MINISTER HELD ON SERIOUS CHARGE

Rev. R. B. St. Clair of Toronto Vigilance Association Published Report of a Performance at Local Theatre, and Arrested on Charge of Publishing Immoral Literature.

Whether or not it is a criminal offence to publish in a printed pamphlet a report of a theatrical performance...

Mr. St. Clair is secretary of the Toronto Vigilance Association. A few weeks ago he attended the first performance of a show put on at a burlesque theatre and took extensive notes on the dialog and the action in the play.

Mr. St. Clair heard yesterday that a warrant had been issued and he went to the city hall and gave himself up.

The Vigilance Association, of which Mr. St. Clair is secretary, is carrying on what is generally recognized as good work. Through its instrumentality several houses of ill repute have been put out of business, and the owners fined in the police court.

WAGON KILLED FOUR-YEAR-OLD

Boy Did Not Notice it Approaching, and Head Was Struck by Step—Sixth Case in Four Weeks.

Charles Segar, a four-year-old youngster, whose parents live at 177 Palmerston-avenue, was instantly killed about 4 o'clock yesterday afternoon by being struck by one of Eason's delivery wagons opposite 60 Arthur-street.

The little fellow was playing tag on the sidewalk with several other boys. He suddenly touched one of his companions and started to run across the road, and not noticing the wagon which was passing him at the time he ran into it, and his head was struck by the heavy iron step.

WORK IS RESUMED ON NELSON BUILDING

City Architect Has Withdrawn His Order, and Work of Repairing Collapsed Wall Will Commence—Evidence at Inquest Showed That Standing Walls Are Plumb.

Further enquiry into the Nelson building disaster was made at the inquest held in the morgue last night before Coroner J. E. Elliott and a jury.

Further enquiry into the Nelson building disaster was made at the inquest held in the morgue last night before Coroner J. E. Elliott and a jury. Eight witnesses testified, the most important of these being Professor C. H. T. Wright of the architectural department at the University of Toronto.

Mr. H. Sykes continued his evidence from the last enquiry. Beyond quoting Kidder as an authority on the amount of weight a square foot of flooring should hold up and reading the definition of what constitutes mill construction, according to the city by-law, his evidence revealed nothing of moment.

PUBLIC SCARED WELLAND FEARS

Board of Trade Regrets Hasty Resolution Denouncing Land Exploiters—Confidence in Town's Future.

WELLAND, May 22.—(Special.)—At a meeting of the board of trade to-night a resolution was passed expressing regret that a resolution passed last week denouncing the methods of some real estate exploiters was so sweeping in character that it was calculated to injure legitimate companies and to frighten away investors.

HOT POLITICS IN BUDAPEST

General Strike Called, Following Triumph of Count Tisza After Free Fight in House.

BUDAPEST, May 22.—(Can. Press.)—The Socialist Union, at a prolonged meeting to-night, resolved to proclaim a strike of all unionist workers in Budapest, with the exception of municipal employees, to-morrow, as a protest against the election of Count Tisza to-day as president of the lower house, in succession to L. Navay, who resigned his chair in consequence of party troubles.

Count Tisza is an opponent of universal suffrage and was elected only after a stormy scene. All the inkpots and other articles that could be used as missiles were removed from the chamber before the voting began. Free fighting occurred around the voting urn and finally the whole party left the chamber, and Tisza was elected by the government party.

DAIRYMEN TO BE PROTECTED

Hon. Mr. Burrell Will Seek to Put Check on Unscrupulous Commission Merchants.

OTTAWA, May 22.—(Special.)—Hon. Martin Burrell, minister of agriculture, is just at present considering a scheme for the appointment of a number of special dairy inspectors for the Province of Ontario.

He is also working on a plan whereby he expects to prevent the losses sustained in the past by farmers and dairymen thru the failure of dairy commission merchants. Heretofore, these commission men have been permitted to do business indiscriminately with the result that many of them who were without sufficient capital, became bankrupt. Thousands of dollars were lost every season in this way by the farmers of Ontario.

SAYS SHOE TRUST CRUSHED RIVALS

Canadian Shoe Manufacturers Placed Absolutely in Its Power, and Consumers Pay the Piper.

MONTREAL, May 22.—(Can. Press.)—That the United Shoe Machinery Co. of Canada, a subsidiary of a Boston concern, has, by its business methods, practically smothered all competition on the part of rival shoe machinery concerns in the Dominion, while it has at the same time succeeded in placing within its absolute power Canadian shoe manufacturers to the detriment of the consumers, was the contention advanced by A. Falconer, K.C., counsel for the complainants in the case which is being made the subject of an investigation before a commission appointed by the federal government in virtue of the Combines Act.

DALLAS FOLK THINK ADMEN FROM TORONTO ARE SURELY CUT-UPS

Seven Polacks Fined at Humber Bay—Made Sunday Weird With Tin-pan Joyousness.

DALLAS, May 22.—(Special.)—It must be admitted that since the invasion of the Ad Clubs Dallas has not had much opportunity to sleep. But sleeping is a habit with the citizens of Dallas, a habit long indulged in, and on Tuesday night the citizens went to their beds.

Mr. Falconer's address took up the entire day. The case continues to-morrow.

TAFT YET HOPES TO SWING OHIO

Only 23 of 88 Counties Have Chosen Delegates to State Convention—Roosevelt's Plurality 25,000.

COLUMBUS, O., May 22.—(Can. Press.)—According to returns in hand to-night from approximately 450 of the 892 precincts in the state, Col. Theodore Roosevelt's delegates to the national Republican convention, carried yesterday's Ohio primaries by a plurality of about 25,000 votes.

The delegate at large situation in the Republican party will not be known or settled until June 3, when the state Republican convention is convened here. The Taft leaders claim that they will control the state convention, and designate the delegates at large for the state or to any particular class of citizens. He carried mining and industrial sections, such as the Hocking Valley as well as some of the oldest and most conservative urban communities in the state. Added to these there was much strength among the farmers.

CHRISTENINGS MUCH TOO NOISY

Seven Polacks Fined at Humber Bay—Made Sunday Weird With Tin-pan Joyousness.

Seven Polacks were fined \$5 and costs at Humber Bay last night for disorderly conduct during a christening celebration last Sunday, in the foreign colony. Constable Simpson made the arrests, following a number of complaints made by residents at the Humber, and he intends to keep up the work. During the past few months every Sunday has been the day of prolonged celebrations among the foreigners, which invariably take the form of much disorderliness, the beating of tin pans, shouting and drinking of beer.

AMUNDSEN TO FOLLOW PEARY

MONTEVIDEO, May 22.—(Can. Press.)—Capt. Roald Amundsen, the conqueror of the south pole, who arrived here yesterday, announced his intention to start from San Francisco in March or April, 1913, on an expedition to the north pole.

ULTONIA SAILS MINUS PASSENGERS

MONTREAL, May 22.—(Can. Press.)—Capt. Liner Ultonia, which, on her first voyage to this port, dropped her port propeller and put into Halifax to allow the passengers to land before coming up to this port, to-day sailed for London without undergoing repairs.

FEDERALS ATTACK STRONG REBEL POSITION

Decisive Battle Expected to Take Place To-day—Rebels Outnumber the Government Force, and Are Well Entrenched—Bush Engagement Started Yesterday.

RELLANO, May 22.—(At the Rebel Front, 9 p.m.)—(Can. Press.)—The main columns of the rebels fortified here were attacked by the federals under Gen. Rabago. The fighting is still in progress.

General Orozco came down from Jimenez to take personal charge just before the federals attacked at 4 o'clock. Gen. Salazar was in command of the first rebel line. The federal commands of Generals Tracy, Aubert, Rabago and Telles, and Colonels Villa and Urbana are engaged. The federal force is estimated at 3000, and the rebels at 4000, with the advantage in fortified positions being in favor of the insurgents.

NEW GOLD CAMP IS DISCOVERED

Large Number of Mining Men Left Toronto Last Night to Explore New Field.

A new gold camp has been located in the 8500th district, and a large number of mining men left Toronto last night by the C.P.R. train. The early discoveries were made by Jack Wilson, famous as the discoverer of the Dome at Porcupine. The district where the recent finds have been made lies between Sudbury and the Soo. Leaving the C.P.R. at Massey, where copper mining has been carried on for years with more or less success, the trail is taken north for thirty miles to Whiskey River. Such well-known men as Clem Foster, Charles Richardson, Lucky Scott, Jack Callinan, Alec Gillies and Bill Hollinger were among those who left last night on the latest rush into the vast country known as New Ontario.

HOME RULE RALLY IN DUBLIN

DUBLIN, May 22.—(Can. Press.)—A great home rule rally has been arranged for July 19 in the Theatre Royal here. Premier Asquith is on the list of speakers.

NORTH TORONTO COUNCIL PUTS THE GAFF IN NORTH TORONTO PEOPLE DEEP

John: Wee York has won again in North Toronto. Jeff: It is na it gran'. Maister Flemmin' has two tracks an' the public two fares to get down to the certy hall frae John Montgomery's tavern four miles distance. John: It is the greatest achievement of my life, oppoin' the annexation of North Toronto, an' headin' off th' 'Bloor street' rickshaws. Jeff: Th' council o' North Toronto are just turnin' handspings to th' chawncos o' payin' twa fares. John: But do the peepal want to pay them? Jeff: The peepal has hawking to say: th' council does the sayin'. The Mayor o' North Toronto and Councilors Reid an' Hows an' aw' th' rest has got to ill undisputable groon that the way to punish Mayor Geary an' th' council of the certy for nae acceptin' annexation is by captin' th' North Toronto folk th' pay twa fares for aw' time. An' North Toronto is to pay for the new track and til give it over to Maister Flemmin'.

John: It's great stuff steppin' these boots up Yonge street puttin' th' gaff in th' chawncos. I know Reid an' Hows an' the rest of them, only they ain't puttin' in th' gaff into the North peepal. Robert John's got a little invisible wire on Reid an' the rest. Jeff: But they are aw' members o' th' kirk, John. John: I know Reid an' Hows an' the rest. They got a great directin' mind behind them. Robert John's directin' an' I'm doin' th' applaudin'. Jeff: Th' think o' us again! Maister Flemmin' twa fares. It's a brae day this morn'.

Important Changes Made In C.P.R. Train Schedule

Toronto Will Benefit by Additional Trains to and from Hamilton and Ottawa—Quicker Time Between Here and Montreal and Trains De Luxe to Vancouver.

The Canadian Pacific Railway Company have decided upon a number of important changes in schedule, new equipment and additional trains which will greatly benefit Toronto. These changes are to come in effect on June 2 next.

Additional trains have been put on between Toronto and Hamilton and Toronto and Ottawa. A number of local or flag trains will be run in order to shorten the time of the thru trains between Toronto and Chicago, and between Toronto and Montreal.

A connection will be made with a northern train by a steamer at Bala, and thus direct connection will be given between the Muskoka Lakes and New York.

Special new equipment will be added to the Toronto, York and Toronto-Vancouver trains.

Beginning June 2, an additional Toronto-Hamilton train will leave Toronto daily at 11:30 a.m., and arrive at Hamilton at 12:33 p.m. Another new train will leave Hamilton at 7:30 p.m. daily and arrive here at 8:30 p.m.

A new train, No. 34, equipped with electric lighted compartment cars, standard sleepers and first-class baggage and mail cars, will run without change from Toronto to Ottawa, leaving Toronto Union Station at 11:30 p.m. There will also be a first-class sleeper leave North Toronto station at 11:40 p.m., which at Leaside Junction will be attached to the 11:30 p.m. Ottawa train.

The Chicago Line. By the running of additional flag trains, half an hour will be cut off the time of the C. P. R. Toronto-Chicago train. This train, No. 632, which formerly left Toronto at 5:30 p.m., will leave Toronto for the west at 5 p.m., half an hour earlier, and arrive at Chicago the usual time of 7:15 a.m. Coming east, the Toronto-Chicago Limited, train No. 631, will leave Chicago at 11 p.m., and arrive at Toronto at 3:35 p.m. This service, which will be daily except Sunday, will be the fastest between here and Chicago, doing the distance in fourteen and a quarter hours, as compared with the former time of fourteen and three-quarter hours.

No Flag Stops. In order to make this fast time, the C. P. R. have taken off all local flag stops to and from Toronto. They have added a new local train between London and Windsor for this purpose. This new local will leave London at 6:35 p.m., and arrive at Windsor at 8:50 p.m. A local will also leave Windsor at 8 a.m. and arrive at London at 11:20 a.m.

More Local Trains. The service between Toronto and Montreal will also be shortened by the running of additional local flag trains. In order to cut off the flag stops of Montreal train, No. 18, which leaves here at 9 a.m., a new local train will leave Toronto for Havelock at 8:30 a.m.

taking in all the stops between Toronto and Havelock. An additional train will also be run ahead of train No. 18 between Smith's Falls and Montreal, and will take in all the local stops on that part of the trip. Coming west, a new local train will be run ahead of the Toronto-Montreal train, No. 17, from Montreal to Smith's Falls, and another additional train will run ahead of the express from Havelock to Toronto.

Train No. 24 will leave North Toronto Station for Montreal at 10 p.m., making stops only at Leaside, Myrtle, Scarborough and Smith's Falls. The Toronto-Montreal train, No. 22, will leave the Toronto Union station at 10:30 daily for Montreal.

The present Alliston train will be continued thru to Port McNicoll, leaving at 6:05 p.m., and arriving at Port McNicoll at 8:45 p.m., and leaving Port McNicoll at 8:45 a.m., and arriving at Toronto at 10 a.m. In addition to this the train known as the steamboat express will leave Toronto on Mondays, Tuesdays, Wednesdays and Saturdays at 12:45 p.m., arriving at Port McNicoll at 2:55 p.m. and connecting with the Great Lake steamships, which leave Port McNicoll at 4 p.m. on those days. On Saturdays, Mondays and Tuesdays the steamboat express will leave Port McNicoll at 11:45 a.m. and arrive at Toronto at 3:15 p.m. On Sundays and Thursdays the steamboat express will leave Port McNicoll at 8:45 a.m. and arrive here at 12:15 p.m.

Sudbury Train. Train No. 28 is to leave Sudbury for Toronto at 7:50 a.m. and connecting with the Muskoka Lake steamers at Bala arrive at Toronto at 5:10 p.m., thus allowing connection here with the 5:30 train for New York.

Starting June 23, it is the intention of the C.P.R. to equip the Toronto, Buffalo and New York thru train with electric lighted steel sleepers and buffet library cars. This train will leave Toronto at 8:30 p.m. and arrive at New York at 7:50 a.m. and returning leave New York at 8:30 p.m. and arrive at Toronto at 11:10 a.m.

An Important Change. One of the most important changes being made by the C.P.R. is the improvement in the equipment of the Toronto-Vancouver transcontinental express. Commencing June 2, this train will carry the new Glen series of electric lighted compartment, observation buffet, library cars. The new cars for this service have just been completed in the C.P.R. Angus shops at Montreal, and are finished with the highest grade mahogany and walnut inlaid work and electric lighted thru-out.

These observation cars contain drawing room compartment and private smoking room. There are eight chairs in the observation end, and eight in the private smoking compartment. This train goes right thru from Toronto to Vancouver without change.

The collector-general said from those of which they already had evidence, and others to be produced. It was plain the warnings received from the British, the America, the Californian and the Caronia, all related to icebergs in the oblong space where the Titanic met her fate.

Lord Mersey asked the witness whether he could explain why, having received warnings of icebergs, both to the north and south of her, the Titanic was allowed to continue her way in such regions. The witness did not reply.

Love was then examined with respect to the three bodies recently picked up in a collapsible boat, and said he was absolutely certain the men were dead before he left the boat, from which he took a number of passengers.

happened, and saw the whole fatality. He heard a rumbling noise, thought it was a truck moving on the floor above until the ceiling came tumbling in, when he immediately fled.

Tie the Beams. James Ingham, 22 Leopold-street, a city building inspector, didn't see the accident, but from what he had learned since it occurred and from what investigations he had made, said that he wouldn't think of putting up such a building without having the beams tied rather than resting on hangers. His main criticism was the non-continuous tie across the whole woodwork.

Quite a Buckle. Fred Gordon, 17 Broadbalt-street, a bricklayer, did not see the accident, but has since looked over the remaining walls. He said that there was a building under other word had been set.

If by mail, 25c extra for postage.

COULDN'T GIVE REASON WHY "TITANIC" IGNORED WARNINGS

Officer Boxhall, Admitting That Wireless Messages Told of Threatening Icebergs, Was Mute When Asked by Lord Mersey Why Precautions Were Not Taken.

LONDON, May 22.—That the iceberg with which the Titanic collided was one of those of which she had warnings from other ships is the conclusion reached by the board of trade court of enquiry after a careful examination of the wireless telegrams passed to and from the steamer on the day of the disaster, and hearing the evidence of the third, fourth and fifth officers.

During Officer Boxhall's examination the solicitor-general, Sir John Simon, went at some length into the wireless despatches in regard to ice received by the Titanic. Information which it was his duty to mark on the chart. Boxhall could not remember all the wireless despatches received, but the

BOOM DAYS THESE IN SARNIA TOWN

Oil Company's Promised Big Expansion is Creating Flurry, and Land Values Ascend.

SARNIA, May 22.—(Special).—There's an oil boom in Sarnia, and the Imperial Oil Company, understood to be a subsidiary of the Standard Oil Co., is looked upon as the beneficent agency that is creating real estate values and causing an industrial awakening here, second only to that which

MAY TIE UP PORT OF LONDON.

LONDON, May 22.—(Can. Press).—No progress has been made towards a settlement of the London port strike. Twenty thousand men are now out. The High Court, Mr. Justice Clarke, former solicitor-general, has been appointed to conduct the government enquiry, which will open Friday.

The Transport Workers' Federation will meet to-morrow to discuss the situation, and it is expected will call a general strike.

Germania Hotel, John and Main-streets. First-class table and rooming accommodation.

ACCIDENTAL DEATH.

Ernest Avery, a switchman, employed on the G.T.R. came to his death accidentally from being hit by a light engine at Strachan-avenue on May 13. It was the verdict brought in by a jury in an inquest held in the morgue last night before Coroner A. E. Morgan. A rider was attached saying that in the jurors' opinion the accident might have been averted had there been a brakeman or some other person on the engine, which was running backward, to warn Avery.

EUROPEAN POWERS IN ACCORD.

PARIS, May 22.—(Can. Press).—M. Lovolov, the Russian ambassador to France, presiding at the annual meeting of the Russian Chamber of Commerce of Paris, to-night, said that the efforts of France and Russia, acting in close collaboration with England, to put an end to the Turco-Italian war,

Woman's Realm--the Household, Fashions and Society

SOCIETY

H.R.H. the Duke of Connaught will attend the O. J. C. dinner at the York Club this evening.

Those who had the honor of being asked to dinner at Benvenuto last night were: The mayor of Toronto, Sir Donald and Lady Mann, Rev. R. Kidd, Sir Glenholme and Lady Falconbridge, Sir William and Lady Muckook, Hon. J. J. Foy, Hon. W. G. Mrs. Hanna, Hon. Dr. and Mrs. Beaume, Mr. and Mrs. Marlatt, Mr. and Mrs. W. P. Fraser, Lieut.-Col. and Mrs. Williams, Hon. J. and Mrs. V. A. S. Williams, Hon. J. B. and Mrs. Lucas, Sir Mortimer and Lady Clark, Prin. of Upper Can. College and Mrs. Auden, Sir Aemilius Irving, Lieut.-Col. and Mrs. Mason, Hon. Wallace and Mrs. Nesbitt.

After dinner at Benvenuto last night a short special program was rendered by Miss Brenda Smellie, Miss Lina Drescher, Annie and Madeline Barton, the latter having also played the accompaniments at the large musicale on Tuesday evening.

Dr. Herbert Bruce, president of the Ontario Medical Association, invited about 500 people to a decorative party at his beautiful residence on Bloor-street yesterday afternoon, when H.R.H. the Duke of Connaught came in at 4 o'clock for a cup of tea and an informal chat with the genial host.

The artistic rooms were decorated with quantities of flowers and plants and an orchestra on the lawn, where tea was served in two marquees from tables decorated with pink, white and yellow snapdragons in cutglass vases.

Mrs. G. H. Hess, St. George-street, gave a delightful small dance last night in honor of her guest, Miss Hilary Thomas of New York, daughter of Mr. R. L. Thomas, who made her debut this season. The hostess was looking very handsome in a Parisian gown of pale blue satin, belted at the waist, and hand-embroidered with gold colored flowers, and Miss Thomas was a becoming frock of rose du baron with a high collar.

Mrs. and Mrs. Aubrey White have issued invitations for the marriage of their daughter, Muriel Florence, to Mr. F. N. Alexander Sutherland, on Saturday, June 8, at 3:30, in St. Paul's Church, Bloor-street, and afterwards at 146 Crescent, the residence of Mrs. Frank Bailey.

Mrs. W. T. White is giving a luncheon to-day for Mrs. Long, wife of Capt. Long, A.D.C.

Lady Gibson's sister, Mrs. Stewart, has arrived from Jersey, Channel Islands, and is staying at government house, College-st.

Mrs. Frank Maclean, accompanied by Miss Agnes Dunlop, sang for T.R.H. the Duke and Duchess of Connaught at Lady Mann's tea last week, the latter party proving a most appreciative audience.

Mr. and Mrs. Bruce Macdonald are giving a dinner at the York Club on Saturday night.

Sir William and Lady Mackenzie gave a dinner at Chudleigh this week.

Mrs. Watters has returned to Buffalo after a visit to Miss Marie Foy.

Miss Florence Perley, Ottawa, is the guest of Miss Flora Macdonald for the week.

Mr. Richard Barnes is returning from New York to-day.

The Daily Hint From Paris

A Three-piece Suit.

A plain little vest, cut low at the neck, and with sleeves reaching half way to the elbow, makes of this costume a three piece suit. The vest finishes just below the belt and is gathered like the upper part of the coat.

The material is blue and cerise taffeta with a girde of cerise velvet and a wide fichu collar of cream colored muslin embroidery.

Major Denison and Mr. Ernest Watt went to Niagara-on-the-Lake yesterday.

Mrs. D'Arcy MacMahon is in town from Ottawa, staying with Mrs. Bruce Macdonald. Mrs. Frank Anglin, Ottawa, is also a guest of Mrs. Macdonald.

Mrs. Ernest Wright gave a small tea this week for Mrs. Sinclair's guest, Mrs. Norman.

Miss Elfr Bowles is going to spend the holiday and week-end with Mrs. C. V. Rose, Niagara Falls.

Mrs. and the Misses Cargill have sold their home on Admiral-road to Mr. and Mrs. Charles Moss, and are at the Prince George for some time.

Mrs. Loudon, St. George-st., has issued invitations to an afternoon tea on Tuesday, June 4, from 4:30 to 7 o'clock, as a farewell to Prof. and Mrs. Ramsay Wright.

Mr. and Mrs. Jack Drynan gave a small dinner last night, and Mr. and Mrs. Duncan are giving a party on Friday at the York Club, afterwards.

Health and Beauty Helps

BY MRS. MAE MARTYN

K. B. - Regardless of your age, I would not recommend the use of face powder. It clogs the skin's pores and in time will make your complexion rough and anything but handsome. The best kind of beautifier is made by dissolving four ounces of spumax in one-half pint of witch hazel (or hot water), adding two teaspoonfuls glycerine. This will whiten and refine your skin. It takes away that oily, shiny look better than powder and does not show or rub off so easily. This lotion will clear your complexion and give it a wholesome, charming tone, also affording the skin splendid protection from chapping in the winter.

Mrs. F. B. - To have a head of perfect hair you must keep your scalp absolutely clean and free from dandruff. If you wash your hair with a shampoo with a tea-spoonful of castor-oil dissolved in a cup of clear water, you will find your hair always be fluffy, bright and clean. This shampoo is so far superior to others that most exclusively use soap. It makes the hair dry quickly without any signs of tightness or brittleness or other bad effects which are caused by the use of soap. It is nothing like it for removing dandruff, cleansing the hair and giving it that much desired fluffiness and brilliancy.

C. P. - Your pimples, sallowness and hollow cheeks are a run-down condition of the body. The only way to remove these is to clear your blood of its impurities. Dissolve one ounce of karsene and 1/2 cupful sugar in 1/2 pint alcohol, then add sugar to make a quart. Take a tablespoonful before each meal. This is a splendid system tonic and will soon restore the look of perfect health to your face. Fill out your cheeks and give you the energy and ambition which only a healthy person has. It is a wonderful blood purifier, energizer and liver regulator.

M. D. - You can make your hair grow in thick and abundant by rubbing into the scalp twice a week the following tonic: Mix together 1/2 pint alcohol, 1/2 ounce quinine and 1/2 pint cold water. This will show better results in a short

NO ALUM, NO LIME PHOSPHATE

The Nursery

"We are to-day, what we are because our past has been what it was; what we will be in the future depends upon what we now are."

No doubt you get a law stop there. We are now by our conduct every day, by our thoughts, by our choices, forming character and developing tendencies which will be transmitted to future generations. So that, by training your child rightly now in his babyhood, you not only bring to yourself happiness, but you benefit all his descendants. Is it not worth while?

No doubt you have noticed that a monotonous humming soothes a baby when he cries, and comes to you for a few moments' rest and cuddle. And no matter how young he is, he loves you to tell him stories that rhyme. The measured accentuation of sound charms him. It is exactly the same delight that he takes in running a stick along a picket fence, or beating steadily on a drum. It is the same instinct that prompts him to ask: "What happened after that?" if you end a story before the little hero becomes a man. These and scores of incidents, that you will recall, show a desire to understand progress or continuity; and to cause all things to become complete. In thousands of ways nature illustrates this law of continuity. Mist rises from a body of water, ascends into the clouds, floats over the land by means of the wind, is changed into rain, and falling on land and water is carried by stream and river back to the large body of water again. Trees grow old and decay, and their remains are carried by the wind, and from the resulting loam, new trees draw their strength. Nature never destroys her handiwork, and the we see and realize all this in our daily lives.

What has this to do with child-training? By following the law of nature, indicated in your child by his instinct of continuity, you begin the training of the reason by showing the child the connection between his food and his body. When his meal is "all over," the great teacher claims that the mother can point out to the child that the bread and milk are not really gone, but only changed into that which makes bone and muscle. Instead of ending, there is continuation; instead of loss, gain; instead of isolation or discord, harmony.

And can we not look far beyond such simple illustrations to see that all things work to some great end? And it is for you to lead your child, to take this broad, grand view of life.

Home Helps

If paint is splattered accidentally on the window pane it can be removed, a. once by a rag dipped in hot vinegar.

Stained sheets and pillow slips are always neat, yet no all householders feel they have time for the work by hand. Draw threads as you would for ordinary hemstitching, fold the hem and baste along the center of the drawn space, and sew by machine, shortening the stitch and loosening the tension. When you have finished, draw the hem back to the edge of space. You will be surprised to see how quickly the work is done and how nice it looks.

The best medium for mending china or porcelain or pottery of any description is white oil paint. Buy a tube of a good make and use it like tube dandruff. If you have had oil color, you may add enough of any color to the white to match the broken article; but the white does not show and is astonishingly efficacious. Cut-glass is mended with it, is now in constant use.

Place pulverized pumice stone between the layers of a folded piece of soft muslin and stitch around the edges to keep the powder from spilling. Wipe lamp chimneys or window panes with this dry cloth and they will be clean and sparkling almost instantly. Enough powder will remain in the cloth to be used many times.

PUBLIC AMUSEMENTS

Lulu Glaser at Princess

The management of the Princess Theatre announces welcome Lulu Glaser in her newest opera success, "Miss Dudeslack," for a week's engagement starting Monday. Miss Glaser has delighted Chicago, Boston, Philadelphia, Washington and the Eastern cities in this continental opera success which has been seen all over Europe. Its Highland scenes, kilts, plaids and color combine to form an unusual and picturesque background for a story of romantic interest. The music in "Miss Dudeslack" is of the Viennese type and the opera is said to abound in the lilting and singing waltz and song numbers such as the "Merry Widow," "The Chocolate Soldier" and "The Spring Maid" have popularized. Miss Glaser has had no role since her famous "Dolly Varden" which fits her joyous personality as does that of the bonny Scotch maid in this Highland musical gem. She will have an organization of over sixty, with a special orchestra and elaborate scenic production. The seat sale opens to-day.

Percy Haswell in "The Jilt"

For the second week of her engagement Miss Haswell will present "The Jilt," one of the greatest successes of the late Dion Boucicault. It is Miss Haswell's intention during the summer to present a number of plays and comedies popular twenty-five or thirty years ago. This will be done at the request of many of her patrons who are desirous "again" of seeing dramatic works that were popular in their younger days. Mr. Boucicault in his day was not only looked upon as the leading exponent of Irish character on the stage, but was also considered the ablest dramatic playwright in which subjects dealt with. A splendid production of this delightful comedy is promised. The mid-week matinee will be given on Wednesday instaid of Thursday.

The Great Divide

"The Great Divide," the "long awaited" great American play," as the leading New York critics have called it, will be presented at the Grand Opera House next week with matinees on Wednesday and Saturday. No play written within the memory of the present generation has been so thoroughly discussed and so unanimously endorsed by the world's foremost dramatic reviewers. Recently in London with Mr. Miller in the cast, it broke all records of American plays and advices from the English metropolis say that it will be there for years to come. For more than two seasons "The Great Divide" has played to enormous houses in New York. Every reader of the newspapers and periodicals is familiar with the emphatic verdict of popular approval accorded this brilliant drama of American life from the pen of William Vaughn Moody, who has won recognition as the first American dramatist to write a really great American play. The play will be presented here with the complete production, scenic equipment and accessories just as given for over six hundred performances in New York.

Pauline Coming to Shea's

Next week Shea's Theatre has for the headline attraction Pauline, the hypnotist, who returns to this country after several seasons in Europe. Pauline is a sensation. He combines humor with science and his hypnotic power often puzzles the scientists.

The special features for the week are the Youngman family, marvelous wire artists, and James Diamond and Co.

Dr. Martel's Female Pills

Nineteen Years the Standard.

Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

half cupful of flour, one-eighth teaspoonful of salt and two tablespoonfuls of English waif-meats, finely chopped. Spread very thinly with a load, long-bladed knife on a buttered inverted dripping-pan, mark off in two-inch squares, garnish the corners of each square with half a nut-meat and bake in a moderate oven until delicately browned. Again cut in squares and remove from pan at once.

Cream Mints

Cream mints are particularly attractive when made and dipped after this fashion: Boll two cupfuls of sugar, one-eighth teaspoonful of cream of tartar, one-half teaspoonful of glycerine, and one-half cupful of water until a soft ball may be formed when the mixture is tried in cold water. Turn into a bowl, set in pan of cold water, and as mixture begins to cool, stir from sides of bowl, and when all is cool beat until a creamy consistency. Turn on a platter and work between the hands, while flavoring with oil of peppermint, wintergreen, clove or cinnamon. Make several quantities of this mixture, which is known as fondant. Toss one rule of the fondant on a board dredged with confectionery sugar, roll out to one-fourth of an inch in thickness, and shape with a small round cutter. Cover, and let stand overnight or for several hours. Melt fondant in top of a double boiler, dip each mint separately, drain, and place on paraffin paper.

Seasonable Recipes

Tomato Rarebit

Put two tablespoonfuls of butter into the chafing-dish and, when melted, add two tablespoonfuls of flour, and stir until well blended; then pour on gradually, while stirring constantly, three-fourths cupful of cream, and as soon as mixture begins to thicken add three-fourths cupful of stewed and strained tomatoes mixed with one-eighth teaspoonful of soda; then add two cupfuls of soft mild cheese, cut in small pieces, and two eggs, slightly beaten. Season to taste with salt, mustard and cayenne, and serve as soon as cheese has melted on crackers.

Cake Cards

Caramelize two tablespoonfuls of brown sugar, add one-fourth cupful of butter and one-fourth of a cupful of boiling water, and let boll two minutes. Remove from fire and add one-half cupful of brown sugar, one-

Absorb Skin, Chases Wrinkles--Yeast

"The shock of beholding myself in the glass after nine long weeks away, nearly caused a relapse," writes Emily Nelson in Home Queens. "The faded face, with its lines of illness and sorrow, seemed thirty years older. No, I thought, I could not attend my church wedding, eleven days off, to which I had looked hopefully forward."

"She herself came to my rescue. She procured an ounce of macerated yeast, which she had me spread on like mud cream, washing it off next morning. Applied nightly, this apparently absorbed the withered skin, so gently experienced no discomfort. Upon the wedding morn. the patient complexion had entirely given way to one of youthful color and loveliness. This due to a wash lotion made by dissolving an ounce of salolite in a half pint of such water. The daily face bath dispersed every line."

ain as the

Other featur acts

seen the Anne

Ken, "The Little Jester," Haydn, Borden and Haydn in bits of vaudeville; Billy "Swede" Hall, & Co. in "Made Good," Mime, Alaska's Cats, and the kinestography.

Billy Spencer's Success

Billy Spencer, the original Grogan, who has passed his first successful week in Toronto with the Star Theatre Stock Co., has arranged another extravaganza, showing his splendid ability as a master of that famous art of pleasing an audience with an evening of entertainment out of the ordinary. A new show and olio and burlesque will be presented each week. A chorus girls' contest will be held on Thursday night with several new features, and in which all girls will participate. The Paragon Score Board will show all Toronto's games abroad.

"Bowery Burlesquers"

After a period of more or less laughing suspense, the announcement concerning the presentation of the "Bowery Burlesquers" at the Gaiety Theatre next week is being greeted with more than ordinary enthusiasm, pretty much due to a desire to see Fitzgerald & Quinn and Leslie French and their finely balanced company of singers, dancers and comedians who are sure to afford an evening of special delight. Chas. Jensen, Sammie Brown, Minnie Lee, Edna Green, Josie King, three Morin sisters, Henry West, Geo. Thompson and Murry Belmont, make up the exceptionally well selected list of principals.

75c a Week; Buys a Piano

The old firm of Heintzman & Co., Limited, are making a big clearing of square pianos this month. A good instrument can be had as low as \$50 and \$65, and ranging in price up to \$100. On agreement to pay 75c a week, 130 of these pianos will be at once placed in your home.

NO PLACE TO SEND INSANE CITY

Medical Journal Calls on Government and Council to Establish a Pavilion for the Treatment of Unfortunates—The Jail is Not Fit for Thugs.

The Canadian Journal of Medicine and Surgery draws attention to the fact that the treatment of diseases of the mind is absolutely essential, and urges the Ontario Government and Toronto City Council to take steps to give some measure of relief. The article says: Before very long the Hospital for the Insane on West Queen will be no more, and the inmates will be domiciled in the new government asylum at Highbury, Ont. The question now arises, what is going to be done for the relief of this class of unfortunates right in the City of Toronto? Where are those who become suddenly and violently insane going to be sent prior to their removal to Highbury? Once the buildings at West Queen are torn down for every yard, there is no place in the city except the present jail (which in itself is a disgrace and unworthy of Toronto), whether those who have become robbed of the power to control themselves can be sent.

Canaries in Church Choirs.

Various are the devices adopted for the purpose of attracting people to church services. In the case of the choir, the most conspicuous device is the use of canaries. In the choir of St. Michael's, the birds are placed in different parts of the choir. The birds began chirping at the first note of the organ, and continued until the music stopped. The combined effect of organ, choir and birds is said to have been particularly pleasing.

DRONGED TO SEE DEAD KING.

COPENHAGEN, May 22.—(Can. Press)—No fewer than 80,000 persons were waiting outside the Christianborg castle chapel to-day when the doors opened on the public lying in state of the late King Frederick VIII. Most of the foreign princes and special representatives who are to attend the funeral, arrived here to-night.

Steam Engineers Meet.

At a meeting of the steam engineers, held last night in the Labor Temple, the members endorsed the 50-hour week movement started by the metal branch of the association. The trouble with the Toronto Ferry Co. and the union will be dealt with by the national body. It is claimed that the company employs non-union engineers on some of its boats.

The Toronto Daily and Sunday World are now delivered to any address on the island. Residents or transient visitors can receive a copy of their favorite morning or week-end paper by telephoning Main 5308. Subscribers moving to the island for the summer or for a short stay can have their regular copy transferred without trouble.

IMPERIAL BANK OF CANADA.

Proceedings of the 37th Annual General Meeting of the Shareholders

Held at the Banking House of the Institution in Toronto on Wednesday, May 22nd 1912.

The Thirty-seventh Annual General Meeting of the Imperial Bank of Canada was held, in pursuance of the terms of the charter, at the Banking House of the Institution, May 22, 1912.

The Directors have much pleasure in submitting to the shareholders their Thirty-seventh Annual Report and Balance Sheet of the affairs of the Bank as on 30th April, 1912, together with Profit and Loss Account, showing the result of the operations of the Bank for the year which ended on that day.

The net profits of the Bank, after making full provision for all bad and doubtful debts, for interest on unamortized bills under discount, and for the payment of all Provincial and other taxes, amounted to \$1,004,340.28, in addition to which there was received by way of premium upon new stock (issue 1910) the sum of \$230,440.75, making in all \$1,234,780.98, which has been applied as follows:

- (a) Dividends have been paid at the rate of 12% per annum amounting to \$712,349.22
- (b) There was paid to the staff, by way of special bonus, in commemoration of the Coronation of his Majesty King George V. 33,802.50
- (c) Employees' Pension and Guarantee Funds have been credited with 7,500.00
- (d) There was donated to the Northern Ontario fire sufferers 1,000.00
- (e) Bank Premises and Furniture Account has been credited 60,026.26
- (f) Reserve Fund has been credited with the balance of premium received upon new Capital Stock (issue 1910) 230,440.75
- (g) Profit and Loss Account has been increased by 182,662.25

New branches have been opened during the year as detailed hereunder:

Ontario, at Windsor, Thorold, Dundas and Bloor streets, Toronto; Queen street and Roncesvalles avenue, Toronto; Queen street and Kingston road, Toronto, and at Timmins, in the Porcupine District, in Quebec, at St. Roch (Quebec), and at St. Lawrence Boulevard, Montreal.

In Manitoba, at Portage avenue, Winnipeg.

In Alberta, at Medicine Hat, Rocky Mountain House and Millet.

In British Columbia, at Invermere (in the Windermere District) and Main and Cordova streets, Vancouver.

The branch at Moyle, B.C., has been closed.

The new Capital Stock issued to shareholders in 1910 having been taken up and paid for, it may be thought advisable within the current year to make a further issue of stock out of authorized but unsubscribed capital. The Bank must be in readiness from time to time to take on their fair share of the ever increasing business of the Dominion.

You will be asked to contribute to the Pension Fund of the Bank out of Profit and Loss Account a further sum of \$20,000. Your Directors have been enabled out of the present fund to assist all deserving officials who have been forced by advancing years or ill-health to retire from the service, but provision should be made for the increasing staff and for the further calls which are certain to result therefrom.

The Head Office and Branches of the Bank have been carefully inspected during the year, and your Directors have much pleasure in expressing their satisfaction with the faithful and efficient manner in which the staff have performed their duties.

The whole respectfully submitted.

D. R. WILKIE, General Manager.

30TH APRIL, 1912.

D. R. WILKIE, General Manager.

THE PRESIDENT: Gentlemen,—I have much pleasure in rising to move the adoption of the Report.

ANNUAL STATEMENT.
The profits of the year have been at the rate of 18.33%, as compared with 15.18% for the year 1911, and with 14.05% for the year 1910. The total gain in deposits and circulation has been from \$51,052,453 to \$60,410,321.75. On the other side of the account liquid assets are \$31,537,448.69, as compared with \$28,815,350. Other current loans, discounts and advances amount to \$40,771,085.13, as compared with \$33,571,232. These figures indicate very satisfactory growth and are evidence of a judicious selection of business and also of prosperity amongst our customers.

NEW CAPITAL.
Reference is made in the report to a possible further issue of stock out of the authorized capital not yet subscribed. It would not be out of place to have placed an issue of shares upon the market before the issue of your Directors feel justified in recommending a further issue in the near future of an additional \$1,000,000 payable over the next eighteen months, making it comparatively easy for shareholders to meet the calls upon their allotments. During the past year, owing to the circulation of the Bank's notes being restricted by the Bank Act to an amount within the use of Government notes and discounts, the circulation of our own notes being on the border of the legal limit. The effect of this restriction, which is right enough in the abstract, can, however, be overcome by availing ourselves of the provision of the Act under which we can add the amount of our paid-up capital to any extent we may think prudent. We think it wiser that we should avail ourselves of the provisions of the present Act by enlarging our capital than wait the amelioration of the terms of the Act itself.

SHAREHOLDERS.
Our shareholders number 1,470, as compared with 1,392 in 1911. A gratifying increase which, while broadening our influence, gives stability to the market value of our shares.

STAFF.
The staff now numbers 318, as compared with 291 in 1911. The Coronation Bonus distributed amongst the staff afforded them much satisfaction and comfort, and, I am sure, meets with your approval.

NEW BRANCHES.
We have not found it possible to reply favorably to all the applications we have received from desiring places for branches of the Bank, and have been obliged to content ourselves with the few that are referred to in the Report. In extending the number of branches we have not only to consider the question of our available supply of capable and tried officials, but we must also take into account the cost of the branches, and the "trade routes." We have now, including sub-branches, 120 offices, as compared with 107 in 1911.

BANK PREMISES.
During the year we have expended upon Bank Premises the sum of \$260,026.26, and from profits of the year, as stated elsewhere, we have applied the sum of \$60,026.26 in reduction of that account. I think that a careful valuation of our Bank Premises would result in finding that we have made ample provision for any possible depreciation in value, and that we have brought the account into a figure which would be readily realized by a sale of the properties even for other purposes than banking.

RENEWAL OF BANK CHARTERS.
The decennial revision and renewal of bank charters has had to be postponed until next session of Parliament owing to causes with which you are all familiar. The present charters have been extended until 1st July, 1913, before which date the revision of the Act and the extension of our charters will be, it is expected, disposed of by Parliament. It is, perhaps, fortunate that time several very important defects have come to the surface, and possible abuses which were not thought of when the Act was last amended have made themselves not only seen but felt. We have audited and inspected suggestions that have been made regarding the undertake the responsibility of inspection is one that the Government has not so far seriously entertained, recognizing no doubt the difficulty, if not the impossibility, of carrying out a system that would not be fairly and misleading and embarrassing to the Government itself. It has also been suggested that the duty should be undertaken by the Bankers' Association. Thorough inspection could not be carried out by any better by the Association than by the Government; its value and importance, as a check on the one hand, and on the other it would be unreasonable to hold the Association as a whole responsible for the reputed solvency and soundness of its members. Moreover, no bank under present conditions could afford to employ a staff of some 1000 men, and the amalgamations following, one on the heels of another, should be called upon to place its affairs under the review of officials appointed by rival institutions. One can imagine what might happen to even a sound institution whose business and affairs were so completely given in the hands of inspectors to assist in carrying on a Bank might be used to destroy its separate existence. Mergers may even throw the control of the Association into comparatively few hands. Would you not, rather than be at the mercy of inspectors selected by your competitors, prefer to have the report of auditors and inspectors, men of repute, selected by ourselves, and responsible to you, and whose appointment and reappointment would be subject to your pleasure?

BANKING DEVELOPMENT.
During the past twelve months, ending 30th April, 1912, the paid-up capital of all the Banks has grown from \$100,000,000 to \$112,035,900. The Rest Accounts from \$85,000,000 to \$100,638,000. Circulation from \$83,000,000 to \$95,145,000 (with a maximum for the year of \$108,260,000). Public Deposits in Canada from \$837,000,000 to \$960,000,000. Deposits outside Canada from \$69,000,000 to \$85,000,000. Total Liabilities from \$1,046,000,000 to \$1,211,000,000. In 1911 there were 2,435 branch Banks in Canada; there are now 206 more. Bank Premises Accounts have grown from \$27,000,000 to \$34,000,000. The total Assets of all the Banks on 30th April, 1911, amounted to \$1,247,000,000, and on 30th April, 1912, amounted to \$1,459,000,000, of which "Current Loans" representing advances to manufacturing, lumbering, mining and agricultural concerns and ordinary mercantile business, have expanded from \$710,000,000 to \$833,000,000. The statement which I made at our last Annual Meeting that the whole amount deposited with the Banks of Canada by the public of Canada (less a portion of the cash reserves) is loaned back again to the public of Canada by the Banks of Canada still holds good.

GOLD RESERVES.
Complaint has been made of late through the public journals that there are large and abnormal holdings of gold by the Receiver-General for account of the Chartered Banks. There must be some misunderstanding regarding the gold in the Dominion Treasury. There is no gold stored for the chartered Banks; but what is no doubt stored is the accumulation of gold held against issues of Dominion notes in the hands of the Banks. These notes are held as part of the cash reserves of the Banks. The total amount of Government notes held by the Banks on 30th April was \$96,188,455. The total deposits in Canada with the Banks on that day were \$96,735,311, in addition to which there was the liability in connection with notes in circulation to the extent of \$95,145,371. It would not appear that the Dominion notes in the hands of the Banks were excessive in amount or formed too large a proportion of the liabilities against which they are held as a reserve. It is true that there was also held by the Banks gold and silver coin amounting to about \$37,000,000, but a considerable portion of this amount is no doubt held abroad against foreign liabilities; but even taking the whole amount as being available in Canada the total cash reserves of \$133,000,000 would only be about 13% of the total liabilities of the Banks. As the tendency of Canadian Banks has been in the past to hold insufficient cash reserves, it is to be regretted if the effort to improve conditions and strengthen reserves is discouraged and adversely criticized. We feel particularly interested in the argument, as our own cash reserves represent nearly 25% of our liabilities to the public. Within the past few years the Government has reduced the amount of gold which it is obliged to hold against its Dominion note obligations outstanding to 25% of the same up to \$30,000,000; in excess of that amount reserves must be held against the outstanding issues dollar for dollar. It is a debatable question if the time has not come when the Government might do with safety extend the amount of their note liabilities against which a reserve of 25% or perhaps 50% would be considered sufficient.

ROYAL MINT.
The completion of the branch of the Royal Mint at Ottawa, and the issue of Canadian gold and silver coins is an incident in the life of the Dominion that should not be passed over without some notice being taken of it. The total cost of the building and equipment, including the refinery, is \$540,000, a trifling sum when compared with the immense satisfaction which we now have in the manufacture of our own coin within our own borders. The coins struck are a credit to Dr. Bonar and his assistants. I have specimens here if any gentleman desires to see them. The new gold Canadian gold piece and the new Canadian five-dollar gold piece are marvels of beauty and execution, whilst the "Sovereign," although in every respect identical with the same coin struck in London by the Royal Mint, and recognized as a par therewith, has a more attractive appearance. The silver coins are also to be admired. We need no longer be dependent upon

a foreign Government for our gold currency, and with the enormous profit to the Government in the manufacture of silver currency there is every reason why the Government should continue to encourage the "deportation" of foreign coins of that metal. Few elements tend more to build up a national sentiment than a national coinage. Royal or National Mints exist in every important country of the world, even countries of much less importance than Canada have such establishments, to wit, Argentina, Chili, Colombia, Denmark, Holland, Honduras, Norway, Persia, Peru, Siam, Switzerland, all of them have found it desirable and direct or indirectly profitable to encourage the manufacture of their own coinage in their own country.

CROPS.
We have advices from reliable authorities in the West that the acreage under crop in the three prairie Provinces is 16,350,000 acres, as compared with 15,800,000 acres in 1911, but for the unseasonable and disappointing autumn the increase would have been much greater. The yield of agricultural products in those three Provinces in 1911 was valued at \$229,323,000, as compared with \$145,000,000 in 1910. The value would have been greater had it not been for the wretched weather with which the harvest had to contend, many millions of bushels having been damaged by weather conditions before and after harvest, and many millions left unharvested until winter had set in. On the other hand the advance in prices which took place after the close of navigation has compensated to a great extent for the loss occasioned by the bad harvesting season. The area of field crops occupied in all Canada in 1911 was 32,853,074 acres, the value of the crops has been estimated at \$585,711,800, as compared with 32,711,052 acres in 1910, with a valuation of \$507,185,000. The average yield of wheat per acre in the western Provinces in 1911 was only fifteen bushels, as compared with 20.63 bushels in 1910.

MANUFACTURING.
We have from all sides most satisfactory reports on the condition of manufacturing industries. Many factories are working over-time—in fact we have not one report that is not encouraging. The exportation of manufactured goods is increasing, and with increased capacity of railways, additional harbor facilities, and the opening up of new markets, our manufacturers should soon be able to give the consumer in Canada the benefit of the lower cost of production. I must make one exception, however, in speaking of the prosperity of manufacturers. The lumber producer, particularly in British Columbia, have had to contend, through some say, the laxity of Customs officials, with importations of American lumber free of duty upon which duties should have been collected. This has since been remedied, and our latest reports indicate a turn in the tide, and with every prospect of a good harvest and increasing immigration our lumbermen and sawmillers are looking forward with confidence to a profitable season. The total value of American lumber imported into Canada free of duty for the twelve months ending 31st March amounted to \$11,697,055, of which fully \$5,000,000 worth came into direct competition with the product of our own mills. In addition to this amount there was an importation of manufactured lumber valued at \$2,431,127.

PANAMA CANAL.
Constant reference is made in the West to the benefits which will be derived from the opening of the Panama Canal. Even now considerable shipments to Great Britain of the produce of British Columbia and of Alberta have been made by sea from Vancouver to Salina Cruz, thence via the Tehuantepec Railway and the Gulf of Mexico. It is difficult to estimate what will be the effect upon our western Provinces of low carrying charges from Vancouver to Liverpool, via the Panama Canal, with all the year-round navigation.

POPULATION.
The steady emigration to Canada from the Mother Country, from the Continent of Europe and from the United States continues, and with increased energy. For the year ending 31st March, 1912, new arrivals numbered 311,064. The new arrivals to the same date 1912 numbered 354,337. Of the new arrivals 138,121 came from the British Isles, 133,710 from the United States, 32,406 from the Continent of Europe. It is surprising to note the large number of settlers who have been attracted by the agricultural lands and salubrious climate of British Columbia, but Alberta and Saskatchewan and Manitoba have also been discovered by immigrants on the lookout for happy homes. The total population of the four Western Provinces, including British Columbia, at the census of 1911, which is, however, supposed to indicate only 93% of the then actual population, amounted to 1,741,000, as compared with the Maritime Provinces, 940,000; Quebec, 2,002,000; Ontario, 2,523,000. We do not begrudge the Great West their increasing influence in the Councils and in the framing of the policy of the Dominion. With fair consideration the one for the other, East and West will grow great together in honest and harmonious rivalry. The banking system of Canada has done more, with the exception, perhaps, of railways, to build up the West than any other influence, and to-day we find that of 1,463 branches of the nine leading Banks doing business in Canada, 682 are West of Kenora, as compared with 771 to the East thereof. Any additional restriction upon the powers of Banks to circulate their own notes would be followed by the closing up of many branches, and would occasion at least a serious setback in the development of the Great West.

RAILWAY CONSTRUCTION.
Railway extensions continue to be made at a marvellous rate. The additional mileage constructed during the year ended 30th June, 1911, was 623.7 miles, as compared with 500.0 miles in 1910. The total railway mileage in Canada in actual operation on the 30th June last year was 25,400, in addition to which there were about 1,600 miles in actual operation but not officially recognized. For this result we have to thank in the first place the perhaps too generous subsidy policies of the Dominion Government. The very profitable and profitable lines of the West are dependent, in a great measure, for the capital to develop, on the subsidies upon our credit in the Motherland. We should not abuse that credit, and although some will say that the transmigration of capital is the result of parsimony and confidence on the part of the investor, yet the confidence itself is, in the main, the result of sentiment and affection of mother for child. Let us not betray it.

MINING.
The output of the Cobalt Silver Camp for the year 1911 was valued at \$15,500,000, as compared with \$14,500,000 in 1910. The total value of the output of the Cobalt Mines to the end of last year is estimated at \$64,800,000. The exploitation of the Cobalt District has led to the discovery of the Porcupine District, from which source it is expected many millions of gold will be won during the present year. Nowhere are good results needed more than through the agricultural portions of Northern Ontario, and it is satisfactory to note the large sums of money, no less than \$5,000,000 from the Ontario Provincial Treasury alone, are about to be expended throughout the Province, resulting in closer social and business relations between its inhabitants, and in readier and less expensive access to the markets and to the lines of railway and steamboat communication.

EXPORTS AND IMPORTS.
The total exports of merchandise and agricultural products during 1911 amounted to \$290,000,000, as against total imports of \$462,000,000. The balance of trade has been settled by the immense sums brought into the country by immigrants, and by borrowings abroad in connection with railway, municipal, manufacturing, timber and other enterprises.

REAL ESTATE SPECULATION.
The extraordinary advances in the price of city property not confined to any one Province is alarming. From Pacific to Atlantic values have advanced 200%, 300%, 400% and even 500%. Enormous profits have been realized, and enormous obligations incurred. How and when the rise in values is to end it is impossible to say, as even sober, level-headed financially responsible men are amongst the most enthusiastic speculators. Bankers find it difficult to prevent customers engaged in legitimate pursuits using their commercial credits in the purchase of land for which they have no legitimate use. I should not be at all surprised to hear of failures and defaultations as a result of speculation in real estate, and of a waste of capital which must result from the investment of borrowed money in ventures that bring in no immediate revenue, the reinvestment of the invested capital in legitimate business being dependent upon realization at still higher figures than cost.

I beg to move the adoption of the Report.

The customary motions were made and carried unanimously.

The scrutineers appointed at the meeting reported the following Shareholders duly elected Directors for the ensuing year:—Messrs. D. R. Wilkie, Hon. Robert Jaffray, Wm. Ramsay of Bowland, Bow, Scotland; Elias Rogers, J. Kerr Osborn, Peleg Howland, Sir Wm. W. Mackenzie, Cawthra Mulock, Hon. Richard Turner (Quebec), Wm. Hamilton Merritt, M.D. (St. Catharines), W. J. Gage.

At a subsequent meeting of the Directors Mr. D. R. Wilkie was re-elected President and the Hon. Robert Jaffray Vice-President for the ensuing year.

KINGSTON'S BUILDING TROUBLES SEEK OLD COUNTRY PRINCIPAL.

KINGSTON, May 22.—(Special).—The boss carpenters have decided they will special committee appointed by Queen's Theological College, discussed the appointment of a principal to-day, but other tie up of building this summer. The plumbers' strike is not yet settled. To add 19 labor trouble, builders are complaining of a scarcity of bricks.

LITHOGRAPHERS' EXCURSION.

The Lithographers' Independent Protective and Benevolent Association decided last night to hold the annual excursion to Niagara Falls and Buffalo on July 13.

SUNSHINE REAL

Return of Brightened House and men.

With a prospect that for the first time in many years the sun has shined on the house and the men.

Even the end of the long fall of during yesterday's sun-brightness the sun men are in newed buying and Saturday proved anxious with roads. The inside or close on Yonge-street was the into the subway muddy last night. The houses proved anxious and many app houses on the made.

Real Estate and Building--News and Opportunities

SUNSHINE CHEERS REALTY AGENTS

Return of Fair Weather Has Brightened the Hearts of House and Land Salesmen, Also Builders.

With a prospect of fine, warm weather for the holiday the cloud that has hovered over the offices of the vacant land sellers for the last week will be lifted. The sun, which should shine, at least intermittently, to-day and to-morrow, will dry up the roads and put the various property offerings into good shape. Also it will bring out the buyers, 'tis hoped. The cold, damp weather kills all thoughts of house or land buying in the average person. Even the enquiries for houses to rent fell off during the past week. But yesterday's sunshine gave an air of business to realty row. The subdivision men are looking forward to a renewed buying period Friday morning, and Saturday afternoon. All that is needed, with many is, the possible roads. The agents with subdivisions inside or close outside the city limits or on Yonge-street will be all right, but some of the main roads leading out into the suburbs were still pretty muddy last night. The house agents reported an improved enquiry yesterday afternoon, and many appointments to look over houses on the holiday morning were made.

STILL MORE DISPARITIES

Yesterday's Registration of Residential Property Sales Shows Sale Price of Houses Nearly Double Assessment.

As a matter of news, The World again gives comparative figures of recent residential property sales, and the assessed figures. The last list yesterday's registrations was for six house properties sold in the east part of the city. The total assessment was \$8300, and the total selling price of the six, \$18,000. The increase over assessment of sale value was 21 per cent. West of Yonge-street eight house property sales were registered. The total assessment was \$47,000, and the total selling price \$83,900. The increase over assessment was 78 per cent. Just two lot sales were registered west of Yonge-street. The total assessment price was \$5810, and the sale figures \$9600. The difference is only 66 per cent. In the east end thirteen different vacant land parcels were registered as transferred. The assessment was \$7842, and the aggregate sale price \$21,918. The disparity is 179 per cent. of the assessment.

BISLEY WRANGLES OVER.

LONDON, May 22.—(C.A.P.)—At the National Rifle Association annual meeting to-day, Lord Cheylesmore said that as a result of the visit of Colonel Barlow and Croese to Canada as emissaries of peace he believed the dispute was permanently settled. Colonel Barlow of Montreal sent fifty pounds donation to celebrate the happy issue. The additional regulation is that unless permitted by the special condition of competition, no part of the wrist or hand may touch the ground.

GERMANY BRITAIN'S ARCH-ENEMY.

LONDON, May 22.—(C.A.P.)—A Berlin newspaper, 'The Taegliche Rundschau,' argues that the plying by New Zealand of a dreadnought cruiser at the disposal of the British admiralty is proof that Britain still regards Germany as the arch-enemy. At Britain's request New Zealand will permit the warship to be used in home waters instead of in the Antipodes.

BOARD OF CONTROL.

The board of control met yesterday afternoon in the city hall, but beyond the opening and accepting of tenders for various work to be done in the city nothing of moment was on tap. Controller McCarthy was late, and the chairman was about to postpone the meeting on account of the non-presence of the requisite number of members when the dilatory controller entered.

DESTROYED HER SIGHT.

Samuel Ublensky, on behalf of his 12-year-old daughter, Fannie, was awarded \$250 damages from James Sibley for the loss of the girl's eye, caused by Sibley throw a saw from a window of the hotel when she had asked for the loan of it. The saw bit her in the eye, which so damaged that member that sight was lost.

ITALIAN SHOT COMPATRIOT.

NAGARA FALLS, Ont., May 22.—(Special.)—Recoiled Marabelli refused to pay \$150 alleged to be due him, Vincenzo Salugno shot and seriously injured him while on his way to work yesterday afternoon. The bullet lodged in the victim's head. The assailant was arrested immediately.

ALTER SATURDAY NIGHT BUILDING

New Owners Will Spend \$60,000 to Modernize Structure—Would Face New Street Talked Of.

Starting Nov. 1 next, the new owners of The Saturday Night building on West Adelaide-street, will begin improvements that will completely alter and modernize the building. All the leases expire by then, and arrangements may be made to start the work on Sept. 1. Two passenger elevators will be installed, and a proper vault system built in. The space will be rearranged and light, which is had on three sides, and borrowed from a fourth, better taken advantage of. The present front entrance will be torn out and a more imposing one constructed. The idea is to make an up-to-date office building of the structure, and \$60,000 will be spent. The whole building will be fireproofed. The new owners are the Monarch Realty and Securities Corporation, Limited. That there is a still good chance of the narrow lane opposite being enlarged to a street was hinted at by one of the directors, who said he expected the rejuvenated building would face a new street, and would look down to King-street. The Monarch Corporation, one of the youngest of the operating companies in Toronto, is already a force in the realty world. It owns now a million dollars' worth of property, and the six principal shareholders are worth \$400,000. Already tenancies of the new building are being arranged. Tanner & Gates, realty agents, will occupy the ground floor front.

WOULD REMOVE RESTRICTIONS

Effort Will Be Made to Have Apartment House Bylaw Modified—Railroaded Thru Council.

A determined effort may be made at the next meeting of the city council to have the bylaw passed by that body at a recent meeting relative to the restrictions against the further building of the high-rise buildings in such a manner as to allow contractors who have already perfected plans for such construction to go ahead with their work. The bill was railroaded thru, mainly in the belief that the controllers had given it careful study. There are several buyers and contractors in the city council. These include Aldermen May and McBrien, and they are particularly interested in the situation. They believe that the effect of the present bylaw at the next council meeting to the effect that all contractors who had their plans in the city architect's hands previous to the passing of the bylaw may be allowed to go ahead with their construction work.

NEW EDITOR OF CHURCHMAN.

Evelyn Macrae succeeds the late Frank Wooten as editor of 'The Canadian Churchman,' in a recent publisher says. 'It shall be the aim to make 'The Canadian Churchman' the essential doctrine of the Christian faith, for this is the only foundation upon which the Church of England in Canada can advance.' Miss Macrae and the other members of the new staff will be retained under the new management.

Campbellford's Bylaw.

CAMPBELLFORD, May 22.—(Special.)—On June 3 Campbellford ratepayers will vote on a bylaw to spend \$25,000 on permanent sidewalks.

CHEESE BOARDS.

MADOC, May 22.—455 boxes of cheese were boarded and sold at 13 1/2c.

WOODSTOCK MAY 22.—Offerings.

Woodsstock May 22.—Offerings, \$107.50. Highest bid 12 1/2c. No sales; selling on street at same price.

MEXICO TRAMWAY'S EARNINGS.

Mexico Tramway's net earnings for April were \$28,923, an increase of \$17,373, and from January 1, 1912, increase \$73,871.

MEXICAN L. AND P. EARNINGS.

Mexican Light and Power net earnings for April were \$491,407, an increase of \$94,548, and from January 1, 1912, increase \$411,682.

"For 15 Years I Had Eczema"

Mr. C. E. Cramer, farmer, Cramersburg, Sask., writes: "For fifteen years I had eczema and for about six years also suffered from itching piles. Several different doctors were consulted in Canada and the United States, with only temporary relief. The eczema started on the legs and there was almost constant itching and smarting. At times I would have to scratch half the night and get little or no rest for sleep. The very first application of Dr. Chase's Ointment brought relief and after the third application the itching stopped entirely. I now believe the cure to be complete and attribute it to Dr. Chase's Ointment and Neve Food. The latter was used to enrich the blood, while the ointment healed up the sores. I am ready to take my oath that this statement is true and correct."

BETTER THAN PLAYING THE PONIES

DANFORTH PARK ESTATES

30 lots left in this fast selling subdivision, and the price is \$10 per foot for any unsold lot. Do not mix this property in with others in this district that are selling at \$20 per foot, \$10 down and \$10 monthly. Danforth Park Estate is beyond a doubt the best buy on the Danforth road. A few dollars planted here will grow to a thousand in a year's time. Our motor cars will be at the corner of Queen street and Kingston road on the holiday morning only, from 9 o'clock until 12 o'clock. On Monday, May 27th, any unsold lot will be advanced \$2 per foot. Danforth Park Estate can be purchased on lower prices, easier terms, than any other property on the Danforth road.

MORTIMER HEIGHTS

Which was opened last Saturday, was a big success, and it looks as though this estate will be sold out in record time. This property is only 3 1/4 miles from Yonge and King streets, east of Leslie, and just north of Danforth. Each lot has a frontage of 25 feet by a depth of 135 feet. \$18 per foot will secure you a lot in this close-in subdivision. Our motor cars will be at the corner of Greenwood avenue and Gerrard street holiday afternoon and Saturday afternoon only from 2 o'clock until 5 o'clock.

KEELE GARDENS

"The Workingman's Paradise," is located on Keele street, south of Eglinton avenue. Close to several factories employing many thousands. We know of a large improvement that is about to be made close to this estate. Now is your chance to buy before this improvement is made and sell when it is completed. You will never regret it. Any unsold lot can be had in Keele Gardens on our easy payment system of \$10 down and \$5 monthly on each 25 feet. This is easily within the reach of every workingman. Our motor cars will wait you at the end of the Carlton car line on Lansdowne avenue on holiday morning from 9 a.m. until 12 noon, and in the afternoon from 2 p.m. until 5 p.m., also from 2 p.m. until 5 p.m. Saturday afternoon.

VIOLENT ATTACK ON KAISER MAKES STORM IN REICHSTAG

BERLIN, May 22.—(Can. Press.)—The final session of the reichstag to-day was a most stormy one. The Social Democratic leader, George Ledebour, in referring to the emperor's recent threat at a banquet at Strasbourg that he would incorporate Alsace-Lorraine into Prussia, declared: "A people like the English would in a parallel case either have smashed the throne to fragments or have confined a monarch making such remarks in some quiet castle in the same way as had been done to the mad king of Bavaria and ex-Sultan Abdul Hamid." Dr. Von Bethmann-Hollweg, the imperial chancellor, rose excitedly from his seat and answered, declaring that the nation, which was devoted to the emperor, would know how properly to resent such attacks. The Social Demo-

HOW WIRELESS OPERATORS ARE TRAINED.

The important part which wireless telegraph operators played in the terrible Titanic disaster led the T.B. man to make enquiries at the offices of the Marconi Company as to whether there is much opening for young men who desire to take up wireless telegraphy as a business career. Wireless telegraph offers excellent prospects, was the reply, for, although many young men have taken up the work, there is a growing demand for skilful operators. What are the qualifications? Any young man with an average amount of common sense can take up the work. Of course, if he has an aptitude for telegraphy, so much the better. And here it might be mentioned that the prospects of the wireless telegraph operator are far better than those of the ordinary telegraphist. For instance, the scale of pay is higher than that paid to telegraphists in the government, cable and railway services. More-

over, the pay is increased more rapidly. There is, however, an age limit for applicants. They must not be less than twenty-one years of age or over twenty-five, and it is essential that they should be able to send and receive at the rate of not less than twenty-five words per minute on the ordinary Morse key and sounder. The usual arrangement is for applicants to take a course of instruction, which may be done at a private school if desired, and they become properly qualified operators after passing the examinations of the government and the company. Then, when there is a post to be filled, they are usually sent to sea as second operator, from which position they may, of course, rise to that of chief operator and have sole charge of the ship's installation of wireless telegraphy. It might be mentioned, by the way, that the wireless operator on board ship is signed on the ship's articles as a member of the crew, generally under the honorary rank of junior officer, and is subject to the regulations and discipline of the vessel. Operators have to serve some years at sea before qualifying for a shore appointment. The maximum scale of pay for a senior operator is \$18.75 a week and "all found." On war vessels as many as six wireless operators are sometimes employed, but a couple have, up to the present, been found sufficient for a liner, altho in regard to German vessels it is the custom to have three operators on board during a voyage. One of the operators is always in the wireless room to receive or send out any messages. There are certain excellent opportunities for advancement for the right kind of operators—that is, the men who take a keen interest in their work and study the subject of wireless telegraphy in its entirety. But the young man who thinks that he is going to earn money easily by just acquiring a knowledge of the code and sitting at a sounding-board, receiving or sending one or two messages as day will be sadly disillusioned. In the words of the general manager of the Marconi Company "there is plenty of room in the wireless for the right sort of worker, but for the shirkers—none."

Real Estate and Building--News and Opportunities

BLOOR VIADUCT IS ABSOLUTELY NECESSARY

Only Question is Whether it Should Be Straight or Curved, According to Board of Trade—Mayor Geary Says Another Vote Will Be Taken in January.

Whatever the issue of the various sites and methods of construction, it was clearly evident that the board of trade luncheon at the St. Charles yesterday, that the members were of the opinion that the Bloor-st. viaduct was an absolute necessity, and must come at an early date.

He, first of all, however, made clear the point that rumors to the effect that the department resented interference from outside organizations was untrue. "On the contrary," said he, "these proposals have been very helpful to me and to my superiors in laying out our estimates on the viaduct."

Mr. Cousins did not hesitate to state that in his opinion some connection or means of transportation between the Danforth-ave. vicinity and the central section of Toronto was absolutely necessary.

Mr. Cousins stated that the real issue was as between the straight and curved viaduct. From an engineering point of view, the straight viaduct would be the easier and cheaper to construct.

The big disadvantage of the straight viaduct, however, was the fact that it would mar the beauty of the ravine.

As to the possibility of constructing the viaduct of concrete, Mr. Cousins said: "I am from Toronto, you'll have to show me." He referred to the trouble experienced in certain structures in the city, and thought steel would undoubtedly make a more satisfactory and stable work.

Money No Object. Mr. J. M. Lott, of the Civic Improvement Committee, spoke of the necessity of constructing a viaduct in keeping with the present beauty of the Rosedale ravine.

He stated that sufficient money would be advanced the engineering department to continue investigations.

The main difficulty he thought was the ignorance of the people on the details of the project.

RUSSIAN AMBASSADOR DEAD. MONTE CARLO, May 22.—(Can. Press.)—Count Nicolai Dmitrievitch Von Der Osten-Sacken, Russian ambassador to Germany, and dean of the diplomatic corps in Berlin, died here today in his eighty-second year.

MEN WHO DON'T EXERCISE Suffer From Indigestion, Headaches, Poor Appetite, Sleeplessness.

Nothing So Sure to "Set Up" a Man, Make Him Feel Bristle and Vigorous as Dr. Hamilton's Pills.

Look of exercise and overwork were the causes that combined to slay the famous Dr. Hamilton's Pills.

In his concluding letter Mr. Stephens said: "A year ago I returned home after a long trip, completely worn out. I was so badly affected by chronic indigestion, that I could not get any sleep."

"I was a blessing that I used Dr. Hamilton's Pills. In one week I felt like a new man. The feeling of weight and nausea in my stomach disappeared. My appetite improved, and I began to enjoy my meals. The indigestion, however, was still present, and I began to feel the effects of depression passed away, and I began to feel like a new man."

For health, strength, courage and good spirits, in my opinion, there is no better medicine than Dr. Hamilton's Pills. Get a box today. It will cost you only 25 cents, but it will do you more good than any other medicine.

SEIZED BEER IN "DRY" DISTRICT. BROCKVILLE, May 22.—(Special.)—Four cases of beer shipped into Athens, which is a local option village, were seized by Constable Compo. One was addressed to a fictitious name, and the others to prominent men of the locality, who disclaim any knowledge of the shipment. An investigation is being made and prosecutions will likely follow.

BRITISH PARLIAMENT ADJOURNS. LONDON, May 22.—(Can. Press.)—The House of Commons adjourned today to June 4.

Discussed Peace Celebration

NIAGARA FALLS, Ont., May 21.—(Special.)—Universal peace was the keynote of the board of trade banquet here tonight when men prominent in the affairs of Canada and the United States were among the speakers. Peace bridges and monuments were the most prominent among the suggestions for permanent evidences of a century of peace between Anglo-Saxons.

Among the speakers were: Hon. George P. Graham, Brockville; Louis Jackson, New York; Senator W. C. Edwards, Ottawa; John A. Stewart, New York; W. J. Gage, Toronto; Hon. George E. Foster, Toronto; Hon. T. W. Crothers, St. Thomas; Hon. A. E. Kemp, Toronto; Job E. Hedges, New York; Harry Southam, Ottawa; Mr. Hedges and Mr. Stewart of New York are prominent on the committee arranging for the commercial celebration of one hundred years of peace.

COMPANY WILL FILE NEW PLANS

Metropolitan Declare They Cannot Afford to Elevate Line at Three Crossings, as Ordered.

Declaring that they could not afford to elevate the proposed Metropolitan line west of Yonge street at three crossings, according to the order of the board, the Metropolitan Railway Company asked the Ontario Railway and Municipal Board yesterday for permission to file new plans. The request was granted and Chairman Letch adjourned the board until Friday, May 23.

The board at a recent session ordered the company to file plans for elevated crossings at three different points, namely: Farman, Walker and Woodlawn avenues. H. J. Wright, K.C., and A. Moss, K.C., representing the company, argued yesterday that to carry out the board's order it would entail an expenditure of approximately \$700,000, which the company could not afford.

Mr. Wright said the company would submit plans showing only two elevated crossings, Walker and Woodlawn, which would mean that the line would run west from Yonge street below Farman avenue, instead of to the north as was first proposed. "With two elevated crossings it would cost considerably less, probably not more than \$300,000," said Mr. Wright.

On account of the great expense of altering its route into the north entrance of the city, Mr. Moss thought that the board should have a financial statement made by Harry Drayton, K.C., corporation counsel, who had been appointed to the board, before the next sitting of the board.

Before the next sitting of the board the company will draw up the new plans and estimates and will submit them to Chairman Letch, W. C. Phillips, K.C., Alexander McGregor and Hugh Fullerton, K.C., representing north end ratepayers, but did not enter to any extent into the argument.

CANADIAN CADETS ON PARADE. LONDON, May 22.—(Can. Press.)—The Canadian cadets paraded before the Princess Louise and the Duke of Argyll and also visited Lord Strathcona.

Mrs. Pankhurst and Colleagues Given 9 Months.

LONDON, May 22.—(Can. Press.)—Mrs. Emmeline Pankhurst, the militant suffragette leader, and Mrs. M. and Mrs. Pethick Lawrence, joint editors of Votes for Women, were all found guilty at the Old Bailey session today, and each sentenced to nine months imprisonment on the charge of conspiracy and inciting their followers to malicious damage to property.

The jury, handing down its verdict of guilty, accompanied it with a commendation that leniency should be shown the prisoners, and Justice Coleridge in delivering judgment took this into consideration.

The fact in connection with the pathetic figures when the verdict of guilty was brought in by the jury, Mrs. Pankhurst clung to the edge of the prisoners' enclosure, trembling visibly, and pleaded to be treated as a first-class misdemeanant.

Mrs. Pethick Lawrence, raising both hands in the attitude of prayer, prayed as she uttered the phrase: "May God defend us as our cause is just."

The prisoners were all sentenced to be confined in the second division, which does not involve hard labor. After consideration of the recommendation of the jury for leniency towards the prisoners on account of the undoubtedly pure motives underlying the agitation, Justice Coleridge said: "If the prisoners had shown contrition I should have acted on the jury's recommendation, but as they have openly declared that they mean to continue to break the law, I cannot make them first-class misdemeanants. They are guilty of an offence for which they are liable to two years penal servitude."

The judge ordered the prisoners to pay the heavy costs of the trial. As the defendants were removed the women crowding the court blessed and cheered.

SEIZED BEER IN "DRY" DISTRICT. BROCKVILLE, May 22.—(Special.)—Four cases of beer shipped into Athens, which is a local option village, were seized by Constable Compo. One was addressed to a fictitious name, and the others to prominent men of the locality, who disclaim any knowledge of the shipment. An investigation is being made and prosecutions will likely follow.

BRITISH PARLIAMENT ADJOURNS. LONDON, May 22.—(Can. Press.)—The House of Commons adjourned today to June 4.

OBJECT TO NEW METER RATES

Manufacturers Deny That They Are Getting Water at a Price Below What it Costs City.

X The proposed revision of the meter rates received strong opposition at a special meeting of the water sub-committee in the city hall yesterday morning from representatives of the Manufacturers' Association.

W. C. Phillips refuted the charge that manufacturers were getting water below cost. He also excoriated the present system in the waterworks department at the city hall, saying that it was impossible to secure any accurate data without exhaustive search among the books there.

Referring to Mr. Mitchell's report of 1911, where the revenue for 1910 was reported at \$775,000, and expenditure at \$900,000, he contended that the figures for expenditure were overestimated by 30 per cent.

During the year 1909 the manufacturers of the city employed Eddis & Co. to make a thorough report on the cost of water supply to the city. This they did, and late in the same year tendered their report, which showed that water at the rate of one thousand gallons had cost the city in the previous year 1-2 cents, and that for 1909 the cost would be augmented by 1-4 cent. For this reason the report of Eddis and Co. never was made public, for at that time the manufacturers were getting all their water for less than it was costing the city, or for five cents per 1000 gallons. Since that time the cost of water has greatly increased. The water is filtered and chlorinated, and altogether the total expense to the city per 1000 gallons approximates 1-2 cents. This cost does not take into consideration the increased cost in electrical energy.

The question was argued for a considerable time. Some arguments were in favor of supplying the manufacturers with water at a less cost than what the city paid for it; others were adverse to this. No action was taken the whole question being laid over until next week, when another meeting of the board will be held. This was to enable the board to get accurate information as to cost. In the meantime the bills for the present quarter will be issued at the rate of 1 per cent. The deputation was willing to pay a 3 per cent. rate pending a final arrangement, but the present rate was allowed to stand for the present.

Action on the meter rate question was deferred at the meeting of the board which was held yesterday afternoon. The sub-committee is appointed to make a report on the question some time ago had so far failed to make any report.

W. N. McEACHREN & SONS, LTD.

63 VICTORIA STREET ADELAIDE 42

every 10 feet. Those working on the wreck of the Oceana labored under a pressure of about 40 pounds per square inch. The water in the wreck was between 70 pounds and 80 pounds per square inch.

The greatest depth that admiralty divers have reached—and these divers are the most scientific in the world—has been 210 feet. The first man who set up this record was Gunner Catto, who, during the Scottish experiments with the Spanker some years ago, dived to this extraordinary depth and stayed down for twenty-five minutes.

The previous record was held by Angus Errol, who recovered \$60,000 worth of silver bars from the Skyrø already mentioned. He made over eighty descents to a depth of 188 feet and his maximum stay at the bottom was twenty-five minutes.

A curious fact in connection with diving work is that the greater the depth that a man descends the greater must be the care with which he ascends. When a diver has descended to such a depth that he is suffering from a pressure of, say, 70 pounds, the issues of the blood become saturated with the nitrox. If he ascends too quickly, this excess of nitrogen may so affect his blood-vessels as to cause a paralysis, and for this reason a diver will often take half an hour to rise from a wreck at a depth of 100 feet.

WAR ON FRENCH CRIMINALS. PARIS, May 22.—As the result of a conference between the premier and the chief of police authorities, a number of radical reforms will be introduced in French police methods.

Police Prefect Lapeine advocated the installation of telephones, accessible only to the police, who, by means of pocket transmitters, could communicate with headquarters.

In view of the valuable services rendered at the siege of the motor car hospital by bullet-proof shields, the prefect favors their further use, supplemented by coats of mail.

He has also suggested the use of sulphuric acid and capsules, which would render the air so poisonous that criminals would be obliged to come out of hiding places and surrender.

FIGHT FOR S. SIMCOE SEAT. BARRIE, May 22.—(Special.)—A number of Conservatives are aspiring to the South Simcoe seat vacated by Haughton. The polling is set for June 10, but the Liberals are unlikely to put up a fight.

Among those who said to be after the seat were: W. A. Boyd and A. E. H. Crawshaw. Barré, A. J. Bell of Alliston; Jas. Fraser of Tottenham, Rear-Rail of the Ontario Railway; and W. W. Evans and A. E. Scanlon of Bradford.

ON THE HOLIDAY

OUR downtown offices will be open until 12 o'clock noon to make appointments for any time of the day for inspection of our properties. Call or phone in. Our motors will come for you at your address.

Offices on our four properties will be open all day. Here they are:

GLENMOUNT PARK

On the Gerrard-Civic-Car-Line and Kingston Road line. Wooded and with all city conveniences applied for.

KINGSMOUNT PARK

Also on the Gerrard line, west of Woodbine Avenue. Streets being graded and the property prepared for building.

WOODMOUNT PARK

On Salmon Avenue, west of Woodbine Avenue. A magnificent workmen's proposition. Beautifully wooded.

FAIRMOUNT PARK

Our "Hill" Park, on Bathurst Street, west side, north of Eglinton Avenue. A mighty good investment in a growing locality.

INVESTMENT IN ANY OF THE "BIG FOUR" NOW MEANS THAT YOUR SMALL FIRST PAYMENT WILL BRING QUICK PROFIT.

LET US SHOW YOU LOW PRICES—OWNERS—EASY TERMS

every 10 feet. Those working on the wreck of the Oceana labored under a pressure of about 40 pounds per square inch. The water in the wreck was between 70 pounds and 80 pounds per square inch.

The greatest depth that admiralty divers have reached—and these divers are the most scientific in the world—has been 210 feet. The first man who set up this record was Gunner Catto, who, during the Scottish experiments with the Spanker some years ago, dived to this extraordinary depth and stayed down for twenty-five minutes.

The previous record was held by Angus Errol, who recovered \$60,000 worth of silver bars from the Skyrø already mentioned. He made over eighty descents to a depth of 188 feet and his maximum stay at the bottom was twenty-five minutes.

A curious fact in connection with diving work is that the greater the depth that a man descends the greater must be the care with which he ascends. MURDER BY MOTOR

Crimes That Have Been Committed With Aid of the Car.

The motor-car was not long in existence before the intelligent criminal saw its immense possibilities. It has been used more and more every year in crimes of violence and robbery, and just now the police of the world are coping with what might be called a wave of motor-car crimes.

Paris, for instance, has recently been terrorized by a gang of murderers in motor-cars. They are alleged to have been concerned in fourteen murders and burglaries. The gang always travelled heavily armed, having sacked a gunsmith's shop for the purpose. Nineteen revolvers and fifteen rifles were needed to satisfy their wants.

Scores of rich Parisians offered the authorities powerful cars with which to hunt the "motor-bandits" down. Heavily-armed bodies of police, on foot and in police motor-cars, scouted the city and suburbs, with orders to shoot at sight. One great difficulty was that the gang kept changing their car, by the simple expedient of killing the chauffeurs in charge of those they wanted.

A Study in Crimson. Not long ago a similar gang, known by the nickname of the Crime Trust, kept the wealthy inhabitants of Long Island, off the American coast, in a state of terror. Sometimes by turning on all the gas-taps in a house, sometimes by the use of chloroform, the gang, who traveled swiftly in a huge crimson motor-car, visited all their victims were unconscious, and then carried off their booty.

The Crime Trust stored their treasure partly in a steam yacht, partly in a house on shore, which they had furnished luxuriously out of their haul. When the gang was captured, over \$25,000 of booty was found, all taken from the victims' purses, and the motor-car, which was heavily laden with booty, was found in a garage in the neighborhood of the city.

In England the motor-car has not figured in many murders, but several of the most daring thefts in criminal history would have been impossible without it.

In June of 1907, for instance, the famous Avon Gold Cup auditions disappeared from a table on the racetrack, where it was an exhibition behind the grand stand, among hundreds of well-dressed race-goers. The thief, who was seized it, crushed the thin shell of gold flat under his coat, and walked calmly away.

The alarm was given within half a minute, just when two motor-cars were in opposite directions. The thief had raised time, and pursuit was fruitless. The car has never been seen since.

Man in the Mask. It is believed to have been the same gang which a few months previous had the daring to remove two heavy gold ingots, worth \$1,500, from a glass case at the South African Exhibition under the very noses of attendants and caretakers.

A very curious and mysterious case was that of the robbery on the Pennsylvania road, some eight years ago. Over a dozen cars within a month were reported being stopped by a tall, masked man in a powerful car, which was fringed with a sort of black material so that make, as well as number, was unrecognizable.

A well-known American actress, who city financiers, and other travelers were forced, by the powerful persuasion of a couple of revolvers, to deposit their belongings in the road and to go on. The motor highwayman's booty was estimated, must have amounted to over \$20,000, some of it, however, in documents useless to the thief.

It was thru attempts to negotiate with documents that curious rumors arose. There was no case in the courts, but the highway robbery was stopped as suddenly as they had begun. It was estimated, must have amounted to over \$20,000, some of it, however, in documents useless to the thief.

TWO BURNED TO DEATH. SHERBROOKE, Que., May 22.—John Squires and his wife were burned to death in a fire in a tenement house on Queen-street early this morning. Forty other occupants had narrow escapes.

In the line of outings for Victoria Day, how does a trip to Wolland, a free dinner at Grand Bay, a program of athletic sports, music and games, and the opportunity to see a regular old time western barbecue or worst within 100 miles? That is the program being carried out under the auspices of the salesmen of the Canadian Realty, Limited. They invite the public to join them—leaving here on the special train at 9 in the morning, or of an afternoon train. This will give any person who could buy a lot in Rosedale a chance to get a good idea of the value of the property.

Funeral of Pichess. The funeral of Pichess, who was killed in the explosion at the Grand Bay, will be held at 10 o'clock this morning at St. Paul's Church, Toronto. The interment will be in the cemetery at 11 o'clock.

Metropolitan Streets in Coquitlam

Showing Dewdney Road, North of the C.P.R. Terminals, Coquitlam. At Present About 100 Men and 20 Teams Are Building Roads There.

The above picture of the Dewdney Road, one of the future industrial and business streets in Coquitlam, shows how they do things in the new city.

Dewdney Road separates the C.P.R. property, which will all be used for actual railway purposes, from the Terminal Townsite, which is owned and controlled by us, and adjoins the C.P.R. terminals.

It is 100 feet wide, and is being built in a thoroughly first-class modern manner. The crushed rock they are using is crushed at Coquitlam by the municipal rock crusher.

At one thousand men are at work on the C.P.R. tracks and sidings, nearly one hundred on the new forty-eight-stall roundhouse, the first unit of which is being built by Sanford Gordon & Son, and is under contract to be finished by June 30, 1913.

Six months ago there was nothing but a level tract of land at Coquitlam, three months ago there was practically nothing but a few shanties, and they are adding almost every day to the numbers of workmen there.

We, ourselves, are building at the present time twenty-five houses at Coquitlam, also a \$30,000 industrial spur railway track to serve the industries, wholesalers, etc., at Coquitlam.

Two of Coquitlam's industries are ready for running—the Brown-McKay Lumber Mill and the United Canadian Lumber Mills—the first will employ forty men at the start.

All These Things Have Come in Six Short Months.

Do you think the same conservative C.P.R., the municipality, business men from all over the country, or men and women living in Vancouver and Coquitlam, where they can see everything that is going on, would put their money in Coquitlam if it merely gave promise of being an ordinary town?

These men know what they are doing—they are not starting businesses, or building stores and hotels and factories in any mythical townsite. They are building in a railway, seaport and industrial metropolis.

They are all going to make money, because Coquitlam will not long remain at present prices, in the face of all this development.

Call or write today for particulars.

Coquitlam Terminal Co., Limited. Coquitlam Townsite Co., Limited. Owners of the Recognized Townsite. LEIGH-SPENCER BUILDING, VANCOUVER, B.C. General Agent for Ontario: GEO. H. LANGAN, STRATFORD, ONT. Local Agent: J. C. HAYES & CO., 154 Bay St., Toronto, Ont.

HUSBANDS TOO GOOD FOR THEIR WIVES

ALARM AT CROP DAMAGE SEEN AS HEAT UP IN HURRY

Chicago Puts More Credit in Rumors of Disaster Due to Hot Weather and Prices Go Soaring—Corn and Oats Stronger.

CHICAGO, May 22.—Alarm regarding suggestions of crop damage southwest and west ran up the price of wheat today in a hurry. Sudden hot weather here made dealers ready to credit rumors of disaster from high winds and dust storms. The result was a net advance of 2c to 2 1/4c to 2 3/4c a bushel. All the other leading staples, too, swept upward—corn 5/8c to 3/4c, oats 1/2c to 1 1/4c and provisions 5c to 47 1/2c.

Wheat closed strong practically at the top level of the season. Reports of injury from the heat wave or from atmospheric disturbances of any sort could not be confirmed, but the persisting crowd in the pit seemed to think that sufficient reason had otherwise been shown for a lively all-round advance. One cause was a statement that plowing up of poor wheat fields was in progress clear across the state of Missouri. Besides the trade had unfavorable advice from Nebraska and reports of no rain in Western Kansas since May 10.

Corn and Oats Strong. Influenced by wheat and by liberal shipping sales, corn displayed a degree of strength for which few dealers were prepared. Receipts were small and with the planting season already far late, there were predictions of more bad weather east of the Missouri river. General buying led to much higher prices for oats. Shorts took hold eagerly. The close at the upper level named represented a climb of 1 1/2c since yesterday's close.

Higher prices for beef and mutton cut a figure today as raising quotations for other packing house products. The advance in grain was likewise charged with part of the responsibility.

Receipts of wheat at northwest primary points with usual comparisons, are as follows:

	To-day	Week
Chicago	82	119
Duluth	86	85
Minneapolis	86	85
Winnipeg	213	230

European Markets. The Liverpool market closed today 1/4d and 1/2d higher than yesterday on wheat and 1/4d to 1/2d lower on corn.

Winnipeg Market. WINNIPEG, May 22.—Prices were high for on the local grain exchange, especially for wheat. The improved demand continued until the close, prices finally

SEVERAL FLURRIES IN THE MINING STOCKS

Markets Show a Variable Trend and Prices Move Erratically—New Rollings Issue Doesn't Affect Stock—Pearl Lake Up and Down.

World Office, Wednesday Evening, May 22. Flurries in Dome Extension and the Pearl Lake and a measure of firmness in some of the general favorites were the outstanding features of a more-than-usually active mining market today. The mine values were in the issues most prominent, and while the net changes for the day were out over the exchange, the day's trading was considerably by a reaction which overtook the advance in the day. It was notable that prices in several instances had undergone improvement, thus reflecting the more confident feeling in speculative circles.

The market at the opening was controlled by two items of news both of which had been calculated to inspire actively and to user in a period of wide price action. That this was brought about in no other instance to any great extent could only be accepted as one more evidence that the public participation in the dealings had dwindled down to small volume, and that consequently the transactions in the main represented little more than floor trading operations.

The announcement that the Pearl Lake Gold Mines Co. had been re-financed and that the property would be opened for development work in the immediate future induced an upturn in the shares early in the day, and the price rose to 21, an advance of five points under a spirited demand. It has been stated heretofore that a short interest of material size had been built up in this stock, and when the first excitement hit the market, traders on that side of the market offered the shares down in the endeavor to induce selling by actual holders. The price was thereby dropped back to 17, and the major part of the bulge wiped out.

Standard Exchange. Open. High. Low. Cl. Sales.

Active Trade Done at Firm Prices for All Grades. MONTREAL, May 22.—At the Canadian Pacific live stock market the receipts of live stock for the week ending May 18 were 400 cattle, 300 sheep and lambs, 1000 hogs and 100 calves. The offerings on the market this morning consisted of 400 cattle, 300 sheep and lambs, 1000 hogs and 100 calves.

An active trade was done in cattle, butchers and packers, as they were all short of supplies, and the early part of the sequence was cleaned up at high prices. Top quality steers sold at \$5.00 to \$7.00 to \$7.50, and the lower grades at that down to \$3.00 to \$4.00 per 100 lbs. There was a brisk demand for butchers' cows and sales were made freely at from \$4.00 to \$5.00, and the bulls offered brought from \$3.00 to \$4.00 per 100 pounds.

TORONTO LIVE STOCK. Receipts of live stock at the City Yards, 400 cattle, 300 sheep and lambs, 1000 hogs and 100 calves. The offerings on the market this morning consisted of 400 cattle, 300 sheep and lambs, 1000 hogs and 100 calves.

Union Stock Yards. Receipts of live stock at the Union Stock Yards were 24 cars—221 cattle, 274 hogs and 2 calves. Market steady to steady prices. Trade at these yards was steady to strong for cattle, as will be seen by the figures reported below. Hogs were selling at \$3 per cwt, fed and watered.

WALL-STREET COMMENT. Erickson Perkins & Co. (J. G. Beatty) "Bulls" tried to rally stocks this morning after the early break, but met with poor success. Outsiders sold heavily on balance. We do not see any reason for the early break, but the political situation occurring daily. The critics tried to create the impression that Roosevelt's campaign was a radical than Taft has been towards corporations, but this argument will not stand up to a close examination. Roosevelt will not get out of the woods and do not buy except on drives for moderate gains. The general market is not to be trusted.

Chicago Live Stock. CHICAGO, May 22.—Cattle—Receipts, 16,000; market steady to 1/2c lower. Beef, \$10.00 to \$10.50; Texas steers, \$9.00 to \$9.50; yearlings, \$8.00 to \$8.50; calves, \$8.00 to \$8.50; sheep, \$4.00 to \$4.50; hogs, \$3.00 to \$3.50; market steady to 1/2c lower. Light, \$3.50 to \$4.00; mixed, \$3.00 to \$3.50; heavy, \$2.50 to \$3.00; pigs, \$2.00 to \$2.50; bulk of sales, \$1.50 to \$2.00.

PEARL LAKE DEAL HELPS THE CAMP

Financial Arrangement Receives Approval of "the Street"—Deal is Highly Favorable to Company

The re-financing of the Pearl Lake Gold Mines Co., and the placing of control in the hands of strong Philadelphia financial interests, is regarded in mining circles as of great importance to the early future of Porcupine. The mine will be started up, once, and it is confidently believed that gold bricks will be sent out from the property within a very short period.

Mr. James Curry, banker and broker, Manning Arcade, was responsible for making the new financial arrangements. In discussing the deal with "the Street," Mr. Curry said he has known for a long time that the Pearl Lake mine was one of the best of the Porcupine properties. My financial friends in Philadelphia had been looking for something good in Porcupine for 18 months, and when I presented them with the Pearl Lake proposition they immediately became interested. They had had excellent reports of the mine from their engineers, who had been in the camp for months, and they consequently required but a short time to connect themselves with the company.

The people whom I introduced to the Pearl Lake Co. are allied with the largest Philadelphia financial interests, and the Pearl Lake shareholders can rest assured that their property will be made into a big producing mine.

Mr. Curry has put some large funds, but he feels satisfied over his work in that it relieves Porcupine from receiving unjustifiable condemnation such as would have been made had the Pearl Lake Co. not been taken over by the Philadelphia financiers. American capitalists now included in the Pearl Lake have provided a sum of \$200,000 for development purposes, and for the erection of a stamp mill.

DIAMOND DRILL IN FREE GOLD. Seneca Porcupine Found Vein at 144 Feet—Expectations of Management Realized.

Porcupine, May 21.—(From Our Man Up North.)—Gold is discovered on the Seneca Porcupine. The vein, known formerly as the Lawson claim, directly to the east of the famous Hughes, is just about the precise spot where Manager Henry Bates reported the diamond drill struck rock at 139 feet depth, and five feet into the rock the shear was cut. Quartz showed in the shears in good values. The gold, it is announced, appears in the quartz.

"After the overburden is heavy, the lode lying in the lowlands along the river bottom, conditions were found just as the management expected when the first connecting link between the Scottish-Ontario and the Three Nations belt is forged. Uncertainty regarding the Porcupine lode was gradually dispelled, as more work is done, and there is every indication that in the depression mine men will find the biggest values. Depth of the vein in the lowlands, as the lode lying in the lowlands along the river bottom, conditions were found just as the management expected when the first connecting link between the Scottish-Ontario and the Three Nations belt is forged.
