**C.P.R. OPERATORS ARE FAVORED BY AWARD**  
 DELAYED BY THE MINORITY REPORT

So They Believe, and Are Anxious to Test Company's Good Faith in Abiding by Decision.  
 ENGINEERS HAVE ALSO ASKED FOR AN ENQUIRY

The C.P.R. telegraphers are becoming impatient at the delay in the announcement from Ottawa of the award of the arbitration found regarding the case of Morrisette, the Montreal C.P.R. telegraph operator. The latest report from Ottawa is that the award is favorable to the telegraphers. The majority report is known to have been sent to the government some time ago. The company's representative might delay matters for a time by withholding his minority report, but reasonable time is considered to have elapsed.

On the supposition that the report of the majority is favorable to the men, the friends of the strikers are anxious for it to be made public immediately, as it will test the C.P.R. Company's good faith in claiming to be willing to abide by the rulings of arbitration boards. Moreover, it is claimed that a systematic dismissal of active union members is being made by the C.P.R., which promises to be a blemish in opening the way for some arbitration service.

On Friday the government was notified by the Brotherhood of Locomotive Engineers and Firemen that they had two cases to go before the board, for which they had applied. They are the wrongful dismissal of Engineer McGuegal and Macaulay of the Lake Superior division. The brotherhood has nominated J. G. O'Donoghue as their representative on the board. The C.P.R. has five days in which to name its arbitrator, and the two thus appointed five days more in which to select a third. Under the law regulating conciliation boards, certain sections of railway employees are unable to go out until after an appeal to arbitration.

The report that the non-union strikers are receiving no strike pay is denied, the statement being authoritatively made that they are getting within a dollar a week of the same allowance from the union funds as the union members.

**'WHITE PLAGUE' ALARMS.**

Newfoundland Taking Steps to Curb the Disease.  
 OTTAWA, Aug. 24.—(Special).—Advice from E. A. Arnaud, Canada's commercial agent in Newfoundland, indicate that the authorities are becoming genuinely alarmed at the spread of the white plague in the island colony.  
 Consumption is on the increase, as is shown by the statistics of the past few years.  
 In 1907 there were 654 deaths from consumption in the colony. In 1902, 710 people succumbed to the disease and in 1903, 828.  
 It is estimated that two thousand people are idle every day of the year, involving an annual loss of nearly one million dollars a year to the colony.  
 Recently all the school teachers of the island were called together in convention and given instructions by experts as to the best methods to prevent the spread of the disease.

**FOR RAILWAY COMMISSION.**

Strang and Greenway Are Favorites From the West.  
 WINNIPEG, Aug. 24.—(Special).—The Tribune says to-day:  
 "The Dominion cabinet is at present considering appointments to be made to the railway commission, it having been decided to add several members. It is understood that so far as the west is concerned only two are being considered. Hon. Mr. Greenway being one and Andrew Strang the other."  
 "It is said that the business interests of the west, and especially of Winnipeg, are favorable to Strang on grounds that it is felt that a business man is necessary in the interests of the west. It is thought that the appointment will be made in a few days. Mr. Greenway's colleagues in the house are pressing for his appointment."

**DARING SNEAK THIEF.**

When Discovered, He Says He's Looking for a Man Named Kennedy.  
 A daring sneak thief has been operating in the city for the past two or three weeks with considerable success.  
 He is a young man, respectably dressed in a brown suit and a Panama hat, who rides a bicycle. He operates in day time and if discovered in the house says he is looking for a party named Kennedy. Then he departs.  
 Four cases at least have been mentioned to the West. Where covering the west north and east end districts and the police have been notified. He still at liberty.  
 On North Edgar-street he was observed in the side entrance, and after asking for Kennedy requested and was given a glass of water.  
 At another house he again came to the house says he is looking for a party named Kennedy. He was still looking for Kennedy.  
 At another house he again came to the house says he is looking for a party named Kennedy. He was still looking for Kennedy.  
 On Parliament-street he was seen coming from a side entrance in his stocking feet. He slipped shoes on and hiked off on his wheel. Fifty dollars went with him.

**The Toronto World**  
 TEN PAGES—TUESDAY MORNING AUGUST 25 1908—TEN PAGES

**One Thousand Ready to Fight Fire.**

FRANKFORD, Aug. 24.—At 10 o'clock Sunday night the Trent River Paper Co. sounded a fire alarm which was responded to by the townsmen, while crowds, flocked in from the country, until fully one thousand people were on hand ready to assist.  
 In less than half an hour all the mill pumps were working, connected with seven hundred feet of hose and throwing a good stream of water, which, with the buckets, kept the fire confined to one stack and storehouse.  
 The fire was surrounded by thousands of tons of hay, and a great quantity of wood.

**NOTABLE VISITOR TO THE FRIENDS**

JOHN ASHWORTH, the Quaker delegate and eminent English engineer, spent the greater part of yesterday in making calls about the city. Among others he saw Engineer Rust and went over the waterworks and sewage system. He will spend to-day in visiting and seeing persons interested in Cobalt and Canadian coal mines. To-morrow evening with Miss Ashworth, his sister, he will visit the 'Friends' at Newmarket.  
 Mr. Ashworth leaves on Thursday morning for Winona Lake Park, Indiana, where the great biennial general conference of the Hickiste Friends will be held.

**DONS UNIFORM IN JAIL.**

Capt. Hains Shows Symptoms of an Unpleasant Mind.  
 NEW YORK, Aug. 24.—In appearing before the magistrate to-day, Capt. Hains wore the uniform of a captain of the United States army to court. In explanation, counsel for the Hainses said that Capt. Hains' leave of absence from his post at Fort Hancock expired to-day, and that when an officer returned to duty after a leave of absence he always wore his uniform, and that the captain had an idea he was going back to duty.  
 District Attorney Darrin, who is prosecuting the case, said to-day that he did not believe that the true motive for the shooting had yet come out.  
 Major Hains and one of the attorneys for the defence endeavored in vain to induce Capt. Hains to remove his uniform and to discuss the murder after he had returned to the jail.  
 The captain strode nervously back and forth in the corridor in front of his cell, saying: "You don't understand. My leave of absence expires to-day, and I must get back to my post of duty."

**DARING CANOE VOYAGE.**

New York Couple Paddle From New York to Prince Edward Island.  
 CHARLOTTETOWN, P.E.I., Aug. 24.—(Special).—Henry A. Wisewood and Mrs. Wisewood of New York arrived here to-day after an adventurous canoe voyage from New York.  
 The only portion of the distance not paddled was from Sackville, N.B., to Cape Tormentine, N.B., the canoe being transported that distance by rail. From Cape Tormentine they crossed the Northumberland Straits on Friday last, running into very rough weather, but getting across safely and sheltering in Island Harbors. They will re-arrange to Charlottetown, which was reached to-day.  
 Both voyagers are well and in best of spirits after their novel voyage. Mr. Wisewood is a member of the New York Yacht Club. They have been a little over three weeks coming from Island Harbors. Their canoe is in perfect condition. They will remain here till Friday, when they will return to New York via Halifax, taking their canoe as luggage.

**PUNCKY POLICEMAN.**

P. C. Bell (122) made a thrilling capture on a runaway team belonging to the Toronto Dairy Company on the Yonge-street wharf yesterday. The driver was unloading milk cans, when the horses became frightened at a whistle blast and started madly up town. The policeman was dragged several yards.  
 G. H. Hodgetts, formerly of the main office staff of the Bank of Hamilton, Toronto, has been appointed manager of the Yonge and Gould branch to succeed E. A. Campbell, who has been transferred to the Winnipeg agency of the bank.

**NEW BANK MANAGER.**

G. H. Hodgetts, formerly of the main office staff of the Bank of Hamilton, Toronto, has been appointed manager of the Yonge and Gould branch to succeed E. A. Campbell, who has been transferred to the Winnipeg agency of the bank.

**WAS A DETERMINED CONTEST**

So Cable Tension Burns From Australia—15,000 Watched Fight.  
 (Canadian Associated Press Cable.)  
 LONDON, Aug. 24.—Tommy Burns cables that he won only after the most determined contest he ever fought, and adds: "Am feeling good. Fifteen thousand watched the fight and 24,000 awaited the result outside."  
 SHARRETTI OFF TO ROME.  
 OTTAWA, Aug. 24.—(Special).—Mr. Sharretti, apostolic delegate, accompanied by Rev. Dr. McNally, has left for Europe for a trip which will extend over two months.

**SUGGESTS PEACE CENTENARY.**

WINDSOR, Aug. 24.—(Special).—Flushed with the success attained by the Quebec Tercentenary, Earl Grey, who paid an informal visit to Windsor to-day, has evolved a new idea along the same lines.  
 His excellency thinks there should be a centenary in 1914 of the peace relations between Canada and the United States.  
 "It is a gratifying thing to know that for nearly a hundred years, along an unprotected frontier of 3000 miles, there has been no war waged," said his excellency. "Yes, I think preparations should be made shortly to celebrate the anniversary."  
 The governor-general was taken for an auto ride around Windsor, Walkerville, Sandwich and Belle Isle. In the afternoon he was entertained by Hiram Walker and Sons of Walkerville.

**GENERAL'S WIFE IS MURDERED**

Body of Mrs. Chas. Luard Found in Desolate Wood—Rings Stolen.  
 LONDON, Aug. 24.—The wife of Major-Gen. Charles Edward Luard was mysteriously murdered this afternoon in a desolate wood near Sevenoaks, which is a short distance outside London.  
 No trace of the murderer has been found, but the motive apparently was robbery, valuable rings having been taken from the woman's fingers.  
 The circumstances surrounding the tragedy are inexplicable. The general and his wife were about to go on a holiday and the general suggested that they walk from their residence at Knoll, about a short distance, to the golf links to fetch some things which they needed from the clubhouse. They started at 3 p.m., making a shortcut thru a wood.  
 Half way along Mrs. Luard, becoming tired, declared her intention to return home. The general proceeded alone to the clubhouse and returned to his house by another route.  
 Finding his wife had not reached home he set out in search of her, and was horrified to find her lying face downward, in a pool of blood near the spot where he had shortly before left her.  
 Mrs. Luard had been shot with a revolver, one bullet entering her temple and another striking her behind the ear. The second shot seemingly was fired and the woman fell on her face. Her hand had been pulled back as the rings wrenched from her fingers.  
 Her dress also was torn almost from her body.  
 The summer house is a mile from any dwelling. A farm hand heard shots in that direction at about 3.30 p.m. or half an hour after the general had left his wife.  
 Mrs. Luard was about 53 years of age.  
 Major-Gen. Luard is a retired officer of the Royal Engineers. He entered the army in 1877 and was executive officer in London during the Fenian disturbance in 1877. He devised the scheme for the rearmament of Gibraltar. He founded the Society of Miniature Rifle Club in 1901 and the Patriotic Rifle Club in 1907. In 1875 he was in a position to speak authoritatively.

**LONE BANDIT HOLDS UP TRAIN OF 7 COACHES**

Then Makes Off With Four Horses—Cavalry in Pursuit—Was About Fifty Years Old.  
 ST. PAUL, Minn., Aug. 24.—Information is received at the Northern Pacific Railroad headquarters here that a lone highwayman to-day held up seven coaches of tourists in Yellowstone Park and compelled them to turn over their valuables to him.  
 The hold up took place between Old Faithful Inn and Yellowstone Inn, and the robber, after securing his booty, took four horses and with them started in the direction of the Jackson Hole country.  
 The desperado was masked, but was about 50 years old.  
 There are four troops of United States cavalry in the park, and a portion of the troops have been ordered to scour the country for the bandit.  
 The highwayman was stationed at a bend in the road where he was invisible from either direction. At the point of a rifle he lined up the passengers, and after relieving them of money and valuables, allowed them to proceed on their stage and resume their journey. This performance the bandit enacted seven times. It is understood that he collected more than \$500.  
 The fact that tourists in the park are not allowed to carry weapons made it impossible for any of the passengers to offer resistance.

**JEROME EXONERATED.**

Charges Disproved and Conduct Declared to Be Excellent.  
 ALBANY, N.Y., Aug. 24.—Richard L. Hand of Elizabethtown, who was appointed by Governor Hughes, to take testimony and present his findings on the charges filed against District Attorney Wm. Travers Jerome of New York, by a minority stockholders committee of the Metropolitan Street Railway Company in a report submitted to the governor to-day, finds that not one of the series of charges is proved, but that all are disproved and that the report is a vindication of the dismissal of the charges. A request was made for Mr. Jerome's removal. Governor Hughes has not acted upon Commissioner Hand's report.  
 "My conviction upon the whole case," says the report, "is that the responsibility has been shown to have discharged the onerous duties of his office with zeal and ability, leaving the public good as his motto, and that so incapacity, indifference or neglect of duty has been shown in any case."

**3 WEEKS, 3 BROKEN RIBS AND 3 FRACTURES IN LEG**

Elderly Scotch Lady Falls Down 20 Steps Soon After Her Arrival in Toronto.  
 Not being used to the steep flight, narrow tread Canadian stairs, Mrs. Mary Burns, an extremely heavy lady, just three weeks out from Glasgow, fell down 20 steps in her son's home, 1277 Dufferin-street, last night, fracturing her right leg in three places and breaking three ribs.  
 She was removed to the Western Hospital in A. W. Miles' private ambulance shortly after midnight. It was with much difficulty that she was moved in and out of the conveyance, partly on account of 275 lbs. weight and partly because of her intense sufferings. It required four men to move her about.  
 Her son came to Canada a little over a year ago to establish a home and Mrs. Burns joined him three weeks ago.

**MONTREAL SUES RAILWAY.**

Asks for \$21,000 on Disputed Snow Account.  
 MONTREAL, Aug. 24.—(Special).—The City of Montreal to-day entered action for \$21,000 against the Montreal Street Railway to recover a disputed snow account, which the company objects to pay on the ground of fraud and extravagance.  
 The company will contest the claim. It arose over the removal of snow last winter from the car tracks of the company.

**DOCTOR'S DIPLOMAS STOLEN.**

Thieves Want to Use Them for Fraudulent Purposes.  
 VANCOUVER, B. C., Aug. 24.—Thieves stole four diplomas from the office of Dr. Mackenzie last night, where it was evident that thieves were after nothing else, for the papers were carefully stripped from the cardboard in the frames and will probably be used for fraudulent purposes with the name erased.  
 The committee, after some discussion over the matter, got an assurance from the Mayor of Westmount that pickets would not be molested for peaceful picketing, and would have the same liberties as permitted in the city.  
 The reports coming from Windsor State of large numbers of men being engaged are exaggerated, and so far as stating that many of the strikers are being tired out, the idea is ridiculous, for all the men would have to do would be to walk up to the shops and go in.  
 In all the C.P.R. engaged over one hundred mechanics to-day, many of whom came from the United States. It was announced from the shops that thirty of the strikers had returned to work.  
 Keir Hardie is watching events, but so far has taken no active interest in the strike.  
 MURDER AT VANCOUVER.  
 VANCOUVER, Aug. 24.—(Special).—Mrs. Jenkins, a colored boardinghouse-keeper, was murdered at her home in the east end shortly after noon to-day by a negro roomer, who escaped by a rear door. The murderer used a butcher knife.

**NEW TOWNSITE COCHRANE AT RAILROAD JUNCTION TO BE AUCTIONED OFF**

Everybody Will Get a Chance to Become Landholder of City-to-Be at Junction of G.I.P. and T. & N. O. Ry.  
 Cochrane is to be the name of the new town and eventually the probable great city at the junction point of the Grand Trunk Pacific Railway and the T. & N. O. Railway.  
 The rails on the T. and O. Railway were laid yesterday almost to Nellie Lake, and by October the junction will have been reached.  
 The new town site is now being surveyed and laid out, a thousand acres being reserved for this purpose by the government and the commission.  
 Proper allotments for school, park and public buildings purposes will be made, but in order that on possible suggestions not unfairness can be made all the building lots will be offered by public auction on the townsite in October. The lots will be 60 by 132 feet each, and particulars will be published later.  
 There are three small lakes adjoining the site. Commando Lake, which is 50 or 60 feet deep, has excellent water and will be kept for the town water supply. A boulevard will be built around the lake. All of the lakes are very pretty and the townsite is regarded as a most desirable location.  
 Railway Town Council has adopted a resolution endorsing the action of the T. & N. O. Railway Commission with respect to the building of the new spur, against which an injunction is sought by interested parties. The town is very anxious to have the spur built. The matter will come before the attorney-general in the next week or two.

**REGULAR PAY ASSURED FOR ALL THE STRIKERS**

J. H. McVety Makes Official Announcement—The Situation at Montreal—Men Still Firm.  
 WINNIPEG, Aug. 24.—(Special).—"During the past week many articles have appeared in Montreal papers intimating that strike pay would not be forthcoming for the non-union men who came out on strike to support the tradesmen in their stand against the decision of the arbitration board, and under the empire. A million dollar trust fund has already been created toward the beginning of an Australian navy.  
 Commenting upon the London reports that financiers have offered a loan of a hundred millions sterling for the royal navy increase, The Herald says: "This is undesirable, but it shows that the elasticity of the British financial system has been strained, and it is now necessary for Australia to lend a stronger hand to the empire's defence."  
 The public gives a good reception to such arguments because of the fear of trouble from Asiatic immigration. The vast vacant fertile areas of Queensland and the northern territory are a constant temptation to overcrowded Asiatic countries. The sentiment for a "white man's country" recently caused the deportation of the South Sea blacks formerly imported into Queensland. "White" men can live and work in tropical Queensland, but the health of the women is often broken. Settlement, therefore, is difficult, and Australia is the only remaining habitable land in the eyes of nearby Asiatic countries.  
 President's Roosevelt's "cruise of peace" and of last he telegram has been most heartily welcomed.  
 STOLE CASH FROM FATHER.  
 Young Fellow, Gambling and Girl Crossed, Turns Thief.  
 WINDSOR, Aug. 24.—(Special).—Jos. Ouellette, 20 years old, was arrested to-day. Some few days ago Ouellette's father, who is Grand Trunk agent at Stony Point, reported that he had been robbed of \$600, which had been sent him from Montreal to pay the wages of the sectionmen.  
 Ouellette's own son has confessed the theft and says that he has lately fallen a victim to the gambling craze. With the money he stole, he purchased a horse and chain in Detroit for his sweetheart and paid \$60 on a typewriter. The sum of \$420 was recovered in his boarding-house here. The prisoner spends his birthday in jail, having been remanded for sentence.  
 DANGERS OF ESPLANADE.  
 Mother and Boy Have Narrow Escape From Being Killed.  
 In trying to avoid being run down by a train on the spot where the Yonge-street viaduct should be, Ernest Drey, 6 years old, had a heavy fall and cut a gash in his forehead, requiring four stitches, at 5 o'clock last evening.  
 With his mother the little fellow was hurrying to catch a boat when they suddenly noticed they were in the path of an on-rushing train. In turning back both the child and his mother were thrown to the crossing. The lad was attended in St. Michael's Hospital. They live in Mount Pleasant.

**WINDY WARFARE OVER LESLIE ARREST**

Magistrate Continues to Rub It Into Civic and Police Authorities, But Mr. Fullerton Counters Back Hard.  
 COUNSEL SAYS THAT CITY ACTED QUITE PROPERLY.  
 "So far as Colonel Denison's remarks apply to this matter they appear to me an officious, mischievous and ill-informed attempt to interfere with the exhibition board in the transaction of its business. Perhaps if he had taken the trouble to acquaint himself with the facts and the law he would never have fulminated."  
 "There was no attempt at stifling a prosecution, there was no duress, no process of 'squeezing' either Col. J. K. Leslie or Mrs. Leslie, but Mrs. Leslie's act was wholly made of her own free will, and it was a laudable act of a conscientious woman."  
 "On the whole I have to report that the course pursued was and is the proper legal and reasonable course to have pursued."  
 —MAGISTRATE DENISON.  
 —CORPORATION COUNSEL FULLERTON.

**THE LAW AND THE LESLIE CASE**

This is a case where an investigation is necessary into the affairs of the police department and administration of justice in this city.  
 "It is altogether discreditable and irregular for one of our citizens, if not two, to have been so treated, 'squeezed,' I called it before, as they have been in this matter. Of course it was not done with the consent of the police commissioner."  
 "There are several points I want to investigate further, whether, as Mr. Dewart claims, there was only a civil liability, how the books were kept, how the auditors were deceived, and if there was any trifling or erasures made in the bank books."  
 —MAGISTRATE DENISON.  
 "So far as Col. Denison's remarks apply to this matter, they appear to me an officious, mischievous and ill-informed attempt to interfere with the exhibition board in the transaction of its business. Perhaps if he had taken the trouble to acquaint himself with the facts and the law he would never have fulminated."

**MILLION DOLLAR FUND FOR AUSTRALIAN NAVY**

Has Already Been Raised—Colony Will Try to Lighten Britain's Burdens.  
 SYDNEY, N. S. W., Aug. 24.—The influence of the American fleet's visit to Australia is being felt in many ways.  
 The Sydney Herald, one of the foremost journals of the country, says to-day that the cruise quickens the imagination of Australia, Canada and South Africa to the sense of their part in the world under the empire. A million dollar trust fund has already been created toward the beginning of an Australian navy.  
 Commenting upon the London reports that financiers have offered a loan of a hundred millions sterling for the royal navy increase, The Herald says: "This is undesirable, but it shows that the elasticity of the British financial system has been strained, and it is now necessary for Australia to lend a stronger hand to the empire's defence."  
 The public gives a good reception to such arguments because of the fear of trouble from Asiatic immigration. The vast vacant fertile areas of Queensland and the northern territory are a constant temptation to overcrowded Asiatic countries. The sentiment for a "white man's country" recently caused the deportation of the South Sea blacks formerly imported into Queensland. "White" men can live and work in tropical Queensland, but the health of the women is often broken. Settlement, therefore, is difficult, and Australia is the only remaining habitable land in the eyes of nearby Asiatic countries.  
 President's Roosevelt's "cruise of peace" and of last he telegram has been most heartily welcomed.

**WINDSOR, AUG. 24.—(Special).**

Flushed with the success attained by the Quebec Tercentenary, Earl Grey, who paid an informal visit to Windsor to-day, has evolved a new idea along the same lines.  
 His excellency thinks there should be a centenary in 1914 of the peace relations between Canada and the United States.  
 "It is a gratifying thing to know that for nearly a hundred years, along an unprotected frontier of 3000 miles, there has been no war waged," said his excellency. "Yes, I think preparations should be made shortly to celebrate the anniversary."  
 The governor-general was taken for an auto ride around Windsor, Walkerville, Sandwich and Belle Isle. In the afternoon he was entertained by Hiram Walker and Sons of Walkerville.

Forward all complaints to The World Office, 23 Yonge Street, Toronto.

## THE SCOTTISH AGRICULTURAL COMMISSION.

Within the next few days the special commission of Scottish agriculturists will arrive in Ontario for the purpose of examining the provincial conditions and reporting later the result of their observations. The visit is one of considerable importance, since the commission's report will materially influence the character of the agricultural emigration from Scotland and its destination so far as Canada is concerned. As the farmer with capital and the skilled farm laborer are two classes always welcomed it is very desirable that the advantages of Ontario should be placed clearly before the commission. The province is specially fitted to offer inducements to the Scottish emigrant. Its mixed farming is similar to that which he is accustomed to and the province otherwise has much of the atmosphere of his home land. There is every reason why Ontario should become the natural destination of the Scottish farmer and the skilled agriculturist.

## PUBLIC SERVICE AND CIVIC ADMINISTRATION.

In connection with the recent trial and conviction of certain members of the board of guardians for Mile-End, one of the London parochial districts, an attempt has been made to use the result as an argument against increasing the responsibilities of public bodies. It is argued that every new undertaking adds to the opportunity for "graft" and that the only safe principle is to circumscribe their duties to the most restricted area possible. So far as at least in Britain is concerned the contrary is the case. City and county councils and similar elective bodies possessing an extensive jurisdiction are free from scandals of the Mile-End description. To quote words of the London Saturday Review when commenting on the trial "In the large councils there are few possibilities of corruption; for in most county councils men who have been born to or who have won independence from the majority, while in the large towns party feeling and a keen local press are useful and effective deterrents. In addition to these safeguards the existence of a strong labor contingent in many of our large provincial municipalities, while it tends to extravagance, is nevertheless at present strongly against personal corruption."

## KEIR HARDIE.

Editor World: I am surprised that the Toronto papers are giving this man Keir Hardie such a reception coming into a country in which the people are trying to live peacefully and happily among themselves, to stir up strife and ill-feeling. If there is any class of people who should be deported and not allowed to land in Canadian ports it is this same Keir Hardie. He is nothing but the very worst kind of an agitator and the sooner he is giving to understand that he is the undesirable kind of people Canada does not require the better for all concerned. Trusting you will kindly give your views on this in your valuable paper.

J. Montgomery.  
Burlington, Ont.

## STANDING OF CORPS.

With the opening of the rifle matches to-day at Long Branch, shots from all parts of the country will be eager to see the daily standing of the competitors for the World's silver cup. The returns will be published every morning and it will be well for every one who is interested in the fight of ballots which has been waged so persistently to send in coupons at once. This will give the various contestants as fair a show as they have at the ranges in shooting. The standing up to last night was:

Queen's Own Rifles	39,743
48th Highlanders	23,780
Royal Grenadiers	22,072
Gov.-Gen.'s Body Guards	15,975
12th, Hamilton	13,109
91st, Hamilton	13,095
84th Regiment	10,517
80th, Winnipeg	10,499

# CANADA'S GREAT FAIR AND WHAT IT SHOWS

Some Idea of the Exhibits That Will Please Thousands of Visitors During Fortnight

Altho there will be no display of particularly sensational feature at the forthcoming Canadian National Exhibition, if existing arrangements are carried out, there will be more than the average excellent display in each and every building. This is no press agent's story, for the character of the exhibits warrants a better showing than has been made in previous years. In the manufacturers' and liberal arts buildings several have made a special effort to make novel and interesting exhibits. One firm, for instance, will have a display of ancient and modern gowns, illustrating the various periods. Another firm proposes to make a superb display of modern and antique furniture and church fixtures. So on, all down the line. Formerly manufacturers have been content to show their wares to exhibit, as well and largely as they would like, but the depressed times through which Canada is passing, has given the world, has been passing, has given them an opportunity to show what they really can do.

In the process building the same remarks will apply, and there will be found recently invented machinery and France, for the weaving of fancy articles in many colors. Interest will also be taken in the progress of an entirely new process, and many other ingenious devices have been invented in the respective trades.

Turning to the art gallery, it is undoubtedly the display of pictures will be superior to anything that has gone before. Not only has Great Britain contributed some of its best works by its first masters, but France has also sent over nearly a score of glorious paintings from the Paris Salon, and many of the world-famed art galleries.

In making arrangements for the fair, the directors of the exhibition particularly pride themselves, is the marvelous and comprehensive display of products from every province in the Dominion. Gold from British Columbia and from the Yukon, and silver from the Yukon and British Columbia will be displayed in large quantities. Minerals also from Alberta and Saskatchewan and from the Northwest Territory will be shown. Alberta will send an arrangement of mirrors, which will be a novel feature, and which will extend from Edmonton to the Pacific coast. From the Yukon, Saskatchewan will exhibit a model elevator, showing the methods employed in mining and the various types of machinery used in the province.

In the natural history building will be found an admirable arrangement of fish, of the entomological subjects of Canada, and of the birds of the Dominion. Minerals and everything touching the inner and minor life of Canada.

The grandest feature of the building for public approval, such as it is safe to say, has never been surpassed at any show in Canada, floral or otherwise, and will be a feature of the fair. There will be also fruit, vegetables, and in fact, everything pertaining to the farm and domestic life participate. As the season has been particularly notable for choice fruits, so the exhibit will be a feature of the fair.

In live stock, the increased number of exhibitors and the quality of the exhibits all along the line. Excellence, the Canadian National Exhibition, in farm stock and live stock, is a feature of the fair. Judging from some samples that have already made their appearance, the general show will be fairly entitled to superiority.

It is also true of the poultry and pet stock. In fact, in this department there have been some of the most interesting exhibits of these exhibitors have made from 50 to 100 entries.

# POLITICAL INTELLIGENCE

CONVENTIONS TO-DAY.

East Kent Conservatives at Dresden. South Oxford Conservatives at Mount Elgin. Ottawa Conservatives at Ottawa. South Huron Conservatives at Hensall. South Waterloo Conservatives at Galt. West Elgin Conservatives at St. Thomas.

HON. A. B. MORINE, K.C. Conservative Candidate in Queen's and Shelburne, N.S.

Brookville special says: "The official call for a convention of the Conservatives in Brookville riding has been issued, being Saturday, Sept. 6, for the election of officers and the selection of a candidate to contest the next Dominion election. The names of John Culbert, ex-M.P.; ex-Mayor Stewart, ex-Mayor Harrison and John Webster are held."

Major Fraser, who has been slated to run against Hon. Wm. Paterson in Brant, announced he will not be a candidate.

As foreshadowed in The World, Hon. Wm. Pugsley has secured control of The St. John, N.B., Telegraph, a conservative paper, and its evening edition, the St. John's Evening News, for the two papers, according to The Halifax Herald, was \$150,000, and the purchasers are John E. Moore, who has freed and arranged with the Conservative party, and James McAvity, whose firm has federal government patronage to the extent of \$400,000.

Major Fraser, who has been slated to run against Hon. Wm. Paterson in Brant, announced he will not be a candidate.

## New Mantel Clocks

The mantel clock has grown so in popularity that no room with a mantel is complete without it. These are highly glazed jet black body—imitation of black marble—which sets off to best advantage the richly colored imitation onyx pillars and burnished metal ornaments, handles and feet. Deep, mellow cathedral gong strikes the hour. We've sold these clocks for a long time and have never had a complaint, American movement and most reliable timekeepers.

At \$5.50 Two styles, heavy architecture; 4 imitation onyx columns with extended base. Gilt trimmings, with plain or fancy gilt dial. Eight-Day Clocks with cathedral gong and half-hour bell strike. Flat roof, suitable for statue or ornament.

At \$6.00 Large massive clock with imitation onyx pillars with large column on each side of dial. Heavy bronze feet, handles and trimmings, plain dial with fancy edge, dome roof.

Another Style at \$6.00 Has same movement, but smaller clock, 2 large pillars each side of dial and large pillars on corners, extended base, gilt dial. Cathedral gong and half hour strike, a first-class time keeper.

## 30 Pieces HIGH GRADE Jewelry! Dollars Less

Perfect in every way. Brooches with Pendants, all have attachments by which they may be used as pendants. Settings 14k gold—an exception being a magnificent Diamond Brooch in platinum setting. All different. One is a large heart-shaped Topaz, surrounded by whole Pearls—others are Amethysts and Pearl, Aquamarine and Pearl, Cameos, etc. In addition are four diamond brooches with many dollars clipped off each, because they've been here too long. "Out for new arrivals" is the order. Prices will be from \$6.50 to \$75.00

## GIVE PULP WOOD RESERVE

To Company Which Would Undertake to Erect a Mill.  
PORT FRANCES, Aug. 24.—(Special.)—Petitions are being circulated throughout the Rainy River district asking the crown lands department to set a reserve of pulp wood to any capitalist who will undertake to erect a pulp and paper mill at Port Frances. Such a reserve is necessary to guarantee sufficient raw material to warrant the building of such mills. This would afford a market for all the pulp wood in the district which could be reached down the river by electric lines from Port Frances and from up the lake by the waters of the lake. A market for farm produce would also be created and the district would take on greater prosperity and growth.

## FATAL FACTIONAL POLITICS.

TRONTO, Ohio, Aug. 24.—Factional politics are claimed to be directly responsible for the killing to-day of Henry Frecka by Robert Frowine, his rival candidate for representative and Republican central committeeman. The two men met on the street and Frowine was seen to draw his gun and commence shooting.

## OVER THOUSAND DOLLARS IN FINES

LONDON, Ont., Aug. 24.—This morning the 20 hotelkeepers charged with selling liquor after hours during the Old Boys' reunion, appeared before Police Magistrate Love and pleaded guilty. Their fines aggregated \$1050, without costs.

**DROWNS IN SHALLOW WATER.**  
Express Messenger Takes Cramps While Bathing Alone.

**MONTREAL, Aug. 24.**—(Special.)—A story of a drowning accident reached here to-day from St. Agathe, by which a young Dominion Express messenger named J. A. Mills lost his life in two feet of water.

Young Mills went berry-picking at St. Agathe with the baggageman on Thursday. He lost the berry, and did not turn up when the train started. On Friday several hundred people started out to the country. Mills' clothes were found beside a stream, and a couple of hundred feet away his body was found doubled up in two feet of water. He had been overcome by cramps. His body was taken to his old home at Prescott.

**Boating Responsible Men.**  
Guarantee and fidelity bonds issued, covering the responsibilities of trustees, officials and clerks towards their employers. Cashiers, treasurers, collectors and clerks and officials filling responsible positions bonded to the extent of their monetary responsibilities. London Guarantee & Accident Company, Limited, corner Yonge and Richmond-streets. Phone Main 1642.

**JUSTICE MABEE IN TOWN.**  
Two private cars were attached to the C. P. R. express for Ottawa when the train left the Union Station at 11:30 last night.

One was J. C. Eaton's "Etonia" and the other that of the railway commissioners, the "Acadia." Justice Mabee, the chairman of the board, was aboard the latter. He had spent the day quietly in Toronto.

**All Principal Tourist Resorts** including Muskoka, Lake of Bays, Temagami, Georgian Lakes, Magnetawan River, Kawartha Lakes, etc., are reached by the Grand Trunk Railway System. Tourist tickets now on sale at very low rates. Good all season. For information and descriptive literature call at city office, northwest corner King and Yonge-streets.

**Chinese Smuggling at Brockville.**  
BROCKVILLE, Aug. 24.—(Special.)—Six Chinamen are in custody at Ogdensburg, N.Y., having been arrested after being smuggled across the river in a rowboat between here and that city.

A large number of strange "Chinks" have been making their headquarters in Brockville lately.

**MATRICULATION CERTIFICATES.**  
The certificates for junior matriculation and Normal entrance candidates at the Jarvis-street Collegiate Institute who failed to hand in their addresses before or at the time of examination—9 in all—may be obtained from the caretaker at the school, and the other certificates mailed yesterday to the candidates.

**Mr. Colecock's Position.**  
N. B. Colecock, appointed inspector of Immigration at London, England, does not expect to be in full charge of the Ontario Government office there. There are two or three other immigration agents in England now, and the staff is being enlarged in view of the more active policy to be adopted by the government.

The in-slanting walls of the Gurney-Oxford Hot Water Boiler get more heat out of the coal you burn. They let none go up the chimney until it does its work.

**The Gurney Foundry Company, Limited, Toronto.**

**HELD UP OWEN SOUND TRAIN.**  
Mishap to Freight Car on Mon Road Blocked C.P.R. Line Two Hours.

A broken wheel flange on a snow-plow coming down from Toronto, caused the ditching of four freight cars between Monro and Cardwell Junction at 5:30 yesterday afternoon.

The plow was being brought from Owen Sound and was totally wrecked, so one of the passengers reported. The train was held up for two hours. All passengers were safely taken to Owen Sound.

Engineer Penhale was at the throttle of this train, No. 1280, which was an extra way freight. The engine and cab did not leave the track so no one was injured.

All passengers were transferred at the scene of the accident, the passengers leaving Toronto at 5:15 p.m. coming back with the passengers for Toronto, while the passengers going to Owen Sound were taken off the Toronto train and the down bound train went back to the Sound.

The auxiliary train from West Toronto was called for 5:45 p.m., but through various vexatious delays it did not leave the Junction till 7:45. Conductor "Bob" Carson was in charge of this train.

**BANKBOOK LOST HIM JOB.**  
Showed Too Much Money for a Farm Hand to have.

Suspecting there was something wrong in the idea of a farm laborer having a bank account of \$700, a farmer who was about to employ a guest of the British Columbia, called on his suspicions to the officers of that institution, and they in turn told the police.

Detectives Mackie and Twigg went down to the Union Station, where they found a young Englishman was preparing to take a train, and examined his grip. They found a letter to the youth from his father, but the name was Samuel Heatfield, instead of Samuel Johnson—the name on the bank book.

It developed that the book belonged to Samuel Johnson, a farmer of Madoc, by whom Heatfield had been previously employed.

When Johnson was preparing to leave the city yesterday his new employer asked the young man if he had money to buy a ticket. He said he had and went to a bank to make a withdrawal. The teller refused funds, and this made the farmer suspicious.

In accounting for the numerous heavy deposits and withdrawals recorded in the book—amounts varying from \$100 to \$300—Heatfield said his father had been sending him money to buy property with, and that occasionally he had withdrawn large amounts to send over to his father, who owned several drygoods stores in Essex and happened to be tight pressed for the time being.

**McLAHLAN IN MIDDLESEX.**  
GLENCOE, Aug. 24.—(Special.)—Robert McLachlan, one of the wealthy farmers of Metcalfe Township, received the nomination at the hands of the West Middlesex Conservatives, to contest the riding against W. P. Calvert, the Liberal whip, at Glencoe.

There were lots of candidates available and many names were put in.

**At Labor Temple.**  
Hugh Robinson, Canadian general organizer of the Journeymen Tailors, addressed the local union at the Labor Temple last night. Mr. Robinson said that the organization was gaining in membership and strength throughout America. He is on his way to the maritime provinces and Newfoundland, and will attend the Trades Congress at Halifax, Sept. 21-23.

The union decided to support the strike of the tailors who left the employment of J. M. Marks, Yonge-street.

**CEMENT VAULTS.**  
An up-to-date burial receptacle that shows for itself. On exhibition submerged in water at 502 Queen St. W.

**THE CANADIAN VAULT CO.**  
Phone M. 2978.

**Accidental.**  
Death was purely accidental, according to the verdict of Coroner R. J. Wilson's jury enquiring into the death of William Batherwick, killed at King-street subway by a train.

Ask for Gibbons' Toothache Gum, Price 10c. Take no substitute. 246

**SULTAN'S BATTERY CAUSED HIS DEFEAT**

Poorly Handled and Some Guns Exploded—Sultan Gives Up the Struggle.

PARIS, Aug. 24.—News of the proclamation as sultan of Morocco is taken here to mark the complete triumph of the usurping sultan and the downfall of Abd-el-Asis, the sultan of record, who, according to the latest reports, has definitely given up the struggle and announced his intention of retiring to Damascus, where he will await the turn of the tide of fortune before he raises his standard again.

Gen. D'Amade, commander of the French forces in Morocco, telegraphs to the government here that Abd-el-Asis showed the greatest personal courage during the battle, but that his example was not followed by his tribesmen, who were badly organized and poorly armed. Gen. D'Amade is taking measures to avert a possible revolution in the Chouja region.

Reports indicate that the defeat of Abd-el-Asis was due largely to the betrayal of his own tribesmen. Mulid Hatid has been proclaimed sultan of Morocco at Tangier, and announcement of the proclamation has been telegraphed to all parts of the country. All the officers who previously have been under the rule of Abd-el-Asis in this city declare that they have accepted Hatid as their leader, thereby making him supreme in all the large cities in Morocco.

Details of the battle show that Abd-el-Asis had an army numerically the superior to the enemy, but that his artillery either failed to work or was deliberately tampered with. Some of the guns exploded, throwing the tribesmen into a panic. The vast majority of these seized the opportunity to flee during the engagement, and general pillage broke out, many of the tribes seeking to carry off as much booty as possible.

Abd-el-Asis and his escort retreated in an orderly manner to Serrat, his army scattered in all directions, being pursued by the victorious troops of Mulid Hatid. Abd-el-Asis was seen carrying a white flag, and the vizier, Abd-el-Krim ben Silman, and the minister of foreign affairs, Mohammed Sid-el-Mokhri, the French road and cardwell junction at 5:30 yesterday afternoon.

A Tangier newspaper states that the British officers and several French officers are missing.

**BARON VON STERNBERG DEAD.**  
German Ambassador to the United States Dies Suddenly.

HEIDELBERG, Germany, Aug. 24.—Baron Speck von Sternberg, the German ambassador to the United States, died quietly in the Hotel Victoria, this city, about midnight last night. The baroness, who was Miss Lilian May Langham of Louisville, Ky., was with her husband at the end.

The baron and the baroness came here from Hamburg the end of last month to consult with Prof. Vincenzo Cerney, and the minister of the Grand Duchy of Baden, concerning the death of the left side of Baron von Sternberg's head. Prof. Cerney announced that the trouble was not a cancer, but a prolonged inflammation of the brain.

The immediate cause of death was inflammation of the lungs. The first symptoms were noticed Saturday, and the baron was unable to get up for 30 hours. The baron was in a weakened condition and unable to withstand the attack.

Baroness von Sternberg has received the following telegram from Emperor William:  
"I am deeply shaken by the unexpected news of the passing away of your husband, and I desire to express to you my heartfelt sympathy. I lose a devoted and faithful friend and a distinguished diplomatist who has rendered important service to me and the fatherland, and whom it will be most difficult to replace. May God give you, in your great grief, His heavenly consolation."

**OBITUARY**

At Percy Boom—George B. Boyce, of Percy Township, aged 80 years. Rev. W. Boyce of the Bay of Quinte conference is a son.

Sister Mary Martha, in the world known as Mary Marron, one of the old nuns in St. Joseph's Convent, is dead, after a long illness. Sister Martha was a member of the well-known Marron family of Adolph. She was born in 1828, and entered the convent at the age of 22. Two sisters were in the same order, but they pre-deceased her same time ago.

Patrick Gaffney, a well-known locomotive engineer, is dead at his home on Grange-avenue.

**NOT COMING.**  
MONTREAL, Aug. 24.—(Special.)—J. Keir Hardie, M.P., in an interview here to-day, announced he would attend the convention of the Trades and Labor Congress of Canada at Halifax Sept. 22, and would visit Ottawa, but would not go farther west.

Discussing the old age pension law, he said it was a good measure but did not go far enough.

**BUDWEISER.**  
The most popular beer in the world. There is less profit to the dealer who sells it than to the brewer. The brewer, by its sales exceed those of all other bottled beers, which proves that its superiority is recognized everywhere.

**HOME AGAIN.**  
MONTREAL, Aug. 24.—(Special.)—Among the passengers arriving on the steamship Hesperian to-day from Glasgow were Rev. J. L. Robertson and Mrs. Robertson of Toronto and F. Pringle Gordon of Queen's University, Kingston.

**EQUIPMENT PLAYING OUT SO LATE TRAINS SHOW**

Number of Instances of Delay Are Recorded—Denial of Report of Defection From Strike Ranks.

The story handed out by C.P.R. officials yesterday, that the late trains were delayed because of equipment playing out, is being denied by the strikers. The strikers claim that a notice has been posted up in the freight sheds disclaiming all responsibility on the part of the company in the shipping of perishable freight. The notice reads: "that all shippers of perishable freight do so at their own risk."

The situation is unchanged here, said a member of the press committee to The World last night, "except that the strike more and more every hour. Nearly every time the 'sw good engines that are left in commission'—the company come in from a run, they are heated up and leaking so badly that the engineers say they cannot begin to make anything like the time they should with them. Our pickets are still doing excellent work, but even they do not need to do much coaxing to bring strikers out of the shops here, for the conditions under which the men live there are such that no self-respecting man would stand for them, and after they get a meal or so and sleeping a night; they will get out of their own free will. We don't have to trouble them. Those that remain in are the kind of men we don't make an effort to get out. They are either professional strikebreakers who will not work for us, or common laborers who are doing work for us where they are. Men are coming out much faster than the management is putting them in, and the percentage of good men working now is very small.

"Reports kept pouring in as to engine failures and breakdowns, and almost all of the passenger trains are running late, while as for freight trains they are being run whenever an engine is available. Freight cars are being sent in for repairs as fast as usual, and they are going out again we think without them."

On Sunday afternoon a special from Hamilton, due in Toronto at 6 o'clock, did not get in till 9:45. The engine No. 57, broke an eccentric on the road and engine 114 on No. 40 from Buffalo being sent in for repairs as fast as possible. No. 40 was half an hour late, and because of it, No. 6 was 10 minutes, and No. 30 20 minutes late. No. 4 from the west was 30 minutes late on account of hot boxes on the coaches, signifying no or poor inspection. Engine No. 861 on the Winnipeg train was troubled by hot boxes and brought her train in two hours and 20 minutes late. The Bala train was half an hour late.

In addition to these, engines No.

**STOCK EXCHANGE INQUIRY**  
Saturday's Flurry to Be Probed—Caused One Failure.

NEW YORK, N.Y., Aug. 24.—(Special.)—Announcement of the failure of Meadows, Williams & Co., a Buffalo brokerage firm, locally represented by Post & Flagg, was made on the New York Stock Exchange to-day. The concern dealt entirely in a light commission business, and its failure did not have a far-reaching effect. A statement of the liabilities has not been made.

Besides headquarters in Buffalo, the firm also had business at Hamilton and Toronto.

Wall-street authorities said to-day that the phenomenal dealings of Saturday, following a strictly forbidden rush of "matched orders," carried the firm to the wall.

The stock exchange this afternoon ordered a sweeping investigation of the "matched orders" which are said to have been responsible for Saturday's wild trading.

By Chas. M. Henderson & Co., 87-88 King-Street East.

Grand chance to snap up a few beautiful and substantially-built houses something excellent for investment or speculation. Very easy terms. We shall sell by auction six solid brick, semi-detached residences, Nos. 12, 14, 16, 18, 20, 22 Lakeside-avenue (near Ossington-avenue), eight rooms with all latest improvements, situated in one of the best and nicest locations in the western part of the city. Lot 20 x 135 to lane. Will be sold separately. The owners are determined to sell owing to other business engagements. On Saturday, Aug. 29, at 10:30 a.m. 87-89 East King-street. Sale at 12 o'clock sharp. Do not miss this unusual opportunity. Further particulars may be obtained from the auctioneers, 87-89 East King-street, Chas. M. Henderson & Co., auctioneers.

Mrs. Sophia Ludeke, a wealthy Cincinnati lady, member of a party of about one hundred and fifty Americans who were touring Muskoka, fell dead Sunday at Hamill's Point, north of Port Carling.

MANIPULATION SUBSIDES AND SALES ARE SMALLER

New York Stocks Show Little Resiliency—Pools Dominate the Toronto Exchange.

Monday Evening, Aug. 24. Such interest as was present in the Toronto Stock Market to-day converged in the three stocks which have been in the forefront for several weeks. Brokers were practically without orders, and the operations in the South American issues were made between floor traders and insiders. Most of the trading was believed to represent nothing more than matched orders. Trading brokers who are attempting to follow the manipulations of the syndicates are too timorous to take more than fractional profits and this accounted for numerous in and out trades to-day. Eliminating the three foreign stocks there was practically no business. The electric pool attempted to make a feature of Toronto Railway two weeks ago, but the price dropped over three points from the high. The earnings of this road for last week were \$225 behind those of last year. There was no investment buying to-day, and brokers of repute consider that those manipulating the foreign stocks are making the market a by-word with reputable traders.

Wall Street Pointers. September dividend and interest disbursements exceed \$65,000,000. Board of governors of Stock Exchange may investigate Saturday's transactions.

Three banks report less than 25 per cent. reserve in Saturday's statement, comparing with 22 banks reporting less than legal at year end.

Decline in cotton prices stimulates exports and may enable New York to import gold if it is needed.

Attorney-General Jackson of New York State sues Coal Trust to break the monopoly, charging that roads are a combination to restrain competition.

Engineers in electric zone of New Haven and New York Central may strike if wages are reduced.

Regular dividends on 300, 3 per cent. on common, and 3-1/2 per cent. on preferred, semi-annual.

LONDON.—The Nevada Cons. Copper Co. has applied to the London Stock Exchange for the listing of its securities. This is to be followed by an application for the listing of Cumberland-Ely.

Stock Exchange firm of Meadows, Williams & Co. of Buffalo has suspended. They are members of New York Stock Exchange.

NEW YORK.—Leading copper interests in this district credit the report that a \$50,000,000 copper pool has been formed abroad. While the quantity of copper now controlled by European interests is considerably larger than last year at this time it is not above the ten year average. The copper situation has shown considerable improvement, domestic manufacturers buying with greater freedom.

General outlook: Unsettlement in the stock market to-day will be the probable sequel to the deplorable manipulative orgy of Saturday. Daily operators should buy only on weakness and sell only on rallies for turns.

Detailed gossip: Union Pacific meets stock toward 120. Reading 125, Northern Pacific and St. Paul 140, Great Northern 135, Smelting 95, Amalgamated 75. Lead support is 83, with offerings toward 87. Southern Pacific should be bought on reactions.—Financial Bureau.

Joseph says: Union Pacific is by all odds one of the best values on the entire list. It is worth 175. While traders should not jump in on spurts, nevertheless, the price above the advised, since this stock will resume market leadership. Mr. J. P. Morgan will leave Liverpool, homebound, on Wednesday next. The short interest in R. I. issues must stop up to the captain's office to settle. R. I. preferred will sell presently considerably above 40. Specialties—Buy Atchison for a turn. Hold Amalgamated Copper: average Steels.

The appearance of organized support among some stocks should not be taken as an omen for the resumption of interests are about to resume aggressive operations. In fact, distribution appears still to be going on, on the rallies as well as on the reactions. The retirement of a large portion.

On Wall Street. Charles Head & Co. of R. R. Bondard: The market has been a waiting one to-day, opening at a decline and selling off on realizing orders; it later became dull after absorbing the sales of nervous holders, and then hardened and rallied. It is the growing impression that Mr. Lawson was primarily and entirely responsible for Saturday's foolishness. It is reported to-night that a certain large bear house with extensive commitments had been unable to borrow all the stocks that it needed and that trouble might follow. Several thousands of shares were bought in for their account to-day. The closing was steady to firm.

Marshall, Spader & Co. wired to J. G. Beatty, 14 West King-street, the following: Following Saturday's sensational close, the market displayed consistent irregularity at the opening to-day, but with a generally weaker tone prevailing, about the only feature

tion of the short interest has placed the market in a more vulnerable position than it has been in for a long while. The remarkable character of the manipulations has alienated outside support, and, indeed, many professionals are merely standing aside to wait until something happens to give them a definite clue as to the probable course. The Rock Island matter is still to be adjusted. New York Central dividend must be cut, many roads are not earning their dividends and some not even their fixed charges. business does not improve as predicted it would and the shadow of Bryanism is looming larger over the street. We advise those long of stocks to get out on the bulges and the short side of the leading active stocks at such times as will close profitable before the end of the week.—Town Topics.

Will Investigate Stock Deals. NEW YORK, Aug. 24.—Thorough investigation of transactions on the stock exchange last Saturday, in which it is alleged that "matched" purchases and sales were made, will be undertaken by a committee of five, to be appointed by the president of the exchange.

The board of governors met this afternoon to consider the allegations that "fake" sales and purchases had been made on Saturday, presumably with ulterior purpose, the object of which was to absorb the sales of the alleged improper transactions has not been developed. The governors decided that a complete enquiry shall be made and instructed President Thomas of the exchange to appoint a committee of five to undertake the work.

Marshall, Spader & Co. wired to J. G. Beatty, 14 West King-street, the following: Following Saturday's sensational close, the market displayed consistent irregularity at the opening to-day, but with a generally weaker tone prevailing, about the only feature

On Wall Street. Charles Head & Co. of R. R. Bondard: The market has been a waiting one to-day, opening at a decline and selling off on realizing orders; it later became dull after absorbing the sales of nervous holders, and then hardened and rallied. It is the growing impression that Mr. Lawson was primarily and entirely responsible for Saturday's foolishness. It is reported to-night that a certain large bear house with extensive commitments had been unable to borrow all the stocks that it needed and that trouble might follow. Several thousands of shares were bought in for their account to-day. The closing was steady to firm.

The Dominion Bank Pays Special Attention to Savings Accounts

of strength in the entire list being Union Pacific and Southern Pacific. The volume of business during a heavy falling off, however, and there seemed to be a general lack of interest. The bond market still shows a lack of interest on the part of the investing public, decided preference being shown for the more highly speculative securities of the stock list.

Ernie & Stoppant wired to J. L. Mitchell: The feature of stock market to-day was the extreme dullness, in sharp contrast to the wild trading on Saturday. Crops are still good, business improves slowly, bank clearances are on the mmd and optimism as to future is noted.

J. R. Heintz & Co. wired R. B. Holden: It looks to us if the Harriman stocks, together with Reading, would do considerably better in the market during the next few days and should help the whole market and on breaks we would buy the better stocks.

Will Put Out Bonds. The Northern Navigation Company is shortly to place an issue of \$500,000 in bonds on the market and a meeting of the shareholders has been called to authorize the proceeding. It is said, will bear interest at 5 per cent., and the proceeds—offered about \$8—will be used to pay for new boats now under construction.

Railroad Earnings. Increase. Rio July net \$55,301. Sao Paulo, July, net \$12,148.

THE HESSEAN FLY PEST

Farmers Can Evade Its Ravages by Rotation and Later Sowing—Agricultural Department Gives Advice.

The department of entomology of the Ontario Agricultural College, Guelph, has recently been informed of a somewhat serious outbreak of Hessian fly in several parts of the southwest of Ontario, particularly in the Counties of Norfolk, Brant and Bruce.

The Hessian fly is a tiny two-winged insect about one-tenth of an inch long and looking like a very small mosquito. It lays its eggs on the leaves of fall or spring wheat, or less frequently of barley and rye.

The following suggestions for lessening the attacks of the fly are in accordance with the recommendations of Dr. F. M. Webster of Washington, and will be found of much service if tried: (1) Choose only good plump seed for sowing, and avoid old or sprouted seed.

Do not sow wheat in the same fields as were infested this year, but rotate your crops. Prepare the soil with extra care in order to produce as rapid growth and vigorous plants as possible.

Do not sow your wheat this fall before Sept. 15. If the ground has been prepared, it will leave plenty of time for a good growth before winter, and the damp weather of August practically insures that the flies will nearly all have emerged and laid their eggs before Sept. 15.

Plough down the volunteer wheat, barley or rye growing in the stubble falls beneath the heads of sprouted and winter wheat. Because the maggots are left long enough to enter the flax seed stage many of them may emerge next year in spite of the plowing.

Plough down the volunteer wheat, barley or rye growing in the stubble falls beneath the heads of sprouted and winter wheat. Because the maggots are left long enough to enter the flax seed stage many of them may emerge next year in spite of the plowing.

CHEESE PRICES TOO HIGH

British Dealers Think Secret Forces Control.

OTTAWA, Aug. 24.—F. B. McNamara, Canadian Trade Commissioner in Manchester, observed in a report to the trade and commerce department that Canadian cheese is being neglected this season in the North of England, owing to the high prices asked, which have made it cheaper to buy the same product.

The wholesale and retail trade, he says, have an impression that Canadian cheese is being neglected this season in the North of England, owing to the high prices asked, which have made it cheaper to buy the same product.
