Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weak ness and derangement of her special womanly or ganism soon loser the power to sway the heart of a m.n. Her general health suffers and she loses her good looks, her attractiveness, her amiability

her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R.V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Time to Cry Halt.

Editor Evening Telegram. Dear Sir,-As an interested outsid-

er, watching the trend of affairs, political and otherwise, in Newloundland, I am compelled to express my unbounded surprise at the shortsightedness of the people in setting aside, even temporarily, a statesman of such great ability as the Right Hopourable Sir Robert Bond, K.C.M.G. Well indeed is it for the people of the Island to have such an able, patriotic and tern Cuts. These will be found very farseeing a leader to guard their real interests, even if his position at present is leader of the Opposition benches. Yes; well indeed that he is on deck and keeping a sharp lookout, very soon our ship of state would be on the rocks a total wreck. Tis hard to understand how the people were so completely hoodwinked during the last election. When one compares the enormous benefits and financial assistance the present Government are seemingly anxions to extend to parties from a foreign shore, for the purpose of building up for them a huge monopoly at the expense of the inhabitants of the island, with the paltry donations of a couple of pounds of seed potatoes per man and a horse or two, and a couple of sheep and pigs amongst some hundreds of people, it makes one wonder whether it is not children playing at governing instead of intelligent men Again I say, 'tis well for Newfoundland that there is still to the fore Sir Robert Bond and his few supporters of similar calibre to save it from utter demoralization. Was the mandate given the present Government at the last election of such a nature as to enable them to give away according to their pleasure, regardless of the effect of the same on the people, all and every asset left us for a mere song, an imaginary benefit based on shadows? It seems like it. Surely if ever there was a time in the history of the Is-

MR. SCOTT'S SPEECH.

Ladies and Gentlemen, Boys and irls,-I am very glad to see such a arge number of you gathered here this afternoon, as what we are about o do is a very important matter. The place is remarkable, and the occasion s remarkable. We are here in a new own, the site of a new industry, and e are about to inaugurate a new school which we confidently hope will be the beginning of a new era in

It would have given us much pleasure to have had with us to-day some of the Directors of the Company which has so munificently built and equipped this building in which we are met. It would have given us particular pleasure to have had with us o-day the esteemed President of the ompany, Mr. Beeton, to whose genius this place, and indeed this school owe their inception. Such, however. cannot be the case; but, although they are absent, their looughts are with us, as is shown by the following

May I be pardoned while I make personal explanation. Some of you are wondering why I am here. I may say that I am here in my capacity of Chairman of the School Committee Through the kindness of my fellow members I was elected Chairman that body when they were constituted as agreed at the public meeting last April. This is an honour which I es teem very highly, and I can assure the people of Grand Falls that it wil always be my happiness to do any thing I can for the good of education in Grand Falls. I will go further, and have been made for cloak rooms Bray's speech Mr. Scott again stood downstairs, the boys and girls in sepup and formally pronounced the anything I can for the people of Grand arate departments, and a good lav-school open. In doing so, he asked Falls whenever I can render them anything I can for the people of Grand honourable service.

some acknowledgments. I wish acknowledge to the contractor for the building, Mr. W. F. Horwood, Horwood Lumber Company, and his fore man, Mr. Cummins, my sense of the manner in which they have carried out this building, which certainly has been erected in a very creditable manner. At the same time I wish t acknowledge the great assistance have had from my good friend, Mi James Berwick, who has given me assistance ungrudgingly and valuable advice in connection with the differen roblems concerned with the heating and ventilation. I do not think I could have carried it through without Mr

Berwick's assistance. I also wish to acknowledge the as sistance of other gentlemen, notably Mr. Thomas Brown and the other oremen engaged here; Mr. Christian who built the steel stairs, and M Jackman, who latterly supervised the building. It is impossible to include all the good men who have helps

me with this building. Leaving the school, I wish to direct your attention to the object for which this school has been built That object, stated shortly, is to provide every boy and girl in Grand Falls with such an education as will nable them to enter the struggle of ife without a handicap. Now, about ducation and what is the necessit of it, there has been a great deal of confused and contradictory talk. Formerly it used to be the fashion to urge on Governments the necessity of eduwould be secured. That used to be place. the argument about 60 years ago. Again, you would hear it argued that as ignorance makes bad workmen, it was to the advantage of the State that people should be educated, so that they could turn out manufactured articles cheaper than their competitors. Now, ladies and gentlemen, we are putting the argument for educaion on a higher plane when I urge n you the necessity of educating boys and girls of Grand Falls, because they will grow up into men and women with unlimited capacities of being doing and suffering, and it is true now as it ever was that the people perish for lack of know-

Second, honor your parents your fathers and mothers which is the first commandment with promise. Third, honor yourselves, would ask you to come here a credi o your parents invevery way; to come well dressed, as far as your parents neans will allow ; to come clean, with lean persons, clean hands and faces here is no excuse for not having these. Fourth, honor your teachers Your teachers are people to whom you will owe a great deal. When ou get to be even as old as I am you will look back on your teacher as your best friends. Fifth, honor would ask you not to deface it in any way, and before you destroy the plaster, for instance, I hope you will wait until vou are as good a plasterer as Mr. Conway; before you injure the plumbing, I hope you will wait until ou are as good a plumber as Mr. McVane. I hope you will remembe the number of years of hard toil which these men have given to acquir

I have much pleasure, ladies and centlemen, in introducing to you Mr Bray, the Headmaster of this school who comes to us with the very highest qualifications, and I am sure that under his rule the school will prosper and that we may confidently hope for a more glorious day in educations natters, of which we now, perhaps stand at the dawn. Temperance Sunday.

Rev. Canon White, assisted by Rev. Mr. Bell, presided yesterday at the celebration of Temperance Sunday in the Cathedral. There was a large attendance. The service began with the celebration of the Holy Eucharist on behalf of the work of the Society. Many members made their Corporal Communion. A special sermon was preached at Evensong. Rev. G. H. Bolt and Rev. Canon White read the lessons, and Revs. J. Bell and C. H. Barton recited the office. Rev. Canon White preached an excellent sermon from I. Cor. 9: 25-"Every man that striveth for the mastery is temperate in all things." The preacher referred to the evil effects of intemperance and the fact that people did not all see eye to eye. As to the remedy, how-ever, there was no doubt as to the existence of the evil and the baneful ffects thereof and any remedial measures should have the support of the whole church. Even on the grounds of material prosperity, especially in this age, the temperate man has an argument that is strong in favor of abstinence from spirits. This is the age of keen competition; the cost of living is becoming higher every year, so that if a man wishes to get on he must be sober. The drinking man is being crowded out every day, and the man who wishes to succeed must be temperate in all things. In spiritual matters, too, if a man wishes to advance, he can only gain the mastery over his passions by being temperate. The season of Lent, now at hand, was instituted in order to provide a means to enable man to gain self control over his passions and appetites. He expressed the hope that all the congregation would strive by the grace of God to gain the mastery over all that was base and evil and to win the crown of joy at last. Appropriate hymns were rendered. Benediction brought the service to a
