NO. 198

Time to Think of Dress Goods

On Tuesday September 5th., the day after Labor Day, our two Dress making departments will be re-opened. The one under the management of Madame Skirving who needs no introduction to our customers; the other under the management of Miss Sullivan, just returned from a two years position in one of the prominent Dress making departments in New York city. Miss Sullivan had charge of one of the departments in the store of Thomas C. Watkins, of Hamilton, for four years and gave eminent satisfaction. We recommend her with all confidence to the ladies of Chatham and vicinity.

DRESS GOODS

Beyond any question of doubt, Broad Cloths of soft Chiffon and Panné finish will hold first favor for Suits and street Dresses for this season. We have received liberal shipments already of these goods in Black and all the new Fall colorings. You will be pleased with our assortment and still better pleased with the values we offer very special at per yard:—

75c, \$1.00, \$1.25, \$1.50

For evening and afternoon reception wear, fine Etamines, Silk warp Eolines, Crepelles and Glorias will be very prominent. Of these goods we have a splendid assortment and have laid ourselves out to do the biggest trade in our successful history of high-class Dress Goods selling. The shades for the Autumn are exquisite, prettier probably than ever before produced. Light Greys and Reseda Greens are prominent with delicate Champagne and Bisquit shades closely following. These goods are very moderately priced at a yard:—

75c, \$1.00 and \$1.25

NOTE—Applications for first-class Waist, Skirt and Coat makers will be received at once and referred to our head Dress makers immediately on their arrival.

THOS. STONE & SON
CARPETS AND WALL PAPERS

A CLEAN-UP BARGAIN SALE

ADVERTISE IN THE PLANET

WITH SPEECH AND SONG

The Canadian Association
of Stationary Engineers
Entertain Right
Royally

Splendid Banquet at the Hotel Gar-
ner—Feast of Reason and Flow
of Soul.

The C. A. S. E. banquet occurred at Hotel Garner last evening. Any one who attended would have told you that the C. A. S. E. banquet meant a banquet Copping All Similar Entertainments. In reality, however, it was the banquet of the Canadian Association of Stationary Engineers. The term "stationary," as applied to this organization is necessary, but particularly inappropriate, because everything with which they concern themselves is up-to-date and shows the ear-marks of progress. On the front of the menu card was the face of a steam gauge, with the indicator showing that the high pressure of 160 pounds of steam was being carried. This was indicative of the proceedings last night. Everybody was at high pressure, threw open the throttle, tied down the safety valve and went ahead.

Of course, in order to obtain this high pressure of steam good stoking was required and Miss Host Eberts' request made the best of fuel. The work smoothly lubricating oil is a necessity, and this, also, was provided. Of course there is only one C. A. S. E., but there were several CASES, and they weren't of Scane's engine oil, either.

The guests included the visiting delegates and townspeople, employers and employed. Among those noticed around the board were:

Hamilton—Mr. Southworth, W. Sweet, W. A. Crockett, J. F. Friesides, R. C. Pettigrew, Mr. Trott.

Toronto—W. Inglis, W. L. Outhwaite, O. Moseley, J. Hughes, W. McGhie, F. T. Stubbs.

Dresden—Thos. Steeper, Thos. King and W. Bear.

Berlin—W. R. Ollshlager.

Brantford—Jos. Ogle.

Brookville—H. T. Chapman.

Waterloo—M. Beane.

M. Beane—St. John N. B., E. N. Graham.

Vancouver—G. W. Flower.

and Samuel Groves, editor of Canadian Engineer.

Chatham—Mayor Cowan, H. S. Clements, M. P., Arch. McGee, M. P., P. W. R. Landon, N. H. Stevens, Ald. Westman, Ald. Edmondson, ex-Ald. Piggott, Ald. Dunn, Ald. Potter, Ald. Marshall, Ald. Ainsworth, Geo. Kipp, Chas. Hadley, W. W. Scane, Dr. W. R. Hall, C. S. Hayward, H. Brown, Dr. Russell, W. Hoag, Frank Hayes, E. Grandbois, Chas. Kelley, Thomas Stephenson, Wm. Prout, Wm. Congdon, Chief Pritchard, L. Cronk, Bert Jones, J. Blonhe, H. A. Colville.

At the conclusion of the much enjoyed repast W. A. Sweet, the President of the Association, took the toast list in hand, proposing "Canada," to which each drained his glass and sang fervently "The Maple Leaf."

A. B. McGee, M. P., and H. S. Clements, were done the honor of being chosen to toast the toast.

The former admitted he would have been much more at home selling implements. Speaking of Canada Mr. McGee naturally grew enthusiastic. "In the future," said he, "we are bound to be a nation of renown. I fully expect," continued he, "to believe, in the near future, the telephone service taken over as a department of the government, Canada leading other nations in this respect."

H. S. Clements was the recipient of a gratifying ovation. "Never," said he, "have I been so proud to be a Canadian as I am tonight."

He continued, "that your society has received less consideration from the government than any similar one and I pledge myself to do all in my power to help you attain the legislation you are asking for."

W. A. Crockett, of Hamilton, replied to the same toast. Mr. Crockett in a forceful speech explained what the legislation is that the Association desires to obtain. They ask that it be made compulsory for all engineers to be licensed after passing a suitably practical examination. This would obviate, to a great extent, the danger of accidents, which, in a great majority of the cases, are due to incompetent engineers, and would safeguard human life. Speaking of Canada Mr. Crockett said—"the bowels of the earth here are far richer than in the United States or Britain. As a natural consequence we will out-strip both. There has been some talk of reciprocity with the United States. This would be the first step towards annexation—that that I fear annexation—for who it comes the Union Jack will be the ruling flag."

Entre Act. W. Chrysler sang, "I'm on the Water Wagon now."

When the toast to the Maple City was proposed Walter Scane remarked audibly "Oil up well, because this is going to be 'oil right'."

Walter was the first to respond and was greeted with "He's a jolly good fellow."

"You have been told," said he, "that Canada is the finest country decorating the earth's surface. Let me tell you that Chatham is the best spot in Canada, the premier country. We are the people (much smiling of)

MILITARY MEN VISIT CITY

General Otter and Colonel
Peters in Consultation
With Colonel Rankin
Re Militia Matters

Discussed Park Project with Mayor
Cowan—Will Make Park
Improvements.

Major General Otter and Colonel J. Peters, D. O. C., are in the city to-day in consultation with Colonel J. B. Rankin, commanding officer of the 24th Regiment, regarding the proposed lease of Tecumseh Park to the city under the application of his worship Mayor Cowan, and to inspect the building of the new armories.

The significant feature of the visit of the officers was the instructions of General Otter to Architect T. J. Rutley to prepare him forthwith a full plan of the present park. This will be used by the Militia Department for a guide in several contemplated improvements to the Maple City's popular parade ground.

With Colonel Rankin and Capt. G. W. Cornell the visiting officers inspected the new armories and the progress being made upon them. Both expressed themselves as well satisfied and instructions were given for a few improvements.

Colonel Rankin then took the officers to Mayor Cowan and the proposed civic leasing of the Park was discussed. Nothing definite, however, was decided upon, the officers stating that they would report upon the matter later.

Mayor Cowan, in a later interview with The Planet, stated that the officers went over the correspondence with him and, in all probability, the agreement to lease the spot to the city will be carried out.

With Capt. Cornell the party then took an auto trip around the city.

LEAVES THE CITY

Mr. Claire Monteith Leaves Sunday
for Portland, Oregon, where
He Will Direct His Future
Efforts in His Chosen
Profession

Mr. Claire Monteith, Chatham's talented and popular baritone concert singer, leaves on Sunday for Portland, Oregon, where he will establish himself in his chosen profession of music.

Mr. Monteith's departure from Chatham means a distinct loss to Maple City musical circles, he being recognized as the leading baritone west of London, and Chatham audiences, who have always been delighted to hear him, will learn with regret of his departure from the city. He has also appeared on the concert stage in Detroit, where he has given a good account of himself and received flattering notices from the Detroit critics.

Since his return from New York, where he was completing his musical education, Mr. Monteith has been instructing a large class of Chatham pupils in the art of voice culture, and has proven himself a successful teacher, and it is a source of regret to his pupils that he has decided to direct his efforts in a new field of labor.

Mr. Monteith is a singer and teacher of rare ability. He has a splendid full voice, perfectly trained and well developed. He has studied under the best teachers on the continent and has made a life work of music. He is a young man with an exceptionally bright future before him, and his many Chatham friends will follow his career with more than usual interest, and they all join in wishing him a continuation of the splendid triumphs which have so continuously crowned his efforts in the past.

FAKE NEWS

Imaginative Individual Seeking to
Load up London Paper With
Fake Chatham News

For the past few days the London Free Press has been containing a rather unique budget of Chatham "news"—many items of which apparently originate in the fertile brain of the "special" correspondent. Some of these fakes are merely amusing; others are more annoying—and as good a paper as the Free Press should put a stop to them.

One of the most amusing efforts was the imaginative tale of the "Mystrerious man" at the Eau-doubtless an imitation of the incident that recently occurred in London—who made his first appearance in this "Chatham correspondence,"—and many other items are on a par.

The Free Press is too good a paper to be used in this manner and it is time the imaginative "correspondent" was called off.

ROMNEY BOY MURDERED

Walter Lyons, for Thirty
Two Years a Resident of
Kent Killed in New
Mexico

He Was Shot on Zuna Reservation—
Claude Doan Under Arrest,
Charged With the Murder

Walter Lyons, for 32 years a resident of Romney, Kent County, was murdered in the Zuni reservation in New Mexico. This startling news is published in the Detroit Journal and there seems to be no doubt concerning the authenticity of the report. The following is the clipping from the Journal:

"Walter Lyons, a teacher, aged 40 years, supposed to be from Detroit, was found murdered on the Zuni reservation in New Mexico on June 13 last. One Claude Doan is now in jail charged with the murder.

"Douglas D. Graham, agent for the Zuni Indians, has written a letter to Supt. Downey asking for particulars concerning Lyons. The City directory contains no 'Walter Lyons,' and inquiry failed to locate anyone who knew him. Mr. Graham says that Lyons had lost two fingers.

"Lyons had been teaching school at Concha, Ariz. Two Indians found the body, which had been dragged into the woods, about 40 rods away. He was murdered June 4, but the body was not found until June 13. No papers were found by which the man's identity would be more definitely established."

Mr. Lyons was born and brought up in Romney, where his widow, Mrs. Ada V. Lyons, still resides. He left Romney for New Mexico, two years ago last May. He has many friends and relatives in Kent County.

Mrs. Lyons was prostrated with grief when she first learned of the affair through the Detroit paper. She has written the New Mexican authorities for full information regarding her husband's tragic death.

THE SCHOOLS

The Public School Trustees Award
Contracts for Improvements
to Maple City Educational
Institutions

A special meeting of the Public School Board was held in the Central school yesterday afternoon for the purpose of awarding the contract for the plumbing in the Central school. There were present Trustees Robertson, Paxton, McArthur, Lenfestey, Hayward and Dr. McKough. J. W. Flewce acted as secretary of the meeting.

The Central school managers reported that two tenders had been received for the plumbing, one from J. Watt & Sons for \$1,760, and the other from Westman Bros. for \$1,600.

The tender of Westman Bros. was accepted. Mr. Robertson was instructed to consult the Board solicitor and have the contract signed.

The time limit will be arranged by Messrs. Paxton and Robertson. Mr. McArthur was empowered to have a new granolithic sidewalk built at McKough school, leading to Florence street.

The Central school managers have already awarded the contract for supplying seats for the new room to Coltart & Wilson.

In reference to the sanitary arrangements being made in the city schools, it is stated that when they are completed they will be the equal of anything in Detroit or Chicago. This speaks well for the enterprise of Chatham's energetic Board of Trustees.

By Special Train to see
The "Girl from Kays"

Arrangements have been completed with the Pere Marquette Railroad to run a special train to Blenheim and Erieau on Saturday night after the production of "The Girl from Kays" at the Grand Opera House. Excursion rates will be allowed the people of Erieau and Blenheim on the train leaving Erieau at 6.10 p. m. and Blenheim 6.40 p. m. Saturday. "The Girl from Kays" is a company of eighty of America's most accomplished exponents of high class musical comedy, including the most radiant beautiful, most extravagantly gowned and most proficient chorists in the world. Seats on sale Thursday at Brisco's.

Three boys called at the grocery store of Wm. Durocher, Belle River, Monday afternoon, and while purchasing some provisions, ran out of the store loaded down with tobacco and canned goods. Two of the boys, Patrick McAuliffe, 13 years old, of Peterborough, Ont., and Geo. Hughes, aged 16 years, of New York city, were caught. They will be given a hearing to-day.

OUR FRUIT TRADE.

It is estimated that in apples alone \$20,000,000 is lost to the farmers of Canada every year as a result of the lack of proper storage facilities. Most of this loss falls upon the farmers of Ontario, because this province grows more apples than all the rest of the Dominion combined. It is the old story of a feast and a famine. When the apples are ripe they are so plentiful that they can be had for a trifle. In a few months, despite the most abundant crops, they are usually so scarce as to be numbered with the luxuries. Hundreds of thousands of bushels rot on the ground. This was the case last fall, and has been every fall. The few farmers who had storage plants were able to abolish losses of this kind. They had all their crop for sale. Moreover, they held their apples until the glut of the market had been relieved, and then placed their stock at good prices.

Mr. R. J. Cochrane, of East Northumberland, is a practical farmer, who has made first-hand investigation of the storage methods employed by progressive American apple-growers. Recently interviewed by Ottawa newspapers, he gave some interesting facts on the subject. Mr. Cochrane was quite willing to work in the orchards as an apple-picker in order to get his information, and this he did last fall in dozens of farms in New York State. The farmers were mostly well-to-do men, some of them rich as a result of a few years' apple-growing, plus proper cold storage facilities.

"Every fruit-grower," he said, "takes his fruit, newly picked, from the orchard to the cold storage warehouse. It is a question of hours only, for they would not think of allowing their apples to remain over night on the ground unprotected, nor will they allow time for the heat to generate, as it will, in a barrel of apples."

"In many places the farmers owned their own storage plants, operating the ammonia engines themselves, storing their own fruit, and renting an extra space to their neighbors at 40 cents a barrel. This was cheerfully paid, as in a few months they could get from \$1 to \$2 a barrel more for their apples than their less provident neighbors. In many instances the owner of the plant found he could make more money by buying a few thousand barrels of apples outright and carrying them himself. In this way his profits exceeded the 10 or 20 per cent. which he made from storage charges. In Canada we have been conducting the apple business at hap-hazard as compared with the fruit farmers whose places I visited. Even when we talk of cold storage our minds store up a vision of a pile of ice gathered from some lake or river. Natural ice does not give the required temperature for a cold storage system. The changing atmosphere can be met by increased cold with an ammonia plant, whilst it cannot by natural ice. All the plants I saw were kept cold by the ammonia ice plant."

As a direct result of Canada's failure to appreciate cold storage our fruit trade decreased by \$14,000,000 last year. New Zealand's export trade is growing enormously, especially in dairy products, and all through a system of transportation which is thus described by Mr. J. A. Ruddick, chief of the dairy division of the Department of Agriculture:

"We are beginning to learn, although it seems to be a slow process, that it is important that butter should be kept at as low a temperature as possible from the time it is made. Canadians have been losing a good deal of ground in the markets of Great Britain through negligence on this point. In that respect we are a long way behind our friends in New Zealand. All the refrigerator steamers sailing from New Zealand carry frozen meat. It is a matter of necessity that the temperature in the chamber be kept very low. As a matter of fact they are carrying frozen meat at a temperature from zero to 10 degrees. Butter, when it is shipped from New Zealand to England, is placed in the chamber along with frozen meat. The steamer is one large refrigerator, and the cargo is mainly frozen meat. The refrigeration on them was provided, in the first place, for the frozen meat trade. As the butter trade has grown the same boats have been used for the purpose, and so they have the best possible service for sending butter to England. Butter to be exported from New Zealand is put in store and frozen, and kept at a temperature of 10 degrees at least for four days before

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

We have already refuted the malicious charge that subscribers to the Bell Telephone Co. of Canada are paying a charge of \$3.60 per annum interest on capital invested in expired patents. Let us now refer to the evidence which discloses that in the purchase of the original patents this Company acquired rights the use of which has saved it many thousands of dollars and that these rights are secured in perpetuity.

The Bell Telephone Company of Canada under the original purchase of patents also secured the right to all patents and inventions of Telephone apparatus which the American Bell Telephone Company may acquire for all time to come in the Dominion. It will be observed that this is broad enough to cover not only Telephones but Switchboards and every other Telephone device. We have thus acquired at a nominal first charge the results of the researches and experiments of the best talent in the service of the largest operating Telephone Company in the world. It carries with it the plans, drawings and specifications for all the elaborate and expensive equipment of a modern Telephone Exchange. The saving to this Company in experimental work, in engineering and designing is worth to-day far more than the original amount paid under the agreement.

Instead of being a burdensome charge upon subscribers this is one of the reasons why this Company has been able to keep pace with inventions and improvements at the low rates prevailing in Canada without increasing the average capitalization per subscriber. The acquisition of new apparatus after thorough test in the laboratories and in practical operation in the great systems of the United States is of inestimable advantage not only to this Company but to Telephone users in Canada. This advantage through foresight exercised twenty-five years ago in the framing of an agreement has been secured to the people of this country for all time.

THE BELL TELEPHONE COMPANY OF CANADA.

going aboard the steamer. So the butter is kept at a low temperature from the third or fourth day after it is made until it reaches England. This is one reason why New Zealand has been making such great progress in securing the trade of Great Britain for her butter. They are getting a good price, almost equal to Danish."

HAV FEVER FOR 27 YEARS

Well Known New England Woman Cured of Hay Fever—Cure Was Lasting.

The thousands of discouraged people who dread the approach of summer because they have hay fever and cannot find any relief from it, will read with interest and gratitude the following statement from Helen S. Williams, of Mansfield, Mass.

"For 27 years, from the month of August until heavy frost, I have been afflicted with hay fever, growing worse and worse each year, until of late years I was unable to attend to my work during that period."

"Last summer I fortunately gave Hyomei a trial, and I am happy to say that it entirely cured me, and I have had no recurrence of the disease since."

This letter is only one of many that have come to the proprietors of Hyomei, and the results following this treatment have been so remarkable that it is proposed at the annual convention of hay fever sufferers to recommend Hyomei.

By breathing the germ-killing and healing balms of Hyomei, anyone can have at any moment of the day, either in their home or office, a climate like that of the White Mountains.

The complete outfit costs but \$1, extra bottles 50 cents. The Central Drug Co. agree to refund the money to any hay fever sufferer who uses Hyomei without benefit.

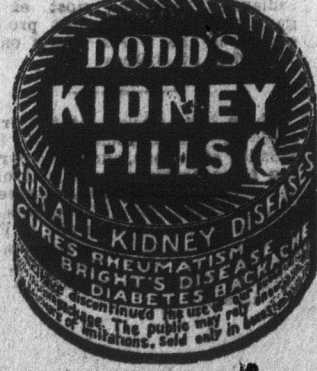

MUST OUT WEEDS

Detective McGregor is to-day laying information against a number of rat-payers who refuse to cut the weeds in their yards.

"I have been serving notices long enough," said Mr. McGregor to The Planet, "and now I am going to start to prosecute. It is not necessary to even serve notices, as offenders are liable to prosecution anyway, but even when I do serve them some pay no attention to them."

"I have found that almost every resident in the city that I have visited are guilty under the by-law, but they will have to conform with the by-law."

A thing is never overlooked if it is thoroughly looked over.

OUR BATTLE FOR JAPAN

A despatch from Vancouver states that forty head of cattle, the first shipment of Canadian animals from this country to Japan, will be put aboard the C. P. R. steamer Albatross, leaving Vancouver on Sept. 18. The herd is made up of Ayrshires, Short-horns, Devons and Holsteins. The purchases were made by Mr. Y. Ishizaki, an expert attached to the Department of Commerce and Agriculture, Japan. It is the intention of the Japanese government to use the cattle for breeding purposes, and they will be distributed among the small farmers.

IN TRAINING

J. W. White leaves to-morrow for Muskoka and expects to be in his office again Sept. 5. On his return, if his physician, Dr. McKeough, thinks that he is sufficiently recovered, the fat man's race will receive further consideration.

In conversation with the champion this morning County Clerk Jonas Gosnell revealed the fact that he is training assiduously, running a mile every morning at five o'clock. Nothing daunted the present holder of the championship coolly retorted that he, the said Jonas, would have to be up at four o'clock in order to win out, and that, on the conclusion of the much talked of race, Jonas would feel like imitating the example of his illustrious predecessor and retire to the interior of a whale or some other secluded spot.

Light House Flashes

Dick Cartier, of Detroit, is visiting his mother, Mrs. Joyce. Mrs. Hugh Johnson and daughter Myrtle, of Tilbury, Mrs. Jewett and daughters Margaret and Gertrude, are the guests of Mr. Cartier.

The lighthouse supply boat arrived here Friday night.

Miss May Glasse, of the Maple City, is visiting at Merry Times.

Miss Edith Scott has returned to Sanjour after spending a few weeks at her home in Wind Fall.

H. Johnson, of Tilbury, spent Sunday with Mr. Cartier.

Misses Bennett and Moore, of St. Catharines, are visiting at Breezy Time.

Some five black buns were caught here during the week.

Mrs. Mounter and son Harold, of Chatham, and Miss Hazley, of Brantford, spent Monday here. They were the guests of Mrs. Turner.

Mrs. Andrew Smith, and family, of Detroit, have returned home after a month's vacation at Widgeon Lodge.

H. J. Cartier and Hugh Johnson spent Monday at the City of the Straits.

Mr. Kime brought a party here from Mitchell's Bay in his launch on Sunday.

"THE GIRL FROM KAYS"

When the Miller & Kilpatrick Co. present the famous farcical comedy with music, "The Girl from Kays," with Mobley North, the great comedian, to the patron of the Grand Saturday night, they will have an opportunity of witnessing for the first time in this city what is considered

ed to be not only one of the most distinct, novelties in stage construction but a play that fairly bubbles and sizzles with the brightest kind of humor, the quaintest kind of comedy, brilliant epigrams, catchy songs and jingling music. It is not a comic opera, nor is it a musical comedy. It is a farcical comedy with music. The music is added to complete the picture and give the play its proper atmosphere, and to do this almost half a hundred beautiful young women, su-

perly gowned, are compassed into the scenes, to contribute realism to the delightful plot of the play.

There are two sets of lovers, and the play begins with a wedding, therefore what is more natural than music and beautiful women? Miss Lila Blow, a handsome young woman with exceptional talent and beauty, plays the leading part.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand knows this to be a fact. For sale by all druggists.

NO 11TH HOUR CHANGE.

Russia Says Failure Will Not Be Her Fault.

St. Petersburg, Aug. 22.—The Russian Government's final communications to M. Witte outlining the course that he shall pursue at the reopening of the peace conference at Portsmouth, are still in process of being put into shape prior to being forwarded to America. With the receipt of St. Petersburg's last message, the brief breathing spell will have ended. St. Petersburg leaves the final word with her representative at Portsmouth.

The Associated Press says the Government has gone as far as its extreme vital state interests will permit. The Government is firmly convinced that in case of failure of the negotiations the responsibility will not rest with Russia, which has conceded much already. The requirements of the state make concessions on the questions of indemnity and Sakhalin, as these questions were originally presented by the Japanese, impossible. It is certain that in the matter of concessions the four points now in dispute have been considered and studied here in the list of concessions Russia already has granted on the other eight articles.

The foregoing is a brief but accurate outline of the program upon which M. Witte will meet the Japanese plenipotentiaries to-day.

One Way Out of It.

It is believed that the questions on the surrender of the interned ships and the limitation of Russia's naval power in the Far East will be satisfactorily settled. There remains then, the questions of the payment of indemnity and the cession of Sakhalin by Russia. The first may be overcome by Russia following Japan's lead in avoiding the use of the word "indemnity," but consenting to make certain payments on Japan on other scores, the chief of these being Japan's bill for keeping 100,000 prisoners, which is expected to be heavy. The sums mentioned as the possible payment on account of these prisoners range from \$50,000,000 to \$100,000,000.

Little or nothing is obtainable here regarding the possible disposition of the question relating to Sakhalin.

President Roosevelt's object Saturday was officially described to be to prolong the negotiations. There is warrant for the statement that M. Witte personally sympathizes with the President's proposition, no matter how it may be regarded by his Imperial master and the latter's advisors. It is a mistake to suppose that in considering such a proposition the Emperor consults a regularly ordained council.

Throughout the conference he has been calling in council such advisors as he deemed wise, some of his relatives, the grand dukes, members of the court and certain chosen ministers. The Grand Duke Nicholasievich, one of the most powerful of his relatives, is known to be absolutely opposed to yielding an iota beyond what M. Witte has already conceded. As an alternative he favors the continuation of the war.

The spirit of all the advice received has been such as almost to exclude hope of an eleventh hour change.

Three dwelling houses, two barns, stabling for 50 cows and 12 horses, two silos, orchard over 900 apple trees, one acre small fruits, two deep wells and other improvements. All under cultivation; just outside the city limits. Good dairy business established; forty years now running; farm in good condition. Apply at once to Abraham Hall.

Lots of good ten cent cigars, but only one best—the Lord-Lake.

WEALTH.

Right Health More Valuable Than a Gold Mine.

Everyone desires to be wealthy. What is wealth? A hoard of gold or bank stocks? No, not by any means. A Croesus, facing death, would freely give all for health. A healthy, strong man or woman is wealthy. Analyse this and see. To be healthy, all the functions of the body must work well. The bowels must move daily, the kidneys must act regularly and the skin must do its work. Constipation brings headaches, back-aches, sallow or grey complexion, because the kidneys and skin have to do the work of the bowels, which they cannot do, and the body is poisoned. Fruit acts on the bowels, kidneys and skin—it cures constipation, biliousness, liver and kidney disease—purifies the blood—and makes the complexion clear. To get the full benefit of ordinary fruit, you must take a lot of it. A physician in Ottawa has discovered a method of combining the juices of oranges, apples, prunes and figs and forcing into the united juices one more atom of bitter from the orange peels. This makes a stronger and more condensed fruit. This condensed, stronger fruit, with tonics added, is put up into tablets under the name of "Fruit-a-tives" or "Fruit Liver Tablets." For those travelling, "Fruit-a-tives" are invaluable, protecting the system against changes of climate, diet and water. The sale of these tablets all over Canada is simply enormous. Use them and become healthy which means wealth. At druggists, 50c. a box or 6 boxes for \$2.50, or sent by mail on receipt of price by Fruit-a-tives Limited, Ottawa.

MEDICAL.

DRS. AGAR & AGAR—Physicians and Surgeons, successors to Dr. Tye, King Street West, Chatham, Ont. Dr. J. S. Agar, Dr. Mary Agar.

A TALK ON FOOD.

In the Interest of the New Housekeepers of the Season.

The two mistakes into which the new housekeeper is most often led are underfeeding and overfeeding, says Janet M. Hill in the Boston Cooking School Magazine. There are so many things she wishes to have in her new home that the allowance for food is often drawn upon to supply things more highly prized, and the items for food are restricted to whatever is cheap regardless of its composition. Starch is the principal compound in cheap foods. But there are individuals whose digestive organs are not tolerant of starch, and they are just as intolerant to fat if it be presented as a steady diet. In the main, the dietary of such individuals needs to include plainly cooked fresh meat and fish, with green vegetables, while fancy breads, cereals and sweets in the form of pastry, puddings and cakes are to be avoided except on rare occasions.

Bulk Needed in Food.

On the other hand, many a new housekeeper thinks meat, fish and possibly eggs the only articles having any considerable nutritive value and consequently the only articles to be considered in eating to live. The idea that bulk is needed to insure the best digestive action is undreamed of by them, or, if considered at all, they think it is secured by these same nutritious articles rather than by bread with green and starchy vegetables. The normal stomach can digest a little of any kind of food, and health will be better if monotony in selection be avoided. But these and other matters of like import are easily worked out provided the desire be present to choose food in accordance with the laws of dietetics.

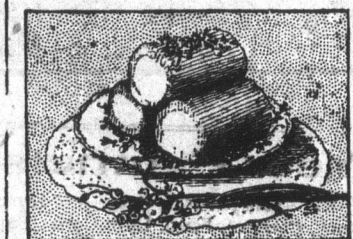

Left Overs.

In families of two it is often advisable even during the summer to prepare enough of certain articles of food for two or more meals at one and the same time, but in general the best results are obtained both as regards digestibility and digestibility if just enough of each article be prepared for the meal, and no more. Why bake three potatoes when only two are eaten? Why buy and cook six chops when four are just enough? Plan to have everything so perfect that every morsel will be eaten and nothing thrown away. If vegetables be left over and are to be used in salads, wait until the heat has left them, then cover securely and plan for an early reappearance on the table. Serve cold meat, cut in thin slices.

DESSERT FOR HOT DAY.

Ice Cream Rolls With Maple and Cream Sauce.

The ice cream rolls illustrated are made, according to Table Talk, by scalding one quart of thin cream in a double boiler, adding one pound of granulated sugar and stirring until dissolved. When taken from the fire a second quart of cream is added, and

ICE CREAM ROLL.

the mixture is set away until cold. This cooking of half of the cream insures a finer texture and more thorough mixture of the sugar than if made without it. If more than one freezer is available, the mixture, after being flavored with vanilla, can be divided into thirds, two of the quantities being colored yellow and pink. Each portion is then frozen and packed in a round mold or a pound baking powder can and packed in ice and salt until very solid. For serving pile them on a lace paper doily and pour over a part of the sauce, using the remainder to add to each saucer as served. To make the sauce, boil together two cups of heavy maple syrup and one-half of a cupful of thin cream or rich milk until a little, when tested in cold water, can be rolled to a soft ball between thumb and fingers. Take from the fire, add one-half of a cupful of chopped almonds or English walnuts and send at once to the table. The hot sauce will candy as it is poured over the ice cream.

For a Wholesome Skin.

Hard pimples that show no sign of breaking often appear on the skin. These come from an unwholesome state of the system and from lack of proper attention to the skin. Too many people think that a cold tub is all that is needed to keep the skin in order, but a warm bath should frequently be taken, especially when living in a town. A Turkish bath is excellent to open the pores of the skin and so rid the face of these hard pimples. The constant use of a well soaped loofah on the body is also advised. Strong spirit and water in equal parts may also be used to bathe the skin with. As to diet, all stimulants, rich hot foods, coffee and pastry must be given up. Salads of water cress, dandelion or lettuce should be eaten often and green vegetables and fruit taken with every meal. Sleep in a room with plenty of fresh air in it and keep early and regular hours, concludes a skin specialist.

French Potatoes.

For French potatoes cut one quart of cold potatoes in thin slices, chop one onion and fry in two tablespoonsful of pork drippings till brown. Add the potatoes and heat thoroughly. Pepper and salt to taste.

Anthrax Victim Out of Danger.
Collingwood, Aug. 23.—By prompt measures on the part of the local Board of Health and the Department of Agriculture at Ottawa, the outbreak of anthrax in the Township of Nottawa was given under control. Dr. McFadden, V. S., who became inoculated with the disease while conducting a post-mortem on one of the dead cows, and whose life has been despaired of for several days, is now thought to be out of danger.

St. Nicholas Editor Dies.
New York, Aug. 22.—Mrs. Mary Mapes Dodge, editor of St. Nicholas Magazine, author of several stories for children, and poet, died in her summer cottage in Ontario Park, Tannersville, N. Y., yesterday. She had been editor of St. Nicholas since its foundation in 1873.

In elevating Secretary Taft to the supreme bench President Roosevelt will at least be assured the gratitude of numerous presidential aspirants.

MILLIONS FOR A NEW STOMACH.

One of the greatest American millionaires once said to his physician, "A million dollars, Doctor, for a new stomach," and then the sick man groaned and turned away. One of a man's greatest pleasures is that born of a keen appetite, vigorous digestion and a good dinner, and this belongs to many a good fellow who is living on small means and is miserable and unhappy. In this condition man is prey to the germs of influenza, consumption, malaria and all the ills that he is heir to. Consumption can be treated by natural methods which are as close to nature as possible.

Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood this disease, and after a long period of experiment discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It gives no false stimulation because it contains no alcohol and no narcotics. It helps digestion and the assimilation of such elements in the food as are required for the blood. Instead of a cod liver oil, against which the already sensitive stomach will declare open rebellion, this tonic has a pacifying action upon the sensitive stomach and gives to the blood the elements it requires. It maintains the patient's nutrition by enabling him to eat, retain, digest and assimilate nutritious food. It overcomes gastric irritability and symptoms of indigestion, and in this way fever, night-sweats, headaches, etc., are done away with. It fortifies the body against the germs of consumption, diphtheria, malaria, and it builds up the tissues and puts on healthy flesh.

When the druggist says he has something that is just as good as Dr. Pierce's Golden Medical Discovery, he says so because he hopes to make a better profit, but his own mixtures have not stood the test of long experience nor had the success that Dr. Pierce's medicines have had.

Galt Sure Grip Shingles

Every building roofed with these shingles has a sure and effective shield against the monsters of Wind, Water, Storm and Fire. In scientific construction, general utility and all-around excellence they easily lead all other metal shingles. Made of the best steel only, they will last the lifetime of any ordinary building. The Chatham Kids will gladly give you any further information about them.

SUMMER FANCIES.

Fashions and Fads in Gowns, Millinery and Shoes.

Rainbow effects are a distinctive feature in thin gowns meant for summer evening wear. To secure this pretty touch cover the taffeta foundation of the gown with two or three overdresses of sheer material in different colors. White or pastel tinted gowns intended for dancing show the rainbow coloring only at the foot. The taffeta drop skirt is finished with a flounce made of three layers of tulle or chiffon, each ruched at the foot with a different color. The colors used are lemon, pink, pale apple green, light blue and violet.

A riot of color that distinguishes this season's millinery calls for skillful arrangement to successfully balance upon a single hat lilac, jack roses, American beauties, wistaria and their respective foliage, with its many tones of green. When successful, the result is beautiful and bears at the same time the unmistakable but often elusive stamp of smartness. Equally

SMART WALKING PUMP.
[Fine white canvas with a ribbon bow.] smart and less liable to disastrous combination is the blending of different color tones of the same flower. Sweet peas, roses, geraniums and poppies serve this purpose best.

Too much praise cannot be given to the shirring cord ribbons for trimming. They are in great vogue and come in several widths in gauzes and silk. Equally convenient are narrow ribbon finishes which are used to widen a galeon and to finish an edge, as well as sewed in several regular rows or in following the lines of a suitable design. The study that manufacturers have made to avoid tedious methods of carrying out trimming fashions deserve the gratitude of all amateur and professional dressmakers.

Valenciennes laces, whether all overs or laces by the yard, are among the smartest choices for the whole or a part of our gowns, and so they are for separate waists and insets, applications, bands, etc. The all over laces sometimes have sheer batiste designs in eyelet embroidery entered into the weaving.

All the season's footgear is very attractive. The walking pump illustrated is of fine white canvas with a square ribbon bow.—Yogee.

One Green and One Starchy.

Potatoes may be served with beef, and at the same time either spinach or stewed cabbage or asparagus, cauliflower, corn, squash, stewed cucumbers. Rice may be served with veal, mutton and poultry, and with it peas, lima beans, young string beans, cauliflower, asparagus. The idea is to serve one starchy and one green vegetable at each meal and have those that are in keeping. Turnips with cream may be served with mutton and rice; they may also be served with beef.

Decorations in Colonial Style.
In handsome country houses a dainty scheme of decoration adopts the colonial style with papers in old rose tint and silver, palest robins' egg blue with white, pale yellows and other delicate tones which harmonize with the woodwork and high colonial mantels with shaded tints. The walls are finished with a deep frieze and ceilings tinted.

Fruit Frappes.

Fruit frappes are fruit juices diluted with water, then sweetened and the compound half frozen until it is like wet snow.

A Pretty Negligee.

This charming little breakfast sack is commendably simple of design and easy to make. The material, both back and front, is gathered into a shallow yoke, which is entirely hidden by the

Willing To Do the Same.

Among the many stories that Andrew Carnegie delights to tell of the canny Scot is one in which Lord Derby and a collier figure.

It appears that while the latter one day was wandering on certain land belonging to Derby, the collier chanced to meet the owner face to face. His lordship enquired if the collier knew on whose estate he was trespassing.

"Well, I've got no land of my own, and I'm like to walk on somebody's," wheeled did that git it fro?" asked the collier.

"I got it from my ancestors," replied the earl good naturedly.

"An' wheer did they git it fro?" queried the trespasser.

"Why," continued Derby, humoring the collier, "they got it from their ancestors."

"An' wheer did they git it fro?" "They fought for it."

Whereupon the collier put up his fists, and squaring up to the earl, exclaimed—"Well, I'll fight thee for it."

A Most Remarkable Remedy.

Has Used it for 22 Years.

DIARRHOEA, DYSENTERY, COLIC, STOMACH CRAMPS, CHOLERA MORBUS, CHOLERA INFANTUM, SEA-SICKNESS, and in fact all BOWEL TROUBLES can be quickly cured by the use of **DR. FOWLER'S EXTRACT OF WILD STRAWBERRY**. It is the original Looseness of the Bowels remedy.

Be sure and accept no substitute.

Has been on the market 60 years, so you do not experiment when you buy it.

Mrs. D. Taylor, Cranbrook, Ont., writes: "For the past 22 years I have used Dr. Fowler's Extract of Wild Strawberry as a family remedy for all kinds of summer complaints with the greatest success, in fact, I have found it a most remarkable remedy."

Price 35 Cents.

ALL DEALERS SELL IT.

A spoiled child is not so much to blame; it did not choose its parents.

Talk isn't cheap when money does the talking.

The fact that there are but ten commandments to be broken is quite a handicap on the ability of some men.

Probably the reason that onions are supposed to be good, nerve food is because it takes nerve to eat an onion.

A woman's idea of a thoughtful husband is one who will not make her a widow because he knows that black is so unbecoming to her.

Strangely enough, the man without a mind changes it the oftenest.

Ayer's Sarsaparilla. Used in all parts of the world for over 60 years. Has the unqualified endorsement of the best physicians. A strong nerve tonic. A blood purifier of great power. Lowell, Mass.

Births, Marriages and Deaths

DIED.

PATERSON—On August 23rd, at 90 Adelaide street, James Paterson, aged 78 years.
The funeral will take place on Friday, 25th inst., at the hour of two o'clock.

THE LOCAL BUDGET

Boy wanted for Planet Bindery.
Miss Dalton, London, spent Sunday here as guest of Miss Grace Smith, Prince St.

Fred. J. Soop, wife and family, Detroit, are visiting relatives and friends in the city.

Patterson's Auction Sale of Hardware has been postponed until Saturday next.

On August 23, at 7.40 a. m., the C. P. R. will run a special train from this city for the accommodation of the farm laborers for the western harvest.

ALD. DUNN'S POSITION

An error was made in yesterday's report of the City Council's proceedings relative to Ald. Dunn's position on the resignation of Engineer Jones. Ald. Dunn took the position that he was opposed to all increases in salary at this time of the year when the estimates have been adopted and the rate struck at the present salary figures. He thought, however, that an earnest effort should be made to retain the services of Mr. Jones to the end of the year at his present salary rather than make a change when so many public works were going on.

OLD RESIDENT GONE

The funeral of the late James Paterson, 90 Adelaide street, will take place on Friday, 25th inst., at the hour of two o'clock to the Maple Leaf cemetery.

The deceased was one of the most highly esteemed citizens of the Township of Harwich for the past quarter of a century, and three years ago after the death of his beloved wife he moved into this city and took up his residence on Adelaide street. From that time onward he gradually lost his old time vigor, and surrounded by those members of his family who are in the city, peacefully passed away.

Deceased was born in Hightae, Dumfriesshire, Scotland, and with reunions ever held in the county, and settled in Harwich. Eight years ago he celebrated his golden wedding and it was one of the happiest reunions ever held in the county. Members of the family coming from the Northwest and from different states to participate in the festivities of the occasion. These same members, consisting of the following, will reach here before the funeral to pay their last respects to the memory of the deceased: Mrs. Green, of Manitoba; James Medina, N. Y.; Mrs. Douglas, at home; Mrs. Hodgson, Mrs. McNaughton, Cleveland, Ohio; Mrs. Baby, Buffalo, N. Y.; Edward, Brantford, Ont.; Mrs. Bartlett, Detroit; John, Chatham Township; Andrew, Detroit, and James H., at home.

REDUCED A HARD SWELLING.

Mr. Gus E. Geroux, writing from Pembroke, tells how he was injured in a lumber camp. "A heavy log rolled against my leg and I was laid up with stiffness and a hard swelling. When I applied Polson's Nerviline I got relief. A few rubbings with this good liniment cured me." In the bush Nerviline is indispensable; it cures neuralgia, colds, rheumatism and internal disorders too. No person can afford to be without Nerviline. Useful for all internal and external pain. Large bottles 25c at all dealers.

Collegiate Institute Re-Opening

Chatham Collegiate Institute will re-open for the Fall term on Tuesday, Sept. 5th, at nine o'clock. All pupils are urged to be present on the first day.

DISCOVERED SOMETHING

North Pole Wasn't Found, But Explorers Are Satisfied.
Hull, England, Aug. 23.—Anthony Fiala of Brooklyn, N. Y., leader of the Ziegler polar expedition, the members of which were rescued by the relief

ship, Terra Nova, arrived here yesterday on his way to the United States. Mr. Fiala said:
"This has been another in the long list of failures to reach the pole, unless the three determined attempts made to reach high latitudes should be considered as not having proved altogether futile; but, although the great question of the pole remains unsolved, we have brought back data which should prove of scientific value, and have explored and surveyed the archipelago from Crown Prince Rudolph Land to Cape Flora, discovering four new channels and three large islands."

STEAMER RAMS A LAUNCH.

Kenora the Scene of What Might Have Been Disaster.
Kenora, Ont., Aug. 23.—More by luck than anything else, a serious disaster was narrowly averted in the bay off here, when a head-on collision occurred between the Y. M. C. A. launch and a Whitefish Bay passenger boat. Some confusion in attitudes resulted in the Kenawin crushing into the little launch, tearing her bow to pieces, carrying away her entire upper works and sending the water rushing into her firebox.

The moon was not yet up, and all was confusion and darkness, women screaming and men struggling. One woman was knocked overboard, but was rescued by her companion. The rest of the passengers were hurriedly transferred to the Kenawin, and the sinking craft towed into shallow water.

GALT NEXT

C. A. S. E. will Hold Next Convention in Galt—New Officers Elected and Installed—Session Concluded

The engineers' convention is in session again to-day. They hope to finish this afternoon.

This morning's session opened at 9.30 o'clock. The election of officers was the first order of business and resulted as follows:
President—W. Sweet.
V. P.—J. Ironsides.
Sec.—W. L. Outhwaite.
Conductor—E. Granbois.
Doorkeeper—Chas. Kelley.

It was unanimously decided that the next convention would be held in Galt. This is largely due to the efforts of F. J. Utley, representative for the renowned Goldie, McCulloch firm of that place.

The committee on the good of the order presented their report. The most important item in the report was the determination that a compulsory license bill be presented to the legislature as soon as possible. Again they registered their determination to keep the Association free from labor troubles, being determined that the society should not be used for furtherance of strikes.

About noon a practice hitch up of the fire department was put on for the benefit of the visitors and they were much impressed with the celerity of our firefighters. This afternoon the society had group pictures taken on the park, and got down to business at 2.30, installing the officers and completing the unfinished business.

The editor of the "Canadian Engineer," Mr. Samuel Groves, a splendid periodical catering to the needs of the engineer, has been attending at the convention in the interests of his journal. A new journal, "The Engineering Journal of Canada," was also represented.

The Association returns its thanks to The Planet for papers distributed at the convention.

The retiring secretary's report is as follows:

Chatham, August 22nd, 1905.
REPORT OF EXECUTIVE SECRETARY.

Brethren,—In presenting this my third report to you and our 16th annual report, I am pleased to say that we still live to do business and propose to do so in the future.

The past year has been one of the most pleasant dealings in all the branches and we have made some progress. We only need life and means to be what we should be—the leading society in the Dominion.

There are some matters I mentioned on a previous circular letter sent out by me on which I would urge some action. One was the instituting of a sick benefit controlled by the Executive, which can be carried on successfully if organized properly. Second, We should have a Board of Examiners to grant certificates to competent engineers.

Third, We should cut out the per diem pay during convention so as to give the Executive more funds to work on. It is a fact that if the Executive had more funds at its disposal we would then be on a par with other societies having that privilege. During the past session of the Executive, which was a strong committee of stationary engineers, applied for the license bill to be passed but failed. I am led to believe that we will never have the bill passed till all stationary engineers in the part of the province unite in more fruitful work in its interests.

During the year we were to get out a suitable button and as I found my time much taken up I asked the assistance of Bro. Outhwaite, and this brother procured a button and sold same to all the branches at reasonable cost, returning the receipts to our treasurer. The thanks of the Executive is due Bro. Outhwaite for the capable manner in which he handled this work. Your Executive were also to procure a certificate of membership, but owing to the cost of getting a plate or a stone we abandoned the work to see if certificates of competency would be granted at this convention.

Membership I regret that we have not organized any new branches this year, but all the other lodges have made suitable progress to retain their membership in a good healthy condition. All the lodges have not yet reported, but they are expected to do so before the books are handed over to the auditors, and they will probably report regarding their finance and membership.

The correspondence during the year has been large with many inquiries regarding our organization generally, but we always lack the working point and in this is our weakness.

During the year my labors with the Executive have been all of pleasure and good will, and all of your Executive have worked for the good of the order at all times. In conclusion, permit me to say that I cannot accept the position again as your secretary, so in the interests of the order choose well one as my successor, as he, you may say, is the guiding figure. I heartily thank you for the past three years' honors, and will always have a pleasant remembrance of my work and co-operation of all the brethren, and will always do all in my power to further the work of the order, and I trust my successor will be able to do the same loyal support which has been tendered us.

Thanking you once again, I am, Yours fraternally,
W. INGLIS,
Executive Secretary.

A person who has a light opinion of himself is easily put out.

THIRD OF VILLAGE GONE.

Twenty-Nine Houses Were Burned At Lambton, Que.

Sherbrooke, Que., Aug. 23.—At Lambton, on the Quebec Central Railway, a fire started at noon yesterday caused by hot ashes being put near the barn of Thomas Lapointe. Twenty-nine houses, the church, the convent and the Presbytery were destroyed. The burned houses formed about one-third of the village.

Personal.—Men should know that the only perfect and safe Vacuum Appliances are manufactured and controlled by the Erie Medical Co., 94 Mohawk St., Buffalo, N. Y., who administer in connection with it interior and exterior remedies, having a world-wide reputation for weak men. Write to-day for sealed circulars and proofs.

The fruits of a man's industry don't always grow on his family tree.

A Plain Question: Do you really get the only Painkiller—Perry Davis—when you ask for it? Better be sure than sorry. It has not, in 60 years, failed to stop looseness and pain in the bowels.

We are all apt to forgive those who do a mean thing when it counts to our own advantage.

When a woman is allowed to have her own way, she complains most bitterly if things turn out wrong.

Any Repairs...

Needed to your Stove or
Furnace? Just look them
over and you will probably
find something that needs
attention.

Then, if you need repairs
to them, Phone us and we
shall be glad to give your
order our prompt attention.
Remember, that repairs
are more easily procured at
this season of the year than
they will be later on when
all the foundries are very
busy.

Take a few minutes now.
Those few minutes may
save you a pile of trouble
later on.

ticket agent, or at the station.

Rev. James Livingstone, of London,
formerly pastor of the Windsor Ave-
nue Methodist church, Windsor, was
saved from drowning at Port Stanley
by his son Douglas. The undercur-
rent carried him beyond his depth and
he was exhausted when his son caught
hold of him.

Why furnaces crack in Summer.

In the old fashioned hotwater heaters
with wide, flat surfaces, the soot finds a
splendid resting place. A scraper and
brush jams soot into the interstices
between the water sections. There it
cokes and hardens, absorbs moisture,
then it expands, and you have a cracked
waterpot. If you have a "Bison"
furnace heater you won't have any
furnace troubles. There are no flat soot
collecting surfaces in the "Bison"—no
crevices where soot can lodge; there
will be no cracked waterpots, no delays,
no mess, no plumbers' bills.

of clothing at Stone, The Hatter's,
for the balance of this month. All
\$1.50, \$1.25, \$1.00 and \$1.00 suits for
\$0.75. Stone & Co., Garner Block.

In the list of officers of the Cana-
dian Association of Stationary En-
gineers, published yesterday, the
treasurer's name appeared as Iona
Stephenson instead of Thomas Ste-
phenson.

For the balance of this month we
offer you the choice of any suit in
the store, for \$12.00. This includes
all the \$14, \$15, \$16, \$17 and
\$18 suits, 20th Century, as well as
other makes. This is a snap, we
never offered the public before. Stone
the Hatter.

FAREWELL SMOKER

The bachelors of Chatham are ten-
dering a smoker to-morrow evening
in the Auditorium for Capt. M. D.
Fraser, of the Merchants' Bank, who
is leaving for Mexico at the end of
the week. One of the leading fea-
tures of the evening will be a con-
test between Lieut. G. K. Macbeth,
who is about to leave the city to
accept a position with R. J. Dunn
& Co., of Detroit, and F. W. Clarke,
of the Merchants' Bank, who has
been transferred to Leamington.
Much money is being placed on both
"Mac" and "Hunchy" and a good
hour of sport is promised. Mr. J.
M. Johnson will act as referee for
the contest and Major Geo. Massey
is in charge of the ceremonies.

WILLIAM GORDON

GOOD CHANCE

Rufus R. Earle, of Battleford, N.W.T.
is After a Good Looking
Stenographer, so he Asks
Roy Toby to Find Her

During his recent trip through the
Northwest Roy Toby met many fine
people, among the finest of whom
was Rufus R. Earle, LL. B., a bar-
rister, etc., at North Battleford, N.W.T.
While Mr. Toby was in Battle-
ford Mr. Earle extended every
courtesy to him and a strong friend-
ship sprang up between the two.

Mr. Earle is making a success of
the law business in Battleford, judg-
ing from a letter received by Mr.
Toby the other day, and he is now
looking for a stenographer to look
after his business correspondence.
Here is a chance for some Chatham
girl, as any stenographer in the city
answers to the following description
enclosed in Mr. Earle's letter:

Dear Mr. Toby,—I am in receipt
of the Chatham newspaper, for which
I accept my thanks. You have cer-
tainly described your trip with plenty
of vim and dash. You should go
into the newspaper business. I am
pleased to be able to report that
business is very brisk indeed in my
line; if it keeps on increasing at
this rate we shall soon have to get
a stenographer. And by the way if
you happen to know of a good look-
ing and clever young lady steno-
grapher who would take a position
in a bachelor lawyer's office I should
consider it a favor if you would
kindly put me in correspondence with
same. Business correspondence of
course. Good stenographers are
about as rare as angels' visits
and hens' teeth.

SUFFERED TORTURE FOR FOUR YEARS

The Dodd's Kidney Pills Cured
Wm. Doeg's Rheumatism.

He Was So Bad That He Could Not
Lie Down, But Had To Sit Night
And Day in a Chair.

Sundridge, Ont., Aug. 21.—(Special)

—Mr. Wm. Doeg, of this place,
now a hale hearty man, tells of his
almost miraculous cure of Rheuma-
tism by using Dodd's Kidney Pills.

"For four years I suffered ex-
cruciating torture," says Mr. Doeg.
"I was scarcely an hour free from
pain. I could not lie down to take
rest, but had to sit night and day
in a chair."

"I was treated for Rheumatism by
several doctors, and also tried sev-
eral medicines without receiving any
benefit. Almost in despair I feared
I never again would be from pain."

Then I read of some remarkable
cures by Dodd's Kidney Pills. I pro-
cured a box and soon found they
were doing me good and before I
had finished the second box I was
entirely free from pain and a new
man."

Dodd's Kidney Pills always cure
Rheumatism by putting the Kidneys
in shape to take the cause—Uric
Acid—out of the blood.

When a woman is selfish there is
no limit to its extent.

C. C. RICHARDSON & CO.

Gentlemen,—I have used MINARD'S
LINIMENT on my vessel and in my
family for years, and for the every
day ills and accidents of life, I con-
sider it has no equal.

I would not start on a voyage
without it, if it cost a dollar a bot-
tle.

CAPT. F. R. DESJARDIN,
Schr. "Storke," St. Aubre,
Kamouraska.

SAD DEATH

Mrs. Joseph Bessill, of Chicago, a
Former Resident of Chatham
Passes Away After a
Lingering Illness

The death occurred in Chicago on
August 22, of Mrs. Victoria Rachael
Bissell, widow of the late Joseph H.
Bissell, and a former resident of the
Maple City.

Deceased was born Dec. 20, 1844,
in Gosfield, Essex County, and was
the third child of Benjamin and
Rachel Slater. She was married in
1879 to Joseph A. Bissell, of Brook-
ville. Four children blessed the
union, three of whom survive. Her
husband died Dec. 5, 1887, in Cali-
fornia.

Deceased resided for some years on
the 2nd concession, Chatham Town-
ship, and later moved into the city,
taking up her residence at different
times on Gray street and Lansdowne
avenue. In 1897 she moved to Chi-
cago, where she has resided ever
since. Her death terminated a ling-
ering illness of seven months, which
she bore patiently and with Chris-
tian fortitude.

Besides her three children—Misses
Grace and Zella, and Mr. Joseph Bis-
sell—two brothers and a sister sur-
vive her. They are Albert Slater, of
Chatham Township; Azine Slater, of
South Haven, Mich., and Mrs. Z. R.
Carson, of Chicago. She was a mem-
ber of the William street Baptist
church for a number of years.
The remains were removed to this
city and the funeral took place this
afternoon at 2.30 from the Grand
Trunk depot to the Maple Leaf ceme-
tery.

GET MORE VIM.

If you are tired, nervous, sleepless,
have headaches and languor, you need
Dr. Hamilton's Pills; they tone the
stomach, assist digestion, brace you
up at once. Taken at night, you're
well by morning. Sickness and tired
feeling disappear instantly. Vim,
spirits, happy health, all the joys of
life comes to everyone that uses Dr.
Hamilton's Pills. Dr. Hamilton's
Pills to-day. 25c per box at all deal-
ers.

29, except Friday July 7th.
Central Standard Time—one hour slower
than city time.

GRAND TRUNK RAILWAY SYSTEM
Canadian National Exhibition,
Toronto, August 28
to Sept. 9.
\$5.30 from Chatham, going
Aug. 28th to Sept. 9th.
\$3.80 going Aug. 29th, to Sept. 4th.
All tickets valid returning until Sept.
12th, 1905.

Farm Laborers' Excursion
\$12.00.
To points in Manitoba and Assiniboia,
good going from Chatham Aug. 29th.
For tickets and full information call on
J. C. PRITCHARD, Depot Agent, W. E.
RISPIN, City Agent, 115 King Street,
Chatham; J. D. McDonald, District Pas-
senger Agent, Toronto.

THE WABASH RAILROAD CO.
For Labor Day, Sept. 4
will sell round trip tickets at lowest first-
class fare, good going Sept. 2nd, 3rd and
4th, good to return up to including Sept.
5th, between all stations in Canada, also to
Buffalo and Detroit.

From Sept. 15th to Oct. 31st, the Wabash
will make sweeping reductions in the one
way tourist rates to Arizona, California,
Washington, Oregon, Idaho, Montana, Brit-
ish Columbia, and all Pacific Coast Points.
The Great Wabash is the shortest and true
route to all the above points.

Full particulars from any Wabash Agent,
or J. A. RICHARDSON, District Passenger
Agent, North East Corner King and Yonge
Streets; W. E. RISPIN, C.P.A., Chatham;
J. C. PRITCHARD, Depot Agent.

THE DREADNOUGHT.

Britain's New Battleship a Triumph in
Design—Carries No Secondary Arm-
ament—A Telling Contrast.

The only battleship included in Great
Britain's ship-building program for this
year will be laid down at Portsmouth
Dockyard in October next, and it is
hoped to have the vessel completed and
at sea by the time Parliament is called
upon to discuss the Navy Estimates
for 1907. In other words, this vessel,
the largest and most powerful in offence
and defence ever constructed, will be
built from the laying of the keel plates
to the hoisting of the pennant in a pe-
riod of sixteen months; thirty to thirty-
six months is the average time devoted
at present to the building of battleships
of smaller size. This rapidly will re-
sult in a great economy, but neverthe-
less the cost will be between one and
three-quarters and two millions ster-
ling. So heavily will this vessel be
armed that she will be equal to any
two battleships now afloat, and her
striking power at such a range as that
at which the engagement opened in the
battle of the Sea of Japan will be as
great as any three battleships of the
ordinary type.

The displacement will be about 18,000
tons. In the design full advantage
has been taken of the lessons deduced
from the events in the Far East, and
it is possible that some further
changes may be made after the report
has been received of Capt. Pakenham,
the British Naval Attaché at Tokio.
Apart from any minor modifications
which may be made, the Dreadnought,
as this man-of-war will be christened,
will be remarkable for a number of
novelties in design. She has been de-
signed by Mr. Philip Watts, the Direc-
tor of Naval Construction, and the
mounting of ten 12-inch guns of the lat-
est type, throwing 350 pound
shells every two minutes, with a muzzle
velocity of upwards of 2,500 feet a sec-
ond, is admittedly a most sensational
departure from the stereotyped prac-
tice of the navies of the Great Powers.
The vessel will be driven by turbines,
and will be able to steam at upwards
of twenty knots an hour, a remarkable
achievement in engineering in view of
her size, the weight of her guns and
armor, and the great beam which will
be necessary to give her in order to
ensure the provision of a stable gun
platform, and to reduce the draught so
as to enable the vessel to pass through
the Suez Canal if necessity should arise.

The Dreadnought is regarded as a
triumph in design. She will carry no
secondary armament. The christen-
ing of the 6-inch guns, borne by prac-
tically all the battleships of the world
hitherto, is one of the main lessons
deduced from the long-range actions
which have been fought in the Far
East. The essential feature of a bat-
tleship in modern conditions, it is now
realized, must be the ability to deliver
stunning blows at a distance of five or
six miles, and this the Dreadnought,
with her ten great guns, will be able to
do with terrific effect. No bat-
tleship has hitherto mounted more than
four of these weapons, and as the new
type of British man-of-war will have a
particularly heavy armored belt, al-
lured with this tremendous striking
power, there will be nothing afloat which
will be able to stand up against her
in a sea action.

The remarkable character of the
armament of the Dreadnought may be
illustrated by contrasting her with the
latest battleships now being built by
rival powers.

Britain, Dreadnought, 18,000 tons, 20
knots, 10 12-inch guns.
France, Patrie, 14,635 tons, 18 knots,
4 12-inch and 18 6.4-inch guns.
Germany, Deutschland, 12,997 tons,
18 knots, 4 11-inch and 14 6.7-inch guns.
Italy, Vittorio Emanuele III, 12-
425 tons, 22 knots, 2 12-inch and 12
6-inch guns.

United States, Kansas, 16,000 tons, 18
knots, 4 12-inch, 8 8-inch and 12 7-inch
guns.

Japan, Katori, 15,950 tons, 18 1/2
knots, 4 12-inch, 4 10-inch and 12 6-inch
guns.

Admiral Togo's tactics in the battle
of the Sea of Japan, illustrated the
virtue of great speed, and the Dread-
nought will have the advantage of two
knots over any of the German, French,
or United States ships; the Italian bat-
tleships belong to a class apart, as
sacrifices have been made to enable
these vessels to attain a high rate of
steaming.

It is understood that the Japanese,
profiting by their own experiences, are
about to give out orders for additional
battleships which will resemble the
Dreadnought in fighting power.

Britain's Wealthy Men.
The Treasury has issued a Parliamen-
tary return of the assessment payments
on income tax for 1903. This shows
that only twenty persons in Great Brit-
ain were in receipt of incomes exceeding
£50,000 a year. In all 433,917 peo-
ple paid the tax upon a gross assess-
ment of £129,221,875, while 25,000,000
He companies paid on £223,070,021. The
greatest number of those assessed,
133,462, paid on incomes between £160
and £200. Their assessment amounted
to £25,995,194. The list declines grad-
ually till the incomes are between £1-
000 and £2,000, which are taxed on a
gross assessment of £2,614,359. Only
423 pay on incomes between £5,000 and
£10,000 yearly, and 200 on £10,000 to
£20,000. The total assessment on the
latter is £2,310,094.

The Irish figures show that 19,855
Irishmen paid income tax on a gross
total of £4,629,707, while 1,115 com-
panies paid on £6,232,873. Only one
Irishman has an income of over £50,000.
His exact income is estimated by
the assessors at £73,823.

Judging from the assessments the
emoluments of Government, corporate
and other public officials have risen by
£20,000,000. In ten years the incomes
derived from farming have fallen by
£2,000,000. The incomes of property
owners have increased £31,000,000 and
the incomes of the business, profession-
al and private employment classes have
increased £30,000,000.

The Hog to Breed.
Do not use any hogs for breeding
purposes except those that show evi-
dence in form, disposition and breed
of inclination to early maturity. Hogs
are raised only for their flesh, and
the fewer days it takes a pig to accu-
mulate enough to be of any marketable
size the more profitable it will be for
its owner.—Farmers Advocate.

HANDS CRACKED AND PEELED

Suffered for One Year—Water
Caused Agony, Heat Intense Pain
—Grew Worse Under Doctors—
Could Not Do Any Housework.

ANOTHER WONDERFUL CURE BY CUTICURA

"About a year ago my hands began
to crack and peel. I tried many reme-
dies, but they grew worse all the time.
At last they became so sore that it
was impossible for me to do my house-
work. If I put my hands in water, I
was in agony for hours; and if I tried
to cook over the stove, the heat
caused intense pain. I consulted a
doctor, but his prescriptions were
utterly useless, and I tried another,
but without the least satisfaction. I
got my first relief when I purchased
Cuticura Soap and Ointment. After
using them for a week, I found to my
great delight that my hands were
beginning to feel much better, the
deep cracks began to heal up and
stop running, and in six weeks my
hands were entirely well, one cake of
Cuticura Soap and one box of Cuticura
Ointment making a complete cure.—
Mrs. M. Drew, 18 Dana St., Roxbury,
Mass."

ONE NIGHT TREATMENT For Sore Hands and Feet with Cuticura.

Soak the hands or feet on retiring
in a strong, hot, creamy lather of
Cuticura Soap. Dry and anoint freely
with Cuticura Ointment, the great
skin cure. Wear on the hands during
the night, old, loose gloves, or band-
age the feet lightly in old, soft cot-
ton or linen. For red, rough, and
chapped hands, dry, fissured, itching,
feverish palms, with brittle, shapeless
nails and painful finger ends, and for
itching, burning, and scaling eczemas,
rashes, inflammations, and chafings,
this treatment is simply wonderful.

Cuticura Soap, Ointment, and Pills are sold through-
out the world. Dealers: London, 25, Chancery Lane; Paris,
2, Rue de la Paix; Australia, 11, Town & Co., Sydney.
Cuticura, Chatham, Bottom Sole Proprietors.
Send for How to Cure Itching, Scaly Humors.

The Malaria of Ambiguity.
Admiring Friend (to captain of col-
lege boat club)—I say, Thompson has
been slugging you like anything about
putting Jones into the Henley boat.
He says the fellow's the biggest fool
in the varsity. Captain—Oh! And what
did you say? Admiring Friend—Oh, I
stuck up for you, of course, old fel-
low.—Punch.

A Definition.
"What does the word 'aroma' mean?"
was recently asked by a teacher. Only
one hand went up. Its owner thus
explained: "When you cook an onion
in the kitchen, the aroma is what you
get in the parlor."

A Round of Pleasure.
Nell—Last night was the happiest in
my life. It brought me one round of
pleasure. Bell—What do you consider
one round of pleasure. Nell—An en-
gagement ring.

An Insinuation.
May—Ever been jilted, Edith? Edith
—No, dear. What does it feel like?

Giles—My wife can drive nails like
lightning.
Miles—You don't mean it?
Giles—Sure I do. Lightning, you
know, never strikes twice in the same
place.

The size of the piece that he leaves
you is the outward and visible sign of
the iceman's generosity.

He Will Cure You First Then You Pay Him

The physician, who has not sufficient con-
fidence in his own ability to cure his patient first
and receive his pay afterwards, is not
worthy to be trusted. He is a man who
inspires confidence in his patients, who
is in search of honest treatment.

Dr. Gold-
berg's accept-
ance of a cure
for treatment
is equivalent
to a cure, be-
cause he re-
sponds to the
fact that he
is a doctor, and
he is not only
able to cure the
disease, but he
is able to cure
the patient.

There is no guesswork, no experiment
about his method. He is a known expert in his
chosen specialty, and offers you the best, and only
the best treatment. When you are in your health,
it is at stake, inferior treatment (which leaves
after-effects worse than the disease itself) is dear
to you.

Dr. Goldberg has 14 diplomas and certificates
from the various colleges and state boards of
medical examiners, which should be sufficient
guarantee as to his standing and ability. It
makes no difference who has failed to cure the
disease, as he guarantees a positive cure for
all chronic, nervous, blood and skin diseases,
which he accepts for treatment. He not only
cures the condition itself, but likewise all the
complications, such as rheumatism, bladder or
kidney trouble, blood poison, phthisis and
nervous debility, lack of vitality, stomach
trouble, etc. All medicines for patients are
prepared in his own laboratory to meet the re-
quirements of each individual case. He will send a
booklet on the subject, which contains the 14
diplomas and certificates, entirely free. All
medical fees for Canadian patients sent from Win-
dward, Ont., duty and transportation prepaid. Ad-
dress: L. M. M. Dr. S. Goldberg, 208 Woodward
Ave., Suite 511 Detroit, Michigan.

Humor and Philosophy
By DURCAN M. SMITH
NO JOY FOR HIM.
The air was soft as silken thread,
All nature seemed to be at play,
And in the branches overhead
The birds sang forth a roundelay.
But what to him was Nature's smile,
Her warm caresses or her frown?
For really nothing was worth while
Since one small girl had turned him
down.

He had a dollar to his name—
Yes, half a million, more or less.
The goddess that distributes fame
Had touched him with her warm caress.
But what was fame or yellow gold
Or what, indeed, was high renown
When that one little girl was cold
—When Dora sweet had turned him
down?

He had a host of loyal friends,
As wealthy people always do,
Some only for their selfish ends
And others—well, for that thing too.
But what were friends that at his call
Might bow the knees and smirk and bend
At that young lady fair and small
—Would not be more to him than friend?

Oh, why will man o'er one despair—
Can any scientist explain—
When there are others just as fair
Come into town on every train?
One who is very commonplace
And plain to us to him seems fit
And she gives the boy a chase
His world is henceforth a mist.

For the Lazy Man.
"Bilks is always kicking on the
weather."
"I suppose he thinks he could im-
prove it if he had the running of
things."
"Sure. He likes the occasional shower
that waters the lawn, but what he
wants in addition is an occasional cy-
clone to mow the grass."

Not in Demand.
"You poor de-
bilitated health."
The mission-
ary said.
"I see you're
quite as low
and vile as the
accounts I've
read."
"Though filthy
and degraded,
for you there
still is hope."
"I'll send you
by an early
boat a box or
two of soap."
The chief of
the heathen
rose up and
made reply:
"I know we're
very low and
vile and on re-
formation shy.
But keep your soap, my brother. It may
be good enough,
but we had some, and not a man of us
would eat the stuff."

He Refrained.
"After the doctors had all given him
up he was cured by an Indian over
eighty years old."
"That sounds like a familiar story."
"Oh, but you haven't heard the sur-
prising part. He didn't put the remedy
on the market at a dollar a bottle."

Might Be Some Day.
"They wouldn't accept him on the
jury."
"Why not?"
"He is prejudiced against capital
punishment."
"That is strange. He never was
hanged himself, was he?"

A Slam on Them.
Are we smarter than our fathers,
More advanced and brighter far?
Well, it doesn't hurt their feelings
If we want to think we are.

Who Will Keep Up the Payments?
"He is buying a house on the instal-
ment plan."
"And he hasn't any grandchildren
either."

No Improvement.
Though wireless
messages are
sent
Successfully
across the
bay,
Let's hope that
no one will
invent
A kiss that
gives the
feelings vent
Ten thousand
miles away.

PERT PARAGRAPHS.
When a plain girl is good it is apt to
be taken as a matter of course.
Some people are so chary of smiles
that you might think some trust had a
corner on them.
Try as we may, it is impossible to
wash our hands of all microbes.
Singing is a gift. That may explain
why some girls are so free with it.
Cupid was the original dress reformer.
In choosing between a good name
and great riches would the average
man hesitate long?
Oil and water won't mix, but, for-
tunately for the milkman, milk and
water will.
What a roar the man dirt makes
when he runs across a woman who is
built on the same general plan!
When he falls in love every man
thinks that he has discovered some-
thing new.
A well bred man never asks to have
the pie passed again.

Imperial Oxford Range

The important feature of this system
is the diffusive flue which draws in
fresh air, superheats it and distributes
it evenly throughout the oven. The
article on the bottom shelf farthest
from the fire is getting as much heat
on all sides as the article on the top
shelf next the fire.

We would like to explain this more
fully. If your dealer doesn't handle
the Imperial Oxford Range, write us
for particulars. We will send cata-
logue and tell you where you can see
the range.

STRIKE ON AT WARSAW.
Protest of Poles Against Disregard of
Their Rights.

Warsaw, Russian Poland, Aug. 22.—
A general strike has been proclaimed
throughout Poland as a protest against
the disregard of the rights of the Poles
in the scheme for representation in the
National Assembly. The strike began
yesterday.

Eighty Socialists carrying arms,
while attempting to enter the city,
were opposed by a detachment of Cos-
sacks. Eight were killed and the others
arrested.

ARREST RUSSIAN PROFESSORS.
Eleven Men and One Woman Taken In-
to Custody.

St. Petersburg, Aug. 22.—The police
Sunday night arrested Paul M. Milu-
koff, professor of Russian history in the
University of St. Petersburg, his
wife and ten other members of the bu-
reau of the association of profession-
union, at their residences at Oudela-
na, near St. Petersburg.

Prof. Milukoff in October, 1902, was
sentenced to six months' imprisonment
for participation in a political meeting
in 1900. At the time the verdict was
rendered, the professor was in Eng-
land, but he voluntarily returned to
Russia to serve his sentence. He was
released after serving about two
months. In the latter part of 1903,
Prof. Milukoff went to the United
States and delivered a series of lec-
tures.

Western Fair

When Governor Simcoe laid the foundation of
London, Ontario, one hundred years ago he knew it
would grow to be a great city, but had no thought of the
Western Fair.

The Western Fair gives the people of this country
an excellent opportunity for a pleasant outing at a
minimum of cost, and at the same time develops their
store of practical and useful knowledge.

Its educational features have always been carefully
fostered by the Directors. This year several important
improvements of an instructive nature have been added.

The celebrated 68th Highland Regiment Band will give
three concerts daily during the exhibition. The entertain-
ment department will be better than ever, and will include
leaping the gap in mid air on a steam automobile.

SURPRISE SOAP
A PURE HARD SOAP

We Tell Our Friends
there isn't any soap made, as good as
"SURPRISE," which is a Pure Hard
Soap that washes well and wears well.
THE CHATHAM SOAP CO., 23, St. Stephen, N.S.

Sharp and Foolish Practice.
London, Aug. 22.—(C.A.P.)—Dow-
sell Brothers of Liverpool, in their but-
ter review, say that many Irish and
Canadian producers tried hard to ex-
aggerate quotations in rising markets, a
usual foolish practice, and if they
were left unaided they must now suffer
a slump intensified with overheld but-
ter of deteriorated quality.
Centenarian Pilgrim Dies.
London, Aug. 22.—(C.A.P.)—A pil-
grim from Canada to the Holy Land,
aged 105, named Pepelitz, whose age
and journey attracted considerable
attention here, died at Marseilles after
a short illness.

HOW'S THIS!

ward for any case of Catarrh that
cannot be cured by Hall's Catarrh
Cure. F. J. Cheney & Co., Toledo, O.
We, the undersigned, have known
F. J. Cheney for the last 15 years and
believe him perfectly honorable in
all business transactions and finan-
cially able to carry out any obliga-
tions made by him. Walding,
Kinnear & Marvin, Wholesale Drug-
gists, Toledo, O.
Hall's Catarrh Cure is taken in-
ternally, acting directly upon the
blood and mucous surfaces of the
system. Testimonials sent free.
Price 75c. per bottle. Sold by all
Druggists.
Take Hall's Family Pills for con-
stipation.

Yellow Fever Record.
New Orleans, La., Aug. 22.—Yellow
fever report to 6 p. m. yesterday: New
cases, 61; total to date, 1,446; deaths
yesterday, 6; total to date, 206; new
fever, 16; total, 322; cases under
treatment, 324. Yellow fever took
a bound forward yesterday in New Or-
leans, and the situation in the State is
far from satisfactory.

HOW PNEUMONIA STARTS.
You catch a little cold to-day, by
to-morrow it has reached the lungs,
next day the lungs are affected and
you wish you had used Catarrhoxone,
which kills cold in five minutes. In
the first place Catarrhoxone soothes
the irritated membranes and relieves
congestion, then it cuts out the
poisonous germs in the form of spi-
ders. These insects contain a large
proportion of formic acid. A traveler
in Africa says that a meal or two of
spiders cured him permanently of an
attack of ague.

Spiders as Medicine.
Formic acid has been used for a long
time by the Matabele natives in Af-
rica as a cure for malaria and ague.
It is taken by them in the form of spi-
ders. These insects contain a large
proportion of formic acid. A traveler
in Africa says that a meal or two of
spiders cured him permanently of an
attack of ague.

WHEN YOU GROW OLD.
The body needs patching—wasted
tissues must be rebuilt, played-out
organs restored—blood needs extra
nourishment. Elderly people need
Ferrozone—need it because it vital-
izes and rejuvenates as no other reme-
dy can. Ferrozone builds up the
kind of strength that makes one feel
good, keeps back the decay of old
age and makes you look young and
handsome again. Forget nervous ex-
haustion, renew your vital energy,
again re-enter the life of youth. Your
remedy is Ferrozone, only fifty cents
per box, at all dealers.

The disposition is to think every-
one else the possessor of more pec-
uliarities than we really have.
THE FAST TRAINS
To California, are run over the
Union Pacific, via Omaha, 16 hours
quicker to San Francisco than any
other line. No change of roads, no
detours. "The Overland Route" all
the way. Be sure your ticket reads
over the Union Pacific. Inquire of
H. F. Carter, T. P. A., 14 James
Building, Toronto, Canada, or F. B.
Choate, G. A., 128 Woodward Avenue,
Detroit.
The usual farm laborers' excursion
tickets will be sold by W. E. Rispin,
City Ticket and Passenger Agent, 118
King street, on 29th August to Win-
nipeg, at \$12, and passengers will be
forwarded to any point west of there
on arrival. Trains leave Chatham at
8:37 a. m., 2 p. m., and 5:13 p. m. Par-
ties desiring to avail themselves of
this excursion should apply to W. E.
Rispin, 118 King street.

Mlle. AGAFVA SIMBIRSKI.
Russian Heroine of the Wildest Love
Romance on Record.
The Kaluga newspapers report the
death and amazing burial of Mlle.
Agafva Simbirski, one of the richest
and most eccentric women in Russia.
When only 20 years of age Mlle.
Simbirski, by the death of her father,
became possessed of a fortune of near-
ly three million roubles. Sutors in-
numerable sought her hand, but the
enormously wealthy girl set her af-
fections on an ugly, red-haired gar-
dener, Andrei Vanukhin by name.
Furious at her choice, Mlle. Simbirski's
brother ordered Vanukhin to leave
the neighborhood. The gardener re-
fused. Within a week he was found
lying dead in a paddock reserved for
the use of "a half-tame wild boar." Al-
though an evident case of murder, the
family hushed things up, alleging that
Vanukhin had been killed by the pig,
which he well knew to be dangerous.
Contrary to expectation Mlle. Simbirski
appeared to accept the explanation.
But the joy of her family was
turned to despair when the young
lady proclaimed her belief that the
spirit of her dead lover had entered
into the body of his slayer. From that
day forth Mlle. Simbirski consecrated
her life to the evil-smelling hog.
To her order a firm of St. Peters-
burg contractors built a palatial "sty"
of granite and snow-white marble.
The demented lady retained the
service of an expert cook, who thrice
daily prepared a sumptuous repast for
the benefit of the grunting porker.
Mlle. Simbirski was accustomed to
feed the hog with her own fair hands,
and only recently ordered a gorgeous
silver trough from a well-known Mos-
cow manufacturer.
A few weeks ago the unfortunate
girl became extremely religious, and
insisted that Andrei—for so she called
the pig—should fast when she fasted.
One night she visited the marble sty.
From that visit she never returned.
Early next morning the steward dis-
covered his mistress's body terribly
mutilated in a corner of the pig's "bed-
room." Again there were rumors of
foul play, but again the family alleged
that the pig was the murderer. Color
was added to this story by the circum-
stance that the "fasting" and half-
furnished boar had mangled one of the
arms of his mistress.
In the presence of a vast concourse,
Mlle. Simbirski's eldest brother shot
Andrei through the heart. Afterwards
the body of the boar was buried in a
grave beside that of his benefactress.

Peers As Engineers.
The Duke of Sutherland is perhaps
the best locomotive engineer in the
British peerage, and could earn a
living at the work did he so desire.
A private railway, thirty miles long,
connects Dunrobin Castle with the
main line, and both the Duke and his
wife are experts at handling the trains
over this stretch of track.
The only other privately owned rail-
way in Great Britain is a three mile
circular track in the grounds of Hills-
borough Castle, one of the country
seats of the Marquis of Downshire.
Here an engine is declared to be one
of the most perfect ever built in England,
affords the Marquis diversion in
plenty, and he is as capable a fireman
as he is an engineer.

The Duke of Portland has no private
road, but he has his credit as engine driver
of regular trains, the paid engine driver
riding in the cab and enjoying his
novel vacation.
Several other titled persons take an
absorbing interest in machinery, and
the Viscount Cole, elder son of Lord
Emswiler, worked as stoker on
board a battle ship from Australia to
Gibraltar.
The Duke of Connaught has had
practical experience running a loco-
motive in Egypt, and not long ago the
Duke of Devonshire, on a trip to
England, put in an entire morning
firing on the locomotive, alighting at
the end of the run as dirty and as
greasy as the regular fireman whom he
replaced, to the great horror of the
reception committee.

Voices High and Low.
While the Germans are the softest
spoken people as a race, the Tartars
possess more powerful vocal organs
than any other people.
It is a peculiar thing that different
nations have differences in accent so
marked that the speech of other na-
tionalities is difficult of understanding
to them.
The American accent is quicker
and in a higher key than that of the
English, and, though speaking the
same tongue, the Englishman ex-
periences real difficulty in under-
standing the American accent. Under
the American ear, accustomed to the
quicker speech, finds the English
drawl almost irritating at times.
Similarly a Frenchman speaks Ger-
man with an impetuosity and pitch
disagreeable to Teutonic ears, and
finds the guttural speech as difficult
to understand as is his nasal quality
to the German.
It is not always the loudest voice
that is the most penetrating, and while
the German has the lowest voice of
all the civilized races he is able to
make himself heard when a French-
man's voice could not reach.

Milk Melons.
One of the latest French agricul-
tural fads is being agitated by a farmer
near Marseilles, who declares that
watermelons sown with milk freely
poured about the roots will grow
twice their normal size, and offers
proof in the shape of prizes from many
fairs which, he asserts, he was enabled
to win through this practice.
According to his theory the melon is
provided with the proper combina-
tion of foods in exactly the right pro-
portions and is enabled to throw all
of its energy into its growth instead
of sending forth long roots in order
to draw from the soil what it requires
as food.
The process is said not only to in-
crease the size of the melon, but to in-
crease firm red pulp of delicious flavor.

A One Dollar Job.
A man and his bride by the parson
were tied,
And when the performance was done
"Alas," exclaimed he, examining his
fee,
"I add one and one and make one!"

Peninsular RANGES
Make Baking Easy and Save Fuel.
Fire box is OVAL—no
dead corners—no dead ashes
to heat.
Sheet fine construction
insures quick, even heating
of all parts of the
oven.
Oven is almost
square, with STEEL bottom
and ends.
Perfect ventilation of
oven prevents soggy baking.
Direct draft slide dampers give absolute control
of fire.
The "Peninsular" Ranges are made in all sizes
from plain 4 hole ranges, to richly nickeled 6 hole
ranges with closet and reservoir.
Your stove man probably has a full line of Penin-
sular Ranges. If not, let us know and we will send
you our handsomely illustrated catalogue and the name of the nearest
dealer handling Peninsular Stoves and
Ranges.

DISTRICT DOINGS
TILBURY
August 22.—Miss Gladys Maw, who
has been the guest of the Misses
Stewart, Carlyle avenue, for the past
week, left yesterday for her home
in Essex.
Mrs. John Gilby and daughter Mar-
jory, of Battle Creek, Mich., are the
guests of Mrs. D. Smith, at Willow
Beach.
Mrs. John Wall, who has been
visiting her parents, Mr. and Mrs.
James Stewart, returned yesterday to
her home in Cleveland.
St. Andrew's Anglican church was
the scene of a very pretty wedding
yesterday afternoon, when the rector,
Rev. T. Dobson, united in marriage
Miss Sadie E. Campbell, daughter of
Mrs. Campbell, Prospect street, and
Mr. Herbert E. Burnett, of London,
England, foreign buyer for Simp-
son's, of Toronto. The church was
beautifully decorated in a color
scheme of green and white. Messrs.
Burleigh Campbell, H. Dennis and W.
Piggott acted as ushers. Shortly
after five o'clock the rector, the
groom, and the groomsmen, Mr.
Allen, of Toronto, took their places
at the chancel steps. To the strains
of Lohengrin's wedding march played
by Mr. Frank Phelps, of Chatham,
the bride entered on the arm of W.
C. Crawford, preceded by Dick Craw-
ford and Ray Wilson as pages, and
Misses Aileen Campbell and Minnie
Jackson (nieces of the bride) as flow-
er girls, who were daintily gowned
in white silk and carried baskets of
asters. The bride, who was attend-
ed by her sister, Miss Annie and
Mrs. Crawford as matron of honor,
wore white net over white taffeta,
with trimming of white satin baby
ribbon and white meline hat. The
bridesmaid's dress was of white ac-
cordian plaited silk, with white me-
line hat. Mrs. Crawford wore mar-
quisette de soie over taffeta with hat
to match. Mrs. Campbell, mother of
the bride, wore a handsome gown
of black lace over black silk, and
mauve velvet bonnet. The bridal
party left the church to the strains
of Mendelssohn's wedding march, and
repaired to the home of the bride's
mother, which was tastefully de-
corated in green and white, where
a dainty repast was served. The
groom's present to the bride was a
ring set with five pearls. Among
those present from a distance were
Mr. Burnett and daughter, of Brant-
ford, father and sister of the groom;
Mr. and Mrs. Burnett, of Toronto;
Mrs. James Campbell and daughter,
of Brantford; Mrs. Jackson, of Tor-
onto; Miss Greenhill, of Leamington;
Miss Owens, of Youngstown, Ohio,
and W. Piggott, of Chatham. The
bride and groom left on the eight
o'clock train on a short trip to De-
troit, after which they return here,
and leave for New York, from where
they sail on the 25th inst. for a
honeymoon trip to Paris, France,
after which they take up their resi-
dence in London, Eng. The bride is
one of Tilbury's most popular and
highly esteemed young ladies, and
will be followed by the good wishes
of hosts of friends.

A WARNING TO MOTHERS.
Too much care cannot be used with
small children during the hot weath-
er of the summer months to guard
against bowel troubles. As a rule it
is only necessary to give the child a
dose of castor oil to correct any dis-
order of the bowels. Do not use any
substitute, but give the old-fashioned
castor oil, and see that it is fresh, as
rancid oil nauseates and has a ten-
dency to gripe. If this does not check
the bowels give Chamberlain's Colic,
Cholera and Diarrhoea Remedy and
then a dose of castor oil, and the
disease may be checked in its incipi-
ency and all danger avoided. The
castor oil and this remedy should be
secured at once and kept ready for
instant use as soon as the first indi-
cation of any bowel trouble appears.
This is the most successful treatment
known and may be relied upon with
implicit confidence even in cases of
cholera infantum. For sale by all
druggists.

To be entirely tolerant we must
tolerate those who are intolerant.

NINETY-EIGHT PER CENT.

There is a fascination about big
profits to a business man. But the
conservative and cautious trader pre-
fers to have the lesser per cent. of
interest and the larger per cent. of
safety in his investments. There is
no business man who would not con-
sider it a sound proposition to invest
in an enterprise in which absolute
loss was impossible and which offered
ninety-eight chances in a hundred of
a rich profit. The statistics of cures
effected by Dr. Pierce's Golden Medi-
cal Discovery show that ninety-eight
per cent. of cases of "weak lungs,"
if not all, forms of physical weakness
may be traced to starvation. Starva-
tion saps the strength. The body is
just as much starved when the stom-
ach cannot extract nutrition from the
food it receives as when there is no
food. "Weak lungs," bronchial affec-
tions, obstinate coughs, call for nourish-
ment. "Golden Medical Discovery"
supplies that nourishment in its
most condensed and assimilable form.
It makes "weak lungs" strong, by
strengthening the stomach and or-
gans of digestion which digest and
distribute the food, and by increasing
the supply of pure blood.

Table Novelties in Silver.
Very appropriate for the season are
the pretty sets of lemonade spoons
which have perforated bowls and
convenient strawlike handles, through
which the lemonade may be drawn.
Grapefruit glasses come in cut glass.
To hold the shredded grapefruit there
is a flat bottomed tumbler furnished
with a short stem to imbed in the ice.
For wedding gifts these, with rock
crystal dishes in fruit, flower and
choice berry designs, are popular.

PEACE HOPES BRIGHTER

Komura Said to Have Accepted
Roosevelt's Compromise.

Russia May Retain Portion of Sakhalin by Re-Purchase From Japan in Lieu of Indemnity — Czar's Final Answer Received by Cable—Conference Did Not Hold Meeting Tuesday—Will Meet To-day.

Portsmouth, N.H., Aug. 23.—(2 a.m.) It is stated that Baron Komura at the session at 9.30 o'clock this morning has agreed to offer the President's compromise proposition.

A long cable message from St. Petersburg, which is believed to be the Russian reply, arrived at 10 o'clock last night, and M. Witte's secretary, M. Nabukoff and M. Platonov, immediately began deciphering it.

No confirmation of the rumor that Russia's reply is a negative can be obtained, and it must be accepted with all reserve. The lights in the rooms of M. Witte and Baron Komura were burning late after midnight.

President Roosevelt's Plan.

The suggestion of President Roosevelt for breaking the existing deadlock in the peace negotiations and resuming the conference from failure, terms Russia to repurchase possession of either all or half of the Island of Sakhalin, now in the military occupation of Japan, for a sum the amount of which, if the two countries cannot agree, shall be decided by some method of arbitration, hereafter to be determined. The purchase money, together with the sum the Japanese would obtain from the cession of the Chinese Eastern Railroad and the maintenance of the Russian prisoners in Japan, would, it is estimated, about equal the amount claimed by Japan as her bill for the cost of the war. Practically, therefore, the solution offered by the President involves recession by Japan under article 1 (the cession of Sakhalin), and recession by Russia, upon article 9 (indemnity).

It seems practically certain, though this cannot be affirmed positively, that the President yesterday was able to give M. Witte substantial assurances that Japan would be willing to accept such a compromise.

This is apparently supported by the authoritative Japanese statement to-day in reply to a question as to whether Japan had decided to make substantial concessions: "It all depends upon Russia."

The official announcement that the meeting of the conference, which was to have been held yesterday, had been postponed until to-day at 9.30 o'clock. The public reason given was that the protocols for the submission at the sitting had not been completed.

Within Measurable Distance.

London, Aug. 23.—The Morning Post, which throughout the war has strongly identified itself with the Japanese side, in a despatch from its correspondent at Portsmouth, published this morning, declares that "the peace of Portsmouth is within measurable distance."

The correspondent asserts that both sides will make substantial concessions for the sake of peace.

The Portsmouth correspondent of The Times states that there is real hope for peace, and that the Japanese are ready to arrange a settlement in a way that will save Russian dignity and honor.

Apparently, says the correspondent, the basis of this settlement is the retention by Russia of a portion of the Island of Sakhalin in consideration of a payment of money in lieu of indemnity.

New Names For Prisoners.

Tokio, Aug. 23.—The Imperial Navy Department has re-christened the captured Russian warships as follows: The Forevlet has been named the Sagami; the Poltava, the Tango; the Bayan, the Aso; the Pallada, the Tsugara; and the Variaz, the Coza.

STORM TOSSED FOR 3 WEEKS.

Thrilling Tale of the Sea — Caught Sharks For Food.

New York, Aug. 23.—The Athos, 17 days late, with eight passengers, a cargo of rotten bananas and bones of half eaten sharks on board to indicate the perils of her voyage, arrived off Scotland lightship Monday night.

On July 30, the Donald Steamship Co.'s steamer Athos left Port Antonio, Jamaica, for New York, a six days' voyage, with provisions in plenty for this short period. Three hours out of port an eccentric rod on the engine broke, and from that hour until last Sunday, proceeding sometimes only an hour a day under her own steam, the Athos drifted at the mercy of storms, in constant danger of famine, once without drinking water, and receiving supplies from time to time off passing vessels, until on August 20 the disabled steamer Aitha for a tow. The steamer brought the Athos to New York.

The catching of sharks is recorded in the log. Chinamen on board attempted to eat the sharks whose meat went into them ill, and the fish were thrown into the sea. During the next two days boats were lowered from the Athos in search of food fish.

At Scotland lightship Monday night the tow line broke, as a last chapter in her long series of accidents, and the Athos could not repair the broken line in the dark, but anchored for the night.

TO OPEN FORMAL NEGOTIATIONS

Norwegian Government Proposals En-

Christiania, Norway, Aug. 23.—The

Storting yesterday adopted by a vote of 104 to 11 the proposals of the Government for the formal opening of negotiations with Sweden for the dissolution of the union.

The Government proposed to communicate the result of the recent referendum to the Swedish Government and to ask it to accept the abrogation of the act of union and to co-operate in negotiations for a pacific settlement of the questions connected with the dissolution, including those raised by the Swedish Riksdag.

The Government was also granted power to appoint delegates to conduct the negotiations.

DENOUNCE DOUMA PLAN

Mass Meeting in Moscow Calls
For Greater Freedom.

Project Was Discussed in Violent Terms—Resolution Was Passed After Prince Galitzin Made a Speech—Accepted As a First Step, But Asserts That National Government Is Possible Only With Civil Rights.

Moscow, Aug. 23.—At a public meeting in the Town Hall yesterday, the Emperor's manifesto on the Douma project was discussed. One speaker denounced the manifesto and the project in violent terms; another urged armed rebellion. Later the municipal officials entered the hall, and the Mayor, Prince Galitzin, made a speech, after which a resolution was adopted, which declared that the meeting attached great value to the constitution of the Douma as the first step towards participation of the public in the work of legislation, but that it fully realized that a national Government was possible only on the condition that the Russian people be given immediately all civil rights, freedom of the press, freedom of speech and meeting and inviolability of person, and urged that to restore the complete calm of the country.

New Russian Loan Slow.

St. Petersburg, Aug. 23.—It is announced from Moscow that subscriptions there to the new internal loan are unsatisfactory. The subscriptions are thus far amounting to only \$100,000. An Imperial ukase was issued August 17 authorizing the issuance of a new internal loan of \$100,000,000 at 5 per cent.

Conspiracy Among Troops.

Moscow, Aug. 23.—It is reported here on good authority that a revolution among the troops encamped in the outskirts of Moscow and that 26 arrests, including those of some officers, were made before the conspirators had a chance to become active.

RIFLEMEN OF ONTARIO.

Second Day's Shooting Was a Good One—The Prizes Won.

Long Branch Rifle Ranges, Aug. 23.—Under splendid weather conditions and the almost perfect arrangements of the Ontario Rifle Association, the second day of the annual matches of the 27th Fusiliers, won the Bankers' match with the best score of 96 out of a possible 105. There were three other scores of 96.

Major Hayes Won.

The match committee met yesterday morning and decided to award the special individual prize of \$25 in the Canada Club Jubilee Challenge Cup match to Major Hayes of the team of the 27th Fusiliers and there was some irregularity in the entry of the London team which has been straightened up.

Trophy For Cadets.

Harbord Collegiate Institute team won the cadets' challenge trophy match; 325 goes with the trophy. Dundas Collegiate Institute was second, 320; Guelph Collegiate Institute, 3rd, 315; St. Albans' Collegiate, 4th, 310.

Canada Company Team Prize.

The team prizes were awarded yesterday as follows: 215—13th Regt. 203—11th Regt. 193—Queens' Own Rifles 193—The 77th Regiment was close behind the Q. O. R. with a score of 193.

Macdonald Match.

The Macdonald match, named after the late Judge A. Macdonald of Guelph, ex-president of the association, open to members, 500 yards, prone, seven rounds, no sighting shot. This was a rapid-firing contest. When called on by the register keeper, the competitor took up his position and loaded. Upon the appearance of his target, he commenced firing, and the value of the hits was signaled from the marking trench after the target was lowered. Q. M. S. Dymond, who won the Canadian Club first prize with a possible Monday, repeated his performance yesterday under rapid-firing conditions, and scored a possible in this match. There were 75 prizes, with total cash value of \$304.

The Extra Series.

There is some splendid shooting in the extra series matches and they are full of interest. They will not be completed till Wednesday night.

The Bankers' Match.

The Bankers' match, open to members. Ranges 500, 600 and 800 yards, 7 rounds at each range, \$410 divided into 110 prizes.

First prize, \$20—Pte. F. W. Allen, 7th Regiment, score 96.

Second prize, \$15—Pte. F. H. Morris, 46th, 96.

Third prize, \$12—Col.-Sergt. E. A. Meldrum, 28th, 96.

Fourth prize, \$10—O. R. Sergt. J. Phillips, R. G. 96.

Fifteen prizes of \$5 each, thirty-five prizes of \$4 each, thirty-one prizes of \$3 each, fifteen tyros, winning \$1 each.

Cabinet Meeting.

Ottawa, Aug. 23.—The return of the Premier and most of his colleagues of the Cabinet resulted in a revival of political interest here yesterday. A meeting of the Cabinet was held. The chief business transacted was the formal appointment of A. E. Forster as Governor of Saskatchewan and G. H. Bulyea as Governor of Alberta.

Another meeting of the Cabinet will be held to-day.

Financing the Tunnel.

New York, Aug. 23.—The Michigan Central and Canada Southern Railways have almost completed arrangements for financing the tunnel between Detroit and Windsor. The project of a tunnel across the Niagara River at Buffalo is being talked again.

Declared Bankrupt.

Caracas, Venezuela, Aug. 23.—The Caracas Gas and Electric Light Co. yesterday was declared bankrupt.

the breast and dramatic gesture, there are only a few of us left and we must be recognized.—Applause.

Ald. Westman responded to the same toast, very felicitously, deeming it a privilege to be chosen. As illustrating Chatham's rapid progress he told the story of an Irishman, assistant engineer on a railroad passing through the western mountains. He was paid by the mile and in going down the mountain side one day the engine ran away. The engineer called upon his assistant to jump, but Pat utterly refused to do so. "I never made money so fast in all my life," he yelled.

"There is a bar at the mouth of the river," said he, "Voice—'Bring it up.' "Yes," he continued, "and a good many schooners go over it, too. I should like to see it dredged, and a breakwater built there to prevent the shifting sands again filling it up."

At this juncture H. C. Philip rendered a clarionet solo.

With the toast to the Mayor and Council were coupled the names of Mayor Cowan and Ald. Marshall. His worship was greeted with "He's a dandy." "I have, during my term of office, often heard a far different tune, gentlemen, consequently this is music to my ears," said he. "I extend a most cordial welcome to our visitors," he continued, "and present you with the freedom of the city."

The pointed out how Chatham is whizzing by the milestones on the highway of progress, and was enthusiastic, predicting for her a meteoric future.

"We have a sublime confidence in ourselves," he concluded.

Ald. Marshall, in replying to the same toast, stated that his position was like that of the young man who prepared a speech very carefully in private, saying to himself that only the Lord and himself knew what he was going to say. After he had rendered his oration only the Lord knew what he had said. Nevertheless, Mr. Marshall made a thoughtful speech, sympathizing with the Association in its efforts to obtain a compulsory license law. "If you should return here in a few years I am confident you will find a city with 20,000 inhabitants," he concluded.

R. W. Angus, in the interval sang

Twelve Dollars and Fifty Cents. Another lot of those

Double Breasted, vent in back, at \$12.50, just to hand. Just to remind the young men whom we had to disappoint last week to come at once for they're quick sellers, and cannot guarantee to keep sizes long.

MEYNELL'S

3 Doors West from
Market, King St.,
CHATHAM.

"Farewell to the King's Highway" in splendid voice, the assemblage calling for an encore, which was obligingly granted.

The toast to the Executive Head and Delegates was followed by A. M. Wickens and Bro. Mosley. The former is the founder of the Association. He thanked the local branch and the citizens for the warm welcome extended the society. Their organization, he pointed out, was unique—a body of men banded together to better themselves and, therefore, to give their employers better service, their motto being "To Earn More, Learn More." As indicating the necessity for a compulsory license law he revealed the fact that in 21 months there have been 25 boiler explosions, each attributable to ignorance and each having a fatality connected with it.

Bro. Mosley, speaking on the subject called attention to the fact that Chatham had a representative in each house who could assist their legislators materially. The one for the local house had not pledged himself seriously, but when he considered the fact that even in large department stores hundreds of people walked over the boilers daily he would recognize the necessity for legislation requiring the engineers to be competent.

At this juncture Wilfred Smith rendered "a drinking song." Mr. Smith's magnificent voice never showed to better advantage. His thunderous encore he sang "a drinking melody."

"Sister Associations," brought forth one of the most fluent speeches of the evening from F. B. Utley, representative of the Goldie, McCulloch firm, of Galt. Mr. Utley drew the clever "krazyon pictures" illustrating the advantages of being a member of this educational association—the first of a door-looking engineer who was not a member of the craft, and the second of a rubicund one who was.

"The object of the Association is to make intelligent, smiling engineers, he said."

F. J. Southporer excused himself with a few words.

"Manufacturing interests," were represented by N. H. Stevens and W. R. London. The former showed himself to be a warm friend of the Association, and called attention to the utter dependence of the factory upon engineer, who should be qualified to fill the trust. "If Archie McColl doesn't support your bill," he said, "I shan't support him."

A quiet, masterful way, predicted greater strides in invention in the near future and pointed out the necessity for such an organization as this.

Messrs. Wilson, Angus, J. Smith and W. Smith did some very fine quartet singing, the appreciation of the audience being attested by its applause.

The Ladies found a faithful champion in Ex-Ald. W. Piggett. After this Mine Host Eberts was fittingly thanked for the sumptuous table had provided and was voted a "jolly good fellow."

Minard's Liniment

ROYAL BAKING POWDER CO., NEW YORK.

Finer Cake and biscuit are made with Royal Baking Powder than in the old-fashioned way, with cream of tartar and soda, or saleratus and sour milk. The ingredients of Royal Baking Powder are most highly refined and absolutely pure. Royal is always uniform in strength, making the food evenly good and wholesome. No spoiled or wasted materials where it is used.
