cloud hanging over the island, which of

...ing as he lives, the importance a man
honor should attach to his plighted word

(Woodstock Times.)

There is always a feeling of regret when we part forever with a familiar object, no matter how humble and unimportant they may be. This, however, does not include any parting with a dog in a strange apple orchard.

Salutatory of the new editor of the Madisonian (Ky.) "Southwest":—"Good morning. We intend publishing a democratic paper. If you don't like you needn't read it."

Salutatory of the new editor of the Madisonville (Ky.) "Southwest":—"Good morning. We intend publishing a democratic paper."

SUMMARY.

New Description of Potato.

The *Yarmouth Herald* says: "Mr. Kilham of Overton, two years ago raised a small quantity of potatoes from 'bulls' of his previous year's crop of 'pogies,' and saved the lot for seed; from this seed last year he raised a larger crop, nearly all of which he planted the present season, the yield being in about equal ratio. The potatoes are of darker color than the old-fashioned pogies, indifferent in appearance from any other that has of late years appeared in our market, and is of excellent quality. A peculiarity of the 'tops' is that instead of their being several small leaves on a stem, each stem has but a single large leaf, measuring about ten inches in length, and six inches in breadth. It is a novelty in the potato line."

Mocking Birds at the Centennial.

Two hundred and fifty mocking birds from Texas lately arrived at Agricultural Hall, Philadelphia. These birds were raised by Miss Antoinette Christ, of De Leon, Texas, and made the journey in about two weeks. After a ride of five hundred miles to Galveston, they were transferred to a steamer and brought two thousand miles by water, without accident, until the ship encountered a gale off New York, when, as the cages were on deck, over fifty of the birds died from the effects of the sudden change of temperature caused by the storm. All the rest, however, reached here in safety, and evidently in perfect health. Though most of them are young and can be taught any tune desired, there are among the number many trained birds which whistle all the popular airs of the day.

LIGHTNING CASUALTIES.—A heavy thunder storm passed over the Province on Saturday, causing considerable loss. At Middle River, Pictou Co., the barn of James Stewart was struck by lightning and consumed, with all its contents, including a valuable horse. The men who were on the farm at the time were all more or less stunned, and one of them seriously injured. At Manchester, Guysborough, the barn of S. McMaster was struck by lightning and destroyed, with its contents of hay and grain. At Sydney, C. B., a barn was struck set on fire, and destroyed with its contents, and a horse and pig killed. The new Episcopal Church at North West Arm, C. B., was struck and injured, but not destroyed, and a young man who was on the building was scorched in the face and his side paralyzed. —*Yar. Herald.*

A USEFUL TREE.—Mr. Morgan, an English consul resident in Brazil, cites, in a recent report to his government, the carouba tree, a species of palm *copernicia cerifera* as one of the most valuable vegetable productions of the country. It flourishes without culture in Bahia, Rio Grande do Norte, and other well known localities, resists drought, and always appears green and luxuriant. Its roots possess properties similar to those of the sarsaparilla. The trunk furnishes a superior fiber. When the tree is young, it yields wine, vinegar, a saccharine matter, and a species of gum closely resembling sugar. Its wood is excellently suited for the manufacture of musical instruments, as well as for tubes and conduits for water. The pulp of the fruit is very palatable, and the oil that is pressed and pulverized is a good substitute for coffee. The trunk also yields a flour similar to maize. With the straw, hats, brooms, and baskets are made, and over half a million dollars worth of it are exported to England yearly. Lastly, a wax, used in the manufacture of candles, is extracted from the leaves.

LIFE ON THE EARTH.—Professor P. G. Tait, of the University of Edinburgh, in his lectures on recent advances in physical science, lately published, considers the question how long life has been possible on the earth. He concludes that ten millions of years is "the utmost that can be allowed from the physical point of view for all the changes that have taken place on the earth's surface since vegetable life on the lowest known form was capable of existing." Opposed to this is the view of the most eminent modern geologists, that at least three hundred millions of years have passed away since terrestrial life began.

A LONG ROW.—James Gay has rowed his wherry from Boston by way of the Atlantic ocean, the St. Lawrence River and the Lakes to Detroit. He reached the latter place last Friday, accomplishing the journey in 109 days. The water was that he could not do it in four months.

NOVA SCOTIA AS A TEMPERANCE FIELD. It is estimated that Nova Scotia has about twice as many pledged members in working temperance societies, in proportion to her population, as the whole Dominion, no less than sixteen per cent of her adult population being thus enrolled. The membership of the various temperance societies in that Province is given as follows: Sons of Temperance, 11,000; British Temperance, 7,000; I. O. of G. T. 6,000; Catholic T. A. Societies, 4,000; other Total Abstinence Societies, 3,000. Total 31,000.

The Minister of Customs in Carleton County.

We are glad to know that the Hon. I. Burpee, Minister of Customs, derived great pleasure from his late visit to this County.

He was surprised at the abounding evidences of constant improvement that he witnessed, and saw sufficient evidence to convince him that Carleton is in many respects the foremost agricultural County in the Province.

CARLETON COUNTY'S CROPS.—The *Sentinel* says that the order from the potato fields at times fills the air, but the progress of the disease is not rapid and the crop will be a fine one. Large quantities of oats are being harvested this fine weather, but farmers complain of poor market for early crops.

The Standard.

SAINT ANDREWS, SEPT. 6, 1876.

LAST NOTICE.

Persons indebted to the STANDARD office for subscriptions, job work, and advertising will please pay the bills when presented. We have managed this far to avoid the unpleasant course of compelling payment by law; but delinquents who are indebted for years, should remember that we cannot live upon air, and that there is a limit to forbearance; wages and material must be paid for, we now appeal to them to pay a portion at all events, and thereby save expense. Those at a distance can remit by Post Office order.

LATEST NEWS.

The latest English despatches report—The Turks attacked Alexinatz, the bombardment set fire to various parts of the town, which was evacuated by the Servians. The battle lasted eleven hours and a half.

THE CENTENNIAL BOAT RACE took place on Monday afternoon. In consequence of the narrowness of the Schuylkill the four oared professional race was divided—the London and New York crews rowing together, and the Halifax and Paris crews rowing against each other. The London boat beat the New York and the Halifax, the Paris crew. It is acknowledged on all hands, that Fulton's severe sickness was a great drawback, but Fulton himself says "that if two men had been in his place the Paris crew would not have won against the pace set by the Halifax fishermen." The final heat of the four oared race is to be rowed to-day (Wednesday) and it is believed the Halifax crew will beat the London boat. Brayley, from St. John, won a heat in the single scull match.

Hon. Mr. Blake arrived from England, at Ottawa, on the 4th inst.

Great fires have occurred at St. Hyacinthe, Quebec, 600 houses destroyed; and half the town of Seaford was burned on the 4th inst.

Rev. Dr. Taylor the venerable Presbyterian clergyman, died at Portland on the 4th inst.

A Frenchman named Bondress, was drowned at Bathurst; and a railway employee named Godine, while backing the cars at Red Pine Station, on Monday evening, the cars passed over his legs, cutting one off and mangling the other.

Mr. and Mrs. Henry Jack, have returned from England.

Hon. Mr. Anglin, who had been visiting his constituents in Gloucester has arrived in St. John.

The Bishop of St. John administered the right of Confirmation to 56 children at St. Croix last week. He also addressed the assemblage giving them excellent practical advice.

BAD WATER.—Several of our seamen, have suffered from using the bad water complained of at Western ports. Mr. Hugh McQuoid, mate of the *Martha A.* and several of the men on board the vessel were attacked with dysentery, and upon arriving in Halifax, were obliged to return to their homes, for medical treatment. We are pleased to learn from Dr. Cockburn, that Mr. McQuoid is recovering, although still weak. The steward of the vessel proceeded to his home at St. George and we learn is also improving.

Last week we published an article from the *Scottish American*, upon the dangers which the citizens of New York were threatened with, from the poisoning of the Croton water, which is unfit for use. The water at Philadelphia and Baltimore also reported to be unhealthy.

FESTIVAL.—On Wednesday last, 27th ult., the pupils of the Baptist Sabbath School were regaled with their Annual Festival by their teachers. The spot selected on "Navy Island" opposite the Town was all that could be desired. About seventy-five partook of a substantial dinner in the charming grove. The day was very fine, and the children enjoyed them

selves to their hearts content. The large party conveyed to and from the Island by a careful and experienced boatman without the slightest accident, and all returned to their homes highly delighted with the day's entertainment.

THE TEMPERANCE FESTIVAL in aid of the Royal Charlotte Lodge, B. T. at Bocabec, on Wednesday 30th was a very pleasant and successful affair. The day being fine a large number was early on the grounds, impatient for the amusements to begin.

The tables were abundantly spread with everything that was tempting and good. The refreshment stand was well patronized. The games and amusements passed off well.

Gents archery prize was won by D. Rollins, St. Andrews.

Ladies archery prize by Miss Aggie Linton, Bocabec.

The foot race was won by Joseph Simpson, Bay Side.

The jumping match was won easily by J. Johnson, Bocabec. Distance 30ft. 6 inches.

All seemed to enjoy themselves, having such a splendid opportunity, the scenery around the place being delightful. Those who wished to drive, found the roads level and in good order.

Persons having a taste for beautiful scenery climbed to the top of the "Heights of Alma," (so called), a high mountain which overlooks the picnic grounds from whence they had a delightful view of St. Andrews Bay, St. Andrews, the Islands and Grand Manan in the distance; the Bocabec river winding its serpentine way among the green hills, and golden fields of grain ready for the harvest. The scenery in this locality is not surpassed in any place in the Province.

The amount realized was sixty dollars. Our Reporter says, the ladies of Bocabec know how to get up a festival, and that their temperance friends are increasing in number.

WESTERN EXTENSION RAILWAY is now in the hands of the English Bondholders, who hold the first mortgage claim on the line, in consequence of the non-payment of interest; an injunction was served on the Company and their employees, and the line placed in the hands of receivers—Messrs. Murray Kay of England and E. R. Burpee. The portion of the line in this Province, is now worked by Provincials, which will be more satisfactory to the people of New Brunswick.

On Sunday morning, about 2 o'clock, fire was seen in the old building owned by John O'Halloran, near Mr. John Fortune's. As the building was unoccupied it was supposed to be the work of some evil disposed person. The wind was blowing from the eastward, and it is not probable that any other damage would have been done, other than the loss of the old building. Mr. Fortune's son discovered the fire which was extinguished by the application of a few buckets of water.

THE NEW DOMINION MONTHLY for September, is an excellent number. The articles are well written and possess an interest to every Canadian. This magazine is well worthy of extensive patronage and is the only Dominion Magazine of note. Published by J. Dougall & Son Montreal. Price \$1.50.

It is stated that one day recently, a woman at her home on a farm on the Hollis road near the poor farm in Biddeford, sent her son, aged about twelve years, to drive some cows to pasture. When within sight of the house the mother noticed that the lad was standing still, and finding that he paid no attention to her when she shouted to him, she went up to him and quickly perceived that he was spell bound by a snake which was crouching in the path before the boy, with his mouth open and his tongue running out. The woman with great presence of mind speedily dispatched the snake with a stake. It was several hours before the boy recovered from the effects of the charming, when found being cold and apparently insensible.

HARD TIMES EVERYWHERE. Even Prince Milar, of Serbia, they say, has pawned his sword of honor for the trifling of 476,000 francs. The jewels of the late Sultan of Turkey have been pledged for two-thirds their value at the Mont-de-Piete in Paris. The amount lent on the jewelry was \$2,477,500. Ex-Governor Sprague is working hard in his Providence mills to redeem his fortune and pay the firm's debts, due next February. When the dams were overflown recently. When the dams were overflown recently. When the dams were overflown recently.

The American dry goods trade has for some time past been stated by New York journals to be improving steadily. At large trade sales fair prices were obtained. Now a despatch from Providence, R. I., which is a great centre of the cotton manufacture, states that print mills there and in other parts of New England which have been idle for weeks, will start up at once in consequence of an improved demand and a firm market. A short time ago the New York *Tribune* printed a statement showing the recent decline in the stocks of the largest cotton manufacturing corporations. The most stable of them had declined seriously, while

quite a number of the smaller companies, although established for many years had declined fifty, sixty, and even in one or two cases, seventy-five per cent, or to only one-fourth of their former value.

A YOUNG COUPLE.—That this Centennial year is a fast one was fully demonstrated in this city the other day by the pluck evinced by a youthful couple in uniting their interests for the purpose of driving away dull care during the approaching hard winter. The happy Benedict is a lad of sixteen summers, known to travellers on the New Brunswick Railway, as well as frequenters of one of our handsome river boats as "Johnny." His blushing bride is his junior by two years, and the inscription that floats on their banner reads, "Go it while you're young." —*Fredericton Reporter.*

A PASTORIAL MASS OF REQUIEM for the repose of the soul of the deceased Archbishop of Halifax was celebrated at the Cathedral on Tuesday, His Lordship the Bishop of St. John officiating, with Rev. James Quinn, of St. Stephen, as High Priest, Rev. Mr. Doyle, of St. George, as Deacon, and Mr. Chapman, of this city, as sub-Deacon. The following clergymen also took part in the service, which was of a very impressive character:—Rev. Father Michaud, Ouellet, Murray, and McDevitt, of St. John; Rev. C. LeFevre, Provincial of the Congregation of the Holy Cross and President of Memramcook College; Rev. J. C. McDevitt, of Fredericton; Rev. P. Farrell, of Peterborough; Rev. James Verbeke, of Sussex; Rev. Wm. Foley, of St. Andrews; Rev. John Murray, of Richibucto; Rev. Patrick Bradley, of Cape Bald; Rev. Francis Cormier, of Moncton; Rev. Thomas Walsh, of Carleton; and Rev. Etienne Grouin, of Quebec.

Father Ouellet preached the sermon, taking for his text the following passage from the 1st Book of Kings, 2nd chapter, 31st verse: "And I will raise me up a faithful Priest who shall do according to my heart and soul, and he shall walk all days before my anointed." The Rev. gentleman's remarks were eloquent and appropriate to the occasion, and in their reference to the great merits of the deceased, were heartily endorsed. —*Freeman.*

A bill offered in Congress, at the last session, prohibited all officers of the government, except those appointed by the President and confirmed by the Senate, from "giving to or receiving from, any other officer or employee of the government, or other person, directly or indirectly, any money, property, or other thing of value, for political purposes." The penalty is dismissal from the service, and a fine of not more than \$500. The words in italics were stricken out before the passage of the bill, so that the law is practically worthless. This is a shameful fact, for which both parties are responsible. The President, having contributed two per cent of his salary to a campaign fund since the adjournment, has set a bad example, and a South Carolina man is now worrying the clerks in the departments with a subscription paper. If they refuse to sign it, they are in fear of dismissal; if they sign, they are threatened with dismissal.

HOME MANUFACTURES.—It is a duty of all who reside in a country to encourage its home manufactures, as an encouragement to native industry, and to promote its interests. Mr. Olive Cook, a resident of Milltown, St. Stephen manufactures an excellent domestic article—brooms, and sells them at lower prices than they can be imported, and quite as good an article.

This is the way, according to the *Herald*, that they administer justice in the Halifax Police Court:—"Two men discharged because the evidence was not very clear, and one, who had been in company with these two, was fined \$5 and costs." It was not clear that the two were guilty of anything wrong, but the other was convicted and punished for merely being seen in their company! On the same occasion an impetuous individual who couldn't raise \$4 to buy his freedom was sent to Rockhead for 40 days merely because he had been heard challenging the world to fight." It is thus, that bravery is rewarded in Halifax!

MELANCHOLY EVENT.—Yesterday morning Miss Annie Dwyer, a promising young girl of eighteen, died at the residence of her father, Mr. Mortimer Dwyer, on Cornwallis street. Her death was the result of injuries sustained by being accidentally burned the night previous. On Monday night, during the absence of her father, the girl and her younger brother went to a shed in rear of the old shop, to procure an article called for by a customer in the shop. The boy carried a lighted candle in his hand, and after they had reached the shed he allowed the light in some way to communicate with his sister's dress, which was of light material, and was almost instantly ablaze.

Affrighted the girl ran screaming into the house, and thus the fire spread over her person. Her screams attracted persons in from the street, among whom were Policemen Brennan, who wrapped his coat around her, and succeeded in putting out the blaze. In doing so his hands were somewhat burned. The little boy also had his hands burned in an attempt to extinguish the fire. Doctors were promptly in attendance; and all possible was done for the unfortunate girl, but after a night of intense suffering she died, as stated. Her funeral will take place to-morrow afternoon. —*Halifax Herald*, Aug. 30.

The latest recipe for true eloquence was given by a minister at the Martha's Vineyard Baptist camp meeting yesterday. Here it is: "Get yourself chuck full of the subject, knock out the bung, and let nature vapor." —*[Boston Globe.]*

"We find that he came to his death from calling Bill Jackson a liar," was the verdict of a coroner's jury in Missouri.

Representative and Champion of American
Art Taste.
PROSPECTUS FOR 1875—EIGHTH YEAR.

THE ALDINE.

THE ART JOURNAL OF AMERICA.
ISSUED MONTHLY.

A MAGNIFICENT CONCEPTION, WONDER-
FULLY CARRIED OUT.

The necessity of a popular medium for the representation of the productions of our great artists has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably attended each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a grand artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timidity of interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of the artist's skill, in black and white. Although each succeeding number offers a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the end of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost, and then, there is the chromo, besides!

The national feature of THE ALDINE will be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on ground of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as leading characteristic, the production of the most noted American artists, attention will always be given to specimens from foreign masters.

The artistic illustration of American scenery, or of the life of the ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the self-sufficiency of detail than can be afforded by any inferior page. The judicious interposition of landscape, marine, figure, and animal pictures, sustain an undiminished interest, inspiring where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfere with the popular interest of the work.

PREMIUM FOR 1875
Every subscriber for 1875 will receive a beautiful portrait, in all colors, of the same size as those placed in a former issue, attractive to all eyes.

"MAN'S UNSELFISH FRIEND"
will be welcome in every home. Everybody loves such a dog, and the portrait is executed so true to life, that it seems the veritable presence of the animal itself.

Besides the chromo, every advance subscriber to THE ALDINE for 1875 is constituted a member, and entitled to all the privileges of THE ALDINE ART UNION.

The Union owns the originals of all THE ALDINE pictures, which, with other paintings and engravings, are to be distributed among the members. To every series of 5,000 subscribers, 100 different pictures, valued at over \$2,500 are distributed as soon as the series is full, and the awards of each series as made are to be published in the next succeeding issue of THE ALDINE. This feature only applies to subscribers who pay for one year in advance. Full particulars in circular sent on application enclosing a stamp.

TERMS.
ONE SUBSCRIPTION ENTITLING TO THE ALDINE ONE YEAR, THE CHROMO AND THE ART UNION,
\$5 per annum in advance.
(No charge for postage.)

ADVANCE COPIES OF THE ALDINE, 50 CENTS.
THE ALDINE will, hereafter, be obtainable by subscription. There will be no reduced or club rates; cash for subscription must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given bearing the fac-simile signature of James Sutton, President.

CANVASSERS WANTED.
Any person wishing to act permanently as a local canvasser will receive full and prompt information by applying to
THE ALDINE COMPANY,
58 Maiden Lane, New York.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Walker's Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use Walker's Bitters as a medicine, and avoid the use of alcoholic stimulants in every form.

R. H. McDONALD & CO.,
Druggists and General Agents, San Francisco, California, and for Washington and Charlotte Sts., New York.

Sold by all Druggists and Dealers.
No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Gratified Thousands prove Walker's Bitters the most wonderful Invigorant that ever sustained the flailing system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulder, Gout, Brightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Flatulence of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a long hypothetical dissertation.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Rheumatic Inflammations, Indolent Ulcers, Mercurial Affections, Old Sores, Eruptions of the Skin, Itch, Eczema, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Rheumatism, Gout, Bilious Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painting and Miners, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Bores, Scabs, Pimples, Furuncles, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scabies, Discolorations of the Skin, Humors and eruptions, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no cathartics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the time of menstruation or the time of life, these Tonic Bitters display a decided influence that improves in a perceptible manner.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use WALKER'S BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is found in your feelings tell you when. Keep the blood pure, and the health of the system will follow.

R. H. McDONALD & CO.,
Druggists and General Agents, San Francisco, California, and for Washington and Charlotte Sts., New York.
Sold by all Druggists and Dealers.
