Monetary Times Makes it \$852,380 Which is a Reduction

A GODERICH BLAZE

Damage of \$50,000 in Furniture Plant Last Night—Methodist Transfer Committee in Annual Session—The Railway Commission and the C. N. R.

(Special to Times) Toronto, April 7.—The Monetary Times estimate of Canada's fire losses during March is \$852,380 compared with \$1,076,233 for the corresponding period last year and \$851,600 for March 1909.

Goderich, Ont., April 7.—Fire last night caused \$50,000 loss to the plant of the Kensington Furniture Company. The loss is covered by insurance.

Toronto, April 7.—Up to date the Ontario "Georges" have contributed only about \$40 and the "Marry" about \$37.50 to the fund for a coronation present to King George and Queen Mary.

The transfer committee of the Methodist church was in annual session yesterday, Rev. Dr. A. Carmichael in the chair. The presidents of all the conferences were present with the exception of Rev. T. B. Denby of Newfoundland who was delayed through the wreck of the S. E. Ferry.

Among the transfers were: Newfoundland to Montreal—Rev. J. Lesch; Newfoundland to Bay of Quinte, Rev. J. Lyon; North Bay, Ont., April 7.—The inquest into the death of Laurent Morin, found shot by a neighbor named McDougall, resulted in an open verdict. A formal charge of murder has been laid against McDougall.

Ottawa, April 7.—The recommendation of the railway commission that the Canadian Northern be prosecuted to the full for operating a line in Manitoba without proper authorization has gone to the justice department for action.

The amount of the fine, if imposed, is understood to be between \$80,000 and \$100,000 as the line complained of has been in operation about a year and a half and the fine is \$200 a day for every day that traffic is carried over it, other than for construction purposes, before proper authority is secured.

Funerals The funeral of David Ramsay took place this afternoon at 2:30 o'clock from his late residence in Sherbrooke street. Funeral services were conducted at the Mission church by Rev. Father Conroy. Interment was in Cedar Hill cemetery.

The funeral of Mary Ellen, infant daughter of Mr. and Mrs. Francis C. Abbott, took place this afternoon from her parents' residence in Broad street. Interment was in the new Catholic cemetery.

LIKELY NOW TO FINISH BY THURSDAY

St. John Railway Extension Bill is Amended By Committee of Legislature in Fredericton

(Special to Times) Fredericton, N. B., April 7.—The house will adjourn tonight until Monday and the prospects are there will be no trouble in completing the session business by next Thursday evening.

Some Newcastle and Bathurst and Fredericton bills were recommended by the corporations committee this morning. Among them was one to permit the city of Fredericton to aid the John Palmer Company.

There was an amendment to the St. John Railway bill confining its operation and extension of lines in Kings county to the parishes of Hampton, Robbsey and Westfield and a stipulation that charges for electric light should not exceed those paid in the city of St. John.

There seems to be some delay in further consideration of the Hydro-Power legislation for it is now announced that this bill will not be considered again until next Tuesday.

Mr. Malcolm, railway contractor, of Campbellton, who has been in the city for several days, had a lengthy interview with Premier Haden this morning. What took place has not been reported but after leaving the premier's office Mr. Malcolm spent some time examining Engineer Maxwell's plans and profiles of the Valley Railway survey.

Mr. Malcolm leaves for home this evening. It is understood that the police commission to be appointed under the act of assembly will be composed of Police Magistrate Marshall, Mayor Thomas and Peter Farrell.

At a meeting of the hospital board last evening, Aid Edward Moore, was appointed a trustee in place of Matthew Tennant, retired. The trustees have entered into a contract with Thomas Miles, of St. Mary's, for extension of the Devon wing.

As a result of a warm rain yesterday the river ice is beginning to show signs of melting.

TWO YEARS IN DORCHESTER AND PAY FINE OF \$1,000

BOY KILLED BY TRAIN IN NOVA SCOTIA Judge Forbes Sentences J. G. Sperdaks on Charge of Stealing Electricity

If Fine is Not Paid an Additional Two Years Must be Served—Council for Sperdaks Announces There Will be an Appeal

Judge Forbes this morning sentenced J. G. Sperdaks, a Charlotte street Greek confectioner, to two years in Dorchester and a fine of \$1,000 for stealing electricity from the St. John Railway Company. If the fine is not paid an additional two years must be added to the sentence. An appeal is announced.

The judgement In delivering judgement, Judge Forbes said: "Under this section the crown has filed the following information. (Here His Honor read the information). To this information the prisoner pleads not guilty. It appears from the evidence that the defendant entered into three separate contracts, marked A, B, and C, with the St. John Railway Co. in the following words:—'You are hereby requested to connect with your system and supply electric current for lighting by meter at rate of .10c per M. watts, 10 per cent. upon prompt payment, to 55 Charlotte street, occupied as candy store, etc.' It appears that under this agreement the defendant was to be supplied with the electric power of the said company, who placed their meters in said store for the purpose of registering the quantity of electricity consumed.

The information charges that during the continuance of those contracts the defendant did unlawfully and fraudulently abstract electricity of a value exceeding \$10,000, being carried, etc., by tapping the electric wires of said company, etc. Let me here dwell on the term maliciously. I accept the definition of this word as learned counsel for the defence that the crown to succeed must prove a malicious intent. I accept the definition of this word as learned counsel for the defence that the crown to succeed must prove a malicious intent.

CHIPMAN BRIDGE FACTS ARE BROUGHT OUT IN THE PUBLIC ACCOUNTS COMMITTEE

(Special to Times) Fredericton, N. B., April 7.—Further light on the government's method of handling bridge affairs was shed in the public accounts committee this morning when it was brought out that the new Chipman bridge was not erected on the site recommended by the chief engineer of the public works department. It did not develop why the engineer was overridden.

Engineer Wetmore was before the committee to give information asked for by opposition members. He brought with him plans and papers bearing on this bridge matter and among them the report which he prepared in regard to the site. There was a question as to whether the new bridge should be constructed on the site of the old structure or whether a certain new site should be selected.

The report declared that, while a bridge on the new site would probably cost a couple of thousand dollars less than one on the old site, there were considerations which made it advisable to use the latter location. He drew special attention to

the fact that at the new site there is the disadvantage of the proximity of a level railway crossing. As was pointed out by Hon. Mr. Robinson this in itself was a very serious matter.

Throughout the engineer's report the whole tone was in favor of the old site, and he declared that he was in favor of adhering to the recommendation of the old site. But in spite of his recommendation the bridge was put up on the new site.

In estimating the cost of bridges on the respective sites the engineer placed the cost of one on the new site as something more than \$23,000, or about \$21,000 less than his estimate for a structure on the old site. Subsequent events showed that he had been in error in his estimate of the probable land damages, an error which made the difference in estimated cost \$1,000 greater in favor of the new site than it should have been. The difference in estimated cost therefore was only about \$1,100 in favor of the new site.

But before the committee Mr. Wetmore said that such was the intention of the prisoner. The evidence clearly discloses that the meter placed in the place of business of the defendant was tampered with wire connecting with the meter cut, and the registering capacity of the meter prevented after the wires connecting with the meter were cut they were ingeniously bent so as to hook when desired, and when disconnected the meter would not register the electric current consumed, and thus the company was defrauded of property. It is difficult to ascertain how long this fraud was carried on, but from the evidence Mr. Hopper, the company was defrauded of thousands of dollars of property, and the defendant benefited thereby.

In considering the evidence as to who committed this fraud, we must consider the surrounding circumstances. None of them was benefited or profited by the fraud. The defendant was under a contract to pay the company \$6c per M. watts, and every watt diverted from the meter was so much gain to the defendant. The shop was his and the gain was his and we have the evidence of young Pittson that frequently, just before the meter took the record of the electricity consumed, he, the defendant, was in the habit of looking at or doing some act which would prevent the meter from recording a minute without a mistake.

Here is an establishment managed and owned by the defendant, and all the employees are called to explain or show if there was any accident or cause why these wires were cut at one meter but at another meter not. The wires disconnected not only at one meter but at another meter, and the defendant on oath "He did not do it." How can this be? I cannot believe him. I have therefore no difficulty in finding the defendant guilty as charged in the information.

The sentence in this case is that he be confined in the Dorchester penitentiary for the period of two years and while there he be kept at hard labor, and that he pay a fine of \$1,000, one half to be paid over to the company, he has defrauded, and in the event of his being unable to pay such fine he be confined in said Dorchester penitentiary for a further period of two years.

The case will be appealed to the supreme court of New Brunswick. J. A. Sinclair for Sperdaks, F. R. Taylor, for the St. John Railway Co., and C. H. Ferguson for the crown.

Despondency is believed to have caused Mrs. Hurley's act.

PRINCE RUPERT SCENE OF WILD LABOR RIOT

One Man Killed By Police and Forty Arrests Made—Canadian Labor Notes

(Canadian Press) Prince Rupert, B. C., April 7.—A mob of strikers and a force of police clashed here yesterday and a sanguinary fight followed. Pistols, stones and clubs were freely used and the rioters were finally subdued. One of the strikers was killed by the police and many were injured on both sides.

The situation is serious and it is feared that further conflicts will follow. Forty arrests have been made. Toronto, April 7.—Progress towards the settlement of the dispute between the G. N. V. Telegraph Company and its operators was made by the arbitration board yesterday. The men scored one important point. All those operators who have been discharged for participating in the demand for higher wages will be reinstated. An agreement was made until the middle of May to allow efforts for settlement.

Help Being Rushed From Halifax—Monongahela River Steamer Turns Turtle, Two Drowned—Mother and Son Die in Cleveland Fire

(Special to Times) Halifax, N. S., April 7.—The steamer Harlaw, owned by the Halifax & Newfoundland Steamship Co., and under charter to Crosbie & Co., of St. Johns, Nfld., has been abandoned in a sinking condition. A despatch from the superintendent of St. Paul's Island station to the agent of the marine and fisheries here, says 140 men, crew and sealer—are ashore on the island. No provisions were saved. Supplies and immediate assistance are asked for. The government steamer Lady Launce is being ordered by wireless to come to Halifax for supplies and will leave tomorrow to render assistance.

The steamer is of iron, built in Glasgow in 1881 and is of 267 tons, she operates between Halifax, Cape Breton and Newfoundland ports usually but was on a sealing trip at the time her loss. The master is Captain Barbour and the sealer is James Newfoundland. The steamer is insured in England.

(Canadian Press) Monongahela, Pa., April 7.—The big river steamer Henry A. Laughlin, belonging to the Vesta Coal Company was wrecked by a high wind early this morning, turned turtle and went to the bottom of the Monongahela River, held up by the tug Hugues, cook, and Jane Lawrence, with the fireman, name unknown, were drowned. Eleven others were saved.

Cleveland, Ohio, April 7.—Two persons lost their lives and three others were injured by a fire which destroyed the dwelling house of Henry Marston last night. Mrs. Marston, aged 35, her son Henry Marston, aged 7, are dead. Henry Marston, her husband, aged 33, and her two daughters, Alice and Ellen, aged 12 and 12, respectively, are seriously burned. Alice was caused by a defective gas mantle. Three minor accidents to employes of I. C. R.

WONDERFUL WORK BY WORLD'S SPEEDIEST STENOGRAPHER

Montreal, April 7.—(Canadian Press)—One new record was made and several marvellous accomplishments performed last night at an exhibition by Rose Fritz, the world's champion stenographer. Taking copy from an exhibition and reading her own copy, Miss Fritz managed to write 100 words a minute without a mistake.

Her opening test was a minute from dictation and in this she took 222 words in a registered minute. Then followed a test of a minute from dictation, unaided, when she wrote 208 words. While holding an estimated that with one of the audience Miss Fritz wrote 148 words a minute reading copy from a book and made not a single mistake in her writing.

As a final test Miss Fritz started in for ten minutes to write from the same book, while adding up figures on a blackboard spelled out to her. The sum was in six columns and she got it correctly added up long before the two minutes were up and still kept on writing without a mistake at 157 words a minute.

DODGE WARRANTS AND RUSH SHELDON AWAY TO MONTREAL

Fitchburg, April 7.—(Canadian Press)—Charles D. Sheldon was released by the court this morning on his own recognizance and must go back to Montreal immediately to face charges of a varied range by hundreds of former clients in his native town. It is hardly believed that any additional charges will be made here. The prisoner will be hustled out of this state to prevent the service of any warrants and rushed to Canada to face his accusers. This morning District Attorney Seymour asked the court to vacate the special bail and release the prisoner on his own recognizance. This plea was granted.

Another significant business fraud has been
uncovered in New York. It is said the gov-
ernment has been defrauded out of hund-
reds of thousands of dollars, through the
under-valuation of olive oil at the port of
New York. Importers have been calling
oil for table use machine oil or soap oil
and the pure olive oil was treated with
powdered charcoal which was removed af-
ter the oil passed the customs.

Hon. L. P. Harris, on a charge of liquor
violation.
George M. Elliott, field secretary of the
Canadian Defence League of Toronto, was
in the city yesterday. The league is ad-
vocating military training in public schools.
While in the city Mr. Elliott conferred
with Col. J. L. McAvity, Col. Armstrong
and Dr. Bridges on the matter. He left
for Upper Canada last night.
At the afternoon session of the Public
Utilities Commission yesterday it was de-
cided to adjourn the inquiry until June 6.

can Synod yesterday a resolution was passed
and feeling reference made to the death
of W. E. Vroom. Copies were ordered
sent to the bereaved family.
The pupils of Miss Annie Lugin last
night gave a very successful and enjoyable
entertainment in the assembly rooms of Keith's
Theatre. A large audience thoroughly ap-
preciated the numbers. The work of the
singers was very effective and reflected
much credit upon Miss Lugin. The open-
ing number, Captive Memories was particu-
larly well received. Those who took part
in the recital were Miss Pauline Baird,
Miss Cheyne, Mrs. S. K. Scott, Mrs. G.
E. Gray, H. M. Jones, H. A. Allison, and
D. B. Pidgeon.
At a meeting of the Trades and Labor
Council which took place in their rooms

The orange is the
most luscious and health-
ful fruit. California
excels in quality
of oranges. The
best of the Cali-
fornia oranges are
now packed in indi-
vidual wrappers labeled
"Sunkist."
Five thousand orange farmers
in California do their own packing, ship-
ping and selling. They grade and select
their oranges into "firsts," "seconds," etc. The
firsts are the finest, ripened, hand-picked, seed-
less, juicy, true-tinned oranges—every indi-
vidual orange a perfect specimen of the finest
variety of oranges. They are not only more
healthful and more palatable than other oranges,
but they are actually cheaper, for they are
packed in neat and nourishment.
Our dealer sells "Sunkist" Oranges. Ask for
them. You will know them by the tissue paper
wrappers in which each "Sunkist" Orange is packed.
You can buy them by the box or half box.
On the wrapper note the label, "Sunkist." Keep
all the wrappers. They are worth money to you.

The Evening Chit-Chat

By RUTH CAMERON

WHAT kind of a man does a woman like best?
Some weeks ago I put that question to my readers, promising them that
some day we should have their opinions on the subject.

Attention, ye swains who desire to know how to please the fairer sex. Here
is a chance to get some honest unadorned opinions on the subject.
I have received many more than I could possibly print, but many repeat the
same story, so I'm just going to try to give you the widest variety possible.
It may be interesting to know first what masculine char-
acteristics received the most votes.
Cleanliness of person and strength, both moral and physical,
I should say, headed the list.
Ambition, a sufficient degree of generosity to make a wife
sure of enough pocket money, reverence for God, chivalry for
women, and an affectionate disposition, were also much in
demand.
One lady who ought to know something about the matter,
having had three trials, says that an affectionate disposition
is by all odds the thing that counts the most. "I've had
three husbands," runs her sad tale. "One and Two rest in the
graveyard. The third is what the world calls a good man but
he is not a bit soft. The second was soft and I would rather
be with him in spirit than where I am. I was happy with
the second. Give me a soft, loving man every time. I have
tried three kinds."

Here is what some more women think about this matter:
The kind of man a woman can love must be strong, yet tender, true, honest
and kindly, sympathetic. If the gods have added to this a sense of humor, belief
and it will make no difference if his hair is red and his eyes are green, he will not
have any trouble in convincing the lady of his choice that he will be a pretty com-
fortable fellow to pull in double harness with along the road of life.
The man a woman likes best? One who is strong, honorable and fearless, chiv-
alrous and truthful. A man of few words, but many deeds, of strength to withstand
temptation, of grace to grow by suffering, of tender heart and unswerving devo-
tion; a man in brief who meets the test of the "Table Round" to reverence his king as if
he were conscious of his conscience as his king.
"Of course I don't pretend to know anything about men for I am only a col-
lege freshman, but even that manner of girl may have an ideal—so here goes, here's
mine in two words—a unselfish man and a clean one."
"What sort of a man do all women love? Why, the sort of man who was born
with the gift, or has acquired the art of conveying the impression, 'You are dif-
ferent from other women and I'm glad of it.' Such a man, whether consciously or
unconsciously, gives the impression, 'You are what I have been looking for, what
I've doubted the existence of, a woman who can understand and appreciate and in-
spire. With such a woman a man can do his best in the world, and as we women
want a mission, a reason for our being, naturally we fall in love with the man who
offers it to us."
"It is only necessary to go back to the Garden of Eden to establish the
fact that women like best the man who is thoroughly imbued with the Devil. A good,
straightforward, moral man is not 'in it' with the other kind. Adam did not domi-
nate the heart of Eve. She was dissatisfied and therefore went out of her way to find
something to relieve her dissatisfaction. She ran up against the Devil and listened to
him to her own undoing and that of the whole world. And still the daughters of
Eve like best the man who has the most original Devil in his make-up." (Need we
interpolate that this break in the symposium was contributed by a man?)
(To be continued in our next.)

BUSINESS MEN'S CONGRESS, DECLARES THE NEW SPEAKER

Washington, April 7—(Canadian Press)—The present session of congress is going to be a business man's session, according to Champ Clark, speaker of the House. In an interview here today he outlined the tariff programme of the Democrats as a response to fears expressed by alarmists that business conditions might be upset by the legislation which the Democrats planned.

The tariff legislation is to be of scientific character. "There is nothing in the Democratic programme to alarm or scare any legitimate business in the United States," declared the speaker. "No sane man within the confines of the republic would want to pass any laws that would interfere with any legitimate business but no man who has the welfare of the republic at heart wants to collect an exorbitant tariff on articles of general consumption by the United States people."

At least 200 and possibly 300 of the items in the Payne-Aldrich act provide duties over 40 per cent. The Democrats propose to eliminate these duties.

"By taking the various tariff laws beginning with the Morrill act, passed just after the war, we can determine the minimum duties that will produce the revenue needed by the government. We will first determine what amount of revenue is needed, and then we will decide on the duties that will bring in that amount."

INSANE MEN IN AN ASYLUM PLUNGE WATER INTO BOILING WATER

Attendant in Worcester Hospital is Arrested on Technical Charge Because of the Occurrence

Worcester, Mass., April 7—For allowing two insane men to plunge a fellow inmate of the state hospital at Lake Quinsigamond into a bath tub filled with boiling water, inflicting scalds from which the victim may die, Thomas J. Brennan, aged 32, an attendant at the hospital is under arrest on a technical charge of assault and battery, but being demanded in the sum of \$100 because of the critical condition of the scalded man.

The victim is Ralph K. Stewart of North Uxbridge, an aged and almost helpless inmate of the hospital. In response to a complaint made to the police by Dr. Moses M. Quinby of the hospital, the police made an investigation and, according to Inspector O'Day, they found that the attendant happened Monday morning. Brennan was taking Stewart to the bath room to give him a bath and on the way his attention was attracted by a dangerous inmate who had got out of his room.

Brennan and another attendant had to work a long time to get the second man back into bed, but before leaving Stewart, Brennan called a couple of mildly insane men to watch Stewart and wheel him to the bathroom.

The insane men did more than they were asked to do. They filled the bath tub with boiling water and dropped the helpless old man into the tub so that the lower part of his body was terribly scalded. In the meantime, Brennan and his fellow attendant had got the dangerous insane man back into his room, but Brennan forgot all about Stewart and went off duty at 6 o'clock, as his tour of duty was ended at that hour. Stewart's predicament was discovered by other attendants, who hurried him to the medical ward where everything possible was done for him, but the doctors hold out little hope for his recovery.

Brennan is much worked up over the affair. He has been at the hospital for a long time and has enjoyed the reputation of being one of the most efficient attendants there. He says he had special orders to look after the dangerous man who has the habit of cutting himself and giving opportunity, and as his relatives complained about his treatment, he was given special care. Brennan nearly collapsed when being booked.

CITY GOVERNMENT

One would have thought that the experience of other Canadian cities with the board of control system would have discouraged the citizens of Halifax from entertaining any serious thought of adopting that system of city government.

It seems quite clear that friction between the two bodies is inevitable. The system that provides both a city council and board of control is unnecessarily complex. Of all the correspondence received by the St. John committee from cities all over the United States, not one writer declared in favor of a board of control system.

The movement that is behind the commission plan of city government, sweeping in such a remarkable way over this continent, has behind it a desire and a determination to secure better government. It is a success for that very reason.

"More than one hundred cities have adopted the commission plan of government. I am assured that no city, after once adopting the plan, has ever rejected it. In its operations, therefore, we find the best available testimonial to the practicability of the general scheme of giving the people a larger direct participation (through the initiative, the referendum, the recall, the short ballot and direct nominations) in their government."

"Some persons, however, have a great prejudice against United States systems and methods, and ask why an appeal is not made to English authority. On this point they can be accommodated. The Rt. Hon. James Bryce is an authority worth learning, and in a recent address before the City Club of New York he spoke with a strong note of hopefulness about American municipal government. The New York Nation, commenting on his address, rightly declared that Mr. Bryce is a clear-eyed observer whose testimony cannot be lightly set aside. The Nation adds:—

NATURE'S CURE FOR A COUGH

Dr. Chase's Syrup of Linseed and Turpentine is the Most Largely Imitated Medicine in the Country

What to give the children for cough and cold is the problem mothers now have to solve. Most of them finally decide on Dr. Chase's Syrup of Linseed and Turpentine, and make it a rule to always have some in the house.

IN LIGHTER VEIN

Let us glance at these few paragraphs from "The Square Deal," the little tax reform paper published in Toronto which leads the Canadian movement for justice in taxation matters:—

"The only things taxed in Vancouver are land, dogs and liquor licenses. In Ontario and Quebec houses are taxed, too. Perhaps this explains the recent lament of Dr. La Berge, Medical Health Officer of Montreal, when he said of the inability to compel proprietors to keep their houses clean: 'A man rents a house capable of comfortably holding five, and twenty or thirty foreigners live in it; the owner does not care if the house is dirty, for he secures a big rent.'"

"The trouble in Montreal is evidently the scarcity of houses. We have no idea that foreigners any more than our own people like to live in overcrowded dwellings. So far as our own observation goes, people live in overcrowded dwellings only when they cannot afford better. But if Montreal people tax houses the same as Vancouver people tax dogs, can they expect anything except scarcity?"

"Speaking of the inquiry of the committee made with the recently annexed municipalities agreeing to assess so-called farm land held at \$1,000 an acre at \$100 an acre, the Montreal Witness says:—

"The Assessors are bound to act by this agreement, which gives the owners of improved land a retrogressive exemption for which other citizens would have to pay. Besides that, it is a heavy premium on holding the land unimproved."

"St. John taxes dogs and liquor licenses, but chiefly it taxes improvements, thrills, and industry; and it offers a premium to those who hold land and property unimproved year after year. St. John has an aged and vicious system of taxation, but still worse is the failure to apply even this bad form of taxation according to the rules of the game. If any intelligent man will study a list of taxpayers and their taxes published annually in this city, and will compare the manner in which the system affects any fifty or one hundred men with whose circumstances he is familiar, he will never again deny the urgent need for taxation reform in St. John."

Owing to the policy of drift pursued for many years at City Hall, the question of taxation has been neglected. Some years ago, when a taxation commission was appointed, its report was neglected, and finally buried. That report in itself may not have solved—in fact, it did not solve—the problem, but it advocated an impossible compromise; but that report should have been used as a sort of foundation for a real tax reform movement, and this movement should have originated at City Hall."

Toronto has taken advantage of the offer of Mr. Joseph Fels, a millionaire, who believes the greatest philanthropy is devoting money to promote taxation reform. For every dollar which any community raises to promote tax reform, Mr. Fels gives another dollar. He gets absolutely no return for it except the satisfaction of knowing that justice is being increased by the expenditure of such funds. St. John could very well use some of Mr. Fels' money.

"More than one hundred cities have adopted the commission plan of government. I am assured that no city, after once adopting the plan, has ever rejected it. In its operations, therefore, we find the best available testimonial to the practicability of the general scheme of giving the people a larger direct participation (through the initiative, the referendum, the recall, the short ballot and direct nominations) in their government."

JAPANOL

Extra High Grade English Enamel For Ship, Yacht, House, Hospital and General Painting

Japanol Enamel gives a smooth, China-like surface on woodwork, plastered and board walls, metal, stone, cement, brickwork, etc. It is elastic, sanitary, durable, damp-resisting, non-fading and rust-preventing; does not crack, chip, peel or blister off, and will resist the action of the sun, frost, heat, cold, sea air and water, gases, acids, weather and wind—even under the most exposed positions.

Remember, Japanol is the highest grade enamel it is possible to make, and not to be compared with the many cheap enamels on the market.

HAD KIDNEY TROUBLE.

COULD NOT CROSS THE FLOOR PAIN WAS SO GREAT.

Miss Hazel Hess, Winchester Springs, Ont., writes:—'I was troubled with my kidneys for five years. They were so bad, at times, I could not cross the floor for the pain. The doctor could not do me any good and a friend advised me to use Doan's Kidney Pills. I bought six boxes and now I have been cured for over four years. I will recommend them to every sufferer.'

No woman can be truly healthy unless the kidneys are well. When the kidneys are ill, the whole body is ill, for the poison which the kidneys ought to filter out of the blood, gets in the system. Then how important it must be to see to it that this system of sewerage be not clogged up.

Doan's Kidney Pills are a purely vegetable medicine, real quick, permanent relief, without after ill effects. A medicine that will absolutely cure backache and all forms of kidney and bladder trouble.

Doan's Kidney Pills are 50c per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont. If ordering direct specify "Doan's."

TORIES TRY NEW TACTICS AND FAIL

Ottawa, April 6.—A new tack of the opposition on the reciprocity issue developed in the commons today. A concerted demand for information as to comparative prices, cost of production, etc., in Canada and the United States of the commodities affected by the agreement was led by Mr. Perley. He asked for more light before the critics could intelligently discuss the tariff changes.

Hon. Mr. Fielding let in the light, but in a manner utterly disconcerting to his listeners, whose attempted shafts at the gle of the minister of finance invariably came back on their own heads. It was one of the finest exhibitions of apt and crushing retort that parliament has heard this session.

In moving his amendment, the Conservative chief reiterated the complaint of lack of information to determine "whether this reciprocity pact was going to result in good or evil." Mr. Perley maintained that it was the duty of the government to supply all the data called for in his resolution.

Hon. Mr. Fielding said he was somewhat surprised to find the new phase of the opposition to reciprocity took no note of the matters which a few days ago were the principal stock in trade.

The division was taken at 11 o'clock and resulted in the defeat of Mr. Perley's amendment by 34, the vote being 66 to 32. It was a straight party affair with the ex-

LIEUT-GOVERNOR GIVES HIS ASSENT IN HOUSE TO FIFTY-NINE BILLS

Election Matters Subject of Legislation to Be Taken up—Yesterday's Business in Legislature

Fredericton, April 6.—Fifty-nine bills were assented to this evening by the lieutenant-governor, after which the house settled down to consideration of other bills that had been recommended.

Among the measures that did not reach the house was one to amend the election act providing for purer elections. There are many members on both sides of the house anxious to see this part of the election law strengthened, but the bill before them was considered to be an imperfect and incomplete character. While it provided that when twenty-five electors made affidavits that there had been corrupt practices one or two judges would be appointed to investigate the same and the attorney-general would then be called upon to prosecute the offenders, if upon investigation it was found that there had been violation of the act.

Members of the committee did not think that it would be pleasant or desirable to ask the attorney-general to prosecute, and it was decided to ask those who presented the bill of Westmorland Electoral Reform League to be represented before the committee.

Fredericton, N. B., April 6.—Hon. Mr. Hazen introduced a bill to amend the act respecting juries. He explained that the main purpose of the bill was to make it unnecessary to summon a grand jury unless for a circuit court, and there was criminal business before the court.

The bill to amend the dental act was agreed to with amendments, placing the fees at 85c.

The house went into committee with Mr. Sproul in the chair, and agreed to a bill to amend the liquor license act, with amendments to make it clear that the \$5 deposit paid the inspectors on making the application for licenses shall go in with the balance of the bill, and also making provisions in the act regarding the adjustment of liquor license funds and the payment of expenses.

The bill to consolidate and amend the public health act and acts in amendment thereof and in addition thereto was considered. The corporations committee met again this afternoon.

The bill to further amend the act incorporating the Imperial Drydock Company of St. John was agreed to; the bill to incorporate the Bel River Light, Heat & Power Company was further considered. Amendments were made whereby the company could not operate lands without the consent of the lieutenant-governor-in-council; expropriation could not take place until the lands were paid for. A new resolution was inserted providing that the company shall be permitted to export upon one year's notice by a Canadian company, desirous of purchasing power, this company shall supply power to the applicant. The bill was agreed to as amended.

April Canada Monthly

"Three billion four hundred million dollars' worth of nitrogen is required to produce a single harvest in the United States, reckoning the chemical at its present price of 16c. cents a pound. Does it get to you?" asks Rex Crosswell, in the first of a series of three articles on "Money-Mad Farming," the first one of which leads April Canada Monthly (formerly Canada-West), and which sounds a note of warning to western Canadian farmers. Mr. Crosswell says that every scientific farmer knows that it takes nitrogen to grow wheat, but it is not until the farmers of the great wheat-producing areas of the United States in their eagerness to get rich or quick, have shipped out wheat year after year and with it shipped out the fertility of the soil until after twenty years of continual wheat-cropping they have cut down their yields from thirty and forty bushels to a niggardly ten or fifteen.

Mr. Crosswell's remedy for this is nitrogen-restoring crops of legumes—alfalfa, clover, field peas or vetches every fourth year. His argument seems convincing and will at least bear consideration from the farmer, whether he grows wheat alone or is a mixed-farming advocate.

"The Scarlet Strand," a mystery story by E. H. Watrous, begins its first installment in April. Norman Rankin tells how the grandson of Captain Logie Armstrong, one of the early St. Lawrence pilots, chartered, built a steamer, navigated and still continues to navigate the bumpy Columbia river in the Rocky Mountains. Parker Butler talks about "The Hopeless Case of Arabanus Bille," whom no girl ever took in hand; Jeanette Marks, in "After Fifty Years with Job," recounts the result of a patient wife; and there is other material by Roy Campbell, Bonny Castle Dale, T. A. Daly, Cy Warman, Mary Wheelwright, "Kit," Sara H. Richards, Leslie Garvin and others. Illustrations are by Percy E. Anderson, Peter Newell, Charles A. McEldan, Donald McGivern, Frederick M. Grant and others. The cover is an interesting example of three colored reproduction in a printing representing the money-mad farmer saluting the Devil of Immediate Gain the inheritance of future generations.

White's Cove Notes

"White's Cove, April 3.—The snow is about all gone. The ice in Grand Lake is solid yet, teams are travelling everywhere on it. Robins and wild geese have made their appearance.

Harry Orchard has been doing a rushing business with his steam grist mill. He is soon going to start his saw mill. Knight Bros' grist mill at Mill Cove has started again, having been down for some time for lack of water.

Wm. McKinley, who has been suffering from an attack of la grippe is slowly recovering. Capt. E. M. Young had the misfortune to lose a valuable brood mare a few days ago. S. A. McIntosh also lost a good beast.

Leslie Colwell who suffered a stroke of paralysis some time ago is rapidly recovering.

Peter Knight of White's Point is spending a few days with his daughter, Mrs. S. B. Orchard of this place.

WHERE THE SEA IS DEEPEST

(From Harpers Weekly)

The ocean has been sounded in nearly all directions with modern appliances and these soundings show that the floor of the ocean consists of vast undulating mountains lying at an average depth of about two and a half miles beneath the surface of the waves. In some places high ridges and cones rise from these submerged plains to within a few hundred fathoms of the sea surface, they may rise above the surface as volcanic islands and coral atolls.

The greatest depth hitherto recorded is in the Challenger (or Nero) Deep in the north Pacific—3220 fathoms. If Mount Everest were placed in this deep 2900 feet of water would roll over the peak of this highest mountain in the world.

The greatest depth in the Atlantic is in the Naros Deep between the West India Islands and Bermuda—4022 fathoms.

Queen Alexandra's Simple Diet
The secret of Queen Alexandra's wonderful youthful appearance never ceases to interest feminine England, and some details of her diet have been imparted to the curious.
Queen Alexandra never touches red meat. She eats only chicken, turkey, duck and game. The vegetables she has served to her are cabbage, spinach, peas and beans. She does not eat pudding or pastry, and for dessert has simply fruit, cooked or uncooked, and nuts and raisins. She is particularly fond of nuts, and has been known to make an entire luncheon of almonds and walnuts dipped in salt. She eats toast rather than bread and very little butter, but quantities of cream.
She drinks nothing but hot milk, having given up tea, coffee, cocoa and wines years ago. On this diet, with a moderate amount of exercise, Queen Alexandra keeps wonderfully well, and preserves a girlish symmetry of figure and softness of skin which makes it difficult to realize that she is well past 60.

CHAIN OF FIRES IN UNITED KINGDOM HONOR OF THE KING

All the Highest Hills to be Aight on Coronation Night and Rockets to be Sent Up

London, April 6.—Definite arrangements have now been arrived at for lighting bonfires in a continuous chain at the highest points available in Great Britain and Ireland on the night of June 22, which will be coronation day. This scheme is meeting with most enthusiastic support and widespread satisfaction.

If the bonfires are properly built they will burn for many hours. The proposal is that they should be lighted at 10 o'clock in England and 10.30 across the border and should burn brightly until 12.30 o'clock. The signal that will be given in England, Ireland and Wales will be in the form of a detonating rocket sent up at 9.55, at 10 o'clock this will be followed by a magnesium star rocket and other rockets. This signal will flash from point to point, until at 11 p.m. the chain of light will be established, and when all the bonfires are aight the national anthem is to be sung.

Wherever possible the hills are to be illuminated generally with red, white and blue colored fires. At 11 o'clock to enhance the splendor of the scene bonfires of rockets are to be sent up.

Committees are being formed in the various counties for the carrying out of this scheme, and it is possible that boy scouts will be called in to lend their aid in collecting fuel, in building up the great fires, and also in preventing their being prematurely lighted.

Recalls Jumbo's Death

St. Thomas, Ont., April 7.—John Thomson, ex-Grand Trunk conductor, who was in charge of the train that killed the elephant Jumbo, in this city, on September 16th, 1883, in a railroad wreck, is still in ill at his home here, and may not recover. He has been with the Grand Trunk since its trains first entered St. Thomas. He retired from the service several years ago.

SPORT NEWS OF A DAY; HOME AND ABROAD

Bowling

I. L. & B. Defeated F. M. A.

On St. Peter's alleys last night the I. L. & B. team defeated the F. M. A., taking four points, in the Inter-Society League. The scores were as follows:

I. L. & B.	Total	Avg.
McGovern	92	94
McGraw	74	85
Griffith	84	83
Harra	73	79
Lobbe	89	91
Total	424	412

F. M. A.

Total	Avg.
Jennings	73
Dever	76
Casey	82
Martin	68
Lunney	91
Total	390

Last evening the St. John Bowling Club had the use of Black's alleys. Two strings of candlepins and two strings of Boston pins, which are new here, were rolled. The winning team proved to be Ferguson and Olive, whose scores were 410 and 389 respectively. The total was 801. Foubay and Girvan were second with scores of 371 and 388, making a total of 759. The prizes were two fancy stick pins.

This evening, in the City League, the Rangers play a double header, one game with the Imperials and the other with the Nationals. In the Commercial League T. S. Simms & Co. will play Brock & Paterson's team.

A baseball team from the staff of W. E. McFadyre & Co. Ltd., were defeated on Spedake's alleys last night by Charles Tilley's team. The teams split evenly on two strings, but in the third Tilley's players won.

Curling

The Thistles.

The annual meeting of the Thistle Curling Club was held in the rink last evening with a large attendance. The retiring president, A. Liskay, was in the chair. The election of officers resulted as follows: President—A. D. Mahon; Vice-president—J. F. Burpee; Treasurer—D. McClelland; Secretary—A. G. Stevens; Chaplain—Rev. J. J. McSkull.

The last winter was a good one for the club, although not many visitors were here. There were thirteen foreign games, the club winning eleven and losing two. The Miligan and the Klondike points competition was won by J. S. Mahon with 23 points, while the Klondike medal was won by Jas. Mitchell with 45 points. The likely trophy was won by Skip S. W. Palmer, the person of which was as follows: H. G. Barnes, S. W. Palmer, skip.

Each member of the rink received a medal.

The membership of the club at present numbers about 80, and the future is full of promise. The new members this year were a very desirable lot of men.

Baseball

Washington, April 7.—Walter Johnson, premier pitcher of the American League, will not play with Washington this season. He was not sign at \$6,500, but held out for \$7,000. Manager McAleer finally told him to quit.

On Bankers Square yesterday the Association football team of the C. P. R. liner Empress of Ireland won from the team from the Allan liner Corsica 8 to 1. The Empress men now claim the steamship championship of the North Atlantic.

No Sunday Baseball.

Boston, April 6.—Advocates of Sunday baseball today received another setback in the legislature, which may end the movement for this year, the senate, by a vote of 17 to 22, killing the bill permitting amateurs to play Sunday afternoons.

The Ring

St. John Boxers
The Boston Globe says that Fenwick McKelvie, in the heavyweight class and Ed. Mooney, in the 125 pound class are the St. John boxers whom John T. Power is to take to the Boston amateur championship next week.

Miss R. Waterman last night read an interesting paper on the Life, Works and Travels of Hans Anderson, before the High School Alumnae at the home of Mrs. C. H. Creighton, Queen street. Others who took part in a programme were Misses Ethel and Dorothy Creighton and Miss Edith Magee.

Her Face and Body Were Litterly Covered With "BOILS."

Burdock Blood Bitters Cured Them.

Mr. John H. King, Johnston, N. B., writes: "Last summer I was very much troubled with boils, and my face and body were literally covered with them. A friend advised me to try Burdock Blood Bitters. I took the first one when they first began to go away. I had just taken a few doses out of the last one when they all disappeared. My husband has also used Burdock Blood Bitters with much benefit."

ST. JOHN HORSES WIN MORE AT AMHERST SHOW

Amherst, N. S., April 6.—The second maritime horse show closed this evening at the Lyric Theatre yesterday witnessed a triumph for the St. John horses. There was keen competition in the carriage class, there being thirteen entries. George McAvity's well known span, Senora and Senorita, took first and second places, and Dignity, W. W. Black, Amherst, third.

The silver cup donated by Colonel Campbell was won by W. A. Black's Tallman for the best combination saddle and carriage horse. Mr. Black had for his competitors R. A. Snowball's Langston Lily, McAvity's Senorita, and G. W. Fowler's Guardian.

Senorita, George McAvity, won the champion saddle contest, winning the silver cup donated by the Terrace Hotel.

The greatest drawback to a long life is that it necessitates old age.

Cured Eczema and Dandruff

"I am pleased to inform you that I have been cured by Cuticura Soap and Ointment. Since I was a boy I have suffered with dandruff, not only from the itching but from its disagreeable appearance in a scaly form all over my head. I had to brush it off my clothes all day long. I used every kind of preparation supposed to cure dandruff, also soaps and shampoos, but it seemed to me that instead of improving with these remedies, the dandruff increased, even my hair began to fall out and the result was that two months ago eczema developed on my scalp.

"I suffered so from this that as a last resource I thought I would try Cuticura Soap and Cuticura Ointment. They had the most gratifying results for I had used only one box of Cuticura Ointment and a single cake of Cuticura Soap when I was cured. The eczema and dandruff were gone and my head perfectly clear.

"I can assure you that so long as I live no other soap than Cuticura will be used by me and all those men to whom I will also advise. I will always use Cuticura Ointment as a preventive for the hair and scalp and should know of any one who is not cured by Cuticura Soap and Ointment, I will be happy to let any one of my experience in order to assist those who may be suffering from the same disease." (Signed) A. A. ACYRICO, 59 Pearl St., New York.

AMUSEMENTS FOR OURSELVES AND OTHERS

TONIGHT'S EXHIBITION.

The gymnastic exhibition to be given by the different classes from the gymnasium of the Young Men's Christian Association at the Opera House this evening, will probably be the biggest thing of its kind ever attempted on a theatre stage in this city, something like 125 athletes, large and small, will take part in the musical drills, human pyramids, club swinging, tumbling, etc. With a good deal of the work is of a serious nature and will simply go to show what a gymnasium and a competent physical instructor can do for the youth of the city, yet there will be many mirth-provoking scenes throughout the performance, in which the clown and other school boys with their farmyard antics will take part. Those attending the performance are assured of a delightful evening's entertainment, at a small cost, and at the same time will be lending a hand to the Y. M. C. A. in the good work it is doing for the youth of the city. Tickets may be had from almost any member of the Y. M. C. A., and the box office in the Opera House. The performance will start at 8.15.

THE GEM.

The attractive appearance and pleasing disposition of a young lassie in the Salvation Army are the means of making a difficult man of a hardy tar in *Jack Kelson's* production, "Sailor Jack's Reformation," at the Gem today and tomorrow.

The story of his redemption, his conversion, fall from grace, and his final salvation, are cleverly portrayed, and make a very laugh heartily at the comedy "Whiffles Double," but the problem is solved near the close of the film "A Boy's Will" is a drama showing the devotion of a lad to save his little sister, while in "The Red Man's Way" the arts and cunning of an Indian are well displayed, and tend to make a lively story. Tom Waterall is to sing a new song, while the orchestra is to sing some new pieces. A souvenir matinee is announced for Saturday.

THE UNIQUE.

That well known character, Happy Hooligan, dear to the hearts of boys and girls for the fun he creates, will be seen at the Lyric Theatre yesterday afternoon to tell some of his funniest stories of Gloomy Gus and Panhandle Pete. The picture programme for today and tomorrow has the usual week end features. The Western subject is "The Deputy's Honor," a whole thrilling story of our west. The I. M. P. aggregation of comedies will present in a laughable act, *Maids and Maids* and the European farce, *The Female Barber*, gives many opportunities to laugh. Mr. Newcombe is singing the two-step melody, "Marguerita."

THE LYRIC.

"Something new" is a hard thing to find in the dancing and singing line, and it was with pleasure that the audiences at the Lyric Theatre yesterday witnessed the performance submitted by The Deveres. Their dancing is a novelty and made an instantaneous hit. It embraces steps of various laughable kinds, hard to describe, yet most pleasing to see. Miss Deveres sings a number of catchy songs and displays a rich and costly wardrobe, making three changes of costume during the course of the act. The film section of the bill also came in for approval especially the Melles drama of Texas, "In the Hot Lands."

NOTED WHIP AND WIFE AT PARTING OF WAYS

New York, April 7.—There is a good deal of speculation in society over the announcement that Reginald W. Rives, clubman and whip, and his wife, have come to the parting of the ways. With the possible exception of Alfred Greene Vanderbilt, Rives is credited with being the best amateur whip in the United States.

For many years he drove the coach Pioneer from the Holland House to Ardrey-on-the-Hudson and from the Metro-Jolitan Club, of which he is a member, to Southampton, L. I. Since coaching ceased to command the interest of the fashionable of the city, he has not figured so often in the public prints. It was a big surprise to his friends when they learned the other day that he and Mrs. Rives had separated and were now living apart by agreement.

Mrs. Rives, with her son and daughter, are staying in the old Rives' house, while Rives has gone to the Knickerbocker Club. Both sides deny any intention of threshing out their troubles in the courts, and decline to take the public into their confidence respecting the cause of the differences. It is generally thought to be a case of incompatibility of temper.

WOMEN'S SHOES Spring 1911

The new styles are assembling and each arrival is a thing of beauty. We are well within the bounds of truth when we say these new Spring, of 1911, styles have reached a point in beauty of construction and shape—combined with the highest degree of excellence—beyond which it seems impossible to go.

We want every woman in town to call to see these New Spring Shoe Beauties. We'll talk about some of the different styles and prices later.

This is simply an invitation extended to the ladies, asking them to come to see our Spring Shoe Show.

LIQUOR CASE COMES OUT OF THIS ARREST

Two young English sailors appeared before Judge Ritchie this morning in the police court on a charge of drunkenness. Out of the arrest of one of them, Percy Price, aged 18, came a charge against Wm. O'Keefe, liquor dealer, of Union street, of selling liquor to minors, on which he was fined \$10, while Price and his pal, Thomas Downs, were allowed to go.

O'Keefe said that he had asked Price last night as to his age, but the young fellow and his associate denied this today. They said they had "two beers apiece" in the place, although they were then to stagger so that they were later arrested on a charge of drunkenness.

Harry Smith and Alexander Stevens were each fined \$4 for drunkenness, while Henry Ring forfeited a deposit of \$8 for the same offence.

WILL OF THOMAS POTTS

In the probate court today the will of Thomas Potts, commission merchant, was proved. He gives his property in Croucheville to his daughter Marion Isabel Harding, and her husband Charles E. Harding, also the sum of \$3,000, to this said daughter and son-in-law, being the testator's interest in the houses of his wife, Mrs. Julia Potts, Nos. 283 and 285 Germain street, the wife, however, to have the benefit of \$3,000, (which the testator paid for her on the mortgages on said premises) during her natural life, and he appoints his said daughter and son-in-law executors. The latter renounced and the former was sworn in as executor. The real estate consists of the property mentioned in Croucheville, which is subject to a mortgage. The personal estate consists of the interest in his wife's property, referred to, and his interest in the business in North Market street, Geo. H. V. Belyea a proprietor.

SAID HE KNEW WHO SET FIRE

Strong Evidence in North Street Incendiarism Case Given—Constable Crawford Recounts What Prisoner Said to Him

The preliminary hearing in the case of John O'Brien, charged with setting fire to property in North street, was begun before Judge Ritchie in the police court, this morning. V. B. M. Baxter appeared for the prosecution, which is being conducted principally by the insurance underwriters, while E. S. Ritchie acted for the defence.

Charles F. Brown, of the North End fire department, told of answering an alarm to North street on Monday night last. The fire was in the unoccupied basement of a house, and he could see no reason why it should have occurred as there were no stoves nor chimney in the place. The door was barred or nailed fast with boards placed crosswise and on these boards was a straw mattress which was burning.

Herbert Maxwell of the Salvage Corps, told of seeing a large box in the basement and smoke coming from it, but he could not see what was burning in the box. He saw no natural cause for a fire. A door had to be forced open in order to get into the basement.

Alfred Evans, of Drury Lane, was called. He said he saw O'Brien on Monday night talking with Constable Crawford, but did not say to the prisoner, "Come away from that man—don't you know that's Crawford, and he's watching you." He said that O'Brien had told him that he had rung the alarm, but added: "I didn't see the fire, though."

Wm. Foley, said he saw O'Brien on the night of the fire talking to Crawford. He was with the defendant on the night of a previous fire. They were on a street car, but knew nothing of the fire in question until the alarm rang, when they got off.

J. Fred Shaw said he had been at the scene of the fire on Monday night, quite early, and described conditions as similar to what had already been stated. Constable Robert Crawford said that on Monday night he was in North street after the alarm rang, and saw somebody run from the direction of the rear of the house towards Pond street. He saw O'Brien in an intoxicated condition, and after having heard him make some remarks about the fire, asked him his name. The prisoner gave it as McCarthy of Pond street. When questioned about the fire, O'Brien said: "Well, I didn't see it, but I know who did." Foley came out of a doorway and asked: "What do you remember?" O'Brien replied: "They think we set this fire," and Foley advised him not to go with him. The witness said O'Brien was about to "tell all about it," when Policeman Whittier came [to] fight, when the prisoner said: "No, I don't see anything while while those—cops are around."

On the occasion of a previous fire in a shop owned by John O'Brien, Crawford said he saw Foley and O'Brien standing nearby when the fire apparatus arrived. One of them remarked: "It's too bad it didn't get a better start." The case was adjourned until 3.30 this afternoon.

EXPECT 5,000 HERE IN THE NEXT THREE DAYS

Five Ocean Liners About Due With Many Immigrants Aboard

More than 5,000 passengers in five big liners will land here between tomorrow and Monday. The Donaldson liner Saturnia with 1189, Red Star liner Barcelona with 1006; C. P. R. liner Lake Erie, under charter to the Allan line, with 1103 and the Allan liner Virginia with 1094 are all about due.

The Virginia was reported 120 miles off Halifax at 7 o'clock this morning but a later message was to the effect that she was in a dense fog so that it was not known when she will be in Halifax. She should be here on Sunday. The Lake Erie, Barcelona and Saturnia are expected on Monday and the Lake Champlain possibly on Sunday.

MARRIED AT SAND POINT

Young Belgian Brings Out Bride for Whom He Has Made Home in New Land

In the immigration shed at Sand Point today was recorded the closing chapter of a charming romance. At the noon hour, Rev. Dr. Hone, the Baptist chaplain, united in marriage Julius Flerick and Miss Marie Louise Dobbela, both of Belgium. They were passengers on the C. P. R. liner Montreal, that arrived here a few days ago, and their acquaintance dated back to childhood days.

With little prospect of much success in the old land, young Flerick decided to go to the United States and try his fortune. Accordingly he set out to New York and finally made his way further west till he landed in Chicago. He kept in communication with the fair Belgian maid, telling her of his progress in the new land, and both lived in anticipation of the event of today.

With sufficient saved for the purchase of steaming tickets for himself and the girl, Flerick took the steamer for Belgium and the return journey was made on the C. P. R. liner Montreal and today they were married.

THE HYDRO-ELECTRIC BILL

A meeting of the council of the board of trade was held this morning at 11 o'clock to discuss the provisions of the bill now before the legislature from the Hydro-Electric Co. The report of the committee appointed some time ago to look into the provisions of the bill was received and adopted and will be forwarded to the legislature. Objective is taken to some portions of the bill, mainly the sections relating to matters affecting the city which the board contends should have the consent and approval of the common council.

Spring Suits With Fit and Style That Will Commend Them To The Particular Dresser.

THE excellence of material, the fit, finish and price of the garments we are showing this spring represent far greater value than their prices indicate. Our range includes popular shades of Browns, Greys and Greens, made up in the newest known styles, with the particular attention to detail that is characteristic of all our clothing. We believe that every customer is entitled to honest clothes, honest treatment and an honest guarantee that every article bought will prove satisfactory in every way. USE A COMBINATION COAL AND GAS RANGE and you will have one of the most complete outfits to be found on the market

When you have one of our Combination Coal and Gas Ranges in your kitchen, you have a range that has been tried and proven before it was put on the market, you have two stoves in one and you can use one at a time or both together. By having the gas combined with the coal range, it greatly economizes space in the kitchen, giving you on your gas stove a large gas oven, broiling department under the oven and three gas burners on top.

Our gas combinations are in three different styles, and will fit any of our \$20 and \$30 Glenwood Ranges. If you intend burning gas this summer, you should see the Glenwoods before purchasing elsewhere.

Speaking of Spring Overcoats When There's a Chill in the Air

reminds us that all of April and some of the days of May are yet to come with chilly possibilities. Lots of pleasant days, of course, but it is easier to depend on the weather when you are prepared.

There's full dependence to be put upon the Spring Overcoats in the Oak Hall Men's Clothing Store. They will look good and be good, the day you wear them out of the store and will continue to remain in perfect shape.

The scheme of the present fashion is to give ample protection and warmth and yet with a look of lightness and airiness. The lighter colors help to complete this effect.

Young men seem to favor the rather light intermingled grays, some like the rough effects, others the smoother finishes.

Men's Spring Overcoats - \$7.50 to \$30.00
Men's New Spring Suits - \$5.00 to \$30.00
