ARK IS DONE AT SIGNAL

The Huron Signal AND GENERAL INTELLIGENCE

DEVOTED TO COUNTY NEWS

GODERICH, ONT., FRIDAY, JULY 26, 1889.

J. D. MCGILLICUDDY, PUBLISHER. (\$1.50 A YEAR IN ADVANCE)

TO ADVERTISERS.

Notice of changes must be left at this Office not later than Monday noon. The copy for changes must be left not later than Wednesday noon. Casual Advertisements accepted up to noon Thursday of each week.

Local Notice.

All advance notices in the local columns of THE SIGNAL of meetings or entertainments at which an admission fee is charged, or from which a pecuniary benefit is derived, must be paid for at the rate of one cent per word each insertion, no charge less than twenty-five cents. Where advertisements of entertainments are inserted a brief local will be given free.

BORN.

DICKSON-In Goderich, on the 17th inst., the wife of John T. Dickson, Deputy Registrar, of a son.

BALYON-In Ashfield, on the 22nd inst., the wife of Michael Dalton, of a daughter.

DIED. McGREGOR-In Goderich, on Monday, July 22nd, 1889, Mary, third daughter of Mr. Alex. McGregor, aged 2 years and 6 months.

NEW ADVERTISEMENTS.

Special.-C. A. Humber. Tenders Wanted.-Joseph Beck. Sweeping Reductions.-J. A. Reid & Bro. Medical Lake Salve.-Totem of Health Co. Electors Town of Goderich.-Wm. Campbell.

TOWN TOPICS.

A child's name, ye, takin' notes, An' faith he'll prent it!

A GOOD PRESENT.-The most useful gift you can make is to give a Wirt Pen. Apply to D. McGillicuddy, agent, Goderich. Whatever you want in the line of photography can be had in good style and at fair prices at Geo. Stewart's studio. The summer keeps moving on apace, and so does the demand for the fashionable garments turned out by the people's tailors F. & A. Fridman, who cannot be beaten for quality of goods or style of cut.

The Pharmacy continues to hold its share of the drug trade of the town, and for reasonable charges, pure drugs, and care and attention on the part of the proprietors, Messrs. J. & G. Stewart, is the best place to buy your goods or style of cut.

Persons who are building should call and see the "New Harry" wood t-nace on exhibition at Saunders & Son's, the cheapest and most economical furnace in Canada. Another lot of the E. & C. Curney Coy's stoves just received. The last lot sold rapidly. Sole agents, the cheapest house under the sun.

Experience, energy and enterprise are three great factors in building up a successful business, and in addition to these qualifications you find taste, good workmanship and good material. Good articles can always be depended upon. R. R. Sallows furnishes his business cards in such a way that they have built up a reputation on this line, and in addition to his large photo trade, now turns out a class of work in picture framing equalled by few and surpassed by none.

BRIEFLETS.

Miss Moore has returned to her home in Bowmanville.

J. C. Robertson, B. A., and wife, of Owen Sound, are in town.

Look out for the cheap excursions on the G. T. R. on the civic holiday.

Mr and Mrs Will Yates and son have returned to their home in Wingham.

Mr T. K. Robertson, of Mitchell, was in town on Monday visiting friends.

Miss Lillie Vanstone, of Brussels, was visiting relatives in town this week.

Miss Bruce left on Tuesday to visit Stratford, Waterloo and other points.

Miss Ella Carl left on Friday last on a visit to friends in Ayr and Brantford.

Mrs and Miss Toms, of Simcoe, are visiting Judge and Mrs Toms, of Goderich.

Miss Ella Platt has returned from Detroit after spending a few months in that city.

Dr McDonagh will be in Goderich for consultation on the first Saturday of every month.

The town is crowding up with American visitors, and all appear to be having a good time.

Mr and Mrs Henry Elliott, of Ayr, were last week visiting their relatives Mr and Mrs M. Carl.

Mr J. H. Colborne, with his wife and children, left last Friday to visit his father, in Paisley.

Mrs Steve Perry and children, of St. Thomas, are visiting at the residence of Mr Thos. Andrews.

Mr Baker, of the Galt Report, was in town during the week, visiting his friends, the Messrs Nairn.

C. A. Vanatter, jeweler, of Stratford, spent a week's vacation in Goderich, and returned home on Wednesday.

Mrs Peter Deans and daughter, Ella, of Wingham, are spending this week in Goderich, the guests of Mrs Jno. W. Vanatter.

An itinerant Italian orchestra was the attraction on the Square on Thursday, and like all outdoor amusements held good audiences.

Mr Geo. Strivan, of the Bank of Commerce, Goderich, is taking a couple of weeks' holidays in the vicinity of Carlow, with his wife and family.

Mr Ira Lewis, county attorney of Huron, was at Sarala Tuesday last, attending the funeral of the late Hon T. B. Pardo. Mr Pardo was born in 1846-49 was a law student in the office of Mr Lewis, and a strong attachment existed between the two since the early days.

Miss Bertha Crofts, of London, is visiting Miss Davis.

Mr Alfred Manser, of London, spent Sunday in town.

Mrs Manser, daughter and son, of London, are visiting Miss S. Davis.

Mr Edward Sharman will repair and make additions to the Registry office. The contract price is \$1,245.

619 tickets were sold for the English and Presbyterian S. S. excursion from Clinton to Goderich last week.

Dr McLean and his son Gregor left this week for a trip down the St. Lawrence on the "Persia." The doctor hopes to be able to resume his practice on his return.

H. I. Strang, B. A., has been appointed a sub-examiner on the second and third class teachers' examination papers. The report of the examiners will probably be issued about the middle of next month.

The roof of McLean's new block is now completed and the interior of the work is proceeding toward completion. The roof is covered with iron, thus making it fire proof from above. The work has been exceedingly well done by the contractor G. N. Davis.

The Durham Review says: "Rev Mr Leggar preached his opening sermons in the Methodist church here on Sunday last. Mr L. is a young man of good personal appearance, a pleasant and fluent talker and will evidently soon become popular with the people of Durham."

Messrs Fox Bros., of Lucan, Bid-dulph township, are changing their grist mill to the roller system, which is to have a capacity of fifty barrels in twenty-four hours. They have let the contract to Runciman Bros., of Goderich. The mill is to be completed by the first of September.

Mr Chas. Blackstone, the retiring president of the Employees Mutual Benefit Society of the Doherty organ factory, Clinton, was, last Wednesday, presented with a very appreciative address and silver crucifix by his fellow workmen. The address was signed by R. Stoneham, Benj. Thomas and Chas. Treedy. Mr Blackstone replied in his usual happy style.

Messrs. Dickson & Hays, formerly of Garrow & Proudfoot's office, Goderich, have opened a law office in Seaford. They also have an office in Brussels; but one member of the firm will be here permanently. They are both well up in their profession, are thoroughly reliable young men in whom the public may have full confidence, and we hope they will do well here.—Seaford Exporter.

J. Price, a young man aged 17, met with a severe accident on Saturday at Buchanan & Co's planing mill. Through some unaccountable cause, his right hand got drawn into the planer, three of his fingers being cut off, the remaining one and the thumb being badly torn and bruised. Dr Whitely, who was soon in attendance, sewed up the finger, which may be preserved.

TO DRIVE AWAY MOSQUITOES.—It would seem that the mosquito this season had come to stay, and, besides, that his thirst for gore does not abate. He is not easily driven away, but the following recipe is said to be effectual: Take of gum camphor a piece about one-third the size of a hen's egg, and evaporate it over a lamp, taking care that it does not ignite. The smoke will soon fill the room and expel the mosquitoes, and not one will be found in the room next morning, even though the windows should be left open at night.

PUMP OUT YOUR WELLS.—A medical gentleman in a neighboring town suggests the propriety of having all the wells pumped out in order to avoid an epidemic of typhoid fever. Many of the wells are now filled almost to the top. Most of this water is surface water and is consequently more or less impregnated with vegetable matter. If this water is allowed to remain in the wells, the warm weather of July and August will breed in it the germs of the disease and its use by the people will be almost certain to spread typhoid fever broadcast over the land. A little care in this matter may prevent serious consequences and it is much cheaper to pump out the well than to pay a large doctor's bill. A hint to the wise should be sufficient.

FROM THE WAY OF WINGHAM.—Capt. Manley has returned from a two weeks' trip and says that the most picturesque scenery noticed during his travels was in the law office of a gentleman well-known here, Mr Harry Meyer, ex-mayor of Wingham. In front of each of the six windows is a box of flowers that would take a prize at any horticultural fair. Their perfume is lovely and delights the worried clients of the county of Huron. They come from near and far just to smell the flowers, and steal one if possible on the sly. The display is under the management of Chief Clerk Payne, who, under the guidance of His Worship, prepares a fine sample of lemonade for all lady clients. While the Adjutant and some lady friends were enjoying the fragrance and a Meyer-Payne lemonade a lady client happened in with a lovely baby. It was seized and kissed by His Worship, and it appears that Harry kisses all baby clients under three years of age. The Chief Clerk attends to all over that age. On the morning in question the ex-Mayor was presented with a colt with a pedigree as long as the C. P. R. The Adjutant was taken to the stables and expressed his regrets that its color was not white.—Toronto World.

Dr M. Nicholson, the West-ont dentist, makes the preservation of the natural teeth a specialty. Gas administered from 9 a. m. for the painless extraction of teeth.

Brussels Post: The Sunday school excursion of this section is being talked of. Goderich appears to be the magnet ic point. The park at this place has been greatly improved this year and is now an attractive resort.

Persons wishing to improve their memories or strengthen their power of attention should send to Prof. Loissette, 237 Fifth Ave., N. Y., for his prospectus post free, as advertised in another column.

IT WASN'T A METHODIST PICNIC.—A Clinton paper says: The Sunday School picnic from Clinton to Goderich, last week, was favored by the clerk of the weather and did not have the customary rain, though towards evening a splash seemed imminent.

AN IMPORTANT IMPROVEMENT.—The new Soft Elop and Practice Pedal attachment to a Newcombe Upright Piano serves the nerves of the listener or performer, when practicing, as well as the instrument from wear, and preserves the tone.

Sheriff Springer, of Waterloo, was taking in the scenery and other pleasant memories of Goderich during the week.

As plain Moses Springer he gained a reputation, and a name as a prominent politician in the older days. Even now, although on the shelf politically, his eye is not dim, nor is his natural force abated.

Mr Thos. McKenzie, of Goderich, has intimated to THE SIGNAL his acceptance of the challenge of Mr Donald Cumming, of Daulop, to a friendly game of quoits for the championship of Colborne and Goderich. The game will be played on Saturday, August 3rd, at 6 p. m., on the Goderich quaiting grounds.

THE OLDEST B. R. CONDUCTOR.—"Rambler," in the Traveller, Advances, thus refers to a person well-known in this vicinity:—I have been enabled to give in this column the experience of several conductors of the G. T. R., as going to prove that a traveller is about the G. T. R. The other day I had a chat with a gentleman who claims to be the oldest passenger conductor in Canada. I refer to Mr Daniel Holmes, of the G. W. division, but who for many years on the Buffalo and Goderich division of the G. T. R. He is called "Dan" by his thousands of friends, and he is deemed "pernickety" by those who do not know him well. "I have been a conductor for 33 years," said Mr H., "and I have never lost or injured a passenger. Though running for over 30 years on the Buffalo branch, I was never west of Woodstock until transferred to the main line for duty."

R. T. OF T. CONCERT.—There was a fair attendance at the Royal Templars' concert in Victoria Hall on Tuesday evening. The vocal musical portion of the program was under the management of Miss Wynn, whose pupils acquitted themselves in excellent style, and the instrumental numbers were highly attractive. The absence of Mrs Dettor detracted somewhat from the interest, as her recitations are always appreciated by Goderich audiences. Miss Martin presided at the piano. Following is the program:—"Gloria in Excelsis," Orchestra; "Jack's Bowdler," Mr Beicher; "Star of My Life," Miss Graham and Miss Rines; "When the Robins Nest Again," Mr Young; "Lighthouse by the Sea," Miss Nettie Crab; instrumental duet on violin, Messrs. Porter & Whitely; "A Bird from Over the Sea," Miss Rines; "It's for Money," Mr Beicher; "Sweet Bird of the South," Miss Nettie Crab; short address on behalf of the Order, Mr D. McGillicuddy; "God Save the Queen."

MEN WE OPEN MEET.—A smallish young man, dapper, swarthy in feature, with moustache and small goatee, and with shining gold rimmed spectacles, came into King street about the noon hour and hurriedly walked along the crowded walk to Simcoe street. Then he turns down, strikes the Esplanade, threads the maze of tracks that shuts the people off from the water front, and soon enters the city Pumping Engine House. At his heels scampers a brisk little fox terrier, spotted, except for the velvety black of his head, and of ancient lineage. The young man is Walter C. Brough, Assistant Engineer and Chief Draughtsman of the Waterworks Department. Since his appointment last year, and until the attention of the aldermen had been called to the fact that it was he who had prepared the very admirable specifications for the immense and costly contract of laying the new conduit from the lake to the Engine House, he had been almost forgotten by his masters, for his is a disposition and his is an office that precludes him from the publicity which is so dear to the hearts of many officials. But on examination of those specifications and consideration of the evidence in them contained, of the possession of an engineering ability of the highest order, they saw that the young man was of the same block as that from which his brother, Redmond J. Brough, before him had been out. Now they have confidence not only in his name and in his record in the employ of other corporations, but in the indication of his ability to enforce to the letter his own specifications for one of the most important contracts which the city has undertaken.—Toronto News.

Miss Grace Robertson, of Clinton, was in town last week.

Mr and Mrs Geo. Acheson have gone to Old Orchard Beach, Maine.

Mrs M. McKenzie, of Lucknow, has returned home after spending a week with her daughter, Mrs McGillivray, of Goderich.

Morris Crawford, formerly of Glen Williams, Ont., was attacked by a ruffian in Detroit on Tuesday night and beaten so that he died.

Lord William and Lady Cecil have arrived at Napanea, and will settle up the affairs of their uncle, the late Lord A. P. Cecil, drowned recently.

Letters patent have been issued by the Ontario Government incorporating the Goderich Organ Co. (limited) with a total capital stock of \$10,000.

We understand the I. O. O. F. have perfected arrangements for a trip to Port Huron on the Campna on the civic holiday, which will be held on Friday, the 8th of August.

Dr Fraser, of Detroit, with his wife and child, left for home on the propeller Campna last Saturday, after having paid a pleasant visit to relatives in town. Miss Maggie Fraser accompanied them to Detroit.

The Government supply boat called at our harbor during the week, and furnished the lighthouse supplies for the season. There was a thorough-going holiday party on board, under the fatherly care of Mr Pat. Harty, the genial inspector of lighthouses.

Amongst the passengers of the Campna on her last trip to Goderich, was the well-known correspondent of the Toronto Empire, Faith Trenton. The talented writer took a drive around Goderich during the stay of the boat at our dock, and we expect to see her impressions of the most beautiful town in Canada published in Saturday's issue of the Empire.

PRIZE AWARDED.—The prize annually given by Mr Moore of the High School to the head boy or girl of his French class in the 2nd division, falls this year to Miss Ruth Williams. The examination was upon the work of the term in De Vyver, the etymology and about fifty exercises of the syntax. The total value of the paper set was 240 marks, of which Miss Williams obtained 195. Robert Ellis 186, Alice Addison 182, Emily Buchanan 175, Alice Reid 159, Clara Sherman 147, Arthur Nafel 120. The rest were below 50 per cent. The head boy or girl in the senior section of the French class of the first division will be mentioned next week.

The following from the Detroit Tribune will be of interest to the many friends of the bridegroom in this section, who will all join with THE SIGNAL in wishing the happy couple long life and prosperity:—"Henderson—Both-cher—On Wednesday evening occurred the marriage of Dr Thomas Henderson of Gratiot avenue, and Miss Rosa Rothacher, daughter of Jacob Rothacher. The ceremony was performed by Rev Chas. W. P. Haas at the bride's residence, 720 Gratiot avenue. The bride wore a robe of white silk and lace and carried white roses. She was attended by Misses Agnes Henderson and Elise Rothacher, both attired in cream silk. The ushers were Messrs Jacob Rothacher and John Doran. The rooms were decorated with flowers, and about one hundred and twenty-five guests attended the reception. Dr and Mrs Henderson are staying for the present at 720 Gratiot avenue, the wedding tour taking place later in the season.

AUCTION SALES.

All parties getting their sale bills printed at this office will get a free notice inserted in this list up to the time of sale.

Sale of valuable household furniture, &c., at the Auction Mart, (Geo. Old's old stand) on Saturday afternoon, commencing at 1 o'clock. John Knox will wield the hammer and bargains will be going.

MAGISTRATES' COURT.

Before Mayor Butler. July 19.

John Wilson, waiter on the steamer Campna, charged John Yule with assault on the night of the 18th inst. The case was dismissed without costs.

Donald McIntosh was charged with being drunk. He pleaded guilty, and was fined \$1 and costs.

Wm McGinnis, of Colborne township, was charged with being drunk and disorderly. He pleaded guilty, and was fined \$1 and costs.

Lines to the "Sephie." On the building of the three masted schooner "Sephie," owned by Messrs Williams and Mariton, Goderich. Go in thy glory or the mighty deep. Take with these gentle winds thy sails to Sunshine and glory on thy streamers keep. Fare thee well, "Sephie"—farewell. J. R. Goderich, July 23rd, 1889.

DUNLOP.

From our own correspondent. AN OLD FACE.—Thos. Nelson, formerly a resident here, has returned to reside amongst us for a time.

G. and H. Coombes, of the London Free Press staff, are enjoying a few days' holidays here, the guests of Mr James Tobin. Both are well pleased with our climate and the cooling lake breezes of Huron.

HARBOR NOTES.

A Number of Items of Interest from the Lake Front. ARRIVED.

Saturday, July 20th.—Str. Campna, Sarnia, passengers and freight; schr. Ariel, Serpent River, 180,000 feet of lumber for H. Secord; schr. Kolfage, Johnston's Harbor, 100,000 feet of lumber for H. Secord; schr. J. M. Carter, Theasalon, 240,000 feet of lumber for N. Dymont; schr. Ontario, Blind River, 180,000 feet of lumber for Jos. Williams; str. Ontario, Duluth, passengers and freight.

Sunday, July 21st.—Str. Canada, lighthouse supplies.

Wednesday, July 24th.—Str. Ontario, Sarnia, passengers and freight; str. United Empire, Duluth, freight and a large load of passengers.

DEPARTED.

Saturday, July 20th.—Str. Campna, Duluth, passengers and freight; schr. Ariel, Serpent River, light; schr. Kolfage, Johnston's Harbor, light; schr. J. M. Carter, Theasalon, hay and oats for lumber camp; str. Ontario, Sarnia, passengers and freight.

Monday, July 22nd.—Str. Canada, Kincairdine, lighthouse supplies.

Wednesday, July 24th.—Str. Ontario, Duluth, passengers and freight; str. United Empire, Sarnia, passengers and freight.

The new schooner, "Sephie," owned by Messrs Williams and Mariton, is nearly completed, and will be ready for sea next week.

THE TOWN COUNCIL.

The Minutes of Last Semi-Monthly Meeting.

The town council met last Friday evening, the 19th inst. All the members were present except reeve Proudfoot and councillors Cantelon, Colborne, Pridham and Nicholson.

Minutes of previous meeting were read, approved and signed.

R. C. Hays, on behalf of the managing directors of the Northwestern Exhibition, petitioned the council for permission to move the machinery building on the far grounds to the north-east corner of the grounds, on account of the annoyance caused by the noise of the machinery in its present position.

Thompson moved, seconded by Reid, that the petition be sent to the public works committee, with power to act. Carried.

The Goderich Turf Association requested the council to grant them the use of the Agricultural Park for their race meetings for five years, agreeing to put the grounds in proper condition for all purposes.

Moved by Holt, seconded by deputy reeve Smith, that the matter be referred to the public works committee, with power to act.—Carried.

The following accounts were received:—R. P. Wilkinson & Co., \$2.00; Wm. Bollman, carpentering for chief-engineer, \$1.50; E. Bolcher, relief orders, \$5.25; Jos. Kidd, plank, \$14.22; F. Smeeth, \$4.35—referred to finance committee; J. H. Richards, clerk of the Goderich share of putting snow on Maitland bridge, \$3; E. Downing, rubber boots for firemen, \$4; Doherty Mfg. Co., Sarnia, \$24.30; Jas. Saunders & Son, \$115.06—ordered to be paid.

REPORT OF THE CEMETERY COMMITTEE.

To the Mayor and Council. The cemetery committee, according to instructions from the council, examined the slaughter house near Maitland cemetery in Goderich Township, and found the same in a very unsanitary condition, and would recommend that the clerk write Mr Bawden, who we understand, uses the said slaughter house, to have the nuisance abated without delay, and in case it is not done the council of Goderich township be notified of same. We would also recommend that about 20 hitching posts be put in. All of which is respectfully submitted.

ROBT. THOMPSON. The report was adopted on motion of Nafel, seconded by Morton.

Moved by deputy reeve Smith, seconded by councillor Smith, that the account referred to the finance committee (at previous meetings) be paid upon being duly certified. Carried.

This motion concerned the following accounts:—Goderich Star, \$6.73; HURON SIGNAL, \$11.61; Jos. Kidd, \$31.50; Jos. Williams, \$35.81; Standard Carbon Co., Cleveland, Ohio, \$50; Stevens & Burns, London, \$30; Chrystal & Black, \$41.41; A. & J. Beck, Saltford, \$4.31; Thos. Swartz, \$5.

Moved by Holt, seconded by deputy reeve Smith, that the matter of the relief of Samuel Noble be left with the relief officer of St. Andrew's ward, until the next meeting of the council, to deal with as he may think best. Carried.

The council then adjourned until Tuesday, at 8 p. m.

Minutes of Special Meeting. A special meeting of the council was held on Tuesday evening, the 23rd inst. All the members were present except reeve Proudfoot and councillors Smith and Colborne.

The committee of the whole moved on July 16th, to consider the water-

works bylaw, not having reported, it was resolved that the council consider the bylaw. The said bylaw then received its third reading and was passed, clause by clause, with a few minor amendments, the only one of importance being that one changing the collector of the water rates from the town clerk to the tax collector.

It was moved by Nicholson, seconded by Pridham, that the town clerk request the Grand Trunk Railway Co. to place plank between their tracks from the G. T. R. elevator to the Big Mill, for the convenience of passing teams.—Carried.

Moved by Nicholson, seconded by Cantelon, that the street inspector place a sign in the agricultural grounds warning trespassers that if discovered they would be prosecuted, and offering \$5 reward to any person giving information convicting trespassers.—Carried. The council then adjourned.

COLBORNE.

From our own correspondent. Mr James Hannah, of Montreal, son of W. D. Hannah, general inspector on the G. T. R., was the guest of Mr Allan Buchanan during the past week.

ACCIDENT.—As H. Richard's peddling wagon, in charge of Thos. Rutledge, was coming out of Wm. Ferguson's lane on Wednesday evening last, one of the tugs broke, causing the horse to run away, considerably smashing the rig and injuring Mr Rutledge so that he will be laid up for a few days.

LEEBURN.

From our own correspondent. A. Horton is building a new house.

Haying is on the move; haystacks and barn mows filled show good progress.

The Messrs Philips, of the Queen city, are visiting here, the guests of their cousins, the Messrs Linfield.

A new barn was raised for W. Stirling on a stone Lundation last week. John McCauley was the builder. Captains of sides, Geo. Burrows and W. Bogie.

A new townman, Mr Whitesman, of Kippen, has decided to live here, and is building a house on Maiden lane this week, the Dunlop architect and staff doing the work.

The Band of Hope will give an entertainment here Monday evening in the Temperance Hall. Program to start at 8 p. m. Rev H. Irvine, of the Nile, will be present and give an address. Several of our local talent will assist in the program. A small admission fee or a collection may be taken up. Come one, come all.

Communion service last Sunday was conducted by Rev J. A. Anderson, who made an impressive and earnest address to those who partake of the rite. Several new members were added to the church membership. During the service Mr Anderson bade a temporary farewell to the congregation, as he goes for a month's holiday of well earned rest and repose from the busy cares of a large congregation. We wish him a happy vacation.

NILE.

From our own correspondent. Mrs Mathews

CHASING A FAITHLESS HUSBAND.

Mrs. Hagan Overhauled Him in Chicago, but He Again Eluded Her.

CHICAGO, July 25.—If George C. Hagan, late of New York, Pa., will send his present address to his wife, she will receive the thanks of a much wronged woman, who is after his scalp. Hagan was a leading citizen and wealthy shoe merchant of New-castle, and his family moved in the cream of society. Mrs. Hagan had a handsome face and a small fortune to recommend her on her wedding day 17 years ago, but Hagan has the cash now.

There was not a ripple on the placid stream of their married life until Rachel Vogan, most far to look upon, was hired to do the housework. Mrs. Hagan woke up one morning a few weeks ago to find that husband and servant had skipped, leaving her nothing but a mortgaged shoe store. The Chicago police found that Hagan had purchased a \$35,000 share in a confectionery store on Wabash-avenue, and was passing off his companion as his niece. The deserted wife dropped into the store last Saturday and a "bull in a china shop" scene followed. Mrs. Hagan's rage was spent on Rachel, and Hagan, in fear for the girl's life, had to fight off his wife.

On Monday husband and wife met again, and she believed his soft words of penitence long enough to give him a chance to bolt again with Rachel. Mrs. Hagan thinks she will be able to catch her recalcitrant husband at Omaha, where he must stop to get a draft cashed. She wants to recover some of her money and then return to Newcastle, withdraw from society and get a divorce.

A Tale of Hardship. QUEBEC, July 25.—The Norwegian bark Craigillon, which has just arrived here, landed two American fishermen named Samuel Smith and Samuel Hutchinson, who were picked up on the Newfoundland banks in a dory by the bark Emmanuel bound to Sweden, and transferred to the Craigillon on the following day. The men tell a pitiful story of hardship and suffering. They left the fishing schooner Carleton Belle, Captain Seth Eldridge, of Booth Bay, Me., on the morning of July 1 in two dories to go trawling. A dense fog came on and their vessel became lost. They then cast adrift one of the dories and hoisted afloat in the other for the following five days and four nights. They had only about a quart of water in a tin and a raw fish. On the fourth day their limbs became swollen, and particularly their tongues, and they took to sucking the lead sinkers of their lines. When picked up they were barely able to crawl, and had drifted about 100 miles from their vessel. On arrival here they were sent to United States Consul Downes.

A Brilliant Social Week. LONDON, July 25.—The week has been one of unusual brilliance socially, even for London. The Duke of Devonshire's ball at Devonshire House to the Prince and Princess of Wales was the first for six years, and 1300 invitations were issued. Mrs. Henry Oppenheim gave both a ball and a concert the following night, at both of which the Princess was present, though in black for the death of her aunt, Lady Rothschild celebrated the coming of age of her son with a ball on Thursday evening, to meet the Prince and Princess of Wales, Princess Louise and other royalties. The marble halls of this Rothschild palace were illuminated for the first time with electric light. Last evening there were balls at Bridgewater House and at Lady Guinness' house in Grosvenor-place, besides a reception at the French Embassy. The short list might be much extended, and next week promises to be hardly less remarkable, both the Duchess of Westminster and Lady Dudley opening their houses. With that the season ends, and London society disperses till next spring.

Gladstone's Tribute to Parnell. EDINBURGH, July 25.—The presentation of the freedom of the city of Edinburgh to Parnell took place in the Corn Exchange, which was packed to the doors, while hundreds were unable to gain admittance. The Earl of Aberdeen was in the chair. Mr. Parnell was given an enthusiastic reception, the immense audience rising and cheering for several minutes. Deputations from all the Liberal societies in Scotland presented addresses. Mr. Gladstone in a letter to Earl Aberdeen wrote:

The time has not yet arrived for detailing the memorable experience of Mr. Parnell during the last two years. I believe that experience to be unparalleled in the history of British statesmen, in parliament for the past two centuries. I consider the Parnellites to be in the best sense Conservatives. They have been a restrictive force of great value to the peace of Ireland and honor of England, while the tyranny of the government has deepened the aversion of Ireland.

Sam Hughes "Withdraws Allegiance." LONDON, July 25.—The War Office today in its leading editorial states that it is reluctantly forced to the conclusion that Sir John Macdonald "has finally, after a glorious career of nearly half a century, fallen under Romish control." "Such being the case we have no hesitation whatever in withdrawing allegiance from the Government on this great question." Romish encroachment. "Though it is hard to give up confidence in the Old Chief, still we hesitate not, if Sir John Thompson is to control the government, instead of Sir John Macdonald, to withdraw our allegiance. Principles before party every time is our motto, and we stand or fall by it."

Serious Accident at Windsor. WINDSOR, July 25.—Thomas Howe, an engine driver on the Grand Trunk Railroad, was the victim of a queer accident on Thursday. He was backing up the switching engine of which he has control when the cab struck the corner of a car on an adjoining track and was badly wrecked, squeezing Howe between the boiler and the car. He is badly crushed about the hips and has, it is feared, sustained internal injuries.

Didn't Know It Was Lost. BRANTFORD, July 19.—Albert Lawrence, a clerk in J. G. Morton's hardware store, while showing Fred Cox, driver of the Dominion Express wagon, some revolvers this morning snapped one to show that it worked all right and shot Cox in the left breast. Cox died a few minutes after reaching the hospital. Lawrence didn't know the revolver was loaded. He was arrested and liberated on bail.

Paris Will Visit With London. LONDON, July 25.—The Shah is Sir Al-gernon Borthwick's guest from Saturday to Monday, at Invercauld, one of the most beautiful places in the Highlands, eight miles from Balmoral. He returns to London next week, and will be present at Prince Louis's wedding on July 27. The Shah departs for good and bestows his company on the French, who are organizing fetes for him meant to eclipse all the English splendors.

A Final Refusal. PARIS, July 21.—The French Government has given a final refusal to assent to the Egyptian concession scheme.

THE POET'S CORNER

The Foot's Prayer.

The royal feast was done; the king
Sought some new sport to banish care
And to his jester cried, "Sir Fool,
Kneel now, and make for us a prayer!"
The jester doffed his cap and bell
And stood the mocking court before,
They could not see the bitter smile
Behind the painted grin he wore.
He bowed his head and bent his knee
Upon the monarch's cushion at 11.
His pleading voice arose, "Oh Lord,
Be merciful to me, a fool!"
"No pity, Lord, could change the heart
That's bred with wrong to white as snow;
The red must meet the sin; but, Lord,
Be merciful to me, a fool!"
Tis not by guilt the onward sweep
Of truth and right, oh, Lord, westward;
Tis by our follies that so long
We hold the earth from heaven away.
"These clumsy feet still in the mire,
Go crushing blossoms without end;
These hard-won will meanings have; do we trust
Among the heartstrings of a friend.
"The ill-timed truth we might have kept;
Who knows how sharp it pierced and stung,
The word we have not sense to say—
Who knows how grandly it had rung.
"Our faults no tenderness should ask.
The chast'ning stripes should cleanse them all;
But for our blunder—oh, in shame,
Before the eyes of heaven we fall.
Earth bears no talism for mistake,
Men crown the knave and scourge the fool;
Do these their will; but, Thou, oh Lord,
Be merciful to me, a fool!"

The room was hushed in silence rose
The King, and sought his garden cool,
And walked apart and murmured low,
"Be merciful to me, a fool!"

THE FASHIONS.

A Variety of Jottings that Will Interest the Fair Sex.
The hem of a widow's veil is deeper than ever.
Mutton-leg sleeves are becoming to everyone.
Fine jewels have very insignificant settings.
The "crazy quilt" age has passed out of existence.
Every hide corset is of importance has its string of pearls.
A dress of India silk is without exception the coolest one possible.
The directors gowns teach a woman what it is to have coat tails.
Tennis blouses for boys are made of silk and wool striped material.
Dresses of China silk are worn by infants just put into short clothes.
The Windsor tie is indispensable to the natty appearance of the blazer.
Alpaca dresses have their places in the world's history this season.
Narrow platings are no longer used to finish the edge of dresses.
Fruit is only occasionally used as decoration for hats and bonnets.
Sailor hats in colored straw are effectively trimmed with black lace.
Nainsook morning jackets have their entire front laid in narrow tucks.
Deersy young married ladies wear white tulle veils with capote-shaped bonnets.
Golden brown and terra cotta are the favorite colors for interior decoration.
French designs and light colors are in favor for furnishing country houses.
A pretty inkstand of English manufacture is an imitation of a Japanese lantern.
Ribbons add more grace and charm to a summer dress than any other garment.
Let accordion-plaited skirts have their day, by all means. It won't be a long one.
Gentlemen's overcoats are not made to fit closely, and have no seam in the back.
Many of the summer dresses made of thin fabrics have bodices without darts.
Mourning is worn for a longer period in the United States than in any other country.
The directors ruffle of white or black lace is one of the features of summer power.
The ribbons used for sewing in rows on net dresses are generally two inches wide.
Yellow delftoids were the floral table decorations much used in London this spring.
White silk brocaded or lace parasols are not seen to advantage in an unexpected shower.
Scarf veils three-eighths of a yard wide, scalloped on the lower edge, are worn with travelling hats.
Twenty yards of ribbon is a very meagre estimate of an allowance for trimming a summer dress.
Sailor hats, which are again used for summer wear, are much more trimmed than they were last year.
Sage tea mixed with a little bay rum is an excellent wash for the hair, and prevents its falling out.
The handwriting of educated women a generation ago was far more legible than it is at the present time.
An ancient fashion, revived by gentlemen of changeable tastes, is the watch fob on the right side of the trousers.
Plain coat sleeves are rarely seen. There is always some plaiting or fullness at the top about the armholes.
Enormous sleeves are necessary apparatus to the light taffets and surah silk dust cloaks worn by ladies when driving.
Kangaroo skin is a favorite leather for men's summer shoes and boots. Oil or cream is used to make it soft and pliable.
There are new fabrics for mourning brought out as regularly as novelties in any other department of ladies' millinery.
The tea gown is no longer worn as a reception dress, but has taken its position in the wardrobe as a refined sort of wrapper.

Don's 5 cents

Ran no risk in buying medicine, but try the Great Kidney and Liver regulator, made by Dr. Chase, author of Chase's Liver Cure for all diseases of the Liver, Kidneys, Stomach and Bowels. Sold by all druggists.

The distressing paleness so often observed in young girls and women, is due in a great measure to a lack of the red corpuscles in the blood. To remedy this requires a medicine which produces these necessary little blood constituents, and the best yet discovered is Johnson's Tonic Bitters. Price 50 cents, and \$1 per bottle at Goode's drug store, Albion block, Goderich. Sole agent. [b]

Very broad black borders on cards and note paper as an indication of the extent of mourning is in the very worst taste.

Straw poke bonnets are of sufficient size to shade the face. Large loops of ribbon, in which there are nests of flowers, trim the crown.

The Elephant's Ear is the name given to the fine, thin, flat sponge which is sold to women who seek new methods of taking particular care of their complexion.

The simplicity of the style in dress this season is a great satisfaction to those ladies who do not like to appear old-fashioned and still who object to the complicated and burdensome in women's gowns.

If a savage were suddenly to find himself in the midst of a number of fashionable ladies ready for a war, he would think their long-handled parasols equipped them for war and would run for his life.

There is a new and important change in the mode of a lady's carrying her parasol when she is driving. The hand which holds it has the index finger pointed upward of the stick. Any variation of this rule admits the possibility that she does not belong to the original 400.

Not a Book a Cent
Mr. Goode, druggist, is not a book agent, but has the agency in Goderich for Johnston's Tonic Bitters, which he can heartily recommend for any complaint to which a tonic medicine is applicable. This valuable medicine has been with most astonishing good results in cases of general debility, weakness, irregularities peculiar to females, extreme paleness, impoverishment of the stomach and liver troubles, loss of appetite, and for that general worn-out feeling that nearly every one is troubled with at some part of the year. Don't forget the name Johnston's Tonic Bitters 50c. and \$1 per bottle at Goode's drug store, Albion block, Goderich, sole agent.

Mr. J. A. McEwen, Wingham, returned a few days ago from his Manitoba trip. His reports of the present condition and prospects are far from being favorable. The weather was exceedingly dry, and crops are very poor—short, thin and unpromising. His movements were mainly in the Southwest. Ontario is a good enough country for J. A. McEwen. Messrs. Gilbert, Fogis, of Turnbull, Thos. Abraham, of East Wawanosh, and John Casenore, of Morris, also returned, none being very favorably impressed—at least with this season's prospects.

Dangerous Counterfeits.
Counterfeits are always dangerous, more so that they are closely imitated in their outward appearance and name. The remarkable success achieved by Nasal Balm as a positive cure for Catarrh and Cold in the Head has induced unprincipled parties to imitate it. The public are cautioned not to be deceived by nostrums imitating Nasal Balm in name and appearance, bearing such names as Nasal Cream, Nasal Balsam, etc. Ask for Nasal Balm and do not take imitation dealers may urge upon you. For sale by all druggists or sent post-paid on receipt of price (50c and \$1 by addressing Fulford & Co., Brockville, Ont.

Oil cloths will last longer if one or two layers of wadded carpet lining are laid under them.

More Remarkable Still.
Found at last, what the true public has been looking for these many years and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters which in conjunction with Johnson's Tonic Pills has performed some most wonderful cures impure or impoverished blood soon becomes purified and enriched. Biliouness, indigestion, sick headache, liver complaint, languor, weakness, etc., soon disappear when treated by these excellent tonic medicines. For Sale by Goode, druggist, Albion block, Goderich, sole agent. [d]

The Rev. T. W. Cousins, who has been laboring on the Hensall Methodist Circuit of British Columbia, as colleague, or assistant to Rev. E. A. Fear, and who received a very pressing invitation to remain a second year on the Circuit, has since been removed from there to Seaforth as assistant there. Mr. Cousins, by his earnest, faithful and able preaching, coupled with his genial and social disposition, has endeavored himself to the people on that circuit.

Why suffer a single moment when you can get immediate relief from all internal or external pains by the use of Polson's Nerviline, the great pain cure. Nerviline has never been known to fail in a single case; it cannot fail, for it is a combination of the most powerful pain subduing remedies known. Try a 10 cent sample bottle of Nerviline. You will find Nerviline a sure cure for neuralgia, toothache, headache. Buy and try. Large bottles 25 cents, by all druggists.

A Wonderful Flesh Producer.
This is the title given to Scott's Emulsion of Cod Liver Oil by many thousands who have taken it. It not only gives flesh and strength by virtue of its own nutritious properties, but creates an appetite for food. Use it, and try your weight. Scott's Emulsion is perfectly palatable. Sold by all druggists, at 50c. and \$1.

SAL BALM. OSNABURCK, DIXONS P.O., Ont. May 11th, 1887.

I suffered for five years with rheumatic disease, catarrh. Her one of the worst known in these. She tried all of the catarrh remedies advertised, but they were no use. I finally procured a bottle of balm. She has used only one half and now feels like a new person. I feel my duty to say that Nasal Balm is TOO HIGHLY RECOMMENDED for all such ailments, and am pleased to see such sufferers know through its use they will receive instant relief and be cured.

Remarkable Testimonials.

GLANWORTH, April 3rd, 1889. Dr. J. M. McLeod, Goderich. Dear Sir,—You told me to see how much I gained in weight while taking your medicine, McLeod's System Renovator. The time I last visited your office I weighed 117 pounds, now I weigh 143, gaining just 26 pounds. How does that suit you? My back is entirely cured.

Yours, etc., A. M. CASSINGTON, DAKOTA, January 1st, 1889. Dr. J. M. McLeod, Goderich. Dear Sir,—I am suffering from an inflamed eye, caused by catching cold. Mrs. F. desires me to ask you to send medicines. One of her daughters is not at all well, menorrhoea is the ailment. (The above was answered and medicine sent 29th January, 1889.)

WHEATLAND, N. D., U. S. Feb. 18, 1889. Dear Old Friend,—I thank you for sending the needed medicines in a most timely way. They have done their work and performed what they were recommended to perform. McLeod's System Renovator sent only, and only it. I think you are deserving of more credit than has ever been given you for your genius. Mrs. F. and family are well—accept their thanks. Miss F. is now well. My eye began to improve rapidly after your letter reached me. The doctors here were using hydragric sulphate of copper, sugar of lead, alum acid, micro. sulph., borax and what not. I know that J. M. McLeod would not see me tortured by these blam'd d's, so I thought I would write. I tender you my sincere thanks for what you recommended. Yours etc., D. M. C.

Take time by the forelock ere that rasping, hacky cough of yours carries you where so many Consumptives have preceded you; lose no time, but procure a bottle of the rational remedy for Lung and Bronchial Diseases, Scott's Emulsion of Cod Liver Oil with Hypophosphites. It will cure you. Sold by all druggists, at 50c to \$1.

The new princess toilets for evening wear are imported as the very latest expression of Parisian grace and elegance. The garnitures upon these gowns differ considerably, some being made up of Greek draperies of crepe lisse, or with bodies that have shot sleeves with fichu folds over the chest of superb real laces, or nets that are pearl-dotted. Others are elegantly decorated with tulle, shoulder pieces and pebbled ends, or antique girdles of beaded gimp or a network of silk and beads in tint. The skirt portion of the new princess dress is not as long as the familiar trained princess, the new model being much more graceful and far more easy to manage with skill in the dance. Some of the bodies on these gowns have the V-cut that is pretty and sensible; others are slanted to a point from belt to belt, front and back. This

necessitates a full chemisette, or ought to, but there is a mere short apology for one on those most "Frenchy." These will be selected by those in a large degree the least suited for them.

Destroy the worms or they may destroy the children. Freeman's Worm Powders destroy and expel all kinds of worms.

The difference between a baby and an over-coat is: One you wear, and the other over you wear.

He Was Healthy.

Personal illustrations are usually in doubtful taste and sometimes are positively dangerous. A farmer was complained of for maintaining a nuisance in the shape of a pigsty; the neighbors asserted that said pigsty was detrimental to their health. At the trial the rustic gentleman argued his own case, and summed up as follows: "The neighbors say, your honor, that boys is unhealthy; I say they ain't. Look at me! Ain't I healthy?"—Youth's Companion.

Conductor Quirk, in himself, attracts more visitors to Kincardine than any other single individual. He is known as a whole-souled gentleman far and wide. The friends he has would maintain a magnificent summer hotel. We have often thought the town should pay him a recognition annually of \$500 as a slight recognition of his patriotic service to this people—Kincardine Review.

A new G.T.R. station is to be erected in Winham. The work of construction will begin at an early date. The building will be in line with the old one, there being 30 feet space between the old and the new. The new structure will be 62 feet long by 24 feet wide and one story high. The general waiting room will be in the west end, the offices in the centre and the ladies' waiting room and baggage room in the east end. A platform will extend all around the building and the main entrances will be on the north side. The present building will be used exclusively for freight.

A recent issue of the Hamilton (Scotland) Advertiser says: "Rev. G. Branch Howie, who as a blind student from the Leabon New College, Edinburgh, became widely known in Scotland, seems to be succeeding admirably as a pastor in Canada. At the anniversary of his ordination at Brussels, Ontario, on the 6th inst., the chairman said that when he first heard of Mr. Howie's coming to Brussels he thought it would be perfectly impossible for him to accomplish the work of a pastor on account of his want of sight, but now he was fully persuaded of Mr. Howie's efficiency, not only in the pulpit but in every other branch of service." Dr. Nichol, of Brantford, elsewhere bore similar testimony. Mr. Howie, however, studied in the University of Edinburgh, not in the New College, as the Advertiser says.

A GREAT CLEARING SALE OF FIRST-CLASS DRY GOODS

NOW GOING ON AT GROMPTON, APPELBE & CO'S, BRANTFORD.

It is our custom and fixed purpose to dispose of all goods during the season for which they were bought, and in consequence we proceed even now in the heat of the season, to close out as far as possible our entire stock of purely summer goods.

The extremely low prices which we make would justify our patrons in buying now, even to keep over till another season.

We place on sale at clearing prices the whole of our large stock of black and colored French and English dress goods, Cashmeres, Henriettas, &c., black and colored, plain and fancy dress silks (from the most reliable makers), parasols, prints, satenes, chambrays, printed wool challies, fancy costumes in wool, cotton and silk, plain and fancy dress muslins, lawns, flouncing laces, flouncing embroideries, edgings, laces, handkerchiefs, &c., hosiery, gloves and underwear in silk, wool, Lisle, Balbriggan and cotton. Jerseys, ribbons, corsets, dress trimmings, beaded grenadines, table linens, napkins, towels, sheetings, cottons, shirtings, flannels, cottonades, cretonnes, art muslins, quilts, chenille tapestry and silk table covers, and other house furnishing goods, ladies' English waterproofs, beaded visites, pattern wraps, mantlings, &c., all of which are fresh and new, manufactured and imported for the spring and summer of 1889.

We give special attention to mail orders, which will be filled by competent persons, and satisfaction guaranteed. Samples sent by mail on application.

(Successors to H. W. Brethour & Co.)

THE WIDE, WIDE WORLD.

WHAT IS GOING ON IN OTHER LANDS AND PLACES.

Brief but interesting newsy nuggets specially prepared for the edification of our readers.

The Erie and Niagara Railway has been amalgamated with the Canada Southern.

The Earl of Fife, who has been created a duke by the Queen, takes the title of the Duke of Fife.

Mrs. Carpenter, a widow lady of Grimaby, was thrown from her buggy and killed by her horse running away.

The Egyptian Government has notified the French Government that the latter's refusal to accept the conversion scheme will cost Egypt yearly £200,000.

Dr. McLow, the slayer of Capt. Dawson, has been expelled from the South Carolina Medical Society for immoral, unprofessional and ungentlemanly conduct.

The Parrelite members of the House of Commons intend to demand that a committee of enquiry be appointed to ascertain the origin of the Pigott forgeries.

There seemed to be no doubt now that the Caspell air ship, which ascended from Williamsburg, N. Y., on Tuesday, was lost at sea, and that Prof. Hogan was drowned.

Mrs. Benton, widow of the late Master Mechanic Benton, Canada Southern Railway, fell through a trapdoor into the cellar at her residence, in St. Thomas, on Thursday morning and was seriously injured.

It is reported that, in view of the exceptional circumstances now prevail in the politics of France, President Carnot will issue a manifesto to the country before the general elections.

The Shah is not a fool. When told that Mr. Gladstone was about to celebrate his fiftieth marriage anniversary, he said: "It is better to live fifty years with one woman than one year with fifty women."

Both France and the United States are anxious to obtain possession of a small island under the jurisdiction of the Haytian Government, which commands the entrance to the Yamanca canal.

The Rome Reformers say: If the Pope, in the event of his departure from Italy, should contemplate resorting to arms to win back temporal power, he would find himself confronted with insuperable obstacles.

Searle and O'Connor have not been doing much real training as yet for the race for the sculling championship of the world, which takes place in the beginning of September.

In the betting Searle is a heavy favorite at odds of 3 and 4 to 1.

Joseph Medill, of Chicago has written to the Earl of Aberdeen, refuting the London Times insinuation that the signers of the Illinois addresses to Mr. Gladstone were Irishmen or members of the Clan-na-Gael.

A London cable says Mr. Henry George will sail for New York in the Umbria on Saturday. He was entertained Thursday night at the rooms of the Society of British Artists by a number of friends.

During his visit he has kept eighty engagements. The Paris papers consider that the King of Holland's address to the States General in which he asked that 60,000 troops be kept armed to defend Dutch neutrality, is a grave event, indicating expected German action.

The Government have accepted a proposal by Mr. John Morley that an increased allowance to the Prince of Wales, enabling him to provide marriage portions for his children be substituted for the proposed special grants.

Farmer John Bates, of Amaranth township, was thrown from his wagon by his team running away on Wednesday in Orangeville, and six of his ribs were broken, besides internal injuries. There is hope of his recovery.

The Duke of Portland has won another large sum of money on the turf, his latest victory being with Ayrshire, last year's Derby winner, who captured the Eclipse Stakes of 10,000 sovereigns yesterday at the Sandown Park meeting.

A telegram from Pittsburgh announces a reduction of 80 per cent in the price of steel plates by the firm of Carnegie & Phipps. A fall in quotations to this extent is unprecedented in the steel and iron trades.

The same despatch states that the sliding scale signed by the employes of this firm takes effect on the 1st of January next, and being based on the price of steel for the three months preceding, will cause a considerable decrease in wages.

TORONTO TOPICS.

The Army in Trouble—Two Serious Accidents.

JULY 22.—The annual meeting of the Canadian Press Association was held here Thursday last. Dr. E. H. Dewar presided. There were present members of the association from all parts of Canada. These officers were elected: R. V. Senoville, President; Andrew Pattullo, 1st Vice-President; H. P. Moore, 2nd Vice-President; W. R. Clinie, Secretary-Treasurer; J. B. Frayes, Assistant Secretary. Executive Committee—H. Hough, D. Creighton, C. Jackson, L. A. Davidson, J. S. Brinsley. The association left on Friday for a trip to the maritime provinces.

A very serious accident, which in one instance at least has resulted fatally, occurred at the new Rose-avenue school last week. A cross bar supporting a scaffold gave way, precipitating those on it, three in number, to the ground. One of them Alexander Carney, residing in Church street, near Carlton, was killed outright. The other two, Samuel Garland, 93 Boulton-avenue, and John Cowdy, 111 Sherbourne-street, were seriously hurt, both being removed to the hospital in the ambulance. A bricklayer's laborer named Adam O'Leary also sustained several injuries but refused to be taken to the Hospital.

Another sudden death occurred in the new building being erected on Queen street west, opposite the Avenue, Toronto. A painter, named James Bridgford, living at 135 George street, was in the act of bringing a ladder from the sidewalk into the building upon quitting work, when he fell heavily forward, and before assistance could be secured life was extinct. In falling Bridgford's head struck the edge of a carpenter's bench, inflicting a severe cut upon his forehead. Mr. Bridgford had been taken with a fit on a previous occasion when driving a street car, but the trouble was not thought serious.

The Salvation Army has been a standing nuisance in Eglington for the past six months. The special point of attack has been Oulcott's hotel, and time and again have the red-shirts swarmed upon Mrs. Oulcott's grounds, beating their drums and apparently making as much noise as possible. When the lady's husband died some months ago, the army surrounded the hotel and behaved very rudely, and made many unbecoming remarks about her husband's business. Last week they again became unbearably noisy and the result was that two of the army men were arrested and not paying their fines were imprisoned.

A REMARKABLE LETTER.

How Two Convulsions were Wrought by His Influence.

A young Scotchman named James Hamilton was living in one of the cities in the Southern States, and being an earnest Christian, he found plenty of work for his Master. Among other things he taught a Bible class in connection with the church which he had joined, consisting of a dozen boys, and was fifteen to twenty years of age. Not only did he make the most of the one hour on Sunday, but he also invited the boys to visit him at his rooms, where he could have the opportunity of speaking separately and individually to each one. He had great influence over them, for he had won their confidence, and they loved him. Quite suddenly, Allan Graham, one of his scholars, through an old friend of his father, received the offer of an excellent situation in one of the Northern States, and he must go at once, in order to secure it. He called on his father, and the father was with him but time was pressing, and their interview a short one. As they grasped each other's hands, James said, "We have had time for a few only words, my boy, but I have a very important and special message for you, which I will write; look out for my letter!" A few hours after Allan's arrival in his new home, this welcome letter was received. He was lonely and home-sick, and as he looked at the well known and familiar handwriting, he could see before him the earnest face and affectionate glance of his teacher, what would he not give to see his father, his mother, and his society? He knew well the position he occupied in that large, deep heart, and his heart was full. When, at length, he opened the letter, he read it, and re-read it, and then read it again until his eyes were so full of tears that he could not see the lines. What was the matter with this letter that produced such strong emotion, and moved him so deeply? It contained an urgent, most affectionate, and earnest appeal, that he would, now, at this instant, give himself up, heart, soul and life, to the service of the Lord Jesus Christ; that he would be trying for him, not only at that moment, but all through the night. Although deeply affected, not at once did he yield to that earnest, tender pleading, for he had the same battle to fight which all must pass through. The tempter stood beside him, and whispered in his ear, "Do not be influenced by that foolish letter; be a man, and decide for yourself. You are just about to enter gay and fashionable society, where you will meet people of influence, who will advance your interests in the world; no servant of Christ ever yet became a man of fashion such as you might be, sought after, and admired." Almost he was on the verge of yielding to this seductive picture, when just at that instant these words flashed before his eyes, as if written in letters of fire: "The fashion of this world passeth away." "Yes," he said, as in reply to the tempter, "those are the friends who would advance my interests in this life—but how would it be in death?" All through the silent hours of the night, the struggle went on, but just as the first faint flush of dawn was seen in the eastern sky, it was over; he was pale and weary, but oh, so happy, for that letter from his faithful teacher, and his prayers that night, had touched his heart, and won his soul for Christ. What words can describe the pure joy felt by James Hamilton, when he received his boy's reply? It was as the angels feel, when on this earth a soul is born from death unto life. Allan Graham at once acknowledged Christ as his Master, and as the years went on, he stood high in the regard of his fellow men. His word was as good as his bond, everything prospered to which he put his hand, and he was esteemed by those whose esteem was an honor. He married a lovely girl, who was a true helpmeet, in every sense of the word. But the brightness of this happy time was overshadowed by the death of the friend to whom he owed so much, and James Hamilton, not yet in the prime of life, and in the midst of his work, departed to be with Christ, leaving behind him a precious name and memory, which shall not be forgotten. A few bright, happy years passed away, and then the young young wife was quite suddenly called away from earth, leaving her husband and little son, bereaved and desolate. This boy, who was called Hamilton, in memory of his father's friend, was a fine, intelligent little fellow, and as his father refused to part with him, he was taught at home. The careful training bore fruit, and as he grew to manhood, he was a son of whom any father might have been proud. The closest sympathy existed between them, on all subjects save one only. Hamilton was a consistent attendant at all the services in his father's church, and had a high respect for all that was of good report, but he did not believe in personal consecration to Christ. He thought he could be a good man, a good citizen, and very happy, without it, and whenever his father upon him the importance of decision for Christ, he drew back into the silent reserve. The years passed away, and Allan Graham also entered into leaving his as his executor, and heir to a large fortune. The night after the funeral he was looking over the papers in his father's writing table, when on unlocking a small drawer he saw to his surprise that it contained one letter only, tied with ribbon, and carefully dated. Supposing that in some way it concerned his beautiful young mother, whom he could just remember, he opened it reverently, when he perceived that it was addressed to his father, by the pet name of his boyhood, and on turning to the signature, he remembered having heard his father say that a letter from his faithful teacher had been the turning point in his life. This, then, was that letter, and how carefully preserved!

THE HOME CIRCLE.

Orange Cream Sponge Cake.—One and one-half cups of sugar, two cups of flour, one-half cup cold water, yolks of five eggs and whites of two, the rind and juice of one orange, two teaspoonfuls of baking powder. Bake in layers.

Whip one cupful of thick cream to a stiff froth, and stir gradually into it half a cupful of powdered sugar; grate into it the yellow of one orange rind. Spread thickly between the layers of cake.

Lemon or Orange Cream.—Take one lemon or two oranges, grate, add one cup of sugar, half a cupful of ice water and one cupful of cream; beat the whites of three eggs and stir in. Warm a gill of milk, in which mix two table-spoonfuls of corn-starch; let thicken and stir in. Set on ice. Whip a quart of cream, flavor with essence of almond and pour over.

Kedgeree.—Remove all the bones from some cold boiled fish and flake it into small pieces. Mix with it about half a quantity of cold butter, rice, and a few pieces of cold potato. Put the mixture in a small saucepan with a lump of butter, a little pepper and salt, and a well-beaten egg. Stir it over the fire till quite hot.

Shop's Bread.—Beat fourteen ounces of sugar with the yolks of six eggs and the whites of three for half an hour. Then add slowly eight ounces of flour, six ounces of blanched almonds cut in thin strips, six ounces of raisins and three ounces of citron cut in fine pieces. Pour in a well-greased pan and bake slowly.

Salad Dressing.—Peel and boil a large potato; mash well and, when cold, add the yolk of a raw egg, a teaspoonful of mustard and a little salt; stir well together; add two table-spoonfuls of olive oil and vinegar very slowly, stirring constantly so that it may be very smooth. This is nice with chopped celery or cabbage.

Aline Padding.—This padding is a Scotch one. Mix half a pound of finely chopped ligs, a quarter pound of flour and a quarter pound of breadcrumbs; make a good custard with the yolks of three eggs and half a pint of milk; mix this with the other ingredients until the whole is in a stiff paste, and flavor with essence of lemon. Put the pudding into a buttered mold and tie it closely in a floured cloth. Boil for three hours; when turned out serve with arrowroot sauce flavored with sherry and sweetened; a little cochineal in the sauce is an improvement to the color.

French Salad.—In winter this is made principally of beautifully blanched endive, washed delicately clean and broken into small branches with the fingers; then taken from the water and shaken dry in a basket kept for the purpose, or in a fine cloth; then arranged in the salad bowl and stewed with herbs, tarragon generally when in season, minced small. The dressing is not added until just before the salad is eaten. In summer young lettuce is substituted for the endive and intermixed with a variety of herbs.

Fat for Frying.—Just here let me tell you how to prepare fat for frying that will not have the disagreeable taste or smell that lard has; neither will it be so expensive. Have thy butcher reserve for thee, say about ten pounds at a time, of the best beef fat, and cut it up into small pieces. When it is brought into the kitchen put it into a pan and cover it with cold water; let it stand half an hour or so, as convenient. Then take it out, putting it into a broad kettle over the back of the stove to gradually try out. When done strain it off into a pan with some cold water in the bottom. All impurities will settle in the water or on the cake of fat, and the next day it can be melted over and poured into jars for use. For frying I prefer beef fat for many things, also the kettles for that purpose consisting of a double kettle, the lower one for the fat, with a side handle for allowing the upper one, which has holes in it, to be hung upon it, and so drain off all superfluous fat from the articles fried. Have all pieces of fat from steaks or roasts of beef saved, tried out and strained. Chicken fat, as it is taken from the chickens before they are cooked, is very nice for making mince-pies, gingerbread, &c., by some considered nice for short-cakes and biscuits. Mutton fat I know of no use for (as it is impossible to disguise the taste) except for chapped hands and the like, but all such scraps are good for soap grease, and that can be easily made, and is very useful for cleaning purposes. Chop from sausage meat is good for frying potatoes, also for gingerbread. Just try it if these feels disposed to doubt it.

How a Dude Caught Cold.

A slim young man in the height of fashion was violently sneezing in a street car, when a companion remarked, "Aw, Charles, dear boy, how d'ye catch that dreadful cold." "Aw, dear fellow, left my case in the lower hall to-day, and in sucking the ivory handle, so dreadful cold, it chilled me almost to death." If Charles had used Dr. Harvey's Red Pine Gum his cold would not trouble him very much, or sale at J. Wilson's prescription drugstore.

A Family Affair.

We have used Fowler's Extract of Wild Strawberry in our family of six persons during twelve years, and in all cases of diarrhoea, summer complaint, etc., it never fails to cure. This valuable medicine should be in hand in every family. Miss ANNA ALLEN, Harley, Ont. 2

There are 255 electors in Part 1, Brussels, 112 in Part 2 and 38 in Part 3. Eighty-six persons are qualified to serve as jurors.

Severe Attack. Miss Beila Elliot, of Pontypool, Ont., writes—"My brother and I were both taken ill with a severe attack of diarrhoea, having tried other remedies, we tried Dr. Fowler's Extract of Wild Strawberry, which gave immediate relief."

"They have a large sale in my district," says a well known druggist, "than any other pill on the market, and give the best satisfaction for sick headache, biliousness, indigestion, etc., and when combined with Johnston's Tonic Bitters, Johnson's Tonic Laxative Pills will perform what no other medicine has done before for suffering humanity." Pills 25 cents per bottle. Bitters 50 cents and \$1 per bottle. Sold by Goode Druggist, Albion block, Goderich, sole agent.

READMAKER'S YEAST.

BREAD made of this Yeast BREAD 1 1/2 First Prizes at Ontario Fall Shows in 1887. Over 30,000 ladies have written to say that it surpasses any yeast ever used by them. It makes the lightest, whitest, sweetest bread, rolls, buns and buckwheat pancakes. Bakers in nearly every town in Canada are using it. PRICE FIVE CENTS.

LIME.

NOT CE TO BUILDERS & FARMERS The Falls Reserve Lime Kiln is now running full time, and any quantity of Fresh Lime can be obtained at the Kiln at all times for 10c. a bushel. M. & C. BÄCHLER, Proprietors, Goderich, May 30, 1889. 2200-ft

CURE FITS!

When I say CURE I do not mean merely to stop them for a time, and then have them return again. I MEAN A RADICAL CURE. I have made the disease of FITS, EPILEPSY or FALLING SICKNESS A life long study. I WARRANT my remedy to CURE the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a FREE BOTTLE of my INFALLIBLE REMEDY. Give Express and Post Office. It costs you nothing for a trial, and it will cure you. Address: H. G. ROOP, M.D., Branch Office, 104 West Adelaide Street, Toronto.

Rheumatic Pains

Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nervine. It is safe to say that nothing yet discovered has afforded equal satisfaction to the suffering. A trial can be made at small cost, as sample bottles of Nervine can be had at the drug stores for 10 cents, large bottles 25 cents.

Mr John McLeod, son of Mr Angus McLeod, of McKillop, has passed a successful examination at the Ottawa Normal School, and has been granted a second-class certificate.

Consumption Surely Cured. TO THE EDITOR:—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy free to any of your readers who have consumption, if they will send me their Express and P. O. address.

Respectfully, DR. T. A. SLOOM, 37 Yonge St., Toronto, Ont.

Mr Wm Moffat and Mr John Gilmore, Stanley, have returned from their trip to the North West. Mr Moffat has secured land in the Moosejaw district, to the extent of 900 acres.

Eyelid fever is a type of catarrh having peculiar symptoms. It is attended by an inflamed condition of the lining membrane of the nostrils, tear-ducts and throat, affecting the lungs. An acrid mucous secretion, the discharge is accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, watery and inflamed eyes. Ely's Cream Balm is a remedy that can be depended upon. 50c. at druggists; by mail, registered, 60c. Ely Brothers, Druggists, Owego, New York.

THE DOMINION IN BRIEF.

WHAT IS GOING ON OF INTEREST TO CANUCKS.

The Happenings of a Week Epitomized into a Column of Newy Paragraphs for Inter-ested Readers.

Oil has been discovered in the city of Victoria, B.C.

It is believed that the Quebec local elec- tions will take place this fall.

Steamers are rapidly supplanting sailing vessels in the Quebec timber trade.

Graybill & Co's factory at Waterloo was badly damaged by fire.

John M. Hicks, a young Canadian, has been killed by lightning at Merrill, Mich.

The Conservatives of West Durham have nominated Mr. W. P. Prower for the Legisla- ture.

Mr. Anderson, the Atlantic mail contrac- tor, says the new fleet will be ready in two years.

A movement is on foot in Winnipeg for erecting a public monument to ex-Premier Norquay.

Rev. T. Harel, D. D., Chancellor of the Archdiocese, is dying at the Palace, Montre- al, from diabetes.

C.E.R. people say their trains will run into Windsor over their own track by the middle of October.

The Montreal Corporation will probably resist Miss Tibbet's claim for damages for false arrest in the Mulachy case.

Rev. A. B. Winchester, who left Winnip- ego some months ago for mission work in China, is returning broken in health.

The by-law to give the Guelph Junction Railway an additional \$18,000 to pay off its indebtedness was defeated in Guelph.

Mr. M. W. Young, of Pictou, from an area of a little over two acres, has gathered 12,000 quarts of strawberries this season.

No application has yet been made for writ of habeas corpus in the Burke case, and only a week remains in which it can be made.

Mr. Thomas McIntyre, probably the oldest undertaker in Canada and one of the oldest citizens of St. Catharines, is dead, aged 80.

The Kingston post-office clerks suspended for opening letters which passed through their hands were on Saturday committed for trial.

A Torontonian was in Kingston on Thurs- day with a view to ascertaining if a good site for a large tobacco factory could be secured on favorable terms.

A report from the Canadian North-West, through a Dakota source, represents the crop to be a total failure, and the farmers in many localities reduced to the verge of starvation.

The Toronto Cricket Club have arranged a list of fixtures with the cricket clubs in the Maritime Provinces, and the teams selected for that purpose have to-night to fulfill their engagements.

Joseph Charlton, plasterer, Perth, died Wednesday of lockjaw. About ten days before his death he stepped on a rusty nail. He leaves a young wife to whom he was married last fall.

Mr. Geo. A. Chapman, of the Toronto Board of Trade, has been asked to resign from the Explanatory Committee of the Board on account of his alleged sympathy with the Canadian Pacific railway in the matter now before the Railway Committee.

Seven new guards for the Kingston Peni- tentiary will be appointed on August 1st, and seven of the old ones will be relieved of duty. The new officers, it is understood, will have been named. Some of them are sons of the present guards.

The documents in the Burke case are very voluminous, the whole of the judge's charge being given as well as the evidence. If no further applications are made to the courts, the Minister of Justice will be prepared to give his decision on the 25th inst.

An action has been entered against Su- perintendent Morford, of the Michigan Central Railway, by Messrs. Miller and Blackhouse, of Aylmer, solicitors for John Smith, a farmer's son at Kingsmill, for the sum of \$5,000 damages for assault and malicious arrest. The case will come on for trial at the Elgin Fall Assizes.

The Stinson homicide case at London has not been settled yet, and more than one arrest will probably be made before it is brought to an end. Mr. Stinson, sen., had another interview with Crown Attorney Hutchinson and Magistrate Noble Thursday morning, but he was not yet decided to take further proceedings against William Hunt, the father-in-law of his deceased son.

A diabolical crime was perpetrated in the Mennoite Church, five miles north of Brights, Wednesday night. A paper was seen coming out of the church at 9 o'clock at night. Immediately after smoke was seen coming from the chimney. Mr. Menno Bean went into the church this morning, and on examining a stove, found the head of a child, with the body cremated. It had been saturated with coal oil.

IS HE JACK THE RIPPER.

Great Excitement in Whitechapel—A Sail- or Arrested.

LONDON, July 21.—Towards Friday mid- night the life of another woman was at- tempted close by Castle alley. A woman and man were seen to approach a dark por- tion of the thoroughfare near the Aldgate East station. The pair did not remain long on the corner before the woman was heard to cry, "No, I won't." The remark was ad- dressed to a dark man of medium height with a sallow face and a foreign appearance.

The man seized her, dragged her a short dis- tance, flung her upon the kerbstone and pro- duced a dagger. "Scoundrel of Jack-the- Ripper!" and of "Murder!" attracted crowds of men and women from all directions.

Among the first arrivals at the scene were several members of the local vigil- ance association, which has resumed work before the man had time to get far. He was seized, and a dreadful struggle en- sued. He had a long knife in his hand, and it was some time before he could be deprived of it. Eventually it was taken from him.

Even then his fight for liberty was of a most determined nature. In the midst of the fray the woman crawled away. Police whistles were heard in all directions. A great number of officials both of the City and Metropolitan forces appeared on the scene.

When the police reached the spot the man was cut and bleeding profusely from wounds inflicted by the crowd, who had raised the cry of "lynch him," and were throwing all kinds of missiles at the prisoner. Under a strong escort of police he was got to the police station, where he was charged. In reply, he said:—"The woman robbed me."

When asked why he drew the dagger, he replied that he had done so in self-defence. He said he was a sailor, and gave a Scotch name, adding that he had arrived from South Shields a week ago. When asked where he was on the morning of the 17th inst. he could not say. He did not know where he had stayed while in London. A small knife was found in his possession, to- gether with his seaman's discharge papers.

Retrenchment was Necessary.

Mrs Bixby became convinced the other day that retrenchment was absolutely necessary in her household expenses.

"Business is dull," she said, "and I must make our bills as light as possible. For husband is quite worried over our affairs. Now, how do you do it?"

She showed Mr Bixby that women can be economical if necessary. "I know," she said suddenly, in the joyful tone of one who has had a happy thought. "I will do without the hat I intended getting to wear with my new gray suit. I can wear my black imported straw with it very well, and I will, too. I just must learn to economize."

Then she put on her hat and went down town, so elated over her "clever saving of five whole dollars" that she in- tended walking home with Mr Bixby at noon and telling him all about it.

"I wonder now," she said, as she stepped before the window of a dress store, "I wonder if I couldn't afford a new pair of those tan kid gloves with stitching on the back. I really need them, and I've saved \$5 by going without my hat, so— yes, I'll get them; they'll cost only \$2."

Ten minutes later she stood before the ribbon counter in a dry goods store.

"This ribbon is really very cheap," she was saying to herself, "and I need a lot of ribbon awfully. I wonder if I could afford it today. Let me see. I— oh, of course I can, after saving \$5 on that hat."

And she bought ten yards of ribbon at 25 cents a yard.

"Great sale of embroidery," she read on a flaring placard a moment later.

"Just what I need," she said, "but I've been doing without because I wanted to economize; but I'm sure Charles couldn't say anything if I bought a little when I've saved five whole dollars."

So she bought "a little" for \$1.75. Then she got "the greatest kind of a bargain" in remnants of French gingham for \$1.50.

"I never would have bought it," she said to herself, "but it was so cheap, and then I'd saved five dollars this morn- ing."

Before reaching her husband's office with the cheering news of her economy she had bought four yards of lace, three of insertion, a pound of candy, two col- lars and a pair of cuffs, a pair of slippers, two pairs of hose, handkerchiefs, three yards of lawn, a fan, a bunch of roses, another pair of gloves, and six linen ha- dkerchiefs and two neckties for Mr Bixby.

Then she repaired to Bixby's office with the tale of her economy, and ended by saying:

"And here's a few little things I thought I could afford after saving \$5 much by going without my hat."

Bixby asked a few questions, made a rapid calculation, and said in an utter- ly heartless tone:

"See here, Sally, don't you economize any more. You'll break me sure if you do. You've got \$16.98 worth of things already out of that \$5, and—"

"You're just too mean for anything, Charley Bixby!"—Detroit Free Press.

The Highest praise

I used a bottle of Borden's Blood Bitters for my Dyspepsia and it proved a perfect cure, and I was blessed the day I got it. I would not be without it now for a lot. It is worth its weight in gold.

Mrs W. J. Smith, Haley Station, Ont. 2

Ten Good Things to Know.

1. That salt will curdle milk; hence, in preparing milk porridge, grease, if no further applications are made to the courts, the Minister of Justice will be prepared to give his decision on the 25th inst.

2. That clear boiling water will remove tea stains and many fruit stains. Pour the water through the stain, and thus prevent its spreading over the fabric.

3. That ripe tomatoes will remove ink and other stains from white cloth, also from the hands.

4. That a teaspoonful of turpentine boiled with white clothes will aid in the whitening process.

5. That boiled starch is much improved by the addition of a little sperm, salt or gum arabic dissolved.

6. That beeswax and salt will make rusty flatirons as clean and smooth as glass. Tie a lump of wax in a rag and keep it for that purpose. When the irons are hot, rub them first with the wax, then scour with a paper of cloth sprinkled with salt.

7. That blue ointment and kerosene mixed in equal proportions and applied to the bedsteads is an unfailing bedbug remedy, as a coat of whitewash is for the walls of a log-house.

8. That kerosene will soften boots and shoes that have been hardened by water, and render them as pliable as new.

9. That kerosene will make tin tea-kettles as bright as new. Saturate with woolen rag and rub with it. It will also remove stains from varnished furni- ture.

10. That coal rain-water and soda will remove machine grease from wash- ing fabrics.

HINTS TO HOUSEKEEPERS.

Tin cleaned with paper will shine bet- ter than when cleaned with flannel.

Lard may be made perfectly sweet by boiling a red potato in it.

If sassafras bark is sprinkled among dried fruit it will keep out the worms.

Flowers can be kept fresh for some time before the man had time to get far. He was seized, and a dreadful struggle en- sued. He had a long knife in his hand, and it was some time before he could be deprived of it. Eventually it was taken from him.

A solution of equal parts of gum arabic and plaster of Paris cement china and earthenware.

Ham should be boiled very quickly and just enough to cook through. Tea leaves are good to scatter over carpets before sweeping, not only to prevent dirt, but also to prevent dry- ness. Physicians have been unable to check the disease or to agree upon its cause. It is an affection of the bowels and many think the cause to be found in the drinking water from wells.

THE WEST VIRGINIA FLOODS.

Later Reports Make the Disaster Grow in Horror—Many Lives Lost.

PARKERSBURG, W. Va., July 20.—The news from the flooded district to-day shows that but a faint outline of the story was told in last night's telegrams, and as rumors of districts are heard from it is feared the loss to life and property will reach large proportions. To-day news from Ravenswood, Jackson Co., indicates that at least a dozen lives were lost in that locality alone. What is described as a cloudburst descended upon the headwaters of Pond Creek and Ohio, and the whole surrounding country add a quart of milk heated to boiling. It should be slightly sweetened.

Oatmeal water is the cheapest and one of the most healthful drinks. It is simply oatmeal stirred into cold water and allowed to settle before drinking. This is sold in New York at a penny a glass, giving the vendor about 99 per cent of profit. It makes a pleasant drink if a very thin gruel is used, using one tablespoonful of oatmeal to a quart of water. Boil for an hour, strain and let it get very cold. Still another im- provement is to add the juice of one lemon and two tablespoonfuls of sugar to each quart.

Ginger Beer.—A ginger beer costing about fifteen cents a gallon is a good stand-by, but the following is one of the simplest. Pour four quarts of boiling water over three pounds of a pound of white sugar; add the minced yellow peel of one lemon and an ounce of uncut ginger. Let this stand over- night, then add a quart of cold water, a mix thoroughly, cover and stand in a warm place over night. Next day strain, bottle and cork; tying down the cork securely. Lay the bottles on their sides in a cool place.

One Way to Clean House.

"Dada, an' ye won't find me down on two knees cleanin' house for nobody the year!"

"Faith, nor me nayther; I'm not get- ting for the look of that. Everything in reason, sez I, but they may get in ex- treme, but I'll be the paper mill be- yant the river."

This was a fragment of the romantic conversation I heard as I strolled down the garden path by moonlight. My mother-in-law's girl and mine were con- versing over the party given by the Dean and I got in extra help! I wasn't an easy thing to do, even if I could afford it, and Mary such a good girl in the main. It was too true that the doors of the paper-mill stood always hospitably open for the domestic with a grievance, and a ding line of the disaffected had al- ready disappeared therein.

Was not all fair in household warfare? What might not a strategic movement effect? The next morning I said: "Mary, I have pulled out the trunks in the attic to get at the children's spring clothing. I will be a good time to sweep and wipe up the floor, and take a cloth about the window. I will clear the break- fast table and wash the dishes." This was "in reason," and whatever Mary did she did well. I ate my dinner with a rainbow in my soul. The attic was cleaned, a few days later, I smuggled down the second floor, brushed the door walls, dusted pictures and put closets and drawers to rights; then in a casual way I asked Mary to take the rugs to the yard for an airing and shak- ing, and as there was no heavy work on hand for the day, she might wipe off the paint and windows. The third wood- floor was kept bright with its weekly polishing. There was none of the re- markable energy of the house cleaning period in my tone or manner, and as Mary was lying back for her grand *comp* she took no offence. Another time I remarked, as she brought a bundle of insurance, as Mr. Jones was out of town, I believed I would have James Leary come and beat the heavy parlor and library rugs. While the castigation was going on, what more natural than that Mary should wipe—the word clean being always scrupulously used—the paint on the walls, the book cases I had al- ready taken care of. I bought a variety of bright-colored and elaborate-cut shir- t paper at the five-cent store, and this was such a fine bait that Mary, of her own accord, proceeded to clean and decorate the chimney chimneys with increased satis- faction and brilliant success. Later, came a man to kalsomine the kitchen and whitewash the cellar walls, and on the first of May I was sick and spun from carpet to cellar. We had cleaned house, and Mary never suspected it.

I knew my mother-in-law would de- scribe such ignoble subterfuges, but then her Jane is now adorning the rag-room of the Excelsior Paper Mill, and she is getting on with the merest make-shift help. She has house-cleaning still in the perspective, and she said with a high last night: "Oh, if I only had my Mary."—Helen Rogers, in Home Maker.

A TERRIBLE CRASH.

CHARLESTON, W. Va., July 20.—There was another sudden rise in the Elk and Poca rivers last night. A great quantity of logs, timber, hay, wheat and oats was destroyed. The loss will at least reach \$100,000.

Another Freshet.

CHARLESTON, W. Va., July 20.—There was another sudden rise in the Elk and Poca rivers last night. A great quantity of logs, timber, hay, wheat and oats was destroyed. The loss will at least reach \$100,000.

An Excursion Boat Collides With a Bridge With Fatal Results.

SAVANNAH, Ga., July 20.—The steamer St. Nicholas, with 500 closed excursionists aboard, ran into the closed drawbridge over St. Augustine, four miles south of this city, at 9 o'clock to-night, demolishing the forward part of the steamer, killing two women, and injuring 28 men and women, some of whom were Captain Bonham, who commanded the steamer, said he blew a whistle when turning into the creek from the Savannah River, but the bridge-tender did not signal that the bridge was closed until it was too late to stop the boat. The engines were backing when the crash came. The forward decks were crowded. The upper deck was carried away and the pilot house and hur- ricane deck crushed under the mass of people. One of the dead was a colored cook and the other is an unknown young woman.

This Patent Will Revolutionize, etc.

CHICAGO, July 20.—A firm in this city engaged in the manufacture of tin cans had patented an invention which, competent judges say, will revolutionize the tin and steel industry of the world. The patent is held by the leading countries of the world. It is a process by which molten metal may be rolled into any desired shape, thus saving all intermediate processes. It was invented by the original inventor, a man of genius, who is now in the city.

Elopers Come to Grief.

OHARA, Neb., July 20.—A wealthy hotel and a dealer named George C. Hagen, doing business in Chicago and Newcaste, Pa., was arrested yesterday while attempt- ing to cash a \$1200 draft. Hagen came here originally to make a new indus- try in this country. The molten metal is passed between rollers, which is chilled as it passes, the rollers, being kept cool by a stream of water, which causes the mass of steel to rolled will be much more even and stee in texture than that made by present methods.

Elopers Come to Grief.

OHARA, Neb., July 20.—A wealthy hotel and a dealer named George C. Hagen, doing business in Chicago and Newcaste, Pa., was arrested yesterday while attempt- ing to cash a \$1200 draft. Hagen came here originally to make a new indus- try in this country. The molten metal is passed between rollers, which is chilled as it passes, the rollers, being kept cool by a stream of water, which causes the mass of steel to rolled will be much more even and stee in texture than that made by present methods.

The Nicaragua Canal.

NEW YORK, July 20.—A letter from Greytown dated July 10 says that work on the Nicaragua Canal is progressing favor- ably. Tetu Nicaragua and Costa Ricans warmly favor the pushing forward of the work of construction, and the little mis- understanding between the two republics over the canal is likely to be amicably settled. The health of the construction corps is remarkably good. Nearly 1000 men are employed at different points on the line of the canal.

An Oblet Plague.

PORTSMOUTH, O., July 20.—At Rarden and Otway, villages not far from Portsmouth, the same peculiar disease which nearly de- populated those places last summer has re- turned. A lady is said to have died in Otway last night. "Oh, if I only had my Mary."—Helen Rogers, in Home Maker.

Father Damien's work in the Haw- aian lepro settlement, though a very dis- tinguished instance of missionary hero- ism, is not a solitary one. The Mis- sionary Year Book for 1889, published by the Religious Trust Society, shows that the 135,000 lepers of India have had their ministrants, chiefly from Scotland and Ireland, for the last fifteen years. The work of the missionaries extends to 1600 places which even ambition and greed men to find. Among these is Terra del Fuego, whose inhabitants had no articu- late language, and were described as in- capable of being Christianized or civil- ized. Missionary after missionary was watched before a footing was obtained, and now the missionaries have contrived to find an articulate language for them, and there are schools, orphanages, moth- er's meetings, and all the machinery of an English parish in Terra del Fuego.

There is said to be a stream near Tuc- son, Ariz., which petrifies every soft ob- ject put into it. A biscuit dropped in to the crystal water is alleged to have been turned to stone within a few min- utes.

Attiled by a Shark.

JACKSONVILLE, Fla., July 21.—Edward Roe, a young Eng'lanman, who is swim- ming in the Cumberland Sound with 15 other boys from Fernandina, was struck by a shark, which bit off the calf of one leg. Roe was taken into a boat at once, but died in a few hours before medical assistance could be obtained. This is the first instance known of a shark attacking a man in these waters.

For Hot Weather.

Ginger water, which is simply wa- ter sweetened with molasses, with two table- spoonfuls of cider vinegar added to each cup of molasses, and the whole spiced with ginger, is a very palatable drink, and one which may be safely used by farm laborers, unless indulged in too freely when over-eaten.

Cocoa tea is healthful and inexpen- sive. It is made from the shells or nibs, which cost three cents per pound. Wet two ounces with a little cold water, and pour over them a quart of boiling water, and cook one and a half hours; strain and add a quart of milk heated to boiling. It should be slightly sweetened.

Oatmeal water is the cheapest and one of the most healthful drinks. It is simply oatmeal stirred into cold water and allowed to settle before drinking. This is sold in New York at a penny a glass, giving the vendor about 99 per cent of profit. It makes a pleasant drink if a very thin gruel is used, using one tablespoonful of oatmeal to a quart of water. Boil for an hour, strain and let it get very cold. Still another im- provement is to add the juice of one lemon and two tablespoonfuls of sugar to each quart.

Ginger Beer.—A ginger beer costing about fifteen cents a gallon is a good stand-by, but the following is one of the simplest. Pour four quarts of boiling water over three pounds of a pound of white sugar; add the minced yellow peel of one lemon and an ounce of uncut ginger. Let this stand over- night, then add a quart of cold water, a mix thoroughly, cover and stand in a warm place over night. Next day strain, bottle and cork; tying down the cork securely. Lay the bottles on their sides in a cool place.

One Way to Clean House.

"Dada, an' ye won't find me down on two knees cleanin' house for nobody the year!"

"Faith, nor me nayther; I'm not get- ting for the look of that. Everything in reason, sez I, but they may get in ex- treme, but I'll be the paper mill be- yant the river."

This was a fragment of the romantic conversation I heard as I strolled down the garden path by moonlight. My mother-in-law's girl and mine were con- versing over the party given by the Dean and I got in extra help! I wasn't an easy thing to do, even if I could afford it, and Mary such a good girl in the main. It was too true that the doors of the paper-mill stood always hospitably open for the domestic with a grievance, and a ding line of the disaffected had al- ready disappeared therein.

Was not all fair in household warfare? What might not a strategic movement effect? The next morning I said: "Mary, I have pulled out the trunks in the attic to get at the children's spring clothing. I will be a good time to sweep and wipe up the floor, and take a cloth about the window. I will clear the break- fast table and wash the dishes." This was "in reason," and whatever Mary did she did well. I ate my dinner with a rainbow in my soul. The attic was cleaned, a few days later, I smuggled down the second floor, brushed the door walls, dusted pictures and put closets and drawers to rights; then in a casual way I asked Mary to take the rugs to the yard for an airing and shak- ing, and as there was no heavy work on hand for the day, she might wipe off the paint and windows. The third wood- floor was kept bright with its weekly polishing. There was none of the re- markable energy of the house cleaning period in my tone or manner, and as Mary was lying back for her grand *comp* she took no offence. Another time I remarked, as she brought a bundle of insurance, as Mr. Jones was out of town, I believed I would have James Leary come and beat the heavy parlor and library rugs. While the castigation was going on, what more natural than that Mary should wipe—the word clean being always scrupulously used—the paint on the walls, the book cases I had al- ready taken care of. There is said to be a stream near Tuc- son, Ariz., which petrifies every soft ob- ject put into it. A biscuit dropped in to the crystal water is alleged to have been turned to stone within a few min- utes.

Attiled by a Shark.

JACKSONVILLE, Fla., July 21.—Edward Roe, a young Eng'lanman, who is swim- ming in the Cumberland Sound with 15 other boys from Fernandina, was struck by a shark, which bit off the calf of one leg. Roe was taken into a boat at once, but died in a few hours before medical assistance could be obtained. This is the first instance known of a shark attacking a man in these waters.

A CABINET RUMOR.

The Earl of... and Commerce to be Given to Senator Abbott.

OTTAWA, July 20.—The Journal this evening says: It is understood that the intention shortly to fill the position of Minister of Trade and Commerce created by an act of 1887. The creation of the new department carries the transfer to it of the Departments of Customs and Inland Revenue, which thereupon cease to have a separate existence, being placed each under a parliamentary head designated Controller, to whom a salary of \$5000 a year may be paid. The report is that the position may be given to Hon. J. J. C. Abbott, whose selection as special commissioner to Aus- tralia is a prelude to his entry into office. He will send cabinet rank and may possibly continue to be Government leader in the Senate.

The outgoing ministers, Hon. Mackenzie Bowell and Hon. John Costigan, will receive good permanent appointments in the Government.

The two controllerships, as well as the position of Solicitor-General, which is also to be created, will be offered to prominent members who have been mentioned for the vacant position of Minister of Railways.

Hon. T. B. Pardee no More.

SARNA, July 21.—Hon. T. B. Pardee, late Commissioner of Crown Lands in the Ontario Government, died at his residence here at noon to-day. He has had a pro- longed struggle against a combination of bodily ailments. In February, 1887, he was obliged to give up the superintendence of his department, and on medical advice went to Florida to seek recuperation. He remained there a year, returning in April, 1888. He was somewhat benefited, but still unable to assume active duty. Shortly after his re- turn to Toronto he returned to his home here and since then slowly sank. Towards the end his mental faculties failed fast. For weeks he has been unable to recognize his intimate friends. The funeral will take place here on Tuesday afternoon at 2 o'clock.

AMBITIOUS CITY NOTES.

Summer Carnival Attractions—Jennie White Prefers Buffalo to Hamilton.

HAMILTON, July 20.—The program of the summer carnival is published to-day. It includes the Lake Yacht Racing Association Regatta and Victoria Rifle Club matches on Aug. 19, C.A.A.A. regatta on Aug. 20, games and athletic sports at Dundurn on Aug. 21, trades procession on Aug. 22, and military display on Aug. 23. Besides these special features there will be the merchants' convention, meeting of North America St. George's Union, baseball games, illumina- tion of the city, etc.

Goderich, July 11th, 1889

COUNTY CURRENCY.

Items of Interest from over the County.

A Weekly Digest of the County News served up to Suit Readers of "The Signal." Fifth and Point, Clipped and Condensed from Every Section.

Jno. Campbell, 16th con., Grey, raised a spring lamb that dressed 55 pounds. How is that?

A sale of 2068 pounds of cheese was made to F McLaren, Ethel, at 9 cents, which is quite satisfactory.

Little Jimmie Stretton, of Brussels, had the misfortune to fall from the woodshed on Sunday of last week and broke his left arm.

Mr G. A. Smith, of Galt, a gentleman well known in Clinton, has been appointed science master of Parkdale High School.

Rev Mr Gibson, Methodist minister, who has just been located at Ethel, died on Monday of last week, and was buried at Brussels on Wednesday.

Mr W. H. Pay, of St Catharines, brother of Mr Geo. E. Pay, Clinton, has been appointed roadmaster of the Niagara Central Railway. He is well qualified for the position.

On Monday of last week, Mr S. Cole, of Kibur, came ten miles, moved a barn 200 feet, turned it round and raised it 9 feet high, on the farm of Messrs. Nash Brothers, of Mckillop.

A base ball match was played on the recreation grounds, on Saturday afternoon, the 13th inst., between the Broadfoot & Box club and the Fremont of Seaford, which resulted in a victory for the fire fighters.

The benedicti and bachelors of Wingham were arranged in cricket array in Recreation park, on Tuesday of last week, captained respectively by H. W. C. Meyer and Ed. Stiles. The score was 30 to 24 in favor of the married men.

One day recently, as Mr James Snell, sr., Kibur, was engaged mowing, he placed a vest, in which was a pocket-book containing \$50, on the seat, and sometime afterwards, on examining the vest, both money and pocket-book had disappeared.

George and Samuel Mooney, Brussels, left on Tuesday morning of last week, for Indian Head, N. W. T., on a prospecting tour, with a view of becoming permanent settlers. Thomas Mooney has returned to his home under the stars and stripes.

Mr J. C. McIntosh, formerly of Bayfield, who was an extensive writer on "The Mark of the Beast," and other scriptural subjects, and in his day contributed to the columns of the Clinton News Era, died at Exeter, on Sunday, the 14th inst.

Mr George Weatherhead, St Helens, left on Saturday, the 13th, in charge of a number of fine cattle and sheep, for Liverpool, owned by Mr Hugh Girvin, of the Nile. This will be Mr Weatherhead's third voyage across the Atlantic on a similar errand.

Mrs Rutland, of Toronto, who has been visiting at Mr W. Key's, Stanley, for a short time, has gone up to visit her grandmother, Mrs Clarke, near Goderich. She has two children with her, and there are now four generations in the one house, a thing not often witnessed.

That wide circle of people who have watched with interest the case of Mrs Wm. Cantelon, of Clinton, will be much pleased to know that she is now almost entirely out of danger, and will be able to sit up in a few days. The operation and her recovery are proofs of the advancement of surgical science.

Mr Hugh Chesney, of Tuckersmith, left for Banff on the 16th inst., for the benefit of his health. We feel sorry that Mr Chesney's health necessitated this step, but hope it may do him good and that he may receive benefit from the celebrated hot springs of Banff, which have been of so much service to sick people from all parts of the American continent.

At a recent meeting of Clinton lodge No. 83, I. O. O. F., the following officers were installed by Judge Tom, D. G. M., assisted by brethren from Hensall, Goderich and other places:—Robt. Logan, J. P. G.; Rich Stoneham, N. G.; C. J. Stevenson, V. S.; Fred Alcock, R. S.; J. H. Worsell, P. S.; Robt. Logan, Treas. Mr Worsell was elected as representative to the Grand Lodge, which meets in St Catharines the second week in August.

Mr John Mole, Auburn, who has been undergoing treatment at Berlin for the removal of a cancer from his face, returned home on Wednesday of last week and expects to be all right in a few days.

A horse belonging to Mr Thornton Wallace, of Hullett, came into Clinton by way of the Seaford road the other day, with nothing attached to it but a pair of shafts, the balance of the buckboard having been left in the road. Mr W. Wallace was in a field when the horse ran away, and therefore received no injury.

The following militia appointments have been made:—3rd Huron Battalion, No. 4 Company, Clinton.—To be lieutenant provisionally, Private Hugh Barry Combe, vice Edward Costello Coleman, resignation accepted. To be second lieutenant provisionally, Harry Torrance, vice James Young.

Robert Sprung and John Knox, of the Base line, Hullett, have returned from South Western Manitoba, and are looking after their farm work just now, but intend going out again soon and taking with them 16 or 18 horses to sell. They will make a good thing out of it if the crops of the Manitobans escape the frost this year. They are also taking dried apples out there for Win. Downs, and will no doubt find a ready sale for them.

On Tuesday of last week while Mr David Rowtcliff, Exeter, was engaged in raking hay on the farm of Mr James Pickard, he met with what might have been a serious accident. It appears he arose from his seat on the rake and just then the horse stepped forward, throwing him back over, and in the fall one of his legs caught in a part of the rake and held him fast. Had it been a skittish horse no doubt it might have proved fatal, but he escaped with a few bruises and a sore and back.

On Tuesday of last week Mr W. McLean shipped a number of cattle from Clinton, among them being 40 head purchased of "Kitty" Dale, Hullett, that averaged 1450, and 36 purchased of Mr W. Grant, Stanley, that averaged 1417, after having struck 12 hours. The cattle were considered by good judges, Mr McLean included, as being among the very best that have been raised in the county. They were well selected in the first place, well fed during the winter, and then turned out to graze in spring, and were what might be termed "finished cattle." Men like these deserve a good deal of credit, and get their reward in the enhanced profits. If there were more like them in the county it would be well.

On Monday, the 15th inst., Rev Joseph R. Gibson died at the Methodist parsonage at Ethel, aged 45 years and 6 months. The deceased moved to Ethel only a few weeks ago, as successor to Rev J. T. Leggar, coming from Maitland circuit, where he had spent the previous three years. He had been on the sick list for the past few months, but, until lately, nothing serious was anticipated. Not feeling as well as usual a consultation of physicians was decided on and it was ascertained that the conclusion that an inward cancer was doing its work and that life at the longest would not continue more than a few months. On Sunday internal hemorrhage set in and death soon followed. Like a valiant soldier the subject of this brief sketch died with his face to the foe, trusting in the captain of his salvation for victory over the last enemy. The funeral service on Wednesday afternoon was conducted at the parsonage by Rev Dr Henderson, chairman of the Listowel district. Rev W. Torrance, of Walton, read the 23rd Psalm (a favorite portion of Mr Gibson's) and Rev Jno. Scott, M.A., chairman of the Wingham District, read a portion of the 15th chapter of 1st Corinthians. Rev R. Paul offered prayer. Short addresses, suitable to the sad occasion, were given by Rev Jas McAllister, chairman of the Palmerston District, and Rev Mr Torrance. The pall bearers were Revs F. M. Smith, of Henfryn; J. L. Kerr, R. Paul and S. Sellery, B.A., B.D., of Brussels; D. Rogers, of Attwood; and W. Torrance, of Walton. The service at the grave was read by Rev J. W. Gilpin and Rev Dr Henderson, of Listowel. Mrs Gibson and her two daughters have the sympathy of a large circle of friends. Rev Mr Gibson was a quiet, unassuming man, not known to many in this section. His work in the ministry during the past 18 years has been at Maitland, Kemble, Little Current, Port Kellar and other places in that portion of the country. Owing to the state of his health he had not presided since going to Ethel circuit.

North American Life Assurance Company!

(INCORPORATED BY SPECIAL ACT OF DOMINION PARLIAMENT.)
HEAD OFFICE, - TORONTO, ONT.
FULL GOVERNMENT DEPOSIT.

A Vigorous, Prosperous and Progressive Canadian Company

Mr E. J. Hill, M.A., science master in the Clinton Collegiate Institute, tendered his resignation on Thursday, the 11th inst., having accepted a similar position at Guelph. The board could have held him on to the completion of his engagement, had they desired to do so, but at a meeting they decided to accept his resignation, not wishing to stand in the way of any teacher that thought he could better himself, although it puts them to a little inconvenience in securing a substitute. As a successor to Mr Hill is being advertised for, the Institute will re-open after the holidays with a full and efficient staff. Mr Hill will be missed in both school and church circles, he being one of the active members of the Baptist church.

During the labor riots in Duluth a few days ago, wherein the police were compelled to fire upon the strikers, a boy named Thos. Fitzsimmons, son of Mr Hatley Fitzsimmons, formerly of Clinton, was struck by a stray bullet, from the effects of which he died. The inquest showed that he had no connection whatever with the affair, as he was on the sidewalk minding his own business when he was struck in the left side by a bullet from a policeman's revolver. He was taken to the hospital, where he received the best care and attention, the city authorities doing all that was possible for him, but to no purpose. He was a promising youth of 13 years, having been born in Clinton, to which place his remains were taken for interment.

On Monday, the 15th inst., Rev Joseph R. Gibson died at the Methodist parsonage at Ethel, aged 45 years and 6 months. The deceased moved to Ethel only a few weeks ago, as successor to Rev J. T. Leggar, coming from Maitland circuit, where he had spent the previous three years. He had been on the sick list for the past few months, but, until lately, nothing serious was anticipated. Not feeling as well as usual a consultation of physicians was decided on and it was ascertained that the conclusion that an inward cancer was doing its work and that life at the longest would not continue more than a few months. On Sunday internal hemorrhage set in and death soon followed. Like a valiant soldier the subject of this brief sketch died with his face to the foe, trusting in the captain of his salvation for victory over the last enemy. The funeral service on Wednesday afternoon was conducted at the parsonage by Rev Dr Henderson, chairman of the Listowel district. Rev W. Torrance, of Walton, read the 23rd Psalm (a favorite portion of Mr Gibson's) and Rev Jno. Scott, M.A., chairman of the Wingham District, read a portion of the 15th chapter of 1st Corinthians. Rev R. Paul offered prayer. Short addresses, suitable to the sad occasion, were given by Rev Jas McAllister, chairman of the Palmerston District, and Rev Mr Torrance. The pall bearers were Revs F. M. Smith, of Henfryn; J. L. Kerr, R. Paul and S. Sellery, B.A., B.D., of Brussels; D. Rogers, of Attwood; and W. Torrance, of Walton. The service at the grave was read by Rev J. W. Gilpin and Rev Dr Henderson, of Listowel. Mrs Gibson and her two daughters have the sympathy of a large circle of friends. Rev Mr Gibson was a quiet, unassuming man, not known to many in this section. His work in the ministry during the past 18 years has been at Maitland, Kemble, Little Current, Port Kellar and other places in that portion of the country. Owing to the state of his health he had not presided since going to Ethel circuit.

LONGFELLOW'S MAIDEN, who is—

Standing with reluctant feet,
Where the brook and river meet,
Woodhoop and childhood feet!"

is a type of thousands of young girls who are emerging from the chrysalis stage of their existence, as they enter upon their "teenage." Nervous, excitable, irritable, stirred by strange, unknowable forces within them, each a mystery unto herself, our girls need the tenderest care, the most loving, patient oversight, and the aid of a "Favorite Prescription" to safely carry them through this critical period, during which, in too many lives, alas, are sown the seeds of disease which will prevent all such diseases, or cure them if they have already seized a victim. Woman owes it to herself, to her family, and to her social station, to be well and strong. Let her then not neglect the sure means of cure. "Favorite Prescription" is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to women's delicate organization. It is purely vegetable in its composition, and perfectly harmless in its effects in any condition of the system. Sold by druggists; \$1.00, or six bottles for \$5.00.

EPPS'S COCOA.

BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold in packets by grocers, labelled thus: JAMES EPPS & Co., Homoeopathic Chemists, London, England. 2188.
