MANIWAKA FIGHT

Jocose Remark Leads to a Serious Stabbing Affray.

Ottawa, Aug. 2 .- Charles Dumond lies in Maniwaki Hospital in a critical condition, with four gashes in the side and one on the head, committed by man named Cameron. Cameron blew into Maniwaki on

Friday evening last. On Saturday morning he seemed somewhat the worse for liquor but took a sleep and got up about noon. In the afternoon he strolled into the bar, where there were several men, one of whom made a jocose but inoffensive remark to Cameron. This angered the latter, who invited

him to mind his own business, at the same time handing him a swift and unexpected uppercut. he onlookers were too dazed to inter-

fere before the stabbing was done. The assailant is under arrest.

The Programme.

A unique feature of the day was the programme which had been prepared. It contained a complete list of the athletic events, entertainment and other events of the day, also a list of humorous "Don'ts for Prudentialites" and was cut in the shape of the Rock of Gibraltar. The programme contained six pages, and was tied at the top with silk cord. The front page contained the announcement of "The first annual outing and field day of the Prudential staff of the London district," and the back cover contained a handsome picture of the battleship fleet passing the rock.

Delicious Preserves

No housekeeper need again apologize for "store" goods, when guests arrive unexpectedly.

It is so easy to make appetizing, wholesome and less expensive preserves with St. Lawrence Granulated Sugar, that every housekeeper is putting up her own stock this summer for next winter.

Their reward will come when they delight their friends and guests with preserves of their own make. And what just pride they can take as these delicious home-made preserves are praised!

The children, too, will enjoy the pure, luscious fruit as it is preserved by St. Lawrence Sugar.

St. Lawrence Granulated Sugar is made from pure cane sugar, and contains more saccharine substance than sugar made from other natural products.

In preserving, a smaller quantity of St. Lawrence Granulated is required. It is therefore more economical for the thrifty housekeeper. It is sold in bulk in smaller quantities at your grocer's, but we recommend the 20-pound cotton sacks, put up at the refinery specially for the home. This

you can be sure of the genuine brand, by buying it in these original packages. Ask your grocer to supply you with St. Lawrence Granulated in these 20-pound sacks, and get clean
