accompanied by their families, had decided not to wait for the specials but preferred getting in early so that the feminine members of their families might get through shopping before the serious business of the day began. These early arrivals could be seen finding their way through the streets almost before the town had taken on its morning activity.

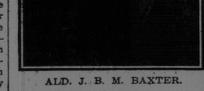

GRAND MASTER MACRAE.

A typical St. John fog, while not in any degree dampening the enthusiasm of the visitors, somewhat mars the brilliancy of the spectacle, greets the Orangemen as they gather here for the day. Nevertheless the event has been long anticipated and elaborate preparations have been made.

It was estimated on Saturday evening when a meeting of the committee was held, that some nineteen hundred or two thousand members from out of town members from out of town would be in the parade. These figures are however looked upon today as somewhat in excess of the real thing, and it is believed that the total number of visitors from provincial points is not over fourteen hundred. These, however, with six hundred members from St. John, will make up a very large parade.

The coronation was taken up by the strangers chiefly in shopping, and retail merchants report that business has

been lively, for Monday, during the whole earlier part of the day. Although the arrangements made for meals at the exhibition building, where the Tabernacle church supplied all the necessary food.

On inquiry we are given to understand that the reason is that the exhibition in Halifax is to be erected as a fitting monument to the founding of the Church of England, and that the opening of that building is most worthy of that commemoration. Will it not seem incongruous to listen to papers, addresses, speeches, read or delivered, the burden of which is that the natural inference would be that this place, Annapolis, is like unto some Babylonian city?

HUNDREDS OF MINERS ARE BURIED BY AN EXPLOSION

Another Awful Fatality in Spain—Two Killed, Eleven Hurt in a Trolley Accident—Tornadoes Cause Damage

ST. LOUIS, Mo., July 12.—Special despatches from Paris, Ill., and Xena, Ill., say that tornadoes struck those towns yesterday. At Xena, four persons were injured and several buildings were destroyed. No one was hurt at Paris, but the property damage was considerable. Grain was levelled by both storms.

MADRID, July 12.—A special despatch from Lisbon reports a serious explosion of fire damp in a coal mine at Belmonte, Spain. Several hundred miners are said to be entombed. Efforts at rescue are being made and 43 living and 17 dead already have been brought out.

LISBON, July 12.—There was an encounter between Royalists and Republicans in the town of Lousa. The Royalist objected to the formation of a Republican club. A number of shots were exchanged and several persons were dangerously hurt.

COAL COMPANY SEEMS TO BE GAINING GROUND Mines in Cape Breton are Rapidly Resuming Operations—No More Disorders—The Control of the Millia.

GLACE BAY, July 12.—The situation at the collieries of the Dominion Coal Company this morning in connection with the strike now in progress would indicate that the company are gaining ground and more men are returning to work every day. This morning all collieries except Nos. 9, 7, 8 and 14, which are but small producers, are working and more men are at work today than on Saturday. The work of hoisting coal was started at No. 2 colliery, which has been idle since the strike was called. There are only very small numbers of men employed at work there though, and the output will not be more than a few hundred tons.

An Independent view of the situation would promptly give the coal company the better of the argument so far, and though the reports circulated from the Coal Co. sources give the idea that they have a much larger number of men at work than they really have, still it is a fact that the collieries are running today and hoisting coal.

On Saturday evening one of the strikers at Dominion No. 2 who refused to heed the warning given him by one of the military sentries at No. 3, got a slight wound with a bayonet, while endeavoring to get inside the fence at ten o'clock. The man was a U. M. W. member and was after his son, who had joined the P. W. A., and wanted to get him back from the company, the boy having taken up his residence inside the fence.

The troops which are on duty in the town and collieries are now under the supervision of magistrates and justices of the peace. This is another phase of the military question which has arisen and is absorbing attention, and the mayor is beset with eager questions and interviews. This arises out of the militia orders. It will be remembered that the military in cases of this kind is "in aid" of the civil power, and does not supersede it. In case of a riot the commander of the military force is accompanied by the civil power, who alone can say "shoot" but he does not order the men, he is only to tell the commander that it is time to fire, and the commander does the rest.

Referring to the utterance attributed to American officials of the U. M. W. that they were willing to stand aside if an arrangement of difficulties could be made between the coal company and their organization, Mr. Bousfield makes the following statement: "We won't stand in the way of any honorable effort made by the coal company with the purpose in view of an amicable adjustment of the disputed points, provided that such negotiations are entered into with the local representatives of the district. We are quite willing even to withdraw ourselves from Cape Breton, during such negotiations."

President Dan McDougall, of the U. M. W., left this morning for Halifax to be present at the conference of the members of the conciliation board re Sydney mines employees' request for increased wages.

At the residence of Rev. David Hutchinson, George B. Cameron, of Hamstead, Queens Co., was today united in marriage to Flora B. Gerow, of Wickenham, Queens Co. The ceremony was witnessed by a few intimate friends. The happy couple leave this evening for Hamstead, where they will reside.

THOSE WHO ENTER EARLY GET A REAL GOOD START

Don't Be Slow in Nominating in The Star's Contest—Much Interest is Already Being Displayed—Magnificent Prizes to be Given

WHY WE DO IT. It is easy to explain why we make this magnificent offer to the public. We wish to send the Star and Sun into every home for many miles around. To do this we must introduce the papers to every individual we can reach. To give away \$5000 is a sure way of accomplishing this result. We know the value of The Star and feel no fear that it will ever lose a friend once made. Our object is to make it known to those who do not already subscribe. When they have taken The Star for a while they will know that they cannot do without it. Once a friend, always a friend, is true of our readers.

NOT TOO EARLY. If you should like to win any one of the prizes offered in the great \$5000 Contest you should begin making your preparations right away. Call on the Contest Department, Sun Office, or write or phone Main No. 25, and get all the information you wish as to the conditions of the contest. Then send in your nomination and feel that you have already started in the race with 1,000 votes to your credit. (Continued on Page Nine.)

GREATEST EVER CONDUCTED. This contest is so much the largest ever conducted in this part of the country, the value of the prizes is so remarkable and they are all so useful, that it is natural people should be astonished and should wonder how it is possible to give away such magnificent gifts as a \$1000 Touring Automobile, \$750 Player Piano, \$400 Piano and \$250 Motor Boat, not to mention the district prizes which include expensive and delightful European and vacation trips, diamond rings, watches, desk sets, Morris chairs, bicycles and scholarships.

ANNAPOLIS DOES NOT LIKE THE PLANS For Celebration of Church Anniversary—Thinks Town is Being Slighted in Favor of Halifax.

ANNAPOLIS, N. S., July 12.—The programme for the celebration of the anniversary of the founding of the Church of England in Canada, which is to be held next August, has been received here and is causing a certain amount of resentment, inasmuch as the larger part of the programme is to be carried out in Halifax. Annapolis being a mere addenda, why this is is the question our citizens are asking. Of course there are reasons, but they ought to be many and weighty. This town was the birth of the Church in this Dominion, here it was created, nurtured and advanced from strength to strength for over half a century before ever the world knew that there was such a place as Halifax, Nova Scotia.

On inquiry we are given to understand that the reason is that the exhibition in Halifax is to be erected as a fitting monument to the founding of the Church of England, and that the opening of that building is most worthy of that commemoration. Granted, but "is not the life more than meat?" AMERICAN GENEROSITY ASTONISHES LONDONERS

Mrs. F. W. Vanderbilt Gives Mrs. George Keppel a Valuable Diamond Ornament.

NEW YORK, July 12.—A London despatch to the Times says that society circles in London are all agog for the story of an incident which occurred at a dinner recently given for King Edward, at which Mrs. Frederick W. Vanderbilt and Mrs. George Keppel were among the guests.

Mrs. Vanderbilt was wearing on her corsage a big diamond ornament which attracted much attention and excited the special admiration of Mrs. Keppel.

"I am so glad you like it," murmured Mrs. Vanderbilt, "won't you please accept it as a token of my appreciation of your good taste." Putting the action to the word she unfastened the ornament and handed it to Mrs. Keppel.

The King was nearby and seemed somewhat astonished at such generosity. For the ornament was a huge affair with big diamonds and worth a considerable sum. "I could not think of taking it," said Mrs. Keppel. But Mrs. Vanderbilt insisted and eventually Mrs. Keppel accepted the gift. That ends the story, but there is a sequel. The next night at another party Mrs. Keppel was wearing the ornament.

"What a beautiful thing that is," said a friend, "where did you get it?" "Oh," replied Mrs. Keppel, "it was given to me by an impulsive American woman. I was dining at an American house and one of the American guests was wearing this. I told her nice it was and she forced me to take it. I suppose you had heard stories of Spanish hospitality, where the host gives you anything you happen to admire, and though it was not her house, but a house of one of her country-women she must have thought that 'American hospitality' was the name of the game."

Cecil Merritt, formerly of St. John, has entered the races of the championship meet at Winnipeg under the colors of the Calgary Athletic Club. Mr. Merritt is a fast sprinter and has won many medals while in the city, and while St. John has only one representative, Sterling, there will be two St. John men competing.

At Centenary church last evening Professor Watson, of Sackville, delivered a forcible address from the text, "I am come, that they might have life and have life abundantly." In his discourse he gave the history of Buddhism. He told his hearers of the value of life and how to use that greatest of all gifts for the good of others.

In the divorce proceedings the judge contending that the wife deceived her husband, because he had bargained to marry a lady of naturally ample proportions. After a fiery attack on the current barbaric styles by the judge's counsel the divorce was granted.

SHOT HIS BROTHER-IN-LAW IN PRESENCE OF FAMILY

Consumptive, Brooding Over Alleged Cruel Treatment of His Sister, Took Summary Vengeance.

PROVIDENCE, R. I., July 11.—Brooding over the alleged cruel treatment of his sister by her husband, Alfred Mancini, Philip Dinezo shot and fatally injured Mancini, one of the wealthiest Italians in the city tonight. The shooting occurred at Dinezo's home, 8 Baker street, and in the presence of his mother, brother and three sisters, one of whom was his victim's wife, who, seeing her brother aim his revolver at her husband, struck his arm upward, causing the shot to lodge in the ceiling. Mancini then started to run, but his brother-in-law fired again, this time with deadly effect, the bullet piercing his heart and causing almost instant death. Dinezo is a consumptive and had just returned from an 8-months stay at the state sanitarium. He was arrested.

Mancini was a tailor and leaves a wife and eight small children.

EVELYN THAW WILL APPEAR AS A WITNESS

Will Stick by Harry as Long as He Needs Her—Enquiry Into His Present Mental Condition.

NEW YORK, July 12.—Evelyn Nesbit Thaw is expected to be a witness for her husband, Harry K. Thaw, at the inquiry into his present mental condition, resumed before Justice Mills in the Supreme Court at White Plains to-day.

Although she had intended starting on a vacation to Maine today, she informed representatives of Thaw's attorneys that she would gladly postpone her trip to testify for her husband.

"I will stick by him as a wife should stick by her husband," she said today, "and as I always have stuck by him. It is my duty and I shall not shirk it now."

Wednesday next. The gathering will be an immense one as the leading officials from numerous railway systems in America will be present. Elaborate preparations have been made for the reception of the delegates. There will be excursions on the harbor, automobile drives and band concerts. E. Tiffin and D. A. Story, of Moncton, are also representatives to the convention.

some pedestrians walking up Waterloo street were lucky in escaping a glass bath, for just as they passed the dispensary of Geo. Allen's, a pane of glass was accidentally smashed in the top story and fell to the pavement below. It was a narrow escape for those close at hand.

The Sunday train

arriving here from Montreal was delayed half an hour at Wytopitok on the Maine Central Railway by the burning of a saw mill owned by the Springer Company. Cars which were being loaded at the mill were run on to the main line to escape the fire, and had to be moved before the passenger train could pass. The mill was a total loss, and two box cars belonging to the Maine Central Railway were also destroyed. St. Thomas Shaugnessy and family were passengers on the Montreal train en route to St. Andrews.

On Saturday afternoon

the employees of F. A. Dykeman and Co., numbering about thirty, were invited to spend the half holiday at the home of Mr. Dykeman at Renfrew. The greatest number availed themselves of the invitation and about 150 persons gathered on the 115 train. Immediately on arrival dinner was served on the lawn and the party embarked on a boat trip to Long Island. The party landed on one of the fine beaches of this island where the hour was most enjoyably spent. After an enjoyable supper and a trip to Drury Cove in the "Ogishon," the employees returned to the city on the 3:15 train, but before doing so they expressed their appreciation of the day's outing at the firm's expense by a vote of thanks and three cheers for Mr. and Mrs. Dykeman.

The game was late in starting and was called at the end of four innings.

BANK NOTES STOLEN

MONTHS AGO TURN UP

NORTH BAY, July 12

The theft of \$25,000 in unissued traders bank bills some months ago in transit between Ottawa and Toronto was recalled by appearance of a five dollar bill of this issue at North Bay, where it was passed at the C. P. R. Station ticket office and detected when deposited in the bank signature attested was J. Michie. No trace of the party who passed it has been discovered.

This issue has a cut of the Toronto

Traders Bank building on one side and the lumbering scene on the other, totally different from any other issue of the bank, and as the plates have been destroyed and the issue cancelled, there will be trouble detecting the bills when offered to any one conversant with the facts.

CAPT. EMMERSON

BURIED AT ANNAPOLIS

ANNAPOLIS, N. S., July 12

The funeral of the late Captain George Emmerson took place here yesterday afternoon the interment being in St. Alban's Cemetery. Rev. Henry Howe officiating. Captain Emmerson, who was fifty-nine years of age was a Norwician by birth, but settled in Bear River nearly fifty years ago. Two years ago he removed to Clementon where he has since resided. Captain Emmerson was one of the most prominent and successful men in the lumbering industry in the Annapolis River region and he was a well known and respected citizen.

MODERN COMPLICATIONS

It is pretty hard for a girl

to tell whether it is better to be polite as to pretend that she is not in love when she is or so refined as to pretend she is shocked when she isn't. There is only one complicated case of the man who won't work at all unless he is praised for it and when he is praised for it becomes too chummy to work—Exchange.

Mr. S. L. Gorbett

manager of the Seaman's Institute, returned on Saturday from Toronto, where he spent some time on his vacation. He has brought with him something like \$500 for the Institute building funds. Mr. Gorbett is looking very fit and ready to take up the fight for the sailors again.

JOHNSON HAS A GINCH

ON THE CHAMPIONSHIP

Cannot Find a Man to Beat Him—Ketchell Not Able and Jeffries Won't Come Back.

NEW YORK, N. Y., July 11

—An effort will be made this week to clinch the match between Jack Johnson, the heavyweight champion, and Al Kaufman, of California, which will take place either in September or October, and to determine the place of meeting. Johnson signed articles for the fight early in June, but since then pressure has been brought to bear upon the champion to cancel the match on the ground that it would interfere with his fight with Ketchell.

The pugilistic atmosphere is undergoing constant changes with respect to the plans for undoing Jack Johnson and wrestling from his championship laurels. Until his recent fight with Billy Papke there was a strong hope among fight followers that Stanley Ketchell, with his fearful punches might overcome the negro, but that hope is now guttering. Ketchell made little impression on Papke, and it is figured by Charley Harvey, who looks after Kaufman's interests, that if Ketchell cannot put away a middleweight, he would have no chance against the cleaner Johnson and his 210 pounds of bone and muscle. Harvey says that Kaufman is the man to meet Johnson for the title.

Friends of Jim Jeffries say today that, notwithstanding the announcement of the former champion's preliminary to his theatrical engagement that he would fight Johnson, the one-time holder of the world's title, never re-enter the ring. It is confidently stated by those close to Jeffries that his condition would not allow him to go over a few fast rounds.

RAILWAY TRAINMEN MEET AT BANGOR

BANGOR, Me., July 11

—A union meeting of the various lodges of the Brotherhood of Railway Trainmen was held in Bangor Sunday with an attendance of 700. In the afternoon an initiation was held in City Hall, the degree work being performed by the degree term of H. W. Longfellow Lodge, Number 82 of Portland. At six o'clock a banquet was served at which the toastmaster was J. J. Rogers, of Portland. Mayor John A. Woodman, of Bangor, made an address of welcome. He was followed by John L. Shaw, trainmaster of the eastern and western divisions of the Maine Central and St. Lawrence and Superintendents McMann and Hallett of the Bangor and Aroostook. On Monday committees from the Boston and Maine, Bangor and Aroostook, Maine Central and Washington County roads will meet to consider several questions. The matter of schedules will not be brought up.

FIFTY WARSHIPS ARE READY FOR THE FRY

PROVINCETOWN, Mass., July 11

—Sighting the inner tip of Cape Cod lies in the harbor of Provincetown tonight the largest and most notable fleet of warships ever assembled for active duty under the Stars and Stripes every day of the nearly half a hundred primed for war and anxious for the moment to steam into the open sea. The fleet, which included the battleships, cruisers, torpedo boats, submarines, refrigerators, ships, tenders and supply ships, numbering 54 vessels all told and representing a valuation of more than \$20,000,000, were in two parallel lines extending around Race Point, along the Cape to Truro, four miles below, standing at the head of the line being Rear Admiral Schreder's flagship, the Connecticut.

RESCUED CREW OF QUEBEC SCHOONER

NEW YORK, July 11

—A wireless message via Siasconnet and Wood's Hole, Mass., was received here today from the steamer America of La Verole, an Italian line, stating that on July 8, in latitude 37° N., long. 69° W., she sighted the schooner Drusie, of Paspaleto, Que., completely dismantled. The liner rescued all the crew and after setting fire to the hulk proceeded. She is due in New York tomorrow.

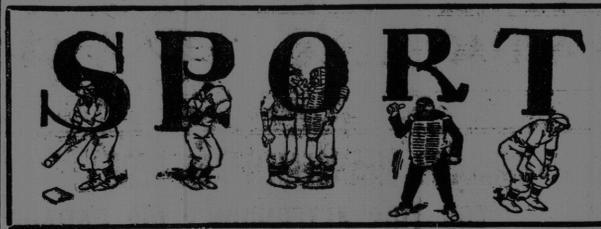

STUBBORN FIRE IN NORTH END STABLE

An alarm of fire

was rung in by the police about 3 o'clock yesterday morning from box 144. Flames were discovered in a barn of Millidge street owned by the late estate. Streams were played upon the flames by No. 4 and No. 4 hose companies, and after an hour's fighting the flames were extinguished. Considerable damage was done, however, and a horse owned by Frank Coleman was badly burned about the neck and back.

Nearby houses were scorched by the blaze and much damage done by water and smoke.

The burned building was insured, but not sufficiently to cover the damage.

SILK PATCHEN CAPTURES WOODSTOCK FREE-FOR-ALL

WOODSTOCK, N. B., July 10

—Charming weather welcomed the closing day of the races. The attendance was fair. The judges were A. C. W. Duggan of Woodstock, Dr. N. R. Colter of St. John and Joseph Lamb of Megantic. Andrew Williams, starter; B. B. Manser and P. L. Thompson, timers; W. P. Lindow, clerk. The three classes were won in straight heats with the exception of the 230 class, when the first was a dead heat between Frank Patch and Jose D'Arce, S. B. Hayden, and Lewisson. The 230 class was won by Frank Patch, Mitchell and Mitchell, Halifax, 1-1-1. H. A. D. J. A. DeWitt, Presque Isle, 2-3-4. Onward Grattan, I. R. Morrill, Brunswick, 3-3-4. Lewisson, 4-4-4. Balloons Make New Long Distance Record

Party of Five Sailed 175 Miles Over New England.

PEEPSCOT MILLS, Me., July 11

—A new record for distance travelled by balloons in New England was made today by a party consisting of William Van Sleet, of Pittsfield, a pilot; E. Deserant, of Pittsfield; Frank Smith and Clarence W. Wood, of Peepscot Mills, and Chas. Gattick, of North Adams, who ascended from the latter place at 2:15 o'clock this morning and landed on the farm of Mary Borgea here at 8:28. The approximate distance was 175 miles in an air-line, the best previous distance being 161-2 miles, covered by Mr. Van Sleet on April 19, 1908. The ascent was by electric light. The balloon rose to a height of 10,000 feet and directly north for an hour. A north-westerly current then struck the big bag, carrying the aeronauts toward the White Mountains in New Hampshire. While passing over Danbury, the balloons carried a heavy load of mail. They reached Waterbury, Me., at 6:45 a. m., and continuing to the northwest, passed directly over Sebago Lake, on three miles from here, Mr. Van Sleet decided to make a landing and did so safely, the anchor catching in a tree by which the party reached the ground. The Massachusetts, a 3,600 cubic-foot balloon, carried a heavy load of mail to 70 pounds. The greatest height attained was 10,000 feet. The balloon was packed and shipped back to Pittsfield this afternoon.

EASTERN YACHT CLUB ON ANNUAL CRUISE

BHICH POINT, Me., July 11

—After a pleasant day's sailing in Casco Bay, the Eastern Yacht Club fleet tucked itself away this afternoon in Penikese Bay, and tomorrow will hold another racing run to Penikese Point. The day was a beautiful one after yesterday's strenuous work in the record-breaking runs from Marblehead to Portland. The yacht passed a quiet night off Peak Island and during the day went off one by one on quiet runs among the islands. The weather continued fine and the New Meadows River was reached early in the afternoon. There a little bay was found far up the river, well sheltered, and there the fleet huddled together for the night.

Most of the yachtsmen went ashore in the afternoon for a stroll among the pines while the more energetic indulged in an impromptu baseball game.

STUBBORN FIRE IN NORTH END STABLE

An alarm of fire

was rung in by the police about 3 o'clock yesterday morning from box 144. Flames were discovered in a barn of Millidge street owned by the late estate. Streams were played upon the flames by No. 4 and No. 4 hose companies, and after an hour's fighting the flames were extinguished. Considerable damage was done, however, and a horse owned by Frank Coleman was badly burned about the neck and back.

Nearby houses were scorched by the blaze and much damage done by water and smoke.

The burned building was insured, but not sufficiently to cover the damage.

LOUISE CAPTURES THE CLASS B. RACE

The Class B. boat race held under the auspices of the Westfield Yacht Association, Saturday, was most exciting, the winning boat being only six seconds ahead of number two. Five boats entered and raced under the handicap schedule drawn up from the results of the last race. This plan resulted in a most exciting race, which was won by Joseph Bullock's Louise, with the Clip only 15 seconds behind. The race started at 3 o'clock and was run over the upper course from the pavilion at Westfield to Bales's Point and return, a distance of 625 knots. Crowds of spectators lined the pavilion and the shore to witness the thrilling finish. The new club house and pavilion was taken over by the W. O. A. from the building committee and given in care of the pavilion committee. The following members comprise the committee: Chas. H. McDonald, W. H. C. McKay, William Cameron, Frank Dooley, George Keefe, Herbert Rothwell, Kenneth Allan, Errol Inches, and Fred Crosby. Arrangements for hiring the pavilion are left with the committee, who have power to act as they decide best. Another enjoyable dance was held Saturday night.

AN INSULTING PRONOUN.

The ritual of society, as women make it, is very exciting the world over, even in almshouses. The London Outlook reports a serious trouble among a set of workhouse officials. The infirmary nurses, three in number, had demanded a separate sitting-room and the delight of Sunday dinner therein, and the matron had sought to humble them by sending the cook to enjoy her Sunday dinner in their company. The brazen cook described what occurred as follows:

"Well, Nurse Blank, she come down and got inside the door. 'Four o'clock' she says. 'Four? Who's the fourth?' 'Me,' says I. 'You! she says, and with that she tosses her head and walks away."

Here cook drew a long breath, then continued: "It hadn't 'a' been Sunday, gentlemen, I should have let her have it for calling me 'you!'"

ST. JOHN STAR.

ST. JOHN, N. B., JULY 12, 1909.

THE ORANGEMEN.

Certainly the unfortunate religious animosity which developed during the stirring times of William Third has sufficiently disappeared to make the observation of July 12th, in Canada at least, an occasion of general harmony and good feeling. And because the association of Orangemen, although still politically active, means so much less today than when it started, St. John heartily welcomes the many visitors who are now en route to the city.

Not in stuffing, not in starving, is our destined end or way; But the gentle art of carving Grows to seem somewhat passé.

Are ye long and time is fleeting, And our hearts, though stout and bold, Quaver when it comes to eating Many lined things that are sold.

In the world's broad field of battle, In life's scrimmage long and tough, We'll not eat embalmed cattle Nor adulterated stuff.

Trust no butcher, however pleasant; Of his sausage be afraid; Do not take a trifling amount, For he knows how it's made.

Let us then be up and chewing, With a taste for any dish; Not with anxious vision viewing 'Potomac poison' in our fish.

First Shopgirl—Miss Blank is going away.
Second Shopgirl—Is she leaving too good?
First Shopgirl—No; for better or worse—Brooklyn Life.

CARRYING THINGS TOO FAR.

A suspicious sound came from the cellar. Mr. Vanastorbil sat up in his silk-cambric bed and listened. The ornate clock on the ox-and-gem mantel struck the hour of midnight.

Again came that suspicious sound from the subterranean regions. Burglars busy at the coal bin, eh? It strikes me that this is carrying matters just a trifle too far," remarked Mr. Vanastorbil bitterly. An springing from his couch he grasped his trusty revolver and hastened cellward to checkmate the daring purloiners of his precious antracite.—Will S. Gilley.

MORE TO THE POINT.

In a certain restaurant the electric lights were suddenly extinguished. "When they were turned on again after a few moments, a lady whispered to her companion: "Somebody kissed me."

"Yes, and somebody took my veil out!" replied the other bitterly.

ECONOMICAL.

"The servant that works for me must be very, very economical," said the boarding house mistress to the applicant for work.

"Oh, my such a one, mum," promptly returned the applicant. "Indeed, my mad mistress discharged me for being that way!"

"For being economical?"

"Yes, wid me clothes. 'O! used to wear heat!"

PSYCHOLOGY OF A KISS.

"Angela, may I have a kiss?"

"Each H. G. George," took all the good out of it by waiting for permission!"

THE LINGUIST.

She made a dash with Cook's tourists. And spent a whole week in France. So of course she speaks French like a native—Or Kankakee.

A FUTILE BLUFF.

Bilkens was a bluff who had bluffed his way from errand boy to superintendent of a large factory. He managed his employees solely by blustering threats. If a man, woman or child disobeyed, he instantly put another in his place.

One night, upon his return from the factory, Mrs. Bilkens informed him that an account of his name she could not see the table and run the house on her usual allowance. He had not been away from the house long enough to accustom himself to the home atmosphere and replied: "If you can't fill the position I'll get someone who can!"—J. Bradley Vandewater.

STEAMER CAMDEN IN COLLISION AT BANGOR.

BANGOR, Me., July 11—While backing away from her wharf in Camden harbor shortly after six o'clock Sunday morning, the turbine steamer Camden, of the Eastern S. S. Company, became temporarily unmanageable in a high wind and drifted down on the three masted schooner Annie P. Chase, lumber-laden and at anchor in the harbor. The schooner's jibboom jabbed through the outer walls of the tier of state-rooms on the starboard side of the gallery deck, pushing it through number 30 and breaking out the panels on the outer wall. Nobody was in the room at the time. A portion of the fall of the gallery deck was carried away but the steamer was worked under control before further damage was done.

GOSSACKS FAIL TO DISLODGE ENEMY.

THEBHAL, July 11—Persian Gossacks, commanded by Russian officers and other troops of the Shah numbering altogether 1,200, made an attack this morning upon the United Nationalist forces, under Siphadar and Sar-darand at a point fifteen miles from Thebhal.

Although the Royalists shelled the Nationalist position with four guns they failed to dislodge the enemy.

A PSALM OF KNIFE (AND FORK).

Tell me not in mournful numbers There is nothing fit to eat; While there's cabbage and cucumbers, Every afternoon (except Sunday) at \$1.00 a year.

Life is real, meals are earnest— Better start them all with fruit; Meat thou need'st, to meat returnest, Was but spoken of the brute.

A DAY IN THE LIFE OF THE PRINCESS JULIANA

As H. R. H. the Princess Juliana is now several weeks in Canada, we may begin to speak of her habits and the routine of her daily life. The great event of a morning is the bath, which both the mother and the grandmother like to assist; then she is dressed in the baby-things her mother wore, though many dainty frocks have been added to the existing layette; the one presented by Her Majesty's Mistress of the Robes and the Irish lace robes given by the Dutch colony in London being among the prettiest.

An airing in the garden is the next item on the day's programme. As soon as the weather is such that the Princess will spend the whole day in the open air, only going indoors for the purpose of making and dressing, but just now it is not warm enough.

Being a springtime baby, Her Royal Highness will have the Queen-Mother's dresses used to the air, which, it is hoped will harden her so much that she can continue going out during the winter months.

With a view to her future life she has to go out every day. In that respect she will be brought up like Queen Wilhelmina who drove out in any weather so as not to disappoint the public. If the weather should turn out on the day of a royal visit or a national festival, and that rocks the cradle rules the world, is a proverb not applicable to Dutch babies, as rooking comfort in the child is the Queen's motto. The doctors found out that the movement was a serious cause of illness, and so the cradle was taken out of the room and the baby was taken out of the room to be hushed or snar asper.

NOT ALLOWED TO SPOIL BABY.

To the young mothers it is often very hard not to be allowed to coddle their babies as much as they like. The little princess is as strictly brought up in this respect as any of her future subjects and thrives as well on the system as they do.

The Queen also strictly keeps to the appointed hours for the baby, which takes place every three hours. All the fact that the Queen nurses her baby herself, and that she has the medical authorities, the leading article in the medical paper, Molecholt, saying: "The Queen's baby has never done anything else in her life but setting the example she now sets to her country and the rest of the world by nursing her baby she would have deserved our highest praise and gratitude."

The baby is also regularly weighed. All the time not taken up by the affairs of state are spent by the Queen in the nursery, where the Queen mother also passes most of the day. The Princess has been away very often during the day of late, as nearly all the royal duties now devolve on him. But the moment he comes home his steps are directed towards her Royal Highness's apartments.

At night the infant Princess sleeps in a room overlooking the palace gardens. She is watched by one of her two nurses, and she sleeps there in the arms of Queen Wilhelmina, which was fitted up again for this purpose, by order of the Queen-Mother. To now the Princess Juliana has attended very few functions, the first having occurred on May 1, when her birth was registered by the town clerk of The Hague.

The first military salute was rendered her recently. Her Royal Highness was allowed to take the air in the palace gardens for the first time, when she was accompanied by the Queen and presented arms to the little bundles of clothes that means so much to all match parents.

THE WOMAN SLAVE HELPS TO ENSLAVE THE GIRLS.

"Then came to them the woman of whom I have spoken. She took them to her room. It was gorgeous with silken hangings and rare bric-a-brac. The furniture was of teakwood, inlaid with mother-of-pearl. On the mantel and cabinets were vases that were worth more than the little shop girls could earn in a dozen years. In a glass case was egg-shell china from which a king might have eaten. To the girls the woman offered the argument of the easiest way, and God knows it is a great temptation when one is young and hungry for the soft things of life, and is desperately poor. "But to Annie it was all a horror unendurable. She said she would shudder loathing, and wept and wept as if her heart would break, and she the woman brought the comfort of the pipe. The poor dazed, storm-tossed girl took it almost mechanically, and in a minute it had wrought its miracle. Her fears, her trouble, her remorse vanished as if by magic. She floated away on the rosy sea of poppy dreams to where there was nothing but light, and music, and a sense of well-being ineffable.

"For days this was kept up. She was kept so stupefied to know what she was doing; too languid and inert from the effects of the drug to have saved herself even if she had known and at last she had to stay up a little longer.

"Full of grief, she said good night, adding, in a doleful voice, 'If only my subjects knew how I am being treated.'"

The subjects know how the Princess Juliana is being treated, and they feel confident that under the wise care of her parents and grandparents their little Princess will soon grow into a healthy, strong girl.

HOW THE PRINCESS WILL BE CHRISTENED.

The Prince, watching his daughter's outfit from his window, saw the soldier's act, and handed him a handsome souvenir in the name of the Queen in remembrance of the day.

In the seclusion of the Loo Juliana will grow up, as her mother did before her, and like her mother she will feel subjects is one of her safest possessions.

This feeling was given vent to in a touching way by Queen Wilhelmina when a little girl who was the wife of a soldier, and in a minute it had wrought its miracle. Her fears, her trouble, her remorse vanished as if by magic. She floated away on the rosy sea of poppy dreams to where there was nothing but light, and music, and a sense of well-being ineffable.

THE MYSTERIES OF CHINATOWN.

(By Dorothy Dix.)

A young girl's dead hand has pulled aside the veil that had hidden her, and she has revealed herself to the world; and, in time, when upon her face she has shed the mask of mystery, she will be known to all.

The story of three women that I am going to tell you here is a typical one, but it is almost whispered down their throats, and the babbling goes on year after year. Therefore the one who told me this tale spoke in a low voice, and hid her face behind her hand.

There was a window in one of the twisted, narrow little streets of Chinatown. It was very hot, and growing dusk, and the pavement from being almost empty, under the stars of Chinatown. The girl, who was just that kind of a looking girl. Like her ribbons, you know. The girl, who was just that kind of a looking girl. Like her ribbons, you know. The girl, who was just that kind of a looking girl. Like her ribbons, you know.

NARROW STREETS BECOME THICK WITH YELLOW MEN.

The narrow street was thick with yellow men. They smoked in doorways and on the sidewalks, and they were in groups, they hurried along with hands in sleeves, and my guide pointed out to me the different types. There was the true Celestial, generally thin and haggard, with his queue hanging far down below his waist; there was the Chinese-American, with immaculate white coats and felt shoes on his feet, thin, snapping back trousers, and shiny silk blouses. There were the humble lobbyzows, the servants who do the work of Chinatown, and there were the Americanized and Christianized Chinamen—fat, oily, prosperous-looking, checked out in three-story stiff white collars, diamond neckties, trousers creased to razor-edge, the most flamboyant of tan shoes and wide hair cut so short that it suggested the service of a lawn mower. These are they who are the pets of the missionaries, and who prey upon white women.

At last, in the shadow of one of the doors, I saw what looked to me like the glimpse of a pink kimono and a face that was like the face of the silk of a woman, and I spoke of it.

"Yes," said my guide, "it is one of the women of Chinatown. You rarely spot her, but at night they creep out to get a little breath of fresh air. Then you see the most pitiful sight on earth, for this is the bottom of the deaths to which a woman can fall. There is nothing better. This is the draw their skirts away from her who had been smothered by the mire of Chinatown."

Then this man began to recite to me the epic of the soul of lost women.

"Some eight or ten years ago," he said, "perhaps no longer—for the span of life in Chinatown is short—there drifted into Chinatown a young girl. I will call Lattie, because that isn't the least like her real name. She was a big blond with auburn hair and a hand-made complexion that could not hide the dark rings under her eyes, nor the puffiness of her skin. She must have been a stunning looking woman to begin with, but she had gone the swift pace, and from being a toast of the Tenderloin she had sunk down and down until she had

CITY THE SCENE OF SHAM FIGHT

62nd. Regiment Out Saturday

Both Sides Claim Victory—Judges Fail to Render Decision

St. John was the centre of a sham battle Saturday afternoon when the 62nd Regiment held a miniature war at Fort Howe. The regiment was formed into two divisions. The attacking party, under command of Major Farley, assembled at the Barrack Green, and the defensive in command of Capt. Peters and Lieut. May, assembled at Fort Howe.

Scouts of the attacking party were sent in advance and the red coats seen throughout the city presented a very active appearance.

Various companies arriving from different directions assembled on Moore street and advanced along Rockland road toward the rocky heights. About one hundred and fifty men comprised the attacking force.

With about one hundred men stationed around the fort, Capt. Peters prepared for the defence.

These were aided by two signal stations, one at the fort and the second on the hill back of Rockland road. News of the attacking force was received at the fort from the signallers and upon training the direction of approach, pickets were sent out to reconnoitre and everything made ready for the onslaught, which lasted for nearly two hours.

The attacking party claim to have successfully stormed the rocky incline, but Capt. Peters emphatically asserts upon the advantage the militia and other officers acted as judges, viewing the battle from advantageous positions. A sharp explosion, however, was not rendered.

Sergt. Hopkins, of the R. C. I., instructed the men in various movements before the battle, and why they should be down, which proved of material benefit.

TRIES TO END HIS OWN LIFE

Calais Young Man Places Pistol to His Head and Fires

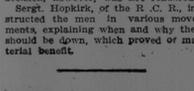

ST. STEPHEN, N. B., July 11—The two Chinamen, who while taking a car ride through St. Stephen, Calais two weeks ago, were arrested by the U. S. Immigration officials in Calais and afterwards sent to Richmond, Va., returned here yesterday looking none the worse for their trip. At the hearing they plainly showed they were merely taking a case of pleasure, and in order to take in the round trip had to pass through Calais. After communicating with the immigration officials at Ottawa they were set free and allowed to return. They both say that Canada is good enough for them.

REV. W. W. LODGE TAKES CHARGE CANADA NORTHERN BRIDGE DESTROYED

Rev. W. W. Lodge, the new pastor of the Exmouth street Methodist church, took formal charge yesterday, when he occupied the pulpit both morning and evening. In the evening reverend gentleman took as his text "The church of the living God—the pillar and ground of truth" and preached an able and interesting sermon.

Said he in part: The church is the medium of revelation, an organ of the Almighty in which both men and angels are to behold the manifold wisdom of God. Why do we believe in the church? Let us remember that a social being. He is made for society. He cannot live his life alone. If he tries to do so he remains dwarfed and stunted. We are dependent on one another for our physical, mental and religious life. Our spiritual life is drawn from others. Faith and hope and love do not drop down into the soul out of some strong cloud, but are born to us on the loving accounts of kindly voices. No one lives to himself. A man cannot perform any noble work alone. To accomplish great things men must work together. Combination is one of God's great principles upon which all life is being organized. A Christian is a man at his best, and he cannot live his life successfully independent of others. Never was the church more needed than today. In an age like this, when the problems so complicated and so immense, is there no need of a strong, immovable institution which shall bear witness to the great facts and principles upon which the hopes of our humanity depend? In an age when wealth is increasing do we not need an institution which will keep on repeating the old story of the man who paid more attention to his barn than to his soul? In an age when competition is so intense, so furious, in an age when competition is so intense that it is furious, and when men and their ambitious rivals are tempted to over-reach and to do the thing which is not right, and when the managers of corporations are tempted to use men as so many tools, picking them up and casting them off at their own good pleasure, snuffing them of their strength and their life and then throwing them as we mere rags, do we not need an institution which shall force upon men's conscience, the Christian church is a witness. It must bear testimony to its Lord.

JUVENILE DELINQUENT'S ACT; WHAT IT HAS ACCOMPLISHED

Mr. W. P. Archibald, Dominion Patrol officer, contributes the following article to the Juvenile Delinquent's Act, and what it has accomplished: "Humiliating as it may seem to confess the propagation of the Christian, notwithstanding all our methods or codes of punishment, and all our philanthropic efforts for the reformation of the delinquent, society is still in a state of siege by a large and dangerous army of criminals, desperadoes, if you desire it, you have only to notice the bolts and bars on every hand, the police and the watchmen, the social order of one kind or another and after two thousand years of the propagation of the Christian, which, if ever universally adopted, would do away with everything criminal, it still remains a fact that those who have must still hold their possessions by the influence or the force of might. The 'matted files' of governments are necessarily held over every home and trust in the civilized world, and it must be so for many centuries to come.

THE GREAT PROBLEM. "The great problem of juvenile delinquency cannot be considered apart from environment. It is impossible to adequately judge any child who commits an offence apart from its surroundings, and especially from what they generally term 'home.' A great majority of delinquents who find their way into the hands of the law may be traced back to the miserable alleys and hovels which exist in our larger Canadian cities, a standing reproach to our twentieth century civilization. No one who knows how these children live can wonder at their offences against society. While we are striving in the name of a common humanity for many reforms, juvenile courts, probation and reformatory movements, all virtually essential for our common good, let us not neglect to use every influence within our reach to remove, as far as possible, these breeding places of vice and criminal spawn, and establish in their place clean and wholesome dwellings. Let us throw the door open to the light of the day. Let us plant trees and open up children's playgrounds where they are most needed, and give our down-trodden poor a few breathing places, made wholesome and beautiful with sun, air and flowers, all of which appeal to the better instincts of the child, or the parent, compelled to live under unfavorable circumstances.

PROBLEM OF THE SLUM. "Canada must never cultivate the slum, if our efforts are going to be effective in keeping down the criminal population to a minimum. I have often wondered at our city authorities spending so lavishly to make the splendid alleys look better than ever, while so little attention is given to the dark, unwholesome places where the unfortunate and erring are compelled to exist, and consequently suffer.

NATAL DEFECTS IN CHILDREN. "If we are obliged to admit natal defects in children, are we not also obliged to admit, and excite? But natal defects may be eradicated and destroyed, and so indeed may criminal tendencies. Children may possess criminal tendencies, but these criminal tendencies may be destroyed by a proper 'home care' or environment, for they have no such fibres or roots that they reach from the cradle to the grave. Children may possess the dispositions or tendencies of angels, but these tendencies have such roots that they are as to duty extinction. The social conditions which are competent to uproot the vicious instincts of the criminal are also competent to firmly root the dispositions which are not vicious, but full of virtue and truth. I firmly believe that there is nothing found in youth of a criminal tendency, natal or acquired, which, with proper treatment, may not only be minimized, but in many cases may be wholly destroyed.

ONE OF THE RULING FACTORS. "One of the ruling factors of our age is that of evolution, the idea that in the lowest forms of life there exists the promise of a higher form, the higher forms. It is the capacity of betterment which redeems human nature from its littleness and its meanness, and this principle should be remembered in our treatment of the delinquent classes, for they have been generally the victims of neglect, and have been soured and broken in their youth, and notwithstanding all our advanced systems, they generally feel that the great forces of our civilization are against them.

PRODUCING EXCELLENT RESULTS. "The adoption of the Juvenile Delinquent's Act, passed by the Federal government last year, is already producing excellent results. Manitoba is the first province to enter under this new system. The city of Hull and district have made application to the province of Alberta, Saskatchewan, and British Columbia, for appointing probation officers. Quebec is also inquiring into this system, and we hope that, within a few years every province will avail itself of this act.

THE NEW ORDER OF THINGS. "I had the honor to examine the organization of this new movement in Manitoba last January, and report to the Minister of Justice how the system is working out. Out of 166 cases of juvenile delinquency, children under 16 years of age, only two have proved unsatisfactory cases. The Honorable Mr. Daly, the Juvenile Judge, informed me that the new system had reduced

C. P. R. TO LAY 11 NEW TRACKS

Work of Enlarging Yard Begins

The Work at Bay Shore Will Occupy Balance of Summer

A large crew of men under Roadmaster Miller have commenced work on the extension of the Canadian Pacific Railway yard at Bay Shore. Although the present yard includes nearly ten miles of tracks the need for more room has been felt for the past two seasons. At one time last winter over one thousand loaded cars were standing on storage tracks at Bay Shore while practically every foot of siding space between St. John and Vancouver was required for the movement of current traffic was occupied by loaded cars waiting to be discharged at West St. John. It is expected that the new extension will prevent a repetition of this during the coming season. Eleven new tracks will be laid down having an average length of 1,200 feet each and will provide storage room for between three and four hundred cars.

The leads from the main track were prepared for the steam shovel which will be installed in a few days. The shovel will work on a ten foot high trestle which will reduce to the level of the present yard. The material removed will be used to fill in at the lower end of the yard over which the new tracks will extend.

Mr. Rolston was just opposite the residence of J. E. Cowan when the horse became frightened and balked. Mr. Rolston was thrown heavily to the ground, upon being picked up Mr. Rolston was found to have suffered a deep gash over the eye and to have been inflicted with other injuries about the head. He was removed to the roadside in a semi-conscious condition and Dr. Pratt telephoned for the doctor.

MRS. HARVEY KILLED IN AUTO ACCIDENT

AMHERST, Mass., July 10.—Mrs. Adm. L. Harvey, of Amherst, was killed in an automobile accident on the Sunderland Road between North Amherst and Sunderland this afternoon. The party, which included, besides Mrs. Harvey, Mr. and Mrs. Chauncey H. Pierce, of Northampton, owners of the automobile and chauffeur, were riding along with Mr. Pierce at the wheel. His experience with the machine was limited, and when the car struck a rough part of the road, Mr. Pierce lost control. The machine turned off the highway and was upset, pinning Mrs. Harvey underneath. She died almost instantly. The others escaped with slight bruises. Mrs. Harvey is survived by a brother, Wm. M. Larned, of Amherst.

Cossacks Engage Convicts Twenty on Their Way to Alaska—Political Prisoners

SEATTLE, Wn., July 10.—Information concerning the escape of a band of political convicts in the interior of Siberia, who are making their way towards East Cape, on the extreme east coast, in an effort to reach Alaska, was brought to Seattle yesterday by John W. Kelly, who long has been identified with affairs in the Arctic, both in Alaska and Siberia.

"The first word of the escape of the convicts reached Captain N. E. Walhlin, acting governor at Tichy, Kalmiak, 1,500 miles from East Cape, on March 12," said Kelly. "Immediately he sent a detachment of his men in pursuit. They overtook and engaged the exiles 100 miles from the coast. The cossacks were defeated and seven of them killed. Several of the exiles met the same fate. Reduced in numbers by death from exposure and many having been killed in battles with natives, the band numbered 23 when last heard from. They have looted villages and killed natives when their demands for dogs, food and shelter have been refused. "The escaped convicts are not of the low criminal class, but are political prisoners."

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

ST. JOHN, N. B.

Conditions and General Information of the Contest!

THE CONTEST IS OPEN TO EVERYONE

Any person residing in the territory in which The Sun or the The St. John Star or Weekly News circulates is eligible to enter the contest.

The contest manager reserves the right to reject any nominations.

Votes will be issued on paid-in-Advance subscriptions to The Sun, Star, and Weekly News.

A coupon will also be published in The Sun and Star, which, when neatly cut out, name filled in, and brought or mailed to the Contest Department within ten days, will count as votes.

The first thing to do is to enter your name as a candidate, then either call, write or phone The Sun office for a receipt book with which to secure subscriptions. Then let all your friends know you are in the contest and request them to save their votes for you.

Candidates may nominate themselves or may be nominated by their friends.

No employe or member of employe's family of The Sun Printing Co. can enter the contest.

All special vote ballots issued on subscriptions are good until the end of the contest, and they may be voted at the discretion of the candidate or subscriber.

Votes are not transferable.

Votes will be allowed on subscriptions secured anywhere in Canada. But subscriptions must be paid in advance to secure votes.

The votes will be counted and canvassed by a committee of prominent citizens.

In case of a tie the prize will be divided between the contestants tying.

Any questions which may arise will be settled by The Sun Printing Co., and its decisions will be absolute and final. Nominations must have the address of the candidates.

How to Win a Valuable Prize

Send in your nomination. You will find a nomination blank printed on another page. The nomination blank is good for 1,000 votes, which gives you a fine start.

Then enlist the aid of your friends and neighbors. Use your telephone. Let everyone know that you are a candidate before they promise their help to a more enterprising candidate.

Be ambitious and determined to win. If you have friends you cannot see at once, write to them.

You can get votes and subscriptions anywhere, from the other districts as well as your own.

Votes will be given on new subscriptions and renewals of old subscriptions that are paid to you in advance.

Call or send to The Sun and Star office for a receipt book. The Contest Manager will be glad to have you call so that he can explain anything you do not understand. Telephone or write to him if you cannot call, and a representative will give you full details.

Secure every Daily Vote Coupon possible. But work for the Special Ballots. They count the most.

Ask your friends to help you. If you belong to a church, society or any organization, let your fellow members know that you expect their help. It will be freely given if you only ask before it is given to some other candidate.

Don't forget that the children can do the most effective work in collecting Daily Coupons, as well as secure you many paid-in-advance subscriptions.

Should your father, brother, mother, sister or friends belong to any organization, get them to secure the votes and assistance of the members of the organization.

Do not let a day pass without securing some subscriptions and votes. The steady, persistent work is what will make you the winner of a valuable prize. Keeping everlastingly at it always brings success.

Any one, anywhere, can vote for any candidate. Candidates can secure votes and subscriptions anywhere.

It is easier to ask questions than to correct mistakes. Do not hesitate to ask questions. The Contest Manager is at The Sun office to help you.

Do not get discouraged. Once nominated do not drop out. You can win. These valuable prizes will be won by some one. Why not by you?

Your Friends Will Help You

Hundreds of people will have no personal friends in the contest. You can secure their friendship and subscriptions if you only ask them. They will also secure votes for you from their friend.

A little organization among your friends for systematic work in your interest will go a long way toward making you the winner of the Grand Prize.

Increase Your Vote Each Day

For further information phone or ask for Contest Manager who will be glad to answer any questions.

OAK HALL'S ANNUAL MID-SUMMER SALE

Of Men's and Boys' Clothing and Furnishings Begins Thursday, July 15th. Values Even Greater Than Last Year

In a business so large as this, immense stocks must be carried in every line throughout the active season in order to be sure of having full assortments of kinds, styles and sizes when they are most wanted. This necessity makes it inevitable that overstocks will appear as the end of the season approaches. The old-time system would say "carry them over." But in a great establishment like this, where modern methods of merchandising prevail, there is but one thing to do: Close out the overstocks and clear the docks for another season!

MAINE WOMAN LIKELY SLAIN

WISCONSIN, Wis., July 11.—The body of Mrs. Abbie Crowell, aged 71 years, was found about a mile off the beaten road in the woods on the boundary line between Dresden and Wisconsin today and the authorities suspect murder. The woman had been missing since June 25 and her body was so badly decomposed that the preliminary examination did not disclose the cause of the woman's death, but it is thought that she might have been clubbed and robbed. She was known to have had a large sum of money on her person at the time she disappeared and this money could not be found today.

STRIKERS HOLD UP A MINER AT POINT OF PISTOL

INVERNESS, C. B., July 12.—The story of the first day of the strike here has already appeared in the Sun. On the second day there were considerable men at work on account of intimidation and threats, especially by the Belgian element. On Friday evening four riotous held up one of the night engineers, one of them drawing a revolver. On Saturday afternoon, the second, a crowd of two or three hundred men and boys and some forty or fifty Belgian women met the men as they were going from work and saluted them with "scab" and other epithets. Some sticks and stones began to fly and Douglas MacPherson, a P. W. A. miner, was struck on the side of the head and received a bad cut. It is believed that the stone was thrown by a Belgian woman. Among this crowd were some half dozen special policemen, the two regular town policemen and mayor, but it would have been as much as their lives were worth to have arrested anyone in such an immense crowd.

Early in the nineties he was in command of a steamship that sailed from Liverpool for New York, laden with hemp and silver. Twenty-four hours out of Liverpool, he struck a sunken wreck and smashed his propeller to splinters. Bucknam called for volunteers to return to the Mexican port in the long boat and while New York for a tug. The mate and three men started on the errand and performed it without incident. By the meantime the sunken steamship had been drifting about at the will of the winds and waves, and it required a search of twenty days on the part of the rescuing tug to find her. In the tow of the tug, the steamship was towed to New York, and of course that she would have to be dry-docked before she would be fit for sea again. But Bucknam balked at the idea of paying out money for what he thought wasn't necessary. So he shifted all his cargo into the forward compartment, which had the effect of settling her by the head and elevating the stern. Finding that the stern compartment was high in the air to enable him to get at the propeller shaft he bought a small schooner, loaded with stone ballast, and hitched her to the stem of his ship. This had the desired effect, and Bucknam calmly went ahead attaching the new propeller he had ordered to the end of the shaft. An admirer of the United States navy who happened to be at Key West at the time, witnessed the operation, and characteristically it was one of the cleverest of its kind he had ever heard of. Indeed, it is said that Bucknam was the first man to put a propeller on a ship without docking her. After he had finished the fitting of the propeller and reloaded his cargo, he started for New York. By an irony of circumstances, though, the shaft had been twisted at some point in the middle of the shaft, and it pained him so that most of the bolts in the hull were loose when the vessel arrived in New York. As a result, she had to be docked, after all. The insurance agents and others were indignant at Bucknam because he had not docked her in the first place, and extended litigation between the owners and the dismembered parties followed. But the fact on the whole, was regarded as a feather in Bucknam's cap. Shortly before the World's Fair at Chicago, in 1893, Bucknam went to that city and built the white-back Columbus, which he was captain while she was on exhibition at the Fair. Later he went to the Pacific Coast and built the white-back Sidney. In 1895, he became a mate in the Pacific Steamship Company's service, and two years later was made captain of the Island of Nave at Panama. While at Panama the future pasha invented an ingenious instrument, which, for some unknown reason, lit

DEATH REMOVES A GREAT NATIVE OF NOVA SCOTIA

WASHINGTON, July 11.—Professor Simon Newcomb, the astronomer, died at his home in this city early today at the age of 74. Professor Newcomb was one of Nova Scotia's most distinguished sons. Born in Wallace, Cumberland county, on March 1, 1835, he early removed to Annapolis, where he first developed an attachment for the science in the study of which he was destined to focus the attention of the world. At the age of seventeen or eighteen, Newcomb left Annapolis and from that time his career was meteoric. Honor after honor was heaped upon him by the great universities and he found his final ambition realized in his election as president of the Astronomical and Astrophysical Society of America. Of late he has devoted himself chiefly to writing, and his articles have appeared regularly in leading scientific magazines of the day. Dr. Newcomb since taking up his permanent residence in Washington has made frequent visits to Annapolis, where he is still remembered by schoolmates of his earlier days. Simon Newcomb was the son of Professor J. B. and Emily Prince. He was made professor at Johns Hopkins in 1884 and was subsequently honored with the degree of LL. D. by the universities of Oxford, Dublin, Cambridge and Edinburgh. His best known publications are Popular Astronomy, 1878; Tables of the Motions of the Eight Major Planets, The Constants of Astronomy, A Plain Man's Talk in Labor Question, 1888.

REFUSED ADMISSION TO DYING CANADIAN

Injured Man, Hurried to Buffalo for Treatment, Was Held Up by U. S. Immigration Officials, BUFFALO, July 12.—Frank Scopic, of Sherbrooke, Ont., whom a Canadian village doctor was hurrying to a Buffalo hospital last night for treatment that might save his life and who was refused permission to land from the excursion steamer American, was brought ashore shortly before one o'clock this morning.

THE DAY IN MONTREAL

MONTREAL, July 12.—As usual July 12th was quiet. The procession from the hall to the station for the picnic at Huntingford was undisturbed. There were over three hundred in line headed by band. Yesterday the annual church parade was held and St. Catherine street was blocked by the procession. The street car company, however, made no effort to break through and simply altered the service. Only a few cars which were delayed. Police kept the way to the church clear.

SACKVILLE, N. B., July 12.—Quite a large number of local Orangemen left for St. John on special train at half-past six this morning to take part in the celebration there. They were accompanied by the Citizens' Band.

THE FREDERICTON DELEGATION

FREDERICTON, N. B., July 12.—Thirteen cars solidly packed and containing upwards of one thousand persons, left here by special train this morning for St. John to attend the Orangemen celebration. The Fredericton Brass Band accompanied the excursion. About one hundred persons between here and Fredericton Junction were compelled to wait over for the regular train, as there were no cars enough to accommodate all.

EVENTS LEADING TO STRIKE AT INVERNESS

Difficulty Between the Two Unions, Company Under Agreement to Employ None But P. W. A. Members—Men Fired When They Withdrew, INVERNESS, N. S., July 12.—The events that led up to the strike here are peculiar. When the referendum vote was only fifty-nine in favor of amalgamation with the U. M. W., but since that time the sympathizers have been in the majority. The union order has been a steadily increased wages, initiating members with the ten on the line and other inducements, their ranks continually grew until they were supposed to number three-fourths of the mine workers. The immediate cause of the culmination may be briefly stated.

ENTRIES FOR TONIGHT'S SPORTS ON VICTORIA GROUNDS

Forty Nine Names Have Been Handed In—Lively Contests Expected, Sports interest is being taken over the sports on the Victoria grounds this evening. Forty-nine separate entries have been received and lively competition is assured. The first event will be called on at seven o'clock. In addition to the local flyers, athletes from Moncton, Chatham and Fredericton are entered. The complete list is as follows: 100 YARDS DASH.

MURDERER IS HAVING A GOOD TIME AT HOME

WORCESTER, Mass., July 12.—Information received here by Armenians indicate that Alexan Arzoonian, for whom the police searched the country for two years because of alleged complicity in the murder of the wealthy rug merchant, H. S. Tavakolian, in New York, is now in Constantinople enjoying his freedom. Arzoonian published an Armenian paper in Boston and was president and chief worker of the Huntchaghi Society.

THE LANGFORD-KETCHELL BOUT DECLARED OFF

NEW YORK, July 12.—The match between Sam Langford and Stanley Ketchell, which was to take place at Ely, Nev., has been declared off by Joe Woodman, manager of the nearo pugilist. Woodman declares that Ketchell is not entitled to demand \$20,000 or a purse of \$25,000, and that Langford won't fight for a few cents. Woodman says that his man is willing to fight Ketchell for a fair division of the purse.

TORNADO KILLED SIX AND INJURED FIFTEEN

Committed Suicide at the Age of Seventy Five, OHTONVILLE, Minn., July 11.—Six people were killed, fifteen were injured and much property was destroyed today by a tornado which passed over this section. SPRINGVALE, July 11.—Stephen G. Salmon, 73 years, committed suicide early today by jumping from the bridge over the Mousen River into the water. Mr. Lord was unmarried and had been despondent for some time over ill health. The body was recovered today.

AGED COUPLE BURNED TO DEATH WHILE ASLEEP

NEW YORK, July 12.—An aged couple who lived on the outskirts of the village of Palochque, L. I., supported by a weekly allowance from a son in New York, were burned to death in their beds early yesterday. The police are disposed to believe that the old people were victims of a robber and incendiary, but neighbors think that a lamp which Mr. and Mrs. Gerity kept burning in their bedroom all night may have started the fire.

THOSE WHO ENTER EARLY GET A REAL GOOD START

DETROIT, Mich., July 11.—Thirty automobiles, ranging from little runabouts to great touring cars, are parked tonight in Cadillac Square, awaiting the signal tomorrow for the sixth annual reliability run of the American Automobile Association. Popularly known as the Olden tour, finishing touches were put on each of the cars before it was "checked in" to Chairman F. H. Hower, of the contest committee, and each repair that has to be made during the 2,638 mile run to Kansas City, by way of Chicago, Minneapolis and Denver, will result in a penalization of the machine's score. In addition to the thirty cars which will compete for the three trophies which are the prizes of the run, about twenty non-competing machines will make the long trip, carrying officials, newspaper men, manufacturers and automobile enthusiasts. Promptly at 9 o'clock tomorrow morning the first car will be sent off by the starter. At one minute intervals, the other contestants will run out Michigan Avenue toward Kalamazoo, the first control. Each car carries an observer to represent the contest committee and to record all accidents and repairs which will affect the score. The sixth reliability contest is 1,500 miles longer and more severe in every way than any of its predecessors. Only three of the 12 days' run are less than 150 miles and the last day of the tour demands that the machines run 213 miles from Salina, Kas., to Kansas City. That there will be few, if any, perfect scores, is the general prediction of the veterans who have made other reliability runs.

ENTER THE CONTEST TODAY.

Look carefully again over the list of prizes. Think as you read each one, just what you would do with it. See what a vista of pleasant things opens before you. With these thoughts in mind enter the contest today and go in with the determination to win. While the contest is yet young is the most favorable time to send in your nomination. We want you to name your first published list of candidates. For your own sake it is best that from the very start you should be known to be in the race. Those who would rather help you than anyone else might promise their assistance in the event you should be successful. If they did not know that you were interested in winning a prize, they would not be so ready to help you. A nomination blank will be found on another page. Cut it out, fill in your name and address, then bring or send it to The Contest Department. A representative will be glad to call, and explain more fully in regard to the contest if you will phone to us—Main 22. ON THE ROAD TO VICTORY. By this simple act you get started on the way to winning one of the many attractive prizes. If you are in earnest it may be the Touring Automobile which will be your reward. At the same time you can win a trip to Europe or New York or a diamond ring, a gold watch, clock, bicycle or scholarship. The contest name appears in the first published list. There is nothing like riding in the hand wagon. It is lots more fun than trailing behind with the callopes. OPEN EVENINGS. For the accommodation of those who wish to enter the contest or to gain information respecting it, and who cannot call during the day, the Contest Department will be kept open at night. If you are unable to call at any time, write or phone the contest manager and a representative will call and give you the desired information.

MUCH LIKE A FAUN

Countrymen arriving in the city during the past few days, express their opinion that the general crop outlook could be much better. Those in the neighboring counties fear that the cold weather will interfere with the growth of all the grains. The hay crop on rich soil and in sheltered places has proven a fair one. The farmers were much elated over the prospects for a good crop, but their hopes have been blasted. On the average fields the crop is a failure. Some countrymen place the crop at about three quarters of the ordinary. Others are satisfied that the cut will amount to only one-half of last year's output. Consequently a heavy advance in the price of hay will take place in the autumn. The oat crop has shown wonderful improvement, since the recent rains. Changes are now better for a fair crop. Despite the lateness of the season, the potato crop is looking well on dry ground. Farmers expect a fair crop. Buckwheat also shows a good appearance. The cold wet weather has a tendency to benefit this crop. The wild berries are somewhat later than usual, but the season is now on in earnest. The cultivated berries are small and in an inferior quality. The smaller vegetables are doing fairly well. In all sections however, warmer weather is badly needed. The river steamers are bringing down quantities of "new stuff," but the season to heavy shipments is net early.

THE CURRIE BUSINESS UNIVERSITY.

The Currie Business University has brought more natural happiness to more homes than any other institution of its kind in Eastern Canada. Its list of successes records the names, in many instances, of two and three from one family who have been trained and advanced to high salaried positions through this school's unlimited progress scheme of organization. Ten applications for office help were received last week, seven of which were filled. The new catalogue to be issued in a few days, will record an advance in the rate of entrance fee. Special terms can be secured by closing contracts this week.

LOCAL NEWS

The police report the glass broken in fire alarm box 57.

J. A. Tingley, Inspector of I. R. C. Police, is in St. John today, keeping an eye on the big crowds which the rail-ways have brought to the city.

Why not save from \$3 to \$5 on your new Summer Suit? This you can do if you let Pidgeon tailor your clothes. You know the place—Cor. Main and Bridge.

A fair quantity of strawberries arrived from up river points today. The wholesale price at the wharves was from 6 to 7 cents per box, which is the same as on Friday and Saturday.

The local company of the Army Service Corps arrived in the city this morning from Sussex, where they have been in camp for the past several days. The detachment of the Ordnance Corps, who will be the least to leave camp, arrive here this afternoon.

Last week the dredge Fielding while at work between the can buoy and the island picked up pieces of an old wreck. The relics show that the vessel's upper works were of hardwood and her bottom copper fastened. It is stated along the harbor front that the wreckage is from a brig that was sunk there about sixty years ago.

Estate of Margaret A. Kinneer, widow. Return of citation to pass accounts and for order for distribution. The accounts of Frank A. Kinneer, sole executor were before the court today and the executor duly proved the same, showing that he had kept the estate moneys in a separate account in the bank to the credit of the estate. The accounts as filed are duly passed, and order for distribution made. Mr. William A. Ewing, K. C., advocate for the executor.

Estate of William Christie, M. D. On application of Mr. George R. Vincent, advocate for the surviving executor, and Mr. A. P. Barnhill consenting, further hearing in this matter is adjourned until Thursday next at 11 a. m.

For some time the directors of Rockwood Park have been desirous of obtaining a new female deer for their deer enclosure, there having been only one doe among the herd and she showing signs of being in calf. Recently an opportunity occurred to procure a doe, the directors hearing of a suitable animal in Campbellton. In consequence of the city grant being cut in two this year all expenditures on the Park had to be taken to a minimum. It was felt that the opportunity of obtaining the addition to the deer enclosure could not be taken advantage of. His Worship Mayor Bullock hearing of the matter, kindly volunteered to pay the sum sufficient to secure the animal and accordingly at the end of last week the doe arrived at the Park by express in good order, and will form quite an additional attraction to the Park where it is rapidly becoming familiarized with its surroundings and acquainted with its new companions.

ATTEMPTED SUICIDE ON SATURDAY NIGHT

George Ferguson Put a Bullet in His Head But Was Not Badly Injured—Will Do Better Next Time.

George Ferguson, aged 36 years, attempted suicide at Oak Bay, Charlotte Co., Saturday evening. He had been drinking and created a disturbance in Stegfield Tower's house. When ordered out of the house he pulled a revolver and holding it at his head shot himself in the head. The bullet struck a bone over the eye and ploughed its way to the top of the head. He was arrested and taken to St. Stephen. Ferguson says he will make a better shot next time.

NEW EXPRESS CARS FOR RACING HORSES

F. P. Fox Arrives With Fast Siring From Woodstock—Greatly Pleased With Improved Accommodation.

F. P. Fox arrived in the city at noon today with his string of nine horses in a special car attached to the Atlantic express. He comes from Woodstock where his horses were in the circuit races. The car was taken through to Moosepath where they will put in the time until the opening of the races on the 22nd.

Mr. Fox was greatly pleased with the special car provided for him by the Dominion Express Company. It is of a new type specially constructed for carrying horses—so far only two of these cars are in use on the company's lines, but they have orders in for twenty-eight more. The car has accommodation for twelve horses and all the feed, etc., needed for taking care of them. Space is also reserved for the attendants. Everything possible has been provided to make the occupants comfortable and the car is a great advance on the old style of box car travel.

Mr. Fox is very enthusiastic about the new plan commenting chiefly on the time gained by shipping by express with the consequent benefit to the health of the horses. The improved ventilation also helps greatly.

SCHOONER ASHORE ON PARTRIDGE ISLAND

The C. B. Wood Struck in Dense Fog

At Early Hour This Morning—Probably a Total Loss—Owned by Stetson, Cutler & Co., B's'on.

At an early hour this morning in a thick fog and heavy sea, the two-masted schooner C. B. Wood ran aground off the Marconi Station on Partridge Island. The craft is probably a total wreck. The schooner was consigned to A. W. Adams of this city.

As soon as news of the disaster was received assistance was sent to the disabled vessel, but the low tide and dense fog made it impossible to clear her from the position which she struck.

The C. B. Wood is a two-masted American craft, in command of Captain Mitchell. She was running under great difficulty this morning. The fog was very heavy and the captain could not see for more than fifty feet ahead. Underneath the Marconi Station in the island the schooner went fast ashore. The captain with the assistance of six men worked vigorously to save the craft, but their efforts were unsuccessful. The news of the accident was conveyed to the city by telephone. Communication was received with A. W. Adams who sent the tug boat Help to the scene of the wreck. The tug left the city about 8:30 o'clock. Her efforts to haul the schooner from her position proved unavailing. The tugboat Little shortly afterwards was sent to the island with a scow. It was impossible however to aid the vessel, as the tide had receded considerably.

At noon the water was several yards from the schooner, which was lying on her side. Another effort will probably be made this afternoon to haul the schooner off.

The vessel is an American craft and was in ballast at the time of the accident. She was coming to this port to load for Stetson Cutler Company.

The crew and commander of the schooner experienced little difficulty in reaching the island and assisted in the efforts to haul the boat from her position.

BIG DAY OF SPORTS AT BROWN'S FLATS

Brown's Flats will be the scene of a fine series of water events next Saturday afternoon. At a meeting at Dr. Draper's residence on Saturday evening the Long Reach Outing Association arrangements were completed for what promises to be one of the best afternoons of sport of the season.

The events to be entered will be as follows:
Motor boat race.
Sailing race, single stickers.
Double scull race, men.
Double scull race, ladies.
Double scull race, boys.
Canoe race, Indians.
Canoe race, men.
Swimming race, men.
Swimming race, boys.

The following committee and officials have been appointed:
Committee of management—Dr. Draper, Dr. Gilchrist, R. A. Sinclair, S. B. Hissett and Mr. Lord, of New York.
Prize committee—Dr. Barton, R. A. Sinclair, R. H. Brodie, Dr. Draper.
Starter—D. Gilchrist.
Judges—Thos. Graham, F. A. Graham.

The sports will take place after the arrival of the steamer Champlain. Two handsome silver cups have been donated as prizes for the motor boats and sailing races, and there will be other suitable prizes for all events over having three starters.

In the motor boat race the start will be from Brown's wharf to buoy off Minnie's Island, to buoy off Crawford's Point and finish at wharf.

The course has been logged three and three-quarter knots.
Competing boats are to run over the course and give their speed in knots per hour. Any boat exceeding the speed given in by five per cent, will be disqualified.

After the sports the annual meeting of the association will be held at Dr. Draper's residence, Brown's Flats.
