LIEUT.-GOVERNOR PATERSON WILL OPEN FLOWER SHOW

The Big Event Takes Place To-Morrow Afternoon
in Berquist's Hall at Two O'Clock—Decorated
Tables Will Be Judged by Ballot

Word was received this week that His Honor the Lieutenant-Governor and Mrs. Paterson would be present at the opening of the Flower Show to be held here to-morrow afternoon in Berquist's hall, commencing at 2 o'clock sharp. His Honor has kindly consented to perform the opening ceremony.

While this is the first venture on the part of the people of Sidney to hold an exhibition of this nature, the reputation of the district is nevertheless widely known, as testified by the success at other points of exhibits shown by local residents, and the impetus given the cult by these former successes will be plainly evidenced when the doors of Berquist's hall are thrown open to the public at two o'clock to-morrow afternoon.

During the week the committee in charge of the arrangements have been busy from morning till night erecting tables and decorating the hall in readiness for the show and now that all arrangements are complete it rests with the public to make a success of the event by making entries in one or more of the many sections open to competition.

In Mr. F. E. Buck, assistant to the Dominion Horticulturist, the committee in charge feel that they are more than lucky in the securing of a competent judge, and as a result they feel confident that the awards will meet with the approval of all.

Not the least of the many attractions to be seen at the show will be the exhibit of the Experimental Farm which, while not being entered for competition, will be none the less appreciated by the management and the visiting public. This exhibit is being put on chiefly from an educational point of view and will occupy the stage in the hall and no one should miss this opportunity of seeing what the government is doing towards the further education of the people along these lines.

While the general trend of the arrangements are for a good exhibition of flowers, the tired and hungry visitors will find rest rooms and refreshment booths in the tea rooms in connection with the hall, to the left of the stairs as one goes up, where at a reasonable charge tea will be served, and for the youngsters candy may be procured.

By way of a little diversion from the usual run of flower shows, it has been decided to have the judging of the decorated tables done by ballot. In order to do this each person, over twelve years of age, on entering the hall will be given a ballot on which the numbers of their choice for first and second prizes must be written. The ballot will then be placed in a box and at 8 o'clock in the evening

they will be counted and the winning table will be marked accordingly.

With the arranged run to Sidney by the Victoria Motor Club and the interest taken in the Flower Show by a large number of people in the Capital City, a large number of Victorians are expected to visit Sidney to-morrow, and it is earnestly hoped that the residents of Sidney will hang out their flags and hunting and make the town look at its best for the occasion of not only the Flower Show but in honor of the visit of the Lieutenant Governor.

Intending exhibitors should have their entries made to-day (Friday) and if possible have the exhibits in place this evening. This will avoid the necessity of refusing exhibits on Saturday morning when everything must be in readiness for the judging.

RATEPAYERS WILL MEET IN SIDNEY PUBLIC SCHOOL

Saturday, July 11th, is the date set by the Department of Education for the meeting of the ratepayers of Sidney in order to discuss school matters in general, and for the selection of three trustees to represent this district for the current year. Heretofore the three trustees have been elected by the whole of North Saanich, but owing to the recent action of the department in dividing the district into three, it is necessary for each one of them to elect three trustees.

The meeting of the Sidney ratepayers will therefore take place in the public school building on Fifth street at ten o'clock in the forenoon, and should be attended by everyone interested in the educational welfare of the town.

START MANUFACTURE OF HIGH CLASS BUILDING PAPER

Sidney Rubber Roofing Plant Getting
Into Shape for Big Operations

That the Sidney Rubber Roofing Company are now ready to put on the market at least one brand of their high class building paper was evidenced yesterday by a Review representative who made a short visit to the big plant, and when he had the pleasure of seeing the huge machine used for making this felt in full operation.

The felt, or paper as it is sometimes called, arrives at the factory in large rolls weighing many hundred pounds each, but before becoming of any use as a commercial commodity it must be treated by a special process, and for this purpose it is necessary to pass it through a tank of boiling oil and asphaltum. This is

DATE OF SAANICHTON FLOWER
SERVICE NOT YET SET.

Mr. Crawford has oiled about an eighth of a mile of the East Saanich road so that the dust is laid. This is a great boon. Let anyone walk along this road on a Sunday morning or evening and he will find he has robbed the highway and secreted a considerable portion of public property in his lungs, along with plenty of foul gasses escaping from automobiles but if he has escaped with his life he has some thing—must we say—to be thankful for.

We very much regret to say again we are unable to announce the date of the flower service at the agricultural hall. A little more faith a little more hope and a little more work will overcome all obstacles and when the task is accomplished we shall in a very humble way be thankful that we have been permitted to assist a good cause. The Colonist and Times have promised their sympathetic support and many Victorians have done the same.

This year, more than ever before, it is very desirable that three good men should be elected to fill the vacant positions, as matters of vital importance to the town along educational lines will be brought under almost immediate discussion. In order to more successfully cope with these it would be very desirable to have on the new board at least one of the members of the old North Saanich board and the Review would very much like to see Mr. George Cochran elected to that position, as he has taken a very keen interest in school matters during his tenure of office and has at his finger ends a great many of the ins and outs of this difficult position to fill, and he would be in a position to give much good advice to the other two new men on the board.

done by a system of rollers which carry the felt under the boiling mixture for a distance of about twenty feet. It then passes through a series of steam heated rollers which, being set very close together, presses all the surplus oil out of the felt. From here on the paper passes through several other series of rollers, each of which to their share in adding to the finish of the product. Finally it reaches the place where it is rolled with lightening speed into rolls containing a certain number of square feet. After being wrapped and labelled it is ready for the market, and if the quality of the building paper exhibited the other day is kept up to the high standard set by this progressive firm they will certainly have no difficulty in disposing of their entire output.

It is well worth any one's while to pay a visit to the plant and see for themselves how the raw material is converted into saleable products by this wonderful machine.

ATHLETIC ASSOCIATION DECIDE ON DATE FOR FIELD SPORTS

August Twenty-Second is at Present Considered the Most
Suitable—Water Sports Will Be Added to List of
Events—Committees Appointed

The most important business to come up for consideration on Wednesday evening at the regular monthly meeting of the Sidney and North Saanich Athletic Association, was the selection of a date on which to hold the annual field sports. It was finally decided that the meet should take place on Saturday, August 22. But this date may not prove suitable as there may possibly be other events scheduled for that particular day. The matter was therefore left in the hands of the special committee appointed to take charge of the arranging of the programme and composed of Messrs. P. N. Tester, Fletcher North, Capt. W. D. Byers, E. Blackburn and A. E. Moore. This committee will work in harmony with the executive of the Athletic Association and will have full charge of the entire meet, which will be held under the auspices of the above association.

A good deal of discussion arose over the programme to be put on, some of the members claiming that this year, owing to the scarcity of money, it would be advisable to make the meet entirely local, meaning all that part of the peninsula outside of the City of Victoria and the adjacent islands. A few thought that there should be at least two or three open events in order to attract outsiders. After much discussion on the matter the committee was instructed to put the open events on if it were possible to procure the funds for the financing of them.

A new feature to be added this year is the water-sports, and a fifty yard swimming race for ladies, a one hundred yard race for men, walking the greased log and a water "cock-fight" were the four events proposed. This matter will also be taken up by the committee and if the other part of

the programme can be whittled down in order to provide the time necessary, they will be put on.

A communication was received through Mr. F. Pfister from the Friday Harbor baseball team extending an invitation to the local nine for a game to be played at that port on Sunday next. The invitation was accepted and arrangements made for the conveyance of the team over to that town. One launch will leave on Saturday evening, carrying part of the team and as many of their friends as desire to have a little longer time in which to renew acquaintances over there. On Sunday morning at nine o'clock sharp two more launches will leave the Sidney wharf for the same port and on board of which will be the balance of the team and all others who wish to make the trip. Anyone desiring to go is requested to leave their name with Mr. F. Pfister at the Sidney Hotel as soon as possible in order to be sure of securing a place in either of the boats.

TRIP TO FRIDAY HARBOR.

On Saturday, July 4th, a party of Sidneyites took a launch trip to Friday Harbor to help our American cousins celebrate the anniversary of the day they refused to let our grandfather "Old John Bull," give them a spanking. Needless to say that the boys had a good time as they were all good sports. Pete Peterson, the celebrated Norwegian skipper, of the launch Island Belle, was in charge of the party composed as follows:

Messrs. J. Brown, F. J. Bittan-court, A. Duffus, Jas. Bryson, W. Lyons, F. J. Pfister, H. Findlay, G. Herman, of Sidney, and Mr. Foster Holden, of South Saanich.

SPORTING EVENTS OF THE PAST WEEK

FULFORD HARBOR DEFEATS THE STRONG LOCAL NINE

The fast Fulford Harbor team took the locals into camp on Sunday afternoon last by the comfortable score of 18 to 13. The visitors got one run in the first and Sidney two. In the second Fulford brought in two more and Sidney got four men over the plate. The third was a shutout for both teams, but after the fourth Fulford Harbor took the lead and the local boys could not head them off although Sidney got within two of their score in the sixth, the score then being 12 to 10. Fulford added six more before the ninth while the best Sidney could do was to get one man over the plate. For the winners Peters pitched the game through and although he was batted pretty freely he never got excited. The in and outfield made many errors but most of them were at a time when it was not critical. They were, as a team, heavy hitters, fairly fast and cute on bases, and on the day's play were decidedly the best team.

Jack Roberts, while pitching at times very good ball, fell off towards the last and asked to be relieved. In fairness to him it must be stated that he should never have started, having hurt his shoulder while shooting at Vancouver on July 1st, but being a good sport and having the interests of the club at heart, he took a chance of pulling through. Teitz finished the game in the box but the change resulted in no material benefit to the locals. Roberts went to right field to relieve Fred Pfister, who was ill and had an off day both at the bat and in the outfield. The locals loomed large in the error column, and these coming at critical times generally meant runs. The locals batted fair but not up to their mark and were never fortunate in bunting their hits. At least four two baggers came along when there was no one on the bases.

Fred Humber umpired the game and was subjected to considerable "rattling" by the local fans on several close decisions. We do not for a minute wish to take away any of the credit due the Fulford team, but we may point out the fact that the Sidney team was unlucky in the breaks, though this does not excuse some very careless errors or bonehead plays.

INDIANS WERE SCALPED

A terrible tragedy occurred in Sidney on our local athletic grounds Friday evening last when nine Indians from the South Saanich Reserve were metaphorically "scalped" by a like number of another tribe known as the Sidney Baseball Team. Instead of using a tomahawk, as their ancestors did, the weapons were a baseball bat and ball. In the old days when a man was scalped he stayed scalped but on this occasion they did not play up to the old time traditions. They whacked away at each other seven times, each time being known as an innings, and when it was all over Big Little Chief Pridham figured out that his side had fourteen of the enemies scalps (called runs) while the other tribe could only account for seven of the local scalps. This only makes the South Saanich Indians anxious for revenge and another pitched battle will likely take place next week when they hope to scalp the local tribe good and plenty.

Chief Hole-in-the-Face Simpson led the local attack (i.e. pitched) and was nobly assisted by Chief Heap Fat Tietz. The following warriors represented the different tribes: Chief Johnson Bob led the enemy into ac-

tion and acquitted himself well while Chief Big Thunder Humber, of the Sidney tribe, captured two scalps very sensationally:

Sidney—Sid Humber, 1b; Gehrke, 2b; Pridham, s.s.; F. Humber, c.f.; Norton, 3b; P. Humber, 1.f.; Simpson, p.; Mould, r.f.; Teitz, c.

S. S. Indians—Daniels, 3b.; John Williams, p.; Samuel, 2b.; Isidor, r.f.; John Sam, s.s.; Moody, c.f.; Johnson Bob, 1b.; Willie, 1.f.; Marshall, c.

Ben Jamieson, the well known "Apache," from Northern Ontario, was the final arbitrator in the interests of law and order.

NEW LACROSSE SCHEDULE WILL GO INTO EFFECT

A meeting of the Senior City Lacrosse League took place Monday evening in Dr. G. A. B. Hall's office, Victoria, when the entries of Sidney, Oak Bay and Victoria West were received. The schedule which was drawn up brings Sidney to Macaulay point for their first game, Victoria West being their opponents. Each of the three teams play home and home games against the others and the season opens on Monday, July 13th.

The following gentlemen will be asked to referee the games: Messrs. Moresby, L. Patrick, Fleusach, R. Dewar, Boss, Johnson, Art. Belfry, Fred White and Forman, of Victoria, and F. J. Roche, of Sidney.

Following is the official schedule:

July 13—Victoria West vs. Sidney Evening game.
July 18—Sidney vs. Victoria West.
July 22—Oak Bay vs. Victoria West.
July 25—Sidney vs. Oak Bay.
July 29—Victoria West vs. Oak Bay.

Aug. 5—Oak Bay vs. Sidney.

LENGTHY RACES FOR BOATS OF NORTHWEST

Power Craft Will Compete From Seattle, Then Back to Brentwood, Saanich Inlet.

Another motor boat racing event has been added to the list of aquatic sports which will centre around the Tilikum Potlatch and the Lipton cup races in Seattle this month. This will be known as the Brentwood International Cup race, and will start in Seattle the day following the finish of the Lipton Cup races and end at Brentwood, the new summer resort and watering place on Saanich Inlet. It is more than probable that a number of local power boats will enter this race.

The Brentwood International Cup is a magnificent trophy, valued at several hundred dollars.

The race will be under the auspices of the Pacific International Power Boat Association, said Mr. Daniel L. Pratt, secretary of the association, and will be open to both American and Canadian boats. The Brentwood cup will become the property of the yachtman winning it three times. This means that the race will be an annual affair for the next five or six years at least. In addition to this handsome challenge cup, the Brentwood people will give a smaller replica to the winner each year to be his property.

The scheduling of this event at this time means a good attendance of power boats in Seattle during the Potlatch. The three days of racing for the Lipton cup will draw yachtmen from all parts of the Northwest. On July 15, the day previous to the Lipton Cup races, the Pacific International long-distance race for power cruisers will start in Vancouver and

finish at Seattle. This will attract many boats from Vancouver, Victoria and Tacoma. Then following the Lipton races, the Brentwood Cup race will give these yachtmen a chance to race back, ending at Saanich Inlet, north of Victoria. Both of these races will be over 100 miles in length and should, therefore, prove very interesting.

THE MANN CUP.

The second and final game of the V. A. C. vs. Brampton series for the Mann Cup ended in favor of the Vancouver boys after a great game which was enthusiastically applauded by five thousand spectators, who deeply appreciated the greatest contest on the lacrosse field seen in many years. The V. A. C. notched six goals to Brampton's two and thus made it V. A. C. 10 to Brampton's 7 on the round.

Previous attempts by eastern teams to lift the cup from the V. A. C. have been more or less of the nature of a joke, but this time it was no joke and the many friends of the V. A. C. are mighty glad the struggle is over, for it was a pretty close go for the holders. The V. A. C. made three changes, each one of which improved their work and this, coupled with the fact that the defence held their checks close and the fine work of Davis in goal, and the two lucky goals scored by the V. A. C. in the first half which Campbell, the Brampton goal keeper let by, just about accounts for the difference in the score of the two games. Stevens, in centre for the visitors, was the star and probably the best man on the field and he it was who scored Brampton's two goals.

Joe Kelly, the chief trustee of the Mann Cup, refused to let Kendal play holding him to be professional, and no threats or kind words could make him change his decision. Of course the V. A. C. howled and groused but Joe Lally is recognised everywhere as a good all round square sport and is above everything mean and despicable and no doubt he has good grounds for his statements.

Lester Patrick and Joe German refereed the game to the satisfaction of both teams.

SIDNEY PUPILS PASS MUSICAL EXAMINATION

Mr. M. Waring Davis, secretary for Canada, of the local examination board of the Royal Academy of Music and the Royal College of Music, has reported the result of the examinations in music held in Victoria in May and June by Dr. Alderson. The following local names appear in the list:

Pianoforte Playing, Advanced Grade—Ruth A. Simister, pupil of Miss Irene Long, L.R.A.M., Victoria.

Elementary Division—Elsie Armstrong and Grace Evelyn Moses, pupils of Mrs. Emery Sidney.

Margaret V. Simister, pupil of Miss R. A. Simister, Sidney.

Primary Division—Myrla M. Moore, pupil of Miss R. A. Simister, Sidney.

Rudiments of Music—Miss Ruth A. Simister.

H. A. McKILLICAN WINS TRADING CO'S. MEDAL.

The Sidney Gun Club held a very successful shoot on Friday evening, July 3rd, a large number of the members turning out to shoot in the competition for the Sidney Trading Company's medal. This competition was under handicap rules, which worked out splendidly, causing keen interest from start to finish, the winner having only turned up at the eleventh hour in the person of Mr. H. A. McKillican, the dark horse who nosed out Mr. F. Pfister by one bird. In order to do this Mac had to break his last nine birds and he delivered the goods. Pfister shot in fine form, breaking twenty-two out of twenty-five in his last string.

Following are the scores and handicaps in the Trading Company's contest last Friday.

LADIES GIVE SHOWER

Mrs. W. R. Armstrong, of "The Maples," on the East road, was the hostess at a most successful shower on Tuesday last, given in honor of Miss Pearl Harrison, whose marriage is announced to take place on Wednesday, July 15th. A floral guessing contest occupied the attention of the guests during the earlier part of the afternoon, and was won by Miss Slater, of Victoria, after which the guests seated themselves on the veranda in order to more thoroughly enjoy the beautiful weather. Suddenly around the corner of the house appeared a very small boy in the person of Austin Wilson, dressed in pure white and wearing on his cap the initials of the bride and groom, and dragging after him a heavily laden waggon. The little fellow marched bravely onward until he came to a stop in front of the bride-elect, in

The Editor, Sidney Review,

Sidney, B. C.

Dear Sir:—

In connection with various interviews between residents of Sidney, the Board of School Trustees, the Department of Education, and the undersigned, when it was suggested that the division of territory proposed by the new arrangement for Education was not equitable, I received a letter from the Department this morning which I ask you to publish in order that everyone may fully understand the situation.

Yours faithfully,

W. W. FOSTER.

Education Office,

Victoria, July 9th, 1914.

W. W. Foster, Esq., M. P. P.

118 Pemberton Block, Victoria, B. C.

Sir,—

With respect to the question that has lately formed the subject matter of your several interviews with the Honorable the Minister of Education, namely the extension of the boundaries of the present Sidney School District, I beg to state that this Department will take into its favorable consideration the question of extending these boundaries, providing the people of Sidney are willing to meet one or other of the following two conditions:

(1) Provide a school site of not less than one acre near the junction of the Sidney and East Saanich Roads in such a position that no unnecessary hardship will be entailed on the children of Bazan Bay by attending this school. In the event of the ratepayers providing a site satisfactory to this Department I am instructed to say that a four room building will be erected on this site free of cost to the ratepayers of Sidney.

(2) Agree to locate a one room school-house at Bazan Bay for the education of the younger children of that locality, an arrangement which is recognized as legal under Section 94, Sub-section (b), Manual of School Law. If the latter course be adopted the cost of erecting and furnishing this one room building will be met by the Educational Department.

I have the honor to be, Sir,

Your obedient servant,

ALEXANDER ROBINSON,

Supt. of Education.

where, in a neat little speech he asked the young lady to accept the many presents and good wishes of her friends.

Tea was then served by the charming hostess, after which a musical contest took place, the winner being Mrs. H. Brethour.

Those present were: Mrs. Harrison, Miss Harrison, Mrs. Errington, Mrs. P. N. Tester, Mrs. J. J. White, Miss Olive Brethour, Miss G. Irvine, Miss Lorna White, Miss Robertson, Mrs. F. Pfister, Mrs. S. Brethour, Mrs. Slater, Victoria, Mrs. A. L. Wilson, Mrs. H. Brethour, Miss Vivian Brethour, Mrs. C. C. Cochran, Mrs. Hewatt, Kamloops, Mrs. G. Dixon.

Rev. Dr. Wright, B. C. representative of the British and Foreign Bible Society, occupied the pulpit of Wesley church last Sunday morning. He gave a very able and interesting discourse on the magnificent work being carried on by this institution all over the world and some of the figures he gave out were indeed a surprise to many of those present. In referring to the number of people at present in Canada he stated that there were about eight millions, and that in all there were one hundred and ten different languages, a large number of which the bible had already been translated into. It is most remarkable how many languages there are on this earth and the aim and object of this great association is to have the bible printed in every one of them. Rev. J. Wesley Miller, pastor of the church, assisted in the service and as he announced a

week prior that this would be Children's Sunday, it was his intention to deliver a short address to the little ones, but had decided to make a little change which he felt quite certain would please the little folks as well as his customary five minutes talk. The christening of the infant daughter of Mr. and Mrs. A. E. Moore then took place and she was given the name of Viola Grace Moore.

TENNIS QUARTETTE WIN FROM THE JAMES ISLAND PLAYERS

Another of those very interesting games of tennis took place on the courts at James Island on Sunday, July 5th, and resulted in another victory for the Sidney squad. "Parson" Dennis captained the Sidney team, while Mr. Barclay acted in the same capacity for James Island. Following is the score:

Grubb and Gamble beat Cumming and Martin, 6-3, 6-4.

Dennis and Paton beat Barclay and Newton, 6-2, 6-3.

Barclay and Newton beat Cumming and Martin 6-4, 6-4.

Dennis and Paton beat Grubb and Gamble, 7-5, 6-2.

Paton and Cumming beat Barclay and Grubb two straight sets, score unknown.

Dennis and Martin beat Gamble and Newton, 7-5, 6-3.

Dennis and Paton beat Gamble and Barclay, 6-3, 6-2.

Sidney won by five rubbers to two, ten sets to seven.

In the American tournament "mixed doubles" Miss Lorna White and Mr. H. A. Dennis have a comfortable lead, and the gent's singles are well under way, but as yet none of the games have been played in the ladies singles.

Dr. Cumming has kindly donated a prize for the Gent's Singles, while Mrs. Cumming has done the same

kind act for the Ladies' Singles. Following are the scores up to date:

Mixed Doubles.

American Tournament. Each pair plays every other pair 9 games.

Miss Simister and W. J. Lait, rec. 15, beat Miss Symes and F. Cooper, owe half 15, 6-3. They also beat Miss Bond and A. E. Moore, rec. half 30, 7-2.

Miss Symes and F. Cooper, owe half 15, beat Mrs. Wilson and J. J. White, scratch, 9-0.

Miss White and H. A. Dennis, owe 30, beat the following: Mrs. Wilson and J. J. White, scratch, 9-0. Miss Simister and W. J. Lait, rec. 15, 8-1.

Miss Symes and F. Cooper, owe half 15, 7-2. Miss Williams and J. Rippon, scratch, 6-3. Miss E. Hooton and J. Martin, scratch, 6-3. Miss Bond and A. E. Moore, rec. half 30, 8-1.

Miss Bond and A. E. Moore, rec. half 30, beat Miss E. Hooton and J. Martin, scratch, 5-4.

Gent's Singles.

First round—W. Anderson, w.o. W. J. Lait, scratch, beat J. Stansby scratch, 6-1, 6-0.

Second round—Dr. Cumming, owe half 30, beat N. Fralick, rec. half 30, 6-1, 6-1.

H. A. Dennis, owe 40, beat A. E. Bishop, rec. 30, 6-2, 6-1.

BENEDICTS WIN THIRD GAME OF THE SERIES

On Wednesday evening the married gentlemen of Sidney showed the way home to their less fortunate brethren in a baseball game of eight innings by a score of 6 to 2. Manny Simpson did the box work for the benedicts, while Herman Teitz wore the muzzel and did the receiving. Fred Roche done the twirling for the singles and Albert Gehrke stopped all those that the married men did not connect with. Cliff Brethour umpired the game of considerable grouch-ing on the part of the players and spectators. Some of his decisions were the rankest yet seen on the local diamond and it will no doubt be some time before he is allowed to again take upon himself the umpiring of a game between these two teams. Following is the way the teams lined up:

Singles—F. Roche, p.; Gehrke, c.; Sheffield, 1b; Pridham, 2b; Munro s.s.; Norton 3b; P. Humber, r.f.; W. Apps, c.f.; G. Pottinger, l.f.
Benedicts—Simpson, p.; Teitz, c.; Mould, 1b.; Pfister, 2b.; S. Humber, s.s.; Herman, 3b.; Atwood, c.f.; W. G. Q. R. Merryfield, l.f.

THE HENLEY REGATTA.

The Henley regatta is undoubtedly the greatest amateur event of the year and this season brings to our notice several remarkable features. Firstly is the fact that not an English eight reached even the semi-finals for the Grand Challenge Cup, the finals being a contest between the Harvard University crew, who beat the Winnipeg crew by a length in seven minutes flat. This time has only been beaten three times in the history of the race. The Union Boat Club, of Boston, defeated the entry from Mayence, Germany, in exactly the same time as their fellow citizens took the heat from the Winnipeg boys. Thus the finals were rowed between these two American crews and the cup went for the first time in its history to the United States, although it has left England four times before, the Royal Nautical Club, of Ghent, Belgium, winning it in 1906, 1907, and 1909, while the Sydney Rowing Club, of New South Wales won it in 1912. The Argonauts, of Toronto and the Ottawa and Winnipeg crews have

made many efforts to land the cup for Canada, but never got closer than the finals. The finals for this year were won by Harvard University who defeated the Union Boat Club, of Boston.

Another feature that proves the fact that the regatta is getting more and more international in its aspect is the fact that Bobby Dibble, of the Dominion Rowing Club, Toronto, the amateur champion of America, went down to defeat after winning two heats, when he met Giuseppe Sinigaglia, of Como, Italy, losing to the Italian by five lengths in eight minutes and thirty-three seconds. Dibble collapsed at the finish. This is the first Italian entry since the regatta was started and his win makes the Britishers, Americans and others who have had more or less of a monopoly of the trophies until recent years sit up and take notice. It is obvious to those interested that the going is getting harder every year, because other nations who were not previously noted for their aquatic prowess are now making themselves felt. Belgium, Germany and Italy have had entries and there are more to come. Sinigaglia, the Italian, proved himself the finest sculler entered this year by beating out C. M. Stuart, of Cambridge, in the final heat of the Diamond Sculls. He can now lay claim to being the best amateur oarsman in the world, a claim that few will dispute.

Leander saved the Stewards for John Bull by winning from the German crew in seven minutes and fifty-two seconds. The Goblets for pair oars were also won for England.

There are of course a great number of other events, but the ones that attract the most attention are:

The Grand Challenge Cup for the eight oared crews.

The Stewards Cup for four oared crews.

The Goblets for pair oars.

The Diamond Sculls, the singles.

WELLS VS. BELL.

Bombardier Wells, the celebrated heavyweight champion of England, won a very welcome and spectacular victory over Colin Bell, a much touted Australian heavyweight boxer, in London, England, last Monday.

Wells, who was recently defeated by Georges Carpentier twice for the European title, once in three rounds and once in one round, lost a lot of prestige which his classy victory over Bell partially restores, displaying

against the Australian all his old time speed and surprised his friends by putting Bell away in the second round.

Wells fought against many good men on the other side, losing out to Al. Palzer and Gunboat Smith, but succeeded in knocking out big Tom Kennedy and other heavyweight boxers. On account of his clean and gentlemanly conduct both in and out of the ring Wells is a great favorite both in England and the United States as well as at any other places in which he appeared. Many of his friends were greatly disappointed at his defeat in Europe as they hoped to see him win the heavyweight crown for the white race from Jack Johnson. His recent victory over Bell in such a decisive manner indicates that he may still be regarded as a possible "white hope."

RITCHIE-WELSH CONTEST.

A very interesting contest for the lightweight championship of the world took place in London on July 7th, when Willie Ritchie, the holder of the title, was defeated in twenty round bout by Freddie Welsh, the English lightweight champion. Welsh who has been knocking at the championship door for the last five years, was eventually matched with Ritchie and won the decision after twenty rounds of good clean milling.

The boxing game, which is conducted in England on good sporting lines, attracted a splendid audience from all ranks of life, and when Welsh, who is a Welshman by birth, entered the ring a crowd of his countrymen sang the Welsh National Anthem, while Ritchie was the recipient of a good round of applause from the entire house. Eugene Corri, of London, refereed the fight. He is known as one of the squarest men who ever acted as a referee in any athletic contest. Another feature of this great sporting event was the appearance on the platform of Rev. J. Harvey Boudier, an English clergyman, who acted as master of ceremonies and introduced the men. Welsh had most of the speed and science while Ritchie was strong and aggressive, but the former was able to win out on points.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. No more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, on legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.
N. B.—Unauthorized publication of this advertisement will not be paid for.—30690. M. 20.

Warning To Trespassers.

Campers and others please take notice that they are forbidden to land on Pier Island without first obtaining permission from the owners on Knapp Island. A great deal of trouble has been experienced in the past by campers leaving fires burning as well as doing great damage to the fruit growing thereon.

J. S. HARVEY.

A TRIP TO C. ON THE S.

By W. H.

The country still continues very flat, vast tracts of land without any inhabitants, great stretches ready for the wheat, some ploughed. The home steads are greatly improved compared with those found in Eastern Canada. Brandon is reached by 6.45 another fine station and good sized town. Great grain elevators are now frequently passed. The great distances travelled make the reaching of certain points difficult and tonight some of our fellow-passengers are leaving at Regina, the capital of Saskatchewan, at 1.30, so you cannot properly turn in until then. This is an important city and has a grand station, splendidly fitted. There is not time for more than a glance, but you can see some fine buildings in the coming Chicago of the West. The night is cool, you turn in now and are soon fast asleep. to be awakened about 3.30 by the conductor's "tickets, please." You awake again at 5.30 a.m., this time by the rising sun and the great heat of the carriage, the hot water pipes have been on all night.

The ponds and lakes to be seen on the prairie are still covered with thick ice. You arrive at a fair-sized town called "Swift Current" and you take the opportunity to secure some fresh milk for breakfast—10 cents for one pint. It is now 7.30, after break fast the train conductor gives you the privilege of a seat in the first-class compartment, a great favor and very much appreciated. The distance between stations is greatly increased now and the next important point will be Medicine Hat. It is interesting to notice the different names by which people and things are called—train conductor, baggage porters, newsagent, train porters, track, parcel office, and also the many nationalities present—Japs, Jews, Indians, Germans, Italians, Swedes, Danes, as well as Americans, English, Irish, Scotch and Canadians. The manners "please" and "thank you" are rarely heard, wooden tooth-picks are used freely. You made a point when in Winnipeg to secure plenty of provisions and found them cheaper than in the train or at the stations.

Owing to the tremendous distances travelled great changes in temperature are realized; the cool weather of yesterday is turned today into summer heat. Calgary is a fine town, a big C. P. R. hotel is the most striking building, built in view of the future. This town is an important centre of Alberta. A good lunch today in the dining car costs \$1.50 but it is well worth it as it is needed for the strain of travelling tells on the system. Part of your train is shunted here as the load is too heavy, for the engine, and two different engines are put on. One is now entering the region of the Rockies, and has travelled just over 2,000 miles by the train. Reducing the size of the train has crowded your part and you make arrangements to move into the tourist compartment and secure a sleeping section at a cost of \$2.65 which will take you to Vancouver. The extra comfort as well as other conveniences is worth the extra expense. Before darkness sets in, about 10.00, you have many good views of the mountains, here you feel how all your powers of description utterly fail to describe the various scenes that meet the eye—mountains with their snow-capped peaks, lakes, rivers running streams, rushing torrents, cascades, waterfalls and snow-clad mountains, and then again grassy slopes or covered with beautiful trees in their fresh green, firs, pines, the lovely birch, and many others, known and unknown, all too numerous to mention. Before you reach Banff, you pass through the National Park, where the buffalo, mountain goat and other animals are preserved—it is too dark to see now, so you turn into your comfortable bed and are soon

A TRIP TO CANADA ON THE S. S. ANDANIA

By W. H. DAWES

The country still continues very flat, vast tracts of land without any inhabitants, great stretches ready for the wheat, some ploughed. The home steads are greatly improved compared with those found in Eastern Canada. Brandon is reached by 6.45 another fine station and good sized town. Great grain elevators are now frequently passed. The great distances travelled make the reaching of certain points difficult and tonight some of our fellow-passengers are leaving at Regina, the capital of Saskatchewan, at 1.30, so you cannot properly turn in until then. R. hotel is the most striking building, built in view of the future. This town is an important centre of Alberta. A good lunch today in the dining car costs \$1.50 but it is well worth it as it is needed for the strain of travelling tells of the system. Part of your train is shunted here as the load is too heavy for the engine, and two different engines are put on. One is now entering the region of the Rockies, and has travelled just over 2,000 miles by the train. Reducing the size of the train has crowded your part and you make arrangements to move into the tourist compartment and secure a sleeping section at a cost of \$2.65 which will take you to Vancouver. The extra comfort as well as other conveniences is worth the extra expense. Before darkness sets in, about 10.00, you have many good views of the mountains, here you feel how all your powers of description utterly fail to describe the various scenes that meet the eye—mountains with their snow-capped peaks, lakes, rivers running streams, rushing torrents, cascades, waterfalls, and snow-clad mountains, and then again grassy slopes or covered with beautiful trees in their fresh green, firs, pines, the lovely birch, and many others, known and unknown, all too numerous to mention. Before you reach Banff, you pass through the National Park, where the buffalo, mountain goat and other animals are preserved—it is too dark to see now, so you turn into your comfortable bed and are soon

fast asleep. You awake early and again the scenes that meet the eye baffles your pen—mountains with their snow-peaks in the clouds, and then on by mountain side or through verdant and peaceful valleys, by the river side, through tunnels, over lakes on you go from the cool fresh mountain air to the limpid moist atmosphere of the valleys, but everywhere nature is in its grandest, most magnificent, luxurious and wildest mood—here the artist would find thousands of pictures for his canvas, and you feel some scene like this must have inspired Bishop Heber to write his grand hymn "From Greenland's Icy Mountains."

You have now entered British Columbia, and have travelled over 2,000 miles, rising at times to an altitude of over 5,000 ft. During the night the Great Divide was passed, so now all the rivers flow towards the Pacific Ocean. The stations are far apart and very few homesteads can be seen, only mountains, hills and valleys as you wind in and out of this wonderful country, nature in all its loneliness calling to man to seek her treasures and wealth, love its beauty and worship its creator—if only some of the crowded population could be transferred here to work how much of the poverty and misery of England would be reduced. Vancouver will be reached this evening at 11.30 and you will enter on the last stage of your long journey by steamer to Victoria in the early morning.

Revelstoke is the next important point reached and you go on past lakes for a long time and along the banks of the Thomson River, through woods by mountain side with their green slopes, backed by high snow-clad mountain peaks, or wrapped in cloud or mist, and then on through hill and valley that reminds you of Surrey. You are struck with the very English aspect that things and places have now assumed, and yet in many ways how different. Mention may be made of the many contrivances used, labor saving as well as useful, patent catches, fittings, etc. The train conductor before leaving his section tells you to "stay where you are, it will be all right." You offer him a tip, which he politely refuses, in fact you see none of this kind of thing done and you cannot help feeling that English railway conductors would benefit by a visit to Canada, and you wonder when their servants will be paid well enough to refuse a tip.

The next important town is Kamloops. You notice the large number of Japs and Chinese, also that the train runs through the main street. After this you continue to pass on through scenery familiar to all who know Kent or Surrey and then again at times you are reminded of the English lake district. You see a garden with lilac in bloom, a reminder of home. Wild flowers are seen growing on the hillsides somewhat like bluebells, marguerites and cowslips. Cattle, horses, etc., are greatly improved in appearance. The heat is very great, almost as hot as an August day in London.

After leaving Spencer's Bridge the scenery is again very grand. High mountains on each side covered with trees, in the valley between, a rushing river, and in the distance can be discerned snow clad mountain peaks. Just before reaching Lytton you cross the Fraser River, noted for its salmon, and it now flows on your left until it reaches the ocean. The scenery is truly grand. The rushing river below, trees and flowers on the banks each side of you and the tree covered mountains, and behind them the snow clad peaks reaching to the clouds—all beyond the ordinary man's power of description. The remainder of your journey to Vancouver passes without much of interest and all are anxious now to reach their destination. As

you approach the station the train stops and the news is quickly carried that a man has been knocked down, but your Canadian passengers are heard to remark, "only a Chinaman, it does not matter." Such is the value put on their lives in this country. There is no time on your arrival to do more than to rush around the quay for the steamer. You book your cabin and berth, which with a cup of tea and toast in the morning, costs you \$1.50, and you turn in to wake in the morning to find yourself nearing the fine harbor of Victoria, the capital of British Columbia, which has been well chosen and planned. Your first impression is most favorable, everything being splendidly laid out like an up-to-date English city, planned on what you have got to know as "garden city lines." As you leave the quay the magnificent government buildings greet you and other fine buildings are to be seen on every hand. But it will need a closer acquaintance before you can in any way give an account of the city.

A few of the many interesting things, people, places and scenes you have witnessed are here narrated, but you feel it needs an abler pen than yours to adequately describe all you have seen and heard. Here is abundant material for great writers but you have done your best to carry your reader along with you intelligently in your long journey of six thousand miles and you now close with many thanks to God for his many mercies and preserving care.

CHANGE STRAWBERRY STOCK.

An experienced strawberry grower in England says that there is an immense advantage in an occasional change of stock for propagating purposes. The value of a change of potatoe sets is he remarks generally acknowledged and he is convinced that it is just as necessary to periodically change the stocks of strawberry plants. Proper attention is seldom given to this matter, yet change is required if heavy crops of fine fruit are desired annually. The practice recommended is to row out the young plants in early autumn, in rows two feet apart, allowing a distance of one foot between the plants in the rows, planting very firmly, and affording a mulch of short manure. In the spring, when the plants show flower, the beds are inspected, and only those plants which show good strong spikes of bold flowers are retained. All sterile or doubtful plants are destroyed. It often happens that strawberry plants become barren or sterile and show few or no flowers, yet produce the earliest and best looking runners. Strawberry plants kept on the same ground for any considerable length of time deteriorate, in quantity and quality of the fruit. The constitution of the plant is affected, and shows a worn-out appearance and evident debility. The planting of one or two new varieties each season is strongly recommended, so as to ultimately secure a selection of those best adapted for the particular soil and locality, for it is well known that all varieties do not succeed on every kind of soil in every district.

POULTRY NOTES

For canker in fowls, the following remedy is recommended: Mix 12 drops carbolic acid, one teaspoonful laudanum, 10 cents worth sulphate of zinc, and one pint of water; shake well. Open up the nostrils with a broom straw, and with a small glass syringe inject into them the mixture, three times a day, and put eight to ten drops in the mouth. Feed soft bran and give plenty of water.

An egg to belong to the strictly fresh egg class, should not be over three days old in summer weather, and a week old during winter. But in either case they must be kept in a cool temperature. Heat very quickly stales eggs. Crates of eggs allowed to remain in the hot sun for several hours will quickly change their condition.

LOCALS and PERSONALS

Mr. Geo. Findlay, formerly engineer at the Canadian Southern Lumber Company's mills here, has accepted a like position with the Canadian Explosives on James Island.

Weddings and rumors of weddings are quite common around Sidney these days, and according to these reports at least two of our popular young men will be eligible for the benedicts baseball team in the near future.

Mr. E. A. Bates will hold an auction sale of his surplus stock, including horses, cattle and pigs, on Tuesday, July 21st, at his farm on the East road, near the Methodist church. Several good cows are included in the lot.

A large shipment of over three hundred and fifty sheep were unloaded yesterday at the Sidney wharf, consigned to the firm of P. Burns & Co. Sidney. They were brought over from one of the islands on a large scow propelled by a tug.

Invitations are now out announcing the silver wedding of our popular townspeople, Mr. and Mrs. H. Gehrke who will give a dinner in honor of the event in Berquist's hall on the evening of Tuesday, July 14. Dancing will be the principal amusement of the evening.

Another change in the management of Messrs. P. Burns & Company's butcher shop in Sidney took place the beginning of this week, when Mr. T. Shinton was placed in charge, the former manager, Mr. J. Montgomery, having been transferred to one of the numerous branches at Vancouver.

The many Sidney patrons of the Standard Steam Laundry are highly pleased over the convenient arrangements made by that company in regard to the dispatching and receiving of baskets which leave Finch's barber shop every Monday morning and are returned on Friday of the same week.

Mr. J. Brennan, who met with a serious accident while blasting on the Bradley-Dyne subdivision last week and necessitating his removal to the hospital at Victoria, returned home on Thursday. Considering what he has gone through Mr. Brennan is looking and feeling fine. The accident was the cause of his losing the sight of his right eye.

The auto bus plying between Sidney and Victoria is once more in commission after the rather serious breakdown a few days ago. A much larger and stronger engine has been placed in the car and Mr. A. L. Allison, the proprietor, announces that he will once more make the regular trips each day. A feature of this bus service is the carrying of small parcels at a minimum charge.

Dr. Malte, of the Department of Agriculture, who has spent several weeks in this vicinity collecting plants and grasses for exhibition at the San Francisco fair in 1915, left for his headquarters in Ottawa on Wednesday evening. The genial doctor made a host of friends while in Sidney who regret to see him leave. He expressed himself as being very much pleased over the success of his visit to our beautiful peninsula.

With this issue we are inaugurating a real live sporting page, the matter for which will be supplied by our popular townsman, Mr. P. N. Tester, who for many years has taken a deep interest in all kinds of sports, and since coming to Sidney has done much towards placing all outdoor sports on the high plane they now occupy in this district. As editor of the sporting page we have every confidence in Mr. Tester, as we believe him to be possessed of a thorough knowledge of the fine points of all outdoor sports.

The Sidney baseball team will journey to Friday Harbor next Sunday for a game with the team of that place. As a result there will be no game here next Sunday.

Many new sidewalks have been laid on the streets of Sidney during the past three weeks, and practically all the principal streets are now provided with a walk on one side at least and in some cases on both sides. The new walk on Beacon avenue as far as Mount Newton station is now completed and is a great convenience to pedestrians travelling to and from the B. C. Electric. Road foreman Trowse is to be congratulated on the excellent manner in which the walks are constructed.

Messrs. J. Armstrong and J. Sloan were the hosts to a large number of their friends at a midsummer dance held in Berquist's hall last Friday evening. The evening was cool and refreshing and those in attendance thoroughly enjoyed the evening's entertainment. A feature of the evening was the splendid supper provided about 12 o'clock, the management of which and the decoration of the tables was entirely in the hands of Miss Nelson, who proved herself to be an artist in this line. Seldom, if ever before, have the long tables in the dining room looked so beautiful laden as they were with good things to eat and flowers in great profusion.

The regular weekly meeting of the Sidney Lodge of the International Order of Good Templars was held on Monday evening last in Berquist's small hall. After the business session the members listened to a debate, the resolution being "That Single Blessedness is More Desirable than Married Bliss." The affirmative side consisted of Sisters A. Williams and R. Simister and Bro. Lait, while the contestants were Sister O. Williams and Bro. S. and A. McDonald. The judges were Sisters Mrs. Simister and Mrs. Miller and Bro. Land. A very interesting debate was held, being perhaps more amusing than instructive. The ladies of the affirmative side were dressed according to the custom of some spinsters, one of the suffragette type and the other in the style of a more easy going person who does not mind a rip here and there. In spite of this appropriate "get-up" and the force with which the arguments were put forward, the winning side proved to be the negative.

Poultry and poultry products have a marked influence on the meat supply, but less attention is paid by farmers to the breeding of farm poultry and their care than to any of the other animals. With easy possibilities for rapid improvement by the use of pure bred males our farm flocks still remain as a class decidedly underbred. Almost every section of the country can produce chickens. Every farm could maintain a larger and a better flock.

—Sands Funeral Furnishing Company, Limited, funeral directors and licensed embalmers. Prompt and courteous services night or day. Phone 3306. 1515 Quadra street, Victoria. Lady attendant.

WANTED.—To rent a small farm or ranch within easy distance of Sidney. Apply Box 1, Review.

STRAYED—From the premises of P. Burns & Co, Beacon Avenue, early this week, seven lambs. Reward on information leading to their recovery.

THE SPLEN BLOOM D

LIEUT.-GOVERNOR P
DECLARES SHOW
WARM WO

Hall Beautifully Decorated For
Predominating Feature of S
Decided By Ballot

The committees in charge of the flower show held last Saturday in Berquist's large hall, under the auspices of the North and South Saanich Agricultural Association and under the patronage of His Honor the Lieutenant Governor and Mrs. Paterson, are to be congratulated on the magnificent success of the event, and many of the visitors during the afternoon and evening were heard to express the opinion that it was in many respects far ahead of the flower show held in the city of Victoria.

The ceiling and walls of the big hall were crowded with masses of cedar boughs intermingled here and there with bright flowers and tricolor bunting, giving a very pleasing effect.

Along each wall on the sides of the hall were arranged three-tier benches for the more convenient display of the numerous potted plants entered in the different competitions. Down the centre of the hall two long tables extending almost the full length of the building and draped with fancy colored paper, were used for the more delicate exhibits of cut flowers, and when these were arrayed with their mass of bloom, supported by gleaming glass vases, it was a sight well worth seeing.

The north end of the hall was given over to the decorated table section, and in which there were seven entries. The visitors' attention was drawn to these immediately on his paying admission at the door as he was presented with a ballot paper and requested to mark thereon the numbers of the tables, which in his opinion, should be given first and second prize. They were certainly tastefully decorated, and covered as they were with their gleaming white table linen and glistening cut glass vases in which were displayed some of the choicest flowers in the show, it was indeed very hard to decide which should receive first or second place. The general sameness of the display made it even harder to decide than it would otherwise have been if a different system of display had been adopted by each contestant. The only two tables in the competition that departed from the general rule of a large centre piece with four smaller corner bouquets were those of Mrs. J. S. Harvey and Miss Lorna White. The latter used a very simple design, having only a very large bowl of nasturtiums with long trailers extending toward each corner of the table, while the former used large bunches of a small flowering garden rose as the centre piece on her table, with two smaller bunches of the same flowers on opposite corners of the table.

On the ballots being counted at eight o'clock in the evening it was found that Mrs. S. A. Kelly's table decorated with coreopsis and gypsophylia
