Ointment and when I had used five cakes of Cuticura Soap and five boxes of Ointment I was healed." (Signed) Miss Flora M. Boyko, Gardenton, Man., Dec. 26, 1919.

Having obtained a healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes, assisted by touches of Ointment as needed. Do not fail to include the exquisitely scented Cuticura Talcum in your toilet preparations. Splendid after bathing.

GRAY HAIR

Tells How He Did It.

Mr. J. A. McCrea, a well known resident of San Francisco, who was called Duddy and granted an account of his white hair, and who darkened it with a home-made mixture, recently made the following statement:

"Anyone can prepare a simple mixture at home that will darken gray hair, make it glossy, and give it a natural shade. It does not color the scalp, is not sticky or greasy and does not rub off."

TO NORWAY FOR
REINDEER FOR
BAFFIN'S LAND

A Start Made in Steffansson's
Project—Thanks of Dominion
Government.

(Special to Times.)
Ottawa, Feb. 22.—Within this year it is expected that the project initiated by Vilhjalmur Steffansson to build up a reindeer industry on the southern part of Baffin's Land will have been put on a sound basis for future development.

An agent of the company formed has been sent to Norway to purchase reindeer. He is trying to get 1,500 to ship next July and August to Baffin's Land. They will be landed in September. The market for reindeer will be tested out only in ten years, when the herd is sufficient in number.

Mr. Steffansson believes that the discovery of oil in the north gives a new importance to his proposal. Reindeer and similar industries could be started in the neighborhood of the oil fields or any rich mining regions discovered, the reindeer being the most convenient and having a near supply of food available would make development easier.

At the instance of Premier Melgoin the Dominion government has passed an order-in-council offering to thank Mr. Steffansson for the services he has rendered to Canada in the course of Arctic explorations. On three expeditions he has spent eleven years exploring the northern part of the Canadian mainland and the islands and seas to the north and northwest.

He Suffered for a
Year With His Back

NOW JOHN BOWERS SINGS THE
PRAISES OF DODD'S
KIDNEY PILLS.

Seven, Bridge, Ont., Feb. 21.—(Special)—Sincerely indeed is the tribute of Mr. John J. Bowers, a well-known local business man, to the praise of Dodd's Kidney Pills.

He had been suffering for a year with a bad back. Mr. Bowers states, "Sometimes I could not work with the pain. One of the earliest symptoms of kidney trouble is pain in the back. It is itself the cause of a great deal of suffering. But kidney trouble, unless given prompt attention, frequently develops into much more serious forms such as lumbago, diabetes, dropsy, rheumatism, and heart disease."

To be assured of good health the kidneys must be kept in good working order all the time. At the first sign of trouble use Dodd's Kidney Pills. Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

Boils So Bad
HAD TO
GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race. All the medicines which you may use will not prevent them from breaking out again.

Boils are simply caused by the bad blood in the system, and the bad blood must be made pure before the boils will leave. Burdock Blood Bitters, which has been on the market for over forty years, is the best and the greatest blood-purifier procurable.

It purifies the blood by removing every particle of foul matter from the blood vessels. It is the only medicine which you should never be troubled again with boils. Mr. James Foley, of New York, writes: "I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried many remedies, but got no relief. Finally, I went to a doctor, and he treated me several weeks, and all without benefit. At last, I found out my Burdock Blood Bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

Mothers! Keep Syrup Pepsin Handy

An absolute household necessity, a wonderful emergency
remedy for constipation. Someone may
need it any minute!

ALL in the family look to the mother for guidance and advice in the multitude of little disorders that arise almost daily. Chief of the minor ailments are those that precede or follow constipation. The experience of a mother will tell this one to experience more and that one to exercise on certain biding foods, but when these cautions fail she has to advise medicine.

Modern people are getting away from the notion that simple constipation is a headache, influenza, colds, feverishness, indigestion, require a drastic, weakening drug. They take a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin, which is but a combination of simple laxative herbs with pepsin. The formula is on every package. It is a mild, gentle remedy that does not grip or weaken. The Syrup Pepsin is pleasant, and as it is free from narcotics and mercurials, mothers have for thirty years past felt safe in giving it to infants.

A sixty-cent bottle will last a family month, and it is guaranteed to produce the results claimed or your money will be refunded. You will find nothing better for disorders of the stomach, liver and bowels than this same Dr. Caldwell's Laxative Syrup Pepsin. Every member of the family can use it with safety and feel sure of results. Many thousands of families are never without a bottle in the house, and last year over eight million bottles were sold in drug stores, the largest sale of its kind in the world.

These believers in Dr. Caldwell's Laxative Syrup Pepsin no longer take calomel or castor oil, salt water, physics or purgatives, even if made into a sugar-coated pill, for they have learned that they can get better, safer and more agreeable results with Dr. Caldwell's Laxative Syrup Pepsin. If you will once bring a sixty-cent bottle into your home and take a teaspoonful the next time you feel constipated you will never thereafter be without it.

Try It FREE
There are heads of families who will want to prove to their own satisfaction that our Laxative Syrup Pepsin is as effective in constipation, as mild and gentle in action, as pleasant-tasting and safe as I claim. Let such write me for a free sample. It will be sent postpaid. Simply say "Dr. W. B. Caldwell, 19 Front Street, Bridgeport, Ont." Send a free trial bottle of your Dr. Caldwell's Laxative Syrup Pepsin to— and give your name and address. I will see that the rest is attended to promptly.

Mustard Works Without the
Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, four and water when you can easily relieve pain, soreness or stiffness brought to a close with two ounces of Musterole. Musterole is made of pure oil of mustard and other helpful ingredients combined in the form of the precise white ointment. It takes the place of mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest (it often prevents pneumonia).

"MADAME X" IS HIGHLY EMOTIONAL

Powerful Mother-Love Play at Imperial - An Achievement For Pauline Frederick.

Pauline Frederick, as "Madame X" in Alexandre Bisson's famous French play

of that name, a Goldwyn production, which is now the big attraction at the Imperial, has one of the greatest emotional roles ever given to an actress. Miss Frederick is presenting a new and wonderful interpretation of this character around whose stormy and sad life the action of the play moves.

drive her away, but will not believe her story. He forces her into the streets again. Twenty years later, after she has gone down to the lowest depths of degradation to which a woman can go, she returns to France from Buenos Aires, to which place she had drifted. She kills a man who seeks to use her in a scheme to blackmail Floriot and is sent to prison. Refusing to reveal her identity she is registered as "Madame X." Her son, now a lawyer, is assigned to defend her at her trial. Floriot sits on the judge's bench during the trial to hear his son plead his first case and Noel, who loved her before her marriage, is among the spectators.

The dramatic intensity of the trial scene has seldom been equaled in any play, particularly when "Madame X" recognizes her son in the young lawyer defending her, and her husband in the man sitting beside the judge.

WOMAN CONVICTED AS "COMMON SCOLD"

Sentence Imposed in Pittsburg Under Act of Revolutionary Period

Pittsburg, Feb. 22.—A jury convicted Mrs. Bridget Ruppel of being a "common scold." Sentence was imposed under an old act of revolutionary days. Assistant District Attorney Little, in his address to the jury, said that it would be a good thing if the old-fashioned ducking stool could be resurrected for the benefit of Mrs. Ruppel and women like her. Testimony was to the effect that she had "put the curse" upon women she did not like and called them many names.

CONTINUATION OF VOCATIONAL SCHOOL URGED

Resolutions Passed at Meeting of Citizens Last Night—Strong Arguments Presented by Several Speakers.

A meeting of the friends of vocational training was held last evening and was very largely attended. Resolutions were passed urging the continuance of the schools and the need of the financial assistance which the city council could give.

Mr. T. Hayes, M. P. E., was in the chair. The chairman read a letter from Hon. Fred Magee, chairman of the provincial vocational board, expressing his regret at enforced absence.

Fletcher Peacock was the first speaker and in a lengthy address he described the methods of operation of the various acts for establishing vocational training in the provinces of the dominion and in the various states, explaining in detail the means given of central and local control.

Regarding the training of teachers, he said a central school for the dominion was to be inaugurated for the specialized teachers and New Brunswick had established an excellent system for training grade teachers.

Mr. T. Hayes said that the representatives of labor had long been on record as favoring vocational training when first established and they gave a comprehensive and complete scheme for extending night classes and opening a day school for pupils of high school age.

As evening classes had invariably preceded day classes in vocational training and whereas over 400 students had attended the classes this season with the expectation of completing their course therefor it was resolved that the meeting urge the city council to make provision for the continuance of those classes and if possible make provision also this year for the commencement of vocational classes for children of high school age.

Mr. Peacock said the money required was so small an amount that it could be paid by the citizens without knowing it but that he felt the city had a moral obligation to see that the 450 pupils who entered classes were allowed to complete them.

Mayor Schofield said he was glad to hear the sentiments expressed by the representative of labor and that labor would in the future take a real interest in vocational training.

Watch Your Gums—Bleeding a Sign of Trouble

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhoea, that dread disease which afflicts four out of five people over forty.

If the disease is unchecked, the gum-line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhoea poisons which seep into the system and wreck the health. These poisons often cause rheumatism, nervous disorders, anaemia, and other ills.

To avoid Pyorrhoea, visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhoea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult your dentist immediately for special treatment.

Under sixteen was admitted to the vocational classes and that twenty-four was the average age of the pupils enrolled.

On Mr. Bedding's motion, the chairman and the speakers of the evening were a committee to present the resolutions passed that evening to the city council.

Mayor Schofield asked if the meeting asked the city council to grant \$25,000 for vocational training and was told no sum of money was specified in either resolution.

The meeting closed with the singing of the National Anthem.

To Beautify Complexion

All You Need is Stuart's Calcium Wafer to Clear the Skin of Pimples, Rash, Blackheads and Such Local Skin Eruptions.

The calcium sulfide in Stuart's Calcium Wafer is nature's contribution to skin health. It is the substance that prevents the skin, assists in its activity to secrete stagnant pores, to stimulate circulation and direct impurities from final lodgment in the skin texture. It sweeps its way through the bowels, removing wastes that otherwise may be absorbed into the circulation and thus try to escape through the skin. Use these wafers regularly for a few days and notice how the skin clears, how pimples, blackheads and such kinds of skin eruptions are removed. They simply cannot remain. Their redness and itching disappear. Proper food and Stuart's Calcium Wafer will surely take the place of all your creams and lotions and you won't need your powder, puff, or a 60-cent box of Stuart's Calcium Wafer today at any drug store and join the ever-growing throng of American complexion beauties.

"A First National Attraction."

Philadelphia last night stopped a fight between Benny Leonard, lightweight champion, and Eddie Moy of Allentown, Pa., in the third round, giving Leonard a technical knockout. Moy, leaning on the ropes, slid to the floor for a count of nine when Leonard tapped him on the jaw. When he arose, Leonard again swung at him, and the referee stopped the bout with Moy on the floor apparently little injured. It was scheduled to have gone twelve rounds. Leonard was again jeered while on his way to catch a train for St. Louis.

The bout was fast and well contested and was enjoyed by those in attendance.

"POP" ANSON GIVES TALK ON BASEBALL

Famous Player Who Was in St. John This Week

Recalls Days of Old and Has Some Views on Present Times—Says Judge Landis Right Man for Head of Commission.

"Baseball is the greatest sport in the world," was a statement made by Adrian C. ("Pop") Anson, when interviewed by a Times reporter here this week. "Pop," who is one of the most famous players that ever donned a uniform, maintains that it is a "spectator's game" because it has thrills all the way through and it is not too long drawn out. He also emphatically says that it is one of the cleanest sports known to the world and bases this contention on the fact that it is forty-three years since any player was ever known to leave the "straight and narrow" for a financial consideration.

In a reminiscent mood, "Pop" sat back in his chair in the dressing room of the Opera House, after appearing in his cleverly staged and unique baseball skit and sketched his history in the great national game for the Times readers.

He was born in Marshfield, Iowa, on April 17, 1882, and in 1898 started playing in the game which was to bring

him fame and prestige throughout the United States. In that year his father laid out the first ball park in his home town, and a league was formed, with Des Moines, Mount Pleasant and other places. In 1891 he joined the Rockford team and made his debut as a professional.

He remained in this team only one season and was picked up by the Athletics of Philadelphia, with whom he played for four years. In 1896 he went to Chicago and remained there, first as a player and then as captain and manager of the team, until the close of the 1897 season, when he retired.

In 1898 the Chicago team was reorganized and the club not only secured "Pop" from the Athletics, but also "The Big Four" of the league, A. G. Spalding, Jim White, Ross Barnes and Cal. McVey. Spalding was appointed captain and manager, and remained in that position until 1899 when "Pop" succeeded him. During his term as manager the team won six championships and were always within striking distance of the top.

Speaking of his joining the Chicago club, he said that a player named Sutton was signed on the same time, but jumped his contract. He also desired to leave, and offered the owners \$1,000 for his release. They, however, must have appreciated the fact that they had secured a man of sterling character and one with a bright future in the great pastime, for they persuaded him to remain and, judging from his great showings, they made no mistake in their first impressions, which in his case were lasting.

In 1874 as a member of the Athletics he made his first trip abroad with his team in company with the Boston Baseball Club, which was captained and managed by Harry Wright. They played in some cities in America, and then went overseas and in various parts of England and the British Isles. In 1888 he led his club in the first world tour, in company with an All-American team, which was in charge of John M. Ward. After playing in many intervening places between Chicago and the coast they embarked on a steamer and set out to demonstrate to the world the fine points of the great American game.

It was as a result of these trips and subsequent ones made by major league teams that the people of England and other European countries received their insight into this pastime. Mr. Anson predicts that the game will be popular in England, and great international world's championship matches will be played.

Asked about his position on the various teams, he said he started out as a third baseman and played at the hot corner until after his appointment as manager of the Chicago team, when he went to first, which position he held until he retired from the active participation. He said he caught many a game, and also played other positions, when an injury or sickness opened up a gap in the defence.

Oil Distribution System At This Port Likelihood

Project For Tankage of Five Million Gallons Before Next Winterport Season.

There is every likelihood of a fuel oil distribution system being in operation at this port before the opening of the next winter port season, it was said on good authority at city hall this morning. A tankage of 5,000,000 gallons capacity is projected and will likely be located on the western side of the harbor. Distribution from the tanks to the steamers will in all probability be made by means of barges, similar to the method now in use for the coaling of ships. The establishment here of oil fuel tanks will add considerable prestige to St. John as a winter port and will obviate the necessity of oil burning vessels being compelled to stop at Halifax for fuel on their voyages between St. John and European ports. In addition to the added convenience for shipping, the erection of oil tanks will add to the assessable value in the city and will mean considerable added revenue to the civic exchequer. Negotiations are now being carried on.

DID NOT SUCCEED.
A resident of Manawagonish road was awakened this morning about 2.30 by hearing a noise near his garage and when he investigated found eight men or boys in the building. He called to them and they lost no time in getting away, but not before some were recognized and a description of the others noted. From the appearance of the garage and the manner in which the cushions and tools in the automobile were strewn around the floor, it was thought the culprits were preparing to make a get-away with the car.

MELITA HAD IT ROUGH BEFORE ENTERING BAY

A Passenger's Tale About a Stormy Night at Sea—Wind 75 Miles An Hour.

A picture of a storm at sea was given to a representative of the Times this morning by a cabin passenger who arrived here last night on the large C. P. O. S. liner Melita.

On last Sunday, he said, they arrived off what he learned was Cape Sable, and ran into a severe snow storm, which developed into a blizzard. During the voyage from Antwerp, the weather conditions previously had been quite favorable. But when the storm broke the snow fall became heavy—far more dense than fog. The wind rose until it reached appalling velocity and it tossed the ship about considerably. The crashing of the waves, coupled with the shrieking of the wind, caused even the most nifty on board, who were not accustomed to these conditions, to look forward with apprehension to the long hours of the night when the skill of the officers would be pitted against the powers of the elements.

During the night, which seemed to be endless, he said, he tossed about in his bunk praying for dawn and listening to the fury of the storm. As the vessel would lurch one way or the other, tossed about by the force of the waters, he said he felt that she would capsize. But the stout ship did her duty well.

When dawn at last broke and the strength of the storm had been spent, he said, it seemed as though he had been through a horrible dream. Never before had he realized what responsibility was vested in a captain as he set out with hundreds of lives in his keeping. One, he said, could not help having great respect for these officers of undaunted courage, who face these dangers for others. "I have often," he said, "heard of the lure of the sea and read about the fascination which the ocean has for many, but the shores of Canada were a sight for sore eyes when we entered the Bay and were well on our way to this port."

That the steamer had encountered the severe blizzard which raged over this section of the country Sunday night and as a result was delayed over twelve hours, was said by Commander Henry Parry. He said they ran into the storm off Cape Sable and attempted to enter the Bay of Fundy, but kept around for about twelve hours, and estimated that the velocity of the wind exceeded seventy-five miles an hour.

One of the steerage passengers, a young Belgian girl, arrived in Canada to meet her fiance. That she was coming to this country to enter wedlock with a former Canadian soldier, whom she met during the war period, was no secret on board and she was showered with good wishes. She is a pretty lass apparently in her early twenties, and when news spread that she was to become a bride she soon knew she was the subject of more than passing notice, as was evident from the pretty blushes which chased one another over her face. Those gathered about the gang plank of the steamer like her fellow passengers on board united in wishing her future happiness in her new home.

MRS. W. H. WHELPLEY OF LONG REACH DIED AT THE AGE OF 92

News of the death of Mrs. Sophie Whelpley of the Long Reach, Kings county, came to the city burdened with sorrow for many here. She passed away yesterday after a brief illness, and at the great age of ninety-two. A daughter of Calvin Phipps, she was of Loyalist descent. All her life she spent in her native county. She married William H. Whelpley, but thirty years ago was called on to mourn the loss of her life partner. Four sons and two daughters survive. They are Capt. Hanford Whelpley of Long Reach, Dr. Charles B. of Crier Rapids, Iowa, Ernest of St. John, C. P. R. conductor; Frank of St. John, who formerly conducted a dry goods business in the North End; Mrs. Adelle Pitt of Boston and Mrs. Herbert Williams of the Long Reach. There are also fourteen grandchildren and eight great grandchildren.

A devoted mother and a kindly neighbor, she will be greatly missed and her section of the country will be not quite the same, now that she is no more, while in St. John a large number of family connections will regret her passing away. The funeral will be held on Wednesday afternoon to Holderville.

Keep Your Books in Proper Order With a Macey

In olden times it was difficult to keep books in proper order because the old fashioned bookcase was either too big or otherwise.

But now with the advent of the more modern idea of making bookcases in sections it is easy to keep the case in step with the growth of the book pile.

Not only easy but inexpensive because a section may be added at intervals; instead of buying the whole case at once.

This is made possible because the sections are standardized; and the one you get today will exactly match another you may get next year or five years hence.

We are showing a nice line of the famous Macey Sectional Bookcases here now. In either Mahogany, Golden or Fumed Oak.

Possibly we can show you the line?
