BRITAIN AND THE "BIG SHIP" POLICY

London Reports Interest the United States

Comment in New York Newspapers—Japan Awaits Action by Britain and U. S. Before Considering Naval Holiday, Says Former Premier.

New York, Jan. 18.—(Canadian Press)—Reports from London to the effect that the council of imperial defence views with disfavor a continuation of the "big ship" policy, have aroused considerable attention in the press of the United States. The New York Tribune attributes the change in the British attitude to consideration of the expense involved. The Evening Sun recalls the fact that it was splendid vessels such as the Queen Elizabeth, the Majestic and the Barham that decided the mastery of the seas and forced the German fleet to take cover, and kept open the channels of world commerce.

It adds: "If Britain discards the big ship policy it will be despite, not because, of the experience of the war." "A more reasonable explanation of her attitude," the Sun continues, "is found in the enormous cost of the modern super-dreadnaught. British finances are just beginning to recover from the effects of the war. Taxes are high, the pound sterling is depressed. The nation faces an enormous debt. The prospect of laying out 9,000,000 pounds for each new capital ship is staggering, to say the least. But, though the British purse just at present may be short, British insight into naval matters remains clear.

"It may be taken for granted that the hesitancy to construct new capital ships will last no longer than the shortage in the royal treasury continues."

In Japan. Tokyo, Jan. 18.—Proposals emanating from the United States that Japan, Great Britain and the United States "take a naval holiday" is a "closet proof" that, despite the fabulous riches of the United States she wishes to curtail national expenditures, and therefore the proposals are intended more to help the United States than to contribute to the peace of the world, said Marquis Shigenobu Okuma, former Japanese premier, in an interview here today. He asserted that the United States should first consult Great Britain relative to the suggested suspension of the naval programme.

"Only when an American-British agreement has been reached," he said, "can Japan be in a position to consider this proposition." Japan's naval programme is fixed at the minimum necessary for national defence.

**ALICE JOYCE AT UNIQUE THEATRE**

"The Prey" which was shown at Unique theatre yesterday brings to the screen an unusual production. It furnishes Alice Joyce with a role which she runs the gamut of human emotions and displays a dramatic ability seldom equalled on screen or spoken stage. Artistic settings, capable and most interesting story complete one of the greatest human documents presented upon the screen.

The story is true to life. It presents facts as they exist and delineates character in all of its phases. If realism was the ambition that moved the director then that ambition was realized.

Alice Joyce rises to new heights. She is indeed queen of them all when it comes to dramatic and emotional interpretation. Every movement, a twitch of a fan eye lash, or in repose she tells a story. Hers is art at its pinnacle. In fact the good points of the production are so many as to make it doubtful that it would be folly to mention them.

**N. S. HIGHWAYS INQUIRY IS TAKEN UP AGAIN**

Halifax, N. S., Jan. 18.—(Canadian Press)—The construction of the Port Joli-Stable road, embracing six and one-half miles, the actual cost of which exceeded by three times the estimated cost of \$91,000, was taken up today by the Royal Commission appointed by the N. S. government to inquire into the administration of the provincial highways act providing for the expenditure of approximately \$1,000,000 on the roads of the province.

L. A. Lovitt, counsel for the Bedford Construction Co., announced that the contractor is instituting suit against the crown for recovery of the difference between the total progress payments and the actual cost of the work which had been withheld, and which amounted in all to approximately \$400,000.

A request was made for the appointment of a commission to examine witnesses in New Brunswick and the United States regarding purchases of machinery, but at the request of Hon. A. K. McLean, counsel for the provincial government, a decision in this matter was withheld pending the hearing of all the witnesses available in Nova Scotia.

P. J. Caviechi, president of the Bedford Construction Co. will be called to the stand this afternoon.

**QUITS SEA AFTER 40 YEARS**

Capt. Ranson to Retire When the Adriatic Reaches England

Captain Joseph B. Ranson of the White Star steamship Adriatic, which arrived in New York on last Saturday, will retire when he has navigated the liner back to Southampton. He has been at sea for forty-five years. He joined the White Star Company thirty years ago as fourth officer of the old Adriatic, and rose to command in eight years. His sailing ship career was marked round the Cape of Good Hope and the Horn from Liverpool to Australia, saving a complete tour of the world each voyage.

Captain Ranson is a retired lieutenant commander in the Royal Naval Reserve and was decorated by King George with the Order of the British Empire for his services in carrying troops across the Atlantic on the Adriatic and the Adriatic during the war.

He said that his only regret in leaving the service was saying goodbye to the many friends he has made in America. R. A. C. Smith, former cod commissioner, gave a dinner on Monday night in honor of Captain Ranson. The steward's department, which numbers nearly 400 men, will present to the retiring commander a cutty cabin and an ashtray. Gold watch will be given by Mrs. Ranson.

The captain has purchased a small farm near Southampton, England, where he intends to raise chickens and devote two days a week to golf. One of his sons has settled in South Carolina and is engaged in the cotton industry.

**IN WALL STREET**

New York, Jan. 18.—(10:30)—The stock market drifted aimlessly at the opening of today's session, although losses exceeded gains. In no important instance, however, were changes more than fractional. The market, which recovered part of yesterday's reaction and the trend of other exchanges pointed to a continuance of yesterday's advance, demand sterling mounting to 3.78 1/4, a new high record for the year.

**Noon Report**

Absence of more than casual support enabled the shorts to effect further declines during the listless forenoon. Oils, shippings, steels and equipment were their special objectives. French Republic Steel and Baldwin, at recessions of one to three points. The one conspicuous exception was California, which rose more than two points on steady, though moderate, buying. Ralls failed to hold, though reactions in that quarter were slight and irregularly increased. Call money opened unchanged at six per cent, but exchange on London reacted almost two cents from the early high rate.

**ALBERTA'S EXPORTS**

Calgary, Jan. 18.—Alberta's exports to the United States during the year 1920 were approximately \$3,000,000 less than in 1919, due wholly to the decrease in the export of cattle, according to the annual declared export return compiled by S. C. Rest, United States consul in Calgary. The decrease in the value of cattle shipped across the line by Albertans during 1920, as compared with the year 1919, was \$6,979,861.

However, large increases are noted in the export of wheat, oats, rye and barley, as well as meat and meat products.

**REAL ESTATE LAW ASKED**

Calgary, Jan. 18.—Feeling that there should be some protection to the general public in the matter of real estate deals, and that the real estate agents themselves should have some protection from the man who jumps into business and is not particular who or what he does, so long as he makes a little money, the real estate bureau is asking the provincial government to enact a law at its next session to regulate the business.

**A Laxative The Old Can Rely On**

Let them take Dr. Caldwell's Laxative Syrup Pepsin for Constipation. Mild and gentle. Never loses its good effect.

ELDERLY people know how much more difficult it is each year as they get older to avoid the ill effects of chronic constipation. The stomach and bowel muscles, which as age advances, and as you are naturally less active, in time they work only by stimulation. You try dieting and exercise, and then take medicine.

All medicines, however, are not suited to elderly people any more than to children. You will be glad to know of a particular medicine that acts as near to nature as has yet been found. His prescription written thirty odd years ago by Dr. W. B. Caldwell, who is himself now in the 82nd year of his age and still active in his profession, is Dr. Caldwell's Laxative Syrup Pepsin, and you can buy it under that name at any drug store. A sixty-cent bottle, left last night, averages family many months, and all can use it.

Dr. Caldwell's Laxative Syrup Pepsin is a combination of simple laxative herbs with pepsin. It acts mildly, gently and without griping. It so trains the stomach and bowel muscles that in time medicine of all kinds can be dispensed with. When people learn of Dr. Caldwell's Laxative Syrup Pepsin and see how wonderfully it acts they realize how unnecessary it is to use drastic salt waters, pills and powders, for these do but temporary good, and are weakening to most constitutions. Dr. Caldwell's Laxative Syrup Pepsin, on the contrary, is so natural and safe, (it contains no narcotic or strong drugs), that two generations of mothers have given it to their babies.

Take a teaspoonful the next time you feel any distress of the stomach, liver or bowels, if you are constipated, have a headache, cold or fever, if you are bilious, dyspeptic, tired. If Dr. Caldwell's Laxative Syrup Pepsin should ever fail to do as claimed you can have your money refunded. More people use it than any other laxative in the world.

DR. W. B. CALDWELL  
As he is today in his 82nd year

**TRY IT FREE**

There are heads of families who will want to prove their own satisfaction with our Laxative Syrup Pepsin. It is as effective in constipation, as mild and gentle in action, as pleasant-tasting and safe, as a claim. Let such write me for a free sample. It will be sent postpaid. Address Dr. W. B. Caldwell, 19 Front Street, Bridgeport, Conn.

**MINARD'S LINIMENT FOR DISTEMPERS**

(Halifax Chronicle)

The memory of the late Rev. (Dr.) John Forrest is to be perpetuated in a substantial way in Fort Massey church, Halifax, by a fine memorial tablet which is to be placed there this week. The tablet is a masterpiece of its kind and worthy of the man to whom it does honor. Standing one foot high by two feet six inches wide, and cleverly designed it is indeed an impressive memorial. The front piece, which is of beautifully textured white marble, is mounted on a fine slab of dark blue granite, with which it makes an effective contrast. The architecture is purely Gothic in harmonize with the interior of the Fort Massey church, and, in addition to being a splendid memorial Dr. Forrest will be a distinct ornament to the church. The inscription on the recessed face reads as follows:

"To the Glory of God and in Loving Memory of Rev. John Forrest, D. D., I.L.D., Born 25th November, 1843. Died 23rd June, 1920.

"Distinguished as an educationist, churchman and citizen. For thirty-six years a member and elder of his congregation, in all things a faithful witness of Jesus Christ, and an example to the flock.

"Erected by the Kirk Session."

The unveiling of the tablet will take place on Sunday morning next, with special service and addresses.

SIR GEORGE IS OPTIMISTIC

He makes it clear that the spirit which animated the delegates from forty-two nations was of the most amicable nature, and that they were able to accomplish a great deal.

LIVES THAT COUNT

Toronto, like St. John, mourned last week the passing of a citizen whose good works had won for him a very high place in the estimation of his fellow citizens. The press and people of St. John have paid tribute to the character and work of the late Mr. James F. Robertson, and we read in the Toronto Globe the following tribute to Sir William Gage:

"The late Sir William Gage was not only a great philanthropist, but a pioneer in one aspect of love for his fellow-man. Early in life he was impressed by the ravages of consumption and determined to assist in arresting the progress of the disease. More than a quarter of a century ago he sought the cooperation of others in forming an association for the care of consumptives, and by his persistent and persuasive seal he placed the National Sanitarium Association upon a sound and lasting basis."

A SCHOOL QUESTION

Manitoba is threatened with another school question, and one correspondent says it is feared the divided character of the new legislature may imperil the existing public school system. Not only has Archbishop Belliveau in a public utterance pleaded for separate schools, but the Ruthenians are demanding multi-lingual schools. The correspondent writes:

"Donald Ross, M. P. P. for Springfield, is authority for the statement that at least eighteen of the provincial constituencies are either directly or indirectly controlled by the Ruthenians, all openly favorable to a multi-lingual school that would make Manitoba a polyglot province. The Canadian Ukrainian, a racial religious publication, last week bitterly attacked the department of education because the department objected to the Ruthenian trustees of Zorn district, who in the department's judgment were not employing properly qualified teachers."

Chicago, Jan. 18.—Five youthful bandits held up a U. S. mail truck at the Union station here early today and escaped in an automobile with twelve sacks of mail, ten of which contained registered mail. Police say that the best information obtainable this morning indicates the pouches contained part of a federal reserve bank money shipment which was to have been placed on a train leaving for St. Paul, Minn., at two-thirty a.m.

Despite the hopes recently expressed, the British embargo on Canadian cattle is not likely to be removed, but Lord Lee gives Canadian cattle a clean bill of health.

The objection is made, however, that other countries are concerned as well as Canada, and legislation could not be limited to apply only to Canadian cattle. Canadian cattle interests, threatened with hostile legislation at Washington, will not be cheered by this news from London.

CAPTAIN KIDD'S GOLD. For many years settlers living along the Bay of Fundy have been convinced that much of the ill gotten treasure amassed by the pirate, Captain Kidd, is buried somewhere on the coast. Grandmother an Old Offender

The woman of 82 was a grandmother, who appears with her daughter and her adult grandson. She was small, white haired, refined in appearance and apparently much perplexed by what was happening. A store detective explained to the Justice that he had not wanted to arrest the grandmother, but could not find any other means of curbing her fall of shoplifting. She stole at regular intervals, he said, always stole the same thing, and was invariably caught.

**Bishop Richardson's Tribute to J. F. Robertson**

An eloquent tribute was paid to the late James F. Robertson by the Bishop of Fredericton at the funeral service yesterday afternoon.

The bishop said it was not in accord with the characteristic reticence of the church to say much of the lives of the dead nor was it in accord with the character of Mr. Robertson that much should be said on such an occasion. Yet the lives of some men were so commanding that they broke through personal privacy and touched every interest of public life. Such was the life of Mr. James F. Robertson and, speaking as the bishop of the church to which he belonged, he wished to say a few simple words of thankfulness for the life which Mr. Robertson had lived, the work which he did and the benefits which he had conferred on the church.

His had been the kind of Christian character that is shown in a simplicity founded on deep conviction. His was a transparent sincerity. He had talked little of religion but his life was religion and his religion was life.

The bishop said he thanked God for the power of that Christian character. There was not any man throughout the province who did not know that Mr. Robertson's work as a man of business had given practical form to the principles on which the Christian life was based. He had made it clear that it was possible to engage in business and to follow the teaching of Christ. For that demonstration, His Lordship said he stood there to thank God.

**His Princely Benefactions.**

He remembered Mr. Robertson's princely benefactions. He had poured out his wealth for the up-building of the church. He had founded, nursed and administered the fund for the widows and orphans. He had done much to foster education, especially in the establishment of Rothery school.

As a friend also, Bishop Richardson

spoke in highest eulogy of Mr. Robertson. He believed that there were thousands of citizens who on that day were remembering the times when that kind friend had ministered to them in their need and throughout the dominion there were to be found men who had made themselves known and were doing fruitful work who would point back and say that they owed their careers to the education which they received and which Mr. Robertson had made possible.

The many causes for which Mr. Robertson's memory was revered, his lordship said, had already been spoken of in that church on Sunday morning. While he, himself, had known Mr. Robertson well and was able to look back on many years of friendship, yet there were many cases of his private generosity, many occasions when he had met the need of his friends which were only now being made known and the realization of his benefactions never would be complete.

It was because of all these things that his lordship had broken away from the customs of the Anglican church to speak of the record of a life well spent and he asked the congregation to rejoice with him in spite of the great loss which the city had suffered by the death of so

honored a citizen. That life had shown so deep a conviction of the reality of the other world and that the things of the other world were those which counted that it had claimed all opportunities as avenues through which to make manifest the permanency of the highest things.

**His Memory a Heritage.**

In closing, Bishop Richardson said that although the city had lost a leader that it must mourn deeply, in Mr. Robertson's memory it had gained a heritage that would endure and an example that would live and flourish. His name would not pass from memory and thanks would be rendered unto God for his life and for all that it had meant.

After spending a few days in the city they will take up their residence at Belleisle.

**RECENT DEATHS**

Her many friends in the city will learn with deep regret of the death of Mrs. Edward Walsh, which occurred last evening at her late residence, 173 Carmarthen street. She leaves to mourn her husband and many friends. The funeral will take place on Wednesday morning at 8.45 to St. John the Baptist church for solemn requiem high mass.

License Inspectors Accused of Protecting Violators of O. T. A.

Brookville, Ont., Jan. 18.—The investigation ordered by the attorney-general into the charges of protection preferred by James M. Young, a local cab driver, convicted under the Ontario Temperance Act against License Inspector F. B. Taber, and C. R. Deacon, his counsel, was opened last week in the court house before Judge Dowdsley.

As the plaintiff, Young, was unwilling to proceed without being represented by counsel, no provision for which is included in the commission governing the investigation, an adjournment was made until Tuesday. In the meantime, the commissioner, Judge Dowdsley, will learn whether or not the attorney-general will arrange to have the plaintiff furnished with counsel.

Through counsel, Inspector Taber expressed a strong desire for a complete investigation. Young replied that he would swear to the charges if provided with counsel.

In granting the adjournment, Judge Dowdsley said he reserved the right to make any part of the proceedings private. Young gives the names of several witnesses whom he would like called.

ARE MORE THAN LAW ALLOWS

Legislation Will Have to Be Sought by School Board to Increase Assessment—Total is \$341,345.

As the amount of the estimates for 1921, as passed by a special meeting of the board of school trustees last evening, exceeded by \$16,345 the amount allowed by law, it was decided that the board should seek legislation at Fredericton authorizing it to increase the amount for which it may assess. The total amount of the estimates passed for school purposes was \$341,345, whereas the limit according to the present law is \$325,000. The board also recommended the estimate of \$25,000 for vocational schools.

- 1. That the salaries of the janitors be increased ten per cent—estimated increase, \$2,100.
2. That the salaries of A. L. Dykeman, Rex R. Cormier, W. L. McDiarmid, and W. J. Shea be increased an additional \$83 each, to make their salaries equal to that paid to M. D. Brown, principal of the Dufferin school—estimated increase, \$240.

12. That \$250 be set aside for travelling expenses for the superintendent for trips during the coming year.
All sections, except that referring to the renewal of contract with Dr. Bridges, were carried and the report adopted. Mrs. Punter and Mrs. McAfee each gave a hearty vote.

On motion of Mr. Coll, the board decided unanimously to renew the contract with Dr. Bridges as superintendent for another five years. It was decided to include an amount of \$40,000 in the estimates for repairs to schools. On motion, it was decided the estimates passed by the board should be the estimate for 1921. The total was \$341,345, an excess of \$16,345 over the amount authorized by law. It was decided to include \$25,000 authorized by law to be paid against the overdraft.

Mr. Nagle brought up the matter of a grant of \$25,000 for vocational classes and asked the board to approve the amount so that application could be made to the council under the act. Last year the vocational board received \$17,000. He moved that the school board approve the amount of \$25,000 as an extra special estimate for vocational training. Mrs. E. A. Young moved that the board be asked to grant permission for a tag day for the Children's Aid Society. The council was asked to send a representative to the dedication of the new Knights of Pythias temple and Mrs. Smith was chosen. Miss Carmichael told of the meeting of the International Council of Women in Norway. She said that at present there were 20,000,000 organized women from twenty-nine nationalities. She also narrated happenings at the convention in Norway and gave sketches of the most striking personalities among the delegates. She was tendered a hearty vote of thanks.

Would your husband marry you again?

Fortunate is the woman who can answer "yes." But many a woman, if she is honest with herself, is forced to be in doubt—after that she pays stricter attention to her personal attractions.

A radiant skin, glowing and healthy, is more than a "sign" of youth. It is youth. And any woman can enjoy it.

Beauty's basis is pure, mild, soothing soap. Never go to sleep without using it. Women should never overlook this all-important fact. The basis of beauty is a thoroughly clean skin. And the only way to it is soap.

There is no harm in cosmetics, or in powder, rouge, if you frequently remove them. Never leave them on overnight.

The skin consists of countless glands and pores. They clog with oil, with dirt, with perspiration—with refuse from within and without.

The first requirement is to cleanse those pores. And soap alone can do that.

A costly mistake. Harsh, irritating soaps have led many women to omit soap. That is a costly mistake.

A healthy, rosy, clear, smooth skin must be a clean skin, first of all. There is no need for irritating soap. Palmolive soothes and softens while it cleans. It is based on palm and olive oils.

Force the lather into the pores by a gentle massage. Every touch is balmy. Then all the foreign matter comes out in the rinsing. If your skin is very dry, use cold cream before and after washing.

No medicaments. Palmolive is just a soothing, cleansing soap. Its blandness comes through blending palm and olive oils. Nothing since the world began has proved so suitable for delicate complexions.

All its beneficial effects come through gentle, thorough cleansing. There are no medicaments. No drugs can do what Nature does when you aid her with this scientific Palmolive cleansing.

Millions of women get their envied complexions through the use of Palmolive soap. The Palmolive Company, Milwaukee, U. S. A. The Palmolive Company of Canada, Limited, Toronto, Ont.

LABOR REPORT FOR DECEMBER. Fewer Strikes But More Unemployment Among Trade Unions. Ottawa, Jan. 18.—(Canadian Press).—The time loss due to industrial disputes was less during December, 1920 than during November, or during December, 1919, according to figures published in the Labor Gazette. There were in existence the last month, ten strikes involving about 1,554 people and resulting in a time loss of 23,540 days, and in December, 1919, 22 strikes, 8,296 work people and 51,833 days. At the end of December 1920 there were on record, four strikes involving about 579 work people. At the beginning of December, unemployment among trade unions was ten per cent of the total membership as compared with 8.99 per cent at the beginning of November and 8.58 per cent at the beginning of December, 1919. According to returns received from about 5,000 firms, there was a continued steady decrease in the general average of unemployment throughout the month.

WEST AFRICA ALSO WANTS HOME RULE. Mission in England Seeking Legislative Reforms—Several Changes Suggested. London, Jan. 1.—(A. P. By Mail).—West Africa is the latest country to seek home rule. A mission, representative of educated opinion in British West Africa, has arrived here to urge upon the Colonial Office a number of reforms in the internal administration of the four West African colonies and protectorates, Sierra Leone, the Gold Coast, Nigeria and the Gambia, says the London Times. The mission has been sent to this country by the National Congress of British Congress of British West Africa, and seeks in the first place the creation of a legislative council which will be composed one-half of members chosen by the crown and one-half of members elected by the people, and for a house of assembly which would have complete control of the revenue and expenditure. As to local government, the mission urges that municipal corporations should be established in each of the principal towns of the colonies. The judicial system of British West Africa, in particular Nigeria, is criticized by the mission which states that at present "it is the practice to appoint to judicial offices Europeans who have not received any legal training and who are not competent to exercise judicial functions."

BRAZIL WANTS BIGGER NAVY. Membership in League of Nations Given as One of Reasons. Rio De Janeiro, Dec. 25.—(A. P. By Mail).—The Committee on Naval and Military Affairs of the Brazilian Chamber of Deputies wants a bigger navy. It has called upon the President to present to the next session of congress a program of naval construction drawn up by the general staff of the Admiralty and to be carried out for a term of years. The reason given for this proposed increase is that it is necessary because of Brazil's new position in the world as a signatory of the Versailles Treaty and as an effective member of the League of Nations. Another reason ascribed is the necessity of defending a long coast line.

ONE-LEGGED WRESTLER WINS PLACE ON CORNELL MAT TEAM. Ithaca, N. Y., Jan. 18.—Although handicapped by the loss of one leg, A. W. Sneedecker, a senior at Cornell University, has succeeded in making the varsity wrestling team and will take part in most of the Cornell bouts this year, unless objection is made by opponents of the Red and White. Sneedecker, who comes from Staten Island, has been showing up well in the team try-outs, and Coach Walter O'Connell plans to use him in the 145-pound class in the Intercollegiate League and non-league matches. As a result and to forewarn their opponents, the Cornell Athletic Association has sent a letter to all teams which Cornell will meet this season, notifying them of the facts in Sneedecker's case and asking them either for objections or permission to use the one-legged wrestler.

CROWN PRINCE OF JAPAN PLANS VISIT TO ENGLAND. Tokyo, Jan. 18.—The Japanese crown prince is planning an official visit to England next March, according to statements printed in newspapers here.

CONCERT AND ATHLETIC MEET Under Auspices of Kennel Club. A large number of sport followers last evening at a concert and athletic entertainment held under the auspices of the New Brunswick Kennel Club. It consisted of musical selections, songs and dances by Clarence Cain, C. Noddin, T. Merritt, C. Jamieson and Mrs. Hamilton, a wrestling match between Walter O'Toole and an unknown, and a four round sparring match between Paris and Lockhart.

THE MAN WITH 100 HOLDS. Kid Rudolph also issued a challenge to box McHarg of West St. John, saying he was willing to concede him weight. The alleged boxing bout was then held. It was supposed to be an exhibition, but was so one-sided that it developed into a joke. Paris, evidently could give a good account of himself, but his opponent apparently did not understand the rudiments of boxing.

**GRAIN HERE.**  
 The C. P. R. is present approximately 2,500,000 bushels of grain at this port. There are 1,500,000 in their elevator at Sand Point, and 500 cars full in the yard, while there are 250 more coming here today or tomorrow. Of this amount steamers in port will take away 485,000 bushels. Yesterday 102 cars were unloaded in the elevator, which filled it to capacity. Steamers are expected weekly to convey the grain to England and European ports.

**DUE TODAY.**  
 The C. P. S. liner Minnedosa is expected to reach port in time to dock between four and five o'clock this afternoon. She is coming from Liverpool and Havre and approximately 800 from Havre, in addition to 2,000 tons of general cargo and a large consignment of mail and parcel post. The cabin passengers are expected to go away this evening in a special train, which will go to Montreal, Toronto and points west.

**SCHOONERS LAID UP.**  
 Two large tern schooners, the Rose Anne Belliveau, Capt. R. M. Comeau, owned by Messrs. Belliveau of Belliveau Cove, Digby county, and the C. Maud Gaskill, Capt. C. F. Granville, hailing from Weymouth, are now tied up at Yarmouth docks. That is a most unusual sight and is something that has not been seen there for many years. Their owners claim, however, that it is necessary, for, owing to the unsettled condition of the freights, to operate the schooners would be doing so at a loss, and in consequence they have put them into dock until spring, when they anticipate and are very hopeful of improved freights offering.

**ZERO WEATHER AND BITING WIND**  
 A sharp, biting wind, which reached a velocity of forty miles an hour, accompanied by a decided drop in temperature, made it very uncomfortable for those obliged to be outdoors early this morning. Beginning last evening the temperature fell rapidly until it reached one degree below zero at eight o'clock this morning. At nine o'clock the thermometer stood at zero. The rapid drop in temperature was accompanied by strong to moderate zeros from the northwest, which at times reached a velocity of forty miles an hour. At noon today the thermometer registered one above, and the wind had decreased to twenty-four miles an hour.  
 Fredericton, N. B., Jan. 18.—From a maximum temperature of 33 degrees above yesterday there was a drop to four below during the night. This was accompanied by gusts which reached a velocity of thirty-five miles an hour.

**COPING WITH UNEMPLOYMENT**

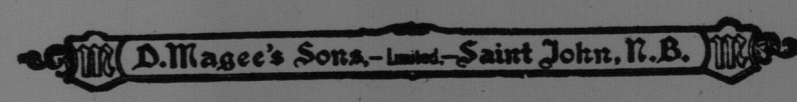

**Some of the Cases That Come Through the Mayor's Office in a Day—Family of Ten Without Breakfast—List Growing.**  
 Despite the fact that nearly fifty men have been placed on jobs through the mayor's office within the last few days, the list of unemployed has grown to more than 600 today. A great many of the names on the list are of returned soldiers, but the percentage of those entitled to government aid is small.  
 Between thirty-five and forty men have been sent during the last week to the city work of improvement in Millidgeville avenue and four or five men were given positions in the woods.  
**Long Trip For Nothing.**  
 Amongst the visitors at the mayor's office this morning was a local man who said that he, with two or three others, was sent by a private employment agency to a lumber camp about eight miles from Laurier station on the Valley railway. He said they went to Laurier by train and walked the rest of the journey to find that the camp had more men than it required. The mayor's caller said he made the whole of the return trip—thirty-five miles—on foot.  
**A Pitiiful Case.**  
 Another caller at city hall today was a returned soldier, forty-eight years of age, who is having a desperate struggle to keep his wife and eight children nourished during the present crisis. The children range from one to seventeen years in age, and some of the younger ones are down with the measles. He went overseas in January, 1915, and returned in August, 1918, after having been wounded. He received for a time a pension of \$15 a month, but later sold it out to the government for \$300. He said that on account of the sickness in the home one of the older children was unable to go to her work, and the result was that there was not sufficient money in the house to give the youngsters any breakfast this morning.  
 After hearing the particulars of the case, the mayor's clerk got in touch with the Associated Charities, and a representative of that institution is going today to investigate the circumstances of this family.

**Civil and Criminal Matters Before the Judges Today.**  
 Before His Honor Judge Chandler this morning the adjourned case of the Cox Towing Company, Incorporated, of New York, against Dunfield & Company of this city was resumed. This is a claim for breach of charter party. The evidence of Messrs. Dunfield and Harry Heans, local manager of the defendant company, was taken this morning and adjournment made until this afternoon. M. G. Teed, K.C., and H. A. Powell, K.C., appear for the plaintiffs, and J. H. Ralston, of Halifax, and F. R. Taylor, of St. John, appear for the defendants.

**Speedy Trials.**  
 Quite a number of cases were disposed of today by His Honor Judge Armstrong under Speedy Trials. Cecil Livingstone, already out on suspended sentence on a charge of theft, was given two years on a fresh charge of a similar nature.  
 Hugh Johnston, charged with stealing some articles from Arthur Godsoe, was allowed out on suspended sentence. This was his first offence and representations as to previous good character and overseas service were made.  
 Albert Middleton was remanded on a charge of breaking and entering the shop of James Macaulay and stealing therefrom.  
 Augustus E. Watters pleaded guilty to a charge of obtaining \$1,400 from the Colonial Hide Co., under false pretences, and was remanded.  
 Clarence Hill, previously allowed out on suspended sentence was brought before the court and after the evidence against him had been heard, was given another chance.  
 Alfred E. Bromley and Frank Connors, alias Theodore VanOttly, pleaded guilty to stealing from the shop of R. P. McDonald and were remanded. An effort will be made to have VanOttly deported to the United States, whence he came.

**At Work In Our Window Wednesday**  
 In order that the merit of the 1900 Cataract Washer might be apparent to the women of St. John we have arranged a demonstration of this famed washer in our window for Wednesday, Jan. 19.  
 The 1900 Cataract Washer is the pioneer of washers—also the peer because of its utmost simplicity, low cost of operation and because it works on the principle which governs the proper washing of clothes—the water is forced naturally through the fabric rather than the fabric forced through the water. Thus washing the clothes with no injury to the fabric.  
 Incidentally the 1900 Cataract Washer is made by the largest makers of washers in the world.  
 The machine used for demonstration is exactly the same as the one you'd buy except glass is used in order to expose the interior working of the water etc.  
 You'll want to see this machine in operation—so be here Wednesday.
