

ENGLAND IS MISTRESS OF THE CLOUDS

Henry Farman, The English Aviator, a dark horse in the aviation contests, in a biplane of his own design, today broke the world's records for duration of flight and distance in a heavier than air machine, and won the grand prix de la champagne—the endurance test, by a remarkable flight officially recorded as 180 kilometres (111.78 miles) in three hours, four minutes, fifty-six and two-fifths seconds. He actually covered an

THE SURPRISE OF THE MEET AT RHEIMS.

Betheny Aviation Field, Rheims, France, Aug. 27.—Henry Farman, the English aviator, a dark horse in the aviation contests, in a biplane of his own design, today broke the world's records for duration of flight and distance in a heavier than air machine, and won the grand prix de la champagne—the endurance test, by a remarkable flight officially recorded as 180 kilometres (111.78 miles) in three hours, four minutes, fifty-six and two-fifths seconds. He actually covered an

HENRY FARMAN.

extra kilometres and remained in the air ten minutes after 7.30 o'clock this evening, the hour that the keeper under the rules, ceased to keep a record of the flight.

The Contestants.

The other contestants finished as follows: Hubert Latham, in monoplane No. 22—134 kilometres, 500 metres, time, 2 hours, 18 minutes, 9.35 seconds; Louis Paulham, in a Voisin biplane—131 kilometres; Count de Lambert, biplane—116 kilometres; Hubert, in monoplane No. 13—111 kilometres; M. Tissandier, biplane—111 kilometres; Roger Sommer, biplane—60 kilometres; M. de Gramont, monoplane—50 kilometres; M. Bleriot, monoplane—40 kilometres; Glenn H. Curtiss, biplane—30 kilometres; M. Lefevre, biplane—21 kilometres.

Although Hubert Latham, with a different machine, took second and fifth positions, the aviation committee held that he was eligible for two prizes and awarded the fifth to the keeper sander and the sixth to M. Sommer.

Complete Surprise.

While Farman's brilliant record as an acrobat should have warned the sharp that he was a dangerous competitor, his victory came as a complete surprise. He had been preparing his machine secretly and had not appeared upon the field until today except for a few practice flights and had been almost forgotten.

Indeed, after he started about 4.30 p. m., keeping close to the ground, while Latham and others were soaring in spectacular fashion high in the air, Farman attracted no attention until he had flown 80 kilometres. Then suddenly the watchers woke up and began to make inquiries, only to discover that he had gone out carrying petrol enough for a five hour flight and equipped with a self-cooling revolving motor built by the Gnome company after his own design.

All eyes had been riveted on the beautiful, graceful monoplane of Latham, who, after Tissandier's foul, Paulham's chances, had become the favorite for the grand prix de la champagne. They also had watched the enchanting flying picture unfolding above the field, with five miles between two biplanes and five miles between two biplanes and finally the arrival of two huge dirigibles, which evoked like great giants of the air above the fleet nimble machines in the lower stratum. The thousands of spectators literally rubbed their eyes to make sure that this evidence of men having conquered the air was not a dream.

LIEUT. COL. CROWE WILL HEAD THE R. M. C.

Kingston, Aug. 27.—Lieut. Col. Crowe, of the Royal Field Artillery and a graduate of the British staff college will be the next commandant of the Royal Military College.

BADLY BEATEN.

Glace Bay, N. S., Aug. 27.—A German workman from No. 3 colliery whose name could not be learned, was badly beaten by four strikers near the shipping pier Wednesday evening.

FOR GOVERNOR OF B. C.

Victoria, B. C., Aug. 27.—Hon. W. C. Wells will be the next Lieut. Governor of British Columbia according to authentic advices received here.

FIVE DROWNED AS STEAMER FOUNDERED

Ohio Strikes Reef Off Steep Point, Alaska, And Goes Down In Three Minutes—Passengers Are Safe.

LOSS OF STEAMER WITH CARGO COMPLETE.

Seattle, Aug. 27.—Five lives were lost in the sinking of the Alaska Steamship Company's steamer Ohio, off Steep Point, Alaska, early today. There were 128 passengers on board, but all those escaped, the victims being employees. The loss of the steamer and the cargo is complete. The drowned are: Purser F. J. Stephen, of Seattle; Wireless Operator George E. Eccles, of Wainipeg. Two seamen and the quartermaster, names not given.

A wireless dispatch says the Ohio sank in three minutes. This probably means that she was on the reef a considerable time and that the passengers were all off before the ship slid into deep water, which she did so speedily as to carry down five of the crew. Some of the passengers were taken ashore in lifeboats and taken by the fishing boat Kingfisher to Swanson Bay. Others were taken on the steamers Humbolt and Rupert City.

ADMIRAL BERESFORD ON CANADIAN SOIL

Distinguished Englishman Arrives At Rimouski—Declines To Talk On Matters Of Imperial Defence.

Quebec, Aug. 27.—The general expectation of the Canadians that Lord Charles Beresford, the famous fighting admiral of the British Navy, would give expression of his views on plans for naval defence involved at the Imperial Defence Conference, will not likely be fulfilled immediately. His chief address is to be delivered in Toronto about the middle of next week, and will be on naval matters, and he will not anticipate that address in any way, consequently to newspaper men who met him at Rimouski he merely declared that he could say nothing in connection with naval organization, the naval conference, or in fact, naval matters in any shape or form.

Special To The Standard.

Montreal, Aug. 27.—Later—The plans regarding Sir Charles Beresford were changed tonight on account of the late arrival of the steamer Victoria, which docked at midnight. Sir Charles will leave Montreal at 9.30 on a special train and will go right through to Niagara Falls, where he will spend Sunday as the guest of Mr. George Gooderham. The distinguished admiral will reach Toronto Sunday night and open the exhibition on Monday.

REV. J. W. MCCONNELL ACCEPTS SYDNEY CALL

Fredericton Clergyman To Succeed Rev. J. L. Batty As Pastor Of Jubilee Methodist Church.

Fredericton, Aug. 27.—Rev. J. W. McConnell, pastor of the Fredericton Methodist church, has accepted a call tendered him recently to the pastorate of the Jubilee church at Sydney, N. S. Rev. Nell McLaughlin, of St. John, will be the next pastor of the local church and the changes will take place at end of the present conference year in June next. Mr. McConnell's change to Sydney will make necessary his transfer from the New Brunswick conference.

KILLED IN COLLISION.

Brighton Beach, Motor Drome, Aug. 27.—Louis Cole, mechanic of the Stearns car, in 24 hour automobile race was killed here tonight and the driver, Laurent Gross was fatally injured in a collision with the Acme car shortly before midnight. Pat Cheke and Maynard, the crew of the Acme car were only slightly injured. Both cars were wrecked.

RELEASED.

Special To The Standard. Quebec, Ont., Aug. 27.—With two months of his sentence not served, Cornelius Kennedy, the young Stratford engineer, whose freight train took the wrong turn at Harrison, resulting in a wreck and the killing of two men has been pardoned and released from jail.

Scheme for Imperial Defence Marks New Epoch in History

London Times Commenting On Recently Avowed Policy for Defence, Predicts New Era.

London Press All But Unanimous In Its Commendation of the Proposed Scheme.

Premier Asquith Continues His Remarks on Subject—Canada to Construct Her Own Ships.

Special To The Standard.

London, Aug. 27.—The London press is unanimous in its approval of the new naval arrangement. The Mail proclaims it is one more proof of the large patriotism and the imperial spirit of the British people. The Morning Post says it is the foundation of a great imperial system of defence.

The Standard says the scheme will secure the outlying portions of the Empire against any attack, but that of a first-class fleet and hopes the highest posts of the imperial navy will be open to colonial sailors.

Epoch Making Announcement.

The Telegraph thinks the statement the most epoch making announcement of our time, and adding respecting the Canadian scheme, that a few isolated ships of that sort count for practically nothing. The important point however, is that a start is to be made and the end no one can presume to tell. As is perhaps natural, the Liberal press takes advantage of the occasion. The Chronicle declares the result of the conference another triumph.

The Leader remarks that the new scheme is animated throughout by the true zeal for freedom of local liberties which has marked the past great triumphs of the Liberal colonial policy.

The News strikes the one note of adverse criticism, remarking that there is no reason to modify the views of all competent English authorities that such scattered forces are of very little value, and arguing that the Empire is imperilled, the struggle will occur in European waters. The News adds that the scheme is one more reminder that the older colonies have really become independent, but that the development is no matter for regret.

A New Period.

Broadly regarded the conclusions of the defence conference, says the Times, justify the high expectations. It welcomes particularly the creation of a Pacific squadron, and concludes that the proposals open a new period in Imperial history. Regarding Canada and Australia laying foundations for their own naval feet the Globe says it is an unfortunate determination and may have disastrous consequences.

Regarding the statements from Canada that the ships of Canada's navy are to be built in England, The Canadian Associated Press has learned on the highest authority that the vessels are to be built in Canada.

Disposition of Fleet.

The disposition of the Canadian naval fleet, it is learned, will be two cruisers in the Pacific, a cruiser and four torpedo destroyers in the Atlantic. The two cruisers to be lent by the Admiralty, pending construction will be of the Apollo class. Cadets may be received at Osborne and Dartmouth. The drydock to be built will accommodate the largest warships. They might be placed in the Pacific, the Atlantic and in the St. Lawrence river.

Continuing his remarks in the House of Commons yesterday in regard to the deliberations of the Imperial Defence Conference, Mr. Asquith pointed out that New Zealand preferred to adhere to her present policy of contribution, while Canada and Australia preferred the formation of fleets of their own. Conditions were recommended that the fleets must be of a certain size to offer a permanent career to officers and men and standard vessels and armaments should be used. The generous offers of New Zealand and the Commonwealth to contribute towards imperial naval defence have been accepted with the substitution of large cruisers for battleships, these to be maintained one on the China Station and one on the American Station.

As regards Canada, it was considered that the double sea-board rendered the provision of a fleet unsuitable at present, but Canada would make a start with cruisers of the Bristol class and destroyers of the River class, part to be stationed in the Atlantic and part in the Pacific. According to the arrangements already made the Canadian Government would undertake the maintenance of dockyards at Halifax and Esquimaux. Australia would eventually undertake the maintenance of dockyards at Sydney. The papers would be laid before parliament, the premier hoped before the session was concluded.

IS HARRIMAN DYING?

THE HARRIMAN HOME AT ARDEN, N. Y., AND A PICTURE FROM AN OLD PAINTING OF MRS. HARRIMAN.

E. H. HARRIMAN, UPON WHOSE HEART THROBS THE COMMERCIAL WORLD IS WAITING.

PHYSICIANS HASTENING TO BEDSIDE NEVER BETTER STRIKE THAN SPRINGHILL

News Is Meagre Of Railway King's Condition But Incidents Of Yesterday Point To An Adominal Operation.

Arden, N. Y., Aug. 27.—Whatever be Edward H. Harriman's ailment, whatever be his true condition, the public is not to know until he and his family decide that such an announcement is opportune. He is an isolated individual, with the nature of his affliction held a mystery to those outside his mountain retreat. At the top of Tower Hill, where the railway stops, with roads picketed by guards, and all but one telephone wire—and that a private one—he spends his days and nights in seclusion almost complete.

Scraps of news, dropped from the lips of a relative, an associate and an employee, indicate that he spent a quiet day, part of it out of doors, but there were other indications which led those who are draining the meagre channels of information to believe that all is not well. There was the arrival at the station at Turner of two tanks—something which may have had no bearing on Mr. Harriman's illness, but which appeared significant in that they were recorded on the bill of lading as "oxygen." Shortly afterward there came a small collapsible cot, such as is used in hospitals to move patients between wards. Both were placed in automobiles and later sent up the incline railway to the estate.

E. S. McCollough On His Departure For Indianapolis Is Cheerful Of Labor Conditions In Nova Scotia.

Special To The Standard. Halifax, N. S., Aug. 27.—On his way to U. M. W. headquarters in Indianapolis after three months in the strike district of Glace Bay and Springhill, E. S. McCollough, vice president of the U. M. W., arrived in Halifax tonight. "What is the strike situation in Springhill from your personal knowledge?" A standard correspondent asked.

Never Better. "There never was a better strike than the one at Springhill. It is the most complete in the history of such strikes. Nearly all the strikers are of one mind. Why, the company cannot even get men to cut hay or haul coal to the officials' houses. The company's officials are running the pumps. The U. M. W. was never asked to do this."

"How is the situation at Glace Bay?" "Everything there is in very good shape. The men are more determined than ever. The U. M. W. has found houses for all the miners evicted and will continue to supply accommodation. The men are ready to take any shelter offered them."

While taking down an old building on Saturday, Andrew Robertson of New Glasgow discovered an old Spanish coin of considerable value.

THOMSONS TO OPERATE NEW LINE TO ITALY

Important Announcement Made At Montreal Yesterday—New Steamship Line To Connect With St. John.

NEW STEAMER BUILT FOR ROUTE.

Special To The Standard. Montreal, Aug. 27.—Announcement was made here today by Messrs. Bedford Co., Ltd., Canadian agents of the Thomson and Donaldson lines, of the launching of a new steamer, the Tortona, on the type, by Messrs. Swan, Hunter and Wigham Richardson, for the Canadian trade, of the Thomson Line. The new steamer will come to Montreal this fall and sail direct for Italian ports, trading between these ports and St. John during the winter months. During the summer the Tortona will be placed on the London service of the Thomson Line, the first of the vessels sailing under that flag to carry passengers.

Four-Masted Twin-Screw.

The fact that she was built by the builders of the Mauretania ensures for the Tortona the highest development in the shipbuilders art. She is a four-masted twin-screw steamer, with an overall length of 464 feet, built to the highest class at Lloyds and will have capacity for 40 first class and 1080 steerage. The Thomson Line has for many years been giving a service to Montreal from the Mediterranean in the early spring and late fall, but they now intend to branch out into the passenger business to Italian ports, feeling sure that there will be considerable passenger business from Montreal in the fall and from St. John in the winter to ensure the success of the service.

STEAMER MAKES PORT WITH \$25,000 MISSING

St. Denis Arrives At Port Arthur With Strong Box Broken Into And Gold Gone—Steward Responsible.

Prince Rupert, Aug. 27.—With her strong box broken into and a package containing \$25,000 missing, the Boscomwith steamer St. Denis, arrived today from Port Essington and anchored in the harbor to prevent any one leaving the ship. The police were notified and searched the passengers and sent them ashore. A search of the crew and quarters revealed \$5000 stuffed in a mattress in the stewards' rooms and various amounts were hidden amongst the cargo in old cans and spittoons. A loaf thrown from the galley was picked up floating with \$2000 stuffed into it. All the money except \$2,500 has now been recovered and seven suspects from the crew are in jail awaiting trial.

RIVER STEAMER BURNS AT DOCK IN MONTREAL

Richelieu And Ontario Navigation Company's Steamer Prescott, Burns To Water's Edge—Loss \$20,000.

Special To The Standard. Montreal, Aug. 27.—The Richelieu and Ontario navigation steamer Prescott was burned to the water's edge while lying alongside the Victoria pier in Montreal harbor tonight, and the adjoining shed and its contents seriously damaged. The loss is placed at \$20,000, covered by insurance.

HARVEST CONDITIONS ACUTE IN MANITOBA

Scarcity Of Hands In Wheat Belt Bound To Cause Heavy Loss—Effort Being Made To Sidetrack Excursionists.

Winnipeg, Aug. 27.—The harvest conditions in Manitoba are growing worse and the Agricultural Department this morning said there was bound to be a heavy loss as a result of the lack of hands in Manitoba. A big effort will be made to keep the harvesters arriving today in the province though the majority from Ontario are generally set on going further west.

Yachtsmen report that large schools of swordfish were seen departing themselves recently not far from Chester.

WORTMAN GETS TWO YEARS FOR INCENDIARISM

Kings County Man Accused Of Setting Fire To Barns Owned By Robert Green Is Found Guilty.

SENTENCE WAS PASSED YESTERDAY.

Special To The Standard. Hampton, N. B., Aug. 27.—Two years with hard labor in Dorchester penitentiary was the penalty meted out today by Judge Wedderburn to Amos Wortman, adjudged guilty of arson. The prisoner was charged with setting fire to barns owned by Robert W. Graves at Waterford on July 27, which resulted in the loss of two barns and a number of other buildings, including the dwelling house in which Graves and his wife were sleeping and from which they barely escaped with their lives. At the opening of today's session of the court the evidence of the complainant, Robert W. Graves, had been advanced to the point where he had had a conversation with the accused on the day of his arrest.

Asked Counsel.

Before proceeding his honor asked the counsel to view the progress of the inquiry so as to aid him in answering three questions which had been on his mind. If the prisoner was proved guilty upon the evidence, the question arises as to his mental condition at the time of committing the act. If of sound mind his course was clear.

If the accused was found not guilty, should his friends consider what to do with him? Should a commission of two magistrates inquire into his condition and act upon the result? Further, should the accused be present in court during the taking of the testimony of medical experts and what effect will the hearing of the defamatory evidence have upon him? As to that, Mr. Fowler, who was associated with Mr. W. D. Turner, the prosecuting officer, expressed the opinion that the ordinary course should be followed. The young man's condition is not as bad as has been made out, and it would be found that the evidence would not be likely to affect him harmfully. Mr. McIntyre, for the prisoner, demurred to Mr. Fowler's statement, but his honor said that he desired that the case should be thoroughly sifted, and no injustice done to him, his friends or the public.

Evidence Resumed.

The evidence against the prisoner was then resumed. Constable William McLeod testified to arresting accused at Penobscot, and taking him to Sussex and subsequently to the jail at Hampton. He had little conversation with his prisoner, who made no confession to him, nor was he convicted.

Continued on Page 3.

BRITISH SCIENTISTS DISCUSS ST. LAWRENCE

Col. Anderson Holds That The Great Canadian Waterway May Be Made Safe For Navigation All Year Round.

Special To The Standard. Winnipeg, Aug. 27.—The British scientists had another busy day, all twelve sections holding sessions. Two of the presidential addresses were delivered this morning, those of Prof. Shibley, of the Zoological Department, and Prof. Starling, of the Physiological. Prof. Shibley thought governments should give naturalists and zoologists more assistance. He hoped millionaires would come to the assistance and help equipment expeditions, in the engineering department Col. Anderson, of the Marine Department, Ottawa, explained what had been done to make the St. Lawrence safe for navigation. He thought with properly constructed ships the river could be made safe the year around.

10 ARE KILLED IN DYNAMITE EXPLOSION

700 Pounds Of The Combustible Explodes, Killing Ten And Seriously Injuring Five—Cigarette The Cause.

Key West, Aug. 27.—As a result of the explosion at noon today of 700 pounds of dynamite at Boca Grande, 12 miles from Key West, on the Florida coast railway, ten men are dead and five others seriously wounded. The explosion was caused by a member of the railroad construction force carelessly throwing a lighted cigarette into a box of fuses.

In a conflagration occurring at Millton, Nova Scotia yesterday a large amount of property was destroyed.

THE NAMES OF CORRESPONDENTS OF 'FREE SPEECH' HELD IN COURT

At Preliminary Examination of C. Bruce McDougall Yesterday Counsel for the Prosecution Gave Particulars of Papers Seized in Moncton--Hearing Adjourned Until Monday.

Good progress with the preliminary examination of C. Bruce McDougall, charged with publishing defamatory libel in Free Speech was made in the police court yesterday, and after two lengthy adjournments the hearing was made until Monday at 11 o'clock.

A feature of the proceedings was a disclosure of the names of correspondents for the paper, a number of provincial and Nova Scotia towns being placed in evidence the papers seized by Chief Rideout at McDougall's residence at Moncton.

One witness told of successful efforts to get possession of correspondence between McDougall and the Advocate Publishing Co. of Newcastle, relating to the printing of the paper.

This witness, W. J. McNeill, secretary-treasurer of the printing company also gave the information that Free Speech had been printed as usual this week and that it was known to him as Bismarck, but whom he believed to be a brother of C. B. McDougall, had been in communication with him regarding the issue of the paper.

In the letters read in court there was very little of local interest. Miss "Molly Holly" evidently a fictitious name was signed to some North End notes, and one scrap was signed by a youth named Johnson. Outside of these no names of St. John correspondents were revealed, though Sussex, Chatham, Bathurst, Moncton and a number of Nova Scotia and P. E. I. towns were all represented by correspondents who were named.

Mr. A. J. B. Mellish of Charlottetown and Mr. J. C. Sherren of Moncton appeared for C. Bruce McDougall. Mr. J. B. M. Baxter and Dr. A. W. MacRae conducted the prosecution. When the case resumed in the morning, Mr. Mellish counsel for McDougall said that before proceeding he wished to call attention to comments in the press which might influence jurors of his client when sent up for trial. He referred to His Honor Judge Forbes having dwelt on the point in the reports of the Mirisissis case.

The magistrate stated that the reporting of evidence was allowed, but comment was not permitted and the press must be governed accordingly. Wm. J. McNeill was the first witness to take the stand. Before giving his evidence he made a formal objection to avoid incriminating himself in the course of his testimony.

Where Paper was Printed. Replying to Mr. Baxter he said he lived in Newcastle, Northumberland, and for the last two years, had been a mechanic and foreman of the Advocate. From 4th Nov., 1907, to 3rd May, 1908, he was foreman for Anslow Bros and since 1908 until 2nd of August, foreman for the Advocate Publishing Co. Limited. He was elected secretary-treasurer on that date. He worked mostly on job printing. He had transacted business by letter with C. B. McDougall. He had met the defendant and had talked with him in Moncton and Newcastle. Witness first saw the accused in Moncton on the railway station platform, but could not remember if he had an agreement. He intended to see accused; nobody sent him. The first time he saw him he did not go to see him. He could not say he saw him first in Moncton or Newcastle. He went to Moncton to see another party and not to meet the defendant. McDougall wanted him to print a paper for him. He was pointed out to him. Nothing of importance passed between them.

Introduced Himself. Witness introduced himself to accused saying: "You are Mr. McDougall, and I am W. J. McNeill." He could say what day, but he made an appointment with accused and met him at the Brunswick Hotel. Defendant asked him to print a paper for him called Free Speech. The company were at that time printing the paper. The first issue of the company printed was on the 25th July, 1908. It was about six weeks after the first issue that he met accused. Witness made the agreement to print the paper. H. H. Stuart and Harry B. Anslow also made the agreement. The first talk witness had with accused was about making Free Speech an eight-page paper. Defendant asked what the price would be, and witness doubled the then existing price, which was \$30 for 2,500 copies. Witness went to Moncton a second time to meet accused. That was before the first of January of the present year. He went to Moncton on other business and saw McDougall who gave him some money, which was due. Witness received money in an envelope, sometimes by express orders and sometimes by postal orders. He had no trouble financially with accused. The number of copies had increased to 7,500.

Will Prove McDougall Editor. Objection was made by Mr. Mellish to the mode of questioning by Mr. Baxter on the ground that the question was whether the defendant published the paper at the time of the libel. Mr. Baxter said that one feature on the case would be the absolute proof that McDougall was the editor of the paper. Mr. Mellish asked to have the examination limited. Continuing, witness said he arranged by letter to C. B. McDougall, Moncton. He wrote the address on the envelope. He received copy for the paper from C. B. McDougall and talked the subject matter with him afterwards. At times the letters would be signed and sometimes not. He did not preserve the letters. Copy was also destroyed, when the paper was printed.

Correspondence Produced. Mr. Baxter produced some correspondence which was seized last week in Moncton. On being shown the witness, he said that he could not identify the writing because all correspondence from St. John was always typewritten. From other places he had seen the correspondence in writing. Objection was again raised by counsel for the defence that the evidence

MIRISSIS FOUND GUILTY WITH RECOMMENDATION TO MERCY

Trial of Vendor of "Free Speech" Concluded in County Court Yesterday--Will Be Sentenced This Morning--Interesting Features During Hearing--Juror Reprimanded.

At five minutes to six yesterday afternoon the jury in the case of the King vs. George Mirissis, indicted in the County Court for selling Free Speech, an alleged obscene publication, through Mr. Isaac Northrup, the foreman, found the prisoner guilty with a strong recommendation for mercy. The Greek's store on the night of July 31. He contradicted Lucas with regard to the warning Lucas says he gave him about the immoral or obscene character of the paper.

Witness--I swear ten times the paper I know not was bad. I don't know about "moral." I said to him "what is moral." I thought he said "moral." Q--Did Lucas ever warn you that you would be arrested if you continued selling Free Speech. Ans--No. Witness denied that he ever had any conversation with Officer Hughes.

Legal Advice From the Boys. Q--Did you ever get legal advice? Ans--Only from the boys. Witness--The postmaster gave you advice. Witness said that he asked one policeman why he was not warned that he was violating the law. The accused said he told the boys that he was willing to "go by the rules of the city."

Witness denied that he ever wrote to Moncton to have Officer Marshall or James O'Brien's name kept out of the paper. He denied that he ever acted in the capacity of correspondent. Referring to the evidence given by Walter Hughes, witness said that when he showed the paragraph about Mr. Golding to him, Golding replied: "Oh, that was written by the chap in the Happy Half Hour. Witness said that he received many anonymous paragraphs with the request to forward them to Free Speech.

Q--What did you do with it? Ans--I got someone to read and when I find who it is I tear it up. Mirissis denied that he ever told Mr. Golding that he sent news to Moncton. Q--Did you have anything to do with this paragraph about Mr. Golding? Ans--No. Witness flatly contradicted Dunlop to the effect that he was not to be spoken of in English but you can draw inferences.

Witness said that he did not threaten to prosecute the Free Speech. Mr. Mullin produced the Golding receipt and asked witness to explain the matter. Witness said he would dictate it to someone and then made a copy. Cross-Examination. Q--Who wrote the letters besides Roy and McNuttie? Ans--I don't know. Witness denied that he could read and write Greek.

Q--Who is this man Roy? Ans--An insurance man. Q--What insurance office? Ans--I don't know. Q--Would you know his last name if you heard it? Ans--No. Q--What profit would you make on Free Speech? Ans--One cent to newsboys, two from the store.

Witness said that he got Charles M. Lingley, a printer, to print envelopes marked C. B. McDougall, editor of Free Speech, Moncton, N. B. Box 336. Q--Then you were not telling the truth when you said these envelopes would be sent to Moncton? Ans--Yes. Q--Who wrote letters besides Roy and McNuttie? Ans--I don't know the names. Mr. Hazen produced a letter written on behalf of Mirissis. The letter was written on the accused's letter head. He admitted owning the letter head, but claimed he could not read it.

Pay For the Correspondent. Mr. Hazen read the letter subject of Mr. Mullin's objection. After speaking about the number of papers sold and the money remitted the letter continued: "I deduct \$3 to pay the correspondent. I have no news but will send it later." Witness (in a loud voice)--"No, I never said it. Let me see it." Mr. Hazen read another letter, dated July 7, '09, in which was written: "I deduct \$3 for correspondence, also \$7 for a cartoon cut." This letter was written on Mirissis' letterhead and signed, "George Mirissis." The cut was a cartoon of Mayor and Sheriff Willet, of Moncton.

Witness denied that he ever said anything about correspondents in his letters. The two letters he said were written by different persons. Witness could not remember who wrote the last mentioned letter. Wrote of His Arrest. A third letter, dated Aug. 17, '09. This letter was written to McDougall and signed by "George." It and one of the others were both in the safe handwriting. This last letter was a warning to McDougall of his arrest, and said that he heard Baxter and MacRae were going to make trouble. It also thanked McDougall for his encouragement.

Mr. Hazen--Here are the replies from McDougall. Ans--In my store. The letters were put in evidence, subject to Mr. Mullin's objection. Mirissis contradicted both Officers Crawford and Hughes' evidence, also the evidence of Walter Golding and the evidence of James Dunlop, witness emphatically denied. Afterwards, witness, when shown the cartoon of Mayor Willet, denied that it was the one he paid for. Q--Did you not tell James O'Brien that you had got legal advice to the effect that you could shoot any one who would interfere with him in selling Free Speech? Ans--No. Q--Did you not tell him that you had a revolver in your cash register? Ans--No. Mr. Mullin called Thomas Kitchman

and John Donnelly, who were not in court. Mr. Mullin consented to having the evidence of Thomas Kitchman read, which was done. At this juncture Donnelly came into court and after Mr. Kitchman's evidence was read John Donnelly was sworn. Wrote Letters for Mirissis. Witness said he resided on Moore street and was a clerk in Caples' store, Main street. He said he knew Mirissis in a business way. Q--Did you ever write any letters for him? Ans--Yes. About last February. I told him I would write all the letters for him. I wrote the last letter for him last month. I would make out their returns and do all their business. Witness denied that he wrote any letters to Free Speech or to C. B. McDougall. He was shown the letters sent to McDougall, but said he knew nothing about them.

The Attorney General called James O'Brien in rebuttal. Mr. O'Brien said he knew Mirissis well and had conversation with him about Free Speech. Mr. Mullin--I object to this evidence. The statute provides that the time and place of the alleged conversation must be called to the attention of the jury. This was not done and I submit Mr. O'Brien is thereby precluded from giving evidence. The court adjourned at this point, and the argument was deferred until the afternoon session. Afternoon Session. When the court met at 3 o'clock, Attorney General Hazen argued that there was nothing in the statute to show that the crown had to designate the time and place to what he said to a third party. Mr. Mullin having taken this objection in the morning agreed with Mr. Hazen, but objected to Jas. O'Brien giving rebuttal evidence on other grounds. This arose over the accused denying that he said to Mr. O'Brien that he had consulted a lawyer who told him to shoot anyone who attempted to interfere with the sale of Free Speech. In the end His Honor would not allow O'Brien's evidence. The Attorney General did not press to have him sworn. This closed the case for the defence and Mr. Mullin before addressing the jury moved to have the evidence of the witnesses whose names did not appear on the back of the indictment (only the names of Firmin and Lucas appear on the back of this paper) struck out on the ground that notice had not been given him as required by law. He cited several English authorities in support of his argument. Attorney General Hazen argued that the authorities cited were conflicting. His Honor disallowed the motion.

Speech For Defence. Mr. Mullin then delivered an able

\$5,000 CASH IS OFFERED IN PREMIUMS FOR HORSES, CATTLE, SHEEP, SWINE, POULTRY, DAIRY, AGRICULTURAL, HORTICULTURAL AND FLORICULTURAL PRODUCTS, FIRE ARMS AND LADIES' WORK, ETC., AT NEW BRUNSWICK'S BIG FAIR. THORNE BROS., HATTERS & FURRIERS 93 King Street.

address to the jury, going into every phase of the case. His address was practically the same as given at the first trial only he went into details in a more thorough manner. Speaking about his own "roast" in the Free Speech, the learned counsel for the defence said: "But I have friends who were more than zealous in looking after my professional reputation." After Mr. O'Brien's evidence was read, the Attorney General in a brief but eloquent address reviewed the case and asked the jury not to be swayed by the "sympathy plea." His Honor briefly charged the jury. In pointing out the evidence he intimated there was sufficient evidence to warrant conviction. The jury then retired and brought in a verdict of guilty as previously stated. Mirissis will be sentenced this morning. The case against Allottis, his partner, will go over until the next session of the court.

Meeting Postponed. The meeting of the council of the Board of Trade was postponed yesterday morning until next week. The delegates to the Maritime convention at Charlottetown will make a report at the meeting. The withdrawal of the local board for the Maritime union will be the topic for discussion at the meeting.

Tenders for Piling The City of St. John Invites Sealed Tenders for the placing of piles at the approaches to the West side of the Stearns Ferry in the Harbour of the City of Saint John, N.B. and specifications to be seen in the Office of the City Engineer, City Hall, Prince William Street. Tenders endorsed "Tenders for Piling, Carleton Place" will be received by the Common Clerk until noon of Friday, the 27th September next, and none will be accepted unless on form supplied by the City Engineer. A certified bank check or cash deposit equal to five per cent. of the estimated value of the work will be required to accompany each tender. The City does not bind itself to accept the lowest or any tender. P. A. MACINTYRE, City Controller. City Hall, St. John, August 28th, 1909.

ISSUE OF THE BLACK CAPITALIZATION--The National Trust

The first payment shall not be less than succeeding year a similar sinking fund purchased in the open market. The charter has been granted by the Dominion of Canada, on the line of the Quebec and Atlantic Railway. These properties most important assets surround some of the properties. The Union Mine, The Southwark, McMill University, The Imperial School, Aachen, Germany, by the Dominion of Canada. The Black Lake, Full copies of the Annual Report of the Amalgamated Union Company. The property is well known of which show asbestos have been worked for date and entirely independent of large capacity will net per annum. Mr. Riehl in 1908 produced, and that "tions" to come. The Southwark only, at a time when it and 100 tons of crude Mr. John J. Riehl, easy to see that, with paying producer, and Mr. Riehl in 1908 be \$142,000 per annum. The Imperial will earn \$145,000. The Black Lake acres, and the inability at the present time, demonstrate the great ing to the contour of the working faces will In conclusion he says means be developed. ISSUE OF \$1,000,000 OF 6 PER CENT. GOLD BONDS OF THE BLACK LAKE CONSOLIDATED ASBESTOS CO., LTD.

(Incorporated under the Laws of the Dominion of Canada.) CAPITALIZATION—FIRST MORTGAGE 30-YEAR 6 PER CENT. SINKING FUND GOLD BONDS

Subject, as to entire issue, to call on any interest date prior to 1914 at 105 and accrued interest and at any time thereafter at 110 and accrued interest.

Table with columns for Bonds, Stock, and Common shares, listing authorized, reserved, and issued amounts.

DIRECTORS

The following gentlemen have consented to serve as Directors: J. N. GREENSHIELDS, K.C., Director of the Shawinigan Water and Power Company, and the Quebec Railway, Light and Power Company.

TRANSFER AGENTS. The National Trust Co., Montreal. REGISTRAR. The Montreal Trust Co. Limited. BANKERS. The Molsons Bank.

The first payment to the sinking fund must be made during the month of September, 1915, which payment shall not be less than the sum of Twenty Thousand (\$20,000) Dollars.

The sinking fund must be invested in bonds of The Black Lake Consolidated Asbestos Co., Limited, purchased in the open market at lowest price obtainable, but not higher than a price to return 5 per cent. per annum on the investment.

A charter has been granted to The Black Lake Consolidated Asbestos Company under the laws of the Dominion of Canada, which will acquire, control and operate various asbestos producing properties situated on the line of the Quebec Central Railway, in the Province of Quebec, and about 160 miles from Montreal, which are as follows:—

- The Union Asbestos Mines... about 110 acres. The Southwark of St. Mine... about 117 acres. The Imperial Asbestos Co... about 158 acres. The Black Lake Chrome & Asbestos... about 5000 acres.

These properties are in the serpentine belt in the Black Lake and Thetford Mines district, in which the most important asbestos mines in the world are located. They have an area of about 5,385 acres and partially surround some of the most profitable companies in the district.

The properties included in the merger have been carefully examined and reported upon by the following engineers: The Union Mines by H. C. Riehl, M. E., and T. H. Crabtree; The Southwark Mines by H. C. Riehl, M. E., Professor John A. Dresser, M. A., F. G. S. A., Dept. of Geology, McGill University, and John J. Penhale, M. E.

The Black Lake Chrome & Asbestos Company by H. C. Riehl, M. E. Full copies of these reports can be obtained on application. The Union Asbestos Mines, among the oldest and best known in the district adjoining the British Canadian of the Amalgamated Asbestos Corporation and the rich Black Lake properties of the Johnson's Company.

The Black Lake Chrome & Asbestos Company, owing to the vast area of this property, over 5,000 acres, and the inability of Mr. Riehl on account of the limited time at his disposal, to examine the whole of it at the present time, a report has been prepared by Mr. Riehl, in which he states that the property, which, however, demonstrates the possibilities of this property. Speaking of these he says:—

"These workings all show veins of asbestos of good value, quite evenly distributed through the rock. Owing to the contour of the land here, it would be an easy matter to feed a 500 ton mill in a very short time, as the working faces will almost immediately become so extensive that the cost of mining will be extremely low. In conclusion he says:—The value of the property is very great, and, in the writer's opinion, it should by all means be developed on a large scale immediately, as considering the many outcroppings of asbestos, the workings, which have produced good asbestos, and also the general trend of the asbestiferous formation through the property, you cannot help but develop a very large mine. It would then be only a question whether to build one large centrally located mill or operate several smaller mills of say 300 tons capacity each.

The Black Lake Chrome and Asbestos Company are believed to be the largest known on the American continent, they have not been taken into consideration, though undoubtedly of great value. Mr. Riehl in his report says:—Upon the Black Lake Chrome Company's properties there is a splendid chrome iron mine, a steam engine, and a mill chrome iron on an extensive scale. This is an electrically driven plant, which has been well maintained and well kept up. There are also several houses on the property for the employees. The Black Lake Chrome Company has its own siding on the Quebec Central Railway. The chrome iron deposits are very extensive and well developed, and the ground in the chrome iron areas has been well explored, both by extensive underground workings and by diamond drilling, but as this report is essentially upon the asbestos contents of the property, I will confine myself to same.

The policy of the company will be aggressive, in accordance with the recommendation of Messrs. Riehl and Penhale, two mills will be erected immediately, the revenue from which as estimated by them, after deducting administration and maintenance charges should be:—

Table showing financial details: Interest on \$1,000,000 Bonds to be presently issued (\$60,000), Interest on outstanding imperial bonds (\$70,000), Dividend on \$1,000,000 Preferred Stock (\$136,000), Surplus (\$115,000), and Common Stock (\$130,000).

Making a surplus of \$245,000 at the rate of about 8 per cent on \$3,000,000 Common Stock. The Black Lake Chrome and Asbestos Company will in due course be equipped with one large mill or several smaller ones in accordance with the recommendation of Mr. Riehl, the earnings of which, together with the profits from the chrome iron mill, which is fully equipped, will materially increase the revenue.

The Black Lake Consolidated Asbestos Company, when the full amount of the present bond issue is paid in, will have all of its properties paid for and more than \$500,000 available for their equipment and development, etc.

The remarkable growth of the asbestos industry in Canada is demonstrated by the fact that all grades have doubled in output during the past eight years in spite of the enormous increase in the output from 24,000 tons in 1901 to 400,000 tons in 1908, proving that the demand has kept ahead of the supply.

Power is furnished in the form of electricity from the Shawinigan Power Company and the St. Francis Power Company, both of which have transmission lines to the Black Lake district. It is intended that application will be made to list all securities of the Company on the Stock Exchanges of Montreal and Toronto.

We offer for each \$1,000 subscribed:— \$1,000 par value First Mortgage Bonds, 250 par value preferred stock, 500 par value common stock.

payable 5 per cent on subscription, 15 per cent on allotment, 10 per cent on the first day of October next, and 10 per cent on the first day of each and every month thereafter until fully paid, as per Subscription Agreement. All payments carry interest at the rate of 6 per cent per annum from date of payment.

Additional information can be obtained from or subscriptions made through:— Rodolphe Forget, J. C. Mackintosh & Co. McQuaig Bros. & Co. Member Montreal Stock Exchange, Members Montreal Stock Exchange, Montreal.

The following form to be filled in and forwarded to J. C. Mackintosh & Co., St. John, together with a cheque or draft for the first instalment payable to their order.

Black Lake Consolidated Asbestos Co., Ltd. TO J. C. MACKINTOSH & CO., ST. JOHN,

I hereby subscribe for... dollars of the 6 per cent Gold Bonds of this Company (carrying bonus of 25 per cent of preference and 50 per cent Common Stock), payable as stated in advertisement, with privilege of paying in full at any time, and agree to sign the regular subscription form. I herewith enclose... dollars, being first instalment.

NO FREE WOOD IS POSSIBLE

Washington States That Payne Bill Still Protects Home Industries—Duties to Prevent Imports from Canada.

REGULATIONS TO BE MADE PUBLIC

Washington, Aug. 27.—The wood pulp and paper mills of Maine and New Hampshire will continue to enjoy the home market with little or no competition from abroad under the new tariff act, is the opinion of treasury department officials.

Foreign Governments. It will be remembered that the duties to be placed on wood pulp and print paper were made dependent upon the action of foreign governments in connection with the trade, heavier duties being laid if such governments assess export duties on the products in question coming to the United States, or prohibit such exports or otherwise discriminate against the United States.

To Prevent Import. It is understood that their effect will be practically to prevent the free importation of wood pulp altogether. The bill provides a duty of one cent per pound on mechanically ground pulp, except when imported from countries which impose no restrictions on the trade.

Chemical Wood Pulp. The regulations will contain similar provision with reference to chemical wood pulp imports. It is understood, however, that the province of Ontario prohibits the exportation of pulp wood, the treasury department will levy a duty of one-twelfth of a cent a pound on mechanical wood pulp coming from that province.

Swedish Canada wood pulp imports come only from Sweden, according to department officials. Some time ago it was determined that Sweden exact an export tax on that product and consequently an amount equal to that tax will be added to the specific rates prescribed by the Payne law. Therefore, it seems settled that there will be no free trade in wood pulp.

NEW YORK MAN MAKES QUEER BEQUESTS IN WILL

Relatives of Alfred Karutz Who Do But Attend Funeral Will Be Passed—The Obsequies Will Be Well Attended.

New York, Aug. 27.—The will of Alfred Henry Karutz, of 1200 Lexington avenue, who died at Walker Valley, this state, on August 3, leaves \$5,000 to the German Evangelical Aid Society of Brooklyn, for the Home for the Aged, conducted by the society with this provision:—

In consideration for which said society shall give a home to any of my direct relatives who may be compelled by circumstances to seek a home there. This is to apply only to the children and grandchildren of my brothers and sisters.

The will makes bequests to forty relatives and contains this paragraph:— In case any of the heirs or next of kin who live within twenty-five miles of the city of New York do not attend my funeral I revoke any and all bequests to them, unless such absence was caused by sickness or physical incapacity.

The testator also provided "that my executors shall disburse for the expenses of my funeral the sum of \$500 and that they shall provide and pay on the day of my interment a dinner with liquid refreshments for each person attending the same."

Edward R. W. Karutz, a lawyer of 26 Court street, Brooklyn, who filed the will as one of the executors said last night that all the party beneficiaries under the will attended the funeral and had the dinner provided for in the will at a hotel near the cemetery in Middle Village, L. I.

Called away by illness. Mr. M. D. Brown principal of the Dufferin school, was called to Lower James and his son returned this week to resume school duties. Miss Brown had not been well, but yesterday word came that her condition was serious.

AMOS WORTMAN GETS TWO YEARS FOR INCENDIARISM AT HAMPTON

Continued from Page 1. confess. Robert W. Graves, re-called, gave a detailed statement of a conversation he had with the accused in the yard of Constable McLeod's house at Sussex after the arrest. He said:—

"Mr. Graves, you have always been a good friend to me, and I want you to get me clear of this. I am sorry for what I have done, and I should not have burned your buildings if I had not been drinking. I drank four kinds of whisky that day and it was the worst I ever saw. Get me out of this, and I will be your friend as long as I live."

Could Do Nothing. The witness told him he could do nothing; that was left to the judge. He said:—"If I tell the judge the truth I shall be sent to the penitentiary. Suppose I tell the judge I was smoking there and the place caught fire?" Witness replied:—"Amos, there is nothing to gain but by speaking the truth as you can remember."

He was reminded of his throwing a bottle against the door to awaken the inmates, to which he replied:—"If I threw the bottle I can't remember it. I did not know you were sleeping there, anyhow."

At the close of Graves' evidence the Crown officer rested his case. No Witnesses. Mr. McIntyre said he had no witnesses to call. His defence was that the accused was insane when he committed the act. The medical men submitted by His Honor were examined by Mr. McIntyre. Dr. Duncan H. McAllister testified that he professionally examined the accused four weeks ago at Sussex, when he was arrested. He had known him personally for three or four years and had seen him several times before in his home. Never treated him for fits, and had no knowledge that he had fits except from hearsay.

Epilepsy Defined. The judge asked the witness to define epilepsy, which he did at length and with much lucidity tracing its history in the individual. Its effects on the physical and mental systems and gave illustrations, from his own experience. He expressed his opinion that epilepsy is incurable except in cases arising from fracture of the skull where a surgical operation had removed pressure from the brain or in cases caused by uric poisonings. Persons affected should have some one in touch with them all the time. The prisoner acts like an epileptic. I examined him, again today. His Honor found his condition to be exactly like that of an epileptic. Dr. Percy H. Warnford, the jail physician, gave a very clear and interesting exposition of epilepsy in its three stages of tonic, clonic and coma condition. He had examined accused on the 17th instant and again today. From statements made as to his health Dr. Warnford concluded that he had suffered from epilepsy in a grave form.

Father Called. Robert Wortman, father of accused was called and testified to his having been troubled with fits of falling from his ninth year. He seen him in three of them. He would fall down and want to get outdoors. After the attacks he would be dopy and dull for four or five days. He knew Amos was drinking when he was around with a bottle, but never said anything to him about it.

In answer to Mr. Fowler he acknowledged he drank himself and was drinking at Hampton on the first day the case was being tried. Mr. McIntyre and Mr. Fowler reviewed the evidence at length for and against the prisoner, and Judge Wedderburn summed up, thanked the counsel and expert witnesses for their able assistance and found the prisoner guilty, sentencing him to six years imprisonment in the penitentiary with hard labor.

In the case of the M. Cull Company, of New York, against Culbert, on application of Mr. Fowler, His Honor granted an order for a commission to take evidence in New York.

EDUCATIONAL. Rothesay Collegiate School, Rothesay, N. B. Michaelmas Term begins TUES DAY, September 14. To Junior Boys entering this year two scholarships open for competition. For Illustrated Calendar and all information apply to the Head Master, REV. W. R. HIBBARD, M. A. 7-17 st.

The Institution offers a course of four years, leading to the degree of Bachelor of Arts; a course of four years, leading to the degree of Bachelor of Science; an Engineering Course of two or three years, qualifying for entrance to the third year of the large Technical Schools; a course of four years leading to the degree of Bachelor of Theology, and Special Courses for those desiring only selected studies. The New Carnegie Science Building beautiful and finely equipped, will add materially to the facilities afforded future students. Address THE REGISTRAR, Wolfville, N. S.

AN EDUCATIONAL EXPERT HAS THIS TO SAY OF Acadia Ladies' Seminary, Wolfville, N. S. What impressed the writer was the admirable system that prevailed in the management and in every department of work; that kindly personality and tact, the influence of which is so grateful to young people; the general sympathy in the relations between teacher and pupil; and the interest which each one seemed to feel in the work of the day. The general education under such conditions is indeed a great asset.—Educational Review for February, 1909. The new catalogue for 1909-1910, giving in detail full information concerning Course offered, Teachers, Buildings, Equipment and the Unsurpassed Advantages, only possible at this school, can be had by applying to the Principal. DR. H. T. DeWOLFE, Wolfville, N. S.

HALIFAX LADIES' COLLEGE AND Conservatory of Music, Residential School for Girls and Young Women. Complete Academic Course leading to matriculation in Dalhousie and McGill without further examination. Special Course in Music, Art, Domestic Science, Stenography, etc. For further information apply to the Principal, E. ROBINSON, B. A., Wolfville, N. S.

Horton Collegiate Academy, Affiliated with Acadia University—A Residential School Re-Opens Sept. 8, 1909. Increased accommodations. Enlarged Class Rooms. Collegiate Course, General Course and Business Course. For further information apply to the Principal, E. ROBINSON, B. A., Wolfville, N. S.

Improvements to Nurses' Home. Mr. F. Nell Brodie, architect, is preparing plans for a proposed addition to the nurses' home at the General Public Hospital. The intention is to build an additional story on the present home and thus secure increased accommodation for the nursing staff.

JEWELS WERE FOUND IN MISS M'KEE'S SKIRT. Customs Men Find \$1500 Worth Busted There and She is Held for Grand Jury. New York, Aug. 27.—Catherine M. McKee, a gray haired spinster, said to be a well to do real estate owner, of Brooklyn, furnishing the bond.

MRS. GOLDBERGER CALLS FOR BLOOD OF ENEMIES. If Woman Suffrage Cannot Be Secured Through Peaceful Means She Advises the Broad Axe. New York, Aug. 27.—Mrs. Julia Goldberger of East Forty-fifth street, Bayonne, known as the "mother of the policeman protection plan" said yesterday that the suffragettes should arm themselves and obtain the right to vote even if they had to do it at the point of the bayonet. "No great cause was ever won without bloodshed," she said. "If the men will not grant us the right to vote, the women should arm themselves and march to the Capitol and surround the building when the legislators are in executive session, and then give them the alternative of granting the right of suffrage or being shot down. I guess they would choose the easier course then. If not then let them suffer the consequences and the world would see that we really mean business."

Harrisburg, Pa., was a second cabin passenger by the White Star liner Oceanic, Wednesday, from Southampton. She had declared that she had dutiable goods only to the amount of \$100, which she is entitled to bring in, but Deputy Surveyor Conrow heard that she had dutiable goods concealed in her dress and detained her. Mrs. Darragh and Miss Edith Ellsworth, inspectresses, escorted Miss McKee back to a cabin aboard the liner and searched her. They found hidden in her underskirt a lace skirt, several strings of pearls, a diamond ring and a pair of diamond earrings. According to an appraiser the value of the articles is about \$1,500. Deputy Surveyor Conrow sent Miss McKee to the custom house. Collector Leeb declared that the case was one for the action of the federal grand jury and Miss McKee was taken before Commissioner Shields. Meanwhile she had a chance to get into communication with her friends in this neighborhood so she might obtain bail. She was held in \$1,500 bail, Mrs. Emma M. Smith, of 82 South Elliott place, Brooklyn, furnishing the bond.

BE RAISED ON THE BRITISH WARE. China Orders Strictest Measures Against Anti-British Movement in Kiangsi Province. Pekin, Aug. 27.—It is said that Prince Tsai Hsiun, the prince regent's brother, will visit America in November. The announcement is contained in special instructions from the throne to the minister to the United States, Chang Yin Tang, to hasten preparations for his departure to Washington. Prince Tsai Hsiun is president of the new navy board and will investigate the navy and naval administration of Japan, America and Europe.

THE EXTENT OF RECENT BOYCOTT. Constantinople.—In consequence of the religious leaders of the Armenian community their many supporters in the Union and Progress, ment recently appointed a committee composed of the Ministry, Public Works and Justice a declaration of acquiescence of all responsibility to break at Adana. The report of the committee of the reports of the Parliamentary Commission and the Council of Ministers, was in the journals of the Armenian community in the charge of conspiracy, the massacre in the village of Cilicia was a separatist at Adana. The Armenian community had become in consequence of religious or political. The Armenian community had become in consequence of religious or political. The Armenian community had become in consequence of religious or political.

HOW JOKES ARE MADE; RIS FOR A WOULD-BE HURIST. The Falacy That a Joke Must Be Funny To Be Appreciated—Technique Is All Important. For a minor humorist—one who seeks out his livelihood by the manufacture of comic miscellany—to be successful in his profession is a serious matter. The occupation entails a large number of unsuspected persons. Although, joke for joke, these amateurs stand little show with the professional who sits down and holds himself to his task until he has solemnly produced a certain predetermined number of more or less promising articles. Contrary to current belief, however, the jokesmith gains little by listening to the accidental and fugitive humor of his friends and acquaintances. Sometimes he gets a joke in this fashion, but more often the spoken witicism will not stand the test of cold print and must be made marketable by skillful elaboration. Often lifted. But nature imitates art and the conscientious humorist is often enough "lifted" by the social raconteur and reappears in his own person or in the person of some other person. Or the joke may be stolen professionally from Germany to England and back again—a practice much followed by the cheaper publications. The wise jokesmith goes not to nature or the foreign press, but sticks to his own familiar puppets and the daily newspapers. Or again, one may begin a series of jokes, say with the word man, which suggests man and wife, say at breakfast; which suggests this same man running for his train to town;

ARMY ARE NEBULE WARRIORS. Government Decision Is Not To Blame Massacres at Adana. Andromeda, An Enormous Celestial Swirl Much Like the Milky Way in Form—What the Wise Ones Think. INTERESTING FACTS DISCUSSED BY SCIENTISTS. (From the London Morning Post.) While everyone knows that the stars are immensely remote and that the speed of light is the only unit which can conveniently express their distances from the earth, yet it is hardly realized that the approximate distance of a score of them is as much as can be said to be known. The distances of the most interesting of all celestial objects, the spiral nebulae, are a matter of such doubt that the supposition that some of the greatest spiral in form, the most recent researches of Professor Kapteyn, who discovered the double drift of stars in the universe some years ago, appear to support this theory. It has, therefore, been surmised that the great spiral of Andromeda may be another universe, in form like that which the Milky Way encloses. Speculations Considered. Some of these speculations are considered by Mr. Elard Gore in the current number of Knowledge. Mr. Gore finds that if the Andromeda nebula were comparable in size to the Milky Way its distance from an observer on the earth would have to be 150,000 light years—or in other words, that its light travelling at 186,000 miles a second would take that number of years to cross the intervening space. If it were composed, like the Milky Way, of some 40,000,000 stars then the total light of the nebula would be equal to that of a star between 100 and 1000 times the size of our sun, and is not at the distance indicated by 150,000 light-years, but is much nearer, and that its dimensions are much smaller than those of the Milky Way.

LOCAL OF SEVITICISED. Twenty-five years ago a temporary star blazed out near the middle of this nebula, and the evidence favors the belief that this star was in the nebula. It faded quickly, but its increase of light was considerable. If, however, it had been situated at a distance equal to 150,000 light-years, then the light of the new star in order to be visible to us at all, must have been 3,000,000 times the light of our sun, and its vast distance must have been immensely great. But its light faded so quickly that we cannot suppose it to have been a very large body. We may, therefore, conclude that the nebula is not at the distance indicated by 150,000 light-years, but is much nearer, and that its dimensions are much smaller than those of the Milky Way.

PROHIBITION GETS BIG BOOM IN SWEDEN. Worked Well in Stockholm Strike and Temperance Delegation Have Appealed to King to Maintain it. Stockholm, Aug. 27.—The results of the prohibition of the sale of alcohol during the present general strike have been so markedly successful that a temperance delegation visited the King today and urged that the restrictions be kept in force as long as possible. The King promised to do his utmost to secure a continuance of the prohibition for some time after the end of the strike. The delegation then called upon the Minister of the Interior, who gave them similar assurances.

NAMES OF CORRESPONDENTS. Continued from page 2. He would not swear that he believed this. He couldn't say that he thought the papers were taken so that they couldn't be used by the crown. One of these letters was signed by McDougall, simply as "Free Speech." Mr. Baxter asked if at any time witness received word as to the future of Free Speech. Mr. McElish objected to the question on the ground that witness should not be asked to incriminate himself by answering irrelevant questions. Mr. Baxter said he proposed to show that McDougall was continuing to publish Free Speech even under arrest and that was the purpose of his question. Mr. Sherron contended that some evidence should be submitted as to a foundation before Mr. Baxter made such a charge concerning the prisoner. A lengthy argument ensued. Judge Ritchie decided in favor of Mr. Baxter. Paper Printed As Usual. Witness said he got a letter from W. C. Loggie on Monday. This letter

WEEKLY REVIEW OF LOCAL FOREIGN FINANCIAL METS BY J. C. MACKINTOSH & CO.

Near-by financial markets have continued their erratic course of the previous week. Particularly in Wall Street there has been great irregularity of movement with sensational advances of 3 to 4 points in one day in leading issues, to be succeeded by equally rapid reactions. It would be a mistake, however, to judge the whole financial situation by the excited movements of the New York market at a time such as the present. In Canada we have been comparatively tranquil, notwithstanding the excitement of our neighbors to the south, while in Europe there has been scarcely a ripple on the financial seas to reflect stormy times of this side of the Atlantic.

The Royal Trust Company (OF MONTREAL). Branches at Toronto, Ottawa, Winnipeg, Quebec, St. John, N. B., and Vancouver.

For the Investment of Small or Odd Amounts. New Brunswick Telephone Co. 6 per cent. stock, shares \$10 each. Price 105 per cent., or \$10.50 per share.

H.A.D. TAKES UNFINISHED 2.20 PACE AT EASTERN MAINE MEET

3,000 People See Last Day's Racing--2.16 Race Goes to Little Johnny, Who Won in Straight Heats--American Chimes Easily Won 2.40 Pace--Heavy Wind Sweeps Park But Does Not Interfere With Speed of Horses.

Special to The Standard. Bangor, Me., Aug. 27.—Three thousand people saw the last day's racing at the eastern Maine state fair this afternoon. A heavy wind swept the park, but did not interfere with the speed of the horses. In the 2.20 pace unfinished yesterday, H. A. D. took the fifth heat and race in 2:19 1/2, finishing strong and well in advance of Frank C. in a bunch close up with the Bangor mare. In the 2:16-2:18 class the Lewiston stallion Little Johnny had speed to give away, and won handsily in straight heats, after the first had been declared dead between him and Attilius. American Chimes led them all around in the 2:40 pace, with Joan all around for second place, Joan of Arc and Nancy getting a season of second and third money. Starters:

SPORTS THE TURF, THE RIFLE, TENNIS

TODAY'S LIST OF RACING AT WESTFIELD

Today promises to be a big one at Westfield, the final races in three series are to be sailed and some very close contests are anticipated.

At 3:15 p. m. the final race in the Class B. boat series will be started over the upper half of the club course, that is from the pavilion to the buoy or boat at Belyea's Point light and return to the pavilion. Time limit 2:12 hours. The entries for this race are: Louise, Joseph Bullock, Clip II, Norman Trueman, Rosamond, G. McA. Blizard, Keego, S. McDonald, Blackly, H. B. Robinson. The race is sailed under handicap and the Louise allows the Clip II, 49 seconds, Rosamond 1 minute, 21 seconds, Keego 2 minutes, 54 seconds, Blackly 9 minutes, 30 seconds. In the two races of this series already sailed off the Louise captured one first and one third, the Clip II, one first and one second and the Rosamond one second and one third. Five minutes after the Class B. boats have started the gun will be fired for the start of the Special Named Race. This is a special race gotten up by the sailing committee of the Westfield Outing Association for the smaller salmon boats and the following boats are eligible: Arrah, Wanna, Leola, Lillian, Keywood, Sans Souci, Norma and Now Then. No entries are required for this race and it is expected that a large number of the boats will start. The course will be No. 1 club course; time limit 2:12 hours. Immediately after the start on the Special Named race for second place in the Class A. series, over No. 1 club course. The limit is 2:12 hours. A very exciting race is expected as the Wabeno and Chinook are without doubt the fastest boats of this class.

LARNED IS STILL KING TENNIS BEE

of lawn tennis champion of the United States still rests with William A. Larned of Summit, N. J., who successfully defended the title today against the winner of the twenty-ninth annual all-comers' tournament at the Newport Casino courts, William J. Clothier of Philadelphia. Five sets were

required, the champion taking the first two and the last and the scores were 6-1, 6-2, 5-7, 4-6, 6-1. This is the fifth time in his long career on the American courts and the third time in succession that Larned has won the championship, thus putting him ahead of R. D. Wren's record of four championships, and second only to the first American champion, Richard D. Sears, who held the title seven years ago and won two national cups. Larned won his first cup in 1907, and now has two of the required three legs on a second. Clothier won the championship in 1906.

GREEKS AND ST. PETERS TO CLASH TODAY

What may prove to be the last game of the championship series will be played on the Every Day Club grounds at 3 o'clock this afternoon when the Marathons and St. Peters will meet for the fifth time this season. So far the St. Peters have not won a game, but they confidently expect to make a break in the winning streak of the Marathons today, and prolong the series by another contest at least. It looked for a time as if the Marathons would be weak on third base today, but Titus, who filled the position so admirably, has postponed his departure for Nova Scotia until this evening in order to play and will be in the game as usual today. Nesbit will return to the pitching slab for the Greeks today, and with this exception the same team will take the field as last Saturday. F. Dever will join St. Peters as third will play, with Callaghan twirling.

BANKERS' REGATTA TODAY. This afternoon the Bankers will hold their regatta at Lily Lake. A large entry list has been secured and good sport will undoubtedly be witnessed.

AMERICAN LEAGUE. Boston, Aug. 27.—Boston won its fourth straight game today, defeating Cincinnati, 5-4. Curtis held the visitors to three hits, but errors allowed them three runs. Boston won in the ninth inning on a hit by Curtis, two sacrifices and Shean's single. Score: Cincinnati... 200110000—4 3 2 Boston... 020101001—5 6 5 Batteries—Gasper and Clark; Curtis and Graham. Time, 1:34. Umpire, Emslie.

When Asepto Gives a Helping Hand, Washing Labor is Halved. ASEPTO is the right sort of a wash-day helper. Use it with hot water or with cold. A tablespoonful to a bucket of water is plenty. Leave the clothes in this preparation for two hours—and attend to other household duties. After the time is up, you will be amazed to see how rapidly the dirt disappears—and without the use of the destructive wash-board. ASEPTO cleans better than soap—is a harmless, odorless, antiseptic soap powder. Costs but 5c. a package, at all discerning grocers.

ASEPTO SOAP POWDER

Manufactured by the Asepto Mfg. Co., St. John, N.B.

KING BEE THE WINNER OF THE 2.24 TROT

Special to The Standard. Montreal, Aug. 27.—It took eight heats and three days' racing to decide the 2:24 trot at Delorimier Park, King Bee, the Toronto owned gelding, finally taking first money. Four heats were raced on Wednesday, one on Thursday and three more today. McBride started to drive King Bee, but after three heats he was changed by the judges to Hodson. Hodson brought King Bee in first in the fourth heat, but only fourth and third in the next two. Then McBride was told to take the reins again and in the last two heats paced today, he brought King Bee home first. Baron Wedgewood won the 2:17 trot in a five-heat race in which the Monk sold as favorite. The 2:25 pace was won by Lady Simon, but a protest was lodged against her that at the recent mixed running and trotting meet at the park she made a mark of 2:15 1/2. The money will be held pending a decision from the national board. Summary:

2.24 Trot. Four heats raced Wednesday and one Thursday. Purse \$500. King Bee, b.g., by Oro Ree-Oro Wilkes, Dan. McBride, Toronto... 4 2 3 1 4 3 1 1 Oriva, br.m., McKee, Richmond... 3 6 2 1 1 2 2 Prince Alceon, b.g., Grey, Schenectady... 2 3 1 4 2 2 3 3 Gertie P., ch. m., Potvin, Montreal... 5 4 4 3 3 3 3 3 Babine, f.m., Vermont Stock Farm, Shelburne, Vt... 6 5 5 5 5 5 5 5 The Surveyor, b.s., Mitchell and Adams, Hallifax... 1 1 1 1 1 1 1 1 Time—2:23 1/2, 2:21 1/2, 2:25 1/2, 2:25 1/2, 2:23 1/2, 2:25 1/2, 2:23 1/2, 2:23 1/2.

Tenders for Roofing

The City of St. John Invents Sealed Tenders for the renewal of the roof covering on the warehouses at West Point, at present occupied by the Dominion Atlantic Railway Company. Tenders for Roofing will be received in the office of the City Engineer, City Hall, St. John, N.B., until 2 p. m. FRIDAY, August 28th, 1909. A certified bank check or cash deposit equal to five per cent. of the estimated value of the work will be required to accompany each tender. The City does not bind itself to accept the lowest or any tender. WILLIAM MURDOCH, City Comptroller.

THE WEATHER.

Moderate westerly winds, fine and moderately warm. Toronto, Ont., Aug. 27.—Cool weather now prevails throughout the prairie provinces and it is moderate-warm in other parts of Canada. Showers have occurred in Eastern Quebec, New Brunswick, Prince Edward Island and Cape Breton Island whilst elsewhere fine conditions have been general.

New England Forecast. Fair Saturday; unsettled Sunday; light to moderate variable winds.

A Rescue. In Likely's Pond last evening Mr. Charles Watters while swimming was seized with a cramp. He managed to turn over on his back, and floated for some time. Mr. George Williams, who was standing on the wharf, kicked off his shoes and jumping in, reached Mr. Watters just as he was sinking for the third time and succeeded in towing him ashore.

Returning From P. E. Island. Mr. Harry Woods, M.P.P. of Welsford, accompanied by his wife and son, passed through the city yesterday afternoon from Charlottetown, where he had been attending a meeting of the High Court of Foresters. Mr. Woods said that the crops looked well on the Island and conditions were prosperous.

A Former St. Stephen's Pastor. Rev. Prof. Wicher of the San Francisco Theological Seminary, San Anselmo, Cal., and a former pastor of St. Stephen's Church in this city, is at present in Toronto on his way home after spending a year, accompanied by Mrs. Wicher, in traveling through Palestine, Egypt and Greece.

Liquor Case Postponed. The case against the Canadian Hotel, Fredericton Junction, charged with violating the Canadian Temperance Act which was to have been resumed yesterday was postponed until Friday next, owing to the failure of three important witnesses, Mr. Thos. Hartt, Mr. Abner Mercereau and Mr. John Maynard to appear in court. Warrants have been issued for their attendance.

A Patronal Festival. The Patronal Festival of the Mission Church of St. John the Baptist, will be celebrated tomorrow with special services. Bishop Richardson will be the preacher at Evenson's. A congregational meeting and social gathering will be held on Wednesday evening. On Tuesday evening the sermon will be by Rev. E. B. Hooper and on Friday evening by Rev. Canon Simpson of St. Peter's Church, Charlottetown.

Illness of Senator Ferguson. Senator Ferguson of Prince Edward Island has been seriously ill at his home in Marshfield. At the close of the session he went to Toronto, where an operation was performed. From this he rallied well and went home where he rested until about a fortnight ago. Then he became seriously ill, the malady reaching a critical stage last Wednesday and Thursday. It is believed that the immediate danger is now past and the senator seems to be regaining strength.

A Lady's Hat Found. Policeman Scott brought a lady's straw hat into the Central Police Station after the band concert in King Square last night. When the time came to put the find in the report book considerable discussion arose as to what to call the hat. Policeman McLaren said it was a "merry-widow". Its finder thought it was a "mushroom" while an officer called it a plain "flower-hat." It was registered as a simple "lady's hat" and may be obtained by the owner on calling for it.

Flower Sunday. The Ludlow street United Baptist church Sabbath school will observe "Flower Sunday" tomorrow. At 11 a. m. there will be a service for the children, addressed by Rev. T. Allen Hoben of Chicago. An extensive programme will be carried out in connection with the Sunday school at 2.15 p. m. The flowers will be distributed among the hospitals and institutions. The evening service will commence at 7 o'clock. Rev. W. R. Robinson will preach and Mr. Frank McClasky will render two solos.

Pays Visit to Industrial Home. Mr. W. M. McLean, inspector of county schools, and Mr. J. B. McMann, truant officer, yesterday morning visited the Boys' Industrial Home. Speaking with a Standard reporter last evening, Mr. McLean said the school was making excellent progress. The boys had formed a club, which met every Thursday, and he thought the minutes given by the secretary were better written than those sent in to him by some of the secretaries of the school boards. There are now twenty-six boys in the institution. A movement is on foot to obtain a government grant for Miss Gertrude Morrell, who has charge of the school.

Warehouse for the Potato Trade. A subcommittee of the harbor board yesterday afternoon inspected the apple warehouse near the Pettigill wharf with a view to deciding whether it could be made available for a potato warehouse for the Havana and West Indies trade in accordance with the plans of the local government. A report will be submitted to the board on Tuesday. It is understood to be the general opinion of the committee that the Pettigill warehouse could be used by steamers now using the apple warehouse, leaving the latter for the potato trade. Whether to charge by the barrel or make a fixed rental has not yet been decided. It is probable that the latter course will be adopted.

Grand Falls Commission. The hearing before Mr. J. N. Winslow, the commissioner appointed by the provincial government to determine the amount of the bond to be furnished by the Grand Falls Power Co. in expropriating land at Grand Falls, which was resumed yesterday in the admiralty court chambers will be continued this morning at 10.30 o'clock. Mr. H. A. Powell, E. C. and Mr. Chas. E. Sanford appeared for the expropriating company and Col. H. H. McLean, K. C., and Mr. Fred H. Taylor in the interests of the old company. Mr. Powell's argument was not concluded when court adjourned in the afternoon and will be continued this morning.

LETTERS PLACED IN EVIDENCE IN COURT YESTERDAY—TWO CONTRIBUTIONS FROM "MISS MOLLY HOLLY" AND "CHARLIE JOHNSON" OF ST. JOHN—SUSSEX, MONCTON, NEW GLASGOW, SYDNEY AND OTHER PLACES FIGURE IN THE LIST—MANY BUSINESS LETTERS IN THE COLLECTION.

Much interest is being taken in the revelations at the police court hearing in the Free Speech case and as a result of the letters seized by Chief Rideout at Moncton being placed in evidence yesterday, the names of a number of correspondents throughout the Maritime Provinces were made public. St. John writers escaped almost scot free, there being only two small scraps of paper submitted as coming from this city. One of these was signed by "Miss Molly Holly," who gives her place of residence as 385 Main street. Miss "Holly" does not live there and her identity has not been established. This correspondent advises as follows: "Elle, get wise, keep away from the grass widow in the Main street meat market. Lulu, get wise, the meat market is no place to flirt. Get wise, or I will put the boss wise."

A correspondent who says his name is Charlie Johnson and his place of residence 76 Brooks street has two items about a young lady whom he designates as "Hazel." He says: "Hazel attends all the Port Howe ball games, now since she started to go with Charlie J." He also contributes the information that "Hazel brought her fellow down to beat Bun-ker B, but he gives her the laugh. C. don't want you, Hazel; get wise."

A Sussex Gem. William Heffer, the Sussex correspondent, has this gem among others: "A woman on Main street found an ear ring in her husband's whiskers the other night." The situation at Sussex called for a letter from C. B. McDougall to J. W. Colwell, which it seems was never mailed, as it was found among McDougall's papers. This letter read as follows: "Moncton, N. B., Aug. 7, 1909. Dear Sir—I am sending you by express 100 papers, or probably not that many. Hand them around to people

who want them. The police has no right to prevent the sale of them, and I will make it hot for McLeod. Yours truly, C. B. McDougall. J. W. Colwell, Esq., Sussex, N. B." One of the most interesting letters of the collection was typewritten and signed by A. H. Legere of the I. C. R. This read as follows: "676 Main street, Moncton, April 24, 1909. W. C. Loggie, manager, Free Speech, Moncton, N. B. Dear Sir—Will you kindly publish the enclosed notes in your manly and independent newspaper and greatly oblige (keeping my name confidential, please). Yours truly, A. H. Legere. P. S.—I will send you other notes in future. If these are published, A. H. L."

From New Glasgow. From New Glasgow, Angus Matheson writes that "Free Speech is coming to be a terror to rogues and criminals and the circulation will increase and go ahead." The New Glasgow Standard would be more thought of today if they had never meddled with you gentlemen."

Mr. Matheson incloses an unsavory bit of gossip for publication. A writer from the Commercial Hotel, Kensington, P. E. Island, says: "Your paper is just what is wanted in this town," and orders a number of copies. John T. Busby of North Sydney writes that his notes are absolutely true, with the word "true" printed in capitals, and he begs the editor to "see Mr. Dunn and quit him." G. O. Morrison, 209 Sydney street, Charlottetown, complains of "rickiness" in the Postoffice Department, and the loss of a letter mailed to McDougall.

In the collection are a large number of business letters relating to matters of subscription and the sale of the paper.

MOIR'S CHOCOLATES In Bulk

Large variety just received. Any Quantity Also 1 lb. and 2 lb. Boxes ALL STRAIGHT FRESH GOODS.

THE DRUG STORE, 100 KING STREET, Chas. R. Wasson.

Boots for the BOY

One of the hardest propositions a shoe man has to contend with is to combine style, comfort and service in a boy's boot. We have given the matter a great deal of attention and feel convinced that we have succeeded in producing a boy's boot at a reasonable price that combines the three essentials so necessary now-a-days. A boy's box calf, laced boot, Blucher cut pattern, seamless quarters, extension edges, block stitched, heavy double soles, Scotch back straps. Now this line is made expressly for us. We know what they are made of, and can strongly recommend them for wear.

Sizes 1 to 5, -2.50- Sizes 11 to 13 1/2, -2.00-

LINEN ROOM. MANCHESTER ROBERTSON ALISON, LTD.

INVESTED MONEY AT THE NICKEL AND BOUGHT PEANUTS

Ten-Year-Old Gertrude Coveney Stole \$6 And Spent Last Night In Jail To Repent.

Little Gertrude Coveney, aged 10 years, spent last night in a cell in the jail awaiting trial on the charge of stealing a pocketbook containing \$6, from George Whitehead's room in Marsh street. The girl came to the notice of the police as a persistent habitué of the streets late at night and she was reported for this offence.

On Thursday it is charged she entered Mr. Whitehead's room and took the pocketbook away with her. When arrested by Police Sergeant Kilpatrick yesterday morning, she acknowledged the theft, and said she had been to the Nickel and invested some of the stolen money in peanuts, but she was unable to tell what had become of the remainder of the money, and the police think she lost the cash out of her coat pocket.

She pleaded guilty before Judge Ritchie and was sent into jail until she showed signs of repentance. She was to be quite calm and collected when taken to police headquarters.

THE BLACK LAKE CONSOLIDATED ASBESTOS CO.

Attention is called to the advertisement in this issue of the Black Lake Consolidated Asbestos Co. Ltd., a company formed under very favorable auspices and with bright prospects for success. This company has been incorporated under the laws of Canada and is prepared to carry on the mining of asbestos along the Quebec Central Railway about 160 miles from Montreal.

The properties merged include the Union Mines, the Southwark Mines, the Imperial Asbestos Mines, and the Black Lake Chrome and Asbestos Company, with a total area of 5,385 acres. They are situated in the Black Lake and Thetford Mines district in which some of the most important asbestos mines in the world are found.

The standing of the directors as foremost men of business in the Dominion is sufficient guarantee of the solid basis of the company. The directorate is composed of the following: Mr. J. N. Greenfield, Mr. William Farwell, Mr. S. H. Ewing, Mr. R. Forget, M.P., Hon. C. J. Doherty, M. P., Montreal; Mr. S. M. Brookfield, Halifax and Hon. Robert Rogers, Winnipeg.

The stock is offered in sale in St. John by Messrs. J. C. Mackintosh & Co., members of the Montreal Stock Exchange who are prepared to give any additional information. The growth of the asbestos industry in Canada is demonstrated by the fact that all grades have doubled in value during the past eight years in spite of the enormous increase in the output, proving that the demand was kept ahead of the supply. Rev. T. H. Bates, lately of Port Williams, N. S., has gone to Guelph, Ontario, where he has accepted the pastorate of the Christian Church.

RIVERSIDE CHURCH TO BE CONSECRATED TOMORROW MORNING

Bishop Richardson Will Perform Ceremony—Bell Donated By Ald. Elkin And Vanwart Now In Position.

An interesting ceremony will take place at Riverside tomorrow morning, when Bishop Richardson will consecrate the church of St. James the Less at that place. At the services which will commence at 11 o'clock His Lordship will be assisted by the pastor of the church, Rev. A. W. Daniel, Rev. R. W. Hibbard, principal of the Rotherby boys' school and Rev. Percy Olton, of Greenwood, N. Y. Communion will be celebrated at the conclusion of the consecration.

The church was erected seven or eight years ago through the efforts of Rev. A. W. Daniel and others. The site was given by Mrs. Chas. Hazen, and subscriptions were made by residents of Riverside, Benford, Rotherby and St. John. Three years ago an addition was built and a congregation of one hundred and fifty can now be seated. The debt was removed during the past year and it is on this account that the service is now being held.

Last Thursday a bell, presented to the church by Ald. E. C. Elkin and Ald. J. W. Vanwart, was placed in position. It was formerly used as an alarm bell on No. 1 Fire Station, and some criticism recently appeared in the press as to its tone.

Speaking to a Standard reporter last evening, Rev. Mr. Daniel said that the bell had been well tested by a committee before being accepted by a was found to be in good order. The statement as to its inharmonious tone was a mistake. It was a little rusty but an excellent bell for its purpose, with a fine mellow sound. It had given good satisfaction.

An organ formerly used by Trinity church of this city, has recently been installed. It is a good instrument and was obtained through the efforts of a number of church people.

LATE PERSONALS.

Mr. J. J. McGaffigan was a passenger to the city on last evening's Boston train. Mr. and Mrs. R. D. Patterson left on the Montreal express yesterday afternoon. Mr. Wm. Humphrey of Moncton, passed through the city yesterday en route to Montreal. Mr. Albin Sturdee went to Montreal last evening. Mr. Horace Porter left for Montreal last evening. The Misses Kerswell of London, England, arrived in the city yesterday on a visit to their aunt, Mrs. John Edgcombe, 10 Sydney street.

Mr. Clarence Steeves of the Public Works Department, returned from Queens county yesterday. Mr. L. and Mrs. L. R. Hetherington of Richibucto are in the city. Miss Mary A. Williston, of Bay du Vin is visiting Mrs. Charles Babbit, St. James street.
