WHAT ANNE PITENHOUSE SAYS

SO NERVOUS, HE COULD NOT SLEEP. Three Months Treatment of "Fruit-a-tives" Cured Him. Kincaid, Ont., Sept. 12th, 1910.

Little Beauty Chats

By BLANCKE BEACON. Bite Not Your Nails. ARE you in the habit of biting your nails? If your answer is in the affirmative, then read on, as you will find something of interest.

There are many reasons why you should cease to be a nail biter, each good and sufficient in itself. For instance, a great many physicians claim that appendicitis is very apt to attack the nail biter.

It is a one thing to say "I will stop," but it is quite another thing to do so, and this the nail biter is aware of. Let me see if I can suggest a way out of this difficulty. I have a surety you will not be tempted to gnaw your nails if they are coated liberally with some distasteful solution, such as an extremely bitter taste to the nails.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserable headache, dullness, hoarseness, sore throat, running of the nose, anxious catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound as directed, with the knowledge that there is nothing else in the world, which will cure you cold or end Grippe misery as promptly and without any other assistance or bad after-effects, as a recent package of Pape's Cold Compound, which any drug-gist can supply, except, no substitute, contains no quinine. Belongs in every home. Tastes nice-acts gently.

The raising of tobacco is one of the new industries in Ireland, and the quality of the weed is said to be good.

Tea and Coffee "Over-Exercise" The Heart

Normal exercise is healthful. Over-exercise is harmful. Exercise up to a certain degree, increases the pulse-rate, causing ample flow of nourishing blood to all the body organs. That is normal exercise. Physicians and Physical Trainers know this. Over-exercise urges the Heart to excessive action—flooding the body organs with blood. The after-effect is stagnation and decomposition in the tissues—as in the lowlands after a Spring freshet; and toxins (poisons) abound. Over-exercise also causes strain. Architects know what "strain" means in buildings and in bridges, just as Doctors and Trainers know it in the Human Structure. When "strain" passes a certain limit, the structure begins to weaken—slowly dis-organize. So with the Heart. It can stand so much "strain"—more or less, in different persons. Beyond the individual limit—look out! When the Heart is compelled to over-exercise and convey a blood-stream filled with toxins—it is serious, in the extreme. Tea and Coffee cause OVER-exercise of the Heart through the "whip" they contain in the form of the drug, caffeine. This drug increases the Heart's action—even while the individual is at rest. The habitual use of tea or coffee, three or more times daily, forces the Heart to over-exercise. "OVER EXERCISE" OF HEART Very Plain in Some People. A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises. An Eastern man described his experience as follows: "I became satisfied some time ago that I owed the palpitation of the heart, from which I suffered almost daily, to the use of coffee—I had been a coffee drinker for 20 years. (Tea, also is injurious because it contains caffeine, the same drug found in coffee). "I realized that I must give up the harmful indulgence in coffee but I felt the necessity for a hot table drink, and so tea was not to my liking, I was at a loss for awhile what to do. "One day I ran across a very sensible and straightforward presentation of the claims of Postum, and was so impressed thereby that I concluded to give it a trial, and I have used it ever since. "The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much, particularly after breakfast, is gone, and I never have a return of it except when I dine or lunch away from home, and drink coffee because Postum is not served. I find that Postum cheers and invigorates while it produces no stimulation. "There's a reason," and it is explained in the little book, "The Road to Wellville," in pipe. Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

DANES FOR CANADA

Winnipeg, Man., Jan. 14.—With a national object in view to provide lands for and assist Danes already in Canada and the western United States, as well as those now emigrating, a syndicate is being formed in Copenhagen with some of the most influential capitalists of the kingdom behind it. The plan is to purchase lands in a mixed farming district in western Canada, these lands to be leased to settlers of Danish and Scandinavian extraction desirous of making their homes in the new districts. Preparations are already under way for the establishment of a settlement at Canora, Sask.

THE DEMOCRATS AND THE TARIFF

(Continued from page 1.)
"The Canadian reciprocity bill is still on our statute book," Mr. Underwood suggested, "and we should not raise the slightest objection to the ratification of the agreement by Canada."
During the discussion of the wood schedule, C. Kitchen, of North Carolina, declared his intention of supporting what would amount to very drastic downward revision. "Do you not think," he asked, "one proprietor of a saw mill, 'that if the working man were given free boots and shoes, sewing machines, and so on, he would be compensated or putting lumber on the free list? I am going to vote for it."
"He would not," the witness replied, and Mr. Kitchen, of Michigan, a lumber "king," added:
"If you give him all these things free, you will also have to give him free soap."

Mr. Kitchen is one of the members of the committee who are apt to make light of the influence of outside competition. He made light especially of the Mexican peril in the lumber trade. "During the three years under the Cleveland democratic administration," he asked a witness who has spoken of the Mexican forests at some length, "is it not a fact that Mexico only exported 6,000 feet of lumber to the United States, valued at \$85? Was it not a fact further that during the same period Australia sent to the United States a little less than one foot of timber? Was not a fact further that the eastern provinces of Canada, lumber was scarcer than in the southern states of the American union?" Mr. Kitchen was developing his point with the statement that negro labor could be obtained in Mississippi for seventy-five cents a day when Mr. Foley excitedly interrupted with the sporting offer:
"I'll bet you a box of cigars that you are wrong."

BELIEVES STEEL MERGER IS HIGHLY IMPROBABLE

Toronto, Jan. 14.—Discussing the reported merger of independent steel companies in the United States and certain Canadian companies, the Monetary Times writes a denial of J. H. Plummer, president of the Dominion Iron and Steel Corporation, that he knows anything about the reported plans of C. M. Schwab, the steel magnate, who is said to be arranging the big consolidation. "The scheme may be going on behind our backs," said Mr. Plummer, "but I do not believe it."

(Continued from page 1.)
The Allan line Grampian is expected to arrive this afternoon at 2:30 o'clock and will dock at Sand Point, but the agents here expect that the strike will be over then and that they will be able to proceed with the unloading work.

The strike has happened at a rather fortunate time for the ship owners as there are but few vessels in port. The S. S. Ramrose Head is expected at almost any time, but the agents here have no word of her. However, the Allan line Grampian which is coming in this afternoon, has on board one of the largest cargoes that has ever been brought in to this port for some time. The vessel carries about 3,800 tons of cargo. The vessel's cargo average about 3,500 or 3,700 tons.

WASHINGTON LAW TAKEN AS A MODEL

Workmen's Compensation Scheme Being Worked Out in Ontario

(Mail and Empire).
A clear exposition of the State of Washington workmen's compensation scheme, was given Sir William Meredith yesterday by F. W. Hirdale, chief auditor of the Industrial Insurance Commission, which will probably serve as the model of the system to be put into force in Ontario. Mr. Hirdale's evidence for the Industrial Insurance Commission took up an hour in the morning and the whole afternoon, and in that time he ably replied to the score of criticisms leveled against the Washington system by experts present. BIG PLANS FOR CALGARY POWER

Calgary, Alta., Jan. 14.—Calgary may go into the natural gas business on a stupendous scale to produce cheap power for manufacturing purposes.

The Western Canada Natural Gas Company pipes gas from Bow Island, 200 miles away, and has the exclusive franchise in the city. The plan proposed by the city administration, which has been formed by the power committee, is to form the city into some forty-eight classes, or groups, in which premiums are fixed on the basis of the cost of gas transmission, including operating expense, interest and depreciation, at three cents per thousand feet.

TEN LITTLE SUFFRAGISTS STAND IN A LINE

Ten little suffragettes standing in a line; One epied a bargain sale, then there were nine.

Six little suffragettes, at a debate; One strained her vocal cords, then there were eight.

Eight little suffragettes, out until eleven; Her husband came after one, then there were seven.

Seven little suffragettes, up to cunning; One criticised another's hat, then there were six.

Six little suffragettes, for votes they did contrive; A tiny mouse scared one away, then there were five.

Five little suffragettes, making noise galore; A policeman arrested one, then there were four.

Four little suffragettes, glad that they were free; A mere man proposed to one, then there were three.

Three little suffragettes, to their movement true; One tried to make a speech, then there were two.

Two little suffragettes, with their work undone; The clock went back home, then there was one.

One little suffragette, in it just for fun; No one listened to her talk, so there was none.—Answers.

RECORDS OF GREAT LIFE

John Boyd Will Edit History of Sir George Etienne Cartier

(Montreal iWitness.) The Cartier Centenary Committee has decided to issue a memorial history of the "Dix and Times of Sir George Etienne Cartier." The work will be undertaken by John Boyd, one of the honorary secretaries of the committee, and a well-known writer. He is the author of "The Death of Doland" and "The Fight of the Atlantic." A large amount of new material will be available and add to the value of the work, which will be issued in both English and French.

To make the work as exhaustive as possible, the committee would be glad to receive from persons having letters or data relating to the life and times of Sir George Etienne Cartier, the originals or copies of which may be sent to the Cartier Centenary Committee, P. O. Box 188, Montreal. At a meeting of the Cartier Centenary Committee which was held yesterday afternoon, it was decided that although the main celebration of the centenary will not be held until September, 1914, the anniversary of Sir George Etienne Cartier's birthday which falls on September 6,

should be recognized this year by laying the foundation stone for the memorial. The meeting was presided over by E. W. Villeneuve, and in connection with the invitation to representatives from all parts of the Empire to be present at the celebration of September, 1914, an acceptance was read from Sir E. A. Morris, premier of Newfoundland. A letter from Hon. Mr. Fisher, Australia, promised that either he or another representative of the Commonwealth would be present. General Botha, South Africa, wrote saying that the union would be represented. The check for \$10,000 voted by the City of Montreal was received by the executive committee yesterday.

G. W. Hill, R. C. A., sculptor, wrote saying that he had arrived at Brussels, and had preliminary work on the monument well in hand. The Celebration committees have been formed throughout the dominion; the Canadian Society in New York has formed a committee, and the example has been followed by the Canadian Clubs in Boston and Chicago.

Probate has been granted of the will written in rhyme of Thomas Andrew Armstrong of Dalkey, County Dublin, who died leaving personal estate valued at £1,329. His will is as follows:— All earthly goods I have in store To my dear wife I leave for evermore; I freely give, no limit do I fix, This is my will and she executrix.

NEW TUNNEL IS PROPOSED FOR BOSTON

Includes Scheme to Abandon North Station as Passenger Terminal

A \$50,000,000 PROJECT

Electrification of Railroads Within 20 Miles of the City and South Station Used Exclusively — Is Merely in Suggestion Stage Yet

Boston, Jan. 13.—The latest scheme for a tunnel across the city to make a physical connection in Boston between the Boston & Maine and the New York, New Haven & Hartford railroads, includes the suggestion that the North Station be abandoned as a passenger terminal and all trains be operated from the South Station. Engineers of the New Haven have made a study of the possibilities of establishing the South Station as the terminal as a part of the plan for the electrification of the several divisions of the Boston & Maine and the New Haven within twenty miles of Boston.

It is estimated that the expense of making alterations in the approaches to the North Station that the New Haven desires would entail an expense almost equal to the cost of a tunnel under the river, without the advantages of the tunnel. The tentative plan of the tunnel is proposed as a more satisfactory settlement of the problem of satisfying the railroad of the war department, whose engineers have repeatedly recommended the reconstruction of the pier bridge over the river at a greater height than at present.

It is not the intention of the New Haven management to take the initiative in submitting the tunnel and electrification plan to the legislature. The New Haven management expects that legislation for a connecting tunnel and the operation of trains by electricity within twenty miles of Boston will be proposed. The plan for the tunnel will be ready in case the legislature wishes to receive it.

All the plans of the New Haven for the connection of the Boston & Maine and the New Haven by a tunnel depend upon the control of the Boston & Maine being secured by the New Haven for a period of twenty-five years or more. It is said that before undertaking such an improvement the New Haven would request legislative authority for the retention of the Boston & Maine.

A part of the scheme is for a direct connection between the South Station and the new subway to Dorchester via Winter and Summer streets. The plan of the Boston Transit Commission upon which construction of the subway is now advanced does not provide for a connection between the subway and the South Station. There is no proposal for such a connection and none will be made unless the legislature instructs the commission to make such a change in the existing plans.

any brought on by the contents of the letter, shoots himself. Harrison is discovered in a drunken stupor in the soldier's study, and the natural assumption is that he has shot his stepmother's lover. He is put through the terrible ordeal of the third degree by Captain of Police Jordan (P. R. Seaman) and his men, and under the frightful strain of the examination forgets his manhood, and acknowledges that which he has not done. His wife, Mary Harrison (Nellie Gill) none of his friends refuse to believe his guilt, and engages the old family lawyer, John Baldwin (P. S. Deeks) to prove his innocence. Eventually it is established and the intrigue of the stepmother exposed.

Nellie Gill as Mary Harrison, and Bert Hanna as Foster Harrison, Jr., were much above the average of the rest of the players. Both had difficult parts to handle, and in the rather tense situations of the play, were equal to their parts, not over-emphasizing that which was already dramatic.

As the faithful young wife, Miss Gill assumed the character gracefully and naturally, and where it was possible, in a rather sober drama, to insert a touch of humor, did so with pleasant results.

Bert Hanna, as the victim of his own folly, had a hard part, and held it down well, especially in the terrifying scene of the third degree, which is full of strong feeling and exciting incidents.

CUSTOM THEY ARE TRYING TO DO AWAY WITH

In some villages of Russia there still prevails a custom of assembling all the marriageable girls in the house of the head man of the place and letting the swains come to take their pick. Naturally this results in many misdeeds and unhappy marriages, and the government will pass a law prohibiting this practice.

AMUSEMENTS IN ST. JOHN; WHAT THE PLAYHOUSES OFFER

THE LYRIC.
The last word in novelty vaudeville seems to be reached by the Musical Mules now appearing at the Lyric Theatre, who offer something entirely new to lovers of amusement, therefore offering a diversion greatly welcomed. The mechanical setting of the act which is called "A Musical Mule" on Market Day, is alone worth seeing. The Musical Mule created no end of laughter with his beating time on an old tin can, and when his legs start to perform a dance the audience is about convulsed with laughter. The climax of the comedy element of the programme is not reached, however, until two black cats seen perched upon a fence, start in to display their ability as fighters, when suddenly a troupe of ducks begin to chirp a merry tune, the mule kicks all the harder, the cats keep on fighting and the audience almost laughs itself sick. Aside from the mechanical features of the act, there are several other highly entertaining novelties. The playing of the Swanee River upon pieces of pine, selections on old tomato cans and ribs of pork, are all worthy of praise. Baby Lola, a clever child contortionist of eight years, pleases immensely, while the Solax two-part feature, "Flesh and Blood," with the usual bunch of weekly happenings, make the programme a good one.

THE CITY SCHOOLS

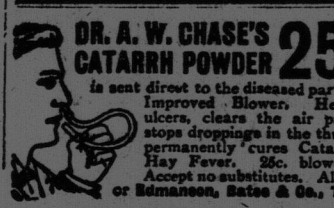

The estimates for the Board of School Trustees for 1913 as presented at a meeting of the teachers' committee last evening will amount to \$100,000 about \$10,000 greater than last year, the increase being due to the opening of new schools and salary increases for the teachers. It was decided to discontinue the school on Partridge Island and the resignation of the teacher, Miss Hargrove was accepted.

At a meeting of the full board, previously, the resignation of Miss Elizabeth McKay of Centennial school on account of ill-health was referred to the superintendent. The Women's Canadian Club asked for a change in the rules for awarding the prizes for essays in grade eight but it was decided to adhere to the former regulations.

Communications from the Y. M. C. A. and several churches regarding social centre work were referred to a special committee.

The electric lighting for the High School assembly room and hallways was left to the teachers committee.

Sectional volumes of the report of the Census of Ireland last year dealing with King's County and the County of Tipperary show that in the former county the population fell from 60,107 in 1901 to 58,832, or 5.57 per cent., and in Tipperary from 160,232 to 152,433, or 4.87 per cent.

FERRY MAY RUN TO FOOT OF KING STREET ON CARLETON SIDE

This interesting statement in Report to Council by Commissioner Schofield

The reports and recommendations of the city commissioners as published yesterday in the Times, were adopted at the meeting of the Common Council yesterday afternoon. In moving that the resolution regarding the ferry across the river be cancelled, Commissioner McLellan said that the resolution had accomplished all that had been intended for its present. In addition to the other interests Road Engineer Hatfield's salary was increased to \$1,000 a year. The necessary expenditures on the toll houses amounted to \$1,320. It is probable that the west side toll house will be enlarged.

Provision is made for expenditure of \$500 on the east side toll house. The toll bill for the last year amounts to about \$5 a day more than the Governor's estimate. The toll for the year 1912 was \$48,075.56, as compared with \$45,183.84 for 1911, due to increases in the tolls and also the amount of traffic. There would have been a surplus but for repairs, leaving a deficit of \$6,009.98. This is less than the amount, \$7,144, which was spent for 1911, due to increases in the tolls and also the amount of traffic. To save this expense it had been decided to share the tolls with the city. The sum of \$100,000 was received for the work.

Repairs to the old toll houses amounted to \$2,411, against \$1,076 in 1911. The commissioner adds that these tolls will always be large on steamers running on an eight-hour service, but this year more of the work will be done by tender and contract.

Election "Aftermath"

Prominent Politicians Endorse NEAL Treatment Drink Habit Cured in Three Days

Ex-Senator Bruce says: "Substantially all Neal patients are high class business, professional and laboring men, who realize and know that constant or excessive indulgence most frequently ends in financial, moral and physical ruin, insanity and untimely death. The Neal Treatment appeals to the man who wants to quickly overcome nervousness, desire for liquor and all EFFECTS of excessive indulgence, because there is no publicity, strong drugs, dangerous hypodermic injections or bad after-effects, and no detention from business or work for several weeks."

"The success of the Neal three day treatment has been demonstrated and proven in over 20,000 cases of drink and drug addiction, and its merits proved in 60 splendid Neal Institutes, established in principal cities in the U. S. and foreign countries."

"SECRETS REVEALED"

HOW NEAL CURES Drink Habit IN THREE DAYS

When it was first publicly announced three years ago that Doctor B. E. Neal had originated a treatment that removed the cause and overcame all the effects of excessive use of liquor in three days, physicians and laymen alike declared, "It can be done." In the face of opposition, skepticism and incredulity, the wonderful results of the Neal treatment and remarkable results of the Neal treatment have been demonstrated in over 20,000 cases and proved in sixty splendid institutions established in principal cities in Canada and foreign countries.

The "secrets" of the Neal Three-Day treatment have been "revealed" to all of the thousands of physicians and all others who have investigated. The explanation is simple. Constant or excessive drinking causes the system to become saturated with the poison of alcohol. No man can or will stop drinking until this poison is eliminated. The Neal treatment easily and quickly eliminates this poison, removes the cause and overcomes all the effects of excessive indulgence.

Those interested in receiving full information, call, write, wire or phone the NEAL INSTITUTE, 46 Crown St., St. John, N. B. Phone Main 1883.

DOWN TOOLS' AT END OF EIGHT HOUR WORK

Remarkable Labor Project in England Reported But Denied by Officials

London, Jan. 13.—The newspapers have circulated a remarkable report concerning an alleged "down tools" policy said to be under the consideration of the parliamentary committee of the Trades Union Congress, with a view to establishing an eight-hour day in all industries. Mr. Harbord, M. P., who should be in a position to speak with knowledge on the subject, is made responsible for the following statement at South Shields:

He was glad to say that there was a very important and promising movement on foot to secure an eight-hour day, almost all over the country. The Trades Union Congress proposals on the question, and the trade unions of the country would be asked to decide on this before they came into action. One of the proposals was that, on a given date every organized worker in every trade and occupation should stop work when the eight hours were up. No strike, they would observe; simply at the end of eight hours "down tools." If that came to a lock-out and well good. It was an important non-resistive proposal which the employers would find it very difficult to resist. He hoped it would be found possible to fix the proposed day for May 1—the glorious beginning of the summer.

When C. Boverman, M. P., secretary of the parliamentary committee, had his attention called to the new trade union proposal he promptly repudiated it. He said, "I should, of course, be fully aware of the fact, but I must definitely state that nothing of the kind has been discussed at any of their meetings. The committee have no instructions to work for an eight-hour day; but its policy has been defined by its controlling body, the Trades Union Congress, and certainly does not include any suggestion for 'downing tools' on a date to be fixed at the end of eight hours' work."

RECENT DEATHS

Many friends in the city will regret to learn of the death of John McAllister, which took place yesterday afternoon at his home, Duke street. Mr. McAllister was born in County Donegal, Ireland, and came to St. John when quite young. He was engaged for many years in the grocery business, but had been retired during the last few years. He is survived by one son, John A. McAllister, in the employ of W. A. Porter, and two daughters, Miss Minnie, at home, and Mrs. William Weyman. The funeral will take place tomorrow afternoon at 2:30 o'clock from his late residence, 207 Duke street.

The death of Wilfred Baird, son of Colonel John D. and Mrs. Baird of Elm Creek, Manitoba, but formerly of Woodstock, N. B., occurred on Saturday last. He was fifteen years of age.

The death of Mrs. Margaret Little, widow of David Little, occurred at her home at Harvey Station on last Friday. She was eighty-eight years of age and was the eldest daughter of Thomas Herbert, one of the first settlers at Harvey. Two daughters, two sons and some forty grandchildren survive.

Miss Frances O'Byrne, an Irish lady, has been greatly surprised by the receipt of a letter informing her that she has inherited a fortune of £80,000.

FORESTERS' SMOKER AND SOCIAL EVENING

Last evening the members of Court Log Cabin and their friends had a most enjoyable time in the Foresters' Hall, Colberg street. Invitations had been issued for a smoker and social evening and many responded, including charter members of the court and visitors from other courts.

The arrangements for the evening had been made by an efficient committee and the programme presented gave much pleasure, the performers in each case receiving well merited applause.

KNOX TAKES DIFFERENT VIEW IN PANAMA MATTER

Secretary Knox follows out closely the argument under which he signed the Panama Canal bill, and which the protest of England is built. He holds, as did the President, that article three of the Hay-Panama treaty was adopted by the United States for a specific purpose.

Secretary Knox's interpretation of the words "the canal shall be free and open to the vessels of commerce and of war of nations observing these rules, and on equal terms of neutrality, so that there shall be no discrimination against any such nation, or its citizens or subjects, in respect to conditions or charges or traffic or otherwise," is that all nations will be treated alike and no discrimination made by the United States against any one of them.

Secretary Knox has answered the other objections raised by Great Britain, one of which was the objection that the canal was not to be open to all nations on equal terms.

PARCEL POST IS POPULAR

One Effect Has Been Loss of Jobs by 75 Express Employees New York, Jan. 14.—Since the opening of the parcel post service, it is said one express company with headquarters in New York city discharged seventy-five employees. In substantiation of this report it was pointed out that Uncle Sam's own express service, even at this early stage is transacting an enormous amount of business far in excess of the predictions made by the advocates of its adoption.

GOOD ROADS IN THE WEST

Edmonton, Alta., Jan. 14.—Good road building will be continued with added energy throughout Alberta this year. It is expected to connect numerous market towns and shipping points with the main trunk highways and feeders. The provincial department of public works, headed by Hon. C. R. Mitchell, expended \$1,400,000 in improvement and betterment work upon permanent trunk roads and feeders and steel and wooden bridges last year.

SURPLUS FROM DEPARTMENTS OFFSET INCREASE IN ESTIMATES

Mayor Submits Encouraging Report on City Finances—More Pay for Police—The Estimates in Detail

The city commissioners at their meeting yesterday afternoon passed the estimates for the year with the exception of the amount required for school purposes, which has not yet been submitted to the commissioners. The estimates show an increase of \$20,284.47 over the amount voted in 1912. The total amount for the year is \$661,212.67.

In introducing the estimates for the coming year the commissioners, Mayor Frink compared the expenditures of the last two years and showed that the amount required for the year was not excessive. His worship advised that an audit department be organized for the county a large amount of money was handled in the county and he had heard of cases in the city hall where the city had paid some accounts several times.

Commissioner McEllan called attention to the fact that in the big fire there had been a property loss of \$10,000,000 but after all these years the assessed value of the whole city was only \$16,000,000.

The mayor's report on the assessment continued as follows: "The increase in the city assessment is \$20,284.47. This amount is \$1,781,174.14, being a net increase over the warrant of 1912 of \$24,327.77. That is to say, the amount of the warrant for 1912 was \$193,829,760.00. The unexpended balance amount to \$60,611.73, which are largely added up for the splendid receipt of taxes and water rates. Against these balances must be charged over expenditures on ferry, \$4,000.00; St. P. railway, \$1,623.03; balance of German street not bonded for, \$1,246.73; making a total of \$6,870.76 leaving a balance of \$60,782.29.

This surplus was disposed of as follows: Market sinking fund, \$2,688.26; water commission, \$1,317.77; reserved for the purpose, \$10,000; leaving for the reduction of assessment for 1913, \$43,786.14; \$127,724.47 for water maintenance and balance from general accounts, \$18,808.80. The returns from the previous year show that the receipts for 1912 were \$1,018,215.25 against \$981,045.42 for the same accounts for the previous year, showing an increase in these accounts of \$40,169.83. The total tax collection for the year 1912 including tax details amounted to \$831,703.67, against \$906,000.84 for 1911.

The total receipts for the last two years were as follows: 1912. 1911. Gen'l assessment, \$768,030.10 \$ 543,383.43 Tax details, 53,664.57 62,127.26 Water assessment, 172,550.94 174,944.27 Harbor revenue, 93,242.81 91,912.81 Rentals (wharves and lands), 25,441.30 21,262.23 Market, 16,201.34 16,270.21 Ferries, 46,135.39 34,433.92 Bonds lost on steamship Titanic, 85,000.00 7,581.32 Water sold to steamers, 10,186.80 9,482.67 \$1,018,215.25 \$801,645.42

The increase for 1912 amounted to \$40,169.83. The total bonded indebtedness at the close of 1912 was \$2,028,765.23, while for 1911 it was \$4,899,185.53, which shows an increase of \$2,870,420. For street paving, electric & Queen award, Marsh bridge aboideen, sewer construction and German street improvements, bonds were issued amounting to \$65,000. Against the same Bonds matured in 1912, \$21,500; bonds matured in 1911 but paid in 1912, \$10,000; bonds lost on steamship Titanic, \$5,000; making a total of \$36,500, which was paid from sinking funds, leaving a net increase of \$28,500.

The amount in the sinking fund at present is \$1,048,580.22 for the redemption of the city debt, this amount is far in excess of all legal requirements and is a record mark in the history of the city; \$102,483.26 not cash received from disposal of city properties was added to this fund during the year 1912.

The harbor has an additional revenue of \$9,870 from wharves leased and which appears on rental account. This would make the total harbor revenue \$103,200. This report could not be submitted in detail owing to school estimates not being submitted, which may make some difference but not appreciable. I desire to extend my thanks to the chamberlain and comptroller, the chairman of assessors and his staff, and all those engaged in my department for courteous assistance, and I believe they have been most faithful in the pursuit of their duties.

The statement of the mayor is an interesting one and, it is believed, most encouraging to the citizens. All fire insurance companies doing business and having agents in the city in the present year are to be assessed for the sum of \$25,000 which will be used to pay part of the cost of the maintenance of the salvage corps. This amount will be levied pro rata.

The amounts which will be required from general assessment for the different purposes are as follows:

J. S. STEEL TO CUT PRICES IN CANADA

Many Economies at Big Sandwich Plant Will Be Effected—Overhead Costs Reduced

A New York dispatch says: The announcement concerning the building of a plant by the U. S. Steel Corporation in Canada is regarded as highly significant, coming at this time when a tariff reduction is in prospect. The United States ships a large tonnage of steel into Canada every year, upon which a considerable amount is paid in tariff duties. By the construction of a plant of its own in Canada the Steel Corporation will not only save these duties, but will be able to sell at much lower prices than it does in the country on account of the lower costs in the manufacture of steel. From \$2 to \$2.50 per ton in overhead costs will be saved, while considerable economies will be effected in coal and labor costs.

The Canadian plant will include a rail, plate, structural and blooming mill, and also a bar and wire mill. All will be of sufficient capacity to take care of the Steel Corporation's share of Canadian business. In addition to the mills mentioned, the new plant will have four blast furnaces of 600 tons capacity each, six open-hearth furnaces, blowing engines and lighting plant. Although no mention of the plate mill is made in the Steel Corporation's announcement, it is probable that one will be added eventually, as there is a large and increasing demand for that product in Canada.

The initial cost of the plant will be about \$20,000,000. The property which it will be located on contains 1,500 acres, which gives plenty of room for expansion to meet the increasing business for some years to come.

THE DAY OF THE FIVE PERCENTS

Success of Moose Jaw Issue in London and Its Lesson (Times Special Correspondence) London, Jan. 1.—Success has attended the Moose Jaw issue of a million dollars in quarter dollars, five per cent. It was oversubscribed and is now quoted at a premium.

Four and a half per cent issues by Canadian cities made about the same time did not have so happy a reception. Portions of the issue being left with the underwriters. There is an attraction about a five per cent issue which half per cent less fails to supply, even though the purchase price is below par. The issue which partially failed was made at a price yield about five per cent; but the small investor, who takes up so much of the issue, fails to thoroughly grasp the point and, other things being equal, plumps for the straight issue.

It was a remarkable feature of the recent issues that the bulk of the applications came from the United States. \$300 to \$1,000. That gives an indication of the class of investors to which Canadian municipal offerings appeal. It is a fact that the issue of five per cent issues four and four and a half per cent issues are in disfavor, the day of the five per cent has come.

RECENT DEATHS

Mrs. George Gillier of Port Egin is dead, leaving her husband and three young children. Nancy C. wife of Wentworth Jones, of Upper Haysville, is dead, aged 68 years. She leaves her husband, two daughters, Mrs. Harry Jones and Mrs. Guy Arnold, of Woodstock, and four sons: F. E. Chas. E. and Ernest and Fleetwood, of Woodstock.

David Cropley, who for many years represented the parish of North Lake in the York county council is dead. Mr. Cropley, with his eldest son, carried on a business in the general grocery line. They also kept the post-office at their home in Forestville. The telephone central was also conducted by them. Mr. Cropley was a prominent Orangeman. He leaves one daughter, Mrs. Fred McMillen, of Skiff town, and three sons, W. H., Arthur and Clifford at home. H. W., manager of the Royal Bank at Moncton, and Miss Florie at home. She was a daughter of the late William Jones of Yarmouth. She leaves two sisters, Laura, wife of Edward Marshall, Mary, a teacher at the School for the Blind, and one brother, F. W. Johns of Portola. On Mr. Blak G. Burill, is a niece of deceased.

Dr. Maher's Prize in Halifax

The Halifax Echo says—On Friday afternoon the drawing of the prize awarded by Dr. J. D. Maher, of the Boston Dental Parlor, to his patrons, was impartially carried out in the Board of Trade room, Exciseayer (Chisholm) and E. A. Saunders, secretary of the Board of Trade, acted as scrutineers at the request of Dr. Maher.

The first prize was a seven weeks return trip to Demerara, meals and state-room included, or the choice of \$100 in gold. The second prize was a return trip to New York. Mrs. Donald Cummings, of Lunenburg street, became the happy possessor of the first prize, and John Gressor, 30 Colberg Road, the winner of the second one.

TARIFF CHANGES BY THE DEMOCRATS INDICATED

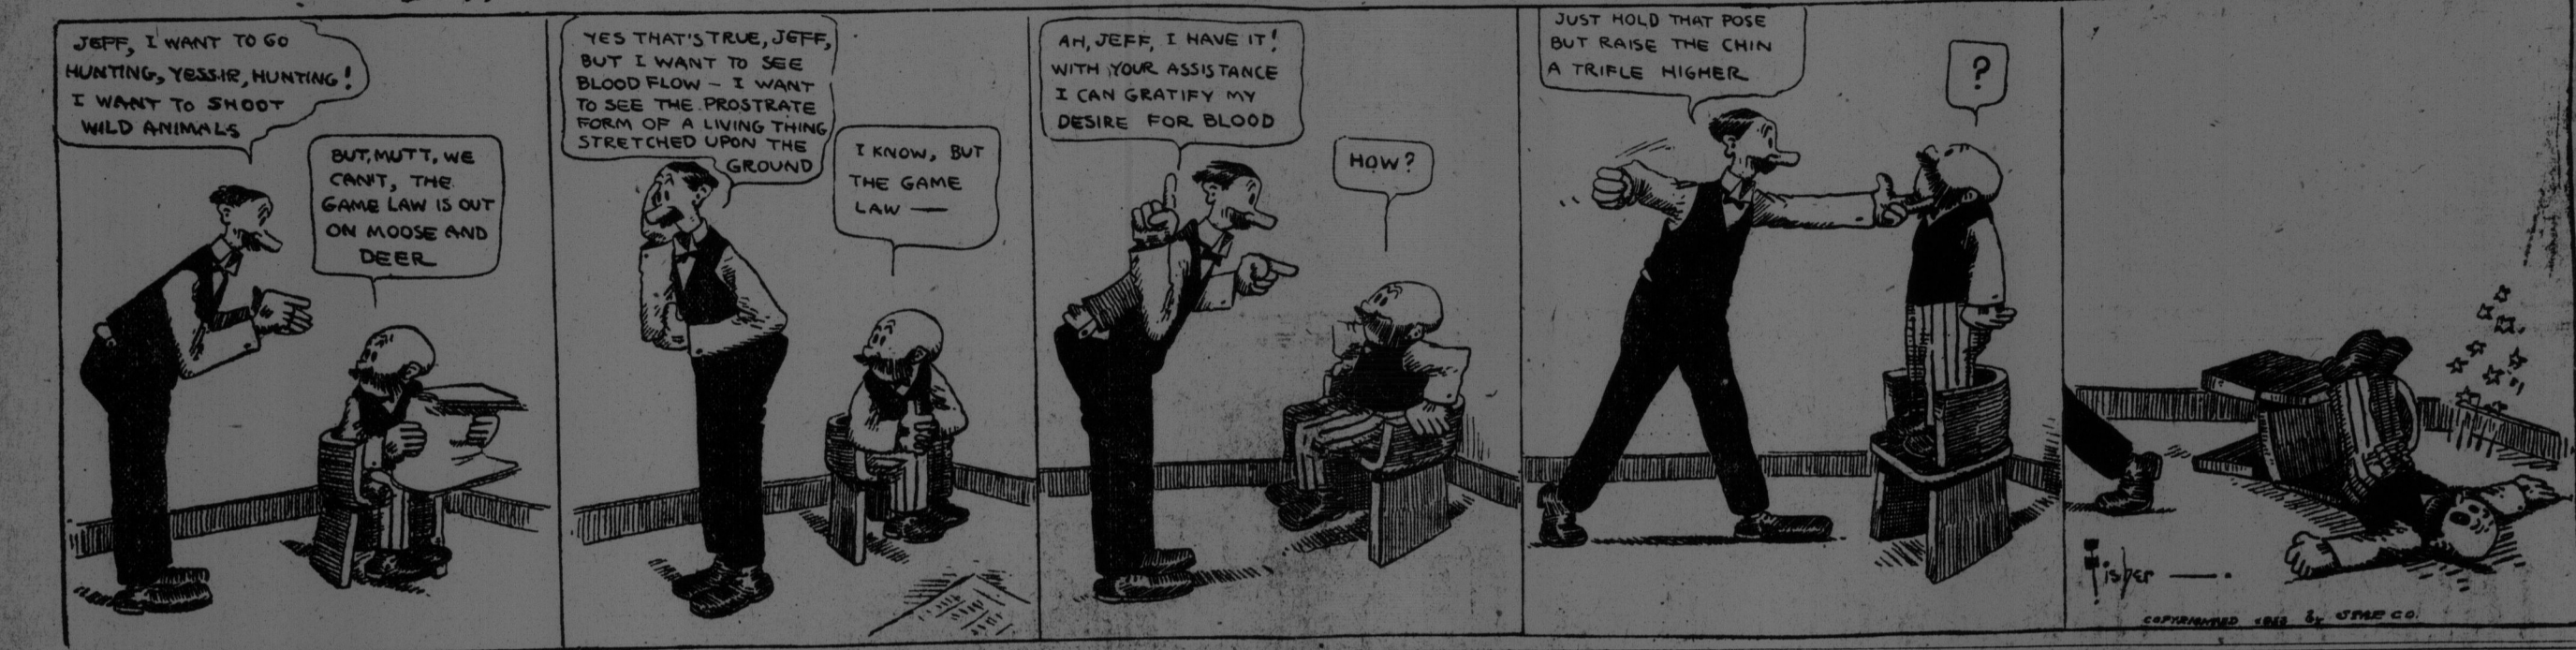

Washington, Jan. 13.—Free rough and dressed lumber, hewn and squared timber, shingles, lath and fence posts, the retention of approximately the present high tariff on the higher grades of silks, and reductions in the cheaper silks used by the common people, and a penalizing draught tariff bar to shut out "dyamant" silks were indicated today as parts of the expected Democratic revision plan.

The house committee on ways and means devoted the day to hearings on the wool and silk schedules of the tariff law, and the testimony and examinations were concluded in favor of the inclusion of these provisions, possibly together with free mousses, in the tentative tariff plan, the committee will frame to submit to the extra session of congress.

For Every Man Who Wants To Save Money THIS CLOTHING SALE IS A GOLDEN OPPORTUNITY

It Brings You the Best Kind of Suits, Overcoats and Trousers at 1-3 to 1-4 Less Than You Would Ordinarily Have to Pay

A January Clearance Sale of Men's Clothing is not a sentiment—it is what we consider a common-sense business proposition. We could continue our stock at regular prices, gradually closing it out through the regular channels of trade, but we think the January clearance best for two reasons:—

First—It would be almost impossible to keep a satisfactory line of sizes.

Second—It would probably cost as much to "drizzle" it out at full prices as the loss of profit on a big Sale at the reduced prices.

Then, again, as it is not the Oak Hall policy to carry our clothing from one season to another, we prefer to make the reduction when it will be of more benefit to our customers.

Can you or any other man who needs clothing afford to let such an opportunity slip by? Several hundred men will take advantage of it today—be one of them.

ANY WOMAN CAN HAVE BEAUTIFUL HAIR

Dandruff Disappears, Falling Hair Ceases, When You Use Parisian Sage

No preparation has done so much to stop falling hair; eradicate dandruff and make women's hair beautiful as PARISIAN Sage.

It is the only certain destroyer of the dandruff microbe, the cause of most hair troubles.

PARISIAN Sage is most daintily perfumed. It is an ideal preparation, not sticky or greasy. It does not contain poisonous sugar of lead or sulphur or any dye.

It is a magnificent dressing for women who desire luxuriant lustrous hair that combs admirably and for men and children nothing can compare with it.

It does away with terrible scalp itch over night and causes the hair to grow in abundance.

And a large bottle of PARISIAN Sage costs only 10 cents at all drug and toilet goods counters.

All druggists guarantee it.

An hour was spent in consideration of the figures and the estimates will be taken up by the commissioners, with the other civic estimates, at a special meeting of the common council tomorrow. The 1913 day required by law when all estimates shall be in.

REV. MR. NOBLES MAY GIVE UP HIS PULPIT

Victoria Street Pastor's Health Not Good—Reports on Year's Work—Church Officers

The annual business meeting of the Victoria street Baptist church was held last evening by the pastor, Rev. Benjamin Nobles in the chair. There was a good attendance. Reports from the different departments were presented, and Geo. M. Burk, treasurer of the church, submitted his annual report. He has been in the church for twenty-two years, and in all that time it had not been his privilege to make such a favorable showing. He reported more than \$100 surplus.

The pastor expressed gratitude to God for directing the people in the past year for current expenses as well as denominational and charitable work. He said that the people by the free will offerings of the people, no matter how small, are all the means available. The contributions to denominational work were larger than in any preceding year. Miss P. K. K. went reported for the Women's Aid Society. The report was encouraging from many standpoints. The offerings were larger than in the preceding year, if not any other year.

The report of the Bible school showed a balance on hand all bills paid and all departments of the school going on steadily and faithfully in their work.

Walter Hatheway reported for the Young People's Society. The meetings had been fairly well sustained during the year. The method used for collection was by offerings at the meetings. The society had been generous towards the different departments of church work and still was able to show a balance the right side of the ledger.

The clerk's report did not show a net increase in membership, death and removals had claimed more than those who had been received. But the year in its closing months and weeks was signally marked by large baptisings.

The election of officers resulted as follows:—

Treasurer—Geo. M. Burk.
Clerk—Guy Keirstead.
Deacon—Charles Bonnell.
Lep. of Bible School—Guy Keirstead.
Trustees—Herbert Roberts and John Appleby.
Audit committee—Leonard Peters and Herbert Parlee.
Music committee—Herbert Roberts, Herbert Parlee, R. E. Akery, Miss P. H. Vanwart and Mrs. Fred Brookins.
Missionary committee—Rev. B. H. Nobles, Miss Vanwart, Miss Pirie, Mr. Trafton, Chas Bonnell.
Catech—Leonard Peters (chairman), F. Tiner, Chas. Watts, J. Pollock, E. Davidson.
Collectors—G. Ducey, F. Brookins, H. Vallis, Boyd Neale, F. Trafton.

At the close of the business session, the pastor, who has been in poor health for more than a year, intimated to the people that he might find it necessary to give up the work as pastor. He said, "Unless there is a great change in my health, it will be my painful duty to relinquish the work and rest." This came as a great shock to the people. Many of them, meeting him at the close, said it would be their earnest prayer and hope that he might recover to go on with the work which had prospered so much in his hands. Mr. Nobles was pastor of the church earlier in his ministry for a term of four years, and he is now finishing the sixth year of his second term.

WILL HEAR CHEERING REPORTS

Germain Street Church Has Had Best Year in its Experience

Very cheering reports will be submitted at the annual meeting of the Germain street Baptist church this evening. The sum of \$28,000 has been subscribed for their new building beside the church, and there will also be a report on the East St. John mission, built at a cost of \$1,200. The year 1912 has been quite the best in the experience of the church, and the outlook for 1913 is very bright. Full reports will be submitted from all departments.

The annual meeting will be preceded by a social reunion and tea, beginning at 6:30 o'clock in the vestry of the church.

F. B. CUTLER ON LUMBER OUTLOOK

Points to Great Increase in Cost of Production—Removal of Duty Only Relief For Consumers

The following from the Bangor Commercial will be read, with interest here:—

In a statement of the prospects for 1913, Frederick B. Cutler of Bangor, formerly of Bangor, of Bangor & Cutler, says:—

"Prices of lumber of all kinds advanced during 1912 to a fair level, not to a high level as many retailers think. It is quite interesting to read the following quotations given by retail yards in Boston some years since:—

Frames, 12 inch	\$14.50
Frames, 10 inch	\$13.50
Frames, under 10 inch	\$13.00
69 M 2nd Random	\$11.50
Frames, 8 inch	\$11.00
2 M Hemlock, P 1 S	\$12.50
10 inch spruce boards, P 1 S	\$12.50
Stock hemlock boards	\$12.00
Clear shingles	\$3.35
No. 2 barn boards	\$3.00

"All the above prices were for the lumber delivered Boston rate of freight. The retailer on comparing them with the ruling today will at once think that the manufacturers' profits have increased enormously, but this is not the case. The reasons for the difference are the higher labor scale, increased freight rates and the heavier cost of fuel supplies. The lumber first went into woods operations we were paying \$16 to \$18 per month for our best men who were first class workmen, men who could and did give a large amount of work each day. We are now paying \$22 to \$24 and get about as wretched a crowd of men as it is possible to imagine. Please note that we are now paying nearly double in wages and get for a day's labor about half as much work as formerly. The difference in the price of food products is also very marked. Today we supply better food and wreat variety than formerly, all of which means, of course, much heavier expense. Formerly we had a scale that gave 29 to 30 per cent. overrun in sawn lumber, now our scale runs 10 to 20 per cent. full short. "This means an enormous increase in cost. The stumpage has nearly tripled in price. Where \$2 per M was a fair price, it is now \$6 to \$8. The freight rates, especially by vessel, are much enhanced. The rates by water the past season were higher than I ever remember to have seen them. All I have said applies to spruce and aspen, because of the enormous increase in the consumption by pulp mills, which is growing scarcer very rapidly. I look for enhanced values in the future. It is becoming harder and harder to stock saw mills, with the result that the supply is daily dropping out of business, which means, of course, that the product is decreasing and the price increasing. The outlook for higher prices in 1913 than prevailed in 1912, is certain.

"The relief by which consumers can get relief is by removal of the duties on lumber, laths, shingles, etc. Owing to the very high prices in the foreign market, we have today this removal would not help very much just at present. There is a much mistaken idea that the manufacturers of lumber in the provinces pay less for their labor than we do in the United States. The year 1912 looks like a bad year for consumption, the only black cloud being politics, but the country is so weakly because of the splendid crop of lumber that bugbear can't hurt much."

NO CRIMINAL BUSINESS FOR THE GRAND JURORS

Circuit Court January Session Had Only Three Civil Cases

The January sitting of the Circuit Court opened this morning at eleven o'clock, Mr. Justice Landry presiding. No criminal indictments were presented to the grand jury and in addressing that body His Honor referred to the absence of criminal cases and thanked the jurors for their attendance and commented upon the fine appearance of the court room, congratulating Sheriff Ye Forest on his activity.

The grand jurors were as follows—Ralph M. Fowler, Frederick C. Bestway, Walter Gilbert (absent), William A. Wetmore, Wellington H. Dunham, George W. Slocum, (absent), Alfred G. Staples, John F. Alexander, M. Phillips (absent), Peter Mahoney, Walter F. Leonard, Ernest J. Healt, Munzer E. Grass, James Lewis, Robert T. Hayes (foreman), Isaac B. Murray, James Gault, Frank J. Lyle (absent), William A. Simonds, Percy B. Bostay (absent), H. Russell Sturdee, Arthur K. Munde, Timothy T. Lantaulm, (absent), E. Atherton Smith.

The petit jurors were—Roy F. Potts, Matthew V. Wilson, Frank S. Alwood, Andrew Dean (absent), Richard J. Walsh, James Brown, John Chipman, Thomas McGrath, William E. Baxter, Roy A. O. Skinner, John Walsh, Frank E. Bell, William Y. Bostay (absent), Stanley Bustin, Lewis McDonald, Charles H. Gibbon, John H. Ebb, Fenwick W. Tapley, Walter T. White (absent), Frank L. Peterson, Edward Walsh.

The civil docket is:—

Jury Cases.

1—McVey vs. The Motor Car Co., Ltd.; D. Mullin, K. C.

2—Fitzgerald vs. Hutchings—George H. V. Belyea.

Non-Jury.

Stinson A. McLean vs. Ewart—Baxter & Logan.

In the case of McVey vs. The Motor Car Co., Ltd., G. H. V. Belyea, acting for Mr. Mullin, asked that the case be made a remand. Macfarlane & Sinclair for the defendants, consenting; the application was granted.

The case of McLean vs. Grant was set down for trial for the 22nd inst., in chambers.

The court then adjourned until two-thirty o'clock, when the case of Fitzgerald vs. Hutchings was taken up. M. G. Reed, K. C., and G. H. V. Belyea, appeared for the plaintiff, and E. T. C. Knowles for the defendant.
