INSURANCE MEN DEMAND REFORM.
National Association of Life Underwriters Resolve
That Perpetrators of Insurance Crimes Must Be Punished and Wrong Practices of Companies Exposed.

HARTFORD, Conn., Sept. 19.—Prior to the opening of the second day's session of the National Association of Life Underwriters today there was much informal discussion among the delegates over the probable action of the executive committee in regard to the resolution calling for condemnation of irregular insurance practices and the punishment of the guilty. This resolution, which was introduced by J. Raleigh of St. Louis, aroused a flutter of excitement among the delegates and it was referred to the executive committee only after various objections had been made and arguments offered. It read as follows:
"Whereas the public press, official committees, life insurance departments and executive inquiries have disclosed methods and practices in the management of some life insurance companies, which if not criminal in their nature, appear to be grossly irregular and in violation of the principles of the trust involved and that, whereas, these disclosures threatened to create, in the minds of uninformed, suspicious persons, a feeling of distrust and to bring into question the integrity of management of all life insurance companies and to bring the business into general disrepute, be it,
Resolved by the National Association of Life Underwriters in convention, that we, the members of this association who have been chiefly instrumental in inspiring confidence in the minds of policy-holders and in building up the magnificent structure of life insurance, owe it to ourselves and to those who have reposed confidence in us to oppose those influences which would tear it down; to demand that, if crimes have been committed, the criminal shall be punished and that those who have violated their trust shall be deprived of their trusteeship. We urge and insist that we are not willing to support in the field, misconduct in the home offices. We oppose concealment or evasion and demand such publicity as will lead to a correction of abuses wherever they may be found."
The convention was late in assembling today.

BIG ATHLETIC MEET FOR FALL CARNIVAL

A meeting of the executive committee in charge of the fall carnival will be held this afternoon to further discuss the details of the scheme. It is now considered quite probable that the Fall Carnival of St. John will be held in the city, that a portion of his squad will come here in an assured fact. The railways and steamboat lines have promised all the assistance they can give and the merchants seem inclined to help in every way. There are, however, several matters that have as yet to be discussed and that have an important bearing on the matter.
There is a movement on foot to hold a big athletic tournament during Merchant's Week. The intention is to bring here several New York and Boston professional athletes, and also secure the best amateurs in the province.

INJUNCTION AGAINST CUSHING LIQUIDATOR.
May Examine Books, But Can't Touch the Property—Company Given Opportunity to Appeal to Supreme Court

Before Judge Landry this morning the case of the Cushing Sulphite Co. came up upon the summons served on the liquidator to show why a stay of proceedings should not be granted. M. G. Teed read two affidavits on behalf of the company, and Mr. Barron, who appeared for the liquidator, read an affidavit of Mr. Vroom's. Dr. Pugsley said that he would like to know under what authority Mr. Teed is now acting or on what grounds his honor could grant such a stay of proceedings. Every moment is precious. As Judge McLeod has called a meeting of the shareholders on Saturday, Dr. Pugsley objected to H. A. Powell being heard on behalf of Capt. Partington, as his client is not a party to the suit. Dr. Pugsley said that in his opinion the object of Capt. Partington and the others was to freeze out Mr. Cushing and the smaller shareholders. He had a right to appeal to a higher court, and it would be absurd to give them the right to appeal without staying proceedings, because otherwise the business could be all wound up before the appeal could be heard. He then asked for permission to appeal, but his honor said that he would rather he would get his authority from Judge McLeod. Dr. Pugsley said that the Winding Up Act, section 18, only gave authority to creditors or contractors of a company to ask for a stay of proceedings. "My learned friend says there is an inherent power to ask for a stay of proceedings and quotes a case in equity in equity this power is expressly given by the statute." Further, he said, there was no judgment to appeal from, as the judges had divided evenly at Fredericton. His honor announced that he had withdrawn his judgment. Dr. Pugsley said that it was an unheard of practice for a judge to withdraw his judgment after the court had adjourned. Dr. Pugsley's next point was that the company had no right of appeal to the Supreme Court of Canada. "If stay of proceedings is granted the hands of the liquidators will be bound and the winding up court will be paralysed." A discussion arose between the lawyers as to whether or not Judge McLeod had refused this application when he gave power to Mr. Teed to ask another judge to take up the matter. Mr. Curry then appeared for the liquidator and quoted a private conversation which he had had with Judge McLeod, in which he had said that he was surprised at Judge Landry's action. Mr. Powell then appeared for the other side and stated the reason why the stay of proceedings should be allowed. His honor in giving judgment, said that he would grant to the liquidator all power except to actually take possession of the property. Mr. Teed had such powers as to examine the books and assets of the company. He, however, stayed proceedings as far as taking possession until the 27th, thus giving an opportunity to ask for right to appeal from the Supreme Court of Canada.

PROMINENT WOODSTOCK MAN'S SUDDEN DEATH.

He was survived by three sisters, one of whom kept house for him.

ELEPHANTS DELIVER MAIL IN NEW YORK.

Freed Two Tons of It From a Trap in Time to Catch the Train—Street Car Collision.

NEW YORK, Sept. 19.—But for the strength and courtesy of four huge elephants a two ton batch of mail, stuck in the mud at Sixth Avenue and Forty-second Street, would have missed its train at the Grand Central depot last night. The trouble began when a large mail wagon, loaded to the top, swung down Sixth Avenue and ventured a sharp turn at the corner, where street repairs had left a strip of soft earth turned to sticky mud by recent rains. A new driver employed in place of a striker was on the wagon and was accompanied by a policeman. He urged his horses into the trap and the wheels sank to their hubs. A crowd gathered and broke three heavy ropes in their efforts to help. Then the police made a happy thought. He sent a messenger to an amusement house nearby and asked for the services of the performing elephant. Four were hurried to the scene in charge of their keepers. They were harnessed to the sides of the wagon and jerked it out of the mud with utmost ease while the crowd cheered.

BULLET IN HEART SEVEN YEARS

CADILLAC, Mich., Sept. 19.—Charles B. Nelson, thirty-one years old, died here today at the home of his parents after carrying a bullet embedded in his heart since 1858. He was shot while sitting in a Chicago park by some one whose identity has never been discovered. Quick consumption was the immediate cause of death. Nelson had frequently submitted to X-ray examinations, which showed the location of the bullet, and he had been on exhibition in museums.

His wife died in Milwaukee Monday. Reports were current that the young woman had taken her own life upon hearing that her husband was dying.

ROBBED BANKS IN MANY LANDS.
Clever Burglar Now in a German Prison.

Will Be Brought to American Jail Whence He Escaped Long Ago—Stole \$7,000 From Canadian Bank.

NEW YORK, Sept. 19.—A New York state detective will sail for Germany within a few days to bring back to this country Henry F. Hardy, who for the last thirteen years has been the inmate of German prisons. Hardy is to be brought back to serve an unexpired term of twelve years in the Clinton prison, from which he escaped in 1890. He is declared to be one of the most clever bank thieves ever known in this country. After his escape he is alleged to have robbed two Canadian banks of \$7,000 and was next heard of in Germany living the life of an "American Millionaire" as he was called, at a fashionable hotel in Frankfurt on Main.

A Baden-Baden banker recognized him as a man who had stolen from his bank cash to the amount of \$24,000. He was at once imprisoned by the German authorities and his time is now expiring.

Since Hardy has learned that he would be brought back he has written letters to the state superintendent of prisons asking that he be allowed to remain in Germany. The authorities have refused to consider his petition.

SAVED FROM SEA IN BOAT MADE OF SAILS.

NEW YORK, Sept. 19.—How Captain John Hall and the crew of three men of the seventy ton schooner Martha saved themselves after that vessel had capsized in the Bahamas Bank, building a canvas boat and sailing and paddling for two days until they landed on Man of War Cay, was first learned yesterday in this city by a ship broker, who received a letter from Nassau, N. Y. The letter told how the men had narrowly escaped from drowning in the breakers of the coral reefs.

Loaded with lumber, the Martha left Tampa for the south side of Cuba, and the weather held good until off the Bahamas Bank. Then, on August 14, a tropical hurricane struck the schooner, and before sail could be shortened she was on her beam ends. As she went over the yawl boat at the davits astern was smashed by a big sea and washed away. Captain Hall and his crew clung to the upper side of the vessel for nearly twelve hours until the seas moderated.

Then out of the forest the men built a canvas boat, stiffened the sailcloth with strips of lumber. It was more than two days before the little craft was in a shape to make a venture ashore fairly safe. For two days more they battled against adverse tides and breakers, until on August 19, when they made a landing on Man of War Cay.

There they received food and shelter, and when Captain Hall had recovered from the exposure he set off for Man-of-War Cay, where he procured the help of two small fishing vessels. With these, at the time of the letter, he had started out to find and save his drifting vessel.

ONE KILLED, 26 INJURED IN DOUBLE COLLISION.

RENO, Nev., Sept. 19.—One man was killed and twenty-five injured in a head on collision of two freight trains on the Southern Pacific Railroad followed by the rear end collision of two passenger trains at a point nine miles west of Beowawe last night.

The wreck is said to have been caused by the engineer of one of the freight trains disregarding his running orders. An effort was made to stop two incoming passenger trains. The first one was brought to a halt but a second following closely behind plunged at full speed into the first section.

Physicians and nurses and also three wrecking trains were hurried to the scene.

LEAGUE BALL PLAYERS ARRESTED

PROVIDENCE, R. I., Sept. 19.—Manager George Stallings, Catcher Frank McManus and First Baseman Edward Murphy, of the Buffalo team of the Eastern League, were arrested here this morning after a stiff fight with the police. Stallings and a crowd of players had been out seeing the town and were returning to their hotel about 1:30 this morning, when the disorder arose. The police surgeon was called to attend Murphy, who was cut about the head.

DESTITUTE, HE KILLED HIMSELF.

BURNLEY, Eng., Sept. 19.—A man giving his name as Wm. Hatfield and who said he lately lived with his sister, Mrs. Mary Dubois, in Fall River, Mass., shot himself twice last night in a crowded street and is now in the hospital here in a critical condition. In a moment of consciousness he said he left New York September 9 and arrived on Monday at Burnley where his parents formerly lived. He had shot himself because he was destitute and in ill health.

Wm. O'Keefe, returned today from a short visit to Boston.

PUBLIC OWNERSHIP IN NEW
YORK.

An evidence of the growing popu-
larity of municipal ownership is found in
recent peculiar developments of the
mayorality campaign in New York
city.

The fusion forces, which are fighting
for mayor is the present incumbent,
George B. McLean, came out flat
footed a short time ago in favor of
municipal ownership—made it the
principal plank in their platform. Remem-
bering Mayor Dunne's victory in
Chicago, Tammany, not daring to face
such an issue, has adopted the same
plank and during the coming contest
will shout as loudly as any in favor of
the policy which will place in the
hands of the people those utilities
which in a city are necessities of life
to the great majority.

This action will not, however, elimi-
nate the question from the campaign
as the anti-Tammany forces are ready
to pledge themselves to municipal op-
eration as well, while the present city
government holds to the policy of leas-
ing the municipally owned utilities to
private companies for operation. Ac-
cording to the New York Herald there
are certain valuable gas franchises
which will expire next year and con-
cerning the city's action with regard
to these will be the chief struggle. The
fusionists will demand that the city
exercise its right to condemn the
plants of these two companies and take
possession of their property and op-
erate them not only for city lighting but
for furnishing gas to private con-
sumers. Such a step, if the city should
be able to supply gas for sixty or sev-
enty cents a thousand cubic feet—
which is said to be possible—would
drive the private companies, with their
monstrous load of securities, out of
the field and leave the city to light it-
self. The fusionists also demand a
radical change in the rapid transit
law, whereby the city may make sepa-
rate contracts for the construction
and operation of new subways and
may undertake their operation on its
own account if it cannot obtain satis-
factory terms from the private com-
panies. The weak is taking shape.
Tammany's change of front is in it-
self a confession that the people of
New York, the stronghold of the cor-
porations, are in favor of public own-
ership. If the voters also declare in
favor of the more radical position of
the fusionists it will be the most no-
table victory of the people's policy in
the history of America.

THE CARNIVAL.

Prospects are good for a successful
autumn carnival. Already considerable
interest is displayed and under the
energetic management of an excellent
executive committee an attractive pro-
gramme for the week is taking shape.
An effort is also being made to procure
the presence here of some of Prince
Henry's squadron which would prove
a splendid drawing card.

But something besides attractions is
needed to make the carnival a success.
That is publicity, and that costs
money. The interest of the country
people throughout the province must
be aroused and to do this properly the
country newspapers, in addition to the
city press, must not be neglected. As
soon as the programme for carnival
week is formulated a copy of it should
be placed before every resident of the
province and this cannot be done with-
out the assistance of the provincial
papers, who having no personal inter-
est in the event cannot be expected to
give their help gratuitously. Conse-
quently the committee needs some-
thing more substantial than good
wishes.

SIGNIFICANT FIGURES.

Canada's foreign trade for the finan-
cial year of 1904-05 shows a consid-
erable reduction from last year's figures,
the decrease being altogether in ex-
ports. We bought nearly eight mil-
lion dollars worth more goods abroad
than we did last year, sent eight mil-
lions more of good money out of the
country and sold these foreigners our
home products to the value of over ten
million dollars less than last year. Our
cash disbursements to foreign traders
were \$10,121,280, while our receipts from
foreign purchases of our goods were
only \$20,316,372. The country is not
getting rich very fast at that rate.

Another unpleasant feature of the
trade returns is the evidence that the
decrease is wholly in our trade within
the empire, while the chief increase
is found in our trade with the United
States. Our imports from Britain last
fiscal year were \$60,538,811, a de-
crease of \$1,422,098. Our exports to the
mother land in the same period were
\$10,936,771, a decrease of \$15,023,968.
Canada's purchases from all the Brit-
ish possessions together were \$73,622,290,
a decrease of \$13,121, whilst our exports
to the British empire totalled \$11,876,-
848, a decline of fifteen millions. In the
United States we took imports of
\$169,040,890, an increase of over nine
millions, whilst our exports to that
country were \$75,563,015, a betterment
of close on to five millions.

While the policy of the Liberal govern-
ment may not be altogether to
blame for increases or decreases in the
country's total trade it is certain that
the trend of our foreign trade is taking
is largely due to the Liberal policy and
correctly reflects the desires of the
dominant wing of the Liberal party.

BELYEA'S GOLDEN WEDDING.

More than one hundred invitations
have been issued for the celebration
of the golden wedding of Mr. and Mrs.
James Belyea of King street, Car-
leton. This interesting celebration
takes place to-morrow at the home of
the bride's son, C. E. Belyea, 115 Duke st.,
Carleton. The worthy couple are very
popular and indications point to a
large attendance at the pleasant
function.

One of the invited guests is Mrs.
George Henderson, of Rothesay, who
half a century ago, when Miss Holton
acted as Mrs. Belyea's bridesmaid.
Mr. and Mrs. Belyea's descendants to
the fourth generation will be present.

Mr. Belyea, who is in his 78th year,
is not enjoying very good health but
has been an invalid for years. He was
twice married. An interesting fact
about the celebration is that three
brothers of Mr. Belyea have already
held a similar ceremony. The present
Mrs. Belyea is 70 years old. Before her
marriage she was Miss Eliza Ann
Henderson, she was Miss Eliza Ann
Henderson of White Head, Kings Co., N. B.

MOSES RUPERT FINED \$20

FOR STABBING BOY.

HAMPTON, N. B., Sept. 19.—At 11.20
the grand jury found a true bill against
Moses Rupert for wounding and as-
saulting Wm. Lowe on July 27th, and
suggested that the present system of
heating the court house be abolished
and hot water or steam heating be
substituted.

The auditor general moved that
Moses Rupert be arraigned and the
charge being read over to him he
pleaded not guilty. He was sent to
address the jury by consent of
the lawyers, his honor treated the case
as one that might come before the
police magistrate of St. John and fined
Rupert \$20.

A POINTER WORTH HAVING.

The merits of Ozone are well known,
but in buying it one must be sure to
get the purest form. Also Ozone
should always be taken along with
"Celery King," the famous tonic laxa-
tive. The purest form in which Ozone
is put up is "Solution of Ozone," (the
coupon kind) and each bottle of this
brand contains a coupon entitling you
to a package of "Celery King" free.
No other firm in the world can give
"Celery King" with Ozone. We give it
because our Ozone thus gives the best
results. In addition, you get just
about twice as much "Solution of Ozone"
for your money as for other kinds,
and you get it in the purest and most
concentrated form. You also get
"Celery King" free, instant relief, and
to buy it, which you would need to do
in order to have full benefit from the
"Solution of Ozone."

Your druggist should have "Solution
of Ozone (the coupon kind)." If not,
write to the Public Drug Co., Bridge-
port, Ont.

Meers, Slipp & Fiewelling are de-
termined the users of their sausages
shall have them when they ask for
them. To guard their patrons from
being served with other than their
sausages, they now wrap every pound
in heavy parchment paper, with their
name printed in red ink, thus insuring
buyers getting Slipp & Fiewelling's
sausages when they ask for them.

There is a great deal in favor of this
method of putting up sausages, as they
are not exposed to the air and dust
when exposed for sale, as is the case
when they are wrapped in paper with-
out wrappers. We have been shown
some of Meers, Slipp & Fiewelling's
sausages in wrappers and must say it
is a long stride in the right direction.

ST. JOHN RIVER CASE IN EQUITY COURT

The case of the Attorney General vs. the St. John Lumber Co. was continued yesterday afternoon. Dr. Pugsley and A. E. Barnhill, K. C., appeared for the province, and H. A. Powell, K. C., for the defendant company.
John D. Colwell, the first witness, said he had wide experience in the lumbering business. He described the different booms which have been erected. Before these sheer booms were built logs would run down both sides of the island—the river being navigable on both sides. If the logs were assorted right and day the booms could be kept clear, but this had never been done, and St. John Log Driving Co., which did all the driving for the N. B. firm, was put to great expense in consequence. During the summer of 1904, as in other years, there was a delay of some ten or twelve days caused by the company's logs. This lumber, amounting to ten or twelve million feet, he said, belonged to A. Cushing & Co., Miller, Stetson & Co., J. E. Moore and to Mr. Baker. The witness then told of the defendant company's cutting the 8,900 feet of lumber belonging to other parties, as admitted in the defendant's answer.

AN ANXIOUS ENQUIRY.
To the Editor of the Star:
Dear Sir,—A great many people are quite confused as to who is running our city. Whether it is the common council, the Street Railway Co., the Telephone Co., the Insurance companies or the Board of Trade. From recent rumors the Board of Trade are about to take a hand in improving the public schools. There is no doubt the taxpayers will be pleased to have such an intelligent body of men look into this matter. But the question might arise: Does this come within the sphere for which boards of trade are organized? Perhaps you could enlighten the public on it.
Truly,
ENQUIRER.

UPRIGHT PIANOS \$4.00 A MONTH
A good way of buying a Piano, if you do not feel like fully deciding now, is to rent one for six months and then buy it. You can come here and choose a new Piano, assuming no responsibility beyond giving the trifling sum agreed upon—\$4, \$5 or \$6. You can keep it long as you wish, and should you decide to purchase after a few months, we will allow from the price all the rent paid.

IMPURE MILK

Is the kind most frequently gotten from grocery stores—milk that is old, tainted and poor.
We now have an up-to-date system of treating and delivering milk. We have fresh morning's milk from Jersey cows delivered to us early every morning, and it is at once put into sterilized bottles and into our new lead milk case, where it quickly cools. We can thus deliver ice cold milk which is only a few hours old—and you can always be sure it is sweet, pure and wholesome. A small item, perhaps, but an important one to our customers.

HIGH-BACKED HAT THE FALL FEATURE

A Decided Change at Today's Millinery Opening's.

Ladies Will Look Different With This New Headwear—A Gorgeous Exposition of Fall and Winter Styles.

Now it's the high-backed hat! Dollars to doughnuts the men will tell their wives they have their new hats on backwards.

Fashion plates of ten or fifteen years back show almost the same kind of millinery models that are today being displayed at the various wholesale openings. It's a return to the medium-sized shape with the very exalted back, and front directly over the eyes of the wearer. To be really stylish no woman can afford to wear any other model, except it may be the Polo Turban, so familiar.

When a Star man started out to gather a few facts about the styles for chilly months to come, he had no idea such a sharp turn had taken place in affairs millinery. The change was breath-taking in the extreme, and even some milliners were surprised. Several things conspired to work this wonder, but the chief influence is shape: then come solid, plain, deep-toned colors, the introduction of heavy drapes at the back of hats, and the spasmodic return to wings of all kinds and feathers.

Only last spring the situation was quite different. Shaded and many-toned colors were then the rage, and shapes were showing only a suspicion of drooping over the face. But now a radical step has been taken. Some women are content with the new state of affairs, while others find a little fault, but it is agreed by the trade that everybody cannot be exactly suited.

While the technical points of the exposition of fine millinery written it would make a long, possibly a wearisome story, therefore it can be briefly stated the displays at Manchester, Robertson, Allison's, Ltd., Brock & Patterson, Ltd., the London House Wholesale, were quite above the average, which indicates St. John's supremacy as a millinery style center.

House showed a wealth of models made in gay fairs, and street hats from New York, Chicago and other big cities were lying about in bewildering profusion.

Pelts, velvets and feathers are leading materials, also chenille. Ribbons, wings, birds, feathers, metal ornaments seem to be most popular as trimmings but there are a thousand and one little notions in the vast assortment of goods that add materially to the general effect of a smart piece of womanish headwear.

The children's showing was sweet, as the ladies say. Dainty little white bonnets in the Dutch, plain and fancy models; hats that flop and cosy wee winter pieces. These were in white silk chiefly with tuckings, shirtings, smockings, and dear only knows what all.

The openings continue tomorrow.

WILL BE A GOOD BOUT.

The ten round bout between Beth McLeod and Ryan that will take place at the Queen's Rink on Oct. 2nd promises to be one of the best goes of the year. McLeod's defeat at the hands of such a veteran as Mike "Twin" Sullivan has not lowered him in the least in the opinion of his friends who realize that he was up against one of the ablest men in the ring—this was proved when Mike got the best of Ryan on Saturday last.

Ryan has done well in England and South Africa and in the ring in St. John, where he quite successfully got the best of Billy Critch after a hard fight.
