RAFT FROM ILL-FATED ADEONA WASHED ASHORE

Rope Loops Attached Evidently Intended for Six Men's Use

Terrific Sea Still Prevents Anyone Approaching the Wrecked Bark, Which is Still Upright With Signal of Distress Flying and No Sign of Life Aboard—Report Current That One of the Victims Was Alive When Cast on the Beach and Died for Want of Aid.

(Staff Correspondence.)

Richibucto, N. B., Nov. 8.—Much indignation is beginning to be expressed here at the lack of any life saving apparatus at the lighthouse stations facing the Richibucto bar, where the wreck of the Norwegian bark Adeona occurred, re-ulti g it is now confidently believed, in the loss of the entire ship's company, consisting of eleven men.

The Adeona carried a crew of twelve, but a little Irish sailor ran away from the ship the night before she was outside the harbor, thus escaping the fate of his comrades.

At the funeral service of the two sailors whose bodies have been recovered, which took place this afternoon, Rev. J. R. Martins commented strongly on the absence of any facilities for saving life, and in an interview with your correspondent, referred also to the report that the life of one of the men might have been saved had the life boats kept from being cast overboard.

He thought an investigation into all the circumstances should be demanded by the people of the province.

Raft from Adeona Comes Ashore. No apparent change has taken place as regards the wreck since yesterday. The gale last evening brought the bark nearer shore, but there is no sign of life on board.

A raft has been washed up, which has been identified by the station as a mark of the Adeona, but no more bodies have been recovered. The weather is moderating, and it may be possible to board the vessel tomorrow, when the mystery which surrounds the fate of nine of the men may be cleared up.

John Kelly, of St. John, inspector of light stations, arrived in town yesterday, and this morning visited the scene of the wreck for the purpose of forwarding a report to P. J. Harding in St. John.

Your correspondent accompanied Mr. Kelly, who made the trip in James Legg's of gasoline boat. Mr. Legg has charge of the placing the buoy in the channel for the department.

After nearly an hour's run a landing was effected from a small boat on the island where the light houses are situated. It is a barren waste of sand some four miles in extent, and in places a quarter of a mile wide, and to the north lies the island giving entrance to Richibucto harbor.

Across the channel, which is about half a mile wide, lies the bark, covered with a swirling mass of foaming breakers. Amidst their white caps and now not far removed from the edge of the channel, lies the Adeona, stern towards the island, and booming up black and desolate, with torn fragments of sails flapping in the gale, her forecasters broken and the mainmast and topmast gone by the board, and the Norwegian ensign reversed and clearly visible at half mast on the mizen.

During the last twenty-four hours she has drifted across the reef considerably. At the time she struck on the night of Nov. 1st the vessel was temporarily held on the outer ledge of the bar, nearly a quarter of a mile further away and has gradually been driven by force of the sea and gale to the position in which she now lies.

No Sign of Life. Your correspondent examined the bark through a glass but almost needless to say there was no sign of life. The ship lies on a level keel, heading northeast and at the time the sea was not washing over her. Two boats still remain on board, the sharp stern boat and the pram lashed to the file rail aft.

While no boat, such as this coast possess, could have lived today among the breakers, yet had the crew remained on board they would have been comparatively safe on her decks.

Mr. Fraer was down on the island today with a constable and will likely remain until it is possible to go on board.

Lady Napier lying within the harbor, who signalled an answer asking what was needed, but no answer was ever given.

The two lighthouse keepers, who are practically the only inhabitants on the island at this time of year, live in small wooden huts. Their occupation ceases as soon as navigation is closed and they then return to the main land.

They have no egg glass supplied them and beyond life belts there is no apparatus of any kind for saving life on the island.

It is stated that nearly a hundred wrecks lie buried in the sands along the coast of the island, but till now it has been the boast of the port that no loss of life has been recorded.

An inspection of the Adeona's long boat which lies on the sand just out of reach of the waves, show her to be a serviceable craft twenty feet long, six and a half feet beam and twelve feet six inches deep. A life line was lashed all round her and strong evidence that all the ship's company were in her when she left the island is shown in the fact that the cable which held her to the Adeona appears to have been cut at the forward thwart with a sailor's knife.

On Wednesday a raft was discovered on the shore of the island which, it is believed, came from the ill-fated vessel. It contains some ten or twelve timbers placed at intervals and strongly lashed. Many hours must have been spent by the doomed men in its preparation. On its deck are ropes lashed to go round the shoulders of the men but whether it was ever used or whether it broke away when it was launched will never be known.

Saw the Men Leave the Wreck. Jude Robichau, one of the light keepers, told your correspondent that he had not been on shore for eleven days in his anxiety to help the poor fellows on the wreck. He had been at the work he said fourteen years and the storm was the worst he had ever known. Joseph Richard, his companion, who tends the light-house a mile further down the channel, spoke of seeing the men leave the wreck and of their subsequent struggle in the water.

Owing to the mist he was unable to count them. He said he was his belief that all made the venture and that all perished. He added that four or five others had come ashore and two life buoys.

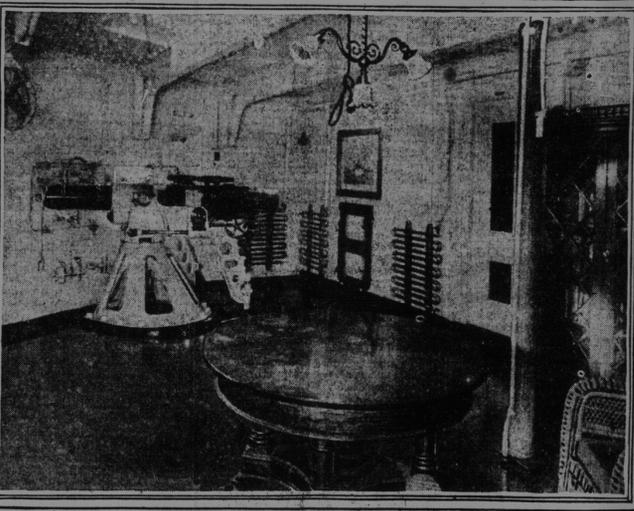

The men have been engaged every day in the task of traveling up and down the shore searching for more bodies and crew, but none have been found and it is now believed they have been carried out to sea.

A piece of the keel of the Adeona came ashore yesterday and lies on the beach. Inspector Kelly while on the island gave instructions for soundings to be taken in the channel, the depth of which is constantly changing with the storms and also for the position of the lights to be changed to get the range. Before leaving the island he had an informal investigation of the circumstances surrounding the wreck for the purpose of making a report to the government.

Wreckers on the Alert. It is reported that several parties here are eagerly on the lookout for a chance to reach the vessel under the impression that the first one aboard could claim salvage. The inspector today let it be known that no question of salvage could arise unless the Adeona were brought safely into port. It is understood that J. & T. Jardine, of Roxton, the agents for the owners have placed their interests in the hands of Alex Fraser, Jr., and the acting consul, H. Houshion, has also authorized Mr. Fraer to act as his representative.

Vessel and Cargo Insured. Mr. Fraer was down on the island today with a constable and will likely remain until it is possible to go on board.

ROOSEVELT OFF TO PANAMA IN BATTLESHIP

MESS AND SMOKING ROOM ON THE BATTLESHIP LOUISIANA

Washington, Nov. 8.—The Mayflower, with President Roosevelt and party, bound for Panama, aboard, left the navy yard at 4:07 p.m. today.

New York, Nov. 7.—After tomorrow the capital of the United States will be on the new battleship Louisiana, and when President Roosevelt sails for Panama that day he will have the finest quarters ever fitted up on an American man-of-war. The navy department has left nothing undone for his convenience and comfort on this trip, and with the aid of the powerful wireless apparatus which has been installed he will be in constant communication with Washington.

The work of refitting the ship for the president's trip has been done at the New York navy yard. At Hampton Roads she will take on her supplies. New furniture has been installed on the ship, and a large new desk, where the official papers will be kept during the trip.

The president's quarters will occupy nearly one-quarter of the space of one deck and have been made by tearing out deck and throwing the quarters of the admiral and captain into one suite. They are separated off on the rest of the ship by a temporary bulkhead, and the president will have as much privacy as he would have in the White House.

The smoking room, where the president will attend to his official business, is in the stern of the battleship. There is a large reception room, where the state dinners will be held when the president entertains the representatives of other governments, and a large living room for the accommodation of the party. The admiral's quarters will be used as the president's stateroom, and Mrs. Roosevelt will occupy a large stateroom designed for the admiral's chief of staff. There are six other staterooms and bathrooms for the other members of the party.

REPORT THAT STMR. FINN IS LOST WITH ALL HANDS

Was BOUND FROM Montreal to Sydney And is Four Days Overdue.

(Special to The Telegraph.) Halifax, N. S., Nov. 8.—There have been no tidings received as yet of the steamer Finn, from Montreal to Sydney, and which was caught in the gale of Sunday last. There is an unconfirmed report that she struck on Byron Island, in the Magdalenas, and went to the bottom with all hands. Every effort is being made to locate the vessel, but no news has been received of her up to tonight. She is about four days overdue. Incoming vessels report the storm to be the worst ever experienced here, far exceeding in severity the August gale of 1873.

HON. MR. HYMAN HAS NOT RESIGNED

(Special to The Telegraph.) Ottawa, Nov. 8.—Your correspondent was asked to contradict a statement telegraphed from Ottawa that Hon. Mr. Chas. Hyman had resigned.

The Toronto Star, which has lent a pretty consistent support to the present government at Ottawa, says in respect of the question as to the seat for London that "all merely technical objections should be waived." It notes the demand that Mr. Hyman resign the seat, following the revelations in the Toronto police court and says that "if the enquiry discloses, as it seems likely to disclose, such evidence as would have invalidated the election if a petition had been filed in the ordinary way, there should be a new election."

More Hindoos Bound TO BRITISH COLUMBIA

SUICIDE BLAMES RUM FOR HIS RUIN

Warning to Young Men to Beware of Saloons Found on His Body

SHOT HIMSELF DEAD

George Zeigler Preferred Death to Facing a Charge of Forgery—Left Pathetic Letter for Wife and Five-Year-Old Daughter.

(Special to The Telegraph.) Kingston, Ont., Nov. 8.—George Zeigler, district manager of the Northern Life Assurance Company, was found this morning in a shed at Barrefield, across from Kingston, shot to death. It was a case of suicide, the young man having taken that method of escaping arrest for forgery.

At 7:30 o'clock this morning the people at Barrefield heard shots, and on investigating found Zeigler lying dead in a shed in the rear of Henry Knapp's home, with a revolver beside him. He had shot himself through the lungs.

Coroner Mundell found a message from the dead man's wife, which he called "Warning to young men," in which he calls drink a curse. It had ruined him and was ruining more young men than any other thing. He asked young men to shun bar-rooms, and called on temperance workers and ministers, "of all churches in our fair domain, to take active steps in suppressing the sale and manufacture of liquor."

He also left a personal and pathetic letter for his wife and five-year-old daughter.

SFEARS', LIVERPOOL MURDER SUSPECT, EXAMINATION BEGINS

(Special to The Telegraph.) Liverpool, N. S., Nov. 8.—Clarence Sfears, remanded on suspicion of the murder of Edgar Way, found at Michelle Brook, twenty miles from here, was brought up before Justice Allen today.

DEADLOCK AT SYDNEY HURTING BUSINESS

No Settlement in Sight and Many of the Employes Are Leaving for Other Parts.

(Special to The Telegraph.) Sydney, N. S., Nov. 8.—Owing to the long drawn out suspension of the employes of the Dominion Iron and Steel Company, are beginning to take a pessimistic view of the situation, concerning a settlement of which there seem to be so many conflicting reports. Not only is the blast furnace plant of the company closed, but that of the Nova Scotia Coal & Steel Company at Sydney Mines as well. This means that will be closed for several weeks.

It is thought that about 700 men are affected at Sydney, and large numbers are taking advantage of the suspension of work and leaving the city for a holiday.

A great many have left for the west, among these being some of the most skilled men on the plant.

General Manager Jones expects to have one furnace going next week, but this is problematical. No one seems to know just what is going on. There does not seem to be any indication of an adjustment of the difficulty. The steel company are said to be losing several thousand dollars daily on account of cessation of work. Business interests throughout the city are being badly affected.

ACTOR MARRIES INFATUATED GIRL IN JEROME'S OFFICE

Had Run Away From Home With Him and Parents Had Her Chaperon Arrested.

New York, Nov. 8.—Edward M. Brooks, an actor, and Miss Dorothy M. Bender, an 18 year old school girl of Manchester (N. H.), were married in the private chambers of District Attorney Jerome in the criminal court building today.

Brooks was arrested here on Oct. 18 on a charge of abduction preferred by Miss Bender's parents. It was alleged that the girl became infatuated with Brooks while he was playing in Manchester and that when he left the city she went with him. Brooks was arraigned today but he was not called upon to plead.

FOUR HAVE PERISHED SO FAR IN P. E. I. WRECK

Heroic Rescue of Three Effected by Brave Islanders Thursday

Four More Still Clinging to Wreckage and They Seem Doomed—Government Steamer Stanley Made an Attempt to Go to the Scene But Terrific Seas Forced Her to Seek Shelter in Georgetown Harbor.

(Special to The Telegraph.)

Charlottetown, P. E. I., Nov. 8.—The government steamer Stanley, which left for the scene of the wreck of the Russian Finn bark Savignio, at Priest Pond, was unable, according to the report furnished by her captain, to go further than East Point. It is said that the Stanley encountered heavy weather as far as East Point and there met with such terrific seas that she had to turn back and seek shelter at Georgetown.

All day yesterday people on the shore at Priest Pond watched the survivors on the two portions of the wreck, three on one part and four on the other, pacing to and fro to keep warm. The Stanley was anxiously looked for as everyone was eager for an attempt at rescue. But when the steamer failed to put in an appearance the disappointment of the assembled people on shore found vent in indignation.

There now remain four men on the wreck. Ten have been drowned and killed. The names of seven of them being: Stenroos, Langren, Dahlberg, Grant, Tuominen, Bloomroos, Westertield. The three others dead are Norwegian, names not known.

The place of the wreck is about twelve miles from Sauris and no steamer is nearer than the latter place.

LATER. This evening Hyndman & Co., Lloyd's agents at Charlottetown, sent down a government lifeboat by special train from here to Sauris to assist in bringing off the survivors. But after the arrival of the train at Sauris it was learned that the last survivor had floated ashore on a plank. There was but one man remaining instead of four after the three were rescued in the afternoon.

This closes the most tragic wreck for many years on the Island—ten killed and twelve saved.

PROPOSED SCHEME FOR IRISH HOME RULE

(Special to The Telegraph.) Dublin, Nov. 8.—The Evening Herald declares that it has reliable information to the effect that at a recent conference at London, James Byrnes, chief secretary for Ireland, John Redmond, leader of the Irish party in the house of commons, John Dillon, member of parliament for East Mayo, and Sir Anthony Patrick MacDonnell, under secretary to the Earl of Aberdeen, lord lieutenant of Ireland, Sir Anthony read the draft of a plan for the reorganization of the government of Ireland.

The draft provides for the establishment of a central or caste board, an educational department, a department of agriculture, and for the transfer of land. It crosses an Irish council, with between two-thirds and three-fourths of the members elected on the existing parliamentary franchise, and the remainder on a reserved franchise, or nominated.

Members of all denominations are eligible for membership in the council. Ireland is to retain her present representation in parliament; the police are to remain under imperial control, but the force will be reduced numerically, and the judiciary remain unaffected.

Mr. Redmond and Mr. Dillon strongly opposed the police and the judiciary clauses, but it was pointed out to them that certain members of the cabinet were obstructive on these questions. The proposed measure is not yet complete, but the essential features have been settled definitely, and the entire cabinet is agreed thereto.

St. Ann's Liberal Nominations. Montreal, Nov. 8.—(Special)—J. C. Walsh, advocate, was tonight nominated by the Liberal convention to contest the federal seat in St. Ann's division, made vacant by the disqualification of Dan, Galvan.

REV. MR. WHITEHOUSE DEFINITELY RESIGNS MONCTON CHARGE

(Special to The Telegraph.) Moncton, N. B., Nov. 8.—Rev. George E. Whitehouse tonight announced definitely his resignation as pastor of the First Baptist church. Owing to some differences in the church respecting church affairs, Mr. Whitehouse tendered his resignation, but was prevailed upon by the Christian Brotherhood to reconsider it. Since that the differences were renewed, and at a business meeting tonight Mr. Whitehouse tendered his resignation, definitely refusing to reconsider, and it was finally accepted.

Since coming to Moncton two years ago Mr. Whitehouse has proved himself an energetic worker, organizing the Christian Brotherhood, which proved a most successful branch of the church work, succeeding to nearly every other evangelical church in the city.

Schooner Eric Badly Battered. Vinoyard Haven, Mass., Nov. 8.—Schr. Eric, St. John for this port for orders, which arrived last evening, reports experienced heavy northwest gale off Mettucus, Maine, during which the vessel was holed to and portion of deckload of lumber was washed overboard and lost. Also lost job and broke jaws to foremast.

Montreal, Nov. 8.—(Special)—J. C. Walsh, advocate, was tonight nominated by the Liberal convention to contest the federal seat in St. Ann's division, made vacant by the disqualification of Dan, Galvan.

HEARST WAS THE ONLY ONE DEFEATED ON THE DEMOCRATIC TICKET

Republicans Will Ask for Recount—Jerome Says "Yellow" Candidate May Become a Power Yet if He Will Reform and Not Attack Everybody—Moran Recovers His Health But Silent—His Adviser Says He Will Try Again.

New York, Nov. 8.—With the official vote of but three counties missing tonight, Lewis Stuyvesant Chanler apparently is elected lieutenant governor on the Democratic Independence League ticket, by a plurality approximating 1,700 votes over M. Linn Bruce, Republican.

While slight changes may be made in the returns from several counties, it is not believed they will materially reduce Chanler's lead, but on the contrary, may increase it.

At Republican headquarters, Chairman Woodruff was not prepared to give out any statement, but it was stated that the official canvass of the vote of the city of Greater New York may show enough changes in favor of Bruce to overcome Chanler's apparent lead at this time.

It appears late tonight that all the other candidates on the Democratic state ticket are elected by small, but safe pluralities.

The Republican campaign managers decided today to make applications in the supreme court for orders compelling the production in court of all "void and protested" ballots. These will be counted in court.

It appears late tonight that all the other candidates on the Democratic state ticket are elected by small, but safe pluralities.

William Barnes, jr., of Albany, a member of the state Republican committee, said: "On the surface we have nothing to lose by such a move. And we may gain, I can't tell."

Jerome on Hearst. New York, Nov. 8.—District Attorney Jerome today made the following comment on the recent election: "Hearst had not undertaken to stand for governor next year."

MOTHER AND HER FOUR CHILDREN PERISH IN NEW YORK FIRE

New York, Nov. 8.—A fire in an east side five story tenement house in Madison street early tonight, suffocated a woman and her four children. The family, named Ginsberg, occupied apartments on an upper floor, and their escape was cut off by the smoke and flames in the lower portion of the building. More than fifty women were taken down the fire escapes by firemen. The fire in the lower floors had filled the halls with smoke and cut off the means of escape. The firemen who were taken down fire escapes and ladders by the firemen who then searched the upper floors and apartments. On the third floor they found the bodies of three children on the stairs where they had been overcome. In one of the flats on the upper floor they found the bodies of the woman and fourth child who had been suffocated.

Mayor Ellis Will Not Run Again. Ottawa, Nov. 8.—(Special)—Mayor Ellis will likely be appointed assessor commissioner, and ex-Mayor Morris announces that he will be a candidate for office against all comers.

FROM ALL VERARINARITHE PROVINCES

CHATHAM. Chatham, Nov. 5.—The Roman Catholic churchmen of this place have arranged to give a course of temperance lectures in St. Patrick's hall during the winter.

HOPEWELL HILL. Hopewell Hill, Nov. 5.—At the annual meeting of the agricultural society on Saturday evening the officers for the ensuing year were elected as follows: Albert Newcombe, president; G. West, secretary; treasurer, R. Chesley Smith; depository, directors, Job Stiles, Byron Peck, Albert S. Mitton, Alexander Rogers, Luther Archibald, Geo. W. Newcombe, W. T. Wright, John Russell and Chas. Ayer.

ELGIN. Elgin, Nov. 7.—The following officers at its last regular meeting: C. T. L. R. Hethcote, president; V. T. Mrs. W. C. Tucker; P. C. T. R. A. Smith; L. D. W. Stewart; secretary, Dennis Dickey; F. S. S. Miss Blanch Constantine; T. Miss Margaret Johnson; M. R. Garland; D. M. Miss Ina Barchard; A. S. Miss Nina Kyles; G. Arthur J. Smith; S. Leo Moore; organist, Miss Mildred Robinson; registrar, Miss Greta Constantine.

HARCOURT. Harcourt, Nov. 7.—Robert J. Monton left last night for Fredericton, where he will reside in future.

MONCTON. Moncton, Nov. 7.—(Special)—Thomas Flewwood, one of the oldest and most highly respected I. C. R. employees in the city, passed away this morning after a illness of some weeks. He had been in the machine in the Moncton shops for more than twenty-five years, removing here from St. John. The deceased was 81 years old and a native of England. He was married by a widow and a son, Edward J. Flewwood, of the Imperial Oil Co., St. John; one daughter, Mrs. L. G. B. St. John; one daughter, Mrs. L. G. B. St. John, of Moncton.

DEER ISLAND. Deer Island, Oct. 31.—John Storer and Willie Thompson left for Worcester (Mass.) on Monday last.

KINTORE. Kintore, Nov. 5.—The flag waved at the post office on the 10th in honor of the marriage of Thomas Harry Watt to Miss Effie Pearl Carr, of Canterbury.

CHATHAM. Chatham, Nov. 5.—The Roman Catholic churchmen of this place have arranged to give a course of temperance lectures in St. Patrick's hall during the winter.

HOPEWELL HILL. Hopewell Hill, Nov. 5.—At the annual meeting of the agricultural society on Saturday evening the officers for the ensuing year were elected as follows: Albert Newcombe, president; G. West, secretary; treasurer, R. Chesley Smith; depository, directors, Job Stiles, Byron Peck, Albert S. Mitton, Alexander Rogers, Luther Archibald, Geo. W. Newcombe, W. T. Wright, John Russell and Chas. Ayer.

ELGIN. Elgin, Nov. 7.—The following officers at its last regular meeting: C. T. L. R. Hethcote, president; V. T. Mrs. W. C. Tucker; P. C. T. R. A. Smith; L. D. W. Stewart; secretary, Dennis Dickey; F. S. S. Miss Blanch Constantine; T. Miss Margaret Johnson; M. R. Garland; D. M. Miss Ina Barchard; A. S. Miss Nina Kyles; G. Arthur J. Smith; S. Leo Moore; organist, Miss Mildred Robinson; registrar, Miss Greta Constantine.

When the Liver is out of Order

colamel, cascara, salts, strong liver pills and purgative mineral waters won't do any permanent good.

When a person is bilious, the liver is not giving up enough bile to move the bowels regularly—and some of the bile is being absorbed by the blood. In other words, the liver is in a weakened, unhealthy condition.

Now, purgatives don't act on the liver at all. They merely irritate the bowels, and force out the contents of the large intestine. They are one of the worst things you can do for the liver. They act directly on the liver, and weaken and invigorate this vital organ—and put it in a normal, healthy condition.

FRUIT-TIVES also stimulate the action of the skin—and regulate the circulation of the blood. They are one of the best things you can do for the liver. They act directly on the liver, and weaken and invigorate this vital organ—and put it in a normal, healthy condition.

FRUIT-TIVES are fruit juices with tonic added—and are free from alcohol and dangerous drugs. They are one of the best things you can do for the liver. They act directly on the liver, and weaken and invigorate this vital organ—and put it in a normal, healthy condition.

KENT COUNTY SMALLPOX SITUATION EXAGGERATED SAYS HEALTH OFFICIAL

Chairman of Board Gives Detailed Report on Cases—Now Only Fifteen, He Says—Sharp Criticism of Moncton Official.

The opinions of correspondents are not necessarily those of the Telegraph. Unpublished communications will not be published. Write on one side of the paper only. Communications must be plainly written. Correspondents must give their names and addresses. If a letter is not published, the name and address of the writer should be sent with every article. Evidence is good faith—Telegraph.

To the Editor of the Telegraph, St. John: Sir,—In your issue of the 3rd instant, you intimate that the members of the local board of health for the county of Kent, I am not sufficiently alive to the importance of their duties. Dr. Fisher, secretary of the provincial board, has not given the smallpox situation in the county the attention it requires, and that the public are entitled to official information as to the number of cases and the precautions taken to prevent the spread of the disease. As chairman of the local board it is my duty to give the required information.

How the Disease Was Brought In. I have learned how the disease had been brought into the county. A young man named Thibodeau, of St. Norbert, had returned home from Maine and visited the houses in St. Norbert where smallpox was recently broken out. He then went to St. Anthony, where he took a walk with the doctor. On my return home I called a meeting of the local board of health and we decided to issue a quarantine order. At my suggestion the churches and schools in both districts were closed.

Critical of Moncton Health Board. This brings me to the time the Moncton health officers appeared on the scene. I am not sure that the members of the Moncton Board have shown neither good judgment or ordinary common sense in this matter, not to mention professional courtesy, more the medical matter. I am not sure that the members of the Moncton Board have shown neither good judgment or ordinary common sense in this matter, not to mention professional courtesy, more the medical matter.

The Cases in Detail. And now in relation, I will give a brief and reliable report of each and every case of smallpox within these two districts. There are at present only five cases in Kent County, and the county cases are: Valentine Legere's house, one case; Alex. Gallant, four cases; Geo. Mallet, three cases; Simon Richard, one case; James Mallet, one case; Peter Casey, one case; Felix LeBlanc, two cases; Isai Goggin, two cases.

SCHRIJVER, COAL LADEN FOR CHARLOTTE-TOWN, A TOTAL WRECK. Gouillon, N. S., Nov. 6.—Schr. Ivanhoe, Captain Parks, from New York, loaded with hard coal for Charlottetown, struck the southeast breakers some seven or eight miles off here today about noon. The crew landed in their boat at Seal Harbor. Vessel is owned by Joseph Wilson, Charlottetown. The crew, going out to sea, was rescued by the schooner "The Fish Hawk" and taken to Seal Harbor. The vessel was damaged and wrecked tomorrow will try and save the crew.

McGILL NOW CHARGED WITH STEALING \$136,000 FROM ONTARIO BANK. Toronto, Nov. 6.—At the conclusion of the Ontario Bank case against Charles McGill, ex-manager, this evening Police Magistrate Denison drew up an indictment charging McGill with stealing \$136,000 and committed him to jail, refusing an application for bail.

Quarantine Thorough, He Declares. This statement is made only from what "he said," and is as far from the truth as most of the other statements contained in the report. I may mention that John Morton, warden of the county of Kent, and as such interested in checking the disease, accompanied me and assisted me in placing these premises in quarantine, and placing these premises in quarantine, and placing these premises in quarantine, and placing these premises in quarantine.

HUGHES BEATS HEARST 60,000

New York Democrats Knifed Head of Their Ticket Badly

Chanler, for Lieutenant Governor, Got About Two Votes to His Running Mate's One, and Has Good Chance of Winning—"Yellow Peril" Likely to Be Reckoned With in Presidential Struggle Two Years Hence—Roosevelt Hailed as the Savior of His Party and the Nation.

(From Our Own Correspondent.) New York, Nov. 7.—The menace of Hearstism has not been removed by the election. As the Telegraph's readers have been informed by the case, Hughes was elected by a plurality of about 60,000. But this is not a decisive enough defeat to put the most remarkable adventure of history out of business. He will be heard from right along, and will probably be the Democratic nominee for president in 1908. It is conceded that if Hearst had had the active support of the regular Democratic organization he would have been the governor-elect today. He might even have been elected as it was if Roosevelt had not entered into the fight. With Tammany backing and striving only for its local candidates, with the Brooklyn Democratic leader openly opposing him, and with Roosevelt pointing the finger of shame at him as the inciter of assassination, Hearst came within 60,000 of election in a total vote of more than 750,000.

Away Behind His Party.

That a decent Democrat would have been elected would seem to be indicated by the fact that, even at this writing, the election is in doubt for the other state officers are concerned. The road of the Democratic ticket ran away ahead of Hearst. They got in the neighborhood of 140,000 plurality in Greater New York where Hearst got 77,000.

But the forces working in the Hearst movement have so changed and so shifted that the deduction would not be safe. In fact, it is likely that Hearst, drawing from the positive opinion, got more votes up the state than could have been obtained by any Democratic candidate for governor. The old party lines cast no more when the election was held. It is estimated that thousands of Republicans up state voted for Hearst, and then for Republican ticket. Many thousands of Democrats voted for Hughes, and for the Democratic ticket. The count in conditions has never been greater.

Hughes was nominated only in tardy recognition of the spectre of Hearst and because the most consummate and masterly politician of our time compelled the crowd and irate cohorts at Saratoga to choose him.

"Wallowing in their own disgrace and sordid, a degraded party set out to Saratoga to complete its own destruction. It had not an idea above its own dirty faction, its miserable Higgins, its Hearst, its Black, and all the rest of them. The honor of the state, the traditions and time-honored principles of the party, self-respect and decency, the very outworn forms of honor and probity—all were as nothing. Hearst meant no more to those degraded people than Jerome did to the rest of them. Nothing concerned them but their occasions of graft and their personal feuds.

Roosevelt Saved the Day.

"But Theodore Roosevelt, in his summer home at Oyster Bay, was watching the fate of his native state with a solicitude as intense as was ever aroused in him by any event in his career. None better than he appreciated the crisis. He knew it was the question of mere party success or supremacy. He knew that something was about to take place which concerned the very life of the state, and that the party, and not of the state alone, but of the whole country. He knew, he recognized the forces which he had himself unleashed, and there must have dawned upon his consciousness a sense of whether, if they were not instantly checked, they inevitably must lead to the ruin of the party, and of the class for class, intolerance of the law, impatience with the constitution, resentment against judges, a restless, restlessness of the masses, no set ideas, no definite convention of anything, but everywhere a deep, dull susceptibility to a man with a torch.

"And the man with the torch appeared, and he seemed about to lead—but by the grace of an all-wise Providence which watches over this people and over Theodore Roosevelt, the torch was a bogie torch, a sham, delusion and wholly fraudulent. The torch and the smoke of the waters closed over it on the 6th of November.

"Charles E. Hughes was the man walking in the wilderness, unapprehended, the unknown and the indescribable. Theodore Roosevelt's untiring genius forced the Republican party from the grave and saved the state—and, for all we can tell, saved the nation."

Congress Still Republican.

The house of representatives will remain in the control of the Republicans. Late returns indicate that their majority will be sixty-seven, or forty-five less than they had. There will be, it seems, 228 Republicans, against 159 Democrats.

Striking features of the election were the victory of one Socialist in Illinois, and the defeat in New York of James Waldsworth, who defeated the best team in the last session.

In the senate, it seems that the Republican membership of Hughes-Seven has been increased to sixty-two, and that the Democratic minority has been decreased from thirty-three to twenty-nine. (The terms of thirty senators will expire on March 4 next. There are equally divided between the two parties. In the next congress four of the Democratic seats will, therefore, be held by Republicans. Several of the men who will be named by the newly elected legislature were chosen in advance at primary elections. These are: Georgia, Bryan; Texas, Morgan; Alabama, Simmons; North Carolina, Tillman; South Carolina, Cullum; and Illinois, were all nominated in that way to succeed their wives, and are therefore sure to be returned.

Hughes Leads by 52,000.

New York, Nov. 7.—Incomplete returns from two-thirds of the counties in the state of New York make it impossible to get to a late hour tonight, to give definite figures on the state ticket other than for governor. Charles E. Hughes, Republican candidate for governor, has a majority of 52,000 approximately, but the remainder of the candidates are in doubt.

For lieutenant-governor, Lewis Stuyvesant Chanler, Democratic-Independent League candidate, has a lead in the city of Greater New York of 13,911. Up-

state, M. Linn Bruce, Republican candidate for lieutenant-governor, is running slightly ahead of Mr. Hughes' vote. As Mr. Hughes carries the Greater New York with a lead of approximately 120,000, it will readily be seen that the vote for second place on the ticket will be very close and only the complete official count will determine the successful candidate. Returns are coming in very slow from upstate counties. At 11 o'clock forty out of the sixty-one in the state had completed the count and turned in the figures. From these it was impossible to get the result of the entire count on the upstate places on the two tickets. At Republican state headquarters no definite statement or claim could be had. It was stated that as there were still about twenty counties to be counted, officially nothing would be given out until these have reported.

Hearst Charges Fraud.

At the headquarters of the Independence League tonight the following statement was issued: "Reports from up-state indicate not only that Mr. Hearst cut down the Republican vote materially, but that the Independence League vote for Mr. Hearst was not counted in many counties. These votes will have to be added to the announced result of Mr. Hearst's vote in order to give the correct Hearst figures in the state.

"Last night Captain William Astor Chanler stated that his brother, Robert Chanler, had threatened to bring mandamus proceedings against several election boards before they consented to count the Independence League vote for Mr. Hearst. Today other reports are received indicating that Independence League votes for Mr. Hearst were not counted in Erie and Allegheny counties. Reports come also showing that in districts in Clinton, Cattaraugus, Herkimer, Wayne, Albany, Onondaga and Washington counties there was a failure to count the Independence League vote for Mr. Hearst, which was cast under the scales.

"The facts developed today explain the great falling off of the total vote yesterday as compared with the total vote cast two years ago. There is no doubt that the votes represented by this falling off were the votes cast for Mr. Hearst and his associates under the emblem of the scales. In 1904 the total vote cast for governor was 1,925,907. This year with 63 election precincts missing, only 1,522,440 votes are accounted for, although the registration this year was unusually heavy, and the weather conditions and the interest taken in the campaign all tended to bring out a full vote.

"The statement concludes with the announcement that 'these matters are being fully investigated.'

Democratic Gains in New Jersey. Trenton, N. J., Nov. 7.—Revised returns show that the Democrats will have the honor of assembly, 31 to 29, and have elected four congressmen in New Jersey, a gain of three.

The legislature will be Republican in joint ballot, 44 to 37. The gains of the Democrats three more than a majority.

Missouri Democratic. St. Louis, Mo., Nov. 7.—Notwithstanding returns from the state are coming in with proverbial tardiness, from what is known, the fact seems established that Missouri has again returned to the ranks of Democracy. Chairman Evans, of the Democratic state committee, holds the claim of a majority of at least 18,000, but when all returns are in, the margin of the outgoing districts in the south half of Missouri, the results are not conceded at the Republican state headquarters.

Republicans Sweep Connecticut. New Haven, Conn., Nov. 7.—Another tidal wave of ballots swamped the Democrats in Connecticut yesterday. The Republicans elected their entire ticket, re-elected five members of congress and a senate and a house that are overwhelming of their own kind.

No Change in Illinois. Chicago, Nov. 7.—Illinois went Republican by over 100,000, the vote from Smalls' state treasurer, bringing about 120,000 with a few districts estimated. Chicago gave the state ticket a plurality of over 50,000. The Republicans lost five congressional seats, giving the Democrats six instead of one in the next congress. The legislature is Republican by a good majority on joint ballot. This insures the return of S. Senator Cullum.

Colorado Goes Republican. Denver, Colo., Nov. 7.—Returns are in-joint ballot, sufficient to show the defeat of the entire Republican state, congressional and judicial tickets, and a Republican majority of thirty or more on district ballots in the legislature, which will elect a senator to succeed Thomas M. Peterson.

Democratic Governor in Rhode Island. Providence, R. I., Nov. 7.—J. H. Hughes, of Pawtucket (Democrat), defeated Governor George Utter (Republican), for re-election by a plurality of 1,238, according to complete returns compiled by the Providence Journal today. The rest of the Republican state ticket was elected. Republicans control the general assembly. This is to choose a United States senator to succeed George Peabody Wetmore.

Miners Elect Representatives. Philadelphia, Nov. 7.—The latest figures show that everywhere in the city and state the fusion party was either badly defeated or had its best year yet. The Republican candidate for governor against Lewis Emery, Jr., the fusion nominee, ran very strong and his plurality may reach 75,000. Last year the fusionists carried the state for state treasurer by a plurality of 88,000. In Philadelphia, Stuart ran ahead of his ticket and carried the city by a plurality of 32,228. Allegheny county, which includes Pittsburgh, gave Stuart an estimated plurality of 28,000. Incomplete figures from the thirty-seven congressional districts in-

state that the Democrats gained five congressional seats, which will make their delegation in the next house six, instead of one. The new legislature will remain heavy Republican.

A notable feature of the campaign was the success of the United Mine Workers of America, which organization entered the political field for the first time in this state. The latest figures show that the miners will have two representatives in the next congress, and a half a dozen in the legislature, all Democrats.

Minnesota Chooses Democratic Governor. St. Paul, Nov. 7.—Governor John A. Johnson, Democrat, has been re-elected by at least 40,000 plurality, and the final figures may go considerably higher. The rest of the state ticket is Republican, with the possible exception of secretary of state, which measure returns show to be in doubt.

Bryan's State Republican. Lincoln, Neb., Nov. 7.—George L. Shelton, Republican, elected governor of Nebraska by a plurality of from 10,000 to 18,000, and carries with him probably the entire Republican state ticket. The Republicans claim five of the congressional seats and a majority of thirty-seven on joint ballot in the legislature, insuring a Republican success in U. S. Senator Millard. The vote was tight.

MORE PAY LIKELY FOR POSTMASTERS

Minister of Railways and Prominent Men Inspecting Quebec's Facilities—Minister of Marine and Shipping Men Look Over St. Lawrence Navigation Aids.

Ottawa, Nov. 6.—Hon. L. P. Brodeur, minister of railways and telegraphs, accompanied a large party of Montreal and Quebec shipping men on an inspection of the St. Lawrence route tomorrow. The purpose is to let the shipping men see what has been done this season. Mr. Brodeur will also be present at a meeting of the St. Lawrence navigation committee tomorrow. The minister of marine and shipping, Mr. Butler, left this afternoon at 10 o'clock for Montreal, and will leave there in a special car at 11:30 p. m., accompanied by Mr. Morse, Sir Thomas Shaughnessy, and other representatives of all the railroads, going to Quebec to inspect the locks and locks where a conference will be held relating to the Quebec locks and locks.

The minister of railways and telegraphs, Mr. Butler, left this afternoon at 10 o'clock for Montreal, and will leave there in a special car at 11:30 p. m., accompanied by Mr. Morse, Sir Thomas Shaughnessy, and other representatives of all the railroads, going to Quebec to inspect the locks and locks where a conference will be held relating to the Quebec locks and locks.

The system of land values and imposing business licenses in vogue in Ontario, the commission believes, would not work satisfactorily in an established community like this nor could a single tax principle be applied.

Exemption on personal property or in the form of a property tax, the commission believes, can be removed by the appointment of a principal assessor at such a salary that will induce a competent man to accept the position.

Say Many Escape Taxation. The commission finds that a large percentage of personal property and income now escapes taxation, which is shown by the fact that the personal assessment is \$1,247,225 against an assessment of \$2,718,270 on real estate and only twenty-five persons in the city are assessed on incomes in excess of \$1,500.

In regard to banks the commission recommends the adoption of the St. John act of 1904 so far as it applies to branch banks with the addition of a minimum tax. Branch banks are now taxed on the basis of the value of their real estate capital stock. Under the change they will pay on the volume of business transacted.

The commission recommends that corporations established outside of the city but doing business in the city shall be taxed as at present with the addition of a tax on the volume of business transacted. The commission believes that the companies be appraised at forty per cent of the premiums and monies received.

No change is recommended in the system of assessing mortgages, real estate, but where the mortgage is a rate payer he is to be exempted from taxation on the amount unassessed the same as is now the case. Ten thousand dollars or more in capital stock. Under the change they will pay on the volume of business transacted.

REAL ESTATE IS STILL SACRED IN FREDERICTON

Taxation Commission Reports Rate Should Remain One-Fifth of Income

SOME CHANGES RECOMMENDED

Would Make Poll Tax \$5, and Let Tenants of Church Property Pay the Taxes—Chairman Allen Submits Minority Report Objecting to Heavy Burden on Salariat Men.

Fredricton, N. B., Nov. 6.—The report of the civic tax commission appointed under authority obtained at the last session of the legislature was laid before the city council this evening. Attached to the report was the draft of an act containing eighty typewritten pages which, if approved by the council, will be submitted to the legislature at the next session.

Under the existing assessment law income is taxed on a five to one basis in proportion to real estate and two members of the commission, Sheriff Sterling and John Palmer, favor the continuance of the system with a slight modification, while Chairman P. C. Allen favors the adoption of a flat rate. Mr. Allen's views are embodied in a minority report. The report of the commission, which is signed by Secretary J. W. McCready, calls for the efforts put forth to procure information and suggestions on the subject of taxation and of the different interests that are affected by the present system.

The system of land values and imposing business licenses in vogue in Ontario, the commission believes, would not work satisfactorily in an established community like this nor could a single tax principle be applied.

Exemption on personal property or in the form of a property tax, the commission believes, can be removed by the appointment of a principal assessor at such a salary that will induce a competent man to accept the position.

Say Many Escape Taxation. The commission finds that a large percentage of personal property and income now escapes taxation, which is shown by the fact that the personal assessment is \$1,247,225 against an assessment of \$2,718,270 on real estate and only twenty-five persons in the city are assessed on incomes in excess of \$1,500.

In regard to banks the commission recommends the adoption of the St. John act of 1904 so far as it applies to branch banks with the addition of a minimum tax. Branch banks are now taxed on the basis of the value of their real estate capital stock. Under the change they will pay on the volume of business transacted.

The commission recommends that corporations established outside of the city but doing business in the city shall be taxed as at present with the addition of a tax on the volume of business transacted. The commission believes that the companies be appraised at forty per cent of the premiums and monies received.

No change is recommended in the system of assessing mortgages, real estate, but where the mortgage is a rate payer he is to be exempted from taxation on the amount unassessed the same as is now the case. Ten thousand dollars or more in capital stock. Under the change they will pay on the volume of business transacted.

ALL LOST WHEN BOAT UPSET

Believed Now That Whole Crew Made Effort to Leave Bark Adeona

Gale Still Raging and All Attempts to Reach the Stranded Vessel Off Richibucto Bar Have Proved Fruitless—Another Try Today—Norway Seeking Information—Lighthouse Keeper Tells Story of Disaster.

Richibucto, N. B., Nov. 7.—With the fragments of the Norwegian ensign flying at her mizen as a signal of distress, the bark Adeona, abandoned in terror by her crew, still holds together on the sand bar at the entrance to this harbor. The men, eleven all told, are believed to have been swept away to their death by the high breakers and the undertow as they attempted to leave the vessel in the long boat on Monday last.

As yet but two bodies have been washed ashore, and owing to the continued fury of the gale it has been impossible to approach the ship, but the lighthouse keeper, from his post, a quarter of a mile away and the pilots as they venture with their craft almost to stick to the breakers, report no sign of life on the Adeona's decks and the belief that all have perished is reluctantly becoming a certainty.

The chairman believes that the effect of the present excessive taxation of income is to deter commercial travelers and those whose business depends on their ability to reside in any particular place from making their homes here and he favored the exemption altogether of income derived in the city.

A. R. GLOBE, FORMERLY OF ST. JOHN, MISSING

Friends at Sydney Fear Foul Play—Has Not Been Heard From Since September 1.

Sydney, N. S., Nov. 7.—A. R. Globe, local photographer, is reported missing since Sept. 1, and friends are entertained as to his whereabouts. He was at Marble Mountain during the month of August, and Sept. 1. He wrote to Sydney that he would be here on the following Saturday. He never came. He ordered his mail addressed to the Sydney office, but has never been heard from since.

West of a sea in St. John, and another in South Bay. Friends at Sydney fear that he has met with foul play.

FREE TRIP FOR BOARD OF TRADE DELEGATES TO WEST INDIES

Halifax, N. S., Nov. 6.—Secretary Weldon of the board of trade, is sending invitations today to the Montreal, Toronto and St. John boards to join with the Halifax board in sending a delegation to the British West Indies to discuss trade matters with the boards there.

The invitation is being extended to the West Indies when the board of trade, the Halifax board, some weeks ago, and Pickford & Black will carry the delegates aboard the Scotia, which will leave for the West Indies on Feb. 10th, and will visit Barbados, Trinidad and Demerara, on the outward passage, and St. Lucia on the homeward voyage.

MAY BE THREE-CORNERED FIGHT IN ST. ANN'S ELECTION

Montreal, Nov. 7.—(Special)—At a Conservative convention tonight, it was decided to contest St. Ann's division, represented by the opposing and disqualified incumbent, Duval, against the Conservative Frank J. Curran, son of Judge Curran, who himself represented the constituency from 1896 to 1902.

Then there is the prospect of Dr. Guerin, who was minister without portfolio in the last Parent cabinet, running as an independent Liberal. He was defeated by Mr. Valin in the last provincial election, and now wants his revenge.

The commission recommends that corporations established outside of the city but doing business in the city shall be taxed as at present with the addition of a tax on the volume of business transacted. ST. JOHN, N. B., NOVEMBER 10, 1903

HEARST, AND THE FUTURE

Hearst was beaten Tuesday in what was practically his second assault upon the presidency of the United States; but the number of votes cast for him under the circumstances was great enough to stagger conservative Americans from Maine to California.

Whatever Hearst's motives and character may be, we now have convincing evidence that nearly one-half of the people of the greatest state in the Union do not believe his motives and his character are as his opponents represented them to be—that these people, who are as sober and as honest as most, have repudiated the Roosevelt view of Hearst and the Roosevelt cure for the evils which beset the nation, preferring Hearst, Hearst's methods and Hearst's avowed purposes in making war on the trusts.

These developments mean that New York and the nation are not quit of Hearst through his defeat for the governorship, but rather that the battle merely discloses the size of the battle to be fought in 1908, when the radicals of the nation shall have massed themselves behind Hearst for the first of the struggle decisions of the fate of the republic.

"There are a million families inhabiting the Dominion, that is, there were when the census of 1901 was taken. They are ideally housed, for nearly every family has a house by itself for a home. In the census returns the condition of all families of the Dominion was investigated excepting those living in the (then) unorganized territories of the Northwest and some unorganized districts in the Province of Quebec, and 1,015,302 families were studied to see how they were housed, leaving 32,448 families of whom particulars were not obtained. Of these 1,015,302 families, 865,153 occupied each a house. There were 29,963 houses in which two families dwelt; 2,618 in each of which there were three families, and 968 which sheltered four or more families. Nearly one half of these 865,153 families occupied houses having from six to ten rooms. There were 488,786 such families or 48.6 per cent. That is, nearly fifty families in each 100 were comfortably and roomily lodged, seeing that the average family in 1901 consisted of four persons. In the Dominion has about five persons over thirteen families in the hundred have five-roomed houses; over fourteen have four-roomed dwellings; about ten have three-roomed, and over seven in every 100 of families dwell in mansions having eleven or more rooms."

THE LIVES OF MEN AND WOMEN Facts and arguments so striking that they must compel serious attention are multiplied in a remarkable address delivered by Prof. J. Pease Norton, of Yale University, in advocacy of a national health department. Some mention of this address has been made already in these columns, but the subject is of so general interest and the reasoning of such wide application, no excuse should be necessary in introducing a more extended review of Prof. Norton's work. He reminds us at the outset that while governments are spending many millions to improve the breeds of animals, to prepare for war, to promote industry, to raise the standard of agriculture, these same governments slight or neglect matters of much more vital importance. To quote a few of his powerful sentences: "The salvation of the civilization and of the race lies in the hands of exceptional men. The hope of the race rests in its efficient organization for action. Efficient organization consists in compelling each individual to do that thing which in his capability which has greatest value for society. To do otherwise is to go waste. To permit great wastes to go unchecked is more than a suicidal policy; it is an evil more destructive than race suicide is race homicide. "There are four great wastes today, the more lamentable, because they are unnecessary. They are preventable death, preventable sickness, preventable conditions of low physical and mental efficiency and preventable ignorance. The magnitude of these wastes is testified to by experts competent to judge. They fall like the chastes of night over the whole human race, blotting out its fairest years of happiness. "The facts are cold and bare—1,500,000 persons die in the United States

annually by which the plutocrat demagogue has sought to win the first action in his campaign for the Presidency. "Buncombe and Bedlam have done their worst. The saving common sense of the voters, the shrewdness which penetrates false pretences, the quiet thought that has been going on in the midst of all this tumult of declamation; that forces the honor and the safety of the State are now to be committed.

"But what a reproach it must continue to be to the intellectual sobriety of the community that the Hearst campaign has been possible! The causes that made it possible, the responsibility for the uneasy public temper, for the passion for general denunciation, and legislative panacea, for the prevailing neurotic political sentimentality, can be studied at leisure."

In both these great journals we find plain recognition of the fact to which we have already referred, that forces are at work in the Republic which will not be arrested by the result of yesterday's election. In some measure Hearst promoted and increased those forces, and to some extent he gave them direction. But in the main he craftily took advantage of them. The important matter is that they exist, and that they are strong beyond previous parallel at a time when the material prosperity of the nation is progressing to be great beyond precedent. If there is so much unrest and discontent, and "neurotic political sentimentality" in the day of apparent prosperity, what height will these forces reach under the pinching of even an approach to "hard times"? Hearst will have hundreds and thousands of imitators. Already his forces are organized in several states. He is to add many links to his chain of newspapers, and these newspapers, having the ear of millions, will scream with increasing violence for two years to come.

The Republican party remains in power. To Theodore Roosevelt and the representatives of his party is committed now the great work of lessening or removing the causes which make it possible for Hearst to move slowly upward by exploiting the real and fancied injustices suffered by the fellow Americans. It is a mighty task. Upon the manner in which it shall be discharged will depend to a great degree the nature of the general engagement to be fought from this time forward and to be decided in November, 1908.

THE HOMES OF CANADIANS Dr. George Johnson, former Dominion statistician, writes of Canadians as uncommonly well-housed. The statistics he gives indicate a high degree of comfort in the Dominion; the people have striven to own their homes and have been successful in an unusual degree. Dr. Johnson says: "There are a million families inhabiting the Dominion, that is, there were when the census of 1901 was taken. They are ideally housed, for nearly every family has a house by itself for a home. In the census returns the condition of all families of the Dominion was investigated excepting those living in the (then) unorganized territories of the Northwest and some unorganized districts in the Province of Quebec, and 1,015,302 families were studied to see how they were housed, leaving 32,448 families of whom particulars were not obtained. Of these 1,015,302 families, 865,153 occupied each a house. There were 29,963 houses in which two families dwelt; 2,618 in each of which there were three families, and 968 which sheltered four or more families. Nearly one half of these 865,153 families occupied houses having from six to ten rooms. There were 488,786 such families or 48.6 per cent. That is, nearly fifty families in each 100 were comfortably and roomily lodged, seeing that the average family in 1901 consisted of four persons. In the Dominion has about five persons over thirteen families in the hundred have five-roomed houses; over fourteen have four-roomed dwellings; about ten have three-roomed, and over seven in every 100 of families dwell in mansions having eleven or more rooms."

IN NEW YORK The Telegraph's New York correspondent gives Wednesday an admirable review of the political situation in that city. Hearst is down, but Hearstism is not destroyed, and the adroit schemer who succeeded in convincing so many people that he was a sort of political Moses, to lead them out of the wilderness of Republican graft and fraud and class-burdens into a realm of better things, will continue to be a source of uneasiness, and a menace to the existing social order.

Moran, "the man who dares," was soundly beaten by Governor Guild in Massachusetts. He was much weaker in the industrial centres than his admirers believed he would be. The Democrats in both Massachusetts and New York had great opportunities this year. In both states they fought among themselves, and lost. An excited citizen called up this office at 2 o'clock this morning and inquired "how the election" was going. He was asked whether he wished to know about

the next twelve months; equivalent to 4,200,000 persons will be constantly sick; over 5,000,000 persons, consisting of 25,000,000 persons, will be made more or less wretched by mortality and morbidity. "We look with horror on the black plague of the middle ages. The black waste was but a passing cloud compared with the white waste visitation. Of the people living today over eight millions will die of tuberculosis, and the federal government does not raise a hand to help them.

The Department of Agriculture spends seven million dollars on human health and animal health every year, but with its exception the splendid work done by the Department of Agriculture, and the Department of Health, does not directly appropriate one cent for promoting the physical well-being of babies. Thousands have been expended in stamping out cholera among swine, but not one dollar was ever voted for eradicating pneumonia among human beings. Hundreds of thousands are consumed in saving the lives of elm trees from the attacks of beetles; in warning farmers against blights affecting potato plants; in importing Sicilian hogs to exterminate various species of weeds from the ranks of the useful plants, and in exterminating parasitic growths that prey on fruit. In fact, the Department of Agriculture has expended during the last ten years over forty-six millions of dollars. But not a wheel of the official machinery at Washington was ever set in motion for the alleviation or cure of disease of the heart or kidneys, which will carry off over six millions of our entire population. Eight millions will perish annually, and the entire event is accepted by the American people with a resignation equal to that of the Hindu, who, in the midst of day, calmly awaits the day of the cholera.

EDWARD THE PEACEMAKER His Gracious Majesty Edward VII. received yesterday, his birthday, congratulations and good wishes from a vast Empire in every part of which he is honored both by his position and what he has accomplished. As both king and man he has grown steadily in the affections of a group of great and growing nations. The people who live under the Union Jack have conferred upon him the title of "The Peacemaker," than which there is no prouder.

THE QUESTION The defeat of Hearst should be gratifying to Canadians. He is a trouble maker, and his possible occupancy of the presidential chair must ever be "dreaded with alarm" by the inhabitants of the northern half of this continent. His success at the polls would at once be a menace to the world's peace, for whether congress was able to ultimately control him or not, his ascendancy would surely set up a dangerous condition of unrest. Hearst is defeated, but his defeat is not put out of business by an overwhelming adverse vote. Ottawa Free Press.

NOTE AND COMMENT A wave of civic reform appears to have reached Montreal. Will it be able to catch up with the Scott Act reform wave? The Eastern Steamship Company are to be commended for the enterprise they have shown from year to year in improving their service between this city and Boston. St. John welcomes the Governor Cobb.

IN NEW YORK The Telegraph's New York correspondent gives Wednesday an admirable review of the political situation in that city. Hearst is down, but Hearstism is not destroyed, and the adroit schemer who succeeded in convincing so many people that he was a sort of political Moses, to lead them out of the wilderness of Republican graft and fraud and class-burdens into a realm of better things, will continue to be a source of uneasiness, and a menace to the existing social order.

Moran, "the man who dares," was soundly beaten by Governor Guild in Massachusetts. He was much weaker in the industrial centres than his admirers believed he would be. The Democrats in both Massachusetts and New York had great opportunities this year. In both states they fought among themselves, and lost. An excited citizen called up this office at 2 o'clock this morning and inquired "how the election" was going. He was asked whether he wished to know about

Hughes or Guild, Hearst or Moran. "What I want to know," he said some what coolly, "is who is leading in the Times 'Living Contest'?" Evidently it is "keeping 'em awake nights."

The latest in connection with the Quebec county election is the discovery, announced in a local Liberal journal, that Sir Wilfrid Laurier has been warming serpents in his bosom. Those serpents, it is further stated, are chucking over to the Liberal party so much money that he is evidently feeling it some money. It is evidently true that some money was done. It is bad when an astute man makes his political boom into a warming place for snakes. It is unbearably chuckle at the patriot whose heart they have been improperly absorbing—Montreal Gazette.

FOWLER TELLS WHAT BECAME OF THAT \$55,000 RAKE-OFF

Irwin Got \$12,000, George E. Foster \$7,500, and Others Smaller Amounts—Member for Kings Somewhat Tangled Up by Shepley's Sharp Questioning—A Long Session at Ottawa Yesterday.

Ottawa, Nov. 7.—The insurance commission met at 4.30 p. m. today. The first witness was Geo. W. Fowler, M. P. He was examined by Mr. Shepley...

Mr. Shepley could not see the difference between the \$22,000 which he had received from the Shawap deal, \$22,000 out of the Okanagan Lumber Company and about \$55,000 from the Kamloops Lumber Company deal.

When the evening session opened Mr. Shepley drew the attention of Mr. Fowler to the agreement dated 8th February, 1904, made between Mr. Fowler, as vendor, and G. E. Foster as vendee, which set forth that Fowler, McCormick and Irwin contemplated the purchase of the Kamloops property and had asked the Union Trust Company to join them in the purchase.

Mr. Shepley said that Mr. Foster had stated that Mr. Fowler had been acting as an agent for the Union Trust. Mr. Fowler denied. He held that he was the owner. Mr. Shepley put in a letter from Foster showing that Messrs. McCormick and Irwin were looking over their limits on January 5 and were reporting on the property.

Mr. Shepley—"They could not have been doing this without your knowing of it?" Mr. Fowler—"They might."

Mr. Shepley—"Was it not because of your introducing the matter to the Union Trust that they were there?" Mr. Fowler—"It might be, I could not say as to that."

Mr. Shepley—"It is not too much to say that they were there because of the option you held?" Mr. Fowler—"No, it was not too much to say that."

Mr. Shepley—"Did they not report to you?" Mr. Fowler—"Not an express report, but they reported to me."

Mr. Shepley—"I would not make a specific report to you?" Mr. Fowler—"I would not make a specific report to you."

Mr. Shepley—"If they were not reporting to you how was it that they were reporting for the vendee, you were the vendor?" Mr. Fowler—"I do not remember giving any instructions to them. I made out figures for what they reported."

Mr. Shepley—"I must have got their reports. I did not give them any instructions to report. At least I don't remember doing so. There would be no harm of their reporting to me, would there?"

Mr. Shepley—"Not for this work because here is a cheque for \$22,000 paid by the Kamloops Lumber Company for the purchase of the property. There is a note from Foster stating the account for \$22,000 he had paid to Mr. Fowler."

Mr. Shepley—"Did you have any concern in paying the money for the Shawap?" Mr. Fowler—"In what respect?"

Mr. Shepley—"In any respect?" Mr. Fowler—"Sometimes afterwards Peter Ryan said that he had a commission of \$5,000 from Shields. He got \$5,000 for the sale and he sent me \$2,500 and I gave Mr. Ryan credit for it in connection with the \$55,000 which was coming to me from the Kamloops Lumber Company sale. This was sent on Ryan's order."

Mr. Shepley—"Did you not report this to any one?" Mr. Fowler—"No."

Mr. Shepley—"You did not report this to any one?" Mr. Fowler—"No."

Mr. Shepley—"You did not report this to any one?" Mr. Fowler—"No."

Mr. Shepley—"You did not report this to any one?" Mr. Fowler—"No."

CAPTAIN AND CREW OF N. S. BARQUENTINE RESCUED IN NICK OF TIME

Master and Six Men of Whitewings Taken Off by Steamer When Vessel Was Awash.

New York, Nov. 7.—Rescued when they were about ready to drop into the ocean from their swaying wreck, six men, the crew of the Nova Scotia barkentine Whitewings, and her captain, were brought to this port today by the German tank steamship Mannheim, which arrived from Shields.

The men were: Capt. M. J. McLeod, Mate Alexander Luskomb, Mortimer Sewer, the cook and H. H. Wade, Gustav Brown, Monis Fwao and Sinclair Wilson.

With bulwarks just awash and her cargo of 400 tons of lumber littering the ocean, the barkentine was discovered drifting across the steamer track 200 miles east of Nantucket at 4 o'clock on Tuesday morning by the flare of her signals of distress.

Capt. Schau, of the Mannheim, at once bore down on the foundering vessel and made out a half dozen figures crouched on the top of the forward deckhouse. A boat was sent out at once, although a heavy sea was still running. After a struggle the boat's crew brought back the survivors.

The mainmast had gone by the board, and the stern of the barkentine was stored in and partly under water. Only the cargo of lumber kept the barkentine from foundering.

Capt. McLeod reported to his owners, Messrs. Hutchings & Co., that he had left Bridgewater (N. S.) on Saturday last with a cargo for New York. On Sunday the wind strengthened to a hurricane, and at 2 o'clock on Monday morning the vessel sprang a leak. The crew had to take refuge on the wreck. A day and a night were passed in the momentary fear that all hands would be washed off the deckhouse.

The White Wings hails from Liverpool (N. S.) and is of 430 tons burden.

WAS ASLEEP WITH HER SICK BABY

Fifteen Dollars Taken from Mantlepiece—Same Family Also Suffered from Depredations in House in Millidgeville Road.

To be the victim of one case of housebreaking and robbery is bad enough, but when the same person suffers again within two weeks, it is about time to take notice.

Charles Coleman owns a house near the old rope-walk, on the Millidgeville Road, but at present it is unoccupied and about two weeks ago it was broken into and considerable damage done. Two or three doors were broken, a trunk was wrenched open and a tool chest which contained some carpenter's tools and a number of bottles of preserves, was rifled.

Mr. Coleman has been away in Maine and during his absence his wife has been staying with her mother, Mrs. J. R. Wilson, at 5 Harris street. Late Saturday night when every one in the house was asleep, the door was forced open and some one entered the room where Mrs. Coleman was sleeping with a sick baby, having been operated on a few days ago for tumor. The thief took \$15 in bills from a dish on the mantelpiece. The catch was found of the door Sunday morning, but the money was not missed until Monday.

Mrs. Coleman told the story to a Telegraph reporter, who visited the house Wednesday afternoon.

When asked about the robbery she said: "My wife has a baby, I don't see how it happened but it has. My husband was in a registered hotel, which I received Saturday morning. There were two American bills—\$10 and \$5 in a pocket in a little china pitcher on the mantelpiece in my room. I have been up all night lately and a great deal with my baby and suppose I had been asleep. On Sunday morning my mother brought the catch of the door into my room and said she had found it on the floor inside the door. My husband had been in the room on Saturday night and he thought nothing of it, but when we looked for the money Monday morning we readily connected the wrenched door with the loss of the bills."

Asked concerning the breaking into of their house on the Millidgeville Road, Mrs. Coleman said that considerable damage had been done to the property. She serves there and her husband had put them in a large tool chest for safe keeping. The chest was broken open and more than a dozen bottles of preserves were taken. Whiskey bottles and a number of a debarch were visible and she believed that the robbers visited the house night after night. "If the police would go out every night they would be likely to catch someone."

It is a puzzle how the thief forced the door of the house in Harris street and how he got into the room without the notice of the police. "I thought it would be of no use," she thought it would be of no use. "The thief could not be traced through the wrenched door without the notice of the police. It would be only making trouble for nothing."

Mrs. Wilson, mother of Mrs. Coleman, was quite excited over the affair. She said: "Who would have thought of anybody coming and breaking into this old shack. It must have been somebody that knew the law and was home from Houlton. I myself am a sleeper and do not know why I did not awake when the entry was made. My watch and chain was on the mantelpiece and it is a wonder that was not taken as well."

ALLANS AND C. P. R. AWAIT GOVERNMENT'S WORD

Montreal, Nov. 7.—Officials of the Allans and C. P. R. Atlantic steamship line are awaiting the decision of the department of commerce, Ottawa, before definitely announcing their winter sailings. The C. P. R. wants to cut out Halifax as a port of call for the Empress of Britain and the Empress of Ireland, but the department to this effect had been practically completed a strenuous protest from Nova Scotia caused a hitch and as a result the department is still undecided.

DEADLOCK STILL EXISTS BETWEEN COAL AND STEEL COMPANIES

Halifax, N. S., Nov. 7.—Hopes are entertained tonight that a solution of the difficulty between the coal and steel companies is in sight. General Manager Jones is in Ottawa in this respect. Manager Clouston, of the Bank of Montreal, has made representations to the government with a view to a temporary settlement pending a final and more satisfactory one. It has not been ascertained whether any bill has been taken into consideration by Mr. Clouston.

Senator Ferrie, Montreal, one of the big names in the coal and steel industry, also interested himself in the way of bringing about a settlement. He has been in Ottawa and has been seen by the general manager Jones, who says that he has been in operation two or three days, but no steps have yet been taken by the company to bring his matter into the courts for settlement.

LORDS FURTHER AMEND EDUCATION BILL

London, Nov. 7.—With large opposition majorities and after further drastic amendments, the House of Lords tonight adopted clause four of the education bill, which provides that the local educational authority "may" afford extended facilities for special religious instruction.

AMHERST TURNS DOWN SEPARATE SCHOOL PROPOSAL

Amherst, N. S., Nov. 6.—A meeting of the board of school commissioners of the town was held this evening to consider the taking over as a town school the building built for school purposes by the Catholics of the town last year. The request of the congregation was that it be taken over as a town school similar to those of Halifax and Sydney. The question has aroused much discussion and much opposition and many citizens were at the meeting.

The board by a vote of 3 to 1 passed a resolution stating that as a majority of the citizens of the town seemed opposed to the scheme, therefore their duty was to act in accordance with the wishes of this majority. While they realized the magnitude of the congregation's self-imposed burden in the erection of the building and conscious of the need of the class they desired to benefit and the disorganization of the work done, still they must recognize the fact that public feeling was directly opposed to the granting of public funds for separate schools. If the Catholics wished, however, to carry out the scheme, they would have to submit the existing circumstances they could not promise any aid.

FIVE MEN DROWNED IN P. E. ISLAND WRECK

Russian Bark, Bound from Dalhousie to Melbourne, Broken Up, and Seven Poor Sailors Are Clinging to the Wreckage, Facing Death—Eight Got Ashore—Two More Ashore on Same Coast.

Charlottetown, P. E. I., Nov. 7.—The wrecked bark off Priest Pond is the Russian Finn iron bark Serinde, lumber laden from Dalhousie (N. B.) to Melbourne, Australia. She left Dalhousie on Sunday afternoon and had thick weather and storms all the way and struck a reef off Priest Pond Tuesday night. Captain Wigland and eight men got to shore. Three men were washed ashore and two more drowned are still among the wreckage.

Seven men are still on the wreck, three on one portion and four on the other, some distance apart. The ship broke amidships and the stern is carried away. Two doctors from Souris have gone to attend to the injured who were mangled by the floating lumber. The ship was loaded by the Shives Lumber Company, of Campbellton. The men on board the wreck are without food, fire or water and can scarcely hold out till daylight.

Another vessel, the iron bark Olga, of Forstrund, Norway, in ballast from Port Elizabeth, South Africa for Campbellton (N. B.), went ashore yesterday morning between 5 and 6 o'clock and is lying on the rocks several hundred yards from the bank. In the afternoon a cable from the ship was brought to the shore and the crew launched their lifeboat with twelve persons, including a woman passenger. The boat was smashed to pieces, but the people on shore rescued all hands.

It is reported that the captain, and first and second officers were still on board the Olga, having refused to leave with the others. Lloyds agent in Charlottetown promptly wired the department of marine regarding those barks and the department instructed their agent here to send one of the winter steamers to their rescue. The Stanley leaves here tonight for that purpose but as a renewal of the gale is feared, it is not thought that the steamer will succeed as with a northeast or northwest gale the scene of the wrecks is a very dangerous place.

Another bark, the Viker Norwegian, Miramichi to Liverpool with deals is from Charlottetown. Her crew have all been saved. Captain Murrison and wife and crew of the Turret Bell, arrived safely in Charlottetown today and are at hotels, all well.

WILL ASK FOR TROOPS IN HAMILTON STRIKE

Street Railway Company Ready to Operate Cars When Protection is Given—Some Disorder.

Hamilton, Ont., Nov. 7.—There is no change in the street railway strike situation today. Cars are being run on Dundas and Burlington branches, but the city lines are tied up. The crowd certainly damaged about midnight at the east end, and at two Chinese laundries. A laundry on John street, was wrecked by supposed union sympathizers.

It is now thought an effort will be made to run the city cars tomorrow, as the company has a large force of men here from other points.

Troops from outside will be asked for before any efforts are made to resume the city services. The local police certainly cannot handle the crowds at night, and these would have serious trouble had the Dundas or Burlington cars been operated after dark yesterday. The Burlington car carrying the mails was not brought up town.

Troop 4, of Ypsilanti, the international official who conducted the strike at Winnipeg, arrived here this morning to manage the local police.

The car company has put up tents on a lot near the east end car sheds, and the strike breakers will be quartered there. People in the vicinity refuse to rent rooms to them.

TELLS AMERICANS TO IGNORE BAIT ACT

St. Johns, Nfld., Nov. 7.—A delegation of captains of American fishing vessels boarded the vessel Brilliant in the Bay of Islands yesterday to learn if they could continue to fish Newfoundlanders outside the three mile limit. The colonial government having posted notices warning cod fish that the bait act rendered service aboard foreign vessels illegal.

The captain of the Brilliant assured the delegation that, under the terms of the modus vivendi, the action described by them could not be demanded. The captain also noted the colonial fisheries inspectors that he intended to frame rules for the conduct of the herring fishery along the shores.

LOOKS LIKE UNION VICTORY AT WESTVILLE COAL MINE STRIKE

Halifax, N. S., Nov. 7.—The strike in Westville is still on and at this time it looks as if the union men would win. Ladysmith Lodge, P. W. A., has been in session all the afternoon initiating non-union members, so that the non-union must be dividing away, which means that the resumption of work is not far off.

A conference took place between the members of the managing committee, of the lodge and the managers of the mine when lists were compared for the purpose of ascertaining how many non-union men remained to be initiated. This is an indication that a settlement is near at hand.

ALMOST UNPARALLELED

Bravery of the British Native Troops in Nigeria

Under Leadership of Black Corporal a Handful of Men Drove Off Force of Tuareg—Outnumbered Eighty to One.

The London Daily Mail says: Reuter's Agency understands that news has just reached England from Lake Chad of a case of almost unparalleled bravery on the part of British native troops, who were under the leadership of a black corporal, held at bay for over two hours, and subsequently drove off with considerable loss, a force of Tuareg outnumbering the defenders by nearly eighty to one.

Owing to the remoteness of the region in which the incident occurred, and the fact that no white officers were present at the time, only the bare facts are yet to hand. From these it appears that some time in June the British post at Yo was surprised by a raiding band of masked Tuareg. These people who inhabit that part of the Sahara bordering on the Anglo-French frontier to the northwest of Lake Chad, and who have various times lately harassed the French.

As is commonly the case in northern Nigeria, the military quarters and residency are erected outside the native town whose name they bear, and in this case they were in an isolated position on a mound some distance from the rest of the town of Yo. For some time the white resident had been absent, having been removed to another post, and the place, merely ranking as a frontier post, was held only by six native soldiers of the West African Frontier Force, under the command of a black corporal, armed only with carbines. When the Tuareg came from the British territory or whether they crossed from the north bank of the Yo River is not certain, but it appears that the raiding party, numbering about 80 men, were carrying shields and spears, and that at this stage instead of remaining in the comparative security of their positions they set their horses and galloped after their retreating raiders, whom they overtook and killed.

One of the West African Frontier Force was wounded. The gallant conduct of the corporal will be brought before the authorities and he will be recommended for promotion.

STOLEN EVIDENCE IN LONDON BRIBERY CASE

Toronto, Nov. 7.—A small red covered memorandum book, containing a list of voters and amounts alleged to have been paid with initials of the men who held the money opposite each name, was produced by the crown at the London election bribery investigation today. This book belonged to James McCormack, chairman of the Liberal committee of the second ward in London, who declared that it had been stolen from his desk by some individual interested in securing evidence for the crown.

McCormack has been ill, and he stated that he came here against instructions of his physicians. Before he was asked to step down, Mr. Davern, the prosecuting counsel, asked for an order of committal, asserting that the witness had not told the truth and had denied absolutely that he had paid \$5 on two different occasions to Leo Edwards, tea merchant, for his vote in the last general and by-election in London.

Magistrate Denison stated that, while he was convinced the witness had been doing questions and stating what looked to him like untruthful statements, he could not make the order until some contradictory evidence was put in. Davern then asked the court to see that McCormack remained in the city over night, but the magistrate replied that the witness could go home if he wished. Another subpoena was served upon McCormack before he left the court. Edwards will also be called. The prosecution made efforts to show that Tom Lewis and McCormack had operated both in London and in Brockville but these efforts, so far as the witnesses called were concerned, proved futile.

Mr. Davern, in these instances, asked witnesses to identify those men as the ones who had approached them with electioneering corruption in view, but in no case was a witness prepared to state positively that the man below them was the one who had approached them with electioneering corruption in view. The sum total of the evidence adduced, however, was to give additional proof of veracity on the part of the electorate in both cities mentioned.

-2285-2286-2287-2288-2289-2290-2291-2292-2293-2294-2295-2296-2297-2298-2299-2300-2301-2302-2303-2304-2305-2306-2307-2308-2309-2310-2311-2312-2313-2314-2315-2316-2317-2318-2319-2320-2321-2322-2323-2324-2325-2326-2327-2328-2329-2330-2331-2332-2333-2334-2335-2336-2337-2338-2339-2340-2341-2342-2343-2344-2345-2346-2347-2348-2349-2350-2351-2352-2353-2354-2355-2356-2357-2358-2359-2360-2361-2362-2363-2364-2365-2366-2367-2368-2369-2370-2371-2372-2373-2374-2375-2376-2377-2378-2379-2380-2381-2382-2383-2384-2385-2386-2387-2388-2389-2390-2391-2392-2393-2394-2395-2396-2397-2398-2399-2400-2401-2402-2403-2404-2405-2406-2407-2408-2409-2410-2411-2412-2413-2414-2415-2416-2417-2418-2419-2420-2421-2422-2423-2424-2425-2426-2427-2428-2429-2430-2431-2432-2433-2434-2435-2436-2437-2438-2439-2440-2441-2442-2443-2444-2445-2446-2447-2448-2449-2450-2451-2452-2453-2454-2455-2456-2457-2458-2459-2460-2461-2462-2463-2464-2465-2466-2467-2468-2469-2470-2471-2472-2473-2474-2475-2476-2477-2478-2479-2480-2481-2482-2483-2484-2485-2486-2487-2488-2489-2490-2491-2492-2493-2494-2495-2496-2497-2498-2499-2500-2501-2502-2503-2504-2505-2506-2507-2508-2509-2510-2511-2512-2513-2514-2515-2516-2517-2518-2519-2520-2521-2522-2523-2524-2525-2526-2527-2528-2529-2530-2531-2532-2533-2534-2535-2536-2537-2538-2539-2540-2541-2542-2543-2544-2545-2546-2547-2548-2549-2550-2551-2552-2553-2

DR. DANIEL ON ST. JOHN'S MILK SUPPLY AND ITS CONTROL

Important Paper Read Before Medical Society—Reasons for Strict Enforcement of Cleanliness Regulation—Much Rest With the People Whose Insistence Can Bring About Desired Results.

Below are printed some portions of a most important and interesting paper on "The Milk Supply and its Control" which was read before the St. John Medical Society by Dr. J. W. Daniel on Wednesday.

Milk is probably the most important article of diet we have. It is a necessity for the young and for the invalid, and its food value is so great that it may be said to contain all the ingredients necessary for growth and the maintenance of life and energy.

It has also serious disadvantages. It is a very good culture medium for bacteria, and takes readily from the air of its surroundings, unappreciated and undetected, a large number of bacteria.

Under ordinary conditions with reasonable clean cows in a clean stable and the milk kept at a low temperature, it should not contain more than 5,000 to 20,000 bacteria per c. c.

Under ordinary conditions with reasonable clean cows in a clean stable and the milk kept at a low temperature, it should not contain more than 5,000 to 20,000 bacteria per c. c.

From the above it will be seen that there is good reason for the supervision of the supply of an article of food that is so essential to the population and one which at the same time if not treated in the most careful manner in all the handling it receives from the cow to the table.

Milk may carry or propagate enteric fever, scarlet fever, diphtheria, epidemic diarrhoea, sore throat, tuberculosis, and other diseases of the cow.

Milk may be contaminated by having been added to water containing B. typhosus, or from some of such water remaining in the can after being washed, or by contamination by dust during transport.

LOCAL NEWS

Through Marion & Marion, Montreal, a Canadian patent has been granted Chas. Vallet, of Amherst (N. S.), for a mixer alarm.

Allan Troy, of Chatham, has been appointed an acting railway mail clerk and has gone out duty as a member of Supt. Ryan's staff.

Mr. and Mrs. G. C. Manson were agreeably surprised Tuesday evening when friends called at their home, 238 Central street, and presented to them a handsome extension dining table.

The twenty-fifth anniversary of the wedding of Mr. and Mrs. William Miller, of George street, Fairville, was celebrated by a number of their friends gathering in a surprise party Monday night at some refreshment parlor.

William Penzance, of this city, tried to leap from the Boston train, which left Monday evening, as it was crossing the Cantillon bridge, but was prevented by the brakeman. Penzance was formerly in the employ of the electric light company as collector and only came to this country on a visit.

A man named Peter Crystal Strivan on Monday suffering from an injured foot while out hunting a short time ago has put a bullet into his foot and is now in the hospital for treatment. He is reported Tuesday to be doing well.

Adjt. Cave, of the Salvation Army, left Wednesday for Toronto, where he is attending to the arrangements to be made for the arm's work. He has spent two years here, first as trade secretary, and then as a large number of officers and soldiers gave the adjutant a hearty farewell.

Henry and John Godwin, two brothers, who had not seen each other for several years, met unexpectedly in the depot here on Tuesday. They had both been in the city for a few days ago to visit home.

It was said yesterday that Rev. E. B. Hooper, of Moncton, would probably be called to the rectory of St. Paul's (Valley) church, made vacant by the resignation of Rev. A. G. H. Dicker to Toronto. When asked about the matter by people under question who had hitherto been a health to themselves, but by tact and firmness I think the donors themselves are recognizing the wisdom of the resignation and the necessity of the case.

Despite efforts to capture him, Frank Hanley, the young man who escaped from quarantine on the smallpox case of last week, was captured in the city on Tuesday. He is suffering from the disease and is being treated in the hospital. His relatives are all being looked for, but he is not to be found and it is thought that he has fled to some other part of the city.

An Englishman named Edward Wilson was brought from Weddell Wednesday to the hospital. He is suffering from the disease and is being treated in the hospital. His relatives are all being looked for, but he is not to be found and it is thought that he has fled to some other part of the city.

Chatham News. Chatham, Nov. 7.—The annual meeting of the Northumberland county alms-house commissioners was held yesterday. In the afternoon there were thirty members of the alms-house, besides a quartet of four boys, four girls, and a number of other children.

WEDDINGS

A very pretty wedding took place Tuesday at the home of the officiating clergyman, Rev. P. J. Stackhouse, the bride being Henry Talbot and Miss Frances Martin.

The bride was hand only clothed in white silk with overlay, with hat and shoes of white lace and silk trimmings. After the ceremony the bride party drove to the future home of the newly married couple in Frederic street, where a dainty luncheon was served.

OBITUARY

George W. Gildart. The death of this gentleman, who died yesterday morning of typhoid fever, aged thirty-seven years, was supposed to be a relapse and only lasted twelve hours. His death is very sad, as he was a strong, robust man, and very popular among his circle of friends.

John A. MacCallum. The death of John Archibald MacCallum, took place Thursday, Oct. 11, at St. George, the place of his birth and residence as a young man. He was at the time and for many years a close friend of the late Edward Jack, of St. John, with whom he learned and practiced surveying.

Finlay Campbell. Tuesday morning about 10:30 o'clock Finlay Campbell, proprietor of the Eldon House, Union street, passed away. The deceased was 53 years of age and formerly belonged to Campbell Settlement, his illness his sister remained with him.

Miss Helen Gertrude Estabrook. Miss Helen Gertrude Estabrook, daughter of Mr. and Mrs. W. G. Estabrook, died Tuesday night, Nov. 7, at her home, 144 St. George street, at the age of only a few days.

Francis O'Neill. The death of Francis O'Neill, aged 78 years, occurred at his residence, 150 Rock street, on Tuesday night, Nov. 7. He had been a resident of St. John for the past 17 years, having landed here in 1833, and for more than thirty years he was in the employ of W. H. Thorne & Co., Ltd., and retired only about a year ago on his own account.

John E. Cochran. The following obituary notice is from a newspaper, Montreal, paper of Nov. 7: "The death of J. E. Cochran, at the age of 31 years, which occurred in Winnipeg on Tuesday, was a severe attack of typhoid fever, which had been recorded in the local history of Newsway. Jack was recognized as the good fortune of good fellows during his eight years' sojourn in Newsway, and was a welcome visitor in the homes of his best friends."

John Sullivan. After a lingering illness, John Sullivan, of this city, passed away Wednesday at his home, Drury Lane, leaving a wife and three children, two sons and one daughter, and a large number of relatives and friends.

H. Lee Jordan. Mr. Lee Jordan, second son of James G. Jordan and one of the brightest young men of St. John, has produced Thursday morning at his father's home, King street East.

Elsie Maude Donald. Miss Elsie Maude Donald, of Olivine, Queens county, Nov. 6—On Saturday, Oct. 20, Elsie Maude, aged five years and two months, the youngest daughter of Mr. and Mrs. John Donald, passed away.
