News in General. BASEBALL

LONDON DEFEATS THE GIANTS. The famous Cuban Giants made their first appearance at Tecunisch Park yesterday and played biseball, comic opera and half a dozen other things which aided in entertaining 300 or 400 people for about two hours. The small attendance shows that people are chiefly interested, except on holidays, refusing to call him out. in championship games, and that two

of them in a week are sufficient. The Cuban Giants, who are all colred gentlemen, although not necessarily from Cuba, are very funny fellows, and have tremendous vocal powers, which were exercised to the fullest ex- favorite before any news of the game tent. The Londons made their first run on a triple by Conn and a single by Sippi. Their greatest execution was in the fifth, when Sechrist, Carney and Seifert made three successive hits, Sechrist scoring with no one out. Johnston and Conn failed to rise to the occasion, expiring on infield flies. A timely single by Sippi brought in Carney and Seifert Connolly singled, but he and Sippi were left on bases, Snyder flying to

The run in the seventh was made on a single by Seifert, sacrifices by ohnston and Conn, and a fumble by The winning runs in the ninth were also earned. Carney made a single, but was caught napping on first. Seifert followed with a double, scoring on Johnston's single. Conn's long sacrifice to left field brought Johnston home. Sippi died on first. TRAIN-WRECKER SENTENCED.

Sent to Kingston Penitentiany for Five Years.

Chatham, Ont., May 20. - Joseph Young, 21 years of age, and apparently of weak mind, was charged before Judge Woods yesterday morning with placing an obstruction on the G T. R. rails. He elected to be tried summarily, and got five years in Kingston Penitentiary.

He told the judge that he placed the obstruction on the track for fun, just to see the train run off.

STRUCK A MATCH

And Five Persons Were Fatally Burne by Natural Gas.

Jamestown, N. Y., May 20 .- At Chandler's Valley yesterday a 100-quart torpedo of nitro-glycerine was shot in a 900-foot well that had been drilled for oil. After the shot a dozen persons rushed into the derrick. One man struck a match to determine whether natural gas was issuing from the well. The consequent explosion blew out the sides of the derrick, fatally burned Wm. Dalton, postmaster of Sugar Grove, Dr. Kelly, W. King, Mr. Ellis and his son, of Chandler's Valley.

Radway & Co.

Dear Sire: I have been keeping in the house your Radway's Ready Relief for the last six years. I have used it in every way, and found it to be the best on earth. Six years ago I was sick: I tried all kinds of medicines, but they did me no good. My father saw the advertisement in the paper; he told me to try a bottle. I did so, and by using it three days I was able to be out. I have kept it on hand ever since, and I have told my neighbors about it. My wife had been troubled with toothache. I gave a trial of the medicine and it cured her pain instantly. I was gathering corn and got my hand caught between the wagon-bed and standard, and mashed it badly. I ran to the house and poured on a lot of Radway's Ready Relief, and had no more pain. Itied my hand up with a piece of flannel, poured on more Radway's Ready Relief, and in an hour I was ready to take hold of my work again. I cannot be thankful enough. I could write a great deal more, but this paper would not hold half of what I could write. Yours truly.

Dr. Radway: My family are in the habit of trusting entirely to your Ready Relief and Pills as our household medicine, rarely requiring any other remedial aid. I myself follow closely your directions in taking the Ready Relief as a preventive for Chills and Fever, say a teaspoonful in some water before my breakfast on an empty stomach when I visit my yard, as I am accustomed to do at that my yard, as I am accustomed to do at that time. The result is a perfect success, as I never take the fever, although I am located in a most malarious district, in which few of the a most malarious district, in which few of the residents escape malarious attacks, particularly of Chills and Fever.

TURKEY, CHICKEN, SALMON. A writer in a recent issue of the Poultry and Produce Trades Chronicle (London) says: "An Irish farmer tells me that they cannot produce a good turkey and sell it at a profit in Ireand at less than 7½d per lb. I have sampled New Zealand poultry, and a chicken that I had cooked turned out to be one of the finest I ever had. It was a real spring chicken, and if such quality continues to be shipped such quality continues to be shipped and out Antipodean cousins keep the price down within moderate limits, they can be said and out Antipodean cousins keep the price down within moderate limits, below the said of the said they can be assured of a ready market.

I believe the prices being obtained here are, for chickens, about 2 lbs weight, 8d per lb; fowls, about 3 to 4 bs, 71/2d per lb. The demand is good, and must increase when once the quality becomes known. I am told that so great is the satisfaction of buyers of Columbia River salmon, as sent from Glasgow, that orders are being constantly repeated, and Mr. George Christie, of this city, has been the reripient of numerous letters testifying to buyers' appreciation."

FROZEN POULTRY. The development of the American frozen poultry trade, to which we called attention a fortnight ago, is pro-ceeding with much success, and, what with orders from the provinces and an active demand from London poulterers, Mr. Reid has not the least difficulty in disposing of his consignments. Prime chickens, of about 4 lbs and 5 bs, have averaged 8d (16c) per lb, and spring chickens 2s each, being nearly 10d (20c) per lb. A further arrival is expected at Leadenhall Market today (Saturday), but, as the supply will be light, and in view of the holidays, roasting chickens will probably additional content of the holidays, and in view of the holidays, roasting chickens will probably additional content of the holidays, and in view of the holidays, roasting chickens will probably additional content of the holidays, and in view of the holidays, and the view of the view roasting chickens will probably advance next week from 7d to 7½d per b, while broilers, running from 1 lb to 134 lbs, are expected to average 1s 4d There is no doubt about the excellence of this American poultry, or the success of the enterprise.—[Poultry Trade Chronicle, London, England,

Mediation Between Spain and Cuba Offered

By Secretary Olney During President Cleveland's Regime.

The Proposal Refused by the Proud Castilians-United States Secret Archives Disclosed.

Washington, D. C. May 20 .- The seeret archives of the State Department, which have held the consular reports in the Cuban war from the public, were partially disclosed yesterday in the Senate by Senator Foraker, of Especially startling was the letter from Secretary Olney, in which the United States offered mediation to Spain, and the refusal of that country to accept the proffered aid. While one of the consular reports was read without the name of the author being disclosed, it is stated to be a communication from Consul-General Lee, which fully sets forth his idea of the condion that exists in Cuba, and says: "I cannot understand the truth of claim that all the provinces of the island are pacified, except that of Santiago de Cuba, because there are more insurgents under arms at this war is approaching a termination, be- tion cause, in pursuance of an established possible all serious engagements. in on Spanish troopsfrom this island by force of arms is well known to them, and they do not propose to risk the lives of they do not propose to risk the lives of derly scenes occurred. their men, and the success of their cause upon one or more pitched battles. The poverty and distress of the people were daily increasing, and the loss of property of all sorts daily becoming more enormous. No one can fully appreciate the situation without being here in person. The number of poor, distressed, starving women, children and old men of all races have greatly increased in this continued result of under the property of all sorts and the loss of property of all sorts daily becoming more enormous. Such a conclusion, Mr. Olney said, would almost inevitably, result in a war of races, with the probable establishment of a white and black republic. Mr. Olney pointed out the deep interest of the United States in Cuba sympathetically and commercially. He said his purpose was not at that time to suggest intervention, but that the United States could not contemplate.

amount asked was reasonable, and not greater than in former years.

Mr. Laurier said that some five hours had now been spent in discussing Mr. McInerney's motion, and he did not think that anything further that could be said would enlighten the House. The expenditure was absolutely necessary, or it would not be proposed. Everyone who has been at Rideau Hall knows it. United States could not contemplate.

Sir Charles Tupper concealed that it. Cuban insurrection. It was getting groundless fears subsided, and, drawdark and foggy, and, as Reginald, on shaking hands with Geraldine, slipped a note from his hand into hers, both flattered themselves that the action was unseen. As a matter of fact, they were right; but Capt. Morrison's suspicions were so fully roused that the fact that his wife appeared perfectly contented and even gay on her way through the wood to the house with him, seemed to his jealous mind sufficient proof that she had found some means of communicating secretly with Reginald Bamber under his very nose. So that, on arriving at the house, he whither she went at once to avert suspicion that she was in haste to be alone, and, turning up the lamp high,

No acting was proof against such a surprise as that; the flash of terror over her face, the involuntary step the other. The man Hammond, on back, were enough for him. The low sound which escaped between his teeth, as he leaned over the table and glared at her, with clinched firsts and dark, livid face, seemed to the terror-stricken woman like the cry of a savage animal. She tried to laugh, but her ease was gone.

As he did so she sprung across the hearth-rug, and thrust the letter through the bars of the grate into the red heart of the fire. LOST THEIR DEPOSITS.

Montreal, May 19.—Mr. Albert Lus-ler, one of the Liberal candidates in Vercheres, has lost his deposit, having olled only 47 votes in the whole coun-y. He was the member for the county n the last Legislature, but failed to get the party nomination again, and ran on his own hook. Two Conservative candidates are reported as having lost their deposits. They are Messrs. Theriault in Temiscouata and O'Brien in Quebec county. WOMEN'S HATS COME OFF.

Chicago, May 20.—Rev. R. F. Johon-not, of Unity Church, Oak Park, says he does not propose to have the theater more advanced than the church, and has ordered that hereafter women will nnet themselves during services. He believes that the church of the fuure will have a dressing-room, where lies can leave their hats and wraps, and a check room for overcoats and umbrellas. "I do not ask my people in a compulsory spirit to remove their hats," he says, "I suggest it as a matter of courtesy, first to the church next to the pastor. As I said in public. I have two reasons. One, and the main one, is that other people may enjoy the privileges of the sanctuary; the other, that the assembled worshipers may look more home-like. The women have accepted the edict in a friendly spirit of acquiescence."

The large questions that arise from the contact of state with state have never evercised that influence in maturing the political judgment of the public men of Canada which is important not only to them, but to the country at large. Canada has now outgrown her condition of childahood. She is maturing into the condition of a great state, and the responsibilities that devolve upon the nother country now, so far as her own protection is concerned, devolve also in no small degree upon the people and Gov-

tianity" Maintained.

Fay Mills at the Dundas Center Methodist Church last evening, was larger than at any of his previous lectures. It was the closing lecture of the series, and proved very interesting. "The Christianization of Christian

ity" was the subject. Mr. Mills said Jesus did not live on earth to found a church. The correct idea of the church is that it exists as an organization to assist one another to help make the world better. The model church will have a definite conception of the work of Jesus on earth. Many people believed that Jesus lived for some exceptional reason, but He lived for the same reason that you or I should live. to help save the world. The mission of Jesus was to infuse in human society influences that would increase until society became wnat God intend-

"The only practical man is the spiritual man," he said. "Many people are afraid if they do anything towards helping this world, they will miss the next.
All a man gets in heaven is
what he invested in the right-cousness
of this world. The holy thing is to
get the spirit of love and Jesus into
this world; and the man who will be a holy man will be a secular man also. There is only one thing that is a wrong spirit. The church that is a right church will bring together all the people who have the spirit of helping, to make the world what it ought to be.
