ANOTHER C. P. R. ELEVATOR LIKELY AT SAND POINT

Plans for the erection of a new grain elevator in Carleton are under consideration by the C. P. R. and although a decision has not yet been reached, it is possible that the work of construction will be commenced this summer. The new elevator would have a capacity of one million bushels, and be an important addition to the freight handling facilities of the port. Engineers have been at work locating the best site and while the position depends on their report, it would probably be near the present elevator and to the south of it. The new elevator would supplement the present plant in supplying grain to the existing wharves and also be ready for shipment of the new wharves which are to be built by the Dominion government.

(Times Special Correspondence.) London, March 14—Follow the 'Weather Vane,' follow the 'Weather Vane!'

That is, if you wish to mingle with the titled section of London's bohemian society. Yes, you find them all, ladies, more about-town, famous authors of both sexes, musicians with long hair and artists with long ties, nibbling caviare sandwiches and sipping green, yellow, black and white cordials in the Theatre Cabaret, London's latest attempt to be smart and unconventional in the English fashion.

The 'Weather Vane' about town show you the way to this bit of Paris's Montmartre set down in the heart of London and if you follow their directions you can, upon the payment of £2.50 rub shoulders with the cleverest in the land, stare as long as you like at a duchess or even a princess, perhaps enter into conversation with half a dozen of the unlabeled and unnumbered of the four arts, and at least you can see a performance of the like of which is not to be found elsewhere on this side of the English Channel.

For this incalculable boon, this latest attempt to break the gloom that clutches the people of England about the theatre, a clever woman is responsible. She is Miss Floyd Arison, and up to the time she started the people of London by opening the Theatre Cabaret she was chiefly known as a singer of nigger melodies.

Copying From Paris

Her idea is to reproduce the best features of the famous Cafe Chat Noir of Paris, making her little theatre the meeting place of high bohemian society and the musings, unimpeded, unhampered and untrammelled of the realm of music, literature, art and the drama. From her little stage or from the seats of the Theatre Cabaret she is drawing the sympathy of the audience, budding poets rise and before your eyes and ears blossom forth into brilliant flowers. Unwashed artists, fresh from Chelsea, dressed in blue jerseys, who have knocked in vain at the portals of the Royal Academy, hump themselves in the corners and ply their sketching pencils. Long-haired violinists and pianists, a few and Beethoven and Chopin, while imitation Mand Allans and Pavarotti caper about the dimly lit stage.

But while it is all quite unreal and so convincing, it is nevertheless an interesting experiment. And, judging by the rapid way it has become the rage among a certain class of moneyed Bohemians it will be a success. Already more than 100 of the members of the Theatre Cabaret have become permanent subscribers to the scheme and it has been determined to form a club around the little theatre. New quarters will be opened close to Piccadilly, the centre of the night life of London, and the members of the Theatre Cabaret will come on to the performance after their usual London theatre has closed its doors.

The present home of the Theatre Cabaret is a well appointed and comfortable atmosphere of the continental artist. Artists have been turned loose on the scheme and their decorations with a series of 'Cubism' and 'Futurism,' the newest of art cuts, have been wedded to the tricks of the poster artist, and a series of astonishing results decorated the four walls of the little theatre.

The bizarre figure of a 300-pounder on the stage, a representation of Picaresque circus as it might appear to a reveller who has drunk no share of wisdom with his drinking. These two are easy to guess but the other pictures are evidently meant to be puzzles, to the solution of which even the artists themselves have no clue.

If you arrive early enough you will catch the glimpse of the curtain, one of the features of the resort. And you must arrive early, else you will find all the seats taken and perhaps a few of the women in evening dress perched on the counter of the bar at the back, in the absence of the Theatre Cabaret.

It has been well described as 'three Egyptian gentlemen chasing a giraffe across a map of the East, which is as good a description as it is possible to give.

About the little hall are arranged tiny deal tables, around which are gathered the mixed audience in groups of four or five. Evening dress predominates among both the men and women and among a considerable section there is a spirit of decorum which hardly fits in with the surroundings. But the true bohemian spirit is found among several of the groups and there is soon a delightful air of freedom about the hall. Everybody seems to know everybody else, and there is a constant changing of seats to exchange a few words with acquaintances.

In the rear of the hall Maurice Hewlett, an author, is seated with a small party of friends. His grey hair and moustache and little tuft of hair under his lower lip mark him out from the rest of the audience. Near the front Austin Harrison, editor of the English Review, is seated with a large party of friends. Close by is Lionel de Rothschild, richest of London's bachelors, while half way to the door is Her Highness the Rance of Sarawak, indefatigable supporter of everything new and smart. Over against the wall is Florence, Lady Clarke-Jervoise and close by is Mrs. Alec Tweedie, an author. Scattered about the room are Princess Irene Wisniewski, Mrs. Curzon Newton, Lady Fitzpatrick, Mr. and Mrs. Hugo Heim and Mr. and Mrs. Albert Bradshaw.

An Evening's Programme

A little after nine o'clock the drop curtain is raised and Miss Floyd Arison appears to announce the evening's entertainment. She is greeted with a truly bohemian shout of welcome. She usually starts the ball rolling with a couple of her own

The detection of George F. Howell, who is wanted in Montreal on account of irregularities in connection with big real estate deals which he attempted to put through, is said to have been brought about by a letter from his wife asking the authorities for news of him after she had not heard from her husband for several weeks. They had been making their home in Brookline. Mrs. Howell, with her fifteen months' old baby, is now with her mother, Mrs. Carl Dent, in Wallham, Mass. Howell formerly lived in Fredericton.

JOSEPH SELMAN AND COMPANY AT OPERA HOUSE TONIGHT

A popular priced attraction which is above the average is The Light That Failed, to be given at the Opera House tonight by the Joseph Selman Company. The theatre goers of this city will to doubt give the company crowded houses during their engagement here. CAPTURED BY THE RAINBOW, SHIP IS SOLD FOR \$13,000

Ottawa, March 24—The Pacific division of the Canadian navy has been the means of adding an amount slightly exceeding \$13,000 to the consolidated revenues. The Rainbow, last summer, caught the Seattle ship Edrie poaching in Canadian waters, within the three-mile limit. The Edrie was confiscated. Her owners went to the courts and endeavored to show that the fishing had been done outside the limit. The supreme court of British Columbia recently decided that the Edrie was poaching, and ordered the sale of the vessel by public auction. The marine department has received word that the sale had brought the government \$13,000.

Precious Health For Men

If a valuable secret of health was revealed to some men would they profit by it? Thousands fruitlessly pursue pleasure, because their recuperative powers and endurance are not in the same condition as in youth. There comes a time in every man's life when help is required if he would enjoy life's greatest functions keenly and feel the rich, red blood surging through his being and radiating his power and vitality through the flash and fire of his eye, the smile of confidence and strength in his face and the vigor and vitality in his manly walk and carriage.

The help required in the vast majority of cases may be said to consist of an artificial aid to nature in the form of medical treatment for the specific purposes of transforming, through the vital organs, such as the stomach, liver, kidneys, heart, etc., the food and drink taken so that the blood receives an increased proportion of those elements necessary to the fulfillment of man's duties in the intensity of spirit as manifested in those of perfect health. It is work, recreation or pleasure. Nothing more valuable and certain for such a purpose is the formula such prescribed by a famed physician, but which can be prepared by anyone at home, or by a well-stocked pharmacy.

A REASONABLE PLEA FOR THE STOMACH

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work?

Especially when it Costs Nothing to Try

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach? Stomach ailments show that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is a proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyppepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach, and small intestine, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyppepsia Tablets have been analyzed by original chemical tests at home and abroad and are found to contain nothing but natural digestive agents.

Consult a Laboratory. Telephone address, "DIPPEPSIA," London. Telephone No. 11029 Central, 30 Colburn St., Fenchurch St., E. C.

London, 6th Aug., 1905. I have analyzed most carefully a box of Stuart's Dyppepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Clarendon Road, London, E. C., and have to report that I can find any trace of vegetable or mineral poison. Knowing the ingredients of the tablets, I am of opinion that they are admirably adapted for the purpose for which they are intended.

(Signed) John R. Brooke, F. I. C., F. C. S. There is no secret in the preparation of Stuart's Dyppepsia Tablets. Their composition is commonly known among physicians as it is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water break, insomnia, loss of appetite, melancholia, constipation, dysentery and kindred diseases originating from improper digestion and assimilation of food, because they are thoroughly reliable and harmless to man or child.

Stuart's Dyppepsia Tablets are at once a safe and a powerful remedy, one grain of the active principle in these tablets being strong enough (by test) to digest 3,000 grains of steak, eggs and other foods. Stuart's Dyppepsia Tablets will digest your food for you when your stomach can't.

Ask your druggist for a fifty cent box, or send us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

TRANSLATING SHAKESPEARE. According to the story, three French boys were studying a volume of Shakespeare in their own tongue, their task being to render portions of it into English. When they came to Hamlet's famous soliloquy, "To be or not to be," their respective translations were as follows: (1) "To be or not to be," (2) "To be or not to be," (3) "To be or not to be."

The boys of Washington Academy, East Machias, Me., have started to earn money for uniforms and outfit for the baseball team by sawing the academy wood.

**COMMERCIAL INDICATIONS OF GROWING TIME IN CITY**

The growing importance of St. John is receiving recognition from many of the principal newspapers of the continent, which are devoting more space than ever to this city. The latest is the Toronto Saturday night, which, in the last issue, gives space to the developments planned for the port, and the different attractions of the city.

Messrs. Miller and Charles, representing large interests in Montreal and New York, were in St. John last week securing information regarding the real estate situation here. They indicate that they were looking for first-class investments in real estate and for sites for branches of American manufacturing concerns.

Joseph O'Brien, of Fairville, has given to outside people an opinion on fitness cases of land near the head of Fairville. A resident of Edmonton, Alberta, is one of the latest purchasers of lots in Fairville.

Frank A. McCloskey, general manager of the Lennox Automobile Company of Boston, who arrived in the city on Saturday, held a conference with the promoters of the Canadian Lennox Motor Car Company, who are to manufacture the cars here, and announced that they will be commenced in April, and it is expected that everything will be in readiness to turn out the cars by next January. The cars will be a high grade one and will sell at about \$2,500. For the first year the output will be about 200 cars, which will be increased later to 500. In addition to the Canadian market, the promoters are figuring on large export business.

**MOTHER WAS WISE**

**Built Up Boy's Strength Instead of Giving Cough Syrup**

A lingering cough is a sure sign of weakness in a child, and the sensible thing is to build up the system. Then the cough will disappear.

But the child has no appetite, then it needs Vinol, which has not a particle of opium, and is the best food for children. It is so pleasant they like to take it and it builds them up wonderfully.

Mrs. R. Lane of New York city, says: "My little boy had a very bad cough for two months. I did not like to give him cough syrup for many of them are not good for children. But I did give him your delicious cod liver oil. Vinol is so pleasant they like to take it and it builds them up wonderfully."

**VERBAL PROOF INADMISSIBLE**

Writing a Necessity in Real Estate Transactions, Says Montreal Judge

This verbal proof was not admissible to substantiate or bring into effect a written contract in connection with any realty transaction was the decision of Mr. Justice Beaudin, of the Superior Court, in Montreal, in a case brought by E. A. Desnoes, a real estate broker, against Donthe Desnoes, proprietor of farm lands near Dorval, alleging that the latter had failed to carry out an agreement relating to the sale of certain lands on the understanding that the defendant should agree to sell his holdings on a basis of \$600 an acre provided the plaintiff, or a purchaser secured by the plaintiff, should consent to purchase, within thirty days. The option was signed on June 14, and on July 14th plaintiff represented he had gone to the defendant with a witness and had offered to put the deal through, but the defendant, the plaintiff, the defendant refused to do, with the result that he was served with a judicial protest, and action was subsequently taken against him by the plaintiff for \$5,000, this representing expenses incurred by the plaintiff in attempting to sell the land, as well as the profit which he alleged he would have made had he effected the sale.

In his reply to the contentions of the plaintiff, defendant, pointed to the agreement of option, and declared that, further than this, the plaintiff, could not adduce any valid proof of his action in deciding to have the land sold. Even if he had, in reality, decided to take up the option, within the time specified, it was stipulated in the original agreement that a deposit of \$10,000 was to be made, the balance of the sale price being payable within a period of five years immediately following the putting through of the deal. The plaintiff had not made any tender of the \$10,000 and thus could not be considered as having availed himself of what ever rights were accorded him under the agreement referred to.

The court in dismissing the action, stated that there was an utter absence of written proof in writing, and that the plaintiff had actually decided to foreclose the option within the thirty days. He had stated that he had gone, in the company of a witness, and had notified the defendant of his intention to take advantage of the option, but there was no

**The Weak, Lame, Aching Back Comes From The Kidneys.**

These who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

On the first sign of backache Doan's Kidney Pills should be taken immediately so as to avoid years of suffering from kidney trouble.

They go right to the seat of the trouble, heal the delicate membranes of the kidneys and make their action regular and sure.

Mrs. Joseph Thrope, Upper Point de St. Jean, N.B., writes: "I cannot speak too well of Doan's Kidney Pills. For two years I was so tired I was a burden, and I got up more tired than when I went to bed, and my back was so lame I could hardly straighten up. I took different kinds of medicine, but none of them did me any good until a friend advised me to try Doan's Kidney Pills. I did so, and to-day I feel like a new man. It is I can recommend them to any person suffering with lame back and that terrible tired feeling."

Price 60 cents per box, or 3 boxes for \$1.50, at all dealers, or mailed direct on receipt of price by The J. C. McBurney Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's"

ANOTHER RUMPLIS IN THE TORY CAMP

Expectation was evidenced that their duty was to be of official recognition. In some cases, it is stated, that the investigation to the Liberal official was practically completed before the "investigation" was commenced.

"SALT RHEUM"

Had It On Hands For Two Years. ITCHED SO DID NOT KNOW WHAT TO DO.

Tried Three Doctors and Went to Hospital.

All skin diseases are more or less occasioned by a bad state of the blood, and no one can expect to be free from some form or other of skin trouble unless the blood is kept in good shape.

This is due to the unrivaled purifying action of Burdock Blood Bitters on the blood, coupled with the thorough manner in which it cleanses and expels the impurities from the body.

Mrs. Richard Corbin, White Head, Que., writes:—"I have been bothered with salt rheum, on my hands, for two years, and it itched so I did not know what to do. I tried three doctors, and even went to Montreal to the hospital, without getting any relief. I was advised to try Burdock Blood Bitters, so I got three bottles, and before I had the second used I found a big change, and now to-day I am cured."

Burdock Blood Bitters has been on the market for about 35 years and is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

CASCARETS INSURE INSIDE CLEANLINESS

The Millions of Cascaret Users Never Have Headache, Constipation, Bloating or Sick Stomach

It is more necessary that you keep your bowels, liver and stomach clean, pure and free than it is to keep the sewer and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets? merely forcing a passage way every few days with salts, cathartic pills or castor oil? This is important.

Politics in New Zealand (Toronto World) With the retirement of the New Zealand government, understood to be near at hand, as the result of the last general election, when out of a house of eighty the pledged ministerial supporters numbered only thirty-six, it comes to an end the twenty years of Liberal rule initiated by the late Richard Seddon.

Another interesting feature of the resignations, threatened resignations, in Quebec, is that the commission have indicated that, if their accounts are not honored in full, they will state their grounds to the public, that their withdrawal from the government service is based upon protest against the government handling of the naval and school questions and the alleged duplicity of Hon. Mr. Feller, the postmaster general, to his pre-election undertakings on both matters.

As a result the minister in question will probably look hours with the auditor general's department in an effort to get a settlement with his "axe men," and thereby seek to escape the political consequences of his vote face to save his portfolio.

The situation, however, is unusually tense, and is giving the government considerable worry. It is what these commissioners are apparently prepared to disclose, if they are not placated, which is causing the ministerial uneasiness.

It is expected that the total of the supplementary estimates will be in the neighborhood of \$20,000,000, bringing the total expenditure voted by parliament this session, including railway subsidies, aggregating \$1,000,000,000, well past the \$200,000,000 mark.

A short life and a merry one" seems to be the motto of the present Liberal administration. In view of the extent of the supplementary estimates and the large amount of business still before the commons and the senate, it is unlikely that prorogation will be reached until Wednesday or Thursday of next week.

DARDANELLES MINES ARE MISSING, SOME EXPLODED

Sensation Seekers Say Secret Agents, Facts Appear to Be Work of Proposers London, March 25.—The London Times has the following dispatch from its Constantinople correspondent: "According to reports from consular sources, five of the contact mines recently laid down in the Dardanelles are missing, several others—according to accounts as many as eight—have exploded! The usual rumors concerning the activity of secret agents are current, but there is reason to believe that the mischief was done by a particularly lively school of impostors."

Tillson's Tastes SO Good

SHARP little critics the children are and hard to please sometimes; but they are easily satisfied with Tillson's Rolled Oats.

If all the food that children eat as they grow up to men and women had the same simple, wholesome, upbuilding character as Tillson's Oats, there would be fewer cases of dyspepsia and "nerves."

While your children are still children, encourage them to eat the simple foods. Of these none has more health in it, or more tastiness than Tillson's Oats.

Have it for breakfast tomorrow morning.

GOOD GIN! How it can be Recognized.

Canadian Red Cross Gin is produced by the transformation of grain into sugar, which, after fermentation, is combined with Juniper Berries and when distilled becomes the famous "RED CROSS" GIN.

Red Cross Gin is submitted to the rigorous inspection of the excise officers, seven in number, who are present at all the various stages of its manufacture from the weighing of the grain, following the various operations of distillation, the rendering into alcohol, the aging in bonded warehouses, until "Red Cross" Gin is distributed in its officially sealed bottles.

There is no other food product in the world so carefully and constantly inspected. The public therefore possess the absolute guarantee of the age, purity and maturity of "Red Cross" Gin when imported Gins cannot offer the slightest guarantee, as they are submitted to no official inspection before exportation, and are not tested as to quality, purity and healthfulness at their importation here.

How can the Consumer hesitate between Canadian Gin and Imported Gin? We shall leave the public judge.

San Francisco, March 24.—Enough potash to supply the United States probably for the next thirty years has been discovered by government scientists in Searles lake, San Bernardino county, Cal. The estimate of field men of the geological survey and the bureau of soils in that the deposit may amount to 400,000 tons, but the authorities in Washington, from data in their possession consider that estimate conservative and believe that more than 100,000,000 tons of potash is available there.

**TELL OF THE BREAKING OF WINDOWS**

Hearing in Case of Smashing of Plate Glass in Bishop's Building—Prisoner is Sent Up

Charles McAluff, aged thirty years, and hailing from P. E. Island, was this morning brought before Sitting Magistrate Henderson in the police court and committed to stand trial on the charge of wilfully destroying four large panes of plate glass, valued at \$100, in the new building built by His Lordship Bishop Casey, at the corner of Brunel and Union streets. The damage was done yesterday afternoon between one and two o'clock.

With a carpenter's hammer as a weapon he broke the windows and then went to the police station and gave himself up. It was said today that McAluff will very likely be examined as to his mental condition. In court this morning he sat on the bench, evidently paying but little heed to the evidence and when asked if he had anything to say in answer to the charge he replied in the negative.

The first witness called was William Collins, who is employed with John Weatherhead, who conducts a livery stable almost opposite the new building. He said that he was standing in the doorway of the barn when he saw the prisoner come down Union street and stand at the corner of Brunel street for a few minutes. Suddenly he drew a hammer out of his pocket and broke four of the large window panes. He made an attempt to break the fifth one, but did not succeed. After breaking the windows, he crossed over to where the witness was standing and said to him, "What did you say to me?" The witness went into the barn, and McAluff proceeded down Union street and up Carmarthen towards the police station.

Alexander Long, employed as a driver in a Hook and ladder station, held of the prisoner calling at the station yesterday afternoon. He asked the witness if there was any carpenter who had been there, and the witness replied that there was a job to be started on Monday morning. The prisoner then said, "I am in trouble and I am going into the police station to give myself up." Long said he asked him what he had done, and he replied that he had broken windows in Bishop Casey's new building. He said that he could not get a day's work in town because that Contractor McDermid was employing "scab" carpenters at \$10 a week on the new building. He further said that he was penniless and had to put up his watch to pay his board. He handed the hammer to the witness, saying that it would be evidence against him, and asking him to keep it for him. The prisoner then went into the Central police station. The witness later handed the hammer to Police Sergeant Caples.

Kenneth Donahue practically corroborated what the first witness had said. Sergeant Caples said the prisoner had walked into the police station and said he wanted to give himself up. He had broken four lights of glass in the new building in Union street. He told the sergeant that he would not tell anything else, as it would be used against him at his trial. He complained against Mr. McDonald, contractor, hiring "scab" carpenters and said that he could get no work in the city, also that he had joined the Longshoremen's Association but could get but little work to do, and could not get enough to pay his board. The witness then locked him up.

Robert Magee, contractor, said that he had the contract for putting in the glass in the new building. The four panes broken were valued at \$40 each. The glass practically belonged to him, as the owners had not taken over the building. He had them fully insured, however, and the loss would all be with the insurance company.

The prisoner was told to stand up, and the charge was read over to him. He answered "I have nothing at all to say."

He was then committed for trial. The county court will open here tomorrow and he will very likely appear there.

**FINED \$20 FOR ATTACK ON TWO HEBREW BROTHERS**

Wallace Stevens Has Alternative of 30 days in Jail—Eleven Prisoners in Police Court

In the police court this morning, no less than eleven prisoners were arraigned before Sitting Magistrate Henderson. Nine of these were charged with drunkenness, five being arrested on Saturday, and four on Sunday. The five Saturday prisoners were fined \$10 or ten days in jail each, and those arrested on Sunday \$5 or thirty days in jail. Three of those arrested on Sunday were taken into custody on the Long Wharf.

Wallace Stevens, a young man, charged with assaulting and beating Benjamin and Abraham Glick on Saturday, March 16, pleaded not guilty to the charge. Benjamin Glick said that he and his brother were proceeding down Water street to go to work on the Donaldson line steamer when they were accosted by Stevens and several others. He says Stevens struck both several times, and had struck him once with a dinner knife. He went immediately to the police station and swore out a warrant for Stevens' arrest. He had received several cuts on the face. Abraham Glick was also called as a witness but could talk but little English.

The prisoner said that it was a chum of his, Ernest Whalen, that had assaulted the Jews and that he had since left for Boston. He had only tried to stop the fight. He admitted striking Benjamin Glick once. Sgt. Caples told of Glick going to the police station to swear out the warrant. There was blood on his face. Stevens was fined \$20 or thirty days in jail for assaulting Benjamin Glick, and the charge of assaulting Abraham Glick was allowed to stand.

**POLITICS IN NORTHUMBERLAND** (Chatham Gazette)

Northumberland even more than Kent is expressing dissatisfaction with the achievements or lack of achievements of the local government as exhibited in their four years of power at Fredericton and the opposition is growing rapidly. Added to this there is a decided split in the government ranks which time is doing nothing to heal and the outcome is looked forward to with confidence by the ever-growing ranks of the opposition.
