Against Britain's Method of Carrying On War.

STARVATION IS FEARED

Therefore, Note Says, Germany Will Try To Stop British Trade.

WASHINGTON UPBRAIDED

Sending of Arms and Supplies to Allies Is Cause of Offence.

(Canadian Press.) Berlin, Feb. 18 .- Via Lon-

don .- The reply of Germany to the protest of the United States against a blockade of British waters is couched in friendly terms, but firmly maintains the position of Germany as already announced. The answer, which is a lengthy document, was converted into code at the United States embassy under the direction of Ambassador Gerard, and has been transmitted in full to Washington.

The note explains that Germany's proposed action is rendered necessary by Great Bri-Ul Ululillul tain's policy of attempting to cut off the food supply for the German civil population by a method never recognized in international law.

SAYS STAND NECESSARY.

Britain's course in ordering merchantmen to fly neutral flags, equipping them with artillery with orders to destroy submarines, the German reply contends, renders nugatory the right to search, thus giving Germany the right to attack British shipping. Germany holds that she cannot abandon that right under the stress which Britain has forced upon her. Since Germany must compel nations with which she is at war to return to the recognized principles of international law and restore the freedom of the seas, she argues that the stand she has taken is neces.

Suggests Convoy. The note recommends that the United States Government send warships to England to convoy merchant through the danger zone, as security against attack, with the understanding that vessels thus guarded shall carry no war supplies. Hope is expressed that the American Government will un derstand the position in which Germany

has been placed and appreciate the reasons for its course Wants Food Badly.

## PALPITATE

### HAD WEAK and DIZZY SPELLS

Palpitation of the heart is one of the common of all heart troubles. The heart will beat fast for several and a feeling of utter depression will come over the system accompanied by weak and dizzy spells, making you feel weak and dizzy spells, making you feel that you are surely going to die. When you feel this way what you require is a real good heart and nerve tonic; one that will strengthen the weak heart and build up the nerve system. For this

purpose we know of nothing that can equal Milburn's Heart and Nerve Pills. Mrs. J. S. Nicholls, Listowel, Ont., writes: "I was weak and rundown, my heart would palpitate, and I would take weak and dizzy spells. A friend advised me to try your Milburn's Heart and Nerve Pills, so I started at once, and found that I felt much stronger, and my heart was ever so much within a short time. I cannot praise your medicine too highly for it has done me a world of good. My husband has also been bothered with heart trouble ever since childhood and finds great relief in using your valuable pills. Milburn's Heart and Nerve Pills are

Investigation Begun of Graft Charges in Drill Hall Building.

[Canadian Press.] Toronto, Feb. 18.-An investigation into charges of corruption and fraud over the construction of Government drill halls recently built in Ontario, was opened here today by R. A. Pringle, K.

The principal evidence was given by Joseph Hansen, of Meaford, a sub-contractor of the Tom Construction Company, of Collingwood, who laid the charges. He charged: 1 .- No footings in the

foundations of the drill sheds, as shown on plan. 2.-No weeping tiles installed, as call-

3.-No waterproof dressing to walls of 4.-Old wire fences used instead of expanded metal.

5.-Only two coats of paint used instead of three ,as called for. 6.-Furnaces have no guarantee to meet with the requirements. The man who put them in said it was impossible to meet the requirements at the Mr. Hansen also stated that no pro-

vision whatever had been made for drainage. Commissioner Pringle: contend that the overseer was in the employ of the Government and still in Victoria Hospital in the police motor Cross Society in London, England, and the employ of the Tom Construction Company?'

Mr. Hansen: "That's it. At Brampton the overseer was paid \$5 per day by Mr. Tom to look after brickwork. This overseer was also employed by the Government." Hansen admitted having some trouble with the Tom Construction Com-

pany regarding payment for his work. Frank King, of Meaford. He admitted he had no practical ex-

perience, but "had seen many buildings put up." "Is that all?" asked Mr. Pringle. "Yes," answered the witness.

LONDON, THURSDAY, FEB. 18. WESTERN ONTARIO AT THE

FRONT.

HE 1st Battalion is in France. The report from Nantes, which is in the point of a triangle drawn toward the coast, with Paris and Bordeaux as the other corners, told of the accidental death of a Hespeler man who was in one of the Western Ontario units prior to enlistment. The indication from the location of the troops at the time of his death is that the Canadians were landed at a port further south than the usual points of debarkation for the British troops, perhaps Bordeaux, or that the men may be trained in Southern France for some time before being taken to

Yet there are positive statements by special correspondents to the effect that the Canadians are either on their way to the trenches or already there. In fact, one special writer to the Toronto Star describes the scene as the Canadians moved through a point at which he was stationed. They were eager to get to the front, and had been riding for two nights. The Canadians have been given fur coats, and were eager for the chance to match marksmanship and wits with the

Western Ontario has hundreds in France at the present time. They are of the best of the country's manhood, and many of them will have made a sacrifice to liberty before many weeks have passed. The regiments from which the 1st Battalion was drawn were as follows:

### A PENSION ABUSE.

THAT a man who has served his thenceforth receive a pension, is a proposition for which much may be said. But that a man should retire in the full vigor of manhood, and take some other position under the Government, or enter into some other occupation from which he derives as much remuneration as a younger man would receive, and should still continue to draw his pension, is something altogether different.

It appears from the discussion in Parliament the other day that the Hon. Mr. Doherty, of Montreal, came down from the bench some years ago, and in accordance with the law became entitled to, and has received, his annual pension. He went into Parliament, no easy life: then when the Conservatives came into power, was made Minister of Justice, not the easiest position in the cabinet. He receives \$7,000 as minister; \$2.500 as a member of Parliament; and his pension as a retired judge. Whether that last item be the full allowance to retired judges of \$6,000 a year, or whether it be a smaller sum, is imma-

We are not finding any fault with Mr. Doherty. No one blames him for putting in his pocket all the money to which he is legally entitled. Most people would do that and the exceptions are not many. But while this transaction may be legal, it shows that the law is liable land," and the "Battle of the Baltic," be legal, it shows that the law is liable land, and the Battle of the Battle. Americans who are striving to drive the people of the United States into active sympathy for Germany. is the formation of a national organization every member of which is pledged to upport and vote for candidates who promise to help put through legislation or projects favorable to Germany. The move is just another of the many blunders Germany and her friends have made in their attempts to get and hold American sympathy. In this case it has caused the greatest resentment with the general American public. American ideals, American training, are directly opposed to those of Germany. Nothing could be more hateful to an American than the "Kultur." Any movement aimed to sustain or spread Prussian imperialism, however indirect, is hostile to American sentiment. To the average American the special pleadings of Dr. Dernberg for the Kaiser are abhorrent. He cannot understand why one section of the community should be permitted to violate neutrality. He believes that no American of European extraction should be allowed to make a political issue of old-world grievances. The resentment and annoyance caused by these hyphenated Americans has caused many complaints to be placed before President Wilson, Perhaps the Administration at Washington will presently make an official statement that will show the rest of the world that American sentiment as a whole is hostile to attempts to arouse sympathy for Germany, or for any other belligerent.

Great Britain has been well advised in keeping out of this sort of thing. When the Germans and German-Americans started a platform and political campaign in the United States to win some quarters that the British Govern, out with the desire of obtaining the ment take measures to defend itself against the lying charges and misrepre- peace. ### AGAINST THE LAWS OF HUMANITY.

HE WAR zone drawn by Germany around Great Britain and Ireland, if enforced, as Germany declares it will be, may bring other neutral nations into the conflict. Germany threatens, after the 18th of February, to destroy any vessels either of the enemy or neutral found within that zone, and without any guarantee for safety of passengers or crew. Inhuman such a threat undoubtedly is, but no more inhuman then the first act of the war, the attack on Belgium, But if in keeping with the first act, it is also proof that no place has yet been found for repentance. They are as murderously inclined now as when the war commenced. The laws of nations are all laws of humanity, and it follows that an act which shocks the public conscience, as this threatened blockade does, is contrary to the principles of civilization Germany has not itself out of the 20ne of civilization by its continuous acts of murder and barbarity The attack on Belgium, strewing the North Sea with mines, dropping bombs on Paris and other places, regardles of the destruction they might cause and the killing of women and children on the English coast, are samples o inhumanity and barbarity that are re

### A LION IN THE WAY.

They came out from their close retreat, The chosen wing of a vaunted fleet, Expecting that they could repeat, On helpless babes, their wrath. And thus the world would be appalled, The foe in terror be enthralled Then suddenly the lookout called. "A Lion's in the path."

"A Lion! A Lion! What shall we do? Ach Gott in Himmel, a Tiger, too, Turn quickly for they will pursue. For home, away, away." They turned away in panic flight, They had no stomach for the fight. On babes they could not vent their spite. 'Twas not The Day, The Day.

They said resistance would be vain Against the Lion and his train. "We'll never reach our home again Unless we take great heed." And so they go in desperate fear, Calling to crews and engineer. "The Lion fleet is drawing near. More speed, more speed, more speed.

The Lion came, with rending roar, The Tiger, too, did broadsides pour. And some were sunk to rise no more Until the Judgment Morn. And some escaped across their line, And, guarded there by fort and mine, All further combat did decline; Objects of deepest scorn.

Back through the hole, their course retrace, And when they reach their naval base. Trying to explain their dire disgrace, "We tried to go, but were beset By foes, the strongest, fiercest yet, No babes were killed because we met

## Increased Earning Power-What it means

The gain of nearly \$4,000,000 in the assets of the Canada Life in 1914, means a substantial increase in the Company's earning power, which already was exceptional.

In each of the past six years the Canada Life has earned a greater amount of surplus than in any previous year.

### In 1914 The Canada Life earned \$1,533,000 surplus

Some women keep them constantly in hot water, others let them freeze by their carelessness and indifference; some keep them in a stew by irritating ways and words; others roast them; some keep them in pickle all their lives.

It cannot be supposed that any husband will be tender and good managed in this way, but they are really delicious when properly cooked. Tie him in the kettle by a strong cord called comfort, as the one called duty is apt to be weak. They are apt to fly out of the kettle and be burned and crusty on the edges, since, like crabs and lobsters, you have to cook them while alive. Make a clear, steady fire out of love, meatness and cheerfulness. Set him as mear as seems to agree with him. If he sputters and fizzes, do not be anxlous; some husbands do this till quite done. TO HELP TUBERCULAR Women's Sanatorium Ald Hope Raise Funds This Way-Need of Second Nurse.

Increasing from 38 visitors in January, 1914, to some 80 cases during the 31 days of January, 1915, the free clinic work of the Women's Sanatorium Aid Society, has become quite a serious task. Miss Hanson, who has been and is a most faithful and capable visiting nurse, has a very large territory to cover, and the need for a second nurse is being felt more and more strongly all the time. Since the first of the year, expenses to the amount of \$407 have been pald out by the society, quite a heavy drain when it is considered that owing to so many calls for money, the organization has made no special appeal for help this year, in any form. The fee for active membership, \$5. Quite a number of the latter fees are still unpaid, and the finances of the society would be augmented considerably if associate members bore this in mind.

Berlin Union Jacks Too Much for Londoners-Game Ends in a Tie, 3 to 3-Visitors Blame the Poor Ice.

[BY BERT PERRY.] BERLIN, Feb. 17.—Western University Juniors made a gallant effort to stay in the O.H.A. running here at Berlin tonight, but the local Union Jacks' two-goal lead, was too much for them, the game tonight resulting in a tie, 3-3, Berlin winning the round by a margin of 2 goals.

Handicapped by the two-goal advantage which Berlin secured in London, the Collegians went out tonight with determination and spunk written all over Berlin got the jump on them in the first five minutes' of play by scoring two goals. Shortly after Western scored when Walden broke through the Berlin defence and beat Merner. A few minutes later Walden was laid out when he was struck in the face with a stick, a nasty gash which closed one eye being inflicted. He was forced to quit and Ott went off to even up. The

teams finished with six men a side.

With Walden and Ott off, Western's speed and individual work was more effective, and the Londoners had the Union Jacks on the run at several stages. Berlin Saved By Defence.

Berlin's great defence work was all that saved them. Berlin was only able to score once after securing the 2 goals in the first period, Shirk finally beating Reuter after the University goal minder had made some remarkable stops. They falled to score at all in the third period.

The game was fast and had the the crowd on edge throughout. Western always looked dangerous and in the third period played a far better game than their opponents.

The Collegians back up the opinion of London fans that on hard ice they would give the Union Jacks a real

battle. Had the ice been hard in London, Berlin never would have and Western would now be in the semi-finals.

Reuter, Phillips, Sinclair and Nelles starred for Western tonight, Phillips showing more speed and stick handling

than any player on the ice. Brodison was not as good as usual, and loafed a great deal. He only showed flashes of his real form. Reuter's work in the nets was great; he stopped many Berlin rushes right at the goal mouth. Bell was also effective, although he served too much time on

the fence. Walden played a strong game while he was on. Exciting Third Period. The third period was the most exciting. Western scoring the only two goals of the session and making a great fight for the district. After seven

fight for the district. After seven minutes' of play, Bell scored on a long shot and five minutes later Tommy Brodison notched one while Western was playing five men to six.

For Berlin Karges, Erb, White and Merner starred, while Shirk worked hard also. Merner played a strong game in the nets. Karges was not near as effective as in London, and all his rushes were broken up. Referee Harvey Sproule, of Toronto, officiated and was good. The game was clean, the penalties being for accidental tripping mostly.

INGERSOLL, Feb. 17.—Rallying in the second half with a splendid burst of speed, Elmira won tonight's senior Northern League game by a score of 7 to 3. The homesters were minus Henderson, the speedy rover, owing to illness, and their firing line was demorable and comparatively clean. Hancock, of Owen Sound, was clean, the penalties being for accidental tripping mostly.

### No Trouble to Make Jimmy Clabby Laugh That Time

Jimmy Clabby put one over on Herrman Schaefer, the comedian of baseball, just before the Gibbons fight. Clabby had an engagement with the dentist, and he requested Schaef to ecompany him and remain with him through the ordeal.

Schaefer thought to lighten Clabby's ain by turning on the comedy, and after the dentist had commenced to use after the dentist had commenced to use his intrenching tools Schaef told a funny story. Clabby laughed gleefully and, much encouraged, Schaef laid out his best line of comedy. His every joke brought laughter, and the German comedian postured, performed antics, related comic incidents and worked himself into a lather. Finally Clabby sat up, looked at Schaef wonderingly and remarked:
"Did you say something, Schaef?"
He had been under the influence of aughing gas all the time.

NEW YORK, Feb. 17.—Richard (Rube) Marquard, who jumped from the New York Nationals to the Brooklyn Federals during the middle of the winter, had a lengthy conference today at the New York National League office with President A. N. Hempstead and Secretary John B. Foster. Secretary Foster refused to make any positive statement as to the outcome of the interview.

"We cannot very well discuss Marquard's status without half admitting that he at one time ceased to be under contract with us," said Foster. "I will say, however, that we have good reason to expect Marquard to report to the Glants' training camp at Marlin Springs next month."

Secretary-Treasurer Huston, of the local American League team intimated this afternoon that if there was any salary difference between J. Franklin Baker and the Philadelphia Athletics, he would be glad to make Connie Mack a fine offer for his star third baseman.

### THE EASIEST WAY TO END DANDRUFF

Stop Falling Hair and Itching

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it, no matter how much danduff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly,

## PRESS OF STATES PLEASED AT REPLY

Tribune Says Sir Edward Grey Is Reasonable and Friendly.

ISSUE NOT A MAJOR ONE

Very Different From Threat Implied In Germany's "War Zone" Note.

[Canadian Press.]
New York, Feb. 18.—The Tribune this morning says editorially:
"Sir Edward Grey's reply to eur state department's protest against the inconveniences caused to American shippers by the detention of ships and the examples." by the detention of ships and the examination of cargoes destined to neutral ports is entirely reasonable and friendly in tone. The two governments, as we said when the preliminary reply was published several weeks ago, have no differences on questions of principle. The United States has itself set many precedents which Great Britain is now following in treating contraband going through a neutral territory to a belliggerent. We do not challenge a free exerent. We do not challenge a free ex-ercise of the right of search or a pretty large discretion of Great Britain's part in declaring what is and what is not contraband.

Arguments Conceded.
"It will probably be conceded by most
Americans that the German Government's action in taking control of all food supplies eliminates the normal distinction between food intended for the use of a belligerent's armed force and food intended for the civilian population. All food may thus become contraband under such conditions. Most Americans also recognize that the British prize courts will give a hearing on their merits to cases of selzure coming before them. Beyond that there is always the recourse of diplomatic intervention and arbitration.

Cut Red Tape.

"All that this Government asks is the cutting of red tape and the prevention of undue delays in the exercise of the right of search and seizure. That is a grievance which can easily be made to yield to better administrative methods, "The issue is not a major one—like that raised by the threat implied in the recent German 'war zone' proclamation. In Great Britain's case we are dealing with a power which still believes that questions affecting neutral rights can all be settled within the scope of the existing international law code."

No Effort Spared.

The World says: "The formal reply of the British Government to the American protest against interferences with neutral commerce is notably friendly in tone, and the facts recited will impress the reader with the truth of the assertion that no effort is being spared o 'avoid inflicting avoidable injury on neu-tral interests.'"

Three Times Serious Wounded -Immensely Popular With His Men.

### LEGISLATURE'S TRIBUTE

TO THE LATE PREMIER [Special to The Advertiser.] TORONTO, Feb 17 .- Tributes to Sir James Whitney, with a formal adjourn- tionary force were announced by the ment, out of respect to his memory, constituted the onl ybusiness of the

Legislature this afternoon, Before the orders of the day were called Premier Hearst said that since the Legislature last met the hand of death had called the one who for ten years had led the House, and members on both sides would agree that a tribute should be paid to the memory of such a large place in this House and this country." He sketched the career of Sir James from his entrance into public life in Dundas County, and de-clared that the work done during his term of office would stand as monu-ments to his ability and integrity. N. W. Rowell, who seconded the mo tion to adjourn, said it would be recognized that the most dominant figure in the Legislature and the Governmen was gone, and they would not be quite the same without him, Judged by the test of achievement, Sir James was a successful premier and party leader. The late premier's desk was decorated with roses for the afternoon. The desks of the two members of th Legislature on active service, Dr. A. E.

Ross, of Kingston, who is now in

France with the first contingent, and

Address on Bees.

Morley Pettit, provincial applarist and professor of agriculture at the O. A. C., gave an interesting illustrated address on bees. Mr. Pettit devoted most of his address to the way in which blossoms were fertilized. He declared that insects were necessary in transferring pollen from one blossom to another so as to give better fruit and more of it. Bees were the most reliable insects for this purpose, as they visited the blos-soms for food and nectar. He advocated the placing of bee-hives in the orchard as the bees were not satisfied when their hunger was appeased, but kept on gathering nectar and distributing pollen as long as there was any to distribute. Tt the close of his address, Mr. Pettit stated that he did not like the present weather for bees. He liked to see the

The contest, held Wednesday afternoon, as to who had the best pack, was judged by Mr. Kydd. That it was keen, can be seen by the fact that only 1½ points separated the first five men. Following are the names of the prize-winners, and their scores: N. H. Cornell,

29½; A. J. Cody, 29½; F. G. Brook, 29; W. C. Pack, 28½, and A. K. Sadller, 28. The total numbers of points that could be received was 30. Ten men took part in the contest, the lowest score being 23.

Mr. Kydd stated that the syp, Snow, thoroughly, and laid great stress on the thoroughness. Grapes, he said, should be grown in rows ten feet apart and two feet in the rows. The first wire should be three feet in height and the second six feet high. The rows should
