Col. Sam Hughes stated tonight that the enrollment lists had come in today from a number of sections and in every instance the number of volunteers was greater than required. The totals are being telegraphed in today from the 200 commanding officers thruout the country, and the whole number of men who were enlisted will be announced tomorrow. The miniswill then decide how many men for each regiment will be announced fact, he did not try to arouse the country over the enrolling of volunteers, but deliberately held it in check.

Gen. Lessard May Lead.

There is still speculation over the appointment of the commanding officer for the contingent, in view of the likelihood of Col. OTTAWA, Aug. 13.—The finance department is in receipt of many enquiries respecting the "Postponement of Payments Act," 1914, recently passed by the imperial parliament. The act in substance provides:

1—His Majesty may by proclamation authorize the postponement of the payment of any bill of exchange or of any negotiable instrument, or any other payment in pursuance of any contract to such extent, for such time and subject to such conditions or other provisions as may be

specified in the proclamation.

No additional stamp duty shall be payable in respect of any instrument as a consequence of any postponement of payment in pursuance of a proclamation under this act, unless the proclamation otherwise directs.

Whereas in view of the critical situation in Europe and the financial beautions caused thereby it is expedient that the payment of certain bills the of exchange should be postponed as appears in this proclamation. NEED BE NO ANXIETY. By her declaration of war on Austria-Hungary, Great Britain has drawn attention to the Mediterranean, where the strength of the fleet is not known, owing to rigid censorship. It is known, however, that France has assembled almost her entire navy in the Mediterranean Sea, hence there need be no anxiety with regard to the safety of either British vessels there or those flying a neutral flag along the trade

BRISK FIGHTING CONTINUES. BRUSSELS.—Brisk fighting continues along the great line of

northwest of Liege, Belgium, as far as Belfort, France, as the German army, estimated at no less than a million men, presses forward thru Belgium and along the border line between Belgium and France.

Two important battles have been fought, one at Eghezee, and the other at Haelen, in both of which the Belgians are reported to have been victorious. In the fighting at Eghezee, toward which 80,000 Germans were advancing from the north in the direction of Namur, according to the Germans' original plan, the Belgians rushed out to meet the oncoming Teuton force, assuming the offensive, much to the surprise and apparent consternation of the kaiser's hosts, who expected to meet only defensive resistance, and that considerably farther

along than where they actually met the Belgians.
SERIES OF FURIOUS EXCHANGES. After a series of furious exchanges, during which the German front is reported to have become demoralized and to have been forced backward for a considerable space, the Belgian vanguard pressed the fighting so hotly that the Germans thus engaged fell back with severe

fighting so hotly that the Germans thus engaged fell back with severe losses, leaving in the hands of the cheering Belgians several of the latest types of improved machine guns mounted on motor trucks.

Again, in the environs of Diest and Hasselt, the Belgians assumed the offensive after an all-day struggle Wednesday, wherein they smashed a German division at Haelen, pushing it back upon Hasselt and St. Trond. In this engagement, which will be known as the battle of Haelen, the Germans are reported to have lost 2500 men, besides a considerable quantity of field equipment.

It is most evident that soon it will be for the Germans to make up their minds, in the event of the Liege forts holding out, whether to relinquish their advance into France thru Belgian territory west of the River Meuse, or to act along the line of the Dyle-Meuse in a manner like that of the Bulgarians at the Chatalja, which resulted seriously The platforms and entrances of the for them, after a like delay in advancing

The defences of Namur are considered by the Relgians as well nigh impregnable—at least, sufficient to bar the German advance for as long a space as the forts at Liege have held out.

A BRISTLING BARRIER. To reach northern France, as had been planned, the German army of the Meuse must drive back the allied French and Belgian armies of some 350,000 men, which now forms a bristling barrier on a line from the marvelously well-fortified City of Antwerp to Namur, and on a battle front reaching from the River Dyle to the River Meuse.

BATTERY ORDERED OUT IN HAMILTON

Men in Readiness to Start for Valcartier at Any Hour.

GO AT FULL STRENGTH

Precautions Are Being Taken Against Attempts at Outrage by Enemy.

HAMILTON, Aug. 13.—The first Hamilton unit to leave town for the front will be the Fourth Field Battery, under Major Carscallen. Instructions were received this morning from militia authorities at Ottawa to mobilize the battery and stand in readiness to entrain for Valcartier at any moment. The battery will leave here at full strength, under the command of the following officers: Major H. G. Carscallen, Capt. W. Field. Lieut, G. V. Taylor, Lieut. H. D. G. Crerar and Lieut. W. I. S. Hendrie.

Orders for the Army Medical corps, 33rd Howitzer Canadian Field Battery and the Army Service corps are expected at any time.

Not for infantry.

When it became known that cavalry would not be required for the first Canadian contingent local members of the Dragoons refused to enlist for active service as infantrymen.

To Prevent Outrage.

Many precautions are being taken locally against any outbreak or attempt to derail trains or the blowing up of the tunnel. It was rumored by farmers residing in the vicinity of the east end reservoir that an attempt had been made to polson the wells by two foreigners. When they were noticed by the farmers they left the place and have not since been noticed.

The T. H. and B. Railway officials are taking special precautions against the possibility of trains being wrecked or the tunnel being blown up. Armed men are stationed along the tracks at intervals at each end of the tunnel. They have been given instructions to shoot any person attempting to make trouble.

Two armed men have also been placed the place at Burlington Beach canal.

To Give \$100,000.

The one big question at the city hall at present is the scheme to donate \$100.000 toward the defence of the British Empire. The matter was dealt with by the board of control this morning, but there was a difference of opinion as to how the money would be used. Some of the members favored purchasing of the members favored purchasing equipment as did Ottawa, while the mayor and Controller Morris want it used in aiding the needy families of the volunteers. THE SITUATION IN THE UNITED STATES

Again we come back to our neighbors in this war. They are unable to find policy or line of action for themselves. Listen to this from The New York American:

licy or line of action for themselves. Listen to this from The New Tork American:

Not a pound of foodstuffs is leaving the United States, yet prices are being advanced shamefully.

What action does the government, thru Washington and local authorities, intend to take to stop this inexcusable and barefaced robbery of the public?

The rise in the price of meat has become intolerable. There is not the slightest justification for it, if the monopolitatic packers are not responsible, then the wholesalers or the retailers should be taken to task immediately.

This is not a time to inflict unjust and avoidable burdens upon householders and wage-earners. The terrible cataclysm abroad will bring in its train enough inevitable inconveniences and losses to every civilized country without malicious bloodsucking by corporations or individuals saturated with greed. Rapacity should be put down with an iron hand.

Let the authorities throw a few prominent commercial robbers into prison and see how the whole infunitous bubble of soaring prices will burst.

European governments have not hesitated to protect their people from cruel exactions by vendors of life's necessaries. Why should the American public have to submit to unconscionable extortion?

That same state of high prices may also prevail in Canada at this moment. But outside of that we wish to emphasize the fact that the American Republic, with its mense population and resources, and with its navy, is not able to market its products. It submits tamely to the orders and to the conditions imposed upon it by the kaiser of Germany! The Americans are still bewildered. They have recognized the Kaiser's hand, but they neglect to call him good and straight. He blocks them

selling and they also stand for the boost in prices for home consumption! But even worse than this: they stand for the way he and German bankers raided Wall street, depressed the prices of their securities, and forced the Americans to buy them back! Wall street must owe German brokers at least one hundred millions in gold as a result of the panic of Tuesday, August 4. The stock exchange of New York was closed to tide over the payment of this gold! But it has to be paid. Why does not the Washington Government investigate these transactions and get at the bottom of the German conspiracy that worked the biggest game on them in their

The United States is at this moment waiting for England, with a war on her ands, to clear the Atlantic so that Uncle Sam may market his farm products and get money to pay the accumulating adverse balances against him. The gold balance due to England from the United States today is nearly one hundred and fifty mit-

due to England from the United States today is nearly one hundred and fifty millions! And under the new arrangement made between England and Canada that gold will have to be deposited in Ottawa! There are American bankers who say not to pay it and who are asking the Washington Government not to allow the gold to go out of the country. That would be to confess bankruptcy!

We do not write these lines out of any feeling against our neighbors, but in sympathy: we do, however, urge them to get busy in finding out what the German military despot has done against them and what he is doing against all the world in order to further his income ambition for power and domination!

order to further his insane ambition for power and domination of the senate with power to enquire into the causes of the war and the great dis-location of business and finance of all the world, especially of the United States. A country with the enormous reserves of the United States and with its immense financial organization has surely a vital interest in finding out what has produced the money confusion that exists in that country today. Americans are not in a state of war; yet American banks are refusing to pay the gold balances they owe, even to Canadian banks; they may refuse to allow any gold to be shipped out of that coun-Suwalki. A German detachment of four battalions, three squadrons of cavalry and 18 cannon, attacked Eydtkuhnen, east Prussia, but was repulsed."

The corrections of and the second seco first sorted and then some kind of policy worked out. To do this will take time, and that is a subject for the bankers themselves. But the greater and more important subject is that which concerns the United States, and they must find out as a nation why they have been put in such jeopardy by war instigated by the despotic ruler

the German Empire, What were the acts and policy-or rather mispolicy-of George III. against the red to this blow from the kaiser against their freedom, their eir honor as a world power! The B the great confusion, of the great dislocation. The American press and congress and the president must get busy on this, must uncover the cause of the confusion and

rence at any time. And we have chosen to bring up this subject because the prosperity of Can s largely dependent on the prosperity of the United States, and if there is con-usion in their banking business there is bound to be confusion in ours; and trade demoralized there means trade demoralized here; and, that being the case, we have very good reason for suggesting to our neighbors some such policy as above out-

We will not be surprised if the United States will be forced within a few days to eass a law of moratorium and to greatly increase their national note issue and to suspend payments in gold. Some further drastic measures will be needed in Canada and parliament ought to get busy next Tuesday. It will find its hands full with the situation that confronts us and it.

BANKERS DIVIDED ON BIG QUESTION

Those Opposing Proposition to Partially Resume, Offer No Solution.

LOAN FOR FRANCE?

J. P. Morgan Co. Said to Have Sounded Federal Government.

NEW YORK, August 13 .- The outstanding feature of the day in financial circles was a further division in the ranks of the prominent banking interests respecting the methods to be employed to bring about at least a partial resumption of foreign business. Advocates of an amendment to the National Bank Act, permitting the use of bank notes as reserves are outnumbered by those who regard such an act as detrimental to the country's best interests. The fact that the clearing house committee has declined thus far to consider such an expedient seems to have given the proposition its quietus.

Offer No Solution.
On the other hand, opponents of the proposition offer no solution looking to a revival of the many obstacles now assuming greater proportions in connection with our foreign obligations. A definite stand on this momentous question will soon have to be taken, question will soon have to be taken, inasmuch as warrants or notes of the City of New York, payable in gold and largely held abroad, mature on Sep-

Another interesting development, which may go far towards solving this and other problems was contained in the announcement that J. P. Morgan and Company has sounded the federal government regarding the advisability of a large loan to France. No information on this subject was obtainable at the offices of the bankers, and it could not be ascertained how far these negotiations had been carried or what could not be ascertained how far these negotiations had been carried or what prospects there were that the lean would be placed. No information could be obtained from the principal international banking houses regarding a loan to Austria, negotiations for which, it was announced at Washington, were under way.

ton, were under way.

Call Loans Up.

Call loans were marked up to 8 per cent. in some instances today, but most renewals were made at 6 per cent. More inquiries for commercial paper were reported and a larger business was done at 6 to 6 1-4 per cent. Out of town banks were the cent. Out of town banks were the only buyers in the open market, local bankers confining their operations to the discounting of bills of their own

Sight drafts on London declined to 4.98, as against 5.15 a few days ago. Considerable business was done at this lower rate, and the London market as a whole was easier.

Another factor of favorable infludemand, with the result that little if any emergency currency was trans-ferred. Advices from various sections indicate that much of the alarm recently manifested in this connection

Ruthless Destruction by German Troops Continues in Belgian Towns.

BRUSSELS, Aug. 13, via London, 4.30 m.—The there is a general idea that big battle has begun the only official lews that came to hand late last night ave no indication where fighting was ccurring. It still seems here that the enemy is inclined to avoid aggression on large scale at Louvain, to the north-

a large scale at Louvain, to the northeast of Brussels.

Yesterday for the first time German prisoners were seen here. They were young officers with spiked helmets covered with brown holland cloth to render them less conspicuous. The Belgians fight at a disadvantage, as they are compelled to expose themselves in their ordinary uniforms, some of which, especially those of the cavalry, are brilliantly colored, while the Germans of all ranks wear a grey field uniform which easily melts into the grays and browns of roads and stubble fields.

The Belgian authorities are preserving well the secret of the operations of the military. A member of the chamber of deputies said yesterday that even he and his colleagues were ignorant of such matters as the whereabouts of army headquarters.

King Albert passed thru Louvain yesterday afternoon in a travel-stained automobile. He was dressed in a general's uniform and almost escaped recognition as he was without escort.

Harrowing stories continue to be told of alleged German brutalities. They are accused of burning and pillaging villages and of shooting villagers without provocation. It is alleged that whenever German cavalry enter a town they first make for the municipal treasury and then for the banks, taking whatever cash they can find.

Aiding the Empire

Who gives quickly gives twice is an old proverb, but in the present crisis in which the empire is involved who gives quickly gives with life-saving abundance. There are plenty of people in Toronto who imagine that it oes not matter very much whether Germany is victorious in the present war or not. Sir Rider Haggard. speaking with tense feeling, declared the plain truth that "England must conquer or fall forever. Do you under- or thru the good offices of an interstand," he asked, "that if we fall you fall? Do you understand that if Germany and her allies become the masters of England they become the masters of the world, and that in two or three years there will be no British ed further discussion and also refused of the Asquith cabinet. The navy, without which we would be as helpless as sheep, is the terror of its enemies, and the only force on earth of which all the nations are afraid. But the navy cannot be too strong. There has come from England a prothat Canada should buy two warships now about completed in British yards

We would like to put it up to Sir James Whitney, whose government, it is said, finds some difficulty in knowing just how it can aid the mother country to good advantage, whether Ontario, which has everything to lose in a British defeat, should not contribute one of those battleships? We can do it if we want to do it. The people will have to make greater sacrifices than the cost of a battleship if Britannia should fail to rule the waves.

A Remarkable Forecast

Now that Europe is flaming with the war so long and widely feared it brings with it the usual instances of fulfilled prediction. That some of the innu- feet," as Tennyson declared, would merable writers who have dealt from time to time with the political complications of that continent named dates in and about the present year is not very surprising. It is really of more significance that the most competent observers agreed that war sooner or later was inevitable than that the year in some instances was correctly guessed. Perhaps the most striking of the exact prophecies was that of Commander Carlyon Bellairs, formerly of the Royal Navy, afterwards a mem ber of parliament and a frequent writer on naval topics, who visited

Montreal nearly two years ago. A correspondent of The Boston Transcript narrates that Commander Bellairs, speaking to Montreal friends, stated that he had no fear of a "German outbreak" at that time, since so far as he could see the German program of army and navy expansion

he expressed his belief that "about mer 1914 the Germans would eize on any pretext to precipitate a European conflict," and added that the obable excuse would be "so airly trivial incident, likely some outbreak in the Balkans." This was remarkably accurate forecast, as it has turned out, altho it is doubtful if mander Bellairs had in view just the kind of a Balkan outbreak which has just plunged Europe into the present conflict.

British Participation Justified If there be any Canadian who has oubt regarding the righteousness of

the war to which the empire is committed, let him consider the why and wherefore of the British Government's action. From the beginning of the trouble created by Austria's ultimatum to Servia, Sir Edward Grey workpened the only partially healed fully made up to bring Servia under subjection, even at the cost of a European Armageddon.

Servia accepted eight of the eleven demands made by Austria unconditionally, accepted one subject to proof and two conditionally. An answer of this kind formed no excuse for an immediate declaration of war. It at least opened the door to further negotiation when both governments might have ernment whose subjects are all the found it possible, either by themselves mediary, to agree on a middle course which would satisfy every just Austrian demand and also avoid injury to proper self-respect of the weaker nation. PRESIDENT CONSIDERS LIFTING OF CENSORSHIP

Announcement Today Whether Germany Can Send Messages in Code.

Special to The Toronto World.

WASHINGTON, Aug. 13.—No decision has been reached by the president and his advisors with regard to the appeal of Germany that the United States lift the censorship from the German wireless stations at Tuckerton, N.J., and Sayville, N.Y. The president and Secretary Bryan had a president and Secretary Bryan had a conference on the question this morning. Just prior to Mr. Bryan's going to the White House he received a protest from the British Government against the United States removing the censorship.

The question probably will be settled tomorrow.

ENDORSES WORLD'S MILITARY

Editor World: I read your article in Wednesday's World, Aug. 12, about the training of the Canadian volun-teer militia regiments or units that will leave Canada to fight the battles of the British Empire during the Anglo-Franco-German war and your Anglo-Franco-German war ,and your statement that the bayonet will be used is correct. This was used last week, also charges of cavairy. The bayonet was used by the Japs at Port Arthur and other battles against the Russians. The bayonet was used by all the Balkan states against the Turks; afterwards they fought among themselves with the bayonet about the settlement of the war. During this war the bayonet will be used at all close fighting, storming of batteries and trenches, and I think that all the Canadian volunteers should know how Canadian volunteers should know how to use it. Altho the time is short, I think the minister of militia can set think the minister of militia can get veterans that would give their services free to show the volunteers the bayonet drill points of attack and defence with feints of attack and gards. I think men can be found in Montreal to go to this camp of instruction in Quebec for nothing. I consider that the bayonet drill should always be used during the period of always be used during the period of drill by the Canadian militia. The bayonet will always be used in close fighting. MONTREAL, Aug. 13.—A feature of the local grain trade today was the decidedly strong feeling in the market for Argentine corn. Prices scored a sharp advance, with sales at 82c to 85c per bushel, according to quality. There was no change in the condition of the market for oats, prices being firmly maintained in spite of the weakness in the Winnipeg option market. The demand was good for carlots and a fair amount of business was done. There was considerable enquiry from exporters for Manitoba barley today, and sales were made of some round lots. The demand for flour continues good, and the market is active and firm. Mill feed is strong. Clifford Siton and Major Jos. Rigour's grand exhibits evoked the greatest enthusiasm.

The daring and skilful riding by a number of women exhibitors won the warmest of applause. The showing of tandem outfits was very fine. Twelve of these famous hunting horses entered for the pig pen class, together with seven pairs of harness horses over 15.2 hands, were held over till tomorrow afternoon's program owing to threatening showers towards the close.

The admirable arrangements for the care of over a hundred horses, several of which approximate in value a sum of five figures, is the subject of much favorable comment by the exhibitors; especially is this true of Jack Hambleton, in care of the Sifton entry: Wm. Wilson of Sunnybrook Farm Jas. Gilchrist of Crow and Murray and Wm. Carberry of E. J. Jones, Brampton. This is particularly so in regard to the eleborate stabling provided for sixty odd horses by fitting up the great arena rink building here.

The closing events tomorrow are spread over session both in the morning and afternoon.

WOMAN FOUND INSENSIBLE HAS LOST HER MEMORY

Mary Eustache of Runnymede Seriously III in General Hospital.

gram of the Whitby horse show this afternoon proved the worth of the magnificent tree growth of half a century and more that graces the beautiful town park, where the show is held. Standing under the trees protected from the rain the crowds gathered, and later upwards of 5000 filled the grand stand and stood six deep around the ring.

Splendid entertainment was afforded to lovers of the horse by the varied features presented by showings from the largest and finest stables in Canada.

The hunters and jumpers from the Hon. Clifford Sifton and Major Jos. Kilgour's grand exhibits evoked the greatest eithusiasm.

The daring and skilful riding by a number of women exhibitors won the warmest of applause. The showing of tandem outfits was very fine. Twelve of these famous hunting horses entered for the pig pen class, together with seven pairs of harness horses over 15.2 hands, were held over till tomorrow afternoon's program owing to threatening showers towards the close.

The admirable arrangements for the care of over a hundred horses, several of which approximate in value a sum of five figures, is the subject of much favorable comment by the exhibitors: especially is The woman who was found in an unenscious condition on Symington avenue, near Royce, late Wednesday night has been identified by County Constable Hartnick as Mrs. Mary Eustach of 56

Priscilla avenue, Runnymede, a domestic in the employ of Dr. A. E. Couell of 314 High Park avenue.

Shortly before midnight, while patrolling his beat in the northeast part of West Toronto, P.C. 52 discovered the unconscious woman on the sidewalk. There appeared to be no marks of violence about her body nor any symptoms of poisoning.

her body nor any symptoms of possoning.

Lost Her Memory.

After being taken in the police ambulance to the General Hospital she regained consciousness, but her memory was entirely lost and she could not reveal her identity or any event leading up to her discovery in an unconscious condition. Yesterday a woman whose description corresponded to hers was reported missing to the county police, and upon investigation it was found that she was the missing one.

At a late hour last night it was reported by the hospital authorities that while she had regained consciousness her memory had not returned and all events prior to Wednesday night are still a blank. The police are investigating the case.

TORONTO WOMEN BADLY TREATED

Wife and Daughters of Rev. Wm. Pugsley Fled From Germany.

Canadian Press Despatch.

LONDON, Aug. 13.—Mrs. (Rev.)

William Pugsley of Toronto and three daughters had an eventful experience in leaving Germany. They were suddenly ordered out of a train at a small wayside station and remained there several hours, their companions being a big party of drunken German soldiers. The station master stopped with them, and eventually found the main line train which was stopped a few miles distant. The ladies, each carrying a couple of suitcases, walked this distance along the railway track and took a train which landed them in Holland. They finally got aboard an English boat, having been thirty-three hours without food.

Other Canadians here who are doubtful of passages home are: T. A. and Mrs. Gibson, with son and daughter; Miss Mabel Mason, Mr. and Mrs. Ludwig and two daughters, J. J. Wright, Mr. and Mrs. Herbert Langlois, Mr. and Mrs. David Layton, two sons and two daughters; Robert McCausland and son, all of Toronto, also Barrister and Mrs. Rodgers, Halifax.

WHERE THE HEATHER BLOOMS IN CANADA Novel Means of Advertising the Do-minion's National Parks.

The visit of Sir Arthur Conan Doyle to Jasper Park has served to draw the attention of the traveling public of Great Britain to the magnificent asset Canada possesses in her great national reserves. Mr. J. B. Harkin, commissioner of Dominion parks, is also carrying on a campaign to make these immense playgrounds better known and has just issued from the department of the interior a most attractive souvenir of the mountain parks. This is a booklet entitled "Just a Sprig of Mountain Heather." Attached to its cover is a piece of real purple heather taken from the alpine meadows of the Canadian rockies.

It is a novel and very effective way to capture the tourists' interest in Canada's National Parks. Mr. Harkin treats in the booklet of the signifi-

Officers of the York Institute are:
President, G. F. Tremayne, Sutton; vice-president Mrs. Johnston Mount Albert:

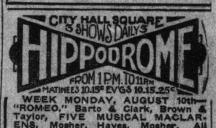

Canada's National Parks. Mr. Harkin treats in the booklet of the Significance of these reserves and of the Dominion's natural heritage of beauty in the form of majestic mountain, peaceful valley and emerald lake. Jasper is the latest of the Dominion parks to be established. It comprises an area of a thousand square miles in the wonderful district recently opened up by the construction of the Grand Trunk Pacific through the Yellowhead Pass.

Sure, I feel fine and fit

"I drink REGAL Lager-the temperance man's beverage---at lunch, at dinner, and before going to bed."

"Jagged nerves!--all gone."

"My appetite's good--I sleep like a babe. I'm in 'top notch' condition, and I can do a man's work in this cheery old world without being fagged out."

"REGAL, you see John, is a food as well as a drink. It gets you back lost health and keeps it once you've got it. REGAL Lager is mild and thirst-quenching, and has tonic properties which makes it the drink par excellence for the house."

"Have a case sent up to your house! You'll like the taste of it---your family will enjoy it, and believe me, John, it will do you and the folks lots of good."

DOUBLE-HEADER TODAY

RAIN AT THE ISLAND

Rain stopped yesterday's Canadian and Peterboro at the island in the second innings of the first game of what was scheduled to be a doubleheader. Tracey went in to pitch for the visitors, and Graham for the Beavers. The score was 1 to zero when J. Pluv. stopped the proceedings. The doubleheader, which was to have been on yesterday, will be staged today.

MOTORBOAT RAGE AT HAMILTON, HAMILTON, Aug. 13.—The Royal Hamilton Yacht Club of Hamilton is holding its seventh annual international motorboat race on Saturday, Aug. 15, at 4 p.m., open to boats belonging to any recognized yacht club or motorboat club capable of running 15 miles or over. Entries must be in the hands of the secretary of the Royal Hamilton Yacht Club not later than Friday evening, August 14th. Three handsome prizes are being donated for this event, and it is expected that quite a number of entries will be received from Toronto, Buffalo and other motorboat clubs.

The Beaches Intermediate Lacrosse Club will practice tonight at 6.30 at Scarboro Beach, and as this is the last practice before their semi-final game with Maitlands Saturday every player is asked to be out early. The purpue and white hope to make the northenders step to to town in that battle.

KEFFER OF OTTAWA LED ON FIRST DAY

Consistent Golf Gives Him First Position By One Stroke Over Charlie Murray.

Karl Keffer, the Royal Ottawa professional, led at the finish of the first two rounds' play of the Canadian golf championships at the Toronto Golf Club yesterday with a total of 150. Ever since Keffer made his debut in the tournaments and incidentally captured the title in 1909 he has been looming up among the first division golfers and causing much anxiety to the leaders, but yesterday he forged to the front for the first time in many moons. Consistent golf to the nerveracking stage was the calibre of game he put up, as his two seventy-fives show. Keffer wrested the leadership from Charlie Murray of the Royal Montreal Club after giving his rival two strokes in the morning. Murray turned in a great card of seventy-three in the morning and the eastern glant looked good enough to stay out in front, but he fell away for five strokes in the afternoon and gave first place to Keffer by one stroke. It was not unexpected, but it shows just how well Keffer was playing. Murray had a seventy-eight being necessary, George Cumming, the Toronto Club pro., and holder of the Canadian professional title, tied with Nichol Thompson of Hamilton for third place, with 152. In the morning Cumming had a seventy-six, and was tied for third at that stage with Davie Black of Ottawa and Albert Murray of Kanawaka, the present holder of the Canadian open title. However, Black and Murray fell down in the afternoon and he was left undisputed in his position until Thompson claimed it. In the morning Thompson had dropped two shots, making seventy-eight, but in the afternoon he clipped these down by negotiating the course in seventy-five. Cumming wavered ever so slightly to the extent that a seventy-seven was credited to him, and there was his former pupil on the same pedestal.

During the afternoon rain fell in torrents at intervals, but not enough to materially affect

cricket Club, which is touring canada with a strong eleven, the game resulting in a draw, if anything, in Hamilton's favor, as when time was called Hamilton required 35 rums to win and had three wickets on hand. For the visitors, Kortland and Hoskins played splendidly; and their stand was well worth seeing. Hamilton were only left two hours and a half to get 260 runs to win, and succeeded in knocking off 225 when time was up. Gibson 83, and Ferrie 31, net out, were the largest scorers for Hamilton. THE MOTORDROME FINAL.

The final struggle, distance five miles, of the international sprint series takes place atomorrow night at the motordrome. To the winner goes the short distance championship title and half of a \$2000 purse. The five men who qualified for this final are Carsiake, Leonard, Henikman, Burchell and Joslin. Carsiake and Henikman both earned perfect scores of 60 points each in their respective qualifying heats of the series, and Leonard still has a good chance to win out. Other events on the program include a twenty mile free-for-all, a special two mile match race and a ten-mile bicycle grind. This is the first long distance of cycle race of the motordrome season. The latest war builetins will be announced.

TO GUARD TROOPS AGAINST TYPHOID

Militia Department Welcomes Ontario's Offer to Supply Vaccine.

PLENTY OF SUPPLIES

Inoculation Will Be Carried on by Medical Officers of Units.

Ontario's offer to supply anti-typhoid eccine to the Canadian contingent to Burope has been welcomed by the militia department at Ottawa, and word has arrived that a call may be forthcoming for a large quantity within a week. In consequence it is expected that advice will be sent from the content of the co headquarters to all recruiting stations arging the vaccination of all men who are enlisting. At first the system will are enlisting. At first the system will not likely be made compulsory, but if the pressure of the war calls for more contingents, it is understood that every man who goes will be compelled to fortify himself against the danger of fever from continental water. Dr. J. W. S. McCullough is of the opinion that every recruit would do well to take the serum, especially if an advance into the Rhine Valley is probable. The water there is very danger-The water there is very danger.

Col. Jones, director of the general medical services in the department of militia, wired to the provincial health effices yesterday asking for detailed information as to the administration of doses and seeking the amount which the department could supply on short notice. He stated that they desired to obtain their whole supply from the

province.

In replying and forwarding samples Dr. McCullough stated that the laboratory could prepare 10,000 units in three days. This would be sent in bottles containing 50 doses, and the administration resembled closely that in case of smallpox. All vaccination processes will be carried on by the medical officers attached to the regiments.

COBOURG, August 12. - The military spirit runs high here, and was shown to be exceedingly strong at a cently to present a long-service medal to Pte. Stanton of the 40th Northumberland Regiment. The presentation was fittingly made by Charles Manson, M.P. for West Northumberland. Mr. Manson spoke first of the pleasure which he felt in being privileged to present the medal, which was given for long and faithful service. He lauded the life of a soldier, and said lauded the life of a soldier, and said that he with many others was willing to go if necessary to help the mother country in this crisis. There was nothing nobler than that a man should give his life for his country. If he fell in battle the honor was with those left behind, but their families would be provided for.

"For some time," Mr. Manson said, "I have been endeavoring to interest.

ANOTHER DECLINE IN WHEAT PRICE

Cancellation of Export Con- Brokers Busy Attending to tracts Was Depressing Influence at Chicago.

domestic stocks and the canceling of appearance which might be described export contracts had a depressing in- as "busy with calm." The absence of fluence today on the price of wheat.

The market closed heavy at 3-4c to 11-4c net decline. Corn showed a loss of 1-2c to 1 1-4c, compared with last on, there appears to be considerable

night, and oats of 1-8c to 1 1-4c. In provisions the outcome was the same as last night to 10c off.

Prospective difficulties in regard to the financing of wheat supplies that can find no outlet to Europe, began to tell distinctly today against prices. Notwithstanding that conservative traders doubted whether any fears in this respect were justified, the dealers in the pit were constantly made aware that seaboard exporters were trying to resell here, and when unable to do so were hedging for sales of various futures.

Work on hand.

The odds and ends, straggling accounts and in fact all those little details which in the first days of excitement were overlooked or otherwise neglected, are gradually being cleared up.

A great many enquiries are received daily as to the possible date of reopening the exchange. Each enquirer, however, is informed that three days notice will be given in the event of such a decision being arrived at. The same length of time will be given in Montreal as regards the exchange there.

Trade in provisions today was the smallest since the outbreak of war. Weakness of grain acted as more than an offset to the fact that hog receipts were less numerous than looked for.

Details - Victory for Allies Would Help.

A great many enquiries are received daily as to the possible date of reopening the exchange. Each enquirer, however, is informed that three days' notice will be given in the event of such a decision being arrived at. The same length of time will be given in Montreal as regards the exchange there.

Other than keeping posted on the latest war news, there is little to be done with the exception of the clerical work mentioned. Outside dealing is brighly discouraged. The more optimistic state that in the event of an important victory for the allies, there would be a manifestation of confidence and the date of commencement of business would be considerably nearer.
