PRICE—TWO CENTS.

MUGE PROFITS ARE REVEALED BY MILLING CONCERNS OF CANADA

Maple Leaf Company Made 15 Per Cent. Last Year Besides Piling up Big Reserve—Evidence Before Commission.

OTTAWA, Ont., June 24.—Statement produced before the Cost of Living Committee by Hedley Shaw, managing director of the Maple Leaf Milling Company, Toronto, showed that company made a net profit of 14.2 per cent on capital stock of five millions for the year ending March 1919.

Gross earnings for the year were \$20,105 and net profits \$7,136. Capital stock consists of two and a half millions common stock and two and a half millions in preferred stock with no bonded indebtedness.

For the previous year (1918), the dividend paid on common stock was \$500,000 or twenty-two and a half per cent. Two hundred and fifty thousand of this dividend was paid in Victory Bonds. Seven per cent was paid in preferred stock.

"In the neighborhood of two millions," replied witness when asked the amount of surplus at present time.

When the company was organized the assets were appraised at \$3,750,000. Four millions of stock were issued for these assets leaving \$220,000 in good will. One million preferred stock was sold at par, subscribers receiving a bonus of 25 per cent common stock.

Turnover of \$50,000,000. The turnover for the year ending March 31, 1918, was practically \$50,000,000. This was made up of flour and other mill products.

The net earnings of the company on this turnover was 1.5 per cent.

The committee wished to know whether the \$2,000,000 surplus had accumulated during the war, and witness was ordered to produce annual statements from 1913 to clear this matter up. Flour now selling around \$11.10, sold at \$6 per barrel before the war, said the witness.

Mr. Shaw admitted that a huge surplus of two million dollars had been accumulated during war years.

"How can you justify that surplus?" asked H. H. Stevens, M. P., "when the whole country is crying out at the cost of living?"

Mr. Shaw replied that they made their increased profits on a greatly increased turnover made possible by the erection of Port Colborne Mill in 1914.

No dividend was paid on common stock in years ending March 31st 1912, 1913, 1914, or 1915. Eight per cent was paid in 1916, ten per cent in 1917, 22.2 per cent in 1918, and 20 per cent in 1919.

Known as Profit-sharing. "Not this what is commonly called profit-sharing?" asked Mr. Stevens, referring to the 22.2 per cent dividend and the big surplus. "Why in the name of common sense should not the price of flour be reduced by 10 or 20 cents per barrel to give the poor consumer a chance?"

Witness did not think surplus was excessive, considering the short life of mill machinery and the big reserve they must carry to guard against the sudden drop in price of wheat.

With a mill of their capacity they must carry large stocks of wheat. They usually carried 15 days run or 750,000 bushels of wheat.

ADVISES WETS MAKE SOME BETS. WASHINGTON, June 24.—"Look for the repeal of the War-Time Prohibition Act by the President about Wednesday or as soon as the peace treaty is signed," Rep. Dyer, Missouri, confidently asserted yesterday.

Dyer, who called the President, urging the repeal, declined to give his authority for the statement, but is advising his friends to bet on it.

WILL BURY REMAINS. The foreigner from Thorold who passed away at the Welland Hospital on Friday last, and who has since been at the undertaking rooms of Grob Brothers, wishing to be embalmed, has been ordered buried by Mayor Grisdale of Thorold, and undertaker Williams ordered to take the remains for burial.

FANNED HIMSELF INTO JAIL

Elevator Boy's Ups and Downs—A Breeze That Carried Far.

TORONTO, June 24.—The recent experiences of young Orval Borney were filled with ups and downs. Orval ran an elevator in an apartment house. Up went Orval. Down went Orval. When half way, Orval, like a celebrated army, was neither up nor down. It was while he was on this middle plane that he was attracted by a \$40 electric fan, owned by W. D. McKenzie. Down came the fan. Up went Orval. Later, down came Orval. Then the elevator boy who had come down, went up to a second-hand dealer and sold him the \$40 fan for \$1. The cash was put down. Orval went up in the air with delight. The police brought him down and sent him up to interview Magistrate Kingsford.

The elevator boy's spirit went down to the basement when the magistrate sent him up to the Jail Farm for 30 days.

HEARS THE SIDE OF CONTRACTOR

City Council Meets in Special Session to Consider Case of Mr. Hodgkins—May put on Teams Instead of Motors.

A special meeting of the City Council was held last night to consider the letter sent in by Mr. Howard Hodgkins who received a contract from the city some time ago to handle a portion of the city garbage with motor trucks. From time to time it was reported to the Committee on Works that the trucks were not handling the work they were expected to do. Finally one truck was laid off and another contract was given to the others. It was later established that it, too, was too small in capacity to do the job and in accordance with the terms of the agreement the contract was cancelled.

Privileged to Be Heard. Mr. Hodgkins wished to be heard before the whole Council. He was, therefore, given a chance so that it could not be said he was unfairly treated. His solicitor, Mr. J. Keyes, was present on his behalf and offered arguments for his client.

The Council later discussed the whole matter carefully and came again to the conclusion that the trucks were too small to meet the requirements. It was also held that the city, acting on the advice of its solicitor, recognized no liability for the loss of the contract. Out of consideration for Mr. Hodgkins, however, who has tried very hard himself to make the undertaking a success, it was decided to give him an opportunity to put on one team now and another as soon as a second is needed, at the rate of pay allowed those who contracted for the teams. It was held by Mr. Hodgkins that he had not been given a chance even to replace the trucks with teams. This privilege is now extended.

NO CHANGE OVER SHIPS. PARIS, June 24.—The sinking of the German warships by their crews does not affect the general situation regarding peace with Germany. There is no indication that the act of the Germans will enter into the proceedings at the present stage or cause a re-opening of the negotiations. While the act is generally denounced as a violation of the armistice technically if not actually, in British and American circles, no marked regret is expressed.

BROKE HER ARM CRANKING AN 'AUTO. Miss Ethel Dickson, of St. David's, met with a painful accident yesterday which will confine her to her room for the next few days. While she was enjoying a visit with her aunt, Mrs. Godfrey, John Street, she decided to take a little ride in a Ford car which she had to crank with the result that the lever slipped breaking her arm in two places and badly bruising her chest. Medical aid was at once summoned and the broken bones set, after which she was taken to her home in St. David's. When Miss Dickson came into the city this morning she contemplated visiting for at least a week.

MUST MAINTAIN LAW, DECLARES ROWELL

Statement of Government's Duty Greeted With Cheers.

OTTAWA, June 24.—"Everyone must regret that life has been lost and severe casualties sustained, but I am sure members of the House will agree and thoughtful people of the country will agree that law and order in this country must be maintained," declared Hon. N. W. Rowell, president of the Council, after speaking in the House on the part played by the Royal Northwest Mounted Police, in the riots in Winnipeg. Cheers from the Government benches answered his declaration. It is the duty of the municipal, Provincial and Federal Governments to maintain law and order.

BIG PROGRAMME FOR JULY FIRST

Grand Parade Including 40 Floats Followed by Football Game and Long List of Sports to Make up a Full Day.

No effort is being spared to make Dominion Day one long day of enjoyment. From ten o'clock in the morning until ten o'clock at night, the day will be replete with every kind of sport and jollity. The Grand Parade, in which it is expected that at least 30 floats will be seen will march at ten o'clock in the morning and at 11 o'clock the Old Country Football Club, winners of the Connaught cup, will play the pick of the local Veterans.

The afternoon programme provides for sports in Montebello Park and dancing. A twilight lacrosse game is being arranged and the long awaited fight between Jack Loney and Serg Alexander, middleweight champion of the Overseas Military Forces of Canada has been scheduled for the evening in the Grand Opera House. A band concert by the 19th Regiment band and dancing in the Park will close a day that should long be remembered as the biggest G. W. V. A. celebration ever held in St. Catharines.

SIDELIGHTS ON TORONTO CAR STRIKE

Carless Streets Better Than Seamless Cars Says Telegram.

TORONTO, June 24.—All that is needed now is a strike of the gasoline tanks. Motor trucks, standing room only, advertised Sunnyside to Yonge for 10 cents. Many took the train and saved a nickel.

All the Grand Trunk from Sunnyside requires to emulate a street car in some strains and a coffee pot. "Twas the morn of the car strike, and all through the town motors were rushing up street and down."

"Twas a wise citizen who ignored the 'For Hire' trucks and jitneys—for then he most likely got a free ride in a Rolls-Royce!

All the old iron that had ever smelt gasoline honked over the city yesterday and swarmed out into the suburban villages.

One street car conductor was seen sitting in a taxi waiting to be taken down town.

"The first takes pains to see that I get down in the morning, but how am I to get home tonight?" croaked one descendant of Jeremiah, who believes in meeting trouble half way.

Church in the outskirts had more than the usual number of strangers at the services Sunday. For those who had to walk it was a case of the first church they came to.

How to get his office staff down, and to provide transportation for all the friends and relatives who called up over night, was the problem of many a business man.

A moving van marked, "To the City Hall," attracted the attention of a man on Dovercourt road. He remarked to his friend that that same truck could carry a load away—and benefit the city.

"None but the brave could charge the fare," was the revised rendering of the old quotation as given by an awe-stricken passenger who had to cough up a quarter for a ride down Yonge St., from Bloor to King.

"Less crush and more comfort than when they are running," murmured many a tired ex-stranger, settling comfortably in the corner of an upholstered limousine.

Many a Sunday school superintendent was at his wife's end Sunday when his teachers began to phone in at noon that, as the cars were not running, they could not be on the job.

So many large business concerns had made arrangements for bringing in their employees from the suburbs that the jitney men waited in vain at the terminals of the civic cars for anyone willing to pay half a dollar for a ride downtown.

Grim business called into requisition among other vehicles yesterday morning a hearse. Filled with joy riders, swiftly but silently it turned off Bloor street down Bathurst, holding off the traffic with its usual imperious demand of "right of way."

TORNADO KILLS SIXTY. FERGUS FALLS, June 24.—Between sixty and seventy persons were killed and more than a hundred were badly injured by the tornado which struck Fergus Falls late yesterday.

BOSTON ALSO WALKS. BOSTON, June 24.—Thousands of workers in more than a score of cities and towns served by the Eastern Massachusetts Street Railway formerly the Bay State Street Railway Co., walked to their places of employment yesterday as a result of the strike of the union car men on the system yesterday.

BIG PROGRAMME FOR JULY FIRST

Grand Parade Including 40 Floats Followed by Football Game and Long List of Sports to Make up a Full Day.

No effort is being spared to make Dominion Day one long day of enjoyment. From ten o'clock in the morning until ten o'clock at night, the day will be replete with every kind of sport and jollity. The Grand Parade, in which it is expected that at least 30 floats will be seen will march at ten o'clock in the morning and at 11 o'clock the Old Country Football Club, winners of the Connaught cup, will play the pick of the local Veterans.

The afternoon programme provides for sports in Montebello Park and dancing. A twilight lacrosse game is being arranged and the long awaited fight between Jack Loney and Serg Alexander, middleweight champion of the Overseas Military Forces of Canada has been scheduled for the evening in the Grand Opera House. A band concert by the 19th Regiment band and dancing in the Park will close a day that should long be remembered as the biggest G. W. V. A. celebration ever held in St. Catharines.

HE CREATES VACUUMS OTHER MAN FILLS THEM

NEW YORK, June 24.—A cable announcement that Herbert Hoover had sailed from Liverpool on the Cunard Aquitania resulted in a small army of moving picture photographers and reporters going to the Cunard piers when the steamship docked today, but no one could be found who resembled the Director General of the inter allied relief organization.

A call boy paged Herbert Hoover and a man with that name answered.

"I'm Herbert Hoover all right, but I create vacuums, while the man you are looking for fills them," he said. Mr Hoover explained that he was a manufacturer of vacuum cleaners.

PARADE LEADER ARRESTED IN 'PEG

Man Who Defies Edict of Mayor and Other Warrants are Issued.

WINNIPEG, June 24.—Although there were not lacking indications of nervous tension the city remained calm. Special mounted soldier constables patrolled the city streets and the R. N. W. M. P. and military forces were standing by, prepared to meet any emergency. The armored airplane 'City of Winnipeg' made several reconnaissances over the city.

The only man to die as a result of the rioting Saturday, M. Sokolowski, was a registered alien, and is stated to have broken parole. Witnesses asserted that he took a prominent part in the attack on the police, which started the trouble. Seriously injured are making satisfactory progress.

Parade Leader Arrested. John Grant, returned soldier, one of those who advacted the holding of the "massed, silent parade," in defiance of the edict of Mayor Grey was placed under arrest and it was stated at Police Headquarters that a number of warrants had been issued against organizers of the demonstration.

Forty four of the more than 100 arrested during the rioting were released this afternoon on \$1,000 bail, such in a special session of the Riot Court. They were arraigned on charges of riotous assembly. The remainder were remanded until next week.

WINDSOR ALDERMEN DON'T LIKE THE HINT. WINDSOR, June 24.—City Aldermen are not at all satisfied at the hint thrown out by the ferry company that, owing to the fact that an increase of wages to ferry employees has just been made, a corresponding increase in ferry transportation fares will follow.

Alderman England, who is Acting Mayor in the absence of Mayor Winter, stated yesterday that complete regulations relative to examination and inspection of travellers might be put into effect, and if this were done it would so hamper cross-river traffic that the ferry boats would be unable to operate.

MAYOR'S SUCCESSFUL DEFENSE. BRANTFORD, June 24.—Saturday afternoon the charge of assault preferred by J. H. Minshall, who was represented by W. S. Brewster, K.C., against Mayor MacBride was heard by Magistrate Livingston. Mayor MacBride conducted his own case and won, the charge being dismissed.

The tie in the football games in the City School League is between Connaught and Victoria Schools. The grass will be cut on the Alexandria grounds and the game played Thursday night. The Cup presented by Mr Mitchell will be presented on the grounds to the winning club immediately after the game.

FINANCIAL. The Standard Stock Exchange was active and some stocks made gains. Announcement is made of a \$3,000,000 loan by the Province of British Columbia.

Prices on the Toronto Stock Exchange were firmer, with Dominion Cammers and Steel of Canada leading.

Preliminary arrangements have been entered into for the absorption of the Guardian Trust Company by the Chartered Trust and Executor Company.

ENTRANCING. TORONTO, June 24.—Silk waist, purse, four pairs of stockings. The foregoing may suggest part of the contents of a June bride's chest. As a matter of fact, Nathan Cohen was in police court on a charge of stealing the things from the T. Eaton Company. As he owned two houses, bail was accepted.

RIOTS IN GERMANY. MANNHEIM, GERMANY, June 24.—Serious food riots have occurred here. Troops were called out to quell the disturbances. Twenty persons have been seriously injured and 300 arrested.

THE WEATHER. TORONTO, June 24.—A few scattered showers have occurred in Quebec and the Maritime Provinces and in the vicinity of Port Arthur while in other parts of the Dominion the weather has been fine. Moderate southerly winds, mostly fair and decidedly warm. Thunderstorms.

FRENCH TO FOIL HUN TO NAB SHIPS IN SPAIN

German Treachery at Scapa Flow Might Happen Again.

HAVRE, June 24.—The French navy will take possession of three German ships now interned in Spain. These ships are the Forst now Huelva; the Plant; and Balboa; and the Jidenburg at Cadiz.

The crews of twenty-seven men each will leave here immediately by train for the various ports.

SASK. SYNOD PROTESTS. Body Representing 115,000 Presbyterians Complains of Senate's Action.

REGINA, June 24.—The Saskatchewan Synod, representing over 115,000 Presbyterians, have wired Ottawa protesting against the action of the Canadian Senate in nullifying the prohibition legislation of the House of Commons.

HE CREATES VACUUMS OTHER MAN FILLS THEM

NEW YORK, June 24.—A cable announcement that Herbert Hoover had sailed from Liverpool on the Cunard Aquitania resulted in a small army of moving picture photographers and reporters going to the Cunard piers when the steamship docked today, but no one could be found who resembled the Director General of the inter allied relief organization.

A call boy paged Herbert Hoover and a man with that name answered.

URBAN TRUSTEES MEETING HERE

Representatives Coming From All Parts of Province to Attend Meeting Tomorrow.

A convention to form an Urban School Trustees Association is being held in the city tomorrow afternoon by the Public School Trustees. Organization will take place at the Welland House at one o'clock and business transacted until about four thirty when the Trustees will take their seats for an auto ride through the surrounding district arriving back at the Welland about 6.30 for dinner.

Hon. Dr. Cody has been invited to be present. Mayor Eison will extend a welcome to the delegates at the opening of the Convention.

Those who will be present are: Toronto—Mrs. Ada Courtice, Mrs. W. E. Groves, Miss Constance Boulton, Dr. John Hunter and Dr. John Noble.

London—S. Barnard, Chairman of the Board of Education. Windsor—Mr. Ray. Kitchener—H. L. Stabler. Sarnia—Rev. J. R. Hall. Ottawa—R. W. Hamilton and T. S. Kirby.

Brantford—J. W. Shepperson. Niagara Falls—Charles F. Swayze. Nelson Fielding and J. M. Mes. It is expected several other places will also send delegates although the names are not in yet.

The trustees are looking forward to a successful convention.

KNIGHTS OF MALTA ANNUAL CONVOCATION

BRANTFORD, June 24.—The ninth annual Convocation of the Chapter General in Canada of the Ancient, Illustrious and Military Order of the Knights of Malta was held in Brantford over the week-end. Minor changes in the constitution and revision of the ritual took up a good deal of the time of the 150 delegates. Toronto had the largest outside representation, with 35 delegates.

Authority was given to the Chapter General to organize in the United States, and Grand Master William Buckett of Brooklyn, N. Y., was appointed delegate of the Canadian Chapter General. The funds were reported to be in excellent condition with a surplus of \$10,000 on hand. The net gain in membership during the year was \$125.

T. Balcombe of St. Catharines, was elected marshal, and Alex Kay St. Catharines, was elected warden. Toronto was favored for the next Convocation, but the final decision was left to the Executive.

SIGNATURE OF TREATY NOT LIKELY BEFORE THURSDAY OR FRIDAY

WOULD PUT SENATE OUT OF BUSINESS Either Abolish or Make Elective the Upper Chamber, Says League.

The temperance organization of Welland meeting in that city this week have adopted the following resolution:

"Whereas the Senate of Canada, refusing to sanction the prohibition legislation passed unanimously by the Government of Canada, and heartily endorsed by the citizens of Canada have endeavored to thwart the wishes of the majority of the people of Canada, we, the members of the Welland County Temperance and Moral Reform League, in convention assembled, hereby express our strongest disapproval of their action, and call upon the Government and the citizens of Canada to abolish or make the Senate including present members elective."

The convention was attended by representatives from most parts of the county to the number of about 100. A resolution was also passed providing that the Welland County Temperance and Moral Reform League become the Welland Branch of the Referendum Committee and have charge in this county of the campaign soon to be held.

PARADE LEADER ARRESTED IN 'PEG

Man Who Defies Edict of Mayor and Other Warrants are Issued.

WINNIPEG, June 24.—Although there were not lacking indications of nervous tension the city remained calm. Special mounted soldier constables patrolled the city streets and the R. N. W. M. P. and military forces were standing by, prepared to meet any emergency. The armored airplane 'City of Winnipeg' made several reconnaissances over the city.

Germans However Vote to Accept Terms Unconditionally—Extension Requested Under Dramatic Circumstances.

WEIMAR, June 24.—The National Assembly of German has voted to sign the peace terms unconditionally. The Government have succeeded in overcoming the opposition of those who insisted on two conditions.

PARIS, June 24.—The signing of the peace treaty is not likely to take place before Thursday, possibly not until Friday. This announcement is made by Premier Clemenceau and Secretary Dutasta.

Dramatic Circumstances. The last German request for an extension of time was delivered during the night under dramatic circumstances. A French officer reached Paris at 2.30 a.m. from Versailles with a note from von Haniel saying that the Weimar Government had notified him it would sign the peace terms, but that the text of the message had not been decided upon and would be sent later.

This was immediately delivered to Secretary Dutasta's Chief of Staff. The Secretary was awakened and he in turn, at used Premier Lloyd George and Clemenceau and President Wilson. A meeting was then arranged for early in the morning.

FIFTY MEXICANS KILLED

LAREDO, TEXAS, June 24.—More than fifty Mexicans, chiefly poor laborers, were killed by bands of the Diaz faction of Mexican rebels, in revenge for the killing of General Blanquet, Diaz leader, by Federal forces, travelers reported today.

VESSEL MOVEMENTS

PORT COLBORNE, June 24.—DUNN, 4:15 p.m. to 7:45 a.m.; HERMANO, 4:15 p.m. to 7:45 a.m.; SQUINA 2 p.m.; PHAENIX 3; TOLAR 3; KEYBELL 7.

Up—M.V. 7 2 p.m.; WARION W. 5:20 a.m.; YUKING 2; TOMIS 4:20; TOULON 6; HOWARD W. 6:30; WYOMING 6:30. Toltec 12 noon.

Wind—Southwest.

BEAVERBROOK ENTERTAINED

Visits Birthplace of Bonar Law at Rexton.

MONCTON, June 24.—Lord Beaverbrook, who has been touring New Brunswick by automobile, arrived in Moncton yesterday afternoon from Rexton, where the party were the guests of Lieut. Governor Pugsley. Lord Beaverbrook left for Rexton for the purpose of visiting the old home and birthplace of A. Bonar Law, leader of the British House of Commons.

FINANCIAL

The Standard Stock Exchange was active and some stocks made gains. Announcement is made of a \$3,000,000 loan by the Province of British Columbia.

Prices on the Toronto Stock Exchange were firmer, with Dominion Cammers and Steel of Canada leading.

Preliminary arrangements have been entered into for the absorption of the Guardian Trust Company by the Chartered Trust and Executor Company.

ENTRANCING

TORONTO, June 24.—Silk waist, purse, four pairs of stockings. The foregoing may suggest part of the contents of a June bride's chest. As a matter of fact, Nathan Cohen was in police court on a charge of stealing the things from the T. Eaton Company. As he owned two houses, bail was accepted.

EXCESSIVE PROFITS

Evidence brought out before the
Committee of Living Enquiry Commission
has led to only one conclusion,
namely, that not a few firms producing
and handling the necessities of life
are making profits far in excess
of what should be made.

CHILDREN AND THE PHONO-
GRAPH

The possibilities of this phonograph
as a developer of appreciative music
study is recognized by many public
school authorities and vocal teachers.

LOAN COMPANIES

The failure of the Standard Real
Estate Mortgage Corporation was due
to speculative risks incurred by
subsidiary companies, remarks the
Hamilton Spectator.

PROBS FOR AIRMEN

(Scientific American)
The British Daily Weather Report
issued by the Meteorological Office in
London, has recently undergone a
notable expansion, reflecting the great
increase in the work carried on by
England's "Clerk of the Weather" in
response to the varied demands that
arose during the war.

TRADE WITH NORTHERN
EUROPE

Export licenses for Canadian ship-
ments of restricted goods to Denmark
and Sweden will now be granted
without prior production of import-
er's guarantee against re-export. Ob-
taining foreign import guarantees for
shipments to the northern neutral
countries has for several months been
the source of difficulty, owing to the
complex regulations on the other side
but these are being greatly simpli-
fied.

WHAT EXCHANGES SAY

AVIATORS AT PEACEMAKERS

The arrival of Alcock and Brown
brought at a love feast at Dublin
The Dublin crowd stormed the train
on which the flyers arrived and car-
ried them in great triumphal proces-
sion through the streets.

GERMANY AND PEACE

In 1871 when the French delegates
desired to confirm the debate Bis-
marck abruptly ordered them to sign
the treaty, declaring that in the event
of their refusal the German troops
would instantly renew hostilities with
"whatever they could find to fight".

LET PUBLIC WORKS

TAKE UP THE SLACK
Each day that labor is unemployed
there is an economic loss to the com-
munity. Every man not employed is
either a public charge or an idle-pro-
ducing unit, and since it is certain that
return to peace basis will take some
time, public works should absorb labor
as far as possible, even under condi-
tions which might seem uneconomical
on account of high wages, scales and
high price of materials.

AMONG THIRTY
THOUSAND ISLANDS
OF GEORGIAN BAY

The 30,000 Islands of the Georgian
Bay is one of the most attractive of
Canada's summer resort territories
with its shaded nooks, wave lashed
shore and rocky forest depths. It
comprises some of the finest fishing
grounds, where bass, pickerel and
maskinonge are plentiful and lake
trout are caught weighing from ten
to fifteen pounds. Among the attrac-
tions other than fishing this district
offers fine canoe routes for long and
short trips among the islands and
amid fascinating scenery.

disorders and sickly complexions are
urged to get a quarter pound of
limestone phosphate from the drug
store which will cost very little, but
which will cost very little, but is suf-
ficient to make anyone a pronounced
crank on the subject of internal
sanitation.

MEN MEN
TRY IT TO-NIGHT—
FEEL FINE TOMORROW

Simple Way to Get "Pop" to
Be Put Right on Your
Feet

When a man has lost ambition to
"dig in" and stay at things—when
he complains of headaches, fullness
in the right side, pains in the shoulder
blade—it's purely a case of
"Liver."

These symptoms invariably indi-
cate a clogged, inactive liver. The
body can't get rid of its wastes, and
the whole system is half paralyzed.

Dr. Hamilton's Pills stimulate the
liver into activity in one night. Be-
ing a mild vegetable laxative they
produce results in a few hours. The
bilious headache and constipation are
cured, spirits rise, complexion clears,
animation returns. Nothing in the
calendar so efficient for that tired,
lazy feeling as Dr. Hamilton's Pills.
Very mild, don't interfere with
work, invariably do lots of good. Try
a 25c box, all dealers.

FORAGE CROPS FOR PIGS

Raise All the Dairy Calves You
Possibly Can.

Milk Than of Cream Where Loca-
tion is Favorable.

(Contributed by Ontario Department of
AGRICULTURE, TORONTO.)

FOR the farmer who is raising
hogs, one of the greatest
problems is summer pasture.
A new luxuriant growth of
green grass is soon eaten off when
the dry hot season comes and it is
just at this time when the stockman
needs some form of succulent feed
for his stock. When the stock are
running on pasture they are getting
back to nature and there is nothing
like good green feed as a conditioner
for the animals.

As for forage crops in this country
alfalfa and rape seem to give the
best results, although anything that
will produce a good green growth in
a dry season is all right. Wherever
alfalfa will grow it gives the best
kind of permanent pasture for pigs,
as there is no danger from frost as
in the case of sheep and cattle.

Alfalfa provides pasture for a greater
length of time than any of the
grasses and is green and succulent
when the clover has become
somewhat dried and woody.

Heavy pasturing of alfalfa is not
good for it and consequently the
number of animals allowed to pasture
there should be restricted and the
plants should be allowed to grow
up and be cut two or three times a
season. Pigs, fed corn alone on alfalfa
pasture, make fairly satisfactory
gains since the protein in the alfalfa
helps to balance up the de-
ficiencies in corn, although for best
results a little of some nitrogenous
material should be fed. Red
clover in the country grows very
well and is a pasture for pigs,
for the reason that it can be grown
in a great many localities where
alfalfa cannot be raised at all and
consequently its great value. At one
of the Experimental Stations in the
States, red clover was inferior only
to alfalfa, while at another it was
found that it was surpassed only by
alfalfa and rape.

As an annual pasture for swine
nothing surpasses rape. It can be
sown both early and late in the
season and as a consequence forage may
be provided for any time. To get
the best results from rape, it should
be sown in the spring and allowed
to obtain a height of twelve to four-
teen inches before turning the ani-
mals in. Care should be taken not
to allow the plants to be eaten off
too closely as the young plants do
not get a chance to recuperate. To
the best advantage, the rape should
be provided a second plot where the
animals could be turned in for a
time. Rape is also grown in con-
junction with oats or with oats and
the Black Swallowtail varieties of
rape and oats next to alfalfa
and red clover for pig pasture.

For young pigs in pasture it is
not wise to force them to subsist on
what they can get. They should be
fed a little grain. Pigs that are being
pastured for the purpose of fat-
tening later should have a limited
grain ration, as this system of feed-
ing is the most economical.

—J. C. McBeath, B.S.A., O. A. Col-
lege, Guelph.

SHALL I REAR DAIRY CALVES IN 1919?

In brief, raise all the heifer calves
of which there is feed, labor, and
stable-room. More than the number
are needed in Ontario. The number
of milk-cows in the province has re-
mained stationary at about one mil-
lion, for a good many years. There
is no good reason why this number
should not be doubled in the next ten
years, but it can be done only by
rearing or buying. Buying cows is
impractical at this time. It is far bet-
ter plan to raise cows. This means
that all the best heifer calves should
be saved for future cows. As it re-
quires from three to four years to
change one cow into another, in order
to double the cow population in ten
years, making allowances for neces-
sary discards, we need to begin right
away, in order to attain the desired
object.

The average number of cows per
100 acres of farm land in Canada is
but two, and in Denmark it is
fourteen, and in Holland sixteen. We
have a long way to go in rearing
cows, before we have anywhere near
the number which are found in the
best European dairy countries.

There is but one satisfactory way to
attain this result, and that is by
raising practically all the heifer
calves dropped during the next ten
years and as many pure-bred calves
of excellent ancestry, as may be re-
quired for breeding purposes.

Shall I Sell Milk or Cream?
This will be determined to a large
extent by the character of the farm-
ing operations. If the need for
direct, quick cash in largest amount,
is great, then selling milk will beat
"all the bill." On the other hand,
if the dairy farmer can afford to wait
for the slower returns from cream
and live-stock, and particularly if he
desires to improve or maintain soil
fertility, then selling cream is to be
recommended.

Neatness to market is another
factor. Where the dairyman is near
a small town and had the time to
"peddle" milk, he can make more
money out of his cows than by any
other system. At ten to twelve cents
condensed milk will net him from
\$250 to \$300 per year for her milk.
When this is compared with \$100 to
\$150 per cow, where cream is sold,
or milk sent to a cheese factory or
condensery, we see what a decided
money advantage there is in selling
milk to customers direct. — Prof.
H. H. Dean, O. A. College, Guelph.

Harry Matthews, a returned soldier
of Hamilton, reported his wife miss-
ing since Saturday morning.

POTATO CROP DISEASES

Most Serious of Them Widely
Established in Old Ontario.

Varieties of Grains Which Give Best
Least Yields—O. A. C. No. 21 Best
Barley of All—Get Everything
in Readiness for Spring Spraying
Now.

(Contributed by Ontario Department of
AGRICULTURE, TORONTO.)

OFFICIALS of the Ontario De-
partment of Agriculture in-
spected 213 seed potato
fields in Northern Ontario
last year of 275 acres, and 118 adds
qualified for certified seed. It is es-
timated that there were 16,000 bushels
of certified seed secured from North-
ern Ontario. All of this is being
shipped to Old Ontario to be planted
this year.

The survey which was made last
year by inspectors to detect diseases
of seed potatoes was spread over 32
counties, although the reports from
four of that number are not included
in the statistics because of irregularities
in the work. The territory cover-
ed was from Northumberland and
Peterborough counties west to Essex,
not including Simcoe and Victoria. It
was found in this survey that an
average of 15 per cent. of the potato
fields had the most serious disease of
Leaf Roll, and that 7 per cent. were
affected with Mosaic, a total of 22
per cent. affected by disease. An in-
teresting fact revealed by the survey
is that the diseases are most common
along the shores of Lake Ontario,
through Dufferin and Wellington
counties, and along the shore of Lake
Erie through to Essex county. Far-
ther north the percentage of disease
is much smaller. While the average
for the two diseases is 22 per cent.,
some of the counties showed a much
higher rate, as Hamilton 29, Wel-
land 61.7, Lincoln 33.5, Wentworth
26.6, Brant 44.8, Halton 32.1, Peel
51.9 and York 25.4. The standard in
this province permits of two per cent.
Leaf Roll in No. 1 seed and 5 per
cent. in No. 2. In severe Mosaic the
percentage is the same, although
in slight Mosaic the figures are
lower.

The cause of these diseases is not
known. Whether there is some or-
ganism, or whether the climate
has something to do with them, is a
matter of doubt. Prof. B. A. Murphy
of Charlottetown, who is the Chief
Pathologist for potatoes for the Dom-
inion, and who is attached to the
Central Experimental Farm, is at
present working on the problem, and it is
hoped that before many months the cause
will be known. At any rate, it is
known that the diseases are more
common in potatoes in the Southern
States than in the North, and that
Ontario seed potatoes will be in de-
mand there in a few years.

Leading Varieties of Spring Grain.

The old six-rowed barley gave way
to the four-rowed, and that in turn
has given place to the O.A.C. No. 21,
which is now grown throughout Onta-
rio to the exclusion of practically
all other varieties. The Egyptian and
the Black Swallowtail varieties of
barley which were popular at one time
have been largely displaced by the Banner
and more recently by the O.A.C. No.
72 and the O.A.C. No. 3 varieties.
The O.A.C. No. 72 variety has a com-
paratively strong vigorous straw,
spreading head, and white grain of
good quality. The best barley grown
in Ontario is the Banner, which was
introduced by the Ontario Agricultural
College in 1910, and is a variety of
line out of ten years. It has made
a phenomenal record in connection
with the Ontario Standing Field Crop
Competitions, taking more first prizes
than all other varieties of oats com-
bined. The O.A.C. No. 3 variety is
two rows taller than the Banner of
the O.A.C. No. 72, and is an excellent
variety for mixing with barley when
it is desirable to grow the two in
combination. Of the spring wheats
the Red Eye, the Margius and the
Wild Goose are the principal varieties.
At the present time, however,
when the demand for wheat for bread
is so urgent, the Margius and the
Red Eye, and especially the
former, should be grown as exten-
sively as possible in Ontario. Spring
rye should yield equal to winter
rye but its cultivation will perhaps
be increased somewhat during the
present year. The O.A.C. No. 61
variety has given the best results,
surpassing all other kinds of
grain per acre.—Dr. C. A. Zavitz,
O. A. College, Guelph.

Prepare for Spring Spraying.

Efficient and economical spraying is
hard to attain with the use of poor
machinery. The power sprayer is an
expensive piece of machinery, but it
is effective when properly handled.
The usefulness can be greatly impar-
ed by improper care. To secure the
highest degree of efficiency in spray-
ing the maintenance of high pressure
is necessary. Probably high pressure
is not needed in all cases; it is, how-
ever, true that by means of it more
thorough and, consequently, more ef-
fective work can be done in a much
shorter time and with much less
effort.

The agitation of the liquid in the
tank is another important matter. In
the case of most sprays, the individ-
ual particles that make up the in-
secticide are suspended in the water.
Unless the sprayer is equipped with
a good agitator, these particles will
settle to the bottom, rendering the
mixture in the top of the tank weaker
than it should be, and that in the
bottom stronger, and possibly in
some cases too strong for safe appli-
cation.

It is needless to say that the care
of spraying machinery should never
be neglected. Indeed, the spraying
bath should never be put away af-
ter doing until the mixture is thor-
oughly cleared out from all parts of
the pump, rod, piping, hose and
nozzles by running clear water through
them. The water should be drained
from the engine, and all parts clean-
ed and oiled.—Prof. Jap. Evans,
O. A. College, Guelph.

Saskatoon Presbytery and Welland
County Temperance and Moral Reform
League passed resolutions denouncing
the Senate's action on prohibition and
calling for its reform or abolition.

FORAGE CROPS FOR PIGS

Raise All the Dairy Calves You
Possibly Can.

We should Strive to Double Our Cow
Population in the Next Ten Years
—More Immediate and Larger
Cash Returns, Secured by Sale of
Milk Than of Cream Where Loca-
tion is Favorable.

(Contributed by Ontario Department of
AGRICULTURE, TORONTO.)

FOR the farmer who is raising
hogs, one of the greatest
problems is summer pasture.
A new luxuriant growth of
green grass is soon eaten off when
the dry hot season comes and it is
just at this time when the stockman
needs some form of succulent feed
for his stock. When the stock are
running on pasture they are getting
back to nature and there is nothing
like good green feed as a conditioner
for the animals.

As for forage crops in this country
alfalfa and rape seem to give the
best results, although anything that
will produce a good green growth in
a dry season is all right. Wherever
alfalfa will grow it gives the best
kind of permanent pasture for pigs,
as there is no danger from frost as
in the case of sheep and cattle.

Alfalfa provides pasture for a greater
length of time than any of the
grasses and is green and succulent
when the clover has become
somewhat dried and woody.

Heavy pasturing of alfalfa is not
good for it and consequently the
number of animals allowed to pasture
there should be restricted and the
plants should be allowed to grow
up and be cut two or three times a
season. Pigs, fed corn alone on alfalfa
pasture, make fairly satisfactory
gains since the protein in the alfalfa
helps to balance up the de-
ficiencies in corn, although for best
results a little of some nitrogenous

Six times round the deck—
a mile—before breakfast

FALL IN LINE, EVERYBODY!

A TRIP to remember! In after years and other places, you will recall these joyous promenades in the early Summer morning 'round the deck of the "Noronic."
Already the early risers are heading for the promenade. The circling Seagulls are flashing in the morning sun and dipping in the shimmering blue waters; while, far away, the plant freighter glides on down the Lakes. It is good to be alive—to breathe these lake-swept breezes—to share such gay companion-ship.
Breakfast is waiting—happily prepared to satisfy these keen-edged fresh air appetites.

Noronic — Hamonic — Huronic

These mighty Steamers take us sixteen hundred miles—from Detroit to Sarnia, across Lake Huron, through the Locks of the " Soo," on to Canada's Twin Cities—Port Arthur and Fort William, until finally we reach our Northern terminus—Duluth. We are southwest bound once more.

Spend six days of your vacation on board one of these luxurious steamers. Enjoy the rare good fellowship of the finest people of two nations.

\$56.50 for 6-Day Trip
For continuous 6 day round trip cruises from Sarnia, including meals, berth, afternoon tea, evening dances, plus to Kookabaka Falls. Everything—\$50.00 and up.
Fare—rates are cheaper than local rates.
Perfect information on any Grand Trunk Ticket Agent—The Company at Sarnia.
Write to E. D. Geoghegan, Eastern Pass. Agt. Sarnia for "Cruise" Booklet.

Three Ships Weekly from Sarnia for "Soo," Ft. William, Port Arthur and Duluth.

1000-Mile Saguenay Cruise
Another wonderful Post Trip—through 1000 Islands, 604 St. Lawrence River Rapids; stop-over at Montreal and Quebec; then on to Quebec, Gaspé and the glorious Saguenay.

CANADA AS A BEAR LAND

(1) Grizzly bear at Banff, (2) Polar bear in Banff Zoo. (3) Black bear cub, Alaska.

CANADA grows bears as well as grains and fruits and other products of the soil.
Bears is to be found in every province, but it is in the mountain region of British Columbia that he flourishes. There one will find grizzlies and silver tips, browns and blacks and grays, and all the subtleties in between, including Teddy and Johnny cubs, among the children. All of these specimens may be seen in the interesting Zoological gardens at Banff, where they are lined up like soldiers on parade, in front of their cages—especially as dinner time nears.
But it is more interesting and exciting to see a bear as he runs wild in the woods. One day while following a narrow mountain trail in the Rockies, I was surprised to see a few yards ahead, what seemed like a line of the trail move to one side.

It was a half-grown black bear. Our surprise was mutual, as we unanimously voted to separate. Or, on another occasion in Muskoka, when we almost walked on a big shaggy specimen enjoying a supper of wild berries. Here, too, we apologized for disturbing him at his meal, and gracefully and quickly withdrew.
On yet another occasion we came upon bear footprints on a snowfield in the Rockies in the Piarmigan Pass, north of Lake Louise. They were freshly made on new fallen snow. "He's a whopper," remarked our guide, as the toe marks were studied, "and somewhere near too—an old grizzly I guess."
That led to some great bear stories that night around the camp-fire by our guide, who is a hunter as well as a prospector and mountaineer. One especially gave us lively nightmares, of a long struggle he had, alone and single-handed, with a monster grizzly, who, when he stood upright, towered above his human foe. It was literally a fight to the death, with the grizzly the loser.—F. Y.

Three United States tennis players beat three Britishers in the opening games of the world's championship tennis tournament in England yesterday.
Rev. Canon O'Meara, parish priest of St. Gabriel's Church, Montreal, was found dead in bed from heart failure said three Britishers in the opening games of the world's championship tennis tournament in England brother's drowning the day before.

ECONOMY, CONFIDENCE, EXPANSION

(Sir John Willison in Municipal Journal.)

No one who thinks can doubt that Canada, like other countries, has a difficult situation to face now the war is over. We must retain our population if we are to bear without excessive strain the great burden that the war will have laid upon us. But if we are wise and far sighted we may enter through reconstruction into an era of national expansion and prosperity. Through the long war, with France, Great Britain established her commercial supremacy. With the close of the Civil War in the United States began the era of American industrial expansion. The war of 1780 laid a load upon France which stimulated her people to thrift, industry and scientific utilization of her raw materials. Necessity drove nations as it drives individuals to greater economy and exertion. Few countries have such rich natural resources as we have in Canada or such areas of fertile land. We have had trade preferences in British markets and probably priority of raw materials for the industries of the Empire. Doubtless, too, we shall have an imperial organization of shipping which will give us advantage in connections with British and foreign markets. We have a great railway system built with cheap money which may prove to be a great asset than we would admit. It is legitimate that the natural resources of Canada should be developed in the national interest and that processes of manufacture should be carried to completion in Canadian factories. Too often we confuse loyalty to Great Britain with loyalty to the Empire. An industry in Canada or settlement in Canada is as valuable to the Empire as an industry or settlement elsewhere, under the flag. If we ever doubted that the war was a complete and final demonstration: During the first years of peace we may have little immigration from the Old World owing to the congestion of shipping but we shall have continuous immigration in greater or lesser degree from the United States. It will be necessary to adjust immigration to conditions and with greater regard to national cohesion and national character. But the land will bring people as raw materials of manufacture will bring industries if we make the national welfare the supreme concern in legislation. We must not forget that now the war is over the United States will have a great commercial fleet and industries organized for export trade, not inferior to those of any other country. We, too, must continue to build ships and organize our industries for greater and cheaper production. We must also as never before resist public waste and extravagance. It is my judgment that in the last 20 years we have wasted \$500,000,000 of public money in Canada. If waste was censurable before the war, it is criminal after the war. But in a free country only a stern, active, energetic public opinion ensures economy in public expenditures. But primarily and chiefly we must organize to re-establish the soldiers in civil pursuits to improve our position in the world markets, to ensure that factories will not be idle and labor unemployed now that peace has come, to stimulate agriculture by generous public support and the creation or expansion of industries closely related to production and to maintain satisfactory relations between employers and employed. It is idle to deny that we face tasks of tremendous magnitude, but with organization courage and confidence and undeviating devotion to the common national interest we can repair the ravages of war, reconstruct our industrial system and build upon stable foundations a greater and happier Canada.

down and his orphan we must protect and cherish. I cannot think that the scale of pensions is yet adequate, or can I think that the people of Canada are yet fully conscious of the difficult problems which lie in the future. It is altogether desirable that soldiers who will go upon the land should be assisted to establish themselves. But they cannot be subjected to restraint or compulsion. For many of those who choose other avocations many whose courses at college or university were interrupted in the natural time of preparation for the future, many of those middle age whose businesses have been ruined and whose old connections have been broken, we shall have to provide a system of credits in partial compensation for the losses that never can be wholly repaired. Actual shortage of money will be one of the most serious handicaps. Thus far the necessity for financial assistance has been recognized only

HERE'S a welcome to the returned soldier and his bride. May their wedded life be a long and happy one.
If she is a "British Bride" she will be very fond of tea—and good tea, at that.
She will first be attracted to Red Rose Tea by the name which will remind her of the "Red Rose" of "Old England".
And when she tries it she will again be reminded of the "Homeland", for she will find Red Rose Tea the same kind of Tea that she has used at home—a rich, full-flavored blend, consisting chiefly of ASSAM teas grown in British-owned plantations in northern India.
Red Rose Tea is sold always in sealed packages.

RED ROSE TEA "is good tea"

in the agricultural programmes of the various Provinces and the land settlement proposals of the Federal Government. But the extension of substantial credits on easy terms to war veterans is necessary if re-establishment is to be successfully accomplished and is an obligation upon the Dominion which, in justice to its soldiers, it cannot ignore. We will meet the test of peace far less nobly than we met the test of war if those who seek employment seek in vain; if we fail in adequate preparation for the conditions and problems which we cannot escape now peace is restored. One feels the necessity for counsels of patience and prudence, for generous dealing with those who have endeared Canada on many a bloody field for energy and integrity in public administration and that high respect for public faith and public order which so peculiarly and honorably distinguishes the Empire to which we belong. As we listen we still seem to hear across the sea the whispers of those who died, but there is now to be peace and rejoicing and for the long future free men, free seas, a free world. If we are courageous, united and confident, we shall not shame those who have kept us in honor and security by endurance, sacrifice and valour as sublime as ever was displayed in human history. "Jerusalem is builded as a city that is compact together."

"Brother Feels Sick! He Wants a Candy Cascaret"

To Mothers! You will avoid worry and trouble by giving your children Cascarets instead of nasty Castor Oil, Calomel and Pills. Children look upon Cascarets as Candy and never refuse them even when sick, bilious, feverish, constipated. Besides Cascarets cost only 10 cents a box.

Nothing else works the bile, sour fermentations and poisons from a child's tender stomach, liver and bowels like good old harmless Cascarets. They never gripe, never injure, never disappoint the worried mother. Give Cascarets to children aged one year and upwards. Directions on each 10 cent box.

June Weddings

ZIMMERMAN-PETTIGREW

A very pretty house wedding took place at high noon on Saturday, at the home of Mr. and Mrs. Alex Pettigrew, Disher Street, Merriton, when their youngest daughter, Iva Marie, became the bride of Lloyd Wesley Zimmerman, only son of Mr. and Mrs. Fred Zimmerman, 59 Albert Street, St. Catharines. Promptly on the hour, the bride entered the room on the arm of her father, through a ribbon aisle held by four girl friends to the strains of Lohengrins wedding march played by her cousin Miss Nellie Gillis. The house was beautifully decorated with orange blossoms and roses, and the ceremony was performed by the Rev. J. Culp of Hamilton, formerly of Merriton, under an arch of marguerites.

The bride looked charming in a dress of white charmeuse satin with geometric overdress trimmed with pearls and wore the customary veil and orange blossoms. She carried a shower bouquet of bridal roses.

The bride was attended by her sister Kathleen who was handsomely gowned in a maize colored dress of crepe-de-chene and georgette. Her bouquet was of pink sweetheart roses. Little Eva Pettigrew, of Toledo, Ohio, cousin of the bride made a very pretty flower girl dressed in white nixon with pink rosette trimmings and carried a basket of pink and white roses. The groom was ably supported by his cousin Lieut. George Sheppard, who has recently returned from overseas. The groom's gift to his bride was a diamond necklace, to the bridesmaid and pianist pearl brooches, to the flower girl, gold beauty-pins, and to the groomsmen, gold cuff links. After the ceremony a delicious buffet luncheon was served. The happy couple motored to Buffalo, where they left by boat for Detroit, Toledo, and Cleveland. The bride travelled in a navy blue serge suit with hat to match and wore a fox fur gift of the groom. The gifts were numerous and costly including a substantial check from the groom's parents and a victrola from the brides parents. Out of town guests were present from Toledo, Cleveland, Hamilton and Beausville.

Just because their corns ache—easy to cure them with Putnam's Corn Extractor; it acts painlessly in twenty-four hours. For corns, warts and callouses the only thing is 'Putnam's'; try it, 25c at all dealers.

Department of Railways and Canals. WELAND SHIP CANAL NOTICE TO CONTRACTORS.

SEALED TENDERS, addressed to the undersigned and marked, "Tender for the Supply and Delivery of Sand, Season 1919", will be received at this office until 12 o'clock noon on Thursday, June 26, 1919.

Specifications and tender form can be obtained on and after this date from the Chief Engineer of the Department of Railways and Canals, Ottawa, and the Engineer in Charge, Welland Ship Canal, St. Catharines, Ont.

An accepted bank cheque on a chartered bank of Canada for the sum of \$6,000, made payable to the order of the Minister of Railways and Canals, must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rate stated in the offer submitted.

The cheque thus sent in, will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security for the fulfilment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
J. W. PUGSLEY, Secretary.
Department of Railways and Canals, Ottawa, June 11, 1919.

Conserve the Soil Moisture. Moisture is the most important soil property. Without it a crop is absolutely impossible, no matter how much fertility may be present. With the proper amount large crops are obtained, while on the other hand if moisture is excessive or deficient the yield is diminished according as it will excess or deficiency increases. If all the water necessary for the production of a full crop could be collected on the surface of the ground at one time it would be from 18 inches to 24 inches deep, depending on the crop and the season! During the growing season only 10 or 12 inches of rain falls in Ontario, and this is only half the amount required by the crops. Hence it becomes necessary to store up in the soil as much of the winter and spring rains as possible, while at the same time guarding against excess.

The amount of water a soil may contain depends on the pore space in the soil. Sands have least pore space, loams and mucks most, and clay is intermediate. The porosity of a coarse sand is about 35 per cent, of a loam or muck about 50 per cent, and of a heavy clay about 45 per cent. From these figures it will be seen that a soil may contain nearly as much water as soil grains. Since the plant roots require air it is desirable to have all the soil pores filled with water; some free air space must be left, hence drainage becomes necessary.

There are three ways that water may be lost: first by run-off, and secondly by drainage, and thirdly by evaporation. Of these three the greatest loss is evaporation. It may amount to half the total rainfall. As long as the soil is wet in the spring we want all these at work, but as soon as the soil is dry enough for cultivation we want the losses cut off. And cultivation is the only direct means by which this can be done in summer. Cultivation should begin just as early as the soil is dry enough. To delay one week may cause the loss of an inch of water, and if the year is as dry as this is as much as falls in the month of April, a very serious matter when the needs are so great and the supply so limited. In the fall of the year cultivation should be deep to increase absorption and retention of water; in the spring shallow, in order to produce a dry layer of soil on the surface to cut on evaporation.—Prof. W. H. Day, Ontario Agricultural College.

A Cheap and Efficient Method of Controlling Grasshoppers. Grasshoppers may be easily and cheaply controlled by poisoning with the bran mixture, which is made as follows: 20 lbs. bran, 1 lb. Paris green, 1/2 gal. molasses, 2 gals. water, 2 or 3 lbs. kerosene.

The bran and Paris green should be mixed thoroughly together when dry. This should be done the night before using. In the morning squeeze the juice of the lemons into the water, run the pulp and rind through a meat chopper and add this and the molasses to the water. Stir well and then pour the liquid on the poisoned bran and mix so, thoroughly that every part is moist and will fall like sawdust through the fingers. The mash should be applied early in the morning between five and seven o'clock, by scattering thinly over the infested field, in the fence corners and on roadsides where the insects have been observed. The above amount will suffice for four or five acres. It will be well to make an inspection three or four days later, and if there are many survivors to make a second application. It is important to attend to this matter as early in the season as the young grasshoppers are noticed, and not to wait till they grow big and have caused a considerable amount of damage.

The same means may be employed for the control of cutworms, making the application wherever the worms are observed just before dark in the evening.—L. Caesar, B.S.A., Provincial Entomologist.

PRESIDENT WILSON TO LEAVE FOR HOME THIS WEEK END
WASHINGTON, June 24.—President Wilson cabled Secretary Tumulty that he expected to leave Brest on his homeward journey Wednesday or Thursday.

There were only two or three minor cases of violations of civic by-laws in the Police Court today.

Shortage of farm help in Welland County is said to be seriously interfering with the work of the farmers. Sixty per cent. of the applications for help that cannot be filled are for farm labor.

The strike of 175 ship workers and helpers at the ship yards of the Canadian Allis Chalmers plant at Bridgeburg has been settled. The men returned to work yesterday.

Citizens are complaining to The Journal of the number of dogs that are running at large. The Police department stated that it is hard to get a dog catcher. Even the man who used to officiate at the solemn burial of canines quit his job. The hot season is here when dogs become dangerous and citizens should be careful.

NOTICE OF REGISTRATION OF BY-LAW
Notice is hereby given that a By-Law was passed by the Municipal Council of the Township of Louth in the county of Lincoln on the ninth day of June A.D. 1919, providing for the issue of debentures to the amount of \$20,000 for the purpose of erecting a new school house in School Section number three of the said township of Louth, and that such By-Law was registered in the Registry Office of the County of Lincoln on the twenty-third day of June A.D. 1919.

Any motion to quash or set aside the same or any part thereof must be made within three months after the first publication of this notice and cannot be made thereafter.

Dated this twenty-third day of June, A.D. 1919.

IT PAYS TO READ ADVERTISEMENTS

You've heard the saying, "It pays to advertise." That is true. And it also pays to read advertisements—pays *you*. If you read advertisements consistently for any length of time you will agree that this statement is also true.

It pays in money saved. There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

It pays you in satisfaction. When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." You have a right to expect satisfaction from what you buy, and you **get it**.

It pays you in time saved. When you know exactly what you want to buy and where you want to buy it, you don't have to "look around" and waste time finding it.

Don't *you* want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.

Why? not

Seek the best. The price is the same, but the quality of our bread is superior.

Good Bread is essential to man's health.

To be sure of the good kind

PREPARING FOR TRANS-ATLANTIC FLYING

(1) Lieut. Harris (on right) explaining Crown kite to St John officers. (2) Starting large Crown kite—box kite resting on the left.

In future days when one takes a casual flight across the Atlantic, in a Detroit flying flivver, the success of the trip can be credited to the British Air Ministry in general, the meteorological in particular and Lieut. Guy Harris, F.R.M.S., R.A.F., specifically.

Lieut. Harris arrived in St. John recently, the only passenger on board the Canadian Pacific Steamship Montclair. He is the commander of the Atlantic upper air investigation expedition which under the control of the Royal Air Ministry will chart every air current and make the air route across the Atlantic as sure and safe as the water pathway.

The prospects for cross Atlantic flights by aeroplanes are entirely favourable, and it is hoped to make the journey without touching the Azores. Early news of conditions ahead will have the greatest influence on the success of the venture.

There are two winches, one placed on the fore deck for use when the wind is aft, and the other for use when the wind is ahead or abeam, is to be sent off on the gun platform in the stern of the ship. By these means the mooring cables which are of fine steel wire very similar to marine sounding cable will be kept clear of rigging and derricks whatever may be the angle from the ship at which the kite is flying.

When the soundings are taken two kites are attached to the cable and a pilot of light make and 400 feet behind it one of the higher box kites carrying meteorograph. The air cur-

rents and varieties of atmospheric pressure vary in layers upwards, and soundings can be taken up to a height of four or five miles. The meteorograph, a comparatively small instrument combining three devices in one, records at the same time, by pen points marking a chart on a revolving drum, the humidity of the air, atmospheric pressure, and the speed of the wind, all factors of the utmost importance in the consideration of flight.

LICENSING THE CAT

Friends of both birds and cats will be interested to see how the cat licensing bill now before the Connecticut Legislature comes out. According to the Hartford Times the Audubon Society, the American Bird Propagation and Protection Society, the Hartford Bird Study Club, the Woman's Animal Rescue League and the Trap Shooters Association were all backing the bill.

Children Love Candy Cascarets

Careful mothers know that Cascarets in the
home mean less sickness, less trouble, less worry,
less cost. When one of the kiddies has a white
tongue, feverish breath, sour stomach or a cold, a
Cascaret quickly and harmlessly "works" the poi-
sons from the liver and bowels and all is well again.

TO MOTHERS! While all children detest castor oil, calomel,
pills and laxatives, they really love to take Cascarets because they taste like
candy. Cascarets "work" the nasty bile, sour fermentations and constipa-
tion poison from the child's tender stomach, liver and bowels without pain
or griping. Cascarets never disappoint the worried mother. Each 10 cent
box contains directions for children aged one year old and upwards.

**VIEWS OF STRIKING
EMPLOYEES**

Editor The Journal, St. Catharines.
Dear Sir: Pursuant to the "adver-
tised policy" of the Beaver Wood Fibre
Company and on behalf of the
striking employees, members of the
International Brotherhood of Paper-
makers, I desire to reply to some of
the statements made by the above-
mentioned Company, under date of
June 19th. I would thank you to pub-
lish same in order that the position
of the striking employees might be
placed in its true light. Space will not
permit me to reply in detail, how-
ever. I therefore, will try to be as ex-
plicit as possible.
As a matter of explanation it is my
desire to take up the matter of Mr.
G. C. Robinson's statement regard-
ing "a Mr. Nellegar" who stated he
was an organizer. To this I wish to
say that Mr. Nellegar is not only an
organizer for the International Broth-
erhood of Papermakers but is also
General Organizer for the American
Federation of Labor. It is true that
Mr. Nellegar called upon Mr. Robin-
son at the Buffalo office of the Beaver
Company and presented demands and
memorandum of agreement and it
is also true that Mr. Robinson stated
the position of his Company and the
arbitrary position the employes
had taken. Mr. Robinson further ex-
plains that Mr. Nellegar called him
in the phone at ten minutes after
eleven on the morning of June 17th.
I desire to say that this is also true
but as a matter of fact Mr. Nellegar
endeavored to communicate with Mr.
Robinson as early as nine o'clock of
the same morning but was unable to
do so, due to the fact that Mr. Robin-
son was absent from the Buffalo of-
fice.
On the morning above mentioned
Mr. Robinson was at the mill in
Thorold where he had gone for the
purpose of meeting with the mem-
bers of the Union.
I desire to say further, that as early
as Friday morning June 13th, Mr.
Nellegar was in communication with
the Buffalo office of the Beaver Com-
pany and endeavored to communicate
with Mr. McGlashan or any other
accredited representative, receiving
the advice, that Mr. McGlashan was
absent in Europe and that the au-
thority to appeal to was Mr. Robinson.
This information was given by a Mr.
Davis who advised that Mr. Robinson
was absent from the city and would
not return until Saturday or Monday.
The nature of Mr. Nellegar's busi-
ness was communicated to Mr. Davis
who I have reason to believe com-
municated with some representative
of the Company, for the reason that
on the same afternoon, Friday, a no-
tice was posted in the mill at Thorold
to the effect that the grinder room
help would go on the eight hour ba-
sis on Monday morning, June 16th. In
my opinion that is considerably more
time given, the company than the
fifty minutes mentioned in the ar-
ticle which appeared in The Stand-
ard.
For past four weeks work of organ-
izing has been going on among the
employees of the mill at Thorold and
it is safe to say that the Company
was well aware of the intention of
their employees.
It has been stated that the de-
mands of the employees are arbitrary
and that the grievances are imagin-
ary. Let me ask if when men are com-
pelled to work eleven and thirteen
hours they have not grievance enough
and especially when they are com-
pelled against their fellow workers
in other localities who are compelled
to work eight hours only. Let me ask
again, if a demand should not be made
for good lavatories and sanitation,
and further, if unfiltered water pumped
from the canal is not grievance

enough, to say nothing of the long
hours of employment.
It has been stated that for econ-
omical reasons the eight hour work-
day would be granted on July 1st and
to this I desire to say that the only
reason, it seems to us, for the Com-
pany granting the eight hours at any
time is to forestall the organization
of its employees. In order to prove
this let me quote Mr. Robinson "As
early as last year, Mr. Nellegar, the
directors of the Company, decided
that they would adopt the eight hour
workday for economical reason." Now
if this is true, why was it that the
directors waited so long before put-
ting into execution their plan of eco-
nomy? I suppose the war had some-
thing to do with it?
To again quote Mr. Robinson "I or
no other representative of the Com-
pany, have any authority to enter into
the matter of either grievances or
agreement with your Union in the
absence of Mr. McGlashan"

Now, if there is no authority in the
absence of Mr. McGlashan, let me ask
who had the authority to reduce the
hours of the mechanics from a ten
hour work-day to nine, with two hours
pay?
Again, who had the authority for
placing the employees of the grinder
room on the eight hour basis on Mon-
day morning?
It would seem from the above that
there is some irresponsibility on the
part of the Company or its manage-
ment, for if this were not true, a cor-
poration as large as the Beaver Wood
Fibre Company would leave some one
in authority who would be respon-
sible for the acts of the Company.
It is quite usual for manufacturing
interests to refer to labor representa-
tives as being agitators, so that we
are not surprised to hear the state-
ment coming from the representatives
of the Beaver Company. However, we
do not misrepresent, we have no rea-
son to.

I would agree with that paragraph
regarding the Beaver Board having
"a good set of men" and I know they
want to do what is right, not only
with regard to the Company but for
their own interests and have for this
reason organized. It would seem, judg-
ing from the opinion of Mr. Robinson
that were it not for the fact of Mr.
Nellegar visiting Thorold the employ-
ees of the Company would not have
organized. To this I desire to say
that the Company did more to or-
ganize their employes than possibly
Mr. Nellegar could have done. As a
matter of fact we were contemplating
organization considerably longer
than three months. However, Mr. Nel-
legar has held but four meetings with
us and has upon every occasion ad-
vised not only for the betterment of
the employes but also in the inter-
est of the employer. Our strike was
the result of the deliberation and
without any agitation.
In conclusion I desire to say that
the purport publication and self-ex-
planatory policy of the Company is
in the opinion of the employees for
no other purpose than to intimidate
their employees from organizing and
continuing the strike.
Thanking you in advance for the
publication of the above, we beg to
remain

Respectfully yours,

LEMONS BEAUTIFY!
Strain lemon juice well before
mixing and massage face,
neck, arms, hands.

Here is told how to prepare an in-
expensive lemon lotion which can be
used to bring back to your skin the
youthfulness of which it has been
robbed by trying atmospheric condi-
tions. Wind-chafe, roughness, tan and
redness are warded off and those ter-
rible lines of care or age are softened
away.
The juice of two fresh lemons
strained into a bottle containing three
ounces of orchard whites, makes a whole
quartern pint of the most remarkable
lemon skin beautifier at about the cost
one must pay for a small jar of the or-
dinary cold creams. Care should be
taken to strain the lemon juice through
a fine cloth so no lemon pulp gets in.
Then this lotion will keep fresh for
months. Every woman knows that lem-
on juice is used to bleach and remove
such blemishes as freckles, sallowness
and tan, and is the ideal skin softener,
smoother and beautifier.
Just try it! Get three ounces of
orchard white at any pharmacy and
two lemons from the grocer and make
up a quartern pint of this sweetly fra-
grant lemon lotion and massage it
daily into the face, neck, arms and
hands, and see for yourself.

enough, to say nothing of the long
hours of employment.
It has been stated that for econ-
omical reasons the eight hour work-
day would be granted on July 1st and
to this I desire to say that the only

POULTRY MANAGEMENT

To Make the Farm Flock Pay Best
Only One Must Have Charge.

Electric Lighting is a Great Conven-
ience on the Farm—Wiring Costs
About \$100, While a Small Plant
Should Not Exceed \$500.

(Contributed by Ontario Department of
Agriculture, Toronto.)

SUCCESSFUL poultry-keepers
are found much more fre-
quently among those who
operate what is termed a "one-
man plant" than elsewhere. This
simply means that poultry require
some one person's attention, or that
personal attention is so important
that it is usually not to be found
efficient among the ordinary laborers.
Poultry know the time of day
when it is customary to feed
them, and, perhaps, equally as
well all other daily tasks. They re-
spond fairly well to the bond of sym-
pathy of the feeder. If the feeder
rushes into the pen and throws the
feed around the poultry usually rush
out of the way or out of the door
if they can get there. Fright reduces
egg production. Particularly nervous
hens, when badly frightened, some-
times cease laying for several days.
The person caring for the poultry
should be fond of them and take an
interest in them. One's interest usu-
ally goes up or down with the pro-
duction of the flock. To maintain
keen interest when the production is
low, or when the flock is out of con-
dition, is the real test. If you sit
on and study the flock, generally
speaking, you will succeed.
A change of attendants, even when
both are good at the work, nearly
always means a decrease in produc-
tion for some days. The careful
feeder knows just about what this
or that flock requires as to quantity
of feed, etc., and further, he or she
usually goes about the work on a
definite plan so that in time the birds
know just what to expect, not only
as to time and quantity of feed giv-
ing, but the movements of the atten-
dants in the pen.
The writer ventures to assert that
if the poultry on the farms of Ontar-
io were, on each farm, given over
to one person to look after, that
there would be a very great increase
in the success of the undertaking as
well as a very large increase in the
production; even as much as twenty-
five per cent in many instances.
No line of live stock responds more
to careful attention than poultry.
The boy or girl on the farm can
learn much of how to feed and what
to feed. They may learn something
of the problems in breeding.
Successful poultry-keepers know
that there is a time to hatch and
rear, a time to cull, a time to sell, a
time to clean and disinfect, as well
as a time to feed.
Plenty of farmers are making
money from poultry, but they are
poultry does well only when given
careful and systematic attention.—
Prof. W. R. Graham, O. A. College,
Guelph.

Principles of Electric Lighting.
In the year 1800, Volta, a famous
Italian physicist, discovered that if
a plate of copper and one of zinc
were placed in weak sulphuric acid,
and connected by a wire above the
acid, there was transmitted along
the wire a certain amount of energy
which transmission we speak of as
a current of electricity, comparable
to a current of water. As it requires
pressure or head to make water flow
so it requires electric pressure to
make electricity flow. The pressure
of the simple cell, described above,
is called a volt, in honor of its dis-
coverer. A dynamo generating 32
volts would have a pressure equal to
that of 32 single cells.
Electric energy passing through
fine wires will heat them white hot,
hence electricity may be used for
lighting. Current for this purpose
usually has a pressure of 110 volts
when supplied by light and power
companies, but private plants usually
generate only about 32 volts. All
current generated by dynamo is al-
ternating when made, i.e., it flows
in one direction for half a revolution
of the dynamo and then in the
opposite direction during the other
half, but by sitting the dynamo with
a commutator (which means chang-
ing) these waves of current may all
be sent in the same direction along
the distribution lines. It is then
called direct current or D.C.
Now alternating current, or A.C.,
may be used for lighting, just as
well as D.C. If the alternations are
very rapid the light is perfectly
steady, but if too slow the lights will
fluctuate in brightness, and the light
is hard on the eyes. Many light and
power companies supply A.C.
However, A.C. cannot be used to
charge storage cells and hence pri-
vate plants which usually have stor-
age batteries must be of the D.C.
variety. This is also true of lighting
systems for automobiles.
One-horse power will run 30 ordi-
nary tungsten lamps, each giving
from 23 to 24 candle-power, while if
they are nitrogen filled each lamp
will give about 45 c.p., hence it would
take only about half as many to give
the same light as before. As the
ordinary farm probably would not re-
quire more than, say, four lights on
an average of two hours per day, tak-
ing the whole year round, it is easily
seen that the amount of power re-
quired is very small. The outlay for
wiring the buildings varies a great
deal with circumstances, but probably
\$100 would be a fair average.
When one is too far from the
distribution lines of an existing power
plant he may install a small
plant of his own. The original cost
of these will run from \$300 to \$500,
depending on size and type, and the
interest on this amount would be
the largest part of the cost of light
for the farm, the cost of running the
plant being only a few cents per day.
—R. R. Graham, B.S.A., O. A. Col-
lege, Guelph.

John White's seat on the Havelock
Council has been declared vacant ow-
ing to his non-attendance for the past

TO MOTHERS! Keep your little pets physically fit, smiling, feeling
their best always, by giving Cascarets, the candy cathartic, occasionally.
Children love to take Cascarets. They are sweet candy-like tablets,
but just wonderful to correct the little white tongue, feverish breath, sour
stomach and colds. Cascarets gently "work" the bile, sour fermentations
and poisons from a child's tender stomach, liver and bowels without griping
or injury. Mothers who depend upon Cascarets as the children's laxative
save trouble, worry and cost. Each 10 cent box of Cascarets contains
directions and dose for kiddies aged one year old and upwards.

Puccini's LION BRAND Maccaroni
No Other Maccaroni Like It!

THE name of Puccini has long been identified with high-class
Maccaroni. Generations of Puccini, in sunny Italy, have
been engaged in its production.
In our Canadian factory, where "Lion Brand" Maccaroni is
made in the Italian way, under the direct supervision of Mr. A.
Puccini himself, is a Medal and Diploma of Merit, awarded by
the Italian Government for the excellence of this Canadian-made
Maccaroni.
Insist upon Puccini's "Lion Brand." You will never again be
satisfied with any other make.

dows were removed, the work of dis-
membering being too lengthy and too
costly for all to be taken to a place of
safety. Each bit of glass had to be
carefully taken out, numbered and
stored away—a delicate and tedious
task, but comparatively easy beside that
of replacement.

The most historically interesting
window that has been thus preserved
is the east window from St. Marg-
aret's, famous for the beauty of its
glass and the extraordinary story con-
nected with it.
It was originally intended for the
chapel of Henry VII, in Westminster
Abbey, being the gift of Ferdinand
and Isabella of Spain, to that King
on the occasion of the betrothal of
his eldest son, Arthur, to their daugh-
ter, Katherine of Arragon. Made in
Flanders, it was unfinished in 1509,
when Henry VII died, and it never
found its way to the abbey on account
of a remarkable chain of events.

Prince Arthur had died before his
father after a brief married life of
four months and nineteen days, and
the crown therefore passed to Henry
VIII, who soon after succeeding to
the throne married his brother's wid-
ow. This alone made the window an
inappropriate reminder of the fact,
which for the moment Henry desired
to forget, for in the left and right bot-
tom lights were the figures of Arthur
and Katherine.

Still less appropriate did it become
when Henry began to tire of Kath-

church of Waltham, where it remained
until the dissolution of the monastery,
when it was set up in a private chap-
el a New Hall, Wiltshire.

The property was soon afterward
purchased, curiously enough, by Sir
Thomas Boleyn, father of Ann Boleyn,
who became the wife of Henry after
his desertion of Katherine. The prop-
erty and the windows subsequently
passed into the hands of Villiers,
Duke of Buckingham, whose son sold
it to Gen. Monk.

The latter is said to have buried the
window to preserve it from the mis-
taken zeal of Puritanism during the
civil war. At the restoration of the
monarchy the window was replaced in
the same chapel, which in the course
of time became ruinous.

It was then taken down and sold
for another private chapel at Cop-
Hall, near Epping. The proprietor of
the latter in 1738 offered it for \$2,000,
to the church wardens at St. Marg-
aret's, who were able to purchase it
out of a grant from Parliament in aid
of the restoration of the church. Thus
after 250 years the beautiful window
found a home within 200 yards of its
intended haven.

**BELGIANS ARE
ORGANIZED FOR
CANADIAN TRADE**

Official Information Bureau Tells of
Efforts Already Made for
Business.

If peculiar circumstances have some-
what delayed resumption of business
in Belgium that country's merchants
and manufacturers have not remained
idle, states a report issued by the
Belgian Bureau of Information, Mon-
tréal. Some of them have just formed
a new commercial enterprise, the
Belgian Import and Export Company,
Limited (Belgimex), an association to
aid retail industries, with a capital
of 8,000,000 francs, all paid up by
various personalities of industrial and
commercial renown. As its name im-
plies, this company will have a sale
and purchase service in foreign coun-
tries; thirteen branch offices have al-
ready been planned at other seats in
various places determined. The many
fields of its activities have been dis-
tributed under divisions, themselves
subdivided as follows: First division,
Section No. 1, railway material; sec-
tion No. 2, electrical material; sec-
tion No. 3, metallic construction and
varia; Second division; Section No. 1,
iron and steel; section No. 2, gal-
vanized materials, copper, brass,
lead, tin; section No. 3, nails and
screws, rolling mills products. Third
division; Section No. 1, mirror, win-
dow and special glasses; section No.
2, all weighable materials for build-
ing purposes. Fourth division: Sec-
tion No. 1, chemical and industrial
products; section No. 2, food; sec-
tion No. 3, fabrics; section No. 4,
varia.

The organization of the company
was begun during the war, its found-
ers providing that when business
would be resumed the greatest activ-
ity will prevail and thinking that on
account of the deplorable state in
which Germans would leave indus-
try in Belgium, it would be neces-
sary to make a strenuous effort so as
to insure a quick recovery.

To avoid middlemen, always ex-
pensive, sometimes of a dubious
character, the company proposes to
make business in what is called the
direct system—that is, delivering
goods to its agents and correspond-
ents.

The Belgimex company thinks that
if the world's attention has been
centred around Belgium, thus pre-
paring for her a good advertising
campaign, it will be above all neces-
sary that Belgian goods quality and
prices be maintained if Belgian
world trade be what it was before
the war. From the beginning the
prime matter of imports will hold
attention, provided that they are
above all required for the resumption
of manufacture.

It is hoped that the establishment
of similar companies will contribute
to the restoration of Belgium's for-
eign trade; and as to what more
particularly concerns Canada, if a
steamer line, already advertised,
could connect Montréal regularly
with Antwerp, it is not doubted
that Belgo-Canadian trade figures
will make such progress that they
will soon be back to the high figures
reached in the period of its greatest
prosperity.

Farmers in Niagara peninsula are
crying for help and cannot obtain it
although offering high wages.

CITY OF ST. CATHARINES

Tenders For Sewers

Order No. W. D., 3740

Sealed tenders will be received
addressed to the Chairman of the
Board of Works, City Hall, St.
Catharines, up to 5 o'clock p. m.
of Monday, June 30th, 1919, for
the construction of three sewerage
systems.

The work to be done is approx-
imately as follows:

Facer Street District
7,040 lineal feet 8 inch pipe
3,660 lineal feet 10 inch pipe
1,270 lineal feet 12 inch pipe
2,287 lineal feet 15 inch pipe

Western District
2,610 lineal feet 10 inch pipe
185 lineal feet 12 inch pipe
255 lineal feet 15 inch pipe
255 lineal feet 18 inch pipe
330 lineal feet 20 inch pipe
1,175 lineal feet 30 inch pipe
375 lineal feet 36 inch pipe
1,660 lineal feet 42 inch pipe

Eastern District
740 lineal feet 10 inch pipe
295 lineal feet 12 inch pipe
1,035 lineal feet 15 inch pipe
Plans, profiles and specifications
may be seen at and forms of tender
obtained from the office of the
City Engineer. Envelopes con-
taining tenders must be plainly
marked as to contents. All tenders
must be accompanied by a marked
cheque for five per cent. of the
amount of the tender, together
with the name of an approved
guarantee company.

The lowest or any tender is not
necessarily accepted.

W. P. NEAR,
City Engineer.

A soldier who fought in the war
with conspicuous valor obtained after
his return home a situation in the
service of a lady in the south of Ire-
land. One day his mistress was talking
to him about his military career, and
asked him:
"In all your experience of the war
what struck you as the most wonder-
ful of all?"
"Well, ma'am," he said, "what struck
me most of all was all the bullets
that missed me."

An inspector of Irish schools was
recently examining a class in geo-
graphy. He had given a question in
longitude and received a correct an-
swer.
"And now, what is latitude; can
any boy tell me?"
After brief silence, a bright young
step with merry twinkle in his eye
said:
"Please, sir, we have no latitude
in Ireland."
